PREFACE

This Report has been prepared for submission to the Governor of Tamil Nadu under Article 151 of the Constitution.

Chapter 1 of this report describes the basis and approach to the Report and the underlying data provides an overview of structure of government accounts, budgetary processes, macro-fiscal analysis of key indices and State's fiscal position including the deficits/ surplus for the year ended 31 March 2022.

Chapter 2 provides a broad perspective of the finances of the State, analyses the critical changes in major fiscal aggregates relative to the previous year, overall trends during the period from 2017-18 to 2021-22, debt profile of the State and key Public Account transactions, based on the Finance Accounts of the State.

Chapter 3 is based on the Appropriation Accounts of the State and reviews the appropriations and allocative priorities of the State Government and reports on deviations from Constitutional/codal provisions relating to budgetary management.

Chapter 4 comments on the quality of accounts rendered by various authorities of the State Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the State Government.

The Reports containing the findings of Performance Audit and audit of transactions in various departments and observations arising out of audit of Statutory Corporations, Boards and Government Companies and the Report containing observations on Revenue Receipts are presented separately.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

Fiscal Position

The fiscal position of the State is viewed in terms of three key fiscal parameters – Revenue Deficit/ Surplus, Fiscal Deficit/ Surplus and the ratio of Outstanding Debt to GSDP.

The revenue deficit increased from ₹ 21,594 crore in 2017-18 to ₹ 62,326 crore in 2020-21 and decreased to ₹ 46,538 crore in 2021-22. Since the revenue deficit has been on an increasing trend, it is unlikely that the State would achieve the target envisaged in TNFR Act, which is to eliminate revenue deficit by 2023-24.

The ratio of fiscal deficit to GSDP during the year stood at 3.96 per cent against the envisaged target of 3 per cent by 2023-24. As compared to the previous year, it decreased from ₹ 93,983 crore in 2020-21 to ₹ 81,835 crore in 2021-22.

The ratio of total outstanding debt to GSDP stood at 28.87 per cent at the end of 2021-22 slightly higher than 28.70 per cent, the target envisaged in the TNFR Act.

(Paragraphs 1.5 and 1.6.2)

Finances of the State

The State Government registered an increase of 19.20 per cent in its Revenue Receipts (₹ 2,07,492 crore) during 2021-22 compared to the previous year (₹ 1,74,076 crore).

(Paragraph 2.1)

The annual growth rate of own tax revenue during 2021-22 increased to 15.74 per cent as against a negative growth rate of (-) 1.22 per cent during the previous year. Own tax revenue as a percentage of GSDP of the State during 2021-22 was 5.95 per cent.

The non-tax revenue of the State increased by ₹ 1,695 crore (16.26 per cent) in 2021-22 over the previous year. As a proportion of the State's own resources, the non-tax revenue which stood at 8.94 per cent in 2020-21 marginally increased to 8.98 per cent in 2021-22.

(Paragraph 2.3.2.2)

Of the total expenditure of ₹ 2,94,682 crore during 2021-22, Revenue Expenditure (₹ 2,54,030 crore), Capital Expenditure (₹ 37,011 crore) and Loans and Advances (₹ 3,641 crore) accounted for 86.20 per cent, 12.56 per cent and 1.24 per cent respectively.

(Paragraph 2.4.1)

The committed expenditure increased from ₹ 1,18,061 crore in 2020-21 to ₹ 1,25,935 crore in 2021-22. But, as a percentage of revenue receipts,

committed expenditure decreased from 67.82 per cent in 2020-21 to 60.70 per cent in 2021-22.

(Paragraph 2.4.2.2)

With respect to the National Pension System, the State is yet to join the NPS and designate a Fund Manager in compliance with the PFRD Act. The Government had been incurring avoidable excess expenditure on payment of interest to the subscribers, as the yield from investment in LIC and T-Bills are much less than that of the GPF rate (the rate at which the State Government pays interest for NPS). During the year the Government had incurred an avoidable expenditure of ₹ 670.36 crore towards the differential amount of interest payment, which could have been averted had the Government opted for NPS and designated a fund manager where rates of return are much more. The subscribers, on the other hand, would have also been benefitted with more competitive interest rates, at least higher than the GPF rate of Tamil Nadu.

(Paragraph 2.4.2.3)

Subsidies consumed 10.45 per cent of State's revenue receipts. The total subsidies decreased (10.04 per cent) to ₹ 32,998 crore from ₹ 36,682 crore. Explicit subsidies decreased by 13.62 per cent (₹ 3,421 crore) during the year.

Implicit subsidies in the form of marriage assistance, maternity assistance, free supply of laptop, etc., marginally decreased by ₹ 263 crore during 2021-22 over the previous year. This amount was wrongly classified as Grants-in-aid instead of subsidies.

(Paragraph 2.4.2.4)

Government invested ₹ 42,167 crore (up to March 2022) in the share capital of statutory corporations, joint stock companies and co-operatives.

The average rate of return, increased marginally from 0.42 per cent in 2020-21 to 0.61 per cent during the current year. The return on investment was meagre compared to Government's average rate of borrowing of 7.50 per cent during the year.

(Paragraph 2.4.3.2)

The burden of interest payments (interest payments/revenue receipts) decreased from 20.97 per cent in 2020-21 to 20.03 per cent in 2021-22.

Out of the total borrowings of ₹ 1,04,485 crore, net debt available to the Government was only ₹ 41,132 crore due to repayment of public debt of ₹ 19,737 crore and interest payments of ₹ 35,521 crore.

(Paragraphs 2.7 and 2.7.1)

Budgetary Management

Supplementary Grants/ Appropriations were obtained without adequate justification, and large amounts were expended without budgetary provision. Despite flagging this issue every year over the last several years, the State Government had failed to take corrective measures in this regard.

In respect of 15 cases, a total expenditure of ₹ 37.93 crore was incurred without Final Modified Appropriation. No provision was made either in the original or supplementary or at re-appropriation stage. In 6 cases, a total expenditure of ₹ 2.26 crore was incurred without appropriation by the Legislature either in the Original or Supplementary estimates.

(Paragraphs 3.3.1.1 and 3.3.1.2)

Supplementary provisions of ₹ 50 lakh or more in each case aggregating ₹ 242.64 crore obtained in 59 cases, during the year 2021-22 proved unnecessary as the original provisions itself was not exhausted.

(Paragraph 3.3.4)

In respect of 26 Heads of Account, though an amount of ₹ 1,366.36 crore was available (Original and Supplementary), an additional amount of ₹ 53.00 crore was provided at re-appropriation stage which was unnecessary as the total expenditure in these cases were only ₹ 1,253.15 crore and well within the earlier provisions made.

(Paragraph 3.3.5)

Surrenders to the tune of ₹ 29,879.64 crore was made during the year 2021-22. Out of ₹ 11,739.35 crore (Net) surrendered on the last day (31 March 2022), 92 cases amounting to ₹ 12,387.29 crore were in excess of over ₹ 10 crore, indicating inadequate financial control.

(Paragraph 3.3.6.2)

Under 24 Grants/Appropriations there were persistent savings of more than five per cent of the total grant during the last five years. There was a persistent savings of more than 92 per cent under capital section during all the past five years in Grant 16 -Finance Department.

(Paragraph 3.3.6.4)

During the year, excess disbursements over grants/appropriations were made for ₹ 5.24 crore. This expenditure needs to be regularised. Besides, excess expenditure of ₹ 2,848.83 crore relating to 2014-21 was yet to be regularised.

(Paragraph 3.3.7.1 and 3.3.7.2)

Quality of Accounts & Financial Reporting Practices

During the period 2018-22, 70 per cent of the tax collected were not credited to the Government Accounts and were retained with TANGEDCO. The possibility of the amount being expended by TANGEDCO for its own purposes cannot be ruled out. Such non-remittance to the Government account and retaining the collected tax for such a long period is fraught with the risk of temporary misappropriation.

(Paragraph 4.1)

Withdrawals of the entire provisions (₹ 26.19 crore) made for the interest liabilities towards the 'interest bearing' deposits not only indicated poor budgetary control, but, also the non-discharge of interest liabilities continues to carry over the burden on to the future generations.

(Paragraph 4.2)

Non submission of Utilisation Certificates (UC) (₹ 803.29 crore) indicates the failure of the departmental officers to comply with the rules to ensure accountability besides defeating the intended objective of providing these Grants. This assumes greater importance if such UCs are pending against grants-in-aid meant for capital expenditure.

(Paragraph 4.4)

The non-adjustment of Temporary Advances involving substantial amounts (₹ 317.81 crore drawn and pending over a period of years) indicated laxity on the part of departmental officers in enforcing the codal provisions regarding adjustment of the advances.

(Paragraph 4.6)

There was a net difference (₹ 159.61 crore) in the closing balance for the year 2021-22 between the cash balance as per books of accounts of the Accountant General and the cash balance as reported by the Reserve Bank of India (RBI).

(Paragraph 4.11)

CHAPTER – 1

OVERVIEW

CHAPTER 1

OVERVIEW

1.1 Profile of Tamil Nadu

Tamil Nadu, with a geographical area of 1,30,058 Sq. Km is the 11th largest State in India. It comprises of 38 districts and 313 Taluks. As per the census 2011, the State's population was 7.21 crore, making it the seventh largest state in terms of population. Tamil Nadu is one among the leaders when it comes to social indicators. It has a Gross Enrolment Ratio (GER) of 51.4 *per cent* against All India GER 27.1 *per cent* in higher education. The literacy rate in Tamil Nadu as per 2011 census was 80.1 *per cent* against All India 73.0 *per cent*. Further details are provided in **Appendix 1.1**.

1.1.1 Gross State Domestic Product

Gross State Domestic Product (GSDP) is the value of all the goods and services produced within the boundaries of the State in a given period of time. Growth of GSDP is an important indicator of the State's economy, as it denotes the extent of changes in the level of economic development of the State over a period of time.

Changes in sectoral contribution to the GSDP is also important to understand the changing structure of economy. The economic activity is generally divided into Primary, Secondary and Tertiary sectors, which correspond to the Agriculture, Industry and Service sectors.

Table 1.1: Trends in GSDP compared to the National GDP

(₹ in crore)

Year	2017-18	2018-19	2019-20	2020-21	2021-22
GDP (2011-12 Series)	1,70,90,042	1,88,99,668	2,00,74,856	1,98,00,914	2,36,64,637
Growth rate of GDP over previous year (in <i>per cent</i>)	11.03	10.59	6.22	(-) 1.36	19.51
GSDP at current prices (2011-12 Series)	14,65,051	16,30,209	17,43,144	18,08,239	20,65,436
Growth rate of GSDP over previous year (in <i>per cent</i>)	12.47	11.27	6.93	3.73	14.22

Source: Central Statistical Office (CSO), Ministry of Statistics and Programme implementation.

The State's Gross Domestic Product (GSDP) in 2021-22 at current prices was 14.22 *per cent* as against India's growth rate of 19.51 *per cent*.

Chart 1.1: Change in sectoral contribution to GSDP (2017-18 to 2021-22)

(Source: Department of Economics and Statistics, Central Statistics Office)

During the five year period, the sectoral contribution of Agriculture Sector and Service Sector had increased by 0.62 per cent and 2.2 per cent respectively, there was a reduction of 1.69 percentage points in the Industry Sector. It is also to be noted that there was a considerable reduction in the Taxes on products minus the Subsidies on products from 9.18 per cent to 8.05 per cent.

Chart 1.2: Sectoral growth in GSDP

(Source of data: Department of Economics and Statistics, State Government)

From the chart above it is seen that, while there was a decrease in the sectoral growth of Agriculture sector in GSDP during the year 2021-22 when compared with the previous year, the sectoral growth with respect to Industries Sector and Service Sector has substantially gone up during 2021-22, which could be attributed to restart of economic activities post CoVID 19 period.

1.2 Basis and Approach to State Finances Audit Report

The State Finances Audit Report (SFAR) is prepared and submitted under Article 151 (2) of the Constitution of India. According to Article 151 (2) of the Constitution of India, the reports of the Comptroller and Auditor General of India relating to the accounts of a State are to be submitted to the Governor of the State, who shall cause them to be laid before the Legislature of the State.

Accountant General (Accounts & Entitlements) prepares the Finance Accounts and Appropriation Accounts of the State annually, from the vouchers, challans and initial and subsidiary accounts rendered by the treasuries, offices and departments responsible for keeping of such accounts functioning under the control of the State Government, and the statements received from the Reserve Bank of India. In Tamil Nadu, the Treasuries compile the accounts from the vouchers (primary compilation) which, along with the vouchers, are then furnished to Accountant General (A&E) for secondary compilation. These accounts are audited independently by the Principal Accountant General (Audit - I) and certified by the CAG.

Finance Accounts and Appropriation Accounts of the State for the year 2021-22 constitute the core data for this report. Other sources include the following:

- Budget of the State for the year 2021-22: for assessing the fiscal parameters and allocative priorities *vis-à-vis* projections, as well as for evaluating the effectiveness of its implementation and compliance with the relevant rules and prescribed procedures;
- Results of audit carried out by the Office of the Principal Accountant General (Audit-I), Tamil Nadu;
- Other data with Departmental Authorities and Treasuries (accounting as well as MIS),
- GSDP data and other State related statistics; and
- Various audit reports of the CAG of India.

The analysis is also carried out in the context of recommendations of the Finance Commission (FC), Tamil Nadu State Financial Responsibility and Budget Management Act (TNFR Act), best practices and guidelines of the Government of India. An entry conference was held with State Finance Department on 26 July 2022 and the exit conference was held on 8 December 2022.

Replies received from the Government during the exit conference have been incorporated suitably in the report wherever applicable.

1.3 Report Structure

The SFAR is structured into the following four Chapters:

Chapter – 1	Overview This Chapter describes the basis and approach to the Report and the underlying data provides an overview of structure of government accounts, budgetary processes, macro-fiscal analysis of key indices and State's fiscal position including the deficits / surplus.
Chapter – 2	Finances of the State This chapter provides a broad perspective of the finances of the State, analyses the critical changes in major fiscal aggregates relative to the previous year, overall trends during the period from 2017-18 to 2021-22, debt profile of the State and key Public Account transactions, based on the Finance Accounts of the State.
Chapter – 3	Budgetary Management This chapter is based on the Appropriation Accounts of the State and reviews the appropriations and allocative priorities of the State Government and reports on deviations from Constitutional provisions relating to budgetary management.
Chapter – 4	Quality of Accounts & Financial Reporting Practices This chapter comments on the quality of accounts rendered by various authorities of the State Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the State Government.

1.4 Overview of Government Account Structure and Budgetary Processes

Government Accounts are defined by the twin principles of Fund based accounting and functional classification of transactions of the Government. Fund based accounting system involves sourcing and allocating all receipts and disbursements to one of the three Funds, viz., Consolidated Fund, Contingency Fund and Public Account. These Funds are created by the Constitution and function as instruments of public accountability. The details and purpose of each of these Funds are as given below:

1. Consolidated Fund of the State (Article 266(1) of the Constitution of India)

This Fund comprises all revenues received by the State Government, all loans raised by the State Government (market loans, bonds, loans from the Central Government, loans from Financial Institutions, Special Securities issued to National Small Savings Fund, etc.), Ways and Means advances extended by the Reserve Bank of India and all moneys received by the State Government in repayment of loans. No money can be appropriated from this Fund except in accordance with law and for the purposes and in the manner provided by the Constitution of India. Certain categories of expenditure (e.g., salaries of Constitutional authorities, loan repayments etc.) constitute a charge on the Consolidated Fund of the State (Charged expenditure) and are not subject to vote by the Legislature. All other expenditure (Voted expenditure) is voted by the Legislature.

2. Contingency Fund of the State (Article 267(2) of the Constitution of India)

This Fund is in the nature of an imprest which is established by the State Legislature by law, and is placed at the disposal of the Governor to enable advances to be made for meeting unforeseen expenditure pending authorisation of such expenditure by the State Legislature. Expenditure from the Fund is recouped subsequently by debiting the expenditure to the concerned functional major head under the Consolidated Fund of the State. The corpus of this Fund in Tamil Nadu is ₹ 150 crore.

3. Public Accounts of the State (Article 266(2) of the Constitution of India)

Apart from the above, all other public money received by or on behalf of the Government, where the Government acts as a banker or trustee, are credited to the Public Account. The Public Account includes re-payables like Small Savings and Provident Funds, Deposits (bearing interest and not bearing interest), Advances, Reserve Funds (bearing interest and not bearing interest), Remittances and Suspense heads (both of which are transitory heads, pending final booking). The net cash balance available with the Government is also included under the Public Account. The Public Account is not subject to the vote of the Legislature.

There is a constitutional requirement in India (Article 202) to present before the House or Houses of the Legislature of the State, a statement of estimated receipts and expenditures of the Government in respect of every financial year. This 'Annual Financial Statement' (AFS) constitutes the main budget document. Further, the budget must distinguish expenditure on the revenue account from other expenditures.

Revenue receipts consists of tax revenue (Own Tax revenue plus share of Union Taxes / Duties), non-tax revenue and grants from Government of India.

Revenue expenditure consists of all those expenditures of the Government which do not result in creation of physical or financial assets. It relates to those expenses incurred for the normal functioning of the Government departments and various services, interest payments on debt incurred by the Government, and grants given to various institutions (even though some of the grants may be meant for creation of assets).

Capital receipts consist of Debt receipts and Non-debt receipts as explained below:

- **Debt receipts:** Market Loans, Bonds, Loans from financial institutions, Net transaction under Ways and Means Advances, Loans and Advances from Central Government, etc.;
- **Non-debt receipts:** Proceeds from disinvestment, Recoveries of loans and advances;

Capital expenditure includes expenditure on the acquisition of land, building, machinery, equipment, investment in shares, and loans and advances by the Government to PSUs and other parties.

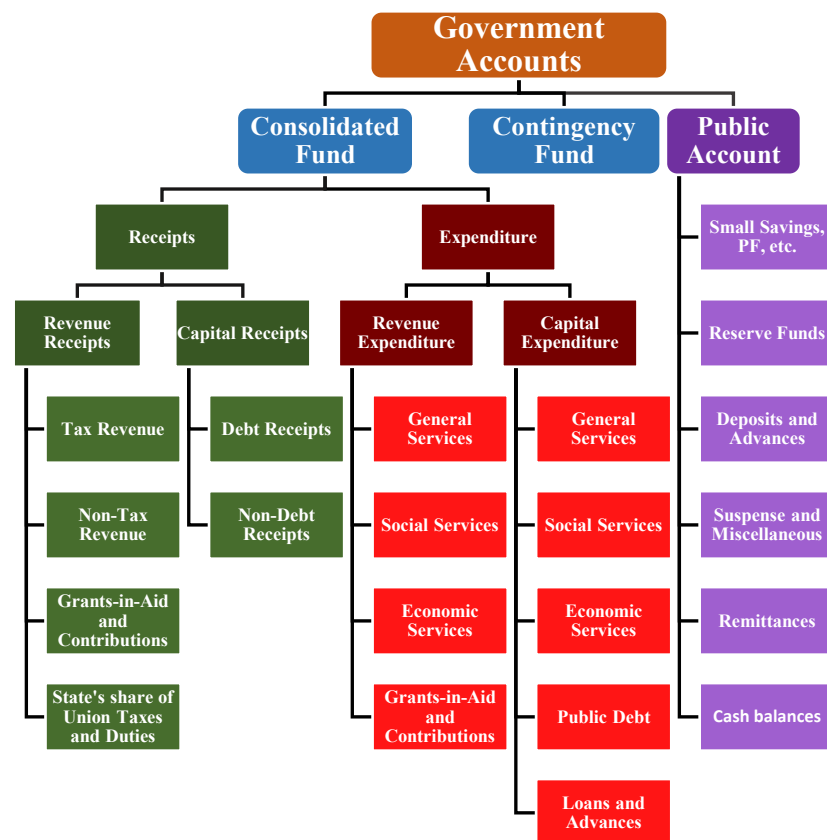

At present, we have an accounting classification system in Government that is both functional and economic.

	Attribute of transaction	Classification
Standardized in List of Major and Minor Heads (LMMH) by CGA	Function- Education, Health, etc.	Major Head under Grants (4-digit)
	Sub-Function	Sub Major head (2-digit)
	Programme	Minor Head (3-digit)
Flexibility left for States	Scheme	Sub-Head (2-digit)
	Sub scheme	Detailed Head (3-digit) - Salary, Maintenance etc.
	Economic nature/Activity	Object Head (2-digit) - Pay, Periodical maintenance, etc.

The functional classification lets us know the department, function, scheme or programme, and object of the expenditure. Economic classification helps organize these payments as revenue, capital, debt, etc. Economic classification is achieved by the numbering logic embedded in the first digit of 4-digit Major Heads. For instance, 0 and 1 is for revenue receipts, 2 and 3 for revenue expenditure, etc. Economic classification is also achieved by an inherent definition and distribution of some object heads. For instance, generally “Pay” object head is revenue expenditure, “Major Works” object head is capital expenditure. Object head is the primary unit of appropriation in the budget documents.

The structure of Government Accounts and the layout of Finance Accounts are shown in **Appendix 1.2**. The methodology adopted for assessment of the fiscal position of the State is given in **Appendix 1.3 - Part A**. The salient features of the TNFR Act, 2003, subsequently revised in June 2021, are given in **Appendix 1.3 - Part B**.

Structure of Government Accounts

Budgetary Processes

In terms of Article 202 of the Constitution of India, the Governor of Tamil Nadu caused to be laid before the State Legislature, a statement of the estimated receipts and expenditure of the State for the year 2021-22, in the form of an **Annual Financial Statement** (referred to as Budget) with estimates of expenditure

- charged upon the Consolidated Fund of the State;
- the sums required to meet other expenditure proposed to be made from the Consolidated Fund of the State; and shall distinguish expenditure on Revenue Account from other expenditure.

This 'Annual Financial Statement' (AFS) constitutes the main budget document. Further, the budget must distinguish expenditure on the revenue account from other expenditures.

In terms of Article 203, the above was submitted to the State Legislature in the form of 54 Demands for Grants/ Appropriations and two 'Other Publications' for Debt Charges and Public Debt repayments. After approval of these, the Appropriation Bill was passed by the Legislature under Article 204 to provide for appropriation of the required money out of the Consolidated Fund.

The State Budget Manual details the budget formulation process and guides the State Government in preparing its budgetary estimates and monitoring its expenditure activities. Results of audit scrutiny of budget and implementation of other budgetary initiatives of the State Government are detailed in **Chapter 3** of this Report.

* includes SGST ₹ 45,276 crore; ** includes CGST ₹ 10,308 crore; *** Compensation to State Government for Revenue losses on rollout of Goods and Services Tax ₹ 7,236 crore

Effective borrowings and other liabilities would be ₹ 73,740 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095 crore (₹ 6,241 crore during 2020-21) given to State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission.

^^ The revenue deficit of ₹ 46,538 crore and the fiscal deficit of ₹ 81,835 crore during the year 2021-22 may be read in conjunction with debt receipt of ₹ 8,095 crore in lieu of GST compensation.

1.4.2 Assets and liabilities of the Government

Government accounts capture the financial liabilities of the Government and the assets created out of the expenditure incurred. The liabilities consist mainly of internal borrowings, loans and advances from GoI, receipts from public account and reserve funds, and the assets comprise mainly the capital outlay and loans and advances given by the State Government and cash balances.

* Effective Loans and Advances would be ₹ 25,395 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095 crore in 2021-22 and ₹ 6,241 crore during 2020-21 given to the State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission.

There is significant increase in liabilities by 17.44 *per cent* during the year. However, if the back to back loan in lieu of GST compensation of ₹ 14,336 crore (₹ 8,095 crore in 2021-22 and ₹ 6,241 crore in 2020-21) were excluded as decided by the Finance Commission, the growth in liabilities reduces to 14.92 *per cent*.

1.5 Fiscal Indicators

Three key fiscal parameters, *viz.*, revenue, fiscal and primary deficits, indicate the extent of overall fiscal imbalances in the finances of the State Government during a specified period. The deficit in the Government Accounts represents the gap between its receipts and expenditure. Further, the ways in which the deficit is financed and the resources raised are applied as important pointers to its fiscal health. This section presents trends, nature, magnitude and the manner of financing these deficits and also the assessment of actual levels of revenue and fiscal deficits *vis-à-vis* targets set for the financial year 2021-22 under TNFR Act, 2003.

1.5.1 Fiscal trends

Charts 1.3 to 1.5 show that all three deficits have decreased but the debt/GSDP ratio was on an increasing trend from 22.29 per cent in 2017-18 and stood at 28.87 per cent in 2021-22 and exceeded the target of 28.70 per cent set in TNFR Act. The fiscal deficit to GSDP ratio decreased from the previous year and stood at 3.96 per cent during the current year.

* Effective loans and advances from Central Government would be ₹ 25.39 thousand crore during 2021-22 and ₹ 21.20 thousand crore during 2020-21

The State Government have passed the Fiscal Responsibility and Budget Management Act (FRBM) with the objective of ensuring prudence in fiscal management by eliminating revenue deficit, reducing fiscal deficit and keeping the overall/outstanding debt to acceptable levels, establishing improved debt management and improving transparency in a medium-term framework. The Act provides quantitative targets to be adhered by the State with regard to deficit measures and debt level.

The targeted timeline to eliminate revenue deficit and reduce fiscal deficit was extended by GoTN from time to time by amending the TNFR Act, 2003. In compliance with the provisions of TNFR Act, 2003, the State Government prepared a Medium-Term Fiscal Plan (MTFP) for the period 2021-22.

Major fiscal variables provided in the budget and as targeted in the TNFR Act, 2003 along with actuals thereof are given in **Table 1.4**

Table 1.4: Compliance with provisions of State TNFR Act

Fiscal Parameters	Fiscal targets set in the Act	Achievement

(Source: (i) TNFR Act; (ii) Budget Speech -2021-22 and (iii) Finance Accounts for the respective years)

* The back-to-back loan of ₹ 8,095 crore (₹ 6,241 crore during 2020-21) received from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

- The State Government amended the TNFR Act, 2003 in June 2021 to extend the time limit to eliminate revenue deficit by 2023-24 and to maintain the ratio of fiscal deficit to GSDP as not more than three per cent by 31 March 2024.

In the Exit Conference, Additional Chief Secretary, Finance Department, requested to revise the percentage of Fiscal Deficit to GSDP as 3.57 per cent as back to back loan of ₹ 8,095 crore did not form part of public debt.

The back to back loan was booked under the major head 6004 – Public Debt. Hence, it cannot be treated as revenue receipts and percentage of fiscal deficit to GSDP remains at 3.96 per cent.

It is observed that the state has improved itself in all three variables viz., Revenue Deficit, Fiscal Deficit and Primary Deficit, however, still above the TNFR act levels. Actual performance when compared to target set in MTFP is given in **Table 1.5**.

Table 1.5: Actuals vis-à-vis projection in MTFP for 2021-22

9	Debt-GSDP ratio (per cent)	28.70	28.87*	0.17
10	GSDP growth rate at current prices (per cent)	23.36	14.22	(-) 9.14

(Source: (i) MTFP, (ii) Finance Accounts and GSDP figures from Central Statistics Office)

* The back-to-back loans (₹ 8,095 crore during the current year and ₹ 6,241 crore during 2020-21) received from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

** Tax devolution of Central Taxes during 2021-22 includes release of short devolved share in Central Taxes of ₹ 3,224.59 crore for the period from 1996-97 to 2017-18

It may be seen from the table that there was a significant drop in receipts under Own tax revenue, Non-tax revenue and Grants-in-aid from GoI than that anticipated in the MTFP projection for the year 2021-22. With respect to own tax revenue and non-tax revenue, the projection made in MTFP in 2020-21 (own tax revenue : ₹ 1,41,186 crore and non-tax revenue : ₹ 13,993 crore) was also not achieved during the year 2021-22.

1.6 Deficits and Total Debt after examination in audit

This section gives an overview of the impact of the audit findings on various fiscal parameters based on the analysis of the Finance and Appropriation Accounts.

1.6.1 Post audit - Deficits

(i) Scrutiny of transactions during the year revealed that, revenue deficit and fiscal deficit were affected by certain accounting adjustments as detailed in Table 1.6:

Table 1.6: Under/Over statement of Revenue and Fiscal Deficit

Particulars	Impact on Revenue Deficit (Understated (+) / overstated (-)) (₹ in crore)	Impact on Fiscal Deficit (Understated (+) / overstated (-)) (₹ in crore)
Incorrect adjustment of recoveries of capital expenditure under Revenue Section	(+) 10.79	--
Interest on interest bearing Reserve Funds and Deposits not credited (State Compensatory Afforestation Fund)	(-) 3.80	(-) 3.80
Previous years receipt accounted this year due to non-reporting of agency banks to PAO during the respective years	(+) 374.95	(+) 374.95
Non reporting of Interest receipt from Investment of DCPS in LIC	(-) 1,995.50	(-) 1,995.50
Total	(-) 1613.56	(-) 1,624.35

(Source: Finance Accounts)

The fiscal deficit of the state during the year would increase from ₹ 81,834.54 crore to ₹ 83,458.89 crore. The resultant impact would be an increase of 0.08 *per cent* over the actual 3.96 *per cent* fiscal deficit to GSDP ratio depicted in the accounts.

Further scrutiny of certain transactions during 2021-22 revealed that there was short contribution to Consolidated Sinking fund (₹ 1,874.58 crore), short contribution to Guarantee Redemption Fund (₹ 18,070.33 crore). This also impacted the Revenue Deficit and Fiscal Deficit to that extent.

1.6.2 Post audit – Total Outstanding Debt

Analysis of the total outstanding debts / liabilities of the State Government in terms of (i) debt as a percentage of GSDP and (ii) rate of growth of outstanding Government debts are detailed in **Table 1.7** below:

Table 1.7: Total outstanding debts / liabilities

	2017-18	2018-19	2019-20	2020-21	2021-22
Total outstanding debts/ liabilities	3,26,518	3,68,736	4,23,743	5,18,796*	6,10,667*
Rate of growth of outstanding debts (in <i>per cent</i>)	15.22	12.93	14.92	22.43*	17.71*
Ratio of total outstanding debt to GSDP (in <i>per cent</i>)	22.29	22.62	24.31	28.35**	28.87**

(₹ in crore)

(Source: Finance Accounts for the respective years)

* Effective total outstanding debt would be ₹ 5,12,555 crore in 2020-21 and ₹ 5,96,331 crore in 2021-22 as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore given during the year and ₹ 6,241 crore given during 2020-21 to the State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission. The effective rate of growth would stand at 16.34 *per cent* in 2021-22 and 20.96 *per cent* in 2020-21.

** The back-to-back loan of ₹ 8,095.25 crore received during the year and ₹ 6,241 crore received during 2020-21 from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

The effective outstanding debt grew by 16.34 *per cent* over previous year (actual growth is 17.71 *per cent*). Considering the capital expenditure of only ₹ 40,652 crore during the year and the high fiscal deficit, it is indicative that the borrowing during the year was utilised for financing the revenue expenditure. To the extent of reduced capital formation, debt acts as ‘burden’ on future generations.

The debt/GSDP ratio (28.87 *per cent*) exceeded the target of ‘not being more than 28.70 *per cent* as per MTFP and if outstanding off-budget borrowing of ₹ 27,669.88 crore is included to the total outstanding liabilities, the ratio of total outstanding debt to GSDP will increase to 30.21 *per cent* i.e., by 1.34 *per cent* during the year.

In the Exit Conference, ACS stated that the TNEB would be in a better position in future as the tariff had been increased recently. With respect to percentage of outstanding liabilities to GSDP, ACS stated that it would be looked into.

1.7 Conclusion

Deficit indicators, revenue augmentation and expenditure management are major yardsticks for judging the fiscal performance of the Government.

Fiscal position: The revenue deficit decreased from ₹ 62,326 crore during 2020-21 to ₹ 46,538 crore during the current year (25.33 *per cent* decrease) mainly due to increase in share of net proceeds of ₹ 12,534 crore (50.29 *per cent*). The revenue deficit had increased from ₹ 21,594 crore in 2017-18 to ₹ 62,326 crore in 2020-21 and decreased to ₹ 46,538 crore in 2021-22. Existence of revenue deficit is a cause of concern as revenue receipts were not able to meet even the revenue expenditure leading to increased borrowings.

The ratio of fiscal deficit to GSDP during the year stood at 3.96 *per cent* indicating an improvement of 1.24 percentage point compared to 2020-21. However, the ratio of total outstanding debt to GSDP stood at 28.87 *per cent*, at the end of 2021-22 slightly higher than 28.70 *per cent*, the target envisaged in the TNFR Act.

The significant changes that occurred during 2021-22, as compared to the previous year are enumerated in the succeeding sub paragraphs.

- **Revenue receipts** of the State increased by 19.20 *per cent* (₹ 33,416 crore) over the previous year. However, it was noticed that an amount of ₹ 4,139 crore received during the year relates to previous years. In the year 2020-21, revenue receipts included an amount of ₹ 4,321 crore, which related to release of GST compensation for the period 2017-18. Then, the actual revenue receipts growth would be 19.79 *per cent* when these amounts are excluded.
- **Revenue expenditure** increased by ₹ 17,628 crore (7.46 *per cent*) over the previous year mainly due to increased interest payment on market loans and Grants for waiver of agricultural loans availed by Co-operative Institutions from NABARD.
- **Capital expenditure** increased by 11.92 *per cent* (₹ 3,943 crore) during 2021-22 over the previous year, as compared to the growth rate of 29.01 *per cent* in 2020-21 over 2019-20. Major increases were under Urban Development (₹ 3,997.05 crore – 89.69 *per cent*), Civil Aviation

(₹ 917.66 crore – 215.14 per cent) and Power Projects (₹ 442.39 crore – 100 per cent)

- **Public Debt Receipts i.e., borrowings** increased by ₹ 1,618 crore (1.57 per cent) over the previous year.
- **Recoveries of loans and advances** during the year increased by ₹ 110 crore (2.09 per cent). The recoveries include conversion of TANGEDCO's loan of ₹ 4,563 crore as grants-in-aid under UDAY scheme during the year through book adjustments. Thus, the actual recoveries of loans and advances during the year was ₹ 792 crore as against ₹ 682 crore received during the previous year.
- **Loans and advances** disbursed during the year decreased by ₹ 194 crore (5.07 per cent) from the previous year.
- **Public Account receipts and disbursements** increased by ₹ 61,979 crore (18.44 per cent) and by ₹ 60,567 crore (18.74 per cent) respectively. Net receipts under Public Account increased by ₹ 1,411 crore over the previous year.
- The net impact of these transactions led to an increase of ₹ 17,313 crore in the **cash balance** at the end of the year over the previous year. The cash balance increased by 31 per cent against an increase of 11 per cent during 2020-21.

2.3 Resources of the State

The resources of the State are described below:

1. **Revenue receipts** consist of tax revenue (Own Tax revenue plus share of Union Taxes / Duties), non-tax revenue and grants from Government of India (GoI).
2. **Capital receipts** comprise miscellaneous capital receipts such as proceeds from disinvestments, recoveries of loans and advances, debt receipts from internal sources (market loans, borrowings from financial institutions/commercial banks) and loans and advances from GoI. Both revenue and capital receipts form part of the Consolidated Fund of the State.
3. **Net Public Accounts receipts:** These are receipts and disbursements in respect of certain transactions such as small savings, provident fund, reserve funds, deposits, suspense, remittances, etc. which do not form part of the Consolidated Fund. These are kept in the Public Account set up under Article 266 (2) of the Constitution and are not subject to vote by the State Legislature. Here, the Government acts as a banker. The balance after disbursements is the fund available with the Government for use.

2.3.1 Receipts of the State

Revenue and Capital are the two streams of receipts that constitute the resources of the State Government. Besides, the fund available in the Public Account (net of disbursement made from it) is also utilised by the Government to finance its deficit.

Composition of receipts of the State during 2021-22

* Effective Loans and Advances from GoI would be ₹ 5,547 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore given to State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission. As a result, the effective Public Debt receipts would be ₹ 96,390 crore

The total resources of the State Government in 2021-22 were ₹ 3,31,732 crore. Of these, revenue receipts were ₹ 2,07,492 crore, which constituted 62.55 per cent of total resources. Capital receipts (₹ 1,09,840 crore) and net Public Account receipts (₹ 14,400 crore) constituted 33.11 per cent and 4.34 per cent of the total resources respectively.

2.3.2 State's Revenue Receipts

Statement-14 of the Finance Accounts details the revenue receipts of the Government. The revenue receipts consist of the State's own taxes and non-tax revenues, central tax transfers and grants-in-aid from GoI.

2.3.2.1 Trends and growth of Revenue Receipts

The composition of revenue receipts, its trends and growth as well as revenue buoyancy with respect to GSDP over the five-year period are depicted in the **Table 2.4** below.

Table 2.4: Trend in Revenue Receipts

(Source of GSDP at current prices: Department of Economics and Statistics, Central Statistics Office)

- Revenue receipts of the State increased by 19.20 *per cent* (₹ 33,416 crore) over the previous year. However, it was noticed that an amount of ₹ 4,139 crore during the year relates to previous year. In the year 2020-21, revenue receipts included an amount of ₹ 4,321 crore, which related to release of GST compensation for the period 2017-18. Then, the actual revenue receipts growth would be 19.79 *per cent* when these amounts are excluded.
- The Revenue expenditure increased by 7.46 *per cent*. The annual growth rate of revenue receipts during 2021-22 was 19.20 *per cent* as against a negative growth rate of 0.26 *per cent* during the previous year.
- Revenue buoyancy with reference to GSDP increased to 1.35 during the current year from (-) 0.07 during the previous year.

² Buoyancy ratio indicates the elasticity or degree of responsiveness of a fiscal variable with respect to a given change in the base variable. For instance, revenue buoyancy with respect to GSDP at 1.85 implies that Revenue Receipts tend to increase by 1.85 percentage points, if the GSDP increases by one *per cent*

2.3.2.2 State's Own Resources

State's own resources comprises of revenue from its own tax and non-tax sources, the details of which are discussed in the following paragraphs.

Own Tax revenue

Own tax revenues of the State consist of State GST, State excise, taxes on vehicles, Stamp duty and Registration fees, Land revenue, taxes on goods and passengers, etc. The growth of own tax revenue is given in **Chart 2.4**.

(Source: Finance Accounts for the respective years)

- The annual growth rate of own tax revenue during 2021-22 increased considerably to 15.74 per cent as against a negative growth rate of (-) 1.22 per cent during the previous year.
- Own tax revenue as a percentage of GSDP of the State during 2021-22 was 5.95 per cent as compared to its neighbouring States of Karnataka and Kerala which were 7.01 per cent and 6.47 per cent respectively.
- There were significant increases under State Goods and Service Tax (19.33 per cent), Taxes on Sales, Trade, etc. (11.91 per cent), Taxes on

Vehicles (23.38 *per cent*) and Stamps and Registration Fees (22.75 *per cent*).

State Goods and Services Tax (SGST)

As per the GST (Compensation to States) Act, 2017, States will be compensated for the shortfall in revenue arising on account of implementation of the goods and services tax considering an annual growth of 14 *per cent* from the base year, for a period of 5 years. The centre levies the Integrated GST (IGST) on interstate supply of goods and services, and apportions the share of tax to the State where the goods or services are consumed.

GoTN implemented the Goods and Services Tax (GST) Act with effect from 1 July 2017. According to GST (Compensation to the States) Act 2017, Central Government will compensate the States' for loss of revenue arising on account of implementation of GST for a period of five years. The compensation payable to the State shall be calculated for every financial year after the receipt of final revenue figure, as audited by the CAG of India. A base year (2015-16) revenue figure of taxes subsumed under GST was finalised under GST Act. In Tamil Nadu, the revenue realised through the taxes, since now subsumed into GST, was ₹ 29,786.36 crore during the base year (2015-16). The revenue to be protected for any year was to be calculated by applying a growth rate of 14 *per cent* per annum.

The projected revenue for the year 2021-22 in accordance with the base year figure was ₹ 65,380.24 crore (₹ 29,786.36 crore x 1.14 x 1.14 x 1.14 x 1.14 x 1.14 x 1.14). Revenue figures under GST for the year 2021-22 has been depicted in Finance Accounts as per nature of receipts i.e., State Goods and Services Tax (SGST), Input Tax Credit cross utilisation of SGST and IGST, Apportionment of IGST - transfer-in Tax and interest component to SGST and Advance apportionment from IGST. The revenue receipts of the State Government under GST *vis-à-vis* the projections during the period 2021-22 is given in **Table 2.6**.

Table 2.6: Projected and actual receipt on implementation of GST Act

(₹ in crore)

Period	Projected revenue*	Total tax collected	Compensation	Total including compensation
April 2021 to March 2022	65,380.24	45,276.49	7,235.80	52,512.29

* Projected based on a growth rate of 14 *per cent*
(Figures excluding refunds, as worked out by GoTN)

As seen from table above, against the projected revenue of ₹ 65,380.24 crore for 2021-22, the receipt was ₹ 52,512.29 crore under the new tax regime. The State also received back-to-back loan of ₹ 8,095.25 crore from GoI, under debt receipts.

The State received total compensation of ₹ 15,331.05 crore on account of loss of revenue arising out of the implementation of GST during 2021-22. Out of this, ₹ 7,235.80 crore was received by the State as grants under revenue receipts.

However, due to inadequate balance in GST compensation fund during the year 2021-22, the State also received back-to-back loan of ₹ 8,095.25 crore under debt receipts of the State Government with repayment obligations from the cess collected in GST compensation Fund and not from any other resources of the State. Due to this arrangement, the revenue deficit of ₹ 46,538 crore and the fiscal deficit of ₹ 81,835 crore during the year 2021-22 may be read in conjunction with debt receipt of ₹ 8,095.25 crore in lieu of GST compensation.

Further, few components of receipts under CST, VAT & Sales Tax, Entertainment Tax, Betting Tax, Entry Tax, Cess & Surcharge (on Sugarcane), Excise Duty on Medicinal Toilet preparation, etc., which are not subsumed into GST would be aggregated to the GST receipts above for the calculation of compensation to be paid.

Non-tax revenue

Non-tax revenue consists of interest receipts, dividend and profits, mining and other departmental receipts etc. Details are given in **Table 2.7** below:

Table 2.7: Components of State's non-tax revenue

Revenue Head	2017-18	2018-19	2019-20	2020-21	2021-22	Sparkline

Percentage of non-tax revenue to State's own resources	10.30	11.86	10.71	8.94	8.98	

(Source: Finance Accounts for the respective years)

- The non-tax revenue of the State increased by ₹ 1,695 crore (16.26 per cent) in 2021-22 over the previous year. As a proportion of the State's own resources, the non-tax revenue which stood at 8.94 per cent in 2020-21 marginally increased to 8.98 per cent in 2021-22.

2.3.2.3 Transfers from the Centre

The trend of transfers from Centre for a period of 10 years (2012-2022) is given in **Chart 2.5** below:

Chart 2.5: Trends in transfers from Centre

(Source: Finance Accounts for the respective years)

The Central tax transfers increased considerably by ₹ 12,534 crore (37.35 per cent) during the current year. This included an amount of ₹ 3,224.59 crore received during the year related to short devolved share in Central Taxes for the period from 1996-97 to 2017-18.

The details of State's share of Union taxes and duties, components of central tax transfers and grants-in-aid from GoI are given in **Tables 2.8 to 2.10**.

- The actual devolution of State's share of Union taxes and duties was greater than the projections made by the Fifteenth Finance Commission (XV FC) during 2021-2022 by ₹ 10,595 crore mainly due to the release of short devolved share in Central Taxes of ₹ 3,224.59 crore for the period from 1996-97 to 2017-18.
- The growth rate of State's share of net proceeds (Central tax transfers) increased considerably by 50.29 per cent in 2021-22, which resulted in

a considerable increase of revenue receipts and thereby impacting the fiscal indicators positively.

- There was an increase in growth rate of all the components thereby contributing considerably to the increase of revenue receipts by 19.20 per cent during the year.

* Effective Loans and Advances from GoI would be ₹ 5,547.13 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore given to State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission.

Chart 2.6: Growth of capital receipts

(Source: Finance Accounts for the respective years)

- The recoveries of loans and advances during 2021-22 included the conversion of TANGEDCO's loan of ₹ 4,563 crore as grants-in-aid under UDAY scheme.
- Public Debt receipts increased from ₹ 1,02,867 crore during 2020-21 to ₹ 1,04,485 crore³ in 2021-22. Market loans under internal debt decreased by ₹ 977 crore.

2.3.4 State's performance in mobilization of resources

State's performance in mobilization of resources is assessed in terms of its own resources comprising own-tax and non-tax sources.

Tax and non-tax receipts *vis-à-vis* projections

The State's own tax and non-tax revenue receipts for the period 2017-22 *vis-à-vis* assessment made by Finance Commission and Budget are given in **Chart 2.7**.

³ Effective Public Debt receipts would be ₹ 96,389.74 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore given to the State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission

Chart 2.7: Tax and non-tax receipts vis-à-vis projections

State's own tax revenue receipts and non-tax revenue receipts during 2021-22 fell short of the target fixed under XV FC and Budget.

2.4 Application of resources

The State Government is vested with the responsibility of incurring expenditure within the framework of fiscal responsibility legislations, while at the same time ensuring that the ongoing fiscal correction and consolidation process of the State is not at the cost of expenditure directed towards development of capital infrastructure and social sector. This section gives the analysis of allocation of expenditure in the State.

2.4.1 Growth and composition of expenditure

The details of total expenditure, its composition, relative share of various sectors, trends, etc. are given below in **Tables 2.13, 2.14** and **Charts 2.8 to 2.10**

2.4.2 Revenue Expenditure

Revenue expenditure is incurred to maintain the current level of services and payment for the past obligation. As such, it does not result in any addition to the State's infrastructure and service network.

Revenue Expenditure formed on an average 86.62 per cent (ranging from 86.27 per cent in 2017-18 to 86.20 per cent in 2021-22) of the total expenditure during the period 2017-22. Rate of growth of Revenue Expenditure has displayed wide fluctuation during the five-year period 2017-22 between 6.71 per cent and 17.47 per cent, while in 2021-22 it being 7.46 per cent. The overall Revenue Expenditure, its rate of growth, its ratio to Total Expenditure and buoyancy vis-à-vis GSDP and Revenue Receipts are indicated in **Table 2.15** and the sectoral distribution of Revenue Expenditure pertaining to 2021-22 is given in **Chart 2.11**.

(Source: Finance Accounts)

- During 2021-22, the Revenue Expenditure witnessed an increase of ₹ 17,628.24 crore (7.46 per cent) during the year as against an increase of 12.34 per cent during the previous year. This was mainly due to increase of ₹ 5,368.55 crore and ₹ 5,067.18 crore towards Co-operation (Major Head 2425) and Interest Payments (Major Head 2049) during the year. As a percentage of GSDP the Revenue Expenditure decreased from 13.07 per cent in 2020-21 to 12.30 per cent during the current year.
- The actual Revenue Expenditure was short of the assessment made in MTFP by ₹ 13,919 crore (5.19 per cent). The component-wise breakup is given in the subsequent paragraphs.

2.4.2.1 Major changes in Revenue Expenditure

Table 2.16 details significant variations under various Heads of Account with regard to Revenue Expenditure of the State during the current year and the previous year.

(Source: Finance Accounts)

- Revenue Expenditure on Relief on account of Natural Calamities was mainly due to the COVID-19 pandemic. During the year, GoTN received ₹ 505.24 crore from the Central Government towards relief measures relating to COVID-19 pandemic and incurred an expenditure of ₹ 9,584.11 crore under Major Heads 2071, 2075, 2210, 2211, 2235 and 2245, which included an expenditure of ₹ 9,223.33 crore spent under Heads of Account ‘2245-80-800-AJ’ – Livelihood support to tackle COVID-19 lockdown – cash support to Rice family cardholders (₹ 8,392.76 crore) and ‘2245-80-800-AH’ – Disaster preparedness / preventive measures to contain the outbreak of Covid-19 (₹ 830.57 crore) respectively (**Appendix 2.2**)
- Interest payments increased by 14 *per cent* due to increased payment towards internal debt. While during 2020-21, the internal debt repayment had reduced by 10 *per cent*, it substantially increased by 24 *per cent* in 2021-22.

2.4.2.2 Committed Expenditure

The committed expenditure of the State Government on revenue account consists of interest payments, expenditure on salaries and wages and pensions. It has first charge on Government resources. Upward trend on committed expenditure leaves the Government with lesser flexibility for development sector.

Table 2.17: Components of Committed Expenditure

- Though the expenditure on pensions decreased marginally by ₹ 542 crore due to the enhancement of the age of retirement to 60 years⁴, the committed expenditure (₹ 1,25,935 crore) increased by ₹ 7,874 crore mainly due to the increase in interest payments by ₹ 5,067 crore.
- The expenditure on interest payments stood at 20.03 *per cent* of the total revenue receipts (₹ 2,07,492 crore) of the State during 2021-22, as against 20.97 *per cent* during 2020-21. As a percentage of revenue expenditure, interest payments increased from 15.44 *per cent* in 2020-21 to 16.36 *per cent* during the current year.

2.4.2.3 Avoidable Expenditure under National Pension System

The Government of Tamil Nadu did not join National Pension system and designate any Fund Manager and had continued to invest the DCPS contributions in LIC and T-Bills, the return on which are 5.47 and 4.29 per cent respectively. The State Government pays interest to the subscribers at the GPF rate which is 7.10 per cent and since the rate of return from LIC and T-Bills are less, the differential amount is being borne by the State Government. During 2021-22, the Government has paid ₹ 670.36 crore being the differential amount, which is absolutely avoidable and poses a burden on the State's Revenue Resources. Had the Government joined NPS and designated fund managers, the subscribers would have been benefitted with more returns, at least higher than 7.10 per cent.

GoTN launched Defined Contributory Pension Scheme (DCPS) for its employees from 1 April 2003. The scheme was applicable to all new entrants joining State Government Service on or after 2003. Under this system, employees contribute 10 per cent basic pay and dearness allowance, which is matched by the State Government and both employer's and employee's contribution are initially transferred to the Public Account (Major Head '8342-117- Defined Contributory Pension Scheme').

DCPS accounts of individual Government employees⁵ are maintained by Government Data Centre (GDC). Every year GDC calculates the interest due at the notified rates and credits the interest to the DCPS Account of individual Government employee.

The expenditure on Pension and other Retirement benefits during the year in respect of State Government employees recruited on or before 31 March 2003 was ₹ 26,249.95 crore which is 10.33 per cent of total Revenue Expenditure of ₹ 2,54,030.42 crore.

On creation of National Pension System (NPS) architecture, Pension Fund Regulatory and Development Authority (PFRDA) requested (2008 and 2009) GoTN to join NPS. GoTN declined (2010) to join NPS architecture and initially cited non-enactment of PFRDA Act by parliament, to justify its decision to continue with the existing system of retaining pension fund money in Public Account of the State.

The State Government even after a lapse of 19 years since inception of the DCPS, did not join NPS and designate the fund manager. Instead, out of total amount of ₹ 53,462.93 crore in the Fund as on 31 March 2022, an amount of ₹ 36,510.00 crore was invested under "New Group Superannuation Scheme with Cash Accumulation Plan" with Life Insurance Corporation of India. It was further observed that there was no agreement / MOU between GoTN and LIC and therefore, the interest earned on investments in LIC are based on the LIC's own policies (5.47 per cent) and are much less than the interest paid to the

⁵ Including employees of Local Bodies and aided educational institutions.

accounts holders by the Government which is 7.10 *per cent* i.e. the GPF interest rate. Out of the balance amount of ₹ 16,952.93 crore, an amount of ₹ 11,803.19 crore stands invested in Treasury Bills as of 31 March 2022.

The interest on investment in LIC amounting to ₹ 4,754.63 crore (₹ 1,128.65 crore during 2019-20, ₹ 1,630.48 crore during 2020-21 and ₹ 1,995.50 crore during 2021-22) has been reinvested in LIC though the related book adjustments have not been incorporated into the accounts by the State Government. Thus, the interest which has to be credited in the Government account under the Major Head 0049 was not credited, thereby resulting in understatement of Revenue Receipts to that extent.

During the year 2021-22, the employees' and the Government's contributions towards DCPS were ₹ 2,916.26 crore and ₹ 2,870.08 crore respectively. An amount of ₹ 3,172.71 crore was credited to the DCPS Fund as interest by allocating provision under MH 2049 – Interest payments, by the State Government during the year. The interest on DCPS had increased from ₹ 1,714.87 crore in 2017-18 to ₹ 3,172.71 crore in 2021-22.

During the year 2021-22, the Government earned an interest/average yield of 5.47 *per cent* (₹ 1,995.50 crore) and 4.29 *per cent* (₹ 506.85 crore) on investment of DCPS fund in LIC and in T-Bills respectively. However, the interest paid to individual account holders during the period was 7.10 *per cent* (₹ 3,172.71 crore), the rates being at par with the interest paid to GPF subscribers.

Further, it has also been observed that over a period of five years, the interest burden had increased by 85 *per cent* and as compared to previous year, it increased by 16 *per cent*. CAG's Report No. 13 of 2020 (Union Government) has a mention on the average rate of return from investment with the designated fund managers, which was between 9.50 *per cent* and 9.91 *per cent* for employees of both State and Central Government. In Tamil Nadu, the State Government is only earning interest at the rate of 5.47 *per cent* from LIC and 4.29 *per cent* from Treasury Bills and in order to pay the interest rate at 7.10 *per cent* to the subscribers, the additional average interest burden of 2.22 *per cent* is being borne by the State Government from its own resources, which is an avoidable extra expenditure on the part of the Government. This has, thus, resulted in an avoidable additional burden to the Government to the tune of ₹ 670.36 crore⁶. During the last year, the avoidable interest payment liability was ₹ 726.25 crore. Had the State Government joined NPS, the avoidable excess burden could have been averted and the subscribers would have also received interest on the total contribution at much higher rates, at least higher than the GPF rate of 7.10 *per cent* as is being now paid by the State Government.

Thus, an imprudent decision of GoTN in not joining NPS and designating a fund manager in accordance with the PFRD Act, had led to incurring avoidable extra

⁶ ₹ 3,172.71 crore - ₹ 1,995.50 crore - ₹ 506.85 crore = ₹ 670.36 crore

expenditure since inception of NPS and this avoidable excess financial burden has been mounting up year after year, thus, impacting the State’s Revenue Expenditure and the fiscal prudence to that extent is severely compromised with by the State Government.

On being pointed out by Audit, ACS stated that an Expert Committee was constituted by GoTN to examine the feasibility of implementing the demand of continuing the old pension scheme and to make recommendation on the possible option to Government for appropriate decisions. The Committee had submitted its report to Government on 27 November 2018, which was under examination. Besides, in the Exit Conference, ACS stated that Government has not yet taken a policy decision on investing the funds through fund manager under PFRDA.

Similar observation was also featured in CAG’s Report No.1 of 2022, Government of Tamil Nadu, where the avoidable interest payment was ₹ 726.25 crore. The Government has not yet taken any corrective measures.

2.4.2.4 Subsidies

Subsidies are dispensed not only explicitly and booked under the object head ‘subsidies’, but also implicitly⁷ by providing subsidised public service to the people. The subsidies extended during the period 2017-22, as a *per cent* of Revenue Receipts and Revenue Expenditure are detailed in the **Table 2.18** below:

Table 2.18: Expenditure on subsidies during 2017-22

(Source: Detailed Appropriation Accounts of the respective years)

The total subsidies decreased (10.04 per cent) to ₹ 32,998 crore from ₹ 36,682 crore. Explicit subsidies decreased by 13.62 per cent (₹ 3,421 crore) during the year. The schemes under “other subsidies” (₹ 5,210 crore) include ₹ 910 crore expenditure under Central Assistance Schemes mainly towards Agricultural Sector and Fisheries.

Implicit subsidies in the form of marriage assistance, maternity assistance, free supply of laptop etc., marginally decreased by ₹ 263 crore during 2021-22 over the previous year. This amount was wrongly classified as Grants-in-aid instead of subsidies.

2.4.2.5 Recoveries under ‘Minor Head – 911’

As per Paragraph 3.10 under General Directions of ‘List of Major and Minor Heads of Account of Union and States’ (LMMH) issued by the Controller General of Accounts (CGA), recoveries of overpayments pertaining to previous year(s) shall be recorded under distinct minor head 'Deduct- Recoveries of Overpayments' (code '911') below the concerned major/sub-major head

‘without affecting the gross expenditure under the functional Major/Sub-Major Head in the Appropriation Accounts’.

During the year, an unspent amount of ₹ 814.68 crore, under 591 heads of account, relating to previous years was remitted into the Government account under the minor head “911 - Recoveries of overpayment”. This included ₹ 9.93 crore under 24 Schemes and ₹ 25.46 crore under 31 Schemes of Wholly Centrally Sponsored Schemes and Central Schemes Shared between Centre and States respectively. Out of 591 schemes, more than one crore remittances relating to previous years were made under 55 schemes (**Appendix 2.3**). This includes huge remittances under three major schemes viz., “Interest Subsidy to Co-operative Institutions towards reduced Interest for crop loans to the farmers” (₹ 187.81 crore), “Reimbursement of fee claimed as per the provision of section 12(1)(c) of Right of Children to Free and Compulsory Education Act, 2009” (₹ 104.88 crore) and Grants to Sports Development Authority of Tamil Nadu for conducting Sports Competitions (₹ 90.40 crore).

It is noticed that under the scheme “Interest Subsidy to Co-operative Institutions towards reduced interest for crop loans to the farmers”, even during 2020-21 an amount of ₹ 137.80 crore was remitted into the Government account under the minor head 911.

This indicates that the actual expenditure was not only inflated in the accounts during the year of drawl, but also inflated the revenue expenditure and revenue deficit to that extent during that period, apart from giving a wrong depiction of expenditure against these schemes.

Further, unspent balances to the tune of ₹ 287.44 crore pertaining to previous years for which the original heads of account of expenditure could not be ascertained were booked under the head of account 0070-60-800 – ₹ 287.44 crore, which would have increased the remittances to ₹ 1,102.12 crore during the year and Revenue Receipts should have been decreased to that extent of ₹ 287.44 crore.

State Finance Commission

Article 243-I and 243-Y of the Constitution of India makes it mandatory to the State Government to constitute a Finance Commission within one year of the commencement of the 73rd & 74th constitutional amendment act and thereafter on expiry of every five years. The mandate of the State Finance Commission is to review the financial position of local bodies and submitted its report and recommendations to Hon’ble Governor of Tamil Nadu and Hon’ble Chief Minister. The State has constituted five SFCs and Action Taken Note on all SFCs have been placed in the Assembly. The details of constitution of the SFCs are as below:

Table 2.21: Details of constitution of SFCs

2.4.3 Capital expenditure

Capital Expenditure (Capex) is primarily expenditure on creation of fixed infrastructure assets such as roads, buildings, etc. Capex is being met from budgetary support and extra budgetary resources/off budget. In recent times, the infrastructure requirements have increased manifold and Special Purpose Vehicles (SPV) have been set up to carry out bulk of Capex.

During the year, the Government incurred ₹ 37,011 crore towards Capex, which increased by ₹ 3,943 crore (11.92 *per cent*) over the previous year. As a percentage of Total Expenditure, the increase was a meagre 0.46 *per cent* over the previous year. The trend in Capital expenditure during the period 2017-22 is shown in the **Chart 2.13** below.

Chart 2.13: Capital expenditure in the State

(Source: Finance Accounts for the respective years)

2.4.3.1 Major changes in Capital Expenditure

The major changes in Capital expenditure during 2021-22 compared to 2020-21 is given in **Table 2.23** below.

Table 2.23: Major changes in Capital Expenditure

(₹ in crore)

Major Head	Description	2021-22	2020-21	Increase (+) / Decrease (-)

4700	Capital Outlay on Major Irrigation	2,131.46	3,405.42	(-) 1,273.96

(Source: Finance Accounts for the respective years)

The increase under ‘4217 – Capital Outlay on Urban Development’ was mainly due to expenditure incurred under sub major heads ‘State Capital Development’ – ₹ 1,608 crore (increase of 217.03 per cent) and ‘Other Urban Development Schemes’ – ₹ 4,731 crore (increase of 120.17 per cent) respectively. The increase under ‘5053 – Capital Outlay on Civil Aviation’ was mainly towards ‘Aerodromes’ – ₹ 1,344 crore (increase of 215.13 per cent)

2.4.3.2 Quality of capital expenditure

In the post-Fiscal Responsibility and Budget Management framework, the State is expected to keep its fiscal deficit not only at low levels but also eliminate revenue deficit and meet its capital expenditure/investment (including loans and advances) requirements from its own sources of revenue. In addition, the State Government is required to initiate measures to earn adequate returns on its investments and recover its cost of borrowed funds rather than bearing the same on its budget in the form of implicit subsidies. This section presents the broad financial analysis of investments and other capital expenditure undertaken by the Government during the current year *vis-à-vis* previous years.

Quality of investments in the companies, corporations and other bodies

As per Finance Accounts 2021-22, the State Government as of March 2022 had invested ₹ 42,166.64 crore in one Statutory Corporation, 57 Government Companies, two Joint Stock Companies and various Co-operatives.

The details of investments made by the Government is given in **Table 2.24** below:

Table 2.24: Details of Investment made by the Government

Sl. No	Description	Number of entities	Investment at the end of the year (₹ in crore)
1	Tamil Nadu Warehousing Corporation	1	3.81

4	Co-operative Institutions	*	487.29
	Total	60*	42,166.64

The average rate of return on these investments was a meagre 0.45 *per cent* in the last five years (2017-18 to 2021-22) while the average rate of interest paid by the Government on its borrowings during the same period was 7.50 *per cent*.

The investments at the end of the year and the details of return on investment for the period 2017-22 is given in **Table 2.25**.

Table 2.25: Return on Investment

(Source: Finance Accounts of the respective years)

During 2021-22, State Government invested ₹ 693.05 crore in State Transport Corporations (₹ 688.05 crore) and Tamil Nadu Salt Corporation (₹ 5 crore).

Investments made in loss making companies

Capital expenditure in the companies, corporations and other bodies, which are loss making or where net worth has completely eroded is not sustainable. Investments made and loan given to Companies, Corporations and Co-operatives, which are loss making and those where 'net worth' is completely eroded, affect quality of capital expenditure.

The investment made in loss making PSUs are in the form of equity shares. While the investment was ₹ 712.54 crore during 2017-18, it has come down to ₹ 427.73 crore in 2021-22, although there was an increase in the investment by 6 per cent as compared to 2020-21. Cumulatively, as of March 2022, the Government invested ₹ 6,857.42 crore in 25 loss making Companies / Corporations, out of which ₹ 263.58 crore was invested in four loss making Companies during the current year, whose net worth had eroded as on 31 March 2022 as given in **Table 2.26** below:

(Source: Data collected from commercial audit wing and Finance Accounts)

The Government had invested ₹ 25,375.93 crore in Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO) whose net worth as on 31 March 2021 was (-) 93,209.77 crore.

The tripartite agreement between Tamil Nadu, TNEB and Central Government stated that if TANGEDCO failed to pay any amount due to purchasing company, the amount will be debited in the State Government accounts by RBI based on the instruction of Central Government. Scrutiny of Accounts revealed that during 2021-22, RBI did not debit any amount from the State Government towards payment of TANGEDCO suppliers. The liability as on 31 March 2022 towards power purchase was ₹ 8,251.34 crore.

Investments made in companies which were loss making and those where net-worth had eroded, affected the quality of capital expenditure.

In the Exit Conference, the ACS (Finance) assured to look into this aspect.

Difference in figures of Government and PSUs

There were differences in respect of 21 companies / Corporations as reflected in Section 2 - Statement 19 of Finance Accounts (**Appendix 2.4**). The major differences in investments made by the Government (as per Statement 16 of Finance Accounts) and PSUs were observed under (i) Tamil Nadu Power Finance and Infrastructure Development Corporation, (ii) Tamil Nadu State Transport Corporation (Coimbatore) Limited and (iii) Chennai Metro Rail Limited.

The Government and the PSUs should take concrete steps to reconcile the differences.

Quantum of loans disbursed and recovered during last five years

In addition to the investments in Co-operative Societies, Corporations and Companies, Government has also been providing loans and advances to many of these institutions/organisations.

Table 2.27 presents the outstanding loans and advances as on 31 March 2022 and interest receipts *vis-à-vis* interest payments during the last five years.

Implementation of Ujwal Discom Assurance Yojana (UDAY)

The Ministry of Power, Government of India (GoI) had launched (November 2015) the Ujwal Discom Assurance Yojana (UDAY) Scheme for the financial turnaround of Power Distribution Companies (DISCOMs).

With an objective to improve the operational and financial efficiency of the State DISCOMs, a tripartite Memorandum of Undertaking (MoU) was executed between Ministry of Power (GoI), concerned State Government and State Power Distribution Companies. This scheme facilitated State Governments to take over 75 *per cent* of DISCOM's outstanding debt over a period of two years.

The Government of Tamil Nadu raised loans to the extent of ₹ 22,815.00 crore during February-March 2017 by issuing Non-Statutory Liquidity Ratio Bonds (Non-SLR) through RBI Nagpur.

The assistance to the extent of ₹ 22,815 crore was treated as 'Loan' by the State Government. Tamil Nadu State Government converted the interest free loan

into grant (total 5 equal instalments) commencing from the year 2017-18 by appropriating funds for ₹ 4,563 crore and carried out necessary book adjustments. The outstanding loan has been totally adjusted after converting the interest free loan into grant during 2017-18, 2018-19, 2019-20, 2020-21 and 2021-22.

The details of outstanding loan amount and converted as Grant under UDAY during the period 2016-17 to 2021-22 is shown in **Table 2.28**.

2.4.4 Expenditure priorities

Enhancing human development levels requires the States to step up their expenditure on key social services like education, health, etc. Low fiscal priority (ratio of expenditure under a category to aggregate expenditure) is attached to a particular sector, if the allocation is below the respective national average. The higher the ratio of these components to total expenditure, the quality of expenditure is considered to be better. Expenditure priority of the State with regard to Health, Education and Capital expenditure are shown in **Table 2.29** below:

Table 2.29: Expenditure priorities

(in per cent)

Fiscal Priority of the State	AE/ GSDP	CE/AE	Capital outlay on Education/ AE	Capital outlay on Health/ AE
General States (2021-22)	15.84	14.41	0.37	0.63
Tamil Nadu	14.26	13.80	0.17	0.85
Karnataka	12.76	19.92	0.58	0.98
Kerala	18.10	10.44	0.30	0.19

AE: Aggregate Expenditure, CE: Capital Expenditure, (Source: For GSDP: Central Statistics Office)

- The percentage of AE to GSDP was low as compared to Kerala but more than the state of Karnataka.
- The Capital outlay on Education as a percentage of AE during the year was lower than the states of Karnataka and Kerala.
- The Capital outlay on Health as a percentage of AE was higher than Kerala but lower than Karnataka.

2.4.5 Object head wise expenditure

The Object head wise expenditure during the year is depicted in **Chart 2.14** below.

Chart 2.14: Object head wise expenditure

(in per cent)

(Source: Finance Accounts)

- While 44.15 per cent of the total revenue and capital expenditure was incurred towards salaries & allowances, pensionary payments and interest commitments, investments made during the year was a meagre 0.95 per cent and the expenditure on major works stood at 10.11 per cent, indicating that nearly half of the expenditure was towards committed expenditure.

2.5 Public Account

Receipts and Disbursements in respect of certain transactions such as Small Savings, Provident Funds, Reserve Funds, Deposits, Suspense, Remittances etc., which do not form part of the Consolidated Fund, are kept in the Public Account set up under Article 266(2) of the Constitution and are not subject to vote by the State Legislature. The Government acts as a banker in respect of these accounts. The balance after disbursements during the year is the fund available with the Government for use for various purposes.

2.5.1 Net Public Account Balances

The component-wise net balances in Public Account of the State is given in Table 2.30 below.

Table 2.30: Component-wise net Public Account balances as of 31 March of the year

- The public account liability of the Government decreased by 3.91 per cent from ₹ 55,720.69 crore in 2020-21 to ₹ 53,541.65 crore in 2021-22.
- The net decrease in public account was mainly due to increase in cash balance investment.
- The major contribution to the public account was from ‘small savings, provident fund, etc’.

2.5.2 Reserve Funds

Reserve Funds are created for specific and defined purposes under the Public Account of the State Government. These funds are met from contributions or grants from the Consolidated Fund of the State.

The total accumulated balance as on 31 March 2022 under Reserve Funds was ₹ 11,287.91 crore (includes ₹ 113.42 crore in interest bearing Reserve Funds and ₹ 11,174.49 crore under non-interest-bearing Reserve Funds). Some of the major Reserve Funds are discussed below.

2.5.2.1 Consolidated Sinking Fund

The State Governments have set up the Sinking Fund in line with the recommendations of the Twelfth Finance Commission (XII FC) for amortization of market borrowings as well as other loans and debt obligations. The fund is managed by the Reserve Bank of India

The State Government has created a Consolidated Sinking Fund (CSF) in 2005-06 for amortisation of Open Market Loans, Government of India Loans and Special Securities issued to National Small Savings Fund availed of by the State Government. The fund is managed by the Reserve Bank of India. As per the Notification in Tamil Nadu Gazette, the Government may contribute at the rate of 0.5 *per cent* of the outstanding liabilities as at the end of the previous year, to CSF. During the year, the State Government contributed ₹ 582.20 crore to the Fund, which works out to only 0.11 *per cent* of the outstanding liabilities (internal debt + public account) of ₹ 4,91,355.69 crore as on 1 April 2021. Thus, there was a short contribution of ₹ 1,874.58 crore (₹ 2,456.78 crore minus ₹ 582.20 crore)

As on 31 March 2022, CSF had a balance of ₹ 8,070.69 crore. The interest earned on the investments made during the year was ₹ 309.48 lakh.

Due to the increased trend in the liabilities, the Government may initiate contributing the requisite amount as prescribed in the Act.

2.5.2.2 State Disaster Response Fund

Government of India replaced the erstwhile Calamity Relief Fund with the State Disaster Response Fund (SDRF) with effect from 1 April 2010. In terms of the guidelines of the Fund, the Centre and States are required to contribute to the Fund in a certain proportion. The contributions are to be transferred to the Public Account to Major Head – 8121. Expenditure during the year is incurred by operating Major Head – 2245.

The State Governments are required to pay interest to the SDRF at the rate applicable to overdrafts under overdraft Regulation Guidelines of the RBI. The interest is to be credited on a half yearly basis. The accretions to the SDRF together with the income earned on the investment of SDRF is to be invested in Central Government dated Securities, auctioned Treasury Bills and other interest earning deposits with Scheduled Commercial Banks.

The SDRF is to be used only for meeting the expenditure for providing immediate relief to the victims of a disaster and the provision for disaster preparedness, restoration, reconstruction and mitigation should not be a part of SDRF. Such expenditure has to be built into the normal budgetary heads/ State Plan Funds, etc.

During the year 2021-22, the State Government transferred ₹ 1,088 crore to SDRF Account towards natural calamities (Central share of ₹ 816 crore and State Share of ₹ 272 crore)

The details of expenditure charged to SDRF is given below in **Table 2.31**.

Table 2.31: Details of expenditure charged to SDRF

(Source: Finance Accounts)

The State Government spent ₹ 9,704.44 crore during the year which includes ₹ 9,181.97 crore expenditure towards relief measures and preparedness relating to CoVID 19 pandemic, which was much more than the amount transferred to the Fund (₹ 1,088 crore). Hence, the balance in the Fund was 'Nil' as on 31 March 2022.

2.5.2.3 Guarantee Redemption Fund

The Guarantee Redemption Fund (GRF) was constituted in March 2003 for meeting the expenditure incurred towards discharging the guarantees invoked and is administered by the Reserve Bank of India. As per the guidelines of the GRF scheme in Tamil Nadu, the State Government is to contribute an amount equivalent to atleast 1/5th of the outstanding invoked guarantee and amount likely to be invoked as a result of the incremental guarantees issued during the year. .

During the year, the Government contributed ₹ 324.75 crore as against ₹ 18,395.08 crore, leading to short contribution of ₹ 18,070.33 crore to the fund during the year. The closing balance as on 31 March 2022 as ₹ 1,145.73 crore out of which ₹ 1,008.49 crore was invested in treasury bills. The gain on sale of securities during the year was ₹ 28.92 crore. No guarantees were invoked during 2021-22.

2.6 Debt management

Debt management is the process of establishing and executing a strategy for managing the Government's debt in order to raise the required amount of funding, achieve its risk and cost objectives, and to meet any other sovereign debt management goals that the Government may have set through enactment or any other annual budget announcements.

Trend analysis of outstanding debt (includes internal debt of the State Government, loans and advances from GoI and Public Account liabilities) and in terms of debt as a percentage of GSDP for the period 2017-18 to 2021-22 is given in **Chart 2.16**.

Chart 2.16: Trend of outstanding debt

(Source: Finance Accounts for the respective years)

* Effective outstanding debt would be ₹ 5,96,331 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 14,336 crore (₹ 8,095.25 crore in 2021-22 and ₹ 6241 crore in 2020-21) given to the State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission. [^] The back-to-back loan ₹ 14,336 crore (₹ 8,095.25 crore in 2021-22 and ₹ 6,241 crore in 2020-21) received from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

2.6.1 Off budget borrowings

TNFR Act, 2003 defines total liabilities as “the liabilities under the Consolidated Fund of the State and the Public Account of the State”. However, the borrowings made by the Corporation(s)/ Agencies for implementing various State Plan programmes, for which the State Government has undertaken to repay the principal and interest are not captured in the Finance Accounts of the

State. These borrowings add to the liabilities of the State indirectly. The details of such outstanding borrowings are given in **Table 2.32** below:

Table 2.32: Details of outstanding off-budget borrowings

(₹ in crore)

Sl. No	Name of the Agency	Off-budget borrowings as of 31 March 2021	Off-budget Borrowings during the year	Borrowings repaid by Government during the year	Off-budget borrowings as of 31 March 2022
1	Tamil Nadu Rural Housing and Infrastructure Development Corporation	411.63	--	38.60	373.03
2	Water and Sanitation Pooled Fund – Tamil Nadu Urban Infrastructure Financial Services Limited	220.77	35.08	16.68	239.17
3	Tamil Nadu Water Supply and Drainage Board	1.59	--	1.14	0.45
4	Tamil Nadu Water Resources Conservation and River Restoration	34.43	594.88	--	629.31
5	TANGEDCO	14,700.49	11,727.43	--	26,427.92
	Total	15,368.91	12,357.39	56.42	27,669.88

(Source: Budget documents and Finance Accounts)

Though the repayment of principal and interest is made through the budget, the outstanding off-budget borrowings of ₹ 27,669.88 crore do not form part of the outstanding debt liability (₹ 6,10,667 crore) of the Government as on 31 March 2022. As they are not depicted in the Finance Accounts, there is lack of transparency in the actual outstanding borrowings of the Government at the end of year and hence true picture of the liability of the Government cannot be ascertained through books of accounts.

The repayments by the Government in respect of the above Agencies are done from the accumulations in the Guarantee Redemption Fund. During 2021-22, as against the estimated receivable Guarantee Fees of ₹ 1,733.90 crore, Guarantee Fees received by the Government was ₹ 295.89 crore. Thus, there was a short collection of Guarantee Fees to the tune of ₹ 1,438.01 crore. Since the Government had been repaying the borrowings of the Boards/Company/Corporation, there is an urgent need for the Government to initiate measures to ascertain that the guarantee fees are collected fully, failing which there would be an adverse impact on the revenue deficit and fiscal deficit in the coming years and such liabilities would become the direct liabilities of the State Government.

2.6.2 Debt profile: Components

Total debt of the State Government typically constitutes internal debt of the State (market loans, ways and means advances from RBI, special securities issued to National Small Savings Fund and loans from financial institutions, etc.), loans and advances from the Central Government and Public Account Liabilities. The component-wise debt trends is given in **Table 2.33** and breakup of outstanding debt at the end of 2021-22 is shown in **Chart 2.17**.

Table 2.33: Component wise debt trends

* Effective Loans and Advances from GoI would be ₹ 25,395 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore in 2021-22 and ₹ 6,241 crore in 2020-21 given to State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission

[^] The back-to-back loan received (₹ 8,095.25 crore during 2021-22 and ₹ 6,241 crore during 2020-21) from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

** Effective Total Debt Receipts would be ₹ 2,40,900.75 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 8,095.25 crore given to the State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission. As a result, the effective total debt available would stand at ₹ 83,775.75 crore.

* Effective Loans from GoI ₹ 25,395 crore; [^] Effective Overall Debt ₹ 5,96,331 crore

- The internal debt of the Government increased by 16.86 per cent from ₹ 4,29,748 crore at the end of 2020-21 to ₹ 5,02,205 crore at the end of 2021-22.

- During the year 2021-22, Open Market Loans were raised through the RBI by the State Government to the extent of ₹ 35,500 crore by re-issue of existing Government Securities which has resulted in allowing discount amount of ₹ 762.97 crore.

2.6.3 Debt profile: Maturity and Repayment

Debt maturity and repayment profile indicates commitment on the part of the Government for debt repayment or debt servicing. The details of debt and the debt repayment period is shown in **Table 2.36** and **Chart 2.21**.

2031-32	34,100.00	2,396.15	36,496.15

(Source: Finance Accounts)

Over the period of the next ten years, the above trend indicates that the State's repayment of outstanding market loans along with interest shows a fluctuating trend. The State's liability on account of interest would be ₹ 27,664.70 crore and the liability towards principal amount of market loan would be ₹ 3,65,948.78 crore over the next 10 years.

2.7 Debt Sustainability Analysis (DSA)

Debt sustainability is defined as the ability of the State to service its debt in the current and future years. DSA considers the feasibility of meeting debt related

financial obligations during a period beginning with the present and is a crucial aspect for assessing the financial health of an economy. A high level of debt raises number of challenges. A high debt level is generally associated with higher borrowing requirements and therefore, a higher risk of rollover crisis (being unable to fulfil borrowing requirements or being able to do so at high interest rates).

The trends in debt sustainability indicators for the period 2017-18 to 2021-22 is shown below in **Table 2.38** and **Chart 2.23**.

Table 2.38: Trends in debt Sustainability indicators

(Source: Finance Accounts for the respective years) *Outstanding Public Debt is the sum of outstanding balances under the heads 6003-Internal Debt and 6004- Loans and Advances from the Central Government. Effective outstanding public debt during 2021-22 would be ₹ 5,27,600 crore after excluding the back-to-back loan of ₹ 8,095 crore in 2021-22 and ₹ 6,241 crore in 2020-21.

#Net debt available to the State Government is calculated as excess of 'Public debt' receipts over Public debt repayment and interest payment on Public Debt and does not include back to back loan.

^s Quantum Spread = {Previous year fiscal liability (Debt Stock) * Interest spread (GSDP growth rate – Average Interest paid)} / 100

Chart 2.23: Trends of Debt Sustainability indicators

(Source: Finance Accounts for the respective years) * Excluding the back-to-back loan of ₹ 8,095 crore in 2021-22 and ₹ 6,241 crore in 2020-21

Effective outstanding public debt would be ₹ 5,27,600 crore as the Department of Expenditure, GoI had decided that GST compensation of ₹ 6,241 crore and ₹ 8,095 crore given to the State, during 2020-21 and 2021-22 respectively, as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission and therefore, the ratio of effective outstanding public debt to GSDP would be 25.54 per cent.

- A sustainable fiscal policy is one where the debt to GSDP ratio is stable or declining over a period of time. However, from the above it could be seen that the debt to GSDP ratio is on an increasing trend which means higher levels of debt which in turn leads to higher deficits.
- The ratio of interest payments to revenue receipts has decreased marginally to 20.03 per cent. If significant portion of borrowed funds are used for repayment of borrowings and interest thereon, the net debt available with the State for developmental activities is curtailed.

2.7.1 Utilisation of borrowed funds

Borrowed funds should ideally be used to fund capital creation and developmental activities. Using borrowed funds for meeting current consumption and repayment of interest on outstanding loans is not sustainable. The trends in the utilisation of borrowed funds during the period 2017-18 to 2021-22 is shown in **Table 2.39** and **Chart 2.24**.

Table 2.39: Utilisation of borrowed funds

- 44.05 per cent of the borrowed funds was utilised for revenue expenditure.
- Borrowings increased marginally (1.57 per cent) during the year due to a steep increase (19.20 per cent) in revenue receipts.

2.7.2 Status of Guarantees – Contingent Liabilities

Guarantees are liabilities contingent on the Consolidated Fund of the State in case of default by the borrower for whom the guarantee has been extended. The State Governments have come out with legislations or instructions with regard to cap on the guarantees.

As per Article 293 of the Constitution of India, limits for giving guarantees by the State Government have to be fixed by the State Legislature. Tamil Nadu Fiscal Responsibility Act 2003, prescribes a cap on total outstanding guarantees to 100 per cent of total Revenue Receipts of the preceding year or 10 per cent of Gross State Domestic Product (GSDP), whichever is lower and cap on risk weighted guarantees to 75 per cent of total Revenue Receipts of the preceding year and 7.5 per cent of GSDP, whichever is lower.

The total outstanding guarantees of the State Government were ₹ 91,975.39 crore as on 31 March 2022. This constituted 52.84 per cent of the total revenue receipts of 2020-21 (₹ 1,74,076.30 crore) and 4.45 per cent of the GSDP (₹ 20,65,436 crore at current prices). No guarantee was invoked during the year. Further, as against the estimated receivable Guarantee Fees of ₹ 1,733.90 crore, Guarantee Fees received by the Government was ₹ 295.89 crore. Thus, there was a short collection of Guarantee Fees to the tune of ₹ 1,438.01 crore.

The details of outstanding amount of guarantees including interest for the period 2017-18 to 2021-22 is given below in **Chart 2.25**.

2.7.3 Management of Cash Balances

As per the agreement with the Reserve Bank of India, Tamil Nadu State has to maintain a minimum daily cash balance of ₹ 3.25 crore with the Bank. If the balance falls below the agreed minimum on any day, the deficiency is made

good by taking ordinary Ways and Means Advances (WMA)/Special Ways and Means Advances (SWMA)/Overdrafts (OD) from time to time. The limit for Ordinary Ways and Means Advances to the State Government is ₹ 3,601 crore with effect from 31 March 2022. The limit of Special ways and Means Advances is revised by the Bank from time to time. State Government invests its surplus cash balance in short and long-term GoI Securities and Treasury Bills. The profits derived from such investments are credited as receipts under the head '0049-Interest Receipts'. The cash balances are invested in the Consolidated Sinking Fund and Guarantee Redemption Fund as well.

The State Government maintained the minimum daily cash balance with the RBI during 2021-22 and no WMA/ SWMA/ OD was availed during the year.

The details of cash balance and their investments during the year 2021-22 is shown in **Table 2.40** below:

Cash Balances (and its investments) of the State Government at the end of the current year increased by ₹ 17,313 crore from ₹ 55,073 crore in 2020-21 to ₹ 72,386 crore in 2021-22.

The State Government has earned an interest of ₹ 121 crore during 2021-22 from the investments made in GoI Securities and Treasury Bills. Out of the investment of ₹ 57,215 crore in earmarked funds, ₹ 7,748.22 crore was invested

in the Consolidated Sinking Fund and ₹ 1,008.49 crore in Guarantee Redemption Fund at the end of the year.

The trends of cash balance investment account of the Government and market loans availed *vis-à-vis* the cash balances during the period 2017-18 to 2021-22 are shown in **Table 2.41** and **Chart 2.26** and the month wise movement of cash balances and net cash balance investments during the year is shown in **Chart 2.27**.

The trend analysis of the cash balance investment of the State Government during 2017-22 revealed that investment increased significantly during 2017-18. However, the investment which was on a reducing trend and was ₹ 5,622 crore at the end of the 2020-21, increased significantly and stood at ₹ 14,876 crore during the current year. The Government paid interest at an average rate of 7.11 *per cent* towards outstanding public debt where as it earned average yield of 4.29 *per cent* on investment of treasury bills.

Chart 2.26 compares the balances available in the Cash Balance Investment Account and the Market Loans taken by the State during the period 2017-22. Market Loans were taken at higher interest rates whereas investment in Treasury Bills yielded interest at lower rates.

A positive 'net cash balance investment' denotes that during the month the Government had invested that amount in Treasury Bills (MH 8673) and a negative 'net cash balance investment' indicates that the Government has credited back into Government Account from the TB by way of Maturity or Discount during the month.

2.8 Conclusion and recommendations

State's Own Resources:

Own tax revenue: The annual growth rate of own tax revenue during 2021-22 was 15.74 per cent.

Own tax revenue as a percentage of GSDP of the State during 2021-22 was 5.95.

Non-tax revenue: The non-tax revenue of the State increased by ₹ 1,695 crore in 2021-22 over the previous year. As a proportion of the State's own resources, the non-tax revenue which stood at 8.94 per cent in 2020-21 increased marginally to 8.98 per cent in 2021-22.

State's performance in mobilization of resources: State's own tax revenue receipts and non-tax revenue receipts during 2021-22 fell considerably short of the target fixed under XV FC, Budget and MTFP.

Recommendation: The Government should take steps to collect the arrears of revenue and strengthen the machinery for detection of evasion of taxes.

(Paragraphs 2.3.2.2 and 2.3.4)

Revenue expenditure: Rate of growth of Revenue Expenditure has displayed wide fluctuation during the five-year period 2017-22 between 9.58 per cent in

2017-18 to 7.46 per cent in 2021-22. During 2021-22, Revenue Expenditure witnessed an increase of ₹ 17,628 crore over the previous year, and as a percentage of GSDP decreased from 13.07 per cent in 2020-21 to 12.30 per cent during the current year.

Capital expenditure increased by 11.92 per cent during the year. As a percentage of GSDP, Capital expenditure decreased to 1.79 per cent during the current year as against 1.83 per cent during 2020-21. During the year, Government had invested ₹ 263.58 crore in loss making companies/corporations, whose net-worth had eroded as of March 2022.

Recommendation: Government should commission an independent third party assessment of its investments in loss making PSUs to take appropriate decisions on the need for continued investment in these.

(Paragraphs 2.4.1 and 2.4.3)

National Pension System: The State Government has not yet joined NPS and designated a fund manager. The Government has earned an interest/average yield of 5.47 per cent and 4.29 per cent on investment of DCPS fund in LIC and in T-Bills respectively. However, the interest paid to individual account holders during the period was 7.10 per cent, the rates being at par with the interest paid to GPF subscribers. Non-constitution of a fund manager had resulted in avoidable additional burden to the Government to the tune of ₹ 670.36 crore (at an average interest rate of 4.88 per cent) alone in 2021-22, which is being paid from the Government's own resources. The year on year interest burden has also been on an increasing trend. Had the Government been joined NPS and designated fund manager in accordance with the PFRD Act, the Government could have avoided paying the additional interest and the subscribers would have been benefitted with interest rate ranging between 9.50 per cent and 9.91 per cent from the designated fund managers instead of 7.10 per cent. Thus, an imprudent decision taken by the Government of Tamil Nadu in not joining NPS and designating a fund manager in accordance with the PFRD Act, has led to incurring avoidable extra expenditure (₹1,296.61 crore since 2020-21) and this avoidable excess burden has been mounting up year after year.

Recommendation: Government should consider appointing a Fund Manager to ensure better returns.

(Paragraphs 2.4.2.3)

CHAPTER – 3
BUDGETARY
MANAGEMENT

3.1 Budget Process

The annual exercise of budgeting is a means for detailing the roadmap for efficient use of public resources. The Budget process commences with the issue of the Budget Circular, normally in August each year, providing guidance to the Departments in framing their estimates for the next financial year. A typical budget preparation process in the State is given in the flow chart below:

CSS: Centrally Sponsored Schemes; CS: Central Schemes; EAP: Externally Aided Projects

The Finance Bill, Annual Financial Statement (Budget), and Demands for Grants are mandated by Articles 199, 202 and 203 of the Constitution of India respectively.

Article 202 of the Constitution of India requires laying of a statement of the estimated receipts and expenditure of the State for that year, as the "Annual Financial Statement" before the House of the Legislature of the State. The Annual Financial Statement should show expenditure charged on consolidated fund and other expenditure separately. It shall also distinguish expenditure on revenue account from other expenditure.

3.1.1 Summary of total provisions, actual disbursement and savings/excess during 2021-22

A summarised position of total budget provision, disbursement and saving/excess with its further bifurcation into voted/charged during the year 2021-22 is given below in **Table 3.1**.

Table 3.1: Summarised position of Budget

(₹ in crore)

* 0.66 crore

(Source: Appropriation Accounts)

The overall savings of ₹ 30,383 crore shown above, when offset by excess of ₹ 5 crore in certain grants/appropriations, works out to net savings of ₹ 30,378 crore.

The total amount approved by the State Legislature including the original and supplementary budgets and expenditure during the year 2021-22 is depicted below in **Chart 3.1**.

3.1.2 Charged and Voted disbursements

The details of total voted and charged disbursement and savings/excess for the five-year period from 2017-18 to 2021-22 are given below in **Table 3.2**.

Table 3.2: Trend of Savings/Excess

(₹ in crore)

Figures in parenthesis indicate per cent

(Source: Appropriation Accounts for the respective years)

The total utilisation of voted grants was 90 per cent of the provision during the current year, which increased by five per cent over the previous year.

3.2 Appropriation Accounts

Appropriation Accounts are accounts of the expenditure of the Government for each financial year, compared with the amounts of voted¹ grants and charged² appropriations for different purposes as specified in the schedules appended to the Appropriation Act. These Accounts depict the original budget provision, supplementary grants, surrenders and re-appropriations and indicate actual capital and revenue expenditure on various specified services *vis-à-vis* those authorised by the Appropriation Act in respect of both Charged and Voted items of budget. The Appropriation Accounts thus facilitate understanding of utilisation of funds and are, therefore, complementary to the Finance Accounts.

Audit of appropriations by the Comptroller and Auditor General seeks to ascertain whether the expenditure actually incurred under various grants is in accordance with the authorisation given under the Appropriation Act and that the expenditure required to be charged under the provisions of the Constitution (Article 202) is so charged. It also ascertains whether the expenditure incurred is in conformity with the laws, relevant rules, regulations and instructions.

¹ Amounts voted by the State Legislature in respect of demands for grants for specific purposes.

² Amounts directly charged to the Consolidated Fund of the State, which are not subject to the vote of the State Legislature.

3.3 Integrity of Budgetary and Accounting Process

Article 202 of Constitution of India requires the laying of a statement of estimated receipts and expenditure of the State for that year, as the “Annual Financial Statement” before the House or Houses of the Legislature of the State. The annual financial statement should show expenditure charged on Consolidated Fund and other expenditure separately. It shall also distinguish expenditure on revenue account from other expenditure.

3.3.1 Expenditure incurred without authority of law

No money shall be withdrawn from the Consolidated Fund of the State except under appropriation made by law passed in accordance with provisions of Article 204 of the Constitution of India. Supplementary or Additional Grant or Appropriation is provided during the course of a financial year in accordance with Article 205 of the Constitution. It is the provision for meeting expenditure in excess of the budgeted amount.

3.3.1.1 Expenditure incurred without Final Modified Appropriation (FMA)

Expenditure on new scheme should not be incurred on a scheme/service without provision of funds except after obtaining additional funds by supplementary grant or appropriation or an advance from the Contingency Fund of the State.

It was, however, noticed that in 15 cases, a total expenditure of ₹ 37.93 crore was incurred without FMA as detailed in **Appendix 3.1**.

3.3.1.2 Expenditure without provision in Original and Supplementary

Article 266 (3) of the Constitution of India prohibits withdrawal of money from the Consolidated Fund of the State unless relevant Appropriation Acts under Articles 204 and 205 of the Constitution of India are passed by the Legislature. It was, however, noticed that in 6 cases, a total expenditure of ₹ 2.26 crore, as detailed in **Table 3.3**, was incurred through re-appropriation³ without the knowledge of the Legislature.

Table 3.3: Expenditure without Original and Supplementary provision

(₹ in lakh)

Total		226.00	226.00

(Source: Appropriation Accounts)

³ Re-appropriation is the allocation/transfer of funds by competent authority, of savings from one unit of appropriation to another within the same grant/appropriation

3.3.2 Drawal of funds to avoid lapse of budget grant

According to Para 178 of the Tamil Nadu Budget Manual, it is irregular to draw money from Government account without immediate requirement. Further, as per Article 39 of the Tamil Nadu Financial Code Volume-I, all appropriations lapse at the close of the financial year and no money should be drawn from the treasury in order to prevent it from lapsing and use it for expenditure after the end of year.

It was observed that ₹ 2.77 crore was booked as expenditure under the Head of Account ‘2041-00-800-AG – Implementation of Road Safety Programme’, which were drawn at the fag end of the year and parked in two separate bank accounts, violating codal provisions and inflating the revenue expenditure of the department to that extent. This is indicative of the fact that the money was drawn without requirement and that it was drawn to avoid lapse at close of the financial year.

3.3.3 Misclassification of Expenditure

Misclassification of expenditures and receipts has a great impact on the integrity of the financial statements. Annual Financial Statement distinguishes expenditure on revenue account from other expenditure. Classification of expenditure of revenue nature as capital expenditure or vice-versa, results in overstatement/understatement of revenue expenditure and revenue deficit/surplus.

3.3.3.1 Incorrect booking of expenditure

There are specific object heads meant for obtaining provision for acquisition of Capital Assets and other Capital Expenditure.

During the year, capital expenditure of an amount of ₹ 10.79 crore was adjusted as ‘Expenditure met from Reserve Fund’ under revenue expenditure for transfer to ‘State Infrastructure and Amenities Fund’ instead of booking it under capital expenditure. This misclassification has resulted in overstatement of Revenue Expenditure to that extent.

3.3.4 Unnecessary or excessive Supplementary grant

During 2021-22, against the original provision of ₹ 3,35,288.14 crore and supplementary provision of ₹ 14,451.49 crore, only an expenditure of ₹ 3,19,361.82 crore was incurred, leading to a net savings of ₹ 30,377.81 crore. Supplementary provisions aggregating ₹ 242.64 crore in 59 cases⁴ proved unnecessary as the original provision was not exhausted as detailed in **Appendix 3.2**. Out of 59 cases, 37 cases were under “Grant 19 – Health & Family Welfare Department”, the supplementary provision unnecessarily provided in budget amounted to ₹ 175.60 crore.

⁴ Cases where supplementary provision of ₹ 50 lakh or more

3.3.4.1 Inadequate Supplementary grants

In two cases, the supplementary provision proved insufficient, leaving an aggregate uncovered excess expenditure as detailed in **Table 3.4**.

Table 3.4: Case where supplementary provision proved insufficient (excess expenditure more than ₹ 1 crore)

(₹ in crore)

Sl. No.	Grant Number and Description	Original provision	Supplementary provision	Total provision	Actual expenditure	Excess expenditure
1	34 – Municipal Administration and Water Supply Department – Loans (Voted)	542.37	27.64	570.01	572.00	1.99
2	44 – Micro, Small and Medium Enterprises Department – Capital (Voted)	0.65	2.55	3.20	5.06	1.86
	Total	543.02	30.19	573.21	577.06	3.85

(Source: Appropriation Accounts)

On scrutiny of the excess in Grant No. 34, it was noticed that under the Heads of Accounts ‘6217-60-190-PK’ additional provision was made through supplementary estimates and re-appropriation. Under the Heads of accounts 6217-60-190-PN, ‘6217-60-190-PI’ and ‘7610-00-201-AY’ additional provision was made through re-appropriation. However, the expenditure exceeded the overall provision under the grant.

In the second instance, it was noticed that under the Head of Account ‘4851-00-102-LG -Infrastructure support to Small Scale Industries Cluster’ the token provision made in the original provision was withdrawn by way of re-appropriation. However, an expenditure of ₹ 1.86 crore was made under this head of account indicating defective budgeting process.

3.3.5 Unnecessary/excess/insufficient re-appropriation of funds

Apart from supplementary grant, re-appropriation can be used to re-allocate funds within a Grant. Re-appropriation is the transfer, by competent authority, of savings from one unit of appropriation to meet additional expenditure under another unit within the same section (Revenue-Voted, Revenue-Charged, Capital-Voted, Capital-Charged) of the Grant or Charged Appropriation.

However, considerable re-appropriation from one sub-head to another must always be avoided and the process of re-appropriation should not be merely used to rectify omissions and lack of foresight.

Audit scrutiny revealed that there were unnecessary / excess / insufficient re-appropriations made indicating inaccurate and unrealistic budgeting, thereby depriving funds for the other needy Schemes as detailed in **Table 3.5**.

Table 3.5: Injudicious re-appropriations made during 2021-22

Sl. No	Description	No. of HoA	Amount (₹ in crore)	Reference – Appendix No
1	Savings greater than ₹ 2 crore	59	2,371.20	3.3
2	Excess greater than ₹ 2 crore	30	539.70	3.3
3	Provision made in re-appropriation where expenditure was either nil or within the original and supplementary provisions	26	53.00	3.4
4	Provision of more than ₹ 100 crore fully withdrawn through re-appropriation	14	2,756.88	3.5
5	Withdrawal of entire provision of interest liability (2049-60-101) on deposits under MH 8342	18	26.19	3.6

(Source: Detailed Appropriation Accounts)

It was also noticed that in 14 cases as detailed in **Appendix 3.7**, though the entire provision was fully withdrawn by re-appropriations, expenditure of ₹ 37.92 crore was incurred under the schemes, indicating injudicious re-appropriations.

- An amount of ₹ 34.51 crore provided for in the supplementary estimates under the head of account ‘5053-02-102-AD - Expansion of Madurai Airport’. The entire amount was expended in August 2021. However, during re-appropriation in March 2022, the entire provision was withdrawn, resulting in expenditure without Final Modified Appropriation (FMA).
- A token provision was provided in the Original budget estimate under the Head of Account ‘4851-00-102-LG – Infrastructure support to Small Scale Industries Cluster’, this was withdrawn through re-appropriation during March 2022. However, an expenditure of ₹ 1.86 crore was incurred during the month of February 2022

A further detailed scrutiny of all the re-appropriation orders issued by the Finance Department revealed that in respect of 9,656 out of 24,676 items (39.13 per cent), no valid reasons were given for additional provisions/withdrawal of provisions and only vague expressions such as ‘actual requirement’, ‘lesser/higher requirement’, ‘based on actuals’, etc., was given, which is in violation of paragraph 151 (ii) of the Tamil Nadu Budget Manual. On being pointed out by Audit, Government replied that detailed instructions would be issued to the Departments and Heads of Department for furnishing specific reasons for surrender/excess over appropriations.

Thus, the injudicious re-appropriations at various stages and incurring expenditure without provisions, clearly indicate the weak internal controls/monitoring mechanism at both the budget allocation levels and at the re-appropriation stage.

3.3.6 Unspent amount and surrendered appropriations and/or large savings / surrenders

Complete accuracy of estimates may not always be possible; but where the omission or inaccuracy is the result of lack of forethought, neglect of the obvious or slipshod estimating, it is not readily excusable. The golden rule for all the Estimating Officers should be to provide in the budget, everything that can be foreseen and to provide only as much as is necessary. No object is served by keeping back savings which should ideally be surrendered in time. For this reason, appropriations which are likely to remain unspent must be reported for surrender as early as possible. If this is not done, other spending Departments are deprived of the funds which they could have utilised. Surrenders are being made generally in the month of March, and a careful study of figures of the expenditure incurred and watch over previous month's expenditure should enable the Controlling Officer to fix upon his final requirements with a reasonable degree of exactness. No savings shall be held in reserve for possible future excesses.

The instances of huge savings and surrenders are discussed in the succeeding paragraphs.

3.3.6.1 Savings

Audit observed that in 42 cases there were savings of above ₹ 100 crore amounting to ₹ 28,723.33 crore across various grants as detailed in **Appendix 3.8**. The details of Grants/Appropriations, where provision is more than ₹ 10 crore, with Budget utilisation less than 50 per cent during the year is given in **Table 3.6**.

Table 3.6: Grants/ Appropriations greater than ₹ 10 crore where utilisation of budget was less than 50 per cent

12	48 - Transport Department	549.45	100.78	18.34

(Source: Appropriation Accounts)

It was noticed that utilization was less than 10 per cent of the provision made in 4 cases. The reasons for poor utilisation have not been furnished by the respective Departments.

3.3.6.2 Surrenders

As per Paragraph 140 of the Tamil Nadu Budget Manual, the spending departments are required to surrender the grants/appropriations or a portion thereof to the Finance Department as and when savings are anticipated.

During the year, out of total savings of ₹ 30,377.81 crore, an amount of ₹ 29,879.64 crore only was surrendered. Out of the ₹ 11,739.35 crore (Net) surrendered on the last day (31 March 2022), 92 cases amounting to ₹ 12,387.29 crore (**Appendix 3.9**) were in excess of over ₹ 10 crore indicating inadequate financial controls.

Further, in respect of surrender more than savings, the departments could not know the exact amount of savings which is to be surrendered at the end of the financial year during re-appropriation.

This indicates that the Finance Department has no proper control over the finances of the State even after the implementation of IFHRMS.

- Under 20 grants and two appropriation, savings of more than rupees one crore (₹ 895.01 crore) was not surrendered fully as given in **Appendix 3.10**.
- In 18 Grants/Appropriation under Revenue, 11 Grants/ Appropriation under Capital and five Grants/Appropriation under Loans, surrenders were made more than savings as listed in **Appendix 3.11**.

3.3.6.3 Budget Utilisation

The distribution of the number of grants / appropriations grouped by percentage of utilisation and total savings in each group is given in **Table 3.7** below:

Table 3.7: Utilisation of Grants / Appropriations

Percentage utilisation	50%-70%	70%-90%	90%-100%
No of Grants	6	29	21
Saving (₹ in crore)	5,675.09	12,765.14	11,936.39

(Source: Appropriation Accounts)

The following **Chart 3.2** shows the Budget utilisation for the period from 2017-18 to 2021-22.

(Source: Appropriation Accounts)

The percentage of utilisation increased considerably by 4.65 per cent during the current year and stood at 91.31 per cent.

3.3.6.4 Persistent Savings

Under 24 Grants/Appropriations, there were persistent savings of more than five per cent of the total grant during the last five years as indicated in **Appendix 3.12**. The percentage of savings under Revenue Section ranged from 5.22 to 81.79 and Capital Section ranged from 8.36 to 100 per cent.

As may be noted from the **Appendix 3.12**, there was a persistent savings of more than 92 per cent under capital section during all the past five years in Grant 16 - Finance Department. It was noticed that during the past five years, huge amounts provided were withdrawn through re-appropriation under the Head of Account '4070-00-800-KF – Transfer to Tamil Nadu Infrastructure Development Fund (TNIDF)' as shown below in **Table 3.8**.

Table 3.8: Provision and re-appropriation under Tamil Nadu Infrastructure Development Fund

Details	2017-18	2018-19	2019-20	2020-21	2021-22
Provision	2,000	500	500	500	500
Re-appropriation	(-) 2,000	(-) 499	(-) 498	(-) 500	(-) 457

(Source: Appropriation Accounts for the respective years)

It could be seen from the above table that the entire provisions were made consistently during all the five years in the original budget stage and withdrawn at the re-appropriation stage and that too without giving specific reasons for the same.

Improper budgeting resulted in excess provision made being withdrawn at the re-appropriation stage which deprives the other departments/schemes in which funds could have been utilised.

The Government will have to consider the previous years' surrenders and estimate the actual requirement to transfer.

On this being pointed out, Government replied (December 2022) that as many of the infrastructure projects were at a preliminary stage, the necessity for seeking financial assistance by the implementing agencies from TNIDF did not arise and the actual requirement could not be estimated accurately, hence, the budget allocations were surrendered.

3.3.7 Excess expenditure and its regularisation

As per Article 205(1)(b) of the Constitution of India, it is mandatory for a State Government to get the excess over a grant/appropriation regularised by the State Legislature. Although no time limit for regularisation of expenditure has been prescribed under the above Article, the regularisation of excess expenditure is done after the completion of discussion of the Appropriation Accounts by the Committee on Public Accounts (PAC).

3.3.7.1 Excess over provisions during the year requiring regularisation

Legislative sanction is required for all expenses. Excess expenditure over the provisions not only contravenes this but also indicates bad financial planning.

The cases of excess disbursements over grants/appropriations during the year 2021-22 are given below in **Table 3.9**.

Table 3.9: Excess over provisions during the year

(₹ in crore)

Name of the Department	Voted			Charged		
	Revenue	Capital	Loans & Advances	Revenue	Capital	Loans & Advances
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Relief on Account of Natural Calamities (Grant No.51)	--	--	--	0.66	--	--
Human Resources Management Department (Grant No.35)	--	0.73	--	--	--	--

Total	--	2.59	1.99	0.66	--	--
Grant Total	5.24					

(Source: Appropriation Accounts)

Excess expenditure over the provisions for the year is not only in contravention of the provisions requiring Legislative sanction but also indicative of bad planning which could be avoided by keeping track of expenditure progression with budget made for the purpose.

The reasons for excess expenditure are discussed in the succeeding paragraphs below:

Relief on account of Natural Calamities

- On being pointed by Audit, Government, while accepting the fact, replied (December 2022) that the expenditure of ₹ 0.66 crore had been incurred due to emergency requirement and such lapses would be avoided in future.

Municipal Administration and Water Supply Department

- The excess expenditure of ₹ 1.99 crore incurred was mainly under the Heads of Account “6217.60.190.PK - ₹ 38.44 crore, 6217.60.190.PN- ₹ 18.23 crore, 6217.60.190.PI - ₹ 17.29 crore and 7610.00.201.AY - ₹ 0.80 crore”, which was an offset by savings.

On being pointed out by Audit, the Government replied (December 2022) that ₹ 2.59 crore was received (HoA: 6217.60.190.PN) at the end of the year i.e., on 24 March 2022 after finalization of Final Supplementary estimate. Hence provision could not be made. The reply of the Government was not tenable as excess expenditure was due to insufficient re-appropriation in the HoA.

Micro, Small and Medium Enterprises Department

- The excess expenditure of ₹ 1.86 crore incurred under the Head of Account “4851.00.102.LG - Infrastructure support to Small Scale Industries Cluster” - Creation of additional capacity of 750 KLD capacity of ZLD system at VISHTEC Common Effluent Treatment Plant (CETP), Melvisharam, Ranipet District. On being pointed out during the Entry conference the Government replied (August 2022) that the amount had been transferred to “2851-00-102-MV Grants for creation of Capital Assets” from the Head of Account 4851-00-102-LG and within re-appropriation. The reply of the department was not tenable as re-appropriation could not be made from Capital head to Revenue head.

3.3.7.2 Regularisation of excess expenditure of previous years

Excess expenditure of ₹ 2,848.83 crore relating to 2014-21 was yet to be regularised by the State Legislature as detailed below in **Table 3.10**.

Table 3.10: Regularisation of excess expenditure of previous years

3.4 Effectiveness of budgetary and accounting process

Efficient management of tax administration/other receipts and public expenditure holds the balance for achievement of various fiscal indicators. Budgetary allocations based on unrealistic proposals, poor expenditure monitoring mechanism, weak scheme implementation capacities/ weak internal controls lead to sub-optimal allocation among various developmental needs. Excessive savings in some departments deprives other departments of the funds which they could have utilized.

3.4.1 Budgetary projection and gap between expectations and actuals

Summarised position of actual expenditure *vis-à-vis* Budget (Original/Supplementary) provision during 2021-22 (Voted and Charged) is given below in **Table 3.11**.

Table 3.11: Position of actual expenditure vis-à-vis original/supplementary provisions

(Source: Appropriation Accounts for the year 2021-22)

The overall savings of ₹ 30,377.81 crore (more than 100 per cent of supplementary provision), meant that Government could have spent the additional requirements through only re-appropriation and making the entire supplementary provision of ₹ 14,451.50 crore unnecessary. This indicates poor budgetary management. Hence, it is recommended Government should make efforts to avoid unnecessary supplementary provision and should hold responsible the controlling officers if supplementary appropriations are found unnecessary.

An amount of ₹ 29,879.64 crore was surrendered in the month of March 2022. Out of this, an amount of ₹11,739.35 crore (39.29 per cent) was surrendered on the last day i.e., 31 March 2022. This indicates improper budgeting and expenditure planning.

Trends in expenditure during the past five years with reference to the Original Budget and Revised Estimate are as given below in **Table 3.12**.

Table: 3.12: Trend of savings/excess

(₹ in crore)

	2017-18	2018-19	2019-20	2020-21	2021-22

Percentage of savings	11.90	7.40	9.40	13.34	8.69

(Source: Appropriation Accounts for the respective years)

From the above table, it may be seen that there was a significant improvement in the utilisation of funds and the percentage of savings reduced from 13.34 in 2020-21 to 8.69 per cent in 2021-22.

A total of 1367 sub heads were commented upon in the Appropriation Accounts of the state and reasons were sought from the departments concerned for savings/excess, if any. Reasons for variation were not received from 383 sub-heads.

In the Exit conference, the ACS (Finance) stated that the budgetary issues will be taken up with the IFHRMS teams and would be resolved.

3.4.2 Rush of expenditure

Government funds should be evenly spent throughout the year. The rush of expenditure towards the end of the financial year is regarded as a breach of financial propriety. Maintaining a steady pace of expenditure is a crucial component of sound public financial management, as it obviates fiscal imbalance and temporary cash crunches due to mismatch of revenue expenditure during a particular month arising out of unanticipated heavy expenditure in that particular month.

According to Article 39 of the Tamil Nadu Financial Code, rush of expenditure in the closing month of the financial year should be avoided. Contrary to this, an amount of ₹ 14,247.45 crore under 124 sub-heads for which provision was made in the original grant, as listed in **Appendix 3.13** was fully expended during the month of March 2022. Besides, in respect of three grants listed below in **Table 3.13**, 50 per cent of expenditure was incurred in the month of March 2022. Rush of expenditure at the end of the year shows poor expenditure control.

Table 3.13: Grants with more than 50 per cent of expenditure in March alone

3.5 Advances from the Contingency Fund

The Contingency Fund (CF) of the State was established under the Tamil Nadu Contingency Fund Act, 1954 in terms of provisions of Article 267 (2) and 283 (2) of the Constitution of India. Advances from the Fund are to be made only for meeting expenditure of an unforeseen and emergent character, postponement of which, till its authorisation by the Legislature, would be undesirable. The Fund is in the nature of an imprest and its corpus is ₹ 150 crore.

Details of sanctions accorded for drawal of CF advance and actually utilised during the period 2017-18 to 2021-22 are given in **Table 3.14** below.

Table 3.14: Details of Contingency Fund advances sanctioned (2017-18 to 2021-22)

Details of CF orders issued during the year, and the amount of expenditure incurred as at the end of the year is given in **Table 3.15** below.

			(-) 3,88,27,000	Cancellation of CFA issued. G. O. Rt. No. 44 dated 19/01/2022
4	G. O. Rt. No. 749 dated 20-11-2021	2852.07.101.AP (Implementation of e-office in Secretariat)	8,00,00,000	8,00,00,000
Total			12,26,27,000	12,26,27,000

From the above table, it can be noticed that in two cases, the CF sanctioned was cancelled (one partially and one fully). It is also pertinent to note that expenditure for 'Implementation of e-office in Secretariat' cannot be classified as expenditure of emergency nature. The basis of election of expenses for the contingency fund advance is sought from the department and reply awaited.

The CF sanctioned for construction of working women's hostel was cancelled due to administrative reasons. Cancellation of CFs imply the fact that the amounts sanctioned were not required immediate spending.

On being pointed out by Audit, Government replied (December 2022) that partial/full un-utilisation would be rectified from next year onwards.

3.6 Gender Budgeting

The State Government presented a Gender Budget Statement as a part of annual budget document from the year 2018-19 onwards. The Gender Budget Statement depicts the probable outlay for women in the total budget. The State Government discloses the expenditure proposed to be incurred within the overall budget on schemes which are designed to benefit women fully or partially and classified the statement into three categories *viz.*, Part A, Part B and Part C with a total budget provision (Original) of ₹ 88,298.87 crore.

- Part A includes schemes which has 100 *per cent* of the outlay towards women, Part B includes schemes has 40 *per cent* to 99 *per cent* of outlay which benefit women and Part C includes other schemes and other expenditure which are not beneficiary oriented were grouped sector-wise and the Government assumed that at least 30 *per cent* of the outlay will benefit women under this category.
- The total number of schemes under Part A, B and C in 2021-22 were 411, of which 86 schemes were under Part A, 302 schemes under Part B and 23 schemes under Part C.
- Out of ₹ 5,206.28 crore (5.90 *per cent*) allocated towards 86 Part A schemes, 83.70 *per cent* (₹ 4,357.79 crore) was towards Social Welfare and Nutrition Sector for which huge outlay was provided under Maternity Assistance Schemes, Destitute Widow Pension Scheme and Marriage Assistance Schemes.
- Education, Sports and Culture, Social Welfare and Nutrition, Agriculture, Food Security under General Economic Services, Rural Development, Water supply, Sanitation, Housing and Urban Development, Welfare of SC/ST/BC/MBC & Minorities and Health & Family Welfare had major allocations under Part B category for which a total amount of ₹ 36,191.16 crore (40.99 *per cent*) budget allocation was made during the year.

3.7 Review of selected Grants

Based on persistent savings for the past five years and a considerable amount of savings in 2021-22, 'Grant Number 04-Adi-Dravidar & Tribal Welfare Department and 'Grant Number 13 - Food and Consumer Protection (Co-operation, Food and Consumer Protection Department)' were selected for detailed review of procedures and expenditure control mechanism.

Test check disclosed deficiencies in the budgetary process, as discussed in the succeeding paragraphs.

3.7.1 Grant Number 4 – Adi-Dravidar and Tribal Welfare Department

The Adi-Dravidar and Tribal Welfare Department has been implementing various welfare schemes for the Adi-Dravidar and Tribal people through District Adi-Dravidar and Tribal Welfare Officer in each district.

3.7.1.1 Allocation and Expenditure

A summary of actual expenditure *vis-à-vis* original/supplementary provisions made during the year 2021-22 is given in **Table 3.16** below.

Table 3.16: Details of Budget Provision and Actual Expenditure under Grant No. 4

* ₹ 25,000

** ₹ 1,000

(Source: Appropriation Accounts for the year 2021-22)

From **Table 3.16**, though the final saving in the Grant is ₹ 1,678.80 crore, the amount surrendered was ₹ 1,670.88 crore only by the way of re-appropriation. The overall savings was 40.53 per cent of the provision indicating poor budgeting. Overall savings compared to provision during the past 5 years is shown in **Table 3.17**:

Table 3.17: Last 5 years allocation and savings

(₹ in crore)

Year	Total grant	Expenditure	Saving	Percentage of saving
2017-18	3,283.44	2,986.48	(-) 296.96	9.04
2018-19	3,577.80	3,355.36	(-) 222.45	6.22

2020-21	4,143.16	3,725.99	(-) 417.17	10.07
2021-22	4,142.49	2,463.69	(-) 1,678.80	40.53

(Source: Appropriation Accounts for the respective years)

This indicates that the department has persistent savings ranged from 5.97 to 40.53 per cent of budget provision during the five year period.

The Adi-Dravidar and Tribal Welfare Department expended 57.82 per cent of the total expenditure only in March 2022. The month wise details of expenditure by the Department is given in **Chart 3.4**.

(Source: Compilation from VLC data)

From the **Chart 3.5** below it can be noticed that the percentage of expenditure during March as against the total expenditure of the Grant was on an increasing trend during the period 2017-18 to 2021-22, indicating a rush of expenditure during March so as to avoid surrender.

(Source: Compilation from VLC data)

3.7.1.2 Persistent savings

During 2021-22, there was a saving of 43.91 per cent in the Grant under Capital Section. During the five year period 2017-22, the Department had persistent savings ranging between 28.15 per cent and 62.64 per cent of the total grant as given in **Table 3.18** below.

Table 3.18: Year-wise allocation and savings under Capital section*(₹ in crore)*

Year	Total grant	Expenditure incurred	Saving	Amount surrendered	Percentage of saving
2017-18	229.01	85.55	(-) 143.46	(-) 142.71	62.64
2018-19	150.50	74.59	(-) 75.90	(-) 75.84	50.43
2019-20	134.03	91.47	(-) 42.55	(-) 23.72	31.75

2021-22	404.89	227.08	(-) 177.81	(-) 177.72	43.91

(Source: Appropriation Accounts for the respective years)

Expenditure in capital nature is incurred for creation of capital assets. The persistent savings on capital heads indicates that Government did not give sufficient importance towards creation of capital assets and also shows lack of expenditure control.

On further scrutiny, it was noticed that savings occurred persistently under the following Revenue and Capital Heads of Accounts as detailed in **Table 3.19**.

Table 3.19: Details of Persistent savings under the Heads of Account

3.7.1.4 Expenditure incurred in excess of Final Modified Grant (FMG)

Scrutiny of records revealed that under the following Schemes the expenditure incurred was in excess of ₹ 10 lakh over the Final Modified Grant as shown in **Table 3.21**.

Analysis of reasons for a major excess of ₹ 10.72 crore over the FMG (Sl. No. 3 of Table 3.21) disclosed that the expenditure pertained mainly to salaries. The failure to accurately assess the requirement under a salary head, which is susceptible to accurate estimation, indicated lack of due diligence in budgeting.

3.7.1.5 Withdrawal of entire provision through re-appropriation

In the following schemes shown below in **Table 3.22**, the entire amount given through Original and Supplementary provisions were withdrawn through re-appropriation.

Through examination of records and the replies furnished by the Directorate of Adi-draavidar and Tribal Welfare (ADTW), Audit found that

- ₹ 65.40 crore provided in the budget for procurement of bi-cycle (Sl.No. 6 and 7) for eligible students but withdrawn through re-appropriation. Audit found that Directorate of Backward Class and Welfare Department submitted a proposal for administrative sanction in July 2021. But, due to administrative delays, GoTN accorded approval only in November 2021. There were further delays in calling for tenders as the purchase committee took three months to finalise the specifications. The tender was called for only in March 2022. As a result of these delays, the budget provision was withdrawn through re-appropriation.
- In respect of Sl. no. 14 and 15, the budget provision of ₹ 23.51 crore was withdrawn due to non-submission of UCs by GoTN and delay in uploading the data in GoI portal. As GoI had not released the funds for the scheme, Audit found that GoTN withdrew the budget provision through re-appropriation.
- Rupees 14.49 crore was provided for construction of community hall (Sl. No. 18). Due to delay in identification of suitable site for construction of community hall, the budget provision was withdrawn.

3.7.1.6 *Rush of expenditure under the Tribal Welfare department*

On scrutiny of the Budget Review party, in respect of Sl.No.5 and 6 mentioned under **Appendix 3.13 - Rush of expenditure** it is observed that

- In respect of Sl.No.5 – under the ‘Head of Account 2225.02.277.BH’, the department sent proposals in October 2021 for the release of funds. Government released the funds during March 2022 only, resulting in rush of expenditure.
- In respect of Sl.No.6 – under the ‘Head of Account 2225.02.277.SD’, a sum of ₹ 19.67 crore was transferred to Single Nodal Account (SNA) on 31.03.2022 to avoid surrender of funds.

3.7.2 **Grant Number 13 – Food and Consumer Protection (Co-operation, Food and Consumer Protection Department)**

Civil Supplies and Consumer Protection Department headed by the Commissioner at the State level has been playing an important role in the formulation and implementation of Public Distribution System related policies in the State. The Department is also enforcing the provisions of Essential Commodities Act, 1955 and Control Orders issued thereunder. Besides, it also plays a vital role in creation of awareness among public as well as the student community about Consumer Rights and Legal Provisions available under Consumer Protection Act, 2019.

The Principal Secretary to Government of Tamil Nadu, Food and Consumer Protection Department (FCPD) is the administrative head. The field

formations are headed by the Commissioner of Civil Supplies and Consumer Protection Department and the Registrar, State Consumer Disputes Redressal Commission. The field Chief Controlling Officers (CCOs) viz. Commissioner (Civil Supplies and Consumer Protection Department) and Registrar (State Consumer Disputes Redressal Commission) were selected for review under this department. The salient points noticed are enumerated below:

3.7.2.1 Allocation and Expenditure

A summary of actual expenditure vis-à-vis original/supplementary provisions made during the year 2021-22 is given in **Table 3.23** below.

Table 3.23: Details of Budget Provision and Actual Expenditure under Grant No. 13

(Source: Appropriation Accounts for the year 2021-22)

Though the ultimate saving in the Grant during the year was ₹ 864.33 crore, the amount surrendered was ₹ 864.30 crore only. The overall savings was 8.23 per cent of the provision. Overall savings compared to provision during the past 5 years is shown in **Table 3.24**:

Table 3.24: Last 5 years allocation and savings

(₹ in crore)

Year	Total grant	Expenditure	Saving	Percentage of saving
2017-18	6,524.36	6,430.84	(-) 93.52	1.43

2021-22	10,505.76	9,641.43	(-) 864.33	8.23

(Source: Appropriation Accounts for the respective years)

This indicates that the department has persistent savings ranged from 1.23 to 8.23 per cent of budget provision during the five year period.

3.7.2.2 Persistent Savings

During 2021-22, there was a saving of 89.21 per cent in the Grant under Capital Section. During the five year period 2017-22, the Department had

persistent savings ranging between 32.16 per cent and 97.12 per cent of the total grant as given in Table 3.25 below.

Table 3.25: Year-wise allocation and savings under Capital section

(₹ in crore)

(Source: Appropriation Accounts for the respective years)

Expenditure in capital nature is incurred for creation of capital assets. The persistent savings on capital heads indicates that Government did not give sufficient importance towards creation of capital assets and also shows lack of expenditure control.

On further scrutiny, it was noticed that savings occurred mainly under the following Revenue and Capital Heads of Accounts persistently as detailed in Table 3.26.

Table 3.26: Details of Persistent savings under the Heads of Account

(Figures in bracket indicate savings as a percentage of total provision)

(Source: Detailed Appropriation Accounts for the respective years)

An amount of ₹ 758.26 crore (89.17 per cent) withdrawn under the HoA '4408.02.800.JA - Construction of Godowns with Loan assistance from NABARD' (Sl. No. 5) was due to delay in finalisation of tender/commencement of work and litigation of land acquisition issues.

The amount provided for the Construction of Godowns using Silo Technology (Sl. No. 6) was withdrawn completely in the past three years under the HoA '4408.02.800.JB'. On being pointed out, the department attributed the withdrawal to change of location, administrative and technical reasons. It also further stated (September 2022) that the project had been dropped during

the year 2022-23. Audit observed that the huge amount of savings each year could have been avoided by providing token provision for the project and re-appropriating funds at the appropriate time.

To conclude, in both the Grants, persistent savings, savings over FMG, withdrawal of entire provision, etc., were noticed, mainly due to delay in issue of administrative sanction, delay in finalisation of tender, non-availability of land and laxity in accurate estimation of salary. These cases as pointed out in the above Grants Review are indicative in nature. The Government should proactively look for similar instances in other grants too and take immediate corrective measures in view of fiscal prudence in the State.

3.8 Conclusion and recommendations

Expenditure incurred without authority of law

In respect of 15 cases, a total expenditure of ₹ 37.93 crore was incurred without FMA. No provision was made either in the original or supplementary or at re-appropriation stage. In 6 cases, a total expenditure of ₹ 2.26 crore was incurred without appropriation by the Legislature either in the Original or Supplementary estimates.

Recommendation: *Government should fix responsibility for this lapse and implement the budget module controls in IFHRMS.*

(Paragraphs 3.3.1.1 and 3.3.1.2)

Unnecessary Supplementary grant/re-appropriations

Supplementary provisions of ₹ 50 lakh or more in each case aggregating ₹ 242.64 crore obtained in 59 cases, during the year 2021-22 proved unnecessary as the original provisions itself was not exhausted. Further, in respect of 26 Heads of Account, though an amount of ₹ 1,366 crore was available (Original and Supplementary), an additional amount of ₹ 53.00 crore was provided at re-appropriation stage which was unnecessary as the total expenditure in these cases were only ₹ 1,253.15 crore and well within the earlier provisions made. This indicates not only laxity on part of the Controlling Officers to make such provisions but also is indicative of an overall poor budgetary management by the Government.

Recommendation: *Government should make concerted efforts to ensure that instances of unnecessary supplementary provisions are avoided.*

(Paragraphs 3.3.4 & 3.3.5)

Unspent amount, surrendered appropriations and persistent savings

In 42 cases, there were savings of above ₹ 100 crore amounting to ₹ 28,723.33 crore across various grants.

Surrenders to the tune of ₹ 18,140.29 crore were made during 24 March 2022 and ₹ 11,739.35 crore on 31 March 2022. Out of ₹ 11,739.35 crore surrendered on the last day (31 March 2022), 92 cases amounting to ₹ 12,387.29 crore were in excess of over ₹ 10 crore, indicating inadequate financial control.

Under 24 Grants/Appropriations there were persistent savings of more than five *per cent* of the total grant during the last five years. There was a persistent savings of more than 92 *per cent* under capital section during all the past five years in Grant 16 -Finance Department.

Recommendation: *An appropriate control mechanism needs to be instituted by the Government to enforce proper implementation and monitoring of budget to ensure that savings are curtailed, large savings within the grant/appropriation are controlled and anticipated savings are identified and surrendered within the specified timeframe so that the funds can be utilised for other development purposes.*

(Paragraphs 3.3.6.1, 3.3.6.2 and 3.3.6.4)

Excess expenditure and its regularisation

During the year, excess disbursements over grants/appropriations were made for ₹ 5.24 crore. This expenditure needs to be regularised. Besides, excess expenditure of ₹ 2,848.83 crore relating to 2014-21 was yet to be regularised.

Recommendation: *Government should view excess expenditure over legislative approval seriously, hold accountable those responsible for it and regularise all such excess expenditure through due process.*

(Paragraphs 3.3.7.1 and 3.3.7.2)

Rush of expenditure

An amount of ₹ 14,247.45 crore under 124 sub-heads for which provision was made in the original grant and was available throughout the year was fully expended only during the month of March 2022 against the provisions of Article 39 of the Tamil Nadu Financial Code directing that rush of expenditure in the closing month of the financial year should be avoided.

Recommendation: *Government should institute appropriate control mechanism to avoid last minute surrender as well as rush of expenditure. It should implement the Business Intelligence module of IFHRMS, for continuous monitoring of the progress of expenditure.*

(Paragraph 3.4.2)

CHAPTER – 4

**QUALITY OF
ACCOUNTS AND
FINANCIAL REPORTING
PRACTICES**

CHAPTER 4

QUALITY OF ACCOUNTS & FINANCIAL REPORTING PRACTICES

A sound internal financial reporting system and compliance with relevant rules and procedures contribute significantly to good governance. Compliance with financial rules, procedures and directives as well as the timeliness and quality of reporting on the status of such compliance is, thus, one of the attributes of good governance. Reports on compliance and controls, if effective and operational would assist the Government in meeting its basic stewardship responsibilities including strategic planning and decision-making.

This chapter comments on the quality of accounts rendered by various authorities of the State Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the State Government.

4.1 Funds outside Consolidated Fund or Public Account of State

Article 266 (1) of the Constitution of India, provides that all revenues received by the Government of a State, all loans raised by that Government by the issue of treasury bills, loans or ways and means advances and all moneys received by that Government in repayment of loans shall form one consolidated fund to be entitled the “Consolidated Fund of the State”.

It has been observed in audit that funds meant to be credited to Consolidated Fund of the State has been kept outside as discussed below in para 4.1.1.

4.1.1 Tax on electricity kept outside consolidated fund of the state

Non/short-realisation of Electricity Tax by the State Government from TANGEDCO and the amount being retained by TANGEDCO for a period of four years is fraught with the risk of suspected temporary misappropriation. Non-realisation of the dues in Government account is also one of the contributing factors to Revenue Deficit of the State Government.

Under Section 3 of Tamil Nadu Tax on Consumption or Sale of Electricity Act, 2003, TANGEDCO (Licensee under the Act) is to collect the electricity tax along with energy charges and remit the tax into Government account. During 2018-22, Tamil Nadu Generation and Distribution Corporation (TANGEDCO) collected ₹ 5,039.44 crore as Electricity tax from consumers, but remitted only ₹ 740.30 crore and Government adjusted ₹ 772 crore out of the payments due to TANGEDCO. After the remittance and adjustments, the amount of electricity tax collected but not remitted into the consolidated fund as of 31 March 2022 stood at ₹ 3,527.13 crore (Table 4.1). GoTN has not made it mandatory to remit the tax amount at periodical intervals and adjustments were also not being carried

out regularly. The amount deposited into the Government account by TANGEDCO, was the adjustments against the loan receipts. Had the outstanding amount of ₹ 1,387.73 crore been credited in the Government accounts during the year 2021-22, the revenue deficit would have been lessened to that extent.

Table 4.1: Details of collection of electricity tax and remittance into Government Account

(₹ in crore)

Year	Amount collected	Amount deposited into Government account	Amount yet to be credited
2018-19	1,283.52	1,283.52	--
2019-20	1,266.10	228.79	1,037.31
2020-21	1,102.09	--	1,102.09
2021-22	1,387.73	--	1,387.73
Total	5,039.44	1,512.31	3,527.13

(Source: Details furnished by O/o PAG (Audit-II))

From the table above, it is evident that 70 per cent of the tax collected during the period 2018-22 were not credited to the Government Accounts and were kept with TANGEDCO. The possibility of the amount being expended by TANGEDCO for its own operational expenditure cannot be ruled out. Such non-remittance to the Government account and retaining the collected tax for such a long period is fraught with the risk of suspected temporary misappropriation. This calls for fixing of responsibility of the concerned officials of both Government and TANGEDCO.

In the exit conference, ACS (Finance) stated that the matter would be taken up with TNEB.

4.2 Non-discharge of liability in respect of interest towards interest bearing deposits

The Government has a liability to provide and pay interest on the amounts in Interest-bearing Deposits under the Major Head (MH) 2049-60-101 (Interest on deposits) for discharging the liabilities under MH 8338 (Deposit of Local Funds) and MH 8342 (Other deposits).

During the year 2021-22, the interest payments made in the MH 2049-60-101 (Interest on deposits) for discharging the liabilities under MH 8338 and MH 8342 as per the State Finance Accounts was ₹ 220.71 crore which worked out to 0.39 per cent of the deposits available under MH 8338 and MH 8342 (₹ 55,956.42 crore). Further, provisions made to the tune of ₹ 26.19 crore under the Heads of Account '2049-60-101' was entirely withdrawn by re-appropriation during the year, thereby deferring the discharge of interest liabilities towards these deposits (details in **Appendix 3.6**)

4.3 Funds transferred directly to State Implementing Agencies (SIAs)

Government of India (GoI) transfers substantial funds directly to State Implementing Agencies¹ (SIAs) for implementation of various schemes and Programmes. The details of Funds transferred by GoI directly to SIAs as per the Public Financial Management System (PFMS) portal of the Controller General of Accounts (CGA) is listed in Appendix VI of Volume-II of the State Finance Accounts. Since these funds are not routed through the State Budget/State Treasury System, State Finance Accounts do not capture the flow of these funds or the related expenditure.

During the year 2021-22, GoI transferred ₹ 23,156.22 crore directly to the SIAs implementing various Central schemes / programmes.

The direct transfer of funds to implementing agencies has shown an increasing trend during the period 2017-22 as given in **Chart 4.1**.

(Source: State Finance Accounts)

The details of agencies that received funds of more than ₹ 100 crore during the year 2021-22 are detailed in **Table 4.2**.

An amount of ₹ 23,156.22 crore was directly transferred by GoI to the SIAs during 2021-22, registering a substantial increase of ₹ 4,929.79 crore (27 per cent) over the previous year. There was an increasing trend in the last five years.

¹ State Implementing Agency includes any organisation/institution including non-Governmental Organisation which is authorised by the State Government to receive the funds from the Government of India for implementing specific programmes in the State.

Table 4.2: List of Agencies which received funds of more than ₹ 100 crore directly from GoI

Sl. No	Schemes of Government of India	Implementing Agency	Amount released by GoI during 2021-22 (₹ in crore)

13	Indian Leather Development Programme (ILDP)	Central Leather Research Institute	106.83

(Source: State Finance Accounts)

As these funds were not routed through the State Budget/State Treasury System, the Annual Finance Accounts did not capture these funds flow and to that extent, the State's receipts and expenditure as well as other fiscal variables/parameters derived from them did not present the complete picture.

4.4 Delay in furnishing of Utilisation Certificates

As per the instructions given in Chapter 16 of Manual of Standing Orders (Accounts and Entitlements), Utilisation Certificates (UCs) in respect of Grants-in-Aid received by the grantee should be furnished by the grantee to the authority that sanctioned it, by the end of June for the grant received upto March of the previous financial year.

It was however noticed that 34 UCs for ₹ 803.29 crore were outstanding as per the Finance Accounts 2021-22. The Department wise break-up of outstanding UCs is given in **Appendix 4.1** and the year-wise analysis of delays in submission of UCs is summarised in **Table 4.3**.

Table 4.3: Year wise break up of outstanding UCs

Year	No of UCs	Amount (₹ in crore)	Defaulting Departments

Total	34	803.29	

(Source: NTA of Finance Accounts)

Out of the pending UCs for the year 2021-22, Chennai Metropolitan Water Supply and Sewerage Board (CMWSSB) is yet to submit UC for “Viability gap support for Desalination Plant at Chennai” scheme for an amount of ₹172.89 crore. On scrutiny of the same by Audit in CMWSSB, it was stated that UC for an amount of ₹ 134.70 crore was submitted on August 2022. In Directorate of Rural Development and Panchayat Raj, UC for an amount of ₹ 420 crore is yet to be submitted for the scheme Solar Power Green House and on scrutiny of the same by Audit, it was stated that UC for an amount of ₹ 210 crore was submitted on June 2022.

Non submission of UCs indicates the failure of the departmental officers to comply with the rules to ensure accountability. This assumes greater importance if such UCs are pending against Grants-in-Aid meant for capital expenditure.

The pendency of UCs was fraught with the risk of misappropriation of funds and fraud. Timely submission of UCs should not only be insisted upon but also ensured.

4.5 Recording of Grantee Institution as “Others”

The State Government sanctions Grants-in-Aid (GIA) to various Bodies and Authorities. It is essential that the Government provides the details and nature of the Grantee Institution to which it is providing funds in the interest of transparency of accounts.

As per State Finance Accounts 2021-22 of GoTN, GIA constituted 28.03 *per cent* of the total expenditure of the State and during the year, out of the total GIA of ₹ 82,585.60 crore, an amount of ₹ 66,856 crore (80.95 *per cent*) was disbursed to grantee institutions of type “Others”, where “Others” means various Government Departments excluding the GIA given to ‘Local Bodies’.

Out of the total GIA of ₹ 82,585.60 crore during 2021-22, ₹ 10,892.02 crore (13.19 *per cent*) was shown as disbursed to Grantee Institutions of type “Others” (detailed head code – 090, sub-detailed head code - 009). This adversely affects the transparency of accounts and monitoring of UCs against these GIA. Further scrutiny revealed that GIA of an amount of ₹ 8,392.76 crore provided for “Livelihood support to tackle COVID-19 lockdown - cash support to Rice family cardholders” was also classified under “Others”. The trend of percentage of GIA from the year 2018-19 to 2021-22 under type “Others” to total GIA for the last three years is shown in **Table 4.4** and **Chart 4.2**.

Table 4.4: Grants-in-Aid disbursed to Institutions of type “Others” during 2018-22

4.6 Non-Adjustment of Temporary Advances

The Government of Tamil Nadu does not follow the system of drawal of Abstract Contingent (AC) bills followed by submission of Detailed Contingent (DC) bills, as is the practice in other States. Instead, the Drawing and Disbursing Officers (DDOs) have been empowered to draw Temporary Advances (TAs) under Article 99 of Tamil Nadu Financial Code and the advances should be adjusted by presenting detailed bills and vouchers as soon as possible.

It was noticed that there were 1,649 number of temporary advances amounting to ₹ 317.81 crore drawn by various DDOs under Article 99 of Tamil Nadu Financial Code, Vol. I, which remained unadjusted as on 31 March 2022. The unadjusted amount includes those with a period of pendency for over 10 years. Out of the above, 278 items amounting to ₹ 162.93 crore relate to advances remaining unsettled for more than one year.

These advances were to be settled within the stipulated period of 3 months from the date of drawal of advances. Out of the total outstanding TAs amounting to ₹ 317.81 crore, the Director of Integrated Child Development and Service have not submitted settlement bills amounting to ₹ 86.74 crore (27.29 per cent) and Judicial Department have not submitted settlement bills for ₹ 63.87 crore (20.10 per cent).

The issue of non-adjustment of temporary advance has been raised in the State Finance Audit Report regularly. The issue has since been addressed and the number of temporary advances pending for adjustment decreased from

2,076 in 2020-21 to 1,649 in 2021-22. And the unadjusted amount decreased from ₹ 612.26 crore in 2020-21 to ₹ 317.81 crore in 2021-22.

Age-wise analysis of the advances pending adjustment is given in **Table 4.5**.

Table 4.5: Age-wise analysis of advances pending

Sl. No	Pendency	Number of Advances	Amount (₹ in crore)
1	More than 10 years	5	0.99
2	More than 5 years and less than 10 years	9	14.36
3	More than 1 year but less than 5 years	264	147.58
4	Less than one year	1,371	154.88
Total		1,649	317.81

(Source: State Finance Accounts)

The pendency, involving substantial amounts, indicated laxity on the part of departmental officers in enforcing the codal provisions regarding adjustment of the advances. In these cases, there is no assurance that the expenditure has actually been incurred before the close of the respective financial years. Advances drawn and not accounted for increased the possibility of wastage /misappropriation /malfeasance, etc., of public money and unhealthy practices. This also calls for fixing responsibility on the respective defaulting DDOs. In the Exit Conference, Government stated that it would examine the issue of pending Temporary Advances.

4.7 Personal Deposit Accounts

As per the provisions contained under Article 269 of Tamil Nadu Financial Code Volume - I, the Government is authorised to open Personal Deposit (PD) Accounts where money is deposited to be utilised for specific purposes. These PD Accounts are managed by designated Administrators on the basis of sanctions received from the State Government, the Accountant General (A&E) issues permissions for transfer of funds from the Consolidated Fund to the concerned PD Account under Part III – Public Account which is required to be closed at the end of the year.

These transfers are booked as receipts under the Head 8443-00-106-AA and as final expenditure under the concerned service Major Heads relating to PD Accounts permitted to be opened by Accountant General (A&E) during the year.

As of March 2021, 68 accounts amounting to ₹ 1,153.30 crore under the Major Head 8443 Civil Deposits, Minor Head 106 – AA – Personal Deposits were not closed. During 2021-22, an amount of ₹ 1,272.21 crore (46 accounts) was transferred to PD accounts out of the Consolidated Fund of the State. Out of the total 114 accounts (including the 68 accounts not closed during the previous year), 109 PD accounts amounting to ₹ 1,271.62 crore was closed, leaving a balance of ₹ 1,153.89 crore in 5 accounts as on 31 March 2022.

Though, there were no inoperative PD accounts during the year, non-closure of PD Accounts created by debiting service head led to depiction of inflated expenditure under the related service head.

In the Exit Conference, the Government had stated that except one PD account, all accounts were closed on 31 March 2022 and the remaining one PD account was also closed on November 2022.

4.8 Indiscriminate use of Minor head ‘800’

Minor Head – “800 - Other Expenditure / Other Receipts” are intended to be operated only when appropriate heads have not been provided in the accounts. Routine operation of Minor Head - 800 is to be discouraged, since it renders the accounts opaque.

During 2021-22, an expenditure amounting to ₹ 43,676.41 crore (15.01 *per cent* of the total expenditure of ₹ 2,91,041.20 crore) under the Revenue and Capital sections was classified under the minor head ‘800 - Other Expenditure’.

Audit scrutiny revealed that under 12 Major Heads the expenditure booked under the minor head 800 exceeded 50 *per cent* of the total expenditure of the respective Major heads is detailed in **Appendix 4.2**. Further, it is also observed that under Major head 4700-Capital Outlay on Major irrigation, an amount of ₹ 2,131.46 crore was booked under Minor head 800 as against a total expenditure of ₹ 2,131.46 crore (100.00 *per cent*), in Major head 2425 – Co-operation, an amount of ₹ 6,151.46 crore was booked under Minor head 800 as against a total expenditure of ₹ 7,321.13 crore (84.02 *per cent*) and in Major head 2245 - Relief of Natural Calamities, an amount of ₹ 9,282.99 crore was booked under Minor head 800 as against a total expenditure of ₹ 9,704.44 crore (95.66 *per cent*). The extent of operation of Minor Head-800 for Other Expenditure, as a percentage of Total Expenditure during 2017-22 is given in **Chart 4.3** below.

Source: Finance Accounts of respective years, Government of Tamil Nadu.

As seen from **Chart 4.3** above, there has been large scale operation of Minor Head- 800 for Other Expenditure, with its share in total expenditure ranging from 10 per cent to 15 per cent during the period 2017-22.

The extent of operation of Minor Head-800 for Other Receipt, as a percentage of Total Receipt during 2017-22 is given in **Chart 4.5** below.

Source: Finance Accounts of respective years, Government of Tamil Nadu.

As seen from the **above Chart 4.4**, the operation of Minor Head 800-Other Receipts has been lower as compared the use of this Head in expenditure side and ranged between 3.49 per cent of total receipts in 2017-18 to 3.17 per cent of total receipts during 2021-22. Analysis revealed that out of the amount of ₹ 2,07,492.40 crore received during the year 2021-22, receipts amounting to ₹ 6,575.06 crore was booked under the Minor Head ‘800- Other Receipts’ which works out to 3.17 per cent of the total receipts during the year.

Instances where 50 *per cent* or more and significant amount of receipts booked under minor head ‘800’ are detailed in **Appendix 4.3**.

Though the issue of classification of the receipts/ expenditure under Minor Head 800 – Other Receipts/ Expenditure had been continuously reported in the previous State Finance Audit Reports (SFAR), there has been little improvement. The fact that such substantial proportions of the receipts/ expenditure under the concerned Major Head are booked under Minor Head 800 is a cause for concern, since it adversely impacts transparency in financial reporting.

4.9 Outstanding balances under Suspense and Debt, Deposit and Remittance (DDR) heads

Annexure to Statement 21 of the State Finance Accounts reflect the net balances under Suspense and Remittance Heads. The outstanding balances under these heads are worked out by aggregating the outstanding debit and credit balances separately under various heads. Clearance of suspense and remittance items depends on the details furnished by the State Treasuries/ Works and Forest Divisions, etc.

The Head “8658-101-PAO-Suspense” is intended for settlement of transactions between the Accountant General (A&E) and the various separate Pay and Accounts Officers (PAO) of Government of India. These involve transactions that mainly relate to the payments made by the State Government to Central Government Civil Pensioners. On clearance/settlement of this, the cash balance of the State Government will increase.

The transactions initially recorded under this head in the books of the AG are cleared on receipt of the Cheques/Demand Drafts from the Pay and Account Officers and on the issue of Cheque/Demand Draft in respect of amounts received in the State Treasuries on behalf of the Pay and Account Officers. Outstanding debit balance under this head would mean that payments have been made by the AG on behalf of a PAO, which were yet to be reimbursed. As the amount expended to the extent of ₹ 181.98 crore (Dr) had not been reimbursed to the State funds, the cash balance outstanding as on 31 March 2022 showed a decreased balance.

4.10 Non-reconciliation of Departmental figures

Controlling Officers of the Departments have to exercise effective control over spending to keep it within the budget grants and to ensure accuracy of their accounts. As per Rules 124 and 127 of the Tamil Nadu Budget Manual, departmental accounts maintained by the Chief Controlling Officers (CCOs) and the progressive actuals, month by month are required to be reconciled with those entered in the books of the AG (A&E). As per Rule 128 of the Tamil Nadu Budget Manual, the CCO is required to send a reconciliation certificate to the AG(A&E) after necessary adjustments are made either in the accounts of the CCO or in the books of the AG(A&E).

It was however noticed that for the year 2021-22, out of 155/213 CCOs for receipts/expenditure in the State, only 76/104 CCOs had fully reconciled the figures respectively. A further trend analysis for the past three years revealed that the percentage of non-reconciliation has been on the increasing trend as detailed in **Table 4.6** below:

Table 4.6: Status of Non-Reconciliation of Receipts and Expenditure figures by CCOs

Year	Total No. of Controlling Officers	CCOs fully reconciled	CCOs not fully reconciled	% of Non-reconciliation
Receipts				
2017-18	160	74	86	53.75
2018-19	153	78	75	49.02
2019-20	156	62	94	60.26
2020-21	151	105	46	30.46
2021-22	155	76	79	50.97
Expenditure				
2017-18	212	129	83	39.15
2018-19	214	134	80	37.38
2019-20	210	99	111	52.86
2020-21	211	174	37	17.54
2021-22	213	104	109	51.17

(Source: Data compiled by the Accountant General (A&E), Tamil Nadu)

Further, due to the process of restructuring of loans during 2018-19, a number of adverse balances were created. As the awareness on restructuring of loan 2018-19 has not yet reached the loanee entities completely upto 2021-22, the repayment of principal and payment of interest had been recorded under the old loan heads which, in turn, projected excess receipts under old heads and non-receipts under new heads. Hence, the details on arrears on repayment of principal and interest is yet to be reconciled.

Failure to exercise/adhere to the codal provisions and executive instructions in non-reconciliation not only results in misclassification and incorrect booking of receipts and expenditure in the accounts, but also defeats the very objective of budgetary process.

In the Exit conference, the ACS (Finance) stated that the issue would be looked into.

4.11 Reconciliation of Cash balances

In terms of provisions of Section 20, 21 and 21 A of the Reserve Bank of India (RBI) Act, 1934, the RBI acts as a banker to both the Central and State Governments. The transactions on behalf of State Government are carried out at offices of RBI and its agency banks authorised to conduct Government business on its behalf.

While the principal deposit accounts of the State Governments are maintained at the Central Accounts Section (CAS) of RBI at Nagpur, the regional offices of RBI account for the State Government transactions reported by agency banks through link offices and report to CAS, Nagpur.

As per the Memorandum of Instructions (MoI) of the RBI on the Accounting and Reconciliation of the State Government transactions, the agency branch have to send the Receipt /Payments scrolls on a daily basis in the prescribed form to the concerned sub-treasury / treasury without delays. Also, the consolidated monthly statement of the agency banks prepared by the link banks are to be sent to the RBI which in turn should forward the monthly consolidated statement to the Accountant General (A&E).

In view of the above system in place, there should generally not be any difference between cash balance position as per the books of the Accountant General and CAS figures. Even if differences occur in the month wise balance, there should not be any difference between cash balance position at the closing of Annual Accounts by April 25 of every year.

However, there was a sizeable net difference (₹ 159.61 crore) in the closing balance for the year 2021-22 between the cash balance as per books of accounts of the Accountant General and the cash balance as reported by the RBI. The details of differences in the Cash balance is given in **Table 4.7**.

Table 4.7: Differences in cash balances

Period	Debit difference		Credit difference	
	No. of items	₹ in Crore	No. of items	₹ in Crore
Upto 2016-17	655	3,997.27	870	4,246.54

Analysis of such occurrences for the last five years revealed that the differences in cash balances were on an decreasing trend from 2019-20 to 2021-22 as shown in **Table 4.8** below.

Table 4.8: Trend of differences in cash balances

2021-22	266.95 (Dr.)	426.56 (Cr.)	159.61 (Cr.)

(Source: Statement 2 of Finance Accounts of the respective years)

The difference is mainly due to non-reporting of receipts by the Banks to the Treasuries.

4.12 Compliance with Accounting Standards

As per Article 150 of the Constitution of India, the President of India may, on the advice of the Comptroller and Auditor General of India, prescribe the form of accounts of the Union and of the States. The Comptroller and Auditor General of India set up a Government Accounting Standards Advisory Board (GASAB) in 2002, for formulating standards for government accounting and financial reporting, to enhance accountability mechanisms. On the advice of the Comptroller and Auditor General of India, the President of India has so far notified three Indian Government Accounting Standards (IGAS). The extent of non-compliance with the standards by the Government of Tamil Nadu in its financial statements for the year 2021-22 is given in **Table 4.9**.

Table 4.9: Compliance with Accounting Standards

Sl. No	Accounting Standards	Essence of IGAS	Compliance by State Government	Impact of deficiency
1	IGAS-1: Guarantees given by the Government – Disclosure requirements	This standard requires the Government to disclose the amount of guarantees (class and sector-wise) given during the year in its financial statements.	Complied	--
2	IGAS-2: Accounting and Classification of Grants-in- Aid	Grants-in-Aid are to be classified as, revenue expenditure in the accounts, even if it involves creation of assets. Grant-in-aid given in kind is required to be disclosed.	Complied	--
3	IGAS-3: Loans and Advances made by Government	Disclosures on loans and advances made by the Government.	Partly complied. The GoTN has restructured old loans given by the Government during 2018-19. Though the Statement 7 & 18 of the Finance Accounts on Loans and Advances given by the state Government have been prepared as per prescribed format of IGAS-3, the reconciliation of figures booked under the loan heads was not completed during 2021-22, subsequent to the restructuring of loans and advances given by the Government during the year 2018-19. Hence, details relating to the repayment of arrears of loan entities could not be included.	Disclosure requirements of Loans and Advances not met by the State Government

4.13 Audit of Bodies/Authorities under section 19(3) and 20(1) of CAG’s DPC Act - Non entrustment of audit despite request

As per Section 19(3) of the CAG’s DPC Act, the Governor/ Administrator may, in the public interest, request the CAG to audit the accounts of a corporation established by law made by the legislature of the State or of the Union Territory, as the case may be, and where such request has been made, the CAG shall audit the accounts of such corporation and shall have, for the purposes of such audit, right of access to the books and accounts of such corporation.

Apart from Section 19, where the audit of the accounts of any ‘body’ or ‘authority’ has not been entrusted to the CAG by or under any law, he shall, if requested so to do by the President, or the Governor of a State or the Administrator of a Union Territory having a Legislative Assembly, as the case may be, undertake the audit of the accounts of such body or authority on such terms and conditions as may be agreed upon between him and the concerned Government and shall have, for the purposes of such audit, right of access to the books and accounts of that body or authority (Section 20).

Audit certificate is issued in case of above mentioned autonomous bodies and authorities provided CAG is the sole auditor. Thus, these bodies and authorities are required to prepare annual accounts and submit to CAG for audit. Apart from Audit certificate, on the completion of financial audit, the audit office issues separate audit report (SAR) that is part of the audit certificate on the accounts. These SARs are to be placed before the State legislature.

- 1) Certification/Compliance Audit of the Commissions of Protection of Child Rights was to be taken up by CAG (April 2019). However, the Commission has failed to prepare the annual accounts in the mandated format from 2012-13 onwards. Despite issue of repeated reminders to intimate the status of preparation and submission of the Annual Accounts of the Commission, Audit could not be carried-out due to the non-compilation of annual accounts as prescribed by the C&AG. Hence certification audit of annual accounts could not be carried out.
- 2) Scrutiny of records revealed that Jeevan Blood Bank and Research Centre (JBBRS) was granted ₹ 9 crore to collect, process, test type and to store 3000 cord blood donations over the period of three years to cure thalassemia and blood cancer disease patients in Tamil Nadu. The Secretary to Government, Finance Department had stated (July 2013) the JBBRS shall be open to Audit. Since JBBRS is registered under “Public Charitable Trust”, which is a private body not within the sole audit jurisdiction of C&AG, it was supposed to be taken up for Audit under section 20(1) of the DPC Act, 1971 as it envisages that that President or the Governor of a State/administrator of a UT having a Legislative Assembly, as the case may be, undertake the audit of the accounts of such bodies or authority on such terms and conditions as may be agreed upon between him and concerned Government and shall

have, for the purpose of such audit, right of access to the books and accounts of that body. Based on the above the Secretary to Government, Health and Family Welfare Department was requested (March 2017, Oct 2018, May 2020) to facilitate the Audit. Despite repeated requests from Audit, the audit could not be taken up since the approval of the Governor had not been received as on 31 March 2022.

4.14 Non-submission/ Delay in submission of accounts

Section 14 and 15 of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 (DPC Act) envisages audit of accounts of institutions receiving Government grants, subject to conditions stipulated based on the quantum of the grants received, etc. In order to identify the institutions which attract audit under the DPC Act, every year, the heads of department were required to furnish to Audit the information about the financial assistance given to various institutions, the purposes for which the assistance was granted and the total expenditure of these institutions/bodies.

The Annual Accounts of 217 Institutions/Bodies due upto 2021-22 were not received (August 2022) by Audit from the heads of department. The details are given in **Appendix 4.4** and their age-wise pendency is presented in **Table 4.10**.

Table 4.10: Age-wise analysis of arrears of Accounts of bodies/authorities

Sl. No.	Delay in number of years	No. of Institutions
1	Upto one year	68
2	More than one year and upto three years	75
3	More than three years and upto five years	18
4	Five years and above	56
	Total	217

(Source: Data compiled from information furnished by Heads of Department)

The major defaulters were educational institutions receiving Government grants for salaries, maintenance, etc. The delay in finalisation of accounts would hamper Audit in providing an assurance to the Legislature that the grants were being utilised for the intended objective.

In the exit conference, the Deputy Secretary (Finance) stated that instructions would be issued to Heads of the Departments (HODs) to furnish the Annual Accounts within the specified time.

4.15 Departmental Commercial Undertakings/Corporations/Companies

According to Section 394 and 395 of the Companies Act, 2013, Annual Report on the working and affairs of a Government Company is to be prepared within three months of its Annual General Meeting (AGM). As soon as may be after such preparation, the Annual Report should be laid before the State Legislature together with a copy of the Audit Report and any comments upon or supplement to the Audit Report, made by the CAG.

The Certification Audit for the year 2021-22 of Public Sector Undertakings (PSUs) has not been commenced as on November 2022. The details of arrears of accounts for the year ending March 2022 is listed in **Table 4.11** below:

Table 4.11: Details of arrears of PSUs/Companies

Particulars	Nos.
Total No. of PSUs (including Power Sector)	85
Accounts submitted during the year 2021-22	76
Accounts finalised during 2021-22	73
Number of previous year's accounts finalised during 2021-22	9
Number of accounts not received.	15
Extent of arrears	2 years (2020-21 & 2021-22)

(Source: Data compiled by the Commercial Wing of Accountant General (Audit –I & II), Tamil Nadu)

Since the State Government had made investment in form of equity and loans in the PSUs whose accounts had been falling in arrears, the non-finalisation of accounts by these companies would lead to the Government investments remaining outside the oversight of Audit as well as the State Legislature thereby making them highly susceptible to instances of fraud and misappropriation. Further, the non-finalisation of Accounts by the Companies are also in violation of Sections 394 and 395 of the Companies Act.

In the absence of timely finalization of accounts, results of the investment of the Government remain outside the purview of State Legislature and escape scrutiny by Audit. Consequently, corrective measures, if any, required for ensuring accountability and improving efficiency cannot be taken in time.

The above denotes failure of the concerned administrative departments and specifically of the Finance Department to ensure that the defaulting companies and corporations comply with the relevant Acts. It is recommended that Government shall fix responsibility on Chief Executive officers for letting the accounts fall into arrears.

4.16 Misappropriation, Losses and Thefts

Article 294 of the Tamil Nadu Financial Code.(Vol-I) stipulates that “Heads of Office” should report all cases of defalcations or loss of public moneys, stores or other movable or immovable properties to the AG (A&E). Further, the Financial Code prescribes the principles and procedures to be followed for enforcing responsibility for losses and disposal of such cases.

As on 31 March 2022, 361 cases of misappropriation, shortages and theft involving a total amount of ₹ 14.53 crore, were pending disposal. The department-wise break-up of these are detailed in **Appendix 4.5**. The age-profile of the pending cases and the reasons for pendency are summarised in **Tables 4.12 and 4.13**.

4.17 Follow up on State Finance Audit Report

The Public Accounts Committee had 15 sittings on SFAR from 2013-14 to 2021-22. As of September 2022, out of 180 paragraphs/reviews selected for discussion for the period 2008-09 to 2019-20 on the State Finance Audit Report of Tamil Nadu, 19 paragraphs/reviews have been discussed and 161 paragraphs/reviews are pending discussion.

4.18 Conclusion and recommendations

During the period 2018-22, 70 per cent of the tax collected were not credited to the Government Accounts and were retained with TANGEDCO. The possibility of the amount being expended by TANGEDCO for its operational purposes cannot be ruled out. Such non-realisation in the Government account and retaining the collected tax for such a long period is fraught with the risk of temporary misappropriation.

Recommendation: Responsibility should be fixed on both TANGEDCO and the Government for non/short realisation of Government taxes into the Government account. The Government should also immediately direct the TANGEDCO to remit all past dues arising out of Electricity Tax.

(Paragraph 4.1.1)

Non submission of UCs (₹ 803.29 crore) indicates the failure of the departmental officers to comply with the rules to ensure accountability besides defeating the intended objective of providing these Grants. This assumes greater importance if such UCs were pending against Grants-in-Aid meant for capital expenditure.

The non-adjustment of Temporary Advances involving substantial amounts (₹ 317.81 crore drawn and pending over a period of years) indicated laxity on the part of departmental officers in enforcing the codal provisions regarding adjustment of the advances.

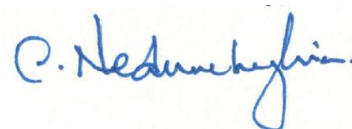

Recommendation: Government should ensure that controlling officers adjust temporary advances and submit UCs in time and fix responsibility on those who fail to do so. Government should consider adopting suitably the Expenditure Advance Transfer (EAT) module of PFMS in its IFHRMS, to ensure timely adjustment of advances and submission of UCs.

(Paragraphs 4.4 and 4.6)

As of March 2022, 232 Accounts pertaining to PSUs/Bodies/Authorities were pending for finalization and the extent of arrears ranged between one year and more than five years.

Recommendation: The Government should fix responsibility on the concerned Chief Executive Officers for pendency of accounts.

(Reference: Paragraph 1.4)

Part A: Structure and Form of Government Accounts		
Structure of Government Accounts: The accounts of the State Government are kept in three parts (i) Consolidated Fund, (ii) Contingency Fund and (iii) Public Account.		
Part I: Consolidated Fund: All Receipts and Expenditure on Revenue and Capital Account, Public Debt and Loans and Advances forms the Consolidated Fund of the State.		
Part II: Contingency Fund: Legislature may by law establish a Contingency Fund which is in the nature of an imprest. The Fund is placed at the disposal of the Governor to enable advances to be made for meeting unforeseen expenditure pending authorisation of such expenditure by the State Legislature. The fund is recouped by debiting the expenditure to the functional major head concerned in the Consolidated Fund of the State.		
Part III: Public Account: All other public moneys received by or on behalf of the Government are credited to the Public Account. The expenditure out of this account is not subject to the vote of the Legislature. In respect of the receipts into this account, Government acts as a banker or trustee. Transactions relating to Debt (other than Public Debt in Part I), Deposits, Advances, Reserve Funds, Remittances and Suspense form the Public Account.		
Part B: Layout of Finance Accounts		
Statement	Title	Layout
	Volume I	
Statement No.1	Statement of Financial Position	Cumulative figures of assets and liabilities of the Government, as they stand at the end of the year, are depicted in the statement. The assets are valued at historical cost. The assets comprise Financial Assets and Physical Assets. The latter are shown against “(i) Capital Expenditure and (ii) Other Capital Expenditure” in this Statement.
Statement No.2	Statement of Receipts and Disbursements	This is a summarised statement showing all receipts and disbursements of the Government during the year in all the three parts in which Government account is kept, namely, the Consolidated Fund, Contingency Fund and Public Account. Further, within the Consolidated Fund, receipts and expenditure on revenue and capital account are depicted distinctly.
Statement No.3	Statement of Receipts (Consolidated Fund)	This Statement comprises revenue and capital receipts and receipts from borrowings of the Government consisting of loans from the Government of India, other institutions, market loans raised by the Government and recoveries on account of loans and advances made by the Government.
Statement No.4	Statement of Expenditure (Consolidated Fund)	This Statement not only gives expenditure by function (activity) but also summarises expenditure by nature of activity (objects of expenditure).
Statement No. 5	Statement of Progressive Capital Expenditure	This Statement details progressive capital expenditure by functions, the aggregate of which is depicted in Statement 1.
Statement No.6	Statement of Borrowings and other Liabilities	Borrowings of the Government comprise market loans raised by it (internal debt) and Loans and Advances received from the Government of India. Both these together form the public debt of the State Government. In addition, this summary statement depicts ‘other liabilities’ which are the balances under various sectors in the Public Account. In respect of the latter, the Government acts as a trustee or custodian of the funds, hence, these constitute liabilities of the Government. The Statement also contains an Explanatory Note, i.e. a note on the quantum of net interest charges met from Revenue Receipts.
Statement No.7	Statement of Loans and Advances given by the Government	The Loans and Advances given by the State Government are depicted in Statement 1 and recoveries, disbursements feature in Statements 2, 3 and 4. Here, Loans and Advances are summarised sector and loanee group wise. This is followed by a note on the recoveries in arrear in respect of loans, details of which are maintained by the State Government departments.

Statement	Title	Layout
Statement No.8	Statement of Investments of the Government	The summarised position of Government investment in the share capital of different concerns is depicted in this statement for the current and previous year.

Part A: Methodology adopted for assessment of Fiscal Position	
<p>The norms/ceilings prescribed by the FFC for selected fiscal variable along with its projections for a set of fiscal aggregates and the commitments/projections made by the Government in the Tamil Nadu Fiscal Responsibility Act, 2003 and in other Statements required to be laid in the Legislature under the Act (Part B of this Appendix) are used to make qualitative assessment of the trends and patterns of major fiscal aggregates. Assuming that GSDP is the good indicator of the performance of the State's economy, major fiscal aggregates like tax and non-tax revenue, revenue and capital expenditure, internal debt and revenue and fiscal deficits have been presented as percentage to the GSDP at current prices. The buoyancy coefficients for relevant fiscal variables with reference to the base represented by GSDP have also been worked out to assess as to whether the mobilisation of resources, pattern of expenditure etc., are keeping pace with the change in the base or these fiscal aggregates are also affected by factors other than GSDP. The definitions of some of the selected terms used in assessing the trends and patterns of fiscal aggregates are given below:</p>	
Terms	Basis for calculation
Buoyancy of a parameter	Rate of Growth of the parameter/GSDP Growth
Buoyancy of a parameter (X) with respect to another parameter (Y)	Rate of Growth of parameter (X)/ Rate of Growth of parameter (Y)
Rate of Growth (ROG)	$[(\text{Current year Amount}/\text{Previous year Amount})-1] * 100$
Development Expenditure	Social Services expenditure + Economic Services expenditure
Average interest paid by the State	$\text{Interest payment}/[(\text{Amount of previous year's Fiscal Liabilities} + \text{Current year's Fiscal Liabilities})/2] * 100$
Interest receipts as percentage of outstanding Loans and Advances	$\text{Interest Received} = [(\text{Opening balance} + \text{Closing balance of Loans and Advances})/2] * 100$
Revenue Surplus	Revenue Receipts- Revenue Expenditure
Fiscal Surplus	Revenue Receipts + Miscellaneous Capital Receipts - (Revenue Expenditure + Capital Expenditure + Net Loans and Advances)
Primary Surplus	Fiscal Surplus - Interest payments
Part B: The Tamil Nadu Fiscal Responsibility Act, 2003	
<p>The State Government enacted the Tamil Nadu Fiscal Responsibility Act, 2003 which was amended first to bring it in line with the requirements prescribed by the Twelfth Finance Commission followed by Thirteenth, Fourteenth and Fifteenth Finance Commissions to ensure prudence in fiscal management and fiscal stability by progressive elimination of revenue deficit, sustainable debt management consistent with fiscal stability, greater transparency in fiscal operations of the Government and conduct of fiscal policy in a medium term fiscal framework. The Act prescribed the following fiscal management targets:</p>	
(a)	Reduce the ratio of revenue deficit to revenue receipts every year by three to five <i>per cent</i> depending on the economic situation in that year beginning from financial year 2002-03 and eliminate revenue deficit by 2023-24 and adhere to it thereafter.
(b)	Maintain the ratio of fiscal deficit to GSDP as not more than three <i>per cent</i> by 31 March 2024 and adhere to it thereafter.
(bb)	Maintain the ratio of total outstanding debt to GSDP with medium term goal of not being more than 24.50 <i>per cent</i> during 2011-12; 24.80 <i>per cent</i> during 2012-13; 25.00 <i>per cent</i> during 2013-14; 25.20 <i>per cent</i> during 2014-15 and thereafter maintain such <i>per cent</i> as may be prescribed.
(c)	Cap outstanding guarantees within 100.00 <i>per cent</i> of revenue receipts of previous year or 10.00 <i>per cent</i> of GSDP, whichever is lower.

Explanatory Notes

The abridged accounts in the foregoing statements have to be read with comments and explanations in the Finance Accounts. Government accounts being mainly on cash basis, the deficit on Government account, indicates the position on cash basis, as opposed to accrual basis in commercial accounting. Consequently, items payable or receivable or items like depreciation or variation in stock figures, etc., do not figure in the accounts. Suspense and Miscellaneous balances include cheques issued but not paid, payments made on behalf of the State and other pending settlements, etc.

³ Effective outstanding fiscal liabilities would be ₹ 5,96,331 crore as the Department of Expenditure, GoI decided that GST compensation decided that GST compensation of ₹ 8,095 crore given in 2021-22 and ₹ 6,241 crore in 2021-22 to State as back-to-back loan under debt receipts would not be treated as debt of the State for any norms which may be prescribed by the Finance Commission.

⁴ The back-to-back loan ₹ 8,095 crore received during the year and ₹ 6,241 crore received during 2020-21 from GoI in lieu of GST compensation has not been considered as Debt for working out the indicator.

Glossary of terms and abbreviations used in the Report

Terms	Description
Accounts or actuals	‘ Accounts ’ or ‘ actuals ’ of a year - are the amounts of receipts and disbursements for the financial year beginning on April 1 st and ending on March 31 st following, as finally recorded in the Accounting authority’s books (as audited by C&AG). Provisional Accounts refers to the unaudited accounts.
Administrative approval	‘ Administrative approval ’ of a scheme, proposal or work - is the formal acceptance thereof by the competent authority for the purpose of incurring expenditure. Taken with the provision of funds in the budget, it operates as a financial sanction to the work during that particular year in which the Administrative Approval is issued.
Annual financial statement	‘ Annual financial statement ’ – Also referred to as Budget means the statement of estimated receipts and expenditure of the Central/State Government for each financial year, laid before the Parliament /State Legislature.
Appropriation	‘ Appropriation ’ - means the amount authorized by the Parliament/State Legislature for expenditure under different primary unit of appropriation or part thereof placed at the disposal of a disbursing officer.
Charged Expenditure	‘ Charged Expenditure ’ - means such expenditure as is not to be submitted to the vote of the Legislature under the provisions of the Constitution.
Consolidated Fund of India/ State	‘ Consolidated Fund of India/State ’ - All revenues of the Union/State Government, loans raised by it and all moneys received in repayment of loans form the Consolidated Fund of India/ State. No moneys out of this Fund can be appropriated except in accordance with the law and for the purposes and in the manner provided in the Constitution.
Contingency Fund	‘ Contingency Fund ’ is in the nature of an imprest. The Contingency Fund is intended to provide advances to the executive /Government to meet unforeseen expenditure arising in the course of a year pending its authorization by the Parliament/State Legislature. The amounts drawn from the Contingency Fund are recouped after the Parliament/State Legislature approves it through the Supplementary Demands.
Controlling Officer (budget)	‘ Controlling Officer (budget) ’ - means an officer entrusted by a Department with the responsibility of controlling the incurring of expenditure and/or the collection of revenue. The term includes the Heads of Department and also the Administrators.
Drawing and Disbursing Officer’ (DDO)	‘ Drawing and Disbursing Officer’ (DDO) – means a Head of Office and also any other Officer so designated by the Finance Department of the State Government, to draw bills and make payments on behalf of the State Government. The term shall also include a Head of Department where he himself discharges such function.

Terms	Description
Excess Grant	‘Excess Grant’ – Excess grant means the amount of expenditure over and above the provision allowed through the original/supplementary grant, that requires regularization by obtaining excess grant from the Parliament /State Legislature under Article 115/205 of the Constitution.
New Service	‘New Service’ – As appearing in Article 115(1)(a)/205(1)(a) of the Constitution, New Service means expenditure arising out of a new policy decision, not brought to the notice of Parliament/State Legislature earlier, including a new activity or a new form of investment.
New Instrument of Service	‘New Instrument of Service’ - means relatively large expenditure arising out of important expansion of an existing activity.
Public Accounts	‘Public Accounts’ - means the Public Account referred to in Article 266(2) of the Constitution. The receipts and disbursements such as deposits, reserve funds, remittances, etc. which do not form part of the Consolidated Fund are included in the Public Account. Disbursements from the Public Account are not subject to vote by the Parliament/State Legislature, as they are not moneys issued out of the Consolidated Fund of India/State.
Re-appropriation	‘Re-appropriation’ - means the transfer, by a competent authority, of savings from one unit of appropriation to meet additional expenditure under another unit within the same grant or charged appropriation.
Revised Estimate	‘Revised Estimate’ - is an estimate of the probable receipts or expenditure for a financial year, framed in the course of that year, with reference to the transactions already recorded and anticipation for the remainder of the year in the light of the orders already issued.
Supplementary Demands for Grants	‘Supplementary Demands for Grants’ - means the statement of supplementary demands laid before the legislature, showing the estimated amount of further expenditure necessary in respect of a financial year over and above the expenditure authorized in the Annual Financial Statement for that year. The demand for supplementary may be token, technical or substantive/cash. <ul style="list-style-type: none"> a) Cash Supplementary is over and above the original budget provisions and results in enhancement of the allocation for the Demand/Grant. It should be obtained as a last resort and after proper due diligence. Presently, this method is followed by the State. b) There are four Sections in each Demand i.e., Revenue Voted, Revenue Charged, Capital Voted and Capital Charged. Technical Supplementary, after obtaining the approval of the State Legislature, allows to utilize the savings of one of the Sections for any other Section. c) Token Supplementary allows to utilize the savings within the same section of the grant.

Major Head	‘Major Head’ - means a Major Head of account for the purpose of recording and classifying the receipts and disbursements of the State. A Major Head, particularly the one falling within the Consolidated Fund, generally corresponds to a ‘function’ of Government such as Agriculture, Education, Health, etc.
Sub-Major Head	‘Sub-Major Head’ - means an intermediate head of account introduced between a Major Head and the Minor Heads under it, when the Minor Heads are numerous and can conveniently be grouped together under such intermediate Head.
Minor Head	‘Minor Head’ - means a head subordinate to a Major Head or a Sub-Major Head. A Minor Head subordinate to a Major Head identifies a “programme” undertaken to achieve the objectives of the function represented by the Major Head.
Sub-Head	‘Sub-Head’ - means a unit of account next subordinate to a Minor Head which normally denotes the scheme or organisation under that Minor Head or programme.
Major Work	‘Major Work’ - means an original work, the estimated cost of which exclusive of departmental charges exceeds the amount as notified by the Government from time to time.
Minor Work	‘Minor Work’ - means an original work, the estimated cost of which exclusive of departmental charges does not exceed the amount as notified by the Government from time to time.
Modified Grant or Appropriation	‘Modified Grant or Appropriation’ - means the sum allotted to any Sub-Head of Appropriation as it stands after Re-Appropriation or the sanction of an Additional or Supplementary Grant by competent authority.
Supplementary or Additional Grant or Appropriation	‘Supplementary or Additional Grant or Appropriation’ - means a provision included in an Appropriation Act, during the course of a financial year, to meet expenditure in excess of the amount previously included in an Appropriation Act for that year.
Schedule of New Expenditure	‘Schedule of New Expenditure’ - means a statement of items of new expenditure proposed for inclusion in the Budget for the ensuing year.
Token demand	‘Token demand’ - means a demand made to the Assembly for a nominal or token sum when, for example, it is proposed to meet the entire expenditure on a new service from savings out of the sanctioned budget grant.
GSDP	GSDP is defined as the total income of the State or the market value of goods and services produced using labour and all other factors of production at current prices.
Buoyancy ratio	Buoyancy ratio indicates the elasticity or degree of responsiveness of a fiscal variable with respect to a given change in the base variable. For instance, revenue buoyancy at 0.6 implies that revenue receipts tend to increase by 0.6 percentage points, if the GSDP increases by one <i>per cent</i> .
Development expenditure	The analysis of expenditure data is disaggregated into development and non-development expenditure. All expenditure

	relating to Revenue Account, Capital Outlay and Loans and Advances is categorised into Social Services, Economic Services and General Services. Broadly, the Social and Economic Services constitute development expenditure , while expenditure on General Services is treated as non-development expenditure.
Average interest rate	Average interest rate is defined as the percentage of interest payment made to average financial liabilities of the State during the year i.e. $(\text{sum of opening and closing balances of fiscal liabilities}/2) \times 100$
Debt sustainability	Debt sustainability is defined as the ability of the State to maintain a constant debt-GSDP ratio over a period of time and also embodies the concern about the ability to service its debt. It also refers to the sufficiency of liquid assets to meet current or committed obligations and the capacity to keep a balance between the costs of additional borrowings and the returns from such borrowings.
Debt stabilisation	A necessary condition for stability states that if the rate of growth of the economy exceeds the interest rate or cost of public borrowings, the debt-GSDP ratio is likely to be stable provided primary balances are either zero, positive or moderately negative. Given the rate spread (GSDP growth rate - interest rate) and the quantum spread (Debt X rate spread), the debt sustainability condition states that if the quantum spread together with the primary deficit is zero, the debt-GSDP ratio would be constant or the debt would stabilise eventually. On the other hand, if the primary deficit together with the quantum spread turns out to be negative, the debt-GSDP ratio would be rising. In case it is positive, the debt-GSDP ratio would eventually be falling.
Sufficiency of Non-debt receipts	Adequacy of incremental non-debt receipts of the State to cover incremental interest liabilities and incremental primary expenditure. Debt sustainability could be significantly facilitated if incremental non-debt receipts could meet the incremental interest burden and the incremental primary expenditure.
Liability of borrowed funds	Defined as the ratio of the debt redemption (principal + interest payments) to total debt receipts and indicates the extent to which the debt receipts are used in debt redemption, indicating the net availability of borrowed funds.
Primary revenue deficit	Primary revenue deficit defined as gap between non-interest revenue expenditure of the State and its non-debt receipts indicates the extent to which the non-debt receipts of the State are able to meet the primary expenditure incurred under revenue account.
Primary expenditure	Primary expenditure of the State, defined as the total expenditure net of the interest payments, indicates the expenditure incurred on the transactions undertaken during the year.
