In two[7] out of 21 test checked ULBs, 26 beneficiaries were paid assistance of ₹ 2.21 lakh in excess during the period 2016-17 to 2020-21 and in MC Shopian double payment of ₹ 0.64 lakh was made to three beneficiaries for conversion of insanitary latrines into sanitary latrines and construction of new latrines. The Executive Officers(EO), MC Sopore and MC Shopian stated that excess amount would be recovered from the beneficiaries. The EO, MC Shopian stated (June 2022) that the excess payment of ₹ 10,000 made had been recovered from one beneficiary and the process for recovery of the amount of double payment of ₹ 0.64 lakh would be started shortly. EO, MC Sopore stated (June 2022) that ₹ 1.95 lakh had already been recovered from 23 beneficiaries, and the remaining amount would be recovered soon.

The Director Finance, H&UDD stated (August 2022) that CEO Shopian and CEO Sopore had initiated recoveries from the concerned beneficiaries and process for recovery of balance amount would be completed in shortest possible time.

5.5 Construction of IHHLs by NGOs

Scheme guidelines stipulate that the construction of IHHL should be undertaken by the household itself. Though guidelines did not provide for construction of IHHLs through contractors or Non-Government Organisations (NGOs), the MoUD authorised engagement of NGOs and contractors for construction of IHHLs for identified beneficiaries to achieve ODF targets. The erstwhile State Government had empanelled various NGOs for construction of new IHHLs at a cost of ₹ 17,490 per unit.

In the terms and conditions of orders issued for engagement of NGOs for construction of IHHLs it was stipulated that the construction work be closely monitored by the engineering staff of the concerned ULB to ensure that execution of work was as per approved specifications prescribed in the scheme guidelines. Payment in respect of IHHL constructed by an NGO was to be made in stages only after completion certificate is furnished by the concerned beneficiary. Audit however, noticed that

[7] Shopian: one (₹ 0.10 lakh) and Sopore: 25 (₹ 2.11 lakh).

stage wise documentary evidence regarding construction of IHHL to be produced by the NGOs and certified by engineering staff of ULBs for making payment in stages of construction of IHHL were not specified, which led to irregularities as detailed in **Para 5.5.1**.

5.5.1 Lump sum payment to NGOs instead of in stages and without monitoring execution of work with approved specifications

₹ 19.87 crore was paid to NGOs in 20 ULBs[8] for construction of 12,297 IHHLs for identified beneficiaries. Audit noticed that IHHLs constructed by NGOs for beneficiaries were not closely monitored to see whether work was executed as per approved specifications as no monitoring reports were on record. Instead of making payment in stages as envisaged in empanelment and allotment orders, the payments were made to NGOs in lumpsum. The photographic evidence in support of having closely monitored the physical progress of construction work in stages was not kept on record.

- Audit selected 1,315 cases of IHHLs for collection of data in respect of completion certificates obtained from beneficiaries for passing payments in favour of NGOs and noticed that in respect of 364 IHHLs completion certificates were not on record; in respect of 123 IHHLs completion certificates though signed by beneficiaries were not authenticated by the ULB authorities and in six cases completion certificates were not signed by beneficiaries.

Chief Executive Officer, Municipal Council Shopian stated (June 2022) that final instalment has been released to the NGOs after obtaining completion certificate/ verification from the monitoring committee duly signed by the beneficiary, Junior Engineer and Executive Officer.

Chief Executive Officer, Municipal Council Anantnag stated (June 2022) that technical verification in respect of these units was received from concerned AEE and all completion certificates were signed by the CEO as well as by the Engineering staff. The reply is not based on fact as no completion certificates of beneficiaries were on record.

The Director Finance, H&UDD stated (August 2022) that payment was released to the NGOs after obtaining requisite certificate from the beneficiaries/ JE/ CEO. The reply is not based on fact as out of 1,315 selected cases of IHHLs completion certificates in respect of 364 IHHLs were not on record and in respect of 123 IHHLs completion certificates though signed by beneficiaries were not authenticated by the ULB authorities and in six cases completion certificates were not signed by beneficiaries.

The replies were not convincing, as no monitoring reports and photographic evidence in support of having closely monitored the physical progress of construction work in stages were on record and payments were made to NGOs in lump sum.

[8] Anantnag, Arnia, Baramulla, Bandipora, Bhaderwah, Doda, Dooru, Frisal, JMC, Kathua, Kulgam, Kupwara, Mattan, Poonch, Ramnagar, Samba, Shopian, SMC, Sopore and Udhampur

- In JMC, audit noticed that actual site of construction of IHHLs by NGOs was not mentioned in records in respect of 339 beneficiaries. As per records 331 beneficiaries had addresses of locations falling outside the jurisdiction of JMC and eight beneficiaries had addresses of other states.

The Director Finance, H&UDD stated (August 2022) that re-verification had been initiated by a committee constituted for the purpose and that if any ineligible beneficiary was found the recovery proceedings would be initiated.

These lapses on the part of ULB authorities cast doubt over genuineness of construction of IHHLs by NGOs, as well as over the genuineness of expenditure incurred on these constructions. Doubtful construction of IHHLs by NGOs was also corroborated by physical verification and beneficiary survey as discussed in **Para 5.5.1 (A)**.

5.5.1 (A) Doubtful payment of ₹ 116.46 lakh

In 18[9] out of 21 selected ULBs, empanelled NGOs were allotted (2016-2018) work for construction of new IHHLs and conversion of insanitary to sanitary IHHLs in respect of 11,577 beneficiaries.

Beneficiary survey was carried out in 18 ULBs with randomly selected 942 beneficiaries whose IHHLs were also physically verified.

- Out of 942[10] selected beneficiaries, 633 beneficiaries[11] stated that their IHHLs were constructed by NGOs. Out of these 633 IHHLs, 453 IHHLs were non-functional, 95 were complete, 16 were left half way[12], and 69 IHHLs were dismantled by beneficiaries. (observations relating to IHHLs constructed by NGOs are detailed in **Para 5.5.1 (B)**. Thus, out of 942 selected IHHLs constructed by NGOs, only 95 IHHLs (10 *per cent*) were found functional.
- Out of 942 selected beneficiaries, 238 beneficiaries[13] stated that NGOs had not constructed their IHHLs but they constructed IHHLs on their own. Out of these 238 beneficiaries, 137 stated[14] that they had received ₹ 11.23 lakh (out of due amount of ₹ 22.86 lakh) from the NGOs.
- Out of 942 selected beneficiaries, IHHLs of 66 beneficiaries of JMC were not found constructed and IHHLs of five beneficiaries[15] could not be traced out.

---

9 Kashmir: (SMC, Anantnag, Bandipora, Dooru, Frisal, Kulgam, Kupwara, Mattan, Shopian) and Jammu: (JMC, Arnia, Bhaderwah, Doda, Kathua, Poonch, Ramnagar, Samba and Udhampur).

10 Kashmir: (SMC: 36, Anantnag: 36, Bandipora: 25, Dooru: 22, Frisal: 13, Kupwara: 25, Kulgam: 30, Mattan: 32 and Shopian: 18) Jammu: (JMC: 407, Arnia: 39, Bhaderwah: nine, Doda: 33, Kathua: 60, Poonch: 16, Ramnagar: 28 Samba: 65 and Udhampur: 48).

11 Kashmir: (Bandipora: 18, Kupwara: eight, Mattan: one) Jammu: (JMC: 341, Arnia: 39, Bhaderwah: nine, Kathua: 60, Poonch: 16, Ramnagar: 28, Samba: 65 and Udhampur: 48).

12 Kupwara: six and Bandipora: 10.

13 SMC: 36, Anantnag: 35, Bandipora: four, Doda: 33, Doru: 22, Frisal: 13, Kulgam: 30, Kupwara: 17, Mattan: 30 and Shopian: 18.

14 SMC: six, Anantnag: 34, Bandipora: three, Doru: 22, Frisal: 12 Kupwara: 13, Kulgam: 23, Mattan:18 and Shopian: six.

15 Anantnag: one, Bandipora: three, Mattan: one.

This indicated that ULB authorities had made payment of ₹ 57.17 lakh to NGOs without ensuring actual construction of 325 IHHLs[16] by NGOs rendering the expenditure doubtful.

In addition to 942 randomly selected beneficiaries audit also conducted physical verification and beneficiary survey in respect of 339 beneficiaries whose addresses of locations was shown falling outside JMC jurisdiction and other states. The concerned officials of JMC failed to identify the location of sites where IHHLs had been shown in records as constructed by NGOs. Thus, payment of ₹ 59.29 lakh made to NGOs for construction of these 339 IHHLs was doubtful which too had resulted due to non-conducting of house-to-house survey for identification of beneficiaries. CAO, JMC stated (March 2022) that beneficiaries had provided only copy of Aadhaar Card and the present addresses of beneficiaries were not available with JMC.

Overall, there was doubtful payment of ₹ 116.46 lakh made to the NGOs in respect of 664 cases[17]. The Executive officers of eight ULBs stated that the matter would be looked into and factual position intimated to audit.

The Director Finance, H&UDD stated (August 2022) that DULBJ had ordered an enquiry to look into payments made to NGOs and based on the findings thereof action would be initiated against the erring officers/ officials. It was also stated that JMC had reported in respect of 339 IHHLs that these were sanctioned in favour of eligible beneficiaries, however, re-verification had been initiated by a committee constituted for the purpose and that if any ineligible beneficiary was found the recovery proceedings would be initiated.

All such cases of doubtful payment should be reviewed for fixing the responsibility and effecting the recoveries from the responsible parties.

5.5.1 (B) Unproductive expenditure of ₹ 91.30 lakh

Out of 633 beneficiaries who stated that their IHHLs were constructed by NGOs, 69[18] IHHLs were found dismantled by beneficiaries who stated that they were not worth use. 453[19] IHHLs were found non-functional out of which 374 IHHLs were used as stores. This had resulted in unproductive expenditure of ₹ 91.30 lakh on payment to NGOs for construction of 522 IHHLs.

Chief Executive Officer, Municipal Council Bandipora stated (June 2022) that all the IHHL units have been made functional by the beneficiaries. The reply is not convincing as dismantled IHHLs cannot be made functional.

The Director Finance, H&UDD stated (August 2022) that DULBJ had ordered an enquiry to look into the matter.

---

16 IHHLs left incomplete halfway: 16, Beneficiaries who stated that they constructed IHHLs on their own: 238, Beneficiaries who stated that NGOs had not constructed their IHHLs: 66, beneficiaries who could not be traced: five.

17 16 beneficiaries whose IHHLs were left incomplete, five non-existing IHHLs and 238 beneficiaries who had constructed IHHL unit of their own, JMC not constructed: 66 and JMC: 339 which had addresses outside.

18 JMC: 53, Bandipora: five, Kathua: seven and Udhampur: four.

19 JMC: 318, Arnia: 33, Bhaderwah: two, Bandipora: three, Doda: four, Kathua: seven Poonch: three, Ramnagar: 14, Samba: 50, and Udhampur: 19.

5.5.1 (C) Construction of single chamber pit instead of two chamber pit in respect of IHHLs

Scheme guidelines stipulate that in respect of IHHLs two chamber pits to be used alternatively should be constructed. The pits should be designed to hold fecal sludge for at least 12 months and during storage these should be odorless and free from pathogens.

Audit noticed in two[20] out of 21 test checked ULBs that 720 IHHLs with single pit were got constructed by different NGOs at a cost of ₹ 12,000 per unit. Construction of single pit was in violation of guidelines and consequently had resulted in excess payment to the NGOs.

Deviation from scheme guidelines was also noticed during physical verification of 77 IHHLs[21]. Out of these 77 IHHLs single pits had been constructed by NGOs in respect of 75 IHHLs and thus, excess payment had been made to the NGOs in these cases. The Executive officers of MC Baramulla and MC Sopore stated (January 2022) that the matter would be looked into and facts intimated to audit.

Chief Executive Officer, Municipal Council Baramulla admitted (June 2022) that single pit toilets were constructed by NGOs.

The Director Finance, H&UDD stated (August 2022) that DULBK had initiated recovery proceedings in this regard.

5.5.1 (D) Double payment of ₹ 3.15 lakh to NGOs

In two ULBs[22] of Jammu division, double payment of ₹ 3.15[23] lakh was made to NGOs in respect of 17 beneficiaries for construction of new latrines.

Chief Accounts Officer, JMC stated (March 2022) that due to oversight double payment was made to the NGOs with whom matter has been taken up to refund the same. EO, Municipal Committee Arnia stated (December 2021) that matter would be examined and the factual position intimated to audit.

5.5.1 (E) Missing files and non-production of files pertaining to construction of IHHLs

Two ULBs[24] out of 21 test checked ULBs had paid ₹ 1.08 crore to the NGOs for construction of 616 IHHLs for beneficiaries identified by the ULBs. Files pertaining to IHHLs of 585 beneficiaries of JMC were not produced to audit as it was stated that the files were missing. Records of 31 IHHLs of 31 beneficiaries of MC Bhaderwah were also not produced to audit.

The Director Finance, H&UDD stated (August 2022) that JMC had reported that they had formed a Committee to look into the issue of missing files and action would be

[20] Baramulla: ₹ 32.94 lakh (549 Beneficiaries) and Sopore: ₹ 10.26 lakh (171 beneficiaries).
[21] Baramulla: 33 and Sopore: 44.
[22] Arnia: 13 (₹ 2.45 lakh) and JMC: four (₹ 0.70 lakh).
[23] Including two beneficiaries whose IHHL were got constructed through NGO were also paid incentives through DBT and in respect other three beneficiaries incentive was transferred twice to two different bank accounts.
[24] Bhadarwah: 31 and JMC: 585.

initiated against concerned officers/ officials if found guilty. The department further stated that DULBJ had sought report from MC Bhaderwah for fixing responsibility with regard to missing files.

5.5.1 (F) Depiction of wrong achievement of targets

In SMC an expenditure of ₹ 1.14 crore was incurred on 704 IHHLs constructed by six NGOs. Audit noticed that as against 704 IHHLs actually constructed by NGOs, the SMC had shown achievement of construction of 1,887 IHHLs. Thus, achievement of 1,183 IHHLs shown by the SMC in the records was not based on fact. During physical verification/ beneficiary survey in respect of 47 selected IHHLs, out of 1,183 shown constructed by NGOs the beneficiaries stated that they had constructed IHHLs on their own. Beneficiaries added that SMC officials had geo-tagged their self-constructed IHHLs. This was indicative that the SMC had wrongly depicted construction of IHHLs by NGOs for 1,183 beneficiaries to show achievement of targets.

The Director Finance, H&UDD stated (August 2022) that the H&UDD had initiated (December 2020) an enquiry into the matter in SMC and Anti-Corruption had also registered an FIR and investigations were under process.

5.6 Public Toilets

For eradication of open defecation at public places and to promote a behavioral change among public regarding maintenance of hygiene, the scheme guidelines envisage that a Public Toilet (PT) be provided for general public in places including markets and train stations. It was to be ensured that a PT has separate provision for men and women and facilities such as ramp and Braille signage for specially-abled. As per advisory issued (November 2018) by the MHUD, for construction of PT a public place which witnesses a heavy footfall should be chosen and the PT should be easily accessible to general public. A proper system was required to be put in place for operation and maintenance (O&M) of the PT. The guidelines also envisage involvement of private sector to construct and manage PTs through a PPP mode. The State/ UT Government empanelled various NGOs for construction of PTs at the approved (March 2016) net rate of ₹ 13.60 lakh[25] for Kashmir valley and hilly areas of Jammu and ₹ 10.50 lakh for non-hilly areas of Jammu.

5.6.1 Allotment of works without valid agreements and delay in completion of works

As per terms and conditions of work allotment order (March 2016 to October 2017) for construction of PTs by NGOs, work was to be completed within 60-90 days from the date of start of work and a penalty clause in case of delay in completion of works within stipulated time was required to be kept in the agreement to be executed by the authorities with the NGOs concerned. The agreement should also provide for O&M of toilets by the NGOs at least for 10 years.

[25] 10 *per cent* (₹ 1.52 lakh) of the total cost of ₹ 15.11 lakh was to be shared by the NGOs.

Audit noticed in respect of 75 PTs in 10 out of 21 selected ULBs that in the name of agreements simple affidavits on non-judicial stamp paper signed by the NGOs and Executive Engineers of ULBs were kept on record. No penalty clause was included in these affidavits for delay in completion of works. Though O&M clause was included therein the authorities of ULBs had failed to ensure execution of valid agreements so that O&M clause could be legally enforced. A payment of ₹ 10.07 crore[26] was thus made to these NGOs for construction of PTs in respect of which no legally enforceable agreements were executed.

Audit also noticed delay in completion of works of 75 PTs in 10 out of 21 test checked ULBs ranging between 21 and 1,319 days. The Executive officers of seven ULBs stated that delay was due to lockdown in 2019-20. The reply is not based on fact, because out of 75 PTs, only seven were taken up for execution in 2019-20.

Chief Executive Officer, Municipal Council Shopian admitted (June 2022) that the agreements were executed on a non-judicial stamp paper which was not authenticated in the Hon'ble court of law.

The Director Finance, H&UDD stated (August 2022) that agreements were drawn by self-attested notary, which were accepted documents as per government procedure. The Department further stated that ULBs had reported that agreements were authenticated by court of law. The reply was not based on fact as copies of agreements produced to audit were not authenticated by court of law.

5.6.2 Non-imposition/ less imposition of penalty of ₹ 45.15 lakh on contractors for non-completion of works within time

The terms and conditions of the allotment order for construction of PTs provided for imposition of penalty at the rate of two *per cent* per month for delay in completion of work by the contractor beyond 90 days from the date of allotment. Audit noticed that in respect of JMC, there was delay in completion of 24 PTs by the NGOs ranging between 13 days and 1,103 days. JMC had either not imposed any penalty or had imposed penalty at less rates on the NGOs ranging between 0.05 *per cent* and 0.15 *per cent.* This had resulted in non-imposition of penalty of ₹ 45.15 lakh on the NGOs.

CAO, JMC stated (March 2022) that due to spread of COVID-19 and non-availability of construction material, the contractors could not complete the construction work within stipulated time. The reply is not based on fact as most of the works were executed prior to the spread of COVID-19.

5.6.3 Wasteful expenditure of ₹ 20.36 lakh on construction of Public toilets due to non-selection of encumbrance free sites

Audit noticed in Srinagar Municipal Corporation that sites selected for construction of five out of 121 PTs were either disputed or needed 'No Objection Certificate' (NOC)

[26] Anantnag: ₹ 1.35 crore, Bandipore: ₹ 0.27 crore, Baramulla: ₹ 1.01 crore, Doru: ₹ 0.53 crore, Kulgam: ₹ 0.56 crore, Kupwara: ₹ 1.04 crore, Mattan: ₹ 0.54 crore, Shopian: ₹ 1.30 crore, Sopore: ₹ 0.80 crore and SMC: ₹ 2.67 crore.

from other departments before execution of works. Works of these PTs were got executed (February 2018 to October 2018) by the SMC at a cost of ₹ 20.36 lakh. After execution of works of PTs at Nishat and Shalimar Garden up to lintel level, the District Floriculture officer refused (June 2021) to allow further execution of work as the sites were nominated under UNESCO World Heritage Programme. In respect of PT at green patch, Bemina crossing the work was stopped as NOC was awaited from Srinagar Development Authority. Work on PT at the Gurdwara, Rainawari was abandoned for which no reasons were on record. The work on PT at Boys' High School, Zadibal was stopped due to dispute for which Hon'ble Court had ordered status quo. Non-providing of encumbrance free sites for construction of PTs had resulted in wasteful expenditure of ₹ 20.36 lakh.

The Director Finance, H&UDD stated (August 2022) that SMC had reported that in respect of PTs at Shalimar and Nishat gardens, the Floriculture Department had not raised any objection at the start of construction work but the objection was raised subsequently when the department prepared dossier for submission to UNESCO. In respect of PT at Green Patch Bemina it was stated that construction of PT was started before work of a grade separator was approved and taken up by the SDA. Regarding Gurdwara at Rainawari it was stated that the work of PT could not be continued due to a dispute within Sikh community. The fact remained that NoC had not been obtained from concerned departments before taking up execution of works.

5.6.4 Abandonment of works of nine PTs by NGOs

Audit noticed in SMC that neither any agreement was executed with the NGOs, nor any conditions with regard to penalty for late/ non-execution of work and O&M of PTs were stipulated separately. The NGOs abandoned construction works of nine PTs after incurring expenditure of ₹ 58.64 lakh. Audit noticed that one of the abandoned PTs was at Parimpora Bus Adda near the Fruit Mandi Srinagar which witnesses a heavy footfall of about 5,000 to 7,000 persons per day.

The Director Finance, H&UDD stated (August 2022) that SMC had reported that action including blacklisting of NGOs was being taken and remaining work would be completed after regular tendering process.

5.6.5 Non-functional/ non-operational PTs

Audit scrutiny of records of SMC revealed that 150 PTs were targeted (2017-19) to be completed within three months from the date of allotment of work. Out of these, only 121 PTs were completed, construction of 12 PTs was in progress, 14 PTs were abandoned mid-way by the contractors or could not be completed due to land disputes and three PTs were yet to be started. Out of these 121 PTs, only 74 PTs were functional and 47 PTs were lying non-functional as of October 2021. An amount of ₹ 4.92 crore was incurred on the construction of these 47 PTs. This had resulted in denial of intended benefits to the beneficiaries and unfruitful expenditure of ₹ 4.92 crore incurred on their construction.

The Director Finance, H&UDD stated (August 2022) that SMC had reported that as per agreements, NGOs had placed their watch and ward for upkeep of PTs and that some PTs which were kept locked during off hours by some NGOs were deemed non-functional by audit team. It was further stated that the NGOs had been directed to ensure that these PTs were kept open round the clock. The reply is not acceptable as the observation was not about physical verification of PTs but were based on records of SMC according to which 47 PTs were non-functional.

5.6.6 Excess payment of ₹ 7.08 lakh

The State/ UT Government engaged NGOs for construction of PTs at specified amount of ₹ 13.59 lakh per PT. Audit noticed in three ULBs that in respect of four PTs[27], ₹ 61.48 lakh was released to NGOs resulting in excess payment of ₹ 7.08 lakh.

Chief Executive Officer, Municipal Council Kupwara stated (June 2022) that the amount was released as per release order received from EE, ULBs Kashmir. The reply is not based on fact as only due payments were to be made by the ULB to the NGOs.

[27] Anantnag: one, Kupwara: two, Shopian: one.

Chief Executive Officer, Municipal Council Shopian stated (June 2022) that the excess amount would be recovered from the NGO.

Chief Executive Officer, Municipal Council Anantnag stated (June 2022) that there was no mention of deduction of beneficiary contribution in the orders for construction of PT and bills were prepared by the Engineering wing. The reply is not based on fact as according to empanelment order for engagement of NGOs, only ₹ 13.59 lakh was payable to the NGOs for construction of PT.

The Director Finance, H&UDD stated (August 2022) that DULBK had reported that recovery proceedings regarding excess payment of ₹ 2.46 lakh made in respect of PT at District Hospital Anantnag had been started and that no excess payment had been reported by other ULBs. The fact remained that excess payment had also been made in respect of two other PTs at Kupwara and Shopian.

5.6.7 Physical Verification of Public Toilets

In 21 test checked ULBs, out of 173 selected PTs, 155 PTs (90 *per cent*) were shown as functional, 12 PTs incomplete, and six as non-functional in the records of these ULBs.

During joint physical verification of PTs, audit *inter alia* noticed that majority of the PTs constructed under SBM(U) were either non-functional or were functional without O&M. There were instances of PTs constructed in government offices and religious places which were not accessible to general public. The findings of the physical verification are detailed below:

- Only 44 PTs (25 per cent) were functional with O&M. Due to non-execution of legally enforceable agreements, O&M clause could not be enforced with the result that 21 PTs (12 *per cent*) on which expenditure of ₹ 2.85 crore was incurred were functional without O&M, 91 PTs (53 *per cent*) on which expenditure of ₹ 11.22 crore was incurred were non-functional/ locked up and 17 PTs (10 *per cent*) on which expenditure of ₹ 1.09 crore was incurred were incomplete or abandoned.

- 41 PTs constructed within religious places, and eight PTs constructed within premises of Government offices were not easily accessible to general public. On the other hand, no PT was found available at places having huge footfall such as on National Highway 44 between Pantah Chowk and Shalteng Bye pass, between Batmaloo and Bemina enroute to District Court Complex and from SMC office to SKIMS, Soura. Not a single PT was constructed at Railway Stations of Anantnag, Srinagar, Sopore and Baramulla.

- In respect of PT at Gurdwara Prabandhak Committee, Rainawari, the Committee members stated during physical verification/ beneficiary survey that the site for construction of PT was selected unilaterally by the SMC without seeking consent from them. They added that as the site was needed by them for construction of building the structure constructed up to plinth level was demolished.

- The PT in front of Government Hospital, Rajouri was found demolished by District Administration as it was coming under road alignment ₹ 13.59 lakh rendered wasteful.

- Only five PTs had separate entrance for women. No provision for child care and menstrual hygiene was in place in any of the PTs. 121 PTs had no facility of ramp for specially-abled persons. 91 PTs were not visible from main Road/ lane. Signboard depicting user fees was not displayed in respect of 125 PTs. None of the PTs was fitted with solar panel to ensure uninterrupted power supply to bring down O&M cost.

Audit noticed that PTs left unattended by NGOs were made functional and operational by Chief Executive Officer, Municipal Council, Bandipora by outsourcing the O&M functions on pay and use basis. However, it was noticed that similar efforts were not made by other MCs to make the PTs functional.

The Director Finance, H&UDD stated (August 2022) that in the UT of Jammu and Kashmir, out of total 530 PTs constructed 528 PTs were functional. The reply is not acceptable as no documentary evidence, in support of the assertion that 108 PTs (which were found non-functional/ abandoned during physical verification) were functional, was annexed with the reply.

5.7 Conclusion

The ULBs had not carried out house-to-house survey to identify beneficiaries for providing individual household latrines (IHHLs). Progress of work was not closely monitored and no monitoring reports were on record. Out of 942 selected IHHLs in 18 selected ULBs for physical verification, only 10 *per cent* were found functional. Doubtful payment of ₹ 116.48 lakh was made to NGOs in respect of construction of 664 IHHLs and there was unproductive expenditure of ₹ 91.30 lakh in respect of 522 IHHLs. 90 *per cent* of physically verified PTs were shown functional in the records but actually only 25 *per cent* were functional with operation and maintenance (O&M), 12 *per cent* were functional without O&M, 53 *per cent* were non-functional/ locked up and 10 *per cent* were incomplete, abandoned and demolished.

5.8 Recommendations

- *The department may conduct house-to-house survey to identify beneficiaries for providing individual household latrines (IHHLs);*
- *Physical progress of construction of IHHLs may be closely monitored and photographic evidence at various stages of construction may be kept on record to ensure that IHHLs are actually constructed and are functional;*
- *Responsibilities may be fixed and recoveries may be made from the responsible parties in respect of amounts paid for construction of IHHLs, where deficiencies and/ or irregularities in construction were noticed;*
- *Measures may be taken to ensure that constructed Public Toilets are functional with operation and maintenance;*

- *Public Toilets may not be proposed for construction within premises of religious places and Government offices which are not easily accessible to general public; and*
- *Construction of Public toilets may be considered at places which witness heavy footfall including alongside National Highways and city interiors.*

Chapter VI

Compliance Audit Paragraphs of Civil Departments

Chapter VI: Compliance Audit Paragraphs of Civil Departments

State Taxes Department

6.1 Short levy of tax due to suppression of turnover

Failure of the Assessing Authority, State Taxes Circle-H, Jammu to levy tax at correct rates, while assessing the two dealers for accounting years 2014-15 to 2017-18 (up to 07 July 2017) resulted in short levy of tax and interest aggregating ₹ 4.49 crore.

The taxation of services in Jammu and Kashmir was levied under Jammu & Kashmir General Sales Tax (GST) Act, 1962 till introduction (8 July 2017) of Jammu & Kashmir Goods and Services Tax Act, 2017. The J&K GST Act, 1962 provided for levy of tax on taxable turnover during an accounting year at prescribed rates. Further, interest at prescribed rates is also leviable from the date, the tax was payable, to the actual date of payment.

The Finance Department, Government of Jammu and Kashmir vide Notification SRO 117 dated 30 March 2007 notified 'Banquet Hall services[1]' and 'Catering services' to be taxable under the J&K GST Act, 1962. These services were taxable at the rate of 10 *per cent* with effect from 1 April 2010 and 12 *per cent* with effect from 01 April 2015 together with surcharge of five *per cent* thereon.

Audit scrutiny (November 2019) of records of State Taxes Officer, Circle-H, Jammu revealed as follows:

(I) A dealer was assessed (June and July 2018) for the years 2014-15, 2015-16, 2016-17 and 2017-18 (upto 07 July 2017) under section 37 of the J&K Value Added Tax (VAT) Act, 2005 on account of sale of food and cigarettes and under section 7(6) of the J&K GST Act, 1962 on account of sale of liquor. The dealer had declared sales of ₹ 11.93 crore in its profit & loss accounts for the years 2014-15, 2015-16, 2016-17 and 2017-18 (up to 07 July 2017) which included 'Sales Banquet' of ₹ 8.79 crore. The 'Sales Banquet' to the extent of ₹ 8.79 crore was to be charged to tax under the J&K GST Act, 1962 at the rate prescribed for 'Banquet Hall services' and 'Catering services'. However, these were charged at the rate of five *per cent*. This resulted in short levy of tax of ₹ 104.67 lakh. Interest of ₹ 88.71 lakh (till the date of audit scrutiny) was also leviable. Thus, the total short levy of tax and interest amounted to ₹ 1.93 crore.

After this was pointed out in audit, the Assessing Authority re-assessed (October 2021) the dealer and raised a demand of ₹ 2.48 crore[2].

(II) Another dealer registered to trade in sale of liquor, food and cigarettes was assessed (April 2018) for the year 2016-17 under section 7(6) of the J&K GST Act, 1962 on account of sale of liquor and under section 37 of the J&K Value Added Tax

---

1 A Banquet is a place where a feast/ formal meal/ dinner is organised to witness any official/ social function. The trading or business in respect of "Banquet" includes space/ hall, crockery/ cutlery, tenting, waiter charges, decoration, music/ disc jockey etc; and obviously food is served by using all the said services.

2 Tax: ₹ 104.67 lakh and Interest: ₹ 143.64 lakh.

(VAT) Act, 2005 on account of sale of food and cigarettes. The dealer had declared sales of ₹ 11.97 crore in its trading account for the year 2016-17 which included "Banquet food sale' of ₹ 5.45 crore. The 'Banquet food sale' to the extent of ₹ 5.45 crore during 2016-17 was to be charged to tax under the J&K GST Act, 1962 at the rate of 12.6 *per cent* while assessing the dealer for the year 2016-17 in April 2018. This resulted in short levy of tax of ₹ 68.65 lakh. Interest of ₹ 43.94 lakh (till the audit scrutiny) was also leviable. Thus, the total short levy of tax and interest amounted to ₹ 1.13 crore.

After this was pointed out in audit, the Assessing Authority re-assessed (February 2022) the dealer and raised a demand of ₹ 1.54 crore[3].

It was further noticed that the dealer had also disclosed 'Direct Income' of ₹ 1.66 crore[4] on account of Disc Jockey (DJ)/ decoration charges, Game zone sales and service charges employer share. This direct income arising out of trading activity shown by the dealer was actually its turnover and these charges related to services provided by Banquet and accordingly attracted tax at the rate of 12.6 *per cent* under the J&KGST Act,1962. The Assessing Authority (AA), while assessing the dealer for the year 2016-17, in April 2018 did not tax this direct income of ₹ 1.66 crore as part of 'Banquet Hall services' which resulted in short levy of tax and interest amounting to ₹ 34.32 lakh[5].

After this was pointed out in audit, the Assessing Authority re-assessed (February 2021) the dealer and raised a demand of ₹ 46.88 lakh[6] on the escaped turnover of ₹ 1.66 crore.

Thus, failure of the Assessing Authority, State Taxes Circle-H, Jammu to detect correct rate for levy of tax resulted in total short levy of tax of ₹ 4.49 crore.

The matter was referred (February 2022) to the Government. However, the reply was awaited (May 2022).

6.2 Short levy of tax due to concealment of purchases

Failure of the Assessing Authorities, State Taxes Circles-C, L, J, Jammu and Circle-I, Udhampur to detect concealment of Interstate Purchases made by the dealers during 2013-14 to 2015-16 resulted in short levy of tax, interest and penalty aggregating ₹ 80.20 lakh

Section 42(1) of the Jammu and Kashmir (J&K), Value Added Tax (VAT) Act, 2005 provides that where after a dealer is assessed under sections 37 to 40 of the Act for any year or part thereof, the Assessing Authority has reason to believe that whole or any part of the turnover of the dealer, in respect of any period has escaped assessment or under assessed, the Assessing Authority may serve a notice on the dealer and after giving him a reasonable opportunity of being heard and making such enquiries as it

[3] Tax: ₹ 68.65 lakh; and Interest: ₹ 85.13 lakh.
[4] Disc Jockey and decoration charges: ₹ 136.76 lakh, Game zone sales; ₹ 11.12 lakh and service charges employer share: ₹ 18.21 lakh.
[5] Tax: ₹ 20.93 lakh and Interest: ₹ 13.39 lakh.
[6] Tax: ₹ 20.93 lakh and Interest: ₹ 25.95 lakh.

considers necessary, proceed to assess to the best of its judgment, the amount of tax due from the dealer in respect of such turnover and the provisions of the Act shall, so far as may be, apply accordingly. Further, section 69(1)(f)(vi) of the Act stipulates that if any person conceals his turnover or furnishes inaccurate particulars thereof, the appropriate authority shall direct such person to pay, in addition to the fee or tax by way of penalty, a sum equal to double the amount of the tax attempted to be evaded. Further, for default in making the payment under sections 37 to 40, dealer is liable to pay interest on such amount at the rate of two *per cent* per month under section 51(4) of the Act.

(I) Audit scrutiny (December 2017 and September 2018) of records of State Taxes Officer, Circle-'C' and Circle-'L' Jammu revealed that two registered dealers had declared interstate purchases of ₹ 295.70 lakh[7], in their trading accounts for the years 2013-14 and 2014-15 respectively. Cross verification of statement of interstate import folder of State Taxes Check Post Lakhanpur/ C Form Consumption statement with the purchase account for the year 2013-14 of the dealer in Circle 'C' Jammu showed that purchases to the extent of ₹ 29.38 lakh were not accounted for by the dealer. Moreover, purchases worth ₹ 9.49 lakh were concealed by the dealer in Circle 'L' Jammu. The concealment of purchases and subsequent suppression of turnover of ₹ 44.69 lakh[8] resulted in short levy of tax, interest and penalty amounting to ₹ 12.36 lakh[9]. The Assessing Authorities (AAs) did not notice the concealment of purchases while assessing the dealers in February 2017 and November 2017 respectively.

(II) Audit check (October 2019/ February 2020) of records of State Taxes Officer, Circle-'J', Jammu revealed that a dealer had neither furnished sale/ purchase statements for accounting years 2013-14 and 2014-15 nor was assessed for these years. The Assessing Authority had not ascertained these facts to determine the Taxable Turnover (TTO) for the years 2013-14 and 2014-15 while assessing the dealer for the year 2015-16 on ex-parte basis. Further, the TTO was determined wrongly as purchases that were common in both the import folders of Lakhanpur check post and Jalandhar wing of ETO Punjab were ignored and only those purchases were taken which did not feature in both the folders. On the basis of computerised purchases statements of Lakhanpur checkpost/ import folder of Jalandhar wing of ETO Punjab and consumption statement of VAT 65 forms furnished by the dealer, Audit noticed that purchases amounting to ₹ 2.09 lakh, ₹ 33.53 lakh and ₹ 17.36 lakh for the accounting years 2013-14, 2014-15 and 2015-16, respectively had been concealed by the dealer which had escaped the notice of Assessing Authority. This concealment of purchases and subsequent suppression of turnover resulted in short levy of tax, interest and penalty amounting to ₹ 11.42 lakh[10].

---

7 Circle-C: ₹ 208.54 lakh and Circle-L: ₹ 87.16.
8 Circle-C: ₹ 33.78 lakh and Circle-L: ₹ 10.91 lakh.
9 Tax: ₹ 3.16 lakh; Interest; ₹ 2.87 lakh and Penalty: ₹ 6.33 lakh.
10 Tax: ₹ 2.91 lakh; Interest: ₹ 2.68 lakh; and Penalty: ₹ 5.83 lakh.

After being pointed out in audit, the AAs re-assessed (March 2019, March 2020 and March 2021) the dealers and confirmed concealment of turnover of ₹ 98.18 lakh and raised demand of ₹ 25.24 lakh[11].

(III) Audit scrutiny (September 2018 and January 2020) of records of State Taxes Officer, Circle-L, Jammu and Circle-I, Udhampur revealed that three registered dealers had declared interstate purchases of ₹ 3.41 crore, ₹ 20.78 crore (Circle-L) and ₹ 53.72 lakh (Circle-I) in their annual returns and the trading accounts for the years 2014-15 and 2015-16, respectively. Cross verification of statement of interstate import folder of State Taxes Check Post Lakhanpur/ C Form Consumption statement with the purchase statement showed that purchases of ₹ 36.21 lakh, ₹ 56.32 lakh and ₹ 10.48 lakh were not accounted for in the interstate purchase statements. This led to concealment of purchases and subsequent suppression of turnover of ₹ 1.18 crore with consequent short levy of tax, interest and penalty amounting to ₹ 26.67 lakh[12]. The Assessing Authorities (AAs) did not notice the concealment of purchases while assessing the dealers in October 2017, February 2018 and March 2019 respectively.

After this was pointed out in audit, the Assessing Authorities re-assessed (March 2020 and October 2020) the dealers and raised demand of ₹ 26.39 lakh[13].

(IV) Audit scrutiny (September 2018) of records of State Taxes, Circle-L, Jammu revealed that a dealer was assessed (January 2018) for the year 2014-15 by the Assessing Authority at a sales turnover of ₹ 3.87 crore. Cross check of trading account and annual return filed by the dealer with his VAT Audit Report (VAT 52-53) for 2014-15 revealed variation of ₹ 25.04 lakh[14] in stock inward. The Assessing Authority did not notice the discrepancy while assessing the dealer in January 2018, which led to underassessment of turnover of ₹ 28.79 lakh and consequent short levy of tax, interest and penalty aggregating ₹ 14.85 lakh[15].On this being pointed out (September 2018), the Assessing Authority re-assessed (March 2020) the dealer and raised (March 2020) a demand of ₹ 16.48 lakh [16] on concealed turnover of ₹ 28.97 lakh.

(V) Audit scrutiny of records (January 2019) of the State Taxes Officer, Circle-J, Jammu revealed that a dealer registered for trading of items like copper wire, copper cables and copper bus bar (taxable at the rate of 13.5 *per cent*) had wrongly classified sales turnover of ₹ 21.52 lakh under five *per cent* tax instead of 13.5 *per cent*. Audit also noticed that all the purchases of the dealer were inter-state purchases, but neither the freight nor toll charges had been reflected in his trading account, which led to suppression of sales turnover of ₹ 13.57 lakh. Failure to detect misclassification and suppression of turnover resulted in short demand of tax, interest and penalty amounting to ₹ 10.95 lakh[17]. On this being pointed out (January 2019), the Assessing

[11] Tax: ₹ 5.84 lakh; Interest: ₹ 7.43 lakh and Penalty: ₹ 11.97 lakh.
[12] Tax: ₹ 6.95 lakh; Interest: ₹ 5.82 lakh and Penalty: ₹ 13.90 lakh.
[13] Tax: ₹ 6.36 lakh; Interest: ₹ 7.31 lakh and Penalty: ₹ 12.72 lakh.
[14] Stock inward as per trading account: ₹ 480.60 lakh; Stock inward as per VAT Audit Report: ₹ 505.64 lakh
[15] Tax: ₹ 3.89 lakh; Interest: ₹ 3.19 lakh and Penalty: ₹ 7.77 lakh
[16] Tax: ₹ 3.89 lakh; Interest: ₹ 4.82 lakh and Penalty: ₹ 7.77 lakh.
[17] Tax: ₹ 3.66 lakh; Interest: ₹ 3.63 lakh and Penalty: ₹ 3.66 lakh.

Authority re-assessed (December 2019) the dealer and raised a demand of ₹ 12.09 lakh[18] against the dealer.

Thus, failure of the Assessing Authorities to correctly assess the sales and apply correct rate of tax resulted in short levy of tax, interest and penalty aggregating ₹ 80.20 lakh.

The matter was referred (November 2021 and December 2021) to the Government. However, the reply was awaited (May 2022).

Housing and Urban Development Department

6.3 Probable loss due to delay in auction of space and consequent non-realisation of rent

Delay in finalisation of modalities to rent out shops/ spaces by auction after fixation of minimum reserve rent resulted in probable loss of rent of ₹ 2.70 crore.

Multi-Level Mechanised Car parking (MLCP) building, constructed by the Jammu and Kashmir Economic Reconstruction Agency at Lal Chowk Srinagar, was handed over to Srinagar Development Authority (SDA) in May 2017. The building also included some commercial spaces[19], which were to be rented out. The Auction Committee of SDA in its meeting (October 2017) decided to auction available spaces on rental basis and accordingly fixed minimum reserve rent[20] for each floor of the building to be increased by 10 *per cent* after every three years. As a result of fixation of rent, the SDA was to realise minimum rent of ₹ 12.41 lakh per month which necessitated immediate action by the Department for allotment of shops/ space of MLCP building. Audit check (February 2021) of records of Vice-chairman, SDA, however, revealed that delay in auction by over three years caused probable loss of rent of ₹ 2.70 crore[21] to the Department, which is discussed as follows.

The Board of Directors (BoD) of SDA in its 77th meeting (October 2018) directed that allotment of space of MLCP building to the prospective allottees be made on the rates fixed by the Auction Committee. It was further directed that in order to maximize the returns in a transparent manner, the modalities thereof be approved by the Financial Commissioner of the Department in consultation with Principal Secretary of the Finance Department. No follow up action was taken by the Department and the BoD was informed in its 78th meeting (October 2019) that available spaces would be put to auction after the meeting of Finance Committee. As the meeting of Finance Committee could not be convened due to non-finalisation of the administrative

---

18 Tax: ₹ 3.66 lakh; Interest: ₹ 4.76 lakh and Penalty: ₹ 3.67 lakh.

19 1. Five shops of 82.85 square feet (sqft) each at ground floor (rear side); 2. Ground floor space: 2,473 sqft; 3. First floor space: 4,647 sqft; 4. Second floor space: 4,647 sqft.

20 ₹ 120, ₹ 110 and ₹ 80 per sqft per month for ground, first and second floor respectively

21 calculated on the basis of definite demands received for three shops on ground floor of 248.55 sqft at the rate of ₹ 150 per sqft per month for 15 months: ₹ 0.05 crore, first floor hall/ space of 4,647 sqft at the rate of ₹ 110 per sqft per month for 30 months: ₹ 1.53 crore and second floor hall/ space of 4,647 sqft at the rate of ₹ 80 per sqft per month for 30 months: ₹ 1.12 crore.

modalities, it was decided to place the proposal before the BoD. Audit noticed that no follow-up action had been taken till January 2021. Thereafter, the BoD in its 79th meeting (January 2021) approved auction of shops/ space of MLCP building through on-line bidding process and spaces/ shops were allotted (November 2021) in favour of private parties.

Audit noted that the requisitions for allotment of space of MLCP building received by the SDA from various Government offices/ agencies during the period from November 2017 to January 2021 could not be acted upon as the modalities for auction had not been drawn by the Department. The Department as such took over three years to approve modalities for allotment of space/ shops and suffered probable loss of ₹ 2.70 crore due to non-realisation of rent during the period from October 2017 to March 2022.

The matter was referred to the Government/ Department in January 2022. Vice Chairman (VC), Srinagar Development Authority stated (June 2022) that there might have been some procedural delay in approving the modalities which cannot be construed as deliberate attempt by SDA to delay auction of shops of multilevel mechanized car parking building. However, the reply of the Government was awaited (May 2022).

Home Department

6.4 Inadmissible payment on account of one month additional salary to police personnel

Irregular action of Home Department to pay one-month additional salary to police personnel who were not deployed for election duties during the conduct of Municipal/ Panchayat elections, 2018 resulted in inadmissible payment of ₹ 1.58 crore in respect of 483 police personnel.

Jammu and Kashmir Government, General Administration Department accorded (December 2018) sanction for payment of one-month additional salary/ wages/ remuneration as the case may be, in respect of employees who were deployed for conduct of Municipal/ Panchayat elections, 2018 or both.

Audit scrutiny of records (December 2020 to June 2021) of six[22] Drawing and Disbursing Officers of Home department revealed that one-month additional salary was irregularly paid to 483[23] police personnel who were not deployed for conduct of Municipal/ Panchayat elections, 2018 as they were providing security to Very Important Persons (VIPs) and other protected persons in and outside their respective districts during the months in which elections were held, thereby resulting in inadmissible payment of ₹ 1.58 crore[24] in respect of 483 employees.

[22] 1. SSP Jammu, 2. SSP Rajouri, 3. SSP Doda, 4. SSP Reasi, 5. SSP Kathua and 6. Commandant IR- 2nd Battalion, Rajouri.

[23] SSP Jammu: 355; SSP Rajouri: 48; SSP Kathua: 40; SSP Reasi: 20; SSP Doda: 16; and Commandant IR- 2nd Battalion, Rajouri: four.

[24] SSP Jammu: ₹ 114.10 lakh; SSP Rajouri: ₹ 15.98 lakh; SSP Kathua: ₹ 13.78 lakh; SSP Reasi: ₹ 7.27 lakh; SSP Doda: ₹ 5.72 lakh; and Commandant IR- 2nd Battalion, Rajouri: ₹ 1.29 lakh.

On this being pointed out (December to June 2021) in Audit, Accounts Officers, Offices of Senior Superintendent of Police (SSP), Jammu and Rajouri, SSP Doda and Commandant IR-2nd Battalion, Rajouri accepted (September 2021) the audit contention and stated that payment was made inadvertently and recovery would be initiated against the said employees. Accounts Officer, Office of SSP, Reasi stated (September 2021) that recovery had been started[25] from the salary of May 2021 in respect of said employees.

Thus, irregular action of Home Department to pay one-month additional salary to police personnel who were not deployed for election duties during the conduct of Municipal/ Panchayat elections, 2018 resulted in inadmissible payment of ₹ 1.58 crore.

The matter was referred to Government in January 2022. Financial Advisor/ CAO Home Department stated (May 2022) that an amount of ₹ 1.10 crore had been recovered against inadmissible payment of ₹ 1.58 crore. Further, it was stated that SSP Jammu, SSP Doda and SSP Rajouri had recovered more than 75 *per cent* and were in the process of recovering outstanding amount.

Public Works Department

6.5 Non-recovery of supervision charges

Failure of two works executing divisions to comply with extant rules resulted in loss of ₹ 1.61 crore due to non-deduction of supervision charges in respect of works of National Hydro Power Corporation Limited, executed by these divisions.

Rule 4- Appendix 03 of J&K Public Works Account Code (JKPWAC) provides that in respect of works of other Governments or autonomous bodies and State-owned Corporations etc. or such works in respect of which the State Government receives full reimbursement of their cost from other Governments or bodies, recovery of cost of establishment and tools and plant should be effected on a percentage basis[26] unless there are special orders of the Government to the contrary.

Audit examination of records (August of 2020) of Executive Engineer (EE), R&B Division Bandipore and EE, Special Sub Division, Gurez revealed that 26 rehabilitation and development works of National Hydro Power Corporation Limited (NHPC) relating to Kishen Ganga Project were entrusted (February 2013 and June 2017), through the District Development Commissioner, Bandipore, to these divisions for execution at an estimated cost of ₹ 33.43 crore. An expenditure of ₹ 20.17 crore[27] was incurred by these divisions on the execution of these works. Audit noticed that in spite of the fact that there was no special exemption in respect of these works, the two divisions in contravention of the rules ibid, had not made any

[25] ₹ 5,000 per month.

[26] Establishment charges: 7½ *per cent* and Tools and Plant charges: ½ *per cent;* in terms of Rule five of Appendix 03 of J&K Public Works Accounts Code.

[27] Bandipore Division: ₹ 12.40 crore from September 2013 to July 2020 and Gurez Division: ₹ 7.77 crore from June 2018 to March 2021.

provision for supervision charges in the Detailed Project Reports (DPRs) of these works which had resulted in non-recovery of ₹ 1.61 crore[28] from the NHPC.

After this was pointed out by audit the Executive Engineers Special Sub Division Gurez and R&B Division Bandipore stated (December 2021) that recovery of supervision charges would be taken up with the NHPC. It was also stated that provision of supervision charges would be made in estimates of such works in future.

Thus, failure of two works executing divisions to comply with extant rules resulted in loss of ₹ 1.61 crore due to non-deduction of supervision charges in respect of works of National Hydro Power Corporation Limited.

The matter was referred to the Government in February 2022. Reply was awaited (May 2022).

Social Welfare Department

6.6 Avoidable wasteful expenditure on rent, maintenance and upkeep of hostel buildings hired for Other Backward Classes students

Injudicious decision of the Jammu and Kashmir State Advisory Board to hire two private buildings as hostels from September 2014 to March 2021, without conducting survey of students' willingness to avail hostel facilities and despite lack of demand, resulted in avoidable wasteful expenditure of ₹ 66.05 lakh on rent, maintenance and upkeep of hired hostels.

Jammu and Kashmir State Advisory Board for the Welfare and Development of OBCs[29] (hereafter referred to as 'the Board') decided (April 2012) in its 2nd Board meeting, to hire hostels for OBC students. The stated objective behind the decision was to provide affordable hostel facilities to the Other Backward Classes (OBCs) students of rural and remote areas, who did not have educational institutions near to their places of residence. The Board decided that until land was identified for construction of hostels, these were to be run in buildings taken on rent basis.

Audit scrutiny of records (March 2021) of Secretary, Jammu and Kashmir Advisory Board for Welfare and Development of OBCs revealed that the decision (April 2012) of renting hostel buildings was taken without conducting survey of willingness of OBC students to avail hostel facilities. Audit noticed that the Board had hired (September/ October 2014) two private buildings[30], each having capacity of twenty-five students for use as hostels for OBC students, at Jammu and Srinagar. Though several notifications were published[31] in local newspapers between October 2014 and March 2019 calling on OBC students undergoing studies in government schools to avail of the hostel facilities, no OBC student applied for availing of the hostel facility. The Secretary of the Board apprised (October 2018) Secretary, Social welfare

[28] Cost of establishment: ₹ 1.51 crore (7.5 *per cent* of ₹ 20.17 crore) and tools and plant charges: ₹ 0.10 crore (0.5 *per cent* of ₹ 20.17 crore).

[29] With Chief Minister as Chairman of the Board.

[30] Monthly rental rates of ₹ 25,460 and ₹ 37,000 at Jammu and Srinagar respectively.

[31] 25 October 2014, 26 November 2014, 07 February 2015, 02 November 2016, 17 November 2016, 30 November 2016 and 27 March 2019.

Department that the Board was unnecessarily paying huge monthly dues to building owners (since September/ October 2014) without any advantage. Audit further noticed that despite the fact that no OBC student had applied for availing hostel facility, the Board continued hiring the buildings during the period September 2014 to March 2021, even after intimation by the Secretary of the Board in October 2018 and incurred expenditure of ₹ 66.05 lakh[32] on rent, upkeep and furnishings of hired hostels for six years. This had resulted in avoidable wasteful expenditure of ₹ 66.05 lakh.

After this being pointed out (March 2021) by audit, the Secretary of the Board stated (March 2021) that two buildings were hired as per decision in the 2nd Board meeting without assessment/ survey of willingness of OBC students to avail of hostel facilities. Despite regular advertisements through local dailies, none of the OBC students applied for availing hostel facility. It was further stated (December 2021) that inbuilt mandate of the Board was to provide hostel facilities to OBC students as such no survey was required to be conducted.

The reply is not acceptable as mandate of the Board was to promote welfare and development of OBC students and Board could have utilised these funds for other welfare activities as there was no demand for OBC hostels. Further, Board had itself apprised (October 2018) the Secretary, Social welfare Department that huge monthly dues were unnecessarily being paid to building owners since September/ October 2014 without any advantage.

The matter was referred to the Department/ Government in January 2022. Replies were awaited (May 2022).

6.7 Wasteful expenditure on construction of Other Backward Class (OBC) Boys' hostel

Failure of Social Welfare Department to get DPR for construction of hostel for OBC boys students approved and Central share of funds released by GoI and failure of the department to get the work of hostel building completed out of State funding as was originally planned, resulted in wasteful expenditure of ₹ 1.55 crore.

District Development Board, Doda in a meeting decided (July 2011) to construct a 96 bedded triple storey boys' hostel for Other Backward Class (OBC) students at Government Degree College (GDC), Doda. Detailed Project Report (DPR) prepared by the Executive Engineer (EE), PWD (R&B), Doda at an estimated cost of ₹ 5.44 crore was submitted (June 2012) to the Director, Social Welfare Department, Jammu for administrative approval. The work for construction of ground floor (except for some items in furnishing work) of hostel to be completed within nine months was awarded (October, 2014) to a contractor at a cost of ₹ 1.05 crore. The contractor executed work of ground floor of the hostel building up to April 2017 and a payment

[32] Rent paid: ₹ 48.98 lakh; Maintenance and upkeep of buildings: ₹ 16.07 lakh.

of ₹ 1.17 crore was made to the contractor up to March 2018. The contractor had executed some extra works and some works had been left incomplete.

Meanwhile, Ministry of Social Justice and Empowerment, Government of India (GoI) invited[33] (June 2015) proposals for construction of hostels for OBC Boys with funding to be shared (60:40) between GoI and erstwhile State Government. On the directions of Director, Social Welfare Department (Jammu) the EE, PWD (R&B), Doda, submitted (November 2016) revised DPR for the construction of 100 bedded double storey OBC boys hostel at GDC, Doda at an estimated cost of ₹ 3.25 crore[34]. The revised DPR for ₹ 3.25 crore was framed for 100 bedded hostel keeping in view the rate of ₹ 3.25 lakh per seat stipulated by GoI.

Audit scrutiny (July, 2020) of the records of Director, Social Welfare Department, Jammu revealed that without getting approval from GoI for release of Central assistance, contract was again awarded (November 2017) to another contractor for the construction of double storey 100 bedded OBC boys hostel at a cost of ₹ 1.07 crore. The contractor had to construct the 1st floor of the building along with the balance work of ground floor.

Proposal for grant of Central assistance was submitted by the Administrative Department to GoI in March 2018. Ministry of Social Justice and Empowerment, GoI did not sanction the proposal citing deficiencies including i) non-submission of indicative physical norms for a 100 seater hostel (built up area of 12.15 Sq m per seat with a total built up area of 1,215 Sq m) ii) against 100 bedded layout plan only 46 bedded layout plan has been shown and iii) as against 100 seats required the hostel in the proposal is meant for 97 seats as per land availability document provided by the Principal of the college.

A payment of ₹ 0.37 crore was made to the 2nd contractor as of February 2019 for work executed in respect of 1st floor of the building. The work could not be executed any further due to non-availability of funds. After a payment of ₹ 0.37 crore was made to the 2nd contractor as of February 2019 for work executed in respect of 1st floor of the building, the EE, PWD (R&B), Doda demanded (May 2021) ₹ 1.10 crore[35] for completion of remaining work of ground floor and 1st floor. Audit noticed that submission of deficient proposal for construction of hostel building resulted in non-sanction of the project and non-release of funds by GoI. After incurring a total expenditure of ₹ 1.55 crore[36] (State share) on the construction of hostel building during 2012-19, the work had remained abandoned since February 2019. As of December 2021 civil/ structural work of ground and first floor was complete. The Social Welfare Department had not got the work of hostel building completed out of State funding as was originally planned. This had resulted in

---

33 Vide No. 11015/04/2015-BC-I dated 08 June, 2015.

34 Centre Share: ₹ 1.95 crore, State Share: ₹ 1.30 crore.

35 Work done liability of the contractor: ₹ 0.50 crore, Funds required for completion of ground floor: ₹ 0.40 crore and funds required for completion of 1st floor: ₹ 0.20 crore.

36 2012-13: ₹ 42 lakh, 2014-15: ₹ 15 lakh, 2015-16: ₹ 15 lakh, 2016-17: ₹ 25.80 lakh, 2017-18: ₹ 32.20 lakh, 2018-19: ₹ 25 lakh.

wasteful expenditure of ₹ 1.55 crore incurred on construction of the hostel building besides in deprival of providing hostel benefits to OBC boys students.

On this being pointed out, Chief Accounts Officer, Directorate of Social Welfare Department, Jammu stated (August 2020) that they had time and again requested the Administrative Department to take up the matter with GoI for release of Central share so that building could be completed. The reply is not tenable as the Social Welfare Department had failed to get the required Central share released due to submission of deficient proposal to GoI and had not ensured continued execution of work for completion of hostel building out of State funding as per original plan.

Thus, failure of Social Welfare Department to get DPR for construction of hostel for OBC boys students approved and Central share of funds released by GoI and failure of the department to get the work of hostel building completed out of State funding as was originally planned resulted in wasteful expenditure of ₹ 1.55 crore besides in deprival of intended benefits of providing hostel facilities to OBC boys students.

The matter was referred to the Government in February 2022. Reply was awaited (May 2022).

Chapter VII

Functioning of Public Sector Undertakings

Chapter VII: Functioning of Public Sector Undertakings

This chapter discusses the functioning of Public Sector Undertakings (PSUs) in Jammu and Kashmir. PSUs comprise of Government of Jammu and Kashmir (GoJ&K) owned companies set up under the Companies Act, 2013, Statutory Corporations set up under the statutes enacted by the Parliament and Government Controlled Other Companies (GCOCs).

7.1 Definition of Government Company

A Government Company is defined in Section 2(45) of the Companies Act, 2013 as a Company in which not less than 51 *per cent* of the paid-up share capital is held by Central Government, or by any State Government or Governments, or partly by the State Government and partly by one or more State Governments and includes a Company which is a subsidiary of a Government Company.

Besides, any other Company[1] owned or controlled directly or indirectly, by the Central Government, or by any State or Governments, or partly by the Central Government and partly by one or more State Governments are referred to in this Report as Government Controlled Other Companies.

7.2 Mandate of Audit

Audit of Government Companies and Government Controlled Other Companies is conducted by the CAG under the provisions of Section 143(5) to 143(7) of the Companies Act, 2013 read with Section 19 of the CAG's (Duties, Powers and Conditions of Service) Act, 1971 and the Regulations made there under. Under the Companies Act, 2013, the CAG appoints Chartered Accountants as Statutory Auditors for Companies and gives directions on the manner in which the accounts are to be audited. In addition, CAG has right to conduct a supplementary audit. The statutes governing Statutory Corporations require their accounts to be audited by CAG.

7.3 PSUs in Jammu & Kashmir

PSUs are established to carry out activities of commercial nature keeping in view the welfare of people and occupy an important place in the economy of J&K. As on 31 March 2021, there were 42 PSUs in Jammu and Kashmir under the audit jurisdiction of the CAG. These include 39 Government Companies (including six[2] inactive Government Companies with delay in accounts ranging between four years to 31 years), two Statutory Corporations and one Government Controlled Other Company[3]. The names of these PSUs are given in ***Appendix 7.1***.

---

1 Companies (Removal of Difficulties) Seventh Order, 2014 issued by Ministry of Corporate Affairs vide Gazette Notification dated 4 September 2014.

2 (1) Tawi Scooters Limited (2) Himalayan Wool Combers Limited (3) Jammu & Kashmir Handloom Handicrafts Raw Material Supplies Organisation Limited (A Subsidiary of Himalayan Wool Combers Limited) (4) Jammu & Kashmir Road Development Corporation Limited (5) Jammu & Kashmir International Trade Centre and (6) Jammu & Kashmir Asset Reconstruction Limited.

3 Chenab Valley Power Projects (Private) Limited (CVPPPL), a joint venture of JKPDC, National Hydroelectric Power Corporation (NHPC) and Power Trading Corporation (PTC) wherein Government of Jammu & Kashmir has not made any direct investment.

One PSU (Jammu and Kashmir Bank Limited) is listed on the stock exchange. There are six inactive PSUs (including four under liquidation) having investment of ₹ 57.57 crore towards capital (GoJ&K: ₹ 56.59 crore and others: ₹ 0.98 crore) and long term loans of ₹ 0.83 crore (GoJ&K: ₹ 0.83 crore and others: Nil).

7.4 Investment in PSUs and Budgetary support

(A) Equity holding and Loans given

Details of Investment made in 42 PSUs in form of equity and long term loans upto 31 March 2021 are given in ***Appendix 7.2***. Sector wise summary of this investment is given in **Table 7.1**.

Table 7.1: Government of J&K investment in PSUs

(₹ in crore)

Name of Sector	Number of PSUs	Investment				Total Investment	Total Investment of GoJ&K
		Equity		Long term loans			
		Total	GoJ&K	Total	GoJ&K		
Power Sector PSUs	6	5,073.32	2,593.54	7,269.04	0	12,342.36	2,593.54
Non power Sector PSUs	36	969.10	847.80	5,021.44	1,437.72	5,990.54	2,285.52
Total	**42**	**6,042.42**	**3,441.34**	**12,290.48**	**1,437.72**	**18,332.90**	**4,879.06**

(Source: Compiled based on information received from PSUs)

The thrust of investment was mainly on power sector. This sector had attracted 67.32 *per cent* (₹ 12,342.36 crore) of total investment of ₹ 18,332.90 crore. The GoJ&K had invested 53.16 *per cent* (₹ 2,593.54 crore) of its total investment of ₹ 4,879.06 crore in power sector PSUs.

(B) Subsidy and Grant to PSUs

The GoJ&K provides financial support to the PSUs in various forms through the annual budget as equity, loans, grants/ subsidies, loans written off and loans converted into equity.

Summarized details of budgetary outgo towards equity, loans, grants/ subsidies, loans written off and loans converted into equity in respect of PSUs for the last three years ending March 2021 are given in **Table 7.2**.

Table 7.2: Details regarding budgetary support by GoJ&K to PSUs during the period 2018-19 to 2020-21

(₹ in crore)

Sl. No.	Particulars	2018-19		2019-20		2020-21	
		Number of PSUs*	Amount	Number of PSUs*	Amount	Number of PSUs*	Amount
1.	Equity Capital outgo	9	120.74	3	2,616.82	7	83.47
2.	Loans given	9	56.18	8	48.07	7	51.85
3.	Grants/ Subsidy provided	8	48.91	12	100.50	11	3,016.38
	Total outgo		**225.83**		**2,765.39**		**3,151.70**
4.	Loan repayment written off	-	-	-	-	-	-
5.	Loans converted into equity	-	-	-	-	2	152.42
6.	Guarantees issued	1	20.00	-	-	-	-
7.	Outstanding Guarantee Commitment	3	1,822.09	3	1,580.90	5	7,698.97

(Source: Compiled based on information received from PSUs)

** Number of PSUs represents those PSUs which have received outgo from budget under one or more heads i.e. equity, loans and grants/ subsidies.*

The increase in assistance during 2020-21 was mainly due to grant/ subsidy given to four power sector PSUs (for functional, operational and administrative expenses) viz. Jammu & Kashmir Power Corporation Limited, Jammu & Kashmir Power Transmission Corporation Limited, Jammu Power Distribution Corporation Limited and Kashmir Power Distribution Corporation Limited. The increase in guarantee commitments in the year 2020-21 were in case of Jammu and Kashmir Power Development Corporation Limited (₹ 1,539.71 crore), Jammu and Kashmir Power Corporation Limited (₹ 6,012.24 crore), Jammu and Kashmir SC, ST and Backward Classes Development Corporation Limited (₹ 64.05 crore), Jammu and Kashmir Women's Development Corporation Limited (₹ 73.87 crore) and Jammu and Kashmir Financial Corporation Limited (₹ 9.10 crore).

7.5 Oversight Role of CAG

Audit of Public Sector Undertakings (PSUs)

Comptroller & Auditor General of India (CAG) appoints the statutory auditors of a State Government Company and State Government Controlled Other Company[4] under Section 139 (5) and (7) of the Companies Act, 2013. The statutory auditors in case of a State Government Company are to be appointed by the CAG within a period of 180 days from the commencement of the financial year. CAG has a right to conduct a supplementary audit and issue comments upon or supplement the Audit Report of the statutory auditor. Statutes governing some Corporations require that their accounts be audited by the CAG and a report be submitted to the State Legislature.

7.6 Submission of accounts by PSUs

(A) Need for timely submission

According to Section 395 of the Companies Act 2013, Annual Report on the working and affairs of a Government Company is to be prepared within three months of its Annual General Meeting (AGM) and as soon as may be after such preparation laid before both the Houses of State Legislature together with a copy of the Audit Report and any comments upon or supplement to the Audit Report, made by the CAG. Almost similar provisions exist in the respective Acts regulating statutory corporations. This mechanism provides the necessary legislative control over the utilisation of public funds invested in the companies from the Consolidated Fund of State.

Section 96 of the Companies Act, 2013 requires every company to hold AGM of the shareholders once in every calendar year. It is also stated that not more than 15

[4] A Government Company is defined in Section 2(45) of the Companies Act, 2013 as a company in which not less than 51 *per cent* of the paid up share capital is held by Central Government, or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments and includes a company which is a subsidiary of a Government Company. Any other company owned or controlled, directly, or indirectly, by the Central Government or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments are referred to in this Report as Government controlled other Companies.

months shall elapse between the date of one AGM and that of the next. Further, Section 129 of the Companies Act, 2013 stipulates that the audited Financial Statement for the financial year has to be placed in the said AGM for their consideration.

Section 129 (7) of the Companies Act, 2013 also provides for levy of penalty like fine and imprisonment on the persons including directors of the company responsible for non-compliance with the provisions of Section 129 of the Companies Act, 2013.

Despite above, annual accounts of various PSUs were pending as on 31 December 2020, as detailed in the following paragraph.

(B) Timeliness in preparation of accounts by Government Companies

As of 31 March 2021, there were 40 Companies under the purview of CAG's audit. Of these, accounts for the year 2020-21 were due[5] from 34 Government Companies. However, only three Government Companies submitted their accounts for the financial year 2020-21 for audit by CAG on or before 30 November 2021. Accounts of 37 Government Companies were in arrears for various reasons. Details of arrears in submission of accounts of these are given in **Table 7.3**:

Table 7.3: Details of arrears in submission of accounts

Particulars		**Total**
Total number of Companies under the purview of CAG's audit as on 31.03.2021		40
Less: New Companies from which accounts for 2020-21 were not due		0
Less: Companies under liquidation/ inactive[6]		6
Number of companies from which accounts for 2020-21 were due		34
Number of companies which presented the accounts for CAG's audit by 30 November 2021		3
Number of companies with accounts in arrears		31
Breakup of Arrears	(i) Defunct	0
	(ii) First Accounts not submitted	6
	(iii) Others	25
Age-wise analysis of arrears against 'Others' category	Up to two years (2019-20 and 2020-21)	14
	Three years and more	17

Details of these companies along with the position of GoJ&K investment in these PSUs during the period of arrear accounts are indicated in ***Appendix 7.3***.

(C) Timeliness in preparation of accounts by Statutory Corporations

As of 31 March 2021, there were two Statutory Corporations under the purview of CAG's audit. Audit of Statutory Corporations is governed by their respective legislations. Out of the two Statutory Corporations, the C&AG is the sole auditor for Jammu & Kashmir Road Transport Corporation. In respect of Jammu & Kashmir Financial Corporation, the audit is conducted by Chartered Accountants and supplementary audit is conducted by the C&AG.

---

5 The due date for submission of accounts has been considered as 30 November 2021.

6 Jammu & Kashmir Asset Reconstruction Limited, Tawi Scooters Limited, Himalayan Wool Combers Limited and Jammu & Kashmir State Handloom Handicrafts Raw Materials Supply Organisation Limited (under liquidation); Jammu & Kashmir State Road Development Corporation Limited and Jammu & Kashmir International Trade Centre (inactive).

The accounts of Jammu & Kashmir Road Transport Corporation and Jammu & Kashmir Financial Corporation for the years 2019-20 and 2020-21 were awaited as on 30 November 2021.

Details of these Corporations along with the position of GoJ&K investment in these Corporations during the period of arrear accounts are indicated in ***Appendix 7.3***.

7.7 CAG's oversight - Audit of accounts and supplementary audit

(A) Financial reporting framework

Companies are required to prepare the financial statements in the format laid down in Schedule III to the Companies Act, 2013 and in adherence to the mandatory Accounting Standards prescribed by the Central Government, in consultation with National Advisory Committee on Accounting Standards. The statutory corporations are required to prepare their accounts in the format prescribed under the rules, framed in consultation with the CAG and any other specific provision relating to accounts in the Act governing such corporations.

(B) Audit of accounts of Government Companies by Statutory Auditors

The statutory auditors appointed by the CAG under Section 139 of the Companies Act 2013, conduct audit of accounts of the Government Companies based on independent audit in accordance with the directions given by the CAG and Standard Auditing Practices of Institute of Chartered Accountants of India (ICAI); and submit their reports thereon in accordance with Section 143 of the Companies Act, 2013.

The CAG plays an oversight role by monitoring the performance of the statutory auditors in audit of public sector undertakings with the overall objective that the statutory auditors discharge the functions assigned to them properly and effectively. This function is discharged by exercising the power:

- to issue directions to the statutory auditors under Section 143 (5) of the Companies Act, 2013 and
- to supplement or comment upon the statutory auditor's report under Section 143 (6) of the Companies Act, 2013.

Supplementary Audit of accounts of Government Companies

The prime responsibility for preparation of financial statements in accordance with the financial reporting framework prescribed under the Companies Act, 2013 or other relevant Act is of the management of an entity.

The certified accounts of selected Government Companies along with the report of the statutory auditors are reviewed by CAG by carrying out a supplementary audit. Based on such review, significant audit observations, if any, are reported under Section 143 (6) of the Companies Act, 2013 to be placed before the Annual General Meeting.

7.8 Result of CAG's oversight role

Position of supplementary audit of the financial statements of the PSUs conducted by the Comptroller and Auditor General (CAG) of India for the year 2020-21 (or of

earlier years which were finalised during current year) is discussed in the next paragraph.

(A) Audit of accounts of Government Companies under Section 143 of the Companies Act, 2013

Financial statements for the year 2020-21 were received from two[7] Government Companies and one Government Controlled Other Company[8] by 30 November 2021. Of these, financial statements of two[9] Government Companies were reviewed in audit by the CAG.

Thirty two accounts of previous years were also received during the period 01 January 2021 to 30 November 2021, of which non review certificates were issued for six accounts, comments were issued in case of five accounts and 21 accounts were pending as of 30 November 2021. Further, 42 accounts of 10 PSUs relating to previous years which were received before 01 January 2021 were also reviewed during current year. Of the 42 financial statements, Comments were issued for 32 accounts of eight PSUs and Management Letters were issued to two PSUs.

7.9 Recommendations

- *The Government may impress upon those PSUs with arrear in accounts to ensure early finalisation of their Financial Statements as in the absence of their finalisation, Government investments in such PSUs remain outside the legislative oversight; and*
- *The UT Government needs to take an early decision regarding commencement of liquidation process in respect of the inactive PSUs as they are neither contributing to economy nor meeting the objectives for which they were set up.*

[7] Jammu & Kashmir Bank Limited and JKB Financial Services Limited.
[8] Chenab Valley Power Projects Private Limited.
[9] Non review certificate was given to JKB Financial Services Limited for the year 2020-21.

Chapter VIII

Development of Micro/ Mini/ Small Hydroelectric Projects in Jammu and Kashmir

Chapter VIII: Development of Micro/ Mini/ Small Hydroelectric Projects in Jammu and Kashmir

Power Development Department

Power Development Corporation Limited

The main objective of hydro Policy for SHPs/ MHPs for expeditious development of available hydro power of Jammu and Kashmir was not achieved.

Out of 374 identified project sites with power generation capacity of 1,725.53 MWs, only 10 projects with capacity of 79.75 MWs (five *per cent*) had been commissioned with time overrun ranging between four months and over seven years. While no action was taken for 225 sites (60 *per cent*) after their identification, bids were invited for 115 sites (31 *per cent*) only. No response was received for 70 sites and out of 45 sites awarded for development of hydro power projects, 32 IPPs either failed to fulfill commitments like obtaining statutory clearances for execution of projects or did not deposit upfront premium or the allotment of projects was terminated due to land issues, slow progress and techno economic viability reasons. For 20 sites (five *per cent*) proposed under Prime Minister's Development Package, GoI had not acceded to request of GoJ&K for release of funds in view of high project cost and unviable tariff of these 20 projects.

Nodal agencies did not coordinate with line Departments/ Agencies for facilitating IPPs in obtaining clearances, approvals and finances for their projects in a time bound manner. Execution of projects was also not monitored. The IPPs had also attributed poor performance in development of projects inter alia to lack of financing by banks due to non-availability of buy back agreement with GoJ&K.

Failure of JKPDC in ensuring completion of transmission line alongside the commission of hydro project at Dah resulted in non-utilisation of power generation of 59.37 MUs and consequent loss of revenue of ₹ 16.45 crore.

8.1 Introduction

The hydro power potential of Jammu and Kashmir has been estimated at 20,000 Mega Watt (MW) which include 1,500 MW in respect of Small hydro projects. As of October 2021, only 2,813.46 MW (16 *per cent*) of this potential had been harnessed which included 79.75 MW of Small hydro projects. The power demand in Jammu and Kashmir was estimated[1] at 4,217 MW (21,887 MUs) ending 2021-22.

8.1.1 Policy for development of hydropower projects by JKPDC

To encourage private sector participation in development of hydropower projects, the Government of Jammu & Kashmir (GoJ&K) brought out (October 2003) policy to

[1] As per the estimates of 18th All India Power Survey.

encourage generation of power through small hydropower sources of energy. All hydropower projects/ stations estimated to have an installed capacity of upto 25 MW and as notified by the Jammu and Kashmir Power Development Corporation Limited[2] (JKPDC) from time to time were eligible under this policy. In order to give further impetus to exploitation of hydel potential, the GoJ&K revised this State Hydel Policy of 2003 in July 2011. The State Hydroelectric Projects Development Policy-2011 with following main objectives was to be applied to such hydropower projects/ stations of installed capacity of 2-100 MWs to be notified by JKPDC for execution by Independent Power Producers (IPPs):

- expeditious development of available hydro power of the State/ UT;
- to accelerate the pace of hydropower development through private sector participation by removing implementation relating difficulties of IPPs and to bring in investment and associated efficiency from private sector.

8.1.2 Policy for development of hydropower projects by JAKEDA

With the aim to promote and install Micro/ Mini[3] Hydel Projects (MHPs) in the Jammu and Kashmir, the GoJ&K endowed (August 2009) the Jammu and Kashmir Energy Development Agency[4] (JAKEDA) with the mandate to implement all micro/ mini hydel projects up to installed capacity of two MWs. GoJ&K introduced the Policy for development of MHPs in December 2011 and the main objective of this policy is to provide a solution to the energy problems in remote and hilly areas where extension of grid system is un-economical or un-viable.

8.2 Mechanism for implementation of Hydro Power Policies

(I) For development of Small Hydroelectric Projects (SHPs) of capacity of 2-25 MWs and of MHPs of capacity upto 2 MWs, the JKPDC and JAKEDA were made the nodal agencies respectively on behalf of GoJ&K. These agencies were entrusted with the responsibilities for preparation of pre-feasibility reports of potential sites, bidding process, award the projects, carry out necessary documentation, sign agreements, monitor during construction and operation, take over the project from Independent Power Producers (IPP) and take all other necessary steps as required under the policy.

(II) The execution of these projects was to be carried out through IPPs on Build, Own, Operate and Transfer (BOOT) basis through competitive bidding. The projects were also intended to be developed through Engineering Procurement and Construction (EPC) mode by nodal agencies by utilising their own funds.

(III) The financial and technical assistance for development of these hydro power projects has been extended by Ministry of New and Renewable Energy (MNRE), Government of India (GoI).

---

2 PSU of GoJ&K, incorporated in 1995 under the Companies Act.
3 Micro projects: up to 100 Kilo Watt (KW) and Mini Projects: Between 100 KW and two Mega Watt.
4 Autonomous body under the administrative control of Science and Technology Department, GoJ&K.

Audit test checked records relating to identification, bidding, award and execution of 157 stations/ sites (42 *per cent*) in the Head Offices of JKPDC (80 stations/ sites) and JAKEDA (77 stations/ sites) out of the identified 374 stations/ sites during the period from June 2021 to October 2021. Audit findings are discussed in succeeding paragraphs.

8.3 Identification of sites and development of SHPs and MHPs

(I) JKPDC had identified 186 stations/ sites with generation capacity of 1,420.16 MWs during the years 2003 to 2020 and JAKEDA had identified 188 stations/ sites with generation capacity of 305.37 MWs during the period 2011-12 to 2020-21. The status of stations/ sites identified and their execution by the two nodal agencies (JKPDC and JAKEDA) through two different modes as of October 2021 was as follows:

Table 8.1: Status of projects

Agency	No. of Stations/ Sites identified *(Generation capacity)*	No. of Stations/ Sites where no work started/ action taken	No. of projects identified for execution through EPC mode	No of projects identified for execution through IPP mode	No. of projects commissioned *(Generation capacity)*
JKPDC	186 *(1,420.16 MW)*	129	22	35	6 *(64 MW)*
JAKEDA	188 *(305.37 MW)*	96	-	92	4 *(15.75 MW)*
Total	**374 *(1,725.53)***	**225**	**22**	**127**	**10 *(79.75)***

As would be seen from the table, out of 374 identified stations/ sites with power generation capacity of 1,725.53 MWs, only 10 projects with capacity of 79.75 MWs (5 *per cent*) had been commissioned since the introduction of hydro power policy in October 2003. Further, in respect of 225 sites (60 *per cent*), no action had been taken and 139 projects could not be developed (October 2021) as discussed in **Paragraphs 8.4.1 and 8.5.1**.

(II) Target of 500 MWs was set for Jammu & Kashmir to be achieved by December 2022 in a meeting held (August 2015) between Ministry of New and Renewable Energy (MNRE), GoI and the State Governments. Audit noticed that GoJ&K did not allocate targets separately for achievement by two nodal agencies (JKPDC and JAKEDA).

(III) Nodal agencies (JKPDC and JAKEDA) had incurred an expenditure of ₹ 41.30 crore on surveys, investigations, pre-feasibility studies, preparation of DPRs and bid process management etc. of the projects during the period from 2003-04 to 2020-21 by JAKEDA (₹ 26.54 crore during 2015-16 to 2020-21) and JKPDC (₹ 14.76 crore during 2003-04 to 2020-21). Further, an expenditure of ₹ 154 crore was incurred on execution of three projects under EPC mode by JKPDC as of October 2021.

8.4 Implementation of Small hydro power projects by JKPDC

State Hydroelectric Projects Development Policy-2011 *inter alia* provide for accelerating the pace of hydropower development through private sector participation by removing implementation relating difficulties of IPPs and to bring in investment and associated efficiency from private sector. The details of stations/ sites identified,

awarded, projects commissioned and under execution ending 31 March 2021 are given in ***Appendix 8.1***.

8.4.1 Dismal performance in development of SHPs

The identified project sites were required to be developed by nodal agencies mainly through IPPs, by bringing in entire project cost and project was to remain under their control for 35 years. JKPDC had identified 186 stations/ sites with potential of 1,420.16 MWs[5] between the years 2003 and 2020. Of these, only six projects (three *per cent*) with generation capacity of 64 MWs were developed and commissioned during the period 2003-04 to 2020-21 with time overrun ranging between four months and over seven years while as three projects were under execution as of October 2021 with time overrun ranging between six years and nine years in respect of two projects. Status of remaining 177 sites was as follows.

- Out of 186 identified sites, pre-feasibility reports of 129 sites were not prepared and also mode of their execution through EPC or IPP was not determined by JKPDC. As a result the bidding process could not be initiated for these 129 sites (69 *per cent*) (October 2021). JKPDC has to prepare pre-feasibility reports of potential sites and two stage bidding process was to be adopted comprising Request for qualification (RFQ) followed by Request for proposal (RFP).

- For 27 sites[6], JKPDC made four[7] attempts for invitation of bids during the period 2011-21 under IPP mode. No response was received in respect of 17 sites (nine *per cent*) and remaining 10 sites were awarded (between November 2012 and July 2014) to IPPs for development of projects. Out of 10 sites awarded, six IPPs (three *per cent*) failed to deposit upfront premium of ₹ 1.98 crore and their letter of award was accordingly withdrawn (February 2015) by JKPDC, allotment of three projects was terminated due to land issues, slow progress and techno economic viability reasons and one project was pending because of statutory clearances/ land issues (October 2021).

- For 20 sites proposed under Prime Minister's Development Package (PMDP), GoI had not acceded to request of GoJ&K for release of funds. The project "Implementation of Small Hydro power projects" with provision of ₹ 2,000 crore was sanctioned (November 2015) under PMDP. The Board of Directors (BoD) of JKPDC in its 73rd meeting (October 2017) accorded approval for implementation of 20 projects through EPC mode to be funded under PMDP as well as funds to be arranged by Power Development Department (GoJ&K) subject to their viability *vis-à-vis* evacuation of power. The request of GoJ&K for release of funds under PMDP was not acceded by GoI in view of high project cost and unviable tariff of these 20 projects as a result the JKPDC could not avail assistance from GoI. JKPDC took up

---

5 35 projects with potential of 496.60 MW under EPC mode, 92 projects with potential of 611.55 MW under IPP mode and 59 projects with potential of 312.01 MW in respect of which mode of execution not determined.

6 Excludes one site which was under DPR preparation.

7 Between October 2011 and February 2013.

(July 2019) execution of one project[8] through own funding and remaining 19 sites (10 *per cent*) had not been developed. JKPDC, however, failed to select viable alternate sites and propose them for funding under PMDP.

Audit noticed dismal performance in development of SHPs due to following reasons:

- Nodal agency did not coordinate with revenue authorities and other line departments viz. Irrigation and Flood Control Department, Relief and Rehabilitation Department and Forest Department so that clearances and approvals could be ensured in time bound manner for proposed projects.

- There was no mechanism in place to monitor the development of small projects at State/ UT level and to coordinate with the line departments/ agencies to facilitate IPPs in obtaining statutory clearances and finances for their projects.

- Nodal agency had failed to monitor execution of projects during construction as well as post commissioning phase. Inspections of projects were not conducted and monthly generation data was not obtained from IPPs.

The IPPs while confirming the above reasons also attributed (September 2021) poor performance in development of projects to unviable tariff, lack of financing by banks due to non-availability of buy back agreement with Power Development Department, allotment of non-operative sites, delay in securing statutory clearances from various Government Departments, difficulties in acquiring private/ forest land etc.

After being pointed out in Audit, the JKPDC management stated (September 2021) that though necessary assistances were to be extended by JKPDC, obtaining of statutory clearances and approvals from Regulator were obligations of IPP. The reply can be viewed in light of the fact that allotted projects had already exhausted maximum timeline available for obtaining such clearances, which indicated that nodal agency failed to extend facilitating function to these IPPs.

Thus, effective steps were not taken by the GoJ&K and JKPDC for preparation of prefeasibility reports and to address the issues of bidding, unviable tariff, high project cost, land acquisition and statutory clearances besides the concerns and finances for IPPs, as a result the objective of expeditious development of hydro power projects could not be achieved.

8.4.2 Preparation of deficient DPRs

According to State Hydroelectric Projects Development Policy-2011, the JKPDC was to prepare pre-feasibility reports of the potential sites. JKPDC did not adhere to guidelines prescribed by MNRE and its designated agencies[9] for preparation of feasibility reports and DPRs. Audit noticed that DPRs were prepared without verification of the identified sites in light of benchmarks of designated agencies of MNRE. Daily discharge data of 18 months inclusive of minimum period of two lean seasons was also not submitted by JKPDC to MNRE in contravention of MNRE

[8] Karnah (Kupwara).
[9] AHEC IIT Roorkee, Central Water Commission and Central Electricity Authority.

norms. Audit analysis[10] of DPRs vis-à-vis norms laid down by MNRE, revealed deficiencies like:

- Costs for local area development charges and for capitalized initial spares had not been provided for in the capital cost of the projects. Financial analysis of projects lacked detailed benefits cost (B-C) ratio analysis and net present value (NPV) analysis.
- Not considering local area development charges in cost of projects, absence of a) detailed cost-benefit analysis, b) details of pre-feasibility/ feasibility/ investigation reports and items required for physical arrangement of site.
- Geological surveys provided with DPRs of projects handled by JKPDC did not include aerial photo interpretation, geophysical prospecting and exploratory drilling. Geological reports regarding preliminary investigation stage were also not available**.**

- DPRs of projects did not include demand forecasting[11]. This resulted in high unit cost of tariff structure for 21 projects, due to which the projects could not be funded by GoI/ GoJ&K.

The deficient DPRs led to unviable projects due to which either genuine IPPs could not be mobilized or IPPs to whom projects were allotted failed to take up their execution.

After being pointed out in Audit, the General Manager (Civil) JKPDC stated (September 2021) that it had not prepared DPRs of IPP projects and projects were allotted on the basis of pre-feasibility reports besides electricity demand forecasting model as per Alternate Hydro Electric Centre (AHEC), Roorkee guidelines was not required. The reply is not tenable as JKPDC was required to ensure documentation of projects and that AHEC Roorkee guidelines were to be followed as per the requirements of MNRE framework.

8.4.3 Power from completed projects not evacuated

In order to ensure smooth transmission of power from a generating plant to the grid for further transmission/ distribution, installation of power evacuation system is required before commissioning of project. Construction of two HEPs of generation capacity of nine MW each at Dah and Hanu in Leh district was awarded (September 2012) to the contractor firm[12] by JKPDC on EPC turnkey basis at a cost of ₹ 217.56 crore[13]. An expenditure of ₹ 127.70 crore was incurred on execution of the projects after availing loan of ₹ 111.50 crore[14] from Rural Electrification Corporation and financial assistance of ₹ 16.20 crore (March 2012) from MNRE, GoI.

---

10 Audit analysis of 11 DPRs (EPC: 8 and IPP: 3) out of 38 DPRs.

11 Parameter is used to examine effects of various policies and to construct an optimized energy plan under political and economic circumstances.

12 M/s P&R Infra Projects Ltd Chandigarh.

13 EPC: ₹ 163 crore; others land building etc.: ₹ 24.55 crore and IDC: ₹ 30.01 crore.

14 Dah: ₹ 5 3.92 crore and Hanu: ₹ 57.58 crore.

The Dah project was commissioned (September 2019) with time overrun of 36 months and Hanu project was under trial run with progress of various components ranging between 87 *per cent* and 96 *per cent* (July 2021).

Audit noticed that for power evacuation from these SHPs, construction of Dah-Hanu-Khalsti 66 KV D/C Transmission Line was approved by BoDs (March 2017) and Letter of Intent (LoI) was issued (May 2017) in favour of the contractor firm at a cost of ₹ 78.88 crore and the work was to be completed within 12 months i.e. up to May 2018. The contractor, however, failed to complete the work as envisaged and the completion date was extended till November 2019 on the grounds of unfavorable weather conditions and closure of road. The contractor, however, did not adhere to the revised schedule of completion and reasons thereof were neither on record nor intimated. The progress of construction of Transmission line was very poor as completion of tower foundation works ranged between six *per cent* and 25 *per cent*, tower superstructure between 60 *per cent* and 85 *per cent* (August 2021). The financial progress of the project was ₹ 23.18 crore (29 *per cent*).

Thus, due to failure of the JKPDC in planning construction of power evacuation system in parallel with commissioning of two projects and in ensuring completion of transmission line by the contractor within the allotted timelines, power at Dah hydro project could not be evacuated. This resulted in non-utilisation of power generation of 59.37 Million Units and consequent loss of revenue of ₹ 16.45 crore (July 2021).

8.4.4 Penalty on defaulting IPPs not imposed

Hydro policy 2011 stipulates that failure to meet the timelines fixed for execution of projects by IPPs may attract a penalty depending on the degree of slippage. A penalty at the rate of ₹ five lakh per MW was to be imposed on the IPP for every month of delay in financial closure before resetting the timelines. Failure to meet the timelines may also result in cancellation of allotment and forfeiture of upfront premium amount without any compensation. The policy also stipulates that JKPDC shall be responsible for executing the Implementation Agreement with the IPP.

Audit noticed that JKPDC allotted nine projects with potential of 92.50 MW between November 2012 and July 2014. Five IPPs failed to deposit up-front premium of ₹ 1.98 crore and did not take up the allotted projects. The timelines for financial closure of remaining four projects which were fixed between May 2015 and January 2017 were not adhered to by IPPs. However, JKPDC did not invoke penal provisions for delay in financial closure of these projects due to which penalty of ₹ 12.60 crore could not be imposed on defaulting IPPs. Further, JKPDC had not executed implementation agreement with IPPs for timely completion of projects as mandated in the hydro policy-2011.

8.4.5 Incentives for IPPs not availed from GoI

As per Small Hydro Power programme of MNRE (GoI), projects up to 25 MW are eligible for incentives from MNRE, GoI. For projects in Jammu and Kashmir, MNRE provides financial assistance of ₹ 1.5 crore per MW subject to ceiling of ₹ five crore

per project. JKPDC were to facilitate submission of proposals for obtaining Central Financial Assistance (CFA) from MNRE by the IPP within six months of start of work/ six months of receipt of first disbursement from financial institution. The incentives were to ensure economic viability of small and mini/ micro HEPs.

Audit noticed that three IPP projects with potential of 37.50 MW were completed and commissioned between June 2012 and March 2021 after introduction of Hydro Policy-2011. However, JKPDC failed to submit proposals to MNRE with the result no incentives could be availed from GoI for these IPPs for ensuring economic viability of HEPs.

8.4.6 Non-recovery of open access charges

The hydro policy-2011 stipulate that in case commissioned IPP sells power to third party consumers or outside Jammu and Kashmir, the open access charges are to be determined by J&K SERC/ CERC.

Audit noticed that five IPP projects with potential of 55 MWs which were commissioned during the period 2009-21 were selling power outside the Jammu and Kashmir for which open access charges were to be recovered from these IPPs as per the rates fixed by Central Electricity Regulatory Commission (CERC). However, open access charges of ₹ 6.94 crore were not recovered from these IPPs for the period from April 2017 to August 2020 for power sold outside the State/ UT (September 2021).

8.5 Implementation of micro/ mini hydro power projects (MHPs) by JAKEDA

The main objectives of Policy for development of micro/ mini hydro power Projects-2011 are to attract investors for development of the State'/ UT's water resources, provide solution to the energy problems in remote and hilly areas and help in generating revenue for the State/ UT and provide employment avenues etc. The details of sites identified, allotted, projects commissioned and under execution by JAKEDA as of March 2021 are given in ***Appendix-8.2***.

8.5.1 Dismal performance in development of MHPs

JAKEDA (nodal agency) had identified 188 stations/ sites with generation capacity of 305.37 MW during the period 2011-12 to 2020-21. However, as of October 2021, only four projects (two *per cent*) with generation capacity of 15.75 MW had been commissioned between July 2019 and May 2021 with time overrun ranging between 19 months and four years. Status of 184 sites was as follows:

- 96 sites (51 *per cent*) could not be developed as after preparation of pre-feasibility reports, bids were not invited for these sites by JAKEDA. Reasons thereof were neither on record nor intimated.

- JAKEDA made six[15] attempts for invitation of bids for 88 projects (47 *per cent*) only with capacity of 188.90 MWs during the period 2011-21. Of these

[15] Between July 2012 and January 2016.

88 project sites, 53 sites (28 *per cent*) did not invoke any response from IPPs. JAKEDA had failed to cancel allotments of these projects and re-allot them as well as forfeit the up-front premium of ₹ 49.65 lakh deposited by defaulting IPPs in accordance with the policy guidelines.

➢ 39 sites (21 *per cent*) were awarded for development of hydro power projects between February 2013 and April 2021 by JAKEDA. Of these, only five projects (two *per cent*) were under progress with time overrun ranging between 18 months and four years (October 2021). Twenty six IPPs (14 *per cent*) who were allotted sites for developing projects between February 2013 and August 2017 either did not fulfill commitments for execution of projects or failed to take any action as nine IPPs could not get the statutory clearances despite lapse of stipulated time of 18 months and 17 IPPs had exceeded timelines[16] for completion of projects by 14 months to 47 months (July 2021). Remaining four sites had been allotted to two developers/ IPPs during February 2021 and April 2021 under Swiss challenge method[17].

Audit noticed that dismal performance in development of hydro power projects by JAKEDA was due to following reasons.

➢ JAKEDA did not coordinate with authorities of Revenue Department and other line Departments viz. Irrigation and Flood Control, Relief and Rehabilitation and Forest etc. to ensure statutory clearances and approvals for proposed projects in time bound manner.

➢ JAKEDA had failed to monitor the projects during their construction as well as post commissioning phase and obtain monthly generation data from IPPs as required under hydro policy -2011.

➢ The required inspections of projects were not conducted by the nodal agency.

➢ There was no mechanism in place to monitor the development MHPs at UT level and to coordinate with the line Departments to facilitate IPPs in obtaining statutory clearances.

After being pointed out in Audit, the Executive Engineer, JAKEDA stated (September 2021) that hydro sector in general experiences various impediments during the development of the projects and in obtaining of statutory clearances as such to reduce the completion time and online portal for obtaining such clearances is required. It was further stated that once the tenders were invited it was the prerogative of prospective bidders to bid for the projects as per their suitable choice and that IPPs were themselves responsible for coordination with line Departments. The replies can be viewed in light of the fact that allotted projects had already exhausted maximum timeline available for obtaining such clearances and that even after award of projects to IPPs of their choice, execution of most of the projects either could not be taken up or completed thereby indicating that nodal agency failed to extend facilitating function to these IPPs.

[16] Maximum period of 54 month laid down for completion under hydro policy 2011.
[17] Sites and Proposals submitted by IPPs of their own.

The IPPs while confirming the above reasons also attributed (September 2021) dismal performance of the projects to delays in obtaining finances for projects because of non availability of bankable power purchase agreements.

Thus, inaction of JAKEDA in allotment of sites and failure to address the concerns of IPPs resulted in dismal performance in development of hydro power projects thereby defeating the objective of hydro policy 2011.

8.5.2 Preparation of deficient DPRs

According to Policy for development of Micro/ Mini Hydro Power Projects-2011, the IPP has to prepare and submit the DPR and other information and make necessary applications for obtaining statutory clearances and approvals from GoJ&K and concerned regulatory authorities after carrying out required confirmatory surveys and investigations as per prevailing regulations/ norms. JAKEDA did not adhere to guidelines prescribed by MNRE and its designated agencies for preparation of feasibility reports and DPRs. Audit noticed that DPRs were prepared without verification of the identified sites in light of benchmarks of designated agencies of MNRE. Audit analysis[18] of DPRs vis-à-vis norms laid down by MNRE revealed following deficiencies:

- Costs for local area development charges and for capitalized initial spares had not been provided for in the capital cost of the projects. Financial analysis of projects lacked detailed benefits cost (B-C) ratio analysis and net present value (NPV) analysis.
- Details of pre-feasibility/ feasibility/ investigation reports and items required for physical arrangement of site, were not considered.
- As laid down in MNRE norms, the life of civil works has not to be less than 100 years while that of main electro-mechanical generating equipment i.e. turbine, generator, transformers, auxiliaries, etc. installed has not to be less than 35 years. These facts were not recorded in the DPRs.
- DPRs of projects identified by JAKEDA did not include details as to whether the projects could only produce energy or have potential for dependable capacity value as well. The details of market potential and formulation data in this regard were not available in the DPRs.

The deficient DPRs led to non-viability of the projects due to which either genuine IPPs could not be mobilized or IPPs to whom projects were allotted failed to take up their execution.

After being pointed out in Audit, the Executive Engineer, JAKEDA stated (October 2021) that poor/ non-response to identified sites from IPPs can be assigned to lack of interest by IPPs due to risks and hurdles like delay in obtaining statutory clearances, land acquisition, lack of power evacuation infrastructure etc. It was further stated that deficiencies with regard to electricity demand forecasting and geological

[18] 23 DPRs.

studies was not within the jurisdiction of entity and DPRs involved chapter related to financial analysis and geological studies. The reply can be viewed in the light of the fact that JAKEDA as nodal agency was required to facilitate implementation of projects by IPPs as required under the hydro policy-2011.

8.5.3 Incentives for IPPs not availed from GoI

As per Small Hydro Power Programme of MNRE (GoI), projects up to 25 MWs are eligible for incentives from MNRE, GoI. For projects in Jammu and Kashmir, MNRE provides financial assistance of ₹ 1.5 crore per MW subject to ceiling of ₹ five crore per project. Further, as per Hydro Policy 2011 for MHPs, 10 *per cent* subsidy on capital investment subject to the ceiling of ₹ 60 lakh was to be given in addition to the central subsidy for the power projects from one MW to two MWs after successful installation & commissioning of the projects. JAKEDA was to facilitate submission of proposal for obtaining Central Financial Assistance (CFA) from MNRE by the IPP within six months of start of work/ receipt of first disbursement from financial institution. The incentives were intended to ensure economic viability of small and mini/ micro hydro power projects. Audit noticed as follows:

(I) JAKEDA submitted (January 2019) CFA proposal of one IPP whereas four IPPs had forwarded their proposals directly to MNRE for qualified amount of ₹ 23 crore[19]. However, no assistance was released to these IPPs by GoI as JAKEDA had not submitted progress reports of execution of the projects which were required to be forwarded during implementation of the projects to MNRE, GoI. The JAKEDA had also failed to submit proposal for capital subsidy for one commissioned project[20] (May 2021) to GoJ&K. As a result five IPPS could not avail incentive of ₹ 23.60 crore from GoI/ GoJ&K.

(II) CFA of ₹ 3.87 crore was sanctioned (September 2015) by MNRE, GoI for preparation of 50 DPRs by JAKEDA under the scheme "Resource Assessment and Support for identification of new sites". Thereafter, first instalment of ₹ 1.94 crore (50 *per cent* of sanctioned grant) was released (December 2015) by GoI. The GoJ&K also authorised (February 2018) utilisation of ₹ two crore under Capex Budget for identification of sites and conducting of pre-feasibility studies out of which ₹ one crore (50 *per cent* share) was released during 2018-19.

JAKEDA was required to submit two copies of approved DPRs to MNRE along with the Utilisation Certificate (UC) of first instalment of funds for securing release of balance funds. However, JAKEDA submitted UC and DPRs belatedly in June 2017 and August 2018, respectively i.e. after lapse (March 2017) of the scheme and DPRs submitted to MNRE were not in conformity with the guidelines and relevant standards issued by the designated agencies. As a result, balance amount ₹ 1.94 crore was withheld by MNRE and further CFA could not be availed.

[19] Ranging between ₹ three crore and ₹ five crore.
[20] Rayil-I (Ganderbal) 2 MW.

Thus, lackadaisical approach of JAKEDA in arranging required financial incentives for IPPs contributed to their discouragement and consequent failure to bring in investment and associated efficiency from private sector.

After this was pointed out in Audit, the Executive Engineer, JAKEDA admitted that copies of UCs and DPRs were submitted after lapse of the scheme and that case was being thoroughly pursued with the Ministry.

8.5.4 Benefits of power generated in remote areas not availed

The main objective of the hydro policy 2011 for MHPs is to provide a solution to the energy problems in remote and hilly areas where extension of grid system is un-economical or un-viable.

Audit check of records of JAKEDA revealed that out of four IPP projects commissioned (October 2021), only one project[21] with generation capacity of 3.75 MWs was selling power locally and other three projects[22] with generation capacity of 12 MWs were selling power outside the UT thereby defeating the objective of hydro policy for providing solution to the energy problems in remote and hilly areas of the UT.

After being pointed out in Audit, the Executive Engineer, JAKEDA stated (July 2021) that main impediment in selling power locally by the commissioned projects was due to timely payment not released by Jammu & Kashmir Power Corporation on account of power purchases due to which loans availed by IPPs from financial institutions were on the verge of being declared NPA and most of the financial institutions are unwilling to fund these projects without reliable and bankable power purchase agreement. The IPPs also attributed (September 2021) the same reasons for not selling generated power within the UT besides lack of intent by GoJ&K utilities as another reason.

8.5.5 Non-execution of projects under EPC mode

Hydro policy of 2011 for MHPs stipulates that the nodal agencies of GoJ&K can take up implementation of micro/ mini hydro projects at any site without inviting bids from IPPs. Audit noticed that JAKEDA did not explore the option to execute identified projects under EPC mode despite the fact that 53 projects with generation capacity of 85.65 MWs which were offered to IPPs evoked no response. This led to infructuous expenditure of ₹ 4.04 crore on preparation of DPRs and non-achievement of objective of development of hydro power generation capacity of the UT.

After being pointed out in Audit, the Executive Engineer JAKEDA stated (July 2021) that execution of projects in EPC mode require investment of around ₹ 10 crore per MW and JAKEDA has not been provided adequate funds due to which projects under EPC mode could not be taken up. The reply is not tenable as proposal was not submitted by JAKEDA to GOJ&K/ GoI to seek funds for execution of identified projects under EPC mode.

---

[21] Kheri: 3.75 MWs (Ramban).

[22] Baltikulan: 5 MWs (Ganderbal), Ichoo: 5 MWs (Anantnag) and Rayil-I: 2 MWs (Ganderbal).

8.6 Conclusion

The main objectives of hydro policy of expeditious development of available hydro power through private sector participation by removing implementation relating difficulties of IPPs could not be achieved. Out of 374 identified project sites with power generation capacity of 1,725.53 MWs, only 10 projects with capacity of 79.75 MWs (five *per cent*) had been commissioned with time overrun ranging between four months and over seven years. While no action was taken for 225 sites (60 *per cent*) after their identification, bids were invited for 115 sites (31 *per cent*) only. No response was received for 70 sites and out of 45 sites awarded for development of hydro power projects, 32 IPPs either failed to fulfill commitments like obtaining statutory clearances for execution of projects or did not deposit upfront premium or the allotment of projects was terminated due to land issues, slow progress and techno economic viability reasons. For 20 sites (five *per cent*) proposed under Prime Minister's Development Package, GoI had not acceded to request of GoJ&K for release of funds in view of high project cost and unviable tariff of these 20 projects. Nodal agencies did not coordinate with line Departments for facilitating IPPs in clearances and approvals of proposed projects in a time bound manner and failed to monitor execution of projects. The IPPs had also attributed poor performance in development of projects inter alia to lack of financing by banks due to non-availability of buy back agreement with GoJ&K. Failure of JKPDC in ensuring completion of transmission line alongside the commission of hydro project at Dah resulted in non-utilisation of power generation of 59.37 MUs and consequent loss of revenue of ₹ 16.45 crore. Three projects with generation capacity of 12 MWs were selling power outside the UT thereby defeating the objective of hydro policy for providing solution to the energy problems in remote and hilly areas of the UT.

8.7 Recommendations

- *Lack of ease of doing business for IPPs should be addressed and hydro policy 2011 revisited;*
- *GoJ&K and JKPDC/ JAKEDA may ensure feasible identification of sites, prompt DPR finalisation, handholding of IPPs in land acquisition and statutory clearances as well as obtaining of finances/ assistances so that IPPs could come forward for taking up projects;*
- *GoJ&K should ensure execution of bankable power purchase agreements and ensure timely payment of dues to these IPPs; and*
- *In respect of EPC projects developed by JKPDC, completion of projects in time bound manner may be ensured apart from installation of power evacuation system before commissioning of projects.*

Chapter IX

Management of Fixed Assets by Jammu & Kashmir Bank Limited

Chapter IX: Management of Fixed Assets by Jammu & Kashmir Bank Limited

Finance Department

Jammu & Kashmir Bank Limited

The Bank purchased land valuing ₹ 184.92 crore during 2016-21, out of which land valuing ₹ 140.22 crore could not be utilised. Funds to the tune of ₹ 22.78 crore remained blocked due to improper planning. There was wasteful expenditure of ₹ 5.28 crore in hiring of premises. Increase of lease rent in violation of the lease agreement led to extra expenditure of ₹ 2.61 crore. Due to hiring of unfurnished premises, the Bank had to pay lease rent of ₹ 5.14 crore as it took considerable time in furnishing works leading to delay in relocation of business units. There were delays in execution of works, however, penalty amounting to ₹ 8.77 crore was not recovered from contractors.

9.1 Introduction

Jammu and Kashmir Bank Limited (Bank) was established (October 1938) to carry out the business of Banking Company. The Bank performs its business activity from owned or hired premises. In January 2017, the Board of Directors (BoDs) of the Bank approved the policy for acquisition of premises on lease/ rental/ outright purchase basis. Prior to January 2017, there was no Board approved policy and the Bank was acquiring premises in accordance with the circulars issued (March 2009 to April 2014) by its Corporate Office. The compliance audit on management of fixed assets by the Bank covering the period from 2016-17 to 2020-21 was carried out to examine issues relating to acquisition of land, construction/ up-gradation/ modification related to civil/ interior works, furniture, electrical works and hiring of the premises.

As on 01 April 2016, the gross block of the fixed assets (Land & Building, furniture & fixtures and temporary wooden structures) of the Bank was ₹ 812.91 crore which increased to ₹ 2,385.48 crore[1] by end of March 2021. The net block[2] of these assets as on 31 March 2021 was ₹ 1,755.33 crore. Audit examined[3] records of Corporate Office and four Zones[4] of the Bank.

The audit findings are discussed in succeeding paragraphs.

9.2 Purchase of land

The Bank purchased land valuing ₹ 184.92 crore during 2016-17 to 2020-21 (for opening its own business activities, training centers for staff, etc.) as detailed in **Table 9.1**.

---

1 Including ₹ 1,045.22 crore on account of revaluation of fixed assets during 2016-17 to 2020-21.
2 Cost of an asset less depreciation.
3 March to April, October to November 2021 and February to March 2022.
4 Zonal Offices at Kashmir Central-I (Srinagar), Jammu Central-II (Kathua), Gurugram and Mumbai.

Table 9.1: Purchase of Land during 2016-17 to 2020-21

Sl. No.	Year	Date of Acquisition	Particulars	Owned/ Leased	Amount (₹ in crore)
1.	2016-17	28.12.2016	Ram Kishore Road, New Delhi	Owned	117.72
				Sub-Total	**117.72**
2.	2017-18	30.12.2017	New Friends Colony, New Delhi	Owned	22.88
3.		31.01.2018	Additional Premium, Rail Head Complex, Jammu	Leased	3.85
				Sub-Total	**26.73**
4.	2018-19	02.01.2019	Additional land at Gole Gujral, Jammu	Owned	13.36
5.		20.03.2019	Gole Gujral, Jammu	Leased	4.60
6.		23.03.2019	Land at Pampore, Srinagar	Leased	22.50
				Sub-Total	**40.46**
7.	2019-20	21.05.2019	Land at Padam Zanskar, Ladakh	Leased	0.01
Total					**184.92**

Out of the land valuing ₹ 184.92 crore acquired during 2016-17 to 2020-21, the Bank could not the utilise land valuing ₹ 117.72 crore at Ram Kishore Road, New Delhi and land valuing ₹ 22.50 crore at Pampore, Srinagar even after lapse of more than five years and three years respectively. Further, funds to the tune of ₹ 22.78 crore utilised for acquisition of land and related construction activity at Rail Head Complex, Jammu remained blocked without any benefit accruing to the Bank due to improper planning. Audit also noticed that the Bank did not apprise its BoDs of the status of land acquired/ utilised by it during 2016-21, thus depriving the BoDs to initiate any remedial action so that the acquired land could be utilised for intended purpose. The blocking up of funds due to non-utilisation of land and due to improper planning are discussed in succeeding paragraphs.

9.2.1 Blocking up of funds

Residential Plot at Ram Kishore Road, Civil Lines, New Delhi

The Bank took over (September 2014) the mortgaged property[5] under SARFAESI Act, 2002[6] against the Non-Performing Account (NPA) of M/s Jain Infra Projects Limited and M/s Jain Reality Limited and the same was put to auction at a reserve price of ₹ 135 crore. Since no bid was received by the Bank, the reserve price was reduced to ₹ 120 crore (December 2014) and subsequently to ₹ 110 crore (June 2015). However, no bid was received on both the occasions. The Bank decided (March 2016) to acquire the property for its own use and the plot was acquired (April 2016) at ₹ 117.72 crore[7].

Audit observed (April 2021) that the plot acquired in April 2016 could not be utilised even after lapse of five years (March 2021). It was further observed (April 2021) that the plot, though being at prime location, could not be disposed of despite being put to auction thrice as it had a piece of plot measuring 200 square yards having a

[5] Residential plot measuring 3,411.28 square meter at Ram Kishore Road, Civil Lines, New Delhi.
[6] Securities and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.
[7] Cost of land: ₹110.00 crore and Stamp Duty: ₹ 7.72 crore.

dilapidated small structure[8] within the boundary of land acquired by the Bank and was reportedly mortgaged to State Bank of India (SBI). However, the Bank while accepting (January 2012) the land as security at the time of sanctioning the loan did not ensure clear demarcation of land. The efforts made by the Bank to sort out the issue with SBI also could not yield any result.

Thus, due to acceptance of encumbered property as mortgaged security, the Bank could neither dispose it off nor put it to use even after lapse of five years from the date of its acquisition leading to blockade of funds of ₹ 117.72 crore.

The Bank Management replied (March 2022) that the property was intended for its own use. However, the proposal couldn't materialize considering the high cost to income ratio. Further, the proposal to dispose of the property is under active consideration.

The Management's reply may be seen in light of the fact that the bank before acquiring did not ensure that the property was encumbrance free and efforts of the Bank to auction the property also did not yield any result.

Land at Pampore

The Bank approached (January 2014) Jammu & Kashmir Industries Limited (JKI) for allotment of land for the purpose of construction of Staff Training Centre at Srinagar. The BoDs of the Bank accorded approval to acquisition of the land in March 2014. Thereafter, sanction was accorded (June 2017) for leasing out of 50 Kanals of land situated at Government Joinery Mills (JKI), Pampore for a period of 40 years[9] in lieu of premium payable at ₹ 45 lakh per kanal[10] and ground rent at ₹ 150 per marla per annum for establishment of a Mega Currency Chest and Staff Training College. The Bank acquired (March 2019) the land at a cost of ₹ 22.50 crore.

However, the land was lying idle for over three years as no action was initiated for utilising the land for intended purpose, thereby leading to blocking up of funds of ₹ 22.50 crore.

The Management stated (March 2022) that the land could not be utilised due to reorganisation of erstwhile State into Union Territory and subsequent lock down, adoption of CVC guidelines by them resulting into revision in their procurement policy and lock down conditions due to COVID 19 pandemic. The fact remains that process to utilise the land has not yet been initiated (March 2022).

Rail Head Complex, Jammu

The Bank purchased (July 1993) land measuring 18,900 sq. ft. at Rail Head Complex, Jammu on lease basis for a period of 40 years at a premium of ₹ 43.75 lakh from Jammu Development Authority (JDA). As per the lease agreement, the Bank was

8 In the name of M/s Accurate Township Pvt. Ltd.
9 Renewable upto a maximum period of 90 years.
10 A kanal is a unit of area which is equivalent to 506 square meter.

allowed to construct two storey block with extra charges of 25 *per cent* for addition of third storey with a total of four floors including basement floor. However, construction activity was not initiated on the land until September 2011, when proposal was made for construction of Currency Chest and other offices viz. Staff Training College (STC), stationery department, library auditorium etc. The Bank hired (September 2011) a consultant for providing of design layout and drawings. The BoDs of the Bank approved (September 2012) the plan to construct new office complex, comprising of two basements, ground floor and four storey at an estimated cost of ₹ 46.26 crore.

In response to the Bank's request for grant of permission for construction of two additional floors, JDA intimated (June 2013) that it can be granted only after amendment in the existing lease deed. The Bank applied (March 2014) with JDA for permission to construct additional two floors. Tenders were invited (December 2014) and based on the offer received, the work was awarded (January 2016) to M/s Construction Engineers at a cost of ₹ 28.35 crore, with a schedule completion period of 24 months. The Bank also modified (January 2018) lease deed with JDA after payment of additional premium of ₹ 3.85 crore. The Bank incurred expenditure of ₹ 22.78 crore[11] (March 2021).

Audit observed that the Bank took 18 years to initiate proposal for construction of building. Further, it took more than four years in award of work as there was delay in approaching JDA for modification in lease deed, though the Bank was already aware that any change in construction plan would require approval of JDA. The progress of work was 62 *per cent* even after lapse of more than four years from the date of award due to the Bank's indecisiveness as changes on account of construction of STC and auditorium at another place separately were made during the course of construction. It was also observed that the basic structure was ready by October 2018, however, the finishing and other works could not be completed due to change in the designs consequent upon change in work plan.

Thus, expenditure to the tune of ₹ 22.78 crore did not yield any intended benefits to the Bank till date.

The Management replied (March 2022) that the Bank decided to construct STC on another piece of land available with it, in order to avoid any encroachment on it leading to change in construction plan. Further, the project at Rail Head Complex is nearing completion.

The reply is not tenable in view of the fact that the construction work could not be completed, even after decision (December 2017) to construct STC on another piece of land as the work was halted time and again due to indecisiveness on the part of the

[11] Cost of land: ₹ 4.29 crore; Permission fee to JDA: ₹ 0.08 crore; Building works: ₹ 17.68 crore and Consultancy work: ₹ 0.73 crore.

Bank management. Further, the Bank took 18 years to initiate the process and another period of over four years to complete the tendering process.

9.2.2 Irregular payment for purchase of land at Gole Gujral

The Bank acquired (November 1981) land measuring 39 kanal at Gole Gujral, Jammu as a part of compromise/ settlement of outstanding loan accounts from Mr. 'AS' & others[12] at a cost of ₹ 10.35 lakh. The lease was executed by Mr. 'AS' for himself and on behalf of others (as general power of attorney). The legal heir and widow of Mr. 'IS' filed (August 1998) a suit in the Court of Additional District Judge against the Bank for declaration of lease deed as null and void as no power of attorney was executed in favour of Mr. 'AS' by Mr. 'IS'. The Additional District Judge dismissed the petition in June 2017. Thereafter, the Bank took up the matter with land revenue authorities for fresh demarcation of land and *tatima* was issued (June 2017) in Bank's favour. The permission to construct the building was also accorded (December 2017) in favour of the Bank by Jammu Municipal Corporation (JMC). Meanwhile, Mr. 'RSJ'[13] filed (April 2018) an application before the Additional District Judge, Jammu for restoration of the civil suit. A writ petition was also filed before the High Court of J&K seeking direction to JMC to cancel building permission. The writ was disposed of (April 2018) with directions that the same may be decided by the Chairman, Building Permission Authority. JMC directed (May 2018) the Bank not to carry out/ start construction, however, after considering Bank's reply, JMC allowed (June 2018) the Bank to resume construction. In the meantime, Bank received an undated letter on a plain piece of paper from the Attorney of Mr. 'RSJ', giving two options[14] to amicably settle the matter with the Bank.

The matter was placed before the BoDs and it was decided (July 2018) to enter into a compromise to resolve the dispute. Accordingly, compromise deed was executed (October 2018) at a negotiated cost of ₹ 4.60 crore.

Audit observed that the Bank was in possession of land since November 1981 and the case filed (August 1998) against it regarding the ownership was also decided (June 2017) in its favour and permission (June 2018) to construct building was also allowed by JMC. Despite the fact that all legal remedy was in its favour, the Bank compromised and made irregular payment of ₹ 4.60 crore.

The Bank replied (March 2022) that considering the fact that it had been embroiled in litigations in the matter since 1998, it decided to go for amicable settlement in order to save the time and resources.

The reply is not tenable as after decision of the High Court of J&K in favour of the Bank, it decided to construct a Staff Training College and there was no stay on construction activity as permission to construct the building was also allowed

[12] Mr. PS, Ms. BK, Mr. IS and Ms. MK.
[13] Legal heir of Mr. 'IS'.
[14] Option I:Offered to pay ₹10.35 lakh to the Bank with upto date interest in lieu of the Bank returning the possession of the property; Option II: Demanded ₹20 crore from the Bank in lieu of the Bank retaining possession of the property.

(June 2018) by JMC and the civil suit was also not restored. The Bank even then decided to compromise and made irregular payment of ₹ 4.60 crore.

9.3 Hiring of premises

As per the Bank's policy, properties are hired on lease basis after inviting expression of interest. In case of existing Business Unit (BU) operating from hired premises, the Branch head is required to ensure timely renewal of its lease. During the period 2016-21, the Bank renewed/ hired 373 premises out of which records relating to 103 premises (27.61 *per cent*) renewed/ hired were examined in Corporate Office and selected zones[15]. The audit findings are discussed in the succeeding paragraphs.

9.3.1 Wasteful expenditure in hiring and development of premises

The Bank received (April 2016) a request from M/s Broad Way Enterprises Private Limited (firm) offering space for hiring at its Hotel Broadway, MA Road, Srinagar. After negotiations, the firm agreed (26 July 2017) to rent out space on a monthly rent of ₹ 150 per sq. ft. Thereafter, the Bank entered (December 2017) into a lease agreement with the firm for hiring of space measuring 5,181.47 sq. ft. for opening of High Net worth Individual (HNI) Branch. The Bank also entered (March 2019) into another lease agreement in the same premises for hiring of space measuring 4,978.68 sq.ft. on similar terms and conditions for housing its International Banking Division (IBD) citing space constraints at the existing premises at Air Cargo Complex, Srinagar[16]. The Bank placed (February 2019) a work order[17] at a cost of ₹ two crore for development of the hired premises. The Bank, however, decided (January 2020) to de-hire the premises on the ground that shifting of IBD would not translate into phenomenal growth of foreign exchange business as the forex business in Srinagar was limited. Further, the yearly rental outflow was considered very high *vis-à-vis* the business opportunities in opening of HNI branch due to prevailing situation in Kashmir region. By the time the Bank de-hired (June 2020) the premises, it had incurred expenditure of ₹ 3.78 crore towards rent[18] and ₹ 2.43 crore on development of the premises. Out of ₹ 2.43 crore, amount of ₹ 1.47 crore was spent on civil interior, furniture items which either could not be dismantled or were dismantled with substantial/ major damages. The dismantlement work was carried out (August 2020) at a cost of ₹ 2.99 lakh.

Audit observed that in order to cater to HNI customers, the Bank decided (March 2017) to roll out a new premium delivery channel under the Brand "J&K Bank Premium Banking Services" in a phased manner beginning with one such Business Unit in every district headquarter. Accordingly, it decided (05 July 2017) to open one HNI Branch at Barzulla, Srinagar after hiring of 3,000 sq. ft. of space on a

[15] Zonal Offices: Kashmir Central-I (Srinagar), Jammu Central-II (Kathua), Gurugram and Mumbai.
[16] Space available: 4,722 sqft @ ₹ 85 per sqft.
[17] For civil/ interior, furniture and electrical works.
[18] For the period from 15 March 2018 to 20 June 2020.

monthly rent of ₹ 2.27 lakh[19]. Though the Bank had already decided to open one HNI Branch in Barzulla, Srinagar, even then it hired another premises at Hotel Broadway, M.A. Road, Srinagar on a monthly rent of ₹ 7.77 lakh[20] for the same purpose.

Moreover, the decision to open HNI branch and shift IBD at Hotel Broadway may be viewed in light of the fact that the Bank sanctioned (September 2016) a term loan of ₹ 48.98 crore in favour of the lessor for renovation of existing hotel building and construction of new building and the term loan was eventually classified (January 2020) as Non-Performing Asset as the lessor could not service the account.

Thus, the Bank Management, while hiring the space at Hotel Broadway, Srinagar at monthly rent of ₹ 150 per sq. ft., ignored the fact that it had already hired premises for opening of premium branch at Barzulla, Srinagar and operating IBD at Air Cargo Complex, Srinagar having sufficient space at the monthly rate of ₹ 75 per sq. ft. and ₹ 85 per sq. ft., respectively. The Bank's decision led to wasteful expenditure of ₹ 5.28 crore[21] as the hired premises at Hotel Broadway was not at all used for its operations.

The Management stated (March 2022) in the year 2019, owing to sluggish market patterns and slow growth in overall banking sector, it decided to implement various measures to bring down the cost to income ratio and one of the measure was to vacate the premises in order to cut the costs on account of rental.

However, the fact remains that the Bank hired the premises without taking cognizance of the fact that the decision to open HNI branch at Barzulla, Srinagar was already taken by the Management. Further, the limited business opportunity with regard to forex business in Srinagar was in the knowledge of the Bank as most of the customers were already dealing with it.

9.3.2 Undue favour to the Lessors leading to extra expenditure towards lease rent

The Bank for hiring of premises enters into a lease agreement with the lessors for a specified period with provisions of enhancement of rentals at a specified rate at regular interval of three to five years. Records relating to 67 premises[22] renewed during the period 2016-21 were examined. It was observed in five renewal cases that undue favour was granted to lessors by enhancing the lease rent over and above the agreed rent as discussed in succeeding paragraphs.

Business Unit (B/U) Greater Kailash, New Delhi

The Bank entered (November 2003) into a lease agreement with the lessors for hiring of premises for its Business Unit at Greater Kailash, New Delhi at a monthly rental of ₹ 1.69 lakh inclusive of all kind of Government/ Municipal taxes, charges, levies

[19] At the rate of ₹ 75 per sq.ft.
[20] At the rate of ₹ 150 per sq. ft.
[21] Rent: ₹ 3.78 crore, Civil interior works: ₹ 1.47 crore and Dismantling: ₹ 0.03 crore.
[22] Zonal Offices Kashmir Central-I (Srinagar), Jammu Central-II (Kathua), Gurugram and Mumbai.

including house tax, property tax. The premises was initially leased for a period of five years extendable by a further period of three terms of five years on the same terms and conditions at the sole option of the Bank subject to the condition that the rent for the premises will be increased after the expiry of every five years of lease period by 20 *per cent* on the last rent paid. The lessors was not be entitled to ask for any enhancement of rent reserved during the period of lease and its renewal except that of 20 *per cent* increase on the last rent paid after every five years. Further, the lessors did not have the right to terminate the lease during the lease period.

The lease agreement was extended in November 2007 and November 2012 with increase in rent as per the agreed terms. The lessors requested (May 2016 and August 2017) for increase in rent on the plea that it had to pay conversion charges of ₹ 33.50 lakh to Municipal Corporation and manifold increase in rent rates since the premises was leased out to the Bank. However, the Bank enhanced (November 2017) the rent from ₹ 2.44 lakh to ₹ 2.92 lakh as per the lease agreement. On repeated requests[23] by the lessor Bank approved (August 2018) enhancement of rent to ₹ five lakh (plus GST applicable) from 15 November 2017.

Audit observed that the Bank enhanced the rent to ₹ five lakh per month w.e.f 15 November 2017 whereas the lessor was entitled for rent of ₹ 2.92 lakh as per the lease agreement. The Bank enhanced the rent despite the fact that the lessors was not entitled to any enhancement except 20 *per cent* increase on the last rent paid after every five years and had no right to terminate the lease during the lease period.

Thus, the Bank's decision to hike the rentals led to undue favour to the lessor resulting in extra expenditure of ₹ 1.30 crore[24] for November 2017 to March 2022.

The Bank stated (March 2022) that keeping in view the frequent representations of the existing landlord and the prevailing market rates, the enhancement was considered.

The reply is not tenable as the very purpose of entering into lease agreement for a long duration with provision for enhancement at regular intervals was defeated by allowing additional enhancement over and above the agreed terms.

B/U Hari Singh High Street, Srinagar

Zonal Office (Kashmir Central-I), Srinagar entered (December 2003)[25] into a lease agreement with Mr. 'MD' and Mr. 'MIZ' (Lessors) for hiring of the premises at Hari Singh High Street, Srinagar for a period of 15 years i.e. upto 16 December 2018. As per the lease agreement, the lease rent for the premises at first floor (4,620.75 sq. ft.) and second floor (4,511.33 sq. ft.) was payable at ₹ 10 per sq. ft. per month and ₹ eight per sq. ft. per month, respectively with enhancement of 20 *per cent* after expiry of every five years. Further, the lessor had no right to terminate the lease and

[23] March 2018, June 2018, and July 2018.
[24] Differential Rent: ₹ 2.08 lakh (₹ five lakh per month less ₹ 2.92 lakh per month for 53 months) *plus* GST at 18 *per cent.*
[25] Effective from 29 March 2003.

was not entitled to ask for enhancement of rent during the lease period. The lessors requested (October 2016) for enhancement of lease rent to ₹ 100 per sq.ft. per month due to manifold increase in rentals in the area. The Bank agreed (October 2016) to increase the rent w.e.f 01 November 2016 from ₹ 14.40 per sq.ft. to ₹ 37 per sq. ft. per month and from ₹ 11.52 sq. ft. to ₹ 35 per sq. ft. per month for first and second floor, respectively and entered (December 2016) into fresh lease agreement for another period of fifteen years.

Audit observed that the lease agreement entered into by Bank in December 2003 with the lessor was valid upto March 2018 and during lease period, the Lessor had no right to terminate the lease and was also not entitled to ask for enhancement of rent. Despite this, the Bank acceded to the request of the Lessor and increased the lease rent w.e.f. 01 November 2016 by entering into another lease agreement leading to extra expenditure of ₹ 35.76 lakh[26] during the period from November 2016 to March 2018.

The Management stated (April 2022) that the lease was going to expire within two years and the lessors had expressed that they will not go for further renewal and the rent being paid was meager as compared to the prevailing market rates.

B/U Jawahar Nagar, Srinagar

Zonal Office (Kashmir Central-I), Srinagar renewed (July 2012) a lease agreement (effective from April 2010) with the Lessor for hiring of 3,904 sq. ft. on the ground floor and 1st floor for a period of 10 years on lease rent at ₹ 7.68 per sq. ft. per month. The Bank also entered into another lease agreement (April 2012) for hiring of additional space comprising of 1,390 sq. ft. w.e.f. 01 June 2012 for a period of 10 years at ₹ 7.68 per sq. ft. per month. The lease agreement stipulated increase of lease rent by 25 *per cent* after expiry of every five years. Further, the lessor had no right to terminate the lease and was not entitled to ask for enhancement of rent during the lease period. During the currency of the lease period, the Lessor requested for increase in lease rent as per market rate. The Bank, after negotiation with the lessors, agreed (December 2016) to increase the lease rent for 5,094 sq. ft. of space at first floor to ₹ 36 per sq. ft. per month and for 200 sq. ft. at ground floor to ₹ 25 per sq. ft. per month. Accordingly, fresh lease agreement was signed on 30 January 2017.

Audit observed that the lease agreements were valid upto April 2020 and May 2022, respectively and during lease period, the Lessor had no right to terminate the lease and was also not entitled to ask for enhancement of rent. The Bank, however, acceded to the request of the Lessor and increased the lease rent which resulted in extra expenditure of ₹ 61.69 lakh[27] during the period from February 2017 to March 2022.

---

[26] First Floor – 4,620.75 sq.ft x ₹ 22.60 (₹ 37 - ₹ 14.40) x 17 months + Second floor – 4,511.33 sq.ft. x ₹ 23.48 (₹ 35 - ₹ 11.52) x 17 months.

[27] (3,704 sq. ft.) x ₹ 26.40 (₹ 36 - ₹ 9.60) x 38.5 months *plus* (1,390 sq. ft.) x ₹ 28.32 (₹ 36 - ₹ 7.68) x 4 months *plus* (1,390 sq. ft.) x ₹ 26.40 (₹ 36 - ₹ 9.60) x 58 months *plus* (200 sq. ft.) x ₹ 15.40 (₹ 25 - ₹ 9.60) x 38.5 months.

The Bank replied (April 2022) that the lease was going to expire within three years and the rent being paid was meager as compared to the prevailing market rates.

The Management's replies are not tenable as the very purpose of entering into lease agreements for a long duration with provision for enhancement at regular intervals was defeated by allowing additional enhancements over and above the agreed terms.

B/U Kursoo Raj Bagh, Srinagar

Zonal Office (Kashmir Central-I), Srinagar entered into (December 2009) a lease agreement with the lessor for hiring of 1,411 sq. ft. of the premises (1st floor) at Raj Bagh, Srinagar for a period of 10 years on a lease rent of ₹ 15 per sq. ft. per month. In January 2012, the Bank entered into another lease agreement for hiring of additional space (2nd floor) of 1,336 sq. ft. of the same premises for a period of 10 years w.e.f. 01 December 2011 at ₹ 12.50 per sq. ft. per month. The lease agreement stipulated increase of lease rent by 20 *per cent* after expiry of five years. Further, the lessor had no right to terminate the lease and was not entitled to ask for enhancement of rent during the period lease period.

The Lessor served (January 2017) notice to increase the lease rent to ₹ 65 per sq. ft. failing which it urged to vacate the premises by 31 March 2017. While serving the notice, the Lessor stated that both the lease agreements of December 2009 and December 2011 are unregistered and thus, the terms and conditions are not enforceable. Thereafter, the Lessor filed (April 2017) a suit before Principal District Judge, Srinagar for eviction of premises. The Bank, after negotiation with the Lessors, agreed (August 2017) to increase the lease rent to ₹ 47 per sq. ft. per month for the whole premises and execution of fresh lease deed for a period of 15 years with 25 *per cent* increase in rent after every five years. Accordingly, fresh lease agreement was signed on 30 March 2018.

Audit observed that the lease agreement entered into by Bank in December 2009 and December 2011 with the Lessor was valid upto November 2019 and November 2021, respectively and during lease period, the Lessor had no right to terminate the lease and was also not entitled to ask for enhancement of rent. However, the Bank acceded to the request of the Lessor and increased the lease rent from ₹ 18 per sq. ft. per month (as per agreement of December 2009) and ₹ 15 per sq. ft. per month (as per agreement of December 2011) to ₹ 47 per sq. ft. per month by entering into another lease agreement on 30 March 2018, leading to extra expenditure of ₹ 27 lakh[28] during the period from April 2018 to November 2021. It was also observed that the lease agreements of December 2009 and December 2011 were not got registered before the court of law.

[28] Ground and First Floor: 1,411.295 sq.ft x ₹ 29 (₹ 47 - ₹ 18) x 20 months + Second floor: 1,336 sq.ft. x ₹ 32 (₹ 47 - ₹ 15) x 44 months.

The Bank replied (April 2022) that mid-term enhancement was considered to avoid litigation, the renewal was due in the year 2019 so it was obvious that new negotiated rates would be as per prevailing market rates.

The reply may be seen in light of the fact that there was failure on the part of the Bank to get the lease agreement registered before the court of law.

B/U Ferozepur

Zonal Office, Kathua entered into a lease agreement with the lessor on 05 September 1994 for hiring of the premises comprising of 1,500 sq. ft. at ES-25, Malawal Road, Ferozepur for a period of 15 years. The lease agreement was renewed on 11 August 2011 (w.e.f 5 September 2009) for a further period of 10 years at ₹ 16 per sq. ft. per month with an increase of 20 *per cent* on the last rent paid after every five years. As per the lease agreement, the Bank may at its sole option can renew the aforesaid lease for a further period of five years on the same terms and conditions and thereafter the lease shall be further renewable with the mutual consent of both the parties. Further, the Bank may at its sole option terminate the lease of the premises by giving the lessors one month's notice in writing expression its intention to do so or by paying one month's rent in lieu thereof. The Lessors shall in no case have the right to determine the lease during the period reserved herein or during the period for which lease is renewed by the Bank at its sole option. The lease rent payable for first five years was ₹ 24,000 per month (starting from September 2009) and for the next five years was ₹ 28,800 per month. The lease was to expire on 04 September 2019. The Lessors requested (May 2018) for renewal of lease period for further period of ten years at ₹ 37 per sq. ft. per month. The proposal was approved (May 2018) by the Competent Authority for its renewal for period of ten years on a monthly rent at ₹ 37 per sq. ft. with increase of 25 *per cent* after every five years. Accordingly, lease agreement was renewed on 11 July 2018 w.e.f. 05 September 2019 for period of 10 years.

Audit observed that as per the lease agreement of August 2011, the Bank at its sole option was entitled to renew the aforesaid lease for a further period of five years on the same terms and conditions and thereafter the lease could further be renewed with the mutual consent of both the parties. The Bank was, thus, entitled to renew the lease agreement for another period of five years after increasing the rent at 20 *per cent* on the last rent paid which works out to ₹ 23 per sq.ft. per month from September 2019. The Bank, however, renewed (July 2018) effective from September 2019 the lease agreement on a monthly rent of ₹ 37 per. sq. ft. leading to extra expenditure of ₹ 5.80 lakh[29] (January 2022).

[29] Worked out at differential rate of ₹ 14 per sq. ft. per month for 1,500 sq.ft. for the period from September 2019 to May 2020 and at rate of ₹ 14 per sq. ft. per month for 1,395 sq. ft. for period from June 2020 to January 2022.

The Bank replied (April 2022) that the landlord insisted to renew the lease agreement as per the present market rates or to vacate the premises. Therefore, the Bank in order to ensure business continuity and to avoid huge capital expenditure on account of shifting and development of new site, renewed the lease agreement at a negotiated rate of ₹ 37 per sq. ft. per month.

The reply is not tenable as the Bank at its sole option was entitled to renew the aforesaid lease for a further period of five years on the same terms and conditions.

9.3.3 Delay in commencement of operations at hired premises

The Bank, after entering into lease agreement and taking possession of unfurnished premises, undertakes interior development works viz. civil interior, furniture, electrical works. Records relating to 36 new premises hired[30] during the period 2016-21 were examined. It was observed that there was delay in shifting in respect of 30 premises, leading to payment of rent amounting to ₹ 5.14 crore, as detailed in ***Appendix 9.1***. Further, the Bank did not explore the option of hiring fully furnished premises.

Out of the these 30 cases, for 12 premises[31] the payment of rent started after 60 days from taking over of the possession and in the remaining 18 cases, the rent payment started immediately after taking possession. Thus, there was no uniformity in terms and conditions of the lease agreement entered into by the Bank.

Audit also observed that in case of shifting/ closure of BU, the expenditure incurred on the interior development was rendered wasteful as could be seen from the fact that furniture fixtures items valuing ₹ 36.06 lakh[32] were disposed of at a cost of ₹ 6.67 lakh.

Some of the major cases of delay are discussed in succeeding paragraphs.

BU Premium Branch (Cluster office), Barzulla, Srinagar

The Bank decided (July 2017) to open a new BU as premium branch at Barzulla, Srinagar and entered into a lease agreement (December 2017) for hiring of premises at a monthly rent of ₹ 2.27 lakh per month plus GST w.e.f. 14 December 2017 for a period of 15 years. The work order for civil interior/ furniture and electrical and Mechanical/ HVAC[33] works was issued belatedly in September 2018 with a schedule completion of 120 days from the date of start of work. The work was, however, completed on 15 March 2020, i.e. after a delay of 392 days. Even after completion of work, there was delay in start of operations by more than 10 months as the BU started its operations in February 2021. As a result, the Bank had to pay rent of ₹ 80.49 lakh during December 2017 to January 2021, without the intended utilisation.

---

30 Zonal Offices Kashmir Central – I Srinagar, Jammu Central – II Kathua, Gurugram and Mumbai.

31 BU Vikas Marg, BU Connaught place, BU Sanjay Palace (Agra), BU Aminabad (Lucknow), BU Badhoi (UP), BU Roorkee, BU Nashik, BU SM Amritsar, BU Patiala, BU Solan (HP), BU Zirakpur and BU Batala.

32 BU Kalbadevi: ₹ 2.81 lakh, BU Secunderabad: ₹ 10.43 lakh and BU Mahim: ₹ 22.82 lakh.

33 Heating, Ventilation and Air Conditioning

The Bank stated (April 2022) that it had initially acquired the premises for establishment of HNI branch, but the same could not materialize and then it was decided to shift cluster office.

The delay in award of work and indecisiveness on the part of the Bank regarding starting of operation led to payment of rentals of ₹ 80.49 lakh without accruing any benefit to the Bank.

BU International Banking Division (Tourist Reception Centre), Srinagar

The Bank entered (May 2018) into a Memorandum of Understanding with Department of Tourism, Kashmir for hiring of 3,000 sq. ft. premises at ₹ 2.50 lakh per month for a period of 20 years with rent enhancement at 25 *per cent* after every five years. The monthly rental of ₹ 2.50 lakh was to start from 29 May 2018. The work order for civil interior/ furniture and electrical works was issued on 13 November 2018 with completion schedule of 60 days from the date of start of work. The work was, however, completed in December 2020 after a delay of 678 days. Even after completion of work, there was delay in start of operation by 14 months as the operations could only be started in February 2022. As a result, the Bank had to pay rent of ₹ 1.07 crore during May 2018 to February 2022, without any corresponding benefit accruing to it.

The Bank stated (April 2022) that the work initially got delayed due to objection from Government authorities, thereafter due to outbreak of COVID-19 pandemic. However, there was delay by 14 months in start of operation from the premises even after completion of work.

9.4 Award and execution of works

In order to execute major civil construction works during 2016-2019, the Bank invited open tender whereas up-gradation/ modification repair of civil/ interior, furniture, electrical works were executed through empanelled contractors at the rates approved by Bank. In the absence of invitation of bids for interior civil works, the reasonability of the rates at which they were awarded could not be ascertained in audit. For Mechanical works[34], the Bank invited tenders for empanelment of contractors. Based on the offers received from the technically qualified firms, the lowest offer is selected and after negotiations with the L1 bidder, final rates are fixed. The same rates are then offered to other vendors and only those vendors who accept to work on rates fixed are empanelled. However, the Bank adopted (February 2020) Manual for Procurement of Goods and Services in accordance with which it started awarding works through e-tendering.

The Bank awarded 1,240 Work orders (WOs) valuing ₹ 197.26 crore during 2016-21. Out of 1,240 WOs, 373 WOs (30.08 *per cent*) valuing ₹ 154.17 crore were examined in audit. The audit findings are discussed in succeeding paragraphs.

[34] Firefighting system, Air Conditioning and HVAC system.

9.4.1 Non recovery of penalty on account of delay in execution of works

As per the terms and conditions of WO, the work was required to be completed within the stipulated time and in case of delay in completion of work, penalty at 0.05 *per cent* per day on the contract value, subject to a maximum of 10 *per cent* of the contract value was to be levied.

Scrutiny of 373 works revealed that there was delay in respect of 258 works of which, 25 works were delayed due to reasons beyond control of the contractor, however, in respect of 233 works, neither the reasons for delay were recorded nor the penalty was imposed. Audit analysis of these 233 works showed that 107 works were delayed up to 90 days, 80 works were delayed for period ranging between 91 days and 180 days, 37 works were delayed for period ranging from 181 days to one year and nine works were delayed for more than one year. The remaining 115 works (373-258) were either completed in time or were under progress (March 2021).

Audit observed that penalty amounting to ₹ 8.77 crore, as detailed in ***Appendix 9.2*** was not imposed on the contractors in respect of delayed 233 works.

The Management stated (March 2022) the delay in completion of work was due to civil unrest in the valley as well as in some parts of Jammu and Ladakh, Government of India decision (November 2016) to demonetize currency notes, introduction (July 2017) of GST, reorganisation of the erstwhile State of J&K and spread of COVID-19 pandemic.

The reply is not tenable as the Bank, while making payments to the contractor, recorded reasons for the delay which were beyond the control only in case of 25 works. In the remaining works (completed/ in-progress), the Bank neither recorded any reasons for delay nor recovered any penalty.

9.4.2 Abandonment of works

(i) The Bank awarded (October 2018) the work for development of e-lobby[35] at erstwhile Business Unit (BU) SSI Lal Chowk Srinagar at a cost of ₹ 194.15 lakh. After incurring expenditure of ₹ 20.51 lakh[36], the work was stopped (December 2019) due to leakage problem which could not be addressed, thus rendering the expenditure of ₹ 20.51 lakh as wasteful.

The Bank stated (March 2022) that some of the items executed in the first phase have been reutilised and some had to be dismantled.

(ii) The Bank awarded (April 2019) the work for development of common facility centre at Voki, Kulgam at a cost of ₹ 237.67 lakh. Since the work was not awarded through tender, it was short closed (July 2019) citing that the high value works would be finalised through tendering as per CVC guidelines. However, the expenditure of

[35] Civil/ interior, furniture and electrical works and Mechanical/ HVAC works.
[36] Including consultancy charges of ₹ 4.51 lakh.

₹ 12.36 lakh incurred on site development, boundary wall etc. by the Bank up to July 2019. However, the work was not re-awarded by the Bank (March 2022).

(iii) The Bank awarded (May 2019) the work relating to re-development/ renovation of Boston restaurant at Iqbal park, Srinagar, at a cost of ₹ 1.28 crore. After incurring expenditure of ₹ 5.66 lakh, the work was stopped in June 2019 as the building structure required civil works for safeguarding.

The Bank stated (March 2022) due to non-availability of funds both the works were stopped.

9.4.3 Award of work on single tender basis

The Bank invited (March 2016) tender for redevelopment of Kashmir Golf Course, Srinagar at an estimated cost of ₹ 16.35 crore in response to which two offers were received (April 2016). Only one bidder[37] was found technically qualified and the financial bid was opened. After negotiations, the contractor agreed to execute the work at ₹ 22.92 crore. The Bank awarded (May 2016) the work to the Contractor citing urgency as only seven months of work time was available for completion of the project before the onset of the winter season. Accordingly, work order was issued on 01 June 2016 with scheduled completion period of eight months. Further, the scope of work was increased and the work was completed (December 2017) at a total cost of ₹ 30.35 crore. Besides, the Bank also awarded six work orders[38] valuing ₹ 4.71 crore to one of the Joint Venture partners, M/s Sofi & Company without inviting tenders.

Audit observed that the Bank did not re-tender the work and awarded (June 2016) it to the only technically qualified bidder despite the fact that the rates agreed to by the Bank were 40 *per cent* higher than the estimated cost. The Bank's target to complete the work before onset of winters was not achieved as the work was completed in December 2017 with a delay of 10 months from the scheduled date of completion. Further, the scope of work was increased by ₹ 7.43 crore (32 *per cent)* and works valuing ₹ 4.71 crore was awarded without inviting tender. As the Bank did not have any expertise in development of golf course, the reasonability of rates quoted by the single bidder and agreed to by the Bank could not be ascertained.

The Bank stated (March 2022) that due date of submission of tender was extended by 14 days as only two offers were received. Even after extension, no further offer was received as such the single bid was evaluated. The delay in completion of work was due to civil unrest in valley as a result of which the work could be started in March 2017. The increase in scope of work was due to changes made during execution of the work owing to site conditions which could not be envisaged earlier. In order to meet the deadline for execution of work, it was decided to award the work valuing ₹ 4.71 crore to one of the joint venture partners without inviting tender as

[37] M/s Silver Glades Gold Development Co. Pvt. Ltd in Joint Venture with M/s Sofi & Company.

[38] Relating to Grassing, Bunker Sand, Electrical works, Turf seed, Boundary wall renovation, Micro. landscaping, Washroom repairs under redevelopment of Kashmir Golf course.

tendering at this stage would have further delayed the project. Redevelopment of Kashmir Golf course was first of its kind project undertaken by the Bank and as such no expertise for the same was available in-house, as such the Bank hired two Project Management Consultants (PMCs).

The reply of the Management may be seen in light of the fact that the work was awarded on single tender basis and the Bank did not re-tender the work despite the agreed rates being 40 *per cent* higher than the estimates prepared by the PMC. After award of work in May 2016, the Bank made payment of ₹ 10.21 crore for the work executed during July 2016 to January 2017, thus the contention of the management that due to civil unrest the work was started in March 2017 is incorrect. Further, reasons for delay in execution of work were not recorded.

9.5 Conclusion

The Bank could not utilise land valuing ₹ 140.22 crore acquired during 2016-21. Funds to the tune of ₹ 22.78 crore remained blocked due to improper planning. There was wasteful expenditure of ₹ 5.28 crore in hiring of premises and extra expenditure ₹ 2.61 crore due to increase of lease rent in violation of the lease agreement. Bank had to pay lease rent of ₹ 5.14 crore as it took considerable time in furnishing works leading to delay in relocation of business units. Penalty of ₹ 8.77 crore was not recovered from contractors despite delay in execution of works. Works were abandoned midway after incurring expenditure of ₹ 0.39 crore.

9.6 Recommendations

- *The Bank may draw out a proactive plan, so that land acquired can be effectively utilised;*
- *The Board of Directors should be presented with the consolidated position of the estates on a periodic basis to facilitate prompt decision making and to ensure policy directives, wherever necessary, are issued;*
- *The Bank may consider hiring furnished premises for its Business Units so that delay and expenditure on interior works in case of shifting/ closure of BU may be avoided;*
- *The Bank management may ensure that rentals are paid as per the lease deed terms and the lease agreements are timely renewed; and*
- *The Bank may put in place a mechanism to monitor the ongoing works on regular basis so that delay in execution of works is avoided and wherever required, the penalty for delay may be imposed on the contractor.*

Chapter X

Compliance Audit Paragraphs of Public Sector Undertakings

Chapter X: Compliance Audit Paragraphs of Public Sector Undertakings

Finance Department

Jammu and Kashmir Bank Limited

10.1 Doubtful recovery on account of Non-exercising of due diligence at the time of sanctioning/ enhancing bill discounting facility

Non-exercising of due diligence at the time of sanctioning/ enhancing bill discounting facility in favour of M/s Beigh Construction Company Limited resulted in doubtful recovery of ₹ 102.55 crore.

National Highways Authority of India (NHAI) awarded (September 2015) the work of four laning of Amravati Chikhli Project to M/s Amravati Chikhli Expressway Limited (ACEL)[1] for an amount of ₹ 2,288.18 crore (for Km 166.00 to 360.00). The work for execution of a portion[2] of four laning of the project at a cost of ₹ 461.25 crore was awarded (January 2017) by ACEL to M/s Beigh Construction Company Limited (Borrower Company).

Audit scrutiny (September 2020) of a Business Unit[3] of Jammu and Kashmir Bank Limited (Bank) revealed that a bill discounting facility[4] of ₹ 57.60 crore was sanctioned (April 2017) in favour of the borrower Company against the primary security of hypothecation of all types of stock, consumables, spares, assignment of project receivables, plant and machinery, miscellaneous fixed assets and furniture/ fixture. The personal guarantee of all the directors of the borrower Company and a third party was also obtained.

A tripartite agreement was signed (June 2017) among the Bank, the borrower Company and ITNL. As per the agreement, the ITNL was required to irrevocably and unconditionally honour the bill presented to them by the Bank. The Bank further enhanced (August 2018) the limit of the bill discounting facility to ₹ 86.34 crore against the available primary security. However, an additional collateral security by way of mortgage of land valuing ₹ 12.96 crore was obtained. The Bank also sanctioned three term loans aggregating ₹ 8.79 crore between August 2017 and May 2018 in favour of the borrower Company for purchase of machinery/ equipment

1 A Special Purpose Vehicle (SPV) of M/s IL&FS Transportation Network Limited (ITNL).
2 Km 220 to Km 260.
3 Residency Road, Jammu.
4 Bill Discounting is a trade-related activity in which unpaid invoices which are due to be paid at a future date are sold to the Bank. The Bank takes the bill and pay the borrower after deducting some amount as discount. The Bank then presents the Bill to the borrower's customer on the due date of the Bill and collects the total amount.

for the project against hypothecation of plant and machinery to be purchased from the loans.

ITNL defaulted (August 2018) in payment of the bill discounted by the Bank due to severe financial crisis in IL&FS and its group companies and the account of the borrower Company was classified as Non-performing Asset on 30 September 2019. Meanwhile, IL&FS was referred to National Company Law Tribunal (NCLT) for revival and the Bank filed its claim with IL&FS. As of 31 December 2021, amount of ₹ 113.99 crore[5] was outstanding against the borrower Company.

For implementation of four laning of Amravati-Chikhli National Highway project, ITNL was to achieve the financial closure[6]. However, it had not achieved financial closure and the Bank, while sanctioning/ enhancing (April 2017/ August 2018) bill discounting facility, did not take cognizance of non-achievement of financial closure by ITNL. Though the bill discounting facility was extended in favour of the Borrower Company, ITNL was under obligation to honour the bills presented for payment by the Bank, as per the tripartite agreement. Despite this, the Bank did not obtain adequate tangible collateral security to safeguard its interest. Audit noticed that ACEL was among 'Red entities'[7] identified (February 2019) as per the orders of NCLT implying that it would not be in a position to make payment obligations towards the Bank, being the unsecured creditor. Further, the Bank did not serve SARFAESI[8] notice to the borrower Company as a result of which it could not enforce the mortgaged security valuing ₹ 11.44 crore available against the credit facilities extended to the borrower Company (December 2021).

The Management replied (May 2021) that since the Bank had not funded the four laning project of Amravati-Chikhli National Highway the need for ascertaining financial closure of the entire project was not required. The reply is not tenable as the financial soundness of Ms/ ITNL should have been ascertained by the Bank before extending/enhancing the bill discounting facility in favour of the borrower Company especially in view of M/s ITNL's obligation to honour the bills as per the tripartite agreement.

Thus, due to non-exercising of due diligence at the time of sanctioning/ enhancing bill discounting facility in favour of M/s Beigh Construction Company Limited, the recovery of ₹ 102.55 crore[9] had become doubtful.

---

5 Principal: ₹ 74.69 crore and Unapplied Interest: ₹ 39.30 crore.

6 Financial closure is a stage when all the conditions of a financing agreement are fulfilled prior to the initial availability of funds. Thus, M/s ITNL was to enter into agreement with the funding agencies for financing the project.

7 Which cannot meet their payment obligations towards even secured financial creditors as and when their payment obligations become due.

8 Securities and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.

9 Outstanding amount of ₹ 113.99 crore less by ₹ 11.44 crore (value of security available with the Bank).

10.2 Doubtful recovery on account of sanction of credit facility without obtaining adequate security cover

Sanction of credit facility in favour of M/s Ace Engineering Infratech Private Limited without obtaining adequate security cover and release of credit facility without complying with the pre-disbursement condition resulted in doubtful recovery of ₹ 11.98 crore.

The Jammu and Kashmir Bank Limited (Bank) took over (December 2012) from Indian Overseas Bank (IOB) the credit facilities of ₹ 11.50 crore[10] favouring M/s Ace Engineering Infratech Private Ltd. (Company) and enhanced (December 2012) the same to ₹ 14 crore[11]. The credit facilities were sanctioned against primary security of hypothecation of all kinds of stock and assignment of book debts. Further, the facilities were collaterally secured by way of mortgage of two immovable properties valuing ₹ 8.06 crore. Personal guarantees of mortgagor and third party were also obtained. The Bank got the properties revalued at ₹ 14.03 crore[12] in February 2013.

The Bank also sanctioned (September 2015) an additional Secured Overdraft (SOD) facility of ₹ four crore against assignment of receivables and existing primary/ collateral security valuing ₹ 14.03 crore for completing supply order (17 April 2015) for ₹ 16.14 crore received from 107 Engineer Regiment C/o 99 APO. Subsequently, 107 Engineer Regiment intimated (May 2017) that the Company had not executed any work order for the regiment. Audit observed that as per the pre-disbursement condition of sanction order, the Business Unit (BU) of Bank was required to obtain document regarding assignment of receivables duly acknowledged by the concerned department. However, the BU disbursed the SOD of ₹ four crore without fulfilling the pre-disbursement condition.

The Company failed to service the account with the result the Bank classified (March 2016) the account as Non-Performing Asset (NPA) with total outstanding of ₹ 18.49 crore[13] (April 2017).

The Company approached (May 2017) the Bank for part settlement of dues and offered to deposit ₹ 10 crore in lieu of release of property valuing ₹ 11.58 crore and discharge of personal guarantee of both guarantors. The Bank accepted (June 2017)

[10] Funded credit facility of ₹ 7.50 crore and non-funded credit facility (Bank Guarantee) of ₹ four crore.
[11] Cash credit of ₹ nine crore and Bank Guarantee of ₹ five crore.
[12] Commercial property ₹ 11.58 crore and factory plot ₹ 2.45 crore.
[13] NPA: ₹ 16.17 crore and unapplied interest and other charges: ₹ 2.32 crore.

the proposal and the Company deposited (May-December 2017) ₹ 10 crore as a result of which the commercial property revalued (May 2017) at ₹ 10.57 crore was released by the Bank besides absolving two guarantors of their personal guarantee.

Notice under SARFAESI Act[14], 2002 was issued (April 2017) and physical possession of factory unit was taken in January 2018. The total outstanding against the Company as of November 2021 was ₹ 14.83 crore[15] and the securities available with the Bank was only ₹ 2.85 crore[16] which were insufficient to secure Bank's interest. The recovery suit filed (June 2018) by the Bank was pending (November 2021).

The Management stated (January 2021) that SOD limit of ₹ four crore was considered for execution of supply orders worth ₹ 16.14 crore as the firm was dealing with BU of the Bank since long and was one of the reputed concerns having a satisfactory track record. The Management further stated that as the stamped acknowledgment letter of 107 Engineer Regiment C/o 99 APO proved to be fake, case was filed in office of the SSP, Crime Branch Jammu and FIR was also registered (April 2019). Management also stated that disciplinary action against six officers has been taken as per procedures of the Bank.

The reply of the Management that it was dealing with the firm since long is not tenable as the Bank started dealing with the Company only from December 2012 i.e. from the date of taking over of credit facilities from IOB. The Bank did not obtain any additional tangible security/ before releasing the overdraft of ₹ four crore. Further, the Business Unit did not comply with the pre-disbursement condition of obtaining the document regarding assignment of receivables duly acknowledged by the Regiment there by resulting in doubtful recovery of ₹ 11.98 crore[17].

Industries and Commerce Department

Jammu and Kashmir Small Scale Industries Development Corporation Limited

10.3 Grant of interest free advances to Small Scale Industrial Units

Grant of interest free advances to Small Scale Industrial Units resulted in avoidable expenditure of ₹ 1.91 crore.

In order to implement Saubhagya Scheme[18] in Jammu and Kashmir, a meeting was held (September 2018) under the chairmanship of Principal Secretary, Industries &

[14] Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act.
[15] NPA balance of ₹ 5.12 crore and unapplied interest ₹ 9.71 crore.
[16] Factory Land valuing ₹ 2.51 crore and Plant & Machinery valuing ₹ 0.34 crore.
[17] Outstanding of ₹ 14.83 crore *less* value of security of ₹ 2.85 crore.
[18] Pradhan Mantri Sahaj Bijli Har Ghar Yojana 'Saubhagya' under which free electricity connections to all households in rural areas and poor families in urban areas were to be provided.

Commerce Department, Govt. of Jammu & Kashmir (GoJ&K) and the Commissioner Secretary, Power Development Department (PDD), GoJ&K and it was decided that PDD shall purchase Steel Tubular Poles (STPs) through the Jammu and Kashmir Small Scale Industries Development Corporation Limited (Company). To execute the supplies, the Company demanded an advance of ₹ 50 crore from PDD, however, it was decided in the meeting that PDD would release amount of ₹ 25 crore as advance to the Company.

Accordingly, the Company requested (September 2018) the PDD to release advance of ₹ 25 crore. However, the advance amount was not released by PDD as a result of which the Company availed (September 2018) short term loan of ₹ 70 crore from Jammu and Kashmir Bank Limited (Bank) for execution of order. Out of term loan of ₹ 70 crore, amount of ₹ 32 crore was repaid by the Company to the Bank within 22 days[19] of drawl of loan indicating that the loan of ₹ 70 crore was availed by the Company without assessing the actual requirement.

Scrutiny of records (January 2020) revealed that the Company granted interest free advances aggregating to ₹ 43.25 crore[20] to various SSI units for execution of order whereas the Company paid ₹ 1.91 crore[21] to the Bank between September 2018 and March 2019 on account of interest/processing fee on loan. Records further showed that the Company executed supplies valuing ₹ 339.15 crore to PDD against which it had received ₹ 275.40 crore, thereby leaving a balance amount of ₹ 63.75 crore as recoverable (February 2022) from PDD.

The Management stated (January 2021) that it was agreed to by the PDD that advance of ₹ 25 crore would be released to the Company for execution of the scheme but later on PDD failed to release the agreed amount with the result the Company had to avail the loan for meeting the working capital requirement of the SSI Units and to complete the scheme within the targeted timelines.

The reply of the Management is not tenable as the Company extended undue benefit to the SSI units by way of granting interest free advances to them as it had paid interest of ₹ 1.70 crore and processing charges of ₹ 0.21 crore on loan out of its own resources.

[19] Term Loan drawn on 28 September 2018 and Repayment of ₹ 32 crore was made by 19 October 2018.
[20] Jammu Division: ₹ 35.01 crore, Kargil: ₹ 2.49 crore and Leh: ₹ 5.75 crore.
[21] Interest: ₹ 1.70 crore and Loan Processing Charges: ₹ 0.21 crore.

Jammu and Kashmir State Industrial Development Corporation Limited

10.4 Payment of penal interest on account of delay in deposit of GST

Company's failure to recover GST of ₹ 95.26 lakh from the industrial units resulted in payment of GST out of its own resources besides leading to payment of penal interest of ₹ 20.36 lakh on account of delay in deposit of GST.

Government of Jammu and Kashmir (GoJ&K) issued (July 2017) SRO-GST-11 in terms of section 9(1) of the Goods and Services Tax (GST) Act, 2017 which provides for charging of GST at 18 *per cent on* 'Real Estate Service' for rental on leasing services involving own or leased non-residential property w.e.f. 08 July 2017. Further, as per section 50(1) of the GST Act, 2017, every person who fails to pay tax in accordance with the provisions of the Act is liable to pay penal interest at 18 *per cent* per annum.

The Jammu and Kashmir State Industrial Development Corporation Limited (Company) leased out plots of industrial land to entrepreneurs against which lease rent and water charges were recovered. In accordance with SRO-GST-11, the Company was also required to recover GST at 18 *per cent* on user charges[22] from the industrial units w.e.f. 08 July 2017.

It was, however, observed (March 2021) that Company failed to recover GST on user charges from the industrial units for the period from July 2017 to March 2018. As a result, the Company had to deposit ₹ 115.62 lakh[23] with the tax authorities out of its own resources during November 2018 to March 2020[24] including penal interest of ₹ 20.36 lakh on account of delay in depositing the GST. Records further showed that the Corporate Office of the Company failed to direct its Estate Offices to recover the GST from the effective date i.e. 08 July 2017 as directions were issued (March 2018) to recover GST w.e.f. April 2018.

Thus, the Company's failure to recover GST of ₹ 95.26 lakh from the industrial units resulted in payment of GST out of its own resources besides leading to payment of penal interest of ₹ 20.36 lakh on account of delay in deposit of GST.

The Management stated (April 2021) that the small industrial units were under this conception that they shall be exempted from payment of GST. Further, the amount

[22] Lease rent and water charges.
[23] GST at 18 *per cent* of user charges collected.
[24] Kashmir Region: ₹ 16 lakh (November 2018), ₹ eight lakh (January 2019) and ₹ 6.98 lakh (March 2019); Jammu Region: ₹ 65.48 lakh (August 2019) and ₹ 19.16 lakh (March 2020).

deposited on behalf of the industrial units is being recovered and in future, the GST provisions are being adhered strictly.

The reply of the Management may be seen in light of the fact that the Company had to pay penal interest of ₹ 20.36 lakh due to its failure to timely recover the GST from the industrial units and deposit with the tax authorities.

PREFACE

This Report for the year ended 31 March 2022 has been prepared for submission to Lieutenant Governor of Jammu and Kashmir under Section 72 of the Jammu and Kashmir Reorganisation Act 2019. As per the decision of the Government of India, Ministry of Finance (June 1994), wherever President's Rule is extended beyond one year, the C&AG's Report would be placed in Parliament. Hence, this Report is being sent to President for laying in the Parliament.

Chapter I of this report describes the basis and approach to the Report and the underlying data, provides an overview of structure of Government accounts, budgetary processes, macro-fiscal analysis of key indices and fiscal position including the deficits/ surplus.

Chapter II provides a broad perspective of the finances of the Union Territory, major fiscal aggregates, debt profile and key public accounts transactions based on the Finance Account of the Union Territory.

Chapter III is based on the Appropriation Accounts of the Union Territory of Jammu and Kashmir and reviews the appropriations and allocative priorities of the Union Territory Government and reports on deviations from Constitutional provisions relating to budgetary management.

Chapter IV comments on the quality of accounts rendered by various authorities of the UT Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the UT Government.

Chapter V discusses the financial performance of Public Sector Undertakings.

The Report containing the findings of audit of transactions in various departments, audit of Statutory Corporations, Boards and Government Companies and observations on Revenue Receipts are presented separately.

Executive Summary

EXECUTIVE SUMMARY

Background

This Report on the finances of the Government of Union Territory of Jammu and Kashmir is brought out to assess the financial performance of the Union Territory during the year 2021-22 *vis-à-vis* the Budget Estimates, to provide the Union Territory Government and UT Legislature with timely inputs based on audit analysis of financial data. The report analyses the structural profile of Government's receipts and disbursements.

The Report

Based on the audited accounts of the Government of Union Territory for the year ended 31 March 2022 and additional data such as Budget of the Union Territory, other data with Departmental Authorities, GSDP data and other UT related statistics, this report has been structured into the following five Chapters.

Chapter-I describes the basis and approach to the Report and the underlying data, provides an overview of structure of government accounts, budgetary processes, macro-fiscal analysis of key indices and UT's fiscal position including the deficits/ surplus.

Chapter-II provides a broad perspective of the finances of the Union Territory, debt profile of the Union Territory and key Public Account transactions, based on the Finance Accounts of the Union Territory.

Chapter-III is based on the Appropriation Accounts of the Union Territory of Jammu and Kashmir and reviews the appropriations and allocative priorities of the Government of Union Territory and reports on deviations from Constitutional provisions relating to budgetary management.

Chapter-IV comments on the quality of accounts rendered by various authorities of the UT Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the UT Government.

Chapter-V discusses the financial performance of Public Sector Undertakings.

Audit findings

Chapter-I & II: Overview and Finances of the Union Territory

During 2021-22, Revenue Receipts increased by 13 *per cent* with respect to last year but it fell short off budget estimates by 39 *per cent*. Government could not keep its Fiscal Deficit and Primary Deficit within the projections estimated in the budget. Against projection of Revenue Surplus of ₹28,337 crore in budget there was Revenue deficit of ₹31 crore during 2021-22.

(Para 1.5)

There was Revenue Deficit of ₹30.83 crore in the accounts of Union Territory of Jammu and Kashmir for the year 2021-22 which was understated by ₹200.29 crore due to misclassification of Revenue Expenditure as Capital Expenditure, Non Payment of Interest on State Compensatory Afforestation Fund and Deposit. There was Fiscal Deficit of ₹11,150.61 crore during 2021-22 which was understated by ₹41.53 crore due to Non Payment of Interest on State Compensatory Afforestation Fund and State Compensatory Afforestation Deposit.

(Para 1.7.1)

The Government of Jammu and Kashmir had outstanding liability of ₹29,335.41 crore ending 31 March 2022. In addition to above, there is outstanding borrowings amounting to ₹2,122.77 crore of JKIDFC and an amount of ₹10,321.83 crore of JKPCL. Government has paid Principal/Interest on account of these borrowings.

(Para 1.7.2)

Grants-in-Aid from GoI (₹42,690.77 crore) constituted 72.07 *per cent* of the total revenue receipts of ₹59,238.50 crore for 2021-22.

(Para 2.3.2.2)

The total committed expenditure accounted for 75.93 *per cent* of Revenue Expenditure during 2021-22.

(Para 2.4.2.2)

During the year 2021-22, the Government of Union Territory of Jammu and Kashmir disbursed loans and advances of ₹73.77 crore and recovered loans and advances amounting to ₹1.03 crore. Out of total loans disbursed during 2021-22 loans amounting ₹40.00 crore was disbursed to J&K Road Transport Corporation Limited which already had outstanding loans of ₹439.23 crore ending 31 March 2021 (₹383.73 crore received from erstwhile State and ₹55.50 crore from UT of J&K). As per last audited accounts for the year 2018-19, JKRTC booked losses of ₹117.62 crore.

(Para 2.4.3.2)

The total accumulated balance at the end of 31 March 2022 in reserve funds was ₹920.13 crore. There is cumulative aggregate balance in these funds at the end of 30 October 2019 amounting ₹2,806 crore of erstwhile State of Jammu and Kashmir which is yet to be bifurcated between two successor UTs.

(Para 2.5.2)

The Government of Union Territory of Jammu and Kashmir maintained minimum cash balance of ₹1.14 crore on 62 days without resorting to Normal Ways and Advances and Overdraft and availed Normal Ways and Means Advances on 125 days and on 178 days it had to avail Overdraft too from RBI. The balance at the end of 31 March 2022 was ₹499.54 crore under Normal Ways and Means Advances.

(Para 2.7.3)

Chapter-III: Budgetary Management

An amount of ₹21,646.17 crore was incurred under 33 schemes/ Sub Heads in 10 Grants without Budgetary Provisions during 2021-22.

(Para 3.3.1)

During 2021-22, a sum of ₹158.76 crore of Revenue expenditure was disbursed under Capital Major Heads of expenditure, thereby, resulting in overstatement of Capital Expenditure and understatement of Revenue Expenditure and Revenue deficit to the extent of ₹158.76 crore.

(Para 3.3.2)

Supplementary provisions aggregating ₹3,919.78 crore obtained in 22 cases, involving ₹50 lakh or more in each case during the year proved unnecessary as the expenditure did not come up to the level of the original provisions

(Para 3.3.3)

There were huge savings of ₹100 crore and above by the departments under Capital Section in 22 grants amounting to ₹18,723.63 crore. Out of the 35 grants, except in Grant No. 08- Finance Department, there were savings in the remaining 34 Grants.

(Para 3.4)

Entire budget provision of ₹5,092.25 crore under 28 Grants involving 123 number of schemes remained unutilised during the year.

(Para 3.5)

The Excess expenditure amounting to ₹2,049.26 crore under Revenue Voted, Revenue *Charged* and Capital *charged* section in Grant No. 08-Finance Department and Revenue Voted section in Grant No. 16-Public Works Department incurred by the Government during 2021-22 is to be got regularised.

(Para 3.5.1)

The expenditure exceeding 50 *per cent* of the total expenditure for the year 2021-22 was incurred in March 2022 in respect of 25 Major Heads under 17 Grants.

(Para 3.7.2)

Chapter-IV: Quality of Accounts and Financial Reporting Practices

3,089 number of Utilisation Certificates for grants paid up to 30 October 2019 amounting to ₹8,158.32 crore by erstwhile State and 770 number of UCs for grants paid by UT of Jammu and Kashmir amounting to ₹3,137.11 crore were outstanding up to 31 March 2022.

(Para 4.5)

DCC bills in respect of ₹5,830.41 crore drawn on 2,154 number of AC bills drawn upto 30 October 2019 and DCC bills for ₹11,448.03 crore drawn on 1,139 AC bills post reorganization by UT of Jammu and Kashmir are outstanding ending 31 March 2022.

(Para 4.6)

During 2021-22, Receipts of ₹53,275.15 crore (89.93 *per cent* of the total Revenue Receipts of ₹59,238.50 crore of Union Territory of J&K) and Expenditure of ₹49,058.57 crore (69.77 *per cent* of total Revenue and Capital Expenditure of ₹70,316.36 crore) were reconciled with the Office of the Principal Accountant General (A&E).

(Para 4.9)

Certain Grants-in-aid to be classified under Revenue Section were classified under Capital Section and details in respect of Grants-in-aid given in kind was not provided (IGAS 2).

(Para 4.11)

In respect of eight Autonomous Bodies which were to render annual accounts to C&AG, 37 number of accounts were not rendered for the period ranging between one to 12 years.

(Para 4.12)

Chapter-V: Financial Performance of Public Sector Undertakings

As on 31 March 2022, of the total equity capital of ₹6,029.99 crore in Power Sector PSUs, ₹2,593.54 crore (43.01 *per cent*) was contributed by the GoJ&K. Further, the total equity investment of GoJ&K in 36 PSUs of sectors other than Power Sector was ₹975.87 crore. The Government had also advanced loans of ₹1,539.42 crore to PSUs functioning in other than power sector.

(Para 5.4.1)

Budgetary assistance of ₹3,473.11 crore was received by PSUs from the GoJ&K during 2021-22.

(Para 5.4.2)

The market value of shares of J&K Bank Limited was ₹3,013.22 crore as on 31 March 2022 as compared to ₹1,901.35 crore as on 31 March 2021.

(Para 5.4.5)

Chapter-I

Overview

CHAPTER-I

OVERVIEW

This chapter describes the basis and approach to the report and the underlying data provides overview of structure of Government accounts, budgetary processes, macro-fiscal analysis of key indices and Union Territory's key fiscal position including the deficits/surplus.

1.1 Profile of the Union Territory of Jammu and Kashmir

The Union Territory (UT) of Jammu and Kashmir is located in Himalayan region of northern part of India. It has two divisions i.e. Jammu and Kashmir and has 20 districts. It has two Capitals i.e. Jammu during winter and Srinagar during summer. The projected population of UT of Jammu and Kashmir for the year 2022 is 1.35 crore. Kashmiri, Dogri, Hindi, Urdu and English are major languages of UT. GSDP during 2021-22 was ₹1,95,118 crore.

1.1.1 Gross State Domestic Product of the Union Territory of Jammu and Kashmir

Gross State Domestic Product (GSDP) is the value of all the goods and services produced within the boundaries of the UT in a given period of time. Growth of GSDP is an important indicator of the economy, as it denotes the extent of changes in the level of economic development of the State/UT over a period of time. Changes in sectoral contribution to the GSDP is also important to understand the changing structure of economy. The economic activity is generally divided into Primary, Secondary and Tertiary sectors, which correspond to the Agriculture, Industry and Service sectors. Comparison of growth of GSDP and GDP has been shown in ***Table 1.1***.

Table 1.1: GSDP compared to the GDP

(₹ in crore)

Year	**2019-20**	**2020-21**	**2021-22**
GDP (2011-12 Series)	2,00,74,856 (2nd RE)	1,98,00,914 (1st RE)	2,36,64,637 (AE)
Growth rate of GDP over previous year (in *per cent*)	6.2	-1.4	19.4
GSDP (2011-12 Series)	1,64,135	1,70,201	1,95,118
Growth rate of GSDP over previous year (in *per cent*)	N/A*	3.70	14.64

Source: Ministry of Statistics and Programme Implementation (MOSPI), GoI website.

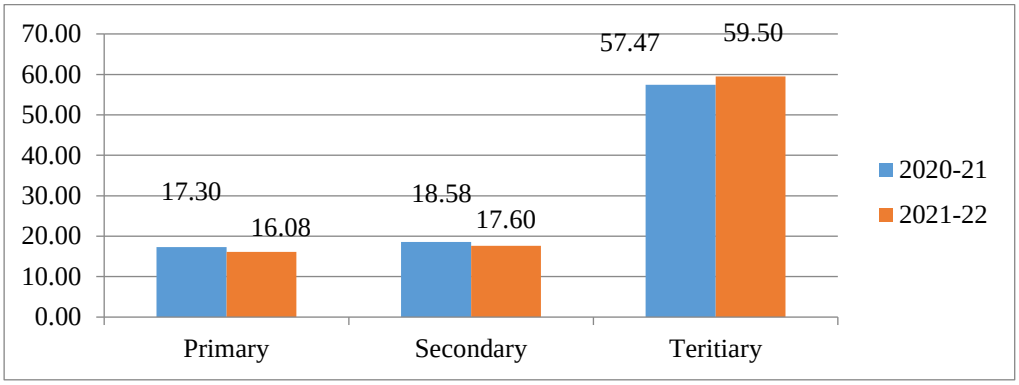
RE =Revised Estimates and AE= Advanced Estimates.

** Erstwhile State of J&K was bifurcated into two UTs w.e.f 31 October 2019.*

Sectoral contribution in GSDP during the year 2020-21 and 2021-22 has been depicted in ***Chart 1.1.***

Chart 1.1: Change in sectoral contribution to GSDP 2020-21 and 2021-22

(In per cent)



Source: Directorate of Economic and Statistics, J&K Government

During 2021-22, GSDP increased by ₹24,917 crore which is 14.64 *per cent* more than previous year. The growth of GSDP was due to increase under all three sectors, there was growth rate of 6.58, 8.59 and 18.69 *per cent* under Primary Sector, Secondary Sector, and Tertiary Sector respectively with respect to previous year. There was sharp increase in growth in some activities i.e. Hotel and Restaurants (212.83 *per cent*), Trade and Repair Services (37.50 *per cent*), Road Transport (34.63 *per cent*), Mining and quarrying (21.78 *per cent*), Other Services (33.31 *per cent*) and Real estate, ownership of dwelling & professional services (9.32 *per cent*). During the exit conference held in October 2022, it was stated by the Finance Department, that the economy of UT has shown recovery during 2021-22, after the pandemic year of 2020-21, resulting in increase in GSDP.

1.2 Basis and Approach to Union Territory Finances Audit Report

In terms of Section 72 of Jammu and Kashmir Reorganisation Act, 2019, the reports of the Comptroller and Auditor General of India (CAG) relating to the accounts of UT of Jammu and Kashmir are to be submitted to the Lt. Governor of the UT, who shall cause them to be laid before the Legislature of the UT.

Pr. Accountant General (Accounts and Entitlements) prepares the Finance Accounts and Appropriation Accounts of the UT of Jammu and Kashmir, from the vouchers, challans and initial and subsidiary accounts rendered by the treasuries, offices and departments responsible for keeping of such accounts functioning under the control of the Government of UT of Jammu and Kashmir and the statements received from the Reserve Bank of India. These accounts are audited independently by the Pr. Accountant General (Audit), and certified by the CAG.

Finance Accounts and Appropriation Accounts of the UT constitute the core data for this report. Other sources include the following:

- Budget of the UT: for assessing the fiscal parameters and allocative priorities *vis-à-vis* projections, as well as for evaluating the effectiveness of its implementation and compliance with the relevant rules and prescribed procedures;
- Results of audit carried out by the Office of the Pr. Accountant General (Audit);
- Other data with Departmental Authorities and Treasuries (accounting as well as MIS);
- GSDP data and other UT related statistics; and
- Various audit reports of the CAG of India.

The analysis is also carried out in the context of recommendations of the Fiscal Responsibility and Budget Management Act, best practices and guidelines of the Government of India.

1.3 Report Structure

The Union Territory Finances Audit Report is structured into the following five Chapters:

Chapter – I	**Overview** This chapter describes the basis and approach to the Report and the underlying data, provides an overview of structure of government accounts, budgetary processes, macro-fiscal analysis of key indices and UTs fiscal position including the deficits/ surplus.
Chapter – II	**Finances of the Union Territory** This chapter provides a broad perspective of the finances, debt profile of the UT of Jammu and Kashmir and key Public Account transactions, based on the Finance Accounts of the UT of Jammu and Kashmir for the year 2021-22.
Chapter – III	**Budgetary Management** This chapter is based on the Appropriation Accounts of UT of Jammu and Kashmir for the year 2021-22 and reviews the appropriations and allocative priorities of the Government of UT of Jammu and Kashmir and reports on deviations from Constitutional provisions relating to budgetary management.
Chapter – IV	**Quality of Accounts and Financial Reporting Practices** This chapter has comments on the quality of accounts rendered by various authorities of the UT Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the Government.
Chapter – V	**Financial Performance of Public Sector Undertakings** This chapter contains comments about the financial performance of Public Sector Undertakings of UT of Jammu and Kashmir during the year 2021-22.

1.4 Overview of Government Account Structure and Budgetary Processes

The Accounts of the Government of UT of Jammu and Kashmir are kept in three parts:

1. **Consolidated Fund of the Union Territory of Jammu and Kashmir (Section 67 of the Jammu and Kashmir Reorganisation Act 2019)**

   This Fund comprises all revenues received in the UT of Jammu and Kashmir by the Government of India or Lieutenant Governor of the UT of Jammu and Kashmir in relation to any matter with respect to which the Legislative Assembly of the UT of Jammu and Kashmir has power to make laws, and all grant made and all loans advanced to the UT of Jammu and Kashmir from the Consolidated Fund of India and all loans raised by the Government of India or the Lieutenant Governor of the UT of Jammu and Kashmir upon the security of the Consolidated Fund of the UT of Jammu and Kashmir and all moneys received by the UT of Jammu and Kashmir in repayment of loans shall form one Consolidated Fund. No moneys can be appropriated from this Fund except in accordance with law and for the purposes and in the manner provided in Jammu and Kashmir Reorganisation Act 2019.

2. **Contingency Fund of the Union Territory of Jammu and Kashmir (Section 69 of the Jammu and Kashmir Reorganisation Act 2019)**

   This Fund is in the nature of an imprest, which is established by the Legislature by law, and is placed at the disposal of the Lieutenant Governor to enable advances to be made for meeting unforeseen expenditure pending authorisation of such expenditure by the Legislature of UT of Jammu and Kashmir. The fund is recouped by debiting the expenditure to the concerned functional major head relating to the Consolidated Fund of the UT of Jammu and Kashmir.

3. **Public Accounts of the Union Territory of Jammu and Kashmir (Section 68 of the Jammu and Kashmir Reorganisation Act 2019)**

   Apart from above, all other public moneys received by or on behalf of the Lieutenant Governor, shall be credited to a Public Account entitled the Public Account of the UT of Jammu and Kashmir. The Public Account includes re-payables like Small Savings and Provident Funds, Deposits (bearing interest and not bearing interest), Advances, Reserve Funds (bearing interest and not bearing interest),

Remittances and Suspense heads (both of which are transitory heads, pending final booking). The net cash balance available with the Government is also included under the Public Account. The Public Account is not subject to the vote of the Legislature.

Budget Document

There is a constitutional requirement under Section 41 of the Jammu and Kashmir Reorganisation Act 2019 to present before the Legislature of the UT, a statement of estimated receipts and expenditures of the government in respect of every financial year. This 'Annual Financial Statement' constitutes the main budget document. Further, the budget must distinguish expenditure on the revenue account from other expenditures.

Revenue Receipts consists of Tax Revenue, Non-Tax Revenue, share of Union Taxes/ Duties, and grants from Government of India.
Revenue Expenditure consists of all those expenditures of the government of UT, which do not result in creation of physical or financial assets. It relates to those expenses incurred for the normal functioning of the government departments and various services, interest payments on debt incurred by the government, and grants given to various institutions (even though some of the grants may be meant for creation of assets).

The **Capital Receipts** consist of:

- **Debt Receipts:** Market Loans, Bonds, Loans from financial institutions, Net transaction under Ways and Means Advances, Loans and Advances from Central Government, etc.;
- **Non-debt Receipts:** Proceeds from disinvestment, Recoveries of loans and advances;

Capital Expenditure includes expenditure on the acquisition of land, building, machinery, equipment, investment in shares, and loans and advances by the government to PSUs and other parties.

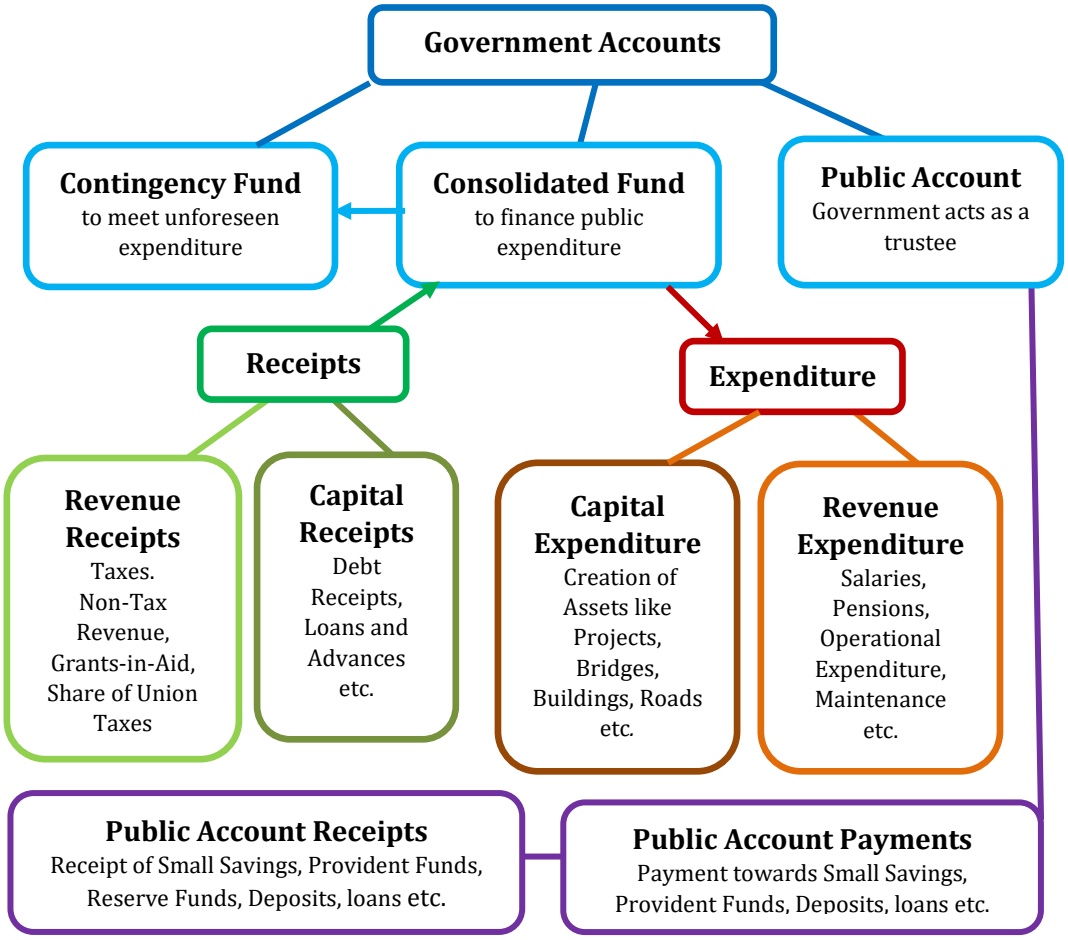
At present, we have an accounting classification system in Government that is both functional and economic.

	Attribute of transaction	**Classification**
Standardised in List of Major and Minor Heads by Controller General of Accounts	Function- Education, Health, etc. /Department	Major Head under Grants (4-digit)
	Sub-Function	Sub Major head (2-digit)
	Programme	Minor Head (3-digit)
Flexibility left for States/UT	Scheme	Sub-Head (2-digit)
	Sub scheme	Detailed Head (2-digit)
	Economic nature/Activity	Object Head-salary, minor works, etc. (2-digit)

1.4.1 Structure of Government Accounts

Chart 1.2: Structure of Government Accounts

Government finances comprise the following:



1.4.2 Budgetary Process

In terms of Section 41 of the Jammu and Kashmir Reorganisation Act 2019, the Lieutenant Governor of UT of Jammu and Kashmir shall cause to be laid before Legislative Assembly, a statement of the estimated receipts and expenditure of the UT, in the form of an Annual Financial Statement. In terms of Section 42, the statement is to be submitted to the Legislature in the form of Demands for Grants/ Appropriations and after approval of these, the Appropriation Bill is passed by the Legislature under Section 43 to provide for appropriation of the required money out of the Consolidated Fund.

In pursuance of Gazette of India, Extraordinary, Part (II), Section 3, Sub section (ii), S.O 3938 (E) dated 31 October 2019 issued consequent upon the proclamation issued on 31st day of October 2019, Gazette of India, Extraordinary, Part (II), Section 3, Sub section (ii), S.O. 3937(E) dated 31st October, 2019, under section 73 of Jammu and Kashmir Reorganisation Act, 2019, read with Article 239 and 239A of the Constitution and Section 74 of

the Jammu and Kashmir Reorganisation Act, 2019, the bill to authorise payment and appropriation of certain sums from and out of the Consolidated Fund of the UT of Jammu and Kashmir, of the moneys required to meet the expenditure *charged* on the Consolidated Fund and the grants made for the expenditure of the UT of Jammu and Kashmir for the financial year 2021-22 was introduced in Parliament (Lok Sabha) on 18 March 2021. It was passed by both the Houses on 18 March 2021 (Lok Sabha) and 23 March 2021 (Rajya Sabha) and was assented to on 25 March 2021. Appropriation Accounts of UT of Jammu and Kashmir for the period 2021-22 was audited and commented in ***Chapter 3*** of this Report.

1.5 Snapshot of Finances

The position of budget estimate and actual in respect of some components have been shown in ***Table 1.2***.

Table 1.2: Actual vs Budget for the year 2021-22

(₹ in crore)

Sl. No	Components	Actual 2020-21	(Budget Estimate) 2021-22	(Actual) 2021-22	Percentage of Actual to B.E.	Percentage of Actual to GSDP

Source: Budget 2021-22 and Finance Accounts 2021-22.

#Borrowings and other Liabilities: Net (Receipts-Disbursements) of Public Debt + Net of Contingency Fund + Net (Receipts - Disbursements) of Public Account + Net of Opening and Closing Cash Balance. Public Debt receipts includes ₹3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall.

During 2021-22, Revenue Receipts increased by 13 *per cent* with respect to last year, but it fell short off budget estimates by 39 *per cent*. UT's own tax revenue increased by 32 *per cent* and non-tax revenue increased by 19 *per cent* with respect to previous year. There was increase in Revenue receipts by ₹6,742 crore and increase in Revenue Expenditure by ₹6,635 crore with respect to previous year which resulted in reduction of Revenue Deficit to ₹31 crore with respect to last year's Revenue Deficit of ₹138 crore. The increase in Capital expenditure by ₹589 crore was major contributor in increase of Fiscal Deficit. Government could not keep its Fiscal Deficit and Primary Deficit within the projections estimated in the budget. Against projection of Revenue Surplus of ₹28,337 crore in budget there was Revenue deficit of ₹31crore during 2021-22.

1.5.1 Snapshot of Assets and Liabilities of the Government

Government accounts capture the financial liabilities of the Government and the assets created out of the expenditure incurred. ***Appendix 1.2*** gives an abstract of such liabilities and assets as on 31 March 2022, compared with the corresponding position of previous year. The liabilities consist mainly of internal borrowings, loans and advances from GoI, receipts from public account and reserve funds, and the assets comprise mainly the capital outlay and loans and advances given by the UT Government and cash balances. Summarised position of assets and liabilities is depicted in ***Table 1.3***.

Table 1.3: Summarised position of Assets and Liabilities

(₹ in crore)

Source: Finance Accounts.

** Includes ₹3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

In addition, assets and liabilities of erstwhile State of Jammu and Kashmir ending 30 October 2019 are yet to be distributed between UT of Jammu and Kashmir and UT of Ladakh.

1.6 Fiscal Balance: Achievement of Deficit and Total Debt Targets

As per the Statements laid under FRBM Act in the Parliament by UT of Jammu and Kashmir, no rolling targets for the fiscal indicators were specified for the year 2021-22 in respect of UT of Jammu and Kashmir.

1.6.1 Fiscal Parameters of the Union Territory of Jammu and Kashmir

Revenue Deficits/Surplus: The difference between revenue expenditure and revenue receipts is revenue deficit. The UT of Jammu and Kashmir had revenue deficit of ₹30.83 crore during 2021-22.

Fiscal Deficit: Fiscal deficit is the difference between the Government's total expenditure and its total receipts excluding borrowings. During the year 2021-22 UT of Jammu and Kashmir had Fiscal Deficit of ₹11,150.61 crore, which was 5.72 *per cent* of GSDP.

Primary Deficit/Surplus refers fiscal deficit minus interest payments. During the year 2021-22 there was Primary Deficit (PD) of ₹3,790.30 crore. Primary deficit was 1.94 *per cent* of GSDP during the year.

1.7 Deficits after examination in Audit

In order to present better picture of UT finances, there is a tendency to classify revenue expenditure as capital expenditure and to conduct off budget fiscal operations.

1.7.1 Post Audit - Deficits

Misclassification of revenue expenditure as capital, short contributions to new pension scheme has impacted the Revenue and Fiscal Deficit as shown below.

Table 1.4: Revenue and Fiscal Deficit, post examination by Audit

Sl. No	Item	Impact on Revenue Deficit {Understated (+) / overstated (-)} *(₹ in crore)*	Impact on Fiscal Deficit Under Statement *(₹ in crore)*
1	Misclassification between Revenue and Capital	158.76	-
2	Non-Payment of Interest on State Compensatory Afforestation Fund MH 8121	25.61	25.61
3	Non-Payment of interest on State Compensatory Afforestation Deposit MH 8336	15.92	15.92
Total Net impact		**200.29**	**41.53**

Source: Finance Accounts.

There was Revenue Deficit of ₹30.83 crore in the accounts of UT of Jammu and Kashmir for the year 2021-22, which was understated by ₹200.29 crore due to misclassification of Revenue Expenditure of ₹158.76 crore (Grants-in-aid ₹63.60 crore and Subsidy ₹95.16 crore) as Capital Expenditure and Non Payment of Interest on State Compensatory Afforestation Fund (₹25.61 crore) and State Compensatory Afforestation Deposit (₹15.92 crore). There was Fiscal Deficit of ₹11,150.61 crore during 2021-22 which was understated by ₹41.53 crore due to Non-Payment of Interest on State Compensatory Afforestation Fund and State Compensatory Afforestation Deposit as shown in the table above.

1.7.2 Post Audit – Total Public Debt

As per the Jammu and Kashmir Fiscal Responsibility and Budget Management Act, 2006, total liabilities means the liabilities under the Consolidated Fund and the Public Account and includes borrowings by the public sector undertakings and special purpose vehicles and other equivalent instruments including guarantees where the principal and /or interest are to be serviced out of the budget. The outstanding debt/liabilities can be split into various components as given in ***Table 1.5***.

Table 1.5: Components of outstanding debt/liabilities as on 31 March 2022

(₹in crore)

Borrowings and other liabilities as per Finance Accounts	Amount
Internal Debt (A)	**19,306.08**
Market Loans	15,022.22
Loans from other Institutions, etc.	197.81
Special Securities issued to the National Small Savings Fund of the Central Government	4,086.05
Loans and Advances from Central Government (B)	**5,831.75**
Non-plan Loans	0.00
Loans for State/UT Plan Schemes	-293.72
Others	6,125.47*
Liabilities upon Public Accounts (C)	**4,197.58**
Small Savings, Provident Funds, etc.	1,591.41
Deposits	1,686.04
Reserve Funds	920.13
Total (A+B+C)	**29,335.41**

Source: Finance Accounts. Liabilities upon Public Account is excluding Suspense & Miscellaneous and Remittance heads.

** Includes ₹5,945.29 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

Liabilities of UT of Jammu and Kashmir to GSDP is 11.99[1] *per cent*. Apart from the above, the Government of UT has disclosed an amount of ₹850.00 crore Off Budget Borrowings (OBBs) by Jammu & Kashmir Infrastructure Development Finance Corporation (JKIDFC) in the year 2021-22. This was in addition to OBBs of ₹1,400.00 crore taken by JKIDFC, in 2019-20 (₹650.00 crore) and 2020-21 (₹750.00 crore). The repayment of these loans were to be made by way of revision of taxes and duties. In this regard, it was further stated by the Director Finance, JKIDFC that principal of ₹127.23 crore had been repaid by the UT Government of Jammu and Kashmir. Thus, the outstanding amount of OBB on account of JKIDFC was ₹2,122.77 crore, as on 31st March 2022.

It was also intimated (November 2022) by the Finance Department, Government of UT of Jammu and Kashmir that there are Off budget borrowings by Jammu and Kashmir Power Corporation Ltd (JKPCL) amounting to ₹10,321.83 crore. Out of this total amount of ₹10,321.83 crore, ₹7,531.83 crore had been availed from Power Finance Corporation (PFC) and an amount of ₹2,790.00 crore had been availed from Rural Electrification Corporation (REC). No payment of principal has been done, as they are in the moratorium period. However, the

[1] The Debt to GSDP ratio has been arrived at after reducing back to back loans amounting to ₹ 5,945.29 crore (₹ 2,099.80 crore in 2020-21 & ₹ 3,845.49 crore in 2021-22) received in lieu of GST compensation.

interest payment on account of these loans is being done by the UT Government from its own resources.

Thus, as per Finance Department, UT Government there was outstanding off-budget borrowing amounting ₹2,122.77 crore raised by JKIDFC and loans amounting to ₹10,321.83 crore against JKPCL from Power Finance Corporation and Rural Electric Corporation ending 31 March 2022. Taking into account the above off budget borrowing the ratio of liabilities to GSDP will increase from 11.99 *per cent* to 18.37 *per cent.* There is also borrowing of erstwhile State of Jammu and Kashmir ending 30 October 2019 amounting to ₹83,536.63 crore which is yet to be bifurcated between two successor UTs.

Chapter-II

Finances of the Union Territory

CHAPTER-II

FINANCES OF THE UNION TERRITORY

This chapter provides a broad perspective of the finances of the Government of Jammu and Kashmir (UT) during the year 2021-22.

2.1 Major changes in Key Fiscal Aggregates vis-à-vis 2020-21

The major key fiscal aggregates of the UT for the year 2021-22 have been compared with fiscal aggregates for the year 2020-21.

Changes in key fiscal aggregates during 2021-22 w.r.t 2020-21

Revenue Receipt	✓Revenue receipts increased by 12.84 *per cent* ✓Own Tax receipts increased by 31.88 *per cent* ✓Own Non-tax receipts increased by 18.74 *per cent* ✓Grants-in-Aid from Government of India increased by 7.96 *per cent*
Revenue Expenditure	✓ Revenue expenditure increased by 12.61 *per cent* ✓ Revenue expenditure on General Services increased by 16.14 *per cent*. ✓ Revenue expenditure on Social Services increased by 7.51 *per cent*. ✓ Revenue expenditure on Economic Services increased by 13.81 *per cent* ✓ Expenditure on Grants-in-Aid decreased by 25.70 *per cent*
Capital Expenditure	✓ Capital expenditure increased by 5.51 *per cent* ✓ Capital expenditure on General Services decreased by 15.10 *per cent* ✓ Capital expenditure on Social Services increased by 9.23 *per cent* ✓ Capital expenditure on Economic Services increased by 6.44 *per cent*
Public Debt	✓ Public Debt Receipts increased by 26.47 *per cent* ✓ Repayment of Public Debt increased by 23.87 *per cent*

Public Accounts	✓ Public Account Receipts increased by 9.62 *per cent* ✓ Disbursement of Public Account increased by 22.14 *per cent*
Cash Balance	✓ Cash balance decreased by ₹0.04 crore during 2021-22 compared to previous year

2.2 Sources and Application of Funds

The summary of components of the sources and application of funds of the Union Territory during the year 2020-21 and 2021-22 is as under.

Table 2.1: Details of Sources and Application of funds during 2020-21 and 2021-22

(₹ in crore)

	Particulars	**2020-21**	**2021-22**	**Increase/ decrease**
Sources	Opening Cash Balance with RBI and other cash balances	1,482.28	1,447.69	-34.59
	Revenue Receipts	52,495.48	59,238.50	6,743.02
	Recoveries of Loans and Advances	1.93	1.03	-0.90
	Public Debt Receipts (Net)	9,169.61*	12,470.19*	3,300.58
	Public Account Receipts (Net)	1,464.16	-1,319.63	-2,783.79
	Total	**64,613.46**	**71,837.78**	**7,224.32**
Application	Revenue Expenditure	52,633.75	59,269.33	6,635.58
	Capital Outlay	10,470.38	11,047.03	576.65
	Disbursement of Loans and Advances	61.64	73.77	12.13
	Closing Cash Balance with RBI and other cash balances	1,447.69	1,447.65	-0.04
	Total	**64,613.46**	**71,837.78**	**7,224.32**

Source: Finance Accounts.

**Includes ₹2,099.80 crore &₹3,845.49 crore back-to-back loans from GoI in lieu of GST Compensation shortfall during 2020-21 and 2021-22 respectively.*

Revenue receipts are the biggest source (82.46 *per cent*) of revenue and biggest part (82.50 *per cent)* of resources are utilised towards Revenue Expenditure.

The composition of sources and application of funds in the Consolidated Fund of the Union Territory of Jammu and Kashmir during 2021-22 is given in ***Chart 2.1*** and ***Chart 2.2***.

(In per cent)

Chart 2.1: Composition of resources ₹comes from

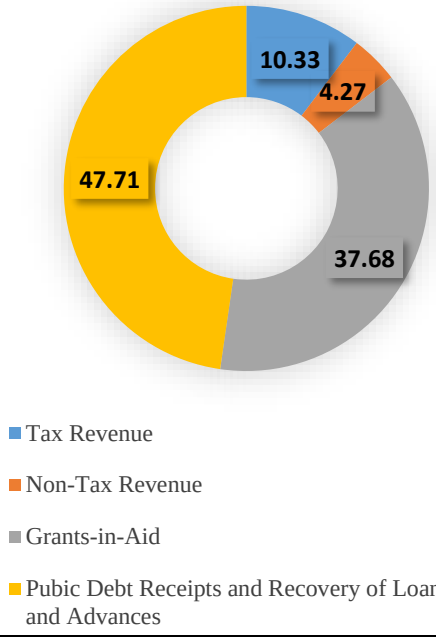

Chart 2.2: Application of resources ₹goes to

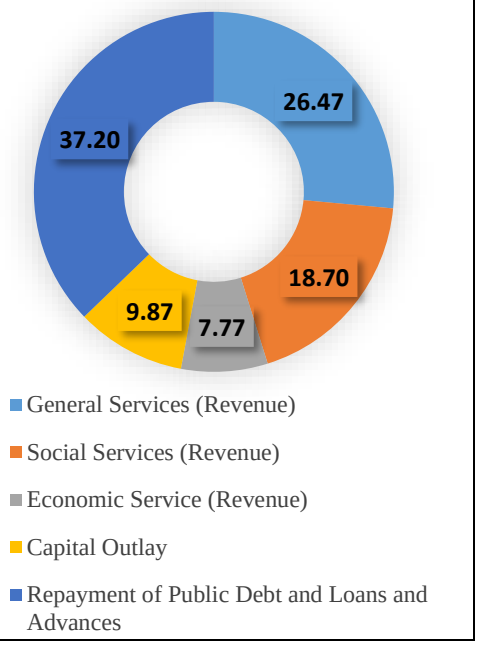


Public Debt Receipts and Grants-in-Aid together constitute 85.39 *per cent* of resources of UT of Jammu and Kashmir. Repayment of Public Debt and Expenditure on General Services (Revenue) together accounted for 63.60 *per cent* of total expenditure.

2.3 Resources of the Union Territory of Jammu and Kashmir

The resources of the Union Territory (UT) are described below:

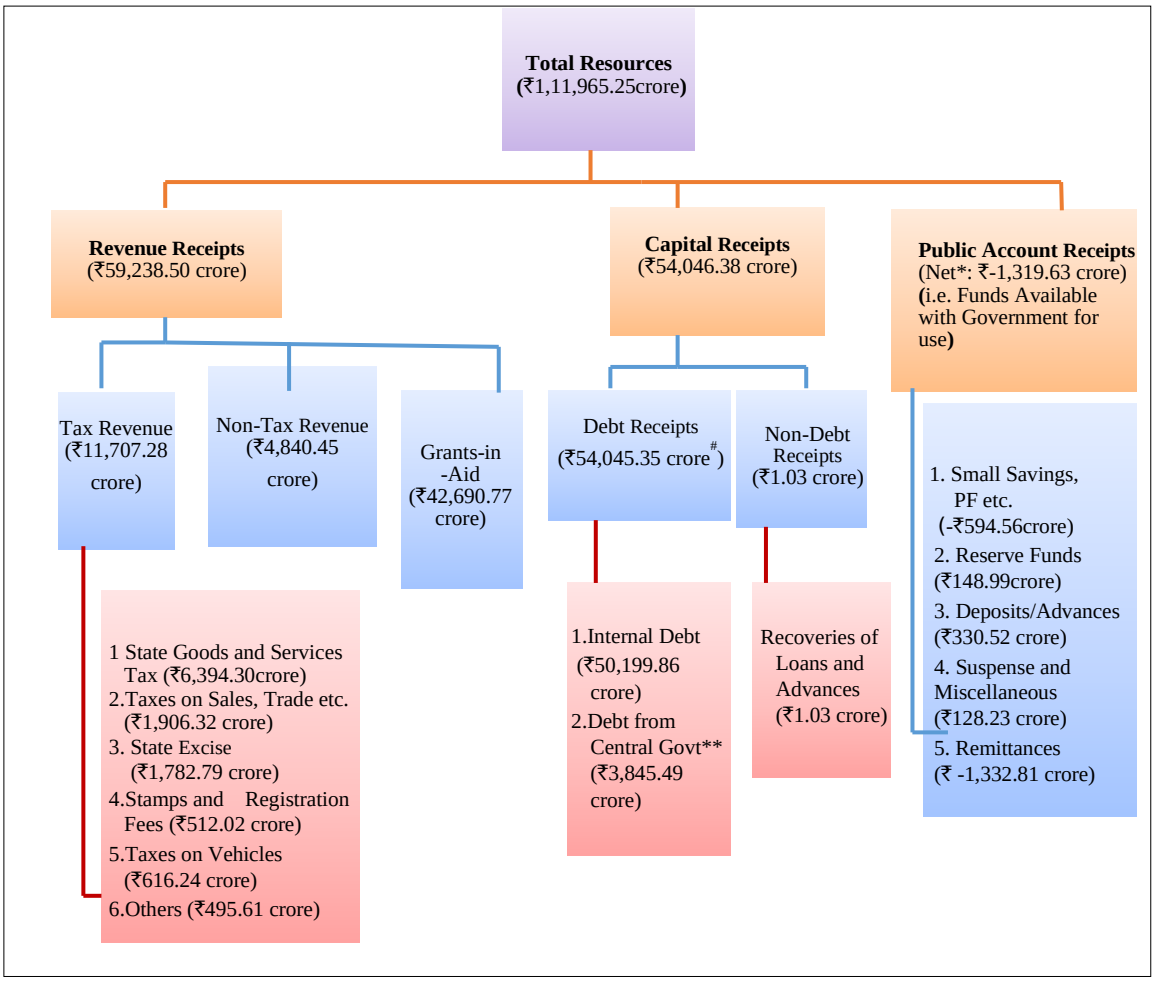
1. **Revenue Receipts** consist of tax revenue, non-tax revenue, and grants-in-aid from the Government of India (GoI).
2. **Capital Receipts** comprise miscellaneous capital receipts such as proceeds from disinvestments, recoveries of loans and advances, debt receipts from internal sources (market loans, borrowings from financial institutions/commercial banks) and loans and advances from GoI. Both revenue and capital receipts form part of the Consolidated Fund of the UT.
3. **Net Public Accounts Receipts**: There are receipts and disbursements in respect of certain transactions such as small savings, provident fund, reserve funds, deposits, suspense, remittances, etc. which do not form part of the Consolidated Fund.

   These are kept in the Public Account set up under Section 68(1) of the Jammu & Kashmir Reorganisation Act 2019 and are not subject to vote by the Union Territory's Legislature. Here, the Government acts as a banker. The balance after disbursements is the fund available with the Government for use.

2.3.1 Receipts of the Union Territory

Revenue and Capital are the two streams of receipts that constitute the resources of the Union Territory Government. Revenue Receipts consist of Tax Revenues, Non-Tax Revenues, and Grants-in-Aid from the Government of India (GoI). Capital Receipts comprise Miscellaneous Capital Receipts such as proceeds from Disinvestments, Recoveries of Loans and Advances, Debt Receipts from internal sources (Market Loans, Borrowings from financial institutions/ commercial banks) and Loans and Advances from GoI as well as accruals from Public Account. ***Chart 2.3*** showing the composition of resources of the Union Territory during the current year is given below**.**

Chart 2.3: Composition of receipts of the UT of Jammu and Kashmir during 2021-22



Source: Finance Accounts.

**Public Accounts Receipts Net {₹(-)1,319.63 crore} =Public Accounts Receipts (₹27,223.47crore) less Public Accounts Disbursements (₹28,543.10 crore)*

*** Includes ₹ 3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

 # Includes Ways and Means Advance.

2.3.2 Union Territory's Revenue Receipts

The components of revenue receipts of UT of Jammu and Kashmir and their share in revenue receipts, during 2020-21 and 2021-22 is as shown in ***Table 2.2.***

Table 2.2: Trend and Components of Revenue Receipts

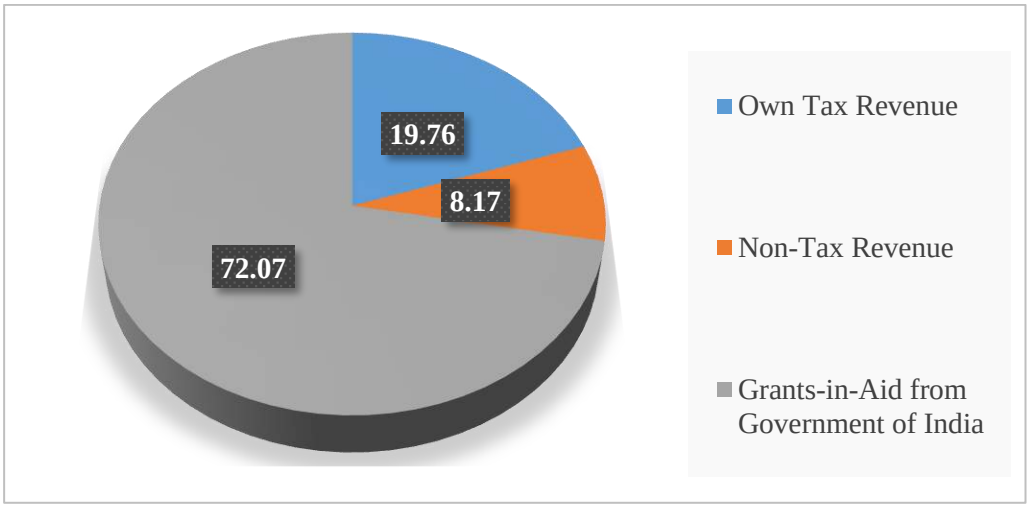
(₹ in crore)

Components	2020-21	2021-22	Percentage
Total Revenue Receipts (RR)	**52,495.48**	**59,238.50**	
Own Tax Revenue	8,876.99	11,707.28	19.76
Non-Tax Revenue	4,076.38	4,840.45	8.17
Grants in Aid from Government of India	39,542.11	42,690.77	72.07
GSDP	1,70,201	1,95,118	
Revenue Receipts to GSDP (percentage)	30.84	30.36	

Source of GSDP figures: Ministry of Statistics and Programme Implementation (MOSPI)GoI website.

Chart 2.4: Components of Revenue Receipts

(In per cent)



Out of total Revenue Receipts of ₹59,238.50 crore during 2021-22, the Grants-in-Aid from GoI (₹42,690.77 crore) constituted 72.07*per cent* of total revenue receipts.

2.3.2.1 Own Resources of UT of Jammu and Kashmir

Government's performance in mobilisation of resources is assessed in term of its own tax resources comprising revenue from its own tax and non-tax sources. Details of own tax revenue, own non tax revenue and its components are shown in following sub paragraphs.

(A) Own Tax revenue

Own tax revenues of the UT consist of State Goods and Services Tax (SGST), State Excise, Taxes on Vehicles, Stamp Duty and Registration fees, Land revenue, Taxes on Goods and Passengers, etc. Component wise breakup of Own tax revenue is shown in the table below.

Table 2.3: Components of Own Tax Revenue

(₹ in crore)

	2020-21	**2021-22**	**Percentage Increase**
Taxes on Sales, Trade etc.	1,495.61	1,906.31	27.46
SGST	4,839.35	6,394.31	32.13
State Excise	1,347.42	1,782.79	32.31
Taxes on Vehicles	488.38	616.24	26.18
Stamp duty and Registration fees	325.54	512.02	57.28
Land Revenue	60.57	113.28	87.02
Taxes on Goods and Passengers	0.90	5.73	536.67
Other Taxes	319.22	376.60	17.98
Total	**8,876.99**	**11,707.28**	**31.88**

Source: Finance Accounts.

There was increase in all components of own tax revenue during 2021-22 with respect to previous year 2020-21 and own tax revenue showed an increase of 31.88 *per cent* with respect to previous year. SGST, State Excise and Taxes on Sales/Trade etc. showed maximum increase of ₹1,554.95 crore, ₹435.37 crore and ₹410.70 cores respectively. The highest percentage increase with respect to 2020-21 was 536.67 *per cent* and 87.02 *per cent* under Taxes on Goods and Passengers and Land Revenue respectively.

(B) State Goods and Services Tax (SGST)

Goods and Services Tax (GST) Act became effective in Jammu and Kashmir with effect from 8th July 2017. During the year 2021-22, the State/UT GST collection was ₹6,394.31 crore compared to ₹4,839.35 crore in 2020-21, registering an increase of ₹1,554.96 crore (32.13 *per cent*). This includes Advance Apportionment of IGST amounting to ₹4,334.63 crore. The Government of Union Territory of Jammu and Kashmir received compensation of ₹892.56 crore as Revenue Receipt on account of loss of revenue arising out of implementation of GST during 2021-22. Further, the Government of Union Territory of Jammu and Kashmir also received ₹3,845.49 crore debt during 2021-22 (total debt of ₹5,945.29 crore as on 31 March 2022) as back-to-back loan from the Central Government in lieu of GST compensation, which would not be treated as debt of the Government of Union Territory for any norms which may be prescribed by the Finance Commission as per the decision of Department of Expenditure, Government of India. The audit of revenue figures has been taken up to assess the compensation payable under GST (Compensation to States) Act 2017.

(C) Non-Tax Revenue

Non-Tax revenue consists of interest receipts, dividends and profits, mining receipts, departmental receipts, etc. ***Table 2.4*** depicts components of Non-Tax Revenue of the Union Territory during 2021-22.

Table 2.4: Components of UT's Non-Tax Revenue

(₹ in crore)

Revenue Head	2020-21	2021-22	Percentage Increase (+) /Decrease (-)
Interest Receipts	**17.86**	**16.54**	**-7.39**
Dividend and Profits	**0.00**	**0.00**	**-**
Other Non-Tax Receipts	**4,058.52**	**4,823.91**	**18.86**
a) Power	*2,349.74*	*2,715.75*	*15.58*
b) Medium Irrigation	*996.66*	*886.62*	*-11.04*
c) Non-Ferrous Mining and Metallurgical Industries	*227.91*	*128.78*	*-43.50*
d) Water Supply and Sanitation	*93.89*	*111.88*	*19.16*
e) Education, Sports, Art and Culture	*41.33*	*474.12*	*1,047.16*
f) Police	*39.91*	*68.68*	*72.09*
g) Other misc.	*309.08*	*438.08*	*41.74*
Total	**4,076.38**	**4,840.45**	**18.74**

Source: Finance Accounts.

Non-Tax revenue receipts increased by 18.74 *per cent* during 2021-22 with respect to previous year and major increase was under power, water supply and sanitation, Education, Sports Art and Culture, Police and other Misc. head. Medium irrigation and Non-ferrous Mining and Metallurgical Industries showed a decline in receipt with respect to previous year. Receipt under Education, Sports, Art and Culture increased by 1,047.16 *per cent* during 2021-22 with respect to 2020-21, due to remittance of ₹461.61 crore by Chief Accounts Officer (CAO) Samagra Shiksha J&K on account of salary of teachers.

2.3.2.2 Transfers from the Centre

Transfers from the Centre is constituted of Grants-in-Aid and devolution under Finance Commission Award.

(A) Grants-in-aid from GoI

The details of Grants-in-aid (GIA) from Government of India is shown below.

Table 2.5: Grants-in-aid from Government of India

(₹ in crore)

Head	2020-21	2021-22
Grants for Centrally Sponsored Schemes (CSS)	6,533.49	6,713.77
Other transfers/Grants to States/Union Territories with Legislature	33,008.62	35,977.00
Total	**39,542.11**	**42,690.77**
Percentage of GIA to Revenue Receipts	75.32	72.07

Source: Finance Accounts

Grants-in-Aid from GoI (₹42,690.77 crore) constituted 72.07 *per cent* of the total revenue receipts of ₹59,238.50 crore for 2021-22. The percentage of GIA to Revenue receipts has declined from 75.32 *per cent* to 72.07 *per cent* which showed Government's dependence on Grants in Aid from Government of India has reduced to that extent.

(B) 15th Finance Commission Grants

There is no devolution of share of taxes to Union Territory under 15th Finance Commission Award. However as per Finance Commission recommendation one *per cent* of the net proceeds of Union taxes is to be retained by the Central Government for financing the requirements of Union Territories of Jammu & Kashmir and Ladakh and 41 *per cent* as against 42 *per cent* of net proceeds of Union Taxes is to be divisible among 28 States.

2.3.3 Capital Receipts

Capital receipts comprise miscellaneous capital receipts such as proceeds from disinvestments, recoveries of loans and advances, debt receipts from internal sources (market loans, borrowings from financial institutions/commercial banks) and loans and advances from GoI.

Table 2.6: Composition of Capital Receipts

(₹ in crore)

Sources of UT's Receipts	2020-21	2021-22	Growth rate (per cent)
Capital Receipts	**42,734.86**	**54,046.38**	**26.47**
Miscellaneous Capital Receipts	*0.00*	*0.00*	*-*
Recovery of Loans and Advances	*1.93*	*1.03*	*-46.63*
Public Debt Receipts	**42,732.93**	**54,045.35**	**26.47**
Internal Debt	*40,450.24*	*50,199.86*	*24.10*
*Loans and advances from GoI**	*2,282.69*	*3,845.49*	*68.46*

Source: Finance Accounts.

**Includes ₹2,099.80 crore 2020-21 and ₹3,845.49 crore 2021-22 as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

Total Capital receipts of Union Territory of Jammu and Kashmir increased from ₹42,734.86 crore during 2020-21 to ₹54,046.38 crore during 2021-22. There was an increase of 26.47 *per cent* during 2021-22 with respect to previous year. Internal debt receipts of ₹50,199.86 crore was the major component of total capital receipt of ₹54,046.38 crore and it showed increase of ₹9,749.63 crore.

Government of Union Territory of Jammu and Kashmir received ₹3,845.49 crore as back to back loans from GoI, in lieu of GST compensation shortfall and ₹1.03 crore on account of recovery of loans and advances.

2.3.4 UT's Performance in Mobilisation of Resources

The UT's performance in mobilisation of resources is assessed in terms of its own resources comprising Own Tax and Non-Tax sources. The Union Territory of Jammu and Kashmir's Own Tax and Own Non-Tax Receipts for the year 2021-22 *vis-à-vis* budget estimates are given below:

Table 2.7: Tax and Non-Tax Receipts *vis-à-vis* projections

(₹ in crore)

	Budget Estimates	Actual	Percentage of actual over Budget estimates
Own Tax Revenue	16,276	11,707	71.93
Non-Tax Revenue	8,209	4,840	58.96
Total	**24,485**	**16,547**	**67.58**

Source: Budget document and Finance Accounts.

The collection under own resources fell short by 32.42 *per cent* of Budget Estimates. The UT Government could not achieve its own targets for Own Tax Revenue and Own Non-Tax Revenue in the Budget Estimates. Own Tax Revenue fell short by 28.07 *per cent* and Non tax revenue fell short by 41.03 *per cent* of budget estimates. UT's own resources (Own Tax Revenue and Own Non-Tax Revenue) of ₹16,547.73 crore during the year 2021-22 was 36.77 *per cent* of committed expenditure (salaries & wages, interest payments and pension) of ₹45,000.95 crore for the year 2021-22.

2.4 Application of Resources

The Government is vested with the responsibility of incurring expenditure within the framework of fiscal responsibility legislations, while at the same time ensuring that the ongoing fiscal correction and consolidation process of the UT is not at the cost of expenditure directed towards development of capital infrastructure and social sector. The sub-paragraphs give the analysis of allocation of expenditure in Union Territory of Jammu and Kashmir.

2.4.1 Composition of Expenditure

Table 2.8: Trend of expenditure and its composition

(₹ in crore)

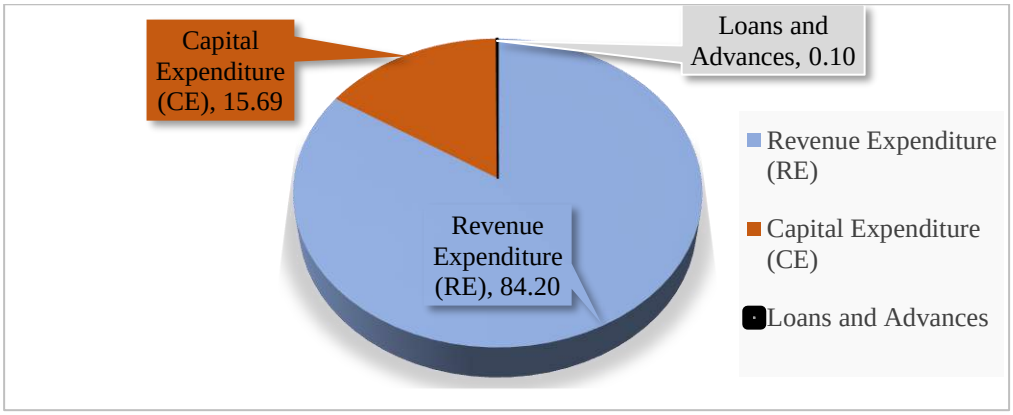
Parameters	2020-21	2021-22	Percentage
Revenue Expenditure (RE)	**52,633.75**	**59,269.33**	**84.20**
Capital Expenditure (CE)	**10,470.38**	**11,047.04**	**15.69**
Loans and Advances	**61.64**	**73.77**	**0.10**
Total Expenditure (TE)	**63,165.77**	**70,390.14**	**100.00**
TE/GSDP *(per cent)*	37.11	36.08	
RE/GSDP *(per cent)*	30.92	30.38	
CE/GSDP *(per cent)*	6.15	5.66	

Parameters	2020-21	2021-22	Percentage
Loans and Advances /GSDP *(per cent)*	0.04	0.04	

Source: Finance Accounts.

Chart 2.5: Total Expenditure- Share of its components

(In per cent)



Percentage of Revenue Expenditure and Capital Expenditure to GSDP during the year 2021-22 was 30.38 *per cent* and 5.66 *per cent* respectively.

Table 2.9: Relative share of various sectors of expenditure

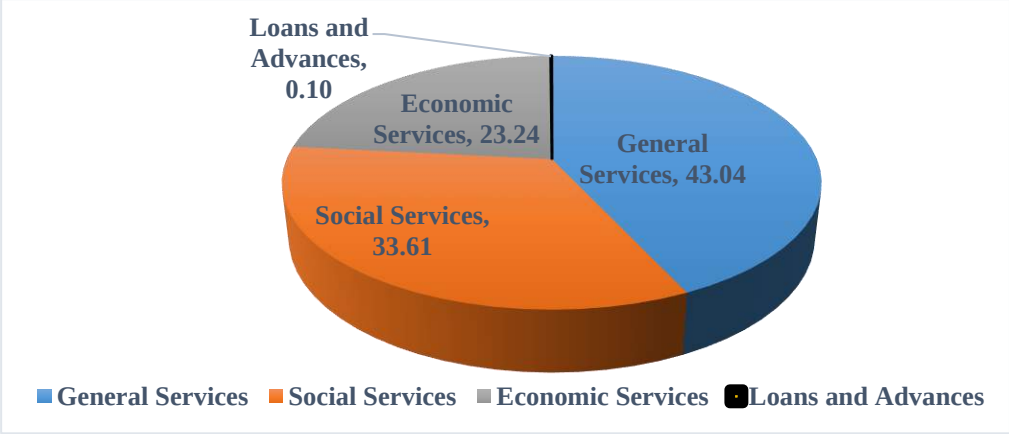
(₹ in crore)

Parameters	2020-21	2021-22	Percentage Increase
General Services	26,297.40	30,298.89	15.22
Social Services	21,964.27	23,655.75	7.70
Economic Services	14,842.46	16,361.73	10.24
Loans and Advances	61.64	73.77	19.68

Source: Finance Accounts.

Chart 2.6: Total expenditure - Expenditure by activities

(In per cent)

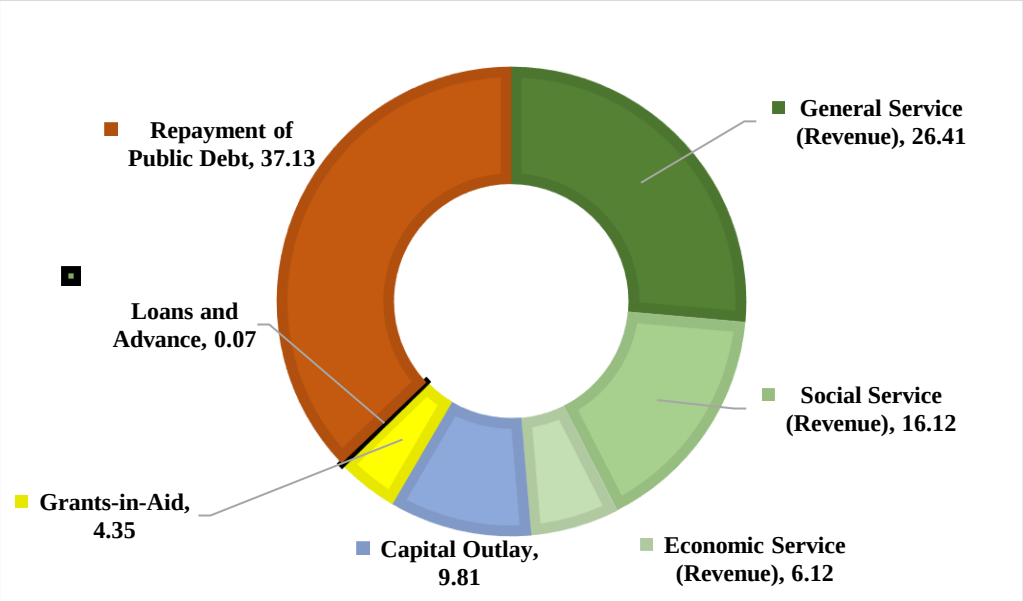


During 2021-22, the combined share of Social and Economic Services which

represented Development Expenditure was 56.85 *per cent* of total expenditure and 43.04 *per cent* of total expenditure was incurred on General Services.

Chart 2.7: Composition of expenditure by function during 2021-22

(In per cent)



It can be seen from above that repayment of Public debt accounted for 37.13 *per cent* which was the largest component of total expenditure and General Services (Revenue) accounts for 26.41 *per cent* of total expenditure. Expenditure on Social and Economic Service (Revenue) accounts for 22.24 *per cent* and Grants-in-Aid accounts for 4.35 *per cent.* Capital expenditure accounts for 9.81 *per cent* of total disbursement from the Consolidated Fund during 2021-22.

2.4.2 Revenue Expenditure

Revenue Expenditure is incurred to maintain the current level of services and payment for the past obligation. As such, it does not result in any addition to the UT's infrastructure and service network. ***Table 2.10*** presents Revenue Expenditure and basic parameters of Union Territory of Jammu and Kashmir.

Table 2.10: Revenue Expenditure – Basic Parameters

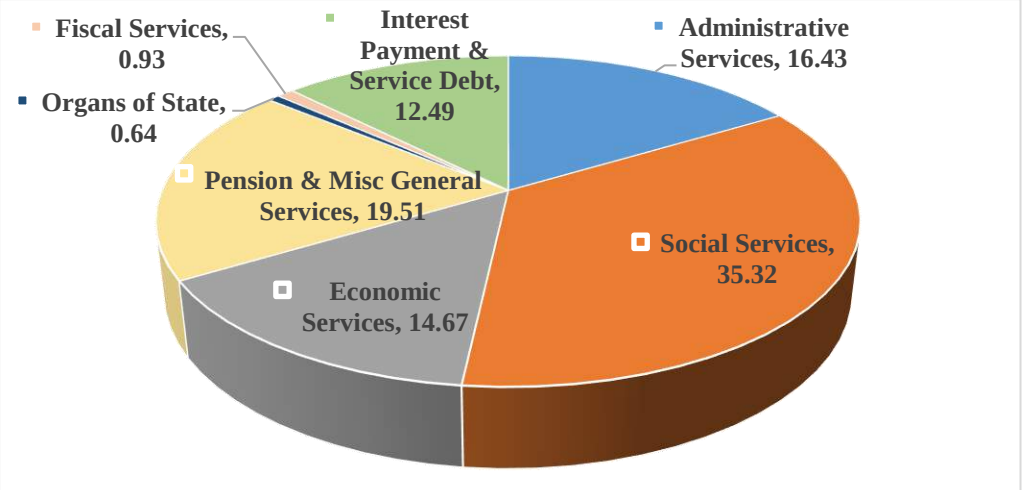
(₹ in crore)

Parameters	**2020-21**	**2021-22**
Total Expenditure (TE)	63,165.77	70,390.14
Revenue Expenditure (RE)	52,633.75	59,269.33
Revenue Expenditure as percentage of TE	83.33	84.20
RE/GSDP *(per cent)*	30.92	30.38
RE as percentage of RR	100.26	100.05

Source: Finance Accounts.

Chart 2.8: Sector wise distribution of Revenue Expenditure during 2021-22

(In per cent)



During 2021-22, the combined share of Revenue Expenditure on Economic Services and Social services accounted for 49.99 *per cent and* General Services accounted for 50.01 *per cent* of Revenue Expenditure. The expenditure on Administrative Services (16.43 *per cent)*, Interest payments & Servicing of debts (12.49 *per cent*), Pension & Miscellaneous General Services (19.51 *per cent*) were the major components of expenditure on General Services.

2.4.2.1 Major Changes in Revenue Expenditure

The revenue expenditure increased by ₹6,635.58 crore (12.61 *per cent)* from ₹52,633.75 crore in 2020-21 to ₹59,269.33 crore in 2021-22. Significant increase/decrease of above ₹100 crore under Major Heads of Accounts with regard to revenue expenditure of the UT during the current year as compared to Revenue Expenditure of the previous year is shown in ***Table 2.11***.

Table 2.11: Significant increase/decrease in revenue expenditure with respect to previous year

(₹ in crore)

Major Head	2020-21	2021-22	Increase/ Decrease(-)
2071 Pension and other retirement benefits	9,078.11	11,563.00	2,484.89
2049 Interest Payments	6,372.46	7,360.31	987.85
2202 General Education	9,570.80	10,320.50	749.70
2055 Police	7,112.39	7,636.11	523.72
3054 Roads and Bridges	210.37	620.78	410.41
2801 Power	2,812.84	3,131.10	318.26
2211 Family Welfare	212.33	407.84	195.51
2236 Nutrition	405.88	574.90	169.02
2217 Urban Development	987.16	755.78	-231.38

The major increase of ₹2,484.89 crore was under Pension and other retirement benefits with respect to previous year. The increase was due to revision in

Government contribution of Defined Contribution Pension Scheme percentage and disbursement of other retirement benefits.

Increase under expenditure on Interest Payments is mainly due to meeting liability on account of interest on Internal debt and other obligation.

Increase under General Education was mainly due to increased expenditure on Mid-Day Meals, Primary, Secondary and Higher Education. Increase under Police was mainly due to increased expenditure on Special Police, District Police and Modernization of Police Force.

The expenditure under Roads and Bridges increased due to more transfer of Central Fund and increased expenditure on Direction and Administration.

Expenditure under Power increased due to increased expenditure on purchase of power. Expenditure under Tourism increased due to more expenditure on Tourist centers, promotion and publicity.

Major decrease under Urban Development was due to disbursement of less assistance to local bodies.

2.4.2.2 Committed Expenditure

The committed expenditure of the UT Government on revenue account consists of interest payments, expenditure on salaries and wages and pensions. It has first charge on Government resources. Heavy Committed expenditure leaves the Government with lesser flexibility for development sector.

Table 2.12: Components of Committed Expenditure

(₹ in crore)

Components of Committed Expenditure	**2020-21**	**2021-22**
Salaries & Wages	23,851.70	26,077.64
Interest Payments	6,372.46	7,360.31
Expenditure on Pensions & gratuities	9,078.11	11,563.00
Total	**39,302.27**	**45,000.95**
As a percentage of Revenue Receipts (RR)		
Salaries & Wages	45.44	44.02
Interest Payments	12.14	12.42
Expenditure on Pensions & gratuities	17.29	19.52
Total	**74.87**	**75.96**
As a percentage of Revenue Expenditure (RE)		
Salaries & Wages	45.31	44.00
Interest Payments	12.11	12.42
Expenditure on Pensions & gratuities	17.25	19.51
Total	**74.67**	**75.93**

Source: Finance Accounts.

Salary and Wages accounted for 44.00 *per cent* of Revenue Expenditure during 2021-22. The total committed expenditure accounted for 75.93 *per cent* of Revenue Expenditure and it is equal to 75.96 *per cent* of Revenue Receipts during 2021-22. It shows that major portion of revenue receipts was exhausted

to meet committed expenditures and Government was left with less than 25 *per cent* of its revenue receipts for other expenditure.

2.4.2.3 Undischarged liabilities in National Pension System

In terms of the Defined Contribution Pension Scheme, the State Government Employees recruited on or after 1 January 2010 who are covered under the Scheme, the employee contributes 10 *per cent* of basic pay and dearness allowance, which is matched by the Government with equal amount. Government of Union Territory contribution has, however, been enhanced to 14 *per cent* in May 2021 (Government of Union Territory of Jammu and Kashmir S.O No. 178 dated 20 May 2021) with retrospective effect from 1 April 2020.

During the year 2021-22, total contribution to Defined Contribution Pension Scheme was ₹1,587.13 crore (Employee's contribution ₹652.55 crore and Government of Union Territory contribution ₹934.58 crore).

The Government of Union Territory transferred ₹1,587.13 crore to the Public Account under Major Head 8342-117 Defined Contribution Pension Scheme. Out of which ₹1,574.89 crore was transferred from this Head of Deposit Account to the designated fund manager through the National Securities Depository Limited (NSDL)/ Trustee Bank. As on 31 March 2022, an amount of ₹11.71 crore was lying under the Major Head 8342- "Other Deposits"-117 "Defined Contribution Pension Scheme" (New Pension Scheme) for the Government Employees awaiting transfer to NSDL/Trustee Bank. There was also liability of ₹53.67 crore required for transfer to NSDL/Trustee Bank pertaining to erstwhile State of Jammu and Kashmir ended 30 October 2019 (pre re-organisation) yet to be apportioned between the successor Union Territory of Jammu & Kashmir and Union Territory of Ladakh.

2.4.2.4 Subsidies

Amounts being booked under the object head 'subsidies' have been shown below.

Table 2.13: Expenditure on subsidies during 2021-22

Particulars	2020-21	2021-22
Non-Committed Expenditure (₹ in crore)	13,331.48	14,268.38
Subsidy (₹ in crore)	128.24	95.16
Subsidy as percentage of Non-Committed Expenditure	0.96	0.67
Subsidies as a percentage of Revenue Receipts	0.24	0.16
Subsidies as a percentage of Revenue Expenditure	0.24	0.16

Source: Finance Accounts

The expenditure on subsidies by Union Territory of J&K has decreased from ₹128.24 crore in 2020-21 to ₹95.16 crore in 2021-22. It constituted 0.16 *per cent* of Revenue Receipts (₹59,238.50 crore) and Revenue Expenditure (₹59,269.33

crore). Horticulture Department was provided maximum subsidy (₹88.72 crore) which was 93.23 *per cent* of total expenditure on subsidy during the year.

2.4.2.5 Financial Assistance by the UT Government to Local Bodies and other Institutions

Financial assistance is provided by the Union Territory Government to Local bodies and other institutions by way of grants and loans. The quantum of assistance provided by way of Grants to local bodies and other institutions is presented in ***Table 2.14.***

Table 2.14: Financial Assistance to Local Bodies etc.

(₹ in crore)

Financial Assistance to Institutions	**2020-21**	**2021-22**
(A) Local Bodies		
Municipal Corporations	502.15	388.43
Others	356.32	256.03
Total (A)	**858.47**	**644.46**
(B) Others		
Educational Institutions (Aided Schools, Aided Colleges, Universities, etc.)	2,256.56	2,205.67
Development Authorities	68.43	71.08
Jammu and Kashmir Power Companies*	2,759.98	1,188.23
Other Institutions	588.42	761.41
Total (B)	**5,673.39**	**4,226.39**
Total (A+B)	**6,531.86**	**4,870.85**
Revenue Expenditure	**52,633.75**	**59,269.33**
Assistance as percentage of Revenue Expenditure	12.41	8.22

Source: Finance Accounts

**J&K Power Development Corporation, Jammu Power Discom, Kashmir Power Discom and JK Power Corporation Ltd*

Jammu and Kashmir Power Companies were the major beneficiary of assistance, which received financial assistance of ₹1,188.23 crore, which was 24.39 *per cent* of total financial assistance disbursed during 2021-22. Grant-in-Aid as percentage of Revenue expenditure has declined from 12.41 *per cent* to 8.22 *per cent.*

2.4.3 Capital Expenditure

Capital Expenditure (Capex) is primarily expenditure on creation of fixed infrastructure assets such as roads, buildings etc. Capex is being met from budgetary support and extra budgetary resources/off budget. The share of capital expenditure (excluding loans and advances) in total expenditure was 15.69 *per cent* during 2021-22.

2.4.3.1 Major Changes in Capital Expenditure

Capital outlay increased by ₹576.66 crore (5.51 *per cent*) from ₹10,470.38 crore in 2020-21 to ₹11,047.04 crore in 2021-22. Significant variations of ₹100 crore and above under various Major Heads of Accounts with regard to Capital Outlay of the UT during the current year as compared to previous year is shown in table below.

Table 2.15: Significant increase/decrease of more than ₹100 crore with respect to previous year

(₹ in crore)

Major Head description	2020-21	2021-22	Increase(+)/ Decrease(-)
4801-Capital outlay on Power Projects	589.58	1,230	(+)640.42
4210-Capital outlay on Medical and Public Health	529.85	636.79	(+)106.94
4515-Capital outlay on Other Rural Development Programmes	2,022.86	1,267.65	(-)755.21
4215-Capital outlay on Water Supply and Sanitation	311.28	174.99	(-)136.29

Source Finance Accounts.

Increased expenditure under Capital Outlay on Power Projects was mainly due to more expenditure on works under MH-4801 Capital Outlay on Power Projects 01- Hydel Generation 800- Other Expenditure, 011-General, 2021- Generation with respect to previous year.

Increase in expenditure under Capital Outlay on Medical and Public Health was mainly due to increase in expenditure on New Medical Colleges, Implementation of Ayush and Strengthening of State Drug Regulatory Authority.

There was major decrease under Capital Outlay on other Rural Development Programme and Capital Outlay on Water Supply and Sanitation, the decrease was due to less expenditure on works under National Rural Drinking Water Programme (Jammu), Augmentation of Srinagar City Master Plan Water Supply compared to last year.

2.4.3.2 Quantum of loans disbursed and recovered

The Government has been providing Loans and Advances to many of the institutions/organisations, such as Co-operative Societies, Corporations, Companies and Government servants. ***Table 2.16*** presents the position of Loans and Advances outstanding as on 31 March 2022, interest receipts *vis-à-vis* interest payments during the year 2020-21 and 2021-22.

Table 2.16: Quantum of loans disbursed and recovered during the year 2020-21 and 2021-22

(₹ in crore)

Quantum of loans disbursed and recovered	2020-21	2021-22
Opening Balance of loans outstanding	35.80 (1,740.44)	95.51 (1,740.44)
Amount advanced during the year	61.64	73.77
Amount recovered during the year	1.93	1.03
Closing Balance of the loans outstanding	95.51 (1,740.44)	168.25 (1,740.44)
Net addition	59.71	72.74
Interest received on loans and Advances	Nil	0.13
Interest rate on Loans and Advances given by the Government.	Nil	Nil
Rate of Interest paid on the outstanding borrowings* of the Government	7.01	7.10
Difference between the rate of interest paid and interest received (*per cent*)	7.01	7.10

Source: Finance Accounts.
** Worked out on borrowings including Outstanding borrowing of erstwhile State which is to be apportioned between successor UTs.*

During the year 2021-22, the Government of Union Territory of Jammu and Kashmir disbursed loans and advances of ₹73.77 crore and recovered loans and advances amounting to ₹1.03 crore. Out of total loans disbursed during 2021-22 loans amounting to ₹40.00 crore was disbursed to J&K Road Transport Corporation Limited (JKRTC) which already had outstanding loans of ₹439.23 crore ending 31 March 2021 (₹383.73 crore received from erstwhile State and ₹55.50 crore from UT of J&K). As per last audited accounts for the year 2018-19, JKRTC booked losses of ₹117.62 crore. Recoveries of Loans and Advances are not forthcoming from loss making public sector undertakings. No assessment about potential recoverability of these loans has been made in the FRBM Statements. The Government of UT of Jammu and Kashmir had total outstanding loans and advances of ₹168.25 crore ending 31 March 2022. In addition, there were Loans and Advances of ₹1,740.44 crore disbursed by the Government of erstwhile State which were outstanding ending 30 October 2019 and were yet to be divided between Union Territory of Jammu and Kashmir and Union Territory of Ladakh. It was intimated in Exit Conference that the Government is looking forward to disinvestment in PSUs not doing well.

2.4.3.3 Capital blocked in incomplete works

As per information regarding incomplete works estimated cost more than rupee one crore furnished by the Government, 397 Capital Works having original estimated cost of ₹1,518.66 crore, taken up by four Departments (viz. Irrigation and Flood Control Department, Jammu (61 works) and Jal Shakti (PHE) Department Kashmir (216 work) Jal Shakti (PHE) Department Jammu (119

Works)) and Mechanical Engineering Department Kashmir (one) targeted to be completed during the period 2012-13 to 2014-15 and 2017-18 to 2021-22 were incomplete at the end of the year 2021-22. Cumulative expenditure of ₹1,095.52 crore incurred on these incomplete works got blocked.

Table 2.17: Age-wise Profile of incomplete projects as on 31 March 2022

(₹ in crore)

Target year of completion	No of incomplete works	Estimated Cost	Expenditure ending 31 March 2022
2012-13	01	1.57	3.52
2013-14	02	6.95	6.44
2014-15	09	49.42	43.25
2017-18	02	3.90	3.71

2.4.3.4 Implementation of Ujwal Discom Assurance Yojana (UDAY)

With the objective of ensuring financial turnaround of Power Distribution Companies (DISCOM), the Ministry of Power, Government of India (GoI) introduced (November 2015) the Ujwal Discom Assurance Yojana (UDAY) to improve the operational and financial efficiency of the State DISCOM. States were to takeover 75 *per cent* of DISCOM debt as on September 2015 over two years i.e. 50 *per cent* of DISCOM debt was to be taken over in 2015-16 and 25 *per cent* in 2016-17. In March 2016, the Ministry of Power, Government of India and Government of Jammu and Kashmir signed a Memorandum of Understanding (MOU) under the scheme UDAY-"Ujwal DISCOM Assurance Yojana" and borrowed ₹3,537.55 crore (₹2,140 crore in 2015-16 and ₹1,397.55 crore in 2016-17) from RBI by issue of Non Statutory Liquidity Ratio (SLR) bond at rates ranging between 7.07 *per cent* to 8.72 *per cent* with maturity date from March 2022 to October 2031. The function of electricity supply to consumers was being handled departmentally, so the money was utilised by the

Government to clear liabilities towards the Central Public Sector Undertakings (CPSU). The Government has to pay interest on the bonds and bonds will also be maturing every year from 2021-22 to 2031-32. During the year 2021-22, Government paid ₹284.12 crore towards interest on bonds issued under UDAY Scheme and also paid principal amounting to ₹214 crore.

2.4.4 Expenditure priorities

Enhancing human development levels requires the States to step up their expenditure on key social services like education, health etc. Fiscal priority is the Ratio of expenditure under a category to aggregate expenditure for a particular sector. The higher the ratio of these components to total expenditure, the quality of expenditure is considered to be better. The expenditure priority of Government of UT of Jammu and Kashmir during 2020-21 and 2021-22 is shown in ***Table 2.19.***

Table 2.19: Expenditure priority with regards to Health, Education, Capital expenditure etc.

(*In per cent*)

Year	TE/ GSDP	RE/ TE	CE/ TE	SSE/ TE	ESE/ TE	DE/ TE	Education/ TE	Health & FW/ TE
2020-21	37.11	83.33	16.67	34.77	23.59	58.37	16.28	7.85
2021-22	36.08	84.20	15.80	33.61	23.35	56.96	15.66	7.98

T.E: Total expenditure, RE: Revenue Expenditure, CE: Capital Outlay + Loans and Advances, SSE: Social Sector Expenditure, ESE: Economic Sector Expenditure and DE: Development Expenditure (Social Sector+ Economic Sector).

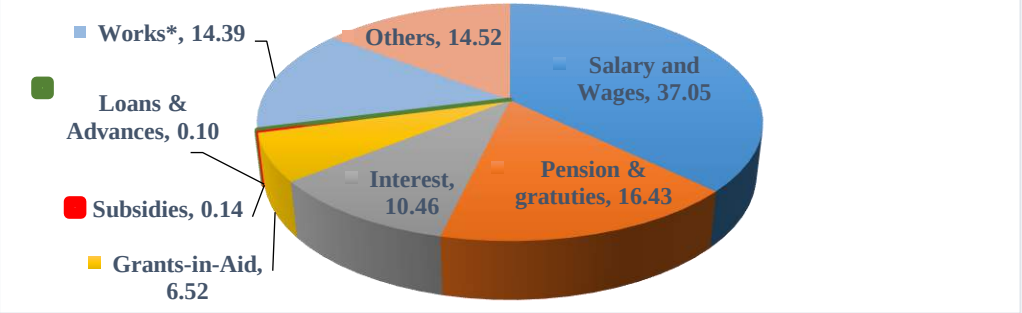
During the year 2021-22 the UTs expenditure on all above sectors increased but its percentage to total expenditure declined except for Revenue expenditure.

2.4.5 Object head wise Expenditure

Object head wise expenditure gives information about the object/ purpose of the expenditure.

Chart 2.9: Object head wise Expenditure

(In per cent)



*Major Works+ Minor Works+ Construction

Salary and wages of UT of Jammu and Kashmir accounted for 37.05 *per cent* and pension and gratuities accounted for 16.43 *per cent* of total expenditure. It

indicates that more than 53 *per cent* of total expenditure was on Salary & Wages and Pension & gratuities. Major, Minor Works and construction works together accounted for 14.39 *per cent* of total expenditure.

2.5 Public Account

Receipts and Disbursements in respect of certain transactions such as Small Savings, Provident Funds, Reserve Funds, Deposits, Suspense, Remittances etc., which do not form part of the Consolidated Fund, are kept in the Public Account set up under Section 68(1) of the Jammu & Kashmir Reorganisation Act 2019 and are not subject to vote by the Legislature. The Government acts as a banker in respect of these transactions. The balance after disbursements during the year is the fund available with the Government for use for various purposes.

2.5.1 Net Public Account Balances

In respect of sums credited to the Public Accounts of the Union Territory of Jammu and Kashmir, the UT Government acts as a trustee or banker and bears a fiduciary liability. Major constituents of the Public Accounts are State Provident Fund, Insurance/Pension Funds, Reserve Funds, Deposits and Advances. Besides, the Public Accounts section of the Government Accounts is also used to record transitory and pass through transactions under Suspense and Miscellaneous and Remittance heads before their final accounting to appropriate receipt or payment head of account, and also cash balance transactions. ***Table 2.20*** given below shows component-wise net balances in Public Account of the State/UT.

Table 2.20: Component-wise net balances in Public Account at close of the years

(₹ in crore)

Sector	Sub Sector	2020-21	2021-22
I. Small Savings, Provident Funds, etc.	Small Savings, Provident Funds, etc.	-2,185.97 (-27,161.62)	-1,591.41 (-27,161.62)

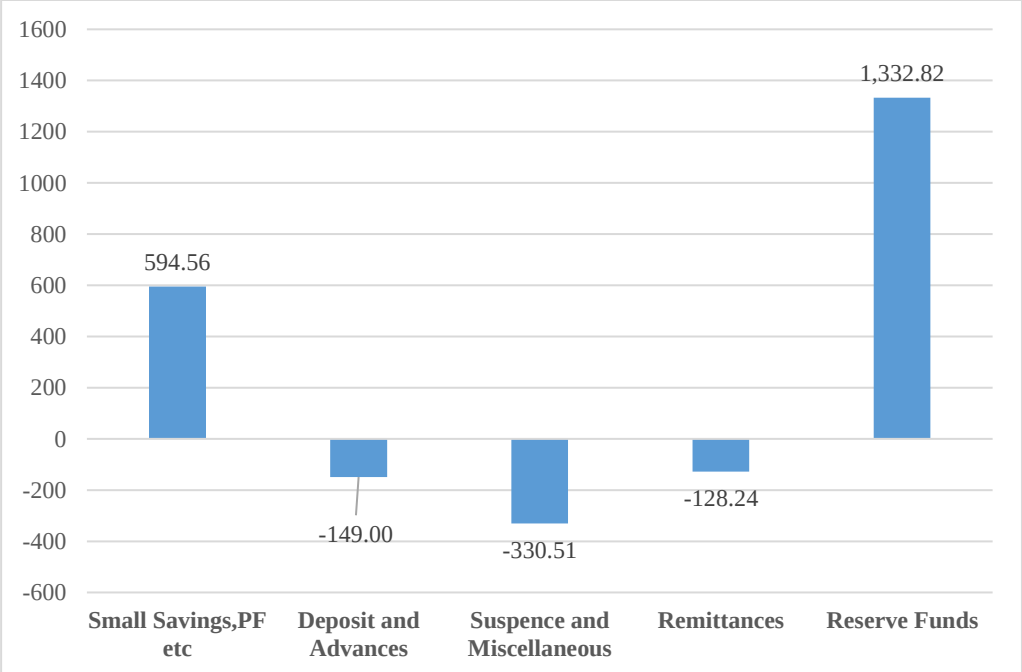
	(c) Other Accounts	-0.0002 (389.01)	-0.0002 (389.01)
M. Remittances	(a) Money Orders, and other Remittances	-632.57 (-2,856.74)	689.07 (-2,856.74)
	(b) Inter-Governmental Adjustment Account	-1.93 (9.26)	9.25 (9.26)
Total		**-5,068.27 (-38,972.05)**	**-3,748.64 (-38,972.05)**

Source: Finance Accounts.
Note: +ve denotes debit balance and –ve denotes credit balances

The total credit balance under Public Accounts of UT of Jammu and Kashmir was ₹3,748.64 crore ending 31 March 2022. There was also a credit balance of ₹38,972.05 crore ending 30 October 2019 under Public Account of erstwhile State of Jammu and Kashmir, which is yet to be bifurcated between Union Territory of Jammu and Kashmir and UT of Ladakh.

Chart 2.10: Yearly change in Balances in Public Account of UT of J&K during 2021-22

(₹ in crore)



During the year 2021-22, major change occurred in Small Savings, PF etc. and Remittances components of Public Account.

2.5.2 Reserve Funds

Reserve Funds are created for specific and defined purposes under the Public Accounts of the Government. These funds get contributions or grants from the Consolidated Fund of the UT of Jammu and Kashmir.The position of reserve funds in the accounts of UT of Jammu and Kashmir is shown in the Table below. The total accumulated balance at the end of 31 March 2022 in these funds was ₹920.13 crore out of which ₹873.86 crore (Credit) was under interest bearing Reserve Fund and ₹46.27 crore (Credit) under Non-Interest bearing Reserve Fund. There is cumulative aggregate balance in these funds at the end of 30 October 2019 amounting ₹2,806 crore of erstwhile State of Jammu and Kashmir which is yet to be bifurcated between two successor UTs.

Table 2.21: Closing Balances under Reserve Funds

(₹ in crore)

RESERVE FUNDS	2020-21	2021-22
Reserve Funds Bearing interest		
State Disaster Response Fund	16.32	109.29
State Compensatory Afforestation Fund	764.57	764.57
Total - Reserve Fund Bearing Interest	**780.89**	**873.86**

Sinking fund	55.63	100.63
Other Development and Welfare Funds	-90.38	-103.72
General Insurance Fund (Janta Insurance)	20.12	37.01
Guarantee Redemption Fund	2.00	4.00
Other Funds	2.87	8.35
Total - Reserve Funds Not Bearing interest	**(-)9.76**	**46.27**
Total -Reserve Funds	**771.13**	**920.13**

Source: Finance Accounts.

@ Balances ending 30 October 2019 of erstwhile State were not apportioned between the two UTs (UT of Jammu & Kashmir and UT of Ladakh). As such, opening balance of UT of Jammu & Kashmir has been taken as zero, due to which there were negative closing balances.

2.5.2.1 Consolidated Sinking Fund

No Consolidated Sinking Fund was separately created in Union Territory of Jammu and Kashmir after re-organisation of the erstwhile State of Jammu and Kashmir. The Government of erstwhile State of Jammu and Kashmir set up the Consolidated Sinking Fund for amortisation of loans in January 2012. According to the guidelines of the Fund, Government may contribute a minimum of 10 *per cent* of 0.5 *per cent* of the outstanding liabilities as at the end of 2010-11 every year beginning with the financial year 2011-12 upto 2021-22 to make it equal to 0.5 *per cent* of outstanding liabilities of 2010-11. In addition, contribution in respect of incremental liabilities as from year to year thereafter shall be made at 0.5 *per cent* of such incremental liabilities so as to reach the level deemed sufficient to meet the objective of the Scheme. The Government of Union

Territory continued with the existing Fund and in the year 2021-22, Government of Union Territory of Jammu and Kashmir contributed ₹45.00 crore. The amount required to be contributed to the Fund as per guidelines of 2012 could not be worked out as the available balance under the Fund amounting to ₹355.87 crore as on 30 October 2019 (pre re-organisation) is yet to be apportioned between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh. The total accumulation of the Fund (for the period 31 October 2019 to 31 March 2022- post re-organisation) was ₹100.63 crore as on 31 March 2022.

2.5.2.2 State Disaster Response Fund

In terms of guidelines on constitution and administration of the State Disaster Response Fund (under Major Head '8121- General & Other Reserve Funds' which is under interest bearing section), the Central and State Governments are required to contribute to the fund in the proportion of 90:10. On Re-organisation of the State of Jammu and Kashmir into two new Union Territories, the Union Territory of Jammu and Kashmir continued with the Fund. During the year 2021-22, an amount of ₹279.00 crore on account of 'Grants towards contribution to Union Territory Disaster Response Fund' was released by the Ministry of Home Affairs, Government of India. The Government of Union Territory of Jammu and Kashmir transferred ₹361.23 crore (Central share ₹279.00 crore, Union Territory share ₹31.00 crore, interest ₹49.61 crore and unspent balance ₹1.62 crore) to the Fund under Major Head 8121-122 SDRF. The contributions to the Fund, expenditure and the balance therein relating to Union Territory of Jammu and Kashmir during the year 2021-22 are as under:

Table 2.22: Receipts and Expenditure under State Disaster Response Fund

(₹ in crore)

Opening balance (1 April 2021)	Contribution by Centre	UT Share	Receipts under NDRF	Total receipts during the year	Amount set off (MH 2245-05)	Balance in the fund
16.32	279.00	31.00	Nil	361.23*	268.26	109.29

**Includes interest ₹ 49.61 crore and unspent balance ₹ 1.62 crore*

There was opening balance of ₹16.32 crore under the Fund as on 1 April 2021 and during the year 2021-22, Government of Union Territory of Jammu and Kashmir transferred ₹361.23 crore (Central Share ₹279.00 crore, Union Territory share ₹31.00 crore, interest ₹49.61 crore and unspent balance of ₹1.62 crore) and credited to the Fund. Expenditure of ₹268.26 crore was incurred during the year 2021-22 under Minor Head-101 Gratuitous Relief, leaving a balance of ₹109.29 crore as on 31 March 2022. The balance under the Fund has not been invested by the Government of UT of Jammu and Kashmir.

There was Gross balance of ₹1,271.48 crore under State Disaster Response Fund (SDRF) as on 30 October 2019 which is yet to be apportioned between the two new successor Union Territories *viz* Union Territory of Jammu and Kashmir and Union Territory of Ladakh. An amount of ₹10.86 crore stood invested from the Fund leaving net un-apportioned balance of ₹1,260.62 crore.

2.5.2.3 Guarantee Redemption Fund

The RBI guidelines of 2013 on the Guarantee Redemption Fund (GRF) mentions that it is desirable for the Government to contribute a minimum of one *per cent* of outstanding Guarantees at the beginning of the year in the year of constitution of the Fund, and thereafter a minimum of 0.50 *per cent* every year to achieve a corpus of minimum three to five *per cent* of the outstanding Guarantees of the previous year.

The Government of Union Territory of Jammu and Kashmir has not framed Guarantee Redemption Fund Act as on 31 March 2022. Further, the Guarantee Redemption Fund Scheme of erstwhile State of Jammu and Kashmir did not have any target for contribution to the Fund.

During the year, Government of UT of Jammu and Kashmir contributed only ₹2.00 crore to the Fund. The total accumulation of the Fund was ₹4.00 crore as on 31 March 2022 (₹2.00 crore as on 31 March 2021) for the period post re-organisation *viz.* 31 October 2019 to 31 March 2022. There was also balance of ₹20.42 crore in the Fund as on 30 October 2019 pre re-organisation yet to be apportioned between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh. The entire amount of ₹24.42 crore [₹4.00 crore relating to UT of Jammu and Kashmir (31 October 2019 to 31 March 2022) and ₹20.42 crore relating to erstwhile State of Jammu and Kashmir (upto 30 October 2019)] has not been invested by the Government.

2.5.2.4 Central Road Fund (CRF)

Government of India provides annual grants under the Central Road Fund (CRF) to the Government of Union Territory to incur expenditure on specific road projects. During the year 2021-22, the Government of Union Territory received grants of ₹320.78 crore towards CRF and transferred the entire amount to the Deposit Head- 8449 through expenditure Head-3054. The Government of Union Territory incurred expenditure of ₹30.98 crore from the Fund during the year leaving closing balance of ₹367.14 crore in the Fund as on 31 March 2022.

There was also a balance of ₹573.33 crore as on 30 October 2019 (pre-re-organisation) under the Fund, which is yet to be apportioned between the Union Territories viz. Union Territory of Jammu and Kashmir and Union Territory of Ladakh.

2.6 Debt Management

Debt management is the process of establishing and executing a strategy for managing the Government's debt in order to raise the required amount of funding, achieve its risk and cost objectives, and to meet any other sovereign debt management goals that the Government may have set through enactment or any other annual budget announcements.

2.6.1 Debt profile: Components

Total debt of the State/UT Government typically constitutes of Internal debt of the State/UT (market loans, ways and means advances from RBI, special securities issued to National Small Savings Fund and loans from financial institutions, etc.), loans and advances from the Central Government, and Public Account Liabilities. The components of the outstanding debt are given below.

Table 2.23: Component wise outstanding debt

(₹ in crore)

		2020-21	**2021-22**
Outstanding Overall Debt*		14,880.48	23,390.12
Public Debt	**Internal debt**	10,562.21	19,306.08
	Debt from GoI*	5.64	-113.54
Liabilities on Public Account		4,312.63	4,197.58
Off budget borrowing		-	12,444.60
Gross State Domestic Product (GSDP)		1,70,201	1,95,118
Debt/GSDP (*per cent*)		8.74	11.99
Total Debt Receipts		**52,919.18**	**64,784.48**
Total Debt Repayments		**41,439.26**	**52,429.36**
Total Debt Available		**11,479.92**	**12,355.12**
Debt Repayments/Debt Receipts (percentage)		**78.31**	**80.93**

Source: Finance Accounts

** Exclude ₹2,099.80 crore and ₹3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall received during 2020 -21 and 2021-22 respectively.*

Note: Liabilities on Public Account is excluding liabilities under Suspense and Misc. and Remittance Head

The overall outstanding debt with repayment liability is ₹23,390.12 crore. During 2021-22, debt repayment was 80.93 *per cent* of total debt receipts resulting in only ₹12,355.12 crore (19.07 *per cent*) of total debt receipts was available with the Government. During 2021-22, the increase in debt receipts was by 22 *per cent* whereas net debt available improved by 7.06 *per cent* with respect to 2020-21. Taking into account off budget borrowings, the debt to GSDP percentage of UT will increase from 11.99 *per cent* to 18.37 *per cent.*

Chart 2.11: Breakup of outstanding overall debt of UT of Jammu and Kashmir at the end of the year 2021-22

(₹ in crore)

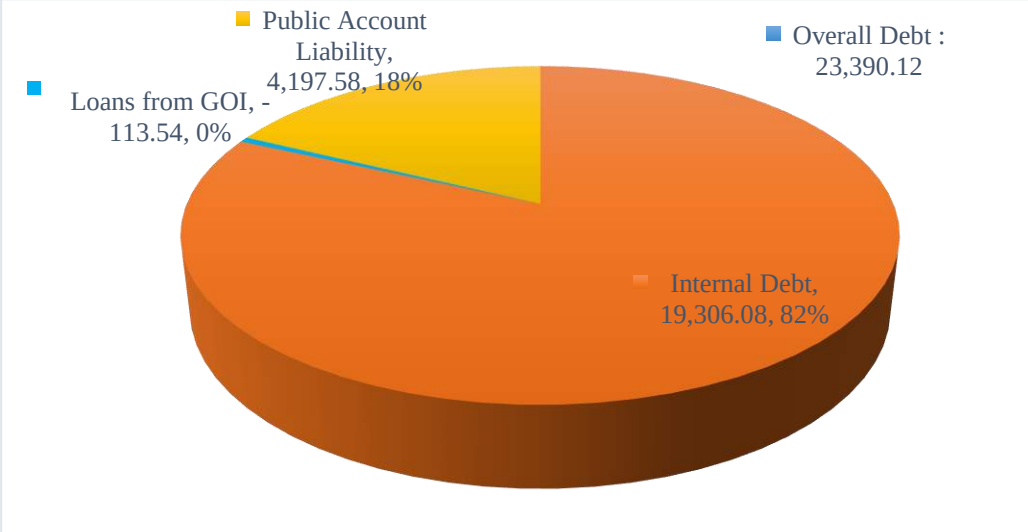

Chart 2.12: Internal debt taken vis-a-vis repaid

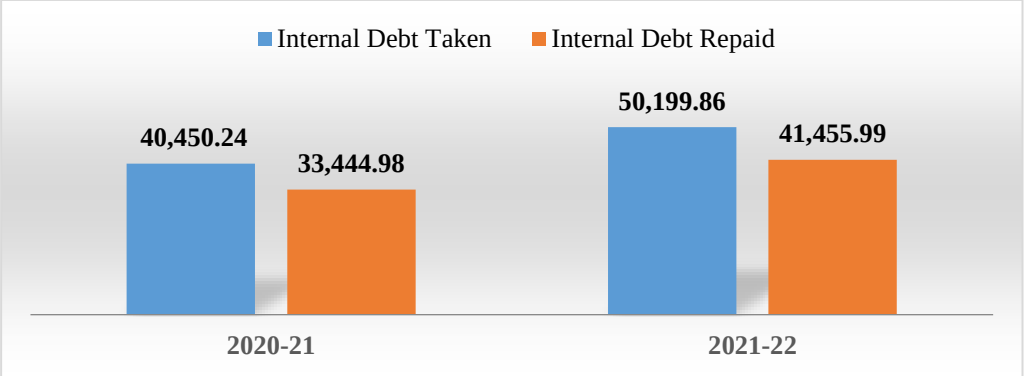
(₹ in crore)



The percentage of internal debt repaid to internal debt taken was 82.58 *per cent* during the year 2021-22.

Table 2.24: Components of fiscal deficit and its financing pattern

(₹ in crore)

Particulars		**2020-21**	**2021-22**
Composition of Fiscal Deficit		10,693.36	11,150.61
1	Revenue Deficit	-138.27	-30.83
2	Net Capital Expenditure	-10,470.38	-11047.04
3	Net Loans and Advances	-59.71	-72.74
4	Appropriation to Contingency Fund	-25.00	0
Financing Pattern of Fiscal Deficit			
1	Market Borrowings	7,508.66	4,088.00
2	Loans from GoI*	2,164.35	3,726.31
3	Special Securities issued to NSSF	-348.65	4,651.36
4	Loans from Financial Institutions	-154.75	4.52

Particulars		2020-21	2021-22

Source: Finance Accounts
** Includes ₹2,099.80 crore and ₹3,845.49 crore as back-to-back loans from GoI during 2020-21 and 2021-22 respectively in lieu of GST Compensation shortfall.*

During 2021-22, Union Territory of Jammu and Kashmir has fiscal deficit of ₹11,150.61 crore. Special Securities issued to NSSF, Market borrowings and borrowings from Government of India were major sources to meet fiscal deficit. Small Savings, PF etc. contributed to meet fiscal deficit in 2020-21, but this year Government had to arrange funds for payments of Small Savings, PF etc.

Table 2.25: Receipts and disbursements under components financing the fiscal deficit (2021-22)

(₹ in crore)

Particulars		Receipt	Disbursement	Net
1	Market Borrowings	44,665.03	40,577.03	4,088.00

2.7 Debt Analysis

The position of outstanding public debt and its comparison with other fiscal aggregates are shown below.

Table 2.26: Position of Outstanding Public debt

Debt Sustainability Indicators	2020-21	2021-22
Outstanding Public Debt[*] (₹in crore)	10,567.85	19,192.54
GSDP (₹in crore)	1,70,201	1,95,118
Rate of Growth of GSDP	3.70	14.64
Public Debt/GSDP	6.21	9.84
Average interest Rate of Outstanding Public Debt@ (*per cent)* (interest paid/OB of Public Debt + CB of Public Debt/2)	7.82	7.94
Percentage of Interest payment on Public Debt to Revenue Receipt	8.16	8.78
Percentage of Public Debt Repayment to Public Debt Receipt	78.54	76.93
Net Public Debt available to the UT[#] (₹in crore)	4,887.23	7,267.25
Net Public Debt available as *per cent* to Public Debt Receipts	11.44	13.45

Source Finance Accounts

[*]Outstanding Public Debt is the sum of outstanding balances under the heads 6003-Internal Debt and 6004- Loans and Advances from the Central Government. It excludes GST compensation of ₹₹2,099.80 crore and ₹3,845.49 crore received as back-to-back loans under debt receipts from Department of Expenditure, GoI during 2020-21 and 2021-22 respectively. The back-to-back loans would not be treated as debt of the UT for any norms which may be prescribed by the Finance Commission, etc.

@ Public debt (including outstanding public debt amounting ₹46,666.22 crore of erstwhile State) to GSDP.

[#]Net debt available to the UT Government is calculated as excess of Public debt receipts over Public debt repayment and interest payment on Public Debt.

Some of the indicators of debt sustainability are as under.

a) Net Public Debt available during the year 2021-22 increased from ₹4,887.23 crore to ₹7,267.25 crore and net public debt available has improved from 11.44 *per cent* in 2020-21 to 13.45 *per cent* in 2021-22.

b) Public Debt Repayments/Public Debt Receipts: Ratio of public debt repayment to public debt receipt has improved from 78.54 *per cent* in 2020-21 to 76.93 *per cent* in 2021-22. It also indicates that 23.07 *per cent* of public debt receipt was available with the Government after repayment of earlier debts.

c) Percentage of Interest payment on Public debt to total Revenue Receipts increased from 8.16 *per cent* in year 2020-21 to 8.78 *per cent* during 2021-22.

d) There is outstanding public debt amounting to ₹46,666.22 crore of erstwhile State, which is yet to be apportioned between two UTs.

2.7.1 Utilisation of borrowed funds

Borrowed funds should ideally be used to fund capital creation and developmental activities. Using borrowed funds for meeting current consumption and repayment of interest on outstanding loans is not sustainable.

Table 2.27: Utilisation of borrowed funds during 2020-21 and 2021-22

(₹ in crore)

Year	1	2020-21	2021-22
Total Borrowings*	**2**	42,732.93	54,045.35
Repayment of earlier borrowings (Principal) (percentage)	**3**	33,563.32 (78.54)	41,575.17 (76.93)
Balance borrowings for capital expenditure (percentage)	**4**	9,169.61 (21.46)	11,047.04 (20.44)
Balance of borrowing for net disbursement of loans and advances (percentage)	**5**	NA	72.74 (0.13)
Portion of Revenue Expenditure met out of net available borrowings (percentage)	**6=2-3-4-5**	NA	1,350.40 (2.50)

Source: Finance Accounts.
** Includes ₹ 2,099.80 crore and ₹3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall during 2020-21 and 2021-22 respectively.*

During 2021-22, 76.93 *per cent* of borrowings were utilised towards repayment of earlier loans/borrowed funds resulting just 23.07 *per cent* of borrowed funds remaining available for development works. Out of that 20.57 *per cent* were utilised towards Capital Expenditure and disbursement of loans and advance and amount of ₹1,350.40 crore (2.50 *per cent*) was expended on revenue nature of expenditure.

2.7.2 Status of Guarantees – Contingent Liabilities

As at the end of the year 2021-22 (31 October 2019 to 31 March 2022) post re-organisation cumulative amount guaranteed by the Government of Union Territory is ₹12,328.80 crore (under reconciliation with Government of Union Territory of Jammu and Kashmir). Further, there is also outstanding Guarantees of ₹452.65 crore [revised data received from Principal Accountant General (Audit), Jammu and Kashmir] given by the erstwhile State of Jammu and Kashmir (ending 30 October 2019 pre re-organisation) which is yet to be apportioned between successor Union Territories of Jammu and Kashmir and Ladakh. No Guarantee Commission/ fee was received by Government of Union Territory of Jammu and Kashmir during 2021-22. J&K FRBM Act limit the amount of annual incremental risk weighted guarantees to 75 *per cent* of the Total Revenue Receipts in the year preceding the current year or at 7.5 *per cent* of GSDP of the year preceding the current year, whichever is lower. Outstanding Guarantee of UT during 2021-22 was within both these limit of ₹12,765 crore and ₹39,372 crore.

2.7.3 Management of Cash Balances

As per an agreement with the Reserve Bank of India, UT Governments have to maintain a minimum daily cash balance with the Bank. If the balance falls below

the agreed minimum amount on any day, the deficiency is made good by taking ordinary Ways and Means Advances (WMA)/Special Ways and Means Advances (SWMA)/Overdrafts (OD) from time to time. The limit for ordinary WMA to the State Government are revised by the RBI from time to time.

The Government of Union Territory of Jammu and Kashmir maintained minimum cash balance of ₹1.14 crore on 62 days without resorting to Normal Ways and Means Advances and Overdraft and availed Normal Ways and Means Advances on 125 days and on 178 days it had to avail Overdraft too from RBI. The balance at the end of 31 March 2022 was ₹499.54 crore under Normal Ways and Means Advances.

There was also a balance of ₹692.11 crore under Normal Ways and Means Advances as on 30 October 2019 which is yet to be apportioned between the successor Union Territories *viz.* Union Territory of Jammu & Kashmir and Union Territory of Ladakh.

Union Territory Government invests its surplus cash balance in short and long-term GoI Securities and Treasury Bills. The profits derived from such investments are to be credited as receipts under the head '0049-Interest Receipts'. Position of cash balance and their investment is as under.

Table 2.28: Cash Balances and their investment

(₹ in crore)

	Opening balance on 31 March 2021	**Closing balance on 31 March 2022**
A. General Cash Balance		
Cash in treasuries	0.00	0.00
Deposits with Reserve Bank of India	1,447.69	1,447.65
Deposits with J&K Bank and other Banks	0.00	0.00
Remittances in transit – Local	0.00	0.00
Total	**1,447.69**	**1,447.65**
Investments held in Cash Balance investment account	0.00	0.00
Total (A)	**1,447.69**	**1,447.65**
B. Other Cash Balances and Investments		
Cash with departmental officers viz., Public Works, Forest Officers	0.00	0.00
Permanent advances for contingent expenditure with department officers	0.00	0.00
Investment in earmarked funds	0.00	0.00
Total (B)	**0.00**	**0.00**
Total (A + B)	**1,447.69**	**1,447.65**
Interest realised	**0.11**	**Nil**

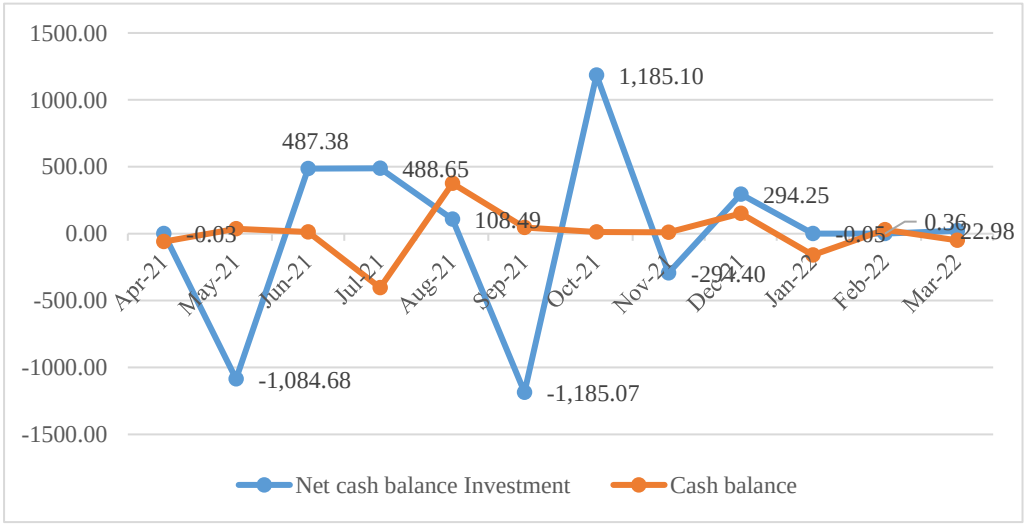
Source: Finance Accounts.

The Cash balance as on 31 March 2022 as per the record of Principal Accountant General was ₹1,447.65 crore (Debit) and that reported by the Reserve Bank of India (RBI)[1] was ₹1,445.73 crore (Credit). There was a net difference of ₹1.92 crore (Debit), mainly due to non-reconciliation by Government of UT of Jammu and Kashmir with RBI/Agency Bank. The difference is under reconciliation.

No amount was held in Cash Balance Investment Account by the Government of UT of Jammu and Kashmir at the close of the year 2021-22. There was no amount outstanding under Cash balance investment account. However, an amount of ₹383.92 crore was held in the Cash Balance Investment Account at the end of 30 October 2019, which is yet to be to be apportioned between UT of J&K and UT of Ladakh. No interest was earned on cash balance investment during 2021-22.

Chart 2.13: Month wise movement of Cash Balances and net cash balance investments during the year

(₹ in crore)



Source: Finance Accounts.

2.8 Conclusions

- Revenue Expenditure constituted of 84.20 *per cent* of Total Expenditure.
- Capital Outlay of ₹11,047.04 crore constituted 15.69 *per cent* of Total expenditure.
- Outstanding Public debt of UT of Jammu and Kashmir at the end of 31 March 2022 was ₹19,192.54 crore and there is also an amount of

[1] worked out by Principal Accountant General (A&E) by excluding transactions pertaining to the UT of Ladakh for the period 31 October 2019 to 31 March 2020, during which a single account was maintained by RBI in respect of both UTs (UT of J&K and UT of Ladakh)

₹46,666.22 crore at the end of 30 October 2019 which is to be bifurcated between two Union Territories.

- The Union Territory of Jammu and Kashmir had outstanding loans of ₹168.25 crore disbursed up to ending 31 March 2022. In addition to above, the Erstwhile State had outstanding loans amounting ₹1,740.43 crore disbursed up to ending 30 October 2019 which are to be distributed between two Union Territories.
- During 2021-22, the balance under reserve funds of UT of Jammu and Kashmir was ₹920.13 crore. There was also balance under Reserve funds at the end of 30 October 2019 amounting to ₹2,806 crore, which is to be bifurcated between two Union Territories.

2.9 Recommendations

1. The Government should explore ways to minimize its committed expenditure, so that more funds could be made available for development expenditure.
2. As recovery of loans advanced by the Government has been poor, the Government may consider treating loans and advances as grants and booking them as Revenue Expenditure for ensuring that accounts reflects the correct position.

Chapter-III

Budgetary Management

CHAPTER-III

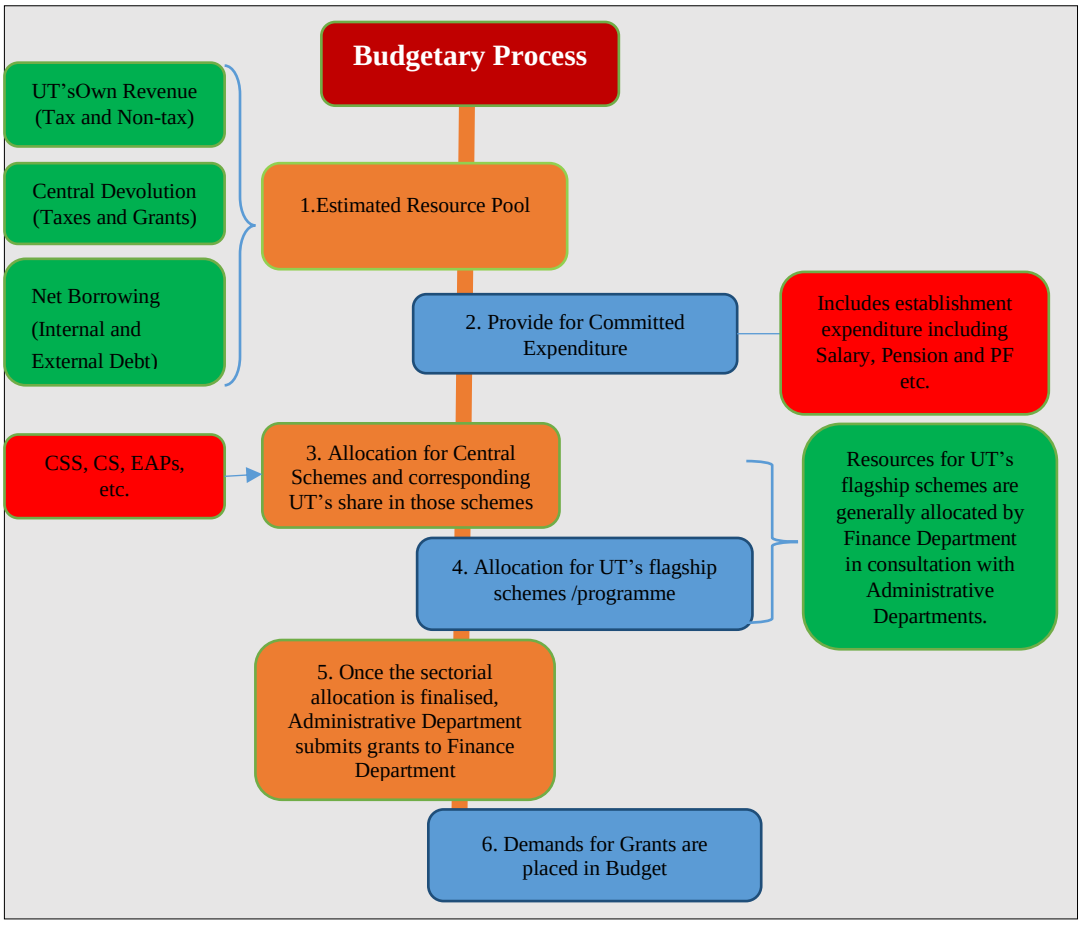
BUDGETARY MANAGEMENT

3.1 Budget Process

The annual exercise of budgeting is a means for detailing the roadmap for efficient use of public resources. Appropriation Accounts are accounts of the expenditure, voted and *charged*, of the Government for each financial year compared with the amounts of voted grants and appropriations *charged* for different purposes as specified in the schedule appended to the Appropriation Acts passed under Section 43 and 44 of the Jammu and Kashmir Reorganisation Act 2019.

Appropriation Accounts, thus, facilitate management of finances and monitoring of budgetary provisions and are, therefore, complementary to Finance Accounts. Budget glossary is given in ***Appendix 6.*** A typical budget preparation process is given in ***Chart 3.1***.

Chart 3.1: Budget Process

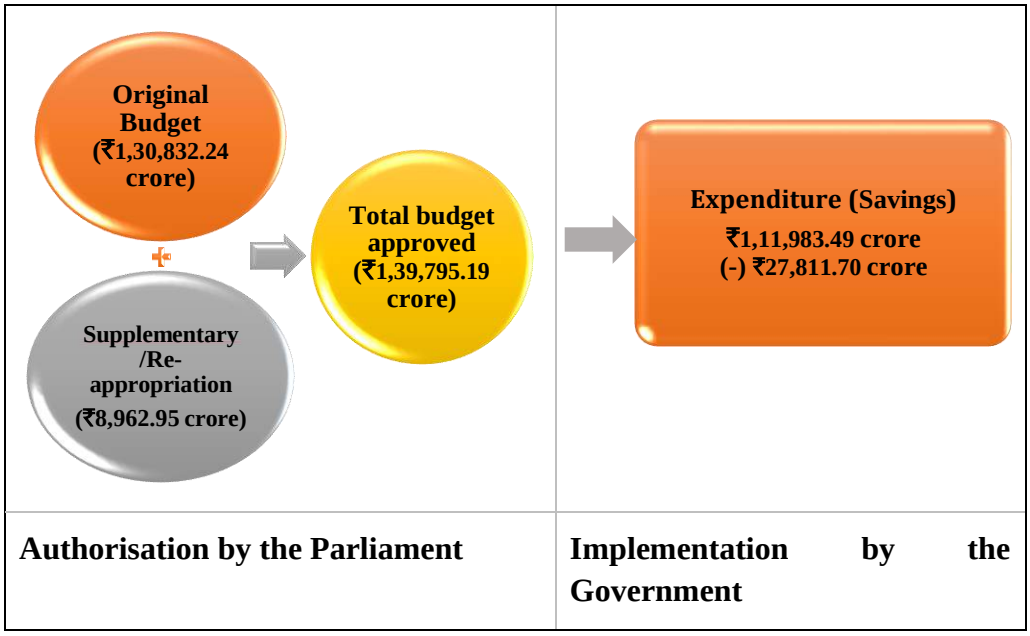


CSS: Centrally Sponsored Schemes; CS: Central Schemes.

After creation of Union Territory of Jammu and Kashmir by virtue of Jammu and Kashmir Reorganisation Act, 2019 w.e.f. 31 October, 2019, the Union

Territory of Jammu and Kashmir continues to be under the President's rule vide Gazette Notification S.O. 3937 (E), dated 31 October, 2019. The powers of the legislature of the Union Territory of J&K are exercised by or under the authority of the Parliament.The various components of budget 2021-22 are depicted in ***Chart 3.2***.

Chart 3.2: Components of Budget



Source: Based on the procedure prescribed in Budget Manual and Appropriation Accounts

3.1.1 Summary of total provisions, actual disbursements and savings during 2021-22

A summarised position of total budget provision, disbursement and saving/excess with its further bifurcation into voted/*charged* during 2021-22 is as under:

Table 3.1: Budget provision, disbursement and saving/excess during 2021-22

(₹ in crore)

Total Budget provision		Disbursements		Saving(-)/Excess(+)	
Voted	***Charged***	**Voted**	***Charged***	**Voted**	***Charged***
91,172.23	48,622.96	62,966.45	49,017.04	(-)28,205.78	(+)394.08

Source: Appropriation Accounts

During 2021-22, ₹28,205.78 crore (31 *per cent*) of savings was noticed in the voted section whereas excess expenditure of ₹394.08 crore (one *per cent*) was incurred in the *charged* section, as shown in the table above.

3.1.2 Charged and Voted disbursements

Break-up of total disbursement into *charged* and voted during 2020-21 and 2021-22 is given in the table below:

Table 3.2: Disbursement and Saving/Excess during 2020-21 and 2021-22

(₹ in crore)

Year	Disbursements		Saving(-)/ Excess(+)	
	Voted	***Charged***	**Voted**	***Charged***
2020-21	56,782.00	40,004.29	(-)43,472.92	(+)6,663.48
2021-22	62,966.45	49,017.04	(-)28,205.78	(+)394.08

Source: Appropriation Accounts.

As can be seen from the above table, the savings in the voted section have decreased from ₹43,472.92 crore in 2020-21 to ₹28,205.78 crore in the year 2021-22. Similarly, excesses have decreased from ₹6,663.48 crore in 2020-21 to ₹394.08 crore during the year 2021-22.

3.2 Appropriation Accounts

Audit of appropriations by the CAG seeks to ascertain whether the expenditure actually incurred under various grants is in accordance with the authorisation given under the Appropriation Act and that the expenditure required to be *charged* under the provisions is so *charged*. It also ascertains whether the expenditure incurred is in conformity with the laws, relevant rules, regulations and instructions.

3.3 Comments on Integrity of Budgetary and Accounting Process

3.3.1 Expenditure incurred without authority of law

No money shall be withdrawn from the Consolidated Fund of the Union Territory except under appropriation made by law passed in accordance with the provisions of section 43 of Jammu and Kashmir Reorganisation Act 2019.

An amount of ₹21,646.17 crore was incurred under 33 schemes/ Sub Heads in 10 Grants (***Appendix 3.1***) without Budgetary Provisions during 2021-22 which needs to be regularised.

3.3.2 Classification of expenditure of Revenue nature as Capital expenditure or vice-versa

Classification of expenditure of revenue nature as capital expenditure or vice-versa, results in overstatement/understatement of revenue expenditure and revenue deficit/surplus.

During 2021-22, a sum of ₹158.76 crore of Revenue expenditure as detailed below was disbursed under Capital Major Heads of expenditure, thereby, resulting in overstatement of Capital Expenditure and understatement of

Revenue Expenditure and Revenue deficit to the extent of ₹158.76 crore. This includes Grant-in-aid of ₹63.60 crore under the schemes National Horticulture Mission, National Rural Livelihood Mission, Strengthening of State Drug Regulatory System, Implementation of AYUSH and Prevention and Control of Diseases. Besides this, there was mis-classification of subsidy amount of ₹95.16 crore for the schemes Replacement of Old Fleet, Soil Survey, Pradhan Mantri Krishi Sinchayi Yojna and National Horticulture Mission.

Table 3.3: Classification of expenditure of Revenue nature as Capital expenditure

Sl. No.	Major Head of Account	Type of Misclassification	Amount *(₹ in crore)*
1	4210,4515 and 4401	Grant-in-aid classified as Capital Expenditure	63.60
3	4401,4402 and 5055	Subsidy booked as Capital Expenditure	95.16
		Total	**158.76**

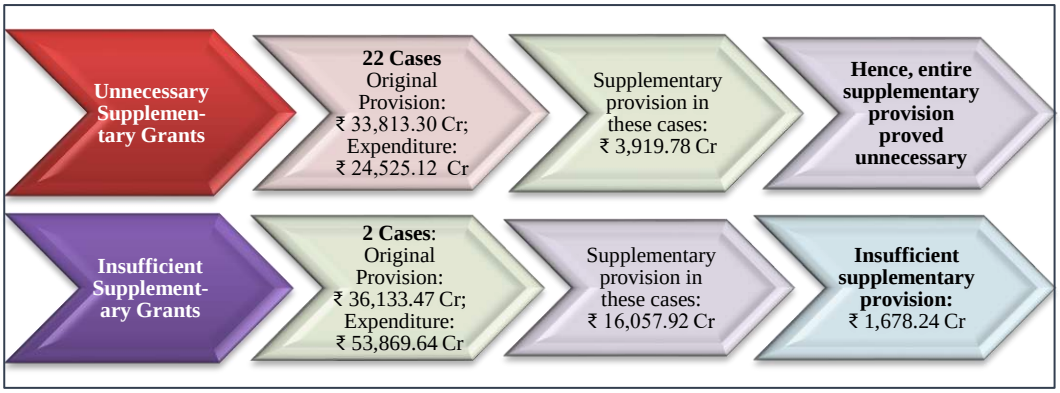
Source: Finance Accounts 2021-22.

3.3.3 Unnecessary or insufficient Supplementary Grants

As per section 44 of Jammu and Kashmir Reorganisation Act 2019, a Supplementary or Additional Grant over the provision made by the Appropriation Act for the year, can be made during the current financial year.

Supplementary provisions aggregating ₹3,919.78 crore obtained in 22 cases, involving ₹50 lakh or more in each case during the year proved unnecessary as the expenditure did not come up to the level of the original provisions as detailed in ***Appendix 3.2.*** On the other hand, in grant 08-Finance Department, supplementary grant of ₹16,057.92 crore was not adequate to meet the requirement ***(Chart 3.3)***.

Chart 3.3: Unnecessary and Insufficient Supplementary Provisions



Source: Appropriation Accounts

The Government may consider preparing realistic budget estimates to avoid large savings and supplementary provisions.

3.4 Substantial Savings

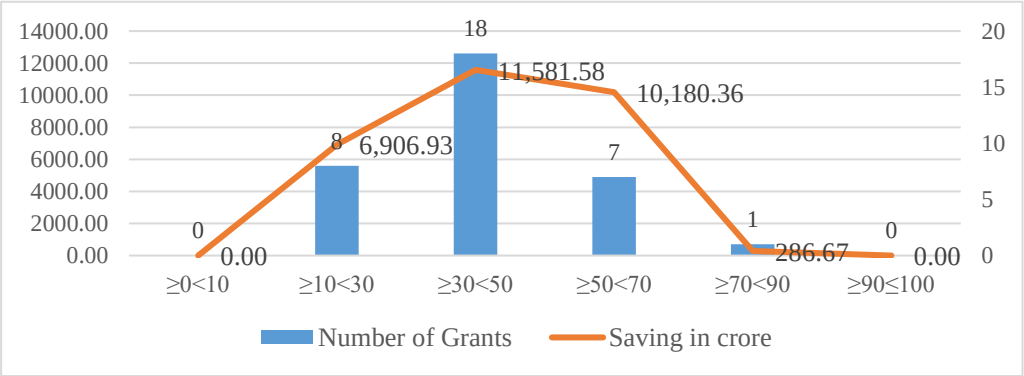
As per the Jammu and Kashmir Budget Manual, the spending departments are required to surrender the grants/appropriations or portion thereof to the Finance Department as and when the savings are anticipated. Out of the 35 grants, except in Grant no. 8- Finance Department, there were savings in the remaining 34 Grants. Out of these 34 grants, there were 33 grants in which savings of ₹10 crore and above had occurred as on 31st March 2022. In case of 26 grants, the savings of ₹100 crore and above were noticed, with the percentage savings ranging between 14 *per cent* and 86 *per cent*. However, no surrender in anticipation of savings was made by the concerned departments. The savings in these cases was ₹28,504.50 crore. Relevant details are indicated in ***Appendix 3.3***. The above savings also include huge savings of ₹100 crore and above by the departments under Capital Section in 22 grants amounting to ₹18,723.63 crore. Savings under Capital Section ranged between 42 *per cent* and 98 *per cent* of the total appropriation of the grant during 2021-22. The savings under Capital section indicate that the Government could not utilise the funds earmarked for developmental activities/creation of assets.

3.4.1 Percentage of utilisation of provision under each Grant

Audit examination of utilisation of grants shows that the percentage savings ranged between 10 *per cent* to 30 *per cent* amounting to ₹6,906.93 crore in eight grants, 30 to 50 *per cent* amounting to ₹11,581.58 crore in 18 grants, 50 to 70 *per cent* amounting ₹10,180.36 crore in seven grants and 70 *per cent* to 90 *per cent* amounting to ₹286.67 crore in one grant. In the remaining one grant (Grant No. 08- Finance Department), there was over utilisation of two *per cent* resulting in excess over provisions during 2021-22 as detailed in ***Appendix 3.4.*** Savings (under utilisation) by these departments is indicative of non-prioritising of schemes/works by the Government or inefficiency in implementation of schemes by the department concerned/implementing agencies. Over utilisation of grant indicates the incurring of excess expenditure over the budget provisions by the department during the period, which needs to be regularised, as per the existing rules and regulations.

Some of the departments wherein the savings in the respective grants were more than 50 *per cent* were Rural Development Department (₹3,196.11 crore, 64 *per cent*), Housing and Urban Development Department (₹2,382.21 crore, 63 *per cent*), Public Health Engineering Department (₹2,063.12 crore, 53 *per cent*) and Planning Department (₹1,238.81 crore, 68 *per cent*), which indicate that the Government could not utilise the funds earmarked for the planned purposes.

Chart 3.4: Distribution of number of Grants/Appropriations grouped by the percentage of savings



3.5 Grants with Nil expenditure

Entire budget provision of ₹5,092.25 crore under 28 Grants involving 123 number of schemes as detailed in ***Appendix 3.5*** which included the developmental schemes under Public Health Engineering, Irrigation and Flood Control, Housing and Urban Development, Power Development and Planning Department remained unutilised during the year resulting in denial of intended benefits to the general public. The provision could have been re-appropriated to the schemes/works where there was excess expenditure over the provision.

3.5.1 Excess over provisions requiring regularisation

As per Section 43 of Jammu and Kashmir Reorganisation Act 2019, no money shall be withdrawn from the Consolidated Fund of the Union Territory except under appropriation made by law passed in accordance with the provisions of this section.

Total excess expenditure amounting to ₹13,019.16 crore was incurred by the UT Government during the period 31 October 2019 to 31 March 2022 which includes excess expenditure amounting to ₹2,049.26 crore as detailed in ***Appendix 3.6*** under Revenue Voted, Revenue *Charged* and Capital *charged* section in Grant No. 08 (Finance Department) and Revenue Voted section in Grant No. 16-Public Works Department incurred by the Government during 2021-22. Excess expenditure remaining un-regularised for extended period vitiates the system of budgetary and financial control and encourages financial indiscipline in management of public resources.

3.5.2 Persistent excesses in one Grant

The details of persistent excess expenditure during the period 2020-21 and 2021-22 are mentioned below.

Table 3.4: Details of excess expenditure noticed in one Grant during 2020-21 to 2021-22

(₹ in crore)

Description of Grant/Appropriation	2020-21	2021-22
Grant No. 08- Finance Department		
Capital *Charged*

Expenditure	33,563.32	41,575.17
Excess	7,094.29	154.97
Revenue *Charged*		
Total Grant	0.00	7,093.67
Expenditure	0.00	7,360.31
Excess	0.00	266.64
Revenue Voted		
Total Grant	0.00	10,771.20
Expenditure	0.00	12,294.47
Excess	0.00	1,523.28
Total	**7,094.29**	**1,944.89**

Source: Appropriation Accounts of respective years.

As is evident from the above table, persistent excesses were noticed in Grant number 08-Finance Department. The excess was mainly under Major Head 2071-Pension and Other Retirement Benefits in Revenue Voted section during 2021-22 and under Major Head 6003-Internal Debt of the State Government in Capital *Charged* section during 2020-21. This is indicative of the fact that the proper budget exercise is not being carried out as was required under Paragraph 6.2.4 of Government of Jammu and Kashmir Budget Manual.

3.5.3 Regularisation of excess expenditure of previous financial years pertaining to erstwhile State of Jammu and Kashmir

As the Appropriation Accounts of 1980-81 onwards had not been discussed in PAC, the excess expenditure aggregating ₹1,24,004.41 crore for the years 1980-81 to 2019-20 (1 April 2019 to 30 October 2019) pertaining to erstwhile State of Jammu and Kashmir, as detailed in ***Appendix 3.7*** is yet to be regularised. Excess expenditure remaining un-regularised for such extended period vitiates the system of budgetary and financial control and encourages financial indiscipline in management of public resources.

3.6 Grants-in-Aid for creation of Capital Assets

Grants-in-aid are payments in the nature of assistance, donations or contributions made by one Government to another Government, body, institution or individual. Grants-in-aid are given for specified purpose of supporting an institution including construction of assets.

As per IGAS 2, Grant-in-aid disbursed by a grantor to a grantee shall be classified and accounted for as revenue expenditure irrespective of the purpose for which the funds disbursed as Grants-in-aid are to be spent by the grantee,

except in cases where it has been specifically authorised by President on the advice of the Comptroller and Auditor General of India.It has been seen that Grants-in-aid for capital assets are sometimes classified as capital expenditure. This leads to understatement of revenue deficit. It was noticed that there was booking of GIA as Capital expenditure during the year 2020-21 to 2021-22 as shown in the table below.

Table 3.5: Extent of classification of GIA as Capital Expenditure

(₹ in crore)

Item	2020-21	2021-22
GIA booked as Capital Expenditure	61.59	63.60
Total Capital Expenditure	10,470.38	11,047.04
Share of GIA in Capital Expenditure (*in per cent*)	0.59	0.58
Revenue Deficit (-)/ Revenue Surplus (+)	(-)138.27	(-)30.83
Revenue Deficit (-) /Revenue Surplus (+), if expenditure from GIA is treated as Revenue Expenditure	(-)199.86	(-)94.43

Source: Finance Accounts (NTA) of respective years

The Union Territory Government has continued to book Grants-in-aid as capital expenditure over the period 2020-21 to 2021-22. This has resulted in understatement of revenue deficit to the tune of ₹61.59 crore and ₹63.60 crore during 2020-21 and 2021-22 respectively.

3.7 Comments on effectiveness of Budgetary and Accounting Process

3.7.1 Budget projection and gap between expectation and actual

The total provision for expenditure during 2021-22 was ₹1,39,795.19 crore. The actual expenditure during the year was ₹1,11,983.49 crore (80 *per cent)*. This resulted in savings of ₹27,811.70 crore during 2021-22. The summarised position of actual expenditure during 2021-22 against 35 grants/ appropriations is given below:

Table 3.6: Summarised position of actual expenditure *vis-à-vis* Budget (Original/Supplementary) provisions during 2021-22

(₹ in crore)

	Nature of expenditure	Original Grant/App.	Supplementary Grant/App.	Total	Actual expenditure	Net Saving (-) Excess(+)	Surrender during March 2022

Source: Appropriation Accounts.
 # Annual Financial Statement -2021-22 (St.-5)
** Finance Account Vol-1 (St.-7)*

The savings in grants is indicative of over budgeting which is as much a financial irregularity as excess in expenditure in terms of Rule 6.2.4 of Jammu and Kashmir Budget Manual. Besides, excessive savings in some departments during the period is indicative of deprivation of other departments of the funds which they could have utilised and also non-surrender of funds (savings) is in contravention to the instructions of the Jammu and Kashmir Budget Manual.

3.7.2 Rush of expenditure

Rule 62 (3) of the General Financial Rules provides that rush of expenditure particularly in the closing months of the financial year is regarded as a breach of financial propriety and should be avoided. Contrary to this, expenditure exceeding 50 *per cent* of the total expenditure for the year 2021-22 was incurred in March 2022 in respect of 25 Major Heads under 17 Grants and the percentage of expenditure ranged between 50 *per cent* and 100 *per cent*, as detailed in ***Appendix 3.8***.

The monthly pace of expenditure was not uniform, as 83 *per cent* of expenditure under 25 Major Heads was incurred in the last quarter of the financial year 2021-22.

3.8 Review of selected Grants

A review of Budgetary Procedure and control over expenditure in test checked two grants (Grant No. 35: Science and Technology Department) and (Grant No. 30: Tribal Affairs Department) out of 35 grants was undertaken and the audit observations are given in the following paragraphs.

3.8.1 Grant No. 35: Science and Technology Department

Against total allocation of ₹121.76 crore under the Grant, the total expenditure booked is ₹62.45 crore only. An amount of ₹59.31 crore (49 *per cent*) remained unspent during the year which indicates preparation of unrealistic budget estimates during 2021-22 by the Department. Saving of ₹4.36 crore in Revenue Voted and ₹54.95 crore in Capital Voted sections was noticed. No portion of saving of ₹59.31 crore was anticipated and surrendered. Major Head/Section-wise breakup is given as below:

Table 3.7: Budget provision under Revenue and Capital sections

(₹ in crore)

S. No	Revenue /Capital	Major Head	Original Grant	Supplementary Grant	Total	Expenditure Booked	Saving (-) (percentage)
1	**Revenue (Voted)**	3435	19.01	-3.15	15.85	11.49	-4.36(28)
2	**Capital (Voted)**	5425	105.91	0.00	105.91	50.96	-54.95(52)
	Total		**124.92**	**-3.15**	**121.76**	**62.45**	**-59.31(49)**

Source: Appropriation Accounts.

3.8.1.1 Injudicious re-appropriation

An amount of ₹3.81 crore as original grant was allotted under the Salary component of the Scheme "Additional Director Council for Science and Technology" (Sub Head-2172) under Major Head 3435-Ecology & Environment during 2021-22. However, audit noticed that withdrawal of ₹75.99 lakh under re-appropriation proved injudicious owing to the fact that there has been excess expenditure of ₹43.10 lakh under the Salary component.

3.8.1.2 Unnecessary supplementary grants

Budgetary allocations should be based on realistic proposals, good expenditure monitoring mechanism; strong scheme implementation capacities/ internal controls lead to optimal utilisation of funds on schemes to obtain intended benefits to the beneficiaries. Audit noticed that saving had occurred in the following scheme where supplementary grant of ₹50.00 thousand and above were provided to the department.

Table 3.8: Unnecessary supplementary grants

(₹ in lakh)

Major Head	Reference to Sub Head/Detailed Head	Original grant	Supplementary grant	Total grant	Actual expenditure	Savings	Percentage of savings
Revenue voted							
3435	**SH-2172**						
	002-Travel expenses	8.50	0.50	9.00	2.00	7.00	78
	009-Rent, Rates and Taxes	7.36	30.48	37.84	6.81	31.03	82
	103-Office Equipment's and appliances	5.00	0.50	5.50	3.54	1.96	36
	SH-2173						
	002-Travel Expenses	17.00	3.00	20.00	7.08	12.92	65
	006-Telephone	3.00	1.00	4.00	1.26	2.74	69
	007-Office Expenses	10.00	2.00	12.00	9.59	2.41	20
	008- Electric Charges	1.50	2.50	4.00	0.51	3.49	87
	009-Rent Rates and Taxes	13.00	1.00	14.00	7.90	6.10	44
	014-POL	10.00	1.00	11.00	7.69	3.31	30

Major Head	Reference to Sub Head/Detailed Head	Original grant	Supplementary grant	Total grant	Actual expenditure	Savings	Percentage of savings
	037-Professional and Special service charges	2.00	3.00	5.00	0.56	4.44	89
	071-Medical reimbursement	3.00	1.00	4.00	0.97	3.03	76

At times, while obtaining supplementary provision, the Departments report to legislature/Parliament large additional requirement for different purposes under various schemes/activities; but finally, they are unable to spend even the original budget provision which leads to large savings. As is evident from above table, huge amount of provision under certain sub heads was not utilised and there were savings by the departmental officers without giving any reason for the same. These savings were much more than the supplementary provisions which were indicative of budgetary allocations based on unrealistic proposals, poor expenditure monitoring mechanism and weak internal control.

3.8.1.3 Less expenditure (saving) against the provision under Revenue and Capital Heads

(i) Revenue section

Against the budget allocation of ₹12.07 crore under the scheme Chief Executive Officer, Jammu and Kashmir Energy Development Agency (JAKEDA), Sub Head-2173 under Revenue section, an amount of ₹7.68 crore has been incurred, resulting into saving of ₹4.39 crore which includes a saving of₹3.86 crore under the salary component during 2021-22.

In reply, the department attributed the savings to non drawal of salaries of three officers who were repatriated to their parent departments and non-filling of vacant posts against which the funds for salaries had been projected in the budget. The reply is not tenable in view of the fact that despite department having been aware of non-filling of vacant posts for which projection was kept in the Budget; the savings could have been anticipated and surrendered well before the close of financial year.

(ii) Capital Section

Less expenditure (saving) against the provision under Capital Head is as follows:

Table 3.9: Less expenditure (saving) against the provision

(₹ in crore)

S. No	MH	SM	MI	GH	SH	Budget Allocation	Expenditure	Less expenditure/ Savings
1	5425	-	800	0011	0868	7.91	5.94	1.97
2	5425	-	800	0011	1700	98.00	45.02	52.98
Total						**105.91**	**50.96**	**54.95**

Against the budget allocation of ₹7.91 crore under the scheme Scientific Services and Research (SH-0868), an amount of ₹5.94 crore has been incurred in the

Works component, resulting into saving of ₹1.97 crore during 2021-22. Similarly, against the budget allocation of₹98.00 crore under the scheme New Renewable Sources of Energy (SH-1700) in the Works component, an amount of ₹45.02 crore has been incurred, resulting into saving of ₹52.98 crore during 2021-22. The savings were not anticipated and surrendered.

In reply, the department attributed the savings to non-completion of works, late return of funds, non-submission of works plan by the implementing agencies besides, non-finalisation of tendering process, late acquisition of land and non-release of funds. The reply is not tenable as no effective monitoring mechanism is in place in the department to review and monitor the progress and execution of works, so that anticipated savings could be surrendered timely during the year.

3.8.1.4 Expenditure under Minor Head-800

Minor Head-800-Other Receipts/Other Expenditure is intended to be operated only when the appropriate Minor Head has not been provided in the Accounts. Routine operation of Minor Head-800 for budgeting and accounting renders the Accounts opaque without identifying the Receipt/ Expenditure (as the case may be) to its appropriate object of Revenue or Expenditure.

Audit noticed the following position of booking of Revenue and Capital expenditure under Minor Head 800-Other expenditure during 2021-22.

Table 3.10: Expenditure under Minor Head-800-Other expenditure

(₹ in crore)

Major Head	Total amount of Grant during 2021-22	Total expenditure under Minor Head 800-Other expenditure	Percentage of expenditure under Minor Head 800-Other expenditure
3435-Ecology and Environment	15.85	11.49	72
5425-Capital outlay on other Scientific and Environment Research	105.91	50.96	48
Total	**121.76**	**62.45**	**51**

It is noticed that whole budget amounting to ₹121.76 crore under Revenue and Capital head of accounts was provided under Minor Head 800- Other Expenditure. The entire amount of expenditure of ₹62.45 crore (51*per cent*) of the total amount of grant has been booked under the Minor Head-800-Other expenditure in the Revenue and Capital Heads of account during 2021-22. Reply to issue of non- budgeting under other available Minor Heads and budgeting only under Minor Head-800 is awaited from the department.

3.8.1.5. Single Nodal Accounts

In terms of Government of India (GoI), Ministry of Finance (MoF), Department of Expenditure, Office Memorandum (OM) dated 23.03.2021, zero balance Single Nodal Accounts (SNAs) were required to be opened for each Centrally Sponsored Schemes (CSS) operational either in the Union Territory or in any State. The Department had not opened any zero balance SNA during 2021-22. However, the Department had already two existing accounts[1] opened during the years 2015 and 2018 which were operational during 2021-22 and the scheme-wise funds to the tune of ₹42.26 crore[2] from GoI, Ministry of New and Renewable Energy were received (2021-22) directly in these accounts**.** The department utilized ₹37.01 crore on these projects and ₹05.25 crore remained un-utilised as on 31st March 2022. Audit, however, noticed that consequent upon the issuance of revised procedure vide GoI, MoF, Department of Expenditure, OM No.1/18/PFMS/FCD/2021 dated 09.03.2022 for flow of funds under central sector schemes through Central Nodal Agency (CNA), three zero balance SNAs for three[3] CSSs were opened (19.07.2022 and 27.07.2022) by the department and the funds are received through CNA on real time basis.

3.8.2 Grant No. 30: Tribal Affairs Department

Against the total allocation of ₹411.87 crore under the grant, an expenditure of ₹173.17 crore was booked and an amount of ₹238.70 crore (58 *per cent*) remained unspent during the year which indicates that the Department made unrealistic budget provisions during the year 2021-22. There is a saving of ₹64.40 crore (50 *per cent*) under the Revenue Head (Voted) and ₹174.30 crore (62 *per cent*) in the Capital Head (Voted) as detailed below:

Table 3.11: Budget provision, expenditure booked and savings under Revenue and Capital Heads

(₹ in crore)

S. No.	Revenue/Capital	Major Head	Original Grant	Supplementary Grant	Total	Expenditure Booked	Saving (-) (percentage)
1	**Revenue (Voted)**	2225	104.72	24.92	129.64	65.24	-64.40 (50)
2	**Capital (Voted)**	4225	273.43	8.80	282.23	107.93	-174.30 (62)
Total			**378.15**	**33.72**	**411.87**	**173.17**	**-238.70 (58)**

The following discrepancies were noticed among various scheme heads under the grant.

[1] For the schemes of Off-Grid and decentralized Solar PV Solar Street Lights P-III MNRE and Grid connected Solar Rooftop.

[2] Off-Grid and decentralized Solar PV Solar Street Lights P-III MNRE: ₹22.08 crore and Grid connected Solar Rooftop: ₹20.18 crore

[3] Grid connected Solar Rooftop ; PM-KUSUM Component-B and Off-Grid and decentralized Solar PV Solar Street Lights P-III MNRE

3.8.2.1. Unnecessary supplementary grants

Budgetary allocations should be based on realistic proposals, good expenditure monitoring mechanism; strong scheme implementation capacities/ internal controls lead to optimal utilisation of funds on schemes to obtain intended benefits to the beneficiaries. Audit noticed that savings had occurred in the following schemes Advisory Board for Gujjar and Bakerwal (Sub Head-0442), Welfare of Gujjar and Bakerwal (Sub Head-1796) and Director Tribal Affairs (Sub Head-2253) where supplementary grants of ₹ 50 thousand and above were provided to the Department.

Table 3.12: Unnecessary supplementary grants

(₹ in lakh)

Major Head	Reference to Sub Head/ Detailed Head	Original grant	Supplementary grant	Total grant	Actual expenditure	Savings	Percentage of savings
Revenue voted							
2225	**SH-0442**						
	001-Salary	108.90	1.14	110.04	67.42	42.62	39
	SH-1796						
	008-Electricity Charges	70.00	11.60	81.60	36.56	45.04	55
	011-Books, Periodicals and Publication	3.45	0.55	4.00	1.90	2.10	53
	017-Honorarium and Remuneration	22.54	1.96	24.50	3.20	21.30	87
	023-Maintenance and Repairs	10.00	2.00	12.00	8.73	3.27	27
	071-Medical reimbursement	3.00	0.93	3.93	0.00	3.93	100
	103-Office Equipments and Appliances	7.00	3.00	10.00	4.59	5.41	54
	SH-2253						
	006-Telephone	1.00	1.00	2.00	0.76	1.24	62

As is evident from above table, provision under supplementary grants in certain sub heads was not utilised and savings were made by the departmental officers without giving any reason for the same. These savings were much more than the supplementary provisions which were indicative of budgetary allocations based on unrealistic proposals, poor expenditure monitoring mechanism, weak internal control.

3.8.2.2. Excess expenditure against the allocation

Grant-in-aid of ₹16.00 crore under the supplementary grants has been provided in the scheme Tribal Sub Plan (SCA) Sub Head-1814 against which an expenditure of ₹21.13 crore has been booked, resulting in an extra expenditure

of ₹5.13 crore as detailed in ***Table 3.13***. The reasons for excess are awaited from department.

Table 3.13: Excess expenditure under Revenue Head of Account

(₹ in crore)

S.No.	MH	SM	MI	GH	SH	Budget allocation	Expenditure Booked	Excess
1	2225	02	800	0031	1814	16.00	21.13	5.13

3.8.2.3 Less expenditure against the allocation

(i) Revenue section

During the year 2021-22, against the budget allocation of ₹40.00 crore, an expenditure of ₹8.05 crore has been booked under the scheme Post Matric Scholarship, Sub Head (1829), resulting in to saving of ₹31.95 crore. Similarly, against the allocation of ₹42.46 crore under the scheme Welfare of Gujjar and Bakarwal, Sub-Head (1796), an expenditure of ₹29.36 crore has been booked, resulting in saving of ₹13.10 crore. Further, against the allocation of ₹1.39 crore under the Scheme Advisory Board for Gujjar and Bakarwals, Sub Head (0442), an expenditure of ₹0.81crore has been booked, resulting in saving of ₹0.58 crore and against the allocation of ₹10.11crore under Director Tribal Affairs Sub Head (2253), an expenditure of ₹8.37 crore has been booked, resulting in saving of ₹1.74 crore. The percentage of saving ranged between 17 and 80 *per cent.*

It was seen in audit that the department has not made any assessment with regard to coverage of eligible beneficiaries for the scholarship under the scheme Post Matric Scholarship. Neither any budget estimates nor any plan proposal were framed, in absence of which actual coverage of actual beneficiaries could not be verified. Non framing of projected requirement of eligible students resulted into huge unspent balance of scholarship under the scheme.

Table 3.14: Less expenditure (Savings) against the provision of funds

(₹ in crore)

S. No.	MH	SM	MI	GH	SH	Budget Allocation	Expenditure	Less/savings	Percentage of savings
1	2225	02	277	0031	1829	40.00	8.05	31.95	80
2	2225	03	102	0099	1796	42.46	29.36	13.10	31
3	2225	03	102	0099	0442	1.39	0.81	0.58	42
4	2225	03	102	0099	2253	10.11	8.37	1.74	17
Total						**93.96**	**46.59**	**47.37**	**50**

(ii) Capital section

Against the allocation of ₹100.00 crore under the scheme Infrastructure for welfare of Tribals, Sub-Head (0896), an expenditure of ₹61.28 crore has been booked, resulting in saving of ₹38.72 crore. Similarly, against budget allocation of ₹9.04 crore under 115-Works, component of Tribal Sub Plan, Sub-Head

(1814), an expenditure of ₹2.05 crore has been booked, resulting in saving of ₹6.99 crore. Further, under the Scheme Tribal Sub Plan, Sub-Head (1814), against the allocation of ₹65.25 crore, an expenditure of only ₹10.81 crore has been booked, resulting into saving of ₹54.44 crore. Against the allocation of ₹103.66 crore under Special Central Assistance (SCA to TSP), Sub-Head (2518), an expenditure of only ₹31.56 crore has been booked, resulting in to saving of ₹72.10 crore and under the scheme welfare of SC/ST Jammu Sub-Head (1827)-115 works against the allocation of ₹4.28 crore, an expenditure of ₹2.22 crore has been booked, resulting in saving of ₹2.06 crore during the year 2021-22. The percentage of savings ranged between 39 *per cent* and 83 *per cent*. The savings has resulted in slow progress in execution of works and delay in completion of works.

In reply, the Department attributed the savings and delay in completion of work to late finalization of formalities by the executing agencies such as availability of encumbrance free land, delay in finalisation of tenders, awarding of technical sanctions etc.

Table 3.15: Less expenditure (Savings) against the provision of funds

(₹ in crore)

S. No.	MH	SM	MI	GH	SH	Budget Allocation	Expenditure	Less/savings	Percentage of savings
1	4225	02	800	0011	0896	100.00	61.28	38.72	39
2	4225	02	800	0011	1814	9.04	2.05	6.99	77
3	4225	02	800	0031	1814	65.25	10.81	54.44	83
4	4225	02	800	0031	2518	103.66	31.56	72.10	70
5	4225	02	800	0031	1827	4.28	2.22	2.06	48
Total						**282.23**	**107.92**	**174.31**	**62**

3.8.2.4 Nil expenditure booked under provision of funds

Against the allocation of ₹1.84 crore under the scheme Welfare of SC/ST/OBC, Sub-Head (1827), ₹8.38 crore under the scheme SCA to TSP Sub-Head (2518) and ₹9.46 crore under the scheme Pre-Matric Scholarship for minority community, Sub-Head (1444), nil expenditure has been booked, resulting in saving of ₹19.68 crore under these three schemes during the year 2021-22.

Table 3.16: Nil expenditure booked under provision of funds

(₹ in crore)

S. No.	MH	SM	MI	GH	SH	Budget Allocation
1	2225	03	800	0031	1827	1.84
2	2225	03	102	0099	2518	8.38
3	2225	02	277	0031	1444	9.46
Total						**19.68**

3.8.2.5 Expenditure under Minor Head-800

Minor Head-800-Other Receipts/Other Expenditure is intended to be operated only when the appropriate Minor Head has not been provided in the Accounts. Routine operation of Minor Head-800 for budgeting and accounting renders the Accounts opaque without identifying the Receipt/ Expenditure (as the case may be) to its appropriate object of Revenue or Expenditure.

Audit noticed the following position of booking of Revenue and Capital expenditure under Minor Head 800-Other expenditure during 2021-22.

Table 3.17: Expenditure under Minor Head 800-Other expenditure

(₹ in crore)

Major Head	Total amount of Grant during 2021-22	Total expenditure under Minor Head 800-Other expenditure	Percentage of expenditure under Minor Head 800-Other expenditure
2225- Welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes	129.64	21.13	16
4225- Capital Outlay on Welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes	282.23	107.93	38
Total	**411.87**	**129.06**	**31**

As can be seen from the above table that an expenditure of ₹129.06 crore (31 *per cent*) of the total amount of grant has been booked under the Minor Head 800-Other expenditure in the Revenue and Capital Heads of account during 2021-22.

There are Minor Heads 277-Education and 282-Health under Major head 4225 under Sub Major Head 02 Welfare of Scheduled Tribes and 03-Welfare of backward classes. As per test check of the Work Activity Monitoring System[4] (Department wise) for the year 2021-22, it was noted that expenditure to the tune of ₹3.27 crore was incurred on account of Construction of CHC/PHC in tribal areas. Further, expenditure was incurred to the tune of ₹1.85 crore on account of Construction/Repair/Renovation of ST/G&B Hostels and ₹0.20 crore on Establishing E-classrooms/smart classes/libraries, sports and reading rooms at Middle School Dhanwan, District Rajouri. The above expenditures should have been budgeted and expended under Minor Heads 282-Health and 277-Education, but it was noticed that no expenditure has been budgeted/booked under these

[4] Source: beamsjk.gov.in

Minor Heads under Capital Major Head 4225. Department need to use relevant minor head while formulation of budget.
Reasons for use of Minor heads like 800- Other expenditures and 102 Economic development instead of more relevant heads are awaited from the department.

3.8.2.6 Single Nodal Accounts

Single Nodal Accounts were required to be opened by the department for each Centrally Sponsored Schemes (CSS) in every State or Union Territory vide Govt. of India, Ministry of Finance, Department of Expenditure PFMS Division, Office Memorandum (OM) F.No.1(13) PFMS/FCD/2020 dated 23-03-2021. Five SNAs for five centrally sponsored schemes i.e., SCA to TSS, Article 275 (1)-Constitution of India, Pre-Matric Scholarship to ST Students, Post-Matric Scholarship to ST Students &Support to Tribal Research Institute, J&K were opened by the department of Tribal Affairs on 29-01-2022. No funds were received by the department under CSSs during the year 2021-22 except one centrally sponsored scheme i.e., Support to Tribal Research Institute J&K under which funds to the tune of ₹2.00 crore were received at the fag end of the year 2021-22 and are being deposited into the SNAs during 2022-23.

3.9 Conclusions

- The overall utilisation of budget was 20 *per cent* less than the total amount of grants and appropriations during the year 2021-22. Budgetary allocations were based on unrealistic proposals as out of total 35 grants, in 22 grants, savings were more than ₹100 crore in the capital section.
- During 2021-22, ₹28,205.78 crore (31 *per cent*) of savings was noticed in the voted section where as excess expenditure of ₹394.08 crore (one *per cent*) was incurred in the *charged* section.
- Entire budget provision of ₹5,092.25 crore under 28 Grants involving 123 number of schemes remained unutilised during the year resulting in denial of intended benefits to the general public.
- Supplementary provisions aggregating ₹3,919.78 crore obtained in 22 cases, involving ₹50 lakh or more in each case during the year proved unnecessary as the expenditure did not come up to the level of the original provisions. On the other hand, in grant 08-Finance Department, supplementary grant of ₹16,057.92 crore was not adequate to meet the requirement.
- There were 33 grants in which savings of ₹ten crore and above had occurred as on 31st March 2022, which included 26 grants wherein savings of ₹100 crore and above were noticed.
- An amount of ₹21,646.17 crore was incurred under 33 schemes/ Sub Heads in 10 Grants without Budgetary Provisions during 2021-22.

- Expenditure exceeding 50 *per cent* of the total expenditure for the year 2021-22 was incurred in March 2022 in respect of 25 Major Heads under 17 Grants. The percentage of expenditure ranged between 50 *per cent* and 100 *per cent.*
- Against the total allocation of ₹121.76 crore under Grant No. 35-Science & Technology Department, the total expenditure booked is ₹62.45 crore only. An amount of ₹59.31 crore (49 *per cent*) remained unspent during the year which indicates preparation of unrealistic budget estimates during 2021-22 by the Department. Saving of ₹4.36 crore in Revenue Voted and ₹54.95 crore in Capital Voted sections was noticed. No portion of saving of ₹59.31 crore was anticipated and surrendered.
- Against the total allocation of ₹411.87 crore under Grant No. 30-Tribal Affairs Department, an expenditure of ₹173.17 crore was booked and an amount of ₹238.70 crore (58 *per cent*) remained unspent during the year which indicates that the Department made unrealistic budget provisions during the year 2021-22. There is a saving of ₹64.40 crore under the Revenue Head (Voted) and ₹174.30 crore in the Capital Head (Voted). No portion of saving of ₹238.70 crore was anticipated and surrendered.

3.10 Recommendations

1. Government should be more realistic in its budgetary assumptions and ensure efficient control mechanisms to curtail savings/excess expenditure.
2. Excess expenditure over the approved grants may be regularised at the earliest, along with fixing responsibility for incurring excess expenditure.
3. Controlling Officers need to be made aware of their responsibility to explain the variation in expenditure from the allocation to facilitate proper analysis of budget and preparation of meaningful Appropriation Accounts.
4. Government may consider strengthening of financial monitoring to avoid rush of expenditure at fag end of the year.

Chapter-IV

Quality of Accounts and Financial Reporting Practices

CHAPTER-IV

QUALITY OF ACCOUNTS AND FINANCIAL REPORTING PRACTICES

A sound internal financial reporting system with relevant and reliable information significantly contributes to efficient and effective governance by the Union Territory Government. Compliance with financial rules, procedures and directives as well as the timeliness and quality of reporting on the status of such compliance is, thus, one of the attributes of good governance. Reports on compliance and controls, if effective and operational, assist the Government in meeting its basic stewardship responsibilities, including strategic planning and decision-making.

Issues related to completeness of accounts

4.1 Funds outside Consolidated Fund or Public Account of the Union Territory of Jammu and Kashmir

Section 67 of Jammu and Kashmir Reorganisation Act 2019 envisages that all revenues received in the Union Territory of Jammu and Kashmir by the Government of India or Lieutenant Governor of the Union Territory of Jammu and Kashmir in relation to any matter with respect to which the Legislative Assembly of the Union Territory of Jammu and Kashmir has power to make laws, and all grants made and all loans advanced to the Union Territory of Jammu and Kashmir from the Consolidated Fund of India and all loans raised by the Government of India or the Lieutenant Governor of the Union Territory of Jammu and Kashmir upon the Security of the Consolidated Fund of the Union Territory of Jammu and Kashmir and all moneys received by the Union Territory of Jammu and Kashmir in repayment of loans shall form one Consolidated Fund. No moneys can be appropriated from this Fund except in accordance with law and for the purposes and in the manner provided in Jammu and Kashmir Reorganisation Act, 2019. Certain categories of expenditure (e.g., salaries of Constitutional authorities, loan repayments etc.), constitute a charge on the Consolidated Fund of the Union Territory of Jammu and Kashmir (Charged expenditure) and are not subject to vote by the Legislature. All other expenditure (Voted expenditure) is voted by the Legislature.

4.1.1 Building and other Construction Workers Welfare Cess

The Government of India enacted the Building and Other Construction Workers Welfare Cess Act, 1996 (Cess Act) to levy and collect cess for providing benefits to the workers. The Act, *inter alia*, mandated constitution of a Building and Other Construction Workers' Welfare Board and framing of rules by every Government to exercise the powers conferred under the Act. Accordingly, the erstwhile State Government of Jammu and Kashmir framed Building and Other

Construction Workers (Regulation of Employment and Conditions of Service) Rules 2006 under the Act and constituted Jammu and Kashmir Building and Other Construction Workers Welfare Board in 2007. The Board is responsible for the operation and maintenance of the amount credited by Government as Labour Cess Deposits. The Government of Union Territory of Jammu and Kashmir continued with the same rules. During 2021-22, opening balance with the Board on account of Labour cess was ₹601.61 crore. The receipts during the year were ₹175.60 crore and disbursements were ₹172.49 crore. The closing balance of Labour cess as on 31 March 2022 was ₹604.72[1] crore which remained out of Government account.

4.1.2 Water Usage Charges

The Water Usage Charges are being levied on Hydel power generating companies under the provisions of the Jammu and Kashmir Water Resources (Regulation and Management) Act, 2010 amended on 25 October 2012 and 27 October 2014. Under the Act, a Fund was to be constituted as an account in the Jammu and Kashmir Bank or allotted a proper account head. The amount realised as water usage charges was to be deposited in the account/head so created, and utilised for establishment of Hydroelectric and Multi-purpose Hydro Electric Projects and for buying back Hydroelectric Power Projects already established in the State and purchase of power. During 2021-22, no transaction was made in this fund account except for crediting of interest amounting to ₹0.55 crore and as on 31 March 2022, an amount of ₹15.53 crore on account of water usage charges/interest was lying in the Water Usage Fund Account (Saving Bank Account) which remained out of Government Account of the Union Territory of Jammu and Kashmir. The amount lying in the saving account on account of water usage charges and interest there upon needs to be credited to Government account. During the exit conference, it was assured that the amount will be taken in Government account.

4.1.3 District Mineral Foundation Trust

Section 9(B) of Mines and Minerals (Development and Regulation) Act, 1957 provides that in any district affected by mining related operations, the State Government shall, by notification, establish a trust, as a non-profit body, to be called the District Mineral Foundation. The objective of the District Mineral Foundation shall be to work for the interest and benefit of persons, and areas affected by mining related operations in such manner as may be prescribed by the State Government. The composition and functions of the District Mineral Foundation shall be such as may be prescribed by the State Government

The Jammu and Kashmir District Mineral Foundation (Composition, Contribution, Financing, Funding &Trust) Rules were notified vide SRO No 3

[1] Figures are provisional as accounts/balance sheet is yet to be finalized.

dated 11 January 2017. As per the Rules, the Government shall set up a fund under the Trust to be called as the District Mineral Foundation Trust Fund which shall be managed by the Executive Committee[2]. The Trust Fund shall receive Contribution Fund as per the contributions defined in these rules. The holders of mineral concessions, granted under the Act and rules made thereunder, shall make payments for contribution to the trust fund of amount payable to the State Government simultaneously with payments of the royalty.

As per rule 11(1), all holders of Major Mineral Concessions shall, in addition to royalty, pay to the respective District Mineral Foundation, an amount equivalent to such percentage of royalty as may be prescribed by the Central Government under sub-section (5) or sub-section (6) of section 9B of the Act as the case may be. As per rule 11(2), out of the total amount of royalty realized from the holders of Minor Mineral Concessions, 10 *per cent* shall be deposited/paid towards the respective trust by the department.

There are 20 District Mineral Foundation Fund Trust in UT of Jammu and Kashmir. During 2017-18 to 2021-22, the total collection under DMF Fund by all Trusts was amounting to ₹32.89 crore. Out of this total amount, a balance of ₹16.91 crore was lying in bank accounts of 18[3] District Mineral Foundation Trusts as on 31 March 2022. This amount remained out of Government Account. However, as per Government of India Ministry of Mines order dated 12 July 2021, no fund shall be transferred from District Mineral Foundation Trust to State exchequer. As per Constitution of India and as per J&K Re-organisation Act 2019, all receipts are to be accounted for either in Consolidated Fund or Public Accounts, but these receipts are being remitted into bank accounts of the respective District Mineral Foundation Trusts, as per the direction of Government.

4.2 Loans of UT Government not being credited to the Consolidated Fund

As per J&K FRBM Act 2006, the 'total liabilities' means the liabilities under the Consolidated Fund of the State and the Public Account of the State and includes borrowings by the public sector undertakings the special purpose vehicles and other equivalent instruments including guarantees where the principal and/or interest are to be serviced out of the budget. As per Section 10 (3) of the FRBM Act 2006, whenever the Government undertakes to unconditionally and substantially repay the principal amount and/or pay the interest of any separate legal entity, it has to reflect such liability as the borrowings of the State.

[2] Divisional commissioner Kashmir/Jammu, Chairperson, Director Geology and Mining Kashmir/Jammu, Director Health Services Kashmir/Jammu, Director Rural Development, Kashmir/Jammu, Chief Engineer, PWD, Kashmir/Jammu, Special Invitees having knowledge and experience in Mineral Administration/exploration to be invited by the Chairperson.

[3] Jammu, Kathua, Samba, Reasi,Udhampur, Ramban, Doda, Kishtwar, Rajouri, Poonch, Srinagar, Anantnag, Kulgam, Ganderbal, Pulwama, Bandipura, Baramulla and Kupwara.

The Government of Union Territory has intimated an amount of ₹850.00 crore Off Budget Borrowings (OBBs) by Jammu & Kashmir Infrastructure Development Finance Corporation (JKIDFC) in the year 2021-22. This was in addition to OBBs of ₹1,400.00 crore taken by JKIDFC, in 2019-20 (₹650.00 crore) and 2020-21 (₹750.00 crore). The repayment of these loans were to be made by way of revision of taxes and duties. In this regard, it was further stated by the Director Finance, JKIDFC that principal of ₹127.23 crore had been repaid by the UT Government of Jammu and Kashmir. Thus, the outstanding amount of OBB was ₹2,122.77 crore as on 31 March 2022.

JK Power Corporation Ltd (JKPCL) purchases power for UT of Jammu and Kashmir. There was outstanding liability to the tune of ₹11,024.47 crore on account of purchase of power ending June 2020. Loans amounting to ₹11,024.47 crore were sanctioned for repayment of dues towards power generating companies, out of which ₹10,321.83 crore was lifted by JKPCL and was used for clearance of outstanding liability. It was intimated (November 2022) by the Finance Department, Government of UT of Jammu and Kashmir that out of this total amount of ₹10,321.83 crore, ₹7,531.83 crore had been availed from Power Finance Corporation (PFC) and an amount of ₹2,790.00 crore had been availed from Rural Electrification Corporation (REC). No payment of principal has been done, as they are in the moratorium period. However, the interest payment on account of these loans is being done by the UT Government from its own resources. Further, JKPCL has again created liability on account of purchase of power to the tune of ₹13,145.55 crore ending 31 March 2022.

Thus, as per Finance Department, UT Government, there were outstanding off budget borrowing amounting ₹2,122.77 crore raised by Jammu and Kashmir Infrastructure Development Finance Corporation and loans amounting to ₹10,321.83 crore against Jammu and Kashmir Power Corporation from Power Finance Corporation and Rural Electric Corporation ending 31 March 2022. These borrowing are being serviced by the Government from budget but this debt has not been included in liability of Government in accounts which is against the provision of JKFRBM Act.

4.3 Funds transferred directly to Implementing Agencies

Government of India (GoI) transfers substantial funds directly to State Implementing Agencies (SIAs) for implementation of various schemes and Programmes. The amount of funds transferred by the various Ministries/ Departments of GoI directly to SIAs of the Union Territory Government of Jammu and Kashmir during 2021-22 as per the Public Financial Management System (PFMS) portal of Controller General of Accounts (CGA) was ₹820.36 crore ***(Appendix 4.1)***. This is 12.22 *per cent* of the amount (₹6,713.77crore) released by the GoI for Centrally Sponsored Schemes as Grants-in-Aid through the Union Territory Budget. In addition to above, Central Government released

an amount of ₹3,190.72 crore directly to various Autonomous Bodies, Central Government Organisations, Societies etc.

The scheme where direct funding is more than ₹100 crore during the year 2021-22 are given below:

Table 4.1: Scheme where more than ₹100 crore funds transferred by Government of India directly to Government Department

(₹ in crore)

Sl. No.	Name of the Scheme of Government of India	Name of the Implementing Agencie	Government of India releases during 2021-22
1	Pradhan Mantri Kissan Samman Nidhi	Department of Agriculture Production, Government of Jammu and Kashmir	664.58

Source: Finance Accounts.

4.4 Deposit of Local Funds

Jammu and Kashmir Panchayati Raj Act provides that Halqa Panchayat would maintain Halqa Panchayat Fund which would include all the money realised or realisable under the Act and all money otherwise received by the PRIs, such as grants received from Government and its own revenue, which includes tax and non-tax receipt of a Panchayat. The Municipal Act envisages that the Municipal Fund is to be held by the Municipality. All the money realised or realisable under this Act and all money otherwise received by the Municipalities are to be kept in the Municipal Fund. These are kept under Major Head 8448-Deposits of Local Funds-109-Panchayat Bodies Funds and 102-Municipal Funds. Receipt and expenditure under the aforesaid two local funds during 2021-22 is shown in ***Table 4.2***.

Table 4.2: Deposits of Local Funds

Local Funds			**Sl. No**	***(₹ in crore)***
Panchayat Fund	(8448-109)	Opening Balance	1	Nil
		Receipt	2	Nil
		Expenditure	3	Nil
		Closing Balance	4	Nil (0.27)
Total Closing Balance at end of the year				
Municipal Fund	(8448-102)	Opening Balance	5	275.27 (133.39)
		Receipt	6	616.38
		Expenditure	7	638.78
		Closing Balance	8	252.87 (133.39)

Source: Finance Accounts. Figures in bracket shows closing balance ending 30 October 2019 of erstwhile State of Jammu and Kashmir which has to be bifurcated between two UTs

There is no receipt and expenditure from the Panchayat Fund during 2021-22. However, there is a closing balance of ₹0.27 crore of erstwhile State of Jammu

and Kashmir. Municipal Fund has closing balance of ₹252.87 crore ending 2021-22, besides there is closing balance of ₹133.39 crore of erstwhile State of Jammu and Kashmir which is yet to be divided between the two Union Territories.

Issues related to transparency

4.5 Delay in submission of Utilisation Certificates

The Government of UT of Jammu and Kashmir has not framed revised rules relating to drawal of Grants-in-aid and submission of Utilisation Certificate (UCs) thereof. However, in terms of para 10.19 of the erstwhile State of Jammu and Kashmir (Pre re-organisation) Financial Code Volume-I, Utilisation Certificates (UCs) in respect Grants-in-Aid received by the Grantee should be furnished by the grantee to the authority that sanctioned it, within 18 months from the date of receipt of grant or before applying for a further grant on the same subject whichever is earlier. To the extent of non-submission of UCs, there is a risk that the amount shown in Finance Accounts may not have reached the beneficiaries.

The position of outstanding UCs relating to Union Territory of Jammu and Kashmir (post re-organisation) for the period from 31 October 2019 to 30 September 2020 is given in the ***Table 4.3***.

Table 4.3: Year-wise arrears in submission of Utilisation Certificates of UT of Jammu and Kashmir

Year*	Number of UCs Outstanding	Amount (₹ in crore)
2021-22 (31.10.2019 to 30.09.2020)	**770**	3,137.11
Total	**770**	**3,137.11**

** The year mentioned above relates to "Due year" i,e, after 18 months of actual drawal year*

The position of outstanding UCs relating to erstwhile State of Jammu and Kashmir drawn upto 30 October 2019 (yet to be apportioned) as on 31 March 2022 is given below.

Table 4.4: Year-wise arrears in submission of Utilisation Certificates of erstwhile State of Jammu and Kashmir

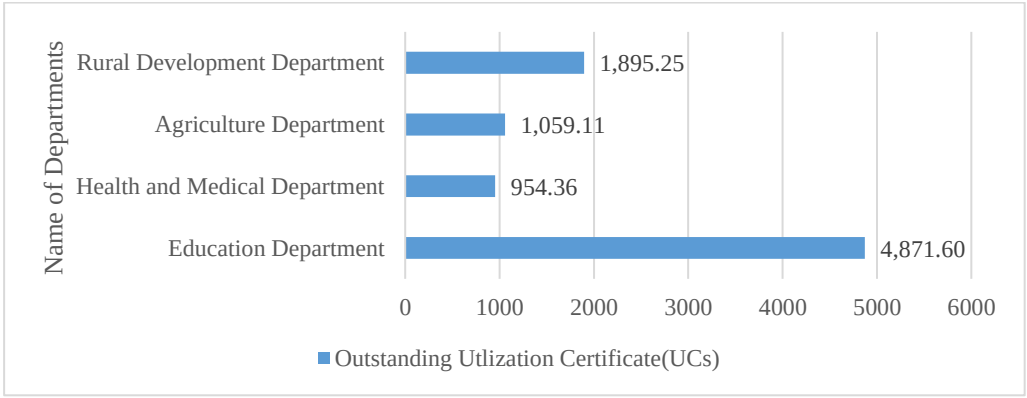
Year*	Number of UCs Outstanding	Amount (₹ in crore)
Upto 2019-20	1,737	6,186.73
2020-21	1,352	1,971.59
2021-22(01.10.2019 to 30.10.2019)	Nil	Nil
Total	**3,089**	**8,158.32**

** The year mentioned above relates to "Due year" i,e, after 18 months of actual drawal year*

There are 3,859 number of UCs amounting to ₹11,295.43 crore pertaining to erstwhile State and UT of Jammu and Kashmir outstanding as on 31 March 2022. Department wise breakup of total outstanding UCs shows that 77.73 *per cent* of total amount of outstanding UCs pertain to below noted four departments, of which 43.13 *per cent* of outstanding UCs pertain to Education department.

Chart 4.1: Outstanding UCs in respect of major Departments for the grants paid up to September 2020

(₹in crore)



Source: Finance Accounts.

Non-submission of the UCs means that the authorities have not explained as to how funds were spent over the years. There is also no assurance that the intended objectives of providing these funds have been achieved. This assumes greater importance if such UCs are pending against Grants-in-Aid meant for capital expenditure. It is imperative that the Government should monitor this aspect closely and hold the concerned persons accountable for submission of UCs in a timely manner. No UC was found outstanding from the two departments covered for detailed comprehensive audit of Grant i.e Department of Science and Technology and Department of Tribal Affairs. It was intimated in exit conference that reconciliation with respect to pending UCs will be conducted and settled on fast track mode.

4.6 Abstract Contingent bills

The Government of UT of J&K has not revised codal provisions for drawal of Abstract Contingent (AC) bills and settlement thereof. However, Financial Code Volume-I (Para 7.18) of erstwhile State of J&K envisage that when it is considered necessary to draw money from the Treasury for contingent expenditure of which vouchers cannot be readily obtained before payment. Drawing and Disbursing Officer (DDOs) are authorised to draw sums of money through AC bills. In terms of the erstwhile State of Jammu and Kashmir (pre re-organised) Financial Code para 7.10, DDOs are required to present Detailed Countersigned Contingent (DCC) bills containing vouchers in support of final

expenditure within two months from the date on which the advance was drawn. The year wise position of AC bills is as shown below.

Table 4.5 (A): Year-wise position of AC bills of UT of Jammu and Kashmir

Year	No of unadjusted AC Bills	Amount (₹ in crore)
Upto 2020-21 (31.10.2019 to 31.01.2021)	354	5,267.71
2021-22 (01.02.2021 to 31.01.2022)	785	6,180.32
Total	**1,139**	**11,448.03**

Table 4.5 (B): Year-wise position of DCC submission against AC bills

(₹ in crore)

Year	Opening balance		Addition		Clearance		Closing balance	
	No.	Amount	No.	Amount	No.	Amount	No.	Amount
31/10/2019 to 31/01/2020	**0**	**0**	**51**	**339.68**	**0**	**0**	**51**	**339.68**
2020-21	**51**	**339.68**	**333**	**5,059.58**	**30**	**131.55**	**354**	**5,267.71**
2021-22 (upto 31/01/2022)	**354**	**5,267.71**	**830**	**6,505.65**	**45**	**325.33**	**1,139**	**11,448.03**

As evident from the above table, the number of AC bills cleared was less than the number of new AC bills drawn during the respective periods. This resulted in increase in the number of unadjusted AC bills, resulting in a total of 1,139 bills amounting to ₹11,448.03 crore as on 31 March 2022.

DCC bills in respect of 2,154 AC bills amounting to ₹5,830.41 crore drawn upto 30 October 2019 by the erstwhile State of Jammu and Kashmir were awaited as on 31 March 2022. The bifurcation of these outstanding AC bills is yet to be done between successor Union Territories viz., Union Territory of Jammu and Kashmir and Union Territory of Ladakh. More than 70 *per cent* of DCC bills are awaited from five departments shown in ***Table 4.6.***

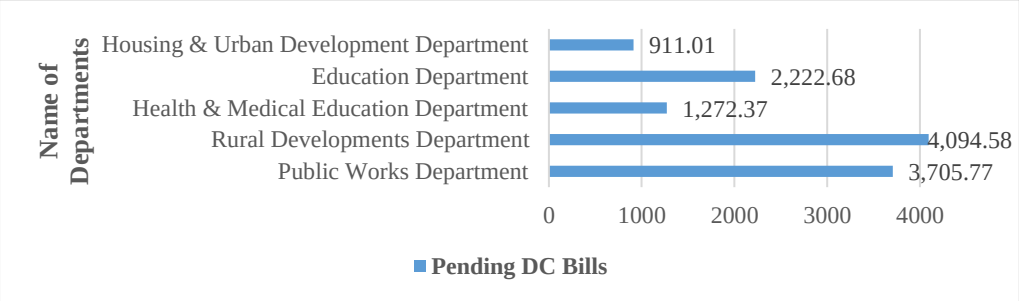
Table 4.6: Awaited DC bills from Departments of UT/Erstwhile State of Jammu and Kashmir

Sl. No	Name of the Department	Amount Outstanding *(₹ in crore)*	Percentage of total outstanding amount of ₹17,278.44 crore as on 31 March 2022
1	Public Works Department	3,705.77	21.45
2	Rural Development Department	4,094.58	23.70
3	Health and Medical Education Department	1,272.37	7.36
4	Education Department	2,222.68	12.86
5	Housing and Urban Development Department	911.01	5.27

Source: Finance Accounts.

Chart 4.2: Pending DCC Bills in respect of Major Departments of UT/ Erstwhile State of Jammu and Kashmir

(₹in crore)



Source: Finance Accounts.

554 AC bills amounting to ₹5,122.00 crore were drawn during the year 2021-22, out of which 391 AC bills amounting to ₹1,848.60 crore (36.09 *per cent*) were drawn in March 2022. Expenditure against AC Bills in March indicate that the drawals were primarily to exhaust the Budget Provisions and reveals inadequate budgetary control.

Comprehensive audit of two grants/ departments i.e Department of Tribal Affairs and Department of Science and Technology was conducted. It is noticed that Detailed Countersigned Contingent Bills for an amount of ₹8.73 crore and ₹19.15 crore were outstanding in respect of Advance drawals made by the Department of Tribal affairs and Department of Science and Technology respectively.

Detailed Countersigned Contingent Bills for an amount ₹8.73 crore is outstanding in respect of Advance drawals made by the Department of Tribal affairs. Out of ₹8.73 crore, an amount of ₹4.73 crore was drawn on account of pre- matric scholarship out of which ₹2.48 crore has been disbursed and balance amount of ₹2.25 crore has been remitted into SNA. An amount of ₹4.00 crore was drawn on account of Post Matric scholarship out of which ₹2.56 crore has been disbursed to beneficiaries and balance amount of ₹1.44 crore was still with Directorate Office which could not be disbursed due to inactive bank account number/non linking of Adhar with the bank account etc, the DCC bills of amount are still pending.

Detailed Countersigned Contingent Bills for an amount ₹19.15 crore is outstanding in respect of Advance drawals made by Department of Science and Technology. The above amount of advance drawn has been utilized but projects are yet to be completed and DCC bills are awaited. It was assured in exit conference that reconciliation with respect to pending DCC bills will be conducted and settled on fast track mode.

4.7 Indiscriminate use of Minor Head-800

Minor Head-800-Other Receipts/Other Expenditure is intended to be operated only when the appropriate Minor Head has not been provided in the Accounts. Routine operation of Minor Head-800 for budgeting and accounting renders the Accounts opaque, without identifying the Receipt/ Expenditure (as the case may be) to its appropriate object of Revenue or Expenditure. During the year 2021-22, ₹4,134.84 crore (including Revenue Receipt of ₹2,715.75 crore representing Sale of Power and Misc. Power Receipts under Major Head-0801) under 37 Revenue Major Heads of Accounts constituting 6.98 *per cent* of the total Revenue Receipts of ₹59,238.50 crore, was recorded under the Minor Head-800-'Other Receipts'. Similarly, expenditure of ₹4,289.52 crore under 36 Major Heads of Accounts constituting 6.10 *per cent* of total Revenue and Capital Expenditure of ₹70,316.37 crore was classified under Minor Head- 800-'Other Expenditure'. Instances where a substantial proportion (50 *per cent* or more/significant amount) of the Receipts and Expenditure under a Major Head was classified/ booked under the Minor Head-800-Other Receipts/Expenditure are shown in the table below.

The Government may consider depicting the amounts received and expenditure incurred under various schemes distinctly, instead of clubbing the Receipts and Expenditure of major schemes under the Minor Head 800-Other Expenditure and 800-Other Receipts, for better clarity in Accounts.

Table 4.7: Significant expenditure booked under Minor Head-800-Other Expenditure during the period 2021-22

Major Head	Total Expenditure including Expenditure under Minor Head- 800	Expenditure under Minor Head-800	Percentage of Expenditure under Minor Head-800 to Total Expenditure under the Major Head
	(₹ in crore)	*(₹ in crore)*	
2040-Taxes on Sales, Trade etc	1.49	1.27	85.23
2075-Miscellaneous General Services	2.36	2.00	84.75
4070-Capital Outlay on Other Administrative Services	10.31	10.31	100.00
4075-Capital Outlay on Miscellaneous General Services	1.06	1.06	100.00
4216- Capital Outlay on Housing	209.43	208.83	99.71
4220- Capital Outlay on Information and Publicity	0.21	0.21	100.00
4225- Capital Outlay on Welfare of SC/ST/OBC and Minorities	125.34	116.34	92.82
4236- Capital Outlay on Nutrition	26.86	26.86	100.00

Major Head	Total Expenditure including Expenditure under Minor Head- 800	Expenditure under Minor Head-800	Percentage of Expenditure under Minor Head-800 to Total Expenditure under the Major Head
4250-Capital Outlay on Other Social Services	15.96	10.46	65.54
4401-Capital Outlay on Crop Husbandry	362.86	194.51	53.60
4405-Capital Outlay on Fisheries	31.16	31.16	100.00
4406-Capital Outlay on Forestry and Wild life	127.84	75.54	59.09

Issues related to measurement

4.8 Outstanding balance under Major Suspense and DDR heads

The Finance Accounts reflect the net balances under Suspense and Remittance Heads. The outstanding balances under these heads are worked out by aggregating the outstanding debit and credit balances separately under various heads. Significant suspense items have been shown as gross debit and credit balances for 2021-22 in ***Table 4.9*****.**

Table 4.9: Balances under Suspense and Remittances

Minor Head	2021-22		
	(Dr)	(Cr)	Net (Dr /Cr.)
			(₹ in crore)
8658- Suspense Account-			
101 PAO Suspense	107.20	0.01	107.19(Dr)
102 Suspense Account (Civil)	51.59	20.07	31.52(Dr)
109-RBI Suspense (Hqrs)	0.09	0.40	0.31(Cr)
110- RBI Suspense (Central Accounts)	0.67	0.18	0.49(Dr)
112- Tax Deducted at Source (TDS) Suspense	-	384.71	384.71(Cr)
123- All India Service officers Group Insurance Scheme	0.88	-	0.88(Dr)
139-GST- Tax Deducted at Source Suspense	0.72	5.16	4.44(Cr)

110-Misc Remittances	689.07	-	689.07 (Dr)
8793- Inter State Suspense Account	9.29	0.04	9.25(Dr)

Source: Finance Accounts.

There was also a net credit balance of ₹2,114.33 crore {₹733.16 crore (Debit) under Suspense and ₹2,847.49 crore (Credit) under Remittances} at the end of 30 October 2019 (pre re-organisation) relating to erstwhile State of Jammu and Kashmir under Suspense and Remittance Heads which is yet to be apportioned between the successor Union Territory of Jammu & Kashmir and Union Territory of Ladakh. Non-clearance of outstanding balances under these Heads affects the accuracy of receipt/ expenditure figures and balances under different heads of Accounts (which are carried forward from year to year) of the Government of Union Territory.

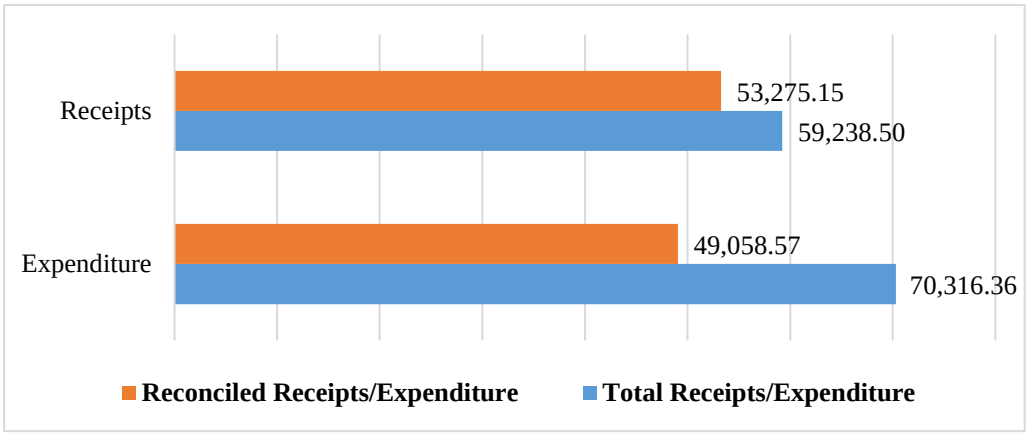
4.9 Non-reconciliation of Departmental figures

To enable Controlling Officers of the Departments to exercise effective control over spending to keep it within the budget grants and to ensure accuracy of their accounts, the receipts and expenditure during the financial year recorded in their books be reconciled by them every month with that recorded in the books of the Accountant General (A&E). Reconciliation and verification of figures is an important tool of financial management. Failure to exercise/adhere to the codal

provisions and executive instructions in this regard not only results in misclassification and incorrect booking of receipts and expenditure in the accounts, but also defeats the very objective of budgetary process.

Chart 4.3: Status of reconciliation during period 2021-22

(₹ in crore)



Source: Finance Accounts.

During the year 2021-22, receipts amounting to ₹53,275.15 crore (89.93 *per cent* of total receipts of ₹59,238.50 crore) and expenditure amounting to ₹49,058.57 crore (69.77 *per cent* of total expenditure of ₹70,316.36 crore) were reconciled by the Government of Union Territory of Jammu and Kashmir. In comparison, receipts amounting to ₹48,444.58 crore (92.28 *per cent* of total receipts of ₹52,495.48 crore) and expenditure amounting to ₹40,905.14 crore (64.82 *per cent* of total expenditure of ₹63,104.13 crore) were reconciled by the Government of Union Territory of Jammu and Kashmir with the Office of the Principal Accountant General (A&E) during 2020-21. It was assured in exit conference that efforts would be made for further improvement in reconciliation of annual receipts and disbursement.

4.10 Reconciliation of Cash Balances

The Cash balance as on 31 March 2022 as per the record of Principal Accountant General was ₹1,447.65 crore (Debit) and that reported by the Reserve Bank of India (RBI) [as worked out by Principal Accountant General (A&E)] was ₹1,445.73 crore (Credit). There was a net difference of ₹1.92 crore (Debit), mainly due to non-reconciliation by Government of Union Territory of Jammu and Kashmir with RBI/Agency Bank. The difference is under reconciliation.

There was also a net difference of ₹83.32 crore (Credit) between RBI and Principal Accountant General figure as on 30 October 2019 which is yet to be reconciled and apportioned between Union Territory of Jammu and Kashmir and Union Territory of Ladakh.

Issues related to disclosure

4.11 Compliance with Accounting Standards

As per Section 71 of Jammu and Kashmir Re-organisation Act 2019, the Lieutenant Governor may, on the advice of the Comptroller and Auditor General of India, prescribe the form of accounts of the Union Territory of Jammu and Kashmir. Further, as per Article 150 of the Constitution of India, the President of India, on the advice of the Comptroller and Auditor General of India, has so far notified three Indian Government Accounting Standards (IGAS). Compliance to these Accounting Standards by the Government of Union Territory of Jammu and Kashmir in 2021-22 and deficiencies therein are given below:

Table 4.10: Compliance to Accounting Standards

Sl. No.	Accounting Standards	Essence of IGAS	Compliance by UT Government	Impact of deficiency
1	**IGAS-2:** *Accounting and Classification of Grants-in-Aid*	To prescribe the principles for accounting and classification of Grants-in-aid in the Financial Statements of Government both as a grantor as well as a grantee.	Not complied (Statement 10 of Finance Accounts)	(i) Certain Grants-in-Aid to be classified under Revenue Section have been classified under Capital Section (ii) Information has not been furnished in respect of Grants in Aid given in kind by the UT Government.
2	**IGAS-3:** *Loans and Advances made by Government*	To ensure adequate disclosure on loans and advances made by the Government consistent with best international practices	Not complied (Statement 7 and 18 of Finance Accounts)	The closing balances have not been reconciled by the Loanee Entities/ Government of UT, The Government has not furnished figures in respect of certain loans and advances for which they maintain detailed accounts.

4.12 Submission of Accounts/Separate Audit Reports of Autonomous Bodies

Certification audit of accounts of Autonomous Bodies (AB's) set up by the Government is conducted under Section 19(2), 19(3) and 20(1) of Comptroller and Auditor General of India (DPC) Act 1971. The ABs coming under the audit purview as per the above Sections are required to submit the annual accounts to audit. In respect of eight Autonomous Bodies which were to render annual accounts to C&AG, 37 number of accounts were not rendered for the period ranging between one to 12 years as tabulated below:

Table 4.11: Non-submission of accounts by Autonomous Bodies

Sl. No.	Name of Body/Authority	Accounts pending (years)	No of accounts pending as on 31 March 2022
1	Compensatory Afforestation Management and Planning Authority (CAMPA)	12	12
2	Sher-i-Kashmir University of Agricultural Science and Technology, (SKUAST) Srinagar Kashmir	11	11
3	Sher-i-Kashmir University of Agricultural Science and Technology, (SKUAST) Jammu	01	01
4	JK Employee Provident Funds Organisation*(EPFO)	06	06
5	Jammu & Kashmir Housing Board	01	01
6	J&K Khadi and Village Industries Board (KVIB)	01	01
7	J&K Building and Other Construction Workers Welfare Board (BOCWWB)	02	02
8	J&K State Legal Service Authority (SLSA)	03	03
	Total		**37**

**Accounts for the year 2015-16 to 2019-20 were received from JKEPFO but the same were not approved by the Governing board. The matter has been taken up by the board with Government.*

Compensatory Afforestation Management and Planning Authority (CAMPA) has submitted the accounts for audit for period up to 2008-09, accounts for 12 years are pending. SKUAST, Kashmir, has not submitted its accounts for audit for last 11 years. Non-submission/delay in submission of accounts by these Bodies receiving substantial funding from the budget is a serious financial irregularity persisting for years. Despite taking up issue of preparation and submission of accounts to this office with the Government, the accounts are in arrears. In view of this non-compliance, the audited accounts of these Statutory Bodies have not so far been presented to the State/UT Legislature, as required under the Statutes under which these Bodies were created. Delay/Arrears in finalisation of accounts carries the risk of financial irregularities going undetected and entails possibility of fraud and mis-appropriation. This has also deprived the Legislature/Government the opportunity to get a feedback on their activities and financial performance.

The Government may take up the matter with the bodies for timely preparation and submission of accounts for presentation to the UT Legislature.

4.13 Departmental Commercial Undertakings/Corporations/Companies

The departmental undertakings of certain Government departments performing activities of commercial nature are required to prepare *proforma* accounts in the

prescribed format annually. The finalised accounts of departmentally managed commercial and quasi-commercial undertakings reflect their overall financial health and efficiency in conducting their business. In the absence of timely finalisation of accounts, the investment of the Government, corrective measures, if any required, for ensuring accountability and improving efficiency cannot be taken on time. Besides, the delay is fraught with risk of fraud and leakage of public money.

The Heads of the Government Departments are required to ensure that the undertakings prepare accounts and submit the same to the Pr. Accountant General (Audit), Jammu and Kashmir for audit, within a specified time frame. The Government has two such departmental undertakings: (a) Government Printing Presses at Srinagar and Jammu and (b) Public Distribution System (PDS) under the Consumer Affairs and Public Distribution Department. The *proforma* accounts of the commercial operations of both these undertakings are in arrears. The two Government Presses have not submitted their *proforma* accounts from 1968-69 to 2020-21. The *proforma* accounts have not been submitted by Food Civil Supplies & Consumer Affairs Department, Kashmir from 1975-76 to 2020-21 and Food Civil Supplies & Consumer Affairs Department, Jammu from 1973-74 to 1997-98 and 1999-2000 to 2020-21.

The status of audit of Companies/Corporations of Union Territory of Jammu and Kashmir is shown in ***Appendix 4.2***. Accounts in respect of only three Companies were audited up to 2020-21 and accounts of three Companies were audited up to 2019-20. In respect of 22 Companies/Corporations, audit of accounts is in arrear for the period ranging between 2 to 10 years. Despite taking up issue of preparation and submission of accounts to this office with the Government, the accounts are in arrears. In absence of timely finalisation of accounts, results of the investment of the Government remains outside the purview of Legislature and escape scrutiny by audit. Consequently, corrective measures, if any, required for ensuring accountability and improving efficiency cannot be taken in time. The Heads of Departments in the Government are to ensure that the departmental undertakings prepare such accounts and submit the same to the Pr. Accountant General (Audit) within a specified time frame.

4.14 Non-submission of details of Grants/ Loans given to Bodies and Authorities

In order to identify institutions/ organisations which attract audit under Sections 14 and 15 of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971(C&AG's DPC Act), the Government / HODs are required to furnish to Audit every year:

- detailed information about the financial assistance given to various institutions,
- the purpose for which the assistance is granted, and

- total expenditure of the institutions.

Further, Regulations on Audit and Accounts (Amendments) 2020 provides that Governments and HODs, who sanction grants and / or loans to bodies or authorities shall furnish to Audit by the end of July every year a statement of such bodies and authorities to which grants and / or loans aggregating ₹10 lakh or more were paid during the preceding year indicating (a) the amount of assistance, (b) the purpose for which the assistance was sanctioned and (c) the total expenditure of the body or authority. The Government, however, did not furnish the above mentioned information, which is in violation of Regulations on Audit and Account (Amendments) 2020. In absence of above information audit could not identify the bodies /authorities attracting audit under Section 14 and 15 of C&AG's DPC Act.

4.15 Timeliness and Quality of Accounts

The accounts of receipts and expenditure of the Government of Union Territory of Jammu and Kashmir have been compiled based on the initial accounts rendered by 122 Treasuries (including 20 District Treasuries and one virtual Treasury), and Advices of the Reserve Bank of India. As the Government of Jammu and Kashmir had already switched over to Civil Accounting System for Works and Forest Divisions (in previous years), no monthly accounts were due from these Divisions during 2021-22. No account was excluded at the end of the year 2021-22.

Other Issues

4.16 Follow up action on State/UT Finances Audit Report

To ensure accountability of executives to the issues dealt with in various Audit Reports, the State Government (Finance Department) issued instructions in June 1997 to the administrative departments to furnish to Public Accounts Committee (PAC)/Committee on Public Undertaking (COPU), *suo-motu* Action Taken Notes (ATNs) on all the audit paragraphs featuring in the Audit Reports, irrespective of the fact that these are taken up for discussion by these Committees or not. These ATNs are to be submitted to these Committees duly vetted by the Pr. Accountant General (Audit), within a period of three months from the date of presentation of Audit Reports in the State Legislature.

Report of the Comptroller and Auditor General of India on State Finances is being prepared since 2008-09 and Reports till the year 2015-16 have been tabled in the State Legislature. The State/UT has been under Governor's/President rule since 20 June 2018 as such the Report on State Finances /State Finances Audit Report for the year 2016-17, 2017-18, 2018-19, 1 April 2019 to 30 October 2019 and UT Finance Audit Report for the period 31 October 2019 to 31 March 2020 and 2020-21 have been tabled in the Parliament along with the other Audit

Reports. Action Taken Notes on these Reports were not furnished by the State /UT Governments.

4.17 Conclusions

- Non-submission of the UCs means that the authorities have not explained as to how funds were spent over the years. There is also no assurance that the intended objectives of providing these funds have been achieved.
- Non-submission/delay in submission of accounts by the Bodies receiving substantial funding from the Government is a serious financial irregularity. It deprived the Legislature the opportunity to get a feedback on activities and financial performance of these bodies.
- Advances drawn through Abstract Contingent Bills and their detailed countersigned bills not submitted increased the possibility of wastage/ misappropriation/ malfeasance, etc.
- Significant amount of expenditure and receipts booked under Minor head-800-Other Expenditure and 800-Other Receipts under various Major Heads affects the transparency in the accounts.

4.18 Recommendations

1. Timely submission of Utilisation certificates may be ensured by the department in respect of grants released for specific purpose.
2. Necessary steps may be taken to ensure adjustment of the advances drawn on the abstract contingent bills within the stipulated period as required under the extant rules.
3. The issue of timely preparation and submission of accounts may be taken with respective autonomous bodies.
4. Operation of omnibus Minor Head-800 should be discouraged.
5. The assets and liability ending 30 October 2019 may be apportioned between both the Union Territories.

Chapter-V

Financial Performance of Public Sector Undertakings

CHAPTER-V

FINANCIAL PERFORMANCE OF PUBLIC SECTOR UNDERTAKINGS

This chapter discusses the financial performance of Public Sector Undertakings (PSUs) as revealed from their accounts. PSUs comprise of Government of Jammu & Kashmir (GoJ&K) owned companies set up under the Companies Act, 2013, Statutory Corporations set up under the statutes enacted by the Parliament and Government Controlled Other Companies (GCOCs). Impact of significant comments issued after conducting supplementary audit of the financial statements of these PSUs by the Comptroller and Auditor General (CAG) of India for the year 2021-22 (or of earlier years which were finalised during the current year) has also been discussed in the Chapter.

5.1 Definition of Government Company

A Government Company is defined in Section 2(45) of the Companies Act, 2013 as a Company in which not less than 51 *per cent* of the paid-up share capital is held by Central Government, or by any State Government or Governments, or partly by the State Government and partly by one or more State Governments and includes a Company which is a subsidiary of a Government Company.

Besides, any other Company[1] owned or controlled directly or indirectly, by the Central Government, or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments are referred to in this Report as Government Controlled Other Companies.

5.2 Mandate of Audit

Audit of Government companies and Government controlled other companies is conducted by the CAG under the provisions of Section 143(5) to 143(7) of the Companies Act, 2013 read with Section 19 of the CAG's (Duties, Powers and Conditions of Service) Act, 1971 and the Regulations made there under. Under the Companies Act, 2013, the CAG appoints Chartered Accountants as Statutory Auditors for Companies and gives directions on the manner in which the accounts are to be audited. In addition, CAG has right to conduct a supplementary audit. The statutes governing Statutory Corporations require their accounts to be audited by CAG.

5.3 PSUs and their contribution to the GSDP of J&K

PSUs are established to carry out activities of commercial nature keeping in view the welfare of people and occupy an important place in the economy of J&K. As on 31 March 2022, there were 42 PSUs in Jammu & Kashmir under

[1] Companies (Removal of Difficulties) Seventh Order, 2014 issued by Ministry of Corporate Affairs vide Gazette Notification dated 4 September 2014.

the audit jurisdiction of the CAG. These include 39 Government Companies (including six[2] inactive Government Companies), two Statutory Corporations and one Government Controlled Other Company[3]. The names of these PSUs are given in ***Appendix 5.1.***

One PSU (Jammu & Kashmir Bank Limited) is listed on the stock exchange. There are six inactive PSUs (including four under liquidation) having investment of ₹57.57 crore towards capital (GoJ&K: ₹56.59 crore and Others: ₹0.98 crore) and long term loans ₹0.83 crore (GoJ&K: ₹0.83 crore and Others: Nil). This is a critical area as the investments in inactive PSUs do not contribute to the economic growth of the J&K. The Government may therefore consider continuation these inactive PSUs early.

The ratio of turnover of the PSUs to the Gross State Domestic Product (GSDP) of J&K indicates the contribution of their activities in the economy of J&K. The details of turnover of PSUs are given in ***Appendix 5.2***.

Table 5.1 provides the details of turnover of the PSUs and GSDP of J&K for a period of three years ending March 2022.

Table 5.1: Details of turnover of PSUs *vis-a-vis* GSDP of J&K

(₹ in crore)

Particulars	2019-20	2020-21	2021-22
Turnover as per latest finalised accounts	11,298.17	10,590.68	10,515.82
GSDP of J&K	1,64,135.00	1,70,201.00	1,95,118.00
Percentage of Turnover to GSDP of J&K	6.88	6.22	5.39

Source: Ministry of Statistics and Programme Implementation (MOSPI), GoI website and latest finalised accounts of PSUs for year to year comparison.

The contribution of PSUs to the GSDP reduced from 6.88 *per cent* in 2019-20 to 5.39 *per cent* in 2021-22. The major contributors to turnover of PSUs in 2021-22 were Jammu & Kashmir Bank Limited (₹8,013.48 crore), Jammu & Kashmir Power Development Corporation Limited (₹1,037.85 crore) and Jammu & Kashmir Small Scale Industries Development Corporation Limited (₹438.50 crore).

5.4 Investment in PSUs and Budgetary support

5.4.1 (A) Quality of Investments in the Companies, Corporations and other bodies

During 2021-22, Government of UT of Jammu and Kashmir booked ₹69.37 crore as investment. However, Companies, Corporations and other bodies

[2] (1) Tawi Scooters Limited (2) Himalayan Wool Combers Limited and (3) Jammu & Kashmir Handloom Handicrafts Raw Material Supplies Organisation Limited (A Subsidiary of Himalayan Wool Combers Limited) (4) Jammu & Kashmir Road Development Corporation Limited and (5) Jammu & Kashmir International Trade Centre and (6) Jammu & Kashmir Asset Reconstruction Limited

[3] Chenab Valley Power Projects (Private) Limited (CVPPPL), a joint venture of Jammu and Kashmir Power Development Corporation Limited(JKPDCL), National Hydroelectric Power Corporation (NHPC) and Power Trading Corporation (PTC) wherein Government of Jammu & Kashmir has not made any direct investment

concerned had shown an investment of ₹573.01 crore during 2021-22, thereby resulting in variation of ₹503.64 crore.

Out of total investment of ₹69.37 crore, an amount of ₹53.12 crore has been invested in J&K Road Transport Corporation (JKRTC), which had reported loss of ₹117.62 crore as per its last audited accounts for the year 2018-19.

UT of Jammu and Kashmir had total investment of ₹879.13 crore as on 31 March 2022 in 39 Companies (₹445.03 crore), two Statutory Corporations (₹191.90 crore), eight Co-operative Institutions/ Local Bodies (₹239.85 crore), two Rural Banks (₹2.35 crore). The major portion of investments has been made in JKRTC ₹191.91 crore and Chenab Valley Power Projects ₹409.15 crore.

Erstwhile J&K State Government had cumulative investment of ₹4,620.16 crore in 37 Companies (₹4,157.86 crore), three Statutory Corporations (₹368.31 crore), eight Co-operative Institutions/ Local Bodies (₹47.83 crore), two Rural Banks (₹45.82 crore) and two Joint Stock Companies (₹0.34 crore) ending 30 October 2019 which had not been apportioned between Union Territory of Jammu and Kashmir and Union Territory of Ladakh. No dividend was received and credited to Government accounts during the year. ***Table 5.2(A)*** gives overall picture of return on investment *vis-a-vis* the average cost of Government borrowing.

Table 5.2 (A): Return on Investment

(₹ in crore)

Investment/return/ cost of borrowings	**2020-21**	**2021-22**
Investment at the end of the year *(₹ in crore)*	306.12	879.13
Return *(₹ in crore)*	Nil	Nil
Return (*per cent)*	Nil	Nil
Average rate of interest on Government Borrowings (Public debt) (*per cent*)	7.82	7.94
Difference between interest rate and return (*per cent*)	7.82	7.94
Difference between cost of Government borrowings and return on investment *(₹ in crore)*[#]	23.94	69.80

 # Investment at the end of the year X Difference between interest rate and return
100

Source: Finance Accounts.

Average rate of interest paid on its borrowings by the Government during 2021-22 was 7.94 *per cent* against which Nil return on investment was received by the Government. Cost of borrowing of the Government during 2021-22 has increased from ₹23.94 crore to ₹69.80 crore. Taking into account the investment of erstwhile State amounting to₹4,620.17 crore, the cost of borrowing amounts to ₹436.64 crore.

5.4.1 (B) Equity holding and Loans given

Details of Investment made in 42 PSUs in form of equity and long term loans upto 31 March 2022 are given in ***Appendix 5.3.*** Sector wise summary of this investment is given in ***Table 5.2(B)***.

Table 5.2(B): Government of J&K investment in PSUs

(₹ in crore)

Name of Sector	Number of PSUs	Investment				Total Investment	Total Investment of GoJ&K
		Equity		Long term loans			
		Total	GoJ&K	Total	GoJ&K		
Power Sector PSUs	6	6,029.99	2,593.54	11,984.80	0.00	18,014.79	2,593.54
Non power Sector PSUs	36	1,127.51	975.87	6,176.05	1,539.42	7,303.56	2,515.29
Total	**42**	**7,157.50**	**3,569.41**	**18,160.85**	**1,539.42**	**25,318.35**	**5,108.83**

(Source: Compiled based on information received from PSUs)

The thrust of investment was mainly on power sector. This sector had attracted 71.15 *per cent* (₹18,014.79 crore) of total investment of ₹25,318.35 crore. The GoJ&K had invested 50.77 *per cent* (₹2,593.54 crore) of its total investment of ₹5,108.83 crore in power sector PSUs.

5.4.2 Subsidy and Grant to PSUs

The GoJ&K provides financial support to the PSUs in various forms through the annual budget as equity, loans, grants/subsidies, loans written off and loans converted into equity.

Summarized details of budgetary outgo towards equity, loans, grants/ subsidies, loans written off and loans converted into equity in respect of PSUs for the last three years ending March 2022 are given in ***Table 5.3***.

Table 5.3: Details regarding budgetary support by GoJ&K to PSUs during the period 2019-20 to 2021-22

(₹ in crore)

Sl. No.	Particulars	2019-20		2020-21		2021-22	
		Number of PSUs*	Amount	Number of PSUs*	Amount	Number of PSUs*	Amount
1	Equity Capital outgo	3	2,616.82	7	83.47	3	554.32#
2	Loans given	8	48.07	7	51.85	9	73.27
3	Grants/Subsidy provided	12	100.50	11	3,016.38	14	2,845.52
	Total outgo		**2,765.39**		**3,151.70**		**3,473.11**
4	Loan repayment written off	-	-	-	-	-	-
5	Loans converted into equity	-	-	2	152.42	-	-
6	Guarantees	-	-	-	-	3	5,404.59

Sl. No.	Particulars	2019-20		2020-21		2021-22	
		Number of PSUs*	Amount	Number of PSUs*	Amount	Number of PSUs*	Amount
	issued						
7	Outstanding Guarantee Commitment	3	1,580.90	5	7,698.97	7	12,522.72

(Source: Compiled based on information received from PSUs)

** Number of PSUs represents those PSUs which have received outgo from budget under one or more heads i.e. equity, loans and grants/ subsidies.*

 # This includes ₹ 500 crore in respect of J&K Bank. 16,76,72,702 equity share of ₹ one (face value) each issued to GoJK on preferential basis at the issue price of ₹29.82 per share (including share premium of ₹28.82 per share).

The increase in assistance during 2021-22 was mainly due to grant/subsidy given to five power sector PSUs viz. Jammu & Kashmir Power Development Corporation, Jammu & Kashmir Power Corporation Limited, Jammu & Kashmir Power Transmission Corporation Limited, Jammu Power Distribution Corporation Limited and Kashmir Power Distribution Corporation Limited.

The increase in guarantee commitments in the year 2021-22 were in case of Jammu & Kashmir Power Development Corporation Limited (₹1,209.83 crore), Jammu & Kashmir Power Corporation Limited (₹10,321.83 crore), Jammu & Kashmir Infrastructure Development Finance Corporation (₹750.00 crore), Jammu & Kashmir SC, ST and Backward Classes Development Corporation Limited (₹101.38 crore), Jammu & Kashmir Women's Development Corporation Limited (₹91.61 crore), Jammu & Kashmir and Ladakh Financial Corporation Limited (₹44.94 crore) and Jammu & Kashmir Cement Limited (₹3.13 crore).

5.4.3 Reconciliation with the Finance Accounts of the Government of Jammu and Kashmir

The figures in respect of equity, loans and guarantees outstanding as per records of PSUs should agree with that of the figures appearing in the Finance Accounts of the GoJ&K. In case the figures do not agree, the concerned PSUs and the Finance Department should carry out reconciliation of the differences. The mismatch between the figures furnished by the PSUs with those depicted in the Finance Account, as on 31 March 2022 is given in ***Table 5.4*** below:

Table 5.4: Equity and Loans outstanding as per Finance Accounts *vis-à-vis* records of PSUs upto March 2022

(₹ in crore)

Outstanding in respect of	Amount as per Finance Accounts	Amount as per records[4] of PSU	Difference
Share capital	3,032.27	3,078.09	45.82
Outstanding Loans	884.24	1,238.52	354.28
Guarantees	1,209.83	1,212.96	3.13

(Source: Compiled based on information received from PSUs and Finance Accounts)

[4] Unaudited current figures up to March 2022.

The differences occurred in respect of six PSUs as detailed in ***Appendix 5.4***. The differences between the figures are persisting for last many years. The issue of reconciliation of differences was also taken up with the PSUs and the Departments from time to time. Major difference in balances was observed in Jammu & Kashmir Power Development Corporation, Jammu & Kashmir Minerals Limited and Jammu & Kashmir Road Transport Corporation relating to outstanding loans.

It is recommended that the GoJ&K and the respective PSUs should reconcile the differences in accounts in a time-bound manner**.**

5.4.4 Adequacy of assets to meet loan liabilities in PSUs

Ratio of total debt to total assets is one of the methods used to determine whether a company can stay solvent. To be considered solvent, the value of an entity's assets must be greater than the sum of its loans/debts. The coverage of long term loans by value of total assets in 20 PSUs which had outstanding loans as per their latest finalized accounts as of 30 September 2022 is given in ***Table 5.5*** below:

Table 5.5: Coverage of long term loans with total assets

Nature of PSU	Positive Coverage				Negative Coverage			
	No. of PSUs	Long Term Loans	Assets	Percentage of Assets to Loans	No. of PSUs	Long Term Loans	Assets	Percentage of Assets to Loans
	(₹ in crore)				(₹ in crore)			
Government Company	13	5,805.22	1,50,111.84	2,585.81	0	0	0	0
Statutory Corporation	2	715.45	1,651.77	230.87	5	1,576.60	876.32	55.58
Total	**15**	**6,520.67**	**1,51,763.61**	**2,327.42**	**5**	**1,576.60**	**876.32**	**55.58**

(Source: Latest finalized accounts of PSUs).

5.4.5 Market Capitalisation of equity investment in Government Companies

Market Capitalisation represents market value of shares of companies which are listed. As on 31 March 2022, there was only one PSU viz. Jammu & Kashmir Bank Limited, having a total paid-up equity of ₹93.30 crore, listed on the stock exchange. The majority (70.12 *per cent*) of paid-up equity of ₹93.30 crore of the Bank is held by the Government of Jammu & Kashmir and the remaining (29.88 *per cent*)[5] by Foreign Institutional Investors, Resident Individuals and others. The market value of shares of Jammu & Kashmir Bank

[5] Indian Mutual Funds, Insurance Companies, Non-Resident Indian and Corporate Bodies

Limited was ₹3,013.22 crore as on 31 March 2022 as compared to ₹1,901.35 crore as on 31 March 2021.

5.4.6 Disinvestment, restructuring and privatisation

During the year 2021-22, there was no case of disinvestment, restructuring and privatisation of PSUs.

5.5 Returns from PSUs

There were 12 PSUs that reported profit in their latest financial statements as detailed in ***Appendix-5.5***. The reported profit earned increased to ₹566.10 crore in 2021-22 from ₹520.12 crore in 2020-21.

The details of top three PSUs which contributed maximum profit are summarised in ***Table 5.6***.

Table 5.6: Top three SPSEs which contributed maximum profit

Name of SPSE	Net profit (*₹ in crore*)	Percentage of profit to total SPSEs profit
Jammu & Kashmir Bank Limited	501.56	88.60
Jammu & Kashmir Power Development Corporation Limited	20.42	3.61
Jammu & Kashmir Police Housing Corporation Limited	12.23	2.16
Total	**534.21**	**94.37**

(Source: Latest finalized accounts of PSUs).

It may be seen that these three SPSEs had contributed 94.37 *per cent* of the total profit of ₹566.10 crore.

5.5.1 Dividend payout by PSUs

As per the latest finalized accounts as of 30 September 2022, 12 PSUs earned an aggregate profit of ₹566.10 crore. No PSU had declared/ paid dividend[6].

5.6 Debt Servicing and legal compliances

5.6.1 Position of Long Term Loan of PSUs

The details of long term loan of PSUs during the period 2019-20 to 2021-22 are as follows:

Table 5.7: Details of Long Term Loan

(₹ in crore)

Year	Long term Loans at the end of the year		
	GoJ&K	Others	Total
2019-20	1,567.01	4,358.66	5,925.67
2020-21	1,437.72	10,852.46	12,290.48
2021-22	1,539.42	16,621.43	18,160.85

[6] Only those PSUs were considered that had submitted accounts for 2021-22

Long Term Loans of the PSUs increased to ₹18,160.85 crore as on 31 March 2022 from ₹5,925.67 crore as at the end of March 2020 mainly due to the long term loans of ₹1,256.80 crore and ₹6,012.24 crore[7] availed by Jammu & Kashmir Power Development Corporation Limited (JKPDCL) and Jammu & Kashmir Power Corporation Limited (JKPCL) respectively from banks and other financial institutions during 2020-21 and ₹4,309.59 crore and ₹2,372.77 crore availed by JKPCL and Jammu & Kashmir Infrastructure Development Finance Corporation respectively during 2021-22. GoJ&K share in total long term loan of the PSUs decreased from ₹1,567.01 crore by end of March 2020 to ₹1,437.72 crore by end of March 2021 and increased to ₹1,539.42 crore by end of March 2022.

5.6.2 Interest Coverage in PSUs

Interest Coverage Ratio (ICR) is used to determine the ability of a Company to pay interest on outstanding debt and is calculated by dividing a Company's Earnings Before Interest and Taxes (EBIT) by interest expenses of the same period. The lower the ratio, the lesser the ability of the Company to pay interest on debt. An ICR of below one indicates that the Company was not generating sufficient revenues to meet its expenses on interest.

The details of interest coverage ratio of PSUs as per the latest finalised accounts during the period from 2017-18 to 2021-22 are given below in ***Table 5.8***.

Table 5.8: Interest Coverage Ratio of PSUs

(₹ in crore)

Year	Interest	EBIT	Number of PSUs having liability of loans from Government and Banks and other financial institutions	Number of PSUs having interest coverage ratio	
				More than 1	Less than 1
2017-18	413.61	872.62	17	6	11
2018-19	529.65	1,360.47	15	6	9
2019-20	493.47	-452.04	15	7	8
2020-21	529.36	1,031.19	14	7	7
2021-22	535.22	1,104.64	14	7	7

(Source: Latest finalized accounts of PSUs).

Of these 14 PSUs[8] having liability of loans from Government as well as Banks

[7] Special Long Term Transition Loan amounting to ₹11,024.47 crore (Power Finance Corporation Limited: ₹8,234.47 crore and from REC Limited: ₹2,790 crore) sanctioned in favour of Jammu & Kashmir Power Corporation Limited for clearing overdues on account of power purchased, out of which loan amount of ₹6,012.24 crore has been availed during 2020-21 and ₹4,309.59 crore during 2021-22.

[8] Excluding: (A) six inactive PSUs (1) Tawi Scooters Limited (2) Himalayan Wool Combers Limited and (3) Jammu & Kashmir Handloom Handicrafts Raw Material Supplies Organisation Limited (A Subsidiary of Himalayan Wool Combers Limited) (4) Jammu & Kashmir Road Development Corporation Limited and (5) Jammu & Kashmir International Trade Centre, (6) Jammu & Kashmir Asset Reconstruction Limited,
(B), four working PSU (1) Jammu & Kashmir Medical Supplies Corporation Limited, (2) AIC-Jammu & Kashmir EDI Foundation, (3) Jammu Mass Rapid Transit Corporation Pvt. Limited, (4) Srinagar Mass Rapid Transit Corporation Pvt. Limited, which never submitted their accounts since inception,

and other Financial Institutions during 2021-22, seven PSUs had interest coverage ratio of more than one, whereas remaining seven PSUs had Interest Coverage Ratio below one, which indicated that these seven PSUs could not generate sufficient revenues to meet their expenses on interest during the period.

5.6.3 Age wise analysis of interest outstanding on Government Loans

As on 31 March 2022, interest amounting to ₹2,694.51 crore was outstanding on the long term loans of ten PSUs provided by GoJ&K. The age wise analysis of interest outstanding on Government Loans in PSUs is depicted in ***Table. 5.9***.

Table 5.9: Interest outstanding on Government Loans

(₹ in crore)

SI. No	Name of PSU	Outstanding Interest on GoJ&K Loan	Interest on GoJ&K loans outstanding for less than 1 year	Interest on GoJ&K loans outstanding for 1 to 3 years	Interest on GoJ&K loans outstanding for more than 3 years
1	Jammu & Kashmir Minerals Limited	950.94	19.27	38.54	893.13
2	Jammu & Kashmir Industries Limited	753.59	39.39	118.17	635.43
3	Jammu & Kashmir Road Transport Corporation	720.60	61.51	123.02	536.07
4	Jammu & Kashmir Handloom Development corporation Limited	88.17	0.00	0.00	88.17
5	Jammu & Kashmir Forest Development Corporation Limited	44.08	0.00	0.00	44.08
6	Jammu & Kashmir Scheduled Castes, Scheduled Tribes and Backward Classes Development Corporation Limited	17.37	1.10	3.52	12.75
7	Jammu & Kashmir Women Development corporation	2.61	0.00	0.00	2.61
8	Jammu & Kashmir Horticulture Produce Marketing and Processing Corporation Limited	1.99	0.17	0.76	1.06
9	Jammu & Kashmir Tourism Development Corporation Limited	0.20	0.00	0.00	0.20
10	Jammu & Kashmir Handicrafts (S&E) Development Corporation Limited	114.96	6.97	13.94	94.05
Total		**2,694.51**	**128.41**	**297.95**	**2,307.55**

(Source: Compiled based on information received from PSUs)

(C) 12 PSUs (1) JKB Financial Services Limited (2) Jammu & Kashmir Police Housing Corporation Limited (3) Jammu & Kashmir Cable Car Corporation Limited (4) Jammu & Kashmir Overseas Employment Corporation Limited (5) Jammu & Kashmir Trade Promotion Organisation (6) Srinagar Smart City Limited (7) Jammu & Kashmir Power Transmission Corporation Limited, (8) Jammu & Kashmir Power Corporation Limited, (9) Jammu Power Distribution Corporation Limited, (10) Kashmir Power Distribution Corporation Limited and (11) Jammu & Kashmir IT Infrastructure Development Pvt. Limited, (12) Jammu Smart City Limited and which have not availed any loan,

(D) five PSUs (1) Jammu & Kashmir Agro Industries Development Corporation Limited, (2) Jammu & Kashmir Forest Development Corporation Limited (3) Jammu & Kashmir Projects Construction Corporation Limited and (4) Jammu & Kashmir Handloom Development Corporation Limited (5) Jammu & Kashmir Infrastructure Development Finance Corporation P Limited which have not provided for the interest in their books of account, and

(E) one PSU viz. CVPPPL as all its projects are under construction.

5.7 Operating efficiencies of PSUs

5.7.1 Value of production

The details of value of production, total assets and capital employed[9] during 2019-20 to 2021-22 are given in ***Table 5.10***.

Table 5.10: Value of production, total assets and capital employed during 2019-20 to 2021-22

(₹ in crore)

Year	Value of production	Total assets	Capital employed
2019-20	11,298.17	1,26,488.40	5,960.28
2020-21	10,590.64	1,36,643.45	5,865.24
2021-22	10,515.82	1,48,646.69	7,381.74

(Source: Latest finalized accounts of the Companies)

Value of production decreased from ₹11,298.17 crore in 2019-20 to ₹10,515.82 crore in 2021-22. However, total assets increased to from ₹1,26,488.40 crore in 2019-20 to ₹1,48,646.69 crore in 2021-22. The Capital employed increased from ₹5,960.28 crore in 2019-20 to ₹7,381.74 crore in 2021-22.

5.7.2 Return on Investment in Listed PSU

Return on investment (ROI) is a performance metric to evaluate the efficiency of investment over time in comparison to alternate investment opportunities or a benchmark investment opportunity. Only one PSU of GoJ&K, Jammu & Kashmir Bank Limited is listed on the stock exchange. Calculation of ROI along with compound annual growth rate is given in ***Appendix 5.6***. The detail of ROI during last five years ending March 2022 is given in ***Table 5.11***.

Table: 5.11 Return on Investment of Listed PSU

(*In per cent*)

	2017-18	2018-19	2019-20	2020-21	2021-22
ROI[10]	409.61	361.60	182.79	243.81	291.95

The ROI showed a decreasing trend from 2017-18 to 2019-20, however it increased during 2020-21 and 2021-22. The compounded annual growth rate decreased from 1.98 *per cent* to (-)2.05 *per cent* during 2017-18 to 2019-20 and improved to (-)0.67 *per cent* during 2020-21 and to 0.14 *per cent* during 2021-22**.**

[9] Capital Employed= Paid-up Capital + Free Reserves and Surplus + Long Term Loans - Accumulated Losses - Deferred Revenue Expenditure.

[10] ROI= (Government's share of the Market Capitalisation of the Company as at 31 March of FY + Present Value of Dividend Receipts of the Government as at 31 March of FY + Present Value of Disinvestment Receipts of the Government as at 31 March of FY) – (Paid-up Equity of the Government as at Inception + Discounted Value of Equity infused by the Government as at Inception + Discounted Value of Subsidy/Grants infused for meeting Operational and Administrative Expenditure as at Inception)/ (Paid-up Equity of the Government as at Inception + Discounted Value of Equity infused by the Government as at Inception + Discounted Value of Subsidy/ Grants infused for meeting Operational and Administrative Expenditure as at Inception)/ Number of intervening annual periods

5.7.3 Return on Capital Employed and Equity in Listed PSUs

The profitability of a Company is traditionally assessed through return on equity and return on capital employed. Return on Capital Employed (ROCE)[11] is a financial ratio that measures the Company's profitability and the efficiency with which its capital is used and is calculated by dividing Company's earnings before interest and taxes by capital employed. Return on Equity (ROE)[12] is a measure of performance calculated by dividing the net profit after tax by shareholders fund.

Detail of ROCE and ROE of Jammu & Kashmir Bank Limited, the only listed Company, is given in ***Table 5.12***:

Table 5.12: ROCE and ROE of Listed PSU

(***In per cent***)

	2017-18	2018-19	2019-20	2020-21	2021-22
ROCE	11.55	17.93	-23.18	15.50	14.56
ROE	7.56	15.46	-61.63	21.00	20.47

The ROCE and ROE was high during last five years (except during 2019-20), mainly due to high profit after tax earned by Jammu & Kashmir Bank Limited. During 2019-20, ROCE and ROE was negative due to loss incurred by the Bank.

The ROCE worked at realised value[13] of investment in respect of Jammu & Kashmir Bank Limited is as follows:

Table 5.13: ROCE for Listed PSUs considering share premium

(***In per cent***)

2017-18	2018-19	2019-20	2020-21	2021-22
10.12	16.17	-18.06	12.20	10.67

The ROCE after considering the share premium account of Jammu &Kashmir Bank Limited, ranged between (-)18.06 *per cent* to 16.17 *per cent* during the period 2017-18 to 2021-22.

5.7.4 Return on Capital Employed and Equity of Non-Listed PSUs

The details of ROCE and ROE of non-listed PSUs[14] during the period from 2017-18 to 2021-22 are given in ***Table 5.14***.

[11] ROCE = Earnings before Interest and Tax/ Capital Employed. Figures are as per the latest year for which accounts of the PSUs are finalised

[12] ROE=Profit after Tax/Share holders' Fund, Share holders' Fund = Paid up capital + Free Reserves and Surplus– Deferred Revenue Expenditure – Accumulated Losses

[13] Investment including share premium

[14] Excluding six inactive PSUs, four PSUs initial accounts of which were not received since inception and one company viz. CVPPPL as all its projects are under construction

Table 5.14: Return on Capital Employed and Equity

(₹ in crore)

Year	PBIT	PAT	Capital Employed[15]	Shareholders Fund	ROCE	ROE
2017-18	391.70	-8.52	7,826.10	3,999.47	5.01	-0.21
2018-19	350.81	-29.92	7,779.10	3,811.35	4.51	-0.79
2019-20	480.33	117.26	7,878.91	3,433.16	6.10	3.42
2020-21	437.75	-119.66	7,593.02	3,040.39	5.77	-3.94
2021-22	437.10	-126.04	8,337.07	2,818.82	5.24	-4.47

The ROCE ranges between 4.51 *per cent* and 6.10 *per cent* and ROE ranges between (-)4.47 *per cent* and 3.42 *per cent* during the period 2017-18 to 2021-22.

5.7.5 Rate of Real Return (RORR) on Government Investment PSUs

In order to bring the historical cost of investment to its present value at the end of each year upto 31 March 2022, Present Value (PV) of money invested was computed where funds had been infused by the GoJ&K as equity, interest free loan and interest free loan converted into equity. Grant/ subsidy given by the Government for operational and management expenses have not been considered as bifurcation of grant and subsidy for operational and management expenses and for other purpose was not available since inception of these companies till 31 March 2022.

The PV in these undertakings was computed on the following assumptions:

- Interest free loans have been considered as fund infusion. However, in case of repayment of loans by the PSUs, the PV was calculated on the reduced balances of interest free loans over the period.
- The average rate of interest on government borrowings for the concerned financial year was adopted as discount rate for arriving at Present Value since they represent the cost incurred by the Government towards investment of funds for the year.
- The GoJ&K infused ₹5.00 crore as equity in JKPDCL. In addition to this, the GoJ&K also provided Plan funds since inception of the Company (1994-95) for creation of Capital Assets, which could not be bifurcated, has not been considered. Plan fund given to Jammu and Kashmir Power Development Department and Assets transferred to JKPDCL by GoJ&K, later converted into equity, has been added to the equity contribution in the year 2019-20.
- Jammu Power Distribution Company Limited, Kashmir Power Distribution Company Limited, Jammu and Kashmir Power Transmission Corporation Limited and JKPCL started their operations

[15] Including plan fund infusion of GoJ&K in JKPDCL

w.e.f. 1 April 2020, hence, equity contribution was considered in the year 2020-21 for the purpose of PV calculation of GoJ&K investment.

- For the purpose of PV calculation of GoJ&K investment, the period from 2000-01 till 2021-22 has been taken for considering the investment of GoJ&K in PSUs.

The year wise position of investment made by the GoJ&K in PSUs and calculation of Net Present Value of the investment relating to those PSUs wherein the GoJ&K had made investment is indicated in ***Appendix 5.7.***

The historical cost of investment by the GoJ&K in these PSUs at the end of 2021-22 increased to ₹4,136.69 crore[16] from ₹352.29 crore at the beginning of 1999-2000. The GoJ&K made investments in form of equity (₹3,662.11 crore) and interest free loans (₹139.79 crore) during the period 1999-2000 to 2021-22. Besides, GoJ&K made investment of ₹522 crore[17] in plan fund up to March 2022 in JKPDCL.

The PV of the investment infused by the GoJ&K as on 31 March 2022 amounted to ₹7,519.26 crore. The net earnings of PSUs as per their latest finalized accounts was ₹380.19 crore.

An analysis of the earnings *vis-à-vis* investments in respect of 40[18] PSUs where funds had been infused by the GoJ&K was carried out to assess the profitability of these PSUs which is given in ***Table 5.15***.

Table 5.15: Real Rate of Return

(₹ in crore)

Financial year	PV of total investment at the beginning of the year	Total investment during the year	Total investment at the end of the year	Average rate of interest	PV of total investment at the end of the year	Total Earnings[19]	RORR
2017-18	2,181.27	101.63	2,282.903	7.23	2,447.96	192.85	7.88
2018-19	2,447.96	143.92	2,591.876	7.20	2,778.49	434.33	15.63
2019-20	2,778.49	2632.7	5,411.19	7.20	5,800.80	-1,022.15	-17.62
2020-21	5,800.80	130.57	5,931.37	7.82	6,395.20	306.12	4.79
2021-22	6,395.20	570.95	6,966.15	7.94	7,519.26	372.64	4.96

During the period from 2017-18 to 2021-22, these 40 PSUs had a positive return on investment (except for the year 2019-20). During 2021-22, return on GoJ&K investment on the basis of historical value was 9.01 *per cent.* However, the Real Rate of Return considering the present value of investment was 4.96 *per cent* only.

[16] Opening balance: (₹352.29 crore) + Equity: (₹3,662.11 crore) + Interest free loans: (₹139.79 crore) - Interest free loan converted into equity: (₹17.5 crore)

[17] This investment was made from 2018-19 to 2021-22 and investment before this period had been converted into equity of GoJ&K

[18] Excluding JKB Financial Services Limited and CVPPPL wherein the GoJ&K had not made any investment

[19] As per the latest finalized accounts

5.8 PSUs incurring losses

There were 17 PSUs that incurred losses during the year 2021-22 as per their latest finalized accounts as detailed in ***Appendix-5.8***. The losses incurred by these PSUs decreased to ₹186.28 crore in 2021-22 from ₹1,354.96 crore in 2019-20 as per their latest finalized accounts as given below in ***Table 5.16***.

Table 5.16: Summary of PSUs that incurred losses during 2019-20 to 2021-22

(₹ in crore)

Year	No of PSUs incurred loss	Net loss for the year	Accumulated Profit/ Loss	Net Worth[20]
A. Statutory Corporations				
2019-20	2	132.98	(-)1,563.95	(-)1,309.35
2020-21	1	117.62	(-)1,634.94	(-)1,426.98
2021-22	1	117.62	(-)1,634.94	(-)1,426.98
B. Government Companies				
2019-20	11	1221.98	357.72	527.18
2020-21	14	93.71	(-)1,780.54	(-)1,643.83
2021-22	16	68.66	(-)1,120.03	(-)986.72
C. Government Controlled Other Company				
2019-20	0	-	-	-
2020-21	1	3.18	49.34	2,773.00
2021-22	0	-	-	-
Total PSUs				
2019-20	13	1,354.96	(-)1,206.23	(-)782.17
2020-21	16	214.51	(-)3,366.14	(-)297.81
2021-22	17	186.28	(-)2,755.24	(-)2,413.70

Source: Latest finalized accounts as on 31 December 2020, 30 November 2021 and 30 September 2022.

Out of total loss of ₹186.28 crore incurred by 17 PSUs in 2021-22, loss of ₹177.70 crore was attributed to seven PSUs listed in ***Table 5.17*** which incurred loss of more than ₹five crore as per their latest information provided. The majority of the loss for the year 2019-20 is attributable to the loss of ₹1,139.41 crore reported by Jammu & Kashmir Bank Limited. The bank reported profit in its operations in the year 2020-21 of ₹428.45 crore and in the year 2021-22 of ₹501.56 crore.

Table 5.17: PSUs (other than power sector) that incurred losses of more than ₹five crore

Sl. No.	Name of the PSU	Net loss (₹ in crore)
1	Jammu & Kashmir Road Transport Corporation	117.62
2	Jammu & Kashmir State Industrial Development Corporation Limited	20.54
3	Jammu & Kashmir Horticulture Produce Marketing and Processing Corporation Limited	10.25

[20] Net worth means the sum total of the paid-up share capital and free reserves and surplus less accumulated loss and deferred revenue expenditure. Free reserves mean all reserves created out of profits and share premium account but do not include reserves created out of revaluation of assets and write back of depreciation provision.

Sl. No.	Name of the PSU	Net loss (₹ in crore)
4	Jammu & Kashmir Handicrafts (Sales and Export) Development Corporation Limited	8.60

Source: Latest finalised accounts as on 30 November 2021.

It is recommended that GoJ&K may review the functioning of its loss making PSUs and consider measures to improve them since they are causing substantial drain on the public exchequer.

5.8.1 Erosion of Capital in PSUs

As on 31 March 2022, there were 20 PSUs with accumulated losses of ₹3,881.66 crore ***(Appendix 5.9).*** Of these 20 PSUs, 16 PSUs incurred losses amounting to ₹184.26 crore and four PSUs had not incurred loss, even though they had accumulated loss of ₹1,133.63 crore. The net worth of 13 out of 20 PSUs had been completely eroded by accumulated losses. The net worth of these 13 PSUs was (-)₹3,368.15 crore against equity investment of ₹505.42 crore as on 31 March 2022. Out of these 13 PSUs, whose capital had been eroded, three PSUs had earned profit of ₹3.29 crore during 2021-22. The details of 13 PSUs are given below.

Table 5.18: Details of PSUs whose net worth has been eroded as per their latest finalized accounts

(₹in crore)

5.9 Oversight Role of CAG

5.9.1 Audit of Public Sector Undertakings (PSUs)

Comptroller & Auditor General of India (CAG) appoints the statutory auditors of a State Government Company and State Government Controlled Other Company[21] under Section 139 (5) and (7) of the Companies Act, 2013. CAG has a right to conduct a supplementary audit and issue comments upon or supplement the Audit Report of the statutory auditor. Statutes Governing some Corporations require that their accounts be audited by the CAG and a report be submitted to the State Legislature.

5.10 Appointment of statutory auditors of PSUs by CAG

Section 139 (5) of the Companies Act, 2013 provides that the statutory auditors in case of a State Government Company are to be appointed by the CAG within a period of 180 days from the commencement of the financial year.

5.11 Submission of accounts by PSUs

5.11.1 Need for timely submission

According to Section 395 of the Companies Act 2013, Annual Report on the working and affairs of a Government Company, is to be prepared within three months of its Annual General Meeting (AGM) and as soon as may be after

[21] A Government Company is defined in Section 2(45) of the Companies Act, 2013 as a company in which not less than 51 *per cent* of the paid up share capital is held by Central Government, or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments and includes a company which is a subsidiary of a Government Company. Any other company owned or controlled, directly, or indirectly, by the Central Government or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments are referred to in this Report as Government controlled other Companies.

such preparation laid before both the Houses of State Legislature together with a copy of the Audit Report and any comments upon or supplement to the Audit Report, made by the CAG. Almost similar provisions exist in the respective Acts regulating statutory corporations. This mechanism provides the necessary legislative control over the utilisation of public funds invested in the companies from the Consolidated Fund of State.

Section 96 of the Companies Act, 2013 requires every company to hold AGM of the shareholders once in every calendar year. It is also stated that not more than 15 months shall elapse between the date of one AGM and that of the next. Further, Section 129 of the Companies Act, 2013 stipulates that the audited Financial Statement for the financial year has to be placed in the said AGM for their consideration.

Section 129 (7) of the Companies Act, 2013 also provides for levy of penalty like fine and imprisonment on the persons including directors of the company responsible for non-compliance with the provisions of Section 129 of the Companies Act, 2013.

Despite above, annual accounts of various PSUs were pending as on 30 September 2022, as detailed in the following paragraph.

5.11.2 Timeliness in preparation of accounts by Government Companies

As of 31 March 2022, there were 40 Government Companies under the purview of CAG's audit. Of these, accounts for the year 2021-22 were due[22] from 34 Government Companies[23]. However, only three Government Companies submitted their accounts for the financial year 2021-22 for audit by CAG on or before 30 September 2022. Accounts of 31 Government Companies were in arrears for various reasons. Details of arrears in submission of accounts of these are given in ***Table 5.19***.

Table 5.19: Details of arrears in submission of accounts

Particulars	Total
Total number of Companies under the purview of CAG's audit as on 31.03.2022	40
Less: New Companies from which accounts for 2021-22 were not due	0
Less: Companies under liquidation/ inactive[24]	6
Number of companies from which accounts for 2021-22 were due	34
Number of companies which presented 2021-22 accounts for CAG's audit by 30 September 2022	3
Number of companies with accounts in arrears	31

[22] The due date for submission of accounts has been considered as 30 September 2022

[23] Excluding inactive Companies

[24] Jammu & Kashmir Asset Reconstruction Limited, Tawi Scooters Limited, Himalayan Wool Combers Limited and Jammu & Kashmir State Handloom Handicrafts Raw Materials Supply Organisation Limited (under liquidation); Jammu & Kashmir State Road Development Corporation Limited and Jammu & Kashmir International Trade Centre (inactive)

Breakup of Arrears	(i) Defunct	0
	(ii) First Accounts not submitted	4
	(iii) Others	27
Age-wise analysis of arrears against 'Others' category	Up to one year (2021-22)	3
	Up to two years (2020-21 and 2021-22)	7
	Three years and more	24

Details of these companies along with the position of GoJ&K investment in these PSUs during the period of arrear accounts are indicated in ***Appendix 5.10.***

5.11.3 Timeliness in preparation of accounts by Statutory Corporations

As of 31 March 2022, there were two Statutory Corporations under the purview of CAG's audit. Audit of Statutory Corporations is governed by their respective legislations. Out of the two Statutory Corporations, the C&AG is the sole auditor for Jammu & Kashmir Road Transport Corporation. In respect of Jammu & Kashmir and Ladakh Financial Corporation, the audit is conducted by Chartered Accountants and supplementary audit is conducted by the C&AG.

The accounts of Jammu & Kashmir Road Transport Corporation and Jammu & Kashmir Financial Corporation for the years 2019-20 to 2021-22 were awaited as on 30 September 2022.

Details of these Corporations along with the position of GoJ&K investment in these Corporations during the period of arrear accounts are indicated in ***Appendix 5.10.***

5.12 CAG's oversight - Audit of accounts and supplementary audit

5.12.1 Financial reporting framework

Companies are required to prepare the financial statements in the format laid down in Schedule III to the Companies Act, 2013 and in adherence to the mandatory Accounting Standards prescribed by the Central Government, in consultation with National Advisory Committee on Accounting Standards. The statutory corporations are required to prepare their accounts in the format prescribed under the rules, framed in consultation with the CAG and any other specific provision relating to accounts in the Act governing such corporations.

5.12.2 Audit of accounts of Government Companies by Statutory Auditors

The statutory auditors appointed by the CAG under Section 139 of the Companies Act 2013, conduct audit of accounts of the Government Companies and submit their reports thereon in accordance with Section 143 of the Companies Act, 2013.

The CAG plays an oversight role by monitoring the performance of the statutory auditors in audit of public sector undertakings with the overall objective that the statutory auditors discharge the functions assigned to them properly and effectively. This function is discharged by exercising the power:

- to issue directions to the statutory auditors under Section 143(5) of the Companies Act, 2013 and
- to supplement or comment upon the statutory auditor's report under Section 143(6) of the Companies Act, 2013.

5.12.3 Supplementary Audit of accounts of Government Companies

The prime responsibility for preparation of financial statements in accordance with the financial reporting framework prescribed under the Companies Act, 2013 or other relevant Act is of the management of an entity.

The statutory auditors appointed by the CAG under section 139 of the Companies Act, 2013 are responsible for expressing an opinion on the financial statements under section 143 of the Companies Act, 2013 based on independent audit in accordance with the Standard Auditing Practices of Institute of Chartered Accountants of India (ICAI) and directions given by the CAG. The statutory auditors are required to submit the Audit Report to the CAG under Section 143 of the Companies Act, 2013.

The certified accounts of selected Government Companies along with the report of the statutory auditors are reviewed by CAG by carrying out a supplementary audit. Based on such review, significant audit observations, if any, are reported under Section 143(6) of the Companies Act, 2013 to be placed before the Annual General Meeting.

5.13 Result of CAG's oversight role

Position of supplementary audit of the financial statements of the PSUs conducted by the Comptroller and Auditor General (CAG) of India for the year 2021-22 (or of earlier years which were finalized during current year) is discussed in the next paragraph.

5.13.1 Audit of accounts of Government Companies under Section 143 of the Companies Act, 2013

Financial statements for the year 2021-22 were received from two[25] Government Companies and one Government Controlled Other Company[26] by 30 September 2022. Of these, financial statements of two[27] Government Companies were reviewed in audit by the CAG.

[25] Jammu and Kashmir Bank Limited and JKB Financial Services Limited
[26] Chenab Valley Power Projects Private Limited
[27] Non review certificate was given to JKB Financial Services Limited for the year 2021-22

31 accounts of previous years in respect of 11 PSUs were also received during the period 1 December 2021 to 30 September 2022, of which comments were issued in case of 21 accounts and 10 accounts were pending as of 30 September 2022. Further, 36 accounts of six PSUs relating to previous years which were received before 1 December 2021 were also reviewed during current year and comments were issued for all these 36 accounts of six PSUs.

5.14 Recommendations

1. The Government may impress upon those PSUs with arrear in accounts to ensure early finalisation of their Financial Statements as in the absence of their finalisation, Government investments in such PSUs remain outside the legislative oversight; and
2. The Government needs to take an early decision regarding commencement of liquidation process in respect of the inactive PSUs as they are neither contributing to economy nor meeting the objectives for which they were set up.

Explanatory Notes

1. *The abridged accounts in the foregoing statements have to be read with comments and explanations in the Finance Accounts.*
2. *Government accounts being mainly on cash basis, the deficit on Government account indicates the position on cash basis, as opposed to accrual basis in commercial accounting. Consequently, items payable or receivable or items like depreciation or variation on stock figures etc. do not figure in the accounts.*
3. *Suspense and Miscellaneous balances include cheques issued but not paid and payments made on behalf of the UT and others pending settlement, etc.*

Appendix 6
Glossary of important Budget related terms

1. ***'Accounts' or 'actuals' of a year*** - are the amounts of receipts and disbursements for the financial year beginning on *April 1st* and ending on *March 31st* following, as finally recorded in the Accounting authority's books (as audited by C&AG). Provisional Accounts refers to the unaudited accounts.
2. ***'Administrative approval' of a scheme, proposal or work*** - is the formal acceptance thereof by the competent authority for the purpose of incurring expenditure. Taken with the provision of funds in the budget, it operates as a financial sanction to the work during that particular year in which the Administrative Approval is issued.
3. ***'Annual financial statement'*** - Also referred to as Budget means the statement of estimated receipts and expenditure of the Central/State Government for each financial year, laid before the Parliament /State Legislature.
4. ***'Appropriation'*** - means the amount authorized by the Parliament/State Legislature for expenditure under different primary unit of appropriation or part thereof placed at the disposal of a disbursing officer.
5. ***'Charged Expenditure'*** - means such expenditure as is not to be submitted to the vote of the Legislature under the provisions of the Constitution.
6. ***'Consolidated Fund of India/ State'*** - All revenues of the Union/State Government, loans raised by it and all moneys received in repayment of loans form the Consolidated Fund of India/ State. No moneys out of this Fund can be appropriated except in accordance with the law and for the purposes and in the manner provided in the Constitution.
7. ***'Contingency Fund'***- is in the nature of an imprest. The Contingency Fund is intended to provide advances to the executive /Government to meet unforeseen expenditure arising in the course of a year pending its authorization by the Parliament/State Legislature. The amounts drawn from the Contingency Fund are recouped after the Parliament/State Legislature approves it through the Supplementary Demands.
8. **'*Controlling Officer (budget)'*** - means an officer entrusted by a Department with the responsibility of controlling the incurring of expenditure and/or the collection of revenue. The term includes the Heads of Department and also the Administrators.
9. ***'Drawing and Disbursing Officer' (DDO)*** - means a Head of Office and also any other Officer so designated by the Finance Department of the State Government, to draw bills and make payments on behalf of the State Government. The term shall also include a Head of Department where he himself discharges such function
10. **'*Excess Grant'*** - Excess grant means the amount of expenditure over and above the provision allowed through the original/supplementary grant, that

requires regularization by obtaining excess grant from the Parliament /State Legislature under Article 115/205 of the Constitution.

11. ***'New Service'*** **-** As appearing in Article 115(1)(a)/205(1)(a) of the Constitution, New Service means expenditure arising out of a new policy decision, not brought to the notice of Parliament/State Legislature earlier, including a new activity or a new form of investment.
12. *'****New Instrument of Service'*** **-** means relatively large expenditure arising out of important expansion of an existing activity.
13. ***'Public Accounts'*** **-** means the Public Account referred to in Section 115 (2) of the Constitution. The receipts and disbursements such as deposits, reserve funds, remittances, etc. which do not form part of the Consolidated Fund are included in the Public Account. Disbursements from the Public Account are not subject to vote by the Parliament/State Legislature, as they are not moneys issued out of the Consolidated Fund of India/State.
14. ***'Re-appropriation'*** **-** means the transfer, by a competent authority, of savings from one unit of appropriation to meet additional expenditure under another unit within the same grant or charged appropriation.
15. ***'Revised Estimate'*** **-** is an estimate of the probable receipts or expenditure for a financial year, framed in the course of that year, with reference to the transactions already recorded and anticipation for the remainder of the year in the light of the orders already issued.
16. ***'Supplementary Demands for Grants'*** **-** means the statement of supplementary demands laid before the legislature, showing the estimated amount of further expenditure necessary in respect of a financial year over and above the expenditure authorized in the Annual Financial Statement for that year. The demand for supplementary may be token, technical or substantive/cash.

    a) **Cash Supplementary -** is over and above the original budget provisions and results in enhancement of the allocation for the Demand/Grant. It should be obtained as a last resort and after proper due diligence. Presently, this method is followed by the State.
    b) There are four Sections in each Demand i.e., Revenue Voted, Revenue Charged, Capital Voted and Capital Charged. **Technical Supplementary**, after obtaining the approval of the State Legislature, allows to utilize the savings of one of the Sections for any other Section.
    c) **Token Supplementary -** allows to utilize the savings within the same section of the grant.
17. ***'Major Head'*** **-** means a Major Head of account for the purpose of recording and classifying the receipts and disbursements of the State. A Major Head, particularly the one falling within the Consolidated Fund, generally corresponds to a 'function' of Government such as Agriculture, Education, Health, etc.
18. ***'Sub-Major Head'*** **-** means an intermediate head of account introduced between a Major Head and the Minor Heads under it, when the Minor Heads are

numerous and can conveniently be grouped together under such intermediate Head.

19. ***'Minor Head'*** - means a head subordinate to a Major Head or a Sub-Major Head. A Minor Head subordinate to a Major Head identifies a "programme" undertaken to achieve the objectives of the function represented by the Major Head.
20. ***'Sub-Head'*** - means a unit of account next subordinate to a Minor Head which normally denotes the scheme or organisation under that Minor Head or programme.
21. ***'Major Work***' - means an original work, the estimated cost of which exclusive of departmental charges exceeds the amount as notified by the Government from time to time.
22. ***'Minor Work'*** - means an original work, the estimated cost of which exclusive of departmental charges does not exceed the amount as notified by the Government from time to time.
23. ***'Modified Grant or Appropriation'*** - means the sum allotted to any Sub-Head of Appropriation as it stands after Re-Appropriation or the sanction of an Additional or Supplementary Grant by competent authority.
24. ***'Supplementary or Additional Grant or Appropriation'*** - means a provision included in an Appropriation Act, during the course of a financial year, to meet expenditure in excess of the amount previously included in an Appropriation Act for that year.
25. ***'Schedule of New Expenditure'*** - means a statement of items of new expenditure proposed for inclusion in the Budget for the ensuing year.
26. ***'Token demand'*** - means a demand made to the Assembly for a nominal or token sum when, for example, it is proposed to meet the entire expenditure on a new service from savings out of the sanctioned budget grant.

PREFACE

This Report for the year ended 31 March 2023 has been prepared for submission to Lieutenant Governor of Jammu and Kashmir under Section 72 of the Jammu and Kashmir Reorganisation Act, 2019 for laying in the Legislative Assembly.

Chapter I of this report describes the basis and approach to the Report and the underlying data, provides an overview of structure of Government accounts, budgetary processes, macro-fiscal analysis of key indices and fiscal position including the deficits/ surplus.

Chapter II provides a broad perspective of the finances of the Union Territory, major fiscal aggregates, debt profile and key public accounts transactions based on the Finance Accounts of the Union Territory.

Chapter III is based on the Appropriation Accounts of the Union Territory of Jammu and Kashmir and reviews the appropriations and allocative priorities of the Union Territory Government and reports on deviations from Constitutional provisions relating to budgetary management.

Chapter IV comments on the quality of accounts rendered by various authorities of the UT Government and issues of non-compliance with prescribed financial rules and regulations by various departmental officials of the UT Government.

Chapter V discusses the financial performance of Public Sector Undertakings.

The Report containing the findings of audit of transactions in various departments, audit of Statutory Corporations, Boards and Government Companies and observations on Revenue Receipts are presented separately.

Executive Summary

EXECUTIVE SUMMARY

About the Report

This Report of the CAG of India on the UT finances for the year 2022-23 provides an overview of the finances, budgetary management and quality of accounts, financial reporting practices and other matters relevant to the UT's finances.

The executive summary highlights the contents of the report and through snapshots of important figures and aspects, provides insight into fiscal sustainability, performance against the budget intent, revenue and expenditure projections, the reasons for variations and their impact.

Gross State Domestic Product (GSDP) (at current prices) grew by 35.95 *per cent* from ₹1,67,652 crore in 2020-21 to ₹2,27,927 crore in 2022-23. Budget outlay of the UT grew by 11.97 *per cent* from ₹1,33,595.72 crore in 2020-21 to ₹1,49,582.03 crore in 2022-23.

There was 14.01 *per cent* growth in GSDP during 2022-23 over the previous year. Revenue receipts grew at 16.44 *per cent* and the percentage of revenue receipts over GSDP increased from 29.63 *per cent* in 2021-22 to 30.26 *per cent* in 2022-23. Tax revenue increased by 5.37 *per cent* during the period and the UT's own revenue increased by 5.65 *per cent*. Total expenditure (revenue expenditure, capital expenditure and loans and advances) of the UT of Jammu and Kashmir increased by 4.89 *per cent* from ₹70,390.14 crore in 2021-22 to ₹73,832.65 crore. Of this, revenue expenditure showed 6.29 *per cent* increase from 2021-22.

Against the revenue deficit of ₹30.83 crore during 2021-22 there was a surplus of ₹5,976.61 crore during 2022-23, while fiscal deficit decreased from ₹11,150.60 crore in 2021-22 to ₹4,855.37 crore in 2022-23, decreasing by 56.46 *per cent*.

Receipt-Expenditure mismatch

The continuous mismatch between receipts and expenditure indicates rising fiscal stress. The UT has different sources of receipts such as Own Tax Revenue, Non-tax Revenue, Grants-in-aid from the Union Government and non-debt capital receipts. The UT Government's expenditure includes expenditure on revenue account as well as capital expenditure (assets creation, loans and advances, investments, etc).

From 2020-21 to 2022-23, revenue receipts of the UT grew by 31.39 *per cent* from ₹52,495.48 crore to ₹68,975.95 crore. Capital receipts[1] increased from ₹40,635.06 crore in 2020-21 to ₹50,200.89 crore during 2021-22, but again decreased to ₹38,115.80 crore during 2022-23.

The share of Grants-in-aid in revenue receipts rose from 72.07 *per cent* in 2021-22 to 74.65 *per cent* in 2022-23, indicating increased reliance on support from the Government of India. The UT Government received ₹6,029.68 crore as Central share

[1] Excluding back to back loans received during 2020-21 and 2021-22 as GST compensation shortfall.

for the Centrally Sponsored Schemes (CSSs) during 2022-23. Other transfers/Grants to States/Union Territories with Legislature amounting to ₹45,463.25 crore were also received by the UT Government during the year from the Government of India.

Revenue expenditure is incurred to maintain the current level of services and payment for past obligations. As such, it does not result in any addition to the UT's infrastructure and service network. Between 2020-21 and 2022-23, revenue expenditure increased from ₹52,633.75 crore (31.39 *per cent* of GSDP) to ₹62,999.34 crore (27.64 *per cent* of GSDP). It consistently made up a significant portion (83 to 85 *per cent*) of the total expenditure during this period.

Result of expenditure beyond means

The gap between revenue receipts and revenue expenditure results in revenue deficit. As against the revenue deficit of ₹138.27 crore and ₹30.83 crore during 2020-21 and 2021-22 respectively, there was revenue surplus of ₹5,976.61 crore during 2022-23.

The UT Government spent ₹10,773.78 crore only on capital account. This was 14.59 *per cent* of the total expenditure in the year 2022-23. During 2022-23 the UT Government utilised 87.52 *per cent* of its current borrowings for repayment of borrowings (principal). Thus, the borrowed funds were being used mainly for repayment of borrowings instead of capital creation/ development activities.

The gap between the total expenditure and total non-debt receipts of the UT results in fiscal deficit. The fiscal deficit of the UT increased from ₹10,693.36 crore (6.38 *per cent* of GSDP) in 2020-21 to ₹11,150.60 crore (5.58 *per cent* of GSDP) in 2021-22, but decreased to ₹4,855.37 crore (2.13 *per cent* of GSDP) in 2022-23.

Under revenue expenditure, the quantum of committed expenditure constitutes the largest share. Committed expenditure has the first charge on the resources and consists of interest payments, expenditure on salaries and wages and pensions. Committed expenditure on interest payments, salaries and pensions constituted 75-76 *per cent* of revenue expenditure during 2020-21 (74.67 *per cent*) and 2022-23 (75.36 *per cent*). Committed expenditure increased by 20.80 *per cent* from ₹39,302.27 crore in 2020-21 to ₹47,475.27 crore in 2022-23 {an increase of 5.50 *per cent* over 2021-22 (₹2,474.32 crore)}.

In addition to committed expenditure, inflexible expenditure ranged between 2.94 *per cent* and 4.36 *per cent* of revenue expenditure during 2020-21 to 2022-23. Inflexible expenditure increased from ₹1,741.60 crore in 2021-22 to ₹2,199.44 crore in 2022-23, registering an increase of 26.29 *per cent*.

Taken together, the committed and inflexible expenditure in 2022-23 was ₹49,674.71 crore; 79 *per cent* of the revenue expenditure. Upward trend on committed and inflexible expenditure leaves the Government with lesser flexibility for other priority sectors and capital creation.

Subsidies component in non-committed expenditure

Within non-committed expenditure, there was a decreasing trend of subsidies, which decreased from ₹128.24 crore (0.96 *per cent*) in 2020-21 to ₹28.03 crore (0.18 *per cent*) in 2022-23.

Off-budget borrowings

The UT Government, through Public Sector Undertakings raised ₹23,911.53 crore as off-budget borrowings, which did not flow into the Consolidated Fund of the UT but are required to be repaid and serviced through the budget.

Contingent Liabilities on account of Guarantees

As of March 2023 the cumulative amount of outstanding guarantees against borrowings by the Union Territory Government (from 31 October 2019 onwards) post re-organisation was ₹24,867.44 crore. The annual increase of ₹12,538.64 crore in outstanding guarantees of the UT during 2022-23 was within the prescribed limits fixed in the FRBM Act, 2006. The outstanding guarantees for ₹24,867.44 crore as on 31 March 2023 were in respect of Power (₹22,513.61 crore); Cooperatives (-₹32.00 crore[2]); State Financial Corporation (₹13.66 crore) and other institutions (₹2,372.17 crore).

Fiscal sustainability

Fiscal sustainability is examined in terms of macro-fiscal parameters such as deficits, level of debt and liabilities, commitments on account of off-budget borrowings, guarantees, subsidies, etc. So far as revenue and expenditure mismatch is concerned, one of the important constraints is committed and inflexible expenditure, which includes salaries and wages, pension payments, interests, etc. and also other inflexible expenditure such as those arising out of commitment for centrally sponsored schemes, transfer to reserve funds, transfer to local bodies, etc.

FRBM requirements and compliance with fiscal parameters

The FRBM Act/ Rules prescribes certain limits within which revenue deficit, fiscal deficit, debt as a percentage of the Gross State Domestic Product (GSDP) should be maintained, and similarly for guarantees as a percentage of revenue receipts of the previous year. The Government of Jammu and Kashmir has not fixed any targets of fiscal indicators in the Medium Term Fiscal Policy Statement.

In 2022-23, the UT had a revenue surplus of ₹5,976.61 crore which comprised 2.62 *per cent* of GSDP; the fiscal deficit was 2.13 *per cent* of GSDP and the ratio of Public Liability to GSDP was 12.26 *per cent.* Further, if the quantum of off-budget borrowings is included as part of debt, the overall public liability (includes Public Debt and Public Account Liabilities) of the Government was 22.75 *per cent* of the GSDP.

[2] Minus figures due to non-apportionment of Assets and Liabilities as a result of re-organisation.

As per the debt stabilisation analysis, the public debt of the Government of Jammu and Kashmir has increased by 120 *per cent* from ₹10,567.85 crore in 2020-21 to ₹23,240.11 crore in 2022-23. Public debt-GSDP ratio of UT of Jammu and Kashmir has increased from 6.30 *per cent* in 2020-21 to 10.20 *per cent* in 2022-23 which cannot be considered as leading to stability. Ratio of interest payments on Public Debt to revenue receipts showed an increasing trend, from 8.16 *per cent* in 2020-21 to 9.08 *per cent* in 2022-23 which is indicative of decreased debt sustainability.

During 2020-21 and 2021-22, the UT had primary deficit, which later turned to primary surplus in 2022-23. The Domar gap (g-r) remained negative during 2020-21, which turned positive[3] in 2021-22 and 2022-23. Even though both the primary balance and Domar Gap remained positive in 2022-23, the same is not adequate to keep pace with the increase in outstanding debt in tandem with the increase in economic growth. This led to increase in Public Debt to GSDP ratio in 2022-23.

Misclassification in accounts

It was noticed that ₹219.13 crore of Revenue expenditure which included Grants-in-aid of ₹191.10 crore and subsidy of ₹28.03 crore was booked under the wrong head of account as Capital expenditure.

Funds to Single Nodal Agency

The Government of India and the UT Government have introduced system of Single Nodal Agency (SNA) for implementation and fund flow for each Centrally Sponsored Scheme (CSS). The share of the Government of India and the UT Government is transferred to the bank account of the SNA lying outside the Government Account.

The Government of Union Territory of Jammu and Kashmir received ₹6,131.40 crore[4] being Central share during the year. As on 31 March 2023, the Government transferred ₹3,514.36 crore being Central share and corresponding Union Territory share of ₹549.62 crore to the SNAs. Detailed vouchers and supporting documents of actual expenditure were not received by Principal Accountant General (A&E) office from the SNAs. As per the data available on Public Financial Management System (PFMS), ₹3,603.59 crore is lying unspent in the bank accounts of SNAs as on 31 March 2023. The UT Government is requested to make the details of the bills drawn, as it is of importance for completeness of the accounts, financial reporting and transparent financial control.

Funds outside Government Account

It was noticed that ₹772.20 crore collected on account of Labour Cess, Water Usage Charges, District Mineral Foundation Trust Fund and Social Responsibility Corpus Fund were kept in different bank accounts and did not form the part of Consolidated Fund or Public Account of the UT.

---

[3] The main reason for the Domar gap turning positive was increase in GSDP, which in turn was attributed to significant economic recovery post-COVID-19 pandemic.

[4] Includes total grant under CSS ₹6,12,899.96 lakh under MH-1601-06-101-Central Assistance Share and an amount ₹240 lakh received under 113-Special Assistance for Livestock Census and Integrated Sample Survey CSS.

Going by the analysis and results as discussed above, the finances of the UT of Jammu and Kashmir is marked by increasing trend of liabilities (debt, guarantees, off-budget borrowings, etc.,) which pose risk to the target of debt stabilisation and debt sustainability.

Budget performance

The original demands for grants as per the Jammu and Kashmir (No.2) Appropriation Act, 2022 passed by the Parliament was ₹1,42,150.10 crore, which was followed by Supplementary Demands for Grants of ₹3,711.72 crore. The overall expenditure incurred during 2022-23 was ₹1,07,948.46 crore. However, the individual surrender orders for savings of ₹16,793.13 crore surrendered in the Appropriation Accounts 2022-23 were not produced to CAG. This was in violation of Article 114 (2) and Article 114 (3) of the Constitution and Section 14.8.1 of the Jammu and Kashmir Budget Manual 2020.

Further, in violation of Section 14.7.2 of the J&K Budget Manual 2020, in the Appropriation Accounts of 2022-23, out of surrender of savings of ₹16,793.13 crore (not supported by valid surrender orders), an amount of ₹3,086.79 crore was augmented/ re-appropriated by the UT Government from Capital to Revenue in eight grants and one appropriation and ₹633.42 crore was augmented/ re-appropriated from Revenue to Capital in seven grants, without legislative authorisation. Thus, amounts were re-appropriated across sections i.e., from revenue to capital and *vice-versa*.

Aggregate expenditure outturn

Aggregate expenditure outturn measures the deviation in actual expenditure (Actuals) compared with the Budget Estimate (BE) originally approved, both in terms of less than (-) and in excess (+) of approval. In the Revenue section, deviation in outturn compared with Budget Estimates (BE) was (-) 19.43 *per cent*. This was due to deviation upto ± 25 *per cent* in 18 grants, between ±25 *per cent* and ±50 *per cent* in 12 grants; and between ±50 *per cent* and ±100 *per cent* in five grants. In the Capital section, deviation in outturn compared with BE was (-) 37.03 *per cent*. This was due to deviation upto ±25 *per cent* in one grant, between ±25 *per cent* and ±50 *per cent* in five grants; and between ±50 *per cent* and ±100 *per cent* in 29 grants.

Expenditure composition outturn

Budget performance also looks at the extent to which the re-allocation between the main budget categories during execution have contributed to variance in expenditure composition. This measure indicates the extent of variation between the final budget and the actual expenditure. In the Revenue section, deviation in outturn compared with Revised Estimates (RE) was (-) 16 *per cent*. This was due to deviation upto ± 25 *per cent* in 23 grants, between ± 25 *per cent* and ± 50 *per cent* in nine grants and between ± 50 *per cent* and ± 100 *per cent* in three grants. In the Capital section, deviation in outturn compared with RE was (-) 22 *per cent*. This was due to deviation

upto ± 25 *per cent* in three grants, between ± 25 *per cent* and ±50 *per cent* in eight grants, between ±50 *per cent* and ±100 *per cent* in 24 grants.

It was noticed that supplementary provisions of ₹2,091.95 crore during the year 2022-23 in 16 cases (more than ₹50 lakh in each case) proved unnecessary, as the expenditure did not come up even to the level of the original provisions. On the other hand, in grant 16-Public Works Department, augmentation of ₹124.06 crore was not adequate to meet the requirement and non-provision of supplementary amount in grant 8-Finance Department led to excess expenditure of ₹1,503.62 crore.

Regularisation of Excess over Grants/ Appropriations

The UT Government has to get excesses over grants/ appropriations regularised by the Legislature as per Articles 204 and 205 (1) (b) of the Constitution and Section 43 and Section 44 of the Jammu and Kashmir Re-organisation Act, 2019. It was observed that in 2022-23 there was excess expenditure of ₹2,830.17 crore under three grants which required regularisation. Further, excess expenditure of ₹1,24,004.41 crore during 1980-81 to 2019-20 (upto 30 October 2019) pertaining to the erstwhile State of Jammu and Kashmir and ₹13,019.16 crore during 2019-20 (from 31 October 2019 onwards) to 2021-22 were yet to be regularised. It was also noticed that an amount of ₹12,416.82 crore was incurred under 31 schemes/sub heads in six grants without budgetary provision during 2022-23 which needs to be regularised.

Overall budget reliability assessment indicates that the deviations between the actual expenditure and original budget as well as between the actual expenditure and the final budget were 24 per cent and 28 per cent respectively. Except for one grant where deviation was around five per cent, the remaining grants had deviations up to 25 per cent and even above. Moreover, it was also noticed that in several cases, there were supplementary grants where expenditure was not even up to the original grant. A reliable budget practice should need to deal with such deviations.

Quality of Accounts and Financial Reporting

Quality of accounts and financial reporting covers items, transactions and events which relate to gaps in compliance, regularity weaknesses and issues relating to delay in receipt of those accounting records or adjustment records which evidence the actual expenditure. It also highlights issues pertaining to the accounts and financial reporting, non or short-discharging of liabilities and compliance with IGAS.

Compliance with IGAS

As against the requirements of the Indian Government Accounting Standards (IGAS), the UT Government did not make compliance with IGAS-2: Accounting and Classification of Grants-in-Aid and IGAS-3: Loans and Advances made by the Government.

Utilisation Certificates against conditional grants

Despite the requirement of submitting Utilisation Certificates (UCs) against conditional grants within a stipulated time period, 3,733 UCs amounting to ₹14,698.75 crore were pending as on 31st March 2023, out of which 2,431 UC's amounting to ₹8,142.65 crore pertained to the period prior to 30 October 2019 of the erstwhile State of Jammu and Kashmir.

DC bills against AC bills

Similarly, despite the requirement of submitting Detailed Countersigned Contingency (DC) Bills against the advance money withdrawn through Abstract Contingency (AC) Bills, 3,466 AC bills of ₹19,774.97 crore were pending for submission of DC bills as on 31st March 2023, out of which 1,877 AC Bills amounting to ₹5,583.15 crore pertained to the period prior to 30 October 2019 of the erstwhile State of Jammu and Kashmir.

Compliance with prevailing rules and codal provisions are meant to ensure control and accountability in accounting and financial reporting. Non-compliance and deviations impact the quality of accounting and financial reporting adversely. Non submission of UCs against conditional grants; non-submission of DC bills against AC bills; non-compliance with IGAS-2 and IGAS-3 have impacted the quality of accounts adversely.

Working of State Public Sector Undertakings

As on 31 March 2023, there were 42 State Public Sector Enterprises (SPSEs) in Jammu and Kashmir. They included 39 Government Companies (including six inactive Government Companies), two Statutory Corporations and one Government Controlled Other Company. Only four Government companies submitted their accounts for the financial year 2022-23 for supplementary audit by CAG on or before 30 September 2023. There were 11 PSUs that reported profit in their latest financial statements. The reported profit increased to ₹1,286.79 crore in 2022-23 from ₹566.10 crore in 2021-22.

The Government may impress upon those PSUs with arrears in accounts to expedite finalisation of their financial statements so that they remain within legislative oversight, and analyse the reasons for losses in those PSUs whose net worth has eroded and initiate steps to make their operations efficient and profitable.

***

Chapter-I

Overview

CHAPTER-I

OVERVIEW

This chapter provides an overview of the structure of the Government accounts, budgetary processes, macro-fiscal analysis of key indices and the Union Territory (UT) of Jammu and Kashmir's key fiscal position.

1.1 Profile of the Union Territory of Jammu and Kashmir

The Union Territory (UT) of Jammu and Kashmir is located in the Himalayan region of the northern part of India. It has two divisions - Jammu and Kashmir - and has 20 districts. It has two capitals - Jammu during winter and Srinagar during summer. The projected population of the UT of Jammu and Kashmir for the year 2023 is 1.36 crore. Kashmiri, Dogri, Hindi, Urdu and English are the major languages of the UT. The erstwhile State's literacy rate was 67.20 *per cent* as per 2011 Census. ***(Appendix 1.1)***.

1.1.1 Gross State Domestic Product of the Union Territory of Jammu and Kashmir

Gross State Domestic Product (GSDP) is the value of all goods and services produced within the boundaries of the UT in a given period of time. The growth of GSDP is an important indicator of the economy, as it denotes the extent of changes in the level of economic development of the State/UT over a period of time.

Changes in sectoral contribution to GSDP is also important to understand the changing structure of the economy. Economic activity is generally divided into Primary, Secondary and Tertiary sectors, which correspond to Agriculture, Industry and Service sectors.

Trends in GSDP compared to GDP during the period 2019-20 to 2022-23 are shown in **Table 1.1**.

Table 1.1: GSDP compared to GDP

(₹ in crore)

Year	2019-20	2020-21	2021-22	2022-23
INDIA				
GDP (2011-12 Series)	2,01,03,593 (3rd RE)	1,98,29,927 (2nd RE)	2,34,71,012 (1st RE)	2,72,40,712 (PE)
GVA	1,83,81,117	1,81,88,780	2,14,38,883	2,47,42,871
Growth rate of GDP over previous year (in *per cent*)	6.37	-1.36	18.36	16.06
Growth rate of GVA over previous year (in *per cent*)	7.02	-1.05	17.87	15.41
Per Capita GDP (in ₹)	1,49,915	1,46,301	1,71,498	1,96,983
Union Territory				
GSDP (2011-12 Series)	1,64,103	1,67,652	1,99,917	2,27,927
GSVA	1,53,827	1,54,512	1,83,021	2,11,031

Year	2019-20	2020-21	2021-22	2022-23
Growth rate of GSDP over previous year (in *per cent*)	N/A*	2.16	19.25	14.01
Growth rate of GSVA over previous year (in *per cent*)	N/A*	0.44	18.45	15.30
Per Capita GSDP (in ₹)	1,23,730	1,25,441	1,48,472	1,68,063

Source: Ministry of Statistics and Programme Implementation (MOSPI), GoI website.
RE =Revised Estimates and PE= Provisional Estimates.
** Erstwhile State of J&K was bifurcated into two UTs w.e.f 31 October 2019.*

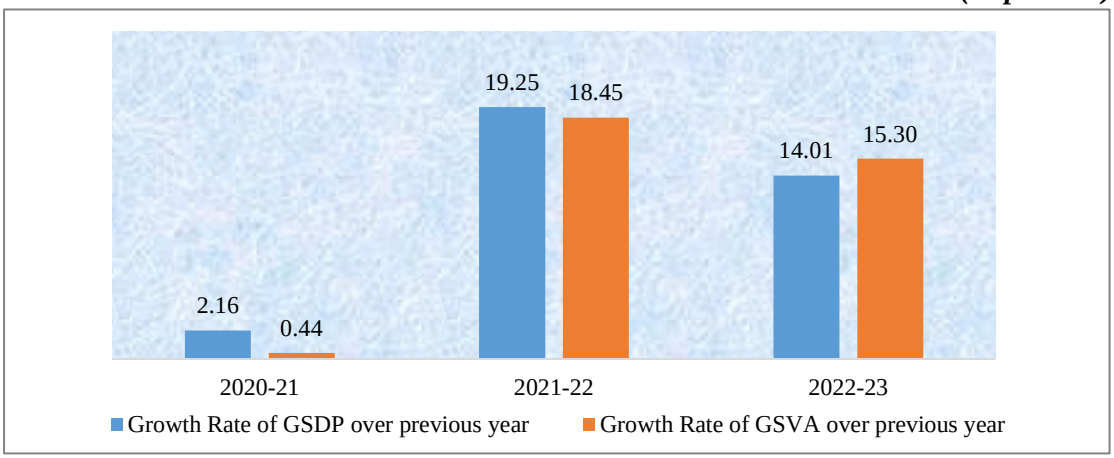
The Gross State Domestic Product (GSDP) in 2022-23 at current prices was ₹2,27,927 crore while GDP at current prices was ₹2,72,40,712 crore. The per capita GSDP of ₹1,68,063 in respect of the UT for the year 2022-23 was less than the per capita GDP of ₹1,96,983 of the country. However, the per capita GSDP in respect of the UT of J&K increased by 35.83 *per cent* from ₹1,23,730 in 2019-20 to ₹1,68,063 in 2022-23 as against increase of 31.40 *per cent* in per capita GDP of the country during the same period.

Gross Value Added (GVA) is being used for economic analysis by Government of India (GoI) and multilateral organisations like IMF and World Bank. GVA is considered a better indicator of economic growth compared to GDP as it ignores the impact of taxes and subsidies, while GDP is computed as the sum total of the various expenditures incurred in the economy including private consumption spending, Government consumption spending and gross fixed capital formation or investment spending, reflecting essentially on the demand conditions in the economy. Both measures have differences in treatment of net taxes as a result of which the inclusion of taxes in GDP may differ from the real output situation. From a policymaker's perspective it is therefore vital to have a comparison of GVA and GSVA data for better analysis and making policy interventions.

The trends in growth of GSDP and GSVA for the period 2020-21 to 2022-23 and sectoral growth in GSVA are indicated in **Chart 1.1** and **Chart 1.2** respectively.

Chart 1.1: Growth rate of GSDP vs GSVA 2020-21 to 2022-23

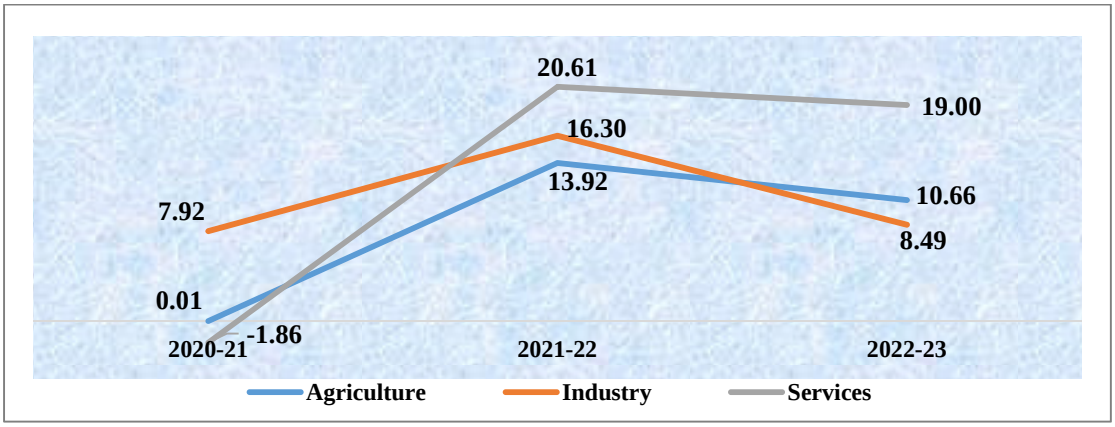
(In per cent)



Source: Ministry of Statistics and Programme Implementation GoI

Chart 1.2: Sectoral growth in GSVA during 2020-21 to 2022-23

(In per cent)



Source: Directorate of Economics and Statistics, J&K Government

During 2022-23, GSVA increased by ₹28,010 crore (15.30 *per cent*) over the previous year. The growth of GSVA was due to increase under all three contributing sectors viz, Agriculture, Industry and Services. The overall growth in GSVA during 2022-23 was lesser in comparison to 18.45 *per cent* increase noticed during 2021-22. The growth in all the contributing sectors viz, Agriculture, Industry and Services was less in comparison to growth during 2021-22.

There was significant increase in growth in some activities i.e trade and repair services (39.80 *per cent*), air transport (53.09 *per cent*), financial services (9.60 *per cent*), and real estate and ownership of dwelling & professional services (17.62 *per cent*).

1.2 Basis and Approach to Union Territory Finances Audit Report

In terms of Section 72 of Jammu and Kashmir Reorganisation Act, 2019, the reports of the Comptroller and Auditor General of India (CAG) relating to the accounts of UT of Jammu and Kashmir are to be submitted to the Lieutenant Governor of the UT, who shall cause them to be laid before the Legislature of the UT.

Principal Accountant General (Accounts and Entitlements) prepares the Finance Accounts and Appropriation Accounts of the UT of Jammu and Kashmir from the vouchers, challans and initial and subsidiary accounts rendered by the treasuries, offices and departments responsible for keeping of such accounts functioning under the control of the Government of UT of Jammu and Kashmir and the statements received from the Reserve Bank of India. These accounts are audited independently by the Principal Accountant General (Audit) and certified by the CAG.

Finance Accounts and Appropriation Accounts of the UT constitute the core data for this report. Other sources include the following:

- Budget of the UT: for assessing the fiscal parameters and allocative priorities *vis-à-vis* projections, as well as for evaluating the effectiveness of its implementation and compliance with the relevant rules and prescribed procedures;

- Results of audit carried out by the Office of the Principal Accountant General (Audit);
- Other data with Departmental Authorities and Treasuries (accounting as well as MIS);
- GSDP data and other UT related statistics; and
- Various audit reports of the CAG of India.

The analysis is also carried out in the context of recommendations of the Fiscal Responsibility and Budget Management Act and best practices and guidelines of the Government of India. An entry conference was held on 23 August 2023 and the draft Audit Report was initially sent to the Government on 19 September 2023. However, in view of certain changes in the Appropriation Accounts 2022-23, the modified report was again sent to the Government on 9 April 2024. An exit conference was held with the Principal Secretary, Finance Department, Jammu and Kashmir Government on 30 April 2024. Departmental replies in respect of various audit findings received on 30 April 2024 and 14 May 2024 have been suitably incorporated in the Report.

1.3 Overview of Government Accounting Structure and Budgetary Processes

The accounts of the Government of UT of Jammu and Kashmir are kept in three parts:

1. **Consolidated Fund of the Union Territory of Jammu and Kashmir (Section 67 of the Jammu and Kashmir Re-organisation Act, 2019)**

   This Fund comprises all revenues received in the UT of Jammu and Kashmir by the Government of India or Lieutenant Governor of the UT of Jammu and Kashmir in relation to any matter with respect to which the Legislative Assembly of the UT of Jammu and Kashmir has power to make laws, and all grants made and all loans advanced to the UT of Jammu and Kashmir from the Consolidated Fund of India and all loans raised by the Government of India or the Lieutenant Governor of the UT of Jammu and Kashmir upon the security of the Consolidated Fund of the UT of Jammu and Kashmir and all moneys received by the UT of Jammu and Kashmir in repayment of loans. No moneys can be appropriated from this Fund except in accordance with law and for the purposes and in the manner provided in the Jammu and Kashmir Re-organisation Act, 2019.

2. **Contingency Fund of the Union Territory of Jammu and Kashmir (Section 69 of the Jammu and Kashmir Re-organisation Act, 2019)**

   This Fund is in the nature of an imprest, which is established by the Legislature by law, and is placed at the disposal of the Lieutenant Governor to enable advances to be made for meeting unforeseen expenditure pending authorisation of such expenditure by the Legislature of UT of Jammu and Kashmir. The fund is recouped by debiting the expenditure to the concerned functional major head relating to the Consolidated Fund of the UT of Jammu and Kashmir.

3. Public Accounts of the Union Territory of Jammu and Kashmir (Section 68 of the Jammu and Kashmir Re-organisation Act, 2019)

Apart from the above, all other public moneys received by or on behalf of the Lieutenant Governor, shall be credited to a Public Account entitled the Public Account of the UT of Jammu and Kashmir. The Public Account includes re-payables like Small Savings and Provident Funds, Deposits (bearing interest and not bearing interest), Advances, Reserve Funds (bearing interest and not bearing interest), Remittances and Suspense heads (both of which are transitory heads pending final booking). The net cash balance available with the Government is also included under the Public Account. The Public Account is not subject to the vote of the Legislature.

Budget Document

There is a constitutional requirement under Section 41 of the Jammu and Kashmir Re-organisation Act, 2019 to present before the legislature of the UT, a statement of estimated receipts and expenditures of the government in respect of every financial year. This 'Annual Financial Statement' constitutes the main budget document. Further, the budget must distinguish expenditure on revenue account from other expenditures.

Revenue receipts consist of tax revenue, non-tax revenue, and grants from Government of India.

Revenue expenditure consists of all those expenditures of the Government of UT, which do not result in creation of physical or financial assets. It relates to those expenses incurred for the normal functioning of the government departments and various services, interest payments on debt incurred by the government, and grants given to various institutions (even though some of the grants may be meant for creation of assets).

Capital Receipts consist of:

- **Debt Receipts:** Market Loans, Bonds, Loans from financial institutions, Net transactions under Ways and Means Advances, Loans and Advances from Central Government, etc.;
- **Non-debt Receipts:** Proceeds from disinvestment, Recoveries of loans and advances, etc.

Capital Expenditure includes expenditure on the acquisition of land, building, machinery, equipment, investment in shares, and loans and advances by the government to PSUs and other parties.

At present, there is an accounting classification system in Government that is both functional and economic.

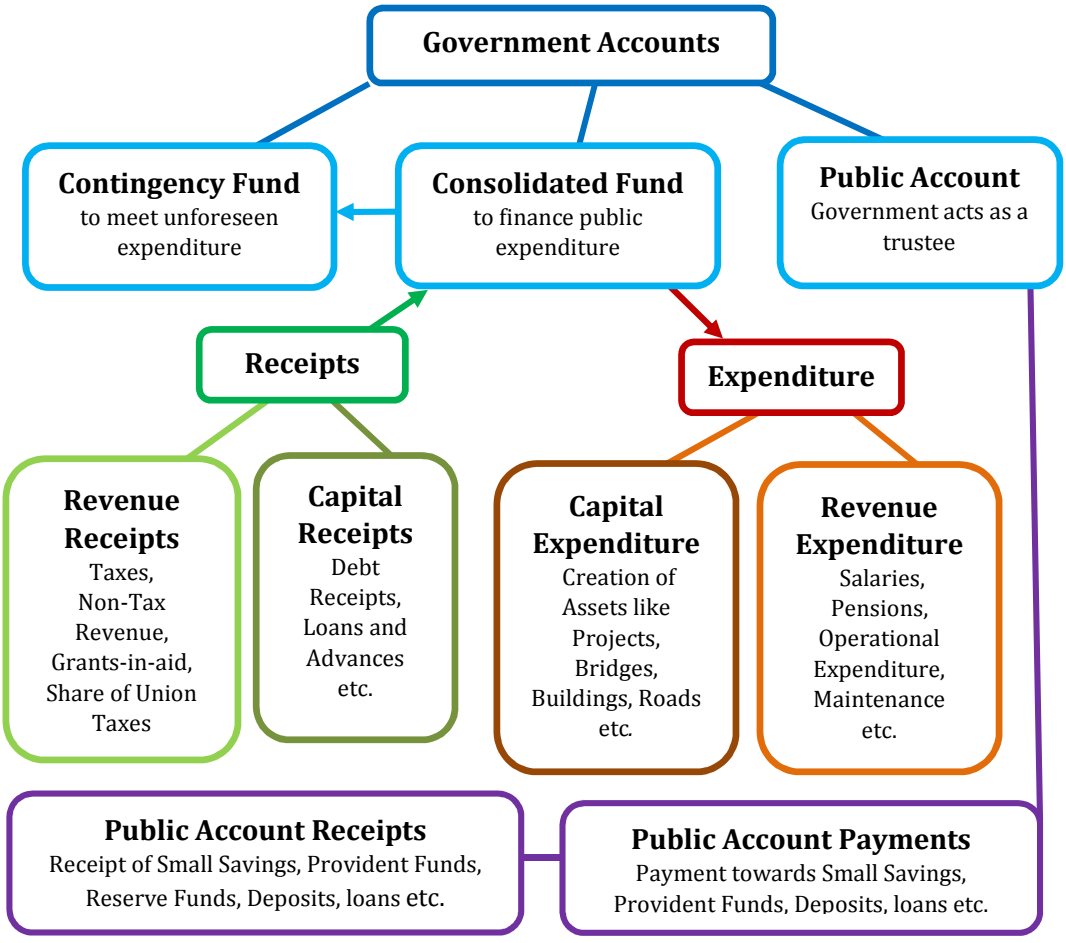
	Attribute of transaction	Classification
Standardised in List of Major and Minor Heads by Controller General of Accounts	Function- Education, Health, etc. /Department	Major Head under Grants (4-digit)
	Sub-Function	Sub Major head (2-digit)
	Programme	Minor Head (3-digit)
Flexibility left for States/UT	Scheme	Sub-Head (2-digit)
	Sub scheme	Detailed Head (2-digit)
	Economic nature/Activity	Object Head-salary, minor works, etc. (2-digit)

The functional classification lets one know the department, function, scheme, or programme and object of the expenditure. Economic classification helps organise these payments as revenue, capital, debt etc. Economic classification is achieved by the numbering logic embedded in the first digit of 4-digit Major Heads. For instance 0 and 1 is for revenue receipts, 2 and 3 for revenue expenditure etc. Economic classification is also achieved by an inherent definition and distribution of some object heads. For instance, generally 'Salary' object head is revenue expenditure, 'construction' object head is capital expenditure. Object head is the primary unit of appropriation in the budget documents.

1.3.1 Structure of Government Accounts

The structure of Government accounts is depicted in **Chart 1.3**.

Chart 1.3: Structure of Government Accounts



Public Debt and Public Liability: In this Report, 'Public Debt' has been taken to comprise market borrowings, institutional loans, special securities issued to National Small Savings Fund (NSSF), loans given by Central Government etc. For this purpose the major heads 6003 and 6004- Public Debt have been taken into consideration.

Further, the transactions relating to 'Small Savings, Provident Fund etc.', 'Reserve Funds' and 'Deposit and Advances' under Public Account are such that the Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid. The transactions relating to 'Remittances' and 'Suspense' under Public Account include merely adjusting heads such as transactions as remittances of cash between treasuries and currency chests and transfer between different accounting circles.

In this Report, 'Public Liability' has been taken to include the transactions under major heads 8001 to 8554 relating to 'Small Savings Provident Fund, etc.', 'Reserve Funds' and 'Deposits and Advances' along with the transactions under major heads 6003 and 6004.

1.3.2 Budgetary Process

In terms of Section 41 of the Jammu and Kashmir Reorganisation Act 2019, the Lieutenant Governor of UT of Jammu and Kashmir shall cause to be laid before the Legislative Assembly, a statement of the estimated receipts and expenditure of the UT, in the form of an Annual Financial Statement. In terms of Section 42, the statement is to be submitted to the legislature in the form of Demands for Grants/ Appropriations and after approval of these, the Appropriation Bill is passed by the legislature under Section 43 to provide for appropriation of the required money out of the Consolidated Fund.

In pursuance of Gazette of India, Extraordinary, Part (II), Section 3, Sub section (ii), S.O 3938 (E) dated 31 October 2019 issued consequent upon the proclamation issued on 31st day of October 2019, Gazette of India, Extraordinary, Part (II), Section 3, Sub section (ii), S.O. 3937(E) dated 31st October, 2019, under Section 73 of Jammu and Kashmir Re-organisation Act, 2019, read with Article 239 and 239A of the Constitution and Section 74 of the Jammu and Kashmir Re-organisation Act, 2019, the bill to authorise payment and appropriation of certain sums from and out of the Consolidated Fund of the UT of Jammu and Kashmir, of the moneys required to meet the expenditure *charged* on the Consolidated Fund and the grants made for the expenditure of the UT of Jammu and Kashmir for the financial year 2022-23 was introduced in Parliament (Lok Sabha) on 14 March 2022. It was passed by both the Houses on 14 March 2022 (Lok Sabha) and 23 March 2022 (Rajya Sabha) and was assented to by the President of India on 25 March 2022. The comments arising out of audit of Appropriation Accounts of UT of Jammu and Kashmir for the period 2022-23 are given in **Chapter 3** of this Report.

1.4 Snapshot of Finances

Time series data on the finances of the UT of Jammu and Kashmir for the period 2019-20[1] to 2022-23 is given in ***Appendix 1.2***. The position of budget estimate (BE), revised estimates (RE) and actuals in respect of some components for the year 2022-23 have been shown in **Table 1.2**.

Table 1.2: Actuals vs Budget for the year 2022-23

(₹ in crore)

Source: Budget 2022-23 and Finance Accounts 2022-23.
#Borrowings and other Liabilities: Net (Receipts-Disbursements) of Public Debt + Net of Contingency Fund + Net (Receipts - Disbursements) of Public Account + Net of Opening and Closing Cash Balance.
** Includes ₹3,845.49 crore as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

During 2022-23, revenue receipts increased by 16 *per cent* with respect to the previous year but fell short of the budget estimates by 33 *per cent* and revised estimates by 29 *per cent*. UT's own tax revenue increased by five *per cent* and non-tax revenue increased by six *per cent* with respect to the previous year.

During 2022-23, the increase of ₹9,738 crore (16.44 *per cent*) in revenue receipts was comparatively more than the increase of ₹3,730 crore (6.29 *per cent*) in revenue expenditure over the previous year. This led to revenue surplus of ₹5,976.61 crore during 2022-23 as against the revenue deficit of ₹31 crore during 2021-22. In addition to the increase in revenue receipts, decrease of ₹273 crore (2.47 *per cent*) in capital expenditure over the previous year was the major reason for decrease of fiscal deficit from ₹11,151 crore in 2021-22 to ₹4,855.37 crore in 2022-23.

Fiscal deficit and primary deficit during 2022-23 were within the projections estimated in the budget. However, the revenue surplus of ₹5,976.61 crore during 2022-23 was less than the amount projected in the budget estimates (₹30,707 crore) and revised estimates (₹22,128 crore).

Goods and Services Tax (GST) compensation is revenue of the UT Government under GST (Compensation to States) Act, 2017. During the current year, Government of Jammu and Kashmir received ₹418.12 crore as GST compensation.

1.4.1 Snapshot of Assets and Liabilities of the Government

Government accounts capture the financial liabilities of the Government and the assets created out of the expenditure incurred. ***Appendix 1.2*** gives an abstract of receipts and disbursements during 2022-23 and the summarised financial position of liabilities and assets as on 31 March 2023, compared with the corresponding position of the previous year. The liabilities consist mainly of internal borrowings, loans and advances from GoI, receipts from public account and reserve funds, while the assets comprise mainly

the capital expenditure and loans and advances given by the UT Government and cash balances. Summarised position of assets and liabilities is depicted in **Table 1.3**.

Table 1.3: Summarised position of Assets and Liabilities

(₹ in crore)

Liabilities					Assets

** Includes back-to-back loans of ₹5,945.29 crore (₹2,099.80 crore and ₹3,845.49 crore received from the GoI during 2020-21 and 2021-22 respectively), in lieu of GST Compensation shortfall, which are not to be repaid by the UT Government from its resources.*

In addition, assets and liabilities of the erstwhile State of Jammu and Kashmir ending 30 October 2019 are yet to be distributed between UT of Jammu and Kashmir and UT of Ladakh.

During the exit conference (April 2024), the Department stated that the UT Government is also making re-payment of the liabilities related to the erstwhile State of Jammu and Kashmir, and this fact should also be considered.

Since the current Report relates to the UT Government, the figures relating to the UT Government only are indicated in the various tables and charts of the Report. Issues relating to the erstwhile State have been mentioned separately in the Report.

1.5 Fiscal Balance: Achievement of Deficit and Total Debt Targets

As per the Statements laid under FRBM Act in the Parliament by the UT of Jammu and Kashmir, no rolling targets for the fiscal indicators were specified for the year 2022-23 in respect of UT of Jammu and Kashmir.

1.5.1 Fiscal Parameters of the Union Territory of Jammu and Kashmir

Position of fiscal indicators like deficits and debt during the period 2020-21 to 2022-23 in respect of UT of Jammu and Kashmir were as under:

Table 1.4: Fiscal indicators of UT during the period 2020-21 to 2022-23

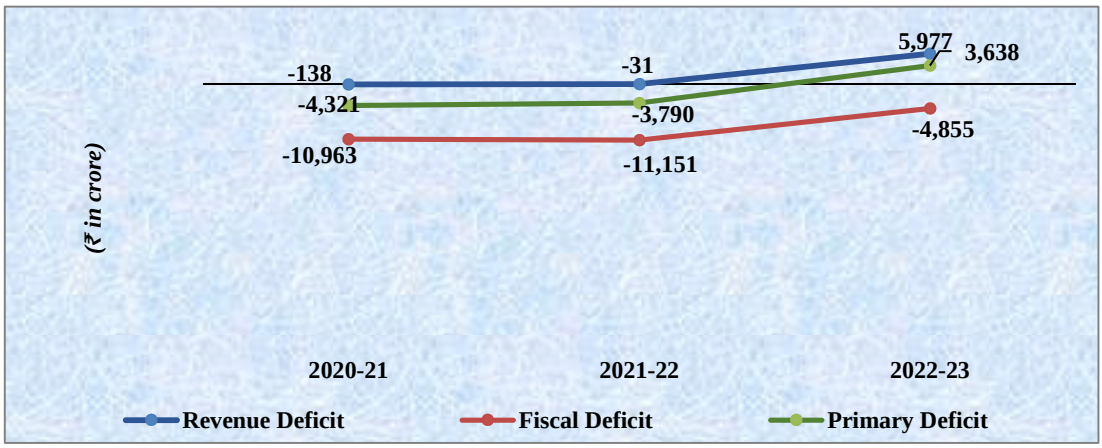
Fiscal Parameters	2020-21	2021-22	2022-23
Revenue Deficit (-) / Surplus (+) (₹ in crore)	(-) 138.27	(-) 30.83	(+) 5,976.61
Fiscal Deficit (-) / Surplus (+) (₹ in crore)	(-) 10,693.36	(-) 11,150.60	(-) 4,855.37
Primary Deficit (-)/Surplus (+)	(-) 4,320.90	(-) 3,790.29	(+) 3,638.45
Ratio of total outstanding liability* to GSDP (in *per cent*)	8.88	11.70	12.26
Revenue Surplus/Revenue Deficit as *per cent* of GSDP	(-) 0.08	(-) 0.02	(+) 2.62
Fiscal Deficit as *per cent* of GSDP	(-) 6.38	(-) 5.58	(-) 2.13
Primary Deficit as *per cent* of GSDP	(-) 2.58	(-) 1.90	(+) 1.60

Source: Finance Accounts 2020-21 to 2022-23

**Outstanding liabilities excludes the back-to-back loans of ₹2,099.80 crore and ₹3,845.49 crore received from the GoI during 2020-21 and 2021-22 respectively, as they were not to be treated as debt of the UT for any norms, as per the guidelines (August 2020).*

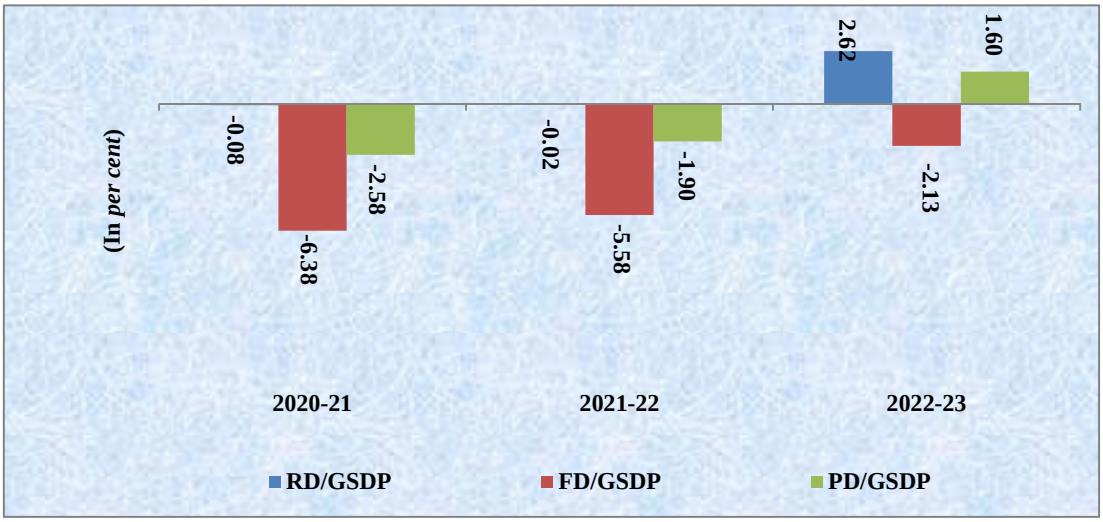
Charts 1.4 and **1.5** present the trends in deficit/ surplus parameters and trends relative to GSDP respectively over the period 2020-23.

Chart 1.4: Trends in Deficit/Surplus parameters during 2020-21 to 2022-23



(Source: Finance Accounts)

Chart 1.5: Trends in Deficit/Surplus relative to GSDP



(Source: Finance Accounts)

Revenue deficit indicates excess of revenue expenditure over revenue receipts. In terms of Jammu and Kashmir FRBM Act, 2006, the Government shall maintain revenue surplus and initiate steps for progressive strengthening of surplus. Although UT of Jammu and Kashmir had revenue deficit during 2020-21 and 2021-22, however there was revenue surplus of ₹5,976.61 crore during 2022-23.

Fiscal deficit, which represents total borrowings of the Government i.e. its total resource gap, decreased from ₹11,150.60 crore (5.58 *per cent* of GSDP) in 2021-22 to ₹4855.37 crore (2.13 *per cent* of GSDP) in 2022-23. Fiscal liabilities had been on the rise as it increased by 87.81 *per cent* from ₹14,880.48 crore in 2020-21 to ₹27,946.64 crore in 2022-23. The ratio of total outstanding liability to GSDP continuously increased from 8.88 *per cent* in 2020-21 to 12.26 *per cent* in 2022-23.

Primary deficit, which indicates the excess of primary expenditure (total expenditure net of interest payments) over non-debt receipts, was ₹4,320.90 crore (2.58 *per cent* of GSDP) in 2020-21 and ₹3,790.29 crore (1.90 *per cent* of GSDP) in 2021-22. However, there was a primary surplus of ₹3,638.45 crore during 2022-23.

1.6 Deficits after examination in Audit

In order to present a better picture of UT finances, there is a tendency to classify revenue expenditure as capital expenditure and to conduct off-budget fiscal operations.

1.6.1 Post Audit - Deficits

As per the FRBM Act, the UT Government must ensure compliance to the targets fixed for the fiscal indicators such as deficits, ceiling on debt and on guarantees, etc. The revenue deficit and the fiscal deficit as worked out for the UT gets impacted due to various circumstances such as misclassification of revenue expenditure as capital and off-budget fiscal operations. Besides, deferment of clear-cut liabilities, not depositing cess/ royalty to Consolidated Fund, short contribution to New Pension Scheme, Sinking Fund and Guarantee Redemption Fund, etc. also impacts the revenue and fiscal deficit figures. In order to arrive at actual deficit figures, the effect of misclassification of revenue expenditure/capital outlay and/or any such misclassification needs to be included and the impact of such irregularities needs to be reversed. Analysis of deficits after examination in audit are given in **Table 1.5**.

Table 1.5: Revenue and Fiscal Deficit, post examination by Audit

Sl. No.	Item	Impact on Revenue Deficit {Understated (+) / overstated (-)} *(₹ in crore)*	Impact on Fiscal Deficit (Under Statement) *(₹ in crore)*
1	Misclassification between Revenue and Capital	219.13	-
2	Non-payment of interest on State Compensatory Afforestation Fund MH 8121	25.61	25.61
3	Non-payment of interest on State Compensatory Afforestation Deposit MH 8336	16.21	16.21
Total Net impact		**260.95**	**41.82**

Source: Finance Accounts.

There was revenue surplus of ₹5,976.61 crore in the accounts of UT of Jammu and Kashmir for the year 2022-23, which was overstated by ₹260.95 crore (4.57 *per cent*) due to misclassification of revenue expenditure of ₹219.13 crore (Grants-in-aid: ₹191.10 crore and Subsidy: ₹28.03 crore) as capital expenditure and non-payment of Interest on State Compensatory Afforestation Fund (₹25.61 crore) and State Compensatory Afforestation Deposit (₹16.21 crore). There was fiscal deficit of ₹4,855.37 crore during 2022-23 which was understated by ₹41.82 crore (0.85 *per cent*) due to non-payment of interest on State Compensatory Afforestation Fund and State Compensatory Afforestation Deposit as shown in the table above.

After considering the above transactions, the revenue surplus and fiscal deficit during 2022-23 works out to ₹5,715.66 crore (2.51 *per cent* of GSDP) and ₹4,897.19 crore (2.15 *per cent* of GSDP) respectively.

1.6.2 Post Audit – Total Public Debt

As per the Jammu and Kashmir Fiscal Responsibility and Budget Management Act, 2006, total liabilities mean the liabilities under the Consolidated Fund and the Public Account and includes borrowings by the public sector undertakings and special purpose vehicles and other equivalent instruments including guarantees where the principal and /or interest are to be serviced out of the budget. The outstanding debt/liabilities can be split into various components as given in **Table 1.6**.

Table 1.6: Components of outstanding debt/liabilities as on 31 March 2023

(₹ in crore)

Borrowings and other liabilities as per Finance Accounts	**Amount**
Internal Debt (A)	**23,473.66**
Market Loans	21,345.21
Loans from other institutions, etc.	34.87
Compensation and other bonds	-567.75
Ways and means advances from RBI	-576.07
Special Securities issued to the National Small Savings Fund of the Central Government	3,237.40
Loans and Advances from Central Government (B)	**5,711.74**
Non-plan loans	0
Loans for State/UT Plan Schemes	(-) 412.46
Others	6,124.20*
Liabilities upon Public Accounts (C)	**4,706.53**
Small Savings, Provident Funds, etc.	1,017.71
Deposits	2,393.09
Reserve Funds	1,295.73
Total (A+B+C)	**33,891.93**

Source: Finance Accounts. Liabilities upon Public Account is excluding Suspense & Miscellaneous and Remittance heads.

** Includes ₹5,945.29 crore (₹2,099.80 crore in 2020-21 & ₹3,845.49 crore in 2021-22) as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

At the end of the year 2022-23, the overall outstanding debt/liabilities of the UT were understated by ₹23,762.09 crore by not accounting for Suspense and Miscellaneous: ₹538.23 crore (credit balance), Remittances: ₹687.67 crore (debit balance) and off-budget borrowings: ₹23,911.53 crore[3] (credit balance) thereby understating the same with respect to GSDP by 10.43 *per cent*. Taking into account the above off-budget borrowings, remittances and suspense and miscellaneous balances, the ratio of liabilities to GSDP will increase from 12.26 *per cent* to 22.69 *per cent.* There is also borrowing of the erstwhile State of Jammu and Kashmir ending 30 October 2019 amounting to ₹82,050.50 crore which is yet to be bifurcated between the two successor UTs.

[3] JKIDFC: ₹2,297.90 crore; JKPCL: ₹21,613.63 crore.

The Principal Secretary, Finance Department stated (May 2024) that the UT of J&K faces fiscal challenges due to high committed expenditure on salary, pensions, interest and power purchase. To address the fiscal challenges, the Ministry of Home Affairs (MHA) has upscaled the central assistance in recent years. Apart from this assistance, MHA has also provided incentives for industrialisation and equity support for hydro-electric projects. On its part, the UT Government initiated several reforms to restrain revenue expenditure, cut down wasteful expenditure and increase capital expenditure. These reforms aimed to address high staffing costs, high ATC losses, weak revenue base, low non-tax revenue and subsidy leakages.

Chapter-II

Finances of the Union Territory

CHAPTER-II

FINANCES OF THE UNION TERRITORY

This chapter provides a broad perspective of the finances of the Government of Jammu and Kashmir (UT) during the year 2022-23.

2.1 Major changes in Key Fiscal Aggregates *vis-à-vis* 2021-22

The major key fiscal aggregates of the UT for the year 2022-23 have been compared with fiscal aggregates for the year 2021-22.

Changes in key fiscal aggregates during 2022-23 w.r.t. 2021-22

Revenue Receipts	✓Revenue receipts increased by 16.44 *per cent.* ✓Own Tax receipts increased by 5.37 *per cent.* ✓Own Non-tax receipts increased by 6.34 *per cent.* ✓Grants-in-Aid from Government of India increased by 20.62 *per cent.*
Revenue Expenditure	✓Revenue expenditure increased by 6.29 *per cent.* ✓Revenue expenditure on General Services increased by 5.14 *per cent*. ✓Revenue expenditure on Social Services increased by 9.80 *per cent*. ✓Revenue expenditure on Economic Services increased by 1.80 *per cent.*
Loans and Advances	✓Disbursement of Loans and Advances decreased by 19.30 *per cent.* ✓Recoveries of Loans and Advances increased by 29.13 *per cent.*
Capital Expenditure	✓Capital expenditure decreased by 2.47 *per cent.* ✓Capital expenditure on General Services increased by 66.67 *per cent.* ✓Capital expenditure on Social Services decreased by 0.34 *per cent.* ✓Capital expenditure on Economic Services decreased by 9.18 *per cent.*
Public Debt	✓Public Debt Receipts decreased by 29.48 *per cent.* ✓Repayment of Public Debt decreased by 18.06 *per cent.*

Public Accounts	✓Public Account Receipts increased by 30.27 *per cent.* ✓Disbursement of Public Account increased by 21.42 *per cent.*
Cash Balance	✓Cash balance increased by ₹0.66 crore during 2022-23 compared to previous year.

2.2 Sources and Application of Funds

Comparison of the components of the sources and application of funds of the UT during the current year with those of the previous year is given in **Table 2.1**.

Table 2.1: Details of Sources and Application of funds during 2021-22 and 2022-23

(₹ in crore)

	Particulars	**2021-22**	**2022-23**	**Increase (+)/ decrease (-) *(per cent)***
Sources	Opening Cash Balance with RBI and other cash balances	1,447.69	1,447.65	-0.04 (0.003)
	Revenue Receipts	59,238.50	68,975.95	9,737.45 (16.43)
	Recoveries of Loans and Advances	1.03	1.33	0.30 (29.13)

Source: Finance Accounts.

**Includes ₹3,845.49 crore back-to-back loans from GoI in lieu of GST Compensation shortfall during 2021-22.*

Revenue receipts were the biggest source (91.62 *per cent*) of revenue and the biggest part (83.69 *per cent)* of resources were utilised towards revenue expenditure.

The composition of sources and application of funds in the Consolidated Fund of the Union Territory of Jammu and Kashmir during 2022-23 is given in ***Charts 2.1*** and ***2.2***.

(In per cent)

Chart 2.1: Composition of resources

₹ comes from

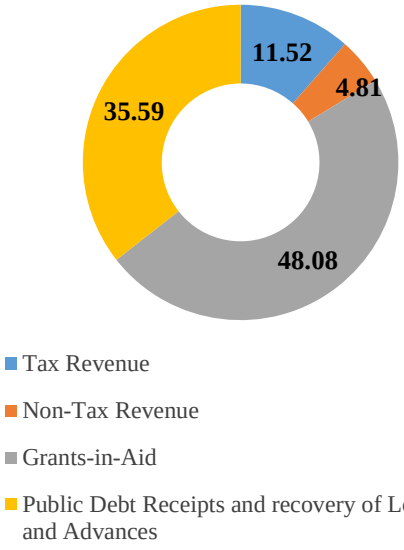

Chart 2.2: Application of resources

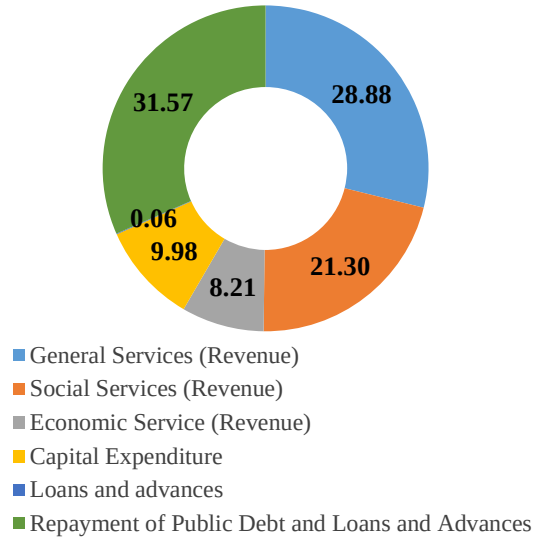
₹ goes to



Note: *Public debt receipts and repayments include ways and means advances.*

Public Debt Receipts and Grants-in-Aid together constituted 83.67 *per cent* of resources of UT of Jammu and Kashmir. Repayment of Public Debt and Expenditure on General Services (Revenue) together accounted for 60.45 *per cent* of total expenditure.

2.3 Resources of the Union Territory of Jammu and Kashmir

The resources of the Union Territory (UT) are described below:

1. **Revenue Receipts** consist of tax revenue, non-tax revenue and grants-in-aid from the Government of India (GoI).

2. **Capital Receipts** (debt and non-debt capital receipts) comprise miscellaneous capital receipts such as proceeds from disinvestments, recoveries of loans and advances, debt receipts from internal sources (market loans, borrowings from financial institutions/commercial banks) and loans and advances from GoI. Both revenue and capital receipts form part of the Consolidated Fund of the UT.

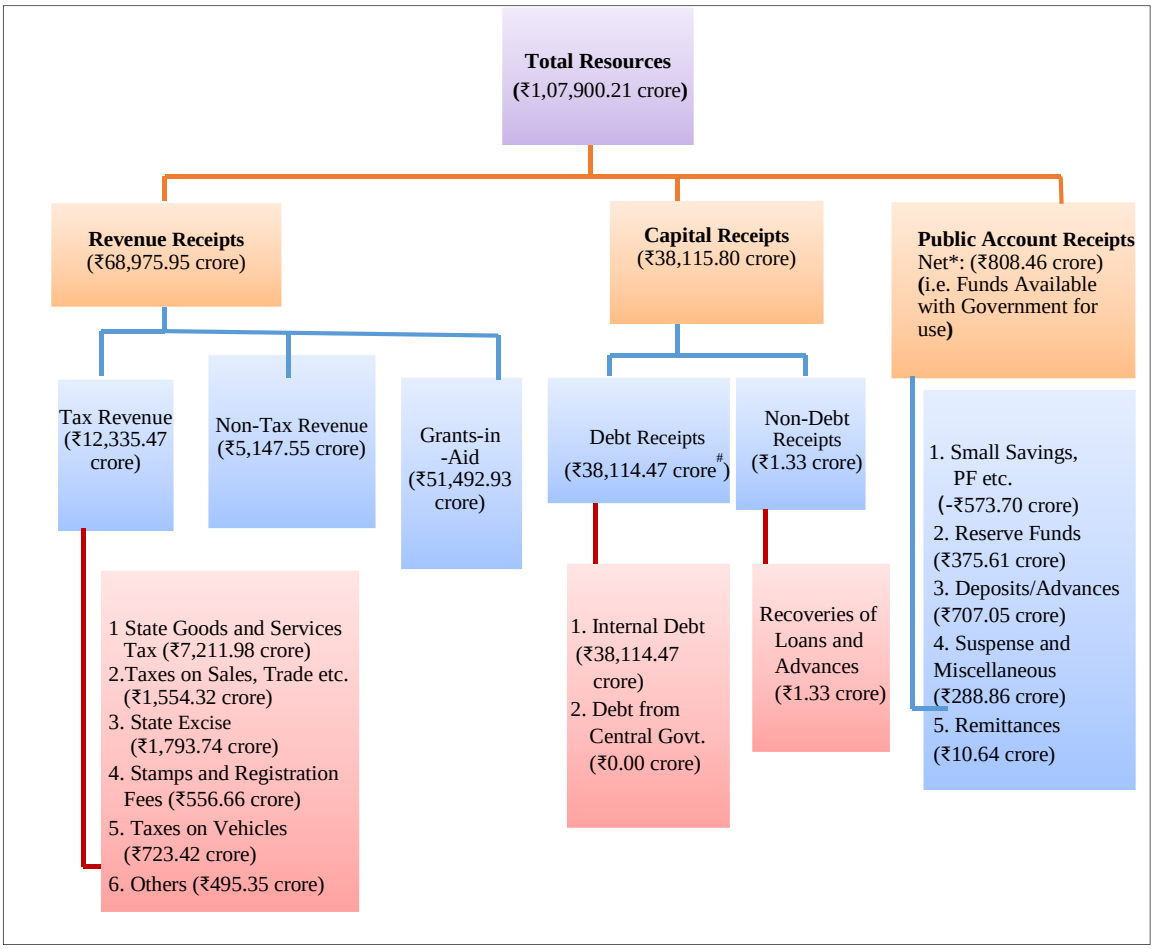
3. **Net Public Accounts Receipts**: There are receipts and disbursements in respect of certain transactions such as small savings, provident fund, reserve funds, deposits, suspense, remittances, etc. which do not form part of the Consolidated Fund.

These are kept in the Public Account set up under Section 68(1) of the Jammu & Kashmir Re-organisation Act, 2019 and are not subject to vote by the Union Territory's Legislature. Here, the Government acts as a banker. The balance after disbursements is the fund available with the Government for use.

2.3.1 Receipts of the Union Territory

This paragraph provides the composition of the overall receipts. Besides the revenue and capital receipts, funds available in the Public Account (net of disbursement made from it) are also utilised by the Government to finance its deficit. The composition of total receipts of the UT is depicted in **Chart 2.3**.

Chart 2.3: Composition of receipts of the UT of Jammu and Kashmir during 2022-23



Source: Finance Accounts.
**Public Accounts Receipts Net {₹808.46 crore} =Public Accounts Receipts (₹35,464.84 crore) less Public Accounts Disbursements (₹34,656.38 crore)*
 # Includes Ways and Means Advance.

Out of the total resources of ₹1,07,900.21 crore of the UT Government during the year 2022-23, revenue receipts (₹68,975.95 crore) constituted 63.93 *per cent* while capital receipts (₹38,115.80 crore) and net Public Account Receipts (₹808.46 crore) constituted 35.32 *per cent* and 0.75 *per cent* of the total resources respectively.

2.3.2 Union Territory's Revenue Receipts

The components of revenue receipts of UT of Jammu and Kashmir and their share in revenue receipts during 2020-21 to 2022-23 is shown in **Table 2.2**. The trends and composition of revenue receipts over the same period are presented in ***Appendix 1.2***.

Table 2.2: Trend and Components of Revenue Receipts

(₹ in crore)

Components	2020-21	2021-22	2022-23
Revenue Receipts (RR)	**52,495.48**	**59,238.50**	**68,975.95**
Rate of growth of RR (*per cent*)	NA	12.84	16.44
Own Tax Revenue	**8,876.99**	**11,707.28**	**12,335.47**
Rate of growth of Own Tax Revenue (*per cent*)	NA	31.88	5.37
Non-Tax Revenue	**4,076.38**	**4,840.45**	**5,147.55**
Grants-in-aid from Government of India	**39,542.11**	**42,690.77**	**51,492.93**
Rate of growth of Grants-in-aid from Government of India (*per cent*)	NA	7.96	20.62
Own Revenue (Own Tax and Non-tax Revenue)	12,953.37	16,547.73	17,483.02
Rate of growth of Own Revenue (*per cent*)	NA	27.75	5.65
GSDP	1,67,652	1,99,917	2,27,927
Revenue Receipts to GSDP (*per cent*)	31.31	29.63	30.26
Rate of growth of GSDP (*per cent*)	NA	19.25	14.01
Buoyancy Ratios[1]			
Revenue Buoyancy w.r.t. GSDP	NA	0.67	1.17
UT's Own Revenue Buoyancy w.r.t. GSDP	NA	1.44	0.40
UT's Own Tax Revenue Buoyancy w.r.t. Revenue Receipts	NA	2.48	0.33

Source of GSDP figures: Ministry of Statistics and Programme Implementation (MOSPI) GoI website and Finance Account of J&K Government.

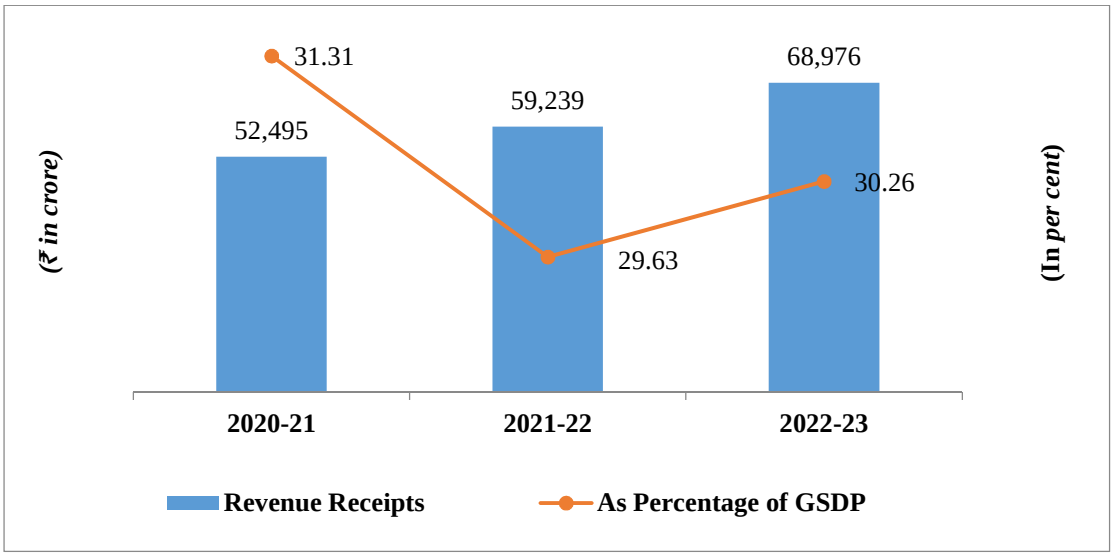
Table 2.2 shows that revenue receipts increased by 31 *per cent* from ₹52,495.48 crore in 2020-21 to ₹68,975.95 crore in 2022-23. Tax revenue and non-tax revenue increased by ₹3,458.48 crore (39 *per cent*) and ₹1,071.17 crore (26 *per cent*) during 2022-23 respectively in comparison to 2020-21. Grants-in-aid from GoI had increased by 30 *per cent* from ₹39,542.11 crore in 2020-21 to ₹51,492.93 crore in 2022-23.

The revenue buoyancy with reference to GSDP increased from 0.67 *per cent* in 2021-22 to 1.17 *per cent* in 2022-23. However, the buoyancy of UT's Own revenue to GSDP decreased from 1.44 *per cent* in 2021-22 to 0.40 *per cent* in 2022-23. The buoyancy of UT's Own tax revenue with reference to revenue receipts also decreased from 2.48 *per cent* in 2021-22 to 0.33 *per cent* in 2022-23. Out of total revenue receipts of ₹68,975.95 crore during 2022-23, the Grants-in-aid from GoI (₹51,492.93 crore) constituted 74.65 *per cent* of total revenue receipts.

An increasing trend of Grants-in-aid compared to own revenue buoyancy indicates more reliance on GoI support. Diversifying revenue resources and strengthening the local tax base are essential for sustainable fiscal stability and development. Trend of revenue receipts are shown in **Chart 2.4**.

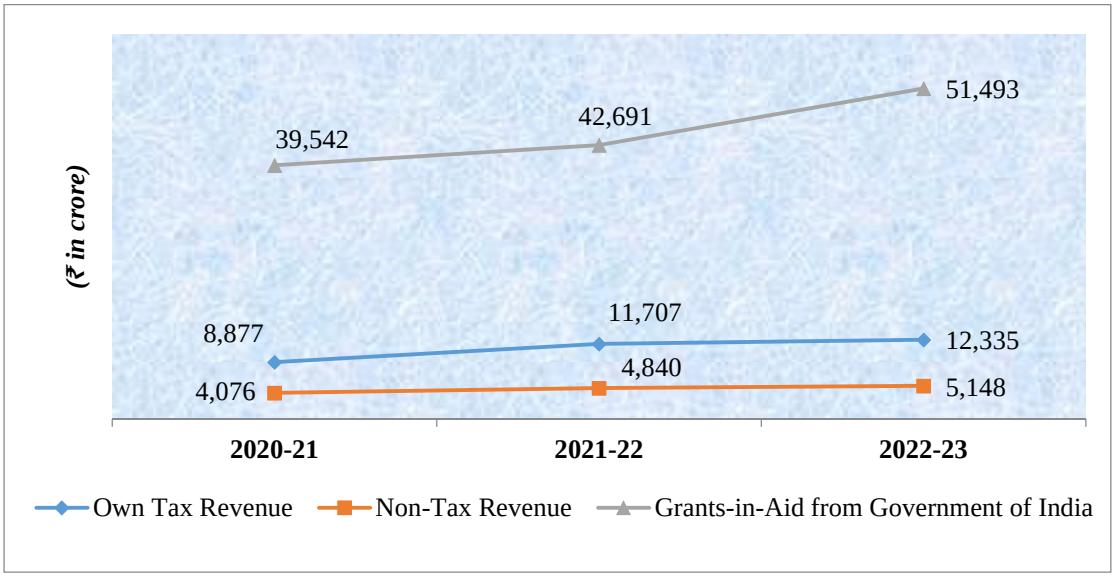
[1] Buoyancy ratio indicates the elasticity or degree of responsiveness of a fiscal variable with respect to a given change in the base variable

Chart 2.4: Trend of Revenue Receipts



Trends in the composition of Revenue Receipts are given in **Chart 2.5**.

Chart 2.5: Trend of Components of Revenue Receipts



In reply, the Finance Department stated (April 2024) that for diversifying the revenue resources and to strengthen the local tax and non-tax base, the UT Government has taken up the revision of user charges generating different types of non-tax revenue. The revision of power tariff petitions was being moved by the Power Development Department to the Joint Electricity Regulatory Commission J&K and Ladakh at prescribed/ specified intervals of time.

2.3.2.1 Own Resources of UT of Jammu and Kashmir

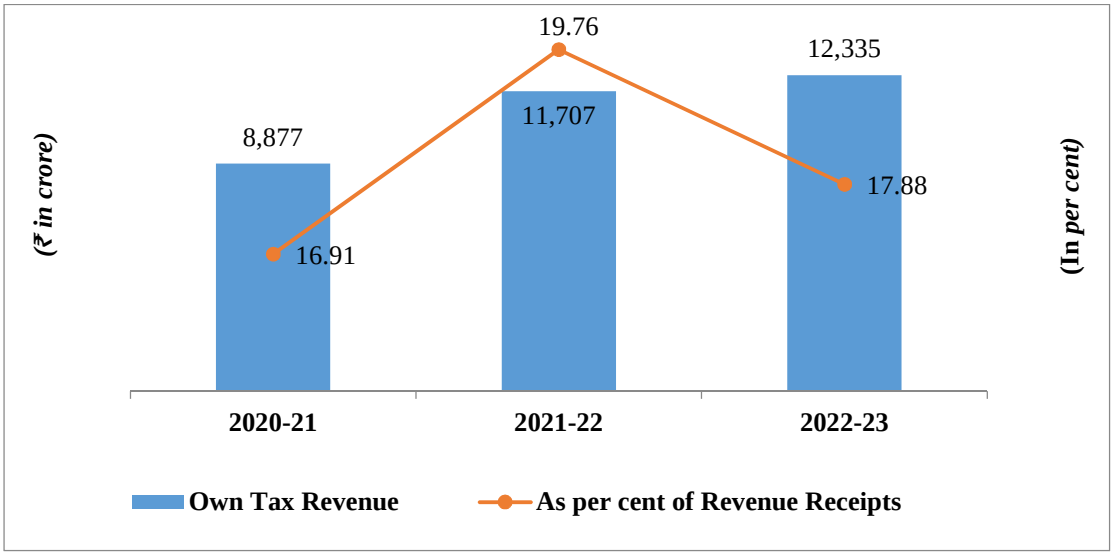
Government's performance in mobilisation of resources is assessed in terms of its own tax resources comprising revenue from its own tax and non-tax sources. Details of own tax revenue, own non- tax revenue and its components are shown in the following sub paragraphs.

(i) Own Tax revenue

Own tax revenues of the UT consist of State Goods and Services Tax (SGST), State Excise, Taxes on Vehicles, Stamp Duty and Registration fees, Land revenue, Taxes on Goods and Passengers, etc.

Trends of own tax revenue and analysis of its components during the period 2020-21 to 2022-23 are shown in **Chart 2.6** and **Table 2.3**.

Chart 2.6: Trend of own tax revenue during 2020-23



The Principal Secretary, Finance Department stated (May 2024) that the report creates an erroneous impression that own tax revenue has reduced from 20 *per cent* to 18 *per cent* of total revenue receipts in 2022-23.

The contention of the Department is not acceptable as the proportion of own tax revenue to total revenue receipts of the UT Government during 2021-22 and 2022-23 was only 19.76 *per cent* and 17.88 *per cent* respectively.

Table 2.3: Components of Own Tax Revenue

(₹ in crore)

Revenue Head	2020-21	2021-22	2022-23	Percentage Increase (+) / Decrease (-)	Sparkline
Taxes on Sales, Trade etc.	1,495.61	1,906.31	1,554.32	-18.46	
SGST	4,839.35	6,394.31	7,211.98	12.79	
State Excise	1,347.42	1,782.79	1,793.74	0.61	
Taxes on Vehicles	488.38	616.24	723.42	17.39	
Stamp Duty and Registration	325.54	512.02	556.66	8.72	
Land Revenue	60.57	113.28	131.60	16.17	
Taxes on Goods and Passengers	0.9	5.73	23.75	314.49	
Other Taxes	319.22	376.6	340	-9.72	
Total Taxes	**8,876.99**	**11,707.28**	**12,335.47**	**5.37**	

Source: Finance Accounts.

There was an increase in most of the components of own tax revenue during 2022-23 with respect to the previous year 2021-22 and own tax revenue showed an increase of

5.37 *per cent* with respect to the previous year. SGST (₹817.67 crore), Taxes on Vehicles (₹107.18 crore) and Stamp duty and Registration fees (₹44.64 crore) showed maximum increase. The highest percentage increase with respect to 2021-22 was 314.49 *per cent* and 17.39 *per cent* under Taxes on Goods and Passengers and Taxes on Vehicles respectively. Increase under Taxes on Goods and Passengers was mainly due to increase of ₹17.15 crore in Tolls on roads. Similarly, the increase under Taxes on Vehicles was due to increase of ₹58.94 crore in receipts under Indian Motor Vehicles Act and ₹48.24 crore in receipts under the State Motor Vehicles Taxation Acts, respectively.

The Principal Secretary, Finance Department stated (May 2024) that the UT government no longer had access to its important tax revenue of entry toll revenue which was subsumed with the introduction of GST. Debt servicing burden increased on account of increased capital investments as also the power sector loans. It was also confirmed that the reduction in revenue receipt from Motor Spirit Tax (MST) in 2022-23 was mainly on account of the reduction in base fuel price and the tax rates, which were undertaken to ameliorate the economic impact of COVID pandemic and alleviate the financial burden on the common man, though this meant lower tax revenues. To address this situation, the UT government enhanced its GST revenues with intensive drives for increasing awareness, enrolling all the dealers and increasing compliance in filing of returns and depositing tax liabilities. The government has ensured high tax buoyancy with GST to GSDP ratio touching 3.6 *per cent* in 2022-23. Further, the UT government launched transparent auctions for vends to boost excise revenues and to ensure transparency in allotments. The UT government also started the e-Stamping system which has enhanced stamps and registration revenues.

While Audit appreciates the efforts made by the Government, concerted efforts need to be made to enhance own revenue since the UT's own revenue buoyancy was only 0.40 *per cent* as against revenue buoyancy of 1.17 *per cent* during 2022-23. Further, the growth rate of 5.65 *per cent* in own tax and non-tax revenue of UT during 2022-23 was insignificant as compared to an increase of 20.62 *per cent* in respect of Grants-in-aid from GoI.

(a) State Goods and Services Tax (SGST)

As per the books of RBI, the amount of SGST receipts during 2022-23 was ₹7,272.19 crore while as per the Finance Accounts, the amount of SGST receipts was ₹7,211.98 crore. The difference of ₹60.21 crore was due to recovery from UT towards SGST refunds made by the Centre to the taxpayers on behalf of the UT (₹48.85 crore) and refunds made by the UT Government (₹11.36 crore).

(b) Audit of GST Receipts

The Government of India's decision to provide access to Pan-India data at GSTN premises was conveyed on 22 June 2020. In case of UT of Jammu and Kashmir, which

is a Model-II State[2], role-based access to back-end application was provided[3] to the office of the Principal Accountant General (Audit), Jammu and Kashmir on 25 November 2020. However, the access was limited to GSTN premises only and the audit teams are not authorised to access the Pan-India data.

(c) Analysis of arrears of revenue and arrears of assessment

The arrears of revenue indicate delayed realisation of revenue due to the Government. Similarly, arrears of assessment indicate potential revenue which is blocked due to delayed assessment. Both deprive the UT of potential revenue receipts and ultimately affect the revenue deficit.

Arrears of revenue

As on 31 March 2023, the arrears of revenue in respect of the following principal heads of revenue were ₹2,658.06 crore, of which ₹1,168.89 crore were outstanding for more than five years, as depicted in **Table 2.4**.

Table 2.4: Arrears of revenue

(₹ in crore)

Sr. No.	Head of revenue	Amount outstanding as on 31 March 2023	Amount outstanding for more than five years as on 31 March 2023	Replies of Department
1.	Goods and Services Tax	238.63	0	Commissioner, State Taxes Department J&K stated (September 2023) that steps like issuance of memo, seizure of bank accounts and thereafter attachment of immovable property have been taken. In addition arrest warrants are issued to ensure recovery of arrears.
2.	Taxes/VAT on Sales, Trade, etc.	2,374.28	1,124.05	
3.	Motor Spirit Tax	0.09	0.09	
4.	Entertainment Tax	0.21	0.21	Out of total arrears of ₹45.06 crore, stay on ₹42.98 crore was granted by the courts/ appellate authorities. Balance arrears of ₹2.08 crore are recoverable arrears under Land Revenue Act.
5.	Toll Tax	28.24	28.00	
6.	State Excise	16.61	16.54	
Total		**2,658.06**	**1,168.89**	

Source: Departmental Information

Arrears in assessment

The information on number of cases pending at the beginning of the year, cases becoming due for assessment, cases disposed during the year and number of cases

[2] State which has opted for development of backend system by GSTN.

[3] Modules/ Functions: (1) Search ARN (2) Get Taxpayer Details (3) Record search (4) DSC Registration (5) Find GSTIN (6) User Login (7) MIS

pending for finalisation at the end of the year, as furnished by the Department of Excise and Taxation in respect of Sales Tax/VAT is depicted in **Table 2.5**.

Table 2.5: Arrears of assessment

Sr. No.	Head of Revenue	Cases pending at the beginning of 2022-23	New cases due for assessment during 2022-23	Total cases due for assessment	Cases disposed of during 2022-23	Balance at the end of the year	Percentage of disposal
1.	Sales Tax/VAT	258	32	290	32	258	11.03
2	Goods and Services Tax	0	702	702	639	63	91.03
3	Taxes on Works Contract	0	0	0	0	0	0
	Total	**258**	**734**	**992**	**671**	**321**	**67.64**

Source: Departmental information

As can be seen from the above table, although 67.64 *per cent* assessment cases were disposed of during 2022-23, 321 assessment cases were still pending at the close of the year. As against the disposal rate of 91.03 *per cent* in assessment of Goods and Services Tax, disposal rate of Sales Tax/ VAT cases was only 11.03 *per cent*, which needs to be improved.

(b) Details of evasion of tax detected by the Department, refund cases, etc.

Cases of evasion of tax detected, cases finalised and the demands for additional tax raised are important indicators of revenue collection efforts of the UT Government. Promptness in disposal of refund cases is an important indicator of performance of the Department concerned.

The details of cases of evasion of tax detected by the Excise and Taxation Department, cases finalised and demand for additional taxes raised are given in **Table 2.6**. Details of refund cases during the year 2022-23, as reported by the departments concerned, are depicted in **Table 2.7**.

Table 2.6: Evasion of tax detected

Sr. No.	Head of revenue	Cases pending as on 31 March 2022	Cases detected during 2022-23	Total	No. of cases in which assessment / investigation completed and additional demand with penalty, etc. raised		Amount of demand recovered *(₹ in crore)*	No. of cases pending for finalisation as on 31 March 2023
					No. of cases	Amount of demand *(₹ in crore)*

Source: Departmental information

(ii) Non-Tax Revenue

Non-tax revenue consists of interest receipts, dividends and profits, mining receipts, departmental receipts, etc. **Table 2.8** depicts components of non-tax revenue of the Union Territory during 2020-21 to 2022-23.

Table 2.8: Components of UT's Non-Tax Revenue

(₹ in crore)

Revenue Head	2020-21	2021-22	2022-23	Percentage Increase (+) / Decrease (-)	Sparkline
Interest Receipts	17.86	16.54	18.79	13.60	
Dividend and Profits	0.00	0.00	0.00	0.00	
Other Non-Tax Receipts	4,058.52	4,823.91	5,128.76	6.32	
a) Power	*2,349.74*	*2,715.75*	*3,307.54*	*21.79*	
b) Medium Irrigation	*996.66*	*886.62*	*706.23*	*-20.35*	
c) Non-Ferrous Mining and Metallurgical Industries	*227.91*	*128.78*	*101.17*	*-21.44*	
d) Water Supply and Sanitation	*93.89*	*111.88*	*110.16*	*-1.54*	
e) Education, Sports, Arts and Culture	*41.33*	*474.12*	*12.53*	*-97.36*	
f) Police	*39.91*	*68.68*	*89.89*	*30.88*	
g) Other Misc.	*309.08*	*438.08*	*801.24*	*82.90*	
Total	**4,076.38**	**4,840.45**	**5,147.55**	**6.34**	

Source: Finance Accounts

Non-tax revenue receipts increased by 6.34 *per cent* during 2022-23 with respect to the previous year and the major increases were under power, police and Other Miscellaneous revenue heads (viz. Pension/ Miscellaneous General services, Village and small industries, social security and welfare etc). Medium irrigation and Non-ferrous Mining and Metallurgical Industries showed a decline in receipts with respect to the previous year. Receipts under Education, Sports, Art and Culture decreased by 97.36 *per cent* during 2022-23 with respect to the previous year due to remittance of ₹461.61 crore by Chief Accounts Officer (CAO) Samagra Shiksha J&K on account of salary of teachers during 2021-22.

The Finance Department stated (April 2024) that the departments having negative trend in non-tax revenue are being advised repeatedly to enhance the collection of non-tax revenues especially the Irrigation and Mining Department. Further, the departments which have shown progressive increase in their revenue receipts are being monitored regularly for better collection with enhanced targets.

2.3.2.2 Transfers from the Centre

Transfers from the Centre constituted of Grants-in-Aid and devolution under Finance Commission Award.

(A) Grants-in-aid from GoI

The details of Grants-in-aid (GIA) from Government of India (GoI) is shown in the following table:

Table 2.9: Grants-in-aid from Government of India

(₹ in crore)

Head	**2020-21**	**2021-22**	**2022-23**
Grants for Centrally Sponsored Schemes (CSS)	6,533.49	6,713.77	6,029.68
Other transfers/Grants to States/Union Territories with Legislature	33,008.62	35,977.00	45,463.25
Total	**39,542.11**	**42,690.77**	**51,492.93**
Increase/ decrease over previous year (*per cent*)	NA	7.96	20.62
Percentage of GIA to Revenue Receipts	75.32	72.07	74.65

Source: Finance Accounts

Table 2.9 shows that Grants-in-Aid from GoI (₹51,492.93 crore) constituted 74.65 *per cent* of the total revenue receipts of ₹68,975.95 crore for 2022-23. The percentage of GIA to revenue receipts increased from 72.07 *per cent* to 74.65 *per cent* which indicated Government's increasing dependence on Grants-in-aid from Government of India. Further the revenue surplus of ₹5,976.61 crore during 2022-23 was mainly due to increase of ₹8,802.16 crore in Grants-in-aid from GoI.

There was an increase of 20.62 *per cent* in GIA from GoI during 2022-23, which was mainly due to increase of ₹9,486.25 crore (26.36 *per cent*) under other transfers to the UT, partially offset by a decrease of ₹684.09 crore (10.19 *per cent*) under Grants for Centrally Sponsored Schemes.

Other transfers of ₹45,463.25 crore received by the UT during 2022-23, included Grants from Central Road and Infrastructure Fund (₹343.61 crore), Special assistance (₹44,701.68 crore) and GST Compensation (₹418.12 crore). The increase of ₹9,486.25 crore (26.36 *per cent*) in Other transfers was mainly due to increase of ₹9,938.02 crore (28.58 *per cent*) under Special assistance, partially compensated by decrease of ₹474.44 crore (53.15 *per cent*) in GST Compensation.

The Finance Department replied (April 2024) that the advice for increasing the UT's own tax and non-tax revenue for simultaneous decrease in GIA has been noted for mobilisation of available resources.

(B) Grants for Centrally Sponsored Schemes

Out of the grants of ₹6,029.68 crore[4] for Centrally Sponsored Schemes during 2022-23, major amounts were received for:

- Scheme of Modernisation of Police Force: ₹1,530.36 crore (decrease of ₹135.74 crore- 8.15 *per cent* over previous year);
- Pradhan Mantri Awas Yojana Rural; ₹1,031.58 crore (increase of ₹908.15 crore- 735.79 *per cent* over previous year);
- Pradhan Mantri Gram Sadak Yojana: ₹717 crore (decrease of ₹611.34 crore- 46.02 *per cent* over previous year);
- Saksham Anganwadi and Poshan (Umbrella ICDS-Anganwadi Services, Poshan Abhiyan Scheme for Adolescent Girls, National Creche Scheme): ₹479.01 crore (increase of ₹73.27 crore- 18.06 *per cent* over previous year);
- Flexible pool for Reproductive and Child Health (RCH) and Health System Strengthening, National Health Programme and National Urban Health Mission: ₹494.25 crore (increase of ₹494.25 crore over previous year);
- Samagra Shiksha Abhiyan: ₹364.97 crore (decrease of ₹590.01 crore- 61.78 *per cent* over previous year);
- Mahatma Gandhi National Rural Guarantee Programme: ₹346.25 crore (increase of ₹251.01 crore- 263.55 *per cent* over previous year); and
- Urban Rejuvenation Mission- 500 Cities: ₹158.60 crore (increase of ₹52.72 crore- 49.79 *per cent* over previous year).

Single Nodal Agency

The Government of India, Ministry of Finance Department of Expenditure, New Delhi vide Office Memorandum No. 1 (13)/PFMS/FCD/2020 dated 8 December 2021 provided that every State Government/UT is required to designate a Single Nodal Agency (SNA) for implementing each Centrally Sponsored Scheme (CSS). The Single Nodal Agency will open a Single Nodal Account for each CSS at the State level in a Scheduled Commercial Bank authorised to conduct business by the State Government/UT. Further, as per the new procedure, it is the responsibility of the State Government/UT concerned to ensure that the entire unspent amount is returned by all the Implementing Agencies (IAs) to the Single Nodal Account of the Single Nodal Agency.

The Government of Union Territory of Jammu and Kashmir received ₹6,131.40 crore[5] being Central share during the year. As on 31 March 2023, the Government transferred

[4] Total grants under CSS ₹6,12,899.96 lakh less by ₹9,931.70 lakh on account of deduction of refund of unutilised GIA of previous years to the GOI.

[5] Includes total grant under CSS ₹6,12,899.96 lakh under MH-1601-06-101-Central Assistance Share and an amount ₹240 lakh received under 113-Special Assistance for Livestock Census and Integrated Sample Survey CSS.

₹3,514.36 crore being Central share and corresponding Union Territory share of ₹549.62 crore to the SNAs. Detailed vouchers and supporting documents of actual expenditure were not received by Principal Accountant General (A&E) office from the SNAs. As per the data available on Public Financial Management System (PFMS), ₹3,603.59 crore is lying unspent in the bank account of SNAs as on 31 March 2023.

The Finance Department stated (April 2024) that the revised procedure for release of CSS funds and implementation of the schemes through operation of Single Nodal Account (SNA) was implemented on 30 July 2022 and had several features to be implemented for operationalisation which included specific budgetary provisioning both for Central and UT share. This took a slightly longer time resulting in building up of unspent balances. However, the issue was being reviewed on several occasions even at the highest level by Hon'ble Lieutenant Governor for expediting judicious utilisation after observing all the pre-requisite codal formalities leading to positive results.

2.3.3 Capital Receipts

Capital receipts comprise miscellaneous capital receipts such as proceeds from disinvestments, recoveries of loans and advances, debt receipts from internal sources (market loans, borrowings from financial institutions/commercial banks) and loans and advances from GoI.

Trends of capital receipts and its components during 2020-21 to 2022-23 are shown in **Table 2.10**.

Table 2.10: Composition of Capital Receipts

(₹ in crore)

Sources of UT's Receipts	2020-21	2021-22	2022-23
Capital Receipts*	**40,635.06**	**50,200.89**	**38,115.80**
Miscellaneous Capital Receipts	*0*	*0*	*0*
Recovery of Loans and Advances	*1.93*	*1.03*	*1.33*
Public Debt Receipts*	**40,633.13**	**50,199.86**	**38,114.47**
Internal Debt	*40,450.24*	*50,199.86*	*38,114.47*
Growth rate (per cent)		*24.10*	*-24.07*
*Loans and advances from GoI**	*182.89*	*0*	*0*
Growth rate (per cent)	*NA*	*-100*	*0*
Rate of growth of debt Capital Receipts (*per cent*)	NA	23.54	-24.07
Rate of growth of Non-debt Capital Receipts (*per cent*)	NA	-46.63	29.13
Rate of growth of GSDP (*per cent*)	2.16	19.25	14.01
Rate of growth of Capital Receipts (*per cent*)	NA	23.54	-24.07

Source: Finance Accounts.

**Excludes ₹2,099.80 crore in 2020-21 and ₹3,845.49 crore in 2021-22 received as back-to-back loans from GoI in lieu of GST Compensation shortfall.*

Total capital receipts of Union Territory of Jammu and Kashmir decreased from ₹54,046.38 crore during 2021-22 to ₹38,115.80 crore during 2022-23. There was a decrease of 29.48 *per cent* during 2022-23 with respect to the previous year. Internal

debt receipts of ₹38,114.47 crore was the major component of total capital receipts of ₹38,115.80 crore and it showed a decrease of ₹12,085.39 crore over the previous year.

The Finance Department stated (April 2024) that the decrease is actually the difference of additional internal debt receipts to the tune of ₹5,000 crore under NSSF that had been raised and received in the month of March 2022 (2021-22) as a one-time exception.

Audit is of the opinion that decrease was not solely due to decrease under NSSF receipts. As against the back to back loan of ₹3,845.49 crore received for shortfall of GST compensation during 2021-22, the UT Government has not received any such loan during 2022-23. Further, there was a decrease of ₹7,142.31 crore under ways and means advances and overdraft during 2022-23 (₹28,960.73 crore) in comparison to 2021-22 (₹36,103.03 crore). This has contributed to overall decrease in Capital receipts during 2022-23.

2.3.4 UT's Performance in Mobilisation of Resources

The UT's performance in mobilisation of resources is assessed in terms of its own resources comprising Own Tax and Non-Tax sources. The Union Territory of Jammu and Kashmir's Own Tax and Own non-tax receipts for the year 2022-23 *vis-à-vis* budget estimates/ revised estimates are given in the following table:

Table 2.11: Tax and Non-Tax Receipts *vis-à-vis* projections

(₹ in crore)

	Budget estimates	**Revised estimates**	**Actual**	**Percentage of variation of actual over budget estimates**	**Percentage of variation of actual over revised estimates**
Own Tax Revenue	16,666	16,303	12,335.47	-25.98	-24.34
Non-Tax Revenue	8,648	9,225	5,147.55	-40.48	-44.20
Total	**25,314**	**25,528**	**17,483.02**	**-30.94**	**-31.51**

Source: Budget document and Finance Accounts.

The collection under own resources fell short by 30.94 *per cent* of budget estimates and 31.51 *per cent* of revised estimates. The UT Government could not achieve its own targets for Own tax revenue and Own Non-tax revenue in the budget estimates/ revised estimates. Own tax revenue fell short by 25.98 *per cent* of budget estimates and 24.34 *per cent* of revised estimates. Within Own tax revenue, the SGST collection of ₹7,211.98 crore during 2022-23 fell short of both the budget and revised estimates of ₹10,600 crore by 31.96 *per cent*. Non-tax revenue fell short by 40.48 *per cent* of budget estimates and 44.20 *per cent* of revised estimates. UT's own resources (Own tax revenue and Own Non-tax revenue) of ₹17,483.02 crore during the year 2022-23 was 36.83 *per cent* of committed[6] expenditure of ₹47,475.27 crore for the year 2022-23.

[6] Salaries: ₹27,838.17 crore; Wages: ₹0.90 crore; Interest: ₹8,493.82 crore; Pension and Gratuities: ₹11,142.38 crore

The Finance Department stated (April 2024) that various steps have already been taken by the UT Government which will assist in lessening the gap between the actuals and the estimates.

2.4 Application of Resources

The Government is vested with the responsibility of incurring expenditure within the framework of fiscal responsibility legislations, while at the same time ensuring that the ongoing fiscal correction and consolidation process of the UT is not at the cost of expenditure directed towards development of capital infrastructure and social sector. The following sub-paragraphs give an analysis of allocation of expenditure in the Union Territory of Jammu and Kashmir.

Growth and composition of expenditure

Revenue expenditure: Charges on maintenance, repair, upkeep and working expenses, which are required to maintain the assets in a running order as also all other expenses incurred for day-to-day running of the organisation, including establishment and administrative expenses are classified as revenue expenditure.

Capital expenditure: All charges for the first construction of a project as well as charges for intermediate maintenance of the work while not opened for service and also charges for such further additions and improvements as may be sanctioned under the rules made by the competent authority are classified as capital expenditure.

Loans and Advances: There are loans and advances made by the Government to Public Sector Undertakings (PSUs) and other parties.

Trends of overall expenditure and its components are shown in **Table 2.12** and ***Chart 2.7***.

2.4.1 Composition of Expenditure

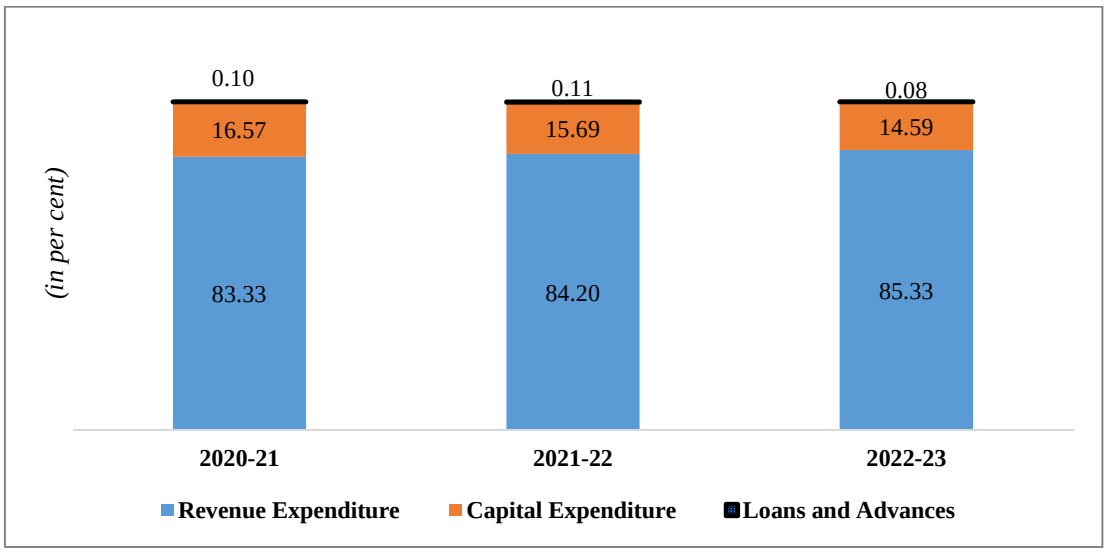
Table 2.12: Trend of expenditure and its composition

(₹ in crore)

Parameters	2020-21	2021-22	2022-23
Revenue Expenditure (RE)	**52,633.75**	**59,269.33**	**62,999.34**
Capital Expenditure (CE)	**10,470.38**	**11,047.04**	**10,773.78**
Loans and Advances	**61.64**	**73.77**	**59.53**
Total Expenditure (TE)	**63,165.77**	**70,390.14**	**73,832.65**
TE/GSDP *(per cent)*	37.68	35.21	32.39
RE/GSDP *(per cent)*	31.39	29.65	27.64
CE/GSDP *(per cent)*	6.25	5.53	4.73
Loans and Advances/GSDP *(per cent)*	0.04	0.04	0.03

Source: Finance Accounts.

Chart 2.7: Total Expenditure- Trends in share of its components



Total expenditure increased by ₹10,666.88 crore (16.89 *per cent*) from ₹63,165.77 crore in 2020-21 to ₹73,832.65 crore in 2022-23; however, the ratio of total expenditure to GSDP during this period decreased from 37.68 *per cent* to 32.39 *per cent*.

Revenue expenditure constituted the predominant proportion of total expenditure and increased from 83 *per cent* in 2020-21 to 85 *per cent* in 2022-23. On the other hand, the proportion of capital expenditure in total expenditure decreased from 17 *per cent* in 2020-21 to 15 *per cent* in 2022-23.

The Finance Department stated (May 2024) that despite revenue constraints, the Government expanded its capital investments to accelerate infrastructure development. Keeping in view several abandoned/stalled projects, the UT Government prioritised languishing projects based on their economic potential and social importance. Out of 2,356 prioritised projects, the Government commissioned 1,632 projects with sanctioned cost of ₹3,218 crore. Further, the road network has been significantly strengthened through PMGSY, RIDF and CRF funding.

However, keeping in view the trend of decrease in the relative share of capital expenditure during 2020-21 to 2022-23 and huge savings in the budget under capital components, more stringent steps need to be taken by the Government to ensure timely completion of capital projects and prompt utilisation of the funds.

Relative share of various sectors of expenditure during 2020-23 is depicted in **Table 2.13** and **Chart 2.8**.

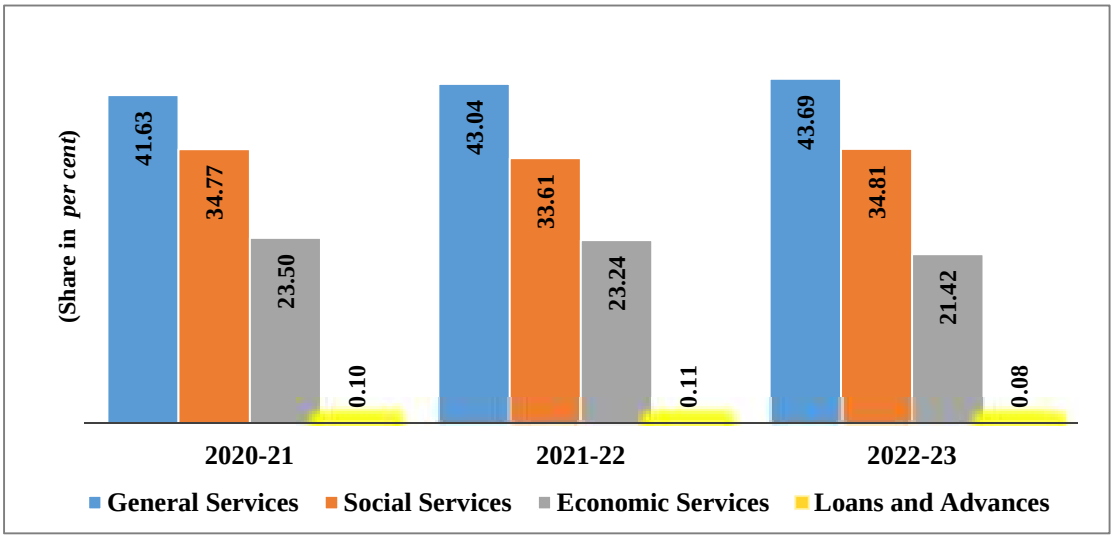
Table 2.13: Relative share of various sectors of expenditure

(₹ in crore)

Parameters	2020-21	2021-22	2022-23
General Services	26,297.40	30,298.89	32,260.50
Social Services	21,964.27	23,655.75	25,697.79
Economic Services	14,842.46	16,361.73	15,814.83
Loans and Advances	61.64	73.77	59.53
Total	**63,165.77**	**70,390.14**	**73,832.65**

Source: Finance Accounts.

Chart 2.8: Total expenditure - Expenditure by activities

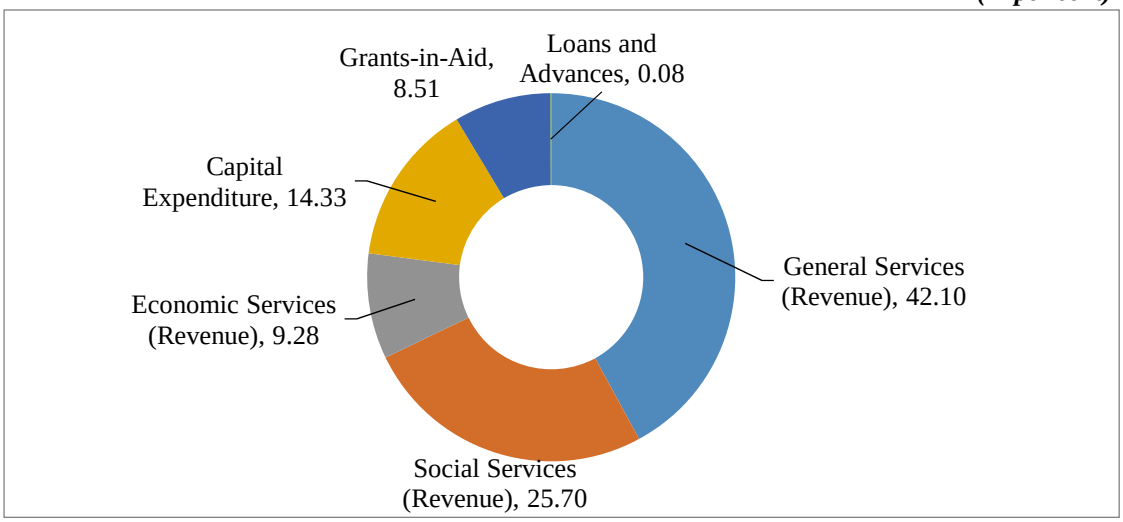


Relative share of various components of expenditure in the total expenditure showed marginal fluctuations. The share of General services in total expenditure increased from 41.63 *per cent* in 2020-21 to 43.69 *per cent* in 2022-23. However, the share of Economic services in total expenditure decreased from 23.50 *per cent* in 2020-21 to 21.42 *per cent* in 2022-23. The share of Social services in total expenditure during 2020-23 ranged between 33.61 *per cent* and 34.81 *per cent*.

The combined share of Social and Economic services which represented development expenditure decreased from 58.27 *per cent* in 2020-21 to 56.23 *per cent* in 2022-23. **Chart 2.9** shows the composition of expenditure by function during 2022-23.

Chart 2.9: Composition of expenditure by function during 2022-23

(in per cent)



It can be seen from above that General Services (Revenue) was the largest component accounting for 42.10 *per cent,* of total expenditure. Expenditure on Social and Economic service (Revenue) accounted for 34.98 *per cent* and Grants-in-aid accounted for 8.51 *per cent.* Capital expenditure accounted for 14.33 *per cent* of total disbursement from the Consolidated Fund during 2022-23.

The Finance Department stated (May 2024) that in 2022-23, the UT Government has improved the quality of its social services in education, health, rural development and social assistance sectors. There has been a sharp increase in enrolment of students in primary, middle and secondary schools, reduction in out-of-pocket expenditure and extension of cashless treatment to about 83 lakh individuals. Such efforts of the UT Government are reflected in the far better infant mortality rate, total fertility rate and life expectancy in Jammu and Kashmir than the national average. Besides, efforts have been made to construct PMAY houses which have quadrupled to 51,290 in 2022-23 and the number of works under Mahatma Gandhi National Rural Employment Guarantee Act has also quadrupled from 54,315 in 2019-20 to over 2,00,000 in 2022-23. The Government has expanded food security for its citizens (98 lakh beneficiaries) by providing subsidised food grains to all families in a graded fashion. There has been a complete revitalisation of sports in the UT through completion of 702 sports projects, construction of 100 Khelo India Centres and development of indoor sports complexes. The Government has invested in transforming the agriculture sector from subsistence farming to a profitable vocation by investing in cultivation, crop-diversification, and farmers insurance. The Government has also supported high density plantation, farm mechanisation and development of cold-storages for boosting the value addition in agriculture sector.

While Audit appreciates various measures taken by the Government to increase social and economic sector investment, the reply does not specifically address the reasons for increasing trend in expenditure on general services and consequent decreasing trend in the social and economic services expenditure over the past three years.

2.4.2 Revenue Expenditure

Revenue expenditure is incurred to maintain the current level of services and payment for past obligations. As such, it does not result in any addition to the UT's infrastructure and service network. **Table 2.14** presents revenue expenditure and basic parameters of Union Territory of Jammu and Kashmir.

Table 2.14: Revenue Expenditure – Basic Parameters

(₹ in crore)

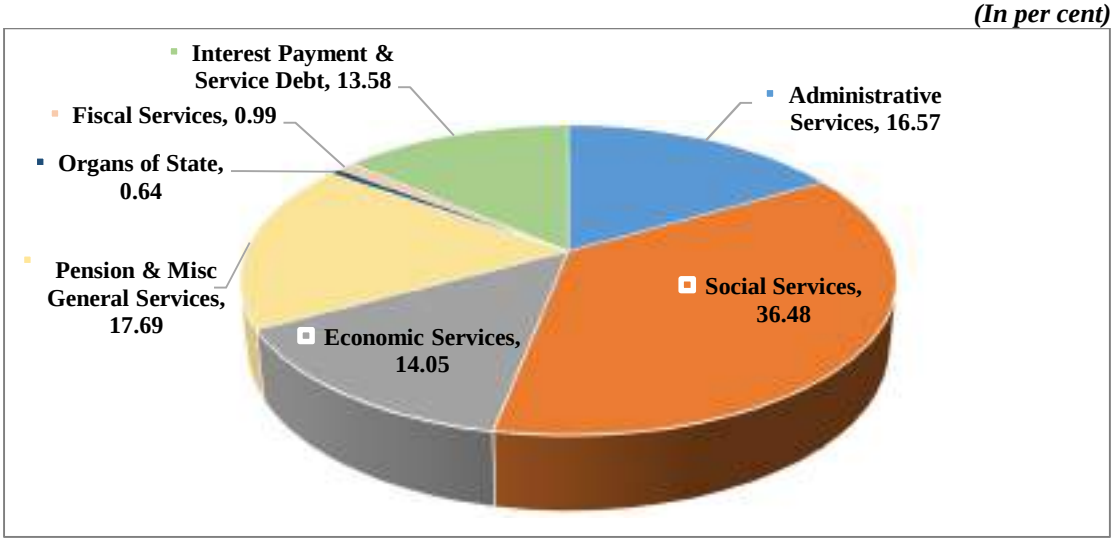
Parameters	**2020-21**	**2021-22**	**2022-23**
Total Expenditure (TE)	63,165.77	70,390.14	73,832.65
Revenue Expenditure (RE)	52,633.75	59,269.33	62,999.34
Rate of Growth of RE (*per cent*)	NA	12.61	6.29
Revenue Expenditure as percentage of TE	83.33	84.20	85.33
RE/GSDP *(per cent)*	31.39	29.65	27.64
Revenue Receipts (RR)	52,495.48	59,238.50	68,975.95
Rate of Growth of RR (*per cent*)	NA	12.84	16.44
RE as percentage of RR	100.26	100.05	91.34
Rate of Growth of GSDP (*per cent*)	NA	19.25	14.01
Buoyancy of Revenue Expenditure with			
GSDP (ratio)	NA	0.66	0.45
Revenue Receipts (ratio)	NA	0.98	0.38

Source: Finance Accounts.

Revenue expenditure increased by ₹10,365.59 crore (19.69 *per cent*) from ₹52,633.75 crore in 2020-21 to ₹62,999.34 crore in 2022-23. The percentage of revenue expenditure to GSDP decreased from 31.39 *per cent* in 2020-21 to 27.64 *per cent* in 2022-23. Buoyancy of revenue expenditure with reference to revenue receipts showed improvement.

Chart 2.10: Sector wise distribution of Revenue Expenditure during 2022-23

(In per cent)



During 2022-23, the combined share of revenue expenditure on Economic and Social services accounted for 50.53 *per cent* while General services accounted for 49.47 *per cent* of revenue expenditure. The expenditure on Administrative Services (16.57 *per cent)*, Interest payments and Servicing of debt (13.58 *per cent*) and Pension & Miscellaneous General Services (17.69 *per cent*) were the major components of expenditure on General Services.

2.4.2.1 Major Changes in Revenue Expenditure

Revenue expenditure increased by ₹3,730.01 crore (6.29 *per cent)* from ₹59,269.33 crore in 2021-22 to ₹62,999.34 crore in 2022-23. Significant increase/ decrease of above ₹100 crore under Major Heads of Accounts with regard to revenue expenditure of the UT during the current year as compared to revenue expenditure of the previous year is shown in **Table 2.15**.

Table 2.15: Significant increase/decrease in revenue expenditure with respect to previous year

(₹ in crore)

Major Head	2021-22	2022-23	Increase/ Decrease(-)
2049 Interest Payments	7,360.31	8,493.82	1,133.51
2055 Police	7,636.11	8,200.24	564.13
2202 General Education	10,320.50	10,825.01	504.51
2210 Medical and Public Health	4,569.35	5,027.89	458.54
2211 Family Welfare	407.84	701.06	293.22
2217 Urban Development	755.78	1,270.35	514.57
2235 Social Security and Welfare	1,384.20	1,680.35	296.15
2071 Pension and other retirement benefits	11,563.00	11,142.38	-420.62
2801 Power	3,131.10	2,768.74	-362.36
2236 Nutrition	574.90	417.76	-157.14

Table 2.15 shows that:

- Increase of ₹1,133.51 crore (15.40 *per cent*) in Interest Payments is mainly due to increase for meeting liability on account of interest on internal debt by ₹1,071.75 crore and other obligations by ₹23.39 crore;
- Increase of ₹564.13 crore (7.38 *per cent*) in Police was due to increase in expenditure on Special Police by ₹219.42 crore, District Police by ₹198.40 crore and internal security by ₹108.92 crore respectively.
- Increase of ₹504.51 crore (4.89 *per cent*) under General Education was due to increase in expenditure on Mid-Day Meals by ₹48.38 crore, Elementary Education by ₹722.57 crore and Higher Education by ₹202.82 crore.
- Increase of ₹458.54 crore (10.03 *per cent*) in Medical and Public Health was due to increase in expenditure on Urban Health Services by ₹62.25 crore, Rural Health Services by ₹308.01 crore and Medical Education by ₹81.12 crore.
- Increase of ₹293.22 crore (71.89 *per cent*) in Family Welfare was due to increase in expenditure on Direction and Administration by ₹264.34 crore and Rural Family Welfare services by ₹30.08 crore.
- In Urban Development increase of ₹514.57 crore (68.08 *per cent*) was due to increase in disbursement of assistance to local bodies by ₹509.68 crore.
- In Social Security and Welfare increase of ₹296.15 crore (21.39 *per cent*) was due to increased expenditure on Child Welfare by ₹106.53 crore, Women's Welfare by ₹22.94 crore, and National Family Benefit scheme by ₹123.16 crore.
- Major decrease of ₹420.62 crore (3.63 *per cent*) under Pension and other Retirement benefits was due to decrease in Superannuation and Retirement allowances by ₹297.28 crore, Gratuities by ₹106.93 crore and leave encashment by ₹26.50 crore.
- Decrease of ₹362.36 crore (11.57 *per cent*) in Power was due to decrease in expenditure on purchase of power by ₹455.59 crore,
- Decrease of ₹157.14 crore (27.33 *per cent*) in Nutrition was due to a decrease in expenditure on Special Nutrition programme by ₹156.60 crore.

The Finance Department stated (April 2024) that the reasons for increase/decrease in the expenditure of certain departments are being ascertained from the respective departments. They further added that the decrease of expenditure on power purchase was mainly due to payments made under off-budget borrowings (OBB) through revolving bill payment facility (RBPF).

2.4.2.2 Committed Expenditure

The committed expenditure of the UT Government on revenue account consists of interest payments, expenditure on salaries and wages and pensions. It has first charge on Government resources.

Apart from the above, there are certain items of inflexible expenditure which cannot be ordinarily altered or varied or are statutorily required on an annual basis unlike for variable transactions such as capital expenditure etc. For example, the following items may be considered as inflexible expenditure:

(i) Devolution to local bodies – Statutory devolutions to local bodies for pay and allowances (devolution/ transfer for capital expenditure)

(ii) Statutory requirements of contribution to Reserve Funds – Contributions to Consolidated Sinking Fund (CSF), Guarantee Redemption Fund (GRF), State Disaster Mitigation/ Response Fund (SDMF/SDRF), etc.

(iii) Recoupment of Contingency Fund – Amount recouped within the year.

(iv) Transfer of cess to reserve fund/ other body, which are statutorily required.

(v) Share contribution of CSS against the Central Fund received – Amount of UT share to be transferred to SNA/ spent by the UT.

(vi) Payment of interest on the balances of the interest-bearing funds as if they could have been invested and payment of interest on public debt as charged expenditure – Interest payment.

Upward trend on committed expenditure leaves the Government with lesser flexibility for the development sector. Trend analysis of committed and inflexible expenditure and its components is depicted in **Table 2.16** and share of committed expenditure in revenue expenditure is shown in **Chart 2.11**.

Table 2.16: Components of Committed and Inflexible Expenditure

(₹ in crore)

Components of Committed Expenditure	**2020-21**	**2021-22**	**2022-23**
Salaries & Wages	23,851.70	26,077.64	27,839.07
Interest Payments	6,372.46	7,360.31	8,493.82
Expenditure on Pensions	9,078.11	11,563.00	11,142.38
Total Committed expenditure	**39,302.27**	**45,000.95**	**47,475.27**
As a percentage of Revenue Receipts (RR)			
Salaries & Wages	45.44	44.02	40.36
Interest Payments	12.14	12.42	12.32
Expenditure on Pensions	17.29	19.52	16.15
Committed expenditure	**74.87**	**75.96**	**68.83**
As a percentage of Revenue Expenditure (RE)			
Salaries & Wages	45.31	44.00	44.19
Interest Payments	12.11	12.42	13.48
Expenditure on Pensions	17.25	19.51	17.69
Committed expenditure	**74.67**	**75.93**	**75.36**
Non-committed expenditure	**13,331.48**	**14,268.38**	**15,524.07**
Percentage of RE	**25.33**	**24.07**	**24.64**
Percentage of TE	**21.11**	**20.27**	**21.03**
Components of Inflexible expenditure			
Statutory devolutions to local bodies	901.74	673.01	1,182.69

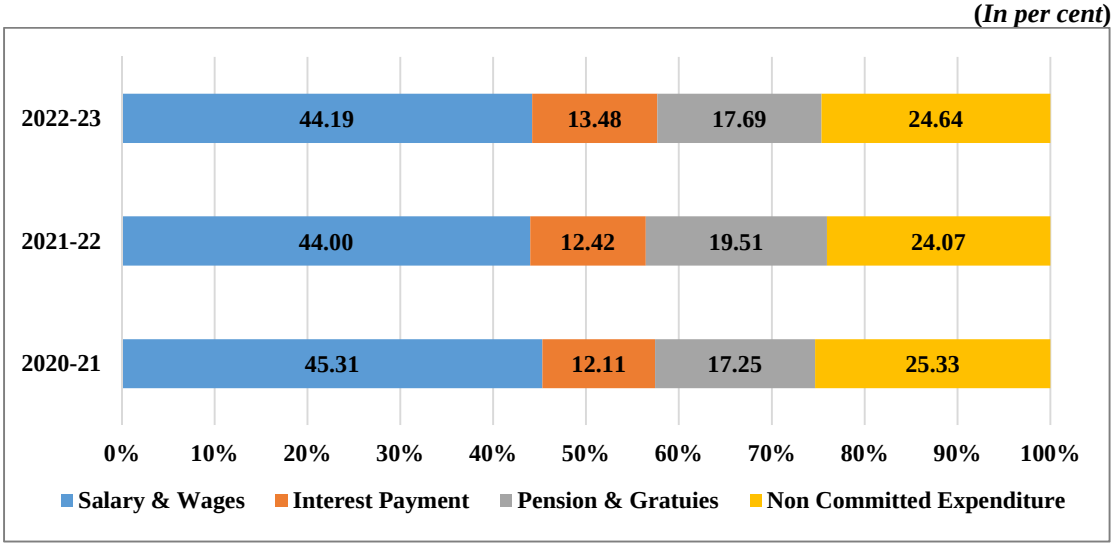
Components of Committed Expenditure	2020-21	2021-22	2022-23
Contribution to Reserve Funds	511.67	153.89	173.45
Recoupment of Contingency Fund	25.00	0	0
Transfer of cess to reserve fund/ other body	NA	NA	NA
Share contribution of CSS[7] against the Central Fund received	830.53	873.17	801.48
Payment of interest on the balances of the interest-bearing funds as if they could have been invested and payment of interest on public debt as charged expenditure	23.91	41.53	41.82
Total Inflexible expenditure	**2,292.85**	**1,741.60**	**2,199.44**
Inflexible expenditure as a percentage of Revenue Receipts (RR)	**4.37**	**2.94**	**3.19**
Inflexible expenditure as a percentage of Revenue Expenditure (RE)	**4.36**	**2.94**	**3.49**
Subsidies	128.24	95.16	28.03
Subsidies as percentage of non-committed expenditure	0.96	0.67	0.18

Source: Finance Accounts

Table 2.16 shows that the percentage of non-committed expenditure to revenue expenditure during 2020-21 to 2022-23 ranged between 24.07 *per cent* and 25.33 *per cent*. However, the percentage of committed expenditure to revenue expenditure ranged between 74.67 *per cent* and 75.93 *per cent*. The ratio of committed expenditure to revenue receipts during 2020-21 to 2022-23 ranged between 68.83 *per cent* and 75.96 *per cent*. It shows that major portion of revenue receipts was exhausted to meet committed expenditures and Government was left with 24.04 *per cent* to 31.17 *per cent* of its revenue receipts for other expenditure.

Chart 2.11: Share of committed expenditure in revenue expenditure

(*In per cent*)



Source: Finance Accounts

[7] Since the share contribution of CSS released by UT is not clearly discernable in the accounts during 2021-22 and 2022-23, the proportionate UT share as per SNA-01 generated from PFMS has been adopted during the years 2021-22 and 2022-23.

Salaries and wages

Expenditure on salaries and wages (₹27,839.07 crore) increased by 6.75 *per cent* during 2022-23 over the previous year (₹26,077.64 crore) and constituted 44.19 *per cent* of revenue expenditure.

Interest payment

The expenditure of ₹8,493.82 crore on interest payments during 2022-23 increased by 15.40 *per cent* over the previous year (₹7,360.31 crore). Interest on internal debt (₹6,227.55 crore), Small Savings and Provident Funds (₹1,910.10 crore), Loans and Advances from GoI (₹46.33 crore) and Reserve Funds (₹71.83 crore) were the major components of interest payments during 2022-23.

Pensions

The expenditure on pension and other retirement benefits to the UT Government pensioners (₹11,142.38 crore) during 2022-23 constituted 17.69 *per cent* of revenue expenditure. The expenditure on pension and other retirement benefits during 2022-23 decreased by 3.64 *per cent* over the previous year (₹11,563.00 crore). In comparison to 2021-22, Superannuation and Retirement allowances (₹6,925.53 crore) during 2022-23 decreased by ₹297.28 crore, Gratuities (₹1,251.19 crore) decreased by ₹106.94 crore and family pension (₹259.50 crore) decreased by ₹43.55 crore. However, the Government contribution for Defined Contribution Pension Scheme (₹1,002.01 crore) increased by ₹67.43 crore over the previous year.

2.4.2.3 Undischarged liabilities in National Pension System

In terms of the Defined Contribution Pension Scheme, J&K Government employees recruited on or after 1 January 2010 are covered under the Scheme. Under the scheme the employee contributes 10 *per cent* of basic pay and dearness allowance which is matched by the Government with an equal amount. Government of Union Territory contribution was enhanced to 14 *per cent* in May 2021 (Government of Union Territory of Jammu and Kashmir S.O No. 178 dated 20 May 2021) with retrospective effect from 1 April 2020.

During the year 2022-23, total contribution to Defined Contribution Pension Scheme was ₹1,773.57 crore (Employee's contribution: ₹771.56 crore and Government of Union Territory contribution: ₹1,002.01 crore).

The Government of Union Territory transferred ₹1,773.57 crore to the Public Account under Major Head-8342-117 Defined Contribution Pension Scheme, out of which ₹1,781.42 crore was transferred from this Head of Deposit Account to the designated fund manager through the National Securities Depository Limited (NSDL)/ Trustee Bank. As on 31 March 2023, an amount of ₹3.86 crore was lying under the Major Head 8342- "Other Deposits"-117 "Defined Contribution Pension Scheme" (New Pension Scheme) for Government employees awaiting transfer to NSDL/Trustee Bank. There was also a liability of ₹53.67 crore required to be transferred to NSDL/Trustee Bank pertaining to the erstwhile State of Jammu and Kashmir ended 30 October 2019

(pre re-organisation) which is yet to be apportioned between the successor Union Territory of Jammu & Kashmir and Union Territory of Ladakh.

The Finance Department stated (April 2024) that the transfer of ₹3.86 crore to NSDL and apportionment of ₹53.67 crore between two UTs has been noted for necessary action.

Inflexible expenditure

The components of Inflexible expenditure which include among others, statutory devolutions to local bodies and contribution to Reserve Funds fluctuated from ₹2,292.84 crore in 2020-21 to ₹1,741.60 crore in 2021-22 and ₹2,199.44 crore in 2022-23. Inflexible expenditure of ₹2,199.44 crore in 2022-23 comprised 3.49 *per cent* of revenue expenditure.

2.4.2.4 Subsidies

Amounts being booked under the object head 'subsidies' have been shown below.

Table 2.17: Expenditure on subsidies during 2020-21 to 2022-23

Particulars	2020-21	2021-22	2022-23
Non-Committed Expenditure *(₹ in crore)*	13,331.48	14,268.38	15,524.07
Subsidy *(₹ in crore)*	128.24	95.16	28.03
Subsidy as percentage of Non-Committed Expenditure	0.96	0.67	0.18
Subsidies as a percentage of Revenue Receipts	0.24	0.16	0.04
Subsidies as a percentage of Revenue Expenditure	0.24	0.16	0.04

Source: Finance Accounts

The expenditure on subsidies by Union Territory of J&K has decreased from ₹128.24 crore in 2020-21 to ₹28.03 crore in 2022-23. It constituted 0.04 *per cent* of revenue receipts (₹68,975.95 crore) and revenue expenditure (₹62,999.34 crore). Horticulture Department was provided maximum subsidy (₹28.02 crore) which was 99.96 *per cent* of total expenditure on subsidy during the year.

2.4.2.5 Financial Assistance by the UT Government to Local Bodies and other Institutions

Financial assistance is provided by the Union Territory Government to Local bodies and other institutions by way of grants and loans. The quantum of assistance provided by way of Grants to local bodies and other institutions is presented in **Table 2.18**.

Table 2.18: Financial Assistance to Local Bodies etc.

(₹ in crore)

Financial Assistance to Institutions	2020-21	2021-22	2022-23
(A) Local Bodies			
Municipal Corporations	502.15	388.43	819.87
Others	356.32	256.03	330.66
Total (A)	**858.47**	**644.46**	**1,150.53**
(B) Others			
Educational Institutions (Aided Schools, Aided Colleges, Universities, etc.)	2,256.56	2,205.67	2,792.66
Development Authorities	68.43	71.08	77.92

Financial Assistance to Institutions	2020-21	2021-22	2022-23
Jammu and Kashmir Power Companies*	2,759.98	1,188.23	1,286.88
Other Institutions	588.42	761.41	972.52
Total (B)	**5,673.39**	**4,226.39**	**5,129.98**
Total (A+B)	**6,531.86**	**4,870.85**	**6,280.51**
Revenue Expenditure	52,633.75	59,269.33	62,999.34
Assistance as percentage of Revenue Expenditure	12.41	8.22	9.97

Source: Finance Accounts

**J&K Power Development Corporation, Jammu Power Discom, Kashmir Power Discom and JK Power Corporation Ltd*

During the current year, financial assistance to the local bodies and other institutions increased by ₹1,409.66 crore (29 *per cent*) over the previous year. Major increase was under Financial assistance given to Local bodies (₹506.07 crore; 78.53 *per cent*) and Educational Institutions (₹586.99 crore; 26.61 *per cent*).

Educational Institutions and Jammu and Kashmir Power Companies were the major beneficiaries of assistance, as they received 44.47 *per cent* and 20.49 *per cent* respectively of total financial assistance disbursed during 2022-23. Grants-in-Aid as percentage of revenue expenditure during 2022-23 was 9.97 *per cent* in comparison to 8.22 *per cent* during 2021-22.

Major recipients of financial assistance are shown in **Table 2.19**.

Table 2.19: Major recipients of financial assistance during the year 2022-23

(₹ in crore)

Recipient	Amount
Jammu Municipal Corporation	469.67
Srinagar Municipal Corporation	350.20
Urban Local Bodies (Kashmir)	193.96
Urban Local Bodies (Jammu)	136.70
National Rural Livelihoods Mission	133.20
Jammu and Kashmir Power Companies[8]	1,286.88
Medical Education Training and Research	1,061.11
Government Educational Institutions	552.71
Kashmir University	334.36
Sher-e-Kashmir University of Agriculture Sciences and Technology Kashmir	279.00
Jammu University	250.17
Sher-e-Kashmir University of Agriculture Sciences and Technology Jammu	127.75

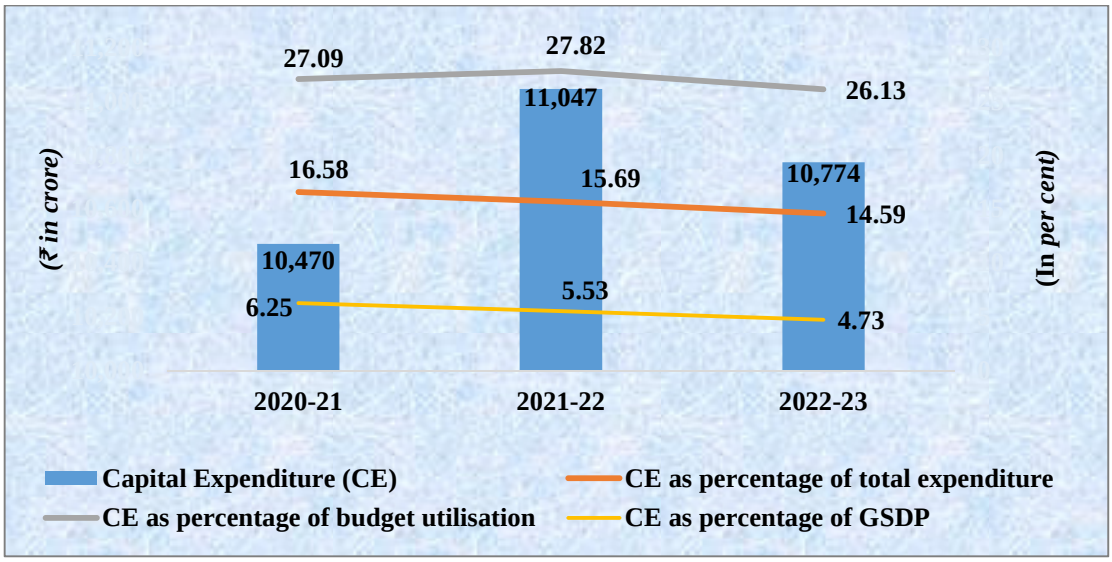
The Finance Department replied (April 2024) that the increase in GIA to Municipal Corporations and power companies is mainly attributable to devolution of powers to Urban Local Bodies and Municipal Corporations and unbundling of power companies for their operational expenses.

[8] J&K Power Development Corporation: ₹14.24 crore; Jammu Power Discom: ₹497.93 crore; Kashmir Power Discom: ₹601.64 crore; Power Trading Corporation: ₹173.07 crore

2.4.3 Capital Expenditure

Capital Expenditure (Capex) is primarily expenditure on creation of fixed infrastructure assets such as roads, buildings etc. Capex is being met from budgetary support and extra budgetary resources/off budget. It also includes investments made by the UT Government in Companies/Corporations. Trends of capital expenditure in the UT over the period 2020-21 to 2022-23 is given in **Chart 2.12**.

Chart 2.12: Capital Expenditure in the UT



Capital expenditure increased by ₹576.66 crore (5.51 *per cent*) during 2021-22, however, it decreased by ₹273.26 crore (2.47 *per cent*) during 2022-23. Percentage of capital expenditure in total expenditure showed a declining trend and decreased from 16.58 *per cent* in 2020-21 to 14.59 *per cent* during 2022-23. Utilisation of budget for capital expenditure decreased from 27.82 *per cent* in 2021-22 to 26.13 *per cent* in 2022-23. Capital expenditure to GSDP ratio decreased from 6.25 *per cent* in 2020-21 to 4.73 *per cent* in 2022-23.

The Finance Department stated (May 2024) that the report indicates capital expenditure of the UT as ₹10,774 crore and it excludes the capital investments of important interventions of the Central Government like the Jal Jeevan Mission. Under the JJM, substantial investment was made in 2022-23 to increase tap water connections in rural areas. There was dramatic improvement in provision of water supply to households in the entire UT by investing capital funds in 6,596 works for construction of bore-wells/tube-wells, commissioning of water treatment/filtration plants, development of overhead tanks and laying of pipe network. Through these works, the Government has doubled the coverage of pipe water supply with the number of household tap connections expanding from 5.8 lakh connection in March 2016 to about 10 lakh by March 2023.

The Audit opinion on Capital expenditure is based on information contained in the Finance Accounts 2022-23, wherein the funds routed through the Consolidated Fund of UT of Jammu and Kashmir are being captured. As regards investment made in Jal Jeevan Mission, the funds have been released by the GoI directly to the implementing

agencies and have not been routed through the Consolidated Fund of the UT of Jammu and Kashmir. Further, the details of incomplete projects of all the Departments of UT Government as of March 2023 were not provided for inclusion in the Finance Accounts 2022-23.

2.4.3.1 Major Changes in Capital Expenditure

Capital outlay decreased by ₹273.26 crore (2.47 *per cent*) from ₹11,047.04 crore in 2021-22 to ₹10,773.78 crore in 2022-23. Significant variations of ₹100 crore and above under various Major Heads of Accounts with regard to capital outlay of the UT during the current year as compared to the previous year is shown in the table below.

Table2.20: Significant increase/decrease of more than ₹100 crore with respect to previous year

(₹ in crore)

Major Head description	2021-22	2022-23	Increase (+)/ Decrease (-)
4059- Capital Outlay on Public Works	534.80	887.40	352.60
4202- Capital outlay on Education, Sports, Art and Culture	572.31	851.87	279.56
4217- Capital Outlay on Urban Development	450.98	772.91	321.93
4515-Capital outlay on Other Rural Development Programmes	1,267.65	2,436.38	1,168.73
4711-Capital Outlay Flood Control Projects	45.87	170.16	124.29
4210-Capital outlay on Medical and Public Health	636.79	365.76	-271.03
4216- Capital Outlay on Housing	209.43	7.71	-201.72
4235- Capital Outlay on Social Security and Welfare	509.70	363.51	-146.19
4801-Capital outlay on Power Projects	1,230.00	722.46	-507.54
5054- Capital outlay on Roads and Bridges	2,612.67	2,091.39	-521.28
5475- Capital outlay on Other General Economic Services	1,245.77	557.98	-687.79

Source: Finance Accounts.

Increased expenditure under Capital Outlay on Other Rural Development programmes was mainly due to more expenditure on 103-Rural Development, 101-Panchayati Raj and 102-Community Development with respect to the previous year.

Increased expenditure under Capital Outlay on Public Works was mainly due to more expenditure on 01-Office buildings.

Increase in expenditure under Capital Outlay on Urban Development was mainly due to increase in expenditure on 03-Integrated Development of Small and Medium Towns and 60- Other Urban Development Schemes.

Decreased expenditure under Capital Outlay on Power Projects was mainly due to less expenditure on works underMH-4801 Capital Outlay on Power Projects, 01- Hydel Generation, with respect to the previous year.

Decreased expenditure under Capital Outlay on Roads and Bridges was mainly due to less expenditure on 03- State Highways and 04- District and other Roads, with respect to the previous year.

Decreased expenditure under Capital Outlay on Other General Economic Services was mainly due to less expenditure under 800- Other Expenditure with respect to the previous year.

The Finance Department stated (April 2024) that the decreasing trend in capital expenditure in certain departments shall be conveyed to the concerned agencies for taking expeditious action.

2.4.3.2 Quality of capital expenditure

Capital expenditure includes investments in Cooperative Banks, Societies and Government Companies with an expected return. This section presents an analysis of investments and other capital expenditure undertaken by the Government during the current year.

(i) Quality of investments in the companies, corporations and other bodies

UT of Jammu and Kashmir had total investment of ₹1,311.59 crore as on 31 March 2023 in 40 Companies (₹860.51 crore), two Statutory Corporations (₹193.91 crore), eight Co-operative Institutions/ Local Bodies (₹239.85 crore), and two Rural Banks (₹17.32 crore). The major portion of investments has been made in JKRTC - (₹193.91 crore) and Chenab Valley Power Projects - (₹557.15 crore).

The erstwhile J&K State Government had cumulative investment of ₹4,620.16 crore in 37 Companies (₹4,157.86 crore), three Statutory Corporations (₹368.31 crore), eight Co-operative Institutions/ Local Bodies (₹47.83 crore), two Rural Banks (₹45.82 crore) and two Joint Stock Companies (₹0.34 crore) ending 30 October 2019 which had not been apportioned between Union Territory of Jammu and Kashmir and Union Territory of Ladakh. No dividend was received and credited to Government accounts during the year. **Table 2.21** gives the overall picture of return on investment vis-à-vis the average cost of Government borrowing.

Table 2.21: Return on Investment

(₹ in crore)

Investment/return/ cost of borrowings	2020-21	2021-22	2022-23
Investment at the end of the year *(₹ in crore)*	306.12	879.13	1,311.59
Return *(₹ in crore)*	Nil	Nil	Nil
Return (*per cent)*	Nil	Nil	Nil
Average rate of interest on Government Borrowings (*per cent*)	6.65	6.95	7.60[9]
Difference between interest rate and return (*per cent*)	6.65	6.95	7.60
Difference between cost of Government borrowings and return on investment *(₹ in crore)*[#]	20.36	61.10	99.68

 # Investment at the end of the year X *Difference between interest rate and return*
100

Source: Finance Accounts.

Average rate of interest paid on its public debt by the Government during 2022-23 was 7.60 *per cent* against which nil return on investment was received by the Government. Cost of borrowing of the Government during 2022-23 has increased from ₹20.36 crore to ₹99.68 crore. Taking into account the investment of the erstwhile State amounting to ₹4,620.17 crore, the cost of borrowing amounts to ₹450.81 crore.

[9] Interest paid ₹8,242.92 crore on public borrowings during 2022-23 as *per cent* of Average Public debt and other liabilities of UT and erstwhile State excluding back to back loans received from GoI in lieu of GST Compensation ((OB: ₹1,06,926.76 crore + CB ₹1,09,997.14 crore)/2 = ₹1,08,461.95 crore).

The Finance Department stated (May 2024) that the report indicates that ₹1,311.59 crore was invested in PSUs in 2022-23 with little return. But most of the investment has been as equity investment in Chenab Valley Power Projects Limited (CVPPL) for developing hydro-electric projects. These projects are under construction and any revenue generation in such infrastructure projects is possible only after commissioning. Further, the investments in State Road Transport Corporation have ensured turnaround of the corporation. Further, 11 companies reported profits in 2022-23.

The reply is not acceptable in view of the fact that although 11 PSUs cited by the Finance Department had recorded profits during 2022-23, as per the Finance Accounts 2022-23, the Government of J&K did not get any returns from the investment of ₹1,311.59 crore made in these PSUs as of 31 March 2023.

(ii) Reconciliation of Government Investments with Accounts of Companies

The figures of Government investments as equity in Public Sector Undertakings (PSU) should agree with those appearing in the accounts of the PSUs. Reconciliation of figures is necessary to figure out the differences in accounts of PSUs and Finance Accounts of the UT Government.

Government of UT of Jammu and Kashmir booked ₹30.87 crore as investment during 2022-23. However, Companies, Corporations and other bodies concerned had shown an investment of ₹349.47 crore during 2022-23, thereby resulting in variation of ₹318.60 crore. The UT Government stated (August 2023) that few PSUs which are not able to balance their budgets and meet their expenses are provided budgetary support to be classified as loans. Funds provided under Capital budget are classified as capital investment in the PSUs. It was also stated that there is a need to reconcile the figures. As such reconciliation should be carried out in a time bound manner to resolve the difference.

2.4.3.3 Quantum of loans disbursed and recovered

In addition to the investments in co-operative societies, corporations and companies, the UT Government has also been providing loans and advances to many institutions/organisations. **Table 2.22** presents the position of outstanding loans and advances as on 31 March 2023 and interest receipts *vis-à-vis* interest payments by the UT Government on its borrowings during the years 2020-21 to 2022-23.

Table 2.22: Quantum of loans disbursed and recovered during the year 2020-21 to 2022-23

(₹ in crore)

Quantum of loans disbursed and recovered	2020-21	2021-22	2022-23
Opening Balance of loans outstanding*	35.80 (1,740.44)	95.51 (1,740.44)	168.26[10] (1,740.44)
Amount advanced during the year	61.64	73.77	59.53
Amount recovered during the year	1.93	1.03	1.33
Closing Balance of loans outstanding*	95.51 (1,740.44)	168.25 (1,740.44)	226.46 (1,740.44)
Net addition	59.71	72.74	58.20

[10] ₹16,825.65 lakh rounded to ₹168.26 crore

Quantum of loans disbursed and recovered	2020-21	2021-22	2022-23
Interest received on Loans and Advances	Nil	0.13	0.47
Interest received *vis-à-vis* loans outstanding (*per cent*)	Nil	0.08	0.21
Rate of interest paid on outstanding borrowings** of the Government	6.65	6.95	7.60[11]
Difference between the rate of interest paid and interest received (*per cent*)	(-) 6.65	(-) 6.87	(-) 7.39

Source: Finance Accounts.
** Figures in brackets are the balances of Outstanding loans of the erstwhile State of Jammu and Kashmir as on 30 October 2019, yet to be apportioned between the two newly created UTs.*
***Worked out on borrowings including Outstanding borrowings of the erstwhile State (₹82,050.50 crore) which is to be apportioned between successor UTs, but excluding Back to Back loans in lieu of GST compensation (2020-21: ₹2,099.80 crore; 2021-22: ₹5,945.29 crore and 2022-23: ₹5,945.29 crore).*

During the year 2022-23, the Government of Union Territory of Jammu and Kashmir disbursed loans and advances of ₹59.53 crore and recovered loans and advances amounting to ₹1.33 crore. Out of total loans disbursed during 2022-23, loans amounting to ₹52.03 crore was disbursed as loan assistance to Public Sector Units of Industries and Minerals. Loan amounting to ₹7.50 crore was disbursed to J&K Road Transport Corporation Limited (JKRTC) which already had outstanding loans of ₹479.23 crore ending 31 March 2022 (₹383.73 crore received from erstwhile State and ₹95.50 crore from UT of J&K). As per last audited accounts for the year 2018-19, JKRTC booked losses of ₹117.62 crore. Recoveries of Loans and Advances are not forthcoming from loss making public sector undertakings. No assessment about potential recoverability of these loans has been made in the FRBM Statements.

The Government of UT of Jammu and Kashmir had total outstanding loans and advances of ₹95.51 crore ending 31 March 2021 which increased to ₹226.46 crore at the end of 31 March 2023. In addition, there were Loans and Advances of ₹1,740.44 crore disbursed by the Government of the erstwhile State which were outstanding as on 30 October 2019 and were yet to be divided between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh.

As against the loan amount ranging between ₹59.53 crore to ₹73.77 crore advanced during 2020-23, the recovery of loans during the same period ranged between ₹1.03 crore and ₹1.93 crore only. Interest receipts of ₹0.47 crore during 2022-23 was only 0.21 *per cent* of the outstanding loans at the end of 2022-23.

The Finance Department replied (April 2024) that non-assessment of potential recoverability in the FRBM statements has been noted for necessary action.

2.4.3.4 Capital blocked in incomplete works

An assessment of trends in capital blocked in incomplete capital works would also indicate quality of capital expenditure. Blocking of funds in incomplete projects/ works impinges negatively on the quality of expenditure and deprives the UT of the intended benefits for prolonged periods. Further, the funds borrowed for implementation of these projects during the respective years lead to extra burden in terms of servicing of debt

[11] Interest paid ₹8,242.92 crore on public borrowings during 2022-23 as *per cent* of Average Public debt and other liabilities of UT and erstwhile State excluding back to back loans received from GoI in lieu of GST Compensation ((OB: ₹1,06,926.76 crore + CB ₹1,09,997.14 crore)/2 = ₹1,08,461.95 crore).

and interest liabilities. Details of age-wise and department-wise incomplete projects are shown in **Tables 2.23** and **2.24** respectively.

Table 2.23: Age profile of incomplete projects as on 31 March 2023

(₹ in crore)

Year of comme-ncement	No of incomplete projects	Estimated cost	Expenditure (as on 31 March 2023)
2010-11	1	4.24	5.58
2011-12	1	17.34	16.86
2015-16	1	9.50	6.23
2016-17	1	3.56	3.34
2017-18	6	33.42	24.28
2018-19	15	37.26	18.22
2019-20	4	26.89	19.58
2020-21	15	56.45	32.13
2021-22	3	10.65	6.27
2022-23	1	2.34	1.22
Total	**48**	**201.65**	**133.71**

Table 2.24: Department-wise profile of incomplete projects as on 31 March 2023

(₹ in crore)

Department	No. of incomplete projects	Estimated cost	Expenditure (as on 31 March 2023)
Jal Shakti (PHE) Department, Jammu	4	7.89	5.93
Public Works Roads and Bridges Department Jammu	44	193.76	127.78
Total	**48**	**201.65**	**133.71**

Source: Finance Accounts.

The expenditure of ₹133.71 crore incurred on 48 incomplete projects was yet to yield the intended benefits. Out of 48 incomplete projects, 29 projects on which expenditure of ₹94.09 crore had been incurred, pertained to the period prior to the year 2020-21. Delay in completion of projects not only adversely affected the quality of expenditure but also deprived the UT of intended benefits and economic growth.

The Finance Department during the exit conference stated (April 2024) that the BEAMS portal will provide a full picture on incomplete projects and all the departments will be directed to provide the requisite information on incomplete projects to PAG (A&E).

2.4.3.5 Implementation of Ujwal Discom Assurance Yojana (UDAY)

With the objective of ensuring financial turnaround of Power Distribution Companies (DISCOM), the Ministry of Power, Government of India (GoI) introduced (November 2015) the Ujwal Discom Assurance Yojana (UDAY) to improve the operational and financial efficiency of the State DISCOM. States were to takeover 75 *per cent* of DISCOM debt as on September 2015 over two years i.e. 50 *per cent* of DISCOM debt was to be taken over in 2015-16 and 25 *per cent* in 2016-17. In March 2016, the Ministry of Power, Government of India and Government of Jammu and Kashmir signed a Memorandum of Understanding (MOU) under the scheme UDAY-"Ujwal DISCOM Assurance Yojana" and borrowed ₹3,537.55 crore (₹2,140 crore in 2015-16 and ₹1,397.55 crore in 2016-17) from RBI by issue of Non-Statutory Liquidity Ratio (SLR) bond at rates ranging between 7.07 *per cent* to 8.72 *per cent* with maturity date from March 2022 to October 2031. The function of electricity supply to consumers was being handled departmentally, so the money was utilised by the Government to clear liabilities towards the Central Public Sector

Undertakings (CPSU). The Government has to pay interest on the bonds and bonds will also be maturing every year from 2021-22 to 2031-32. During the year 2022-23, the Government paid ₹265.87 crore towards interest on bonds issued under UDAY Scheme and has also so far paid principal amounting to ₹567.76 crore (including ₹353.76 crore paid during 2022-23).

2.4.4 Expenditure priorities

Enhancing human development levels requires the UT to step up its expenditure on key social services like education, health, etc. Low fiscal priority (ratio of expenditure under a category to total expenditure) is attached to a particular sector, if the allocation is below the respective national average. The higher the ratio of these components to total expenditure, the quality of expenditure is considered to be better. Fiscal priority[12] of the UT Government with regard to expenditure on social and economic sectors, etc. is shown in **Table 2.25**.

Table 2.25: Expenditure priority with regards to Health, Education, Capital expenditure etc.

(In *per cent*)

	TE/GSDP	CE/TE	Education/TE	Health/ TE
North Eastern and Himalayan States Average (2020-21)	27.44	15.81	16.88	7.03
North Eastern and Himalayan States Average (2021-22)	27.50	17.45	15.93	7.24
North Eastern and Himalayan States Average (2022-23)	27.24	15.52	15.77	6.95
Jammu and Kashmir (2020-21)	37.68	16.67	16.28	7.85
Jammu and Kashmir (2021-22)	35.21	15.80	15.66	7.98
Jammu and Kashmir (2022-23)	32.39	14.67	15.99	8.25

Source: Figures calculated on the basis of Finance Accounts of the respective States/UT
TE: Total Expenditure and CE: Capital Expenditure (includes Loans and advances disbursed)

Table 2.25 shows that:

- The UT Government's total expenditure as proportion of GSDP decreased from 37.68 *per cent* in 2020-21 to 32.39 *per cent* in 2022-23 whereas for North Eastern and Himalayan States (NE&HS), it decreased from 27.44 *per cent* to 27.24 *per cent* during the same period.
- Capital expenditure facilitates asset creation which generates opportunities for higher growth. Ratio of capital expenditure to total expenditure in respect of UT of Jammu and Kashmir decreased from 16.67 *per cent* in 2020-21 to 14.67 *per cent* in 2022-23 and it was below the ratio for NE&HS. This ratio for NE&HS decreased from 15.81 *per cent* to 15.52 *per cent* during the same period.

[12] Ratio of expenditure in that category to Total Expenditure (TE).

- The ratio of expenditure on education to total expenditure in UT of Jammu and Kashmir decreased from 16.28 *per cent* in 2020-21 to 15.99 *per cent* in 2022-23. The ratio also decreased from 16.88 *per cent* to 15.77 *per cent* in case of NE&HS during the same period.
- The ratio of expenditure on health to total expenditure in Jammu and Kashmir increased from 7.85 *per cent* in 2020-21 to 8.25 *per cent* in 2022-23, whereas it decreased from 7.03 *per cent* to 6.95 *per cent* in case of NE&HS during the same period.

The Principal Secretary Finance Department stated (May 2024) that the report creates an impression that the UT government gives lower priority to Education and Health sectors in total expenditure. The comparison with North-eastern and Himalayan states has weak foundations as these States do not require the security related expenditure as in J&K. The UT government requires a large police force for ensuring peace and harmony and for tackling externally induced threats. Further, the investments made by the UT government in education sector ensured sharp increase in enrolment of students in primary, middle and secondary schools. In health sector, the UT government's investments in SEHAT initiative has substantially reduced out-of-pocket expenditure and extended cashless treatment to UT's citizens. There has been an unprecedented expansion in medical education with construction of new Medical Colleges and increase of MBBS seats from 500 to 1,300 within the past three years.

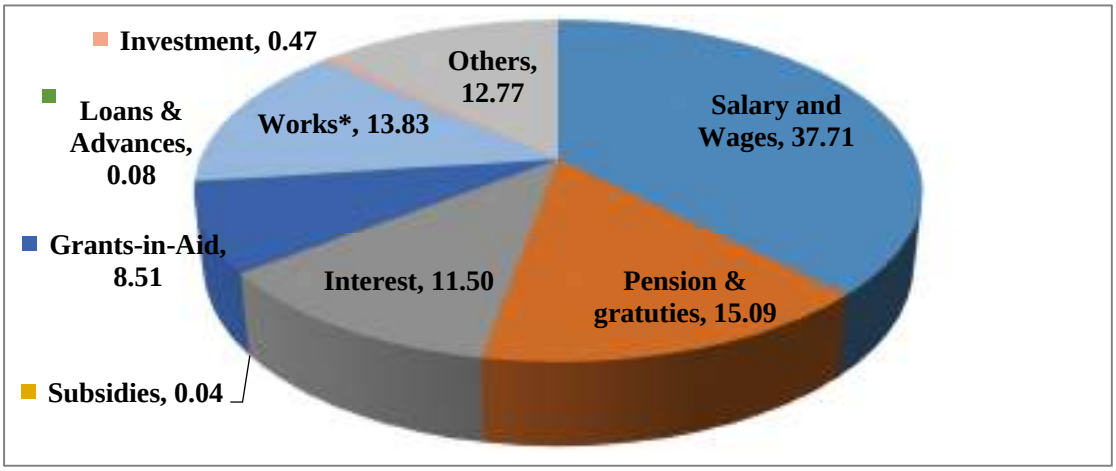
The reply is not acceptable. As can be seen from the data in **Table 2.25**, the proportion of expenditure on Education and Health in the total expenditure of UT of J&K during 2022-23 was 15.99 *per cent* and 8.25 *per cent* which was more than that of the NE&HS. As such, the audit opinion regarding increase or decrease in expenditure on Education and Health is based on factual position.

2.4.5 Object head wise Expenditure

Object head wise expenditure gives information about the object/ purpose of the expenditure.

Chart 2.13: Object head wise Expenditure

(In per cent)



*Source: Finance Accounts; *Works includes expenditure on works, Construction works and Minor Works; Investment figures as per information provided by the concerned PSUs (Statement 19)*

Salary and wages of UT of Jammu and Kashmir accounted for 37.71 *per cent* and pension and gratuities accounted for 15.09 *per cent* of total expenditure. It indicates that more than 52.80 *per cent* of total expenditure was on Salary & Wages and Pension & gratuities. Major, Minor Works and construction works together accounted for 13.83 *per cent* of total expenditure.

The Finance Department stated (April 2024) that the audit observation has been noted and action would be taken accordingly.

2.5 Public Accounts

Receipts and Disbursements in respect of certain transactions such as Small Savings, Provident Funds, Reserve Funds, Deposits, Suspense, Remittances etc., which do not form part of the Consolidated Fund, are kept in the Public Account set up under Section 68(1) of the Jammu & Kashmir Re-organisation Act, 2019 and are not subject to vote by the Legislature. The Government acts as a banker in respect of these transactions. The balance after disbursements during the year is the fund available with the Government for use for various purposes.

2.5.1 Net Public Account Balances

In respect of sums credited to the Public Accounts of the Union Territory of Jammu and Kashmir, the UT Government acts as a trustee or banker and bears a fiduciary liability. Major constituents of the Public Accounts are State Provident Fund, Insurance/Pension Funds, Reserve Funds, and Deposits and Advances. Besides, the Public Accounts section of the Government Accounts is also used to record transitory and passthrough transactions under Suspense and Miscellaneous and Remittance heads before their final accounting to appropriate receipt or payment head of account, and also cash balance transactions. ***Table 2.26*** given below shows the component-wise net balances in Public Account of the UT.

Table2.26: Component-wise net balances in Public Account at close of the years

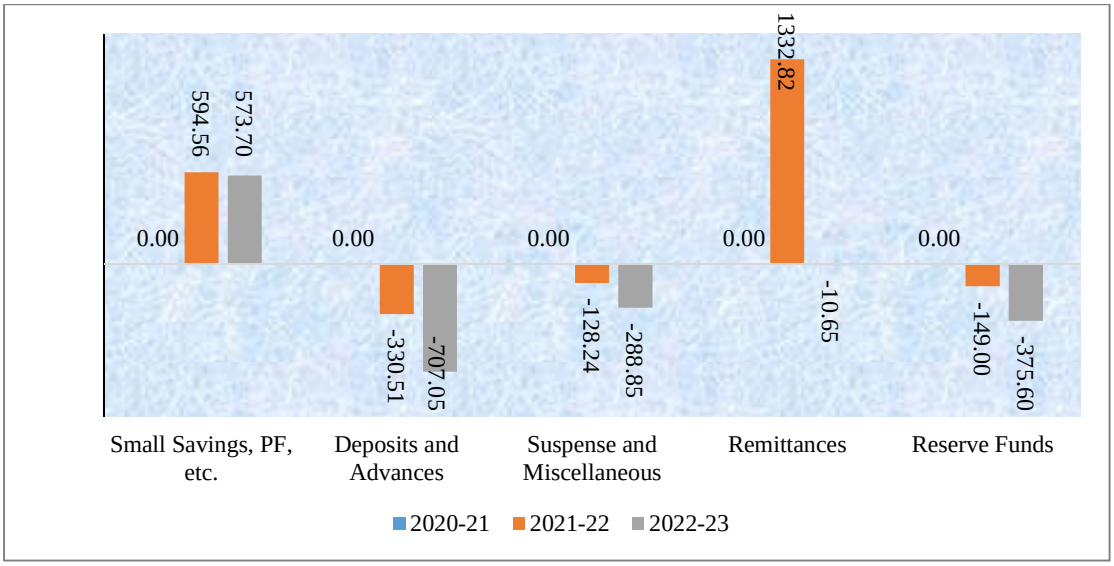
Source: Finance Accounts.
Note: +ve denotes debit balance and –ve denotes credit balances. The figures in brackets indicate balances of the erstwhile State of Jammu and Kashmir yet to be apportioned between the two newly created UTs.

The total credit balance under Public Account of UT of Jammu and Kashmir was ₹4,557.09 crore ending 31 March 2023. There was also a credit balance of ₹37,485.92 crore ending 30 October 2019 under Public Account of the erstwhile State of Jammu and Kashmir, which is yet to be bifurcated between the Union Territory of Jammu and Kashmir and UT of Ladakh.

The Finance Department stated (April 2024) that the audit observation has been noted for further necessary action.

Chart 2.14: Yearly change in Balances in Public Account of UT of J&K during 2022-23

(₹ in crore)



During the year 2022-23, major changes occurred in Suspense and Miscellaneous, Reserve Funds and Deposits and advances components of Public Account.

2.5.2 Reserve Funds

Reserve Funds are created for specific and defined purposes under the Public Accounts of the Government. These funds are met from contributions or grants from the Consolidated Fund of the UT of Jammu and Kashmir. It comprises interest bearing reserve funds and reserve funds not bearing interest. Details of reserve funds are available in Statements 21 and 22 of the Finance Accounts. There were two interest bearing funds and five reserve funds not bearing interest as on 31 March 2023. The balances lying in these reserve funds as on 31 March 2023 are given in **Table 2.27**.

Table 2.27: Closing Balances under Reserve Funds

Source: Finance Accounts.

@ Balances ending 30 October 2019 of erstwhile State were not apportioned between the two UTs (UT of Jammu & Kashmir and UT of Ladakh). As such, opening balance of UT of Jammu & Kashmir has been taken as zero, due to which there were negative closing balances.

The total accumulated balance at the end of 31 March 2023 in these funds was ₹1,295.73 crore out of which ₹1,183.99 crore (Credit) was under interest bearing Reserve Fund and ₹111.74 crore (Credit) under Non-Interest bearing Reserve Fund. There is cumulative aggregate balance in these funds at the end of 30 October 2019 amounting to ₹2,805.43 crore of the erstwhile State of Jammu and Kashmir which is yet to be bifurcated between the two successor UTs.

The Finance Department stated (April 2024) that the audit observation has been noted for further necessary action.

2.5.2.1 Consolidated Sinking Fund

No Consolidated Sinking Fund was separately created in the Union Territory of Jammu and Kashmir after re-organisation of the erstwhile State of Jammu and Kashmir. The Government of the erstwhile State of Jammu and Kashmir set up the Consolidated Sinking Fund for amortisation of loans in January 2012. According to the guidelines of the Fund, Government may contribute a minimum of 10 *per cent* of 0.5 *per cent* of the outstanding liabilities as at the end of 2010-11 every year beginning with the financial year 2011-12 upto 2021-22 to make it equal to 0.5 *per cent* of outstanding liabilities of 2010-11. In addition, contribution in respect of incremental liabilities as from year to year thereafter shall be made at 0.5 *per cent* of such incremental liabilities so as to reach the level deemed sufficient to meet the objective of the Scheme. The Government of Union Territory of Jammu and Kashmir continued with the existing Fund and in the year 2022-23 contributed ₹58.91 crore. The amount required to be contributed to the Fund as per guidelines of 2012 could not be worked out as the available balance under the Fund amounting to ₹355.87 crore as on 30 October 2019 (pre re-organisation) is yet to be apportioned between the Union Territory of Jammu and Kashmir and Union

Territory of Ladakh. The total accumulation of the Fund (for the period 31 October 2019 to 31 March 2023-post re-organisation) was ₹159.54 crore as on 31 March 2023.

The Finance Department stated (April 2024) that the apportionment of balances between the two UTs has been noted for further necessary action. It was further added that the UT Government has also decided to participate in the scheme of Consolidated Sinking Fund of the RBI and has completed the process for the same.

2.5.2.2 State Disaster Response Fund

In terms of guidelines on constitution and administration of the State Disaster Response Fund (under Major Head '8121- General & Other Reserve Funds' which is under interest bearing section), the Central and State Governments are required to contribute to the fund in the proportion of 90:10. On re-organisation of the State of Jammu and Kashmir into two new Union Territories on 30 October 2019, the Government of Union Territory of Jammu and Kashmir continued with the State Disaster Response Fund. During the year 2022-23, an amount of ₹279.00 crore on account of 'Grants towards contribution to Union Territory Disaster Response Fund' was released by the Ministry of Home Affairs, Government of India. The Government of Union Territory of Jammu and Kashmir transferred ₹381.83 crore (Central share ₹279.00 crore, Union Territory share ₹31.00 crore, interest ₹71.83 crore) to the Fund under Major Head 8121-122 SDRF. The contributions to the Fund, expenditure and the balance therein relating to Union Territory of Jammu and Kashmir during the year 2022-23 are as under:

Table 2.28: Receipts and Expenditure under State Disaster Response Fund

(₹ in crore)

Opening balance (1 April 2022)	Contribution by Centre	UT Share	Receipts under NDRF	Total receipts during the year	Amount set off (MH 2245-05)	Balance in the fund
109.29	279.00	31.00	Nil	381.83*	71.70	419.42

**Includes interest of ₹71.83 crore*

There was opening balance of ₹109.29 crore under the Fund as on 1 April 2022 and during the year 2022-23, Government of Union Territory of Jammu and Kashmir transferred ₹381.83 crore (Central Share ₹279.00 crore, Union Territory share ₹31.00 crore, interest ₹71.83 crore) to the Fund. Expenditure of ₹71.70 crore was incurred during the year 2022-23 under Minor Head-101 Gratuitous Relief, leaving a balance of ₹419.42 crore as on 31 March 2023. The balance under the Fund has not been invested by the Government of UT of Jammu and Kashmir.

There was gross balance of ₹1,271.48 crore under State Disaster Response Fund (SDRF) as on 30 October 2019 which is yet to be apportioned between the two new successor Union Territories *viz* Union Territory of Jammu and Kashmir and Union Territory of Ladakh. An amount of ₹10.86 crore stood invested from the Fund leaving net un-apportioned balance of ₹1,260.62 crore.

The Finance Department stated (April 2024) that the audit observation has been noted for further necessary action.

2.5.2.3 Guarantee Redemption Fund

The RBI guidelines of 2013 on the Guarantee Redemption Fund (GRF) mentions that it is desirable for the Government to contribute a minimum of one *per cent* of outstanding guarantees at the beginning of the year in the year of constitution of the Fund, and thereafter a minimum of 0.50 *per cent* every year to achieve a corpus of minimum three to five *per cent* of the outstanding guarantees of the previous year.

The erstwhile State Government had set up (August 2006) a Guarantee Redemption Fund to meet the liabilities arising from invoking of guarantees extended to various Government entities. The erstwhile State Government had not specified the amount required to make the minimum annual contribution to the Fund.

The Government of UT of Jammu and Kashmir has not enacted any specific Guarantee Act, which would prescribe the limit of guarantees which can be given by the Government of the UT of Jammu and Kashmir and charging of commission/ fee thereupon.

During the year, the Government of UT of Jammu and Kashmir, without enacting its own Guarantee Act contributed only ₹1.00 crore to the Guarantee Redemption Fund. The total accumulation of the Fund for the period post re-organisation *viz.* 31 October 2019 to 31 March 2023 was ₹5.00 crore. There was also a balance of ₹20.42 crore in the Fund as on 30 October 2019 (pre re-organisation) yet to be apportioned between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh. The entire amount of ₹25.42 crore [₹5.00 crore relating to UT of Jammu and Kashmir (31 October 2019 to 31 March 2023) and ₹20.42 crore relating to erstwhile State of Jammu and Kashmir (upto 30 October 2019)] has not been invested by the Government. As per Statement 9 of the Finance Accounts 2022-23, the UT Government had not invoked any guarantee during 2022-23.

The Finance Department stated (April 2024) that the apportionment of balances between two UTs has been noted for further necessary action. It further added that the UT Government has also decided to participate in the scheme of GRF of the RBI for which the process has been completed and the same shall be in operation in due course of time.

2.5.2.4 Central Road and Infrastructure Fund (CRIF)

Government of India provides annual grants under the Central Road and Infrastructure Fund (CRIF) to the Government of Union Territory to incur expenditure on specific road projects. During the year 2022-23, the Government of Union Territory received grants of ₹343.61 crore towards CRIF and transferred the entire amount to the Deposit Head-8449 through expenditure Head-3054. The Government of Union Territory incurred expenditure of ₹34.70 crore from the Fund during the year leaving closing balance of ₹676.05 crore[13] in the Fund as on 31 March 2023.

[13] Opening balance of ₹367.14 crore plus receipts ₹343.61 crore less disbursement of ₹34.70 crore.

There was also a balance of ₹573.33 crore as on 30 October 2019 (pre-re-organisation) under the Fund, which is yet to be apportioned between the Union Territories viz. Union Territory of Jammu and Kashmir and Union Territory of Ladakh.

The Finance Department replied (April 2024) that the audit observation has been noted for further necessary action.

2.5.3 Funds outside Consolidated Fund or Public Account of the Union Territory of Jammu and Kashmir

Section 67 of Jammu and Kashmir Re-organisation Act, 2019 envisages that all revenues received in the Union Territory of Jammu and Kashmir by the Government of India or Lieutenant Governor of the Union Territory of Jammu and Kashmir in relation to any matter with respect to which the Legislative Assembly of the Union Territory of Jammu and Kashmir has power to make laws, and all grants made and all loans advanced to the Union Territory of Jammu and Kashmir from the Consolidated Fund of India and all loans raised by the Government of India or the Lieutenant Governor of the Union Territory of Jammu and Kashmir upon the security of the Consolidated Fund of the Union Territory of Jammu and Kashmir and all moneys received by the Union Territory of Jammu and Kashmir in repayment of loans shall form one Consolidated Fund. No moneys can be appropriated from this Fund except in accordance with law and for the purposes and in the manner provided in Jammu and Kashmir Re-organisation Act, 2019. Certain categories of expenditure (e.g., salaries of Constitutional authorities, loan repayments etc.), constitute a charge on the Consolidated Fund of the Union Territory of Jammu and Kashmir (Charged expenditure) and are not subject to vote by the Legislature. All other expenditure (Voted expenditure) is voted by the Legislature.

Section 68 of the Jammu and Kashmir Re-organisation Act, 2019 states that public moneys, other than those credited to the Consolidated Fund of the Union Territory or the Contingency Fund of the Union Territory of Jammu and Kashmir, received by or on behalf of the Lieutenant Governor, shall be kept in the Public Account of the Union Territory of Jammu and Kashmir.

2.5.3.1 Building and other Construction Workers Welfare Cess

The Government of India enacted the Building and Other Construction Workers Welfare Cess Act, 1996 (Cess Act) to levy and collect cess for providing benefits to the workers. The Act, *inter alia*, mandated constitution of a Building and Other Construction Workers' Welfare Board and framing of rules by every Government to exercise the powers conferred under the Act. Accordingly, the erstwhile State Government of Jammu and Kashmir framed the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Rules, 2006 under the Act and constituted the Jammu and Kashmir Building and Other Construction Workers Welfare Board in 2007. The Board is responsible for the operation and maintenance of the amount credited by Government as Labour Cess Deposits. The Government of Union Territory of Jammu and Kashmir continued with the same rules. During

2022-23, opening balance with the Board on account of labour cess was ₹604.72 crore. The receipts during the year were ₹242.22 crore and disbursements were ₹129.65 crore. The closing balance of labour cess as on 31 March 2023 was ₹717.29 crore[14].

2.5.3.2 Water Usage Charges

Water usage charges are being levied on Hydel power generating companies under the provisions of the Jammu and Kashmir Water Resources (Regulation and Management) Act, 2010 amended on 25 October 2012 and 27 October 2014. Under the Act, a Fund was to be constituted as an account in the Jammu and Kashmir Bank or allotted a proper account head. The amount realised as water usage charges was to be deposited in the account/head so created, and utilised for establishment of Hydroelectric and Multi-purpose Hydro Electric Projects and for buying back Hydroelectric power projects already established in the erstwhile State and purchase of power. During 2022-23, no transaction was made in this fund account except for crediting of interest amounting to ₹0.46 crore. As on 31 March 2023, an amount of ₹15.99 crore on account of water usage charges/interest was lying in the Water Usage Fund Account (Saving Bank Account) which remained out of Government Account of the Union Territory of Jammu and Kashmir. The amount lying in the savings account on account of water usage charges and interest thereupon needs to be credited to Government account.

The Finance Department stated (April 2024) that the audit observation has been noted for further necessary action.

2.5.3.3 District Mineral Foundation Trust

Section 9(B) of Mines and Minerals (Development and Regulation) Act, 1957 provides that in any district affected by mining related operations, the State Government shall, by notification, establish a trust, as a non-profit body, to be called the District Mineral Foundation. The objective of the District Mineral Foundation shall be to work for the interest and benefit of persons, and areas affected by mining related operations in such manner as may be prescribed by the State Government. The composition and functions of the District Mineral Foundation shall be such as may be prescribed by the State Government.

The Jammu and Kashmir District Mineral Foundation (Composition, Contribution, Financing, Funding & Trust) Rules were notified vide SRO No. 3 dated 11 January 2017. As per the Rules, the Government shall set up a fund under the Trust to be called as the District Mineral Foundation Trust Fund which shall be managed by the Executive Committee[15]. The Trust Fund shall receive Contribution Fund as per the contributions defined in these rules. The holders of mineral concessions granted under the Act and rules made thereunder, shall make payments for contribution to the trust fund of amounts payable to the State Government simultaneously with payments of royalty.

---

14 Figures are provisional as accounts/balance sheet is yet to be finalised (August 2023).

15 Divisional Commissioner, Kashmir/Jammu, Chairperson, Director Geology and Mining Kashmir/Jammu, Director, Health Services, Kashmir/Jammu, Director, Rural Development, Kashmir/Jammu, Chief Engineer, PWD, Kashmir/Jammu, Special Invitees having knowledge and experience in Mineral Administration/exploration to be invited by the Chairperson.

As per rule 11(1), all holders of major mineral concessions shall, in addition to royalty, pay to the respective District Mineral Foundation, an amount equivalent to such percentage of royalty as may be prescribed by the Central Government under sub-section (5) or sub-section (6) of section 9B of the Act as the case may be. As per Rule 11(2), out of the total amount of royalty realised from the holders of minor mineral concessions, 10 *per cent* shall be deposited/paid towards the respective trust by the department.

There are 20 District Mineral Foundation Fund (DMF) Trusts in the UT of Jammu and Kashmir. Against the total collection of ₹28.10 crore[16] under DMF Fund by all Trusts upto the end of 2022-23, an expenditure of ₹3.43 crore had been incurred during 2022-23. A balance of ₹24.67 crore under DMF Fund was lying in bank accounts of 20[17] District Mineral Foundation Trusts as on 31 March 2023. This amount remained out of Government Account. However, as per Government of India Ministry of Mines order dated 12 July 2021, no fund shall be transferred from District Mineral Foundation Trust to the State exchequer. As per Constitution of India and as per J&K Re-organisation Act 2019, all receipts are to be accounted for either in the Consolidated Fund or Public Accounts, but these receipts are being remitted into the bank accounts of the respective District Mineral Foundation Trusts, as per the directions of Government.

The Finance Department stated (April 2024) that the District Mineral Foundation Trust bears a closing balance of ₹22.41 crore as on 31 March 2023 in all the accounts of 20 districts. It was also stated that necessary instructions shall be sought from the concerned competent authority for its correct accounting and will be shared with Audit.

2.5.3.4 Social Responsibility Corpus fund

In terms of Government Order 50-F of 2016 dated 23 February 2016 the Finance Department Jammu and Kashmir Government, issued a sanction for creation of 'Social Responsibility Corpus Fund' in the Excise Department. The fund was to support the de-addiction centres, take measures to reduce the incidence of drunk driving, promote road safety etc. As per Excise policy, the holders of liquor license were to contribute towards the 'Social Responsibility Corpus Fund' as per rates fixed from time to time. The Department was to make an equal contribution to the contribution made by the stakeholders/ liquor industries.

The amount received in the Social Responsibility Corpus Fund is being credited into the savings bank account maintained at J&K Bank. There was an opening balance of ₹12.55 crore in the bank account as on 01 April 2022. An amount of ₹2.01 crore was received during 2022-23 on account of contribution of license holders (₹1.13 crore), Government (₹0.50 crore) and interest (₹0.38 crore) from the bank. After incurring expenditure of ₹0.31 crore, there was a closing balance of ₹14.25 crore in the account as on 31 March 2023. The amount lying in the savings bank account was outside the

[16] Includes Opening balance of ₹17.23 crore, receipts of ₹10.54 crore and interest of ₹0.33 crore

[17] Jammu, Kathua, Samba, Reasi, Udhampur, Ramban, Doda, Kishtwar, Rajouri, Poonch, Srinagar, Anantnag, Kulgam, Ganderbal, Pulwama, Bandipura, Baramulla, Shopian, Budgam and Kupwara.

Government account and needs to be accounted for either in the Consolidated Fund or Public Accounts.

The Finance Department stated (April 2024) that the fund was being deposited in a bank account and as per rules needs to be accounted for in the Consolidated Fund or Public Account which has been noted for necessary action.

2.5.4 Loans of UT Government not being credited to the Consolidated Fund

As per J&K FRBM Act 2006, 'total liabilities' means the liabilities under the Consolidated Fund of the State and the Public Account of the State and includes borrowings by the public sector undertakings, the special purpose vehicles and other equivalent instruments including guarantees where the principal and/or interest are to be serviced out of the budget. As per Section 10 (3) of the FRBM Act 2006, whenever the Government undertakes to unconditionally and substantially repay the principal amount and/or pay the interest of any separate legal entity, it has to reflect such liability as the borrowings of the State.

The Government of Union Territory of Jammu and Kashmir did not disclose the off budget liabilities in their budget documents/ annual financial statements. However, the Director (Resources) Jammu and Kashmir Finance Department intimated (January 2024) that after the re-organisation of the UT of Jammu and Kashmir, Off Budget Borrowings (OBBs) of ₹23,911.53 crore availed by Jammu & Kashmir Infrastructure Development Finance Corporation (JKIDFC: ₹2,297.90 crore) and Jammu and Kashmir Power Corporation Ltd (JKPCL: ₹21,613.63 crore) were outstanding as of 31 March 2023. JKIDFC has raised these borrowings to fund the long pending projects languishing at various stages. However, JKPCL availed these borrowings to clear the outstanding electricity dues and for power purchase of the UT. Repayment of principal of ₹74.87 crore[18] and interest of ₹1,423.79 crore[19] had been made during 2022-23. These borrowings are being serviced by the Government from the budget but this debt has not been included in liability of Government in the accounts which is against the provisions of JKFRBM Act.

The Accounts officer Finance Department stated (June 2024) that the Government is not paying any commission to these PSUs. However, it was confirmed that the repayment of principal and interest in respect of JKIDFC is presently being made by Government through the budgetary route and in case of JKPCL it is made on monthly basis by way of issuing Inter Governmental Adjustment (IGA) Advice to the RBI Nagpur.

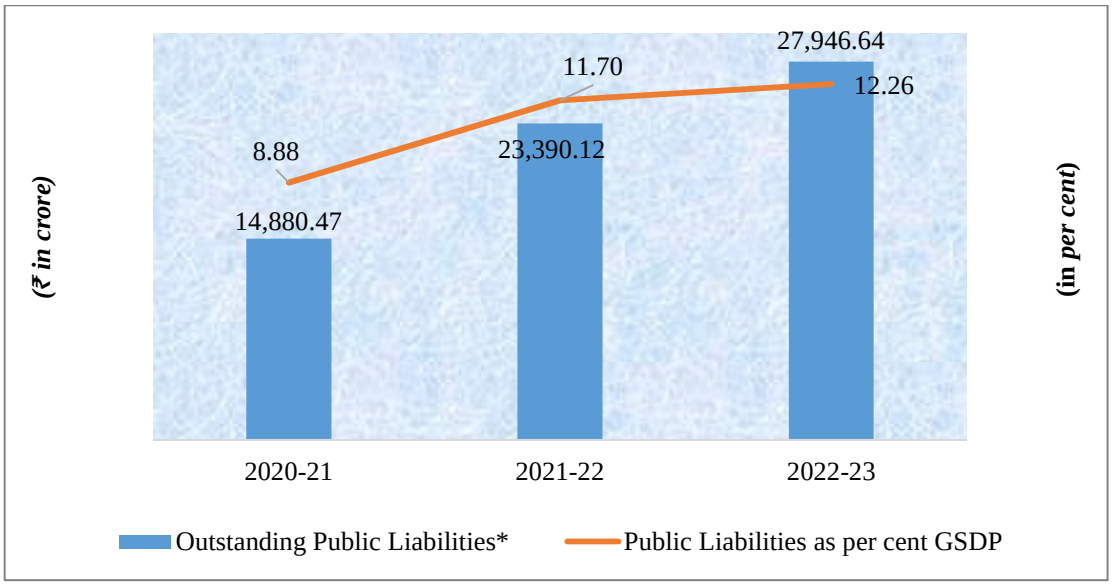
2.6 Public Liability Management

Management of public liabilities is the process of establishing and executing a strategy for managing the Government's liabilities in order to raise the required amount of funding, achieve its risk and cost objectives, and to meet any other sovereign debt management goals that the Government may have set through enactment or any other

[18] JKIDFC: ₹74.87 crore; JKPCL: Nil
[19] JKIDFC: ₹188.66 crore; JKPCL: ₹1,235.13 crore

annual budget announcements. Outstanding liability of UT along with its percentage to GSDP for the years 2020-21 to 2022-23 is depicted in **Chart 2.15**.

Chart 2.15: Outstanding Public Liability and its percentage to GSDP



** The back-to-back loan amount of ₹2,099.80 crore during 2020-21 and ₹3,845.49 crore during 2021-22 received from GoI in lieu of GST Compensation shortfall has been excluded from the total outstanding amount at the end of 2020-21, 2021-22 and 2022-23 respectively.*

2.6.1 Liability profile: Components

Total liabilities of the State/UT Government typically constitutes of Internal debt of the State/UT (market loans, ways and means advances from RBI, special securities issued to National Small Savings Fund and loans from financial institutions, etc.), loans and advances from the Central Government, and Public Account liabilities. The components of the outstanding liability for the period 2020-21 to 2022-23 are given below.

Table 2.29: Component wise outstanding liability trends

(₹ in crore)

	2020-21	**2021-22**	**2022-23**
Outstanding total liability*	**14,880.48**	**23,390.12**	**27,946.64**

Source: Finance Accounts

**Outstanding total liability includes Public Debt, Small savings, Provident funds etc. Reserve funds and Deposits*

The total liabilities of the UT Government had been on the rise as it increased by 87.81 *per cent* from ₹14,880.48 crore in 2020-21 to ₹27,946.64 crore in 2022-23. Public Debt increased by ₹12,672.26 crore (119.91 *per cent*) during 2020-23, wherein the Internal debt recorded major increase of ₹12,911.45 crore (122.24 *per cent*) and Loans from GOI[22] decreased by ₹239.19 crore during the same period. Public account liabilities increased by ₹393.90 crore (9.13 *per cent*) during 2020-23 and the major increase was under Reserve funds bearing interest (₹403.10 crore, 51.62 *per cent*) and Deposits not bearing interest (₹1,010.51 crore, 114.73 *per cent*).

During 2022-23, the repayment of borrowings was 90.75 *per cent* of total borrowing receipts resulting in only ₹4,556.52 crore (9.25 *per cent*) of total borrowing receipts being available with the Government. During 2022-23, the borrowing receipts decreased by 19 *per cent* and the net debt available declined by 46 *per cent* with respect to 2021-22. Taking into account off budget borrowings of ₹23,911.53 crore, the liability to GSDP percentage of UT will increase from 12.26 *per cent* to 22.75 *per cent.* Break up of outstanding liabilities at the end of 2022-23 is shown in **Chart 2.16**.

[21] Excludes back-to-back loan amount of ₹2,099.80 crore and ₹3,845.49 crore received from GoI in lieu of GST Compensation shortfall during 2020-21 and 2021-22, respectively.

[22] Excluding back-to-back loans received from GoI in lieu of GST Compensation

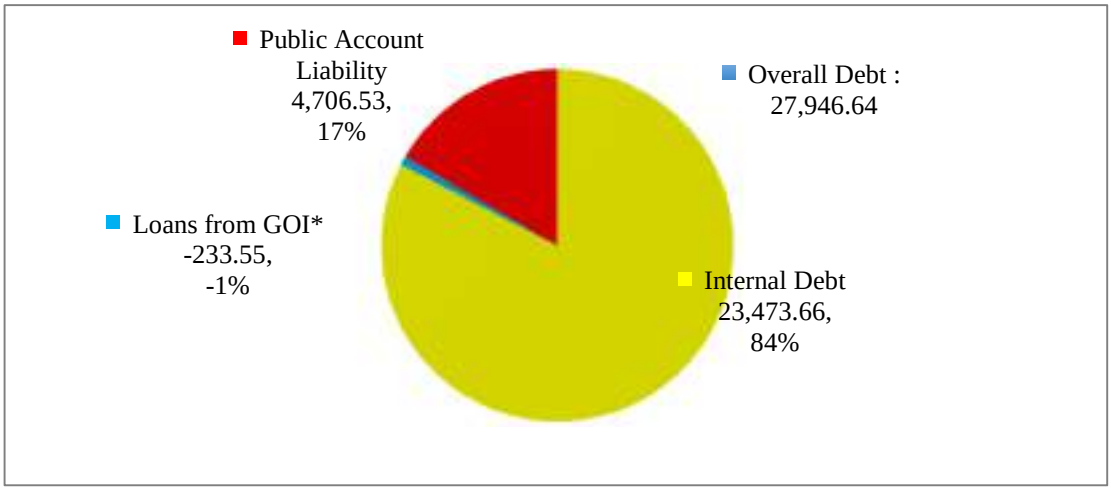
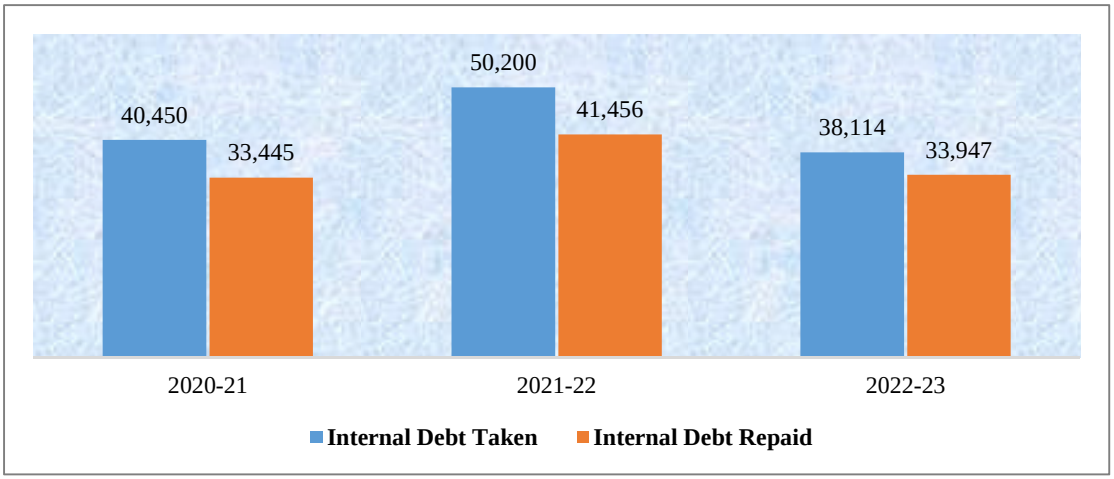
(₹ in crore)



**Excludes the back to back loans of ₹2,099.80 crore and ₹3,845.49 crore received during 2020-21 and 2021-22 respectively from GoI in lieu of GST compensation shortfall.*

Chart 2.17: Internal debt taken *vis-à-vis* repaid

(₹ in crore)



Source: Finance Accounts

Internal debt of the UT Government increased by ₹12,911.45 crore (122 *per cent*) from ₹10,562.21 crore in 2020-21 to ₹23,473.66 crore in 2022-23 **(Table 2.30)**. An amount of ₹6,214.65 crore was paid towards interest on internal debt during 2022-23. The percentage of internal debt repaid to internal debt taken was 89.07 *per cent* during the year 2022-23.

The Principal Secretary Finance Department stated (May 2024) that the UT of J&K continues to service both the pre-August 2019 and the post-August 2019 liabilities. Hence the repayment and interest components being serviced are higher.

Audit is of the view that apportionment of assets and liabilities of the erstwhile State of Jammu and Kashmir between the two newly created Union Territories will ensure the extent of liabilities for which the UT of Jammu and Kashmir is liable to make repayments.

Table 2.30 depicts financing pattern of the fiscal deficit during 2020-23.

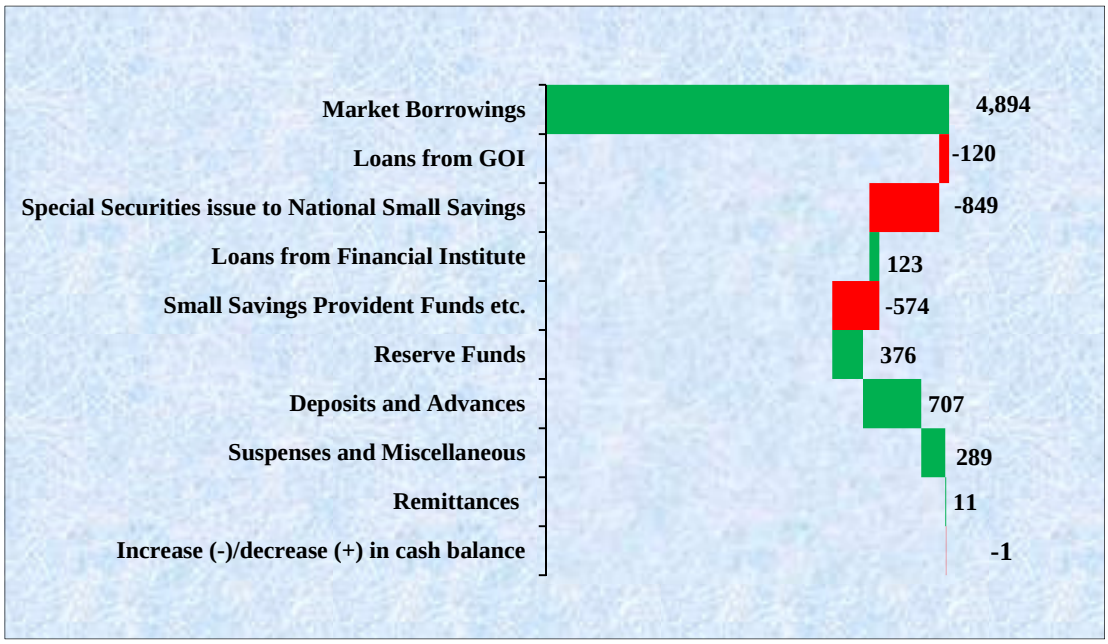
Chart: 2.18: Financing of fiscal deficit during 2022-23



(Source: Finance Account)

The Finance Department stated (April 2024) that the audit observation regarding utilisation of market borrowings to meet fiscal deficit has been noted for necessary action.

2.7 Debt Sustainability Analysis

Debt sustainability analysis has been carried out on the basis of fiscal and debt parameters, Domar approach and compliance of macro-fiscal parameters to the respective FRBM targets. The results of the analysis are given in the following paragraphs:

(A) Debt sustainability refers to the ability of the UT to service its debt obligation now and in the future. Analysis of variations in debt sustainability indicators is given in **Table 2.32** and **Chart 2.19**.

Table 2.32: Trends in Debt Sustainability Indicators

Debt Sustainability Indicators	2020-21	2021-22	2022-23
Outstanding Public Debt* *(₹ in crore)* *(As on 31st March of each year)*	10,567.85	19,192.54	23,240.11
Rate of growth of outstanding Public Debt	NA	81.61	21.09
GSDP *(₹ in crore)*	1,67,652	1,99,917	2,27,927
Rate of Growth of GSDP	2.16	19.25	14.01
Public Debt/GSDP	6.30	9.60	10.20
Debt maturity profile of repayment of State/UT debt – including default history, if any	NA	NA	NA
Average interest Rate of Outstanding Public Debt@ (*per cent)*(interest paid/OB of Public Debt + CB of Public Debt/2)	7.82	7.94	8.48
Interest payment on Public Debt	4,282.38	5,202.93	6,260.98
Revenue Deficit/ surplus without Interest payment	4,144.11	5,172.10	12,237.59

Debt Sustainability Indicators	2020-21	2021-22	2022-23
Percentage of interest payment to Revenue Deficit/ surplus	-3,097.11	-16,876.19	+104.76
Percentage of Interest payment on Public Debt to Revenue Receipt	8.16	8.78	9.08
Percentage of Public Debt Repayment to Public Debt Receipt	78.54	76.93	89.38
Net Public Debt available to the UT[#] *(₹ in crore)*	4,887.23	7,267.25	-2,213.41
Net Public Debt available as *per cent* to Public Debt Receipts	11.44	13.45	-5.81
Primary Deficit (-)/ Surplus (+)	-4,320.90	-3,790.29	+3,638.45
Debt stabilisation (Quantum Spread[$] +Primary Deficit)	-4,919.04	-1,619.61	4,923.63

Source Finance Accounts

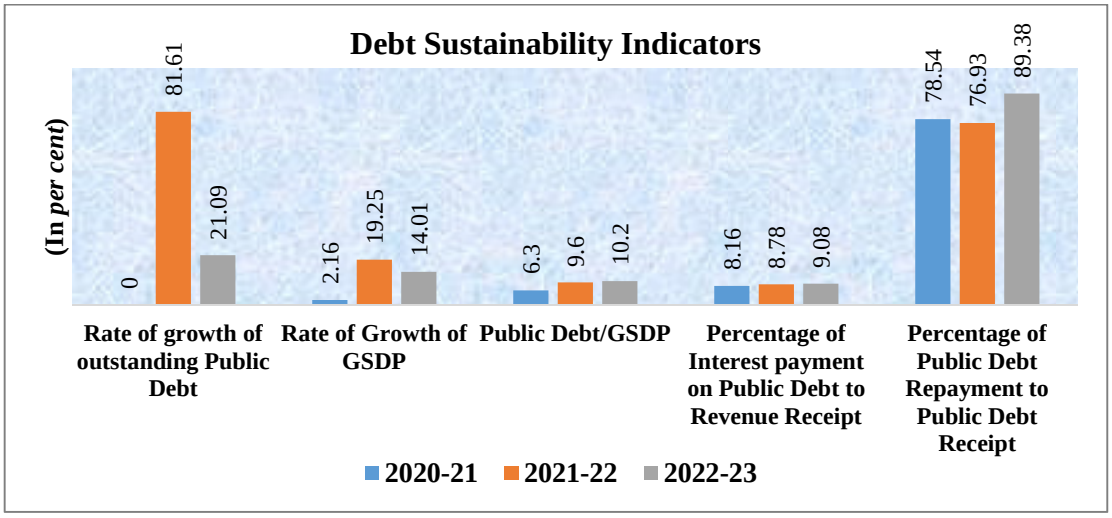
[*]Outstanding Public Debt is the sum of outstanding balances under the heads 6003-Internal Debt and 6004- Loans and Advances from the Central Government. It excludes GST compensation of ₹2,099.80 crore and ₹3,845.49 crore received as back-to-back loans under debt receipts from Department of Expenditure, GoI during 2020-21 and 2021-22 respectively. The back-to-back loans would not be treated as debt of the UT for any norms which may be prescribed by the Finance Commission, etc.

@ Public debt (including outstanding public debtamounting₹46,666.22 crore of erstwhile State).

[#]Net debt available to the UT Government is calculated as excess of Public debt receipts over Public debt repayment and interest payment on Public Debt.

*[$] Quantum spread = (Debt * (GSDP growth rate - Interest rate))/100.*

Chart 2.19: Trends of Debt Sustainability Indicators



Source: Finance Accounts

Note: During 2020-21 and 2021-2023, Public debt excluded ₹2,099.80 crore and ₹5,945.29 crore (₹2,099.80 crore+₹3,845.49 crore) respectively as back-to-back loans from GoI in lieu of GST Compensation shortfall, which are not to be repaid by the UT Government from its sources

Some of the indicators of debt sustainability are as under.

a) A falling debt-GSDP ratio can be considered as leading towards stability. However, Debt-GSDP ratio showed an increasing trend, from 6.30 *per cent* in 2020-21 to 10.20 *per cent* in 2022-23, which cannot be considered as leading to stability.

b) As against the Net Public Debt of ₹7,267.25 crore available in 2021-22, repayment of debt and interest exceeded the debt receipts during 2022-23 by ₹2,213.41 crore.

c) Public Debt Repayments/Public Debt Receipts: Higher the percentage of public debt repayments to public debt receipts, the greater the proportion of debt utilised for debt servicing rather than productively. Ratio of public debt repayment to public debt receipts had decreased from 78.54 *per cent* in 2020-21 to 76.93 *per cent* in 2021-22, but it again increased to 89.38 *per cent* during 2022-23. It indicates that 10.62 *per cent* of public debt receipt was available during 2022-23 with the Government after repayment of earlier debts.

d) Ratio of interest payments to revenue receipts is also a good measure of debt sustainability. Ratio of interest payments to revenue receipts showed an increasing trend from 8.16 *per cent* in 2020-21 to 9.08 *per cent* in 2022-23 which is indicative of decreased debt sustainability.

e) There is outstanding public debt amounting to ₹46,666.22 crore of the erstwhile State, which is yet to be apportioned between the two UTs.

(B) An analysis on debt sustainability was carried out based on a study by E.D Domar[23] [Domar, 1944]. The Domar model states that the necessary premise for ensuring stability of public indebtedness is that the interest rates for government loans should not exceed the growth rate of GDP. The dynamics of public debt depending on the interest rate, growth rate of GSDP and the primary budget balance are as follows:

PB / **g-r**	**PB (Primary Balance) <0**	**PB (Primary Balance) >=0**
If g-r>0 (strong economic growth)	Real economic growth exceeds real interest rate provided that the Primary Deficit (PD) registered is stable and consistent with debt/ GSDP then the debt is sustainable.	Real economic growth exceeds real interest rate and records Primary Surplus (PS) then debt/GSDP ratio shall decrease and debt tends towards stable level therefore sustainable.
If g-r<0 (slow economic growth)	Real economic growth is lower than real interest rate and records PD. Then debt tends to increase without limitations and becomes unsustainable.	Real economic growth is lower than real interest rate and records PS. Then debt is no longer sustainable provided that it is not decreased in the medium or long run.

The results of applying the above parameters in the case of UT of Jammu and Kashmir are shown in **Table 2.33**.

[23] Domar model does not take into account maturity profile, composition, cost and risk characteristics of debt stock.

Table 2.33: Debt sustainability analysis based on Domar Model

Year	Real Growth (g)	Real Interest (r)	g-r (Domar gap)	Primary Deficit (-)/ Surplus(+) *(₹ in crore)*	Remarks
2020-21	-1.44	2.03	-3.47	(-) 4,320.90	As g-r<0 and PB<0, real economic growth is lower than real interest rate and records Primary Deficit (PD). Then debt tends to increase without limitations and becomes unsustainable.
2021-22	11.09	0.74	10.35	(-) 3,790.29	As g-r> 0 and PB<0; real economic growth exceeds real interest rate provided that the PD registered is stable and consistent with debt/GSDP then the debt is sustainable.
2022-23	8.01	2.16	5.85	(+) 3,638.45	As g-r> 0 and PB>0; Real economic growth exceeds real interest rate and records Primary Surplus (PS) then debt/GSDP ratio shall decrease and debt tends towards stable level therefore sustainable.

Note: Real Growth rate calculated for GSDP at constant prices.
Real Interest rate is the nominal interest rate adjusted for inflation.

In the initial two years of the subject period i.e. 2020-21 and 2021-22, the UT had primary deficit, which later turned to primary surplus in 2022-23. The Domar gap (g-r) remained negative during 2020-21, which turned positive[24] in 2021-22 and 2022-23. Even though both the Primary Balance and Domar Gap remained positive in 2022-23, the same is not adequate to keep the pace of increase in outstanding debt in tandem with the increase in the economic growth. This led to the increase in Public Debt to GSDP ratio in 2022-23.

From the above discussion, it can be concluded that Debt/GSDP ratio in the past two years has been on a slightly increasing trend and the debt stabilisation indicator was a non-uniform trend. Thus, it is too early to comment on the debt sustainability of the UT of J&K.

The Finance Department replied (April 2024) that the audit observation regarding debt sustainability has been noted for necessary action.

2.7.1 Utilisation of borrowed funds

Borrowed funds should ideally be used to fund capital creation and developmental activities. Using borrowed funds for meeting current consumption and repayment of interest on outstanding loans is not a healthy trend. **Table 2.34** depicts the utilisation of borrowed funds during 2020-23.

[24] The main reason for the Domar gap turning positive was increase in GSDP, which in turn was attributed to significant economic recovery post-COVID-19 pandemic.

Table 2.34: Utilisation of borrowed funds during 2020-21 to 2022-23

(₹ in crore)

Sr. No.	Year	2020-21	2021-22	2022-23
1	Total borrowings[25]	42,097.29	48,880.23	38,922.93
2	Repayment of borrowings (Principal) (*percentage*)	33,563.32 (79.73)	41,575.17 (85.06)	34,066.90 (87.52)
3	Net capital expenditure[26] met out of borrowings(*percentage*)	8,533.97 (20.27)	7,305.06 (14.94)	4,856.03 (12.48)
4	Net of loans and advances met out of borrowings (*percentage*)	NA	NA	NA
5	Portion of Revenue Expenditure met out of net available borrowings (*percentage*)	NA	NA	NA
6	Total budget of the UT[27]	1,33,595.72	1,39,795.19	1,49,582.03
7	Expenditure against total budget	96,786.29	1,11,983.49	1,07,948.46
8	Repayment of borrowings (Principal) to total expenditure (*per cent*)	34.68	37.13	31.56

Source: Finance Accounts and Appropriation Accounts.

Table 2.34 shows that the repayment of borrowings (principal) to total expenditure of the UT ranged between 31.56 *per cent* and 37.13 *per cent* of the total expenditure during the period 2020-21 to 2022-23. During this period, the UT Government utilised 79.73 to 87.52 *per cent* of its current borrowings for repayment of borrowings (principal). Net capital expenditure ranged between 12.48 *per cent* and 20.27 *per cent* during the period 2020-2023. Thus, the major portion of borrowed funds was being used for repayment of borrowings instead of capital creation/ development activities. Further no amount was available for disbursing any loans or advances or for meeting other revenue expenditure. Though during 2020-21 and 2021-22, the UT Government spent 20.27 *per cent* and 14.94 *per cent* of the borrowed funds on capital expenditure, the expenditure decreased to 12.48 *per cent* during 2022-23.

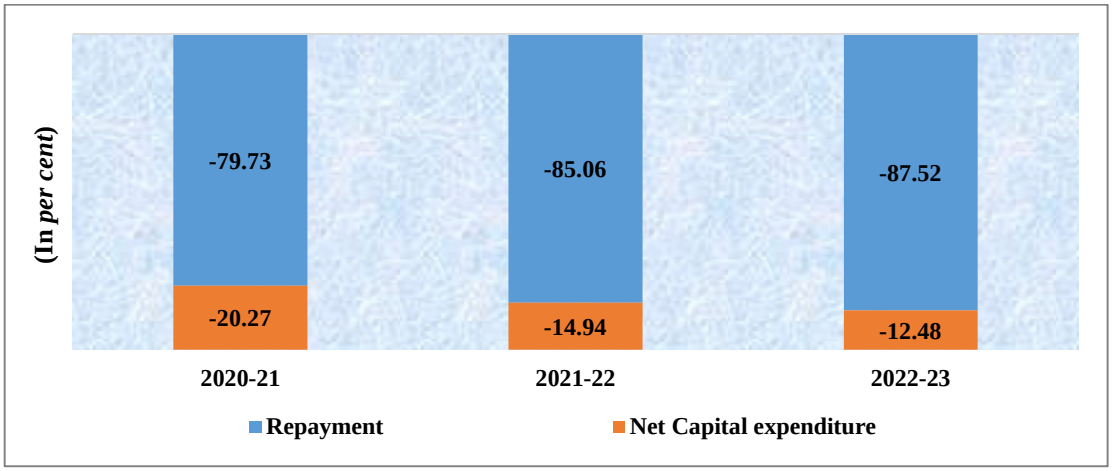
Trend of utilisation of borrowed funds during the period 2020-23 is depicted in **Chart 2.20**.

[25] Includes Public Debt receipts (2020-21: ₹42,732.93 crore; 2021-22: ₹54,045.35 crore; 2022-23: ₹38,114.47 crore) and Net of Public Accounts receipts (2020-21: ₹1,464.16 crore; 2021-22: ₹ (-)1,319.63 crore; 2022-23: ₹808.46 crore). These exclude back-to-back loans of ₹2,099.80 crore and ₹3,845.49 crore received from GoI in lieu of GST Compensation shortfall during 2020-21 and 2021-22 respectively.

[26] Total capital expenditure during 2020-21: ₹10,470.38 crore; 2021-22: ₹11,047.04 crore and 2022-23: ₹10,773.78 crore

[27] Total Budget during 2020-21 to 2022-23, includes Original, supplementary and reappropriations/ augmentations.

Chart 2.20: Trend of utilisation of borrowed funds



2.7.2 Status of Guarantees – Contingent Liabilities

As at the end of the year 2022-23 (31 October 2019 to 31 March 2023) post re-organisation cumulative amount guaranteed by the Government of Union Territory is ₹24,867.44 crore (under reconciliation with Government of Union Territory of Jammu and Kashmir). Further, there is also outstanding guarantees of ₹452.65 crore given by the erstwhile State of Jammu and Kashmir (ending 30 October 2019 pre re-organisation) which is yet to be apportioned between the successor Union Territories of Jammu and Kashmir and Ladakh. No guarantee commission/ fee was received by Government of Union Territory of Jammu and Kashmir during 2022-23. J&K FRBM Act limits the amount of annual incremental risk weighted guarantees to 75 *per cent* of the total revenue receipts in the year preceding the current year or at 7.5 *per cent* of GSDP of the year preceding the current year, whichever is lower. As per Statement 9 of the Finance Accounts, details of the guarantees and status of outstanding guarantees to total receipts for the last three years are given in **Table 2.35**.

Table 2.35: Guarantees given by the UT Government

(₹ in crore)

Guarantees	**2020-21**	**2021-22**	**2022-23**
Ceiling applicable to the outstanding amount of guarantees:			
(i) 75 *per cent* of revenue receipts of previous year	NA	39,371.61	44,428.88
(ii) 7.5 *per cent* of GSDP of previous year	12,307.73	12,573.90	14,993.78
(iii) Least of the above two	12,307.73	12,573.90	14,993.78
Outstanding amount of guarantees at the end of year	**1,486.07**	**12,328.80**	**24,867.44**
Increase in the amount of outstanding guarantees during the year	NA	10,842.73	12,538.64

Source: Finance Accounts and Annual Financial Statements

Increase[28] in outstanding guarantee of UT during 2022-23 was within the ceiling limit[29] of ₹14,993.78 crore. The outstanding guarantees for ₹24,867.44 crore as on 31 March 2023 were in respect of Power (₹22,513.61 crore); Cooperatives (-₹32.00 crore[30]); State Financial Corporation (₹13.66 crore) and Other institutions (₹2,372.17 crore).

The Finance Department stated (April 2024) that the audit observation regarding recovery of guarantee fee/ commission has been noted for implementation. Moreover, advice for apportionment of balances of the erstwhile state between two UTs has also been noted.

2.7.3 Management of Cash Balances

As per an agreement with the Reserve Bank of India, UT Governments have to maintain a minimum daily cash balance with the Bank. If the balance falls below the agreed minimum amount on any day, the deficiency is made good by taking ordinary Ways and Means Advances (WMA)/ Special Ways and Means Advances (SWMA)/ Overdrafts (OD) from time to time. The limit for ordinary WMA to the UT Government are revised by the RBI from time to time.

The Government of Union Territory of Jammu and Kashmir maintained minimum cash balance of ₹1.14 crore on 83 days without resorting to Normal Ways and Means Advances and Overdraft, availed Normal Ways and Means Advances on 147 days and on 135 days it had to avail Overdraft too from RBI. The balance at the end of 31 March 2023 was (-)₹576.07 crore under Normal Ways and Means Advances.

There was also a balance of ₹692.11 crore under Normal Ways and Means Advances as on 30 October 2019 which is yet to be apportioned between the successor Union Territories *viz.* Union Territory of Jammu & Kashmir and Union Territory of Ladakh.

Union Territory Government invests its surplus cash balance in short and long-term GoI Securities and Treasury Bills. The profits derived from such investments are to be credited as receipts under the head '0049-Interest Receipts'.

It is not desirable that the UT Government take recourse to market loans despite having large cash balances leading to further accretion to cash balances without putting it to productive use. Details of cash balances and their investment during 2021-22 and 2022-23 are given in **Table 2.36**.

---

28 Increase: ₹12,538.64 crore (Outstanding guarantee 2022-23: ₹24,867.44 crore minus Outstanding guarantee 2021-22: ₹12,328.80 crore).

29 75 *per cent* of Revenue Receipts of ₹59,238.50 crore during 2021-22 is ₹44,428.88 crore and 7.5 *per cent* of GSDP of ₹1,99,917 crore during 2021-22 is ₹14,993.78 crore.

30 Minus figures due to non-apportionment of Assets and Liabilities as a result of reorganisation.

Table 2.36: Cash Balances and their investment

(₹ in crore)

	Closing balance on 31 March 2022	Closing balance on 31 March 2023
A. General Cash Balance		
Cash in treasuries	0	0

Source: Finance Accounts.

The Cash balance as on 31 March 2023 as per the records of the office of the Principal Accountant General (A&E) was ₹1,448.31 crore (Debit) and that reported by the Reserve Bank of India (RBI)[31] was ₹1,445.66 crore (Credit). There was a net difference of ₹2.65 crore (Debit), mainly due to non-reconciliation by Government of UT of Jammu and Kashmir with RBI/Agency Bank. The difference is under reconciliation.

The Finance Department stated (April 2024) that the audit observation regarding crediting of profits derived from short- and long-term investment of treasury bills to MH-0049 Interest receipts has been noted for future compliance. Besides, reconciliation will be expedited.

The general cash balance of ₹1,448.31 crore at the close of the year was not even equal to the balance of ₹2,469.42 crore shown in cash in earmarked reserve funds, which means that reserve funds were used for other than intended purpose.

Details of Cash Balance Investment Account during 2020-23; and month-wise movement of cash balance and net cash balance investments at the end of month during the year 2022-23 are depicted in **Table 2.37** and **Chart 2.21** respectively.

[31] Worked out by Principal Accountant General (A&E) by excluding transactions pertaining to the UT of Ladakh for the period 31 October 2019 to 31 March 2020, during which a single account was maintained by RBI in respect of both UTs (UT of J&K and UT of Ladakh)

2020-21	0 (383.92)	0 (383.92)	-	0.11
2021-22	0 (383.92)	0.0001 (383.92)	0.0001	0
2022-23	0.0001 (383.92)	0.0001 (383.92)	-	0.03

(Source: Finance Account; Figures in parenthesis denotes the cash balance investment at the end of 30 October 2019 yet to be apportioned between UT of J&K and UT of Ladakh.)

Negligible amount was held in Cash Balance Investment Account by the Government of UT of Jammu and Kashmir at the close of the year 2022-23. However, an amount of ₹383.92 crore was held in the Cash Balance Investment Account at the end of 30 October 2019, which is yet to be to be apportioned between UT of J&K and UT of Ladakh. Government earned an interest of ₹0.03 crore on cash balance investment during 2022-23.

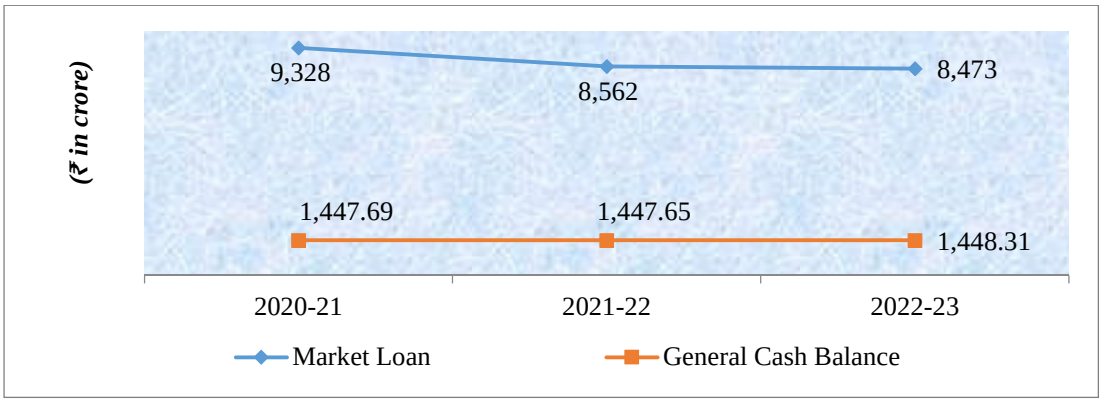
Source Finance Accounts

Chart 2.22: Market Loans *vis-a vis* Cash Balance



Source: Finance Accounts

During the year 2022-23 UT Government could have avoided market borrowings to the extent of general cash balance (₹1,448.31 crore) held as deposit with Reserve Bank of India. An interest of ₹0.03 crore earned on cash balance was negligible in comparison to the average rate of interest of 8.48 *per cent* paid by the Government on Public Debt during 2022-23.

The Finance Department replied (April 2024) that the audit observation has been noted and will be examined.

2.8 Conclusion

- The revenue buoyancy with reference to GSDP of UT of Jammu and Kashmir increased from 0.67 *per cent* in 2021-22 to 1.18 *per cent* in 2022-23. However, the buoyancy of UT's Own revenue to GSDP decreased from 1.44 *per cent* in 2021-22 to 0.40 *per cent* in 2022-23. The percentage of Grants-in-Aid to revenue receipts increased from 72.07 *per cent* in 2021-22 to 74.65 *per cent* in 2022-23, which indicated Government's dependence on GoI support.

- The collection under own resources (Own Tax Revenue and Own Non-Tax Revenue) fell short by 30.94 *per cent* of budget estimates and 31.51 *per cent* of revised estimates. UT's own resources of ₹17,483.02 crore during 2022-23 were sufficient only to meet 36.83 *per cent* of the committed expenditure of ₹47,475.27 crore incurred on salaries, interest and pension etc., during the year.

- Total expenditure increased by ₹10,666.88 crore (16.89 *per cent*) from ₹63,165.77 crore in 2020-21 to ₹73,832.65 crore in 2022-23. Revenue expenditure constituted the predominant proportion (83 *per cent* in 2020-21 to 85 *per cent* in 2022-23) of total expenditure. However, capital expenditure decreased from 17 *per cent* in 2020-21 to 15 *per cent* in 2022-23. More than 52.80 *per cent* of total expenditure was on Salary & Wages and Pension & gratuities. Major, Minor Works and construction works together accounted for 13.83 *per cent* of total expenditure.

- The total liabilities of the UT Government had been on the rise as it increased by 87.81 *per cent* from ₹14,880.48 crore in 2020-21 to ₹27,946.64 crore in

2022-23. Taking into account off budget borrowings of ₹23,911.53 crore, the liability to GSDP percentage of UT will increase from 12.26 *per cent* to 22.75 *per cent.*

- Increasing trend in Debt-GSDP ratio from 6.30 *per cent* in 2020-21 to 10.20 *per cent* in 2022-23 and interest payments-revenue receipts ratio from 8.16 *per cent* in 2020-21 to 9.08 *per cent* in 2022-23 indicated decreased debt sustainability.
- The Government of UT of Jammu and Kashmir had total outstanding loans and advances of ₹226.46 crore ending 31 March 2023. In addition, there were loans and advances of ₹1,740.44 crore disbursed by the Government of the erstwhile State which were outstanding ending 30 October 2019 and were yet to be divided between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh. Recoveries of Loans and Advances are not forthcoming from loss making public sector undertakings. No assessment about potential recoverability of these loans has been made in the FRBM Statements.

2.9 Recommendations

The Government may:

- *Diversify revenue resources and strengthen the local tax base for attaining sustainable fiscal stability and development.*
- *Explore ways to minimise its committed expenditure, so that more funds could be made available for development expenditure.*
- *Take necessary measures to ensure debt sustainability.*

During the exit conference (April 2024), the Principal Secretary Finance accepted the audit recommendations.

Chapter-III

Budgetary Management

CHAPTER-III

BUDGETARY MANAGEMENT

3.1 Budget Process

The Office of the Principal Accountant General (Accounts and Entitlements) of Union Territory (UT) of Jammu and Kashmir is responsible for compilation and preparation of the Annual Accounts of the Union Territory Government. This is in accordance with the requirements of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 and Section 71 of Jammu and Kashmir Re-organisation Act, 2019.

The Appropriation Accounts of the Government of Union Territory of Jammu and Kashmir for the year 2022-23 presents the accounts of sums expended in the year ended 31st March 2023 compared with the sums specified in the schedules appended to the Appropriation Acts passed under Articles 204 and 205 of the Constitution of India.

The Annual Accounts have been compiled from the vouchers, challans and initial and subsidiary accounts as received from the treasuries, offices and departments of the Government of Union Territory of Jammu and Kashmir and the statements received from the Reserve Bank of India.

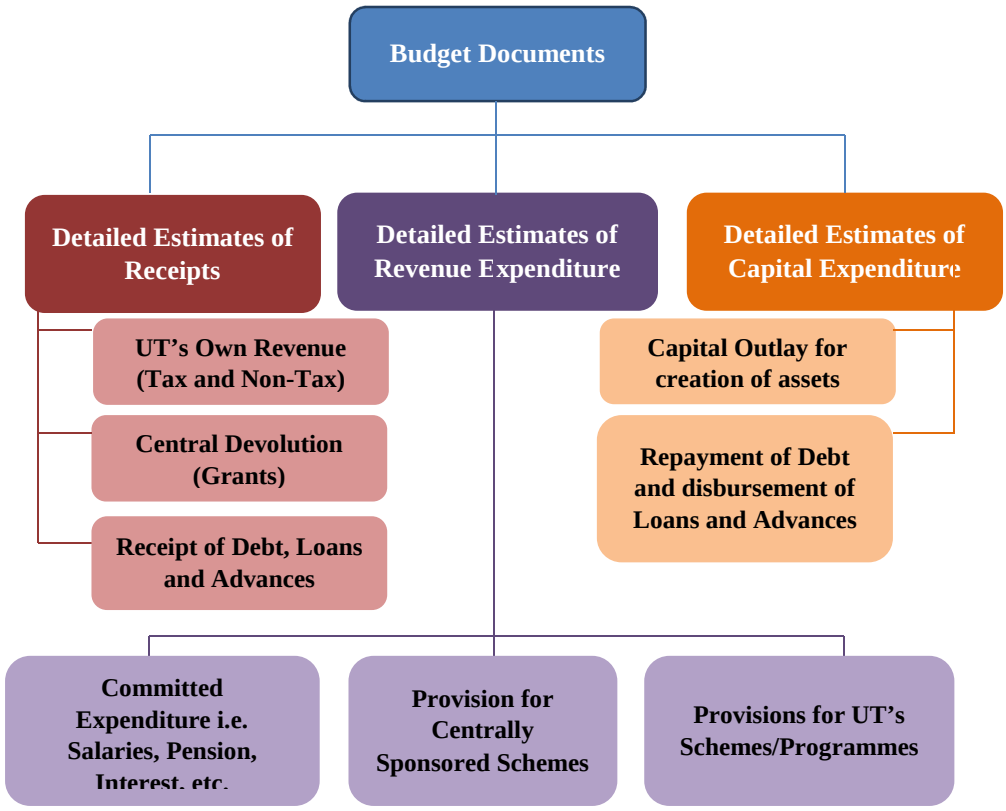
The audit of the Annual Accounts is conducted through the Office of the Principal Accountant General (Audit) in accordance with the requirements of Articles 149 and 151 of the Constitution of India, Section 72 of the Jammu and Kashmir Re-organisation Act, 2019 and the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 for expressing an opinion on these Accounts based on the results of such audit.

The annual exercise of budgeting is a means for detailing the roadmap for efficient use of public resources. Appropriation Accounts are accounts of the expenditure, voted and *charged*[1], of the Government for each financial year compared with the amounts of voted grants and appropriations *charged* for different purposes as specified in the schedules appended to the Appropriation Acts passed under Sections 43 and 44 of the Jammu and Kashmir Re-organisation Act, 2019.

Appropriation Accounts, thus, facilitate management of finances and monitoring of budgetary provisions and are, therefore, complementary to the Finance Accounts. Budget glossary is given in ***Appendix 6***. A typical budget preparation process is given in **Chart 3.1**.

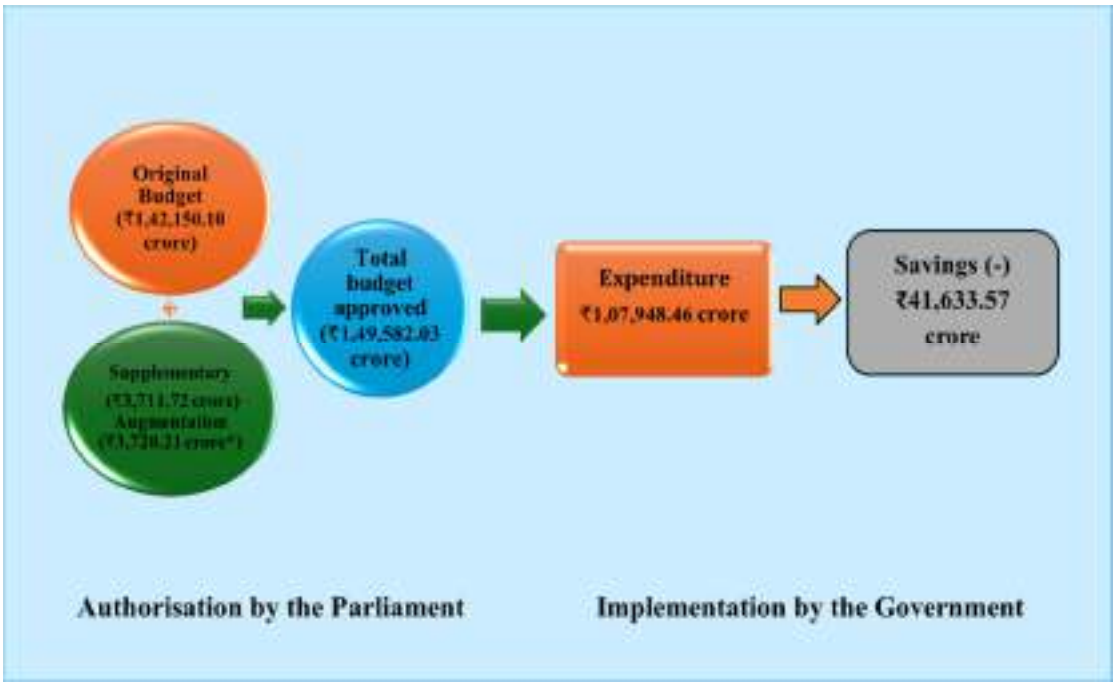
[1] **Charged expenditure**: Certain categories of expenditure (e.g. Salaries of Constitutional authorities, loan repayments etc.), constitute a charge on the Consolidated Fund of the Union Territory and are not subject to vote by the Legislature. **Voted expenditure**: All other expenditure is voted by the Legislature.

Chart 3.1: Details of Union Territory Budget Documents



After creation of the Union Territory of Jammu and Kashmir by virtue of the Jammu and Kashmir Re-organisation Act, 2019 with effect from 31 October, 2019, the Union Territory of Jammu and Kashmir continues to be under President's rule vide Gazette Notification S.O. 3937 (E), dated 31 October, 2019. The powers of the legislature of the Union Territory of J&K are exercised by or under the authority of the Parliament.The various components of budget 2022-23 are depicted in **Chart 3.2**.

Chart 3.2: Flow Chart of Budget Implementation



**Includes augmentation of savings of ₹3,720.21 crore (from Revenue to Capital Heads: ₹3,086.79 crore and Capital to Revenue Heads: ₹633.42 crore) which is not in compliance with Article 114 of the Constitution and paras 14.7.2 and 14.7.3 of Jammu and Kashmir Budget Manual.)*
Source: Based on the procedure prescribed in Budget Manual and Appropriation Accounts 2022-23.

As per Article 114 (2) of the Constitution, no amendment shall be proposed to any such Bill in either House of Parliament which will have the effect of varying the amount or altering the destination of any grant so made or of varying the amount of any expenditure charged on the Consolidated Fund of India, and the decision of the person presiding as to whether an amendment is inadmissible under this clause shall be final. Article 114 (3) further states that subject to the provisions of Articles 115 and 116, no money shall be withdrawn from the Consolidated Fund of India except under appropriation made by law passed in accordance with the provisions of this article.

Section 14.8.1 of the Jammu and Kashmir Budget Manual 2020 states that once the final re-appropriation process is completed, implementation of a budget during a year gets concluded. The overall position of the behavior of the budget thus gets known and is reflected in the Appropriation Accounts prepared by the Comptroller & Auditor General of India. This account indicates the original estimates as approved by the Legislature and how these stand modified by the acts of re-appropriation, supplementary grants and acceptance of surrenders. Such accounts are prepared in respect of every individual Grant and presented to the Legislature by the Comptroller & Auditor General with comments.

The original demands for grants as per the Jammu and Kashmir (No.2) Appropriation Act, 2022 passed by the Parliament was ₹1,42,150.10 crore, which was followed by Supplementary Demands for Grants of ₹3,711.72 crore in respect of nine grants and one appropriation. The overall expenditure incurred during 2022-23 was ₹1,07,948.46 crore. As per Appropriation Account 2022-23, the UT Government

confirmed the surrender of savings. However, the individual surrender orders for savings of ₹16,793.13 crore surrendered in the Appropriation Accounts 2022-23 were not produced to CAG.

Further, Section 14.7.2 of the Jammu and Kashmir Budget Manual 2020 *inter alia* provides that within a grant also such orders which will aim at re-appropriation of funds from Revenue Account to Capital Account and *vice-versa* cannot be made. It was, however, seen that in the Appropriation Accounts, 2022-23 as per RE/modified grant, out of surrender of savings of ₹16,793.13 crore (not supported by valid surrender orders), an amount of ₹3,086.79 crore was augmented/re-appropriated by the UT Government from Capital to Revenue in eight grants and one appropriation and ₹633.42 crore was augmented/ re-appropriated from Revenue to Capital in seven grants, without legislative authorisation. Thus, amounts were re-appropriated across sections i.e., from revenue to capital and *vice-versa*. These augmentations to the original budget were shown under the heading "S" (Supplementary) in the summary statements along with the Supplementary budget figures. This was not in compliance with Article 114 of the Constitution and Para 14.7.2 of Jammu and Kashmir Budget Manual 2020.

After taking into account the augmented amount of ₹3,720.21 crore the total budget available during 2022-23 worked out to ₹1,49,582.03 crore, against which the expenditure incurred was ₹1,07,948.46 crore. The utilisation of budget was as such 28 *per cent* less than the total available amount during the year 2022-23.

The Finance Department stated (April 2024) that original budget of ₹1,42,150 crore and supplementary demands for grants of ₹3,711.72 crore was passed by Parliament. The revised budget for 2022-23 of ₹1,32,788.90 crore was also passed by the Parliament.

The reply is not acceptable as only the original budget of ₹1,42,150 crore and supplementary budget of ₹3,711.72 crore were approved by the Parliament in the Appropriation Act. The augmentation of savings of ₹3,720.21 crore by the UT Government during 2022-23 (from Revenue to Capital heads or *vice-versa*) was done without legislative approval.

During the exit conference (April 2024), the Finance Department stated that all re-appropriation orders and surrender orders will be submitted in a time-bound manner and re-appropriation/ augmentation of savings from revenue to capital and *vice-versa* shall be got regularised through approval of the competent authority.

The Principal Secretary Finance Department further stated (May 2024) that while the UT Government acknowledges the gaps in budgetary management and quality of reconciliation, many of these issues have deep roots and require sustained good governance. Further, online budgeting process through BEAMS portal and the online billing system through JKPaysys portal has been introduced eliminating chances of misclassification of accounts and ensuring expenditure monitoring on real-time basis. However, the PAG office uses the voucher level computerisation (VLC) which is still not integrated with JKPaysys and BEAMS portals. This increases the gaps in receipt of

data and monitoring by the PAG as the data inputs/ bills still need to be sent in physical format to the PAG office.

The integration of the UT Government's applications with the AG's system (VLC) needs detailed study for matching the formats and for ensuring compliance with the requirements of the Principal Accountant General (A&E) as per Government Accounting Standards which is a matter for discussion and beyond the scope of this Report.

3.1.1 Summary of total provisions, actual disbursements and savings during financial year 2022-23

A summarised position of total budget provision, disbursement and saving/ excess with its further bifurcation into voted/charged during 2022-23 for total 35 grants/ appropriations is given in **Table 3.1**.

Table 3.1: Budget provision, disbursement and saving/excess during the financial year 2022-23

(₹ in crore)

Description	Total Budget provisions		Disbursements		Savings	
	Voted	Charged	Voted	Charged	Voted	Charged
Revenue	68,993.26	9,203.79	54,419.45	8,579.89	-14,573.81	-623.90
Capital	38,546.11	0.0	10,822.69	0.0	-27,723.42	0.0
Loans and Advances	118	0.0	59.53	0.0	-58.47	0.0
Public Debt	0.0	32,720.87	0.0	34,066.90	0.0	1,346.03
Total	**1,07,657.37**	**41,924.66**	**65,301.67**	**42,646.79**	**-42,355.70**	**722.13**

Source: Appropriation Accounts 2022-23

During 2022-23, savings of ₹42,355.70 crore (39.34 *per cent*) was noticed in the voted section whereas excess expenditure of ₹722.13 crore (1.72 *per cent*) was incurred in the charged section, as shown in the table above.

3.1.2 Charged and Voted disbursements

Break-up of total disbursement into charged and voted during 2022-23 is given in **Table 3.2**.

Table 3.2: Disbursement and Saving/ Excess during 2022-23

(₹ in crore)

Year	Disbursements		Saving(-)/ Excess(+)	
	Voted	*Charged*	Voted	*Charged*
2022-23	65,301.67	42,646.79	(-)42,355.70	(+)722.13

Source: Appropriation Accounts 2022-23

As can be seen from the above table, there were savings of ₹42,355.70 crore in the voted section and excesses of ₹722.13 crore in the charged section during the year 2022-23.

3.1.3 Budget Marksmanship

Aggregate Expenditure Outturn

Aggregate expenditure outturn measures the deviation in actual expenditure (Actuals) compared with the Budget Estimate (BE) originally approved, both in terms of less than and in excess of approval, as given in **Table 3.3**.

Table 3.3: Comparison of Budget Estimates and Actual Outturn during the year 2022-23

(₹ in crore)

Description	Approved Budget (Original + Supplementary) (BE)	Actual Outturn	Difference between Actuals and BE*
(1)	(2)	(3)	(4)
Revenue	78,197.05	62,999.34	(-)15,197.71
Capital	71,384.98	44,949.12	(-)26,435.86
Total	**1,49,582.03**	**1,07,948.46**	**(-)41,633.57**

**Excess of actuals over original provision is denoted as (+) figure and shortage of actuals over original provision is denoted as (-) figure*
Source: Appropriation Accounts 2022-23

In the Revenue section, there was saving of 19.43 *per cent* compared with Budget Estimates (BE). This was due to excess/ saving up to 25 *per cent* in 18 grants, between 25 *per cent* and 50 *per cent* in 12 grants; and between 50 *per cent* and 100 *per cent* in five grants **(*Appendix 3.1*)**.

In the Capital section, there was saving of 37.03 *per cent* compared with BE. This was due to saving/ excess up to 25 *per cent* in one grant, between 25 *per cent* and 50 *per cent* in five grants; and between 50 *per cent* and 100 *per cent* in 29 grants **(*Appendix 3.2*)**.

Expenditure Composition Outturn

Expenditure Composition Outturn measures the extent to which re-allocations between the main budget categories during execution have contributed to variance in expenditure composition as shown in **Table 3.4**.

Table 3.4: Comparison of Budget Estimates, Revised Estimates and Actual Outturn during the year 2022-23

(₹ in crore)

Description	Approved Budget (Original + Supplementary) (BE)	Revised (RE)	Actuals Outturn	Difference between BE and RE	Difference between Actual and RE*
(1)	(2)	(3)	(4)	(5)	(6)
Revenue	78,197.05	75,003.95	62,999.34	3,193.10	(-)12,004.61
Capital	71,384.98	57,784.95	44,949.12	13,600.03	(-)12,835.83
Total	**1,49,582.03**	**1,32,788.90**	**1,07,948.46**	**16,793.13**	**(-)24,840.44**

**Excess of actuals over revised estimate is denoted as (+) figure and shortage of actuals over original provision is denoted as (-) figure*
Source: Appropriation Accounts 2022-23 and Demand for Grants 2023-24.

In the Revenue section, there was saving of 16.01 *per cent* compared with Revised Estimates (RE). This was due to excess/saving up to 25 *per cent* in 23 grants, between 25 *per cent* and 50 *per cent* in nine grants and between 50 *per cent* and 100 *per cent* in three grants. **(*Appendix 3.3*)**.

In the Capital section, there was saving of 22.21 *per cent* compared with RE. This was due to excess/ saving up to 25 *per cent* in three grants, between 25 *per cent* and 50 *per cent* in eight grants and between 50 *per cent* and 100 *per cent* in 24 grants. **(*Appendix 3.4*)**.

3.2 Appropriation Accounts

Appropriation Accounts are accounts of the expenditure of the Government for each financial year, compared with the amounts of grants voted and appropriations charged for different purposes as specified in the Schedules appended to the Appropriation Act passed under Article 204 of the Constitution of India. Appropriation Accounts are on gross basis. These Accounts depict the original budget provisions, supplementary grants, surrenders and re-appropriations distinctly and indicate actual capital and revenue expenditure on various specified services *vis-à-vis* those authorised by the Appropriation Act in respect of both Charged and Voted items of budget. Appropriation Accounts, thus, facilitate understanding of utilisation of funds, management of finances and monitoring of budgetary provisions and are, therefore, complementary to the Finance Accounts.

Audit of appropriations by the CAG seeks to ascertain whether the expenditure actually incurred under various grants is in accordance with the authorisation given under the Appropriation Act and that the expenditure required to be charged under the provisions of the Constitution (Article 202) is so charged. It also ascertains whether the expenditure incurred is in conformity with the laws, relevant rules, regulations and instructions.

3.3 Integrity of Budgetary and Accounting Process

3.3.1 Expenditure incurred without authority of law

No money shall be withdrawn from the Consolidated Fund of the Union Territory except under appropriation made by law passed in accordance with the provisions of Section 43 of Jammu and Kashmir Re-organisation Act 2019.

An amount of ₹12,416.82 crore was incurred under 31 schemes/ Sub Heads in six Grants (***Appendix 3.5***) without budgetary provision during 2022-23 which needs to be regularised.

The Finance Department stated (May 2024) that as per the BEAMS records, there was excess of ₹3,036.62 crore only and that too in respect of one grant (internal debt - Finance Department), which has been already conveyed to Audit.

It was also stated that the UT government has transitioned to the online budgeting process through BEAMS portal, which eliminates chances of expenditure without budgetary provision and misclassification of accounts. The PAG office uses the

voucher level computerisation (VLC) which is still not integrated with JKPaysys and BEAMS portals. The login access for the portals can be shared with PAG office.

However, the reply does not address the audit observation regarding the expenditure of ₹12,416.82 crore incurred without budget provision in all the 31 schemes/ sub-heads under 13 Major Heads of six grants.

3.3.2 Classification of expenditure of Revenue nature as Capital expenditure or vice-versa

Classification of expenditure of revenue nature as capital expenditure or *vice-versa*, results in overstatement/understatement of revenue expenditure and revenue deficit/surplus.

During 2022-23, a sum of ₹219.13 crore of revenue expenditure as detailed below was disbursed under Capital Major Heads of expenditure, thereby resulting in overstatement of capital expenditure and understatement of revenue expenditure and overstatement of revenue surplus to the extent of ₹219.13 crore. This includes Grants-in-aid of ₹191.10 crore under the schemes National Rural Livelihood Mission, Strengthening of State Drug Regulatory System, upgradation of Government Medical Colleges for increasing PG and MBBS/UG seats and Implementation of AYUSH and Pradhan Mantri Formalisation of Micro Food Processing Enterprises (PM-FME). Besides this, there was mis-classification of subsidy amount of ₹28.03 crore for the schemes of National Horticulture Mission.

Table 3.5: Classification of expenditure of Revenue nature as Capital expenditure

Sl. No.	Major Head of Account	Type of Misclassification	Amount *(₹ in crore)*
1	4210,4515 and 4401	Grants-in-aid classified as Capital Expenditure	191.10
2	4401	Subsidy booked as Capital Expenditure	28.03
		Total	**219.13**

Source: Finance Accounts 2022-23.

During the exit conference (April 2024), the Department stated that the correct classification of such expenditure has been followed in the 2023-24 accounts.

3.3.3 Unnecessary or insufficient Supplementary Grants

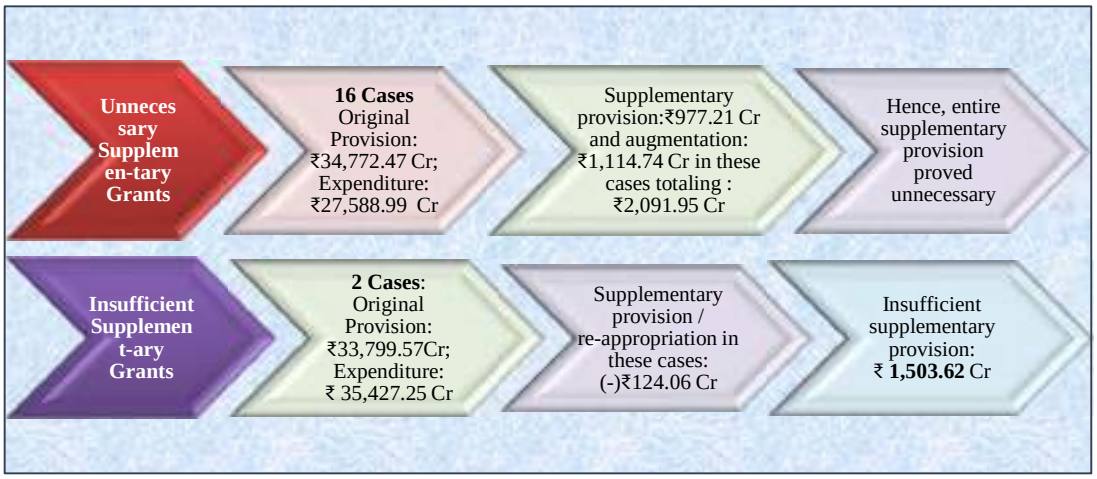
As per Section 44 of the Jammu and Kashmir Re-organisation Act, 2019 a Supplementary or Additional Grant over the provision made by the Appropriation Act for the year, can be made during the current financial year.

Supplementary provisions and augmentation aggregating ₹2,091.95 crore[2] obtained in 16 cases, involving ₹50 lakh or more in each case during the year proved unnecessary as the expenditure did not come up to the level of the original provisions as detailed in

[2] Supplementary provision: ₹977.21 crore in 9 grants; Augmentation: ₹1,114.74 crore in 11 grants

Appendix 3.6. On the other hand, in Grant 16-Public Works Department, augmentation of ₹124.06 crore was not adequate to meet the requirement and non-provision of supplementary amount in Grant 8-Finance Department led to excess expenditure (**Chart 3.3**).

Chart 3.3: Unnecessary and Insufficient Supplementary Provisions



Source: Appropriation Accounts 2022-23

The Government may prepare realistic budget estimates to avoid large savings and supplementary provisions.

The Finance Department stated (April 2024) that the Supplementary Demand for Grants of 2022-23 to the extent of ₹3,711.72 crore in respect of nine Grants was approved by the Parliament on 29 March 2023 and only two days of financial year 2022-23 were left for making the expenditure resulting in less utilisation under supplementary provisions in 2022-23.

The reply, however, does not provide any explanation as to why the expenditure incurred under these grants was less than the original budget and did not provide the reasons for not keeping adequate provisions in the supplementary demand in respect of two grants where there was excess expenditure.

3.4 Substantial savings and surrenders

Complete accuracy of estimates may not always be possible; but where the omission or inaccuracy is the result of lack of forethought, neglect of the obvious or unrealistic estimating, it is a matter of concern. All Estimating Officers should strive to provide in the budget for everything that can be foreseen and to provide only as much as is necessary. The Administrative and Finance Departments should consider this while exercising final check on the estimates.

Budgetary allocations based on unrealistic proposals, overstretching the potential of resource mobilisation, poor expenditure monitoring mechanism and weak scheme implementation capacities/weak internal controls promote release of funds towards the end of the financial year. Excessive savings in some heads also deprive other Departments of the funds which they could have utilised.

As per the Jammu and Kashmir Budget Manual, the spending departments are required to surrender the grants/appropriations or portion thereof to the Finance Department as and when the savings are anticipated. Out of the 35 grants, there were savings in all the 35 grants. All these 35 grants have savings of ₹10 crore and above as on 31st March 2023. As per Appropriation Account 2022-23 it was confirmed by the UT Government that savings had been surrendered. However, the individual surrender orders for savings of ₹16,793.13 crore surrendered in the Appropriation Accounts 2022-23 were not furnished to CAG and as such it could not be ascertained as to whether the surrenders were made timely by the concerned departments.

In case of 31 grants, savings of ₹100 crore and above were noticed, with the percentage savings ranging between five *per cent* and 83 *per cent*. The savings in these cases were ₹41,347.05 crore. Relevant details are indicated in ***Appendix 3.7***. The above savings also include huge savings of ₹100 crore and above by the departments under Capital section in 25 grants amounting to ₹26,201.32 crore. Savings under Capital section ranged between 38 *per cent* and 99 *per cent* of the total appropriation of the grant during 2022-23. The savings under Capital section indicate that the Government could not utilise the funds earmarked for developmental activities/creation of assets.

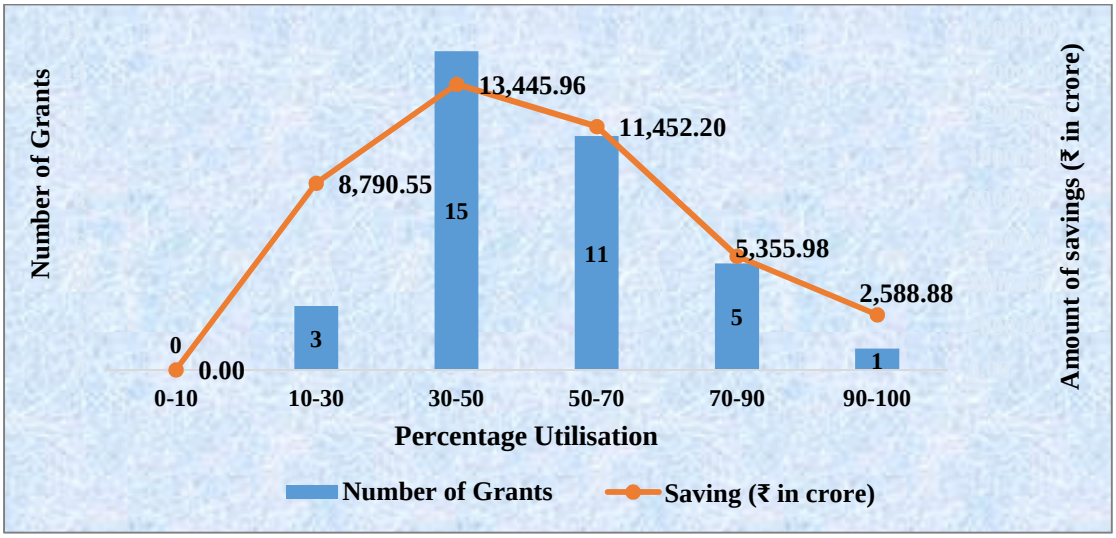
Analysis of grants and appropriations further showed that in 35 cases (under 27 grants) during the year 2022-23, savings (excluding surrenders) exceeded ₹100 crore in each case (***Appendix 3.8)***.

Further, it was also observed that in 38 cases under 27 grants, there were persistent savings exceeding ₹100 crore in each case during 2020-21 to 2022-23 (***Appendix 3.9)***.

It was noticed that savings (exceeding ₹ one crore in each case) under 17 Grants and two Appropriations amounting to ₹11,092.06 crore (***Appendix 3.10)*** were not surrendered at all. Further, it was also noticed that an amount of ₹1,690.58 crore was surrendered under Grant 08-Finance Department (Capital-Charged) though there was an excess expenditure of ₹1,346.04 crore thereunder.

Details of grants grouped by percentage of utilisation along with total savings during 2022-23 are shown in ***Appendix 3.11*** and **Chart 3.4**.

Chart 3.4: Distribution of number of Grants/Appropriations grouped by the percentage of utilisation along with total savings



Some of the departments wherein the savings in the respective grants were more than 50 *per cent* were Science & Technology Department (₹102.85 crore, 69 *per cent*), Law Department (₹477.50 crore, 53 *per cent*), Horticulture Department (₹386.41 crore, 56 *per cent*), Public Health Engineering Department (₹8,032.61 crore, 80 *per cent*), Co-operative Department (₹108.75 crore, 57 *per cent*), Food Civil Supplies and Consumer Affairs Department (₹430.07 crore, 63 *per cent*), Irrigation and Flood Control Department (₹1,372.24 crore, 62 *per cent*), Tribal Affairs Department (₹422.68 crore, 74 *per cent*) and Culture Department (₹335.26 crore, 83 *per cent*) which indicated that the Government could not utilise the funds earmarked for the planned purposes.

The Principal Secretary Finance Department stated (May 2024) that since the launch of BEAMS portal, the surrender of savings is reported on-line in the portal. While framing the revised estimates, the Departments also account for the surrender of savings during formulation of revised estimates. Accordingly, surrender of savings are accounted for by the Finance Department through BEAMS portal only. It was also stated that the individual surrender orders are being furnished on the lines of the grant-wise statement on surrenders which is already submitted to PAG.

The reply given by the Department is not acceptable, as para 1.2.43 of Jammu and Kashmir Budget Manual, 2020 clearly states that the inclusion of increased expenditure in the revised estimates does not supersede the necessity for applying for an additional appropriation nor are the revised estimates the proper channel for such applications. Similarly, the revised estimates do not obviate the necessity for formal surrender of sums unlikely to be spent.

The *post facto* sanction[3] for acceptance of surrender of savings of ₹12,004.61 crore under Revenue section and ₹12,835.83 crore under Capital section aggregating ₹24,840.44 crore for the financial year 2022-23 in respect of 36 demands accorded

[3] Vide order (no 167-F of 2024 dated 10.05.2024)

(May 2024) by the Finance Department could not be accepted as the Accounts of UT of Jammu and Kashmir for the year 2022-23 had already been approved by the Comptroller and Auditor General of India on 28 February 2024. Besides, the surrenders accepted by the Finance Department in the above order are grant-wise and did not provide full classification with regard to Major Head, Sub-Major Head, Minor Head, Group Head, Sub Head, Detailed Head etc.

3.5 Grants with Nil expenditure

The entire budget provision of ₹5,508.88 crore under 26 Grants involving 150 number of schemes as detailed in ***Appendix 3.12*** which included developmental schemes under Public Health Engineering, Irrigation and Flood Control, Housing and Urban Development, Power Development, Higher Education Department and Health & Medical Education Department remained unutilised during the year resulting in denial of intended benefits to the general public. The provision could have been re-appropriated to the schemes/works where there was excess expenditure over the provision.

In reply, it was stated (April 2024) that there are only some schemes where nil expenditure has been made. However, the observation has been noted and departments will be advised to project the realistic budget provision in future.

3.5.1 Excess over provisions requiring regularisation

As per Section 43 of the Jammu and Kashmir Re-organisation Act, 2019 no money shall be withdrawn from the Consolidated Fund of the Union Territory except under appropriation made by law passed in accordance with the provisions of this section.

Total excess expenditure amounting to ₹15,849.33 crore[4] was incurred by the UT Government during the period 31 October 2019 to 31 March 2023 which included excess expenditure amounting to ₹2,830.17 crore as detailed in ***Appendix 3.13*** under Revenue Charged and Capital Charged sections in Grant No. 08 (Finance Department), Revenue Voted section in Grant No. 16-Public Works Department and Revenue Voted section in Grant No. 19-Housing and Urban Development Department incurred during 2022-23. Excess expenditure remaining un-regularised for extended periods vitiates the system of budgetary and financial control and encourages financial indiscipline in management of public resources.

The Finance Department stated (April 2024) that on comparing the actual expenditure during 2022-23 with the RE figures, there was excess expenditure only in one out of four instances pointed out in audit. It was also stated that the observation has been noted and it will be regularised by the legislature in due course of time.

The reply is not acceptable as Appropriation Accounts compare excess/savings in expenditure with reference to the budget (Original and Supplementary) approved by Parliament in the Appropriation Act and not with reference to RE. Keeping in view

[4] 2019-20 (31 October 2019 to 31 March 2020): ₹3,875.61 crore; 2020-21: ₹7,094.29 crore; 2021-22: ₹2,049.26 crore; 2022-23: ₹2,830.17 crore.

expenditure against amounts approved in the Appropriation Act, there was excess expenditure during 2022-23 in respect of all four instances pointed out by Audit.

3.5.2 Persistent excesses in one Grant

Excess expenditure over the provision for the year is not only in contravention of the provisions requiring legislative sanction but also indicative of bad planning, which could be avoided by keeping track of expenditure progression with the budget made for the purpose.

Persistent excesses were noticed in Grant No. 08- Finance Department under capital charged section during the years 2020-21 to 2022-23. Persistent excess expenditure indicates that the budgetary control in the department was ineffective and budget estimates were not prepared on a realistic basis. Such repeated excess expenditure is in violation of the will of the legislature. Strictly, not a rupee can be spent without prior legislative authorisation and, therefore, this is to be viewed seriously. Persistent excesses may be due to improper estimation at the time of preparation of the budget.

The details of persistent excess expenditure during the period from 2020-21 to 2022-23 are mentioned in the following table:

Table 3.6: Details of excess expenditure in Grant No. 08 during 2020-21 to 2022-23

(₹ in crore)

Description of Grant/Appropriation	**2020-21**	**2021-22**	**2022-23**
Grant No. 08- Finance Department			
Capital *Charged*			
Total Grant	26,469.03	41,420.20	32,720.87
Expenditure	33,563.32	41,575.17	34,066.91
Excess	7,094.29	154.97	1,346.04

Source: Appropriation Accounts of respective years.

As is evident from the above table, persistent excesses were noticed in Grant No. 08-Finance Department. The excess was mainly under Major Head 6003-Internal Debt of the State Government in Capital Charged section during 2022-23. This is indicative of the fact that proper budgeting exercise was not being carried out as was required under Paragraph 6.2.4 of Government of Jammu and Kashmir Budget Manual.

The Finance Department stated (April 2024) that the excess expenditure was mainly for meeting the requirement of repayment of WMA and OD. It was also stated that observation has been noted and it will be regularised by the Legislature in due course of time.

3.5.3 Regularisation of excess expenditure of previous financial years pertaining to erstwhile State of Jammu and Kashmir

As the Appropriation Accounts of 1980-81 onwards had not been discussed in PAC, the excess expenditure aggregating to ₹1,24,004.41 crore for the years 1980-81 to 2019-20 (1 April 2019 to 30 October 2019) pertaining to the erstwhile State of Jammu

and Kashmir, as detailed in ***Appendix 3.14,*** is yet to be regularised. Excess expenditure remaining un-regularised for such extended periods vitiates the system of budgetary and financial control and encourages financial indiscipline in management of public resources.

The Finance Department stated (April 2024) that the legacy issue of excess expenditure for the years 1980-81 to 2019-20 of the erstwhile state of Jammu and Kashmir will be regularised by the legislature in due course of time.

3.6 Grants-in-Aid for creation of Capital Assets

Grants-in-aid are payments in the nature of assistance, donations or contributions made by one Government to another Government, body, institution or individual. Grants-in-aid are given for specified purpose of supporting an institution including construction of assets.

As per IGAS[5] 2, Grants-in-aid disbursed by a grantor to a grantee shall be classified and accounted for as revenue expenditure irrespective of the purpose for which the funds disbursed as Grants-in-aid are to be spent by the grantee, except in cases where it has been specifically authorised by the President on the advice of the Comptroller and Auditor General of India. It has been seen that Grants-in-aid (GIA) for capital assets are sometimes classified as capital expenditure. This leads to understatement of revenue deficit and over statement of revenue surplus. It was noticed that there was booking of GIA as Capital expenditure during the financial year 2022-23 as shown in the table below.

Table 3.7: Extent of classification of GIA as Capital Expenditure

(₹ in crore)

Item	2022-23
GIA booked as Capital Expenditure	191.10
Total Capital Expenditure	10,773.78
Share of GIA in Capital Expenditure (*in per cent*)	1.77
Revenue Deficit (-)/ Revenue Surplus (+)	(+)5,976.61
Revenue Deficit (-) /Revenue Surplus (+), if expenditure from GIA is treated as Revenue Expenditure	(+)5,785.51

Source: Finance Accounts (NTA) of respective years

The Union Territory Government booked Grants-in-aid as capital expenditure during 2022-23. This has resulted in overstatement of revenue surplus of ₹191.10 crore during 2022-23.

The Finance Department stated (April 2024) that such expenditure has been shifted to revenue budget in 2024-25.

[5] Indian Government Accounting Standards

3.7 Effectiveness of Budgetary and Accounting Process

3.7.1 Budget projection and gap between expectation and actual

Efficient management of tax administration/other receipts and public expenditure holds the balance for achievement of various fiscal indicators. Budgetary allocations based on unrealistic proposals, poor expenditure monitoring mechanism, weak scheme implementation capacities and weak internal controls lead to sub-optimal allocation among various developmental needs. Excessive savings in some departments deprive other departments of the funds which they could have utilised.

The total provision for expenditure during 2022-23 was ₹1,49,582.03 crore. The actual gross expenditure during the year was ₹1,07,948.46 crore (72.17 *per cent)*. This resulted in savings of ₹41,633.57 crore during 2022-23 of which only ₹16,793.13 crore (40.34 *per cent*) was surrendered. The summarised position of actual expenditure during 2022-23 against 35 grants/ appropriations is given below:

Table 3.8: Summarised position of actual expenditure *vis-à-vis* Budget (Original/ Supplementary) provisions during 2022-23

(₹ in crore)

Nature of expenditure		Original Grant/ App.	Supplementary Grant/ App. (S) and Augmentation (A)			Total	Actual expenditure[6]	Net Saving (-)/ Excess (+)	Surrender during 2022-23	
			S	A	S+A				Amount	*Per cent*
Voted	I. Revenue	64,077.39	3,480.17	1,435.70	4,915.87	68,993.26	54,419.45	-14,573.81	3,190.39	21.89
	II. Capital	37,705.35	216.44	624.32	840.76	38,546.11	10,822.69	-27,723.42	11,909.44	42.96

Source: Appropriation Accounts.
 # Annual Financial Statement -2022-23(St-5)
** Finance Account Vol-1 (St.-7)*

Composition of expenditure is given in **Table 3.9**.

[6] The expenditure figures shown are gross figures without taking into account the recoveries adjusted in the accounts as reduction of expenditure under Revenue Heads (Nil) and Capital Heads (₹48.91 crore).

Table 3.9: Composition of expenditure

Parameters	Amount *(₹ in crore)*	Percentage
Revenue expenditure	62,999.34	58.36
Capital expenditure	10,822.69	10.02
Loans and Advances	59.53	0.06
Public Debt	34,066.90	31.56
Total expenditure	**1,07,948.46**	**100.00**

The savings in grants is indicative of over budgeting which is as much a financial irregularity as excess in expenditure in terms of Rule 6.2.4 of the Jammu and Kashmir Budget Manual. Besides, excessive savings in some departments during the period is indicative of deprivation of other departments of the funds which they could have utilised and also non-surrender of funds (savings) is in contravention of the instructions of the Jammu and Kashmir Budget Manual.

The position of original and supplementary budget, revised estimate and actual expenditure for the year 2022-23 is given in **Table 3.10**.

Table 3.10: Original Budget, Supplementary Budget, Revised Estimate and Actual Expenditure during 2022-23

(₹ in crore)

Particulars (Appropriation accounts)	2022-23
Original budget (OB)	1,42,150.10
Supplementary Budget	7,431.93[7]
Total Budget (TB)	1,49,582.03
Revised Estimate (RE)	1,32,788.90
Actual Expenditure (AE)	1,07,948.46
Savings (TB-AE)	41,633.57
Percentage of Supplementary	5.23
Percentage of Overall Savings / Excess to the overall provision	27.83
TB-RE	16,793.13
RE-AE	24,840.44
(TB-RE) as *per cent* of TB	11.23
(RE-AE) as *per cent* of TB	16.61

Source: Appropriation Accounts and Annual Financial Statements.

Table 3.10 shows that during 2022-23, RE was always lower than TB of the UT. The gap between RE and TB during 2022-23 was 11.23 *per cent*. The supplementary provisions[8] during the year 2022-23 were 5.23 *per cent* of the original provisions. However, the supplementary provisions proved unnecessary as the expenditure did not come up even to the level of the original budget provisions during the year. The overall savings remained 27.83 *per cent* of the budget provisions during the year 2022-2023.

This reflects that the budgetary allocations were based on unrealistic proposals.

[7] Includes supplementary amount of ₹3,711.72 crore and augmentations of ₹3,720.21 crore.
[8] Including reappropriations and augmentations

The Finance Department stated (April 2024) that due care is taken at the time of preparation and consolidation of RE for reducing the extent of savings in the budget. Further, availability of the revised estimates in the last week of March 2022-23 was attributed as one of the reasons for savings across the Demands for Grants.

Keeping in view overall savings of 27.83 *per cent* of the budget provision during 2022-23, effective measures need to be taken to ensure optimum utilisation of the budget and avoid savings in future.

3.7.2 Rush of expenditure

Rule 62(3) of the General Financial Rules provides that rush of expenditure particularly in the closing months of the financial year is regarded as a breach of financial propriety and should be avoided.

Government funds should be spent evenly throughout the year. Maintaining a steady pace of expenditure is a crucial component of sound public financial management as it obviates fiscal imbalances and temporary cash crunches arising out of unanticipated heavy expenditure.

Contrary to this, expenditure exceeding 50 *per cent* of the total expenditure for the year 2022-23 was incurred in March 2023 in respect of 14 Major Heads under 10 Grants and the percentage of expenditure ranged between 50 *per cent* and 100 *per cent* as detailed in ***Appendix 3.15***.

The pace of expenditure during each quarter was not uniform as 80 *per cent* of expenditure under these 14 Major Heads was incurred in the last quarter of the financial year 2022-23.

The Finance Department of Jammu and Kashmir Government instructed (March 2022) that not more than 30 *per cent* of the budget estimate may be spent in the last quarter of the financial year and during the month of March, expenditure should be limited to 15 *per cent* of the budget estimates. The restriction of 30 *per cent* and 15 *per cent* expenditure ceiling was to be enforced both scheme-wise as well as for Demand for Grants as a whole, subject to RE ceilings.

It was noticed in audit that the expenditure incurred in three grants during the last of quarter of 2022-23 and five grants during the month of March 2023 as detailed in **Tables 3.11** and **3.12** exceeded the ceiling fixed by the Finance Department.

Table 3.11: Details of grants where expenditure during last quarter of 2022-23 exceeded the prescribed ceiling

(₹ in crore)

Grant No.	Revised Estimate (RE)	Ceiling[9] within which expenditure to be incurred during last quarter	Expenditure during the last quarter of 2022-23	Expenditure incurred in excess of the fixed limit
8-Finance Department	55,126.08	16,537.82	23,448.54	6,910.72

[9] 30 *per cent* of RE

Grant No.	Revised Estimate (RE)	Ceiling[9] within which expenditure to be incurred during last quarter	Expenditure during the last quarter of 2022-23	Expenditure incurred in excess of the fixed limit
16-Public Works Department	5,166.64	1,549.99	1,919.05	369.06
33-Disaster Management Relief Rehabilitation and Reconstruction Department	1,172.58	351.77	483.02	131.25

Table 3.12: Details of grants where expenditure during March 2023 exceeded the prescribed ceiling

(₹ in crore)

Grant No.	Revised Estimate (RE)	Ceiling[10] within which expenditure to be incurred during March 2023	Expenditure during March 2023	Expenditure incurred in excess of the fixed limit
18-SocialWelfare Department	3,083.79	462.57	498.45	35.88
19-Housing and Urban Development Department	3,583.32	537.50	544.19	6.69
20-Tourism Department	496.24	74.44	85.63	11.19
33-Disaster Management Relief Rehabilitation and Reconstruction Department	1,172.58	175.89	433.07	257.18
36-Co-Operative Department	191.33	28.70	32.67	3.97

There is a need to maintain a steady pace of expenditure and avoid rush of expenditure during the last quarter/ last month of the financial year.

The Finance Department stated (April 2024) that to avoid rush of expenditure in the closing months of the financial year particularly in the month of March, the Government has introduced expenditure reforms through austerity measures. The Departments have been advised to book 30 *per cent* of expenditure during the last quarter of the financial year with 15 *per cent* ceiling in the month of March. The Departments have also been advised to maintain a steady pace of expenditure and avoid rush of expenditure during the last quarter and last month of the financial year.

3.8 Review of selected Grants

A review of budgetary procedure and control over expenditure in two test-checked grants (Grant No. 31: Culture Department) and (Grant No. 34: Youth Services and Technical Education Department) out of 35 grants was undertaken and the audit observations are given in the following paragraphs.

[10] 15 *per cent* of RE

3.8.1 Grant No. 31: Culture Department

(i) Introduction

Grant Number 31 – Culture Department includes Major Head 2202- General Education, 2205 - Art and Culture, 3452 - Tourism, 3454 - Census Surveys and Statistics and 4202 - Capital Outlay on Education, Sports, Art and Culture.

(ii) Budget and Expenditure

The overall position of budget provisions, actual disbursement and savings under the grant for the last three years (2020-21 to 2022-23) is given in **Table 3.13**.

Table 3.13: Budget and Expenditure during the years 2020-21 to 2022-23

(₹ in crore)

Year	Section	Budget provision	Total	Expenditure	Unutilised provision and its percentage
2020-21	Revenue -Original (Voted)	68.91	68.91	48.79	20.12 (29.20)
	Supplementary	0			
	Capital-Original (Voted)	129.38	129.38	4.06	125.32 (96.86)
	Supplementary	0			
Total		**198.29**	**198.29**	**52.85**	**145.44 (73.35)**
2021-22	Revenue -Original (Voted)	64.42	59.52	41.03	18.49 (31.07)
	Supplementary	-4.90			
	Capital-Original (Voted)	525.82	274.32	6.14	268.18 (97.76)
	Supplementary	-251.50			
Total		**333.84**	**333.84**	**47.17**	**286.67 (85.87)**
2022-23	Revenue-Original (Voted)	67.35	79.49	59.56	19.93 (25.07)
	Supplementary	0			
	Augmentation	12.14			
	Capital-Original (Voted)	325.82	325.82	10.49	315.33 (96.78)
	Supplementary	0			
Total		**405.31**	**405.31**	**70.05**	**335.26 (82.72)**

Source: Appropriation Accounts 2022-23

Against the total allocation of ₹405.31 crore under the Grant during the year 2022-23, the total expenditure booked was ₹70.05 crore only. Savings of ₹335.26 crore (83 *per cent*) during the year indicated preparation of unrealistic budget estimates by the Department. Savings of ₹19.93 crore in Revenue Voted and ₹315.33 crore in Capital Voted section was noticed. Out of savings of ₹315.33 crore under Capital component, savings of ₹201.70 crore was stated to have been surrendered, but valid surrender orders to ascertain the timely surrender of funds were not available. Further, savings of ₹12.14 crore in Capital component were irregularly augmented to Revenue component.

As can be seen from **Table 3.13**, the un-utilised budget provision under Capital (Voted) during the last three years ranged between 97 *per cent* and 98 *per cent*, which reflects negligent capital expenditure by the Government.

3.8.1.1 Withdrawal of Entire Grant of ₹1.29 crore

An amount of ₹1.29 crore was allocated in Detailed Demand for Grant under Major Head 3454-Census Surveys and Statistics, SM 02-Surveys and Statistics, MI-110-Gazetteer and Statistical Memoirs, GH 0099-General, SH 0468-State Gazetteers, but the entire amount was shown withdrawn in Supplementary Grant/ Re-appropriation.

In reply, the Director Finance, Government of Jammu and Kashmir, Civil Secretariat Culture Department stated (August 2023) that the grant of ₹1.29 crore was actually meant for the State Gazetteers Unit, but the said Unit was closed by the Government and the existing employees were transferred to the Directorate of Archives, Archaeology and Museums. As such, the entire grant of ₹1.29 crore was withdrawn.

The Finance Department replied (April 2024) that the entire grant was withdrawn due to closure of the State Gazetteers Unit.

3.8.1.2 Unnecessary Supplementary Grants/ Augmentation

As per Article 205 of the Constitution, a Supplementary or Additional Grant or Appropriation over the provision made by the Appropriation Act for the year can be made during the current financial year but not after the expiry of the current financial year. When such additional expenditure is found to be inevitable and there is no possibility of effecting savings within the grant to cover the excess by re-appropriation, the Secretary in the Department concerned proposes to the Finance Department for supplementary or additional grant or appropriation. Budgetary allocations should be based on realistic proposals, good expenditure monitoring mechanism; strong scheme implementation capacities/internal control leading to optimal utilisation of funds on schemes to obtain intended benefits to the beneficiaries.

Audit analysis showed that supplementary provision/ augmentation of ₹2.42 crore in the following cases proved unnecessary as the expenditure incurred did not come up even to the level of the original provision as shown in **Table 3.14**.

Table 3.14: Unnecessary Supplementary Grant

(₹ in crore)

Source: Appropriation Accounts 2022-23

Reasons for unnecessary supplementary grant were awaited from the department (August 2023).

The Finance Department stated (April 2024) that the Department will be advised to project realistic budget in future.

3.8.1.3 Persistent savings

Persistent savings under four major heads in seven schemes was observed during the period 2020-21 to 2022-23 which indicates non-achievement of the projected financial outlays in the respective years as shown in **Table 3.15**.

Table 3.15: Persistent Savings (Grant No. 31)

(₹ in crore)

Source: Appropriation Accounts 2022-23

In reply, the Accounts officer, Mubarak Mandi Jammu Heritage Society (MMJHS) stated (August 2023) that persistent savings were on account of insufficient staff posted in the society by the Administrative Department. During all these years the affairs of the society were managed by the staff deputed to the society which was even less than 1/3rd of its sanctioned strength.

The Finance Department stated (April 2024) that the Department will be advised to take corrective measures in future.

3.8.1.4 Entire provision remained unutilised

It was observed that the entire budget allocation remained unutilised under four schemes in nine detailed heads during 2022-23, indicating non-implementation of schemes as shown in **Table 3.16**.

Table 3.16: Entire provision remained un-utilised under Grant No-31

(₹ in crore)

Source: Appropriation Accounts 2022-23

Reasons for non-utilising the entire provision were awaited from the department (August 2023).

The Finance Department stated (April 2024) that the observation has been noted and the Department will be advised to project realistic demand in future.

3.8.1.5 Huge savings

Complete accuracy of estimates may not always be possible but where the omission or inaccuracy is the result of lack of forethought, neglect of the obvious or unrealistic estimating, it is a matter of concern. All Estimating Officers should strive to provide in the budget for everything that can be foreseen and to provide only as much as is necessary. The Administrative and Finance Department should consider this while

exercising final check on the estimates. Budgetary allocations based on unrealistic proposals, overstretching the potential of resource mobilisation, poor expenditure monitoring mechanism, weak scheme implementation capacities/weak internal controls promote release of funds towards the end of the financial year. Excessive savings in some heads also deprive other Departments of the funds which they could have utilised.

During the course of grant audit, it was noticed that huge savings had occurred in the following schemes during the year 2022-23.

Table 3.17: Huge Savings

(₹ in crore)

Head of Account	Total Appropriation	Expenditure	Savings (-) (*Per cent*)
2202-80-004-0099-0278	4.66	3.29	1.37 (*29*)
2205-102-0099-0117	15.00	4.00	11.00 (*73*)
2205-104-0099-0272	11.42	10.18	1.24 (*11*)

4202-04-105-0011-1890	8.95	3.57	5.38 (*60*)

Source: Appropriation Accounts 2022-23

The Finance Department stated (April 2024) that the observation has been noted and the Department will be advised to project realistic demand in future.

3.8.1.6 Single Nodal Accounts

In terms of Government of India (GoI), Ministry of Finance (MoF), Department of Expenditure, Office Memorandum (OM) dated 23-03-2021, zero balance Single Nodal Accounts (SNAs) were required to be opened for each Centrally Sponsored Scheme (CSS) operational either in the Union Territory or in any State. The Department had not opened any zero balance SNA during 2022-23.

In reply, the Director Finance, Government of Jammu and Kashmir, Civil Secretariat Culture Department stated (August 2023) that no SNA account has been opened in the Culture Department as the funds of Central share for one scheme are being transferred to Raja Rammohan Library Foundation Kolkata directly by the Government of India. The Union Territory share is being transferred through the Director Libraries and Research J&K.

3.8.2 Grant No. 34: Youth Services and Technical Education Department

(i) Introduction

Grant: 34 Youth Services and Technical Education Department includes Major Heads 2203-Technical Education, 2204-Sports and Youth Services, 2230-Labour & Employment, 4202-Capital Outlay on Education, Sports and Culture and 4250- Capital Outlay on other Social Services.

(ii) Budget and Expenditure

The overall position of budget provisions viz., actual/disbursement and savings under the grant for the last three years (2020-21 to 2022-23) is as under:

Table 3.18: Budget and Expenditure during the years 2020-21 to 2022-23

(₹ in crore)

Year	Section	Budget Provision	Total	Expenditure	Unutilised provision and its percentage
2020-21	Revenue Original (Voted)	737.88	737.88	459.51	278.37
	Supplementary	-			(38)
	Capital –Original(V)	252.66	252.66	55.32	197.34
	Supplementary	-			(78)
Total		**990.54**	**990.54**	**514.83**	**475.71 (48)**
2021-22	Revenue Original (Voted)	652.97	609.91	476.47	133.44
	Supplementary	-43.06			(22)

2022-23	Revenue Original (V)	666.87	666.87	524.18	142.69
	Supplementary	0			(21)
	Capital –Original (V)	244.99	265.85	165.88	99.97
	Supplementary	5.65			(38)
	Augmentation	15.21			
Total		**932.72**	**932.72**	**690.06**	**242.66 (26)**

Source: Appropriation Accounts 2022-23

Against total allocation of ₹932.72 crore under the Grant during the year 2022-23, the total expenditure booked was ₹690.06 crore only and there were savings of ₹242.66 crore (26 *per cent*). Savings of ₹142.69 crore and ₹99.97 crore were noticed in Revenue Voted and Capital Voted sections respectively.

Out of savings of ₹142.69 crore under revenue component, savings of ₹15.21 crore were stated to have been surrendered, but valid surrender orders to ascertain the timely surrender of funds were not available. Further, savings of ₹15.21 crore in Revenue component were irregularly augmented to Capital component.

The un-utilised budget provision under Revenue (Voted) during 2020-21 to 2022-23 ranged between 21 *per cent* and 38 *per cent*, whereas the un-utilised budget provision under Capital (Voted) ranged between 38 and 78 *per cent.*

3.8.2.1 Persistent savings

Persistent savings under five major heads in six schemes was observed during the period 2020-21 to 2022-23 which indicates non-achievement of the projected financial outlays in the respective years as shown in **Table 3.19**.

Table 3.19: Persistent savings (exceeding ₹ one crore)

(₹ in crore)

S. No.	Head of Account	2020-21	2021-22	2022-23
Revenue (Voted)				
1.	2203-001-0099-0530-Directorate of Technical Education	67.55	49.58	43.43
2.	2204-001-0099-0244-Direction and Administration	199.37	37.22	20.83
3.	2230-02-001-0099-1644-Craftsman training	11.80	6.30	4.18
Capital (Voted)				
4	4202-01-201-0011-1427-Physical Education	112.24	93.59	64.96
5	4202-01-201-0011-1551-Engineering/Technical colleges and Institutes	16.93	6.76	6.81
6	4250-800-0011-1644-Craftsman training	11.25	7.35	12.02

The Finance Department stated (April 2024) that the observation has been noted and the Department will be advised to project realistic budget provisions in order to avoid savings in future.

3.8.2.2 Entire provision remained unutilised

It was observed that the entire budget allocation of ₹35 crore remained unutilised under two schemes in three detailed heads during 2022-23, indicating non-implementation of schemes as shown in **Table 3.20**.

Table 3.20: Entire provision remained un-utilised under Grant No-34

(₹ in crore)

S. No.	Head of Account	Amount unutilised
1.	2203-112-0031-6016-SANKALP[11]	18.00
2.	2203-112-0099-6016-SANKALP	2.00
3.	2230-03-101-0031-PMKVY	15.00
	Total	**35.00**

The Finance Department stated (April 2024) that the funds under Centrally sponsored schemes with corresponding UT share are provided after credit of the Central share. The Central share of funds in respect of schemes mentioned in the para were not received during 2022-23, as such the budget allocation of ₹35.00 crore remained unutilised.

3.8.2.3 Entire provision withdrawn

It was observed that the entire budget allocation of ₹20 crore was withdrawn under three detailed heads in two schemes during 2022-23, indicating non-implementation of schemes as shown in **Table 3.21**.

[11] Skills Acquisition and Knowledge Awareness for Livelihood Promotion

Table 3.21: Entire provision withdrawn

(₹ in crore)

S. No.	Head of Account	Amount withdrawn
1.	2230-02-001-0099-1644-Craftsman training (003-LTC)	1.00
2.	4202-01-800-0011-2400-Skill Development mission (115-Works)	1.00
3.	4202-02-800-0031-2400-Skill Development Mission (115-Works)	18.00
	Total	**20.00**

3.8.2.4 Unnecessary supplementary Grants/ Augmentations

As per Article 205 of the Constitution, a Supplementary or Additional Grant or Appropriation over the provision made by the Appropriation Act for the year can be made during the current financial year but not after the expiry of the current financial year. When such additional expenditure is found to be inevitable and there is no possibility of effecting savings within the grant to cover the excess by re-appropriation, the Secretary in the Department concerned proposes to the Finance Department for supplementary or additional grant or appropriation.

Audit analysis showed that supplementary provision of ₹44.76 crore in the following cases proved unnecessary as the expenditure incurred (₹3.54 crore) did not come up even to the level of the original provision as shown in **Table 3.22**.

Table 3.22: Unnecessary supplementary grants/ augmentations

(₹ in crore)

S. No.	Head of Account	Budget Allocation *(₹ in crore)*			Actual Expenditure	Savings (*Per cent*)
		Original	Supplementary/ augmentation[12]	Total Grant		
Revenue (Voted)						
1	2203-112-0031-1551-028-Grants–in-aid	10.00	4.45	14.45	2.87	11.58
2.	2203-001-0099-0530-021-Training	0.13	4.87	5.00	0.66	4.34
3.	2203-201-0031-6016-028-SANKALP	0	18.00	18.00	0	18.00
4.	2203-201-0099-6016-028-SANKALP	0	2.00	2.00	0	2.00
5.	2230-02-001-0099-1644-021-Training	0.03	0.72	0.75	0.01	0.74
Total Revenue (Voted)		**10.16**	**30.04**	**40.20**	**3.54**	**36.66**
Capital (Voted)						
6.	4202-105-0011-0530-Technical Education	0	4.06	4.06	0	4.06
7.	4202-201-0031-6000-Strengthening of infrastructure of institutions	0	3.50	3.50	0	3.50

[12] In respect of all the Revenue heads at Serial No 1 to 5 it is re-appropriated amount. In capital heads against Serial No. 6 it is supplementary amount of ₹4.06 crore. However, in respect of other capital heads from S No 7 to 11 it is re-appropriation or augmentation.

S. No.	Head of Account	Budget Allocation *(₹ in crore)*			Actual Expenditure	Savings (*Per cent*)
		Original	Supplementary/ augmentation[12]	Total Grant		
8.	4202-800-0011-6000-Strengthening of infrastructure of institutions	0	1.50	1.50	0	1.50
9	4202-800-0031-6000-Strengthening of infrastructure of institutions	0	3.50	3.50	0	3.50
10.	4250-203-0031-1644-017- Craftsman training	0	0.05	0.05	0	0.05
11	4250-203-0031-1644-021-Craftsman training	0	2.11	2.11	0	2.11
Total Capital (Voted)		**0**	**14.72**	**14.72**	**0**	**14.72**
Grand total		**10.16**	**44.76**	**54.92**	**3.54**	**51.38**

Supplementary provisions/re-appropriation of ₹30.04 crore (Revenue Voted) during the year 2022-23 proved unnecessary as the expenditure of ₹3.54 crore did not come up even to the level of the original provision of ₹10.16 crore. Further, nil expenditure was incurred against the supplementary provisions/ augmentation of ₹14.72 crore (Capital Voted). Overall savings (₹51.38 crore) in these cases was 115 *per cent* of the supplementary provisions/ re-appropriation (₹44.76 crore) which is indicative of budgetary allocations based on unrealistic proposals, poor expenditure monitoring mechanism and weak internal controls.

The Finance Department stated (April 2024) that the observation has been noted for taking corrective measures.

3.8.2.5 Excess expenditure against the allocations

An expenditure of ₹1.39 crore under three detailed heads of MH-2204 has been made against the allocation of ₹1.30 crore resulting in excess expenditure of ₹0.09 crore as detailed in **Table 3.23**.

Table 3.23: Excess expenditure against the allocations

(₹ in crore)

S. No.	Head of Account	Budget allocation	Expenditure Booked	Excess
1	2204-001-0099-0244-010-Material and supplies	0.55	0.58	0.03
2	2204-001-0099-0244-020- Machinery and equipment	0.15	0.16	0.01
3.	2204-001-0099-0244-103-Office Equipments and appliances	0.60	0.65	0.05
Total		**1.30**	**1.39**	**0.09**

The Finance Department stated (April 2024) that allocations are made at the Major head and sub head level and there is no excess expenditure. However, the reply is silent regarding excess expenditure in respect of the detailed heads pointed out in audit.

3.8.2.6 Less expenditure (Savings) against the provision of funds under Revenue and Capital heads

During the year 2022-23 less expenditure was booked against the allocation under five Revenue and Capital sub-heads of the Head of Account as detailed in **Table 3.24**.

Table 3.24: Less expenditure against allocations

(₹ in crore)

S. No.	MH	MI	GH	SH	Budget Allocation	Expenditure	Less/ savings (*per cent*)
Revenue (Voted)							
1.	2203	001	0099	0530	156.20	112.77	43.43 (28%)
2.	2230	001	0099	1644	168.08	126.24	41.84 (25%)
Capital (Voted)							
3.	4202	201	0011	1427	147.32	82.36	64.96(44%)
4.	4202	201	0011	1551	23.31	12.44	10.87(47%)
5.	4250	800	0011	1644	21.50	9.48	12.02(56%)

The Finance Department stated (April 2024) that the observation has been noted and the Department will be advised to project realistic budget provisions to avoid savings in future.

3.8.2.7 Huge savings not surrendered

Complete accuracy of estimates may not always be possible; but where the omission or inaccuracy is the result of lack of forethought, neglect of the obvious or unrealistic estimating, it is a matter of concern. All Estimating Officers should strive to provide in the budget for everything that can be foreseen and to provide only as much as is necessary. The Administrative and Finance Departments should consider this while exercising final check on the estimates. Budgetary allocations based on unrealistic proposals, overstretching the potential of resource mobilisation, poor expenditure monitoring mechanism and weak scheme implementation capacities/weak internal controls promote release of funds towards the end of the financial year. Excessive savings in some heads also deprive other Departments of the funds which they could have utilised.

During the year 2022-23, total provision of ₹666.87 crore (Revenue-Voted) and ₹265.85 (Capital-Voted) was made under Grant-34 Youth services and Technical Education Department against which only ₹524.18 crore and ₹165.88 crore was incurred resulted in huge savings of ₹142.69 crore (21 *per cent*) and ₹99.97 crore (38 *per cent*) respectively. Out of savings of ₹142.69 crore under Revenue component, savings of ₹15.21 crore which were stated to have been surrendered, were irregularly augmented to Capital component.

The Finance Department stated (April 2024) that the observation has been noted.

3.8.2.8 Single Nodal Accounts

In terms of Government of India (GoI), Ministry of Finance (MoF), Department of Expenditure, Office Memorandum (OM) dated 23-03-2021, zero balance Single Nodal

Accounts (SNAs) were required to be opened for each Centrally Sponsored Scheme (CSS) operational either in the Union Territory or in any State.

The details of five centrally sponsored schemes, along with the balances lying in these accounts, are indicated in **Table 3.25**.

Table 3.25: Details of Centrally Sponsored Schemes

(₹ in lakh)

Sl. No.	Scheme/SNA	Name of bank with A/C No	Opening balance	Amount deposited during 2022-23	Expenditure	Closing balance as on March 2023	Reasons for unutilised funds

(Source: Information provided by Technical Education Department)

The Finance Department stated (April 2024) that they are consistently pursuing this issue with the departments for opening of zero balance accounts in SNAs and timely utilisation of SNA balance. The matter will be vigorously pursued with the line departments for early utilisation of SNA balances.

3.9 Conclusion

- The overall utilisation of budget was 28 *per cent* less than the total amount of grants and appropriations during the year 2022-23. There were savings of ₹42,355.70 crore (39 *per cent*) in the voted section and excess expenditure of ₹722.13 crore (1.72 *per cent*) in the charged section.
- An amount of ₹12,416.82 crore was incurred under 31 schemes/Sub Heads in 6 Grants without budgetary provisions during 2022-23.
- Supplementary provisions and augmentation aggregating ₹2,091.95 crore obtained in 16 cases, involving ₹50 lakh or more in each case, during the year proved unnecessary as the expenditure did not come up to the level of the original provisions. On the other hand, in Grant 16-Public Works Department, augmentation of ₹124.06 crore was not adequate to meet the requirement and non-provision of supplementary amount in Grant 8-Finance Department led to excess expenditure of ₹1,503.62 crore.
- There were 35 grants in which savings of ₹10 crore and above had occurred as on 31st March 2023, which included 31 grants wherein savings of ₹100 crore and above were noticed. Budgetary allocations were based on unrealistic proposals as out of total 35 grants, in 25 grants, savings were more than ₹100 crore in the capital section.
- The entire budget provision of ₹5,508.88 crore under 26 Grants involving 150 number of schemes remained unutilised during the year resulting in denial of intended benefits to the general public.
- Expenditure exceeding 50 *per cent* of the total expenditure for the year 2022-23 was incurred in March 2023 in respect of 14 Major Heads under 10 Grants. The percentage of expenditure ranged between 50 *per cent* and 100 *per cent.*
- Against the total allocation of ₹405.31 crore under Grant No. 31-Culture Department, the total expenditure booked is ₹70.05 crore only. Savings of ₹335.27 crore (83 *per cent*) indicated preparation of unrealistic budget estimates by the Department. Savings of ₹19.93 crore in Revenue Voted and ₹113.64 crore in Capital Voted sections was noticed. Out of savings of ₹315.33 crore in Revenue component ₹201.70 crore was surrendered.
- Against the total allocation of ₹932.72 crore under Grant No. 34-Youth Services and Technical Education Department, an expenditure of ₹690.06 crore was booked and there were savings of ₹242.66 crore (26 *per cent*). The savings under the Revenue Head (Voted) and Capital Head (Voted) were ₹142.69 crore and ₹99.97 crore respectively. Out of savings of ₹142.69 crore under revenue component, ₹15.21 crore was stated to have been surrendered and irregularly augmented to Capital component.

3.10 Recommendations

1. Government should be more realistic in its budgetary assumptions and ensure efficient control mechanisms to curtail savings/excess expenditure.
2. Excess expenditure over the approved grants may be regularised at the earliest, along with fixing responsibility on officials concerned for incurring excess expenditure.
3. Controlling Officers need to be made aware of their responsibility to explain the variation in expenditure from the allocation to facilitate proper analysis of budget and preparation of meaningful Appropriation Accounts.
4. Government may consider strengthening of financial monitoring to avoid rush of expenditure at the fag end of the year.
5. The system for timely submission of surrender orders and re-appropriation orders to the Principal Accountant General (A&E) needs to be enforced.
6. Re-appropriation/augmentation from Revenue to Capital Heads or *vice-versa* need to be stopped.

The Finance Department stated (April 2024) that the recommendations have been noted for compliance and the Finance Department from time to time has advised the departments for preparing realistic budget figures and avoid rush of expenditure at the fag end of the year.

During the exit conference (April 2024), the Principal Secretary Finance accepted the audit recommendations.

Chapter-IV

Quality of Accounts and Financial Reporting Practices

CHAPTER-IV

QUALITY OF ACCOUNTS AND FINANCIAL REPORTING PRACTICES

A sound internal financial reporting system with relevant and reliable information significantly contributes to efficient and effective governance by the Union Territory Government. Compliance with financial rules, procedures and directives as well as the timeliness and quality of reporting on the status of such compliance is thus one of the attributes of good governance. Reports on compliance and controls, if effective and operational, assist the Government in meeting its basic stewardship responsibilities, including strategic planning and decision-making.

Issues related to completeness of accounts

4.1 Non-discharge of liability in respect of interest towards interest bearing deposits/ Reserve Funds

The Government has a liability to provide and pay interest on the amounts in interest-bearing Deposits/Reserve Funds. Audit observed that ₹41.82 crore was required to be paid as interest on the balance of ₹1,248.38 crore lying under interest-bearing deposits/Reserve Funds as on 1 April 2022 as shown in **Table 4.1**. Non-payment of interest liability has resulted in overstatement of revenue surplus and understatement of fiscal deficit to that extent.

Table 4.1: Details of non-discharge of liability in respect of interest towards interest-bearing deposits/Reserve Funds

(*₹ in crore*)

Sr. No.	Name/Head of the interest-bearing deposit/Reserve Fund	Opening Balance as on 1 April 2022	Basis for calculation of interest	Amount of interest not provisioned
1.	State Compensatory Afforestation Fund-MH-8121	764.57	As per circulars issued by the Ministry of Environment, Forest & Climate Change at the annual rate of 3.35 *per cent.*	25.61
2	State Compensatory Afforestation Deposit-MH-8336	483.81		16.21
	Total	**1,248.38**		**41.82**

4.2 Funds transferred directly to Implementing Agencies

Government of India (GoI) transfers substantial funds directly to State Implementing Agencies (SIAs) for implementation of various schemes and programmes. The amount of funds transferred by the various Ministries/ Departments of GoI directly to SIAs of the Union Territory Government of Jammu and Kashmir during 2022-23 as per the Public Financial Management System (PFMS) portal of Controller General of Accounts (CGA) was ₹786.95 crore ***(Appendix 4.1)***. This constituted 1.14 *per cent* and 1.53 *per cent* of total revenue receipts (₹68,975.95 crore) and Grants-in Aid (₹51,492.93 crore) respectively. The direct transfer of funds to the implementing agencies decreased by 1.88 *per cent* as compared to 2021-22 (from ₹802.04 crore in 2021-22 to ₹786.95 crore in 2022-23). In addition to the above, Central Government released an amount of ₹3,450.39 crore directly to various Autonomous Bodies/ other

entities of the Government. The schemes where direct funding was more than ₹100 crore during the year 2022-23 are given below:

Table 4.2: Scheme where more than ₹100 crore funds transferred by Government of India directly to Government Departments

(₹ in crore)

Sl. No.	Name of the GoI Scheme	Name of the Implementing Agency	Government of India releases during 2022-23
1	Pradhan Mantri Kisan Samman Nidhi	Department of Agriculture Production, Government of Jammu and Kashmir	524.82
2	Strengthening of Public Distribution System Operations	Consumer Affairs and Public Distribution Department Jammu and Kashmir	115.52

Source: Finance Accounts.

The Finance Department stated (April 2024) that GoI transferred funds to the SNA accounts through various ministries/ department directly to the State Implementing Agencies (SIA). Since the funds have been transferred directly to the SIA, no comments can be furnished on this account. However, Consumer Affairs and Public Distribution (CAPD) and Agriculture Production Department have confirmed the direct receipt of funds in their bank accounts.

4.3 Deposit of Local Funds

Jammu and Kashmir Panchayati Raj Act, 1989 provides that Halqa Panchayat would maintain Halqa Panchayat Fund which would include all moneys realised or realisable under the Act and all moneys otherwise received by the Panchayati Raj Institutions (PRIs), such as grants received from Government and its own revenue, which includes tax and non-tax receipt of a Panchayat. The Municipal Act, 2000 envisages that the Municipal Fund is to be held by the Municipality. All moneys realised or realisable under this Act and all moneys otherwise received by the Municipalities are to be kept in the Municipal Fund. These are kept under Major Head 8448-Deposits of Local Funds-109-Panchayat Bodies Funds and 102-Municipal Funds. Receipt and expenditure under the aforesaid two local funds during 2022-23 is shown in **Table 4.3**.

Table 4.3: Deposits of Local Funds

S. No.	Local Funds			*(₹ in crore)*
1	Panchayat Fund	(8448-109)	Opening Balance	Nil (0.27)
			Receipt	Nil
			Expenditure	Nil
			Closing Balance	Nil (0.27)
2	Municipal Fund	(8448-102)	Opening Balance	252.87 (133.39)
			Receipt	1003.21
			Expenditure	916.72
			Closing Balance	339.36 (133.39)

Source: Finance Accounts. Figures in bracket shows closing balance ending 30 October 2019 of erstwhile State of Jammu and Kashmir which has to be bifurcated between the two UTs

There was no receipt and expenditure from the Panchayat Fund during 2022-23. However, there was a closing balance of ₹0.27 crore of the erstwhile State of Jammu and Kashmir. The Municipal Fund had a closing balance of ₹339.36 crore ending 2022-23. Besides there was a closing balance of ₹133.39 crore of the erstwhile State of Jammu and Kashmir which is yet to be divided between the two Union Territories.

Issues related to transparency

4.4 Delay in submission of Utilisation Certificates

The Government of UT of Jammu and Kashmir has not framed revised rules relating to drawal of grants-in-aid and submission of Utilisation Certificate (UCs) thereof. However, as per para 10.19 of the erstwhile State of Jammu and Kashmir (Pre re-organisation) Financial Code Volume-I, UCs in respect of grants-in-aid received by the grantee should be furnished by the grantee to the authority that sanctioned it within 18 months from the date of receipt of grant or before applying for a further grant on the same subject, whichever is earlier. To the extent of non-submission of UCs, there is a risk that the amount shown in the Finance Accounts may not have reached the beneficiaries.

The position of outstanding UCs relating to the Union Territory of Jammu and Kashmir (post re-organisation) for the period from 31 October 2019 to 30 September 2021 is given in **Table 4.4**.

Table 4.4: Year-wise arrears in submission of Utilisation Certificates of UT of Jammu and Kashmir

Year*	Number of UCs outstanding	Amount *(₹ in crore)*
2021-22 (31.10.2019 to 30.09.2020)	**725**	2,985.54
2022-23 (01.10.2020 to 30.09.2021)	**577**	3,570.56
Total	**1,302**	**6,556.10**

** The year mentioned above relates to "Due year" i,e, after 18 months of actual drawal year*

The position of outstanding UCs relating to the erstwhile State of Jammu and Kashmir drawn upto 30 October 2019 (yet to be apportioned) as on 31 March 2023 is given in **Table 4.5**.

Table 4.5: Year-wise arrears in submission of Utilisation Certificates of the erstwhile State of Jammu and Kashmir

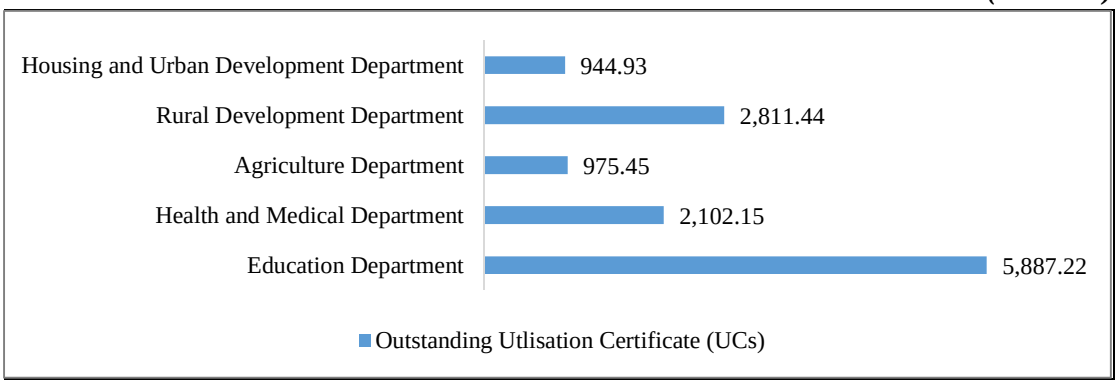
Year*	Number of UCs outstanding	Amount *(₹ in crore)*
Upto 2013-14	228	744.88
2014-15	34	52.72
2015-16	196	442.10
2016-17	226	765.52
2017-18	428	2,309.23
2018-19	318	1,201.22
2019-20	296	665.54
2020-21	705	1,961.44
Total	**2,431**	**8,142.65**

** The year mentioned above relates to "Due year" i,e, after 18 months of actual drawal year*

There are 3,733 number of UCs amounting to ₹14,698.75 crore pertaining to the erstwhile State and UT of Jammu and Kashmir outstanding as on 31 March 2023. Department-wise break-up of total outstanding UCs shows that 86.55 *per cent* of total amount of outstanding UCs pertain to the below-mentioned five departments, of which 40.05 *per cent* of outstanding UCs pertain to Education department.

Chart 4.1: Outstanding UCs in respect of major Departments for the grants paid up to September 2021

(₹ in crore)



Source: Finance Accounts and information from A&E Office.

Non-submission of UCs means that the authorities have not explained as to how the funds were spent over the years. There is also no assurance that the intended objectives of providing these funds have been achieved. This assumes greater importance if such UCs are pending against grants-in-aid meant for capital expenditure. It is imperative that the Government should monitor this aspect closely and hold the concerned persons accountable for submission of UCs in a timely manner.

Out of two Departments/grants covered for detailed comprehensive audit of grants, there was no UC outstanding from Culture Department (Grant No 31). However, UCs for an amount of ₹9.67 crore drawn by Accounts Officer, Directorate of Skill Development during November 2019 to March 2021 was outstanding (March 2023) from the Youth Services and Technical Education Department (Grant No 34).

During the exit conference (April 2024), the Finance Department stated that the concerned line departments are being directed to ensure submission of UCs in a time-bound manner.

4.5 Abstract Contingent bills

The Government of UT of J&K has not revised codal provisions for drawal of Abstract Contingent (AC) bills and settlement thereof. However, Financial Code Volume-I (Para 7.18) of the erstwhile State of J&K envisages that when it is considered necessary to draw money from the Treasury for contingent expenditure of which vouchers cannot be readily obtained before payment, Drawing and Disbursing Officers (DDOs) are authorised to draw sums of money through AC bills. In terms of the erstwhile State of Jammu and Kashmir (pre re-organisation) Financial Code para 7.10, DDOs are required to present Detailed Countersigned Contingent (DCC) bills containing vouchers in

support of final expenditure within two months from the date on which the advance was drawn. The year-wise position of AC bills is shown below.

Table 4.6(A): Year-wise position of AC bills of UT of Jammu and Kashmir

Year	No of unadjusted AC bills	Amount *(₹ in crore)*
2019-20 (from 31.10.2019 onwards)	50	294.25
2020-21	267	4,611.37
2021-22	718	5,748.00
2022-23 (01.02.2022 to 31.01.2023)	554	3,538.20
Total	**1,589**	**14,191.82**

Table 4.6(B): Year-wise position of DCC bills submission against AC bills

(₹ in crore)

Year	Opening balance		Addition		Clearance		Closing balance	
	No.	Amount	No.	Amount	No.	Amount	No.	Amount
31/10/2019 to 31/01/2020	0	0	51	339.68	0	0	51	339.68
2020-21	51	339.68	333	5,059.58	30	131.55	354	5,267.71
2021-22	354	5,267.71	830	6,505.65	45	325.33	1,139	11,448.03
2022-23 (upto 31/01/2023)	1,139	11,448.03	577	3,544.42	127	800.63	1,589	14,191.82

As evident from the above table, the number of AC bills cleared was less than the number of new AC bills drawn during the respective periods. This resulted in increase in the number of unadjusted AC bills, resulting in a total of 1,589 bills amounting to ₹14,191.82 crore as on 31 March 2023.

DCC bills in respect of 1,877 AC bills amounting to ₹5,583.15 crore drawn upto 30 October 2019 by the erstwhile State of Jammu and Kashmir were awaited as on 31 March 2023.

Table 4.6 (C): Year-wise position of AC bills of the erstwhile State of Jammu and Kashmir

Year	No of unadjusted AC Bills	Amount *(₹ in crore)*
2004-05	10	0.86
2005-06	64	31.32
2006-07	64	17.20
2007-08	115	29.19
2008-09	40	17.95
2009-10	33	27.62
2010-11	64	21.56
2011-12	87	24.50
2012-13	178	77.48
2013-14	322	203.03
2014-15	400	308.92
2015-16	84	147.56
2016-17	9	4.06
2017-18	78	347.18
2018-19	207	2,205.04
2019-20 (upto 31.10.2019)	122	2,119.68
Total	**1,877**	**5,583.15**

The bifurcation of these outstanding AC bills is yet to be done between the successor Union Territories viz., Union Territory of Jammu and Kashmir and Union Territory of Ladakh. More than 82 *per cent* of DCC bills are awaited from seven departments as shown in **Table 4.7**.

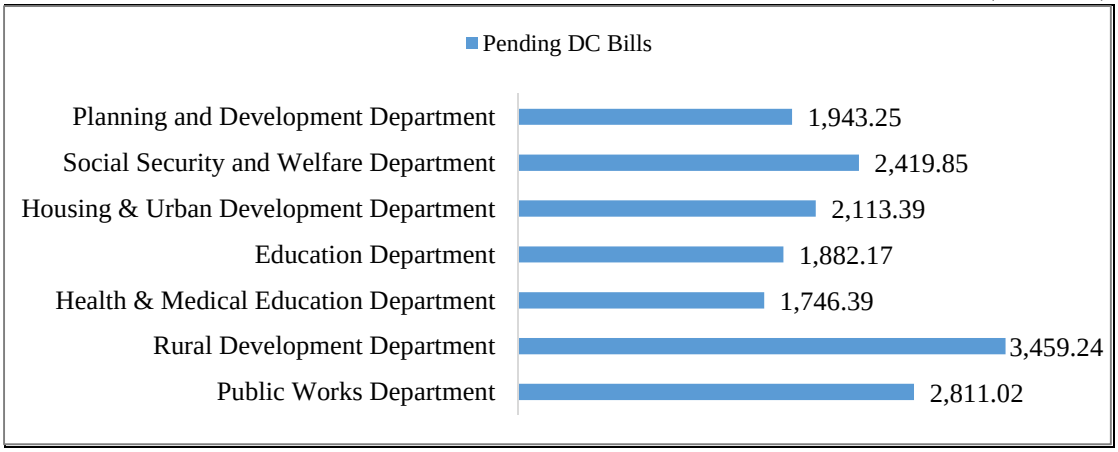
Table 4.7: DC bills awaited from Departments of UT/Erstwhile State of Jammu and Kashmir

Sl. No	Name of the Department	Amount Outstanding *(₹ in crore)*	Percentage of total outstanding amount of ₹19,774.97 crore as on 31 March 2023
1	Rural Development	3,459.24	17.49
2	Public Works	2,811.02	14.22
3	Social Security and Welfare	2,419.85	12.24
4	Housing and Urban Development	2,113.39	10.69
5	Planning and Development	1,943.25	9.83
6	Education	1,882.17	9.52
7	Health and Medical Education	1,746.39	8.83

Source: Finance Accounts and information from A&E Office.

Chart 4.2: DCC Bills pending in respect of Major Departments of UT/ Erstwhile State of Jammu and Kashmir

(₹ in crore)



Source: Finance Accounts and information from A&E office.

Further, 384 AC bills amounting to ₹3,310.85 crore were drawn during the year 2022-23, out of which 145 AC bills amounting to ₹709.58 crore (21.43 *per cent*) were drawn in March 2023. Expenditure against AC bills in March indicates that the drawals were primarily to exhaust the budget provisions and reveals inadequate budgetary control.

A comprehensive audit of two grants/ departments, i.e, Culture Department and Youth Services and Technical Education Department was conducted. It was noticed that DCC bills for an amount of ₹24.98 crore was outstanding in respect of advance drawals made by Directorate of Youth Services and Sports (₹1.24 crore), Technical Education Department (₹22.49 crore) and Directorate of Libraries & Research (₹1.25 crore).

During the exit conference (April 2024), the Finance Department stated that the concerned line departments are being directed to ensure submission of DC bills in a

time-bound manner. It was also assured that all the departments will be urged to expedite the submission of DC bills to Principal Accountant General (A&E) office.

4.6 Indiscriminate use of Minor Head-800

Minor Head-800 relating to Other Receipts and Other Expenditure is intended to be operated only when the appropriate minor head has not been provided in the accounts. Regular operation of Minor Head-800 is to be discouraged since it renders the accounts opaque. Classification of large amounts under the omnibus Minor Head 800 affects transparency in financial reporting and distorts proper analysis of allocative priorities and quality of expenditure.

During the year 2022-23, ₹5,585.14 crore (including revenue receipts of ₹3,307.54 crore representing Sale of Power and Misc. Power Receipts under Major Head-0801) under 34 Revenue Major Heads of Accounts constituting 8.10 *per cent* of the total revenue receipts of ₹68,975.95 crore, was recorded under the Minor Head-800-'Other Receipts'.

Similarly, expenditure of ₹3,482.97 crore under 37 Major Heads of Accounts constituting 4.72 *per cent* of total Revenue and Capital Expenditure of ₹73,773.12 crore was classified under Minor Head- 800-'Other Expenditure'.

Instances where a substantial proportion (50 *per cent* or more/ significant amount) of the receipts and expenditure under a Major Head was classified/ booked under the Minor Head-800-Other Receipts and Other Expenditure are shown in ***Appendix 4.2*** and ***Appendix 4.3***.

The Government may consider depicting the amounts received and expenditure incurred under various schemes distinctly, instead of clubbing the receipts and expenditure of major schemes under the Minor Head 800-Other Expenditure and 800-Other Receipts, for better clarity in Accounts.

The Finance Department stated (April 2024) that over the last few years, the use of Minor Head-800 has been discouraged and appropriate Minor Head is incorporated in the Budget classification. But sometimes there is difficulty in avoiding Minor Head-800, as appropriate Minor Head is not provided in the list of Major and Minor Head of Accounts. However, the observation has been noted and steps will be taken to minimise the use of Minor Head-800 (other expenditure). Further, during the exit conference (April 2024), the Finance Department intimated that there is a decreasing trend in booking of expenditure/ revenue under Minor Head 800.

Issues related to measurement.

4.7 Outstanding balance under Major Suspense and DDR heads

The Finance Accounts reflect the net balances under Suspense and Remittance Heads. The outstanding balances under these heads are worked out by aggregating the outstanding debit and credit balances separately under various heads. Significant suspense items have been shown as gross debit and credit balances for 2022-23 in **Table 4.8**.

Table 4.8: Balances under Suspense and Remittances

Minor Head	2020-21			2021-22			2022-23		
	(Dr)	(Cr)	Net (Dr/ Cr.)	(Dr)	(Cr)	Net (Dr/ Cr.)	(Dr)	(Cr)	Net (Dr/ Cr.)
									(₹ in crore)
8658- Suspense Account-									
101-PAO Suspense	56.67	0.01	56.66 (Dr.)	107.20	0.01	107.19 (Dr.)	152.48	0.24	152.24 (Dr)
102-Suspense Account (Civil)	47.97	2.44	45.55 (Dr.)	51.59	20.07	31.52 (Dr.)	7.64	194.61	186.97 (Cr)
109-RBI Suspense (Hqrs)	0.16	0.05	0.11 (Dr.)	0.09	0.40	0.31 (Cr.)	0.08	0.18	0.10 (Cr)
110- RBI Suspense (Central Accounts)	0.91	0.08	0.83 (Dr.)	0.67	0.18	0.49 (Dr.)	0.92	0.10	0.82 (Dr)

123- All India Service officers Group Insurance Scheme	-	-	-	0.88	-	0.88 (Dr.)	0.87	-	0.87 (Dr)
139-GST- Tax Deducted at Source Suspense	1.02	5.15	4.13 (Cr.)	0.72	5.16	4.44 (Cr.)	-	4.96	4.96 (Cr)
8782- Cash Remittance and Adjustments between officers rendering accounts to same Accountant General/ Accounts Officers									
110-Misc Remittances	-	632.57	632.57 (Cr.)	689.07	-	689.07 (Dr.)	689.12	-	689.12 (Dr)
8793- Inter State Suspense Account	-	1.93	1.93 (Cr.)	9.29	0.04	9.25 (Dr.)	0.02	1.47	1.45 (Cr)

Source: Finance Accounts.

There was also a net credit balance of ₹2,114.33 crore {₹733.16 crore (Debit) under Suspense and ₹2,847.49 crore (Credit) under Remittances} at the end of 30 October 2019 (pre re-organisation) relating to the erstwhile State of Jammu and Kashmir under Suspense and Remittance Heads which is yet to be apportioned between the successor Union Territory of Jammu & Kashmir and Union Territory of Ladakh. Non-clearance of outstanding balances under these Heads affects the accuracy of receipt/ expenditure figures and balances under different heads of Accounts (which are carried forward from year to year) of the Government of Union Territory.

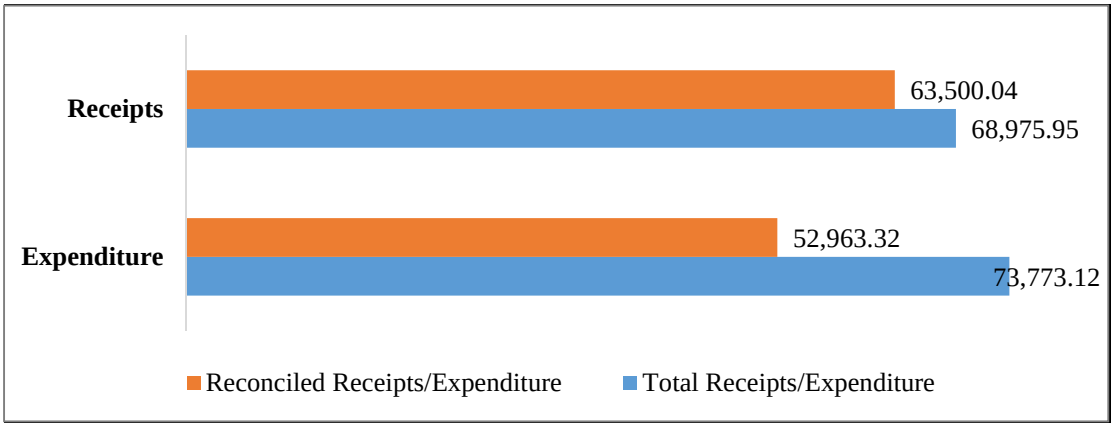
4.8 Non-reconciliation of Departmental figures

To enable Controlling Officers of the Departments to exercise effective control over spending to keep it within the budget grants and to ensure accuracy of their accounts, the receipts and expenditure during the financial year recorded in their books are to be reconciled by them every month with that recorded in the books of the Accountant General (A&E). Reconciliation and verification of figures is an important tool of financial management. Failure to exercise/ adhere to the codal provisions and executive instructions in this regard not only results in misclassification and incorrect booking of

receipts and expenditure in the accounts, but also defeats the very objective of budgetary process.

Chart 4.3: Status of reconciliation during period 2022-23

(₹ in crore)



Source: Finance Accounts.

During the year 2022-23, receipts amounting to ₹63,500.04 crore (92.06 *per cent* of total receipts of ₹68,975.95 crore) and expenditure amounting to ₹52,963.32 crore (71.79 *per cent* of total expenditure of ₹73,773.12 crore) were reconciled by the Government of Union Territory of Jammu and Kashmir.

In comparison, receipts amounting to ₹53,275.15 crore (89.93 *per cent* of total receipts of ₹59,238.50 crore) and expenditure amounting to ₹49,058.57 crore (69.77 *per cent* of total expenditure of ₹70,316.36 crore) were reconciled by the Government of Union Territory of Jammu and Kashmir with the Office of the Principal Accountant General (A&E) during 2021-22.

The Finance Department stated (April 2024) that since the accounts for the year 2022-23 stand closed, as such reconciliation for accounts of the said year is not permissible. However, Director Finance/Financial Advisors/Chief Accounts Officers of Administrative Departments have been instructed to conduct the reconciliation for accounts of 2023-24 before close of UT Accounts by the Principal Accountant General (A&E).

4.9 Reconciliation of Cash Balances

The Cash balance as on 31 March 2023 as per the records of the Principal Accountant General (A&E) was ₹1,448.31 crore (Debit) and that reported by the Reserve Bank of India (RBI) [as worked out by Principal Accountant General (A&E)] was ₹1,445.66 crore (Credit). There was a net difference of ₹2.65 crore (Debit), mainly due to non-reconciliation by the Government of Union Territory of Jammu and Kashmir with RBI/ Agency Bank. The difference is under reconciliation.

There was also a net difference of ₹83.32 crore (Credit) between RBI and Principal Accountant General's figures as on 30 October 2019 which is yet to be reconciled and apportioned between the Union Territory of Jammu and Kashmir and Union Territory of Ladakh.

The Finance Department stated (April 2024) that the difference shown in the report is sorted out by the Treasury Officers/ RBI and Principal Accountant General (A&E) office as a routine on Verified Date-wise Monthly Statements (VDMS).

During the exit conference (April 2024), the Department intimated that efforts will also be made to reduce the suspense balances and carry out the reconciliation of expenditure, receipts and cash balances.

Issues related to disclosure

4.10 Compliance with Accounting Standards

As per Section 71 of the Jammu and Kashmir Re-organisation Act 2019, the Lieutenant Governor may, on the advice of the Comptroller and Auditor General of India, prescribe the form of accounts of the Union Territory of Jammu and Kashmir. Further, as per Article 150 of the Constitution of India, the President of India, on the advice of the Comptroller and Auditor General of India, has so far notified three Indian Government Accounting Standards (IGAS). Compliance to these Accounting Standards by the Government of Union Territory of Jammu and Kashmir in 2022-23 and deficiencies therein are given in **Table 4.9**.

Table 4.9: Compliance to Accounting Standards

Sl. No.	Accounting Standards	Essence of IGAS	Compliance by UT Government	Impact of deficiency
1	**IGAS-1:** *Guarantees given by the Government - Disclosure requirements.*	To ensure uniform and complete disclosure of such guarantees.	Complied (Statements 9 and 20 of Finance Accounts)	There is no impact.
2	**IGAS-2:** *Accounting and Classification of Grants-in- Aid*	To prescribe the principles for accounting and classification of Grants-in-aid in the Financial Statements of Government both as a grantor as well as a grantee.	Not complied (Statement 10 of Finance Accounts)	(i) Certain Grants-in-Aid to be classified under Revenue Section have been classified under Capital Section. (ii) Information has not been furnished in respect of Grants-in-aid given in kind by the UT Government.
3	**IGAS-3:** *Loans and Advances made by Government*	To ensure adequate disclosure on loans and advances made by the Government consistent with best international practices.	Not complied (Statement 7 and 18 of Finance Accounts)	The closing balances have not been reconciled by the Loanee Entities/ Government of UT. The Government has not furnished figures in respect of certain loans and advances for which they maintain detailed accounts.

(*Source: Finance Accounts*)

4.11 Submission of Accounts/Separate Audit Reports of Autonomous Bodies

Certification audit of accounts of Autonomous Bodies (ABs) set up by the Government is conducted under Sections 19(2), 19(3) and 20(1) of Comptroller and Auditor General

of India (DPC) Act, 1971. The ABs coming under the audit purview as per the above Sections are required to submit the annual accounts to audit. In respect of eight Autonomous Bodies which were to render annual accounts to C&AG, 33 accounts were not rendered for periods ranging between 2 to 13 years as tabulated in **Table 4.10**.

Table 4.10: Arrears of accounts by Autonomous Bodies as on 31 March 2023

Sl. No.	Name of Body/Authority	Accounts pending (years)
1	Compensatory Afforestation Management and Planning Authority (CAMPA)	2009-10 to 2021-22
2	Sher-e-Kashmir University of Agricultural Sciences and Technology (SKUAST), Srinagar Kashmir	2020-21 and 2021-22
3	Sher-e-Kashmir University of Agricultural Sciences and Technology (SKUAST), Jammu	2020-21 and 2021-22
4	JK Employee Provident Funds Organisation (EPFO)	2015-16 to 2018-19[1]
5	Jammu & Kashmir Housing Board	2019-20 to 2021-22[2]
6	J&K Khadi and Village Industries Board (KVIB)	2020-21 and 2021-22
7	J&K Building and Other Construction Workers Welfare Board (BOCWWB)	2019-20 to 2021-22
8	J&K State Legal Services Authority (SLSA)	2018-19 to 2021-22

Compensatory Afforestation Management and Planning Authority (CAMPA) has submitted its accounts for audit for the period up to 2008-09 and accounts for the last 13 years from 2009-10 are pending. JK Employee Provident Funds Organisation (EPFO) has not submitted its accounts for audit for the years 2015-16 to 2018-19.

Non-submission/ delay in submission of accounts by these Bodies receiving substantial funding from the budget is a serious financial irregularity persisting for years. In view of this non-compliance, the audited accounts of these Statutory Bodies have not so far been presented to the legislature, as required under the Statutes under which these bodies were created. Delay/ arrears in finalisation of accounts carries the risk of financial irregularities going undetected and entails possibility of fraud and misappropriation. This has also deprived the legislature/ Government of the opportunity to get feedback on their activities and financial performance.

The Government may impress upon these Autonomous Bodies the need for timely preparation and submission of accounts.

During the exit conference (April 2024), the Finance Department stated that there are certain constraints being faced in finalisation of the old accounts of JK EPFO due to not constituting the Board of Trustees. However, the submission of accounts will be ensured in case of other autonomous bodies.

[1] The accounts for the years 2015-16 to 2018-19 were received unapproved from the Organisation.
[2] Accounts from 2015-16 to 2018-19 are under audit process.

4.12 Departmental Commercial Undertakings/Corporations/Companies

The departmental undertakings of certain Government departments performing activities of commercial nature are required to prepare *proforma* accounts in the prescribed format annually. The finalised accounts of departmentally managed commercial and quasi-commercial undertakings reflect their overall financial health and efficiency in conducting their business. In the absence of timely finalisation of accounts, the investment of the Government, corrective measures, if any required, for ensuring accountability and improving efficiency cannot be taken on time. Besides, the delay is fraught with the risk of fraud and leakage of public money.

The Heads of the Government Departments are required to ensure that the undertakings prepare accounts and submit the same to the Pr. Accountant General (Audit), Jammu and Kashmir for audit, within a specified time frame. The Government has two such departmental undertakings: (a) Government Printing Presses at Srinagar and Jammu and (b) Public Distribution System (PDS) under the Consumer Affairs and Public Distribution Department. The *proforma* accounts of the commercial operations of both these undertakings are in arrears. The two Government Presses have not submitted their *proforma* accounts from 1968-69 to 2021-22. The *proforma* accounts have not been submitted by Food Civil Supplies & Consumer Affairs Department, Kashmir from 1975-76 to 2021-22 and Food Civil Supplies & Consumer Affairs Department, Jammu from 1973-74 to 1997-98 and 1999-2000 to 2021-22.

The status of audit of Government Companies/ Corporations is shown in ***Appendix 4.4***. Accounts in respect of only four Companies were audited up to 2021-22. In respect of 33 Companies/ Corporations, audit of 145 accounts was in arrears for period ranging between one to eleven years. In absence of timely finalisation of accounts, results of the investment of the Government remained outside the oversight of the legislature. Consequently, corrective measures, if any, required for ensuring accountability and improving efficiency would not be taken in time. The Government may ensure that the departmental undertakings prepare their accounts and submit the same to the Principal Accountant General (Audit) within a specified time frame.

During the exit conference (April 2024), the Finance Department pointed out various constraints in finalisation of accounts of certain PSUs. However, they assured that all the PSUs shall be directed to comply with the statutory provisions regarding submission of accounts.

4.13 Non-submission of details of Grants/ Loans given to Bodies and Authorities

In order to identify institutions/organisations which attract audit under Sections 14 and 15 of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 (C&AG's DPC Act), the Government/HODs are required to furnish to Audit every year:

- detailed information about the financial assistance given to various institutions,
- the purpose for which the assistance is granted, and

- total expenditure of the institutions.

Further, Regulations on Audit and Accounts (Amendments) 2020 provides that Governments and HODs who sanction grants and / or loans to bodies or authorities shall furnish to Audit by the end of July every year a statement of such bodies and authorities to which grants and / or loans aggregating ₹10 lakh or more were paid during the preceding year indicating (a) the amount of assistance, (b) the purpose for which the assistance was sanctioned and (c) the total expenditure of the body or authority. The Government, however, did not furnish the above-mentioned information regularly, which is in violation of Regulations on Audit and Accounts (Amendments) 2020. In absence of above information audit is facing difficulties in identifying the bodies /authorities attracting audit under Sections 14 and 15 of C&AG's DPC Act.

4.14 Timeliness and Quality of Accounts

The accounts of receipts and expenditure of the Government of Union Territory of Jammu and Kashmir have been compiled based on the initial accounts rendered by 122 Treasuries (including 20 District Treasuries and one virtual Treasury), and Advices of the Reserve Bank of India. As the Government of Jammu and Kashmir had already switched over to Civil Accounting System for Works and Forest Divisions (in previous years), no monthly accounts were due from these Divisions during 2022-23. No account was excluded at the end of the year 2022-23.

Other Issues

4.15 Follow up action on State/ UT Finances Audit Report

To ensure accountability of executives to the issues dealt with in various Audit Reports, the J&K Government (Finance Department) issued instructions in June 1997 to the administrative departments to furnish to Public Accounts Committee (PAC)/ Committee on Public Undertaking (COPU), *suo-motu* Action Taken Notes (ATNs) on all the audit paragraphs featuring in the Audit Reports, irrespective of whether these were taken up for discussion by these Committees or not. These ATNs are to be submitted to these Committees duly vetted by the Principal Accountant General (Audit), within a period of three months from the date of presentation of Audit Reports in the Legislature.

The Report of the Comptroller and Auditor General of India on State Finances is being prepared since 2008-09 and Reports till the year 2015-16 have been tabled in the State Legislature. The State/UT has been under Governor's/ President rule since 20 June 2018 and as such the Report on State Finances /State Finances Audit Report for the years 2016-17, 2017-18, 2018-19, 1 April 2019 to 30 October 2019 and UT Finance Audit Report for the period 31 October 2019 to 31 March 2020, 2020-21 and 2021-22 have been tabled in the Parliament along with the other Audit Reports. Action Taken Notes on these Reports were not furnished by the State /UT Governments.

4.16 Conclusion

- Non-submission of 3,733 UCs amounting to ₹14,698.75 crore means that the authorities have not explained as to how funds were spent over the years. There is also no assurance that the intended objectives of providing these funds have been achieved.
- Non-submission of Detailed Countersigned Bills of advances drawn through Abstract Contingent Bills increased the possibility of wastage/ misappropriation of the sums drawn.
- Non-submission/ delay in submission of accounts by the bodies receiving substantial funding from the Government is a serious financial irregularity. It deprived the Legislature of the opportunity to get feedback on activities and financial performance of these bodies.
- Significant amount of expenditure and receipts booked under Minor Head-800-Other Expenditure and 800-Other Receipts under various Major Heads affects transparency in the accounts.

4.17 Recommendations

- Timely submission of utilisation certificates needs to be ensured by the department in respect of grants released for specific purpose.
- Steps need to be taken to ensure adjustment of the advances drawn on abstract contingent bills within the stipulated period as required under the extant rules.
- The issue of timely preparation and submission of accounts may be taken up with the concerned autonomous bodies.
- Operation of omnibus Minor Head-800 needs to be discouraged.

During the exit conference (April 2024), the Finance Department accepted the audit recommendations.

Chapter-V

Financial Performance of Public Sector Undertakings

CHAPTER-V

FINANCIAL PERFORMANCE OF PUBLIC SECTOR UNDERTAKINGS

This chapter discusses the financial performance of Government of Jammu & Kashmir (GoJ&K) owned companies, Statutory Corporations and Government Controlled Other Companies (GCOCs). Impact of significant comments issued after conducting supplementary audit of the financial statements of these Public Sector Undertakings (PSUs) by the Comptroller and Auditor General (CAG) of India for the year 2022-23 (or of earlier years which were finalised during the current year) has also been discussed in the Chapter.

5.1 Definition of Government Company

A Government Company is defined in Section 2(45) of the Companies Act, 2013 as a Company in which not less than 51 *per cent* of the paid-up share capital is held by Central Government, or by any State Government or Governments, or partly by the State Government and partly by one or more State Governments and includes a Company which is a subsidiary of a Government Company.

Besides, any other Company[1] owned or controlled directly or indirectly, by the Central Government, or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments are referred to in this Report as Government Controlled Other Companies.

5.2 Mandate of Audit

Audit of Government companies and Government controlled other companies is conducted by the CAG under the provisions of Section 143(5) to 143(7) of the Companies Act, 2013 read with Section 19 of the CAG's (Duties, Powers and Conditions of Service) Act, 1971 and the Regulations made thereunder. Under the Companies Act, 2013, the CAG appoints Chartered Accountants as Statutory Auditors for Companies and gives directions on the manner in which the accounts are to be audited. In addition, CAG has right to conduct a supplementary audit. The statutes governing Statutory Corporations require their accounts to be audited by CAG.

5.3 PSUs and their contribution to the GSDP of J&K

PSUs consist of Government Companies, Government owned Other Companies and Statutory corporations. PSUs are established to carry out activities of commercial nature keeping in view the welfare of the people and occupy an important place in the economy of J&K. As on 31 March 2023, there were 42 PSUs in Jammu & Kashmir under the audit jurisdiction of the CAG. These included 39 Government Companies, two Statutory Corporations and one Government Controlled Other Company[2] (***Appendix 5.1)***.

---

[1] Companies (Removal of Difficulties) Seventh Order, 2014 issued by Ministry of Corporate Affairs vide Gazette Notification dated 4 September 2014.

[2] Chenab Valley Power Projects (Private) Limited (CVPPPL), a joint venture of Jammu and Kashmir Power Development Corporation (JKPDC), National Hydroelectric Power Corporation (NHPC) and Power Trading Corporation (PTC).

The 39 Government Companies included six[3] inactive companies (including four under liquidation). The Government of Jammu and Kashmir had investment of ₹57.42 crore in these inactive companies (Capital - ₹56.59 crore and Long Term Loans - ₹0.83 crore). This is a critical area and the Government may like to take an early decision to wind up the inactive PSUs as they do not contribute to the economic growth.

One Company, Jammu & Kashmir Bank Limited, is listed on the National Stock Exchange and Bombay Stock Exchange.

The ratio of turnover of the PSUs to the Gross State Domestic Product (GSDP) of J&K indicates the contribution of their activities in the economy of J&K. The details of turnover of PSUs are given in ***Appendix 5.2***.

Table 5.1 provides the details of turnover of the PSUs and GSDP of J&K for a period of three years ending March 2023.

Table 5.1: Details of turnover of PSUs *vis-à-vis* GSDP of J&K

(₹ in crore)

Particulars	2020-21	2021-22	2022-23
Turnover as per latest finalised accounts	10,590.68	10,515.82	12,084.74
GSDP of J&K	1,67,651.77	1,99,917.42	2,27,927.30
Percentage of Turnover to GSDP of J&K	6.32	5.26	5.30

Source: GSDP figures at Current prices as per Ministry of Statistics and Programme Implementation (MOSPI), GoI website and figures of turnover of PSUs as per their latest finalized accounts.

The contribution of PSUs to GSDP reduced from 6.32 *per cent* in 2020-21 to 5.30 *per cent* in 2022-23. The major contributors to turnover of PSUs in 2022-23 were Jammu & Kashmir Bank Limited (₹9,355.11 crore), Jammu & Kashmir Power Development Corporation Limited (₹1,037.85 crore) and Jammu & Kashmir Small Scale Industries Development Corporation Limited (₹629.36 crore).

5.4 Investment in PSUs and Budgetary support

5.4.1 Equity holding and Loans given

Details of investment made in 42 PSUs in the form of equity and long term loans upto 31 March 2023 are given in ***Appendix 5.3***. Sector wise summary of this investment is given in **Table 5.2**.

Table 5.2: Sector - wise investment of Government of J&K in PSUs

(₹ in crore)

Name of Sector	Number of PSUs	Investment				Total Investment	Total Investment of GoJ&K
		Equity		Long Term Loans			
		Total	GoJ&K	Total	GoJ&K		
Power Sector PSUs	6	6,510.62	2,593.54	23,369.01	0	29,879.63	2,593.54
Non power Sector PSUs	36	1,296.32	1,109.48	7,340.72	1,833.94	8,637.04	2,943.42
Total	**42**	**7,806.94**	**3,703.02**	**30,709.73**	**1,833.94**	**38,516.67**	**5,536.96**

(Source: Compiled based on information received from PSUs)

[3] (1) Tawi Scooters Limited (2) Himalayan Wool Combers Limited and (3) Jammu &Kashmir Handloom Handicrafts Raw Material Supplies Organisation Limited (A Subsidiary of Himalayan Wool Combers Limited) (4) Jammu & Kashmir Road Development Corporation Limited (5) Jammu & Kashmir International Trade Centre and (6) Jammu & Kashmir Asset Reconstruction Limited

The thrust of PSU investment was on the power sector. The power sector had attracted 77.58 *per cent* (₹29,879.63 crore) of total investment of ₹38,516.67 crore. The GoJ&K had invested 46.84 *per cent* (₹2,593.54 crore) of its total investment of ₹5,536.96 crore in power sector PSUs.

5.4.2 Subsidy and Grant to PSUs

The GoJ&K provides financial support to the PSUs in various forms through the annual budget as equity, loans, grants/ subsidies, loans written off and loans converted into equity.

Summarised details of budgetary outgo towards equity, loans, grants/ subsidies, loans written off and loans converted into equity in respect of PSUs for the last three years ending March 2023 are given in **Table 5.3**.

Table 5.3: Details regarding budgetary support by GoJ&K to PSUs during the period 2020-21 to 2022-23

(₹ in crore)

Sl. No.	Particulars	2020-21		2021-22		2022-23	
		Number of PSUs*	Amount	Number of PSUs*	Amount	Number of PSUs*	Amount
1.	Equity Capital outgo	7	83.47	3	554.32#	3	151.20
2.	Loans given	7	51.85	9	73.27	8	23.05
3.	Grants/Subsidy provided	11	3,016.38	14	2,845.52	15	1,995.48
	Total outgo		**3,151.70**		**3,473.11**		**2,169.73**
4.	Loan repayment written off	-	-	-	-	-	-
5.	Loans converted into equity	2	152.42	-	-	1	4.86
6.	Guarantees issued	-	-	3	5,404.59	5	12,926.34
7.	Outstanding Guarantee Commitment	5	7,698.97	7	12,522.72	7	25,086.73

(Source: Compiled based on information received from PSUs)

** Number of PSUs represents those PSUs which have received outgo from budget under one or more heads i.e. equity, loans and grants/ subsidies.*

 # This includes ₹500 crore in respect of J&K Bank, 16,76,72,702 equity shares of ₹one (face value) each issued to GoJ&K on preferential basis at the issue price of ₹29.82 per share (including share premium of ₹28.82 per share)

During the year 2022-23, assistance in the form of grant was provided to Jammu & Kashmir Infrastructure Development Finance Corporation (₹238.77 crore), Srinagar Smart City Limited (₹127.04 crore), Jammu Smart City Limited (₹107.01 crore) and Jammu and Kashmir State Industrial Development Corporation Limited (₹42.05 crore). The overall decrease in assistance during 2022-23 was mainly due to lesser amount of grant/subsidy given to two Power companies viz., Jammu & Kashmir Power Development Corporation Limited (from ₹600.78 crore in 2021-22 to Nil in 2022-23) and Jammu Power Distribution Corporation Limited (from ₹1,058.08 crore in 2021-22 to ₹659.99 crore in 2022-23.

The major guarantee commitments outstanding at the end of 2022-23 were in respect of Jammu & Kashmir Power Corporation Limited (₹21,613.62[4] crore), Jammu & Kashmir Infrastructure Development Finance Corporation (₹2,297.90 crore), Jammu & Kashmir Power Development Corporation Limited (₹899.99 crore), Jammu & Kashmir SC, ST and Backward Classes Development Corporation Limited (₹104.38 crore) and Jammu & Kashmir Women's Development Corporation Limited (₹108.23 crore).

5.4.3 Reconciliation with the Finance Accounts of the Government of Jammu and Kashmir

The figures in respect of equity, loans and guarantees outstanding as per records of PSUs should agree with that of the figures appearing in the Finance Accounts of the GoJ&K. In case the figures do not agree, the concerned PSUs and the Finance Department should carry out reconciliation of the differences. The mismatch between the figures furnished by the PSUs with those depicted in the Finance Account, as on 31 March 2023 is given in **Table 5.4** below:

Table 5.4: Equity and Loans outstanding as per Finance Accounts *vis-à-vis* records of PSUs upto March 2023

(₹ in crore)

Outstanding in respect of	Amount as per Finance Accounts	Amount as per records[5] of PSU	Difference
Share capital	3,034.27	3,080.09	45.82
Outstanding Loans	891.74	1,996.48	1,104.74
Guarantees	903.42	903.42	0

(Source: Compiled based on information received from PSUs and Finance Accounts)

The differences were observed in respect of seven PSUs (***Appendix 5.4)***. The issue of reconciliation of differences was also taken up with the PSUs and the Departments from time to time. Major difference in balances was observed in Jammu & Kashmir Power Development Corporation (₹646.85 crore), Jammu & Kashmir Minerals Limited (₹167.92 crore) and Jammu & Kashmir Road Transport Corporation (₹302.09 crore) relating to outstanding loans.

It is recommended that the GoJ&K and the respective PSUs should reconcile the differences in accounts in a time-bound manner**.**

5.4.4 Adequacy of assets to meet loan liabilities in PSUs

Ratio of total debt to total assets is one of the methods used to determine whether a company can stay solvent. To be considered solvent, the value of that entity's assets must be greater than the sum of its loans/debts. The coverage of long term loans by value of total assets in 20 PSUs which had outstanding loans as per their latest finalised accounts as of 30 September 2023 is given in **Table 5.5**:

[4] For loans raised from REC Limited and Power Finance Corporation Limited
[5] Unaudited current figures up to March 2023.

Table 5.5: Long term loans with total assets

Nature of PSU	Positive Coverage				Negative Coverage			
	No. Of PSUs	Long Term Loans	Assets Coverage	Percentage of Assets to Loans	No. of PSUs	Long Term Loans	Assets	Percentage of Assets to Loans
	(₹ in crore)				*(₹ in crore)*			
Statutory Corporation	2	727.40	1,656.54	227.73	0	0	0	0
Government Company	14	8,043.96	1,68,693.68	2,097.15	4	719.08	231.81	32.24
Total	**16**	**8,771.36**	**1,70,350.22**	**1,942.12**	**4**	**719.08**	**231.81**	**32.24**

(Source: Latest finalised accounts of PSUs)

5.4.5 Market Capitalisation of equity investment in Government Companies

Market Capitalisation represents market value of shares of companies which are listed. As on 31 March 2023, there was only one PSU viz. Jammu & Kashmir Bank Limited, having a total paid-up equity capital of ₹103.15 crore[6]. It is listed on the National Stock Exchange and Bombay Stock Exchange. The majority (63.41 *per cent*) of paid-up equity of ₹103.15 crore of the Bank is held by the Government of Jammu & Kashmir and the remaining (36.59 *per cent*)[7] by Foreign Institutional Investors, Resident Individuals and others. The market value of shares of Jammu & Kashmir Bank Limited was ₹5,070.75[8] crore as on 31 March 2023 as compared to ₹3,013.22 crore as on 31 March 2022.

5.4.6 Disinvestment, restructuring and privatisation

During the year 2022-23, there was no case of disinvestment, restructuring and privatisation of PSUs.

5.5 Returns from PSUs

There were 11 PSUs that reported profit in their latest financial statements (***Appendix 5.5)***. The reported profit earned increased to ₹1,286.79 crore in 2022-23 from ₹566.10 crore in 2021-22.

The PSUs which contributed the most to profit (as per their finalised financial statements of the year 2022-23) were:

Table 5.6: SPSEs which contributed profit

Name of SPSE	Net profit (*₹ in crore*)	Percentage of profit to total SPSEs profit
Jammu & Kashmir Bank Limited	1,197.38	93.05
Chenab Valley Power Projects Private Limited	24.69	1.92
Total	**1,222.07**	

6 Includes ₹65.41 crore of GoJ&K

7 Indian Mutual Funds, Insurance Companies, Non-Resident Indian and Corporate Bodies

8 1031479861 shares @ ₹49.16 per share (closing price of one share on Bombay Stock Exchange).

The Principal Secretary Finance Department stated (May 2024) that the UT Government undertook a review of existing PSUs to streamline their functioning and improve profitability and quality of services. As a result, 11 PSUs have reported profits in their financial statements of 2022-23. Further, the UT Government is endeavouring to downscale/close the PSUs which are making losses consistently. The divestment of J&K Cements Limited was undertaken in 2022-23. The contention of the Government is, however, not borne out of facts as the 11 PSUs which have reported profits (***Appendix 5.5***) are as per the latest available finalised accounts as of 30 September 2023. Out of the 11 PSUs, only four accounts pertain to the year 2022-23 while the rest seven accounts are of earlier financial periods, some of which are as early as 2013-14, 2015-16 and 2016-17. In case of divestment of J&K Cements Limited, the Government initiated the process during 2022-23.

5.5.1 Dividend payout by PSUs

The Jammu & Kashmir Bank Limited is the only PSU which had declared/ paid dividend[9]. It paid dividend of 50 *per cent* on its paid up share capital for the year ending 31 March 2023.

5.6 Debt Servicing and legal compliances

5.6.1 Position of Long Term Loans of PSUs

The details of long term loans of PSUs during the period 2020-21 to 2022-23 are as follows:

Table 5.7: Details of Long Term Loans

(₹ in crore)

Year	Long term Loans at the end of the year		
	GoJ&K	Others	Total
2020-21	1,437.72	10,852.46	**12,290.18**
2021-22	1,539.42	16,621.43	**18,160.85**
2022-23	1,833.94	28,875.80	**30,709.73**

Long term loans of the PSUs increased to ₹30,709.73 crore as on 31 March 2023 from ₹12,290.18 crore as at the end of March 2021 mainly due to the long term loans of ₹4,309.59 crore and ₹2,372.77 crore availed by Jammu & Kashmir Power Corporation Limited (JKPCL) and Jammu & Kashmir Infrastructure Development Finance Corporation respectively during 2021-22 and ₹11,291.79 crore[10] and ₹424.92 crore availed by JKPCL and Chenab Valley Power Project (Pvt.) Limited (CVPPPL) respectively during 2022-23. The total long term loan extended by GoJ&K to PSUs increased from ₹1,437.72 crore at the end of March 2021 to ₹1,833.94 crore at the end of March 2023. In percentage terms, the share of GoJ&K loans to total long term loans declined from 11.70 to 5.97 *per cent.*

[9] Only those PSUs were considered that had submitted accounts for 2022-23.

[10] Special Long Term Transition Loan amounting to ₹2,0164.26 crore (Power Finance Corporation (PFC) Limited:₹5,100.00 crore and₹3,000.00 crore) and Rural Electrification Corporation (REC) Limited: ₹9,064.26 crore and ₹3,000.00 crore)sanctioned during the year 2022-23 in favour of Jammu & Kashmir Power Corporation Limited for clearing overdues on account of power purchased and transmission charges; out of which loan amounting to ₹5,443.58 crore (PFC Limited:₹1,960.02 crore and from REC Limited:₹3,483.56 crore) and ₹5,848.21 crore (PFC Limited:₹2993.74 crore and from REC Limited: ₹2,854.47 crore)has been availed during 2022-23 respectively.

5.6.2 Interest Coverage in PSUs

Interest Coverage Ratio (ICR) is used to determine the ability of a Company to pay interest on outstanding debt and is calculated by dividing a Company's Earnings Before Interest and Taxes (EBIT) by interest expenses of the same period. The lower the ratio, the lesser the ability of the Company to pay interest on debt. An ICR of below one indicates that the Company was not generating sufficient revenues to meet its expenses on interest.

The details of interest coverage ratio of PSUs, which had liability of loans from Government, banks and other financial institutions as per the latest finalised accounts during the period from 2020-21 to 2022-23 are given below in **Table 5.8**.

Table 5.8: Interest Coverage Ratio of PSUs

(₹ in crore)

Year	Interest	EBIT	Number of PSUs having liability of loans from Government and Banks and other financial institutions	Number of PSUs having interest coverage ratio	
				More than 1	Less than 1
2020-21	529.36	1,031.19	14	7	7
2021-22	535.22	1,104.64	14	7	7
2022-23	545.30	1,768.03	16	7[11]	9[12]

5.6.3 Age wise analysis of interest outstanding on Government Loans

As on 31 March 2023, interest amounting to ₹3,126.84 crore was outstanding on the long term loans of nine PSUs provided by GoJ&K. The age wise analysis of interest outstanding on Government loans in PSUs is depicted in **Table. 5.9**.

Table 5.9: Interest outstanding on Government Loans

(₹ in crore)

SI. No	Name of PSU	Outstanding Interest on GoJ&K Loan	Interest on GoJ&K loans outstanding for less than 1 year	Interest on GoJ&K loans outstanding for 1 to 3 years	Interest on GoJ&K loans outstanding for more than 3 years
1.	Jammu & Kashmir Minerals Limited	970.21	19.27	38.54	912.40
2,	Jammu & Kashmir Industries Limited	793.47	0	118.17	675.30
3.	Jammu & Kashmir Road Transport Corporation	1,101.95	61.59	123.18	917.18

5.7 Operating efficiencies of PSUs

5.7.1 Turnover

The details of turnover, total assets and capital employed[13], of all PSUs as per their latest finalised financial statements, during the three years 2020-21 to 2022-23 are given in **Table 5.10**.

Table 5.10: Turnover, total assets and capital employed during 2020-21to 2022-23

(₹ in crore)

Year	Turnover	Total assets	Capital employed
2020-21	10,590.64	1,36,643.45	5,865.24
2021-22	10,515.82	1,48,646.69	7,381.74
2022-23	12,084.74	1,74,475.64	9,048.71

(Source: Latest finalized accounts of the Companies)

The turnover recorded increased from ₹10,590.64 crore in 2020-21 to ₹12,084.74 crore in 2022-23. The total assets of PSUs recorded increase from ₹1,36,643.45 crore in 2020-21 to ₹1,74,475.64 crore in 2022-23. The assets had increased majorly in Jammu and Kashmir Bank Limited, Jammu & Kashmir Infrastructure Development Finance Corporation Pvt. Limited, Kashmir Power

[13] Capital Employed= Paid-up Capital + Free Reserves and Surplus + Long Term Loans - Accumulated Losses - Deferred Revenue Expenditure.

Distribution Corporation Limited and Jammu Power Distribution Corporation Limited. The Capital employed in the PSUs increased from ₹5,865.24 crore in 2020-21 to ₹9,048.71 crore in 2022-23.

5.7.2 Return on Investment in Listed PSU

Return on investment (ROI) is a performance metric to evaluate the efficiency of investment over time in comparison to alternate investment opportunities or a benchmark investment opportunity. Only one PSU, Jammu & Kashmir Bank Limited, is listed on the stock exchange. Calculation of ROI along with compound annual growth rate is given in ***Appendix 5.6***. The details of ROI during the last three years ending March 2023 are given in **Table 5.11**.

Table: 5.11 Return on Investment of Listed PSUs

(*in per cent*)

	2020-21	**2021-22**	**2022-23**
ROI[14]	243.81	291.95	395.17

The ROI increased from 243.81 *per cent* in 2020-21 to 395.17 *per cent* in 2022-23. The compounded annual growth rate improved from (-) 0.67 *per cent* in 2020-21 to 1.41 *per cent* in 2022-23.

5.7.3 Return on Capital Employed and Equity in Listed PSUs

The profitability of a company is traditionally assessed through return on equity and return on capital employed. Return on Capital Employed (ROCE)[15] is a financial ratio that measures the Company's profitability and the efficiency with which its capital is used and is calculated by dividing the Company's earnings before interest and taxes by capital employed. Return on Equity (ROE) [16] is a measure of performance calculated by dividing the net profit after tax by shareholders' funds.

Details of ROCE and ROE of Jammu & Kashmir Bank Limited, the only listed Company, is given in **Table 5.12**:

Table 5.12: ROCE and ROE of Listed PSU

(*In per cent*)

	2020-21	**2021-22**	**2022-23**
ROCE	15.50	14.56	24.07
ROE	21.00	20.47	37.95

[14] ROI= (Government's share of the Market Capitalisation of the Company as at 31 March of FY + Present Value of Dividend Receipts of the Government as at 31 March of FY + Present Value of Disinvestment Receipts of the Government as at 31 March of FY) – (Paid-up Equity of the Government as at Inception + Discounted Value of Equity infused by the Government as at Inception + Discounted Value of Subsidy/Grants infused for meeting Operational and Administrative Expenditure as at Inception)/ (Paid-up Equity of the Government as at Inception + Discounted Value of Equity infused by the Government as at Inception + Discounted Value of Subsidy/ Grants infused for meeting Operational and Administrative Expenditure as at Inception)/ Number of intervening annual periods

[15] ROCE = Earnings before Interest and Tax/ Capital Employed. Figures are as per the latest year for which accounts of the PSUs are finalised

[16] ROE=Profit after Tax/Share holders' Fund, Share holders' Fund = Paid up capital + Free Reserves and Surplus less Deferred Revenue Expenditure and Accumulated Losses

The ROCE and ROE was high due to high Profit After Tax earned by the Jammu & Kashmir Bank Limited.

The ROCE worked out at realised value[17] of investment in respect of Jammu & Kashmir Bank Limited is as follows:

Table 5.13: ROCE for Listed PSUs considering share premium

(*In per cent*)

2020-21	2021-22	2022-23
12.20	10.67	17.69

5.7.4 Return on Capital Employed and Equity of Non-Listed PSUs

The details of ROCE and ROE of non-listed PSUs[18] during the period from 2020-21 to 2022-23 are given in **Table 5.14**.

Table 5.14: Return on Capital Employed and Equity of non-listed PSUs

(₹ in crore)

Year	PBIT	PAT	Capital Employed	Shareholders Fund	RoCE	RoE
2020-21	437.75	-119.66	7,593.02	3,040.39	5.77	-3.94
2021-22	437.10	-126.04	8,337.07	2,818.82	5.24	-4.47
2022-23	310.75	-187.81	8,777.51	2,563.93	3.54	7.32

5.7.5 Rate of real return (RORR) of Government Investment in PSUs

In order to bring the historical cost of investment to its present value at the end of each year upto 31 March 2023, Present Value (PV) of money invested was computed where funds had been infused by GoJ&K as equity, interest free loan and interest free loan converted into equity. Grant/ subsidy given by the Government for operational and management expenses have not been considered as bifurcation of grant and subsidy for operational and management expenses and for other purpose was not available since inception of these companies till 31 March 2023.

The PV in these undertakings was computed on the following assumptions:

- Interest free loans have been considered as fund infusion. However, in case of repayment of loans by the PSUs, the PV was calculated on the reduced balances of interest free loans over the period.
- The average rate of interest on government borrowings for the concerned financial year was adopted as discount rate for arriving at Present Value since they represent the cost incurred by the Government towards investment of funds for the year.

[17] Investment including share premium
[18] Excluding CVPPPL as all its projects are under construction

- GoJ&K infused ₹5.00 crore as equity in JKPDCL. In addition to this, the GoJ&K also provided Plan funds since inception of the Company (1994-95) for creation of Capital Assets, which could not be bifurcated, has not been considered. Plan fund given to JKPDD and Assets transferred to JKPDC by GoJ&K, later converted into equity, has been added to the equity contribution in the year 2019-20.
- Jammu Power Distribution Company Limited (JPDCL), Kashmir Power Distribution Company Limited (KPDCL), Jammu and Kashmir Power Transmission Company Limited (JKPTCL) and Jammu and Kashmir Power Corporation Limited (JKPCL) started their operations with effect from 01 April 2020, hence, equity contribution was considered in the year 2020-21 for the purpose of PV calculation of GoJ&K investment.
- For the purpose of PV calculation of GoJ&K investment, the period from 2000-01 till 2022-23 has been taken for considering the investment of GoJ&K in PSUs.

The year- wise position of investment made by GoJ&K in PSUs and calculation of Net Present Value of the investment relating to those PSUs wherein the GoJ&K had made investment is indicated in ***Appendix 5.7***.

The historical cost of investment by GoJ&K in these PSUs at the end of 2022-23 increased to ₹3,958.65 crore[19] from ₹352.29 crore at the beginning of 1999-2000. Besides, GoJ&K made investment of ₹522 crore[20] in JKPDC in the shape of plan fund up to March 2022.

The PV of the investment infused by GoJ&K as on 31 March 2023 amounted to ₹8,345.92 crore. The net earnings of PSUs as per their latest finalised accounts was ₹1,034.26 crore[21].

[19] Opening balance:(₹352.29 crore) + Equity: (₹3,813.31 crore) + Interest free loans: (₹162.84 crore) less Interest free loan converted into equity:(₹17.5 crore)

[20] This investment was made from 2018-19 to 2021-22 and investment before this period had been converted into equity of GoJ&K

[21] Includes earnings of JKB Financial Services Limited (₹1.21 crore), CVPPPL (₹24.69 crore)

An analysis of the earnings *vis-à-vis* investments in respect of 31[22] PSUs where funds had been infused by GoJ&K was carried out to assess the profitability of these PSUs which is given in **Table 5.15**.

Table 5.15: Real Rate of Return

(₹ in crore)

Financial year	PV of total investment at the beginning of the year	Total investment during the year	Total investment at the end of the year	Average rate of interest	PV of total investment at the end of the year	Total Earnings[23]	RoRR
2020-21	5,800.80	130.57	5,931.37	7.82	6,395.20	306.12	4.79
2021-22	6,395.20	570.95	6,966.15	7.94	7,519.26	372.64	4.96
2022-23	7,519.26	174.25	7,693.51	8.48	8,345.92	1,008.36	12.08

5.8 PSUs incurring losses

There were 20 PSUs that reported losses as per their latest finalised accounts as detailed in ***Appendix 5.8***. The losses incurred by PSUs decreased to ₹214.51 crore in 2020-21 to ₹186.28 crore in 2021-22 and increased to ₹252.53 crore in 2022-23 as per their latest finalised accounts (**Table 5.16)**.

Table 5.16: Summary of PSUs that incurred losses during 2020-21 to 2022-23

(₹ in crore)

Year	No of PSUs incurred loss	Net loss for the year	Accumulated Profit/ Loss	Net Worth[24]
A. Statutory Corporations				
2020-21	1	117.62	(-) 1,634.94	(-) 1,426.98
2021-22	1	117.62	(-) 1,634.94	(-) 1,426.98
2022-23	2	122.23	(-) 1,818.88	(-) 1,438.03

2021-22	17	186.28	(-) 2,755.24	(-) 2,413.70
2022-23	20	252.53	(-) 4,241.34	(-) 3,691.36

(Source: Latest finalised accounts as on 30 November 2021, 30 September 2022 and 30 September 2023)

[22] Excluding JKB Financial Services Limited and CVPPPL wherein the GoJ&K had not made any investment, six government companies are inactive and three companies have not submitted their first accounts as on 30 September 2023.

[23] As per the latest finalised accounts

[24] Net worth means the sum total of the paid-up share capital and free reserves and surplus less accumulated loss and deferred revenue expenditure. Free reserves mean all reserves created out of profits and share premium account but do not include reserves created out of revaluation of assets and write back of depreciation provision.

Out of the total loss of ₹252.53 crore incurred by 20 PSUs in 2022-23, loss of ₹234.15 crore was in respect of ten PSUs listed in **Table 5.17** which reported losses of more than ₹ five crore as per their latest information provided.

Table 5.17: PSUs (other than power sector) that incurred losses of more than ₹ five crore

Sl. No.	Name of the PSU	Net loss *(₹ in crore)*
1.	Jammu & Kashmir State Road Transport Corporation	117.62
2.	Jammu & Kashmir State Industrial Development Corporation Limited	20.54

9.	Jammu & Kashmir Industries Limited	5.95
10.	Jammu & Kashmir Handloom Development Corporation Limited	5.73
	Total	**234.15**

(Source: Latest finalised accounts as on 30 September 2023)

GoJ&K may like to review the functioning of its loss making PSUs and initiate measures to improve their efficiency as they are causing substantial drain on the public exchequer.

5.8.1 Erosion of Capital in PSUs

As on 31 March 2023, there were 19 PSUs with accumulated losses of ₹4,241.34 crore **(*Appendix 5.9)***. These 19 PSUs had reported losses amounting to ₹250.51 crore in their latest finalised accounts. The net worth of 14 out of 19 PSUs had been completely eroded by their accumulated loss. Out of these 14 PSUs, the net worth of one PSU was negative for the last one year, of two PSUs for two years, another one for three years and the remaining 10 PSUs for the last five or more than five years. The net worth of these 14 PSUs was (-) ₹3,699.38 crore against equity investment of ₹537.12 crore as on 31 March 2023. The details of these 14 PSUs are in the following table:

Table 5.18: Details of PSUs whose net worth has been eroded as per their latest finalised accounts

(₹ in crore)

Sl. No.	Name of PSU	Period of accounts	Paid up Capital	Net Profit (+)/ Loss (-) after interest and tax	Accumulated Profit/ Loss	Net worth	Period since when Net worth has remained negative (no. of years)	Government Equity (as on 31 March 2023)	Government Loans (as on 31 March 2023)

(Source: Latest finalised accounts as on 30 September 2023 and information received from PSUs)
Note: Column 9 and 10 figures are obtained from respective PSUs.

Further as per latest finalised accounts of these 14 PSUs, against their total income of ₹728.19 crore their total expenditure was ₹976.93[25] crore, resulting in gap of ₹248.74 crore. The total borrowings of these PSUs stood at ₹2,560.26 crore at the end of that year.

5.9 Oversight Role of CAG

5.9.1 Audit of Public Sector Undertakings (PSUs)

Comptroller & Auditor General of India (CAG) appoints the statutory auditors of a State Government Company and State Government Controlled Other Company under Section 139 (5) and (7) of the Companies Act, 2013. CAG has a right to conduct a supplementary audit and issue comments upon or supplement the Audit Report of the statutory auditor. Statutes governing some Corporations require that their accounts be audited by the CAG and a report be submitted to the Legislature.

5.10 Appointment of statutory auditors of PSUs by CAG

Section 139(5) of the Companies Act, 2013 provides that the statutory auditors in case of a State Government Company are to be appointed by the CAG within a period of 180 days from the commencement of the financial year.

[25] Out of total expenditure of ₹976.93 crore, ₹812.32 crore was incurred on indirect expenditure viz Employees benefits, administrative expenses and other expenses etc.

5.11 Submission of accounts by PSUs

5.11.1 Need for timely submission

According to Section 394 of the Companies Act, 2013 Annual Report on the working and affairs of a Government Company, is to be prepared within three months of its Annual General Meeting (AGM) and as soon as may be after such preparation laid before both the Houses of State Legislature together with a copy of the Audit Report and any comments upon or supplement to the Audit Report, made by the CAG. Almost similar provisions exist in the respective Acts regulating statutory corporations. This mechanism provides the necessary legislative control over the utilisation of public funds invested in the companies from the Consolidated Fund of the State/UT.

Section 96 of the Companies Act, 2013 requires every company to hold AGM of the shareholders once in every calendar year. It is also stated that not more than 15 months shall elapse between the date of one AGM and that of the next. Further, Section 129 of the Companies Act, 2013 stipulates that the audited Financial Statement for the financial year has to be placed in the said AGM for their consideration by the shareholders.

Section 129 (7) of the Companies Act, 2013 also provides for levy of penalty like fine and imprisonment on persons including directors of the company responsible for non-compliance with the provisions of Section 129 of the Companies Act, 2013.

Despite the above, annual accounts of various PSUs were pending as on 30 September 2023, as detailed in the following paragraph.

5.11.2 Timeliness in preparation of accounts by Government Companies

As of 31 March 2023, there were 40 Government Companies under the purview of CAG's audit. Of these, accounts for the year 2022-23 were due[26] from 34 Government Companies[27]. However, only four Government Companies submitted their accounts for the financial year 2022-23 for supplementary audit by CAG on or before 30 September 2023. Accounts of 30 Government Companies were in arrears for various reasons. Forty-nine years of accounts of 14 companies, whose net worth had been eroded, were in arrears. Details of arrears in submission of accounts of these are given in **Table 5.19 (A)** below:

[26] The due date for submission of accounts has been considered as 30 September 2023
[27] Excluding six inactive Companies

Table 5.19 (A): Details of arrears in submission of accounts

Particulars		Total
Total number of Companies under the purview of CAG's audit as on 31.03.2023		40
Less: New Companies from which accounts for 2022-23 were not due		0
Less: Companies under liquidation/ inactive[28]		6
Number of companies from which accounts for 2022-23 were due		34
Number of companies which presented the accounts for CAG's audit by 30 September 2023		4
Number of companies with accounts in arrears		30
Breakup of Arrears	(i) Defunct	0
	(ii) First Accounts not submitted	3[29]
	(iii) Others	27
Age-wise analysis of arrears against 'Others' category	Up to one year (2022-23)	3
	Up to two years (2021-22 and 2022-23)	5
	Three years and more	19

Details of these companies along with the position of GoJ&K investment in these PSUs during the period of arrear accounts are indicated in ***Appendix 5.10***.

In case of eight PSUs the pendency in finalisation of financial statements ranged from 5 to 12 years as shown in **Table 5.19 (B)**.

Table 5.19 (B): Instances of large pendency in finalisation of accounts

Sl. No.	Name of the PSU	No. of accounts pending finalisation
1	J&K State Industrial Development Corporation Limited	9
2	J&K Police Housing Corporation Limited	6
3	J&K Minerals Limited	9
4	J&K Cable Car Corporation Limited	9
5	J&K Overseas Employment Corporation Limited	12
6	J&K Power Development Corporation Limited	7
7	J&K Medical Supplies Corporation Limited	7
8	AIC-Jammu & Kashmir EDI Foundation	5

[28] Jammu & Kashmir Asset Reconstruction Limited, Tawi Scooters Limited, Himalayan Wool Combers Limited and Jammu & Kashmir State Handloom Handicrafts Raw Materials Supply Organisation Limited (under liquidation); Jammu & Kashmir State Road Development Corporation Limited and Jammu & Kashmir International Trade Centre (inactive)

[29] Three PSUs (AIC- Jammu & Kashmir EDI Foundation, Jammu Mass Rapid Transit Corporation Pvt. Ltd. and Srinagar Mass Rapid Transit Corporation Pvt. Ltd.).

5.11.3 Timeliness in preparation of accounts by Statutory Corporations

As of 31 March 2023, there were two Statutory Corporations under the purview of CAG's audit. Audit of Statutory Corporations is governed by their respective legislations. Out of the two Statutory Corporations, the C&AG is the sole auditor for Jammu & Kashmir Road Transport Corporation. In respect of Jammu & Kashmir and Ladakh Financial Corporation, the audit is conducted by Chartered Accountants and supplementary audit is conducted by the C&AG.

The accounts of Jammu & Kashmir Road Transport Corporation for the period from 2019-20 to 2022-23 and Jammu & Kashmir and Ladakh Financial Corporation for the years 2021-22 to 2022-23 were awaited as on 30 September 2023.

Details of these Corporations along with the position of GoJ&K investment in these Corporations during the period of arrear accounts are indicated in ***Appendix 5.10***.

During the exit conference (April 2024), the Departmental representatives assured that all the PSUs shall be directed to comply with the statutory provisions regarding submission of accounts.

5.12 CAG's oversight - Audit of accounts and supplementary audit

5.12.1 Financial reporting framework

Companies are required to prepare the financial statements in the format laid down in Schedule III to the Companies Act, 2013 and in adherence to the mandatory Accounting Standards prescribed by the Central Government, in consultation with National Advisory Committee on Accounting Standards. The statutory corporations are required to prepare their accounts in the format prescribed under the rules, framed in consultation with the CAG and any other specific provision relating to accounts in the Act governing such corporations.

5.12.2 Audit of accounts of Government Companies by Statutory Auditors

The statutory auditors appointed by the CAG under Section 139 of the Companies Act, 2013 conduct audit of accounts of the Government Companies and submit their reports thereon in accordance with Section 143 of the Companies Act, 2013.

The CAG plays an oversight role by monitoring the performance of the statutory auditors in audit of public sector undertakings with the overall objective that the statutory auditors discharge the functions assigned to them properly and effectively. This function is discharged by exercising the power:

- to issue directions to the statutory auditors under Section 143 (5) of the Companies Act, 2013 and
- to supplement or comment upon the statutory auditor's report under Section 143 (6) of the Companies Act, 2013.

5.12.3 Supplementary Audit of accounts of Government Companies

The prime responsibility for preparation of financial statements in accordance with the financial reporting framework prescribed under the Companies Act, 2013 or other relevant Act is of the management of an entity.

The statutory auditors appointed by the CAG under Section 139 of the Companies Act, 2013 are responsible for expressing an opinion on the financial statements under Section 143 of the Companies Act, 2013 based on independent audit in accordance with the Standard Auditing Practices of Institute of Chartered Accountants of India (ICAI) and directions given by the CAG. The statutory auditors are required to submit the Audit Report to the CAG under Section 143 of the Companies Act, 2013.

The certified accounts of selected Government Companies along with the report of the statutory auditors are reviewed by CAG by carrying out a supplementary audit. Based on such review, significant audit observations, if any, are reported under Section 143 (6) of the Companies Act, 2013 to be placed before the Annual General Meeting.

5.13 Result of CAG's oversight role

Position of supplementary audit of the financial statements of the PSUs conducted by the Comptroller and Auditor General (CAG) of India for the year 2022-23 (or of earlier years which were finalised during the current year) is discussed in the next paragraph.

5.13.1 Audit of accounts of Government Companies under Section 143 of the Companies Act, 2013

Financial statements for the year 2022-23 were received from three[30] Government Companies and one Government Controlled Other Company[31] by 30 September 2023. They were all reviewed in audit.

Thirty seven accounts of previous years in respect of 17 PSUs were also received during the period 1 October 2022 to 30 September 2023, of which comments were issued in case of 19 accounts and 18 accounts were pending finalisation as of 30 September 2023. Further, 46 accounts of 17 PSUs relating to previous years which were received before 1 October 2022 were also reviewed during the current year and comments were issued for all these 46 accounts of 17 PSUs. The important results of the review are detailed in the following table:

[30] Jammu and Kashmir Bank Limited, Jammu & Kashmir Trade Promotion Organisation and JKB Financial Services Limited

[31] Chenab Valley Power Projects Private Limited

Table 5.20: Significant comment issued on Financial Statements

Sl. No.	Name of PSU	Year of Accounts	Impact of Audit
1.	Chenab Valley Power Projects Pvt Limited	2022-23	Provision for committed capital expenditure did not include ₹30.83 crore of cost of land pronounced (August 2018) by Government of J&K under Resettlement and Rehabilitation Plan for project-affected families in respect of construction of Kwar Hydro Electric Project which resulted in understatement of Leasehold land (Assets) by ₹35.83 crore, understatement of provisions for committed capital expenditure (Provisions) by ₹30.83 crore and overstatement of capital advances under Non-Current Assets by ₹5.00 crore.
2.	J&K Industries Limited	2020-21	The Company treated ₹29.12 crore received from District Collector, Land Acquisition, Srinagar against the transfer of 146 kanal land through the Company to the J&K Police Department as its income. The land was transferred (October 2017) by Industries & Commerce Department to the Company with the direction to transfer the same to the J&K Police Department against payment of ₹94.90 crore. As the land was not an asset of the Company, the transfer proceeds of ₹94.90 crore received by the Company from J&K Police Department was a liability/ payable to Govt. of J&K instead of booking the same as income of the Company resulting in overstatement of other income for the current year by ₹29.12 crore (Previous years ₹65.78 crore), understatement of current liabilities by ₹94.90 crore, understatement of the loss for the year by ₹29.12 crore and accumulated loss by ₹94.90 crore.
3.	J&K IT Infrastructure Development Limited	2021-22	The Company treated unutilised amount of grants for construction of IT Towers in Jammu and Srinagar as Capital Grants despite non-fulfillment of attached terms and conditions instead of as Current Liabilities.

5.14 Recommendations

The Government may:

1. Impress upon those PSUs with arrears in accounts to expedite finalisation of their financial statements so that they remain within legislative oversight; and
2. Analyse the reasons for losses in those PSUs whose net worth has eroded and initiate steps to make their operations efficient and profitable.

During the exit conference (April 2024), the Principal Secretary Finance accepted the audit recommendations.

Source: Finance Accounts

[2] Figures of GSDP is from MOSPI website.

[3] Includes internal debt and Loan and Advances from Central Government only.

[4] Liability to GSDP has been arrived at after reducing back to back loans from liability during 2020-21 (₹16,980.28 crore - ₹2,099.80 crore = ₹14,880.48 crore), 2021-22 (₹29,335.41 crore - ₹5,945.29 crore = ₹23,390.12 crore) and 2022-23: ₹33,891.93 crore - ₹5,945.29 crore = ₹27,946.64 crore). The liability to GSDP after including liability of erstwhile State amounting to ₹83,536.63 crore during 2020-21 and 2021-22 and ₹82,050.50 crore during 2022-23 which is yet to be apportioned has been shown in bracket.

Explanatory Notes

1. *The abridged accounts in the foregoing statements have to be read with comments and explanations in the Finance Accounts.*
2. *Government accounts being mainly on cash basis, the deficit on Government account indicates the position on cash basis, as opposed to accrual basis in commercial accounting. Consequently, items payable or receivable or items like depreciation or variation on stock figures etc. do not figure in the accounts.*
3. *Suspense and Miscellaneous balances include cheques issued but not paid and payments made on behalf of the UT and others pending settlement, etc.*

Appendix 6
(Reference Paragraph: 3.1; page 75)
Glossary of important Budget related terms

1. ***'Accounts' or 'actuals' of a year* -** are the amounts of receipts and disbursements for the financial year beginning on *April 1st* and ending on *March 31st* following, as finally recorded in the Accounting authority's books (as audited by C&AG). Provisional Accounts refers to the unaudited accounts.
2. ***'Administrative approval' of a scheme, proposal or work* -** is the formal acceptance thereof by the competent authority for the purpose of incurring expenditure. Taken with the provision of funds in the budget, it operates as a financial sanction to the work during that particular year in which the Administrative Approval is issued.
3. ***'Annual financial statement'*-** Also referred to as Budget means the statement of estimated receipts and expenditure of the Central/UT Government for each financial year, laid before the Parliament /UT Legislature.
4. ***'Appropriation'* -** means the amount authorized by the Parliament/UT Legislature for expenditure under different primary unit of appropriation or part thereof placed at the disposal of a disbursing officer.
5. *'**Charged Expenditure'* -** means such expenditure as is not to be submitted to the vote of the Legislature under the provisions of the Constitution.
6. ***'Consolidated Fund of India/ UT'*-** All revenues of the Union/UT Government, loans raised by it and all moneys received in repayment of loans form the Consolidated Fund of India/ UT. No moneys out of this Fund can be appropriated except in accordance with the law and for the purposes and in the manner provided in the Constitution.
7. ***'Contingency Fund'*-**is in the nature of an imprest. The Contingency Fund is intended to provide advances to the executive /Government to meet unforeseen expenditure arising in the course of a year pending its authorization by the Parliament/UT Legislature. The amounts drawn from the Contingency Fund are recouped after the Parliament/UT Legislature approves it through the Supplementary Demands.
8. ***'Controlling Officer (budget)'*-** means an officer entrusted by a Department with the responsibility of controlling the incurring of expenditure and/or the collection of revenue. The term includes the Heads of Department and also the Administrators.
9. ***'Drawing and Disbursing Officer' (DDO)*-**means a Head of Office and also any other Officer so designated by the Finance Department of the UT Government, to draw bills and make payments on behalf of the UT Government. The term shall also include a Head of Department where he himself discharges such function.

10. ***'Excess Grant'-*** Excess grant means the amount of expenditure over and above the provision allowed through the original/supplementary grant, that requires regularization by obtaining excess grant from the Parliament /UT Legislature.

11. ***'New Service'-*** New Service means expenditure arising out of a new policy decision, not brought to the notice of Parliament/UT Legislature earlier, including a new activity or a new form of investment.

12. *'**New Instrument of Service'-*** means relatively large expenditure arising out of important expansion of an existing activity.

13. ***'Public Accounts'-*** The receipts and disbursements such as deposits, reserve funds, remittances, etc. which do not form part of the Consolidated Fund are included in the Public Account. Disbursements from the Public Account are not subject to vote by the Parliament/UT Legislature, as they are not moneys issued out of the Consolidated Fund of India/UT.

14. ***'Re-appropriation'-*** means the transfer, by a competent authority, of savings from one unit of appropriation to meet additional expenditure under another unit within the same grant or charged appropriation.

15. ***'Revised Estimate'-*** is an estimate of the probable receipts or expenditure for a financial year, framed in the course of that year, with reference to the transactions already recorded and anticipation for the remainder of the year in the light of the orders already issued.

16. ***'Supplementary Demands for Grants'-*** means the statement of supplementary demands laid before the legislature, showing the estimated amount of further expenditure necessary in respect of a financial year over and above the expenditure authorized in the Annual Financial Statement for that year. The demand for supplementary may be token, technical or substantive/cash.

    a) **Cash Supplementary-**is over and above the original budget provisions and results in enhancement of the allocation for the Demand/Grant. It should be obtained as a last resort and after proper due diligence. Presently, this method is followed by the UT.

    b) There are four Sections in each Demand i.e., Revenue Voted, Revenue Charged, Capital Voted and Capital Charged. **Technical Supplementary**, after obtaining the approval of the UT Legislature, allows to utilize the savings of one of the Sections for any other Section.

    c) **Token Supplementary-**allows to utilize the savings within the same section of the grant.

17. ***'Major Head'-***means a Major Head of account for the purpose of recording and classifying the receipts and disbursements of the UT. A Major Head, particularly the one falling within the Consolidated Fund, generally corresponds to a 'function' of Government such as Agriculture, Education, Health, etc.

18. ***'Sub-Major Head'-***means an intermediate head of account introduced between a Major Head and the Minor Heads under it, when the Minor Heads are numerous and can conveniently be grouped together under such intermediate Head.
19. ***'Minor Head'*** - means a head subordinate to a Major Head or a Sub-Major Head. A Minor Head subordinate to a Major Head identifies a "programme" undertaken to achieve the objectives of the function represented by the Major Head.
20. ***'Sub-Head'*** - means a unit of account next subordinate to a Minor Head which normally denotes the scheme or organisation under that Minor Head or programme.
21. ***'Major Work***' - means an original work, the estimated cost of which exclusive of departmental charges exceeds the amount as notified by the Government from time to time.
22. ***'Minor Work'*** - means an original work, the estimated cost of which exclusive of departmental charges does not exceed the amount as notified by the Government from time to time.
23. ***'Modified Grant or Appropriation'*** - means the sum allotted to any Sub-Head of Appropriation as it stands after Re-Appropriation or the sanction of an Additional or Supplementary Grant by competent authority.
24. ***'Supplementary or Additional Grant or Appropriation'*** - means a provision included in an Appropriation Act, during the course of a financial year, to meet expenditure in excess of the amount previously included in an Appropriation Act for that year.
25. ***'Schedule of New Expenditure'*** - means a statement of items of new expenditure proposed for inclusion in the Budget for the ensuing year.
26. ***'Token demand'*** - means a demand made to the Assembly for a nominal or token sum when, for example, it is proposed to meet the entire expenditure on a new service from savings out of the sanctioned budget grant.

Introduction	6.1	149
Expenditure on healthcare vis-a-vis budget allotment	6.2	149-150
Funding target for health sector	6.3	150-152
Component-wise revenue expenditure	6.4	153
Allotment and Expenditure in selected Districts	6.5	153
Funds received from GoI	6.6	154-163
Conclusion	6.7	163
Recommendations	6.8	163
CHAPTER-VII: IMPLEMENTATION OF CENTRALLY SPONSORED SCHEMES		
Introduction	7.1	165
National Health Mission	7.2	165-178
National AIDS and STD Control Programme	7.3	178-180
Conclusion	7.4	180
Recommendations	7.5	180
CHAPTER-VIII: ADEQUACY AND EFFECTIVENESS OF REGULATORY MECHANISMS		
The Drugs and Cosmetics Act, 1940 and Rules, 1945	8.1	182-184
Clinical Establishments Act, 2010 and Rules thereunder	8.2	184-187
Fixation of rates for delivery of services by private healthcare establishments	8.3	187-188
Quality Certificate from NABL and NABH	8.4	188-189
Bio-Medical Waste Management	8.5	189-194
Atomic Energy (Radiation) Protection Rules, 2004	8.6	194
Conclusion	8.7	195
Recommendations	8.8	195
CHAPTER-IX: SUSTAINABLE DEVELOPMENT GOAL 3		
Formulation of State Indicator Framework and District Indicator Framework	9.1	197-199
Health Indicators	9.2	199-201
Conclusion	9.3	201
Recommendation	9.4	201

APPENDICES

Appendix No.	Particulars	Page
Appendix 1.1	Number of Sampled Health Institutions	203-206
Appendix 4.1	Details of 42 test-checked cases of Annual Rate Contract of allopathic drugs/ medicines, AYUSH drugs/ medicines and machinery/ equipment	207-211
Appendix 9.1	Statement of Indicators for Sustainable Development Goals 3 (Ensure healthy lives and promote well-being for all at all ages)	212-219

PREFACE

This Report of the Comptroller and Auditor General (CAG) of India on Public Health Infrastructure and Management of Health Services for the period ended March 2022 has been prepared for submission to Lieutenant Governor of Jammu and Kashmir under Section 72 of the Jammu and Kashmir Reorganisation Act 2019 for laying in the Legislative Assembly.

This Report contains IX chapters.

Chapter I contains the organisational setup and brief introduction about the Public Healthcare facilities in the UT of Jammu and Kashmir.

Chapter II contains the audit findings pertaining to availability of Human Resources in the Health and Medical Education Department.

Chapter III contains the audit observations on availability of Healthcare services in Jammu and Kashmir (Outpatient Department and In-patient Department)

Chapter IV contains the audit observations relating to availability of drugs, medicines, equipment and other consumables.

Chapter V contains the audit observations pertaining to availability of healthcare infrastructure in J&K.

Chapter VI contains significant audit findings relating to budgetary outlay and expenditure of the Health and Medical Education Department.

Chapter VII deals with the audit findings pertaining to implementation of Centrally Sponsored Schemes in J&K.

Chapter VIII contains the significant findings pertaining to adequacy and effectiveness of Regulatory Mechanisms.

Chapter IX deals with the Sustainable Development Goal 3 and its adoption in J&K.

The instances mentioned in this Report are those which came to notice during test-check of records of 2016-17 to 2020-21. Instances relating to the period subsequent to March 2021 have also been included, wherever necessary.

The Audit has been conducted in conformity with the Auditing Standards issued by the Comptroller and Auditor General of India.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

National Health Policy (NHP), 2017 was adopted to strengthen and prioritise the role of the Government in shaping health system in all its dimensions. Considering the goals laid down in NHP 2017 and experience in COVID-19 pandemic, the Performance Audit (PA) on "Public Health Infrastructure and Management of Health Services" was conducted to assess the adequacy of financial resources allocated, availability of health infrastructure, manpower, machinery and equipment in the Health Institutions (HIs) as well as efficacy in the management of health services in the State. The Performance Audit also covers the efficacy of the regulatory framework being enforced by the Government to regulate public/private health sector, schemes being implemented by Government of India through State Government and overall linkage with the Sustainable Development Goal-3. The audit was conducted for the period 2016-21 but wherever feasible, the data has been updated up to 2021-22 or later.

The Ministry of Health and Family Welfare, Government of India, has issued (first in 2007 and revised in 2012 and 2022) a set of uniform standards called the Indian Public Health Standards (IPHS) to improve the quality of healthcare delivery in the country and serve as a benchmark for assessing performance of healthcare delivery system. The IPHS norms for District Hospitals (DHs), Sub-District Hospitals (SDHs), Community Health Centres (CHCs), Primary Health Centres (PHCs) and Sub-Centres (SCs) prescribe standards for the services, manpower, equipment, drugs, building and other facilities. These include the standards to bring the health institutions to a minimum acceptable functional grade (indicated as essential) with scope for further improvement (indicated as desired).

In addition to IPHS, various standards and guidelines on healthcare services issued by Government of India such as the Assessor's Guidebook for Quality Assurance; Bio-Medical Waste Management Rules; and Drugs and Cosmetic Rules were used to evaluate the healthcare facilities in health institutions.

As per National Family Health Survey (2019-21) and Sample Registration System (SRS) Bulletin 2020, the health indicators in Jammu and Kashmir (J&K) in respect of Infant Mortality Rate (16.3 against national average of 35.2), Neonatal Mortality Rate (9.8 against national average of 24.9 per 1,000 live births), death rate (4.6 against national average of 6 per 1000 population) and girl children born (976 against national average of 929) for every 1,000 boys were better than the national average.

However, for health indicators like mothers whose last birth was protected against neonatal tetanus, mothers who consumed iron folic acid tablets for 100 days (29.8 *per cent* against national average of 44.1 *per cent*) and 180 days (15.9 *per cent* against national average of 26 *per cent*), average out-of-pocket expenditure per delivery in a public health facility (₹ 5,145 against national average of ₹ 2,916) births delivered by Caesarean section in public (42.7 *per cent* against national average of 14.3 *per cent*) and private (82.1 *per cent* against national average of 47.4 *per cent)*

health facilities and sex ratio of the total population (females per 1,000 males) the national indicators were better than UT.

In respect of Sustainable Development Goals (SDGs), the UT adopted 34 indicators out of 41 indicators at the national level; covering 12 targets at UT level out of 13 targets at national level.

As far as Ayushman Bharat (AB) is concerned, we have included findings related to Health & Wellness Centres (HWC) and have also considered implementation of AB while making recommendations in various areas of health sector.

There were persistent shortages in all the cadres in the health institutions. Government had not ensured availability of posts in the health sector as the sanctioned posts were not in keeping with the population to be served, affecting the health services adversely. This shortage was quite high in several key posts such as doctors, staff nurses, paramedical and other staff who play a very important role in delivering comprehensive healthcare to the beneficiaries. Available manpower including the crucial manpower has not been distributed uniformly across the districts. Against the sanctioned strength of 46,115 posts, the UT of J&K had 30,745 (67 *per cent*) doctors, nurses and paramedical staff as of March 2022. One government doctor was serving a population of 2,191 (2,461 in case of allopathic doctors) in the UT of J&K. The ratio of availability of doctor was better than the States of Haryana (4,081 doctors for 2.51 crore people i.e. one allopathic doctor per 6,212 persons) and Punjab (one allopathic doctor for 6,390 persons).

There was skewed distribution of manpower as shortfall of overall manpower was lowest (11.52 *per cent*) in Kulgam District and highest (43.55 *per cent*) in Kishtwar District.

There was a shortage of specialists in Health and Medical Education Department (H&MED). Shortage of manpower in District Hospitals (DHs) had affected delivery of medical services resulting in either the patients having to wait in queues outside the OPDs for a long time or compelling the patients to approach other hospitals having such facility.

Under the National Health Mission (NHM), shortage of doctors, paramedical staff and nurses in the UT of J&K was respectively 19 *per cent*, 08 *per cent* and 16 *per cent* in 2021-22. In the six sampled districts, although most of the emergency services were available in all the sampled District Hospitals except DH, Handwara, availability of Emergency Operation Theatre was not available in seven SDHs (out of 18 test-checked). Blood storage unit was not available in 10 SDHs (out of 18 test-checked) and nine CHCs (out of 10 test-checked).

The Outpatient Department (OPD) services of ENT, Psychiatry, Ophthalmology and Skin & VD were not available in eight, nine, six and 13 DHs respectively. Moreover, all the required essential OPD services were not available in all 18 test-checked Sub-District Hospitals (SDHs) and all OPD services as required as per IPHS norms

were not available in the 10 test-checked Community Health Centres (CHCs). Registration counters were also not found adequate in Tertiary Level Hospitals (TLHs) and District Hospitals (DHs).

All In-patient Department (IPD) services as per IPHS 2012 norms were available in only three DHs out of six test-checked DHs. In respect of 28 sampled SDHs/ CHCs, all IPD services were available in only seven SDHs and one CHC. OT services were available in all test-checked DHs. Out of sampled 18 SDHs, OT facility was available in 11 SDHs. Out of 52 sampled PHCs, only two PHCs (Majalta and Achabal) had OT facility for surgical procedures such as Vasectomy, Tubectomy and Hydrocelectomy.

Ambulance service was available in all test-checked DHs and SDHs/ CHCs except SDH Langate. However, ambulance service was available in only 19 out of 52 sampled PHCs.

The Discharge Rate was more than 90 *per cent* in five out of six sampled DHs (except DH Ramban) which indicated that the hospitals are providing healthcare facility to the patients efficiently. The referral out rate in respect of five out of six sampled DHs was less than 10 *per cent* whereas the referral out rate in respect of DH Ramban was higher as compared to other HIs. It was also observed in case of DH Ramban that there was shortage of doctors, non-availability of essential drugs and poor availability of equipment.

Audit assessed availability of drugs against essential drugs list (EDL) as notified by the H&MED and equipment listed in IPHS norms. There was shortage of essential drugs and equipment in all test-checked HIs. Availability of the prescribed essential equipment was also found deficient in test-checked institutions. There was delay in finalisation of rate contracts that would have had adverse impact on timely supply of drugs/ equipment to the health institutions. There was delay in empanelment of laboratories for testing and analysis of drugs and in furnishing of test/analysis reports by empanelled laboratories. Non-implementation of e-Aushadhi/ Drug and Vaccine Distribution Management System for the entire chain of drug supply was also observed.

Estimation, planning and creation of requisite infrastructure facilities are essential for ensuring the provision of optimum level of healthcare facilities. There was inadequate availability of Sub-Centres (SCs) and CHCs in the UT of J&K. In the six sampled Districts, there was shortage of SCs (45 *per cent*) and CHCs (81 *per cent*)**.**

Although the requisite number of Health and Wellness Centres (HWCs) have been upgraded, there was shortage of infrastructure, availability of services, human resources, diagnostic services etc. in the HWCs in the six selected Districts. Out of 415 construction works taken up for execution under National Health Mission, Prime Minister's Development Programme (PMDP) and Languishing Projects programme, 177 works were completed and 238 works remained incomplete. Works under District Plan, National Bank for Agriculture and Rural Development (NABARD) and Border Area Development Programme (BADP) remained incomplete either due to dispute or

non-execution of balance works. Out of sampled 10 CHCs, six CHCs did not have beds as per norms. Out of 18 sampled SDHs, 11 SDHs had less than 31 beds. Out of 52 selected Primary Health Centres (PHCs), seven PHCs were functioning without beds and 33 PHCs were lacking required number of beds as per Indian Public Health Standards (IPHS) 2012.

Total expenditure of GoJ&K during 2016-17 to 2021-22 was ₹ 3,60,198.78 crore while expenditure on the health sector was ₹ 25,127.63 crore against budget allotment of ₹ 30,513.98 crore. Expenditure on Health sector *vis-a-vis* total expenditure of the erstwhile State/ UT Government had increased from 5.84 *per cent* in 2016-17 to 7.98 *per cent* in 2021-2022. Expenditure on the health sector accounted for 6.98 *per cent* of the total expenditure of the erstwhile State/ UT for the period 2016-17 to 2021-22. The expenditure on Health sector to erstwhile State/ UT GSDP had increased from 2.25 *per cent* in 2016-17 to 2.95 *per cent* in 2020-21 but decreased to 2.80 *per cent* during 2021-22. Further, the shortfall in utilisation of allotted funds ranged between three *per cent* and 26 *per cent* during the period 2016-22.

The objective of *Janani Suraksha Yojana* (JSY) under NHM was to reduce the maternal and infant mortality rate. The percentage of institutional deliveries remained in the range of 92 *per cent* and 95 *per cent* during 2016-2022. During 2016-22, cash incentives under JSY were provided to beneficiaries ranging between 56 *per cent* and 73 *per cent* of institutional deliveries in erstwhile State/ UT of J&K. However, in six selected Districts cash incentives were provided to 97 *per cent* beneficiaries. Maternal mortality and infant mortality had decreased from 132 to 84 and 2,288 to 2,108 respectively during 2016-22.

In the six sampled Districts, maternal deaths declined from 31 to 23 during 2016-21 and again increased to 31 during 2021-22, whereas infant deaths declined from 234 to 76 during 2016-22.

Under Janani Shishu Suraksha Karyakram (JSSK), an initiative to assure free services to all pregnant women and sick new-borns accessing public health institutions, achievements in respect of targets for deliveries to be benefitted declined from 90 *per cent* to 77 *per cent* during 2016-21. The achievement increased to 95 *per cent* in 2021-22.

The achievement against the targets in respect of sick new-borns to be treated was more than the targets fixed in four years (2017-18 to 2019-20 and 2021-22).

Against target of 13,49,948 doses each for BCG, OPV, PV, IPV, Hep-B, DPT-B, and Measles, the achievement had ranged between 71 *per cent* and 94 *per cent* whereas the achievement in respect of DPT-5, TT-10 and TT-16 was 64, 56 and 40 *per cent* respectively during 2016-22 in the erstwhile State/ UTof J&K.

There was lack of an adequate mechanism whereunder drug samples were to be referred to State Drugs Controller (SDC) for testing on regular basis. For registration

and regulation of the Clinical Establishments (CEs), no survey was conducted to ascertain the actual number of CEs eligible for registration. As a result, the possibility of CEs operating without registration could not be ruled out. There was disparity in rates of various pathological/radiological tests. Requisite annual reports were not submitted by some of the Health Care Facilities (HCFs) under Bio-Medical Waste (BMW) Management Rules, 2016 and authorisation was not obtained by the occupier or operator handling BMW in all cases.

Recommendations:

In view of the above mentioned findings, Audit recommends the following:

The Government should consider revising the sanctioned strength of Health Department at par with the IPHS norms and posting of staff in health institutions at par with the sanctioned strength in the primary, secondary and tertiary healthcare institutions. Government should bring out a long-term strategy and policy to reduce variations in doctor-population ratio across districts.

Government should ensure availability of all OPD services, IPD services, emergency services, OT services, maternity services and ICU services in all health institutions and basic diagnostic services at secondary level health facilities as prescribed under IPHS norms. Steps should be taken to improve and strengthen auxiliary and support services to improve overall healthcare experience.

Availability of essential drugs and equipment should be ensured at all health institutions. Delay in finalisation of rate contracts should be avoided to ensure timely supply of drugs/ equipment to the health institutions. e-Aushadhi/ Distribution Management System (DVDMS) portal should be utilised optimally by end users for maintenance of stocks and distribution of items to their sub-stores and to the patients.

The Government may look into the issues of delays in commencement and completion of planned infrastructural works with a view to removing bottlenecks and ensure speedy completion.

Government may consider utilising the allocated budget to ensure availability of ample and quality healthcare infrastructure and services to the people. Government may release funds to the State Health Society well in time for effective utilisation of funds in programme implementation.

Government may consider disbursement of incentive to all the beneficiaries under Janani Suraksha Yojana (JSY) and providing adequate essential drugs and consumables under Janani Shishu Suraksha Karyakram (JSSK) for effective implementation of the schemes. Government may also attempt to increase awareness and outreach through various activities for making the target population aware of the benefits of sterilisation and spacing methods.

The targeted number of inspections may be carried out to ensure quality of the drugs and drug samples may be referred to State Drug Controller for testing on regular

basis. Government may ensure that all utilities generating Bio-Medical waste comply with the provisions with regard to authorisation and submission of annual returns.

CHAPTER-I
INTRODUCTION

CHAPTER-I

Introduction

The health sector is one of the important social sectors, which is directly concerned with the welfare of the populace and is the barometer of the structural and technological developments/ improvements of any State/ Union Territory. Access to preventive, promotive and curative healthcare services is a basic right of the people.

National Health Policy, 2017 consists of Specific Quantitative Goals and Objectives outlined under three broad components viz. (a) Health Status and Programme Impact (b) Health Systems Performance and (c) Health Systems Strengthening. These goals are aligned to achieve sustainable development in the health sector in keeping with the policy thrust.

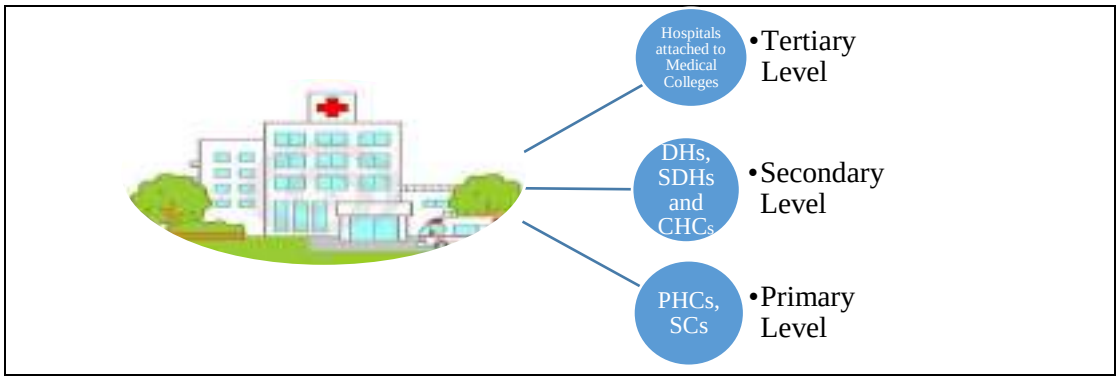
1.1 Public healthcare facilities in the UT of Jammu and Kashmir

India's public health system has been developed over the years as a three-tier system, namely primary, secondary, and tertiary level of health care. Sub-Centres (SCs) and Primary Health Centres (PHCs) including New Type Primary Health Centres[1] (NTPHCs) and Urban Primary Health Centres (UPHCs) are primary level healthcare units which provide initial healthcare services to the people. Patients requiring more serious health care attention are referred to the second tier of the healthcare system consisting of Community Health Centres (CHCs), Sub-District Hospitals (SDHs) and District Hospitals (DHs) established in each district for providing preventive, promotive and curative healthcare services. A Tertiary Hospital is a hospital that provides tertiary care, which is healthcare from specialists in a large hospital after referral from primary care and secondary care. Tertiary healthcare services are provided by the hospitals associated with the Government Medical Colleges. All the three levels of primary, secondary and tertiary healthcare services in the UT are administered by the Department of Health and Medical Education, Jammu and Kashmir.

Indian Public Health Standards (IPHS) are a set of uniform standards envisaged to improve the quality of healthcare delivery in the country. IPHS norms were revised in 2012 and 2022 keeping in view the changing protocols of the existing programmes and introduction of new programmes, especially for Non-Communicable Diseases. The UT Government of Jammu and Kashmir has not adopted IPHS norms so far.

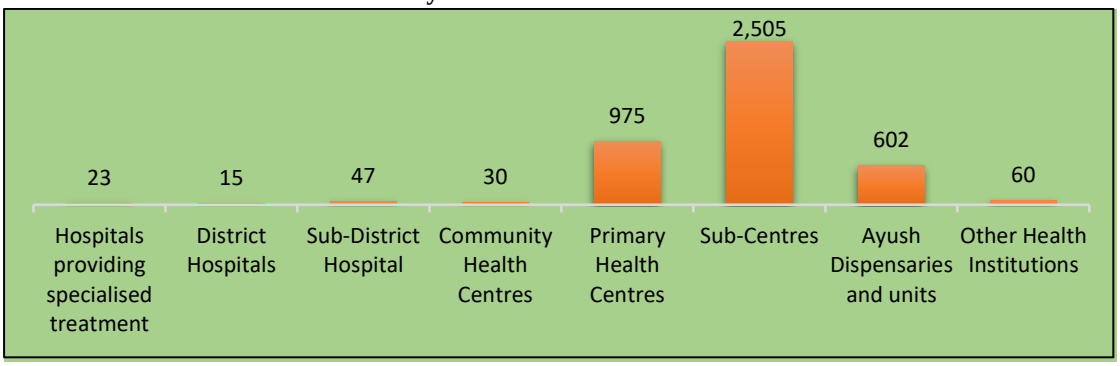
[1] Vide G.O. No. 345-HME of 2012 dated 16.05.2012, the nomenclature of 'Allopathic Dispensary (AD)' was changed to New Type Primary Health Centres (NTPHCs) and AD has been treated as PHC.

Public healthcare facilities in Jammu and Kashmir



As per Census 2011, UT of Jammu and Kashmir[2] had a population of 1.23 crore. As of March 2022, there were 4,257 healthcare facilities in the UT of JK. The category-wise details are given in **Chart 1.1**.

Chart 1.1: Availability of healthcare facilities as of 31 March 2022



(Source: Information furnished by the Administrative Department, Directors, Health Services, Jammu/ Kashmir, Director AYUSH, JK and Chief Medical Officers concerned)

(Other health institutions includes Emergency/ Accident Hospitals, District Tuberculosis Centres, Mobile Medical Units, Leper Hospital, District Malaria units, STD/ VD Centres etc.)

1.2 Health Services

Health services provided by the hospitals can broadly be divided into following categories:

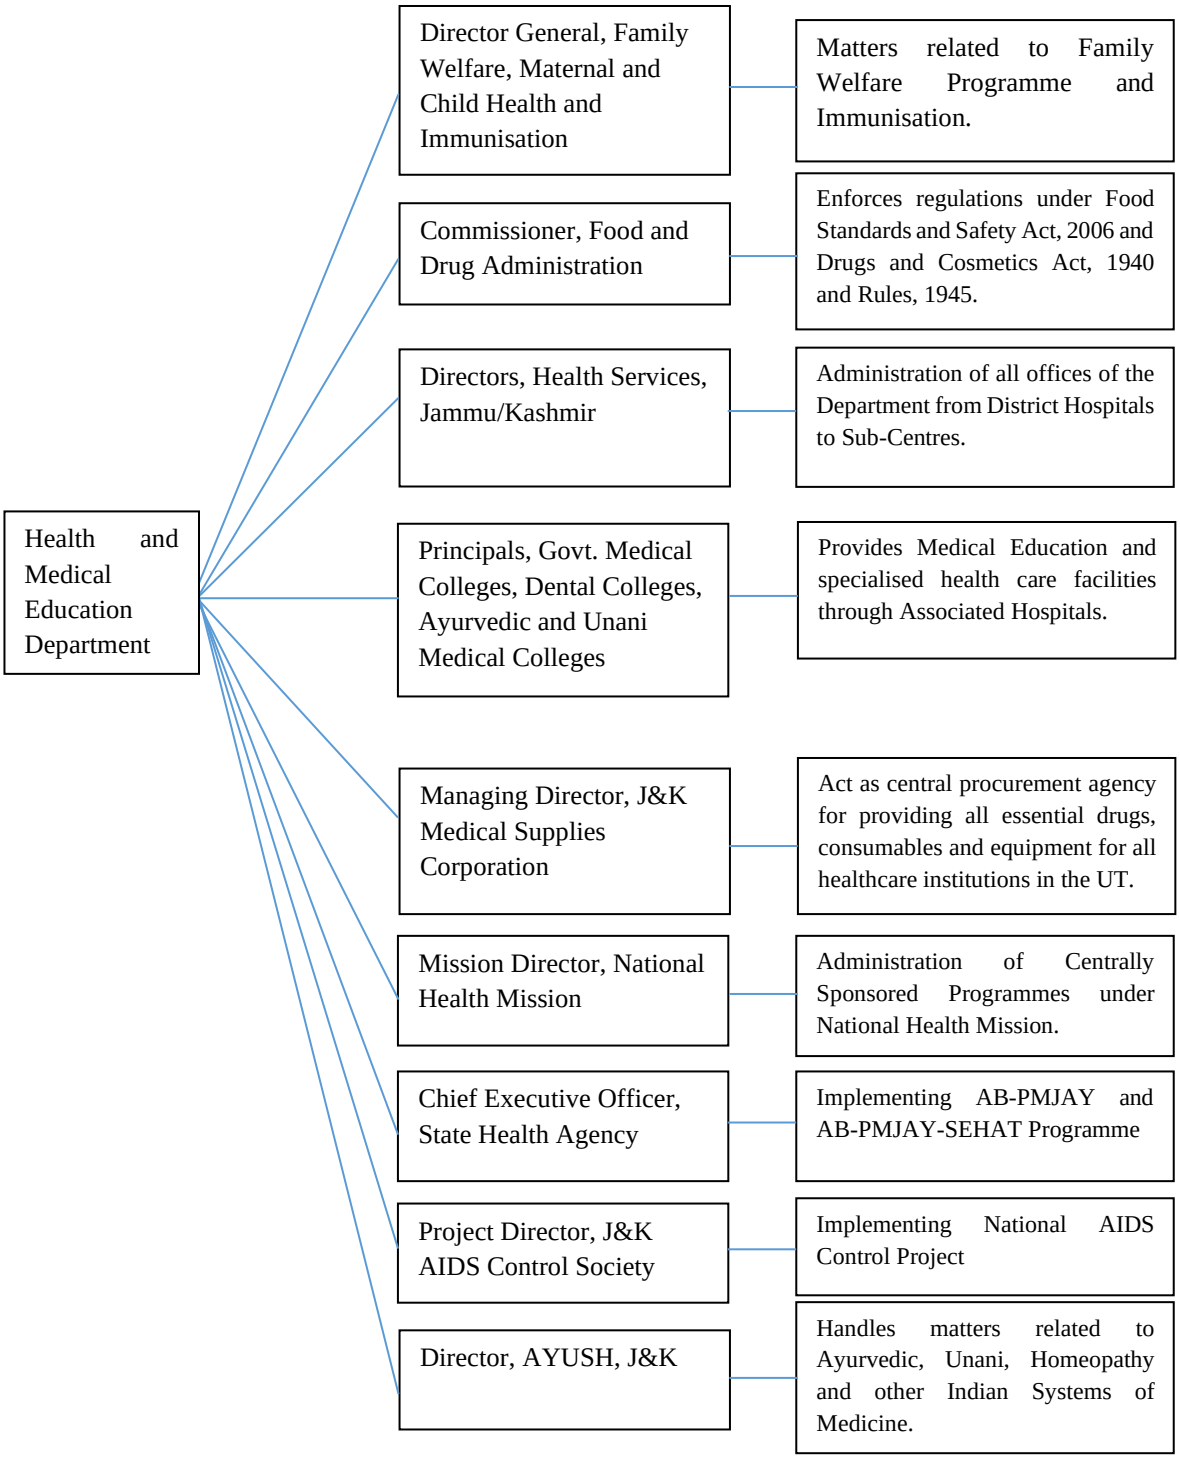
Line services ➢ Outdoor Patient Department ➢ Indoor Patient Department ➢ Emergency services ➢ Super Specialty (Operation Theatre, Intensive Care Unit) ➢ Maternity services ➢ Blood Bank ➢ Diagnostic services	***Support services*** ➢ Oxygen services ➢ Dietary services ➢ Laundry services ➢ Bio-Medical Waste Management ➢ Ambulance services ➢ Mortuary services
Auxiliary services ➢ Patient safety ➢ Patient registration ➢ Grievances/complaint redressal ➢ Stores	***Resource Management*** ➢ Building infrastructure ➢ Human Resource ➢ Drugs and Consumables ➢ Equipment

[2] excluding Union Territory of Ladakh

Given the importance of the health sector in Jammu and Kashmir, a Performance Audit (PA) on 'Public Health Infrastructure and Management of Health Services' (PHIMS) covering the period from 2016-17 to 2020-21 was conducted during December 2021 to December 2022. The information has been updated to 2021-22 (wherever applicable).

1.3 Organisational Setup

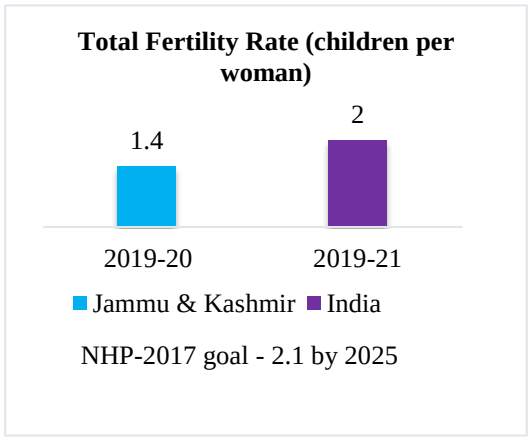
The organisational setup of the Health and Medical Education Department (H&MED) is as under:

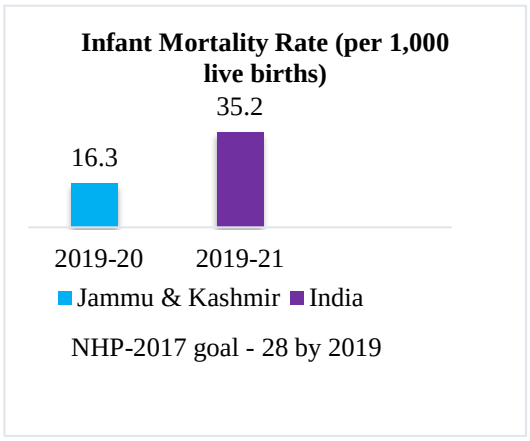


1.4 Status of Health Indicators in the UT of J&K

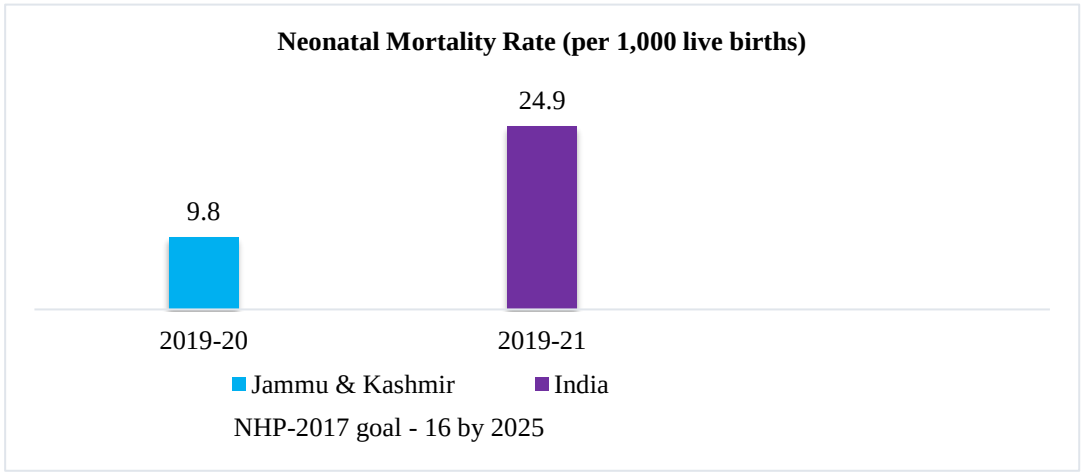
The healthcare services in a State/UT can be evaluated on the basis of the achievement against the benchmark of health indicators. Data of health indicators at an all-India level was depicted in the National Family Health Survey (NFHS-5) for the period 2019-21 whereas data of health indicators for Jammu and Kashmir was included in the said survey for the year 2019-20. The status of some important health indicators of UT of J&K *vis-a-vis* the national average and National Health Policy (NHP)-2017 goals is given in **Chart 1.2**.

Chart 1.2: Health Indicators in the UT of J&K





(Source: NFHS-5 (2019-20) for J&K, 2019-21 for India and NHP-2017)

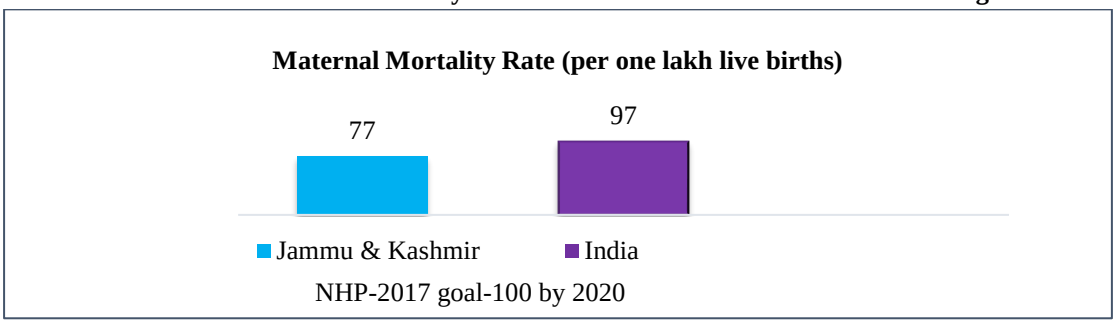


(Source: NFHS-5 (2019-20) for J&K, 2019-21 for India and NHP-2017)

The UT of J&K performed better in terms of IMR and NMR and achieved the targets of NHP-2017. Total Fertility Rate (TFR) (children per woman) in the UT was 1.4, whereas it was 2 at the national level and Infant Mortality Rate (IMR) was 16.3 against the national average of 35.2. Neonatal Mortality Rate (NMR) was 9.8, whereas it was 24.9 at the national level.

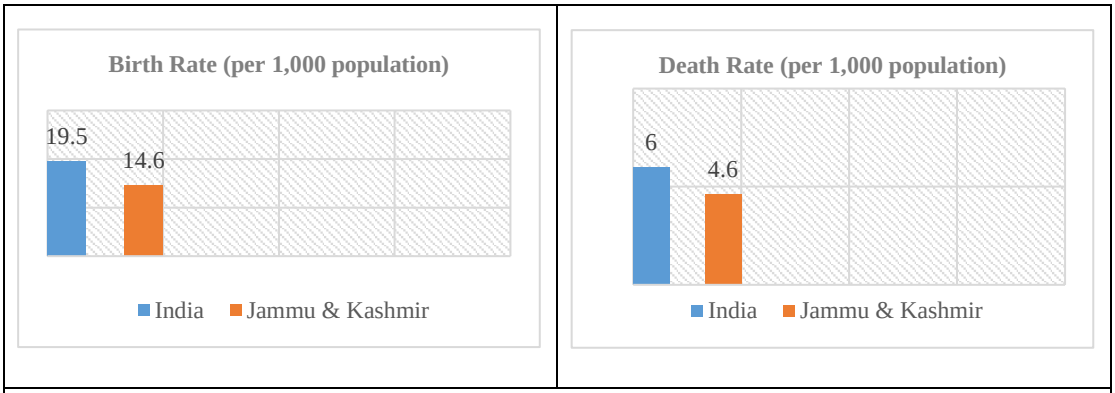
As per Sample Registration System (SRS) Bulletin 2018-20, Maternal Mortality Rate (MMR) of 77 in respect of UT of J&K was better than the national average of 97 as detailed in **Chart 1.3.**

Chart 1.3: Maternal mortality rate in the State/ UT *vis-a-vis* National average



The birth rate and death rate of a State/UT is also considered as one of the indicators for evaluation of healthcare services. A comparison of the birth rates and death rates of Jammu and Kashmir with the national average as per SRS Bulletin, 2020 is given in **Chart 1.4**.

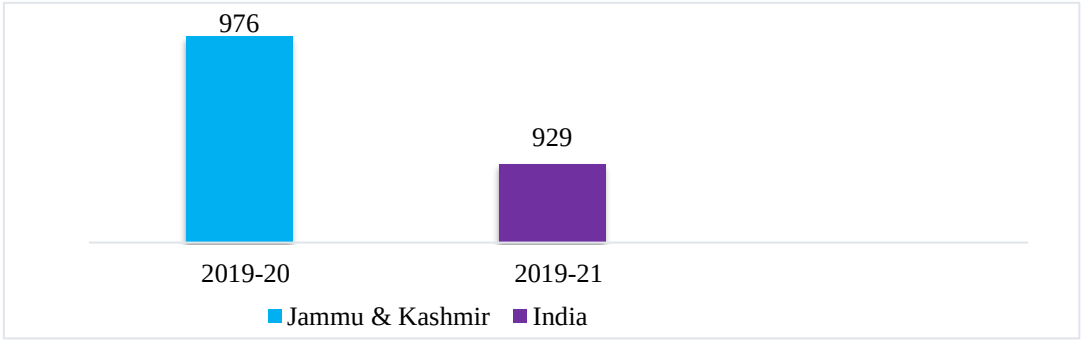
Chart 1.4: Comparison of birth/ death rate of Jammu and Kashmir with national average



(Source: SRS Bulletin, 2020)

The sex ratio at birth is a crucial index to determine how many females are born in comparison to males. Sex ratio at birth of children in the State/UT in 2019-20 and at the national level in 2019-21 are given in **Chart 1.5**.

Chart 1.5: Sex Ratio at birth for children born in the last five years (females per 1,000 males)



(Source: NFHS-5 (2019-20 for J&K and 2019-21 for India)

UT of J&K has a better sex ratio as compared to national average. Against the national average of 929 girl children born for every 1,000 boys as per NFHS-5 (2019-21), J&K has 976 girl children for every 1,000 boys as per NFHS-5 (2019-20).

1.5 Performance of UT of J&K in National Family Health Surveys

The National Family Health Survey provides information on population, health and nutrition for India and each State/ Union Territory (UT). Some of the important health indicators of J&K are given in **Table 1.1**.

Table 1.1: Performance of UT of J&K *vis-a-vis* India in important health indicators

Indicator	NFHS-4 (2015-16)		NFHS-5	
	J&K	India	J&K (2019-20)	India (2019-21)
Sex ratio of the total population (females per 1,000 males)	971	991	948	1020
Under-five mortality rate (U5MR)	37.6	49.7	18.5	41.9
Mothers who had an antenatal check-up in the first trimester (*per cent)*	76.7	58.6	86.6	70
Mothers who had at least 4 antenatal care visits (*per cent*)	81.2	51.2	80.9	58.1
Mothers whose last birth was protected against neonatal tetanus[3] (*per cent)*	87.3	89	91.9	92
Mothers who consumed iron folic acid for 100 days or more when they were pregnant (*per cent)*	30.2	30.3	29.8	44.1
Mothers who consumed iron folic acid for 180 days or more when they were pregnant (*per cent)*	16.7	14.4	15.9	26
Registered pregnancies for which the mother received a Mother and Child Protection (MCP) Card (*per cent)*	88.7	89.3	97.3	95.9
Mothers who received postnatal care from a doctor/nurse/LHV/ANM/midwife/other health personnel within 2 days of delivery (*per cent)*	74.7	62.4	84.2	78
Average out-of-pocket expenditure per delivery in a public health facility (₹)	4,225	3,197	5,145	2,916
Children born at home who were taken to a health facility for a check-up within 24 hours of birth (*per cent)*	1.0	2.5	3.3	4.2
Children who received postnatal care from a doctor/nurse/LHV/ANM/midwife/other health personnel within 2 days of delivery (*per cent)*	NA	NA	81.5	79.1
Institutional births (*per cent)*	85.5	78.9	92.4	88.6
Institutional births in public facility (*per cent)*	77.9	52.1	86.8	61.9

[3] Includes mothers with two injections during the pregnancy for their last birth, or two or more injections (the last within 3 years of the last live birth), or three or more injections (the last within 5 years of the last birth), or four or more injections (the last within 10 years of the last live birth), or five or more injections at any time prior to the last birth.

Indicator	NFHS-4 (2015-16)		NFHS-5	
	J&K	India	J&K (2019-20)	India (2019-21)
Home births that were conducted by skilled health personnel[4] (*per cent)*	2.2	4.3	3.0	3.2
Births attended by skilled health personnel (*per cent)*	87.4	81.4	95.1	89.4
Births delivered by Caesarean section (*per cent)*	33.4	17.2	41.7	21.5
Births in a private health facility that were delivered by caesarean section (*per cent)*	75.5	40.9	82.1	47.4
Births in a public health facility that were delivered by caesarean section (*per cent)*	35.5	11.9	42.7	14.3

	Health indicators above National average
	Health indicators below National average

(Source: NFHS 4 (2015-16) and NFHS 5 (2019-20 for J&K and 2019-21 for India)

(i) In NFHS-5 (2019-21), the performance of J&K was better than the National average for parameters like Under-five mortality rate (U5MR), mothers who had an antenatal check-up in the first trimester and mothers who had at least 4 antenatal care visits. The UT also featured better in the areas of institutional births, institutional births in public facility and births attended by skilled health personnel.

However, in the following areas the UT was below the national level: Sex ratio of the total population (females per 1,000 males) was 1,020 at the national level whereas in J&K, it was 948. Mothers whose last birth was protected against neonatal tetanus was marginally below the national level. Similarly, mothers who consumed iron folic acid tablets for 100 days and 180 days were also below the national level. Average out-of-pocket expenditure per delivery in a public health facility in J&K was higher than the national average. Moreover, births delivered by Caesarean section in public and private health facilities were higher than the national level.

(ii) Performance of J&K in NFHS-5 (2019-20) in comparison to the previous survey, i.e. NFHS-4 (2015-16) improved for parameters like Under-five mortality rate (U5MR), mothers who received antenatal check-up in the first trimester, institutional births, births attended by skilled health personnel. The performance also deteriorated on many health indicators such as sex ratio of the total population (females per 1,000 males), mothers who consumed iron folic acid for 100 days and 180 days or more when they were pregnant also decreased marginally. Further, the average out-of-pocket expenditure per delivery in a public health facility has risen from ₹ 4,225 to ₹ 5,145 while the number of births delivered by Caesarean section in public as well as private health facilities has increased.

[4] Doctor/ Nurse/ LHV/ ANM/ midwife/ other health personnel.

1.6 Audit Objectives

The National Health Policy (NHP) 2017 builds on the progress made in 14 years since the last NHP came out in 2002. The context had changed in four major ways:

- First, although maternal and child mortality have rapidly declined, there is a growing burden on account of non-communicable diseases and some infectious diseases.
- The second important change is the emergence of a robust healthcare industry estimated to be growing at double digit.
- The third change is the growing incidences of catastrophic expenditure due to healthcare costs, which are presently estimated to be one of the major contributors to poverty.
- Fourth, rising economic growth enables enhanced fiscal capacity.

Therefore, National Health Policy (NHP) was adopted to respond to these contextual changes. The primary aim of NHP 2017 is to inform, clarify, strengthen and prioritise the role of the Government in shaping health systems in all its dimensions.

Considering the goals laid down in NHP 2017 and experience in COVID-19 pandemic, it has become crucial to assess the adequacy of financial resources, availability of health infrastructure, manpower, machinery and equipment in the health institutions, as well as efficacy in the management of health services in the Union Territory (UT), through existing policy interventions and look at the scope for further improvement.

Thus, to ensure timely and systematic corrections, a Performance Audit (PA) on the Public Health Infrastructure and Management of Health Services in the UT of Jammu and Kashmir was taken up.

The objective of the Performance Audit is to provide a holistic view of the healthcare sector in the UT of J&K, i.e. a macro picture using State-level information and data and a micro-picture arising from detailed audit analysis/ findings on maintenance of infrastructure and delivery of healthcare services. This has been done by assessing the following:

- The availability of the necessary human resources at all levels, e.g. doctors, nursing, paramedics, etc;
- The availability of drugs, medicines, equipment and other consumables;
- The availability and management of healthcare infrastructure;
- Adequacy of the funding for healthcare;
- The funding and spending under various schemes of the Government of India;

- The adequacy and effectiveness of the regulatory mechanisms for ensuring that quality healthcare services are provided in/ by the public/ private healthcare institutions/ practitioners; and

- Whether Government spending on health has improved the health and well-being conditions of the people as per SDG-3.

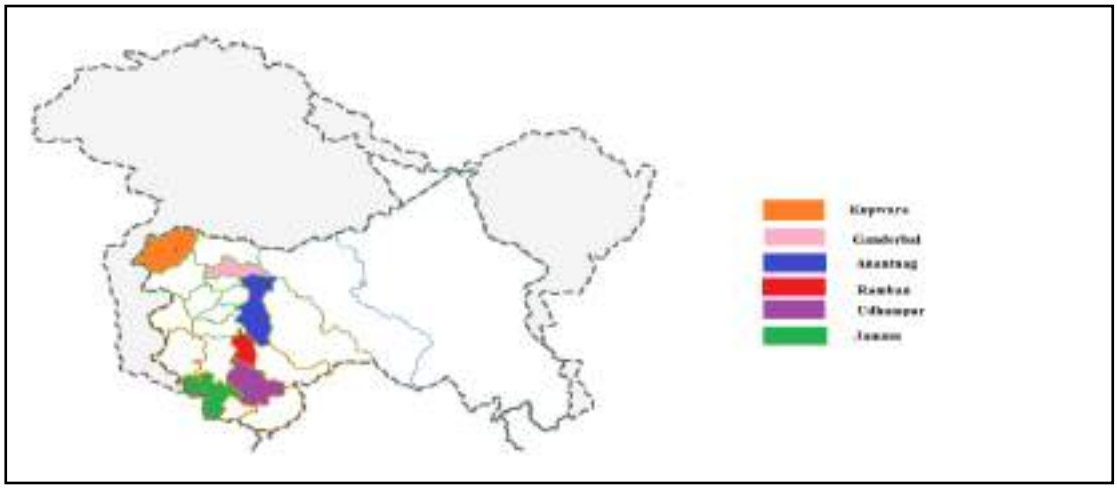
1.7 Audit Scope and Methodology

The Performance Audit covering the period from 2016-17 to 2020-21 was conducted from December 2021 to December 2022 and wherever feasible, the data has been updated up to 2021-22. The audit scope covered the healthcare facilities (both Allopathic and AYUSH) at primary, secondary and tertiary levels by scrutinising the records of the Administrative Department, Mission Director, National Health Mission; Director General Family Welfare, Maternal and Child Health (MCH) and Immunisation; three[5] Directors; Managing Director, Jammu and Kashmir Medical Supplies Corporation Limited (JKMSCL); State Drug Controller (SDC) including Drug Testing Laboratories; two[6] Principals; Medical Superintendents concerned; Chief Medical Officers; District AYUSH Officers and Block Medical Officers (BMOs). Previously Performance Audit of National Rural Health Mission, Jammu Division (Paragraph 2.1 of Report No. 01 of the year 2017) and Performance Audit of National Rural Health Mission, Kashmir Division (Paragraph 2.2 of Report No. 03 of the year 2018) were published in the CAG's Audit Report highlighting the issues of financial management, infrastructure and availability of human resources. The above reports were not discussed in Public Accounts Committee as of March 2022.

Selection of offices/ healthcare institutions for scrutiny of records was conducted at two stages. In Stage-I, six[7] out of 20 Districts of UT of J&K were selected by applying the sampling method of Probability Proportional to Size Without Replacement (PPSWOR). In Stage-II, Sub-Centres (SCs), Primary Health Centres (PHCs) and AYUSH Dispensaries/ units were sampled by applying the method of Simple Random Sampling Without Replacement (SRSWOR) in respect of six selected Districts as detailed in **Chart 1.6.** In respect of tertiary level health institutions, nine out of 19 were selected by judgmental sampling in the capital cities of Srinagar and Jammu. Districts selected for field audit in UT of J&K are depicted in **Map 1.1**.

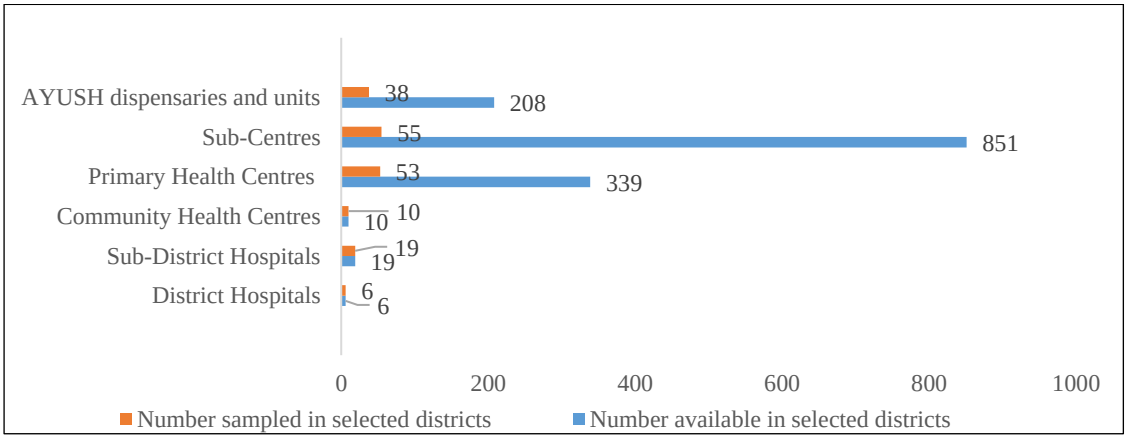
5 Directors Health Services, Kashmir and Jammu and Director, AYUSH, Jammu and Kashmir.
6 Principals Government Medical Colleges, Srinagar and Jammu.
7 Anantnag, Ganderbal, Jammu, Kupwara, Ramban and Udhampur.

Map 1.1: Districts selected for field audit in UT of J&K



The details of the number of health institutions in the selected Districts and the number of sampled health institutions are given in **Chart 1.6**.

Chart 1.6: Number of health institutions in selected Districts as of March 2022 and number of sampled HIs



The list of sampled[8] health institutions (HIs) is given in ***Appendix 1.1***.

The audit methodology involved scrutiny of records/ documents, eliciting response to audit queries, collection of information through questionnaires/ proformas as well as survey of doctors and patients for end-user satisfaction. Apart from that, joint physical inspection of assets of HIs, stores and civil works was also conducted.

An entry conference was held (December 2021) with the Additional Chief Secretary, H&MED, Jammu and Kashmir wherein the audit objectives, audit criteria, audit scope

[8] After selection of the sample, SDH Achabal (May 2022) and PHC Kanalwan (February 2022) were found to be non-functional at a later stage. As such, 18 SDHs and 52 PHCs were test-checked. Out of selected nine hospitals providing specialised services, only seven were test-checked. Further, the DH, Anantnag was designated as 300-bedded District Hospital Vide G.O. No. 298-HME of 2018 dated 24.04.2018 and the administrative control of DH, Anantnag was transferred to Govt. Medical College, Anantnag vide G.O. No. 753-HME of 2019 dated 05.08.2019. However, for the purpose of data collection, it was treated as DH, Anantnag. In order to cover the maternity services in District Anantnag, the data from Maternal and Child Care Hospital (MCCH), Anantnag was obtained as the maternity services were not available in DH, Anantnag.

and methodology were discussed.

The exit conference was held (October 2023) with the Administrative Secretary, H&MED, Jammu & Kashmir wherein the audit findings were discussed. The Administrative Secretary, H&MED acknowledged the audit findings.

1.7.1 Doctors'/ patients' survey

A survey of 77 doctors, 1,545 Outpatient Department (OPD) patients and 574 In-patient Department (IPD) patients, selected on random basis, was conducted during the performance audit in order to obtain feedback from doctors and patients. The outcome of the survey has been depicted in **Chapter III**.

1.8 Audit Criteria

The PA was benchmarked against criteria derived from the following sources:

- Indian Public Health Standards, 2012;
- National Health Policy, 2017;

1.9 Consideration of Ayushman Bharat in this Report

Ayushman Bharat (AB), the flagship health scheme of the Government of India, was launched in September 2018 to achieve Universal Health Coverage as recommended in the National Health Policy, 2017. AB adopts a continuum of care approach, comprising two inter-related components which are detailed in **Table 1.2**.

Table 1.2: Components of Ayushman Bharat

Health and Wellness Centres (HWCs)	• Transform existing 1,50,000 Sub-Centres and Primary Health Centres into HWCs. • Delivery of Comprehensive Primary Health Care (CPHC) including free essential drugs and diagnostic services covering maternal and child health services and non-communicable diseases. • Operationalise 12,500 Health and Wellness Centres under AYUSH in a phased manner during 2019-20 to 2023-24.
Pradhan Mantri Jan Arogya Yojana (PM-JAY)	• Provides a cover of ₹ 5 lakh per family per year for secondary and tertiary care hospitalisation in public and private empaneled hospitals in India. • Over 10.74 crore poor and vulnerable families (approximately 50 crore beneficiaries) are eligible for these benefits. • Provides cashless access to healthcare services for the beneficiary at the point of service, that is, the hospital. • Services include approximately 1,393 procedures covering all the costs related to treatment, including but not limited to drugs, supplies, diagnostic services, physician's fees, room charges, surgeon charges, OT and ICU charges etc. • In order to provide the benefits of AB PM-JAY to all residents of Jammu and Kashmir (more than 20 lakh families), a scheme by the name of AB PM-JAY SEHAT was launched on 26 December 2020.

The State Health Agency (SHA), a society registered under the J&K Societies Registration Act, 1941 has been implementing PMJAY for poor and vulnerable families since 2018. After the launch of PM-JAY SEHAT in December 2020, the scheme is being implemented by the SHA for all beneficiaries of Jammu and Kashmir under PM-JAY SEHAT. In the UT of J&K, 207[9] Public and Private Hospitals were empaneled with AB-PM-JAY/ AB- PM-JAY SEHAT as on January 2023.

As per the Beneficiary Identification System[10] (BIS) data, there were 102.45 lakh beneficiaries under PM-JAY/ PM-JAY SEHAT under 25.72 lakh families as of March 2022. In order to avail the benefits under PM-JAY/ PM-JAY SEHAT, these beneficiaries were required to get themselves registered under these schemes. Out of 102.45 lakh beneficiaries, 66.11 lakh (65 *per cent*) beneficiaries were registered under PM-JAY/ PM-JAY SEHAT as on 31 March 2022. Coverage of beneficiaries across districts is detailed in **Table 1.3**.

Table 1.3: Coverage of Beneficiaries across districts under PM-JAY/ PM-JAY SEHAT (as on 31 March 2022)

Sl. No.	Name of District	Total number of beneficiaries	Total number of beneficiaries registered	Percentage of registered beneficiaries
1.	Anantnag	7,87,365	5,25,857	66.78
2.	Bandipora	3,43,622	2,13,879	62.24

(Source: State Health Agency)

An All-India Performance Audit of PM-JAY in which Jammu and Kashmir was one of the sampled States/ UTs was conducted for the period up to March 2021. In the current Report, audit findings regarding infrastructure relating to Health and Wellness Centres (HWCs) have been included in **Chapter-V**.

1.10 Acknowledgement

Audit acknowledges the cooperation of the Government of Jammu and Kashmir (GoJ&K). Audit also appreciates the assistance provided by the field functionaries of the Department of Health and Medical Education for smooth conduct of audit.

1.11 Organisation of audit findings

The audit findings, conclusions and recommendations relating to the audit objectives have been reported in the succeeding chapters as detailed below:

Chapter-II	Human Resources
Chapter-III	Healthcare Services
Chapter-IV	Availability of drugs/medicines, equipment and other consumables

Chapter-V	Healthcare Infrastructure
Chapter-VI	Financial Management
Chapter-VII	Implementation of Centrally Sponsored Schemes
Chapter-VIII	Adequacy and effectiveness of regulatory mechanisms
Chapter-IX	Implementation of Sustainable Development Goal-3

CHAPTER-II
HUMAN RESOURCES

CHAPTER-II

Human Resources

2.1 Introduction

The health workforce can be defined as "all people engaged in actions whose primary intent is to enhance health". The health workforce includes staff that provide health services such as doctors, nurses etc. as well as administrative and support staff that do not deliver services directly but are essential to the performance of the health systems.

Availability of manpower and related issues have been discussed in the succeeding paragraphs.

2.2 Human Resources in the erstwhile State/ UT

Delivery of quality healthcare services in hospitals largely depends on adequate availability of doctors, nurses, paramedical and other supporting staff. Availability of human resources (including AYUSH) in the erstwhile State/UT of J&K during the period 2016-22 is detailed in **Table 2.1**.

Table 2.1: Sanctioned/ effective strength of human resources in the State/ UT

Year	Sanctioned strength					Effective strength				
	Doctors	Nurses	Paramedical staff	Other supporting staff	Total	Doctors	Nurses	Paramedical staff	Other supporting staff	Total (percentage shortfall)
2016-17	8,373	3,874	12,780	14,084	39,111	4,743	2,955	9,612	9,283	26,593 (32)
2017-18	8,522	3,874	12,764	14,143	39,303	4,933	3,042	9,471	8,346	25,792 (34)
2018-19	9,991	4,396	13,524	15,841	43,752	5,575	3,179	9,657	8,688	27,099 (38)
2019-20	9,820	4,707	11,563	15,509	41,599	6,096	3,288	8,118	8,191	25,693 (38)
2020-21	9,841	4,793	13,800	16,163	44,597	6,093	3,471	9,036	8,534	27,134 (39)
2021-22	9,886	4,837	13,897	17,495	46,115	5,926	3,389	11,021	10,409	30,745 (33)

(Source: Figures provided by the Administrative Department)

It may be seen from **Table 2.1** that there was overall shortfall ranging between 32 *per cent* and 39 *per cent* in human resources during the period 2016-17 to 2020-21. However, the shortfall decreased to 33 *per cent* in 2021-22 from 39 *per cent* in 2020-21 mainly due to increase in paramedical and other supporting staff.

In addition to the above, 3,292 personnel were outsourced as of March 2022 under various categories such as security staff, sanitary workers, data entry operators, unskilled attendants, drivers, sweepers etc. in respect of both allopathy and AYUSH services in the UT of J&K.

The availability of staff under various categories in various health institutions (HIs) as of March 2022 is given in **Table 2.2**.

Table 2.2: Staff strength in various types of health institutions as of March 2022

Health Institutions	Doctors			Nurses			Paramedics			Others

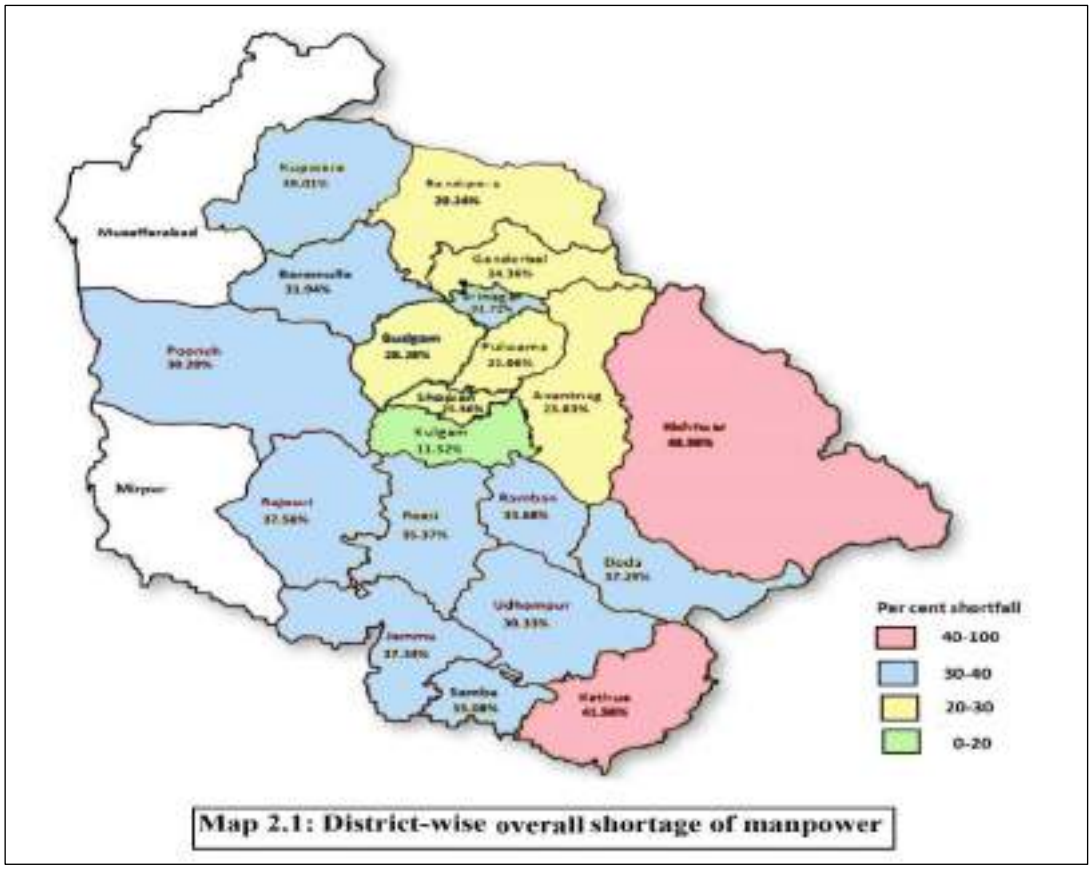
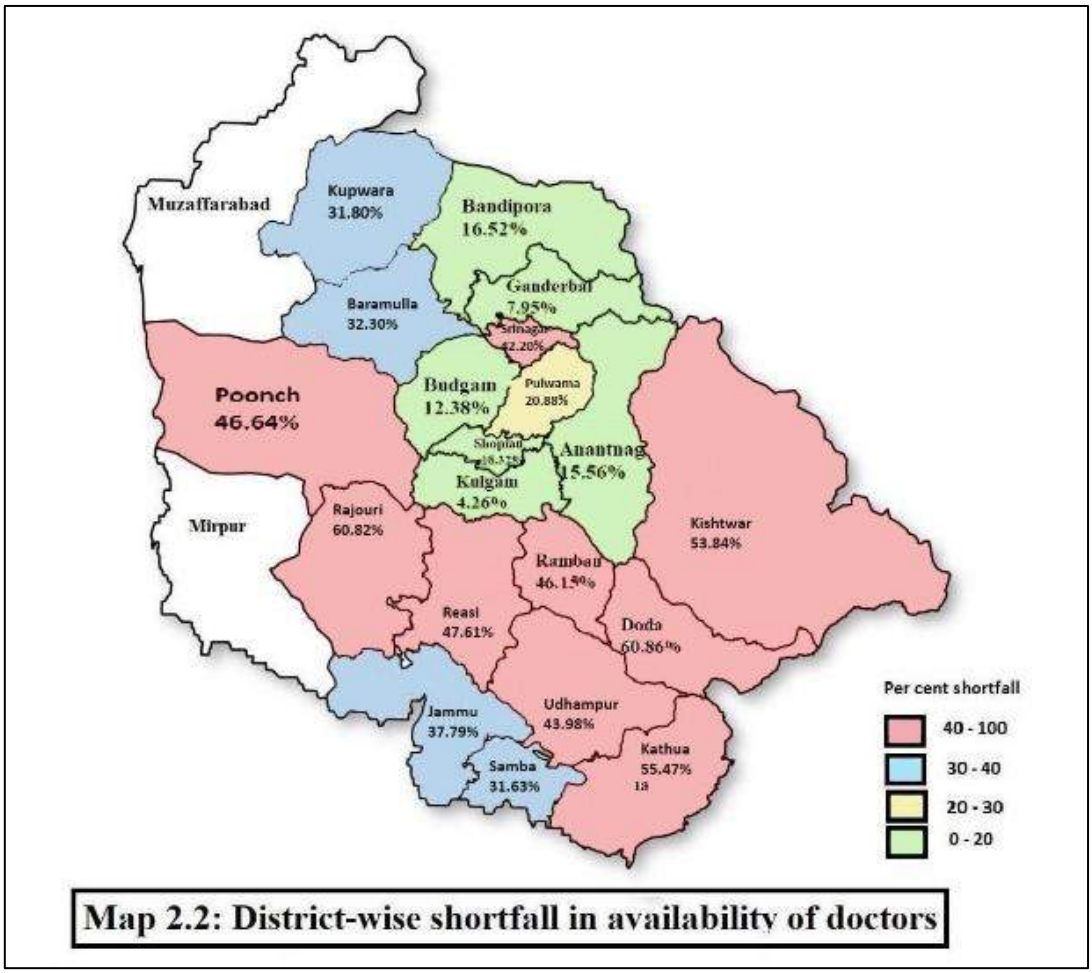
(Source: Information furnished by HIs/CMOs/BMOs etc.)
SS: Sanctioned Strength; PIP: Person-in- Position; SF: Shortfall. Figures in brackets indicate percentage

It may be seen that the figures furnished by the health institutions for the year 2021-22 differ from those in Table 2.1 (as provided by the Administrative Department). The matter of reconciliation of data of these two tables was taken up with the Department; despite repeated reminders, the response was awaited (January 2025).

As detailed in **Table 2.2**, there was overall shortfall of 32.63 *per cent* in human resources under the HIs of the UT of J&K. The details of district-wise shortfall in human resources as of March 2022 as compared with the sanctioned strength are shown in **Maps 2.1 to 2.5**.



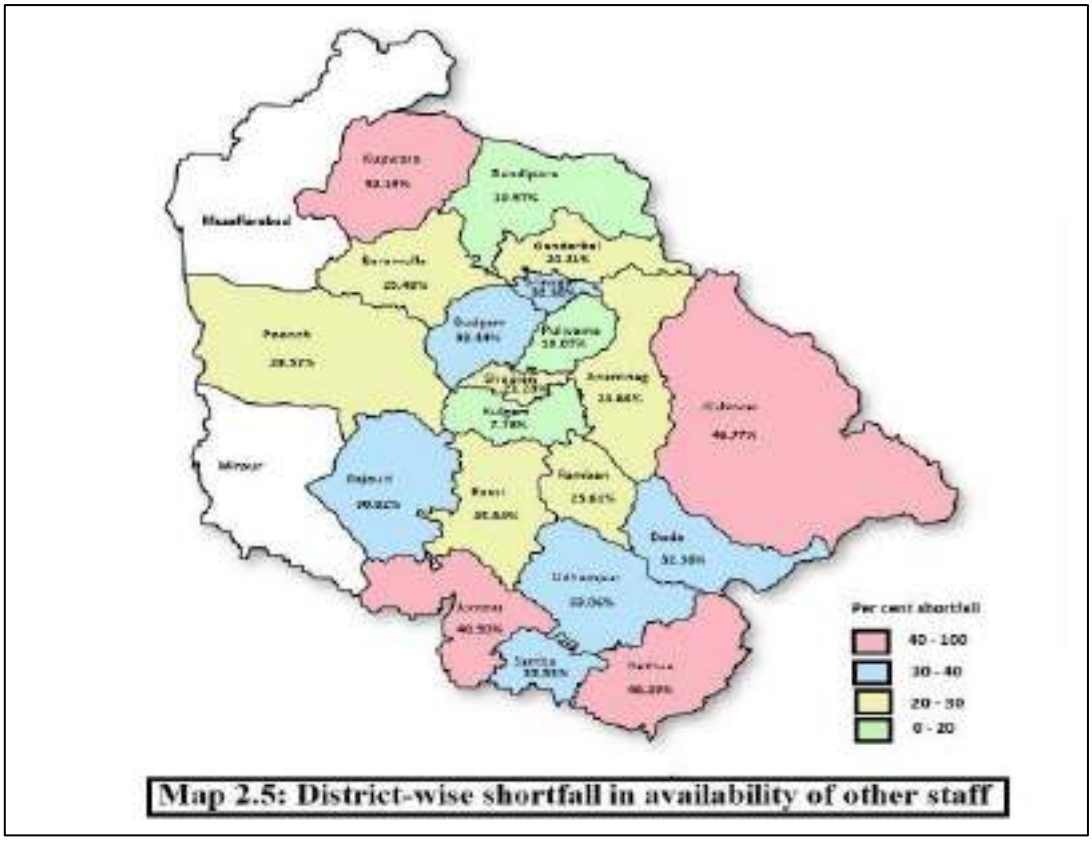
Map 2.1: District-wise overall shortage of manpower



Map 2.2: District-wise shortfall in availability of doctors

Map 2.3: District-wise shortfall in availability of nursing staff

Map 2.4: District-wise shortfall in availability of paramedical staff



Map 2.5: District-wise shortfall in availability of other staff

It is evident from **Maps 2.1 to 2.5** that the distribution of available manpower in the 20 districts of Jammu and Kashmir was not uniform as detailed below:

- Shortfall of overall manpower was lowest (11.52 *per cent*) in Kulgam District and highest (43.55 *per cent*) in Kishtwar District.
- It was observed that posts of doctors were lying vacant in all the districts. Shortfall in the category of doctors was more than 40 *per cent* in nine districts[1]. It was lowest (4.26 *per cent*) in Kulgam District and highest (60.86 *per cent*) in Doda District.
- Shortfall in the category of nursing staff was more than 40 *per cent* in four districts[2]. It was lowest (10.71 *per cent*) in Kishtwar District and highest (56.60 *per cent*) in Budgam District.
- Shortfall in the category of paramedical staff was more than 40 *per cent* only in Reasi District (43.03 *per cent*) while it was lowest (14 *per cent*) in Udhampur District.
- Shortfall in the category of other staff was more than 40 *per cent* in four districts[3]. It was lowest (7.78 *per cent*) in Kulgam District and highest (52.19 *per cent*) in Kupwara District.

1 Doda, Kathua, Kishtwar, Poonch, Rajouri, Ramban, Reasi, Srinagar and Udhampur
2 Baramulla, Budgam, Samba and Shopian
3 Jammu, Kathua, Kishtwar and Kupwara

This shows a skewed distribution of available manpower across districts.

The details of vacancies of doctors, nurses and paramedical staff referred by H&MED to J&K Public Service Commission (JKPSC) and J&K Services Selection Board (JKSSB) and recruitment made during 2016-22 are given in **Table 2.3**.

Table 2.3: Details of posts referred and recruitments made during 2016-22

Year	Doctors			Nurses			Paramedical staff		
	Posts referred	Recruitments made	Vacancy at the end of the year	Posts referred	Recruitments made	Vacancy at the end of the year	Posts referred	Recruitments made	Vacancy at the end of the year
2016-17	380	146	3,630	292	88	919	47	380	3,168
2017-18	629	404	3,589	69	2	832	102	60	3,293
2018-19	1,060	1,437	4,416	590	0	1,217	490	15	3,867
2019-20	32	21	3,724	80	575	1,419	214	211	3,445
2020-21	926	637	3,748	496	0	1,322	292	11	4,764
2021-22	585	171	3,960	25	0	1,448	392	0	2,876
Total	**3,612**	**2,816**	**-**	**1552**	**665**		**1,537**	**677**	

(Source: Information furnished by JKPSC/ JKSSB)

The **Table 2.3** indicates that 2,816 doctors, 665 nurses and 677 paramedical staff were recruited during 2016-22. However, even after the recruitments, there was shortage of 3,960 (40 *per cent*) doctors, 1,448 (30 *per cent*) nurses and 2,876 (21 *per cent*) paramedical staff as of March 2022 as also indicated in **Table 2.1**.

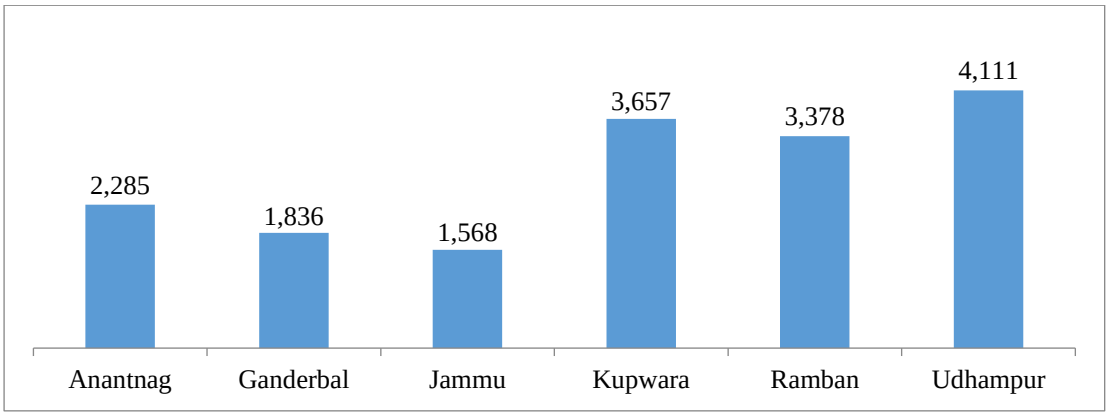
2.3 Doctor Population Ratio

As per 2011 Census, population of UT of Jammu and Kashmir was 1,22,67,013[4]. World Health Organisation (WHO) prescribes norm of one doctor per thousand population.

As of March 2022, one Government doctor[5] was serving a population of 2,191 (2,461 in case of allopathic doctors) in the UT of J&K. The ratio of availability of doctor was better than the States of Haryana (4,081 doctors for 2.51 crore people i.e. one allopathic doctor per 6,212 persons) and Punjab (one allopathic doctor for 6,390 persons). The availability of Government doctors at district level was not uniform in the selected six Districts, and it varied from as low as one Government doctor for 1,568 people in Jammu District to as high as one Government doctor for 4,111 people in Udhampur District as depicted in **Chart 2.1**.

[4] After excluding the population of UT of Ladakh as per Census-2011.
[5] Audit examined availability of only Government doctors per thousand population.

Chart 2.1: Population per Government doctor in the selected Districts



2.4 Human Resources under AYUSH

Against the sanctioned strength of 1,533 personnel[6] in the Directorate of AYUSH (DoA) in the UT, the effective strength was 1,222 (shortage of 20 *per cent*) as of March 2022. There was, however, variation in the sanctioned and effective strength in respect of data provided by the DoA and information provided by the District AYUSH Officers and concerned Medical Superintendents as detailed in **Table 2.4.**

Table 2.4: Variation in sanctioned and effective strength of staff

Particulars	Sanctioned strength of staff		Variation	Effective strength of staff		Variation
	as provided by DoA	as compiled by Audit		as provided by DoA	as compiled by Audit	
Medical Officers, Pharmacists, Nurses and Nursing Orderlies	1,423	1,409	14	1,137	1,141	4
Other staff[7]	110	110	Nil	85	85	Nil
Total	**1,533**	**1,519**	**14**	**1,222**	**1,226**	**4**

(Source: Information provided by the DoA and concerned HIs)

Reasons for variation in sanctioned and effective strength of staff between data furnished by DoA and data furnished by District AYUSH Officers and concerned Medical Superintendents were not furnished by DoA.

(A) AYUSH Dispensaries (ADs) are the independent basic/ primary healthcare institutions in AYUSH sector providing preventive, promotive and curative AYUSH healthcare services whereas AYUSH Units[8] (AU) are secondary level AYUSH institutions. The AUs also provide specialised procedures like

6 Includes Medical Officers, Pharmacists, Nursing staff, Administrative staff etc.

7 Includes Director AYUSH, Dy. Directors, Assistant Directors, Accounts Officer, A&B Grade Specialists, Junior/Senior Assistants etc.

8 AYUSH units are typically smaller and offer more limited range of services.

Ksharsutra/ Panchkarma/ Regimenal therapies[9] in addition to the preventive, promotive, curative and rehabilitative services. The AYUSH units are functioning on co-location basis within the Allopathic HIs.

The structure of manpower in an AYUSH Dispensary (AD) is one Medical Officer (MO), one Pharmacist and one Nursing Orderly (NO). The manpower requirement is at least one MO for AYUSH units (AUs).

The position of sanctioned and effective strength as on March 2022 of MOs, Pharmacists and NOs in 602 (ADs: 571 and AYUSH units: 31) HIs is given in **Table 2.5**.

Table 2.5: Position of Manpower in ADs, AUs and AYUSH Hospitals

Category	Sanctioned strength			Effective strength			Shortage (-)/Excess (+)		
	AD	AU	AYUSH Hospitals	AD	AU	AYUSH Hospitals	AD	AU	AYUSH Hospitals
Medical Officers (MO)	578	68	18	540	56	18	(-) 38 (7 *per cent*)	(-) 12 (18 *per cent*)	Nil
Pharmacists	573		2	410		2	(-) 163 (28 *per cent*)		Nil
Nurses	-		3	-		3	-		Nil
Nursing Orderly/ other staff	144		23	98		14	(-) 46 (32 *per cent*)		9
Total	**1,363**		**46**	**1,104**		**37**	**(-) 259 (19 *per cent*)**		**9**

(Source: Information furnished by District AYUSH/Nodal Officers, concerned AYUSH Hospitals)

Audit observed that:

- Adequate number of MOs were posted in ADs, AUs and AYUSH Hospitals. However, out of 602 HIs, MOs in 40 ADs and three AYUSH units were not available.

- In 195 ADs, there was no sanctioned strength of Pharmacists whereas in remaining 376 ADs, 573 posts of Pharmacists were sanctioned against which only 410 Pharmacists were in position. In 79 ADs, no Pharmacist was posted despite having sanctioned posts.

- In two[10] AYUSH Hospitals, there was no shortage of MOs, Nurses and Paramedics against the sanctioned posts. However, against the sanctioned strength of 23 other staff, there was shortage of nine personnel.

[9] *Ksharsutra Therapy*: It is an effective treatment for piles; *Panchkarma Therapy*: The therapy involves five actions that helps in cleansing the body of accumulated toxins; Regimenal Therapy: It is a special technique of treatment to improve the constitution of the body by removing waste materials and improving the defence mechanism of the body.

[10] Govt. Ayurvedic Hospital, Jammu and Govt. Unani Hospital, Shalteng Srinagar

In respect of 38 sampled ADs, Audit noticed that as of March 2022:

- Against the sanctioned strength of 38 Medical Officers, 38 Pharmacists and eight Nursing Orderlies there were 37 Medical Officers, 33 Pharmacists and 5 Nursing Orderlies were available.

- Posts of Pharmacist and Nursing Orderly was not sanctioned in 16 and 30 ADs respectively.

- Although having sanctioned posts three[11] and two[12] ADs were without MOs and Pharmacists respectively, while in three[13]ADs, Nursing Orderly were not posted against the sanctioned posts.

The Chief Accounts Officer, Directorate of AYUSH, J&K stated (January 2025) that 30 Medical Officers selected by JKPSC have been posted in those HIs which were without MOs. Moreover, vacancies of 37 MOs have also been referred to JKPSC for filling up on priority basis. Further, 115 posts of Pharmacists and 59 posts of MTS (Nursing Orderlies) have been referred to JKSSRB. Moreover, Multipurpose Workers and Unskilled Attendants have been hired on outsourcing basis for filling the gap of paramedical staff.

(B) Under Ayushman Bharat scheme, ASHAs were required to be attached with AYUSH Health and Wellness Centres (AH and WCs) at the norm of one per 1,000 population to ensure *Prakriti*[14] analysis of individuals above 18 years of age, regular Yoga at these Centres, referral and follow-up care of patients. Audit observed that against
317 approved AH and WCs, ASHAs were attached with only 141 AH and WCs as of March 2022.

- Yoga Instructors were to be engaged on part-time basis in all AH and WCs. Against the requirement of 317 Yoga Instructors for AH and WCs, the Department had deployed (March 2022) only 216 Yoga Instructors.

The Chief Accounts Officer, Directorate of AYUSH, J&K stated (January 2025) that in 523 AH and WCs, services of 2,401 ASHAs are being utilised. It was further stated that 20 Yoga Instructors have left the job and presently 196 Yoga Instructors are working. However, Yoga trainings have been imparted to Medical Officers and Pharmacists/ support staff for ensuring availability of Yoga services in all AH and WCs.

11 N.P. Grain, Khail Seer Mangla and Mahu
12 Mahu and Khanwdwal
13 Ranipora, Hapatnard, Bamloora
14 *Prakriti* analysis is Ayurveda's unique way of determining a body type for an individual

2.5 Human Resources in Drug and Food Control Organisation

Drug and Food Control Organisation plays a vital role in providing safe and quality drugs to the consumers/ patients and in making safe and hygienic quality food articles available to the public. Audit, however, noticed that against 239 sanctioned posts, only 156 personnel were in position as on March 2022, indicating a shortage of 35 *per cent* in manpower. Significant shortage of 53 *per cent* was noticed in Combined Food and Drug Laboratory, Jammu as detailed in **Table 2.6.**

Table 2.6: Position of manpower in Drug and Food Control Organisation

Name of the DDO	Sanctioned strength	Effective strength	Shortage (-)/Excess (+)
Controller, Drug and Food Control Organisation	31	22	(-) 9 (29 *per cent*)
Dy. Controller, Jammu	61	41	(-) 20 (33 *per cent*)
Dy. Controller, Kashmir	65	51	(-) 14 (22 *per cent*)
Combined Food and Drug Laboratory, Jammu	38	18	(-) 20 (53 *per cent*)
Drug Laboratory, Kashmir	44	24	(-) 20 (45 *per cent*)
Total	**239**	**156**	(-) 83 (35 *per cent*)

(Source: Information furnished by State Drugs Controller, J&K)

Shortage of staff in Drug and Food Control Organisation adversely affected the functioning of the organisation in discharging its duties as discussed in **Chapter VIII** of this report.

The State Drugs Controller, Drug and Food Control Organisation Jammu and Kashmir stated (January 2025) that all the direct quota vacancies of various category of posts have been referred to Administrative Department from time to time for further referral to the respective recruiting agencies.

2.6 Human Resources in Jammu Kashmir Medical Supplies Corporation Limited

Jammu and Kashmir Medical Supplies Corporation Ltd. (JKMSCL) was established (May 2013) to improve the health scenario in J&K by facilitating purchase and distribution of quality and affordable medicines and equipment through a rigorous procurement process. The position of availability of manpower in JKMSCL as of March 2022 is given in **Table 2.7**.

Table 2.7: Availability of manpower in JKMSCL

Number of employees posted in JKMSCL	Employees whose salary drawn on sanctioned strength of JKMSCL	Employees deployed from sister offices on temporary basis	Outsourced Employees
188	22	70	96

(Source: information furnished by JKMSCL)

A total of 188 personnel were deployed in various offices of the company. Out of these employees, 70 employees were temporarily deployed from various Departments/ HIs from where they were drawing their salary and 96 employees were outsourced.

On the recommendations (October 2014) of the Establishment Committee for creation of 48 additional posts viz, Company Secretary, Programmer/ System Administrator, Deputy General Managers, Data Entry Operators/ Computer Assistants etc. for JKMSCL, the Board of Directors of JKMSCL authorised (October 2018) the Managing Director of JKMSCL to get the proposal vetted by the Finance Department.

The Department stated (November 2023) that the matter regarding seeking concurrence of the Finance Department regarding creation of 48 posts was taken up with the Administrative Department from time to time, however no response was received till date.

The Financial Advisor/ CAO, JKMSCL stated (January 2025) that no response was received from the concerned Department of creation of 48 posts.

2.7 Human Resources under NHM

To overcome shortage of staff, supplementary manpower was also engaged under NHM for implementation of several schemes. The availability of staff under NHM including AYUSH staff in J&K during the period 2016-22 is given in **Table 2.8**.

Table 2.8: Availability of staff under NHM in J&K

Year	Medical Officers		Staff Nurses		Paramedical staff		Other staff

(Source: Information furnished by NHM, J&K)

The position depicted in the T**able 2.8** indicates that shortage of Medical Officers was ranging between 12 *per cent* and 19 *per cent* during 2016-17 to 2021-22. However, shortage of paramedical staff had significantly reduced from 14 *per cent* in 2016-17 to 08 *per cent* in 2021-22. Shortage of nurses had reduced from 18 *per cent* in 2016-17 to 16 *per cent* in 2021-22. Shortage of other staff was also reduced from 14 *per cent* in 2017-18 to 11 *per cent* in 2021-22.

2.8 Human Resources in the sampled Districts

Position of sanctioned and available doctors, nurses and paramedical staff as of March 2022 in the six sampled Districts in all HIs is given in **Table 2.9**.

Table 2.9: Availability of staff in the sampled Districts

Category	Position	District					
		Anantnag	**Ganderbal**	**Jammu**	**Kupwara**	**Ramban**	**Udhampur**
Doctors	Sanctioned	559	176	1,569	349	156	241
	Available	472	162	976	238	84	135
	Shortage (*per cent*)	87(16)	14 (8)	593 (38)	111 (32)	72 (46)	106 (44)
Nurses	Sanctioned	227	59	1,606	164	62	100
	Available	152	47	1,102	119	42	70
	Shortage (*per cent*)	75 (33)	12 (20)	504 (31)	45 (27)	20 (32)	30 (30)

	Available	489	196	1,174	388	202	337
	Shortage (*per cent*)	164 (25)	103 (34)	652 (36)	210 (35)	87 (30)	66 (16)
Others	Sanctioned	897	299	3,184	550	241	502
	Available	671	225	1,876	268	168	326
	Shortage (*per cent*)	226 (25)	74 (25)	1,308 (41)	282 (51)	73(30)	176 (35)

(Source: Information furnished by concerned CMOs)

Audit observed that:

- Shortfall in respect of doctors ranged between 8 *per cent* (District Ganderbal) and 46 *per cent* (District Ramban).
- Shortfall in respect of nurses ranged between 20 *per cent* (District Ganderbal) and 33 *per cent* (District Anantnag).
- Shortfall in respect of paramedical staff ranged between 16 *per cent* (District Udhampur) and 36 *per cent* (District Jammu).
- Shortfall in respect of other staff ranged between 25 *per cent* (Districts Anantnag and Ganderbal) and 51 *per cent* (District Kupwara).

The Chief Accounts Officer, Directorate of Health Services Jammu stated (January 2025) that proposal for creation of posts as per IPHS norms has been submitted to the Administrative Department.

2.9 Human Resources in selected Tertiary Level Health Institutions

The details of available manpower in major categories in the selected tertiary level health institutions are shown in **Table 2.10**.

Table 2.10: The position of manpower as of March 2022

Cadre	Major Category	Government Medical College Jammu[15]			Government Medical College Srinagar[16]		
		SS	PIP	Shortfall *per cent*	SS	PIP	Shortfall *per cent*
Doctors	Professor	87	50	37 (43)	124	89	35 (28)
	Associate Professor	94	39	55 (59)	131	64	67 (51)

(Source: Information furnished by the Principals and Medical Superintendents concerned)

As seen from the **Table 2.10**, when compared with the sanctioned strength, there were shortages across above mentioned categories with overall shortage of 38 and 33 *per cent* in GMC Jammu and GMC Srinagar respectively.

2.9.1 Government Medical College, Jammu

- There was overall shortage of 356 doctors in GMC Jammu (including the sampled Associated Hospitals) as of March 2022 (Professor: 43 *per cent*, Associate Professor: 59 *per cent*, Assistant Professor: 43 *per cent* and Lecturers: 48 *per cent*) against the sanctioned strength of 838.
- Against the sanctioned post of 78 MOs/ other doctors, 39 were posted as of March 2022.
- There was an overall shortage of 29 *per cent* of staff nurses when compared with the sanctioned strength as of March 2022. Similarly, 39 *per cent* shortage was also noticed in paramedical staff.
- There was an overall shortage of 42 *per cent* of other staff.

[15] Including the sampled TLHs GMC & Hospital Jammu, SMGS Hospital Jammu and Super Specialty Hospital, Jammu

[16] Including the sampled TLHs SMHS Hospital Srinagar, Lalla Ded Hospital Srinagar, G.B. Pant Hospital Srinagar and Super Specialty Hospital Srinagar

2.9.2 Government Medical College, Srinagar

- There was overall shortage of 709 doctors in GMC Srinagar (including the sampled Associated Hospitals) as of March 2022 (Professor: 28 *per cent*, Associate Professor: 51 *per cent*, Assistant Professor: 56 *per cent* and Lecturers: 74 *per cent*) against the sanctioned strength of 1,503.

- Against the sanctioned post of 264 Medical Officers (MOs)/ other doctors, 146 were posted as of March 2022.

- There was an overall shortage of 15 *per cent* of staff nurses when compared with the sanctioned strength as of March 2022. Similarly, 30 *per cent* shortage was also noticed in paramedical staff.

- There was an overall shortage of 33 *per cent* of other staff.

2.10 Norms for allocation of Human Resources

Indian Public Health Standards (IPHS) 2012 guidelines prescribe minimum number of doctors, nurses, paramedical staff and support staff to be available in different Hospitals from DHs up to the Sub-Centre level according to the number of sanctioned beds. Details of IPHS 2012 norms are given in **Table 2.11**.

Table 2.11: IPHS 2012 norms for allocation of Human Resources

Sl. No.	Type of Health Institution	Bed capacity	IPHS 2012 norms for manpower (essential + desirable)
1.	Sub-Centre (Type A)	1	03 (ANM:2 and Health Worker:1)
2.	Primary Health Centre	4 to 6	18 (Doctors:2, Nurses:4, Paramedics and Others:12)
3.	Community Health Centre	30	52 (Doctors:11, Nurses:11, Paramedics:14 and Others:16)
4.	Sub-District Hospital	31 to 50	83 (Doctors:23, Nurses:20, Paramedics:28 and Others:12)
		51 to 100	121 (Doctors:31, Nurses:30, Paramedics:45 and Others:15)
5.	District Hospital	100	120 (Doctors:32, Nurses:45, Paramedics:31 and Others:12)
		200	184 (Doctors:37, Nurses:90, Paramedics:42 and Others:15)
		300	272 (Doctors:50, Nurses:135, Paramedics:66 and Others:21)
		400	345 (Doctors:58, Nurses:180, Paramedics:81 and Others:26)
		500	422 (Doctors:68, Nurses:225, Paramedics:100 and Others:29)

(Source: IPHS Guidelines 2012)

2.11 Manpower in District Hospitals

Shortage/ excess of doctors, nurses and paramedics against the IPHS 2012 norms and sanctioned strength in the sampled DHs is detailed in **Table 2.12**.

Table 2.12: Position of manpower in the sampled District Hospitals as of March 2022

District Hospital	Cadre	IPHS 2012 norms	Sanctioned Strength(SS)	Available	Shortage (-)/ Excess (+) as per IPHS 2012 norms	Shortage/ Excess as per SS
DH Anantnag including MCCH (Beds: 410)	Doctors	68	61	45	(-)23	(-)16
	Nurses	225	42	22	(-)203	(-)20
	Paramedics	100	69	33	(-)67	(-)36

	Paramedics	42	36	34	(-)8	(-)2
	Others	15	52	32	(+)17	(-)20

(Source: Figures furnished by the sampled DHs)

Data in the **Table 2.12** indicates that there was shortage of 02 to 23 doctors against the IPHS norms in four[17] out of six sampled DHs and shortage of 05 to 21 doctors against the sanctioned strength in all the six test-checked DHs. Effective strength of doctors in DH Jammu was more than the IPHS norms.

In nursing cadre, the shortage was 31 to 203 and 02 to 20 against the IPHS norms and sanctioned strength respectively in six sampled DHs.

In paramedics cadre, there was shortage of four to 67 paramedics against the IPHS norms whereas shortage of two to 36 paramedics was noticed against the sanctioned strength in six DHs.

2.11.1 Shortage of specialists in District Hospitals

DHs provide specialised medical services including Medicine, Surgery, Radiology, Orthopaedics, Paediatrics, Ophthalmology, ENT etc. IPHS 2012 norms provides for 16 types of Departments/ specialties in a DH. Audit analysed the availability of specialists in respect of 14 Departments/ specialties. The Department/ Specialty-wise availability of doctors in the DHs of UT of J&K as of March 2022 is given in the **Table 2.13**.

[17] DHs Anantnag, Ganderbal, Handwara and Ramban

Table 2.13: Availability of doctors in specialist cadre in DHs of UT of J&K

Sl. No.	Department	Sanctioned Strength	Availability of specialists	Shortfall	Percentage shortfall
1.	General Medicine	43	31	12	28
2.	General Surgery	43	30	13	30
3.	Obstetrics and Gynaecology	43	38	5	12
4.	Paediatrics	26	20	6	23
5.	Anaesthesia	43	29	14	33
6.	Ophthalmology	19	13	6	32
7.	Orthopaedics	27	18	9	33
8.	Radiology	11	6	5	45
9.	Pathology	11	7	4	36
10.	ENT	19	10	9	47
11.	Dental	47	41	6	13
12.	Dermatology and Venereology	7	3	4	57
13.	Psychiatry	7	4	3	43
14.	AYUSH	19	15	4	21
Total		**365**	**265**	**100**	**27**

(Source: Information furnished by the concerned DHs)

In terms of IPHS 2012 norms, there was a shortage of critical specialists such as Dermatologists, ENT specialists followed by Radiologists and Psychiatrists. However, the least shortage was noticed in case of Obstetrician and Gynaecologist (12 *per cent).*

Further, the availability of doctors in the specialist cadre in the sampled DHs as of March 2022 is detailed in **Table 2.14**.

Table 2.14: Availability of doctors in specialist cadre in the sampled DHs as of March 2022

(Source: Information furnished by the sampled DHs)

****IPHS 2012 norms, SS: Sanctioned Strength, PIP: Person-in-position***

- The data in **Table 2.14** indicates that there was shortfall of 44 doctors as per the sanctioned strength for six sampled DHs. In percentage terms, the availability of doctors in specialist cadre was highest in Ganderbal District (88 *per cent*) and lowest in Ramban District (56 *per cent*) against the sanctioned strength.

- Audit noticed that there was shortfall of 50 specialists (45 *per cent*) against IPHS norms in the Departments of General Medicine (06), General Surgery (06), O and G (04), Paediatrics (11), Anaesthesia (04), Radiology (03), Pathology (08), Dermatology and Venereology (04) and Psychiatry (04). There was shortfall of 44 specialists (46 *per cent*) against posts sanctioned by GoJ&K for these Departments. However, the availability of Dental specialists in the sampled DHs was seven more than the IPHS 2012 norms.

- The post of specialists for Forensic and Microbiology was not sanctioned for any of the six sampled DHs.

Although GoJ&K had sanctioned posts for many Departments, it did not provide the manpower as per sanctioned strength. As a result, there was shortage of specialists in all Departments except AYUSH. Shortage of manpower in DHs affects delivery of medical services resulting in either the patients having to wait in queues outside the OPDs for a long time or compelling them to approach other hospitals having such facility.

2.12 Manpower in Sub-District Hospitals

In the UT of J&K, there were 47 Sub-District Hospitals as of March 2022. Sub-District Hospitals being below DH level but above block hospital level (CHC) require specialist services to be provided to patients. Manpower availability in the cadre of doctors, nurses, paramedical and other staff in the 18 sampled SDHs as of March 2022 is detailed in **Table 2.15**.

Table 2.15: Availability of Manpower in the sampled SDHs as of March 2022

Sl. No.	Name of the SDH	No. of Beds	IPHS 2012 Norms				Doctors		Nurses		Paramedics		Other Staff	
			Doctors	Nurses	Paramedics	Others	SS	PIP	SS	PIP	SS	PIP	SS	PIP

(Source: Information furnished by the sampled SDHs)
(SS: Sanctioned Strength; PIP: Person-in-Position)

The data in **Table 2.15** indicates that there was shortage of 84 (23 *per cent*) doctors, 59 (27 *per cent*) nurses, 167 (29 *per cent*) paramedics and 67 (32 *per cent*) other staff in the sampled SDHs against the sanctioned strength. When compared with IPHS 2012 norms, there was shortage of 157 (36 *per cent*) doctors, 234 (60 *per cent*) nurses, 147 (26 *per cent*) paramedics and 84 (37 *per cent*) other staff. However, in SDHs Bijbehara, Bishnah, Marh and Langate the availability of doctors was as per the sanctioned strength. In SDHs Dooru, Kokernag, Bishnah, R.S. Pura and Ramnagar the availability of nurses was as per the sanctioned strength.

2.12.1 Shortage of Specialists in Sub-District Hospitals

The availability of Specialists in the SDHs of UT of J&K as of March 2022 is given in **Table 2.16**.

Table 2.16: Availability of doctors in specialist cadre in SDHs of J&K as of March 2022

Sl. No.	Department	Sanctioned Strength	Availability of specialists	Shortfall
1.	General Medicine	53	31	22
2.	General Surgery	60	37	23
3.	Obstetrics and Gynaecology	61	45	16
4.	Dermatology	2	1	1
5.	Paediatrics	49	34	15
6.	Anaesthesia	51	38	13
7.	ENT	14	10	4
8.	Ophthalmology	12	11	1
9.	Orthopaedics	19	11	8
10.	Radiology	7	4	3
11.	Dental	61	58	3
12.	Pathology	6	5	1
13.	Psychiatry	2	2	0
Total		**397**	**287**	**110**

(Source: Information furnished by the concerned SDHs)

The data in **Table 2.16** indicates that against the sanctioned strength of 397 posts of specialists, only 287 (72 *per cent*) were available. The shortfall was higher in General Surgery, General Medicine and Obstetrics and Gynaecology as compared to other Departments.

Audit further observed that in the sampled SDHs, the specialist posts were either not sanctioned for the SDHs or if sanctioned, there was non-availability of specialists as detailed in **Table 2.17**.

Table 2.17: Non-availability of specialists in the sampled SDHs as of March 2022

Sl. No.	Name of the Department	SDHs lacking sanctioned post of specialist (Numbers)	SDHs without specialist against the sanctioned post (Numbers)
1.	Medicine	Kokernag, Langate, Marh, Tangdar (4)	Shangus, Ramnagar (2)

6.	ENT	Bijbehara, Dooru, Bishnah, Marh, R.S.Pura, Langate, Sogam, Tangdar, Ramnagar (9)	Kokernag, Kangan, Kupwara (3)
7.	Ophthalmology	Bijbehara, Dooru, Kokernag, Kot-Bhalwal, Marh, R.S.Pura, Langate, Sogam, Tangdar, Ramnagar (10)	Jagti (1)
8.	Orthopaedics	Bijbehara, Dooru, Kokernag, Kot-Bhalwal, Marh, R.S.Pura, Langate, Sogam, Tangdar, Ramnagar (10)	Shangus (1)
9.	Radiology	Bijbehara, Kokernag, Kangan, Bishnah, Kot-Bhalwal, Marh, R.S.Pura, Langate, Sogam, Tangdar, Ramnagar (11)	Jagti (1)
10.	Dental	Langate (1)	Nil

Due to non-availability of specialists in the SDHs, the patients either approached the DHs or private health centres for specialised treatment.

2.12.2 Non-sanctioning of specialist post of doctors in SDH Marh

Audit noticed that PHC Marh was upgraded (August 2002) to SDH. There were eight Casualty Doctors/ General Duty Medical Officers but no posts of specialist doctors were sanctioned even after lapse of more than 19 years as of March 2022. During the period 2016-22, 2,95,195 patients visited the SDH Marh for treatment. Non-sanctioning of specialist post of doctors resulted in deprival of specialised healthcare facilities to the local population.

Picture 2.1: Sub-District Hospital, Marh

The Block Medical Officer, Marh stated (December 2024) that no post of specialist has been sanctioned.

2.13 Human Resources in Community Health Centres

CHC is a 30-bedded hospital providing specialist care in Medicine, Obstetrics and Gynecology, Surgery, Paediatrics, Dental and AYUSH. In the UT of J&K, there were 30 CHCs as of March 2022. The manpower availability for CHC as per IPHS 2012 norms (essential and desirable) is 52 (Doctors:11, Nurses:11, Paramedics:14 and Other staff:16). Manpower availability in the cadre of doctors, nurses, paramedical and other staff in the 10 sampled CHCs as of March 2022 is detailed in **Table 2.18**.

Table 2.18: Availability of Manpower in the sampled CHCs

Sl. No.	Name of the CHC	No. of beds	Doctors		Nurses		Paramedics		Other staff	
			SS	PIP	SS	PIP	SS	PIP	SS	PIP
1.	Sohanjana	17	17	13	6	6	38	30	8	5
2.	Jourian	10	20	14	8	2	37	10	9	4
3.	Khour	30	15	8	7	1	15	8	8	6
4.	Gool	20	14	6	8	6	21	14	5	3
5.	Banihal	30	14	13	8	7	32	22	24	15
6.	Batote	20	14	7	10	6	30	17	24	11
7.	Kralpora	30	19	11	8	7	19	18	6	5
8.	Zachaldara	10	4	4	6	0	6	4	12	7
9	Kralgund	10	3	3	2	0	10	9	6	4
10.	Chenani	110	16	12	7	5	19	16	20	14
Total		**-**	**136**	**91**	**70**	**40**	**227**	**148**	**122**	**74**

(Source: Information furnished by the sampled CHCs)
(SS: Sanctioned Strength; PIP: Person-in-Position)

It is evident from the **Table 2.18** that out of 10 sampled CHCs, 05 CHCs have adequate strength of doctors as per IPHS norms. However, against the sanctioned strength there was a shortage of 45 (33 *per cent*) doctors, 30 (43 *per cent*) nurses, 79 (35 *per cent*) paramedics and 48 (39 *per cent*) other staff in the sampled CHCs.

2.13.1 Shortage of Specialists in Community Health Centres

The availability of Specialists as of March 2022 in the CHCs of UT of J&K is given in **Table 2.19.**

Table 2.19: Availability of doctors in specialist cadre in CHCs of UT of J&K

Sl. No.	Department	Sanctioned Strength	Availability of specialists	Shortfall
1.	General Medicine	73	51	22
2.	Paediatrics	24	13	11
3.	General Surgery	25	14	11
4.	Dental	36	32	4
5.	Obstetrics and Gynaecology	25	19	6
6.	AYUSH	4	4	0
Total		**187**	**133**	**54**

(Source: Information furnished by the concerned SDHs)

The **Table 2.19** indicates that against the sanctioned strength of 187 posts of specialists, only 133 (71 *per cent*) were available. The shortfall was higher in General Medicine (22 Specialists) followed by Paediatrics and General Surgery (11 Specialists each). There was no shortage of AYUSH doctors against the sanctioned strength.

Further, the Specialist posts were either not sanctioned for the CHCs or if sanctioned, there was non-availability of specialists in the sampled CHCs as detailed in **Table 2.20**.

Table 2.20: Non-availability of Specialists in the sampled CHCs as of March 2022

Sl. No.	Name of the Department	CHCs lacking sanctioned post of specialist	CHCs without specialist against the sanctioned post
1.	Medicine	Banihal, Batote, Kralgund, Zachaldara	Gool, Jourian, Khour, Sohanjana, Chenani
2.	Surgery	Kralgund, Zachaldara	Batote, Chenani, Gool, Khour, Sohanjana
3.	Obstetrics and Gynaecology	Batote, Gool, Kralgund, Zachaldara	Khour
4.	Paediatrics	Kralgund, Zachaldara	Batote, Chenani, Gool, Khour, Kralpora
5.	Dental	Nil	Gool

The **Table 2.20** shows that in nine CHCs, there were no specialists in the Department of Medicine and in seven CHCs, there were no specialists of Surgery and Paediatrics.

Thus, sanctioned strength of the CHCs was not based on any objective criteria. Non-availability of specialist manpower in the sampled CHCs had resulted in non-delivery of medical services to patients who were compelled to take services of higher level health institutions.

2.14 Human Resources in Primary Health Centres

As per IPHS 2012, a PHC has to be manned by a Medical Officer, three staff nurses and nine paramedical and other staff. In the UT of J&K, out of 975 PHCs, there were no doctors in 301 PHCs, no nurses in 669 PHCs, no paramedical staff in 149 PHCs and no other supporting staff in 351 PHCs.

Status of manpower in 52 sampled PHCs in six sampled Districts as of March 2022 is given in **Table 2.21**.

Table 2.21: Status of manpower in the sampled PHCs as of March 2022

Sl. No.	Name of District	No. of PHCs test-checked	PHCs functioning without							
			MO	Nurses	Laboratory Technician	Pharmacist	Accountant cum Data Entry Operator	Health Worker (Female)	Health Assistant (Male)	Health Assistant (Female)
1.	Anantnag	9	1	6	4	1	9	1	9	7
2.	Ganderbal	6	0	4	4	5	6	1	3	6
3.	Jammu	10	3	8	8	1	10	4	10	10
4.	Kupwara	10	4	8	6	5	9	3	7	8
5.	Ramban	7	4	2	7	4	7	7	7	7
6.	Udhampur	10	3	8	1	9	2	7	8	8
Total		**52**	**15**	**36**	**30**	**25**	**43**	**23**	**44**	**46**

(Source: Information furnished by the concerned CMOs/BMOs)

The data in the **Table 2.21** shows that MOs were not available in 15 PHCs (29 *per cent*). Nurses were not available in 36 PHCs (69 *per cent*). Lab Technicians were not available in 30 PHCs (58 *per cent*) while Pharmacists were not available in 25 PHCs (48 *per cent*). There was non-availability of Health Workers (Female) in 23 PHCs (44 *per cent*), Health Assistants (Male) in 44 PHCs (85 *per cent*) and Health Assistants (Female) in 46 PHCs (88 *per cent*). Further, Accountant cum Data Entry Operator was not available in 43 out of 52 test-checked PHCs.

Audit also observed that the PHC Alinbass had sanctioned strength of one Medical Officer, one Laboratory Technician, one Pharmacist, one Health Assistant (Male) and one Staff Nurse as of March 2022. However, all the sanctioned posts remained vacant and one Pharmacist was working in the PHC on attachment basis for vaccination and other routine hospital work (February 2023). Due to non-posting of required staff, the people of the area were deprived of health services; besides, the building of PHC Alinbass completed (January 2015) at a cost of ₹ 232.80 lakh could not be made fully functional (March 2022).

2.15 Human Resources in Sub-Centres

As per IPHS 2012 norms, one Auxiliary Nurse and Midwife (ANM)/ Health Worker (Female) and one Health Worker (Male) are required for functioning of a Sub-Centre (SC). The status of manpower availability in 55 sampled SCs is given in **Table 2.22**.

Table 2.22: Status of manpower in the sampled SCs as of March 2022

Sl. No.	Name of District	Number of SCs sampled	Number of SCs where no ANM/Health Worker (Female) posted	Number of SCs where no Health worker (Male) posted
1.	Anantnag	10	2	9
2.	Ganderbal	6	0	6
3.	Jammu	10	0	8
4.	Kupwara	10	2	7
5.	Ramban	9	4	4
6.	Udhampur	10	1	3
Total		**55**	**9**	**37**

(Source: Information provided by SCs)

The **Table 2.22** shows that in 55 sampled SCs in six test-checked Districts, no ANM/ Health Worker (Female) and Health Worker (Male) were posted in nine and 37 SCs respectively. This was indicative of the fact that these SCs were not working with their optimal strength.

2.16 Non-availability of staff in Trauma Care Centres

Accidental trauma is considered as a leading cause of mortality and morbidity in India. An accepted strategy of Trauma Care Centre (TCC) is that if basic life support, first aid and placement of fluids can be arranged within the first hour of injury, lives of many of the accident victims can be saved. As per Digest of Statistics 2020-21, GoJ&K, 699 people died and 5,951 people sustained injuries in 4,903 road accidents during the year 2020 in the UT. Out of these, 106 persons[18] died and 725 persons[19] were injured in the sampled Districts of Udhampur and Ramban which recorded 553 accidents.

Ministry of Health and Family Welfare, GoI signed a Memorandum of Understanding (MoU) with the GoJ&K for upgradation and strengthening of emergency facilities of seven hospitals in the State/ UT including one each in the sampled DHs of Udhampur and Ramban for providing Trauma Care Services. Audit observed that:

- The TCC with necessary equipment was established (February 2016) in DH Udhampur at a cost of ₹ 4.58 crore[20] but it could not be made functional due to non-availability of technical staff and doctors despite sanctioning of manpower (34 posts) for TCC Udhampur. Non-availability of manpower had not only resulted in idle investment of ₹ 4.58 crore on construction of TCC but also deprived the patients of envisaged facilities.

Picture 2.2: Idle machinery and equipment in Trauma Centre Udhampur

Picture 2.3: Non-functional OT in Trauma Centre Udhampur

The Medical Superintendent, Associated Hospital GMC, Udhampur stated (January 2025) that the Trauma Care Centre could not be made functional due to non-availability of staff and space.

18 Udhampur: 60 and Ramban: 46
19 Udhampur: 487 and Ramban: 238
20 Civil works: ₹ 0.90 crore; equipment: ₹ 3.68 crore

- Sanction was accorded (October 2019) for creation of 34 posts for Trauma Centre Ramban established in the old building of DH Ramban. However, as of November 2023, against the sanctioned strength of 35 (Specialist doctors:eight, MOs:six, Nurses: seven and Other staff: 14) staff, only six (Consultant Paediatric: one, MOs: three, Nurse: one and Other staff: one) staff were posted. Some equipment were received and were functional. However, in absence of required staff, the Trauma Care Centre was being used as Maternal ward, Dialysis unit, District Early Intervention Centre (DEIC) unit and operation theatre.

2.17 Conclusion

Human resources, an essential resource for health management, witnessed persistent shortages in all the cadres in the health institutions. Government had not ensured availability of posts in the health sector considering that the sanctioned posts were not in keeping with the population to be served, thereby adversely affecting health services. This shortage was quite high in several key posts such as Doctors, Staff Nurses, Paramedics, etc. who play a very important role in delivering comprehensive healthcare to the beneficiaries. Moreover, available manpower including the crucial manpower has not been distributed uniformly across the districts.

2.18 Recommendations

In light of the audit findings, GoJ&K may consider:

- ***Revising the sanctioned strength of Health Department at par with the IPHS norms, posting of staff in health institutions at par with the sanctioned strength in the primary, secondary and tertiary healthcare institutions. Government should bring out a long-term strategy and policy to reduce variations in doctor-population ratio across districts; and***
- ***Allocating human resources in the health institutions throughout the UT in a uniform manner in order to minimise skewed distribution of manpower across the districts. Availability of infrastructure and other crucial components should also be considered during such rationalisation.***

CHAPTER-III
HEALTHCARE SERVICES

CHAPTER-III

Healthcare Services

Introduction

High-quality healthcare services involve the right care at the right time and responding to the users' needs and preferences, while minimising harm and wastage of resources. Quality healthcare increases the likelihood of desired health outcomes.

The availability of line and support services in the DHs as on March 2022 is given in **Table 3.1**

Table 3.1: Availability of line and support services in DHs of UT of J&K

Name of the HI	Availability of the service												
	Emergency	Imaging Diagnostic	Pathology	Ambulance	Blood Bank	Bio-Medical Waste Management	Mortuary	ICU	Oxygen service	Dietary service for normal patient other than JSSK (Maternity)	Dietary Service for JSSK (Maternity)	Laundry service within the institution	Laundry service outsourced

(Source: Information furnished by the District Hospital concerned)
Available: A; Not Available: NA

It is evident from the **Table 3.1** that services such as Emergency, Imaging Diagnostics, Ambulance, Blood Bank, Bio-Medical Waste Management and Oxygen were available in DHs in UT. Dietary service was provided to *Janani Shishu Suraksha*

Karyakaram (JSSK) patients in all DHs except DH Kishtwar. Dietary service for regular patients other than maternity patients admitted under JSSK was available in only three[1] DHs. Laundry service, either institutional or outsourced, was available in all DHs except DH Kishtwar and DH Reasi.

Audit observations on delivery of timely and quality healthcare services in Outpatient Department (OPD), In-patient Department (IPD), Intensive Care Unit (ICU), Operation Theatre (OT), Emergency and Diagnostic services are discussed in the succeeding paragraphs.

3.1 Outpatient Department

The specific objectives of IPHS 2012 norms for DHs, SDHs and CHCs are to provide comprehensive and optimal expert care to the community and to achieve and maintain an acceptable standard of quality of care. As per IPHS norms, Essential (Minimum Assured Services)/ Desirable (which should be aspired to be achieved) services of General Medicine (GM), General Surgery, Orthopaedics, Obstetrics and Gynaecology (O and G), Ophthalmology, Paediatrics, ENT[2], Skin and VD[3], Dental etc. were required to be available in the OPDs of HIs.

3.1.1 Availability of OPD services in DHs

Details of availability/ non-availability of OPD services in DHs of the UT of J&K as of March 2022 are given in **Table 3.2**

Table 3.2: Availability of OPD services in DHs of UT of J&K

Sl. No.	Name of the DH	Availability of OPD services									
		ENT	GM	Paed.	GS	Oph.	Dental	O & G	Psy.	Ortho	Skin &VD
1.	DH Anantnag/ MCCH Anantnag	A	A	A	A	A	A	A	A	A	NA
2.	DH Bandipora	NA	A	A	A	A	A	A	NA	A	NA
3.	DH Budgam	A	A	A	A	NA	A	A	NA	A	NA
4.	DH Ganderbal	A	A	A	A	A	A	A	A	A	A
5.	DH Handwara	A	A	A	A	NA	A	A	A	NA	NA
6.	DH Jammu	A	A	A	A	A	A	A	NA	A	NA

15.	DH Srinagar	A	A	A	A	A	A	A	A	A	A
16.	DH Udhampur	A	A	A	A	A	A	A	A	A	A

(Source: Information furnished by the DHs)
(GM: General Medicine; Paed.: Paediatrics; GS: General Surgery; Oph.: Ophthalmology; O&G: Obstetrics & Gynaecology; Psy.: Psychiatry; Ortho: Orthopaedics)
A: Available; NA: Not available, *: consultant surgeon was available on deputation (regular surgeon was not available)

[1] DH Jammu, DH Reasi and DH Poonch
[2] Ear, Nose and Throat
[3] Venereal Diseases

It is evident from the **Table 3.2** that services of Paediatrics, Dental and O and G were available in all DHs. However, services of ENT, Psychiatry, Ophthalmology, Skin and VD were not available in eight, nine, six and thirteen DHs respectively. The service was not available mainly due to non-availability of specialist in the respective categories.

The shortage of manpower is discussed in **Paragraph 2.2**.

3.1.2 Availability of essential OPD services in SDHs

Specialist services are provided through SDHs. As per IPHS 2012 norms, the SDH is expected to provide minimum assured services (essential). In the sampled 18 SDHs, status of availability of essential OPD services is given in **Table 3.3**.

Table 3.3: Availability of essential OPD services in SDHs

Sl. No.	Name of the SDH	General Medicine	Surgery	O & G	Paediatrics	ENT	Ophthalmology	Orthopaedics	Dentistry	AYUSH
1.	R.S. Pura	A	A	A	A	A	A	A	A	NA
2.	Jagti	A	A	A	NA	A	NA	A	A	NA
3.	Kot-Bhalwal	A	A	A	NA	NA	NA	NA	A	NA
4.	Marh	A	NA	A	NA	NA	A	NA	A	NA
5.	Bishnah	A	A	A	A	NA	A	A	A	NA
6.	Akhnoor	A	A	A	A	A	A	A	A	NA
7.	Sarwal	A	A	A	A	A	A	A	A	NA
8.	Kangan	A	A	A	A	NA	A	A	A	NA
9.	Sogam	A	NA	A	NA	NA	NA	NA	A	NA
10.	Kupwara	A	A	A	A	NA	A	A	A	NA
11.	Langate	A	NA	NA	NA	NA	NA	NA	NA	NA
12.	Tangdar	NA	A	A	NA	NA	NA	NA	A	NA
13.	Ramnagar	A	NA	A	A	NA	NA	NA	A	NA
14.	Seer Hamdan	A	A	A	NA	A	A	A	A	NA
15.	Bijbehara	A	A	A	A	NA	NA	A	A	NA
16.	Dooru	A	A	A	A	NA	NA	NA	A	NA
17.	Shangus	A	NA	NA	NA	NA	NA	NA	A	NA
18.	Kokernag	NA	A	A	A	NA	NA	NA	A	NA

(Source: Information furnished by the sampled SDHs)
(A: Available; NA: Not available)

From the **Table 3.3**, it may be seen that Dentistry was available in all SDHs except SDH Langate. However, AYUSH service was not available in any of the selected SDHs. Apart from AYUSH, all other essential services were available in three SDHs. Out of the nine services discussed above, only one service was available in SDH Langate, two services in SDH Shangus and three services were available in SDH Tangdar. The service was not available due to non-availability of specialist in the respective categories as discussed in **Paragraph 2.12**.

3.1.3 Availability of OPD services in CHCs

As per IPHS 2012 norms, General Medicine, Surgery, Obstetrics and Gynaecology, Paediatrics, Dental and AYUSH Services should be available in CHCs.

In the 10 sampled CHCs, status of availability of OPD services is given in **Table 3.4.**

Table 3.4: Availability of OPD services in CHCs

Sl. No.	Name of the CHC	General Medicine	Surgery	O and G	Paediatrics	Dentistry	AYUSH
1.	Sohanjana	A	A	A	A	A	NA
2.	Jourian	A	A	A	A	A	NA
3.	Khour	A	NA	A	NA	A	A
4.	Gool	A	NA	NA	NA	NA	NA
5.	Banihal	A	A	A	A	A	NA
6.	Batote	NA	NA	NA	NA	A	NA
7.	Kralpora	A	A	A	NA	A	NA
8.	Zachaldara	A	NA	NA	NA	A	NA
9	Kralgund	A	NA	NA	NA	A	NA
10.	Chenani	A	A	A	A	A	NA

(Source: Information furnished by the sampled CHCs)
AA: Available; NA: Not available)

The **Table 3.4** indicates that out of the ten sampled CHCs, all prescribed services except AYUSH were available in four CHCs. However, Surgery, AYUSH and Paediatrics OPD were not available in five, nine and six CHCs respectively. While essential services of General Medicine and O and G were not available in one and four CHCs respectively. The non-availability of services could be ascribed to non-sanctioning of post of specialists or non-availability of specialists against the sanctioned posts which has been discussed in **Paragraph 2.13.**

The Chief Accounts Officer, Directorate of Health Services Jammu stated (January 2025) that sanctioning of Consultant/ Specialist posts and posting of Consultant/Specialist is DHs/ SDHs/ CHCs is within the purview of Administrative Department.

3.1.4 Availability of OPD services in PHCs

As per IPHS 2012 norms, six hours of OPD services (four hours in the morning and two hours in the afternoon) are required for six days in a week at PHC level. No specific OPD services are prescribed in IPHS for PHCs. OPD services were available in all the test-checked PHCs as per physical survey.

3.1.5 Availability of basic facilities in OPD area

According to IPHS 2012 norms, HIs should provide adequate seating arrangement in the waiting area, potable drinking water and functional/ clean toilets to waiting patients/ attendants. Availability of basic facilities in the sampled HIs is detailed in **Table 3.5.**

Table 3.5: Availability of basic facilities in sampled HIs

Sl. No.	Facility	Number of HIs having basic facilities in OPD		
		TLH (7)	DH (6)	SDH/CHCs (28)
1	Seating facility in OPD premises	7	5	21
2	Toilets in OPD premises	7	6	24
3	Drinking water facility in OPD area	6	5	17

(Source: Information provided by the Department)

The data in the **Table 3.5** shows that basic facilities were available in all sampled DHs except drinking water facility in DH Handwara. Out of the sampled 28 SDHs/ CHCs, seven SDHs/ CHCs lacked seating facility, four lacked toilets and drinking water was not available in the OPD area in 11 SDHs/ CHCs. Similarly, out of seven TLHs, basic facilities were available except drinking water facility in SMHS Srinagar.

3.1.6 Patient satisfaction survey for outdoor patients

NHM Assessor's Guidebook for Quality Assurance provides for conducting Patient Satisfaction survey at periodic intervals. Audit noticed that no outpatient satisfaction survey had been conducted by the sampled HIs during 2016-22 except DH Ramban which received patient feedback in 2021-22 through the app *Mera Aspataal*. However, results of patient survey of 1,545 outpatients[4] of sampled HIs carried out by Audit are detailed in **Table 3.6**

Table 3.6: Availability of facilities as per patient satisfaction survey

Availability of facility	Tertiary level HIs (210 patients)	DHs (120 patients)	SDHs/CHCs (420 patients)	PHCs (520 patients)	SCs (275 patients)
Adequate seating arrangement	112 (53)	69 (58)	188 (45)	253 (49)	96 (35)
Drinking water	81 (39)	60 (50)	143 (34)	88 (17)	55 (20)
Neat and clean toilet	95 (45)	45 (38)	193 (46)	220 (42)	74 (27)

Doctor explained the nature of ailment in an understandable way	197 (94)	119 (99)	416 (99)	419 (81)	240 (87)
Availability of prescribed medicines in the pharmacy	03 (1)	63 (53)	113 (27)	282 (54)	173 (63)
Recommended pathological tests done in the hospital	183 (87)	45 (38)	115 (27)	50 (10)	0
Recommended radiological tests done in the hospital	183 (87)	49 (41)	122 (29)	22 (4)	0

(Source: Patient's satisfaction survey)

[4] 30 outpatients per tertiary level hospital (seven hospitals), 20 outpatients per DH (six DHs); 15 outpatients per SDH/ CHC (28 SDHs/CHCs), 10 outpatients per PHC (52 PHCs) and five outpatients per SC (55 SCs)

Out of 330 patients surveyed in the TLHs and DHs:

- 63 (53 *per cent*) patients stated that they were provided with prescribed medicines in DHs whereas about one *per cent* patients were provided with prescribed medicines in TLHs.

- 141 (43 *per cent*) and 181 (55 *per cent*) patients were satisfied with the availability of drinking water and seating arrangements respectively whereas 190 (58 *per cent*) patients mentioned lack of clean toilets in TLHs and DHs.

- 76 (23 *per cent*) patients were not satisfied with the patient calling system.

Out of 420 patients surveyed in the test checked SDHs/ CHCs:

- Only 113 (27 *per cent*) patients stated that they were provided with the prescribed medicines.

- 143 (34 *per cent*) and 188 (45 *per cent*) patients were satisfied with the availability of facilities of drinking water and seating arrangements respectively whereas 227 (54 *per cent*) patients pointed out lack of clean toilets and 164 (39 *per cent*) patients stated the inadequacy of registration counters.

- 192 (46 *per cent*) patients were not satisfied with the patient calling system.

Similarly, in PHCs and SCs combined, about 57 *per cent* patients (455 out of 795) were provided prescribed medicines. 652 (82 *per cent*) and 446 (56 *per cent*) patients complained of non-availability of drinking water and seating arrangements respectively.

3.1.7 Flow of patients in OPD

To avail outpatient services in the hospitals, outpatients first register at the Outdoor Patient Department (OPD). After registration, the doctors examine the patients and either prescribe diagnostic tests for evidence based diagnosis or prescribe drugs as per their own diagnosis during consultation.

3.1.7.1 Registration of Outpatients

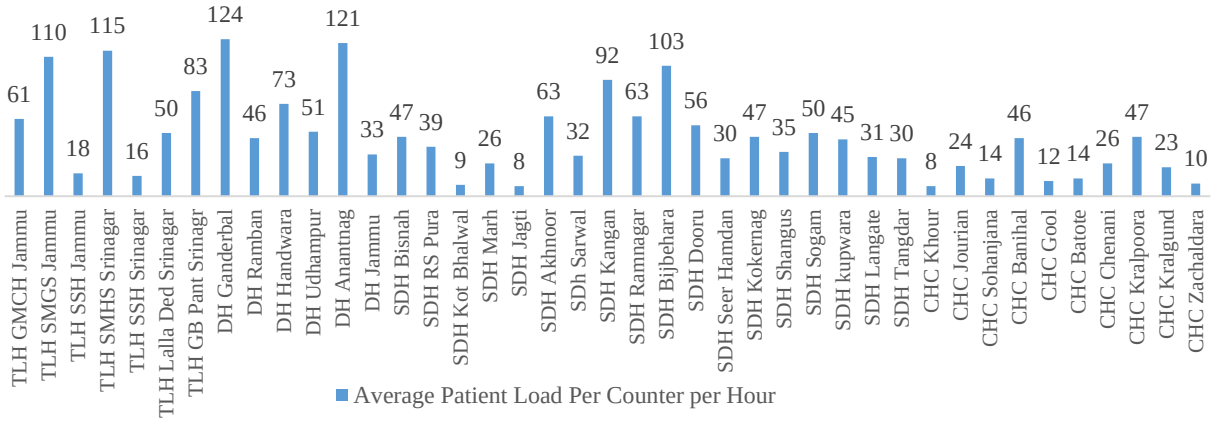
Registration is a process by which a patient's name and identity are enrolled into the records of the hospital in order to provide services of the hospital to the patient and to keep a track of various services that are availed by each patient.

Audit observed that there was no computerised system for registration and patient management in the test checked primary and secondary level hospitals.

Deputy Director (HQ), Health Services Kashmir admitted (January 2023) that there was no computerised system for registration and patient management in primary and secondary level HIs.

Assessor Guidebook for Quality Assurance in District Hospitals (Vol-1) estimates the average time required for registration to be 3-5 minutes per patient, which roughly works out to about 12-20 patients/ hour per counter. Audit examined the number of patients registered during 2016-22 in seven sampled TLHs, six DHs and 28 CHCs/ SDHs along with availability of registration counters and observed that adequate number of registration counters were not available as detailed in **Chart 3.1.**

Chart 3.1 Average Patient load per counter per hour during 2016-22, in seven sampled TLH[5]s, six sampled DHs, 18 SDHs and 10 CHCs



(Source: Information provided by the HIs)

The average patient load per counter per hour varied from 16 (SSH, Srinagar) to 115 (SMHS, Srinagar) in TLHs , 33 (DH Jammu) to 124 (DH, Ganderbal) in DHs, 08 (SDH Jagti) to 103 (SDH Bijbehara) in SDHs and 08 (CHC Khour) to 47 (CHC Kralpoora) in CHCs. The HIs having higher patient load against the norms should consider increasing the number of counters. The result of higher number of patients was visible in long queues in the hospitals as depicted in the photographs below:

OPD patients at registration counters in SDH Akhnoor (18.07.2022)	**OPD patients waiting at registration counters in SDH R.S.Pura (08.06.2022)**

[5] 310 OPD working days were taken in respect of TLHs for the purpose of calculation of Avg. Patient load/counter/hour

3.1.7.2 Waiting Time for Outpatients

Audit surveyed patients for determining waiting time for registration of patients at the registration counters, waiting time between registration and consultation with the doctor and time taken by the doctor for evaluation of patients. The response of the patients in the test checked HIs is detailed in **Table 3.7.**

Table 3.7: Average turnaround time

Type of HI		Tertiary level HIs (7)	DH (6)	SDHs (18)	CHCs (10)	Total
No. of outpatients surveyed per HI		30	20	15	15	
Total no. of outpatients surveyed		210	120	270	150	750
Waiting time for registration (in minutes)	**Up to 5**	17	38	113	157	325
	6-10	75	18	7	41	141
	11-15	52	18	4	41	115
	More than 15	66	46	26	31	169
Waiting time between registration and consultation (in minutes)	**Up to 15**	31	38	91	197	357
	16-30	48	49	36	63	196
	31-60	90	27	21	7	145
	More than 60	41	6	2	3	52
Time taken by doctor (in minutes)	**Up to 5**	129	73	88	146	436
	6-10	67	35	54	106	262
	11-15	9	9	7	14	39
	More than 15	5	3	1	4	13

(Source: Patient's survey)

- Out of 750 outpatients surveyed at various health institutions, 325 (43 *per cent*) patients stated that they were able to get themselves registered within five minutes. However, for the same category the percentage was 32 *per cent* in respect of patients surveyed at DHs and only eight *per cent* in respect of TLHs.

- 34 *per cent* patients at TLHs and DHs took over 15 minutes for registration.

- In TLHs, 62 *per cent* patients waited for more than 30 minutes to consult the doctor after registration.

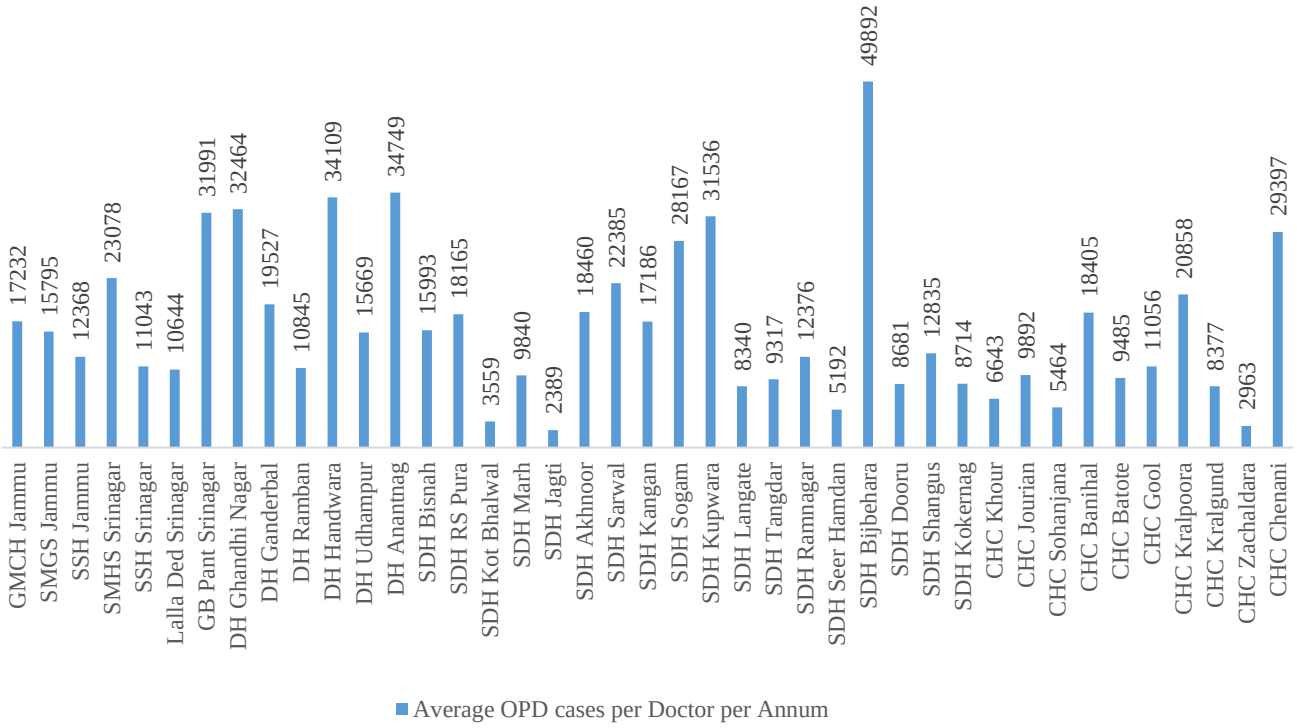
- In DHs/ SDHs/ CHCs, 40 *per cent* patients waited for more than 15 minutes to consult the doctor after registration.

Doctors examined 58 *per cent* patients for only five minutes in all HIs and only 13 (less than two *per cent*) patients stated that the doctors had examined them for over 15 minutes.

3.1.7.3 OPD cases per doctor per annum and consultation time per patient in OPD

OPD cases per day per doctor is an indicator for measuring efficiency of OPD services in a hospital. Average OPD cases per doctor per annum of each individual HI for the period 2016-22 is detailed in **Chart 3.2.**

Chart 3.2: Details of average OPD cases per doctor per annum during 2016-22



(Source: Information furnished by the Department)

The average OPD cases per doctor per annum was highest in SDH Bijbehara (49,892) and lowest in SDH Jagti (2,389).This shows that the availability of doctors is required to be ensured as per the patient load in the health institutions. Such analysis could form the basis for the creation of posts for doctors as well as their deployment.

Overall average consultation time available to patients in TLHs, DHs and SDHs[6]/ CHCs during 2016-22 is detailed in **Table 3.8**.

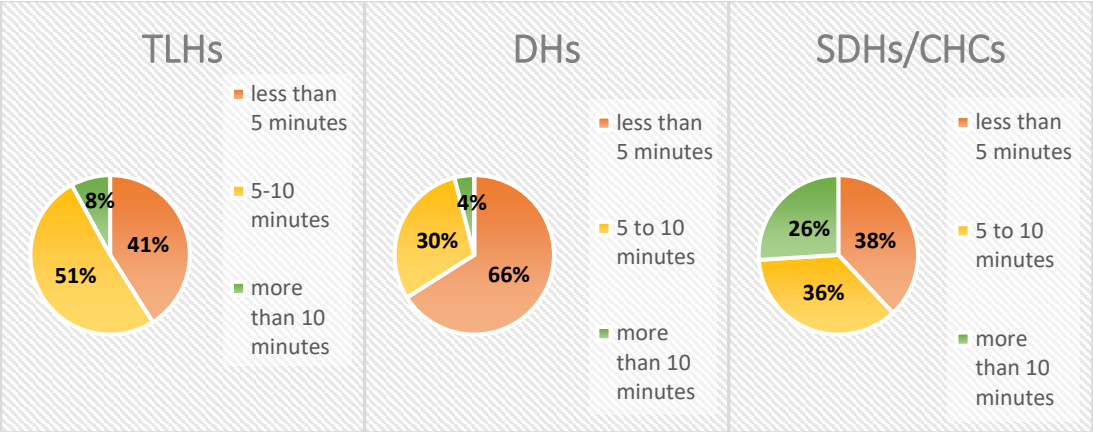
Table 3.8: Average consultation time available to patients in HIs during 2016-22

Consultation time	Number of patients during 2016-22 (in lakh)		
	Tertiary level HIs	DHs	SDHs/CHCs
Less than 5 minutes	59.69	65.24	55.81
5 to 10 minutes	73.35	29.06	52.32
More than 10 minutes	11.22	3.71	37.86

(Source: Information furnished by the Department)

[6] PHC Kot-Bhalwal and Government Hospital Jagti were upgraded as SDH in June 2018 and June 2019 respectively. Accordingly, the period as PHC was not considered for calculation

Percentage of average consultation time given to patients



3.1.7.4 Prescription Audit

Regulations 1.4 and 1.5 of the Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations, 2002 provide that every physician shall display the registration number accorded to him/ her by the State Medical Council/ Medical Council of India in all his/ her prescriptions and should as far as possible prescribe drugs with generic names.

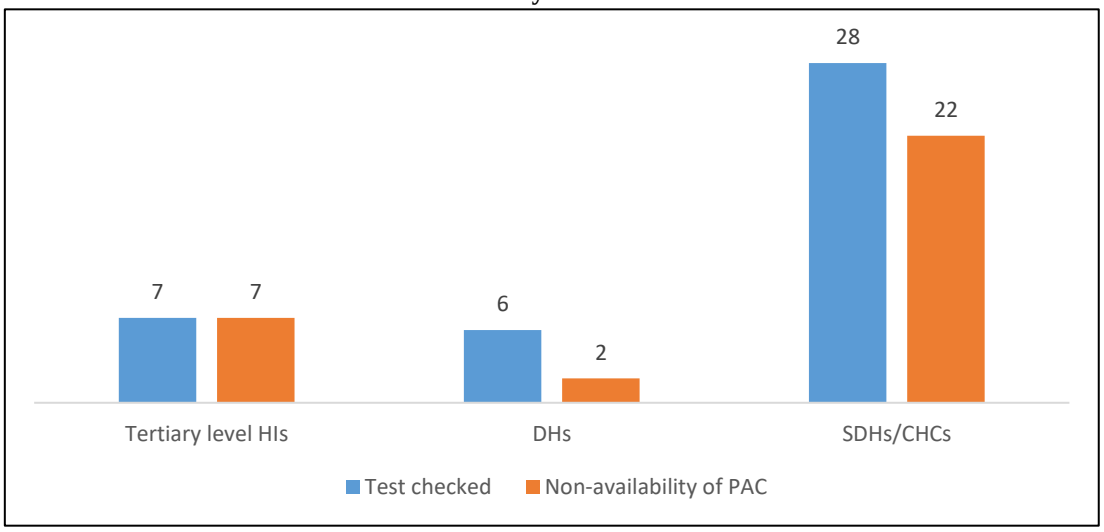
GoJ&K accorded (February 2020) sanction for constitution of Prescription Audit Committees (PAC) for Secondary and Tertiary level hospitals. The PAC shall prepare and submit fortnightly reports to the respective Heads of Departments (HODs). According to the sanction a Nodal Officer was to be nominated for collection of at least one *per cent* of prescriptions written by the Government doctors in OPDs on daily basis at random. The prescriptions collected by the Nodal Officer shall be scrutinised by the PAC to see whether:

- Prescriptions have name of doctor with registration number and are written legibly in capital letters over his/ her signature.
- Generic drugs are prescribed with preference given to drugs which are available free in the hospital.
- Unnecessary diagnostic tests/ procedures are prescribed, and patients are referred to private clinics/ specialists without requirement.
- Drugs are prescribed in contravention to the provisions of the Drugs and Cosmetics Act and regulations.

Audit observed that as of March 2022, PACs had not been constituted in any of the seven sampled TLHs, two[7] out of six sampled DHs and 22 out of 28 sampled CHCs/ SDHs as depicted in **Chart 3.3**.

[7] DH Ganderbal and DH Handwara

Chart 3.3: Non-availability of PACs in test checked HIs



Though PACs were framed in four DHs and six SDHs/CHCs, the purpose thereof was not fulfilled, as discussed in **Table 3.9**.

Table 3.9: Non-fulfillment of objectives of PACs in four DHs and six SDHs/CHCs

Sl. No.	Name of the HIs	Remarks
1.	DH Gandhi Nagar, Jammu	The prescription audit was conducted during January 2021 but it was discontinued after DH, Gandhi Nagar was designated as COVID dedicated hospital. The process was again started w.e.f. April 2022. It was noticed (April 2022) by the committee that only 66 *per cent* drugs were prescribed by generic names, in 77 *per cent* prescriptions date of next visit was not written and 50 *per cent* prescription are not signed legibly by the doctor.
2.	DH, Ramban	The PAC was framed in June 2021 and the prescription audit was conducted twice during the month of June 2021.
3.	DH Anantnag	Though PAC was set up in October 2020, nothing was on record about prescription audit undertaken.
4.	DH Udhampur	The prescription audit was conducted during January 2021 to August 2021 and thereafter stopped due to COVID-19 pandemic.
5.	SDH, Sarwal	The PAC was constituted in January 2021 and prescription audit started from May 2021 and the reports were submitted to the DHS Jammu on monthly basis instead of fortnightly basis..
6.	SDH, Akhnoor	The PAC was constituted in February 2020. Due to spread of COVID-19 in March 2020, no report was furnished to higher authorities.
7.	SDH, Marh	The PAC was constituted in March 2021. No prescription audit was conducted.
8.	SDH, Jagti	The PAC was set up in February 2021. The reports for the months of September-November 2021 only were made available to audit.
9.	SDH Ramnagar	The PAC was constituted in December 2020. No prescription audit was conducted.
10.	CHC Chenani	The PAC was constituted in October 2021. No prescription audit was conducted.

(Source: Information furnished by the concerned sampled HIs)

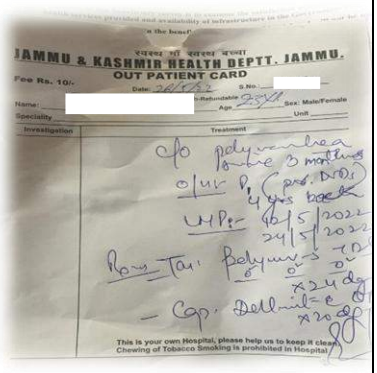
Audit collected prescriptions on the spot from the outpatients and found shortcomings in them as detailed in **Table 3.10.**

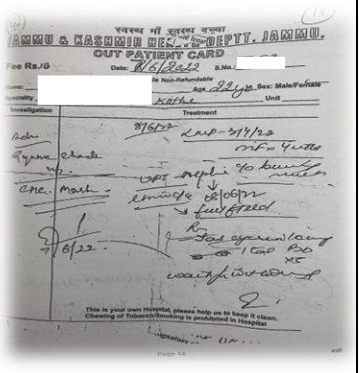
Table 3.10: Shortcomings in prescriptions given to outpatients

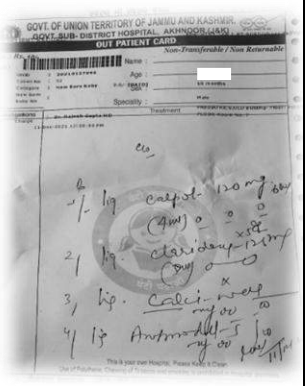
Number of prescriptions	Tertiary level Hospitals (5)	DHs (6)	SDHs/CHCs (28)
Test checked	183	111	300
Of which not written legibly	14	46	84
Of which not written in capital letters	182	111	299
Of which without name of doctor	129	82	277
Of which without signature of doctor	102	48	136
Of which not having registration number of doctor	183	95	284
Of which generic medicines not prescribed	157	67	194

(Source: Patient's satisfaction survey from concerned sampled HIs)

From the table above it is evident that the norms relating to prescriptions had not been adhered to by the HIs.







Prescriptions not written legibly, not written in capital letters and without name and registration number of doctor.

The Medical Superintendent, Associated Hospital GMC, Udhampur stated (January 2025) that the Prescription Audit Committee will be instructed to activate Prescription Audit. The Medical Superintendent, Govt. Hospital Gandhi Nagar, Jammu stated (January 2025) the Prescription Audit is conducted on regular basis. The Chief Medical Officer, Jammu stated (January 2025) that all the Block Medical Officers are conducting the Prescription Audit. The Chief Medical Officer, Udhampur stated (January 2025) that the SDH/ CHC will be instructed to activate Prescription Audit Committee.

3.2 In-patient Department (IPD)

In-patient Department (IPD) refers to the areas of the hospital where patients are admitted on the basis of the doctor's assessment carried out in the OPD, Emergency Services or Ambulatory Care.

3.2.1 Availability of IPD services in sampled DHs/ SDHs/ CHCs

IPHS 2012 norms provides for availability of specialist in-patient services pertaining to General Medicine, General Surgery, Ophthalmology, Paediatrics etc. in the DH, SDH and CHC.

Availability of required in-patient services in the test-checked DHs as of March 2022 is detailed in **Table 3.11.**

Table 3.11: Availability of in-patient services in test checked DHs

Sl. No.	Name of the DH	GM	GS	Oph	Ortho	Phy	Psy	Gyane	Paed	Dental

(Source: Information provided by the Department)
(A: Available; NA: Not available)

General Medicine, General Surgery, Ophthalmology, Orthopedic and Paediatric services were available in all six test-checked DHs while Gynaecology service was not available in DH Jammu only. There was lack of Physiotherapy, Psychiatry and Dental services in DH Anantnag and Psychiatry service in DH Ramban.

Availability of IPD services in CHCs/ SDHs is detailed in **Table 3.12.**

Table 3.12: Availability of IPD services in CHCs/ SDHs

	Total -28	**26**	**25**	**16**	**9**	**12**

(Source: Information provided by the Department)
(A: Available; NA: Not available)

The data in **Table 3.1.2** indicates that all IPD services were available in eight SDHs/ CHCs. General Surgery, Ophthalmology and Paediatric services were available in 16 (57 *per cent*), nine (32 *per cent*) and 12 (43 *per cent*) SDHs/ CHCs respectively. The selected IPD services were not available in CHC Jourian. In CHC Batote, only Paediatric service was available. Non-availability or shortage of these IPD services indicated that patients were either referred to TLHs/ DHs or had to opt for private hospitals resulting in additional financial burden on the patients.

The Chief Accounts Officer, Directorate of Health Services, Jammu stated (January 2025) that regular gap analysis is being done by the concerned BMOs and Medical Superintendents to ensure optimal functioning of IPD services in all respects.

3.2.2 Evaluation of IPD services through Outcome Indicators

The IPD services provided during 2016-22 in the test checked HIs were evaluated through certain Outcome Indicators (OIs) such as Bed Occupancy Rate[8] (BOR), Bed Turnover Rate[9] (BTR), Discharge Rate[10] (DR), Referral Out Rate[11] (ROR), Average Length of Stay[12] (ALoS), Leave Against Medical Advice[13] (LAMA) Rate and Absconding Rate[14].

[8] BOR is an indicator of the productivity of the hospital services and is a measure of verifying whether the available infrastructure and processes are adequate for delivery of health services. As per IPHS, the BOR of hospitals should be at least 80 *per cent.*

[9] BTR is the rate of usage of beds in an In-patient Department in a given period and is a measure of the utilization of the available bed capacity and serves as an indicator of the efficiency of the hospital. High BTR indicates high utilisation of the in-patient beds in a Department while low BTR could be due to fewer patient admissions or longer duration of stay in the Departments.

[10] Discharge rate measures the number of patients leaving a hospital after receiving due health care. High discharge rate denotes that the hospital is providing health care facilities to the patients efficiently, on the other hand low rate of discharge means that the health care facilities were not adequate.

[11] ROR denote refer to higher centres that the facilities for treatments were not available in the hospitals.

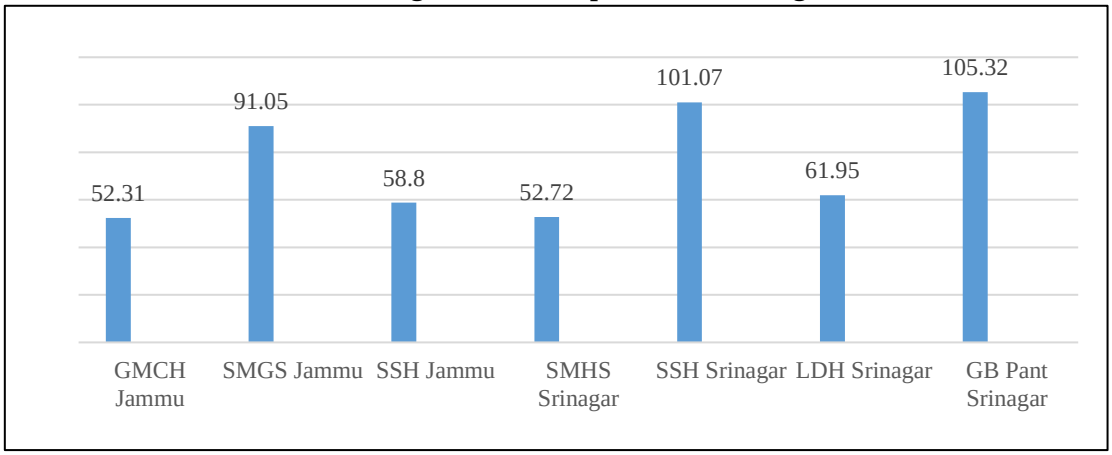
[12] ALoS is an indicator of clinical care capability and to determine effectiveness of interventions. ALoS is the time between the admission and discharge/death of the patient.

[13] LAMA is the term used for a patient who leaves the hospital against the advice of the doctor.

[14] Absconding Rate refers to patients who leave the hospital without informing the hospital authorities.

The average BOR[15] in the seven sampled TLHs during the period 2016-22 is given in **Chart 3.4.**

Chart 3.4: Average BOR in sampled TLHs during 2016-22



It was observed that the average BOR was above 80 *per cent* in case of three TLHs.

Average BOR in respect of six sampled DHs and 28 CHCs/ SDHs was not calculated/relevant information not provided by the concerned HIs.

On being pointed out by Audit, the three[16] CMOs and two[17] Medical Superintendents of District Hospitals concerned stated (December 2023 and January 2024) that in future BOR shall be calculated. The Medical Superintendent, Govt. Hospital Gandhi Nagar stated (January 2024) that BOR of hospital is available w.e.f. April 2022. The reply from three[18] CMOs and three[19] Medical Superintendents of District Hospitals is awaited.

The Bed Turnover Ratio (BTR[20]), Discharge rate[21] and Average Length of Stay[22] (ALoS) for TLH is detailed in **Table 3.13**.

Table 3.13: BTR, Discharge rate and ALoS in Tertiary Level Hospitals

Name of HI	Average BTR (No. of patients per bed in a year)	Discharge rate *per cent*	Average length of stay (No. of days)
GMCH, Jammu	42.43	93	4.19
SMGS Hospital, Jammu	70.96	98	4.61
SSH Jammu	19.15	95	10.61
SMHS Hospital Srinagar	100.57	97	1.86
SSH Srinagar	89.84	99	4.06
Lal Ded Hospital Srinagar	52.88	99	4.23
G.B. Pant Hospital Srinagar	92.99	96	3.97

(Source: Information furnished by the HIs)

15 BOR= (Total Patient bed days / 100)/Available Patient bed days
16 Jammu, Ramban and Udhampur
17 Ramban and Udhampur
18 Anantnag, Ganderbal and Kupwara
19 Anantnag, Ganderbal and Handwara
20 BTR= Total number of discharges/Availability of functional beds
21 Discharge rate = Total Number of discharges*100/total number of admission
22 AloS= Total patient bed days/Total number of admission

The average referral out rate[23], LAMA[24] rate and Absconding rate[25] could not be worked out either due to non-providing or partial providing of data by the concerned HIs or there were no such cases. It was observed that:

- Average BTR of SMHS Hospital, Srinagar was 100.57 during 2016-22, which shows that one bed catered to the needs of more than 100 patients. On the other hand, BTR of SSH Jammu was quite low as compared to other HIs.
- Discharge rate in respect of all the seven sampled TLHs was more than 90 *per cent*, which indicated that the hospitals are providing healthcare facility to the patients efficiently.

The outcome indicators in the sampled DHs is detailed in **Table 3.14.**

Table 3.14: Outcome indicators of IPD services in District Hospitals

Name of HI	Average BTR (No. of patients per bed in a year)	Discharge rate *per cent*	Referral out rate *per cent*	LAMA rate *per cent*	Absconding rate *per cent*
DH Anantnag	154.28	94	6.00	0	0
DH Ganderbal	71.80	91	9.20	0	0
DH Handwara	184.92	90	9.47	0.46	0
DH Jammu	92.41	93	6.58	NA	NA
DH Ramban	132.59	84	16.19	0.01	NA
DH Udhampur	95.54	90	9.58	0	0

(Source: Information furnished by the HIs)

It can be observed that:

- Average BTR in three sampled DHs was more than 100 during 2016-22 which indicated high utilisation of beds whereas in respect of DH Ganderbal it was quite low which indicated fewer patient admission or longer duration of stay of patients in the hospital as compared to other HIs.

- The DR was more than 90 *per cent* in five out of six sampled DHs (except DH Ramban) which indicated that the hospitals are providing healthcare facility to the patients efficiently.

- The referral out rate in respect of five out of six sampled DHs was less than 10 *per cent* whereas the referral out rate in respect of DH Ramban was higher as compared to other HIs. It was also observed in case of DH Ramban that there was shortage of doctors (discussed in **Paragraph 2.8**), non-availability of essential drugs (discussed in **Paragraph 4.1.1**) and poor availability of equipment (discussed in **Paragraph 4.3**). This indicated that healthcare facilities were not adequate in DH Ramban.

[23] ROR= Total number of cases referred*100/Total number of admission
[24] LAMA rate= Total number of LAMA*100/Total number of admission
[25] Absconding rate= Total number of absconding*100/Total number of admission

- The LAMA and absconding rate was either nil or negligible in respect of sampled DHs.

- In absence of data on average patient bed days, the average length of stay in respect of sampled DHs could not be worked out.

Similarly, the outcome indicators (OIs) of sampled SDHs/ CHCs are given in **Table 3.15.**

Table 3.15: Outcome Indicators of sampled SDHs/ CHCs

Name of District	Name of SDH/CHC	Average BTR (No. of patients per bed in a year)	Discharge rate *per cent*	Referral out rate *per cent*	LAMA rate *per cent*	Absconding rate *per cent*
Anantnag	Bijbehara	300.72	96	6.6	0	0
	Dooru	134.88	93	6.99	0	0
	Kokernag	178.09	88	11.82	0	0
	Seer Hamdan	153.79	100	0.22	0	0
	Shangus	196.43	95	5.21	0.05	0
Ganderbal	Kangan	178.63	88	12.02	0	0
Jammu	Akhnoor	162	98	13.82	0	0
	Bishnah	114.79	87	12.77	0	0
	Jagti	9.50	98	2.00	0	0
	Jourian	125.72	86	13.93	0	0
	Khour	20.45	98	7.69	0	0
	Kot-Bhalwal	18.30	94	10.36	0	0
	Marh	73.74	98	14.21	0	0
	R.S.Pura	128.81	95	12.33	0	0
	Sarwal	140.46	96	3.88	0	0
	Sohanjana	61.61	98	10.08	0	0
Kupwara	Kralgund	98.38	97	2.54	0	0
	Kralpora	253.05	86	13.55	0	0
	Kupwara	157.99	87	15.62	3.5	0
	Langate	200.71	99	0.51	0	0
	Sogam	175.15	90	10.29	0	0
	Tangdar	203.38	98	2.23	0.06	0
	Zachaldara	101.48	79	21.21	0	0
Ramban	Banihal	105.76	80	19.73	0.02	0
	Batote	67.42	92	7.79	0	0
	Gool	76.17	90	10.3	0	0
Udhampur	Chenani	29.35	99	9.74	0	0
	Ramnagar	158.68	93	7.14	0	0

(Source: Information furnished by HIs)

The **Table 3.15** indicates that:

- Average BTR in respect of 19 SDH/ CHCs was more than 100, which indicated high utilisation of beds, while in SDH/ CHCs Jagti, Khour, Kot-Bhalwal, Marh, Sohanjana, Batote and Chenani BTR was comparatively low.

- Discharge rate in all the sampled SDHs/ CHCs ranged from 79 to 99 *per cent*, which indicated efficient healthcare facility.

- The referral out rate was more than 15 *per cent* in SDHs/ CHCs Kupwara, Zachaldara and Banihal whereas in 12 SDHs/ CHCs, it was between 10 and 15 *per cent*.

3.2.3 Patient Satisfaction Survey of indoor patients

NHM Assessor's Guidebook for Quality Assurance provides for conducting of monthly Patient Satisfaction survey.

Audit observed that no in-patient Satisfaction Survey had been conducted by the hospital authorities during 2016-21 except in LD Hospital Srinagar, SDH Langate and CHC Kralgund. In-patient Satisfaction Survey was conducted during 2018-19 and 2019-20 in DH Jammu. The level of patient satisfaction revealed by a survey of 574 in-patients by audit is indicated in **Table 3.16.**

Table 3.16: Level of patient satisfaction revealed during survey of 574 in-patients

Particulars	TLHs (140 patients surveyed)	DHs (90 patients surveyed)	SDHs/CHCs (267 patients surveyed)	PHCs (77 patients surveyed)
	No. of patients satisfied			
Promptness of response of nurses in the ward	140 (100)	90 (100)	267 (100)	67 (87)
Prescribed drugs made available at Pharmacy and wards	101 (72)	70 (78)	170 (64)	35 (45)
Availability of prescribed investigations (lab/radiology)	131 (94)	87 (97)	173 (65)	26 (34)
Expenditure incurred by the in-patients out of own pocket on medicines/ diagnostic tests	33 (24)	21 (23)	114 (43)	33 (43)
Informed consent taken from family member/ attendant before treatment and procedures	138 (99)	63 (70)	170 (64)	45 (58)
Promptness in attending to complaints	138 (99)	90 (100)	179 (67)	57 (74)
Availability of manpower during day and night	139 (99)	90 (100)	202 (76)	42 (55)
Behaviour of the staff being good	140 (100)	90 (100)	266 (100)	67 (87)
Effective security system in place at patient care areas	139 (99)	49 (54)	87 (33)	2 (3)
Providing of sufficient food	125 (89)	32 (36)	40 (15)	2 (3)
Providing of food as per the diet prescribed by the doctor	0	15 (17)	19 (7)	2 (3)
Clean and adequate toilet facility available for male and female patients	93 (66)	56 (62)	179 (67)	16 (21)
Garbage removed from patient care area regularly	140 (100)	72 (80)	223 (84)	49(64)

(Source: Patient's Satisfaction Survey)

- In all sampled TLHs, DHs and SDHs/ CHCs, 100 *per cent of* patients were satisfied with the promptness of response of nurses in wards and behaviour of staff.

- In the sampled TLHs, out of 140 patients surveyed 24 *per cent* in-patients incurred out of pocket expenditure for drugs/ diagnostic tests etc. while 72 *per cent* patients were provided drugs in the institutions and 89 *per cent* patients were provided

sufficient food. However, all in-patients stated that diet was not provided as prescribed by the doctor as uniform diet was provided to all patients.

- One-third of the patients were not satisfied with the toilet facilities in DHs and SDHs/ CHCs.
- 22 *per cent* and 36 *per cent* in-patients respectively in DHs and SDHs/ CHCs stated that they were not provided prescribed drugs in the HIs.
- 23 *per cent* and 43 *per cent* in-patients respectively in DHs and SDHs/ CHCs had incurred expenditure on drugs/ diagnostics out of own pocket.
- 46 *per cent* and 67 *per cent* in-patients were not satisfied with the security system at IPD of secondary level Hospitals in DHs and SDHs/ CHCs respectively.
- 64 *per cent* and 85 *per cent* of in-patients were not satisfied with the availability of sufficient food whereas 83 *per cent* and 93 *per cent* stated that food provided was not as prescribed by the doctor in the DHs and SDHs/ CHCs respectively.

In PHCs;

- 55 *per cent* patients stated that they were not provided prescribed drugs through pharmacy.
- 79 *per cent* patients were not satisfied with the availability of toilet facility.
- 97 *per cent* patients stated that they were not satisfied with the security system in place at patient care areas, availability of sufficient food and providing of food as per diet plan.

Thus, due to non-conducting of patient satisfaction survey in most of the sampled HIs, the HI authorities were unable to develop an effective action plan for quality improvement in health facilities by identifying gaps on the basis of feedback from patients.

3.2.4 Operation Theatre services

Operation Theatre (OT) is an essential service that is to be provided to the patients. IPHS norms 2012 for DHs prescribe OTs for elective major surgery, emergency surgeries and ophthalmology/ ENT (ear, nose and throat) surgeries.

The status of availability of OTs in the DHs as of March 2022 is given in **Table 3.17**.

Table 3.17: Availability of Operation Theatres in District Hospitals

Availability of OTs	District Hospitals					
	Anantnag	Ganderbal	Handwara	Jammu	Ramban	Udhampur
Elective major surgery	A	A	A	A	A	A
Emergency surgeries	A	A	A	A	A	A
Ophthalmology/ENT surgeries	A	A	A	A	A	A

(Source: Information furnished by the HIs)
(A: Available; NA: Not available)

The table above indicates that the OTs for elective major surgeries, emergency services and Ophthalmology/ ENT surgeries were available in all the sampled DHs as of March 2022.

IPHS 2012 guidelines also prescribe OTs for elective major surgeries and emergency surgeries in SDHs. The status of availability of OTs in the sampled 18 SDHs as of March 2022 is given in **Table 3.18.**

Table 3.18: Availability of Operation Theatres in sampled SDHs

Sl. No.	Name of the SDH	OT for Elective major surgery	OT Emergency surgeries
1.	R.S. Pura (30)	NR	A
2.	Jagti (34)	NR	NA
3.	Kot-Bhalwal (75)	A	NA
4.	Marh (20)	NR	NA
5.	Bishnah (50)	NR	A
6.	Akhnoor (60)	A	A
7.	Sarwal (50)	NR	A
8.	Kangan (30)	NR	NA
9.	Sogam (33)	NR	A
10.	Kupwara (150)	A	A
11.	Langate (30)	NR	A
12.	Tangdar (30)	NR	A
13.	Ramnagar (30)	NR	A
14.	Seer Hamdan (30)	NR	NA
15.	Bijbehara (30)	NR	A
16.	Dooru (30)	NR	NA
17.	Shangus (20)	NR	NA
18.	Kokernag (30)	NR	NA

(Source: Information furnished by HIs)
(A: Available; NA: Not Available; NR: Not Required)

Data in the **Table 3.18** indicates that OT for emergency service was available in 10 out of 18 test-checked SDHs.

IPHS norms 2012 prescribe OT facility at CHC level but the same was not available in seven[26] out of 10 test-checked CHCs. However in three[27] CHCs minor OT was available.

IPHS norms 2012 for PHCs prescribe optional OT services in PHCs for performing selected surgical procedures such as Vasectomy, Tubectomy and Hydrocelectomy. Out of 52 sampled PHCs, only PHC Majalta (District Udhampur) and PHC Achabal (District Anantnag) had OT facility for these surgical procedures.

3.2.5 Physical verification of OT area

Availability of facilities as revealed during physical verification by Audit of the OT area of six selected DHs is detailed in **Table 3.19.**

[26] Batote, Gool, Khour, Jourian, Kralpora, Kralgund and Zachaldara
[27] Gool, Batote, Kralpoora,

Table 3.19: Availability of facilities revealed during physical verification

Facilities	DHs					
	Anantnag	**Ganderbal**	**Handwara**	**Jammu**	**Ramban**	**Udhampur**
Piped suction	Yes	Yes	No	Yes	Yes	Yes
Adequate oxygen supply	Yes	Yes	Yes	Yes	Yes	Yes
Uninterrupted electric supply with power backup	Yes	Yes	Yes	Yes	Yes	Yes
Heating system	Yes	Yes	Yes	No	Yes	Yes
Air-conditioning	Yes	Yes	Yes	Yes	Yes	Yes
Proper ventilation	Yes	Yes	Yes	No	No	Yes
Accessible to surgical ward	Yes	Yes	Yes	Yes	Yes	Yes
Accessible to Pathology	No	No	Yes	Yes	Yes	Yes
Accessible to blood bank	No	Yes	Yes	Yes	Yes	Yes
Changing room	Yes	Yes	Yes	No	Yes	Yes
Pre-operative room	Yes	Yes	Yes	Yes	No	Yes
Post –operative room	Yes	Yes	Yes	Yes	Yes	Yes
Regularly fumigated	Yes	Yes	Yes	Yes	Yes	Yes

(Source: Information provided by concerned HIs)

The data in **Table 3.19** indicates that almost all the necessary facilities were available in the OTs in the DHs except that piped suction in DH Handwara, heating system and proper ventilation in DH Jammu and pre-operative room and proper ventilation in DH Ramban were not available.

3.2.6 Surgeries performed per surgeon

As per NHM Assessor's Guidebook, surgeries performed per surgeon are an indicator to measure efficiency of hospitals.

Analysis of selected sample of surgeries performed in the test-checked DHs during the last quarter of 2021-22 indicated substantial variation in the number of major and minor surgeries performed per surgeon as detailed in **Table 3.20.**

Table 3.20: Major and minor surgeries per surgeon in the last quarter of 2021-22

Name of District Hospital	Surgeries performed per surgeon			Eye surgeries performed per surgeon
	General	**ENT**	**Ortho**	
Anantnag	25	32	19	37
Ganderbal	84	66	39	63
Handwara	57	52	117	32
Jammu	400	89	643	283
Ramban	95	0	96	0
Udhampur	120	44	140	71

(Source: Information provided by the sampled DHs)

As can be seen from the **Table 3.20**, general surgeries performed per surgeon were maximum in DH Jammu while these were minimum in DH Anantnag. No ENT and Eye surgeries were performed in DH Ramban due to non-availability of specialists.

3.2.7 Availability of equipment and drugs for OTs

Against essential drugs and equipment prescribed in NHM Assessor's Guidebook for OTs, Audit checked availability of 23 types of drugs and 29 equipment in the six test-checked DHs during the selected months[28] for the period 2016-17 to 2020-21. Significant shortages were observed as detailed in **Table 3.21**

Table 3.21: Availability of essential drugs and equipment in OTs

Sl. No.	Name of the District Hospital	Percentage shortage of	
		Essential drugs	Essential equipment
1.	Anantnag	65-74	34-45
2.	Ganderbal	35-65	59
3.	Handwara	30-61	76-86
4.	Jammu	30-48	45
5.	Ramban	61-70	55 -66
6.	Udhampur	39 -65	41

(Source: Records of test-checked hospitals)

- Shortage of essential drugs in OTs of all selected DHs ranged between 30 *per cent* and 74 *per cent*.

- Shortage of equipment was 76 to 86 *per cent* in DH Handwara, 59 *per cent* in DH Ganderbal, 45 *per cent* in DH Jammu and in DH Ramban shortage ranged between 55 *per cent* and 66 *per cent*.

In absence of required drugs and equipment, the patients may have to avail this facility from other sources.

3.2.8 Intensive Care Unit

3.2.8.1 Availability of ICU services in District Hospitals

As per IPHS 2012 norms, critically ill patients suffering from head injuries, severe haemorrhage, acute coronary occlusion, kidney and respiratory catastrophe, poisoning etc. are to be provided with lifesaving medical aid and nursing care by highly specialised staff in Intensive Care Unit (ICU) of District Hospital. The number of patients requiring intensive care may be about 05 to 10 *per cent* of total medical and surgical patients in a hospital.

Audit observed that four (Anantnag, Handwara Jammu and Udhampur) out of six DHs had Intensive Care Unit (ICU) and two (Ganderbal and Ramban) DHs were without ICU as of March 2022. However, ICU in DH Udhampur was non-functional due to non-availability of required manpower.

[28] November-2016, May-2017, April-2018, January-2020 and February-2021

ICU equipment lying idle in DH, Udhampur (27.06.2022)

Thus, in absence of ICU, patients in serious condition in need of ICU services were likely to be referred to other hospitals.

The Chief Accounts Officer, Directorate of Health Services, Jammu stated (January 2025) that ICU in DH Udhampur is non-functional due to non-availability of staff and space while as ICU service is available in DH Ramban.

3.2.8.2 Availability of essential equipment in ICU

IPHS 2012 norms prescribe a minimum of four beds in ICU of a DH. Audit observed that the availability of ICU beds in the sampled DHs[29] having availability of ICU services were more than those prescribed in the IPHS norms.

IPHS norms also envisage each bed in the ICU to be equipped with essential equipment such as High-end Monitor, Ventilator, Oxygen therapy devices, Deep vein thrombosis prevention devices, suction and Infusion pumps. Defibrillator, Ultrasound for invasive procedures and Arterial Blood Gas Analysis Machine should be available in the ICU as common facilities. The requirement and availability of ICU equipment in three test checked DHs where ICUs were functional as of March 2022 are detailed in **Table 3.22.**

Table 3.22: Requirement and availability of ICU equipment in District Hospitals

Name of the equipment	DH Anantnag (12 ICU beds)		Handwara (11 ICU beds)		Jammu (8 ICU beds)	
	Required	Available	Required	Available	Required	Available
High end monitor	12	12	11	3	8	6
Ventilator	12	15	11	5	8	18
Oxygen therapy devices	12	6	11	Nil	8	7
Deep vein thrombosis prevention suction devices	12	3	11	Nil	8	Nil

[29] DH Anantnag: 12 ICU beds; DH Handwara: 11 ICU beds; DH Jammu: 08 ICU beds

Name of the equipment	DH Anantnag (12 ICU beds)		Handwara (11 ICU beds)		Jammu (8 ICU beds)	
	Required	Available	Required	Available	Required	Available
Infusion pumps	12	12	11	Nil	8	Nil
Ultrasound	1	1	1	Nil	1	1
Defibrillator	1	5	1	1	1	1
Arterial Blood Gas (ABG) Analysis Machine	1	2	1	Nil	1	1

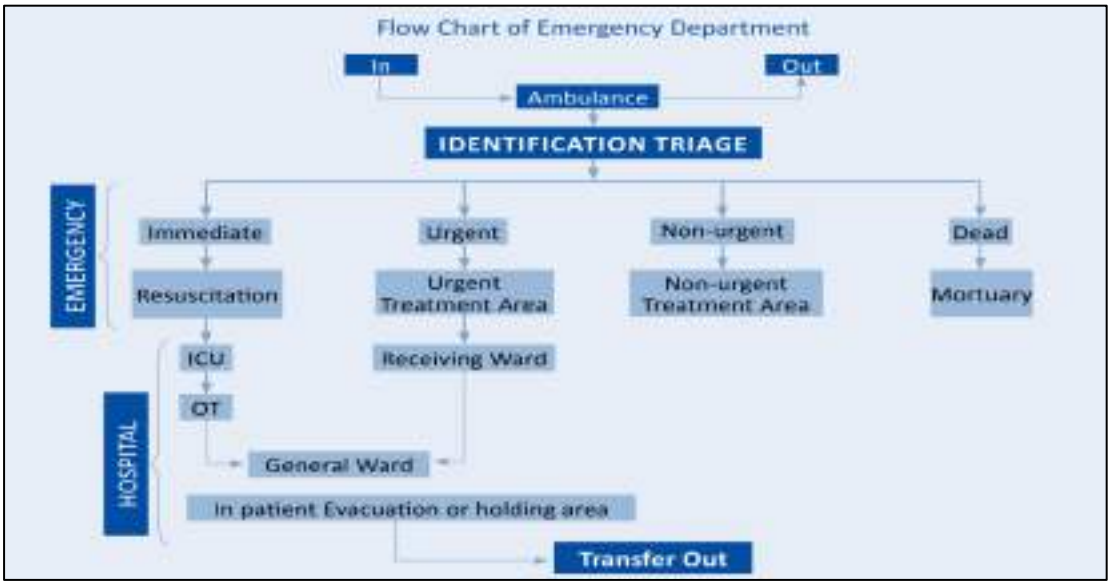
(Source: Information provided by the test checked hospitals)

It can be seen from the **Table 3.22** that ICUs in DH Anantnag and DH Jammu had adequate equipment, while Oxygen therapy devices, Deep vein thrombosis prevention suction devices, Infusion pumps, Ultrasound and ABG analysis machine were not available in DH Handwara. The facility of deep vein thrombosis prevention devices suction and infusion pumps was not available in DH Jammu.

3.2.9 Emergency Department

Emergency Department is the first point of contact for any critically ill patient needing immediate medical attention. Flow chart of Emergency Department is given in **Chart 3.5**.

Chart 3.5: Flow chart of Emergency Department



3.2.9.1 Availability of emergency services in DHs and SDHs

As per IPHS 2012 norms for DHs and SDHs, 24x7 operational emergency with dedicated emergency room shall be available with adequate manpower. Emergency shall have dedicated triage, resuscitation and observation area. Separate provision for examination of rape/ sexual assault victims should be made available in the emergency as per the guidelines of the Supreme Court.

Emergency should have mobile X-ray, laboratory, side labs, plaster room and minor OT facilities. Sufficient separate waiting areas and public amenities for patients and relatives should be located in such a way that these do not disturb functioning of emergency services. Further, procedures under emergency services required for Assault injuries/ Bowel injuries/ Head injuries/ Stab injuries/ Multiple injuries/ Perforation/ Intestinal obstruction should be available.

As per NHM Assessors' Guidebook 2013, emergency protocols should be defined and implemented for head injury, snake bite, poisoning, drawing etc. The facility should have a disaster management plan in place. The status of emergency services available in the sampled hospitals is given in **Table 3.23**.

Table 3.23: Availability of emergency services in sampled DHs

Particulars	DH Anantnag	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban	DH Udhampur
Availability of Emergency OT	Yes	Yes	No	Yes	Yes	Yes
Availability of infrastructure in the hospital Emergency ward	Yes	Yes	No	Yes	Yes	Yes
Availability of infrastructure relating to Trauma Ward such as bed capacity, machinery and equipment etc.	Yes	Yes	No	No	Yes	Yes
Availability of surgical facilities for Emergency Appendectomy	Yes	Yes	Yes	Yes	Yes	Yes
Availability of facilities to diagnose and to treat for Hypoglycemia, Ketosis and Coma	Yes	Yes	Yes	Yes	Yes	No
Availability of Assault injuries/Bowel injuries/Head injuries/Stab injuries/Multiple injuries/Perforation/Intestinal obstruction	Yes	No	Yes	Yes	Yes	Yes
Availability of Emergency laboratory services	Yes	Yes	Yes	Yes	Yes	Yes
Availability of Blood Bank in close proximity to Emergency Department	Yes	Yes	Yes	Yes	Yes	Yes
Availability of mobile X-ray/ laboratory, side labs/plaster room	Yes	Yes	Yes	No	Yes	Yes
Availability of Emergency Operation Theatre for Maternity/Orthopaedic Emergency/Burns and Plastic and neurosurgery cases round the clock.	Yes	Only Maternity OT	No	No	Yes	Yes
Availability of facilities for accidents and emergency services including poisoning and trauma care	Yes	Yes	Yes	Yes	Yes	Yes
Availability of separate emergency ward for examination of rape/sexual assault victim	Yes	No	No	No	Yes	Yes

Particulars	DH Anantnag	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban	DH Udhampur
Availability of sufficient separate waiting areas and public amenities in emergency ward for patients and relatives.	Yes	Yes	No	Yes	No	Yes
Availability of emergency protocols in emergency ward	Yes	Yes	No	Yes	Yes	Yes
Availability of disaster management plan in emergency ward.	Yes	Yes	No	Yes	Yes	Yes

(Source: Information furnished by sampled hospitals)

It is evident from the table above that most of the emergency services were available in all the sampled HIs except DH Handwara.

Availability of emergency services in sampled SDHs is given in **Table 3.24.**

Table 3.24: Availability of emergency services in sampled SDHs

Availability of facilities in test checked SDHs	Anantnag District (out of test checked 05 SDHs)	Ganderbal District (out of test checked 01 SDH)	Jammu District (out of test checked 07 SDHs)	Kupwara District (out of test checked 04 SDHs)	Udhampur District (out of test checked 01 SDH)
Emergency OT	1	0	6	3	1
Infrastructure in the hospital Emergency ward	4	1	6	4	1
Infrastructure relating to trauma ward such as Bed capacity, machinery and equipment etc.	3	1	5	4	0
Surgical facilities for Emergency Appendectomy	2	0	4	3	0
To diagnose and to treat for Hypoglycemia, Ketosis and Coma	2	0	3	4	1 (Only for hypoglycemia
To treat Assault injuries/Bowel injuries/Head injuries/Stab injuries/Multiple injuries/Perforation/Intestinal obstruction	4	0	4	3	0
Emergency laboratory services	3	1	7	4	1
Blood bank/blood storage unit in close proximity to Emergency Department	0 (Blood bank not available in 4)	0 (Blood bank not available in 1)	0 (Blood bank not available in 4)	0 (Blood bank not available in 1)	0
Mobile X-ray/laboratory, side labs/plaster room	0	0	4	2	0
Emergency Operation Theatre for Maternity/Orthopaedic Emergency/Burns and Plastic and neurosurgery cases round the clock.	0	0	5 (only for maternity)	3	1 (Only for maternity)

Availability of facilities in test checked SDHs	Anantnag District (out of test checked 05 SDHs)	Ganderbal District (out of test checked 01 SDH)	Jammu District (out of test checked 07 SDHs)	Kupwara District (out of test checked 04 SDHs)	Udhampur District (out of test checked 01 SDH)
Facilities for accidents and emergency services including poisoning and trauma care	4	1	7	4	0
Separate provision emergency ward for examination of rape/sexual assault victim	1	1	7	2	1
Sufficient separate waiting areas and public amenities in emergency ward for patients and relatives.	4	1	7	4	1
Emergency protocols in emergency ward	4	1	7	3	1
Disaster management plan in emergency ward.	4	1	7	3	1

(Source: Information furnished by sampled hospitals)

Data in the **Table 3.24** indicates that:

- The facility of Emergency OT was not available in seven SDHs out of 18 sampled SDHs/ CHCs.
- The surgical facilities for Emergency Appendectomy and Assault injuries/ Bowel injuries/ Head injuries/ Stab injuries/ Multiple injuries/ Perforation/ Intestinal obstruction were not available in nine and seven SDHs respectively out of sampled 18 SDHs/ CHCs.
- Blood Bank/ blood storage unit was not available in 10 out of 18 SDHs whereas in seven SDHs, it was not in close proximity to the Emergency Department.

The Chief Accounts Officer, Directorate of Health Services, Jammu stated (January 2025) that availability of emergency services in DHs and SDHs are in tune with IPHS norms except wherever there is shortage of staff.

3.2.9.2 Availability of routine and emergency care in CHCs

IPHS 2012 norms for CHCs provide for care of routine and emergency cases. Specific mention is made of handling of emergencies like Dengue Haemorrhagic Fever, Cerebral Malaria and others like dog and snake bite cases, Poisoning, Congestive heart failure, Left Ventricular failure, Pneumonias, meningoencephalitis, acute respiratory conditions, status epilepticus, burns, shock, acute dehydration etc. Availability of care of routine and emergency cases in CHCs is given in **Table 3.25.**

Table 3.25 Availability of routine and emergency cases in 10 sampled CHCs

Availability of routine and Emergency care service	Name of CHC									
	Sohanjana	Jourian	Khour	Batote	Gool	Banihal	Chenani	Zachaldara	Kralpora	Kralgund
Dengue Haemorrhagic fever	No	No	No	No	No	Yes	No	No	No	No
Cerebral malaria	Yes	No	Yes	No	No	Yes	No	No	No	No
Dog and snake bite cases	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Poisonings	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Congestive Heart Failure	No	No	No	No	No	Yes	No	No	Yes	Yes
Left Ventricular Failure	No	No	No	No	No	No	No	No	Yes	No
Pneumonia	Yes	No	Yes	Yes	No	Yes	Yes	Yes	Yes	No
Meningo-encephaltis	No	No	No	No	No	No	No	No	No	No
Acute respiratory conditions	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Status Epilepticus	Yes	No	Yes	Yes	Yes	Yes	No	Yes	No	No
Burns	Yes	Yes	Yes	Yes	No	Yes	Yes	No	Yes	Yes
Shock	Yes	Yes	Yes	Yes	Yes	Yes	Yes	No	Yes	Yes
Acute dehydration	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Obstetric care including surgical interventions like Caesarean section and other medical interventions	Yes	No	No	No C-Section	No	Yes	Yes	No	No	No

(Source: Information furnished by sampled hospitals)

It is evident from the **Table 3.25** that out of 10 test checked CHCs:

- Treatment of Dengue Haemorrhagic fever was only available in CHC Banihal.
- Treatment of Celebral Malaria was not available in seven CHCs except in CHC Sohanjana, CHC Khour and CHC Banihal.
- Treatment of dog and snake bite cases, poisoning, acute respiratory conditions, acute dehydration was available in all the sampled CHCs.

3.2.9.3 Management of Emergency cases in PHCs

As per IPHS 2012 norms for PHCs, 24-hour emergency services such as appropriate management of injuries and accident, First Aid, stitching of wounds, incision and drainage of abscess, stabilisation of the condition of the patient before referral, treatment of dog bite/ snake bite/ scorpion bite cases and other emergency services should be provided in PHCs. These services are to be provided primarily by the nursing

staff. However, in case of need, Medical Officer may be available to attend the emergencies on call basis. 24-hour delivery services-both normal and assisted including appropriate and prompt referral for cases needing specialist care should be ensured.

Availability of emergency services in PHCs of the six sampled Districts is detailed in **Table 3.26.**

Table 3.26: Availability of emergency services in PHCs

Sl. No.	Name of District	Number of test checked PHCs/NTPHCs/UPHCs	24-hours management of selected emergency services	Emergency on call basis, 24-hour normal delivery services and referral services
			Availability of services in no. of PHCs	
1.	Anantnag	9	4	4
2.	Ganderbal	6	2	1
3.	Jammu	10	0	0
4.	Kupwara	10	3	3
5.	Ramban	7	2	1
6.	Udhampur	10[30]	2	3
	Total	**52**	**13**	**12**

(Source: Information furnished by the sampled HIs)

It is evident from the **Table 3.26** that out of the sampled 52 PHCs, 24-hour management of selected emergency services and emergency on call basis, 24-hour normal delivery services and referral were available in 13 and 12 PHCs respectively.

3.2.9.4 Emergency Management of Covid-19

Coronavirus disease (COVID-19) is an infectious disease caused by SARS-CoV-2[31] virus. The COVID-19 pandemic in India was part of the worldwide pandemic that started at the beginning of December 2019. Symptoms of COVID-19 include fever, cough, headache, fatigue, breathing difficulties, loss of smell and taste etc. The surge of COVID cases put the healthcare infrastructure in the whole country including J&K under huge stress. Audit reviewed the emergency response of the public healthcare system of J&K to derive important lessons for future preparedness.

i) COVID-19 cases in J&K

The details of COVID-19 cases as of March 2022 are given in **Table 3.27**

Table 3.27: COVID-19 cases during 2019-22

Year	Active positive cases of previous year	COVID cases during the year	Total cases
2019-20	0	55	55
2020-21	51	1,30,905	1,30,956
2021-22	2,531	3,22,777	3,25,308
Total		**4,53,737**	

(Source: Figures furnished by State Health Society)

[30] NTPHC Latyar is not 24*7

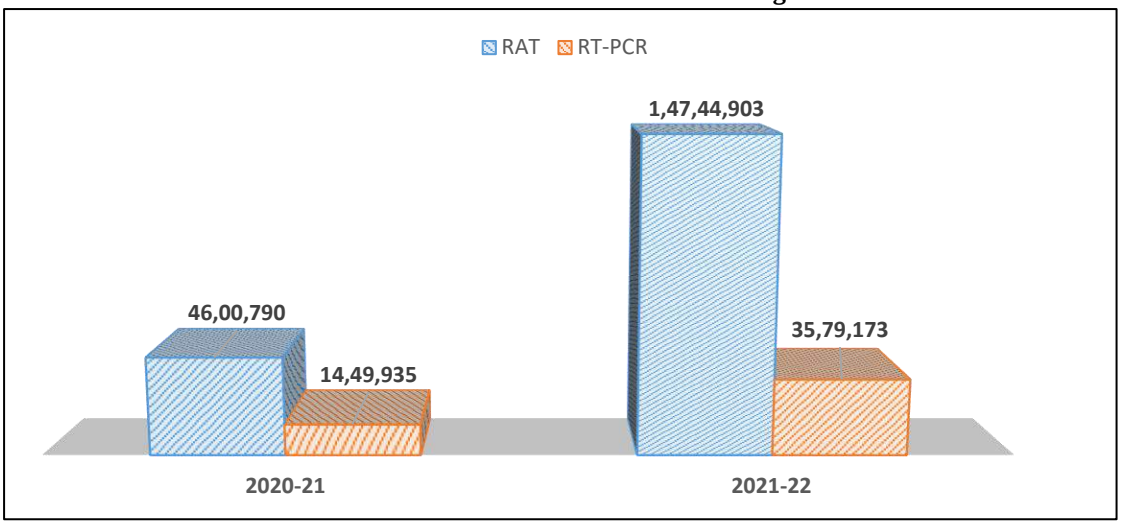
[31] Severe acute respiratory syndrome coronavirus 2

ii) COVID-19 tests

RT-PCR[32] and Rapid Antigen Test (RAT) [33] were commonly used to trace COVID-19 infection cases.

As of March 2022, a total of 243.75 lakh COVID-19 tests were conducted in the UT of J&K as detailed in the following Chart:

Chart 3.6: Covid-19 tests conducted in the UT of J&K during 2020-21 and 2021-22



(Source: Figures furnished by State Health Society)

iii) Emergency Response and Health Systems Preparedness Package (COVID Package)

The Emergency COVID Response Plan (ECRP) 2020-21 under Emergency Response and Health Systems Preparedness Package (COVID Package) was approved (November 2020) by GoI for the UT of J&K for ₹ 171.70 crore. The main components were testing and lab strengthening, procurement (excluding central supply), engagement of additional human resources, incentive to human resources, IEC activities for COVID etc.

Out of ₹ 43.74 crore received under ECRP by the Principal, GMC, Srinagar, funds of ₹1.84 crore were advanced to various Departments/Associated Hospitals[34] by the Principal, GMC, Srinagar during July 2020 and December 2021 for implementation of various activities. However, neither the adjustment accounts nor the utilisation certificates were furnished by the concerned institution in absence of which actual utilisation of ₹ 1.84 crore could not be ascertained.

---

32 Real time Reverse Transcription-Polymerase Chain Reaction test is a method of testing to directly detect the presence of virus in the sample.

33 RAT is a rapid diagnostic test that gives result faster than RT-PCR test but it had a higher chance of missing active infection

34 Executive Engineer, MHCH Division, Srinagar (₹ 0.54 crore), Executive Engineer, R&B Division 2nd Srinagar (₹ 0.10 crore), Medical Superintendent, G.B.Pant Hospital, Srinagar (₹ 0.12 crore), Medical Superintendent, SMHS Hospital Srinagar (₹ 0.80 crore) and Medical Superintendent, CD Hospital, Srinagar (₹0.26 crore)

iv) Emergency COVID Response Package-II

The proposal for Emergency COVID Response Package-II (ECRP-II) under "COVID-19 Emergency Response and Health System Preparedness Package Phase-II" was approved (August 2021) by GoI for ₹ 211.04 crore for implementation from July 2021 to March 2022. As per the laid-down condition, all the approved activities were to be completed well before March 2022.

The key deliverables to be achieved under ECRP-II and outcome as of March 2022 in respect of selected HIs is given in **Table 3.28.**

Table 3.28: Key deliverables under ECRP-II in respect of selected HIs

Sl. No.	Milestones to be achieved by March 2022	Actual achievement
1.	Establishment of RT-PCR Labs in 10 DHs	No RT PCR Labs was established (June 2022) in 10 DHs including in selected DHs Handwara and Ramban.
2.	Establishment of Paediatric Centre of Excellence (PCoE) in SMGS Hospital Jammu and in New 500 bedded Paediatric Hospital Bemina, Srinagar.	Not established as of December 2023 due to non-installation of software[35] set up in SMGS Hospital Jammu and in New 500 bedded Paediatric Hospital Bemina.
3.	Establishment of 12 bedded ICU at District Hospitals Ganderbal, Udhampur, Ramban, Anantnag and Govt. Hospital Gandhi Nagar Jammu, Handwara	Work in progress in DH Udhampur and DH Handwara (February 2023). The work in respect of DH Ganderbal, DH Ramban, DH Anantnag and DH Jammu has been completed.
4.	Establishment of 30-bedded Paediatric ward at DHs Anantnag, Ganderbal and Udhampur.	Work in progress in GMC Anantnag (February 2023). 24 bedded ward established in DH Ganderbal instead of approved 30-bedded ward and work in DH Udhampur completed.

(Source: Information provided by concerned HIs)

No reasons were furnished (February 2023) by the Mission Director, NHM, J&K for non-achievement of milestones.

v) Supply of ventilators and oxygen concentrators

• Ventilators

A ventilator is a device that supports or takes over the breathing process by pumping air into the lungs. People including those with severe COVID-19 symptoms, who stay in Intensive Care Units (ICU) may need the support of a ventilator.

During the period from March 2020 to March 2021 (March 10, 2021), 1,056 ventilators were received in the State/UT either by procurement (105) or donation (40) or under PM Cares (911). The details of ventilators received in the UT of J&K during 2021-22 were not furnished to audit. 219 ventilators were received in 18 out of 34 sampled secondary level HIs and 408 ventilators were received in seven TLHs during 2019-22.

[35] Tele-ICU is a combination of telemonitoring software and hardware integration. It is a web based solution that will facilitate monitoring of vital health parameters of patients connecting through web app and mobile app over network to view at Nursing station and patient at TELEICU.

Audit noticed that out of 219 ventilators received in 18 secondary level HIs, 17 ventilators in four[36] HIs were not being used due to non-availability of trained manpower, oxygen generation plant and delay in installation by the engineering staff. This indicated that the ventilators were issued without ascertaining the availability of required infrastructure and manpower in these HIs. The audit contention is substantiated by the fact that 26 ventilators were shifted (May 2021) to GMC Hospital, Jammu from six[37] secondary level HIs of Jammu District due to non-availability of trained manpower and oxygen plant in these HIs.

The Block Medical Officer, Akhnoor stated (January 2025) that all the four ventilators are installed and functional in the new building of SDH Akhnoor.

Out of 408 ventilators received in seven TLHs, four[38] ventilators were kept (December 2023) as reserve for pandemic exigencies, the rest were installed.

Ventilators lying idle at SDH, Akhnoor (23.12.2021)	**Ventilators lying unused in SDH, Ramnagar (20.05.2022)**

- **Oxygen Concentrators**

An oxygen concentrator (OC) is a medical grade machine which is used to deliver oxygen to patients with breathing related disorders. Surge in COVID-19 infection had resulted in an alarming increase in the number of active cases which led to spike in demand for OCs.

In the six selected Districts and six[39] Tertiary Level Hospitals, 5,616 Oxygen Concentrators (OCs) were received by the HIs by March 2022.

Audit noticed that out of these 5,616 OCs, 4,322 OCs were stated to be installed (as on March 2022) leaving a balance of 1,294 OCs which were yet to be put to use.

[36] DH Ganderbal (6), SDH, Akhnoor (4), SDH Kupwara (2), SDH Ramnagar (5)
[37] SDH Akhnoor (6), CHC Jourian (5), SDH R.S.Pura (2), CHC Khour (4), CHC Sohanjana (5) and SDH Sarwal (4)
[38] SMHS, Srinagar (2) and SSH, Srinagar (2)
[39] SSH Jammu, GMCH Jammu, SMGS Jammu, SMHS Srinagar, SSH Srinagar and Lalla Ded Hospital, Srinagar

OCs lying in sealed covers in store at CHC, Jourian (28.12.2021)	**OCs lying packed in store of SDH, Ramnagar (20.05.2022)**

The Block Medical Officer, Akhnoor stated (January 2025) that the Oxygen Concentrators are kept as buffer stock and are being used as and when necessity arises.

Supply of ventilators and OCs to the HIs without actual requirement had led to non-utilisation of machinery.

3.2.10 Blood Bank

IPHS 2012 norms provides for establishment of Blood Bank in DHs and blood storage unit (BSU) in the SDHs/ CHCs. All relevant guidelines and requirements of various Acts should be followed in setting up of a Blood Bank. Blood Bank was available in all the six sampled DHs. Availability of facilities in Blood Banks in six DHs and adherence to connected norms therein are detailed in **Table 3.29**.

Table 3.29: Availability of facilities in Blood Banks in six sampled DHs

Sl. No.	Facilities	Anantnag	Ganderbal	Handwara	Jammu	Ramban	Udhampur
1.	Separate reporting room for doctors	Yes	Yes	Yes	Yes	Yes	Yes
2.	Blood Bank validates the test results from external labs on regular basis.	Yes	No	Yes	Yes	Yes	Yes
3.	Blood group displayed prominently in the Blood Bank	Yes	Yes	Yes	No	Yes	Yes
4.	Blood Bank adhering to NACO guidelines	Yes	Yes	Yes	Yes	Yes	Yes

Sl. No.	Facilities	Anantnag	Ganderbal	Handwara	Jammu	Ramban	Udhampur
	and Drugs and Cosmetic Act						
5.	Blood Bank practicing first in first out policy for reduction of waste (Blood).	Yes	Yes	Yes	Yes	Yes	Yes
6.	Refrigerator for storing blood	Yes	Yes	Yes	Yes	Yes	Yes
7.	Adequate storage capacity	Yes	Yes	Yes	Yes	Yes	Yes
8.	Records of donor and receiver maintained properly	Yes	Yes	Yes	Yes	Yes	Yes
9.	24 hours power supply with power backup	Yes	Yes	Yes	Yes	Yes	Yes

(Source: Information provided by the concerned HIs)

It is evident from the **Table 3.29** that all norms were being adhered to in four out of six test- checked DHs. DH, Jammu was not displaying blood group and DH, Ganderbal had not got blood test results validated from external labs on a regular basis.

Out of 28 test-checked SDHs/ CHCs, BSUs were available in nine[40] SDHs/ CHCs. The license to operate blood storage units in SDH, Ramnagar and CHC, Chenani, had expired in January 2020 and September 2020 respectively but had not been renewed.

Further, 13[41] BSUs were approved for establishment in SDHs/ CHCs under NHM in 2018-19. The Directors Health Services, Jammu/ Kashmir were directed (December 2019) to establish the BSUs on priority by March 2020. Audit noticed that despite the lapse of over three years as of December 2023 eight[42] BSUs had been established.

3.2.11 Diagnostic Services

Efficient and effective Radiological and Pathological diagnostic services are amongst the most essential health care facilities for delivering quality treatment to the public based on accurate diagnosis. Many of the important Radiology and Pathology tests were not performed in the sampled HIs due to lack of required equipment and skilled manpower. Significant audit findings are discussed in the succeeding paragraphs:

40 SDHs Akhnoor, Bijbehara, Bishnah, Kupwara, Ramnagar, Sarwal, Sogam, Tangdar and CHC Chenani

41 R.S.Pura, Banihal, Ramgarh, Sohanjana, Vijaypur, Mendhar, Bishnah, Kangan, Zainpora, Qazigund, Nagam, Beerwah, Pattan

42 CHCs Qazigund, Beerwah, Nagam, Pattan, Banihal, Mendhar, Vijaypur and SDH Bishnah.

3.2.11.1 Radiology and other major Diagnostic Services

i) Availability of Radiology and other major diagnostic services in sampled DHs

Radiology is a branch of medicine that uses imaging technology to diagnose and treat disease. Availability of adequate functional radiology equipment with consumables and skilled human resources are key requirements for delivery of quality radiology services.

IPHS 2012 norms prescribe availability of radiology diagnostic services of X-ray, dental X-ray, Ultrasonography, CT Scan etc. in DHs. IPHS also prescribe diagnostic services under cardiac investigation, ENT, Ophthalmology, Endoscopy and Respiratory in DHs.

Availability of various diagnostic services in the test checked DHs is detailed in **Table 3.30.**

Table 3.30: Availability of Radiology Diagnostic services in sampled DHs

Name of Service	Name of Test/Diagnostic Service	DH Anantnag	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban	DH Udhampur
Radiology	X-ray for chest, Skull, Spine, Abdomen, bones	Yes	Yes	Yes	Yes	Yes	Yes
	Dental X-ray	Yes	Yes	Yes	Yes	Yes	Yes
	Ultrasonography	Yes	Yes	Yes	Yes	Yes	Yes
	CT Scan	Yes	No	Yes	Yes	Yes	Yes
	Barium Swallow, Barium meal, Barium enema, IVP	Yes	Yes	Yes	No	Yes	No
	MMR (Chest)	Yes	No	No	No	No	No
	HSG	Yes	Yes	No	No	No	No
Cardiac Investigation	ECG	Yes	Yes	Yes	Yes	Yes	Yes
	Stress Tests	Yes	No	No	No	No	No
	ECHO	Yes	Yes	No	Yes	No	Yes
ENT	Audiometry	Yes	Yes	No	Yes	Yes	Yes
	Endoscopy for ENT	Yes	Yes	Yes	Yes	No	No
Ophthalmology	Refraction by using Snellen's chart	Yes	Yes	Yes	Yes	Yes	Yes
	Retinoscopy	Yes	Yes	Yes	Yes	Yes	Yes
	Ophthalmoscopy	Yes	Yes	Yes	Yes	Yes	Yes
Endoscopy	Laparoscopic (diagnostic)	Yes	Yes	No	Yes	No	Yes
	Oesophagus	Yes	Yes	No	Yes	No	Yes
	Stomach	Yes	Yes	No	Yes	No	Yes
	Colonoscopy	Yes	Yes	No	Yes	No	No
	Bronchoscopy	Yes	No	No	No	No	No
	Arthroscopy	Yes	No	No	Yes	No	No
	Hysteroscopy	Yes	Yes	No	No	No	Yes
Respiratory	Pulmonary function tests	Yes	No	No	Yes	Yes	Yes

(Source: Information furnished by the sampled HIs)

It can be observed from the **Table 3.30** that:

- CT Scan services were available in five out of six test checked DHs except DH, Ganderbal.

- Facility of Barium swallow, Barium meal, Barium enema, IVP was not available in DH, Jammu and DH, Udhampur.

- Endoscopy for ENT was not available in DH, Ramban and DH, Udhampur.

ii) Availability of Radiology Diagnostic Services in sampled SDHs

IPHS 2012 norms provide that facilities of X-ray for Chest, Skull, Spine, Abdomen, bones, Dental X-ray and Ultrasonography with Colour Doppler should be available in an SDH. Availability of these imaging services in the sampled SDHs is detailed in **Table 3.31.**

Table 3.31: Availability of Radiology Diagnostic services in sampled SDHs

Sl. No.	Name of the SDH	X-ray for Chest, Skull, Spine, Abdomen, bones	Dental X-ray	Ultrasonography with Colour Doppler
1.	R.S. Pura	**Yes**	**Yes**	**Yes**
2.	Jagti	**Yes**	**No**	**Yes**
3.	Kot-Bhalwal	**Yes**	**Yes**	**Yes**
4.	Marh	**Yes**	**Yes**	**Yes**
5.	Bishnah	**Yes**	**No**	**Yes**
6.	Akhnoor	**Yes**	**Yes**	**Yes**
7.	Sarwal	**Yes**	**Yes**	**Yes**
8.	Kangan	**Yes**	**Yes**	**Yes**
9.	Sogam	**Yes**	**Yes**	**No**
10.	Kupwara	**Yes**	**Yes**	**Yes**
11.	Langate	**Yes**	**Yes**	**Yes**
12.	Tangdar	**Yes**	**Yes**	**Yes**
13.	Ramnagar	**Yes**	**No**	**Yes**
14.	Seer Hamdan	**Yes**	**Yes**	**Yes**
15.	Bijbehara	**Yes**	**Yes**	**Yes**
16.	Dooru	**Yes**	**Yes**	**Yes**
17.	Shangus	**Yes**	**Yes**	**Yes**
18	Kokernag	**Yes**	**Yes**	**Yes**

(Source: Information furnished by the sampled SDHs)

The data in **Table 3.31** indicates that major shortages in availability of imaging services were not there at SDH level. However, Dental X-ray was not available in three SDHs and Ultrasonography facility was not available in SDH, Sogam.

iii) Availability of Radiology Diagnostic Services in sampled CHCs

IPHS 2012 norms provide that X-ray for Chest, Skull, Spine, Abdomen, bones, Dental X-ray and Ultrasonography (desirable) facilities should be available in a CHC. Availability of these imaging services in the sampled CHCs is detailed in **Table 3.32.**

Table 3.32: Availability of Radiology Diagnostic services in sampled CHCs

Sl. No.	Name of the CHC	X-ray for Chest, Skull, Spine, Abdomen, bones	Dental X-ray	Ultrasonography (desirable)
1.	Sohanjana	**Yes**	**Yes**	**Yes**
2.	Jourian	**Yes**	**Yes**	**Yes**
3.	Khour	**Yes**	**No**	**Yes**
4.	Gool	**Yes**	**Yes**	**Yes**
5.	Banihal	**Yes**	**Yes**	**Yes**
6.	Batote	**Yes**	**Yes**	**No**
7.	Kralpora	**Yes**	**Yes**	**Yes**
8.	Zachaldara	**Yes**	**Yes**	**Yes**
9.	Kralgund	**Yes**	**Yes**	**Yes**
10.	Chenani	**Yes**	**Yes (but not installed as of March -2021)**	**Yes**

(Source: Information furnished by the sampled CHCs)

The data in **Table 3.32** indicates that the imaging services were available in all the sampled CHCs except that Dental X-ray was not available in CHC, Khour.

Further, the Minimum Standard Requirements for the Medical Colleges for (150 admissions) prescribe radiological equipment in the Department of Radio-Diagnosis. Availability of radiological equipment in the sampled TLHs is detailed in **Table 3.33.**

Table 3.33: Availability of radiological services in sampled TLHs

Name of radiological equipment	GMCH Jammu	SMGS Jammu	SSH Jammu	SMHS Srinagar	Lal Ded Srinagar	SSH Srinagar	G.B.Pant Srinagar
X-ray	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Ultrasonography	Yes	Yes	Yes	Yes	Yes	Yes	Yes
CT Scan	Yes	Yes	Yes	Yes	No	Yes	Yes
Mammography	Yes	No	No	Yes	No	No	No
MRI	Yes	No	No	Yes	No	No	No

(Source: Information furnished by the sampled TLHs)

MRI and Mammography facility were available only in GMCH Jammu and SMHS Srinagar.

3.2.11.2 Laboratory Services

HIs should be able to perform all tests required to diagnose epidemics or important diseases from public health point of view. IPHS 2012 norms prescribe 70, 39 and 29 types of laboratory investigations under five categories of Clinical Pathology, Pathology, Microbiology, Serology and Biochemistry to be carried out in the DHs, SDHs and CHCs respectively. Audit observations regarding these services are discussed in the succeeding paragraphs.

i) Availability of Laboratory Services in District Hospitals

The laboratory services were being provided through in-house laboratories in HIs. Availability of laboratory services in the sampled DHs is detailed in **Table 3.34.**

Table 3.34: Availability of laboratory investigations in sampled DHs

Sl. No.	Name of HI	Clinical Pathology (29)	Pathology (8)	Microbiology (7)	Serology (7)	Biochemistry (19)
1.	DH Anantnag	21	2	1	2	12
2.	DH Ganderbal	19	2	7	2	10
3.	DH Handwara	19	0	0	4	12
4.	DH Jammu	22	0	0	2	11
5.	DH Ramban	20	1	1	4	11
6.	DH Udhampur	22	3	0	6	10

(Source: Information furnished by sampled DHs)

76-100 *per cent*	51-75 *per cent*	26-50 *per cent*	Upto 25 *per cent*

The maximum laboratory investigations among six sampled DHs were available in DH Udhampur while DH Handwara and DH Jammu had maximum shortfall in laboratory services. Availability of investigations under Pathology were not available in DH Handwara and DH Jammu while Microbiology investigations were not available in DHs, Handwara, Jammu and Udhampur.

ii) Availability of Laboratory Services in SDHs

Against 39 types of laboratory investigations prescribed in IPHS 2012 norms for SDHs, availability in sampled SDHs is detailed in **Table 3.35.**

Table 3.35: Availability of laboratory services in sampled SDHs

Sl. No.	Name of SDH	Clinical Pathology (24)	Pathology (1)	Microbiology (4)	Serology (4)	Biochemistry (6)
1.	R.S. Pura	21	1	1	4	4
2.	Jagti	10	0	0	3	2
3.	Kot-Bhalwal	11	0	2	4	4
4.	Marh	12	0	1	4	4
5.	Bishnah	14	0	1	4	4
6.	Akhnoor	19	1	1	4	4
7.	Sarwal	20	1	1	2	3
8.	Kangan	16	0	1	4	4
9.	Sogam	18	0	1	3	4
10.	Kupwara	18	1	2	4	5
11.	Langate	12	0	1	4	3
12.	Tangdar	18	1	1	4	4
13.	Ramnagar	14	1	1	4	5
14.	Seer Hamdan	12	0	0	4	4
15.	Bijbehara	17	0	1	4	4
16.	Dooru	16	0	1	4	4
17.	Shangus	7	0	1	3	4
18.	Kokernag	0	1	4	4	6

(Source: Information furnished by sampled DHs)

76-100 *per cent*	51-75 *per cent*	26-50 *per cent*	Upto 25 *per cent*

The data in **Table 3.35** above indicates that there was maximum shortfall in pathology services in SDH Jagti, SDH Shangus and SDH Kokernag.

iii) Availability of Laboratory services in sampled CHCs

IPHS 2012 norms prescribe 29 types of laboratory investigations to be available in the CHCs. Availability of laboratory services in sampled CHCs is detailed in **Table 3.36.**

Table 3.36: Availability of laboratory services in sampled CHCs

Sl. No.	Name of HI	Clinical Pathology (18)	Pathology (1)	Microbiology (2)	Serology (3)	Biochemistry (5)
1.	Sohanjana	13	0	1	3	5
2.	Jourian	13	1	1	3	1
3.	Khour	10	1	0	2	1
4.	Gool	11	0	0	3	5
5.	Banihal	10	1	1	3	5
6.	Batote	11	0	1	3	5
7.	Kralpora	14	0	1	3	5
8.	Zachaldara	12	0	1	3	5
9.	Kralgund	11	0	0	3	2
10.	Chenani	14	0	1	3	5

(Source: Information furnished by sampled CHCs)

76-100 *per cent*	51-75 *per cent*	26-50 *per cent*	Upto 25 *per cent*

Information in the **Table 3.26** indicates Serology tests were adequate in all sampled CHCs. Pathology tests were not available in seven out of 10 sampled CHCs and Microbiology tests were not available in three CHCs. In absence of required pathology services the patients had to approach other institutions for availing the required services.

iv) Availability of Laboratory services in sampled TLHs

In seven test-checked TLHs, the position of availability of laboratory services in TLHs is given in **Table 3.37.**

Table 3.37: Availability of laboratory test in TLHs

Sl. No.	Name of the HI	Total number of tests*	Tests available	Shortfall	Percentage shortfall
1.	GMC Hospital Jammu	41	24	17	41
2.	SMGS Hospital Jammu	41	28	13	32
3.	SSH Jammu	41	30	11	27
4.	SMHS Srinagar	41	32	9	22
5.	SSH Srinagar	41	32	9	22
6.	GB Pant Hospital Srinagar	41	18	23	56
7.	LD Hospital Srinagar	41	22	19	46

(Source: Information furnished by the concerned HIs)
****As per Minimum Standard Requirements for the Medical Colleges (for 150 Admissions Annually) Regulations 1999 issued by Medial Council of India.***

The data in the **Table 3.37** indicates that there was shortfall in availability of pathology investigations in all the TLHs and percentage shortfall ranged between 22 *per cent* and 56 *per cent*.

3.2.11.3 Laboratory Equipment

- **Availability of laboratory equipment in sampled DHs**

IPHS 2012 norms prescribe 83 types of laboratory equipment for the DHs. It was, however, observed that the full range of prescribed laboratory equipment was not available as of March 2022 in the test-checked DHs as detailed in **Table 3.38.**

Table 3.38: Availability of laboratory equipment in sampled DHs

Sl. No.	Name of HI	Number of pathological equipment required as per IPHS	Equipment available	Shortfall (*percentage*)
1.	DH Anantnag	83	35	48 (58)
2.	DH Ganderbal	83	43	40 (48)
3.	DH Handwara	83	25	58 (70)
4.	DH Jammu	83	33	50 (60)
5.	DH Ramban	83	51	32 (39)
6.	DH Udhampur	83	41	42 (51)

(Source: Information furnished by the sampled DHs)

Shortfall less than 50 *per cent*	Between 50-60 *per cent*	More than 60 *per cent*

The **Table 3.38** indicates that the shortfall was maximum in DH Handwara (70 *per cent*) of laboratory equipment as compared with the other DHs.

- **Availability of laboratory equipment in sampled SDHs**

IPHS 2012 norms prescribe 33 laboratory equipment for SDHs. There was shortfall in availability of laboratory equipment in sampled SDHs as of March 2022 as detailed in **Table 3.39**.

Table 3.39: Availability of laboratory equipment in sampled SDHs

Sl. No.	Name of SDH	Number of laboratory equipment required as per IPHS	Equipment available	Shortfall (*percentage*)
1.	R.S. Pura	33	16	17 (51)
2.	Jagti	33	12	21 (64)
3.	Kot-Bhalwal	33	14	19 (58)
4.	Marh	33	16	17 (51)
5.	Bishnah	33	15	18 (54)
6.	Akhnoor	33	25	8 (24)
7.	Sarwal	33	18	15 (45)
8.	Kangan	33	15	18 (54)
9.	Sogam	33	32	3 (9)
10.	Kupwara	33	4	29 (88)
11.	Langate	33	19	14 (42)
12.	Tangdar	33	2	31 (94)
13.	Ramnagar	33	16	17 (51)
14.	Seer Hamdan	33	14	19 (58)
15.	Bijbehara	33	13	20 (61)
16.	Dooru	33	18	15 (45)
17.	Shangus	33	12	21 (64)
18.	Kokernag	33	15	18 (54)

(Source: Information furnished by the sampled SDHs)

Shortfall less than 50 *per cent*	Between 50-60 *per cent*	More than 60 *per cent*

The **Table 3.39** indicates that maximum shortfall of laboratory equipment was in SDH Tangdar and SDH Kupwara.

- **Availability of laboratory equipment in sampled CHCs**

IPHS 2012 norms prescribe 25 laboratory equipment for a CHC. However, full range of prescribed laboratory equipment was not available as of March 2022 in the test-checked CHCs as detailed in **Table 3.40.**

Table 3.40: Availability of laboratory equipment in sampled CHCs

Sl. No.	Name of CHC	Number of laboratory equipment required as per IPHS	Equipment available	Shortfall (*percentage*)
1.	Sohanjana	25	17	8 (32)
2.	Jourian	25	13	12 (48)
3.	Khour	25	10	15 (60)
4.	Gool	25	13	12 (48)
5.	Banihal	25	17	8 (32)
6.	Batote	25	14	11 (44)
7.	Kralpora	25	19	6 (24)
8.	Zachaldara	25	12	13 (52)
9.	Kralgund	25	20	5 (20)
10.	Chenani	25	15	10 (40)

(Source: Information furnished by the sampled CHCs)

Shortfall less than 50 *per cent*	Between 50-60 *per cent*	More than 60 *per cent*

The data in **Table 3.40** indicates that maximum shortfall (60 *per cent*) of laboratory equipment was in CHC Khour.

3.2.12 Maternity Services

Maternal Mortality Rate (MMR) and Infant Mortality Rate (IMR) are important indicators of the quality of maternity services available in HIs. As per the Sample Registration System report by Registrar General of India, against MMR of 97 at the national level, MMR in UT of J&K was 77 during 2018-20. Further, as per National Family Health Survey-5, IMR was 16.3 in the UT during 2019-20 as compared to 35.2 at national level during the year 2019-21.

Antenatal care (ANC), Intrapartum care (IPC) and Postnatal care (PNC) are the major components of maternity services.

3.2.12.1 Antenatal Care

Antenatal care (ANC) is the systematic supervision of women during pregnancy to monitor the progress of foetal growth and to ascertain the well-being of the mother and the foetus. ANC involves general and abdominal examination, laboratory investigations, comprehensive abortion care and management of complications such as Reproductive Tract Infection (RTI) and Sexually Transmitted Infection (STI).

i) ANC checkup of pregnant women

One of the major aims of safe motherhood is to register all pregnant women before they attain 12 weeks of pregnancy and provide them with services such as four antenatal checkups. As per the 'Guidelines for Antenatal Care and Skilled Attendance at Birth', the suggested schedule for antenatal visits is: 1st visit: within 12 weeks preferably as soon as pregnancy is suspected for registration of pregnancy and first antenatal check-up, 2nd visit: between 14 and 26 weeks, 3rd visit: between 28 and 34 weeks and 4th visit between 36 weeks and term.

To prevent anaemia, pregnant women need to be given one tablet of Iron Folic Acid (IFA: 100 mg elemental iron and 0.5 mg folic acid) every day for at least 100 days, starting after the first trimester (14-16 weeks of pregnancy). IFA dose is repeated three months after child birth.

Further, the administration of two doses of Tetanus Toxoid (TT) is an important step in the prevention of maternal and neonatal tetanus (tetanus of the newborn). The first dose of TT should be administered as soon as possible, preferably when the women register for ANC and the second dose is to be given one month after the first, preferably at least one month before the expected date of delivery.

Percentage of pregnant women registered and ANC, TT and IFA tablets provided to them in the UT of J&K as per NFHS-5 is detailed in **Table 3.41.**

Table 3.41: Indicators of Antenatal Care, TT administration and IFA tablets in the UT of J&K

Indicators	2019-20
ANC received in the first trimester *per cent*	86.6
Pregnant women received at least four ANC *per cent*	80.9
TT administration *per cent*	91.9
IFA (180 days) *per cent*	15.9

(Source: NFHS-5 survey report)

Audit observed that six test checked DHs[43] had facilities of specialised ANC. Details of pregnant women registered, check-ups received by them and medicinal doses provided to them during 2016-22 in the test-checked DHs are given in **Table 3.42.**

Table 3.42: Pregnant women registered and checkups/ medicinal doses provided to them

Year	Check-up received at				Women given Tetanus Toxide dose		Women given Iron Folic Acid Tablets
	Registration	14-26 weeks	28-34 weeks	36th week	TT1	TT2	
2016-17	15,341	17,717	17,865	7,714	7,486	5,000	2,499
2017-18	15,079	14,864	11,428	7,047	11,814	11,651	6,024
2018-19	14,267	10,899	8,425	5,401	11,213	10,505	1,091
2019-20	6,547	8,952	7,417	4,729	5,702	5,283	1,206
2020-21	1,600	9,913	7,353	4,315	1,519	1,325	1,379
2021-22	7,256	12,044	9,539	6,193	7,019	5,841	8,252
Total	**60,090**	**74,389**	**62,027**	**35,399**	**44,753**	**39,605**	**20,451**

(Source: Information furnished by sampled DHs,)

[43] Maternity services provided in MCCH, Anantnag instead of DH Anantnag

- The number of pregnant women registering themselves at the DHs had decreased from 15,341 during 2016-17 to 7,256 during 2021-22.

- Number of pregnant women registered for ANC during 2016-22 to the extent of 60,090 had reduced at the time of final ANC after 36th week of pregnancy by 41 *per cent*. This was indicative that pregnant women had shifted to other HIs for delivery.

- Out of 60,090 registered pregnant women, only 39,605 (66 *per cent*) had received 2nd dose of TT and only 34 *per cent* were provided IFA supplementation.

ii) Laboratory investigations

Guidelines for ANC and Skilled Attendance at Birth prescribe conducting six laboratory investigations (Blood group including Rh[44] factor, VDRL[45]/ RPR[46], HIV[47], Rapid Malaria, Blood sugar and HBsAg[48]) during visit by pregnant women at SDHs/ CHCs for ANC to identify pregnancy related complications.

Audit observed that:

- In SDH Jagti, only the facility of pathological investigation of Blood Sugar was available.

- The facility of Rapid Malaria test was not available in 13 SDHs/ CHCs (43 *per cent*) out of the sampled 28 SDHs/ CHCs which was prescribed for detection of Pregnancy Malaria which can lead to cases of maternal anemia, premature delivery, intrauterine growth retardation, and delivery of low birth-weight infants.

iii) Management of RTI/ STI

Reproductive Tract Infections (RTIs) including Sexually Transmitted Infections (STIs) present a huge burden of disease and adversely impacts the reproductive health of people. The consequences of RTI/ STI can be severe and life-threatening, such as Pelvic Inflammatory Disease (PID), Ectopic Pregnancy and adverse pregnancy outcomes including abortion, stillbirth, preterm birth and congenital infections (due to Syphilis, HSV, Hepatitis-B virus and HIV). National Guidelines (July 2014) on prevention, management and control of RTI/ STI provides for 13 essential RTI/ STI drugs.

Details of RTI/ STI patients treated in sampled DHs during 2016-22 and shortfall in availability of drugs in DHs are given in **Table 3.43:**

---

44 Rhesus factor
45 Venereal Disease Research Laboratory
46 Rapid Plasma Reagin
47 Human Immuno deficiency Virus
48 Hepatitis B Surface Antigen

Table 3.43: Availability of essential RTI/STI drugs in sampled DHs

Particulars	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban
Number of patients treated for RTI/STI during 2016-22	3,597	7,330	2,572	224
Average availability of drugs out of 13 essential RTI/STI drugs during test checked months (November 2016, May 2017, April 2018, January 2020, February 2021 and August 2021)	4	3	3	5
Percentage shortfall of drugs (out of 13)	69	77	77	62

(Source: Information furnished by the sampled HIs)

It is evident from the **Table 3.43** that there was shortfall in availability of essential RTI/ STI drugs ranging between 62 *per cent* and 77 *per cent* in four out of six sampled DHs during 2016-22. No RTI/ STI patient was treated in DH Udhampur during 2016-21 however during 2021-22, despite 35 patients attended the HI. No RTI/ STI patient attended the MCCH Anantnag during 2016-22.

Similarly, there was also shortfall in availability of essential RTI/ STI drugs in the sampled 28 SDHs/ CHCs as detailed in **Table 3.44.**

Table 3.44: RTI/ STI patients treated and availability of essential RTI/STI drugs in SDHs/ CHCs

Sl. No.	Name of SDH/CHC	Number of patients treated for RTI/STI during 2016-22	Average availability of essential RTI/STI drugs (out of 13 drugs)
1.	R.S. Pura	2,245	2
2.	Jagti	426	5
3.	Kot-Bhalwal	104	4
4.	Marh	2,079	5
5.	Bishnah	357	9
6.	Akhnoor	285	5
7.	Sarwal	14,150	3
8.	Kangan	840	5
9.	Sogam	12,872	1
10.	Kupwara	37,376	13
11.	Langate	44	7
12.	Tangdar	2,200	Nil
13.	Ramnagar	1,094	5
14.	Seer Hamdan	633	Nil
15.	Bijbehara	1,059	2
16.	Dooru	170	4
17.	Shangus	2,468	2
18.	Kokernag	6,244	12
19.	Sohanjana	11,457	5
20.	Jourian	10	7

Sl. No.	Name of SDH/CHC	Number of patients treated for RTI/STI during 2016-22	Average availability of essential RTI/STI drugs (out of 13 drugs)
21.	Khour	352	3
22.	Gool	69	7
23.	Banihal	13,455	2
24.	Batote	360	7
25.	Kralpora	1,226	6
26.	Zachaldara	3,687	5
27.	Kralgund	23	8
28.	Chenani	0	6

(Source: Information furnished by the sampled HIs)

More than 10 drugs	6-10 drugs	1-5 drugs	Nil drugs

The **Table 3.44** indicates that out of 28 sampled SDHs/ CHCs:

- there was non-availability of essential RTI/ STI drugs in two SDHs.
- average one to five drugs were available in 16 SDHs/ CHCs.
- average six to 10 drugs were available in eight SDHs/ CHCs.
- only two SDHs/CHCs had average availability of more than 10 drugs.
- During the period covered in audit, 2,833 RTI/ STI patients were stated to be treated in SDH Tangdar (2,200) and SDH Seer Hamdan (633) despite absence of specific RTI/ STI essential drugs. This indicated that the patients had to arrange the drugs themselves.

3.2.12.2 Intrapartum care (IPC)

Intrapartum is the time period from onset of labor to childbirth. Proper care during labor and childbirth saves not only mothers and their newborn babies, but also prevents stillbirths, neonatal deaths and other complications.

Audit observations on IPC have been discussed in the succeeding paragraphs:

• Preparation of partograph

The partograph is a tool for monitoring maternal and foetal well-being during the active phase of labour, and a decision-making aid when abnormalities are detected. Scrutiny of records of HIs revealed that out of six sampled DHs, three DHs partially used the partograph, whereas partographs were not used during 2016-22 in three DHs. 16 out of 28 test-checked SDHs/ CHCs had not used partographs and 12 SDHs/ CHCs[49] had either fully or partially used them.

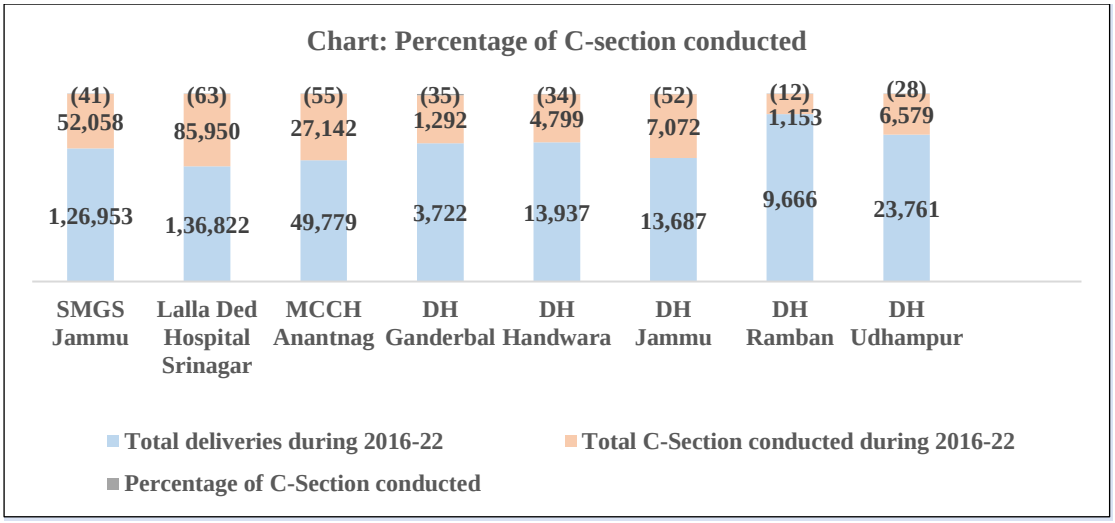
[49] SDHs Sarwal, Kupwara, Langate, Ramnagar, Seer Hamdan, Bijbehara, Dooru, Kokernag, Shangus, Marh and CHCs Kralpora and Kralgund

i) Caesarean Section deliveries

A Caesarean Section (C-Section) delivery is a lifesaving surgical procedure for the mothers and babies when certain complications appear during pregnancy or labour. NHM Guidelines on "Engaging General Surgeons for performing Caesarean Sections and managing Obstetric Complications" envisage that around 8-10 *per cent* of total delivery cases require C-section.

C-Sections conducted out of total deliveries in the selected two TLHs and six DHs are depicted in **Chart 3.7.**

Chart 3.7: Caesarian Sections deliveries conducted in Health Institutions



(Source: Information furnished by the respective HIs)

The data in the **Chart 3.7** shows that:

- A high percentage of total deliveries in two[50] TLHs beyond the percentage envisaged in NHM guidelines was conducted through C-Section.
- During 2016-22, out of 1,14,552 deliveries in sampled DHs, the C-section deliveries were 48,037 (42 *per cent*). The higher percentage of C-section deliveries was in DH Jammu (52 *per cent*) and MCCH Anantnag (55 *per cent*).
- 12 *per cent* C-section deliveries out of total deliveries in DH Ramban were however, close to the norms.

The C-Section deliveries in the sampled SDHs/ CHCs were 24 *per cent* of total deliveries (88,260).

The percentage of C-section deliveries in the HIs of the State/ UT was more than the national average of 14.3 *per cent* as per NFHS-5 (2019-21). The percentage of C-section deliveries as per NFHS-5 stood at 42.7 *per cent.*

[50] SMGS Hospital, Jammu and Lal Ded Hospital, Srinagar

In view of the higher rate of C-Section deliveries, the Mission Director, National Health Mission, J&K directed (February 2022) for conducting of C-Section audit to curb the rising trend of Caesarean births and to ensure judicious use of C-Section in only medically indicated cases.

ii) Postnatal Care

MNH Toolkit provides for Zero day immunisation for four vaccines viz. BCG[51], OPV[52], Hepatitis 'B' and Vitamin 'K' to newborns. The details of birth dose vaccination given to newborns in six test-checked HIs during 2016-22 are given in **Table 3.45.**

Table 3.45: Details of birth dose vaccination to newborns in sampled DHs during 2016-22

Sl. No.	Name of HI	Newborn (Live Birth) in HI	*Per cent* of newborns[53] given the vaccination dose			
			BCG	OPV	Hepatitis-B	Vit-K
1.	MCCH Anantnag	48,748	134	134	109	93
2.	DH Ganderbal	3,713	104	100	97	69
3.	DH Handwara	13,937	99	97	96	97
4.	DH Jammu	13,629	103	103	94	100
5.	DH Ramban	9,442	108	98	98	100
6.	DH Udhampur	23,603	124	119	104	100

(Source: Information furnished by sampled HIs)

From the **Table 3.45** it could be seen that the selected hospitals were fairly regular in administering zero day vaccination.

Details of birth dose vaccination administered to newborns in 28 test-checked SDHs/ CHCs during 2016-22 are given in **Table 3.46.**

Table 3.46: Details of birth dose vaccination to newborns in sampled SDHs/CHCs during 2016-22

Name of sampled District.	Number of SDHs/CHCs	Newborn (Live Birth)	*Per cent* of newborns given the vaccination dose			
			BCG	OPV	Hepatitis-B	Vit-K
Anantnag	5	15,480	100	100	100	100
Ganderbal	1	4,722	101	101	100	101
Jammu	10	23,367	108	108	100	100
Kupwara	7	28,736	105	115	104	81
Ramban	3	9,467	100	100	100	100
Udhampur	2	6,321	101	101	101	101

(Source: Information furnished by sampled HIs)
(Red: Less than 100)

Percentage immunisation given to newborns in the 28 test-checked SDHs/ CHCs was also satisfactory in the sampled Districts. However, the administration of Vitamin-K was 81 *per cent* in District Kupwara due to shortage of Vitamin-K supply during the period.

[51] Bacille Calmette-Guerin
[52] Oral Polio Vaccine
[53] Including newborns not delivered in concerned HI.

The status of immunisation of newborns in two TLHs during 2016-22 is given in **Table 3.47.**

Table 3.47: Status of immunisation of newborns in two TLHs during 2016-22

Name of Hospital	Newborn (Live Birth)	*Per cent* of newborns given vaccination			
		BCG	OPV	Hepatitis-B	Vit-K
SMGS Hospital	1,25,121	92	92	83	65
Lalla Ded Hospital	1,39,129	85	85	77	83[54]

(***Source: Records of test checked hospitals)***

As can be seen from the **Table 3.47**, during 2016-22 immunisation of newborns in SMGS Hospital Jammu ranged between 65 *per cent* and 92 *per cent* and in Lal Ded Hospital it ranged between 77 *per cent* and 85 *per cent*. In respect of administering of Vitamin-K in SMGS Hospital Jammu, the data was provided for normal deliveries only.

Thus, the mechanism of providing vaccination was better at the secondary level than at the tertiary level.

3.2.13 Doctor Survey

An interaction by Audit with 78 doctors in six DHs (16 doctors) and SDHs/ CHCs (62 doctors) revealed the following:

- About 67 *per cent* doctors were posted in HIs (DHs:13, SDHs/ CHCs: 39) for over two years.
- Out of 78 doctors, 53 doctors were post-graduate (DHs;13, SDHs/ CHCs: 40).
- 26 (33 *per cent*) doctors (DH: 04, SDHs/ CHCs: 22) stated that the required infrastructure was not available in the hospital.
- On an average one doctor was attending 67 patients per day in OPD/ IPD (DH:75, SDH/ CHC:59).
- 15 doctors (DH: 01, SDHs/ CHCs:14) were not aware of medical records kept in the hospital.
- 16 doctors (DHs: 05, SDHs/ CHCs: 11) stated that generic medicines were not available in hospital pharmacy.
- Manual on Standard Treatment Guidelines was not available in the chambers of 56 doctors (DHs: 08, SDHs/ CHCs: 48).
- 71 out of 78 doctors felt the need for improvement in the health care infrastructure by making equipment, machinery, drugs etc. available as per requirements of the patients.

[54] Data was taken for 2018-19 to 2021-22, as in 2016-17 and 2017-18 data was not available.

- 70 doctors confirmed availability of proper monitoring system in the HIs for patients requiring long term/ continuous treatment.

3.2.14 Support services

3.2.14.1 Liquid Medical Oxygen

Liquid Medical Oxygen is high purity oxygen used for medical treatment, and is developed for use in the human body. The oxygen supply is provided in hospitals through centralised oxygen supply, oxygen cylinders and oxygen concentrators.

Audit observed that:

- Centralised oxygen supply was available in four out of six selected DHs. In DH Handwara and DH Jammu, oxygen supply was provided through oxygen cylinders.

- Out of 28 SDHs/ CHCs, centralised oxygen supply was available only in eight[55] SDHs/ CHCs.

- There was adequate buffer stock of oxygen cylinders and oxygen concentrators in all test- checked DHs and SDHs/ CHCs except CHC Batote.

Availability of oxygen generation plants and their capacity in the sampled TLHs is detailed in **Table 3.48.**

Table 3.48: Availability of oxygen generation plants and their capacity in the sampled TLHs

Sl. No.	Name of the HI	Number of oxygen generation plants available	Available capacity (LPM[56])
1.	GMCH Jammu	10	8,700
2.	SSH Jammu	5	3,375
3.	SMGS Hospital Jammu	6	5,400
4.	SMHS Hospital Srinagar	6	5,600
5.	SSH Srinagar	3	2,300
6.	LD Hospital Srinagar	2	1,625
7.	G.B.Pant Hospital Srinagar	3	1,440
	Total	**35**	**28,440**

(Source: Information furnished by Departmental authorities)

One Liquid Medical Oxygen Tank of 20 kilolitre capacity was also installed in the GMC Hospital Jammu to cater to the needs of the patients.

3.3.14.2 Dietary service

IPHS norms 2012 envisage that dietary service of a hospital is an important therapeutic tool. It is, therefore, essential that the quality and quantity of diet provided to patients

[55] SDH Dooru, SDH Kangan, SDH Kot-Bhalwal, SDH Kupwara, SDH Sogam, SDH Tangdar, SDH Sarwal and CHC Banihal

[56] Litre per minute

should be of the requisite standard. Various aspects pertaining to providing diet to patients is detailed in **Table 3.49**.

Table 3.49: Availability of dietary facilities in the sampled HIs

Particulars	Available in number of TLHs (out of 7)	Available in number of DHs (out of 6)	Available in number of SDHs/ CHCs (out of 28)
Institutional mechanism for providing diet to patients	Nil	Nil	Nil
Outsourcing of diet	7	5	8
Availability of diet register	7	5	10
Mechanism for providing various types of diet (normal, dry, semisolid) to patients	1	1	2
Conducting of quality check	5	3	1
Conducting of quantity check	2	3	1
Availability of Dietician	2	Nil	Nil

(Source: Information provided by the concerned HIs)

Audit observed the following points in the sampled HIs.

- In absence of institutional mechanism for providing diet in all sampled HIs, all seven sampled TLHs, five out of six sampled DHs and eight out of 28 sampled SDHs/ CHCs were providing diet to patients through outsourcing. Dietary services were not available in DH Anantnag and in seven SDHs/ CHCs whereas the diet under the scheme JSSK was only being provided by DH Ganderbal and 13 SDHs/ CHCs.

- Diet register was available in all the TLHs, in five DHs and in 10 SDHs/ CHCs.

- There was no mechanism of providing diet to patients as prescribed by the doctors in all the HIs except in SSH Srinagar, DH Udhampur, SDH Kupwara and CHC Khour.

- The quality check of diet was being conducted in five TLHs, three DHs and in SDH Kupwara.

- The quantity check of diet was being conducted in two TLHs, three DHs and in SDH Kupwara.

- Dietician was not available in five TLHs and in none of the six sampled DHs and 28 SDHs/ CHCs.

In view of the above-mentioned observations, Audit could not derive an assurance that quality diet was provided to patients in the test-checked HIs.

3.2.14.3 Laundry services

IPHS 2012 norms provide that hospital laundry should be provided with necessary facilities for segregated collection, drying, pressing and storage of soiled and cleaned linens. It may be outsourced.

Audit observed that as of March 2022, laundry service was available in five[57] out of six test checked DHs except DH Handwara. Out of 28 sampled SDHs/ CHCs, laundry service was available in only four[58] SDHs.

HIs not having laundry facility were getting linen washed by employing someone on call basis or sending linen to a HI having laundry facility. Lack of laundry services poses health risk to both staff and patients.

Linen being washed in the open in SDH Marh (District Jammu) in absence of laundry facility (08.12.2021)

i) Availability of linen in hospital

IPHS 2012 norms prescribe 24 types of linen that are required for patient care services in hospitals. The availability of linen in sampled HIs is detailed in **Table 3.50.**

Table 3.50: Availability of linen in sampled DHs during 2021-22

Sl. No.	Type of linen	Availability of linen					
		DH Anantnag	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban	DH Udhampur
1.	Bed sheets	Yes	Yes	Yes	Yes	Yes	Yes
2.	Bedspreads	No	No	No	No	No	No
3.	Blankets (Red and Blue)	Yes	Yes	Yes	Yes	Yes	Yes
4.	Patna Towels	No	No	Yes	No	No	No
5.	Table cloth	No	No	No	No	No	Yes
6.	Draw sheets	No	Yes	Yes	Yes	Yes	Yes
7.	Doctor's overcoats	Yes	Yes	Yes	Yes	Yes	Yes
8.	Hospital workers' OT coat	No	Yes	No	Yes	Yes	Yes
9.	Patient's house coat (Female)	No	No	No	Yes	No	Yes
10.	Patient's Pyjama Shirt (for male)	No	No	No	Yes	No	Yes
11.	Over-shoes pairs	No	No	No	Yes	Yes	Yes
12.	Pillows	No	Yes	Yes	Yes	Yes	Yes
13.	Pillows cover	No	Yes	Yes	Yes	Yes	Yes
14.	Mattresses (Foam) for adult	Yes	Yes	Yes	Yes	Yes	Yes
15.	Paediatric mattresses	No	No	No	Yes	No	No
16.	Abdominal sheets for OT	No	Yes	Yes	Yes	No	Yes

[57] DH Anantnag, DH Ganderbal, DH Jammu, DH Ramban and DH Udhampur
[58] SDH Bishnah, SDH Akhnoor, SDH Kangan and SDH Sarwal

Sl. No.	Type of linen	Availability of linen					
		DH Anantnag	DH Ganderbal	DH Handwara	DH Jammu	DH Ramban	DH Udhampur
17.	Perineal sheets for OT	No	No	No	Yes	No	Yes
18.	Leggings	No	No	No	Yes	No	No
19.	Curtain cloth windows and doors	No	No	No	Yes	Yes	Yes
20.	Uniform/Apron	Yes	Yes	Yes	Yes	No	Yes
21.	Mortuary sheets	No	No	No	Yes	Yes	Yes
22.	Mats (nylon)	No	No	No	No	No	Yes
23.	Mackintosh sheets	No	Yes	No	Yes	Yes	Yes
24.	Apron for cook	No	No	No	Yes	No	No

(Source: Information furnished by sampled HIs)

It is evident from the **Table 3.50** that:

- The prescribed types of linen were not available in all the sampled HIs.
- The maximum shortfall of linen was in DH Anantnag whereas the minimum shortfall of linen was observed in DH Jammu.

In respect of the 28 sampled SDHs/ CHCs, availability of linen was in the range of four to 24 types. The maximum shortfall of 20 types of linen was observed in SDH Marh whereas in SDH Sogam and Kupwara, there was no shortfall.

ii) Cleanliness of linen

A hospital should provide clean and hygienic linen to patients for preventing infection among patients and hospital staff. The status of cleanliness of linen in the sampled DHs during 2021-22 is given in **Table 3.51**.

Table 3.51: Status of cleanliness of linen in sampled DHs during 2021-22

Particulars	DH Anantnag	DH Ganderbal	DH Jammu	DH Handwara	DH Ramban	DH Udhampur
Bed sheets changed on daily basis (with colour code)	Yes	Yes	Yes	No	Yes	Yes
Daily collection of soiled linen	Yes	Yes	Yes	Yes	Yes	Yes
Daily delivery of cleaned linen	Yes	Yes	Yes	Yes	Yes	Yes
Register of maintenance of linen available	Yes	Yes	Yes	Yes	Yes	Yes
Records of quantity of linen received from laundry available	Yes	Yes	Yes	No	Yes	Yes

(Source: Information furnished by sampled HIs)

The data in the **Table 3.51** indicates that cleanliness of linen was ensured in five out of six sampled DHs. In DH Handwara bed sheets were neither changed on a daily basis nor were records of quantity of linen received from laundry available.

The status of cleanliness of linen in the sampled 28 SDHs/ CHCs is detailed in **Table 3.52.**

Table 3.52: Status of cleanliness of linen in sampled SDHs/CHCs during 2021-22

Name of the District	Number of sampled SDHs/CHCs	Number of HIs where				
		Bed sheets changed on daily basis (with colour code)	Soiled linen collected daily	Cleaned linen delivered daily	Register of maintenance of linen was available	Records of quantity of linen received from laundry available
Anantnag	5	3	4	5	3	3
Ganderbal	1	0	0	1	0	0
Jammu	10	10	10	9	9	9
Kupwara	7	5	6	6	5	5
Ramban	3	3	2	2	2	1
Udhampur	2	2	1	1	2	2

(Source: Information furnished by sampled HIs)

It is evident from the **Table 3.52** that hospitals were not providing hygienic and clean bed linen to patients exposing them to the risk of infection.

3.2.14.4 Ambulance Services

IPHS 2012 norms provide for availability of 24-hour ambulance service in DHs, SDHs and CHCs. It is also desirable to have an ambulance in PHCs to provide emergency services.

Out of 1,263 ambulances under the control of Directorate of Health Services, Jammu & Kashmir, 121 ambulances were off the road (requiring repair: 09; outlived their useful life: 112) and 143 ambulances were beyond economic repair as of March 2022.

It was observed that in the sampled 06 DHs and 28 SDHs/ CHCs, ambulance service was available except in SDH Langate.

Out of 52 test-checked PHCs, ambulance service was not available in 33 (63 *per cent*) PHCs with the result the patients were deprived of ambulance service at the time of emergency.

- **Operationalisation of 102/108 Ambulance Service**

Toll free numbers 102 and 108 dedicated for providing ambulance service to pregnant women and infants and for attending medical emergency calls respectively was launched (March 2020) under JK Emergency Medical Service (JKEMS) in the UT of Jammu and Kashmir. As of March 2023, there was a fleet of 203 Critical Care Ambulances (Advance Life Support: 139; Basic Life Support: 64) and 286 Patient Transport Ambulances under Janani Shishu Suraksha Karyakram (JSSK) which were responding to Toll free numbers 102 and 108 in the UT of J&K. Year wise work done by JKEMS (102-108) Ambulance Service is detailed in **Table 3.53.**

Table 3.53: Patients served by JKEMS as of March 2022

Particulars	Total patients served since launch upto March 2022
Patients served by 102	27,819
Patients served by 108	1,13,515
Total	**1,41,334**

(Source: Information furnished by NHM, J&K)

The data in **Table 3.53** indicates that as of March 2022, on an average 194 patients[59] per day were served by 102-108 Ambulance service. Category wise patients served under 102 and 108 ambulances is detailed in **Table 3.54.**

Table 3.54: Category wise patients served under 102 and 108 ambulances

Total Patients served under 102	Upto March 2022	Total patients served under 108	Up to March 2022
Pregnant Women	5,475	Medical Emergency, Police Emergency, Fire Emergencies	48,396
Infants	396		
Other referral drop back	21,912		
Any other	36	Pregnancy Emergencies	38,056
		COVID	12,144
		Any other	14,919
Total	**27,819**		**1,13,515**

(Source: Information furnished by NHM, J&K)

It can be seen from the **Table 3.54** that 21,912 patients availed the referral drop back facility out of a total of 27,819 patients by 102 ambulances. Further, as many as 86,452 emergency cases (48,396 medical emergencies and 38,056 pregnancy emergencies) were served by 108 ambulances. A total of 12,144 patients related to COVID-19 had also been shifted to nearby dedicated COVID-19 HIs through 108 ambulances.

- **Average Response Time**

The average response time for urban and rural areas is 20 minutes and 30 minutes respectively. It was fixed by agreement (JKMSCL and BVG INDIA LTD) in August 2019.

The average response time in urban and rural areas by 108 ambulances during 2020-21 and 2021-22 is given in **Table 3.55.**

Table 3.55: Average response time in urban and rural areas by 108 ambulance service

Year	Urban area	Rural area
2020-21	17 minutes 53 seconds	22 minutes
2021-22	11 minutes 05 seconds	14 minutes 25 seconds

(Source:- National Health Mission J&K)

The average response time had improved in urban as well as in rural areas during 2021-22 as compared to 2020-21. Data regarding average response time by 102 ambulances was not provided.

[59] 1,41,334 patients / (365 days x 2 years)

- **Average calls per day**

The average calls per day during 2020-21 and 2021-22 under 102 and 108 ambulance services is given in **Table 3.56.**

Table 3.56: Average calls per day and answer time during 2020-22

Year	Average calls per day		Answer time	
	102	108	102	108
2020-21	1,867	1,020	09 seconds	08 seconds
2021-22	1,272	1,079	08 seconds	07 seconds

(Source:- National Health Mission J&K)

The data in **Table 3.56** indicates that the calls received under 102/ 108 were answered within nine seconds.

3.2.14.5 Mortuary

As per IPHS 2012 norms, mortuary provides facilities for keeping dead bodies and conducting autopsy.

Audit observed that mortuary was available in five out of six sampled DHs except DH Gandhi Nagar, Jammu. Out of 28 test-checked SDHs/ CHCs, mortuary was available in 12 SDHs/ CHCs. However, mortuary in eight[60] SDHs/ CHCs was functional and in four[61] SDHs/ CHCs, the mortuary was non-functional due to lack of infrastructure.

3.2.14.6 Patient Safety

i) Infection Control

Infection control in hospitals is vital for maintaining a safe environment for both patients and staff in the hospitals.

NHM Assessor's Guidebook requires that for cleaning and disinfection of patient care areas, standard practices be followed through maintenance of a checklist for hygiene and infection control in a hospital. Also for prevention and measurement of hospital associated infection, a Hospital Infection Control Committee (HICC) should be constituted.

Availability of checklist for hygiene and infection control and status of HICC as of March 2022 in the test checked hospitals is detailed in **Table 3.57.**

Table 3.57: Availability of checklist for infection control and status of constitution of HICCs

Availability of checklist for hygiene and infection control		Constitution of Hospital Infection Control Committee	
DHs (6)	SDHs/CHCs (28)	DHs (6)	SDHs/CHCs (28)
Five	12	05	15

(Source: Information furnished by sampled HIs)

[60] SDH R.S.Pura,, SDH Bishnah, SDH Akhnoor, SDH Kangan, SDH Kupwara, SDH Tangdar, SDH Ramnagar, and CHC Chenani.

[61] SDH Kot-Bhalwal, SDH Dooru, CHC Khour and CHC Sohanjana

It was observed that checklist for hygiene and infection control was not available in DH Handwara whereas the HICC was not constituted in DH Anantnag.

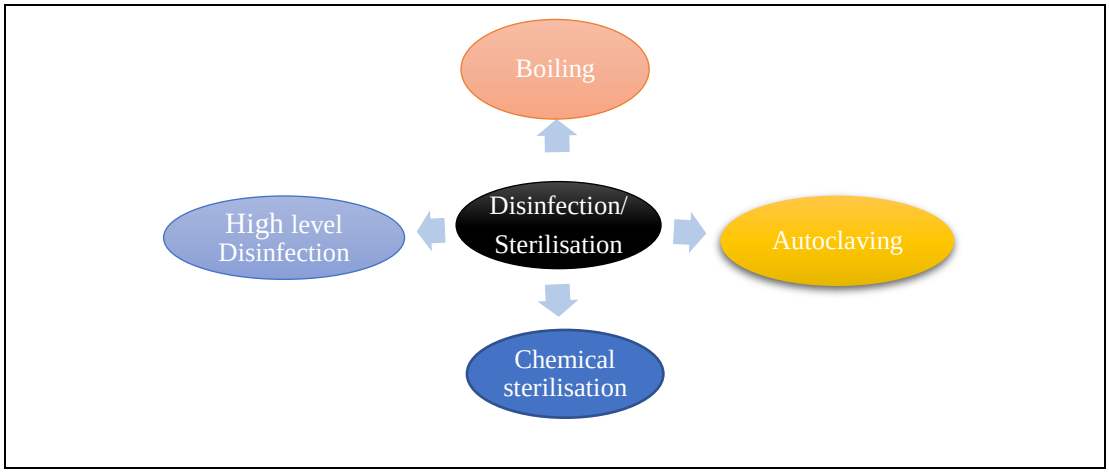
Further, out of 28 sampled SDHs/ CHCs, checklist for hygiene and infection control was available in 12 SDHs/ CHCs. HICC was constituted in 15 SDHs/ CHCs.

In six out of seven test-checked TLHs (except SMHS Hospital, Srinagar), a checklist for hygiene and infection control was maintained and HICC had been set up.

ii) Disinfection and Sterilisation

NHM Assessor's Guidebook recommends Boiling, Autoclaving, High Level Disinfection (HLD) and Chemical Sterilisation process for disinfection/ sterilisation of instruments and equipment in the health facility.

Various methods of disinfection and sterilisation



Status of availability of methods of disinfection and sterilisation in the sampled HIs is given in **Table 3.59.**

Table 3.59: Availability of methods of disinfection and sterilisation

Hospitals	Number of HIs where methods available			
	Boiling	Autoclaving	Chemical Sterilisation	High level disinfection
Tertiary Level Hospitals (7)	07	07	07	07
DHs (6)	05	06	04	04
SDHs/CHCs(28)	27	25	16	08

(Source: Information furnished by sampled HIs)

It is evident from the **Table 3.59** that all the methods of disinfection and sterilisation were not available in most of the sampled HIs.

iii) Disaster management in hospitals

NHM Assessor's Guidebook for Quality Assurance envisages preparation of Disaster Management Plan (DMP) and constitution of Disaster Management Committee.

Audit however observed that DMP was prepared and DMC was constituted by four[62] TLHs. Out of six sampled DHs, DMP was framed by three[63] DHs and DMC was constituted by four[64] DHs. Similarly, out of 28 sampled SDHs/ CHCs, DMP was prepared by 13 SDHs/ CHCs and DMC was constituted by 14 SDHs/ CHCs.

iv) Safety from fire

Fire safety is important and necessary in the workplace in order to prevent and protect against destruction caused by fire. Fire safety reduces the risk of injury and damage to buildings that fires can cause.

IPHS 2012 norms provide for ready availability of fire-fighting equipment such as fire extinguishers (FEs), sand buckets etc. Availability of fire safety equipment in the sampled TLHs is detailed in **Table 3.60.**

Table 3.60: Availability of fire safety equipment in sampled TLHs

Name of the HI	NOC obtained from F&ES Department	Fire extin-guisher	Smoke and heat detector	Smoke alarm	Fire hydrants	Sand bucket	Backup water for fire	Evacuation plan routes for fire exit	Fire extin-guisher at power backup area	Underground static water tank
GMCH Jammu	No	Yes	Yes	Yes	Yes	Yes	Yes	No	Yes	Yes
SMGS Jammu	No	30 expired out of 71	Non-functional	No	Yes	Yes	Yes	No	Yes	Yes
SSH Jammu	No	All 116 expired	Non-functional	No	Non-functional	Yes	Yes	No	No	Yes
SMHS Srinagar	Yes	Yes	No	No	No	No	No	Yes	Yes	No
SSH Srinagar	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
LD Srinagar	No	Yes	Yes	Yes	Yes	No	Yes	Yes	Yes	Yes
G.B. Pant Srinagar	No	Yes	No	No	Yes	Yes	Yes	Yes	Yes	Yes

(Source: Information furnished by the concerned HIs)

Data in the **Table 3.60** indicates that:

- NOC from Fire and Emergency Services (F&ES) Department was obtained by only SMHS Hospital Srinagar.
- FEs were installed in all the HIs. However, FEs were found expired in SMGS Hospital Jammu and SSH Jammu.
- Smoke and heat detectors were available in three HIs, were not available in two HIs and were found non-functional in SMGS Hospital, Jammu and SSH, Jammu.

62 GMCH Jammu, SMGS Jammu, G.B. Pant Hospital Srinagar and Lal Ded Hospital Srinagar.
63 DH Ganderbal, DH Jammu and DH Udhampur
64 DH Ganderbal, DH Jammu, DH Handwara and DH Udhampur.

- Smoke alarms were installed in three HIs.
- Fire hydrants were available in five HIs and were found non-functional in SSH Jammu.
- Sand buckets, the basic fire safety measure were available in five HIs.
- Backup water availability for fire, availability of FEs at power back up area and availability of underground static water tank was available in six HIs.
- Evacuation plan route for fire exit in case of emergency was available in four HIs.

Availability of fire safety equipment in the sampled DHs is given in **Table 3.61**.

Table 3.61: Availability of fire safety equipment in sampled six DHs

Name of the HI	NOC obtained from F&ES Department	Fire extin-guisher (FE)	Smoke and heat detector	Smoke alarm	Fire hydrants	Sand bucket	Backup water for fire	Evacuation plan routes for fire exit	FE at power backup area	Underground static water tank
DH Anantnag	No	Yes	No	No	No	No	No	No	Yes	No
DH Ganderbal	No	Yes	No	No	Yes	No	No	No	No	No
DH Handwara	No	Yes	No	No	No	No	No	No	No	No
DH Jammu	No	Yes	Yes	No	No	Yes	No	No	Yes	No
DH Ramban	No	Yes	Yes	Yes	Yes	No	No	No	No	No
DH Udhampur	No	Yes	Yes	Yes	No	Yes	Yes	Yes	No	Yes

(Source: Information furnished by the concerned HIs)

It is evident from the **Table 3.61** that:

- NOC from the F&ES Department had not been obtained by any of the DHs.
- FEs were installed in all the sampled DHs.
- Smoke and heat detectors were installed in three (50 *per cent*) HIs.
- Smoke alarms, fire hydrants, sand buckets and fire extinguishers at power backup area were found installed in four HIs.
- Backup water facility for fire, evacuation plan route for fire exit and underground static water tank was available in five HIs.

Availability of fire safety equipment in 28 sampled SDHs/ CHCs is given in **Table 3.62.**

Table 3.62: Availability of fire safety equipment in sampled 28 SDHs/CHCs

Particulars	Name of the District					
	Anantnag	Ganderbal	Jammu	Kupwara	Ramban	Udhampur
	Number of SDHs/CHCs sampled (5)	Number of SDHs/CHCs sampled (1)	Number of SDHs/CHCs sampled (10)	Number of SDHs/CHCs sampled (7)	Number of SDHs/CHCs sampled (3)	Number of SDHs/CHCs sampled (2)
NOC obtained from F&ES Department	1	0	1	Information not available	0	0
Fire extinguishers	5	1	9 (not available in SDH Jagti)	6 (not available in CHC Kralgund)	3	2
Smoke and hea Detectors	1	0	6	1	2	2
Smoke alarm	0	0	6	1	2	2
Fire Hydrants	2	1	3	0	1	0
Sand buckets	0	0	4	1	0	0
Backup water for fire	3	0	4	0	1	0
Evacuation plan routes for fire exit	0	0	2	0	0	2
Fire extinguisher at power backup area	4	1	3	3	0	0
Underground static water tank	3	0	4	1	0	0

(Source: Information furnished by the concerned HIs)

Available	Partially available	Not available

Audit observed that:

- NOC from F&ES Department was obtained by only SDH Kokernag and SDH Bishnah out of 28 sampled SDHs/ CHCs.
- Fire extinguishers were available in all the sampled SDHs/ CHCs except SDH Jagti and CHC Kralgund.
- Smoke and heat detectors were not installed in all the sampled SDHs/ CHCs of five out of six sampled Districts. Smoke and heat detectors were installed in SDH Ramnagar and CHC Chenani in District Udhampur.
- Fire hydrants were not installed in the sampled SDHs/ CHCs of District Kupwara and District Udhampur.

- Sand buckets were not available in sampled SDHs/ CHCs of District Anantnag, Ganderbal, Ramban and Udhampur.

- Backup water facility for fire was not available in sampled SDHs/ CHCs of District Ganderbal, Kupwara and Udhampur.

- Evacuation plan route for exit in case of fire were not marked in sampled SDHs/ CHCs of District Anantnag, Ganderbal, Kupwara and Ramban.

- FEs at power backup area were not installed in sampled SDHs/ CHCs of Ramban and Udhampur District.

- The facility of underground water static tank was not available in sampled SDHs/ CHCs of District Ganderbal, Ramban and Udhampur.

3.2.15 Grievances/complaints Redressal

For effective redressal of grievances of patients, NHM Assessor's Guidebook provides for a defined and established grievance redressal system. There should be a system of periodic review of patient complaints.

Details of complaints received and disposed of during 2016-22 in seven TLHs are given in **Table 3.63**.

Table 3.63: Number of complaints received and disposed of during 2016-22 in sampled TLHs

Name of the HI	Number of complaints received during 2016-22	Number of complaints disposed during 2016-22	Remarks
GMC Hospital Jammu	1	1	Records not available for the period 2016-20.
SMGS Hospital Jammu	1	1	Records not available for the period 2016-20
SSH Jammu	7	7	There was no mechanism for redressal of grievances during 2016-21
SMHS Srinagar	0	0	Records not maintained for the period 2016-22
SSH Srinagar	0	0	No grievance cell was in place in the hospital during 2016-22
LD Hospital Srinagar	47	47	
G. B. Pant Hospital Srinagar	47	49 (including 2 OB)	

(Source: Information furnished by the concerned HIs)

It is evident from the **Table 3.63** that either the record of complaints was not available or there was no mechanism in place for redressal of patient grievances in the TLHs except LD Hospital, Srinagar and G. B. Pant Hospital, Srinagar. Thus, due to non-maintenance of records of complaints, it could not be verified whether these hospitals had properly attended to the complaints of the patients.

In respect of sampled DHs, the number of complaints received and disposed of during 2016-22 is indicated in **Table 3.64.**

Table 3.64: Number of complaints received and disposed of during 2016-22 in sampled DHs

Name of the HI	Number of complaints received during 2016-22	Number of complaints disposed during 2016-22
DH Anantnag	69	69
DH Ganderbal	3	3
DH Handwara	24	24
DH Jammu	12	12
DH Ramban	Nil	Nil
DH Udhampur	11	11

(Source: Information furnished by the concerned HIs)

The data in the **Table 3.64** indicates that maintenance of data relating to redressal of grievances of patients was better in secondary care HIs as compared to TLHs.

3.3 Conclusion

The OPD services of ENT, Psychiatry, Ophthalmology, Skin and VD were not available in eight, nine, six and 13 DHs respectively. In 18 sampled SDHs, all the 09 essential OPD services were not available, and the shortfall ranged from one to 08 services. Similarly, against the requirement of 06 essential OPD services, there was a shortfall ranging from one to five services in 10 sampled CHCs. AYUSH services were not available in test-checked 18 SDHs and 09 CHCs (except CHC, Khour). Registration counters were also not found adequate in TLHs and DHs leading to long queues. PACs had not been framed in seven TLHs, two DHs and 22 CHCs/ SDHs. All basic facilities were not available in OPD area of all SDH/ CHCs.

All IPD services as per IPHS 2012 norms were available in three DHs out of six test-checked DHs. In respect of 28 sampled SDHs/CHCs, all IPD services were available in only seven SDHs and one CHC. OT services were available in all test-checked DHs. The OT facility was not available in SDHs Jagti, Marh, Kangan, Seer Hamdan, Dooru, Shangus and Kokernag. Out of 52 sampled PHCs, only two PHCs (Majalta and Achabal) had OT facility for surgical procedures such as Vasectomy, Tubectomy and Hydrocelectomy. Therefore, patients had to avail these facilities in other HIs.

Out of seven sampled TLHs, average BOR was above 80 *per cent* in case of three TLHs. While average BOR in respect of six sampled DHs and 28 CHCs/ SDHs was not calculated by the concerned HIs. Referral out rate in DH Ramban was higher as compared to other DHs. The referral out rate was more than 15 *per cent* in SDH Kupwara and CHCs Zachaldara and Banihal.

ICU services were not available in DH Ganderbal and DH Ramban. ICU in DH Udhampur was non-functional due to non-availability of staff. In Emergency services, most of the emergency services were available in all the test-checked DHs except for DH Handwara. It was noticed that the availability of Emergency OT was not available

in seven SDHs. Blood storage unit was not available in 10 out of 18 SDHs. Out of 10 sampled CHCs, treatment of Dengue Haemorrhagic fever was available only in CHC Banihal, treatment of Celebral Malaria was available only in three CHCs (Sohanjana, Khour and Banihal). Treatment of dog and snake bite cases, poisoning, acute respiratory conditions and acute dehydration was available in all the sampled CHCs. Out of 52 sampled PHCs, 24-hour management of selected emergency services was available in 13 PHCs and emergency on call basis, 24-hour normal delivery services and referral was available 12 PHCs.

Out of 219 ventilators received in 18 secondary level HIs, 17 ventilators in four HIs were not being used as of date of Audit due to non-availability of trained manpower, oxygen generation plant and delay in installation by the engineering staff. Out of 5,616 OCs, 4,322 OCs were installed and 1,294 OCs were not put to use.

Out of six sampled DHs, all the prescribed Radio Diagnostic services as per IPHS 2012 norms were available only in DH Anantnag. Endoscopy facility was not available in DH Ramban and DH Handwara. Further, facility of Barium swallow, Barium meal, Barium enema, IVP was not available in DH Jammu and DH Udhampur and DH Ganderbal did not have facility for CT scan.

Out of 18 sampled SDHs, all the three prescribed Radio Diagnostic services as per IPHS 2012 norms were available in 14 SDHs. Similarly, out of 10 CHCs, all the three prescribed/ desirable Radio Diagnostic services as per IPHS 2012 norms were available in eight CHCs. All sampled health institutions were not providing the full quota of prescribed pathology services, which implies that patients had to avail these services outside.

In two sampled TLHs and six sampled DHs, the rate of C-Section deliveries during 2016-22 was beyond the percentage envisaged in NHM guidelines. Percentage of C-section deliveries in HIs of State/ UT (42.70 *per cent*) was more than the national average of 14.3 *per cent* as per NFHS-5 (2019-21).

Among laundry services, the prescribed types of linen were not available in all the sampled HIs. The maximum shortfall of linen was in DH Anantnag whereas the minimum shortfall of linen was observed in DH Jammu. In respect of sampled 28 SDHs/CHCs, availability of linen was in the range of four to 24. The maximum shortfall of 20 types of linen was observed in SDH Marh whereas in SDH Sogam and Kupwara, there was no shortfall.

Ambulance service was available in all test-checked DHs and SDHs/CHCs except SDH Langate. However, ambulance service was available in only 19 out of 52 sampled PHCs. Out of 41 sampled HIs, seven TLHs, five DHs and eight SDHs/CHCs were providing diet to patients through outsourcing. Dietary services were not available in DH Anantnag and seven SDHs/CHCs. Dietary service was being provided by DH Ganderbal and 13 SDHs/CHCs to patients admitted under JSSK.

Out of sampled 41 TLHs/ DHs/ SDHs/ CHCs, NOC from Fire and Emergency Services Department was obtained only in respect of three HIs.

3.4 Recommendations

In the light of the audit findings, GoJ&K may consider the following:

- ***Ensure availability of basic facilities and registration counters in OPDs of each hospital at all levels, and ensure availability of doctors as per the patient load in the health institutions;***
- ***Ensure that all OPD services, IPD services, emergency services, OT services, maternity services and ICU services as prescribed under IPHS norms for different health institutions are made available to the beneficiaries;***
- ***Ensure availability of basic diagnostic services as prescribed under IPHS norms at secondary level health facilities; and***
- ***Take steps to improve and strengthen auxiliary and support services so that the overall healthcare experience is improved.***

CHAPTER-IV

AVAILABILITY OF DRUGS, MEDICINES, EQUIPMENT AND OTHER CONSUMABLES

CHAPTER-IV

Availability of drugs, medicines, equipment and other consumables

Drugs, medicines, equipment and other consumables constitute vital components for delivering comprehensive health services. With a view to relieving the service providers[1] of the additional burden of procurement of medicines, surgical equipment, machinery and vehicles and their distribution to various public health institutions (HIs), the J&K Government approved (May 2013) establishment of Jammu and Kashmir Medical Supplies Corporation Limited (JKMSCL) under the administrative control of the Health and Medical Education Department (H&MED). JKMSCL was incorporated in March 2014 as a Company under the Companies Act, 1956.

Audit findings on various components of drugs and equipment management in the health institutions are discussed in the succeeding paragraphs.

4.1 Availability of Essential Drugs

Essential medicines are those that satisfy the priority health care needs of the population. Essential medicines are intended to be available at all times in adequate amounts and in appropriate dosage forms. H&MED notified (July 2018) an Essential Drug List (EDL) for Government Hospitals of J&K for the period 2016-18 containing 558 drugs (885 formulations). However, the drugs/medicines in the list were not categorised for use in HIs at various levels. A revised EDL was subsequently notified (July 2019) containing 345 drugs (479 formulations) for its implementation in the Government Hospitals of Jammu and Kashmir.

4.1.1 Availability of Essential Drugs in DHs

As per the EDL of July 2019, 266 drug formulations were notified for District Hospitals (DHs). Average availability[2] of essential drug formulations under 28 categories for DHs is given in **Table 4.1**.

Table 4.1: Average availability of essential drug formulations in test-checked DHs

Sl. No.	Category (drugs)	Anantnag	Handwara	Ganderbal	Ramban	Udhampur	Jammu
1.	Anaesthetics (21)	18	5	3	1	10	10
2.	Analgesics, Antipyretics, non-steroidal Anti-Inflammatory medicines (7)	5	4	3	3	3	3
3.	Anti-allergics and medicines used in anaphylaxis (11)	9	5	3	2	7	3
4.	Anti-dotes and other substances in poisoning (5)	3	1	2	0	3	1
5.	Anti-convulsants/Anti-epileptics (13)	12	1	1	1	9	1

[1] Nine Head of Departments (HoDs)/ Doctors

Percentage availability		**58**	**26**	**13**	**11**	**47**	**22**

(Source: Information furnished by test-checked HIs)

Colour Code:	**76-100 *per cent***	**51-75 *per cent***	**25-50 *per cent***	**Below 25 *per cent***

It is evident from the **Table 4.1** that the overall average availability of essential drug formulations was ranging between 11 *per cent* (DH Ramban) and 58 *per cent* (DH Anantnag).

The Financial Advisor/ CAO JKMSCL stated (January 2025) that the procurement procedure involves demand generation, supply management and tendering process to get the quality hospital supplies. It is further stated that out of 28 categories, three[4] formulations are being provided to various healthcare facilities by the Ministry of Health & Family Welfare, GoI and three[5] formulations are available on the active rate contract of JKMSCL at present out of six[6] formulations which were not available in the

[3] Revised National Tobacco Control Programme
[4] (i) RNTCP medicines (ii) Anti-retroviral medicines and (iii) Vaccines
[5] (i) Radio Contrasts (ii) Oxytocics and Anti-Oxytosis and (iii) Anti-Parkinsonism
[6] (i) Anti-Parkinsonism medicines (ii) Oxytocics and Anti-Oxytocics (iii) RNTCP medicines (iv) Anti-retroviral medicines (v) Vaccines and (vi) Radio Contrasts.

active rate contracts of JKMSCL. The reasons for non-availability of essential drugs were non-execution of supplies by suppliers due to meager quantity, COVID pandemic and Not of Standard Quality report of drugs at the time of quality testing.

4.1.2 Availability of Essential Drugs in SDHs/ CHCs

As per the EDL of July 2019, 214 drug formulations were notified for SDHs and CHCs. The average percentage availability[7] of 214 essential drug formulations under 27 categories during the months of January 2020 and February 2021 in respect of sampled SDHs/CHCs is given in **Table 4.2**.

Table 4.2: Average availability of essential drug formulations in test-checked SDHs/ CHCs

Sl. No.	Name of the District	Name of the HI	Number of drug formulations available (out of 214)	Average percentage availability of drug formulations
1.	Anantnag	SDH Seer Hamdan	43	20
2.		SDH Bijbehara	33	15
3.		SDH Shangus	54	25
4.		SDH Kokernag	52	24
5.		SDH Dooru	108	50
6.	Kupwara	SDH Sogam	20	9
7.		SDH Kupwara	19	9

27.		CHC Batote	72	34
28.	Udhampur	CHC Chenani	58	27

(Source: Information furnished by test-checked HIs)

[7] Average availability of drug formulations for two test-checked months of January 2020 and February 2021.

As evident from the **Table 4.2**, the average availability of essential drug formulations was below 25 *per cent* in respect of 18 out of 28 sampled SDHs/ CHCs whereas in respect of the other nine SDHs/ CHCs, it was ranging between 25 and 50 *per cent*. CHC Zachaldara had availability of more than 50 *per cent* essential drug formulations.

4.2 Availability of AYUSH Essential Medicines

Department of AYUSH, Ministry of Health and Family Welfare (now Ministry of AYUSH) had prescribed (March 2013) 277 essential Ayurveda drugs and 288 essential Unani drugs. Average availability of Ayurvedic and Unani drugs during the period 2016-21 in the sampled Districts[8] is shown in **Table 4.3**.

Table 4.3: Availability of Ayurvedic and Unani essential drugs in test-checked Districts

Sl. No.	Name of the District	Average availability of Ayurvedic drugs during 2016-21 (*per cent*)	Average availability of Unani drugs during 2016-21 (*per cent*)
1	Anantnag	17 (6)	33 (11)
2	Ganderbal	31 (11)	53 (18)
3	Jammu	44 (16)	19 (7)
4	Kupwara	18 (6)	30 (10)
5	Ramban	107 (39)	45 (16)
6	Udhampur	22 (8)	17 (6)

(Source: Information furnished by District AYUSH Officers)

Colour Code:	**76-100 *per cent***	**51-75 *per cent***	**25-50 *per cent***	**Below 25 *per cent***

As seen from the **Table 4.3**, the average availability of essential Ayurvedic drugs in Ramban District was 39 *per cent* as compared to other sampled Districts where the average availability ranged between six and 16 *per cent*. In respect of average availability of essential Unani drugs, it ranged between six and 18 *per cent* only in the sampled districts.

Shortage of drugs had adverse impact on the services and there was high possibility that the unavailable drugs were being procured by the patients from the open market incurring expenditure out of own pocket defeating the purpose of free drug policy.

4.3 Availability of equipment in selected DHs

Under IPHS 2012 norms, essential equipment are worked out keeping in mind the assured services recommended for various grades of District Hospitals as per their bed capacity. The equipment required were worked out under 14 different categories and their availability as of March 2021 was checked in the test-checked DHs and the findings have been tabulated in **Table 4.4**.

[8] The essential Ayurvedic and Unani drugs are stored in the drug store at District level for further issuance to dispensaries under the administrative control of District AYUSH Officer.

Table 4.4: Position of availability of equipment in the selected DHs (as on March 2021)

Sl. No.	Type of equipment	101-200 beds	301-500 beds	Anantnag (410)	Handwara (73)	Ganderbal (130)	Ramban (50)	Udhampur (200)	Jammu (160)
1	Imaging	4	7	7	3	3	3	4	3
2	X-Ray Room Accessories	7	7	3	3	5	5	6	7
3	Cardiopulmonary equipment	13	15	13	8	11	11	12	10
4	Labour ward & Neo Natal and special New Born Care Unit equipment	27	27	16	20	15	19	24	21
5	General Equipment for Special New Born care unit	11	11	10	4	9	6	11	11
6	Disinfection of special New Born Care Unit Equipment	11	11	1	3	7	5	10	11
7	Immunisation Equipment	13	13	12	2	13	11	12	12
8	Ear, Nose, Throat equipment	16	18	15	5	6	1	6	11
9	Eye equipment	24	25	17	13	13	9	19	22
10	Dental equipment	42	42	27	24	30	22	29	25
11	Laboratory equipment	51	58	15	21	25	29	34	24
12	Endoscopy equipment	3	7	3	1	1	1	0	1
13	Anesthesia equipment	15	15	14	12	14	14	13	14
14	Post Mortem equipment	8	8	7	5	6	2	4	0
	Total	**245**	**264**	**160**	**124**	**158**	**138**	**184**	**172**
	Percentage			**61**	**51**	**64**	**56**	**75**	**70**

(Source: Information furnished by HIs)
Figures in brackets indicates number of beds in the HI

Colour Code:	**76-100 *per cent***	**51-75 *per cent***	**25-50 *per cent***	**Below 25 *per cent***

It can be observed from the **Table 4.4** that the overall availability of essential equipment was satisfactory in all the sampled DHs and it ranged between 51 *per cent* and 75 *per cent*.

The Financial Advisor/ CAO JKMSCL stated (January 2025) that the procurements are made on the basis of requisitions submitted by the Heads of the Department, subject to budgetary provisions.

4.3.1 Availability of equipment in sampled SDHs

IPHS 2012 norms recommend essential equipment for Sub-District Hospitals under different categories. Availability of essential equipment under 12 different categories were scrutinised in the sampled SDHs. The number of essential equipment available in

sampled SDHs under the recommended categories as of March 2021 is given in **Table 4.5**.

Table 4.5: Availability of equipment in sampled SDHs (as on March 2021)

Type of equipment	No.of equipment required		Seer Hamdan	Bijbehara	Shangus	Kookernag	Dooru	Sogam	Kupwara	Langate	Tangdar	Kangan	Akhnoor	Bisnah	Jagti	Kot Bhalwal	Marh	RS Pura	Sarwal	Ramnagar
	31-50 beds	51-100 beds	30 beds	30 beds	20 beds	30 beds	30 beds	33 beds	150 beds	30 beds	30 beds	30 beds	60 beds	50 beds	34 beds	75 beds	20 beds	30 beds	50 beds	30 beds

(Source: Information furnished by HIs)

Colour Code:	**76-100 *per cent***	**51-75 *per cent***	**25-50 *per cent***	**Below 25 *per cent***

The average availability of equipment in the sampled SDH Sarwal was 74 *per cent* followed by SDH Kokernag (73 *per cent*) and SDH Akhnoor (69 *per cent*). However, the availability of equipment in SDH Kot-Bhalwal 44 *per cent*.

4.4 Procurement of drugs/ medicines and machinery/ equipment

To ensure a systematic and uniform approach for procurement of drugs/ medicines and machinery/ equipment and to achieve the highest operating standards, with emphasis on transparency and accountability, JKMSCL framed (January 2016) 'Standard

Procurement Procedures (SPP)'. JKMSCL invited e-bidding for procurement of material including drugs/ medicines, machinery/ equipment and other materials.

4.4.1 Time taken in finalisation of rates

The following issues were noticed in Notice Inviting Tender (NITs) and finalisation of Rate Contract (RC)/ Annual Rate Contract (ARC).

- JKMSCL had not prescribed any timeline in SPP for finalisation of technical/ financial evaluation, meeting of the State Level Purchase Committee (SLPC) and issue of ARC. Audit scrutiny of 42 test-checked NITs of allopathic drugs/ medicines (12), AYUSH drugs/ medicines (three) and machinery/ equipment (27) out of 70 NITs finalised during March 2016 to January 2022 revealed that considerable time was consumed at various stages of procurement as detailed in **Table 4.6**. Details of these tenders are given in **Appendix 4.1.**

Table 4.6: Time taken in procurement of Allopathic/ AYUSH drugs and Machinery/ equipment

Particulars	No. of test-checked NITs	Time taken from NIT to TEC[9]	Time taken from TEC to FEC[10]	Time taken from FEC to SLPC	Time taken from NIT to SLPC
		(In days)			
Allopathic drugs and medicines	12	15- 376	1-94	0-51	56-436
Ayush drugs and medicines	3	159-449	0-4	15-54	178-503
Machinery/ equipment and other items[11]	27	4-328	0-364	0-516	85-707

(Source: Data furnished by JKMSCL)

Audit observed that overall time taken from issue of NIT to finalisation of ARC/ RC (date of SLPC) ranged between 56 and 707 days. The indenting Departments (including HIs) forward requisitions for procurement of drugs/ medicines as per the requirement on the basis of Essential Drug List (EDL). Delay in finalisation of rate contract would have had adverse impact on timely supply of drugs/equipment to the health institutions.

After being pointed out in Audit, the Financial Advisor/ CAO JKMSCL stated (January 2025) that a Logistic Cell has been established (May 2023) in JKMSCL to provide data to the tendering sections with regard to rate contract of the items nearing expiry, at least three months prior to the expiry of valid rate contracts. It was further stated that all the HoDs were requested to provide Essential Equipment List (EEL) in order to finalise the rate contract of EEL to ensure annual generation of demand and further procurement.

4.5 Quality Control Mechanism

JKMSCL is the nodal agency for procurement of generic drugs, medicines, surgical items, sutures, equipment/ machinery and allied items with 'Zero Quality Tolerance'

[9] Technical Evaluation Committee
[10] Financial Evaluation Committee
[11] Hospital furniture, dressing/suture items, disposable items and blood bags

and their distribution at affordable price among various Government HIs of the State/ UT.

4.5.1 Delay in empanelment of laboratories for testing and analysis of drugs

During January 2017 to January 2021, three NITs were floated for empanelment of laboratories for testing/ analysis of drugs/ medicines. Time taken to complete the process for empanelment of laboratories in these cases is detailed in **Table 4.7**.

Table 4.7: Time taken to complete the process of empanelment of laboratories

Particulars	Test- checked NITs	Date of NIT	Date of finalisation	Time taken from NIT to TEC	Time taken from TEC to FEC	Time taken from FEC to SLPC	Time taken from NIT to SLPC
				(*In days*)			
Allopathic drugs and medicines	JKMSCL/tend./Empl. Lab/2017/5	31.01.2017	15.12.2018	338	8	337	683
AYUSH drugs and medicines	JKMSCL/Empl.Labs/ Ayd/Unani/2017/284	17.01.2018	11.02.2019	379	1	10	390
	JKMSCL/Empl.Labs/ Ayd/Unani/2021/448	18.01.2021	10.08.2021	81	117	6	204

(Source: Data furnished by JKMSCL)

In absence of any timeline for finalisation of rate contract, the time taken from issue of NIT to finalisation of the rate (date of SLPC) ranged between 204 and 683 days.

The Financial Advisor/ CAO JKMSCL stated (January 2025) that for finalising the rate contract, JKMSCL has to go through a lengthy procedure in case of empanelment of laboratories for test analysis of drugs/ medicines which are to be administered directly to patients.

4.5.2 Delay in furnishing of test/ analysis report by the empaneled laboratories

As per Quality Control Policy and Procedure of JKMSCL framed in December 2016, the empaneled laboratories were required to furnish test reports within 10 days of receipt of sample in case of tablets, capsules, pessaries, ointments, powder and liquid oral preparations and within 21 days in case of I.V. fluids and injections.

Audit test-checked five months (one month each year) during which 921 samples were sent to the empaneled laboratories[12] for testing/ analysis of drugs/ medicines. Details of samples sent, reports received within time and reports not received within time are given in **Table 4.8**.

[12] 2016-17: 4; 2017-18: 5; 2018-19: 9; 2019-20: 6, 2020-21: 4

Table 4.8: Test reports of samples received within time/ not received within time

Particulars	Nov-16		May-17		Apr-18		Jan-20		Feb-21		Total	
	Tab	Inj	Tab	Inj	Tab	Inj	Tab	Inj	Tab	Inj	Tab	Inj
Total samples sent for quality check	55	49	145	124	183	87	162	47	41	28	586	335
Samples which were reported within time	20	32	100	114	112	17	124	41	32	24	388	228
Sample reports not received in time	35	17	45	10	71	70	38	6	9	4	198	107

(Source: Data furnished by JKMSCL, Tab: Tablets; Inj: Injections)

Out of samples of 586 tablets and 335 injections sent for quality check, reports of only 388 tablets (66.2 *per cent*) and 228 injections (68 *per cent*) were received in time of which two samples were found 'Not of Standard Quality'. Similarly, two samples were also found 'Not of Standard Quality' in respect of sample reports of 198 tablets and 107 injections not received in time.

Delay in receipt of sample reports of 198 tablets and 107 injections is summarised in **Table 4.9**.

Table 4.9: Delay in receipt of sample reports

Delay (*in days*)	Tablets	Injections
Upto 10	122	83
11 to 30	65	16
31 to 50	7	1
51 to 100	3	5
100 onwards	1	2
Total	**198**	**107**

(Source: Departmental records)

The above table indicated that in most of the cases there was delay in receipt of sample reports by upto one month.

The Financial Advisor/ CAO attributed (January 2025) the reasons for delay by the laboratories to furnish the test reports to non-availability of Standard Testing Procedures for non-pharmacopeial items, re-testing of samples by the laboratories in case of any doubtful results, receipt of test reports through offline mode prior to 2020 etc.

4.6 Procurement of suture items from a single supplier

In the Report of the Comptroller and Auditor General of India on Revenue Sector and Public Sector Undertakings (Social, General and Economic Sectors) for the year ended 31 March 2018, the irregularity of extending undue benefit by JKMSCL to a single supplier (M/s Johnson and Johnson) for procurement of suture material valuing ₹ 25.48 crore during October 2017 to March 2019 rejecting the other tenderers was pointed out. During the current Performance Audit, it was noticed that during 2019-21,

JKMSCL had continued to procure the suture material valuing ₹ 9.68 crore from the same supplier (M/s Johnson and Johnson). JKMSCL had recorded in its file noting that in response to NIT (2019-20), M/s Johnson and Johnson had quoted high rates regarding 130 items which seemed unreasonable and there was lack of clarity in the price quoted by other bidders in respect of the remaining items as to whether the price quote was for each box or piece. It was also mentioned in the file that there was ambiguity in arriving at the lowest bidder. Consequently, JKMSCL then requested M/s Johnson and Johnson to revalidate their last contract (2016-17) to serve the dual purpose of procuring approved items from the firm while simultaneously according substantial benefit to the state exchequer. The justification on record regarding procurement of suture material on the basis of the old contract is not acceptable, as JKMSCL should have issued fresh tenders to ensure fair competitive bidding.

The Financial Advisor/ CAO JKMSCL stated (January 2025) that the existing rate contract was extended under compulsion in the best interest of patient care after due approval of the competent authority. New rate contract for various sutures was finalised in November 2021 in favour of M/s Meditronics India Pvt. Ltd. and M/s Johnson & Johnson Ltd.

4.7 Availability of reagents for conducting CECT Scanning

Contrast Enhanced Computed Tomography (CECT) scanning is often considered the best method for detecting abdominal pain, suspected cancer, kidney or gall bladder stone and various infections/ inflammations. In this test, intravenous contrast dye is ingested into the body which helps provide a detailed view of the blood vessels. It also helps a doctor to take a clearer and closer view of internal organs and soft tissues and assess the progress of treatment of any illness.

Records of CT scanning section of two test-checked TLHs[13] of Jammu revealed that scanning of 1,20,083 patients was conducted during 2016-2022, out of which CECT scanning was conducted on 24,482 patients. Audit noticed that during the period 2016-2021 the reagent (contrast-dye) required for conducting CECT scanning had not been procured through JKMSCL/ open market for issue to CT/ CECT scanning section which also had not requisitioned the same at any stage, resulting in non-issue of required reagent to 20,328 patients who had undergone CECT scanning during 2016-21. Due to non-procurement of CECT reagents, there was every possibility that underprivileged and poor patients may have had to purchase this from the open market thereby increasing their out-of-pocket expenditure. During 2021-22, out of 4,154 patients who underwent CECT scanning, only 14 *per cent* (582) patients were provided the required reagent (contrast-dye).

[13] SMGS Hospital and GMC Hospital, Jammu

4.8 Store Management

4.8.1 Physical Verification of Drug Warehouses (DWHs)

Rule 213 (1) and (2) of GFR-2017 prescribes physical verification of fixed assets at least once in a year and recording of outcome of verification in a corresponding register.

Audit noticed that physical verification of DWHs had not been conducted regularly by the Physical Verification Committee constituted by JKMSCL. During 2016-22, physical verification of the four DWHs (Anantnag, Baramulla, Bemina and Nagrota) was conducted once in June 2021 and that of three DWHs (Rajouri, Doda and Kathua) was conducted in November and December 2020. The Committee pointed out mismanagement of available storage space, improper maintenance of records, delay in verification and submission of bills without valid reasons, non-displaying of labels on the racks etc.

The Financial Advisor/ CAO, JKMSCL stated (January 2025) that physical verification of all the regional drug warehouses has been completed upto 2024.

4.8.2 Storage and dispensing of drugs at HIs

As per NHM Assessors Guidebook for Quality Assurance, the stores must have prescribed facilities for storage of drugs and defined procedures for inventory management and dispensing of drugs. Details of facilities in pharmacy areas of seven test-checked TLHs, six DHs and 28 SDHs/ CHCs as revealed by a visit of the areas by Audit are given in **Table 4.10**.

Table 4.10: Facilities in pharmacy areas of test-checked TLHs, DHs and SDHs/CHCs

Sl. No.	Parameters	Availability		
		TLHs (07)	DHs (06)	SDHs/ CHCs (28)
1	Labelled shelves/racks	5	5	22
2	Away from water and heat	7	6	28
3	Drugs stored above the floor	4	6	26
4	Drugs stored away from walls	6	6	23
5	Display instructions for storage of vaccines	4	5	20
6	Functional temperature monitoring device in freezers	5	6	24
7	Maintenance of temperature chart of deep freezers	3	5	21
8	Drugs kept under lock and key	7	6	28
9	Poisons kept in a locked cupboard	5	3	21

(Source: Data furnished by concerned HLs)

The data in **Table 4.10** indicates inadequate facilities in the pharmacy area of the test-checked HIs.

4.9 Non-implementation of e-Aushadhi system

To improve drug warehousing and supply chain management in all Government Hospitals in the State, GoJ&K launched (2015) e-Aushadhi/ Drug and Vaccine Distribution Management System (DVDMS) portal, a web based supply chain

management application at Jammu and Kashmir Medical Supplies Corporation Ltd (JKMSCL). Through the DVDMS portal, the system was to keep check on purchases, inventory management and distribution of various drugs and surgical items to various regional and District drug warehouses, DHs, CHCs, SDHs and PHCs.

Audit noticed that while DVDMS had been made functional at JKMSCL level but the end users (SDHs/ CHCs and PHCs) were using it only for uploading requirement of drugs and not for maintenance of stock and distribution of items to their sub-stores. Further, DVDMS was not being used for distribution of drugs to the patients, which was its final objective.

In a review meeting (23 April 2019), the Administrative Department decided to implement the DVDMS in the year 2019 by 6th May at the DH level, by 31st May at the SDH/ CHC level and by 30th June at PHC (including UPHCs) level. Audit noticed that as of June 2022, the decision had not been implemented even after lapse of over three years with the result that the health institutions continued to use DVDMS only for annual uploading of requirement and not for maintenance of stock and further distribution to their sub-stores.

Implementation of DVDMS can help in reducing cases like the following instances of non-utilisation or expiry of drugs noticed by audit:

- Out of 140 kits of RTI/ STI drugs received (September 2017) in DH Ramban, 111 kits had expired due to non-utilisation. The Medical Superintendent, DH Ramban stated (December 2023) that the kits were received without submission of specific requisition for supply of the same. The kits could not be utilised due to less number of patients suffering from RTI/ STI disease reporting at the health facility.

- Out of 1,55,540 kits for five tests (Hb, blood sugar, urine protein, HIV, Rapid pregnancy test) procured by the Directorate of AYUSH during 2019-2022, only 43,783 kits were utilised for testing, 82,207 kits remained unutilised with dispensaries and 29,550 kits expired. The Director, AYUSH J&K stated (October 2023) that these kits could not be utilised/expired due to non-availability of AYUSH staff and decrease in footfall of patients during COVID-19 pandemic.

- During 2016-2019, 59,800 injections/tablets whose shelf life had expired were declared unfit for human consumption and were destroyed in CHC Banihal. The Block Medical Officer, Banihal stated (December 2023) that due to non-issue/ issue of lesser quantity, non-existence of system for assessment of required drugs and identification of surplus drugs, the quantity of un-issued medicines/ drugs kept on accumulating over the years which resulted in expiry of shelf life.

The Financial Advisor/ CAO, JKMSCL stated (January 2025) that there were about 100 *per cent* active users at the level of Chief Medical Officers and Block Medical

Officers whereas at District Hospital level, Medical Colleges level and at CHC/ PHC level, there were about 60 per cent to 80 per cent active users as of December 2024.

4.10 Non-functional machinery and equipment

Audit noticed that 10 equipment[14] valuing ₹ 0.82 crore were lying non-functional in SMGS Hospital Jammu as on March 2022 though all these equipment were under warranty and procured during 2017-2021, thus rendering the expenditure of ₹ 0.82 crore incurred on procurement of these equipment unfruitful.

4.11 Jhelum Tawi Flood Recovery Project (JTFRP)-World Bank Aided Project

JKMSCL executed agreements with suppliers/ manufacturers for supply of items worth ₹ 289.69 crore sanctioned under World Bank aided projects.

Records showed that out of 5,868 items, 68 items valuing ₹ 10.22 crore were not received (March 2022) whereas 3,150 items valuing ₹ 123.41 crore were received with delay ranging between three and 306 days.

The Financial Advisor/ CAO JKMSCL J&K stated (January 2025) that against the purchase orders of ₹ 290 crore, 100 *per cent* supplies have been executed by the concerned companies.

In addition, 24 machines/ items valuing ₹ 1.61 crore received under World Bank funded project and issued to Trauma Care Centre, Udhampur had remained non-functional since date of receipt resulting in idle investment of ₹ 1.61 crore due to non-availability of staff.

The Medical Superintendent, Associated Hospital GMC Udhampur attributed (January 2025) non-functioning of Trauma Care Centre to non-availability of staff and adequate space.

Further, in spite of the fact that DH Ramban was already provided (January 2014) Laparoscopic equipment alongwith accessories worth ₹ 30.68 lakh by the Director Health Services, Jammu, two more "Full HDlcg Fleurosense Technology Laparoscope Endovision Set" valuing ₹ 1.08 crore was supplied (January 2021) by the JKMSCL to the hospital. Audit noticed that DH Ramban had not projected any such requirement. Further, laparoscopic equipment already lying with the hospital remained idle since June 2019 due to non-availability of trained paramedical staff. Supplying of equipment without any requisition by the user Department and in absence of trained manpower resulted in idling of laparoscopic equipment.

The Medical Superintendent, District Hospital Ramban stated (November 2023) that the laproscopic procedures have been started w.e.f. October 2022 and about 110

[14] Incubator, Pulse Oximeter, Radiant Warmer, Wall Monitor, Infusion Pump, C-Pap, Phototherapy Machine, Defibrilator, Patient Monitor and CTG machine

procedures have been performed as of November 2023. The machinery supplied in 2014 is in use with ENT Department of DH Ramban.

4.12 Conclusion

Availability of all essential drugs/medicines was not ensured in the test-checked health institutions. Absence of essential drugs may have compelled the beneficiaries to look and arrange for these medicines from outside. Therefore, procurement and availability of drugs/ medicines left a lot of scope for improvement for delivery of quality health care services to the masses in the UT of J&K. Availability of prescribed essential equipment was also found insufficient in the test-checked institutions. Delay in finalisation of rate contract would have had adverse impact on timely supply of drugs/ equipment to the health institutions. In the quality assurance aspect, issues such as delay in empanelment of laboratories for testing and analysis of drugs and delay in furnishing of test/ analysis reports by empanelled laboratories were noticed. Non-implementation of e-Aushadhi system for the entire chain of drug supply was also observed.

4.13 Recommendations

In view of the audit findings, GoJ&K may consider:

- ***Taking suitable steps to address the shortfall of drugs, equipment and other consumables in the healthcare institutions;***
- ***Avoiding delay in finalisation of rate contracts to ensure timely supply of drugs/ equipment to the health institutions;***
- ***Making efforts for timely empanelment of laboratories and obtaining of test/ analysis reports of drugs to provide quality drugs to the beneficiaries; and***
- ***Utilising e-Aushadhi/ DVDMS system optimally starting from placing of indents by the health institutions till final distribution of drugs to patient.***

CHAPTER-V

HEALTHCARE INFRASTRUCTURE

CHAPTER-V

Healthcare Infrastructure

Health infrastructure being the basic support for delivery of public health services, is an important indicator for understanding the health care policy and welfare mechanism in a State. It signifies the investment priority of the State with regard to creation of healthcare facilities. To deliver quality health services in the public health facilities, adequate and properly maintained building infrastructure is of critical importance.

In an effort to improve the quality of services and provide a uniform benchmark to assess the functionality of public health facilities, a set of standards known as the Indian Public Health Standards (IPHS) were first developed in the year 2007 and revised in 2012. These standards cover Sub-Health Centres (SHCs), Primary Health Centres (PHCs), Community Health Centres (CHCs), Sub-District Hospitals (SDHs) and District Hospitals (DHs). They provide guidance on the infrastructure, human resource, drugs, diagnostics, equipment, quality and governance requirements for delivering health services at these facilities. However, the UT Government of Jammu and Kashmir has neither adopted IPHS norms nor framed their own norms till date.

5.1 Requirement and availability of healthcare facilities

As per Census 2011, UT of Jammu and Kashmir had a population of 1.23 crore. As per IPHS 2012 norms, to provide healthcare services in the tribal, hilly or difficult areas of the State, a Sub-Centre (SC) for approximately 3,000 population, Primary Health Centre (PHC) for approximately 20,000 population and Community Health Centre (CHC) for approximately 80,000 population are required. The Sub-District Hospital (SDH) caters to about 5-6 lakh people. Every District is expected to have a District Hospital.

The availability of health institutions against requirement as of March 2022 is given in **Table 5.1**.

Table 5.1: Availability of health institutions in the UT of J&K as of March 2022

Type of health institution	Requirement of health institutions as per IPHS 2012 norms vis-a-vis population as per Census 2011	Number of health institutions existing	Shortfall (*per cent*)
Sub-Centre	4,078	2,505	1,573 (39)
Primary Health Centre	602	975	---
Community Health Centre	142	30	112 (79)
Sub-District Hospital	22	47	---

Type of health institution	Requirement of health institutions as per IPHS 2012 norms vis-a-vis population as per Census 2011	Number of health institutions existing	Shortfall (*per cent*)
District Hospital	20	15[1]	---
Hospitals associated with Medical Colleges	--	23	---
AYUSH Dispensaries and units	--	602	---

(Source: Information furnished by the Administrative Department, Directors, Health Services, Jammu/Kashmir, Director, AYUSH, J&K and Chief Medical Officers concerned)

It was noticed that 30 CHCs and 2,505 SCs were available in the UT of J&K as of March 2022 against the requirement of 142 CHCs and 4,078 SCs as per IPHS 2012 norms. Shortages in CHCs and SCs were 79 *per cent* and 39 *per cent* respectively. The details of District-wise requirement and availability of CHCs, PHCs and SCs as per population norms as of March 2022 are given in **Table 5.2**.

Table 5.2: District-wise requirement and availability of SCs, PHCs and CHCs as per population norms as of March 2022

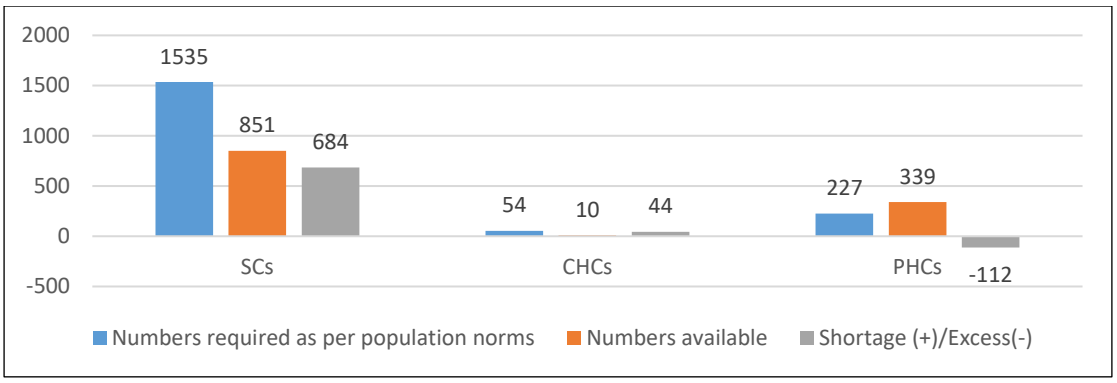
(Source: Figures furnished by the Chief Medical Officers/ Block Medical Officers concerned)
(R: Requirement; A: Availability; S: Shortfall; E: Excess)

[1] Vide G.O.No:753-HME of 2019 dated 05.08.2019, the administrative control of five DHs Anantnag, Baramulla, Doda, Kathua and Rajouri was transferred to five new Government Medical Colleges in the respective Districts and are serving as Referral/ Associated Hospitals.

In the six sampled Districts, there was shortage of SCs (45 *per cent*) and CHCs (81 *per cent*) as detailed in **Chart 5.1**.

Chart 5.1: Availability of healthcare facilities in six sampled Districts as of March 2022



Further, variation was also seen across Districts in terms of population per CHC/PHC/SC as detailed in **Table 5.3**.

Table 5.3: District-wise number of persons per CHC/PHC/SC

Sl. No.	Name of the District	Population as per Census 2011	No. of SCs	No. of persons per SC	No. of PHCs	No. of persons per PHC	No. of CHCs	No. of persons per CHC
1.	Anantnag	10,78,692	139	7,760	60	17,978	0	-
2.	Bandipore	3,92,232	70	5,603	27	14,527	3	1,30,744

5.	Doda	4,09,936	167	2,455	40	10,248	2	2,04,968
6.	Ganderbal	2,97,446	64	4,648	32	9,295	0	-
7.	Jammu	15,29,958	183	8,360	102	15,000	3	5,09,986
8.	Kathua	6,16,435	190	3,244	53	11,631	0	-
9.	Kishtwar	2,30,696	87	2,652	26	8,873	1	2,30,696
10.	Kulgam	4,24,483	117	3,628	45	9,433	0	-
11.	Kupwara	8,70,354	235	3,703	63	13,815	3	2,90,118
12.	Poonch	4,76,835	137	3,481	44	10,837	0	-
13.	Pulwama	5,60,440	96	5,838	48	11,676	0	-
14.	Rajouri	6,42,415	203	3,165	54	11,897	4	1,60,604
15.	Ramban	2,83,713	85	3,338	32	8,866	3	94,571
16.	Reasi	3,14,667	103	3,055	33	9,535	2	1,57,334
17.	Samba	3,18,898	82	3,889	21	15,186	1	3,18,898
18.	Shopian	2,66,215	55	4,840	16	16,638	2	1,33,108
19.	Srinagar	12,36,829	27	45,808	69	17,925	1	12,36,829
20.	Udhampur	5,54,985	145	3,827	50	11,100	1	5,54,985
Total		**1,22,67,013**	**2,505**		**975**		**30**	

(Source: Figures furnished by the Chief Medical Officers/ Block Medical Officers concerned)

It is evident from **Table 5.3** that SCs in only 11 out of 20 Districts were nearing the norm of 3,000 population per SC. The population norm of 20,000 per PHC were adhered to by all the 20 Districts. In respect of CHCs, only Ramban District was nearing the norm of 80,000 population.

5.2 Establishment of new Medical Colleges and creation of AIIMS in the UT of J&K

As of March 2022, there were 13 Medical Colleges in the UT of J&K. Four Medical Colleges viz. Government Medical College, Jammu, Government Medical College, Srinagar, Indira Gandhi Government Dental College, Jammu and Government Dental College, Srinagar existed in the erstwhile State of J&K as of April 2016. During 2016-22, seven medical colleges were sanctioned under the CSS "Establishment of New Medical Colleges", out of which five[2] were functioning as of March 2022. The physical and financial status of New Medical Colleges as of March 2022 is detailed in **Table 5.4**.

Table 5.4: Physical and financial status of new Medical Colleges as of March 2022

(₹ in crore)

Sl. No.	Name of the Medical College	Year of sanction	Estimated cost	Targeted date of completion	Expenditure incurred as of March 2022	Physical status as of March 2022
1.	GMC Anantnag	2016-17	116.53	March 2024	97.19	Ongoing
2.	GMC Baramulla	2016-17	139.00	June 2022	87.50	Ongoing
3.	GMC Doda	2016-17	139.00	March 2024	132.53	Ongoing
4.	GMC Rajouri	2016-17	139.00	October 2022	137.36	Completed in March 2023 after incurring expenditure of ₹ 139 crore
5.	GMC Kathua	2017-18	139.00	September 2024	131.37	Ongoing
6.	GMC Udhampur	2019-20	325.00	March 2025	0.44	Ongoing
7.	GMC Handwara	2019-20	325.00	December 2026	0.05	Ongoing

(Source: Information furnished by the Medical College concerned)

In addition, Ayurvedic Medical College, Akhnoor (Jammu) and Unani Medical College cum Hospital, Ganderbal sanctioned in 2011-12 started functioning with IPD services in August 2021 and January 2022 respectively in the UT of J&K.

➢ Creation of two AIIMS for healthcare in capital cities of J&K

In order to provide quality tertiary healthcare, medical education, nursing education and research, the Union Cabinet approved (January 2019) establishment of two[3] All India Institute of Medical Sciences (AIIMS) in J&K. The physical and financial progress of the project as of March 2022 is given in **Table 5.5**.

[2] GMC Anantnag, GMC Baramulla, GMC Doda, GMC Rajouri and GMC Kathua

[3] Vijaypur, Jammu and Awantipora, Kashmir

Table 5.5: Physical and financial progress of AIIMS in J&K

(₹ in crore)

Name of the project	Sanctioned cost	Funds released	Funds utilised	Physical status
AIIMS Jammu	1661.00	605.00	520.00	52 *per cent*
AIIMS Kashmir	1828.00	364.51	303.17	10 *per cent*

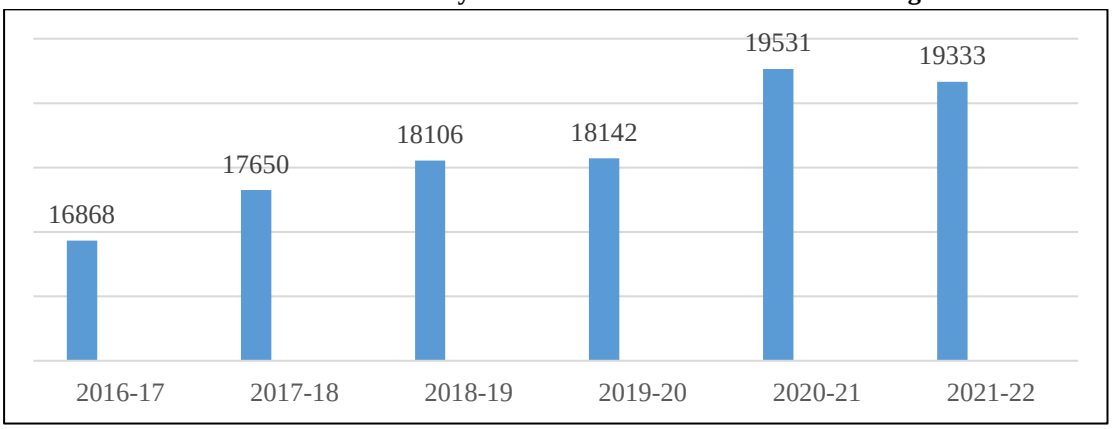
(Source: PMDP Progress Report)

The targeted date for completion was December 2023 for AIIMS Jammu whereas it is September 2025 for AIIMS Kashmir. The construction of AIIMS Jammu was yet to be completed (April 2024). The Deputy Director (Admin) AIIMS Vijaypur Jammu stated (January 2025) that OPD, IPD and OT services have been operationalised during August/ September 2024. Establishment of two AIIMS will add around 1,500 beds (750 beds for each AIIMS).

5.3 Availability of beds in the health institutions

The position of availability of beds in the health institutions of the State/ UT during 2016-2022 is detailed in **Chart 5.2**.

Chart 5.2: Year-wise availability of beds in the State/ UT of J&K during 2016-22



(Source: Figures provided by the Administrative Department)

Availability of beds in the HIs of the State/ UT had increased by 16 *per cent* during 2016-21 and decreased marginally during 2021-22 due to reduction in COVID-19 centres in the UT of J&K.

In the six sampled Districts, the position of availability of beds during 2016-22 is given in **Table 5.6**.

Table 5.6: Availability of beds in six sampled Districts during 2016-22

Year	Number of beds					
	Anantnag	Ganderbal	Jammu	Kupwara	Ramban	Udhampur
2016-17	874	212	602	425	200	423
2017-18	874	212	602	428	200	433
2018-19	1,044	248	637	428	200	439

Year	Number of beds					
	Anantnag	**Ganderbal**	**Jammu**	**Kupwara**	**Ramban**	**Udhampur**
2019-20	1,124	368	721	493	200	471
2020-21	1,169	363	757	493	200	531
2021-22	1,169	507	1,003	493	211	531
Percentage increase from 2016-17 to 2021-22	**34**	**139**	**67**	**16**	**6**	**26**

(Source: Figures furnished by CMOs concerned)

During 2016-2022, there was increase in number of beds in all six sampled Districts ranging between 06 and 139 *per cent*. The increase in number of beds in Districts Ganderbal and Jammu during 2021-22 was attributed to COVID-19 pandemic and increase in local as well as migratory population for augmenting the healthcare facilities.

5.3.1 Availability of beds in DHs

The availability of beds in the DHs[4] during 2016-22 is given in **Table 5.7**.

Table 5.7: Availability of beds in DHs during 2016-17 to 2021-22

Sl. No.	Name of the HI	No. of beds required as per IPHS 2012 norms	Number of beds available					
			2016-17	**2017-18**	**2018-19**	**2019-20**	**2020-21**	**2021-22**
1.	DH Anantnag and MCCH Anantnag	100-500	240	240	410	410	410	410

5.	DH Jammu	100-500	150	150	160	160	160	160
6.	DH Kishtwar	100-500	100	100	100	100	100	100
7.	DH Kulgam	100-500	85	105	145	200	200	200
8.	DH Handwara	100-500	80	80	80	73	73	73
9.	DH Poonch	100-500	200	200	200	200	200	200
10.	DH Pulwama	100-500	60	60	60	200	200	200
11.	DH Ramban	100-500	50	50	50	50	50	50
12.	DH Reasi	100-500	100	100	100	100	100	100

[4] Vide G.O.No. 298-HME of 2018 dated 24.04.2028, the DHs Anantnag, Baramulla, Rajouri, Doda and Kathua were attached with the New Medical Colleges in the respective Districts and serve as 'Referral Hospitals/Associated Hospitals'. The administrative control of these hospitals was transferred to concerned Government Medical Colleges vide G.O. No. 753-HME of 2019 dated 05.08.2019. Since District Anantnag was selected as sampled District, only the data of Associated Hospital Anantnag was taken as DH Anantnag.

Sl. No.	Name of the HI	No. of beds required as per IPHS 2012 norms	Number of beds available					
			2016-17	2017-18	2018-19	2019-20	2020-21	2021-22
13.	DH Samba	100-500	100	100	100	100	100	100
14.	DH Shopian	100-500	50	50	50	100	100	100
15.	DH Srinagar	100-500	200	200	200	200	200	200
16.	DH Udhampur	100-500	200	200	200	200	200	200
Total			**1,725**	**1,745**	**2,065**	**2,373**	**2,423**	**2,453**

(Source: Information furnished by the Medical Superintendent concerned)

There was 42 *per cent* increase in number of beds in the DHs as the number of beds had increased from 1,725 in 2016-17 to 2,453 in 2021-22. However, adequate beds in accordance with IPHS 2012 norms of minimum 100 beds were not available in DH Budgam and in sampled DHs Handwara and Ramban.

5.3.2 Availability of beds in SDHs/ CHCs/ PHCs

As per IPHS 2012, the SDH should have minimum 31 beds, CHC should have 30 indoor beds and a PHC should cover a population of 20,000 with six indoors/ observation beds.

Out of sampled 10 CHCs, four CHCs have beds as per the IPHS norms whereas six CHCs did not have beds as per norms as shown in **Table 5.8**. Amongst 18 sampled SDHs, 07 SDHs have adequate beds as per IPHS norms whereas 11 SDHs had less than 31 beds. However, out of these 11 SDHs, 09 SDHs had 30 beds.

Table 5.8: Shortage of beds in selected SDHs and CHCs as of March 2022

Sampled District	SDH	No. of beds available in SDH	CHC	No. of beds available in CHC
Anantnag	Kokernag	30	-	-
	Dooru	30	-	-

(Source: Test-checked SDHs and CHCs)

Colour code:	**Adequate**	**Short**

It was further noticed that out of 52 selected PHCs, seven[5] PHCs were functioning without beds and 33 PHCs were lacking required number of beds as per IPHS 2012.

5.3.3 Availability of beds for maternal care and childcare

Maternal care and childcare services were available in all the DHs as of March 2022. A comparison of availability of beds for maternal and childcare during 2016-17 and 2021-22 in the DHs is given in **Table 5.9**.

Table 5.9: Availability of beds for maternal care and childcare during 2016-17 and 2021-22

Sl. No.	Name of the HI	Availability of beds for			
		Maternal care		Child care	
		2016-17	2021-22	2016-17	2021-22
1.	MCCH Anantnag	96	96	14	14

16.	DH Udhampur	36	36	35	35
Total		**382**	**443**	**158**	**267**

(Source: Information furnished by Medical Superintendents concerned)

There was 16 and 69 *per cent* increase in availability of number of beds in the DHs for maternal care and childcare respectively as the number of beds increased from 382 in 2016-17 to 443 in 2021-22 for maternal care and 158 in 2016-17 to 267 in 2021-22 for childcare.

[5] Kawa, Ari, Bain Bajalta, Digiana, Domana, Mugalpora and Gundishot

5.4 Citizen's Charter

IPHS 2012 norms provide for displaying prominently a Citizen's Charter for the Health Institutions indicating the services available, user fees charged, if any, and a grievance redressal system. During survey of the test-checked hospitals, it was noticed that while all the selected TLHs/ DHs/ SDHs/ CHCs displayed Citizen's Charter, the Charter of all these HIs did not display complete information about services. The deficiencies noticed in displaying services on the Citizen's Charter is detailed in **Table 5.10**.

Table 5.10: Services displayed by sampled HIs in the Citizen's Charter

Services displayed on the Citizen's Charter	Out of 7 Tertiary Level Hospitals[6]	Out of 6 DHs	Out of 28 CHCs/SDHs
Patient rights	5	3	3
Availability of services and entitlements in the Departments	5	5	13
User charges	3	3	15
Availability of OPD services and timing of OPD services Department-wise	4	3	12
Availability of diagnostic services	6	3	12
Available emergency and trauma care services	4	3	9

Availability of immunisation services	4	3	14
Availability of ambulance services	3	4	10
Responsibilities of users	3	3	0

(Source: Information provided by concerned HIs)

5.5 Health and Wellness Centres

The National Health Policy, 2017 recommended strengthening the delivery of primary healthcare, through establishment of "Health and Wellness Centres (HWCs)" as the platform to deliver Comprehensive Primary Healthcare and called for a commitment of two thirds of the health budget to primary healthcare.

As per Ayushman Bharat Comprehensive Primary Healthcare through Health and Wellness Centres Operational guidelines of February 2018, the Government of India (GoI) announced that 1,50,000 Health & Wellness Centres (HWCs) would be created by transforming existing SCs and PHCs to deliver Comprehensive Primary Healthcare and declared this as one of the two components of Ayushman Bharat. The other component of Ayushman Bharat, namely the Pradhan Mantri Jan Arogya Yojana (PMJAY) aims to provide financial protection for secondary and tertiary care hospitalisation in public and private empanelled hospitals in India.

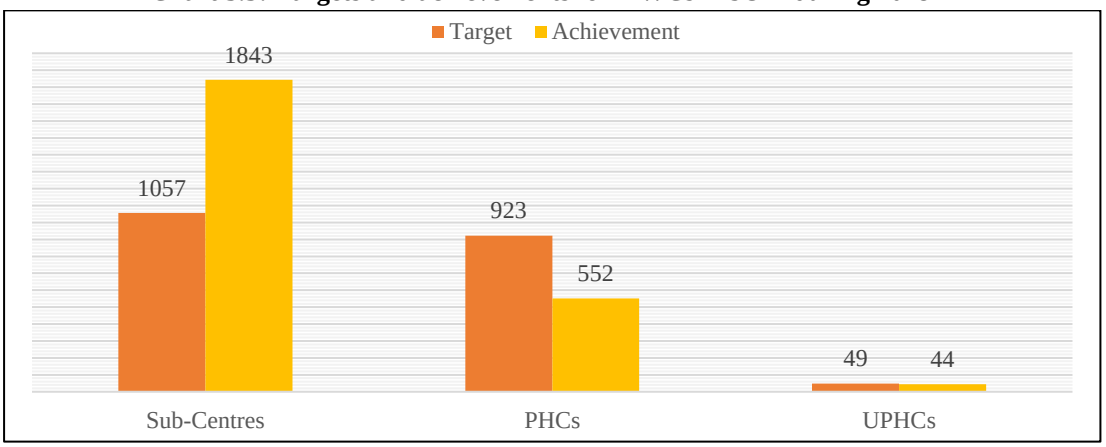
[6] (i) Govt. Medical College & Hospital, Jammu (ii) SMGS Hospital, Jammu (iii) Super Specialty Hospital, Jammu (iv) Lalla Ded Hospital, Srinagar (v) SMHS Hospital, Srinagar (vi) Super Specialty Hospital, Srinagar and (vii) G.B. Pant Hospital, Srinagar.

(A) Conversion of SCs and PHCs to Health and Wellness Centres

Ayushman Bharat Operational Guidelines stipulate that necessary infrastructure was to be created and manpower was to be provided for conversion of SCs and PHCs to Health and Wellness Centres (HWCs).

Audit noticed that against the target of conversion of 2,029 health institutions (SCs/ PHCs/ UPHCs), 2,439 HIs were upgraded to HWCs as of March 2022 in the UT of Jammu and Kashmir as shown in **Chart 5.3**.

Chart 5.3: Targets and achievements for HWCs in J&K during 2018-22



(Source: Information furnished by NHM J&K)

In the six[7] sampled Districts, 865 (SCs: 650, PHCs: 199 and UPHCs: 16) HWCs were established against the target of 719 (SCs: 381, PHCs: 320 and UPHCs: 18) HWCs as of March 2022.

(B) Non-availability of required infrastructure in HWCs

As per Ayushman Bharat Operational Guidelines, prescribed healthcare services, human resources, civil infrastructure upgrade and diagnostic services were to be provided in the HWCs.

Audit observed that required basic infrastructure and amenities were not available in HWCs of the sampled Districts as of March 2022 as detailed in the succeeding paragraphs:

(i) Non-availability of Healthcare Services

Operational Guidelines of Ayushman Bharat prescribe that 12[8] types of healthcare services would be delivered at HWC.

---

7 Anantnag: 181; Ganderbal: 79; Jammu: 187; Kupwara: 246; Ramban: 55 and Udhampur: 117

8 (i) Care in pregnancy and child-birth (ii) Neonatal and infant healthcare services (iii) Childhood and adolescent healthcare services (iv) Family planning, contraceptive services and other reproductive healthcare services (v) Management of communicable diseases-National Health Programmes (vi) General out-patient care for acute simple illness and minor ailments (vii) Screening, Prevention, Control and management of non-communicable diseases (viii) Care for common Ophthalmic and ENT problems (ix) Basic Oral healthcare (x) Elderly and palliative healthcare services (xi) Emergency medical services and (xii) Screening and basic management of mental health ailments

It was noticed that all 12 types of healthcare services were being provided by 810 out of 865 HWCs of the six sampled Districts. In Ramban District, all 12 types of healthcare services were not available in 11-29 HWCs out of 55 HWCs.

(ii) Shortage of human resources

Section 2 of Operational Guidelines (Inputs for Health and Wellness Centre) of Ayushman Bharat Comprehensive Primary Healthcare through Health and Wellness Centres (February 2018) requires that there should be at least three service providers (one Mid-Level Health Provider (Community Health Officer) and at least two Multi-Purpose Workers [MPW]) in each upgraded SC. In addition, a team of Accredited Social Health Activist (ASHA) workers (at the norm of one ASHA worker per 1,000 patients) is to be provided.

It was noticed that out of 865 HWCs in six sampled Districts, Mid-Level Health Providers (MLHP) were available in 617 HWCs whereas 248 HWCs lacks the availability of MLHP. At least two MPWs were not available in 381 HWCs. ASHA was available in all HWCs except 25 HWCs of District Ganderbal as of March 2022 as detailed in **Table 5.11**.

Table 5.11: Non-availability of manpower in HWCs in sampled Districts as of March 2022

Sl. No.	Non-availability of	Anantnag (181)	Kupwara (246)	Ganderbal (79)	Jammu (187)	Udhampur (117)	Ramban (55)	Total (865)
1	One Mid-Level Health Provider (MLHP) who would be a Community Health Officer (CHO)	43	37	25	77	37	29	248
2	At least two Multi-Purpose Workers (MPW)	35	197	45	86	0	18	381
3	Accredited Social Health Activist (ASHA)	0	0	25	0	0	0	25

(Source: Information furnished by Chief Medical Officers concerned)

(iii) Non-availability of essential civil infrastructure

Ayushman Bharat Guidelines prescribe that major civil infrastructure upgrade would largely be required for developing the Sub-Health Centre as Health and Wellness Centre.The basic essential facilities, as detailed in **Table 5.12**, were not available in the upgraded HWCs in the sampled Districts as of March 2022.

Table 5.12: Number of HWCs deficient in essential civil infrastructure

Sl. No.	Essential requirement of infrastructure	No. of HWCs in which infrastructure was not available (out of 865)
1.	A well-ventilated clinic room with examination space and office space for Mid-Level Health Provider/Community Health Officer	57
2.	Storage space for storing medicines, equipment, documents, health cards and registers	58
3.	Designated space for lab/ diagnostic centre	252
4.	Separate male and female toilets	608
5.	Deep burial pit for bio medical waste management	579
6.	Assured water supply that can be drawn and stored locally	240
7.	Electricity supply linked to main lines or adequate solar source, inverter or back-up generator as appropriate	230
8.	Patient waiting area covered to accommodate at least 20-25 chairs	620
9.	Adequate residential facilities for the service providers	803
10.	Space/ room for yoga	340
11.	Facilities for people with disabilities	715

(Source: Information furnished by the CMOs concerned)

The data in **Table 5.12** indicated that out of 865 HWCs in six sampled Districts, 808 HWCs were having well-ventilated clinic room with examination and office space and 807 HWCs have adequate storage space for storing medicines, equipment, documents etc. However, basic requirements of water and electricity supply was not available in 240 and 230 HWCs respectively whereas 608 HWCs lacked availability of separate male and female toilets. Further, the designated space for lab/ diagnostic centre was not available in 252 HWCs and space/ room for yoga was not available in 340 HWCs. There was non-availability of facilities for people with disabilities in 715 HWCs.

(iv) Non-availability of required Diagnostic Services at HWCs

Ayushman Bharat Guidelines provide an indicative list of eight types of required diagnostic services. During scrutiny of records, it was noticed that the required diagnostic services viz. Haemoglobin, Urine Pregnancy Rapid Test, Urine Dipstick-Urine albumin and Sugar and Blood Glucose were available in all 865 HWCs of the six sampled Districts. However, Malaria Smear, Rapid Diagnostic Test Kit for Dengue, Sickle Cell Rapid Test and collection of sputum samples were not available in 482, 561, 441 and 05 HWCs respectively.

The Chief Medical Officers Anantnag and Kupwara attributed (December 2023) the reason for non-availability of diagnostic services to non-prevalence of Dengue and Malaria in Anantnag and Kupwara Districts. The Chief Medical Officer Ganderbal, Ramban and Jammu admitted non-availability of facility of diagnostic services in the HWCs.

Existing SCs and PHCs were transformed into HWCs to ensure universal access to an expanded range of comprehensive primary health services and to deliver quality healthcare services but this target could not be achieved due to lack of infrastructure, health services, diagnostic services, shortage of manpower etc.

Some illustrations regarding status of HWCs are shown in the following photographs.

Well maintained HWC-Kurag (District Ganderbal)

HWC-Naryana Lower (District Jammu) in good condition with separate toilets

HWC-Sangaldan (District Ramban) in good condition

HWC-Ossu (District Udhampur) without ventilation and adequate space

HWC-Hutmulla (District Kupwara) without ramp	**HWC-Awoora (District Anantnag) without ramp**

5.5.1 AYUSH Health and Wellness Centres

The AYUSH system advocates holistic wellness approach aiming at prevention of diseases and promotion of health and well-being. GoI has granted approval (March 2020) to operationalise 12,500 AYUSH Health and Wellness Centres (AH&WCs) through States/ UTs in Centrally Sponsored Scheme mode and under the broad umbrella of National AYUSH Mission (NAM) by upgrading the already functional AYUSH dispensaries or Sub-Health Centres.

(i) Conversion of AYUSH dispensaries to AYUSH Health and Wellness Centres

Out of 571 AYUSH dispensaries in the UT of J&K, 317 dispensaries were upgraded during 2019-22 to AH&WCs. In the six sampled Districts, out of 198 AYUSH dispensaries, 104 AYUSH dispensaries were upgraded to AH&WCs.

(ii) Non-availability of Healthcare Services

Operational Guidelines of Ayushman Bharat AYUSH Health and Wellness Centres proposed Ayurveda interventions under 12 service delivery areas. The availability/ shortfall of these services in respect of the six sampled Districts is given in **Table 5.13**.

Table 5.13: Availability of Healthcare services in AH&WCs

Sl. No	Availability of healthcare services	Anantnag (23)	Kupwara (14)	Ganderbal (12)	Jammu (24)	Udhampur (17)	Ramban (14)	Total (104)	Shortfall
1.	Care in pregnancy and child-birth	0	14	0	0	17	0	31	73
2.	Neonatal and infant healthcare services	0	0	0	0	0	0	0	104
3.	Childhood and adolescent healthcare services	0	14	12	22	17	0	65	39
4.	Family planning, contraceptive services and other reproductive healthcare services	0	0	0	0	17	0	17	87

Sl. No	Availability of healthcare services	Anantnag (23)	Kupwara (14)	Ganderbal (12)	Jammu (24)	Udhampur (17)	Ramban (14)	Total (104)	Shortfall
5.	Management of Communicable diseases -National Health Programmes	0	14	0	6	17	0	37	67
6.	General outpatient care for acute simple illness and minor ailments	23	14	12	24	17	14	104	0
7.	Screening, Prevention, Control and Management of Non-Communicable diseases.	23	14	12	24	17	14	104	0
8.	Care for Common Ophthalmic and ENT problems.	23	14	12	23	17	0	89	15

10.	Elderly and Palliative healthcare services.	23	14	12	24	17	0	90	14
11.	Emergency Medical Services including Burns and Trauma	0	0	0	0	0	0	0	104
12.	Screening and basic management of mental health ailments.	23	14	0	17	17	0	71	33

(Source: Information furnished by District Ayush Officers concerned)
Figures in the brackets indicate number of AYUSH-H&WCs in the District

The data in **Table 5.13** indicates that out of 104 AH&WCs, services deliveries of family planning, contraceptive services and other reproductive healthcare services were available in 87 AH&WCs whereas the service delivery of care in pregnancy and child-birth was available in 73 AH&WCs. However, service deliveries under Neonatal and infant health care service, emergency medical services including burns and trauma were not available in all 104 AH&WCs. The balance 10 services were not available in 14-87 AH&WCs. In 14 AH&WCs in Ramban District, only two[9] services were available.

(iii) Shortage of human resources

Paragraph 5.1 of Operational Guidelines (HWC Team) requires that there should be Community Health Officer (CHO) assisted by Multi-Purpose workers (MPW), Auxiliary Nurse Midwife (ANM) and Accredited Social Health Activist (ASHA). Upgraded AYUSH dispensaries may have pharmacist, nursing staff or technicians and qualified yoga instructor on part-time basis for all HWCs.

It was noticed that as on 31st March, 2022:

- CHO was available in 103 out of 104 AH&WCs.
- No MPW and ANM was available in all 104 AH&WCs.
- Nursing staff/ technician was not available in 96 AH&WCs.

[9] (i) General outpatient care for acute simple illness and minor ailments (ii) Screening, prevention, control and management of non-communicable diseases.

- No Pharmacist was available in 29 AH&WCs.
- Yoga instructor was not available in 55 AH&WCs.
- ASHA was available in 102 out of 104 AH&WCs,

(iv) Non-availability of essential civil infrastructure

The deficiency in availability of basic essential requirements for strengthening a facility to serve as a Health and Wellness Centre as per Paragraph 11 of the operational guidelines is detailed in **Table 5.14**.

Table 5.14: Number of AH&WCs deficient in essential civil infrastructure

Sl. No.	Essential requirement of infrastructure	No. of AH&WCs in which infrastructure was not available as of March 2022 (out of 104)
1.	A well-ventilated clinic room with examination space and office space for Mid-Level Health Provider/ Community Health Officer	0
2.	Storage space for storing medicines, equipment, documents, health cards and registers	0
3.	Designated space for lab/ diagnostic centre	43
4.	Separate male and female toilets	49
5.	Deep burial pit for bio medical waste management	99
6.	Assured water supply that can be drawn and stored locally	21
7.	Electricity supply linked to main lines or adequate solar source, inverter or back-up generator as appropriate	6
8.	Patient waiting area covered to accommodate at least 20-25 chairs	73
9.	Adequate residential facilities for the service providers	102
10.	Space/ room for yoga	38
11.	Garden/space for display of medicinal plants	1

(Source: Information furnished by District AYUSH Officers concerned)

The data in **Table 5.14** indicates that all 104 AH&WCs have well-ventilated clinic room with examination space and office space for Mid-Level Health Provider/ Community Health Officer and storage space for storing medicines, equipment, documents, health cards and registers. However, water and electricity supply were not available in 21 and 06 AH&WCs respectively out of 104. Separate male and female toilets were not available in 49 AH&WCs whereas the designated space for lab/ diagnostic centre was not available in 43 AH&WCs. Further, space/ room for yoga was not available in 38 AH&WCs.

5.6 Execution of works

H&MED executed infrastructure works primarily under National Health Mission (NHM), Prime Minister's Development Package (PMDP) and Languishing projects. The details of works taken up for execution during 2016-2022 are given in **Table 5.15**.

Table 5.15: Works approved for execution and completed during 2016-22

Name of the Scheme	No. of ongoing works as of April 2016	No. of works approved for execution during 2016-2022	Total works	No. of works completed during 2016-2022	No. of ongoing works as on March 2022
National Health Mission (NHM)	68	69	137	69	68
Prime Minister's Development Package (PMDP)	0	140	140	104	36
Languishing projects	0	138	138	4	134
Total	**68**	**347**	**415**	**177**	**238**

(Source: Departmental figures)

Audit noticed that under NHM, construction and upgradation works of 137 healthcare facilities (including 68 ongoing works as on April 2016) were taken up, out of which 68 (50 *per cent*) works were incomplete as of March 2022.

- Out of 68 incomplete works, 33 works had remained incomplete for a period ranging between ten and 14 years.
- Fifteen works had remained incomplete for a period ranging between five and nine years whereas 20 works had remained incomplete for less than five years.

Under construction building of PHC Domana under NHM (02.02.2022)

PHC Domana functioning within the complex of AYUSH dispensary (02.02.2022)

5.6.1 Prime Minister's Development Package

A comprehensive Prime Minister's Development Package (PMDP) consisting of 63 individual projects was announced for J&K by the Hon'ble Prime Minister of India on 7 November 2015 with an outlay of ₹ 80,068 crore. One of the projects under PMDP was "Stepping up of support under creation of infrastructure in the District Hospitals, Sub-District Hospitals and PHCs over a period of five years" having sanctioned cost of ₹ 881.04 crore being implemented by H&MED of GoJ&K.

Audit noticed that:

➢ Out of 140 works under the project, as of March 2022, only 104 works had been completed after incurring expenditure of ₹ 500.49 crore.

➢ Out of the remaining 36 works, 16 works taken up for execution during the period 1995-96 to 2013-14 (prior to their inclusion under PMDP in 2015-16), remained incomplete even after incurring expenditure of ₹ 100.63 crore. The remaining 20 works taken up for execution after the announcement of PMDP had remained incomplete after incurring expenditure of ₹ 222.99 crore.

➢ Out of the above-mentioned 36 works, 35 works remained incomplete for periods ranging between three and 17 years, while one work remained incomplete since 1995-96.

Incomplete staff quarters at CHC Banihal taken up under PMDP	**Incomplete CHC Jourian (28.12.2021) taken up under PMDP**

The Department stated (November 2023) that all ongoing PMDP works are targeted for completion by/ before March 2024 and executing agencies have been directed to accelerate the pace of execution of works to achieve their completion well within the stipulated time.

➢ In order to overcome the acute shortage of space to accommodate the huge rush of patients in the old and dilapidated structure housing the Maternity and Childcare Hospital (M&CCH) Sherbagh, Anantnag, sanction was accorded (March 2017) by the Health & Medical Education Department for taking over of Rehmat-e-Alam Trust Hospital alongwith all its assets and liabilities. The sanction order also envisaged getting the infrastructure of the hospital upgraded through an executing agency of the State Government to a 125-bedded institution for subsequent shifting of M&CCH presently located at Sherbagh, Anantnag to this hospital. Accordingly, the balance work of the hospital was entrusted to Jammu and Kashmir Projects Construction Corporation Limited (JKPCC) during the year 2016-17 at a cost of ₹ 12.10 crore out of which ₹ 11.46 crore was released in favour of the executing agency. Expenditure of

₹ 5.25 crore was incurred as of March 2022 on account of raising 2nd and 3rd floors of Block A, B, C and 3rd slab of Blocks F and G and other civil works including truss[10]. However, during the course of execution of the work, safety audit of the building was entrusted (March 2020) to IIT Jammu on the directions of the then Advisor to Governor during his visit to the site in April 2019 and thereafter no further work was executed on the building. IIT Jammu finally reported (June 2021) that the building under structural audit is under-designed for hospital usage and should not be directly used for hospital usage. This not only resulted in unfruitful expenditure of ₹ 5.25 crore, but also deprived the population of the area of the intended benefits.

The Department stated (September 2022) that IIT Jammu had been requested to suggest latest technological interventions to make the building structurally safe to be used for hospital purpose.

The Principal, GMC Anantnag stated (January 2025) that the work is yet to be completed.

5.6.2 Languishing projects

GoJ&K accorded (September 2018) sanction to constitute a High Powered Committee (HPC) for approving unfunded infrastructure projects to be funded by Jammu and Kashmir Infrastructure Development Finance Corporation (JKIDFC), constituted simultaneously for raising loans from financial institutions including State/ Nationalised banks for completion of unfunded/ languishing infrastructure projects in the erstwhile State/ UT and by other new infrastructure projects which are a priority for the erstwhile State/ UT. Under the health sector, projects like construction/ up gradation/ renovation of health infrastructure in various Districts and Tertiary Level Hospitals of the UT were sanctioned.

The position of projects sanctioned, projects targeted for completion and projects actually completed under Languishing Projects scheme during the period 2018-2022 in respect of H&MED is given in **Table 5.16**.

Table 5.16: Projects approved and completed under Languishing Projects scheme

(₹in crore)

Year	Projects approved by HPC	Amount approved	Projects completed during the year	Expenditure as of March 2022
2018-19	102	290.76	0	165.66
2019-20	0	0	4	
2020-21	36	299.19	0	
2021-22	0	0	0	
Total	**138**	**589.95**	**4**	**165.66**

(Source: Information provided by Joint Director, Resources (Finance Department))

[10] A framework supporting a roof, bridge or other structure.

Audit noticed that:

- Against ₹ 589.95 crore approved for infrastructure projects, expenditure of only ₹ 165.66 crore (28 *per cent*) was incurred as of March 2022.
- Against 135 projects (target date for completion was not available for three projects) targeted for completion during 2018-2022, only four projects were completed after incurring expenditure of ₹ 3.25 crore as of March 2022. Delay in completion of these works ranged between one year and four years.
- In six sampled Districts, 53 works were taken up for execution during 2018-2022, out of which 49 works had remained incomplete after incurring expenditure of ₹ 97.47 crore.

Delay in completion of projects sanctioned under Languishing Projects Scheme had deprived the local population of the intended benefits.

NTPHC Gundishot (District Kupwara) functioning from a school building	**Incomplete structure of NTPHC Gundishot under Languishing projects**
NTPHC Ari (District Ganderbal) functioning from a rented shop	**Under-construction building of NTPHC Ari under Languishing projects**

The Chief Medical Officer, Ganderbal stated (January 2025) that NTPHC Ari has been completed and taken over (March 2024) by the BMO Kangan.

5.6.3 Works taken up under District Plan/NABARD/ BADP etc.

H&MED also took up works for execution under District Plan/ NABARD/ BADP etc. Details of such works taken up for execution in the six selected Districts are given in **Table 5.17**.

Table 5.17: Infrastructure works taken up under District Plan/NABARD/ BADP etc. during 2016-22

(₹in crore)

Name of the District	No. of works as of April 2016	Works taken up for execution during 2016-22	Total works	Works completed during 2016-22	Expenditure incurred on completed works	Ongoing works as of March 2022	Expenditure incurred on ongoing works
Anantnag	29	0	29	20	16.24	9	9.00
Ganderbal	6	15	21	17	9.25	4	1.58
Jammu	24	18	42	20	7.41	22	15.36
Kupwara	37	64	101	70	6.89	31	7.78
Ramban	12	32	44	20	5.22	24	8.42
Udhampur	29	57	86	52	36.42	34	11.83
Total	**137**	**186**	**323**	**199**	**81.43**	**124**	**53.97**

(Source: Information furnished by the Chief Medical Officers concerned)

It is evident from the table above that out of 323 works (137 ongoing works as on April 2016 and 186 works taken up for execution during 2016-2022), 199 works were completed during the period after incurring an expenditure of ₹ 81.43 crore and 124 works remained incomplete after incurring an expenditure of ₹ 53.97 crore as of March 2022.

Audit observed that:

- Construction work of five[11] health institutions of Jammu District were taken up for execution during 2010-2013 at an estimated cost of ₹ 6.68 crore. After incurring expenditure of ₹ 6.68 crore, the buildings were not taken over (November 2022) by the H&MED from the executing agency due to non-execution of works including sanitary fitting, electric works or other deficiencies. This had deprived the inhabitants of the area of better healthcare infrastructure and services.

SC Platan building District Jammu (19.03.2022)

Idle SC Kalah building District Jammu (19.03.2022)

The Chief Medical Officer, Jammu stated (January 2025) that the work of five health institutions vis. SC Platan, SC Kalah, SC Mallah, PHC Ghar Majoor and PHC Dori Dagar have been completed. All the five buildings have been taken over by the Department and are functional.

[11] SC Platan, SC Kalah, SC Mallah, PHC Ghar Majoor and PHC Dori Dager (SC Platan and PHC Ghar Majoor are working from the buildings, though not taken over by the Department)

- In District Kupwara, 14 works[12] estimated to cost ₹ 8.91 crore were taken up for execution during 2009-18. After incurring expenditure of ₹ 5.71 crore as of March 2021, these works could not be completed as of August 2022 and were at various stages of completion thus depriving the local population of intended benefits. The Chief Medical Officer, Kupwara stated (August 2022) that some incomplete works shall be completed during the current financial year and the remaining within the next two years.

- The Department had taken up execution of 17 works[13] in District Kupwara at a revised cost of ₹ 9.20 crore through various work executing agencies during 2009-10 and 2010-11. Despite incurring expenditure of ₹ 2.07 crore, all these 17 works were not complete as of March 2022 and were left half way at various stages due to cost escalation. Lapse of over 11 years since start of these works had resulted in unfruitful expenditure of ₹ 2.07 crore.

- In respect of four[14] works approved for execution in District Jammu during 2009-2014 at an estimated cost of ₹ 4.14 crore, ₹ 0.78 crore was advanced during 2009-10 and 2013-14 to the executing agencies without ensuring availability of land resulting in blocking of these funds for over eight to 12 years. The Chief Medical Officer, Jammu stated (January 2025) that the works could not be started as the process of land identification/ acquisition is in progress.

Out of the incomplete works as above, five construction works taken up at an estimated cost of ₹ 10.54 crore, are detailed in **Table 5.18**.

Table 5.18: Examples of some incomplete works

Non-completion/ non-taking over of the buildings by H&MED resulted in idle investment of ₹ 6.14 crore.

Locked newly constructed building of SC Bala (24.12.2021)	**Rented building of SC Bala (24.12.2021)**
Abandoned structure of PHC Kullan (District Ganderbal)	**Existing building of PHC Kullan (District Ganderbal)**

The Chief Medical Officer, Jammu stated (January 2025) that building of SC Bala was taken over by the Department in December 2023 and is functional.

5.7 Non-availability and non-maintenance of residential accommodation

As per IPHS 2012 norms, all essential medical and paramedical staff will be provided with residential accommodation. If accommodation cannot be provided due to any reason, then the staff may be paid house rent allowance and, in that case, they should stay in the vicinity, so that essential staff is available 24 x 7. Availability of residential accommodation in test checked DHs/ SDHs/ CHCs is given in **Table 5.19**.

Table 5.19: Availability of residential accommodation in test-checked DHs/ SDHs/ CHCs

Sl. No.	Name of the HI	Number of quarters available	Number of quarters occupied	Status
DH				
1.	DH Anantnag	6	6	-
2.	DH Ganderbal	0	0	-
3.	DH Handwara	3	3	-
4.	DH Jammu	6	6	-

Sl. No.	Name of the HI	Number of quarters available	Number of quarters occupied	Status
5.	DH Ramban	0	0	-
6.	DH Udhampur	18	11	Seven quarters are not in good condition
SDH				
1.	SDH Seer Hamdan	0	0	-
2.	SDH Bijbehara	0	0	-
3.	SDH Shangus	0	0	-
4.	SDH Dooru	2	2	-
5.	SDH Kokernag	3	3	-
6.	SDH Kangan	0	0	-
7.	SDH Kupwara	8	8	-
8.	SDH Sogam	2	2	-
9.	SDH Tangdar	0	0	-
10.	SDH Langate	2	2	-
11.	SDH R.S.Pura	6	0	Lying vacant for want of repairs and maintenance for the last six years.
12.	SDH Kot-Bhalwal	4	0	More than 35 years old. Beyond repair.
13.	SDH Marh	6	0	All the six quarters have been occupied by the Revenue Department for the last eight years.
14.	SDH Bishnah	0	0	-
15.	SDH Akhnoor	12	7	Five quarters need repair and maintenance.
16.	SDH Jagti	0	0	-
17.	SDH Sarwal	2	0	Quarters are in dilapidated condition and require repair and renovation.
18.	SDH Ramnagar	6	4	Two quarters need repair and renovation.
CHC				
1.	CHC Kralpora	0	0	
2.	CHC Kralgund	1	1	-
3.	CHC Zachaldara	1	1	-
4.	CHC Sohanjana	12	0	The staff quarters got damaged during the floods of 2014 and need extensive repair and maintenance, hence, are lying vacant.
5.	CHC Jourian	0	0	-
6.	CHC Khour	17	0	The quarters were constructed in 2019. However, they could not be utilised due to non-execution of some internal works by the executing agency.
7.	CHC Banihal	6	6	Needs repair and renovation.
8.	CHC Batote	15	14	One vacant quarter which needs repair and renovation.
9.	CHC Gool	2	0	Needs repair and renovation.
10.	CHC Chenani	6	1	Five quarters need repair.
Total		**146**	**77**	

(Source: Information furnished by the department)

It is evident from the **Table 5.19** that:

- Out of available 146 residential quarters at test-checked 34 health institutions, only 77 (53 *per cent*) were occupied by the staff.
- Out of 33 available residential quarters in 04 out of 06 sampled DHs, 26 residential quarters were occupied by the staff.
- Out of 53 residential quarters at 18 SDHs, 25 quarters were either in bad condition and required repair or were occupied by other Departments and the remaining 28 quarters were occupied by the staff.
- Out of 60 residential quarters at 10 CHCs, 23 quarters were occupied by the staff and the remaining 37 quarters either needed repair and renovation or were not handed over to the Department owing to non-execution of some internal works by the executing agency since 2019.
- In 11 health institutions (DHs: two; SDHs: seven and CHCs: two), no residential quarter was available for staff.

The Medical Superintendent, AH GMC Udhampur stated (December 2023) that no funds have been received for repair & renovation of staff quarters during 2016-22. The matter however, shall be taken up with the higher authorities. The Chief Medical Officer, Jammu stated (January 2025) that no funds have been received for repair and maintenance of staff quarters. The Chief Medical Officer, Udhampur stated (December 2023) that the proposal for repair/ renovation of residential quarters at SDH Ramnagar under UT CAPEX was submitted to Director, Health Services Jammu in May 2023 and the Superintending Engineer, PWD (R&B) was requested (April 2022) to prepare the DPR for repair of quarters at CHC Chenani. The Chief Medical Officer, Ramban stated (December 2023) that this office has taken up the matter with the concerned authorities for adequate release of funds to get the staff quarters repaired.

Further, the details of availability of residential quarters in the test-checked PHCs as on March 2022 is detailed in **Table 5.20**.

Table 5.20: Availability of residential accommodation in test-checked PHCs

Name of the District	No. of PHCs test checked	Number of PHCs having residential quarters	No. of quarters available	No. of quarters occupied	Status
Anantnag	9	3	5	3	Two quarters are yet to be handed over by the executing agency in respect of PHC Budroo Kalan.
Ganderbal	6	0	0	0	-
Jammu	10	0	0	0	-
Kupwara	10	3	3	3	-

Name of the District	No. of PHCs test checked	Number of PHCs having residential quarters	No. of quarters available	No. of quarters occupied	Status
Ramban	7	1	1	1	-
Udhampur	10	4	15	5	Quarters are being used for night duty room and for storage of medicines (PHC Majalta- two quarters). Posting of local staff (PHCs Madha and Garhi)
Total	**52**	**11**	**24**	**12**	

(Source: Information furnished by the Department)

It is evident from the **Table 5.20** that 24 quarters were available at 11 out of 52 test-checked PHCs. Of these, 12 were occupied by the staff and the remaining were lying vacant either due to posting of local staff, being used as drug store or non-handing over of quarters to the department by the executing agency. No staff quarter was available in 41 PHCs.

Status of residential accommodation

Vacant staff quarters at SDH, R.S Pura (09.06.2022)

Residential quarters of SDH Marh occupied by Revenue Department (22.06.2022)

Vacant staff quarters at CHC Sohanjana

Vacant residential quarters at CHC, Khour

Vacant staff quarters at PHC B. Kalan

The above findings reflect the lack of serious efforts on the part of the Department to get the damaged quarters renovated or to allot available quarters to staff.

5.8 Non-establishing of infrastructure

➢ Creation of separate isolation ward and Swine Flu H1N1 Laboratory

For molecular diagnosis of Swine Flu and other epidemics to tackle the situation arising due to Swine Flu virus, Ebola virus, HIV, Bird Flu etc. at Govt. Medical College (GMC) Jammu, a proposal for creation of Swine Flu H1N1 Laboratory along with separate isolation ward was submitted (February 2015) by the Principal, GMC Jammu to H&MED having total cost of ₹ 6.28 crore (₹ 2.98 for creation of isolation ward and ₹ 3.30 crore for Swine Flu H1N1 Laboratory). H&MED released (March 2015) funds of ₹ 6.30 crore in favour of Principal, GMC Jammu for establishment of H1N1 (Swine Flu) Testing Laboratory at GMC Jammu within the shortest possible time.

Audit observed that out of ₹ 6.30 crore, funds of ₹ three crore (₹ one crore in March 2015 and ₹ two crore in January 2016) were released in favour of the executing agency (PWD) for construction of isolation ward at GMCH Jammu. The executing agency completed the work and submitted (May 2016) Utilisation Certificate for funds of ₹ three crore (including funds advanced to Mechanical Division, GMC for ₹ 13.69 lakh and material at site valuing ₹ 39.31 lakh).

Further, for establishment of Swine Flu H1N1 Laboratory, the tenders invited (2015) by the purchase committee could not be finalised as only one firm qualified technical round of the tender. The Department approached the National Centre for Disease Control (NCDC), New Delhi and they recommended four specialised agencies out of which the Department had approached the three[15] specialised agencies. Finally, the work of establishment of BSL-3 Lab at GMC Jammu was authorised

[15] The Kartos International, the Biosafe Lab India Private Limited and The Techcomp (Singapore) Private Limited.

(September 2018) to the Biosafe Lab India Private Limited at a cost of ₹ 343.16 lakh by the Principal, GMC Jammu and the agreement was executed (December 2018) with the Firm. Audit further noticed that no provision was kept in the initial estimates (₹ 6.28 crore) for Supply, Testing, Installation and Commissioning (SITC) of electromechanical[16] works for operating of BSL-3 Lab at GMCH Jammu. Accordingly, the Administrative Approval for execution of the work "SITC of 500 KVA DG set with AMF panel, water softener plant, RO Plant and 1 MVA electric sub-station" was accorded (June 2022) at an estimated cost of ₹ 143.66 lakh against which funds of ₹ 75 lakh was placed (June 2022) at the disposal of Mechanical Engineering Department for operationalising BSL-3 Lab. However, the work of SITC of DG set and distribution panel with proper rated cables for making all interconnections between DG set, AMF panel and distribution panel is yet to be completed (December 2023).

The Department stated (December 2023) that all the equipment and machinery of the H1N1 Lab supplied by the vendor is awaiting final testing and commissioning and the lab can be operationalised by the end of January 2024.

Delay in operationalising the laboratory had deprived patients of the advanced healthcare facilities.

➢ Delay in establishment of a State Cancer Institute

For providing state of the art facilities to cancer patients and conducting research activities in various aspects of cancer care, the Ministry of Health & Family Welfare (MoH&FW), Government of India (GoI) communicated (February/ March 2014) its approval for setting up of a State Cancer Institute (SCI) at GMC Jammu under the Centrally Sponsored Scheme-National Programme for Prevention of Cancer, Diabetes, Cardio Vascular Disease and Strokes (NPCDCS). Against ₹ 120 crore proposed by the Principal GMC Jammu, MoH&FW approved (March 2018) grant-in-aid of ₹ 104 crore (civil works: ₹ 32 crore and equipment: ₹ 72 crore) and an amount of ₹ 16 crore was to be contributed by GoJ&K as matching State share.

Audit noticed that H&MED released (January 2020 and January 2021) Central share of ₹ 30.06 crore[17] to the Principal GMC for construction of the SCI and the work was stipulated to be completed by December 2021. Out of this, an expenditure of ₹ 29.62 crore was incurred by the executing agency (Chief Engineer PW (R&B) Department Jammu). Audit however noticed that against the targeted date of completion of March 2022, 90 *per cent* civil works have been completed (November 2023) and balance work stopped by the contractor due to non-payment of bills.

For procurement of the equipment, H&MED placed (January 2020 and January 2021) ₹ 40.14 crore[18], received from GoI for purchase of equipment, at the disposal of

[16] 500 KVA DG set with AMF panel, water softener plant, RO Plant and 1 MVA electric sub-station.
[17] January 2020: ₹ 13.06 crore & January 2021: ₹ 17 crore
[18] January 2020: ₹ 30.00 crore & January 2021: ₹ 10.14 crore

Director Finance, H&MED out of which ₹ 2.35 crore was released (December 2020) to Principal GMC for replacement of radiation source and upgradation of Tele-cobalt machine and ₹ 37.79 crore[19] was transferred (December 2020 and January 2021) to JKMSCL for purchase of the equipment. Out of ₹ 2.35 crore released to Principal GMC, ₹ 0.54 crore was advanced (April 2021) to Accounts Officer, Board of Radiation & Isotope Technology (BRIT) Mumbai for replacement of radiation source and balance amount of ₹ 1.81 crore was transferred (December 2021) to JKMSCL for purchase of new Tele-Cobalt machine thereby taking the total amount transferred to JKMSCL for purchase of equipment to ₹ 39.61 crore[20]. The Principal, Govt. Medical College Jammu intimated (December 2023) that the equipment is under procurement and is expected to be installed by March 2024.

Thus, due to slow execution of works by the executing agency, establishment of SCI at GMC Jammu has been delayed which subsequently delayed the procurement of necessary equipment and consequential deprival of advanced healthcare and specialised treatment to cancer patients.

➢ Regional Cancer Centre under National Cancer Control Programme

Ministry of Health & Family Welfare (MoH&FW), GoI approved (March 2008) development of GMC Jammu and its Associated Hospitals as additional Regional Cancer Centre (RCC) under the revised National Cancer Control Programme (NCCP). For managing the affairs and to oversee all aspects of development of the RCC, a Governing Body (GB) was also constituted (July 2008) under the Chairmanship of Secretary, H&MED. For carrying out construction activities and purchase of equipment, funds of ₹ three crore was placed (April 2008) at the disposal of Principal, GMC, Jammu. Out of ₹ three crore, an amount of ₹ 0.10 crore was to be utilised for construction activities. The RCC was also entitled to further funds of ₹ two crore which was to be released by MoH&FW after ascertaining the progress of the scheme.

Audit observed that for about six and a half years from the date of receipt of funds from GoI, no action was taken by the GB to oversee development of RCC except release (August 2012) of ₹ 10 lakh to the executing agency for civil works. Finally, a decision was taken (September 2014) for purchase of equipment amounting to ₹ 2.90 crore. An amount of ₹ 2.88 crore was spent between July 2014 and December 2020 for procurement of equipment and on miscellaneous items including transfer of ₹ 29.63 lakh to JKMSCL for procurement of pathology equipment. However, due to non-maintenance of relevant records, the status of receipt of equipment from JKMSCL could not be ascertained.

No further expenditure was incurred after December 2020 and ₹ 1.75 crore[21] (including interest of ₹ 1.63 crore) was lying unutilised (November 2023) with GMC

[19] ₹ 27.65 crore in December 2020 & ₹ 10.14 crore in January 2021
[20] ₹ 1,014.28 lakh, ₹ 2,765 lakh & ₹ 181.45 lakh
[21] FDR: ₹ 175.16 lakh & Bank: ₹ 0.27 lakh

Jammu. Due to slow progress in implementation of the scheme, the RCC at GMCH Jammu was deprived of the remaining amount of ₹ two crore receivable from GoI.

➢ Non-acquisition of land for construction of building

The Controller, Drug and Food Control Organisation released (August 2015 and February 2016) funds of ₹ 0.35 crore to the Deputy Commissioner, Pulwama for acquisition of land for construction of office building of Assistant Controller, Drugs and Assistant Commissioner, Food Safety in District Pulwama. These funds were transferred (March 2016) to the Collector, Land Acquisition, Pulwama. It was noticed (July 2022) by Audit that the land had not been transferred for construction of office building resulting in blocking of a sum of ₹ 0.35 crore for over seven years.

The Accounts Officer stated (August 2022) that the matter would be taken up with the Collector, Land Acquisition, Pulwama through Deputy Drug Controller, Drugs and Food Control Organisation, Kashmir for transfer of the land in favour of this organisation.

5.9 Deficiencies in infrastructure facilities as per the Medical Council of India Guidelines

Medical Council of India (MCI), replaced (September 2020) by National Medical Commission (NMC) prescribed minimum standard requirements for every Medical College on the basis of annual MBBS admission intake capacity. As per regulations, a Medical College and Associated Hospitals shall create infrastructure as per the minimum standards prescribed therein. Records revealed that GMC Jammu had annual MBBS admission intake capacity of 100 students during the period 2016-17 to June 2018. It was increased to 150 seats from June 2018. The intake capacity was subsequently increased (June 2019) to 180 students. Audit noticed that 20 Departments[22] were functional in GMC Jammu as per prescribed regulations. However, the infrastructure available in various Departments of GMC Jammu was far below the minimum standards prescribed by MCI.

The MCI minimum standard requirements for the Medical College provides for accommodation and infrastructure facilities for nine Departments. Out of nine Departments[23] of GMC Jammu for which minimum standard requirements for accommodation and infrastructure were prescribed by MCI, only two Departments (Blood Bank and Biochemistry) had complied with the basic minimum requirements. The deficiencies in the remaining seven Departments were far less than the minimum standard requirements prescribed by MCI. It was noticed that five Departments[24] did not have basic facility of lecture halls and one Department[25] did not have library.

---

22 Excluding dentistry

23 Anatomy, Physiology, Biochemistry, Pathology, Microbiology, Pharmacology, Forensic Medicine, Community Medicine and Blood Bank.

24 Pathology, Microbiology, Pharmacology, Forensic Medicine and Community Medicine

25 Microbiology.

MCI had also conducted annual inspections of GMC Jammu for checking its compliance with minimum standard requirements but the reports thereof were not made available to Audit due to which observations made by MCI could not be ascertained.

5.10 Conclusion

There was shortage of health institutions (Sub-Centres and CHCs) in the UT of J&K. Shortage of beds were noticed in PHCs, CHCs and SDHs. Requisite number of HWCs have been upgraded but there was acute shortage of infrastructure, availability of services, human resources, diagnostic services etc. in the HWCs in the selected Districts. Out of 415 construction works taken up for execution under NHM/ PMDP/ Languishing projects programme, only 177 works were completed and 238 works remained incomplete resulting in denial of the intended benefits to the general public. The building infrastructure created under District Plan/ NABARD/ BADP etc. either remained incomplete or unutilised either due to dispute or non-completion of balance minor works. Out of available 170 residential quarters, only 89 quarters were allotted to the staff and remaining 81 quarters were either requiring repair/ renovation, occupied by other Department or not taken over by the Health Department from executing agencies for execution of balance works. Moreover, in 52 health institutions, no residential quarters were available for the staff. Further, the Swine Flu H1N1 Laboratory at GMCH Jammu could not be made functional.

5.11 Recommendations

In light of the audit findings, GoJ&K may consider:

- ***Setting up of adequate number of health institutions viz., SCs/ CHCs so that universal accessibility of healthcare is provided to all sections of society;***
- ***Strengthening HWCs by providing requisite infrastructure, medicines, equipment and diagnostic services to deliver Comprehensive Primary Health Care as envisaged under the operational guidelines of HWC;***
- ***To look into the issues of delays in commencement and completion of planned infrastructural works with a view to remove bottlenecks and ensure speedy completion; and***
- ***Provision of functional residential quarters for ensuring round-the-clock availability of medical/ paramedical staff.***

CHAPTER-VI

FINANCIAL MANAGEMENT

CHAPTER-VI

Financial Management

6.1 Introduction

Health facilities in Jammu and Kashmir work under the Health & Medical Education Department (H&MED).

6.2 Expenditure on healthcare *vis-a-vis* budget allotment

Total expenditure of GoJ&K during 2016-17 to 2021-22 was ₹ 3,60,198.78 crore while expenditure on the Health sector was ₹ 25,127.63 crore against budget allotment of ₹ 30,513.98 crore. Expenditure on the Health sector thus accounted for 6.97 *per cent* of the total expenditure of the State/ UT. The position of investment in the Health sector in the State/UT during the period 2016-2022 is given in **Table 6.1.**

Table 6.1: Statement showing the investment in Health sector in State/ UT during 2016-2022

(₹ in crore)

Year	State/ UT GSDP	Total expenditure of State/UT[1]	Budgetary outlay on Health sector			Expenditure on Health sector			Shortfall in utilisation of Health budget	Percentage of total expenditure on Health sector *vis-a-vis* State GSDP	Percentage of expenditure on Health sector *vis- a-vis* total expenditure of State/ UT Government
			CS	SS	Total	CS	SS	Total			
2016-17	1,24,848	48,097.71	393.49	2,643.12	3,036.61	394.48	2,415.86	2,810.34	226.27	2.25	5.84
2017-18	1,39,709	51,269.38	595.59	2,913.15	3,508.74	607.58	2,470.13	3,077.71	431.03	2.20	6.00
2018-19	1,59,859	64,503.55	596.45	3,982.77	4,579.22	1,158.47	3,265.29	4,423.76	155.46	2.76	6.86

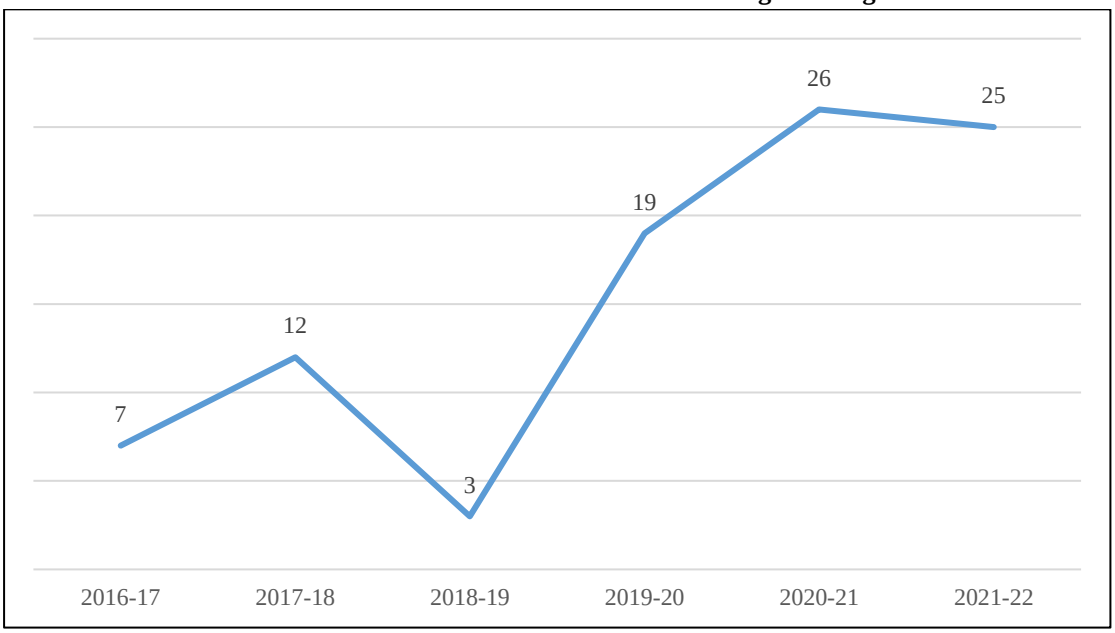
2021-22	1,99,917	70,316.37	1,771.73	5,706.66	7,478.39	972.51	4,641.47	5,613.98	1,864.41	2.80	7.98
		3,60,198.78			**30,513.98**			**25,127.63**			

(Source: Figures from Ministry of Statistics and Program Implementation, State/UT Finance Accounts Vol-I and Appropriation Accounts 2016-17 to 2021-22)

Shortfall in utilisation of allotted funds ranged between three *per cent* and 26 *per cent* during the period 2016-2022. The trend of shortfall in utilisation of Health budget is depicted in **Chart 6.1**.

[1] Excluding Loans & Advances and Public Debt

Chart 6.1: Trend of shortfall in utilisation of Health budget during 2016-2022



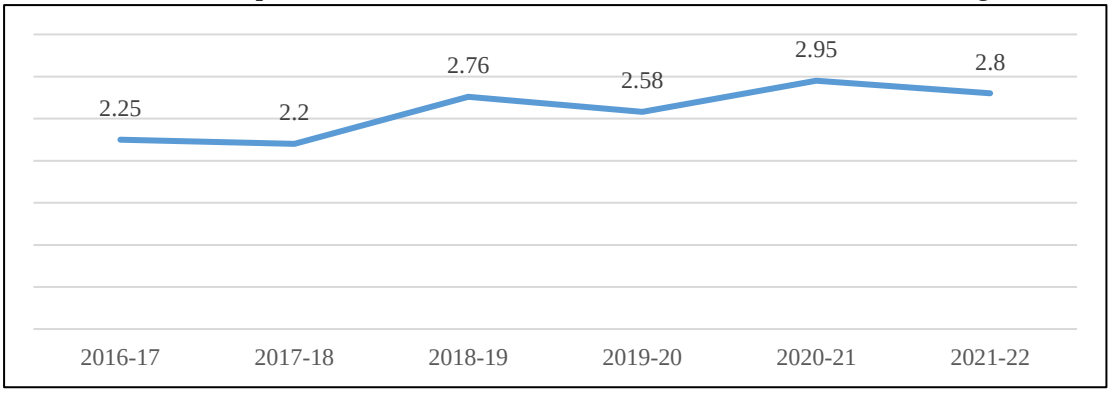
Shortfall in utilisation of funds has significantly increased from 2018-19 onwards as the Department failed to utilise available funds for Revenue and Capital expenditure as depicted in **Table 6.2**.

6.3 Funding target for Health sector

The National Health Policy, 2017 envisages increase of Government expenditure on health to 2.5 *per cent* of GDP by 2025 and increase of State sector health spending to more than eight *per cent* of the State budget by 2020. Audit noticed that:

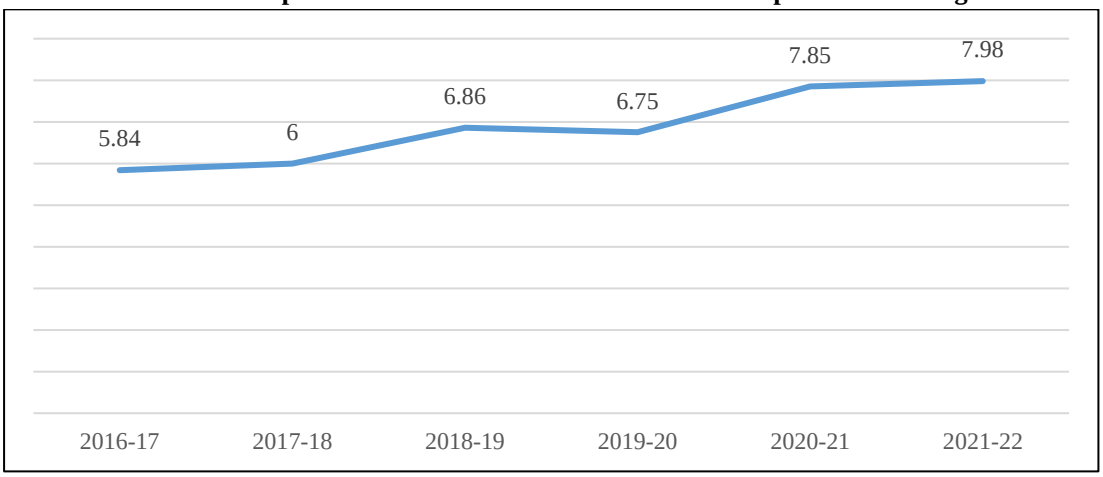
- The expenditure on Health sector to State/ UT GSDP had increased from 2.25 *per cent* in 2016-17 to 2.95 *per cent* in 2020-2021 but decreased to 2.80 *per cent* during 2021-22 as depicted in **Chart 6.2**.

Chart 6.2: Trend of expenditure on Health sector in the State/ UT *vis-a-vis* GSDP during 2016-2022



- Expenditure on Health sector *vis-a-vis* total expenditure of the State/UT Government had increased from 5.84 *per cent* in 2016-17 to 7.98 *per cent* in 2021-2022 as depicted in **Chart 6.3**.

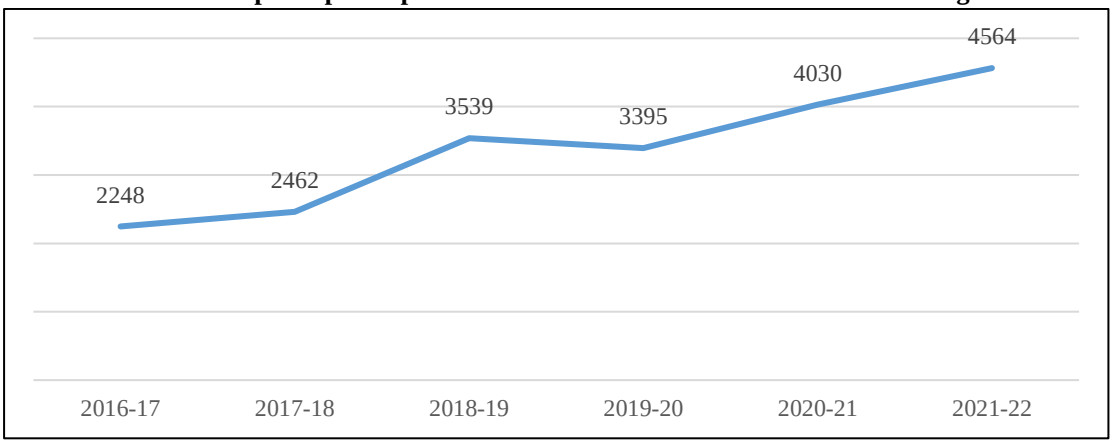
Chart 6.3: Trend of expenditure on Health sector *vis-a-vis* total expenditure during 2016-2022



Thus, there is still scope for the Government to increase expenditure on the Health sector.

Further, the per capita expenditure[2] in the Health sector increased from ₹ 2,248 in 2016-17 to ₹ 4,564 in 2021-22 as shown in **Chart 6.4**.

Chart 6.4: Trend of per capita expenditure in Health sector in the State/ UT during 2016-2022



(Source: J&K Government Appropriation Accounts for the years 2016-17 to 2021-22 and Census-2011)

Expenditure on different functions of the Government is either through Revenue expenditure or Capital expenditure. Revenue expenditure is that which has to be incurred for running of administration, maintenance of assets already created or meeting of pensionary and debt obligations of the Government. Capital expenditure, on the other hand, refers to activities which are undertaken as a result of implementation of pre-conceived plans.

Trend of expenditure under Revenue and Capital heads during 2016-2022 is given in **Table 6.2.**

[2] After taking into consideration the population of 1,25,41,302 for the erstwhile State of Jammu and Kashmir from 01.04.2016 to 30.10.2019 and 1,22,67,013 for UT of Jammu and Kashmir from 31.10.2019 to 31.03.2021 after excluding the population of UT of Ladakh (Census-2011)

Table 6.2: Expenditure incurred vis-a-vis Budget allotment under revenue and capital heads

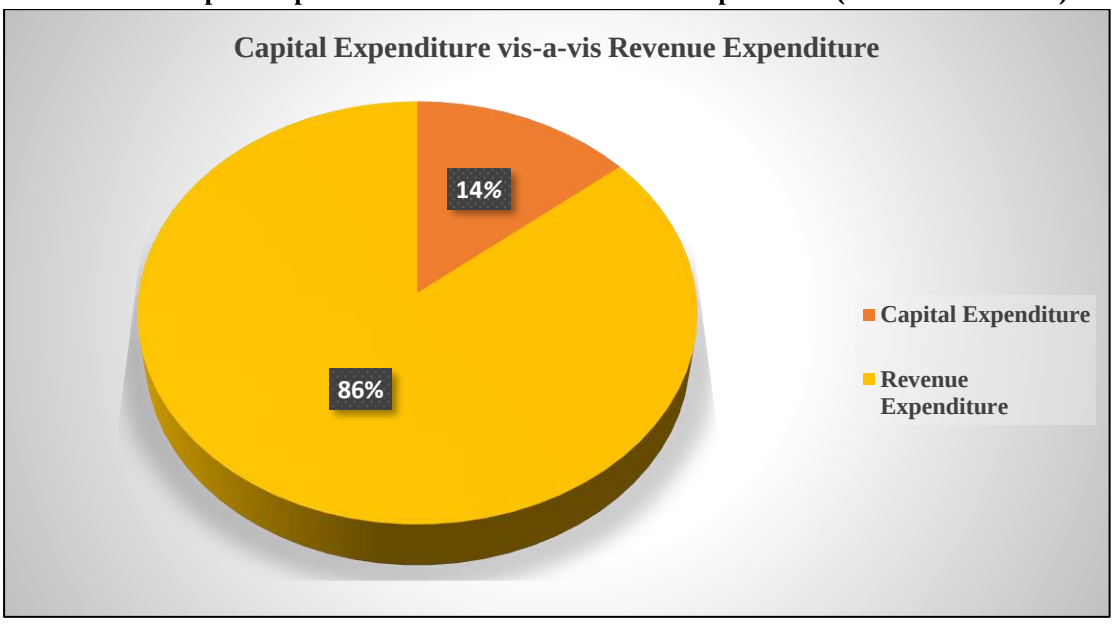
(₹ in crore)

Year	Revenue			Capital		
	Allotment	Expenditure	Shortfall percentage of expenditure against allotment	Allotment	Expenditure	Shortfall percentage of expenditure against allotment
2016-17	2,433.21	2,375.49	2	603.40	434.85	28
2017-18	2,715.73	2,567.13	5	793.01	510.58	36
2018-19	3,725.63	3,549.40	5	853.59	874.36	-
2019-20	4,385.69	3,699.07	16	853.75	545.33	36
2020-21	5,216.51	4,427.59	15	1,455.07	529.85	64
2021-22	5,907.72	4,977.19	16	1,570.67	636.79	59
Total	**24,384.49**	**21,595.87**		**6,129.49**	**3,531.76**	

(Source: J&K Government Appropriation Accounts for the years 2016-17 to 2021-22)

There was decline in utilisation of funds received under Capital heads during 2016-2022 except in 2018-19. Out of total expenditure of ₹ 25,127.63 crore incurred on Health during 2016-22, Revenue expenditure was ₹ 21,595.87 crore (86 *per cent*) while Capital expenditure was ₹ 3,531.76 crore (14 *per cent*) as indicated in **Chart 6.5**.

Chart 6.5: Capital Expenditure status *vis-a-vis* Revenue Expenditure (2016-17 to 2021-22)

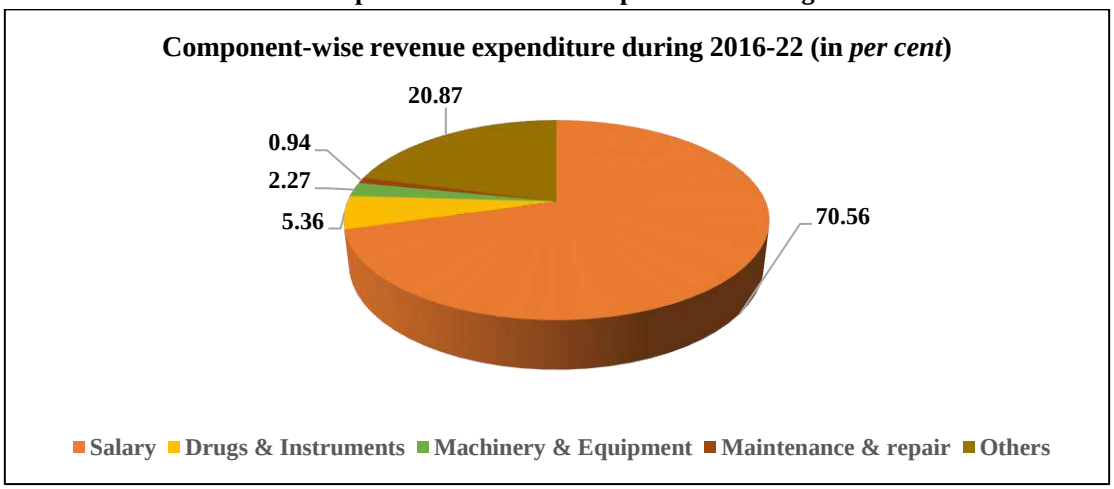


H&MED was not able to utilise Government funds due to shortage of manpower, inefficient procurement system in JKMSCL, delay in construction works etc. as discussed in **Chapters II, IV** and **V** of this report.

6.4 Component-wise revenue expenditure

The component-wise revenue expenditure incurred during 2016-2022 is given in **Chart 6.6**.

Chart 6.6: Component-wise revenue expenditure during 2016-2022



6.5 Allotment and Expenditure in selected Districts

Details of year-wise allotment of funds and expenditure incurred in the six sampled districts during 2016-22 are given in **Table 6.3**.

Table 6.3: Allotment and Expenditure in test-checked districts

(₹ in crore)

Year	Anantnag[3]		Ganderbal		Jammu		Kupwara		Ramban		Udhampur

(B: Budget; E: Expenditure)
(Source: Information furnished by concerned CMOs)
(Figures in bracket indicates percentage)

Utilisation of funds in the selected six districts was satisfactory and ranged between 73 *per cent* and 100 *per cent* during 2016-22.

[3] During the years 2016-17 and 2017-18, figures of budget and expenditure were not consolidated at district level in Anantnag District.

6.6 Funds received from GoI

Health being a State subject, the Central Government supplements the efforts of the State Governments in delivery of Health services mainly through Centrally Sponsored Schemes (CSSs) such as National Health Mission (NHM), National AYUSH Mission (NAM), Prime Minister's Development Package (PMDP) and Establishment of New Medical Colleges etc. Besides, National AIDS Control Programme (NACP), a Central Sector Scheme was also being implemented in the UT of J&K.

The percentage of funds received from GoI in comparison to the State/ UT Health budget ranged between 17 *per cent* and 32 *per cent* as shown in **Chart 6.7**.

Chart 6.7: Trend of percentage of State/ UT Health budget received from GoI

(₹ in crore)

	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22
State/UT Health Budget	3036.61	3508.74	4579.22	5239.44	6671.58	7478.39
Out of which funds received from GoI	773.7	1052.67	1124.01	1692.62	1517.89	1248.1
Percentage of funds received from GoI	25	30	25	32	23	17

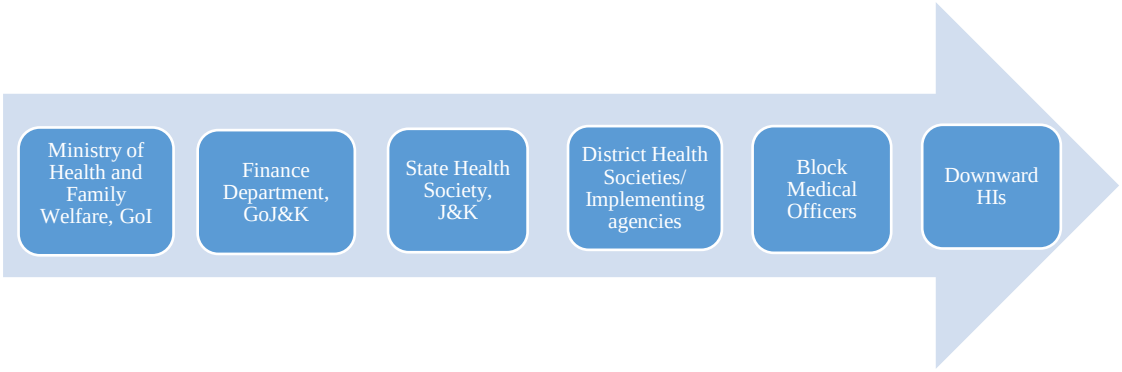
The percentage of funds received from GoI declined from 25 *per cent* in 2016-17 to 17 *per cent* in 2021-22.

The Director Finance, H&MED, J&K stated (December 2023) that in the interest of better patient care, developmental projects of non-recurring nature were approved under various Centrally Sponsored Schemes leading to increase in receipts from GoI. However, during the year 2021-22, less funds were received by the Department resulting in decline in the receipts.

6.6.1 Utilisation of funds under NHM

Among the CSSs, National Health Mission (NHM) is the flagship scheme of GoI to improve the overall Health status of the country by providing universal access to equitable, affordable, and quality healthcare services that are accountable and responsive to people's needs.

The funding pattern under the Mission was in the ratio of 90:10 between GoI and GoJ&K. The fund flow from GoI to Health Institutions (HIs) is as following:



Funds are released by GoI to the Finance Department of GoJ&K, which releases these funds to the State Health Society[4] (SHS) for further release to the HIs through District Health Societies and Block Medical Officers. The position of funds available and expenditure incurred under the Mission during 2016-2022 is given in **Table 6.4**.

Table 6.4: Funds available and expenditure incurred under NHM during 2016-2022

(₹ in crore)

Year	Opening balance	Release by GoI	State share	Total funds available	Expenditure *per cent*	Closing balance
2016-17	132.86	366.94	42.95	542.75	422.91 (78)	119.84
2017-18	119.84	440.96	54.69	615.49	432.86 (70)	182.63
2018-19	182.63	466.62	22.50	671.75	485.21 (72)	186.54
2019-20	186.54	641.05	99.60	927.19	737.15 (80)	190.04
2020-21	190.04	609.64	51.75	851.43	648.62 (76)	202.81
2021-22	202.81	668.93	102.98	974.72	865.49 (89)	109.23
Total		**3,194.14**	**374.47**		**3,592.24**	

(Source: Data furnished by NHM, J&K)

Audit noticed that funds ranging between 70 *per cent* and 89 *per cent* were utilised during 2016-2022. However, due to non-spending of the allotted funds, the closing balances increased from ₹ 119.84 crore in March 2017 to ₹ 202.81 crore in March 2021. The same, however, decreased to ₹ 109.23 crore ending March 2022 after incurring an expenditure of ₹ 865.49 crore during 2021-22.

The Mission Director, NHM, J&K stated (December 2022) that release of funds by the GoI/ GoJ&K at the fag end of the financial year had resulted in low utilisation of funds.

With effect from 1st July 2021, the revised procedure for release of funds under CSSs, including for National Health Mission, and monitoring utilisation of the funds released as stipulated by the Department of Expenditure, Ministry of Finance envisages that the entire unspent amount was required to be remitted by all implementing agencies to a Single Nodal Account (SNA). The Department, however, failed to provide the related documents in the absence of which Audit could not ascertain the actual amount remitted to the SNA. The Financial Advisor and CAO, NHM, J&K stated (September 2023) that preparation of details of the remittance of

[4] Responsible for implementation of the Mission in the State/ UT through Governing Body and Executive Committee.

unspent balances to SNA account is a time consuming process and some time was needed to share data.

6.6.1.1 Budget allocation and expenditure under National Health Mission

There was wide variation in the Budget provision and actual expenditure under NHM during 2016-17 to 2021-22. Important components under NHM with high variations in Budget provision and actual expenditure are shown in **Table 6.5**.

Table 6.5: Budget allocation and Expenditure on important components under NHM

Name of the scheme	Total allotment for 2016-17 to 2021-22 (₹ in crore)	Total expenditure for 2016-17 to 2021-22 (₹ in crore)	Percentage of total expenditure to allotment	Percentage utilisation					
				2016-17	2017-18	2018-19	2019-20	2020-21	2021-22
Reproductive, Maternal, Newborn Child Health plus Adolescent Health	1,065.38	645.05	61	81	67	66	73	40	42
Routine Immunisation and Integrated Pulse Polio Immunisation	72.64	39.25	54	54	54	77	65	46	37
Health System Strengthening under NRHM	2,872.71	1,714.68	60	67	58	65	59	54	61
National Vector Borne Disease Control Programme	5.82	3.07	53	92	61	42	54	44	31
Revised National Tuberculosis Control Programme	112.71	73.58	65	44	47	71	61	76	90
National Leprosy Elimination Control Programme	4.55	3.65	80	34	43	253	144	60	45
Integrated Disease Surveillance Programme	21.66	16.72	77	71	90	1,322	40	143	86

(Source: State Programme Implementation Plan and Financial Management Reports)

As can be seen from the **Table 6.5**, the percentage utilisation of funds varied across the years during 2016-17 to 2021-22 as mentioned below:

- In case of Reproductive, Maternal, Newborn Child Health plus Adolescent Health, out of the allotment of ₹ 1,065.38 crore, only ₹ 645.05 crore (61 *per cent*) was utilised.

- In case of Routine Immunisation and Integrated Pulse Polio Immunisation, the percentage of expenditure against allotment ranged between 37 and 77 *per cent*.

- Allotment for the Health System Strengthening under NRHM, was increased from ₹ 164.05 crore in the year 2016-17 to ₹ 697.92 crore in the year 2021-22 but utilisation of funds was only 61 *per cent* during 2021-22.

- In case of National Vector Borne Disease Control Programme and Revised National Tuberculosis Control Programme, utilisation of funds was only 53 *per cent* and 65 *per cent* respectively.

- There was wide variation in utilisation of funds under National Leprosy Elimination Control Programme during 2016-17 to 2020-21. Utilisation of funds was 34 *per cent* in 2016-17 and 253 *per cent* in 2018-19. Similarly, in respect of Integrated Disease Surveillance Programme, utilisation of funds was 1,322 *per cent* in 2018-19 and 40 *per cent* in 2019-20. The Financial Advisor and CAO, NHM, J&K stated (December 2023) that the expenditure was made on the approved activities out of the committed unspent balance of the last financial year(s).

6.6.1.2 Delay in release of funds received under NHM

Funds of ₹ 2,410.86 crore released by the GoI, Ministry of Health and Family Welfare (MoH&FW) to GoJ&K during 2016-17 to 2020-21 were not released by the Finance Department to State Health Society within the stipulated period of 15 days. Delay in release of funds ranged between 10 days and 615 days.

The Financial Advisor and CAO, NHM, J&K stated (July 2022) that after fulfilment of procedural formalities and availability of liquidity with the Finance Department, State Health Society receives the NHM funds from the J&K Government. However, some times the Ministry of Health and Family Welfare, GoI releases funds to the State Health Society at the fag end of the financial year due to which GoJ&K would not be able to release the funds during the financial year for which it was sanctioned.

6.6.1.3 Utilisation Certificates awaited

For implementation of various programmes of NHM, ₹ 39.21 crore was transferred by Principal, Government Medical College (GMC), Jammu and ₹ 5.18 crore by the

Principal, GMC, Srinagar to various HIs/ Departments[5] during 2016-2021. However, detailed accounts and Utilisation Certificates in respect of these funds were not obtained (September 2023) from the concerned HIs/ Departments to ascertain whether funds were utilised for the intended purposes of the programmes.

6.6.1.4 Non-utilisation of funds under Ayushman Bharat-Health and Wellness Centres

The National Health Policy, 2017 recommended strengthening delivery of primary healthcare through establishment of Health and Wellness Centres (AB-HWCs) as the platform to deliver comprehensive primary healthcare. For primary healthcare to be comprehensive, it needs to span preventive, promotive, curative, rehabilitative and palliative aspect of care. The GoI announced (February 2018) creation of HWCs by transforming existing Sub-Health Centres and Primary Health Centres.

The position of funds available and expenditure incurred under AB-HWCs during the period 2018-22 is given in **Table 6.6**.

Table 6.6: Funds available and expenditure incurred under AB-HWCs in J&K during 2018-22

(₹ in crore)

Year	Opening Balance	Funds released during the year	Total funds available during the year	Expenditure incurred during the year (*per cent*)	Closing Balance
2018-19	0.00	21.52	21.52	5.89 (27)	15.63
2019-20	15.63	26.69	42.32	20.19 (48)	22.13
2020-21	22.13	4.68	26.81	7.89 (29)	18.92
2021-22	18.92	8.08	27.00	9.97 (37)	17.03

(Source: Figures furnished by the SHS, NHM)

- Utilisation of funds ranged between 27 *per cent* and 48 *per cent* during the period 2018-2022 with the result the closing balance increased from ₹ 15.63 crore in March 2019 to ₹ 17.03 crore in March 2022.
- The unspent balances in the six selected Districts ranged between 05 *per cent* and 48 *per cent* during 2018-2022. As a result, there were deficiencies in providing healthcare services and civil infrastructure in the Health and Wellness Centres as discussed in **Chapter V** of this report.

6.6.2 National AIDS Control Programme

For checking spread of HIV[6]/AIDS[7], National AIDS Control Programme (NACP) is implemented in the State/ UT of J&K by J&K AIDS Control Society (JKACS) with the help of H&MED, other Government departments, Non-Government Organisations (NGOs), civil society etc. The programme is 100 *per cent* funded by GoI.

[5] SMGS Hospital Jammu; SSH Jammu; GMCH Jammu and HODs, Lalla Ded Hospital Srinagar, G.B.Pant Hospital Srinagar, SMHS Hospital, Srinagar and Bone & Joint Hospital, Srinagar

[6] Human Immunodeficiency Virus

[7] Acquired Immuno Deficiency Syndrome

The position of funds received under NACP and expenditure incurred thereagainst in the State/ UT during 2016-22 is given in **Table 6.7**.

Table 6.7: Funds received under NACP and expenditure incurred thereagainst during 2016-2022

(₹ in crore)

Year	Opening balance	Funds received during the year including interest	Total funds available	Expenditure during the year (*per cent*)	Closing balance
2016-17	0.06	8.00	8.06	6.80 (84)	1.26
2017-18	1.26	8.01	9.27	7.15 (77)	2.12
2018-19	2.12	8.64	10.76	10.01 (93)	0.75
2019-20	0.75	12.09	12.84	10.48 (82)	2.36
2020-21	2.36	14.57	16.93	11.78 (70)	5.15
2021-22	5.15	17.33	22.48	15.06 (67)	7.42

(Source: Information furnished by J&K AIDS Control Society)

As indicated in the **Table 6.7**, utilisation of funds by JKACS had declined from 84 *per cent* in 2016-17 to 67 *per cent* in 2021-22 with the result that the closing balance increased by about six times as of March 2022 as compared to March 2017. Non-utilisation of funds resulted in non-achievement of targets of activities under Information, Education and Communication (IEC) as depicted in Chapter VII of this report.

On being pointed out, the Assistant Director (F), JKACS stated (September 2023) that during COVID-19 period the funds utilised were below the estimated expenditure for the financial years 2020-21 and 2021-22. It was further stated that the expenditure was booked only after the submission of Red account[8]/ Utilisation Certificates by the District authorities and other agencies after the close of the financial year due to which there were unutilised funds at the end of the financial year.

6.6.3 National AYUSH Mission

Government of India (GoI) launched National AYUSH Mission (NAM) during 12th Plan to promote AYUSH medical system in States/ UTs. Under NAM, financial assistance is being provided by Ministry of AYUSH (MoA) to the State/ UT Governments for promotion of AYUSH healthcare facilities as per proposals made in the State Annual Action Plan (SAAP). MoA sanctions AYUSH funds on the basis of SAAPs submitted to it by GoJ&K which releases funds to the Directorate of AYUSH (DoA) for implementation of NAM in the State/ UT.

6.6.3.1 Receipt and utilisation of funds under NAM

During 2016-22, funds of ₹ 94.37 crore were approved by GoI as per the SAAP. Keeping in view the funding pattern of 90:10, GoI released ₹ 83.45 crore to GoJ&K out of due share of ₹ 84.93 crore. GoJ&K released ₹ 8.62 crore to DoA out of due share of ₹ 9.44 crore. Out of ₹ 83.45 crore released by GoI, GoJ&K released ₹ 79.85 crore to DoA during 2016-22.

[8] Detailed Contingent bills

Position of Central funds/ State share released by GoJ&K under NAM and expenditure incurred thereagainst by Directorate of AYUSH during 2016-2022 is given in **Table 6.8**.

Table 6.8: Position of funds released and expenditure incurred under NAM during 2016-22

(₹ in crore)

Year	Opening Balance	Funds received		Interest earned	Total availability	Expenditure incurred	Unspent balance (percentage of unspent balance to total availability)
		Central Share	State/UT Share				
2016-17	2.47[9]	7.08	0.00	0.00	9.55	0.55	9.00 (94)
2017-18	9.00	0.85	0.00	0.00	9.85	4.46	5.39 (55)
2018-19	5.39	16.06	0.00	0.00	21.45	6.67	14.78 (69)
2019-20	14.78	18.93	0.00	0.00	33.71	14.21	19.50 (58)
2020-21	19.50	9.63	0.39	0.46	29.98	18.89	11.09 (37)
2021-22	11.09	27.30	8.23	0.42	47.04	34.18	12.86 (27)
		79.85	**8.62**	**0.88**		**78.96**	

(Source: Figures furnished by the Directorate of AYUSH)

DoA was able to utilise ₹ 78.96 crore (86 *per cent*) of available funds of ₹ 91.82 crore[10]. There was, however, improvement in utilisation of funds from during 2019-22.

The GoI released funds to the State/ UT Government under NAM for approved activity of a particular year. The funds were required to be further released by the State/ UT Government within 15 days of receipt of funds from GoI.

Audit observed that after receipt of Central funds, GoJ&K had released the funds to DoA with delays[11] as detailed in **Table 6.9.**

Table 6.9: Delay in release of Central funds by GoJ&K

Delay (range in days)	Amount ₹ in crore
1-50	18.32
51-100	28.02
101-150	23.95
151-200	9.08
201 and above	0.48
Total	**79.85**

(Source: Information furnished by DoA)

Audit further noticed that in one case GoJ&K had released funds after 1,329 days of receipt of funds from GoI.

[9] Includes revalidated funds of ₹ 0.46 crore

[10] OB: ₹ 2.47 crore +CS: ₹ 79.85 crore + SS: ₹ 8.62 crore + Interest: ₹ 0.88 crore

[11] The days were calculated after excluding 15 days

The Chief Accounts Officer, Directorate of AYUSH, J&K stated (January 2025) that owing to procedural delay at higher authority level, the funds could not be released to SNA in time. Further, due to revised procedure, the flow of funds under NAM has improved.

6.6.4 Submission of wrong Utilisation Certificate

The Ministry of Health and Family Welfare, GoI sanctioned (January 2017) ₹ 13 crore for establishment of 'Modern Drug and Food Testing Laboratory at Lakhanpur, Kathua' under CSS 'Strengthening of State Drug Regulatory System'. The amount of ₹ 13 crore was released (January 2018) by H&MED at the fag end of the year in favour of Controller, Drug and Food Control Organisation, J&K after a delay of about one year. Due to non-utilisation of the sanctioned funds, ₹ 13 crore was revalidated (August 2018) by H&MED in favour of Controller, Drug and Food Control Organisation, J&K. Audit noticed that the latter had submitted (January 2019) Utilisation Certificate for ₹ 11.26 crore out of ₹ 13 crore to GoI well before accord of sanction (March 2019) by H&MED for advance drawal of ₹ 13 crore for establishment of 'Modern Drug and Food Testing Laboratory at Lakhanpur, Kathua'. The UC in January 2019 was furnished in anticipation of incurring of expenditure only to seek further funding under the project.

The State Drugs Controller, Drug and Food Control Organisation Jammu and Kashmir stated (January 2025) that the latest and corrected Utilisation Certificate stands submitted to the competent authority in January 2024.

6.6.5 Non-utilisation of funds

- The funds received for various schemes/programmes were either utilised partially or not utilised at all in GMC, Jammu. The unutilised funds were kept under fixed deposits for years together with a view to earn interest instead of utilising these for medical/ patient care services. An amount of ₹ 8.15 crore [including ₹ 1.75 crore pertaining to National Cancer Control Programme (NCCP) launched by the GoI in March 2008] was kept under fixed deposits as of September 2022. The Department could not furnish details of schemes/ programmes to which the remaining ₹ 6.40 crore pertained as no related records were maintained.

- In compliance to the sanction accorded (March 2020) by the H&MED for acquisition of land for 'Establishment of Medi-city at Vijaypur, District Samba' under Capex Budget 2019-20, the Director Health Services (DHS), Jammu credited (March 2020) ₹ 4.75 crore to Deposit Head and withdrew (March 2020) ₹ 2.76 crore as advance drawal for acquisition of 83 *kanals* of land belonging to J&K Evacuees' Property Department. The amount of ₹ 2.76 crore was kept in the current bank account of DHS, Jammu. Audit observed that due to non-acquisition of land the whole amount of ₹ 7.51 crore (₹ 4.75 crore + ₹ 2.76 crore) had remained unutilised (January 2023). Moreover, parking of ₹ 2.76 crore outside the exchequer in bank

account since March 2020 has a commensurate impact on the liquidity of the State/ UT.

On being pointed out by Audit, the Director Health Services, Jammu stated (October 2023) that ₹ 2.76 crore has been transferred (May 2023) into revenue account of the Government. It was further stated that the balance ₹ 4.75 crore remained kept in Civil Deposits in the absence of any directions from the Administrative Department for its utilisation.

- An amount of ₹ 5.21 crore was released (August 2015) under CSS 'Upgradation/Strengthening of State Nursing Services' to DHS Jammu for procurement of transport, lab equipment, AV aids, books, computer lab and furniture for four[12] ANM/ GNM schools. As these funds were not utilised during 2015-16, they were revalidated and again released to DHS Jammu in February 2017. Out of ₹ 5.21 crore, an expenditure of ₹ 1.08 crore was incurred by DHS, Jammu for procurement of lab equipment, furniture etc. Funds of ₹ 0.36 crore were placed at the disposal of four[13] CMOs concerned for procurement of petty items[14]. The Utilisation Certificates, however, were awaited (December 2023) from four CMOs. Besides, ₹ 0.61 crore was transferred to JKMSCL for procurement of lab items and ₹ 0.28 crore paid to SICOP against the bills of furniture. An amount of ₹ 2.68 crore was lying in the current bank account of DHS Jammu for over five years and details of ₹ 0.20 crore could not be ascertained during audit. Failure of the DHS Jammu to utilise available funds of ₹ 2.68 crore defeated the purpose for which the funds were released.

The Director Health Services, Jammu stated (October 2023) that ₹ 2.40 crore out of ₹ 2.68 crore has been transferred (May 2023) into revenue account of the Government and ₹ 0.28 crore retained being the liability created by CMO Kathua for purchase of furniture for GNM Kathua.

The Chief Accounts Officer, Directorate of Health Services Jammu stated (January 2025) that ₹ 0.28 crore have been remitted into Govt. account in January 2025.

6.6.6 Non-submission of Utilisation Certificates

JKMSCL received funds from HoDs of indenting departments as well as from H&MED for procurement and supply of the drugs/instruments and machinery/ equipment. JKMSCL was required to furnish UCs in respect of these funds to the HoDs concerned within 12 months of closure of the financial year in terms of Rule 238 (1) of GFR 2017. Audit observed that out of ₹ 1,550.78 crore received during 2019-22, UCs for only ₹ 762.88 crore (49 *per cent*) were submitted to H&MED.

[12] ANM Kishtwar (₹ 84.90 lakh), ANM Ramban (₹ 84.90 lakh), GNM Jammu (₹ 175.75 lakh) and GNM Udhampur (₹ 175.75 lakh)
[13] Jammu, Kishtwar, Ramban and Udhampur
[14] Books, AV aids, teaching material, mannequins etc.

UCs in respect of the funds received directly from the HoDs could not be reviewed in absence of complete records.

The Financial Advisor/ CAO JKMSCL stated (January 2025) that Utilisation Certificates amounting to ₹ 922.88 crore have been submitted to the concerned DDOs.

Non-submission of UCs in time indicated poor financial control.

6.7 Conclusion

There was shortfall in utilisation of allotted funds ranging between three *per cent* and 26 *per cent* against the budget allocated by GoJ&K on the Health sector during 2016-17 to 2021-22. The Government spending on the Health sector increased from 5.84 *per cent* of total expenditure in 2016-17 to 7.98 *per cent* in 2021-22. Expenditure on the healthcare sector was highly skewed in favour of Revenue expenditure with a smaller proportion of Capital expenditure. GoJ&K released funds to the State Health Society with delays. Funds were lying unutilised outside Government account in contravention of codal provisions.

6.8 Recommendations

In the light of the audit findings, GoJ&K may consider:

- ***Ensuring timely release of funds so that they are fully utilised to ensure availability of quality healthcare infrastructure and services to the people of the UT;***
- ***Reviewing the healthcare ecosystem in the UT to identify the constraints/ factors adversely impacting the absorptive capacity of funds and make concerted efforts for their resolution;***
- ***Releasing funds to the State/UT Health Society well in time for effective utilisation of the funds in programme implementation; and***
- ***Ensuring deposit of Government money lying outside Government account into the Consolidated Fund of the UT for its optimum utilisation.***
- ***Rigorous monitoring of expenditure to ensure that funds allotted are spent fully for intended purposes.***

CHAPTER-VII

IMPLEMENTATION OF CENTRALLY SPONSORED SCHEMES

CHAPTER-VII

Implementation of Centrally Sponsored Schemes

7.1 Introduction

Health being a State/ UT subject, the Central Government supplements the efforts of the State/ UT Governments in delivery of health services through various schemes of primary, secondary and tertiary care. The findings with respect to audit of implementation of Centrally Sponsored Schemes in the UT of J&K are discussed in the succeeding paragraphs

7.2 National Health Mission

Observations noticed during review of various components of NHM programme are discussed in the succeeding paragraphs.

7.2.1 Janani Suraksha Yojana (JSY)

Janani Suraksha Yojana (JSY) is a safe motherhood intervention under NHM being implemented with the objective of reducing maternal and neo-natal mortality by promoting institutional delivery. The scheme integrates cash assistance with delivery and post-delivery care. Janani Surakhsha Yojana (JSY) provides all pregnant women with a cash compensation of ₹ 1,400 in rural areas and ₹ 1,000 in urban areas.

The position of institutional deliveries and compensation provided to the beneficiaries during the period 2016-2022 in the UT of J&K is given in **Table 7.1**.

Table 7.1: Institutional/ home deliveries and compensation provided to beneficiaries in the State/ UT under JSY during 2016-2022

Year	Number of pregnant women registered	Total number of deliveries	Institutional deliveries (*per cent*)	Beneficiaries provided incentive under JSY (*per cent*)
2016-17	1,25,265	2,00,503[1]	1,85,440 (92)	1,23,181 (66)
2017-18	3,99,020	1,92,896	1,81,006 (94)	1,23,518 (68)
2018-19	3,98,421	1,96,921	1,86,614 (95)	1,36,364 (73)
2019-20	3,57,609	1,93,420	1,83,035 (95)	1,20,433 (66)
2020-21	3,71,639	1,77,960	1,66,338 (93)	1,00,267 (60)
2021-22	3,20,015	1,90,190	1,80,625 (95)	1,02,000 (56)

(Source: Figures furnished by the State Health Society)

Audit noticed that percentage of institutional deliveries remained in the range of 92 and 95 *per cent* during 2016-2022. However, cash compensation was provided to beneficiaries ranging between 56 *per cent* and 73 *per cent* of institutional deliveries. Poor coverage in providing incentive under JSY defeated the purpose of the mission to promote safe institutional deliveries.

[1] Figures include private as well as home deliveries.

The Financial Advisor and CAO NHM, J&K stated (December 2023) that only those mothers were being paid incentive who were registered on Reproductive and Child Health (RCH) online portal and have Aadhaar seeded bank account, which is a must for DBT mode. Some of the beneficiaries either had non-functional bank account or did not claim JSY incentive.

In respect of the six test checked Districts[2], the position regarding institutional deliveries and incentives provided under JSY is given in **Table 7.2**.

Table 7.2: Institutional deliveries and compensation provided to beneficiaries in selected Districts under JSY during 2016-2022

Year	Number of pregnant women registered	Total number of deliveries	Institutional deliveries (*per cent*)	Beneficiaries provided incentives under JSY
2016-17	96,754	52,353	48,306 (92)	47,206
2017-18	93,312	48,406	45,075 (93)	44,215
2018-19	89,083	49,739	46,967 (94)	47,709
2019-20	72,867	44,057	41,343 (94)	41,273
2020-21	72,074	39,959	36,713 (92)	36,686
2021-22	71,066	43,033	40,394 (94)	34,038
Total		**2,77,547**	**2,58,798 (93)**	**2,51,127 (97)**

(Source: Records of Chief Medical Officers of the selected Districts)

Institutional deliveries in the six selected Districts were about 93 *per cent* and 97 *per cent* beneficiaries were provided incentives during 2016-2022 against institutional deliveries.

7.2.2 Maternal and Infant mortality

The objective of NHM was to reduce the maternal and infant mortality rate. The position of maternal and infant deaths in the State/ UT during 2016-2022 is given in **Table 7.3**.

Table 7.3: Maternal and infant deaths in the State/ UT during 2016-2022

Year	Number of deaths	
	Maternal	Infants
2016-17	132	2,288
2017-18	99	2,375
2018-19	82	2,358
2019-20	97	2,486
2020-21	93	1,504
2021-22	84	2,108

(Source: Figures furnished by the State/UT Health Society)

The data in **Table 7.3** indicates that maternal mortality and infant mortality had decreased from 132 to 84 and 2,288 to 2,108 respectively during 2016-22.

[2] Anantnag, Ganderbal, Jammu, Kupwara, Ramban and Udhampur.

In the six sampled Districts, maternal deaths declined from 31 to 23 during 2016-21 and again increased to 31 during 2021-22 whereas infant deaths declined from 234 to 76 during 2016-2022.

7.2.3 Janani Shishu Suraksha Karyakram

Janani Shishu Suraksha Karyakram (JSSK) is an initiative to assure free services to all pregnant women and sick new-born accessing public health institutions. The scheme envisages free and cashless services to pregnant women including normal deliveries, Caesarean operations and also treatment of sick newborns (up to 30 days after birth) in all Government health institutions.

The targets in respect of deliveries to be benefitted and treatment of sick newborns and actual achievements in this regard in the State/ UT during the period 2016-2022 are given in **Table 7.4**.

Table 7.4: Achievements against targets for deliveries to be benefitted and treatment of sick newborns in the State/ UT during 2016-2022

Year	Targets for deliveries to be benefitted and actual achievements		Targets for sick newborns to be treated and actual achievement	
	Targets	Achievements (*per cent*)	Targets	Achievements (*per cent*)
2016-17	1,87,800	1,68,317 (90)	45,962	44,775 (97)
2017-18	1,87,800	1,65,163 (88)	45,962	51,742 (113)
2018-19	1,87,800	1,69,621 (90)	45,962	47,568 (103)
2019-20	1,87,800	1,62,110 (86)	45,960	51,798 (113)
2020-21	1,87,800	1,44,524 (77)	45,960	37,870 (82)
2021-22	1,72,000	1,63,247 (95)	45,111	48,141 (107)

(Source: Figures furnished by State Health Society)

The data in **Table 7.4** indicates that targets fixed for deliveries to be benefitted and sick newborns to be treated remained almost unchanged during 2016-2021 but achievements in respect of targets for deliveries to be benefitted declined from 90 to 77 *per cent*. The achievement increased to 95 *per cent* in 2021-22. The achievement against the targets in respect of sick new-borns to be treated was more than the targets fixed in four years (2017-18 to 2019-20 and 2021-22).

The Director (P and S) State Health Society, J&K stated (September 2023) that the achievement is based on the actual number of deliveries conducted at public health facilities. It was further stated that the targets were reduced because of exclusion of UT of Ladakh.

In five out of the six sampled Districts, during 2016-22, the achievement in respect of deliveries benefitted decreased from 81 to 76 *per cent* whereas in respect of Ganderbal District, no targets were fixed for deliveries to be benefitted during 2016-21. However, there was 92 *per cent* achievement against targets fixed for 2021-22. Similarly, out of

the six sampled Districts, no targets were fixed in three[3] Districts for treatment of sick new-born. In the remaining three[4] Districts the achievement in respect of treatment of sick new-born ranged between 47 and 81 *per cent* during 2016-22.

JSSK guidelines provide for availability of 39 essential drugs and 26 essential consumables for postnatal and intra-partum period in respect of C-section deliveries.

Audit observed that there was shortage in availability of essential drugs and consumables ranging between 28 *per cent* and 79 *per cent* in respect of drugs and 23 *per cent* and 73 *per cent* in respect of consumables in six selected DHs during 2016-21. The maximum shortage of 79 *per cent* drugs and 73 *per cent* consumables was observed in DH Handwara.

7.2.4 Immunisation

Immunisation Programme is one of the key interventions for protection of children from life threatening conditions which are preventable. Immunisation Programme in India was introduced in 1978 as Expanded Programme of Immunisation (EPI) and in 1985 it was expanded as Universal Immunisation Programme (UIP). The Immunisation activities have been an important component of National Reproductive and Child Health Programme under NHM. Under the Programme, vaccination is provided to prevent 11 vaccine preventable diseases such as Diphtheria, Pertussis, Tetanus, Polio, Measles, severe form of Childhood Tuberculosis, Hepatitis B, Meningitis, Pneumonia caused by Haemophilus Influenza type B, Rubella and Rotavirus Diarrhoea.

Details of vaccines provided under UIP for prevention of different diseases are given in **Table 7.5**.

Table 7.5: Details of vaccines administered for different diseases

Name of vaccine	Administered to
Bacillus Calmette- Guerin (BCG)	Protect the infants from tubercular meningitis and disseminated Tuberculosis
Oral Polio Vaccine (OPV)	Protect children from Poliomylitis.
Pentavalent Vaccine (PV)	Protect children from five diseases (Diphtheria, Pertussis, Haemophilis Influenza, Type B infection and Hepatitis B).
Fractional Inactivated Poliomylitis Vaccine (fIPV)	Boost protection against Poliomylitis.
Hepatitis-B (Hep-B)	Protect from Hepatitis B virus infection
Diphtheria, Pertussis and Tetanus (DPT) booster	Protect children from Diphtheria, Tetanus and Pertussis.
Measles Rubella (MR) Vaccine	Protect children from Measles and Rubella infection.
Tetanus and adult Diphtheria (TT/ Td)	Boost immunity against Diphtheria in adolescents at 10 and 16 years of age.
Rotavirus Vaccine (RVV)	Protect infants and children from Rotavirus Diarrhoea.

(Source: National Health Portal of India)

[3] Jammu, Kupwara and Anantnag
[4] Ganderbal, Ramban and Udhampur

Audit noticed that against target of 13,49,948 doses each for BCG, OPV, PV, IPV, Hep-B, DPT-B, and Measles, the achievement had ranged between 71 *per cent* and 94 *per cent* whereas the achievement in respect of DPT-5, TT-10 and TT-16 was 64, 56 and 40 *per cent* respectively during 2016-2022 as detailed in **Table 7.6**.

Table 7.6: Targets and achievements in respect of immunisation during 2016-22

Name of the vaccine	Targets	Achievements	Percentage achievement
BCG	13,49,948	11,63,547	86
OPV	13,49,948	11,03,997	82
PV	13,49,948	12,66,294	94
IPV	13,49,948	11,82,179	88
Hep-B	13,49,948	9,65,036	71
DPT-B	13,49,948	11,89,786	88
Measles	13,49,948	12,27,857	91
DPT-5	16,29,913	10,41,292	64
TT-10	15,44,128	8,70,332	56
TT-16	17,15,698	6,83,410	40

(Source: Information furnished by the Directorate of Family Welfare, MCH and Immunisation, J&K)

The lowest achievement was in respect of providing doses of TT-16 and highest in respect of PV. Further, the average achievement in respect of Rotavirus Vaccine was 64 *per cent* during 2019-22.

In five out of the six selected Districts (in Ramban District targets were not recorded) Audit observed that:

- BCG, OPV, PV, IPV, DPT-B and Measles were administered in excess of targets fixed during 2016-2022.
- Achievement in respect of Hep-B, DPT-5, TT-10 and TT-16 was 92, 89, 58 and 43 *per cent* respectively during 2016-2022.
- The Rotavirus Vaccine was also administered in excess of targets fixed during 2019-22.

Vitamin A is an important micronutrient for maintaining normal growth, regulating cellular proliferation and differentiation, controlling development and maintaining visual and reproductive functions. Vitamin A with two mega doses each year for children between nine months to five years of age was required to be provided. Audit observed that:

i) There was 12 *per cent* increase in administering Vitamin-A to children during 2016-2021. However, it had declined by eight *per cent* during 2021-22 with the result that there was shortfall of 20 *per cent* in achieving the target fixed for the year 2021-22.

ii) In five out of the six selected Districts (in Ramban District targets were not recorded) there was shortfall ranging between one *per cent* and 12 *per cent* against targets fixed during 2016-2022.

The Financial Advisor and CAO NHM, J&K stated (December 2023) that due to non-availability of rate contract of Vitamin A with JKMSCL, the procurement of Vitamin A got delayed.

7.2.5 Family Planning

The National Family Planning Programme aims to provide eligible couples with information and guidance on family planning methods and services available, to ensure individuals and couples lead a healthy, happy and prosperous life. Methods of contraception include oral contraceptive pills, implants, injectables, intra uterine devices, condoms, male and female sterilisation etc. Permanent methods of family planning are female sterilisation (Tubectomy or Tubal ligation) and male sterilisation (Vasectomy).

Targets in respect of male/ female sterilisation set for the years 2016-17 to 2021-22 and achievements thereagainst are given in **Table 7.7**.

Table 7.7: Achievement against targets for male/ female sterilisation during 2016-2022

Year	Male Sterilisation (Vasectomy)		Female Sterilisation (Tubectomy/ Laparoscopy)	
	Target	Achievement	Target	Achievement
2016-17	6,015	437 (7)	24,060	13,102 (54)
2017-18	6,348	340 (5)	25,394	10,479 (41)
2018-19	6,532	361 (6)	26,127	9,616 (37)
2019-20	397	271 (68)	10,577	7,667 (72)
2020-21	397	99 (25)	10,577	5,976 (56)
2021-22	397	122 (31)	24,810	8,774 (35)

(Source: Figures furnished by State Health Society)

Percentage achievement under Vasectomy was very poor ranging between five *per cent* and seven *per cent* during 2016-19. However, the percentage achievement under Vasectomy was improved during the period 2019-22 and ranged between 25 *per cent* and 68 *per cent*. Similarly, in respect of Tubectomy, percentage achievement increased from 54 *per cent* to *72 per cent* during 2016-20 and thereafter decreased to 35 *per cent* during 2021-22. Audit observed that H&MED significantly reduced the targets for 2019-20 but still failed to achieve 100 *per cent* targets. The Deputy Director (E&S), Family Welfare MCH and Immunisation J&K stated (September 2023) that the targets were reduced as these were excessively set using faulty methods and without accurately assessing the actual achievements during these years.

In five out of six selected Districts (in Ramban District targets were not recorded), percentage achievement under Vasectomy was very poor ranging between one *per cent* and 14 *per cent* whereas in respect of Tubectomy, achievement ranged between

18 *per cent* and 77 *per cent* during 2016-2022. There was nil achievement under Vasectomy in respect of Ganderbal District during 2016-21.

7.2.6 Birth spacing

Intrauterine devices (IUD), oral contraceptive pills and condoms are three main contraceptive methods of family planning to help birth spacing. Audit observed the following:

i) Achievement under distribution of oral contraceptive pills and condoms was satisfactory against targets fixed.

ii) In respect of IUD, during 2016-2019 achievement was low against targets ranging between 29 *per cent* and 47 *per cent.* Targets in respect of IUD were reduced by 68 *per cent* from 44,535 in 2018-19 to 14,098 in 2020-21, but the targets could still not be fully achieved as percentage achievement ranged between 57 *per cent* and 88 *per cent.* After targets were again increased during 2021-22, achievement was mere 28 *per cent*. No reasons were on record for reduction of targets under IUD.

Similarly, in five out of six selected Districts (in Ramban District targets were not recorded) achievement against targets in respect of IUD was low ranging between 27 *per cent* and 53 *per cent* during 2016-2022.

7.2.7 Rashtriya Bal Swasthya Karyakram

Rashtriya Bal Swasthya Karyakram (RBSK) is a programme to improve overall quality of life of children and provide them comprehensive healthcare. The programme involves screening of children from birth to 18 years of age for four Ds - Defects at birth, Diseases, Deficiencies and Development delays spanning 32 common health conditions for early detection and free treatment and management including surgeries at tertiary level.

Targets fixed under RBSK and achievements thereagainst in the State/ UT during 2016-2022 are detailed in **Table 7.8**.

Table 7.8: Achievement against targets fixed under RBSK in the State/ UT during 2016-2022

Year	Targets			Achievements			Children found positive for identified health conditions (0-18 years)	Children referred to CHC/DH/ Tertiary care institutions
	0-6 weeks	6 weeks to 6 years	6 years to 18 years	0-6 weeks	6 weeks to 6 years	6 years to 18 years		
2016-17	2,29,000	6,94,600	16,66,920	42,898 (19)	8,17,073	12,54,241 (75)	2,41,977	1,67,829
2017-18	2,29,000	6,94,600	16,66,920	57,736 (25)	8,82,640	14,39,259 (86)	3,01,043	1,92,111
2018-19	2,29,000	6,94,600	16,66,920	89,594 (39)	10,41,289	15,84,804 (95)	2,78,696	1,99,662
2019-20	2,29,000	6,94,600	16,66,920	64,140 (28)	8,75,514	11,96,436 (72)	2,16,258	1,55,857
2020-21	2,06,100	6,25,140	15,00,228	1,37,134 (16)		1,35,205 (9)	15,083	11,053
2021-22	2,06,100	6,25,140	15,00,228	1,17,196 (14)		3,44,169 (23)	74,331	59,619
Total								**7,86,131**

(Source: Figures furnished by State Health Society)

Audit observed that

i) Achievement regarding children screened in the age group 0-6 weeks was low ranging between 19 *per cent* and 39 *per cent* during 2016-20.

ii) In age group of 6-18 years, achievement was 72 *per cent* to 95 *per cent* during 2016-20. Though, there was low achievement in 2020-21, the achievement further increased to 23 *per cent* during 2021-22.

iii) 7,86,131 children were referred to CHC/ DH/ tertiary care institutions for advanced treatment during 2016-22.

Poor performance, particularly in the age group 0-6 weeks, was due to non-availability of trained staff of delivery points in comprehensive newborn screening and ASHAs under Home Based Newborns Care (HBNC) programme which was indicative that the objectives of the programme were not achieved. The achievements under 0-6 weeks and six weeks to six years were merged in 2020-21 and 2021-22 for which no reasons were on record.

The Director (P&S) State Health Society, J&K stated (September 2023) that the screening of children in the age group of six weeks to six years at *Anganwadi* Centres and 6 years to 18 years at Govt. and Govt. aided schools was affected due to COVID-19 pandemic.

The Financial Advisor and CAO NHM, J&K stated (December 2023) that children in the age group of 0-6 weeks are screened under the scheme through Comprehensive Newborn Screening at delivery points by existing staff of the health facilities.

In the six sampled Districts, Audit observed the following:

i) Achievement of children screened in the age group 6 to 18 years ranged between 11 *per cent* and 76 *per cent* during 2016-22.

ii) No targets were fixed by Anantnag, Udhampur and Jammu Districts in respect of age group 0-6 weeks during 2016-2022.

7.2.8 Accredited Social Health Activists

Accredited Social Health Activist (ASHA) is a trained female health activist in the community who creates awareness on health and its social determinants and mobilises the community towards local health planning and increased utilisation and accountability of existing health services. ASHA mobilises and facilitates the community in accessing health and health-related services available at various health institutions. As per the guidelines of ASHA issued in 2006, there should be one ASHA for a population of 1,000.

Audit observed that:

i) Against the cumulative target of engagement of 13,236 ASHA workers, 12,850 ASHA workers were in position in the State/ UT as of March 2022. In the six sampled Districts, there was 93 *per cent* to 99 *per cent* availability of ASHA workers.

ii) Capacity building of ASHA is critical in enhancing her effectiveness and to equip her with necessary knowledge and skills. About 88 *per cent* ASHAs were provided with the prescribed four rounds of training in the UT of J&K whereas in the six sampled Districts, 87 to 100 *per cent* ASHAs were provided the requisite training as of March 2022.

Further, ASHAs are responsible for facilitation of ante-natal checkups and for accompanying the mothers to the health institutions for treatment/ admission.

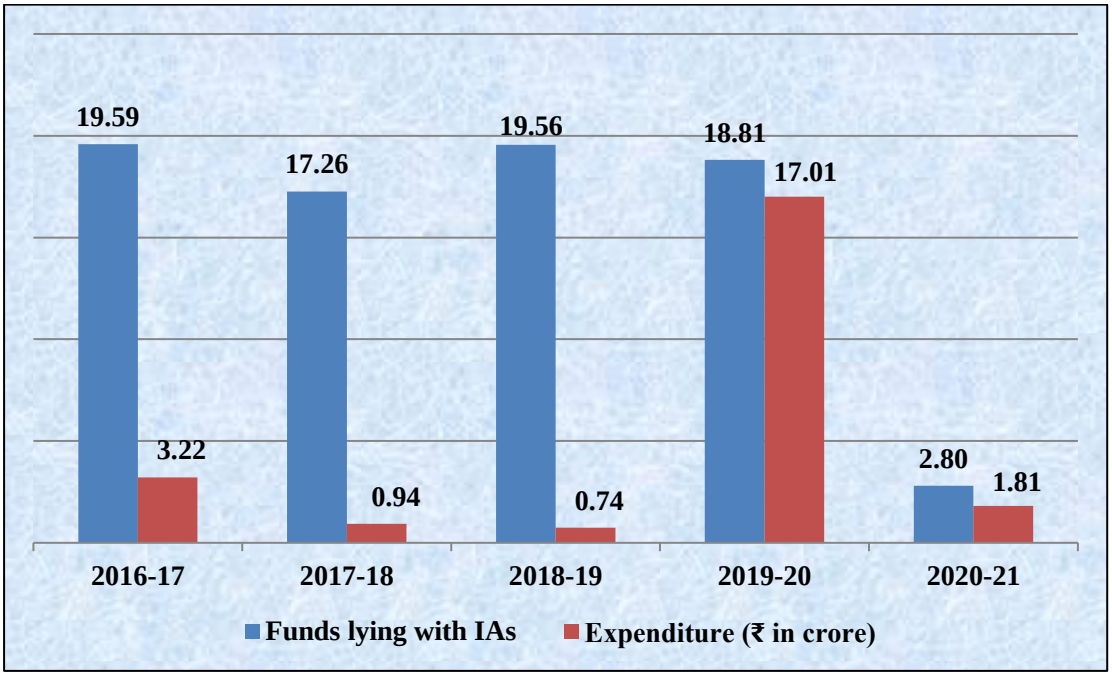
Audit observed that during 2016-2022, only 54 *per cent* to 75 *per cent* of women who gave birth at health institutions were accompanied by ASHAs whereas in the six sampled Districts the percentage ranged between 62 *per cent* and 87 *per cent* indicating that the assigned responsibilities have not been effectively performed by ASHAs despite the fact that there were sufficient number of trained ASHAs.

7.2.9 National Mental Health Programme

The objective of Mental Health Programme is to provide mental health services including preventive, promotion, and long-term continuing care at different levels of

District level health care system. The details of funds lying with the implementing agencies (IAs) *vis-a-vis* expenditure incurred on NMHP during the period 2016-21 is shown in **Chart 7.1**.

Chart 7.1: Funds lying with the implementing agencies and expenditure under NMHP in the State/UT of J&K



(Source: Information supplied by National Health Mission, J&K)

Audit observed that despite availability of funds during the years 2016-17 to 2018-19, the expenditure incurred ranged between 04 and 16 *per cent* only. The utilisation of funds improved during 2019-20 and it was 65 *per cent* in 2020-21.

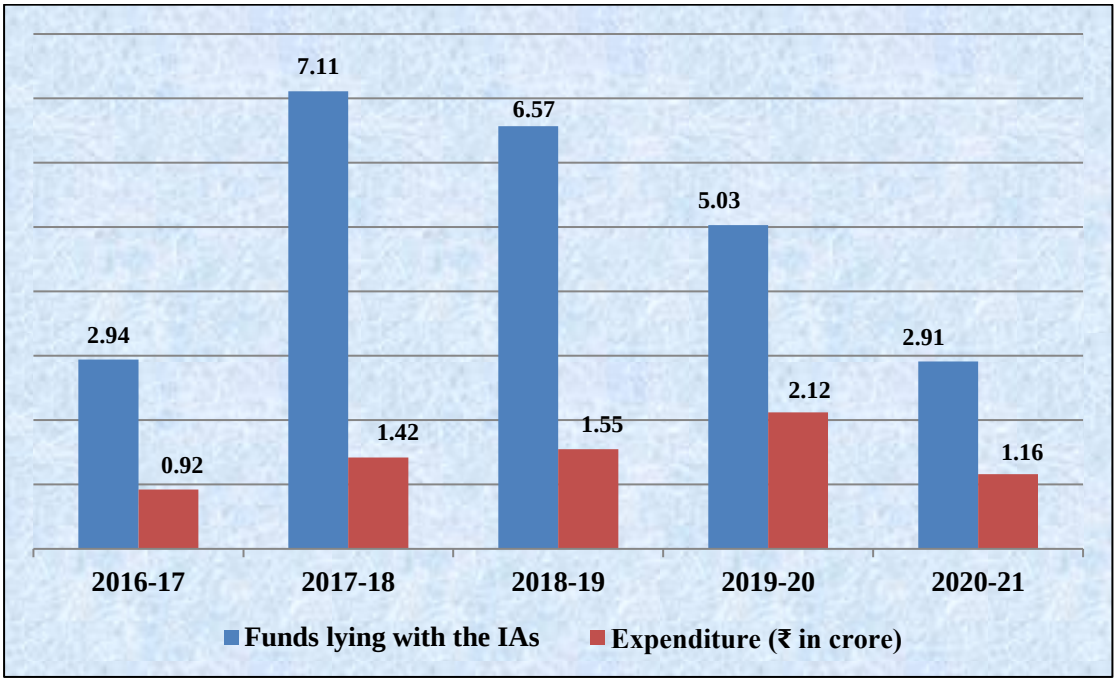
The Financial Advisor and CAO NHM, J&K stated (December 2023) that the District Mental Health Programme (DMHP) was not fully functional and the activities sanctioned under the programme could not be performed within the scheduled time.

7.2.10 National Programme for Healthcare for the Elderly (NPHCE)

The National Programme for Healthcare for the Elderly (NPHCE) is an articulation of the International and National commitments of the Government as envisaged under the UN Convention on the Rights of Persons with Disabilities (UNCRPD), National Policy on Older Persons (NPOP) adopted by the Government of India in 1999 and Section 20 of "The Maintenance and Welfare of Parents and Senior Citizens Act, 2007" dealing with provisions for medical care of Senior Citizens.

The details of funds lying with the IAs and expenditure incurred on National Programme for Healthcare for the Elderly (NPHCE) in the State/ UT of J&K during the period 2016-17 to 2020-21 is shown in **Chart 7.2**.

Chart 7.2: Funds lying with the IAs and expenditure under NPHCE in the State/UT of J&K



(Source: Information supplied by National Health Mission, J&K)

Audit observed that during the years 2016-17, 2017-18, 2018-19, 2019-20 and 2020-21, the expenditure incurred was 31 *per cent*, 20 *per cent*, 24 *per cent*, 42 *per cent* and 40 *per cent* respectively. Keeping in view the increasing life expectancy, a focused approach needs to be adopted for geriatric care.

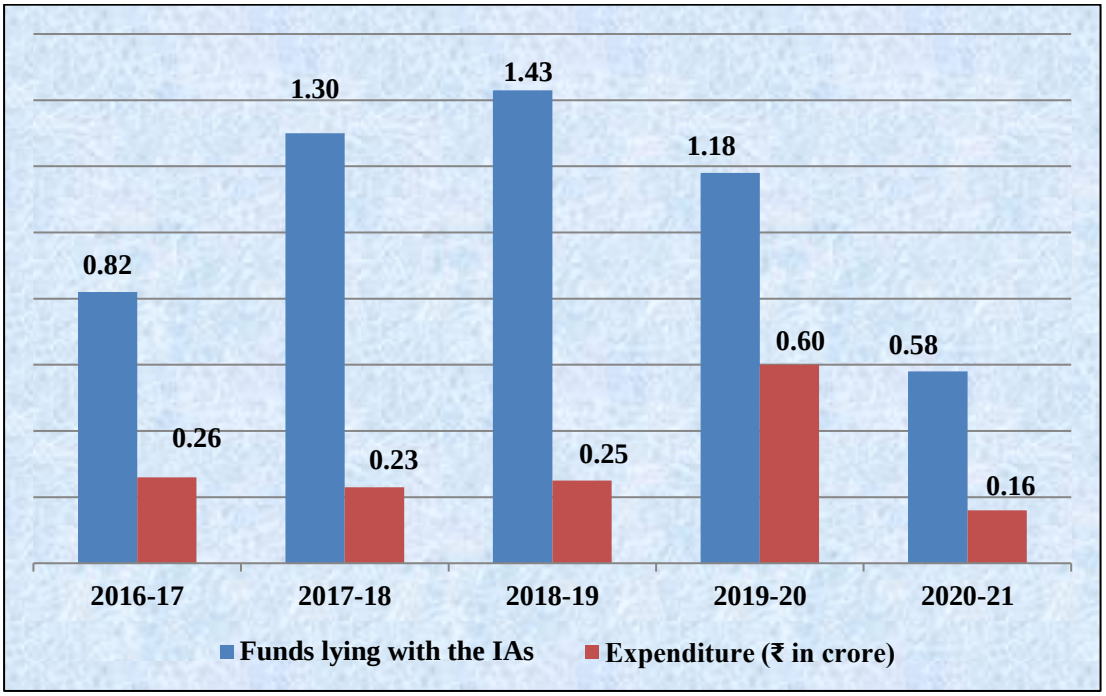
The Financial Advisor and CAO NHM, J&K stated (December 2023) that due to shortage of manpower, the funds sanctioned under salaries head remained unutilised and the activities could not be performed to optimal level.

7.2.11 National Tobacco Control Programme (NTCP)

Government of India launched the National Tobacco Control Programme (NTCP) in the year 2007-08, with the aim to - (i) create awareness about the harmful effects of tobacco consumption; (ii) reduce the production and supply of tobacco products; (iii) ensure effective implementation of the provisions under "The Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003" (COTPA); (iv) help the people quit tobacco use; and (v) facilitate implementation of strategies for prevention and control of tobacco advocated by WHO Framework Convention of Tobacco Control.

The details of funds lying with the IAs and expenditure incurred on National Tobacco Control Programme (NTCP) is shown in **Chart 7.3**.

Chart 7.3: Funds lying with the IAs and expenditure under NTCP in the State/UT of J&K



(Source: Information supplied by National Health Mission, J&K)

Audit observed that due to low absorptive capacity of the Department to spend the allotted funds, the Department was unable to utilise the available funds during the years 2016-17 to 2020-21 which ranged between 17 *per cent* and 51 *per cent*.

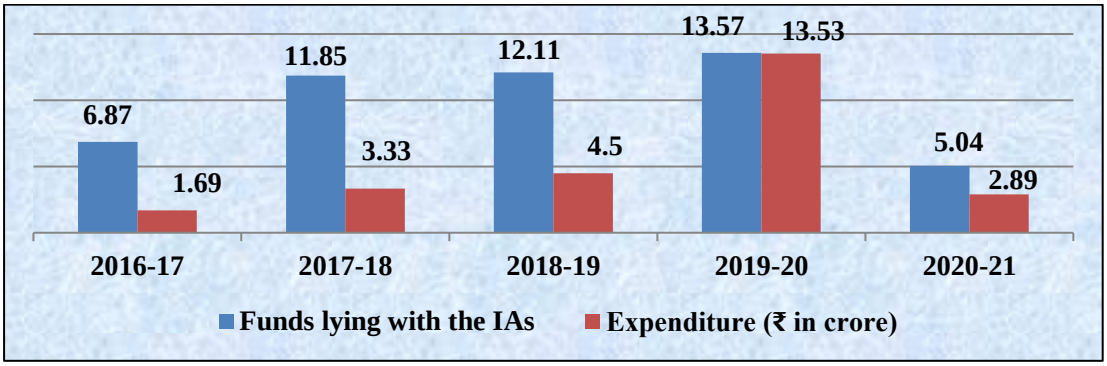
The Financial Advisor and CAO NHM, J&K stated (December 2023) that initially the processing of the funds approved was slow and moreover, the Tobacco Cessation Centres were established in all Districts during 2019-20. Due to COVID-19 pandemic during 2020-21, the activities could not be performed as a result of which the funds remained unutilised.

7.2.12 National Programme for Control of Blindness

The National Programme for Control of Blindness (NPCB) was launched in the year 1976 as a 100 *per cent* centrally sponsored programme with the goal of achieving a prevalence rate of 0.3 *per cent* of the population. The four-pronged strategy of the programme is strengthening service delivery, developing human resources for eye care, promoting outreach activities and public awareness and developing institutional capacity.

The details of funds lying with the IAs and expenditure incurred on National Programme for Control of Blindness (NPCB) in the State/ UT of J&K during the period 2016-17 to 2020-21 is shown in **Chart 7.4.**

Chart 7.4: Funds lying with the IAs and expenditure under NPCB in the State/UT of J&K



(Source: Information supplied by National Health Mission, J&K)

Audit observed that there was inconsistency in utilisation of funds under National Programme for Control of Blindness (NPCB) during the period 2016-21 which ranged between 25 *per cent* and 100 *per cent.*

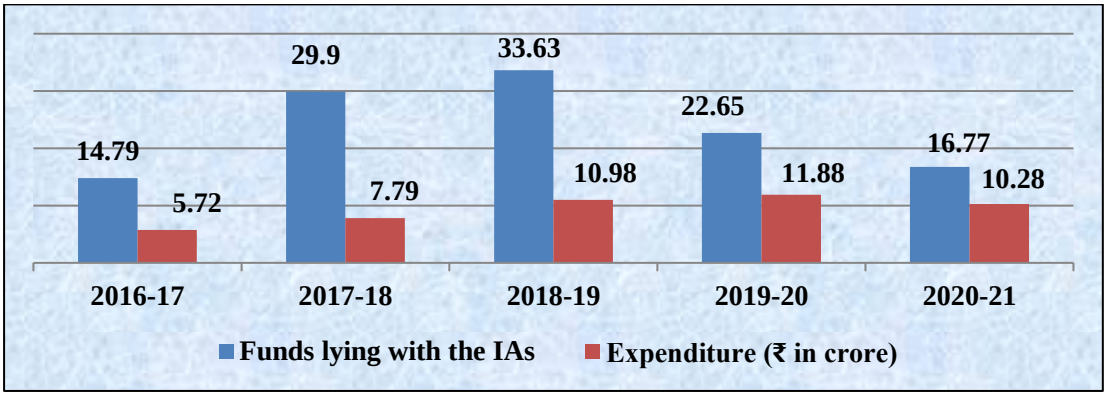
The Financial Advisor and CAO NHM, J&K stated (December 2023) that the processing of funds approved for construction of eye OTs at various DHs was slow and the work was completed for these eye OTs in 2022-23. Moreover, during COVID-19 pandemic all the cataract surgeries and distribution of spectacles was halted.

7.2.13 National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke

The Non-Communicable Diseases (NCD) like Cardiovascular diseases, Cancer, Chronic Respiratory Diseases, Diabetes etc. are estimated to account for around 60 *per cent* of all deaths. In order to prevent and control major NCDs, the National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke (NPCDCS) was launched in 2010 with focus on strengthening infrastructure, human resource development, health promotion, early diagnosis, management and referral.

The details of funds lying with the IAs and expenditure incurred on NPCDCS by the NHM, J&K during the period 2016-17 to 2020-21 is shown in **Chart 7.5**.

Chart 7.5: Funds lying with the IAs and expenditure under NPCDCS in the State/UT of J&K



(Source: Information supplied by National Health Mission, J&K)

Audit observed that during the years 2016-17, 2017-18, 2018-19, 2019-20 and 2020-21, the utilisation of funds was 39 *per cent*, 26 *per cent*, 33 *per cent*, 52 *per cent* and 61 *per cent* respectively which indicated that the Department failed to utilise the available funds.

The Financial Advisor and CAO NHM, J&K attributed (December 2023) reasons for low expenditure to delay in release of funds for various approved activities, non-availability of rate contract with JKMSCL and COVID-19 pandemic.

7.3 National AIDS and STD Control Programme

National AIDS and STD Control Programme (NACP) was launched by GoI in the year 1992. Phase I of NACP (1992-1999) focused on awareness generation and blood safety. Phase II (1999-2007) witnessed launch of direct interventions across the prevention-detection-treatment continuum with capacity building of States on programme management. Phase III (2007-2012) was the story of scale-up with programme management decentralised up to the District level. Phase IV (2012-2017) was a period of consolidation and enhanced government funding. Phase IV (Extension) of NACP was first approved for the period 2017-2020 and then extended up to 2020-21.

Targeted Intervention (TI) is one of the main components under NACP-IV. The programme is designed to reduce the rate of HIV transmission among the core group such as Female Sex Workers (FSWs), Men having Sex with Men (MSM), Injecting Drug Users (IDUs) and bridge population like migrants and truckers. The TI programme is being implemented through Community Based Organisations (CBOs), Non-Government Organisations (NGOs) and various government Departments. For implementation of the programme, funds are being placed at the disposal of CBOs, NGOs and Drawing and Disbursing Officers (DDOs).

Audit observed that detailed accounts/ Utilisation Certificates (UCs) in respect of funds released under NACP were outstanding against CBOs/ NGOs/ DDOs as of March 2022 as detailed in **Table 7.9**.

Table 7.9: Amounts for which Utilisation Certificates outstanding against CBOs/ NGOS/ DDOs

(₹ in lakh)

Particulars	Outstanding ending					
	March 2017	March 2018	March 2019	March 2020	March 2021	March 2022
CBOs/ NGOs/ DDOs	34.53	80.66	173.73	175.05	212.01	260.45

(Source: Data furnished by Chief Accounts Officer, AIDS Control Society, J&K)

The **Table 7.9** indicates that detailed accounts/ UCs outstanding against CBOs/ NGOs/ DDOs had increased eight times from ₹ 34.53 lakh in March 2017 to ₹ 260.45 lakh in March 2022.

The Assistant Director (Finance) J&K State AIDS Control Society stated (September 2023) that the expenditure was booked only after receipt of red[5] accounts/ utilisation from the District authorities and other agencies. Due to this there were unutilised funds at the end of the financial year. It was further stated that the last instalment was mostly received from NACO during the last week of March every year and it was not possible to utilise the funds without completion of codal formalities.

Further, the Information, Education and Communication (IEC) component of NACP played a great role in bringing awareness among the general population and helped in removing stigma and discrimination associated with AIDS. Audit noticed shortfall in achievement of some of the targets under IEC as depicted in **Table 7.10**.

Table 7.10: Shortfall in achievement of targets under IEC component of NACP

Name of the activity	2016-17		2017-18		2018-19		2019-20		2020-21		2021-22	
	T	A	T	A	T	A	T	A	T	A	T	A
Exhibition/Innovation (*number*)	-	-					10	8	Nil	9	-	-
Adolescent Education Programme (*number*)	500	322	500	100	700	400	400	300	450	250	200	200
Out of School Youth Programme (*number of programmes*)	2	2	22	7	-	-	40	26	30	30	20	20
Mainstreaming trainings (*persons sensitisation*)	1,500	1,500	3,280	3,280	3,431	3,431	1,210	1,080	4,800	830	1,720	1,680
Red Ribbon Clubs[6] in Colleges & Universities (*Number*)	116	116	24	4	150	142	8	8	94	94	30	30

(T: Targets; A: Achievements)
(Source: Information furnished by JKACS)

Audit observed that there was significant reduction in targets during the year 2021-22 due to outbreak of COVID-19 and IEC programmes being in the nature of outdoor activities. The fixed targets were, however, mostly achieved during 2021-22. Moreover, no targets were fixed in respect of exhibition/ innovation during the years 2016-17 to 2021-22 except for the year 2019-20. However, there was satisfactory progress in respect of spread of awareness through electronic media such as TV, Radio, Website etc.

The Assistant Director (Publicity), J&K AIDS Control Society attributed (September 2023) shortfall in achieving targets to outbreak of COVID-19, lack of timely necessary approvals, procedural/ administrative delays and non-availability of budget at that particular time. It was further stated that reduction or addition in the targets of IEC is not merely based on achievements of the previous years but also based

[5] Detailed contingent bills
[6] Red ribbon club is a movement started by GoI in educational institutions for awareness of AIDS.

on discussions during the formulation of Annual Action Plans, availability of funds and the need of that particular activity at regional level.

7.4 Conclusion

Various inconsistencies were noticed in implementation of Centrally Sponsored Schemes. Cash compensation under JSY was not provided to all the beneficiaries. There was shortage in availability of essential drugs and consumables under JSSK. The targets under Immunisation were not fully achieved. Besides this, achievement against the fixed target for sterilisation and spacing methods (IUD) was significantly low. The achievements against the targets fixed for screening of infants in the age group 0-6 weeks under RBSK was very poor. The targets under IEC component of NACP were not fully achieved.

7.5 Recommendations

In light of the audit findings, GoJ&K may consider;

- ***Disbursement of incentive to all the beneficiaries under JSY for effective implementation of the scheme;***
- ***Providing adequate essential drugs and consumables under Janani Shishu Suraksha Karyakram;***
- ***Prioritising immunisation of children of all age groups;***
- ***Conducting awareness programmes and holding camps to create awareness amongst the population of sterilisation and spacing methods; and***
- ***Prioritising screening of infants under RBSK.***

CHAPTER-VIII

ADEQUACY AND EFFECTIVENESS OF REGULATORY MECHANISMS

CHAPTER-VIII

Adequacy and effectiveness of regulatory mechanisms

National Health Accounts[1] (NHA) is a tool to describe health expenditures and flow of funds in both Government and private sector in the country. Focus of NHA is on describing (1) entities[2] that provide resources to spend for health goods and services in the health system; (2) entities[3] receiving and managing funds from financing sources to pay for or to purchase health goods and services; (3) entities[4] receiving finances to produce/ provide health goods and services; and (4) use of funds across various health care services[5].

Expenditure on healthcare services is incurred through the Government sector as well as the private sector. However, the role of Government is not limited to Government Hospitals but also includes regulation of the private sector hospitals, clinics, pharmacies, etc. in the healthcare sector. Therefore, the existence of a regulatory mechanism is important to protect healthcare consumers from health risks, provide a safe working environment for healthcare professionals and to ensure public health and welfare provided through health programmes.

Regulatory agencies thus monitor individual and corporate healthcare practitioners and facilities, inform the Government about changes in the way the healthcare industry operates, ensure that higher safety standards and local, State and federal guidelines are followed and attempt to improve healthcare quality. With a view to check the adequacy and effectiveness of the regulatory mechanisms, implementation of the following acts/rules have been analysed in audit:

- The Drugs and Cosmetics Act, 1940 and Rules, 1945.
- The Clinical Establishments (Registration and Regulation) Act, 2010 and Rules, 2020.
- Bio Medical Waste (BMW) Management Rules, 2016.
- Atomic Energy (Radiation Protection) Rules, 2004.

---

1 National Health Accounts (NHA) estimates for India for Financial Year 2018-19 released in the year 2022.

2 (a) Union Government: 11.71 *per cent;* (b) State Government: 19.63 *per cent* (c) Local Bodies: 1.01 *per cent* (d) Enterprises: 5.51 *per cent;* (e) Household Revenues: 60.11 *per cent* and (f) Others: 2.03 *per cent.*

3 (a) Union Government: 11.30 *per cent* (b) State Government: 14.27 *per cent;* (c) Local Bodies: 2.84 *per cent;* (d) Government Health Insurance (GHI): 6.04 *per cent;* (e) Private Health Insurance: 7.25 *per cent;* (f) Other Schemes: 5.07 *per cent* and (g) Out of Pocket Expenditure: 53.23 *per cent.*

4 (a) Providers of Preventive Care: 5.34 *per cent;* (b) Government Hospitals: 17.34 *per cent;* (c) Others: 2.49 *per cent;* (d) Private Hospitals: 28.69 *per cent;* (e) Patient Transport: 3.50 *per cent;* (f) Government Clinics: 7.75 *per cent;* (g) Private Clinics: 4.37 *per cent*; (h) Diagnostic Labs: 3.92 *per cent;* (i) Pharmacies: 22.60 *per cent;* and (j) Administrative Agencies: 4.00 *per cent.*

5 (a) Governance and Administration: 3.96 *per cent;* (b) Preventive Care: 9.44 *per cent;* (c) Other functions: 3.03 *per cent;* (d) Pharmaceutical and other medical goods: 22.49 *per cent;* (e) Patient transport: 3.50 *per cent;* (f) Inpatient Curative Care: 34.55 *per cent;* (g) Outpatient Curative Care: 18.86 *per cent;* and (h) Lab and Imaging: 4.17 *per cent.*

8.1 The Drugs and Cosmetics Act, 1940 and Rules, 1945

One of the main interventions of GoJ&K is to achieve its public health objectives by ensuring that drugs available to the public are safe, efficacious and conform to the prescribed quality standards. Drug control is the only tool to ensure availability of drugs of the highest quality and purity. In order to provide safe, effective and quality drugs, the State Drug Controller (SDC) under Drugs and Food Control Organisation (D&FCO) is responsible for effective implementation of The Drugs and Cosmetics (D&C) Act 1940, and D and C Rules, 1945.

As of March 2022, there were 14,945 retail outlets, 7,129 wholesale drug premises and 84 manufacturing units. In addition, two drug testing laboratories at Srinagar and Jammu were also functioning in the UT of J&K.

8.1.1 Licensing of pharmacies

Section 18(c) of D&C Act, 1940 prohibits manufacture for sale or for distribution or sale of any drug except in accordance with the conditions of a licence issued for such purpose.

Audit noticed that during 2016-22, 160 unlicensed drug shops/ manufacturing units were detected during 1,01,217 inspections conducted by D&FCO.

The State Drugs Controller stated (January 2025) that the matters/ complaints as referred to Hon'ble courts are pending adjudication at different stages vis. Summons/ framing of charges/ under trial.

8.1.2 Shortcomings in drug testing

Rules 51 and 52 of the D&C Rules, 1945 authorise the Inspector to inspect any premises, take samples, send samples for testing or analysis and institute prosecution in respect of breaches of the Act or Rules thereunder. Audit noticed that:

- No targets for inspections were fixed during 2016-2022.
- During 2016-22, 21,832 samples were lifted in the UT in the course of 1,01,217 inspections and in the six selected Districts, 8,422 samples were lifted during 42,417 inspections.
- Out of 21,832 samples lifted, 20,451 samples were received for testing during 2016-22 against which 20,044 (98 *per cent*) samples were tested in the two provincial drug testing laboratories and 548 (about 3 *per cent*) samples were found 'Not of Standard Quality (NOSQ)'. However, after the manufacturers filed appeal for retesting of samples, 21 samples were sent for retesting to Central Drug Testing laboratory (CDTL), Kolkata and all were declared to be of Standard Quality.

On being pointed out in audit, the State Drugs Controller stated (October 2023) that the samples received do not include 1,381 samples which were referred to the Drug Testing Laboratories located outside UT of J&K and the clearance of backlog of 407 samples is a continuous process. It was also stated (August 2023) that the difference in the opinion of the analysts of the laboratories of UT/ CDTL, Kolkata can be attributed to calibrations, instrumental errors, separation techniques as also lack of acumen to test special categories of drug molecules.

The State Drugs Controller stated (January 2025) that the constraints of testing facility have been addressed to a larger extent by way of upgradation of two existing Drug Testing Laboratories and establishment (March 2024) of new 'Modern Drug Testing Laboratory' at Kathua.

Audit further observed that H&MED had not devised any mechanism under which samples were to be referred to SDC for testing on a regular basis. Instead the samples were lifted by SDC for testing on random basis or on complaint basis.

Rule 51(5) of the D&C Rules, 1945 empowers the Inspector to initiate prosecutions in respect of breaches of the Act and Rules thereunder.

As of March 2016, 466 cases were pending in the courts. During 2016-22, 244 prosecutions were launched and 121 cases were decided by the courts. The pending cases thus increased by 26 *per cent* (589 cases) ending March 2022. The conviction percentage in prosecution cases was a mere 23 *per cent* (56 cases) during 2016-22. In the six selected Districts, the conviction percentage was only 12 *per cent* (11 cases) in respect of 90 prosecution cases during 2016-22.

Low percentage of conviction indicated that the Department had failed to prove the breaches of the Act and Rules thereunder beyond all reasonable doubt.

8.1.3 Testing of medical devices

Medical Devices Rules, 2017 defines Medical devices as substances used for *in vitro* diagnosis and surgical dressings, surgical bandages, surgical staples, surgical sutures. ligatures, blood and blood component collection bag with or without anticoagulant, mechanical contraceptives (condoms, intrauterine devices, tubal rings), disinfectants, insecticides etc. For quality control and price monitoring, medical devices were brought under Government regulation as drugs with effect from April 2020.

Rule 18(1) of the Medical Device Rules (MDR), 2017 notified (January 2017) by Ministry of Health and Family Welfare under Drugs and Cosmetic Act, 1940 provides for designation of Medical Device Testing Officer (MDTO) by the Central Government and Rule 18 (2) provides for designation of Medical Device Officer (MDO) by the Central Government or, as the case may be, the State Government. Accordingly, H&MED designated (April 2018) 27 Drug Inspectors as MDOs after a delay of over a year. The SDC, D and FCO had taken up (June 2022) the matter for nomination of

MDTOs with the Central Drugs Standard Control Organisation and it was stated (August 2022) that the name(s) from the 15 notified MDTOs for the whole of India are to be proposed for the purpose of nomination to be appointed as MDTOs for Jammu and Kashmir at various Central Medical Device Testing Laboratories (CMDTL) with due approval of UT of Jammu and Kashmir. Thereafter, six MDTOs for six CMDTLs were nominated (December 2022) by the SDC, D&FCO, J&K for issue of notification for UT of J&K by GoI. However, Rule 18 (1) of the MDR, 2017 was amended (June 2023) and the State Governments were empowered to notify centrally notified MDTOs. Despite the matter been taken up (June 2023) with H&MED by the SDC, D&FCO, J&K for issue of notification of MDTOs, H&MED failed to take any action (September 2023). Since the notified CMDTLs entertained samples of medical devices only after the State/ UT gets MDTOs working in CMDTLs notified, the delay in issue of notification for nomination of MDTOs resulted in non-lifting of samples by the 27 nominated MDOs for testing by MDTOs. There was as such lack of adequate regulatory control in providing quality medical devices to consumers.

The State Drugs Controller, Drug and Food Control Organisation, Jammu and Kashmir stated (January 2025) that H&MED has notified (June 2024) MDTOs of six Central Medical Device Testing Laboratories for UT of J&K.

8.2 Clinical Establishments Act, 2010 and Rules thereunder

GoI repealed (August 2019) the Jammu and Kashmir Nursing Homes and Clinical Establishments (Registration and Licensing) Act, 1963 by the Jammu and Kashmir Reorganisation Act, 2019. The Central Act viz. The Clinical Establishment (Registration and Regulation) Act, 2010 was implemented in the State/ UT by issue of notification (May 2020) for Jammu and Kashmir Clinical Establishments (Registration and Regulation) Rules, 2020. By the same notification District Registering Authorities (DRA) were established for each District of J&K headed by District Magistrate as Chairperson, Chief Medical Officer as Convener and three other Members.

Prior to establishment of DRAs, the registering authorities were Directors, Health Services, Kashmir and Jammu under Jammu and Kashmir Nursing Homes and Clinical Establishments (Registration and Licensing) Act, 1963.

As per provision of Section 2(c) of the CEA, 2010, clinical establishment means a hospital, maternity home, nursing home, dispensary, clinic, sanatorium or an institution by whatever name called that offers services, facilities requiring diagnosis, treatment or care for illness, injury, deformity, abnormality or pregnancy in any recognised system of medicine established and administered or maintained by any person or body of persons, whether incorporated or not, and shall include a clinical establishment owned, controlled or managed by (a) a Government or a Department of the Government, (b) a trust, whether public or private; (c) a corporation registered under a central, provincial or state act, whether owned by the Government; (d) a local authority; and (e) a single doctor.

8.2.1 Institutional Mechanism

The institutional mechanism including role of National Council/ State Council and District Registration Authority as per Clinical Establishment (Registration and Regulation) Act, 2010 is as under:

National Council

- Classify the Clinical Establishments (CEs) into different categories.
- Develop and recommend minimum standards.
- Collect statistics and information in respect of CEs

State Council

- Compile and update the State Registers of CEs.
- Send monthly returns for updating the National Register
- Hear appeals against the orders of the authority

District Registration Authority

- Registration of CEs and renewal/ cancellation of registration of CEs.
- Inspection of CEs
- Maintenance of data for updating State Register.

Audit observed that even after lapse of over two years since CEs (Registration and Regulation) Rules, 2020 were notified, GoJ&K had not constituted the UT Council as of November 2022 and as such functions assigned to the UT Council remained unattended.

8.2.2 Registration of CEs

DRA is responsible for registration of CEs in a District. The details of CEs in the private sector in the test-checked six Districts as of March 2022 are given in **Table 8.1**.

Table 8.1: Clinical establishments in private sector in selected Districts as of March 2022

Sl No.	Name of the District	Clinics including polyclinics, dental clinics and others	Hospital/nursing homes	Diagnostic Labs
1	Anantnag	0	10	277
2	Ganderbal	23	0	52
3	Jammu	389	43	98
4	Kupwara	25	5	65
5	Ramban	5	1	20
6	Udhampur	63	6	35
	Total	**505**	**65**	**547**

(Source: Information furnished by Convener, District Registration Authority concerned)

The Clinical Establishment Act, 2010 provides for two types of registration (a) provisional registration for which no enquiry is to be done prior to grant of certificate of provisional registration and (b) permanent registration after complying with the prescribed minimum standards. With the implementation (May 2020) of the Central Act of 2010, all the previously issued registration certificates under the Act of 1963 stood cancelled.

Audit observed that:

- No survey was conducted by the DRAs concerned to ascertain the actual number of CEs in the District eligible for registration. As a result, the possibility of CEs operating without registration could not be ruled out. Provisional registration was granted after proprietors of the CEs approached the DRA on voluntary basis for registration of CE. The Chief Medical Officer, Jammu admitted (January 2025) the audit contentions. The Chief Medical Officer, Ramban stated (January 2025) that establishments not registered are being advised to get registered.

- As of November 2022, the system for registration of clinics had not been started in Anantnag District. As such, the number of clinics operating in Anantnag District could not be ascertained.

- Section 22 of the Act envisages that application for renewal of registration shall be made 30 days before expiry of validity of provisional registration. However, no system was in place by which provisional registrations about to expire could be watched by DRAs.

- Section 33 of the Act provides for inspection of registered CEs. As of March 2022, there were 1,117 registered CEs. However, no inspection was conducted by the sampled six DRAs except DRA Ganderbal who had conducted 24 inspections during 2021-22. No targets were fixed for inspections. Instead, the inspections were conducted on random or complaint basis. Due to non-conducting of adequate inspections, the violation of provisions of the Act by the registered CEs remained unnoticed.

- The monthly reports as required under Rule 31 (1) of the CEs (Registration and Regulation) Rules, 2020 were not submitted by the CEs to the three[6] DRAs.

- The DRA for registration of CEs under AYUSH was established (March 2021) after a delay of 10 months of notification of CEs (Registration and Regulation) Rules, 2020. Audit observed that as of December 2022, no CE had been registered in the six selected Districts under AYUSH even after lapse of about 21 months since the Rules were notified. The Director, AYUSH, J&K stated (February 2023) that the process of registration of CEs has been started by DRAs of all Districts. The Chief Accounts

[6] Kupwara, Ramban and Udhampur

Officer, Directorate of AYUSH, J&K stated (January 2025) that 206 CEs have been registered by District Registering Authorities.

8.3 Fixation of rates for delivery of services by private healthcare establishments

Affordability of healthcare is critical to ensure all income groups of the population have access to healthcare. H&MED had accorded (February 2012) sanction for rates to be charged by private CEs/ Nursing Homes/ Hospitals/ Diagnostic Centres from patients for treatment, diagnostic services and other facilities. However, the Hon'ble High Court of J&K in a writ petition (Kashmir Private Hospitals versus State and others) stayed (April 2012) the Government Order. Though the stay was vacated (August 2021) by the Hon'ble High Court of Jammu & Kashmir and Ladakh after a lapse of about nine years, H&MED failed to grant sanction (November 2023) either for the revised rates or for implementing the existing rates. This was indicative of a lackadaisical approach of the Department in dealing with the important issue of fixation of rates, a matter which closely concerns the public.

Absence of Government approved rates and lack of uniformity in rates charged by Healthcare Establishments (HEs) from consumers for various healthcare services had left ample scope for over-charging and profiteering by HEs. Some instances of charging of different rates by different CEs for the same tests are given in **Table 8.2**.

Table 8.2: Rates charged by private CEs *vis-a-vis* rates approved for Government HIs for various tests

(Amount in ₹)

Name of the test	Rates approved (January 2019) by H&MED for Govt. HIs	Rates being charged by private CEs			
		Swastik Diagnostic Laboratory Jammu	Dr Qadri's Hematology Centre and Clinical Laboratory, Srinagar	Medicare Diagnostic Laboratory Udhampur	Excess rate charged by private CEs w.r.t to govt. rates
Complete Blood Count (CBC)	80	170	160	200	2-2.5 times
Erythrocyte Sedimentation Rate (ESR)	10	60	70	70	6-7 times
Urea	20	70	80	80	3.5-4 times
Creatinine	20	70	90	80	3.5-4.5 times
Uric Acid	15	70	80	80	4.5-5.5 times
Liver Function Test	175	450	600	450	2.5-3.5 times
Lipid Profile	120	750	550	400	3.5-6 times
Platelet Count	15	70	120	100	4.5-8 times
Total Protein	15	80	80	50	3-5 times
Serum Amylase	35	220	350	250	6-10 times
Reticulocyte Count	20	170	250	100	5-12.5 times
Blood Sugar-Fasting	Free	35	70	50	
Urine examination	Free	100	70	60	
Stool examination	Free	50	70	60	

(Source: Information provided by the Administrative Department and concerned CMOs)

Disparity in rates of various pathological/ radiological tests was rampant in the UT of J&K. Rates charged by private CEs for pathological tests were two to more than 12 times higher than the rates fixed (January 2019) by H&MED for hospital investigations in Government HIs. Besides different rates were charged by private CEs for the same pathological tests. Private CEs were charging exorbitant rates for tests which were available free in Government HIs.

Further, no Government rates were fixed for consultation fee to be charged by private practitioners/ doctors as confirmed (January 2023) by the CMOs of five[7] out of six selected Districts.

Absence of fixed rates for consultation fee and diagnostic services had a direct bearing on lower income groups of society.

The Director Finance, H&MED, J&K stated (December 2023) that the rate revision will take some time to complete the process to revise the existing rates of private Clinical Establishments/ Nursing Homes/ Hospitals/ Diagnostic Centres.

8.4 Quality Certificate from NABL and NABH

National Accreditation Board of Laboratories (NABL) certificate signifies a ready means for customers to identify and select reliable testing, measurement and calibration services that are able to meet their needs. Accredited laboratories receive a form of international recognition, which allows their data and results to be more readily accepted.

Further, National Accreditation Board for Hospitals and Healthcare Providers (NABH) is a constituent board of Quality Council of India, set up to establish and operate accreditation programme for healthcare organisations. Accreditation results in improved quality of care and patient safety.

Audit noticed that:

- H&MED had framed (September 2012) a time schedule for getting 11 public HIs[8] accredited by NABH by April 2013. However, even after lapse of over nine years, no hospital had got accreditation from NABH. On being pointed out in audit, the Director Finance H&MED, J&K stated (December 2023) that no response has been received from the HODs. Out of 11 HIs, Audit took up the matter with the seven[9] sampled HIs, of which three[10] replied that they had not applied for accreditation. DH Anantnag had transferred an amount of ₹ 11.56 lakh to Quality Council of India in

[10] (i) Govt. Hospital, Gandhi Nagar Jammu (ii) DH Udhampur (iii) SDH Akhnoor

May 2017 as accreditation fee, but further outcome was not available with the DH. Medical Superintendent, Lalla Ded Hospital Srinagar stated (January 2025) that the process of obtaining NABH accreditation has already been taken up with the higher authorities. Medical Superintendent, SMGS Hospital Jammu stated (December 2023) that no application has been moved so far in absence of any directions from higher authorities for accreditation. Medical Superintendent, G.B.Pant Hospital (now Children Hospital) Srinagar stated (December 2023) that this hospital had remitted ₹ six lakh in March 2017 to the Quality Council of India for NABH accreditation. There was however, no communication between both the parties since 2017.

- As of March 2022, out of 373 HIs (DHs: 06; SDHs/ CHCs:28; PHCs:339) in the six test-checked Districts and 94 diagnostic labs in four test-checked Districts (except Districts[11] Anantnag and Ganderbal), no HI/ diagnostic lab in the public sector had been granted accreditation by NABH/ NABL. However, in Jammu District, three Hospitals/ Nursing Homes and three Laboratories in the private sector were granted NABH and NABL accreditation respectively. The Chief Medical Officer Ganderbal and Chief Medical Officer Anantnag stated (January 2025) that accreditation under NABH/ NABL has not been applied as no instructions have been received from higher authorities whereas the CMO, Kupwara stated (September 2023) that none of the hospitals across the District was falling under NABH/ NABL guidelines/ standards. The CMO Udhampur and CMO Jammu stated (January 2025) that no directions have been received from higher authorities for obtaining the NABH and NABL accreditation. The CMO Ramban stated (January 2025) that matter shall be taken afresh with the authorities in the light of audit observation.

Even though the NABH/ NABL accreditation is voluntary, the fact also remains that absence of accreditation results in lack of assurance of high standards of care and patient safety to the public.

The Combined Food and Drug Laboratory, Jammu was granted Certificate of Accreditation (January 2022) for a period of two years.

8.5 Bio-Medical Waste Management

The Bio-Medical Waste (BMW) Management Rules, 2016 stipulate the procedures for collection, handling, transportation, disposal and monitoring of BMW with clear roles for waste generators and Common BMW treatment facilitators (CBMWTF).

8.5.1 Grant of authorisation

In terms of Rule 10 of BMW Rules, every occupier or operator handling BMW, irrespective of the quantity is required to obtain authorisation from the State Pollution Control Board and Pollution Control Committee, as the case may be. Audit however

[11] Information not furnished by the CMOs Anantnag and Ganderbal

noticed that:

- During January 2017 to December 2022, 6,257 HIs had applied for authorisation, out of which authorisation was granted to 3,689 HIs by the J&K Pollution Control Committee[12] (JKPCC). Reasons for non-granting of authorisation included incomplete documents and unsatisfactory BMW management practices. Information for the year 2016 was not available with JKPCC.

- All the seven test-checked Tertiary Level Hospitals (TLHs) had applied for authorisation for handling BMW as of March 2021. However, none of the test-checked TLHs had been granted authorisation as of March 2024. Out of the six selected DHs, only four[13] DHs had applied for authorisation whereas two[14] DHs had not applied for authorisation. Authorisation was obtained by DH Jammu. Similarly, out of the selected 28 SDHs/ CHCs, 14 SDHs/ CHCs had applied for authorisation whereas nine[15] SDHs/ CHCs had not applied for authorisation. The authorisation in respect of remaining five[16] SDHs was not granted due to technical issues like revenue papers of the site and other observations raised by JKPCC. Out of 52 selected PHCs, only 10 PHCs had applied for authorisation. However, the authorisation has not been granted as of March 2024.

- There was no system by which expiry of authorisation could be watched by the Jammu & Kashmir Pollution Control Committee for necessary action for their renewal. Audit noticed an instance where the authorisation granted in respect of SDH Bishnah expired in November 2020. However, in absence of any system for watching of expired authorisation, the HI applied for renewal only in July 2022.

8.5.2 Constitution of Advisory Committee

Rule 11 of BMW Rules, 2016 provides for constitution of an Advisory Committee under the Chairmanship of the Health Secretary. The Advisory Committee shall meet at least once in six months and review all matters related to implementation of the provisions of these rules. Audit observed that:

- Advisory Committee re-constituted (July 2017) in the UT of J&K had conducted five (2018-19: one; 2019-20: four) meetings. Information regarding meetings conducted in 2016-17, 2017-18 and 2020-21 was not available with JKPCC. The information regarding number of Advisory Committee meetings conducted during 2016-22 was not available with H&MED.

---

12 Jammu & Kashmir Pollution Control Committee came into existence vide notification dated 25th March 2021 of the Central Pollution Control Board

13 DHs Anantnag, Ganderbal, Jammu and Udhampur

14 DH Handwara and DH Ramban

15 CHC Sohanjana, CHC Jourian, CHC Khour, SDH Jagti, SDH R.S.Pura, SDH Langate, CHC Kralpora, CHC Gool and CHC Batote

16 SDHs Dooru, Bijbehara, Seer Hamdan, Shangus and Kokernag

8.5.3 Constitution of District Level Monitoring Committee

Rule 12 (4) of BMW Rules, 2016 provides that every State Government or Union Territory Administration shall constitute a District Level Monitoring Committee (DLMC) in the Districts under the chairmanship of the District Magistrate or Deputy Commissioner or Additional District Magistrate to monitor the compliance of the provisions of these rules in the healthcare facilities generating BMW and in CBMWTFs. DLMC had to submit its report regularly once in six months to the Advisory Committee and a copy to the State Pollution Control Board or Pollution Control Committee. Audit observed that:

- DLMC was constituted (July 2017) at District level to oversee the implementation of BMW Rules, 2016.

- Only Ramban District had submitted report to JKPCC in 2019-20. No information was available with JKPCC for the years 2016-17 to 2018-19 and 2020-21.

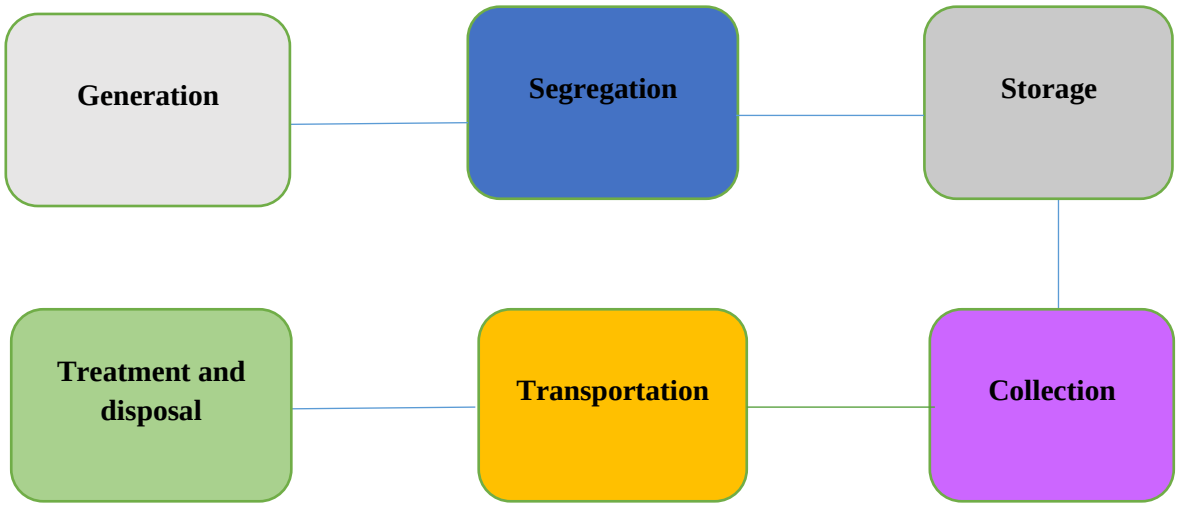
8.5.4 Submission of Annual Reports

Rule 13 of BMW Rules provides for submission of Annual Reports by every occupier or operator of CBMWTF to the prescribed authority.

Audit noticed that Annual reports had not been submitted by two[17] out of seven selected TLHs, two[18] out of six selected DHs and 10[19] out of 28 selected SDHs/ CHCs to JKPCC during 2016-21. SDH Jagti had also not submitted the Annual reports to JKPCC since its upgradation (June 2019) to 2020-21.

8.5.5 Stages of Bio-Medical Waste management

The following are the stages for management of BM waste.



[17] SMHS Hospital. Srinagar and Super Specialty Hospital, Srinagar
[18] DHs Handwara and Ramban
[19] Anantnag-3; Jammu-3; Kupwara-1; Ramban-2 and Udhampur-1

8.5.6 Generation, segregation, collection and disposal of Bio-medical waste

Rule 8 of BMW Rules, 2016 read with Schedule I requires HIs to segregate different categories of BMW in separate containers or bags at the source of generation.

Audit noticed that segregation of BMW at the source of generation in separate coloured bins was being done in 31 (DHs: 06; SDHs/ CHCs: 25) out of 34 test checked secondary level HIs and 37 out of 52 test-checked PHCs.

Colour coded bins at the point of generation in CHC Khour (19.03.2022)	**BMW Collection Point in SDH R.S Pura (10.06.2022)**

Further, in respect of liquid chemical waste generated in HIs, Rule 4 (j) of BMW Rules mandate segregation of waste at source and its pre-treatment or neutralisation prior to mixing with other effluents generated in HIs. Audit observed that:

- Out of 34 test-checked secondary level HIs, only DH Udhampur and SDH Kot-Bhalwal had established Effluent Treatment Plant (ETP) for pre-treatment of the liquid chemical waste.

- Only GMC Hospital, Jammu out of seven test-checked Tertiary Level Hospitals had established ETP.

Non-establishment of ETP was not only a violation of the BMW Rules but was also hazardous to public health at large.

ETP in DH, Udhampur (04.07.2022)	**ETP in SDH Kot-Bhalwal (25.01.2022)**

Incomplete ETP at DH Anantnag (22.04.2022)	**Incomplete ETP at SDH Dooru (11.04.2022)**

Rule 5 (a) of BMW Rules envisages that the operator of a CBMWTF is responsible for collection of BMW from HIs and its proper disposal. Audit observed that three[20] CBMWTFs had been authorised by JKPCC for collection and disposal of BMW from HIs. The HIs of the State/ UT had entered into agreements (on different dates) with these CBMWTFs for collection and disposal of BMW. Some instances came to the notice of audit, where after execution of agreement, the operator of the CBMWTF had failed to lift the BMW in violation of the stipulated terms and conditions.

- Though agreement (April 2021) was in place with the authorised CBMWTF[21], it had failed to lift BMW from CHC, Chenani which was burning the BMW in the open in close proximity to the CHC resulting in damage to the environment with possibility of spread of infection in the adjacent areas.

- Despite agreement (March 2020) in place with the CBMWTF, it was not lifting BMW from CHC, Jourian which was either burning the BMW in the open or burying it in a pit within the hospital complex. However, after continuous complaints, the firm started collection of BMW from January 2023 after a lapse of about 22 months.

BMW being burnt in the vicinity of CHC, Chenani (23.03.2022)	**BMW disposal in open in CHC, Jourian (28.12.2021)**

- Six DHs and 24 SDHs/ CHCs were disposing BMW through CBMWTF duly authorised by JKPCC and four[22] SDHs/ CHCs were disposing BMW either by burning it in the open or by deep burial within the complex.

[20] (i) Anmol Health Care, Samba (ii) Clean City Waste Management Co., Budgam and (iii) Kashmir Health Care, Lassipora.
[21] Anmol Health Care, Samba
[22] SDH Marh and CHCs Jourian, Gool and Banihal

BMW disposal in an open pit within SDH, Marh (26.11.2021)

8.6 Atomic Energy (Radiation) Protection Rules, 2004

As per Rule 3 of the Atomic Energy (Radiation Protection) Rules, 2004 issued by Department of Atomic Energy, GoI, no person shall, without a licence establish or decommission a radiation installation and no person shall handle any radioactive material, or operate any radiation generating equipment except in accordance with the terms and conditions of the licence.

Contrary to the provisions of the said Rules, Audit noticed that requisite license from Atomic Energy Regulatory Board (AERB) had not been obtained in two[23] out of six selected DHs, 12[24] out of selected 18 SDHs and eight[25] out of 10 selected CHCs where radiation generating equipment were available as of March 2022.

Rule 19 read with Rule 22 of the Atomic Energy (Radiation Protection) Rules, 2004 provides for appointment and responsibilities of a Radiological Safety Officer (RSO) who shall be responsible for advising and assisting the employer and licensee on safety aspects aimed at ensuring that the provisions of the Atomic Energy (Radiation Protection) Rules, 2004 are complied with. The RSO shall also carry out routine measurements and analysis of radiation and radioactivity levels in the controlled area and report on all hazardous situations along with details of any immediate remedial actions etc.

Audit observed that the post of Radiological Safety Officer was not existing in the Department. Thus, due to non-availability of RSO in the Department, the unnecessary exposure either due to equipment malfunction or human error remained unnoticed which may be harmful for the patients as well as the staff operating the equipment.

The Chief Accounts Officer, Directorate of Health Services, Jammu and Dy. Director Health Services, Kashmir admitted (January 2025) that no post of Radiological Safety Officer is existing in the Department.

[23] DHs Ganderbal and Handwara
[24] Anantnag: four; Jammu: five and Kupwara: three
[25] Jammu: three; Kupwara: three and Ramban: two

8.7 Conclusion

The envisaged regulatory mechanism was not functioning effectively to ensure responsible provision of health services to the people. No targets for inspections under the D and C Act, 1940 were fixed. There was lack of mechanism where-under drug samples were to be referred to SDC for testing on regular basis. There was delay in issue of notification for nomination of MDTOs. No Apex body (UT Council) was constituted by the GoJ&K under Clinical Establishments (Registration and Regulation), Rules, 2020 to ensure that the appeals against cases of de-registration and other penalties levied by the District Registering Authority can be heard. For the registration and regulation of the clinical establishments, no survey was conducted to ascertain the actual number of CEs eligible for registration. There was disparity in rates of various pathological/ radiological tests. Requisite annual reports were not submitted by some of the healthcare facilities under BMW Management Rules, 2016 and authorisation was not obtained by the occupier or operator handling BMW.

8.8 Recommendations

In view of the audit findings, GoJ&K may consider:

- ***Fixing of targets for inspections under the D&C Act, 1940 to ensure adequate regulatory control;***
- ***Referring drug samples to SDC for testing on regular basis;***
- ***Issuing notification for nomination of MDTOs at the earliest so that the samples of medical devices are got tested from the notified MDTLs;***
- ***Constituting a UT Council as required under Clinical Establishments (Registration and Regulation), Rules, 2020 to ensure that the appeals against cases of de-registration and other penalties levied by the District Registering Authority can be heard;***
- ***Framing a mechanism to ascertain the actual number of CEs eligible for registration so that CEs operating without registration can be identified; and***
- ***Ensuring compliance with Bio-Medical Waste Management Rules by all healthcare facilities with regard to obtaining requisite authorisation, submission of annual returns etc.***

CHAPTER-IX

SUSTAINABLE DEVELOPMENT GOAL 3

CHAPTER-IX

Sustainable Development Goal 3

With the aim of taking forward the success of Millennium Development Goals, the United Nations (UN) General Assembly, in its 70th session held on 25th September, 2015 adopted the document titled "Transforming our World: the 2030 Agenda for Sustainable Development". The document consisted of 17 Sustainable Development Goals (SDGs) and associated 169 targets which came into force with effect from 1st January, 2016. India was also a signatory to the agenda.

In India, National Institution for Transforming India (NITI) Aayog is responsible for overall coordination of the SDGs and the Ministry of Statistics and Programme Implementation (MoSPI) is responsible for the formulation of the National Indicator Framework (NIF) to monitor the SDGs.

9.1 Formulation of State Indicator Framework and District Indicator Framework

On the analogy of National Indicator Framework, GoJ&K prepared (October 2019) UT Indicator Framework (UTIF) which was updated from time to time. At the national level
Goal-3 has 13 targets and 41 indicators. GoJ&K identified 12 targets[1] and 34 indicators under Goal 3 (Sustainable Development Goal 3, regarding "Good Health and Well-Being").

A brief description of the 12 targets and 34 indicators under Goal 3 is given in **Table 9.1**.

Table 9.1: Brief description of 12 targets and 34 indicators under Goal 3

Target No.	Brief description	Indicators adopted
3.1	By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births.	4
3.2	By 2030, end preventable deaths of newborns and children under five years of age (with all countries), aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.	2
3.3	By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.	6
3.4	By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.	1
3.5	Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.	2
3.6	By 2020, halve the number of global deaths and injuries from road traffic accidents.	1
3.7	By 2030, ensure universal access to sexual and reproductive healthcare services, including for family planning, information and education, and integration of reproductive health into national strategies and programmes.	6
3.8	Achieve universal health coverage including financial risk protection, access to quality essential healthcare services and access to safe, effective, quality and affordable essential medicines and vaccines for all.	5
3.9	By 2030, substantially reduce the number of deaths and illness from hazardous chemicals and air, water, soil pollution and contamination.	2

[1] Target 3.d 'Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks' was not adopted

Target No.	Brief description	Indicators adopted
3.a	Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate.	1
3.b	Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha declaration on the agreement and public health, which affirms the right of developing countries to use to the full the provisions in the agreement on trade-related aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all.	1
3.c	Substantially increase health financing and recruitment, development, training and retention of the health workforce in developing countries, especially in least developed countries and small island developing states.	3

(Source: Sustainable Development Goals-J&K Progress Report-2022)

A comparative analysis of indicators (Global Indicators Framework (GIF), National Indicators Framework and UTIF) proposed and adopted by the UT is given in ***Appendix 9.1***.

District Indicator Framework (DIF) of Union Territory of Jammu and Kashmir was also prepared as a subset of UTIF.

9.1.1 Tier-wise indicator for SDG 3

The Global Indicator Framework (GIF) for Sustainable Development Goals developed by the Inter-Agency and Expert Group on SDG Indicators (IAEG[2]-SDGs) comprises 231 indicators. Based on the level of methodological development and the availability of data, all these indicators have been classified into three tiers (Tier[3] I, II and III) to facilitate implementation. As of 4th February 2022, there were 25 indicators under Tier I, 03 under Tier II for SDG 3. For Tier III, methodology and standards are yet to be specified.

Tier-wise analysis of indicators adopted in NIF and UTIF is given in **Table 9.2.**

Table 9.2: Tier-wise indicator for SDG 3

Tier	No. of indicators in GIF	NIF indicators from GIF	NIF indicators from GIF adopted in UTIF
I	25	22	16
II	3	1	1
Total	**28**	**23**	**17[4]**

(Sources: Global Indicator Framework, National Indicator Framework and Union Territory Indicator Framework)

It is evident from the above table that most indicators are under Tier I.

---

2 Constituted by United Nations Statistical Commission and agreed upon at the 48th session of the United Nations Statistical Commission held in March 2017 and adopted by the General Assembly on 6th July 2017.

3 **Tier I:** Indicator is conceptually clear, has an internationally established methodology and standards are available, and data are regularly produced by the countries for at least 50 *per cent* of countries and of the population in every region where the indicator is relevant.
Tier-II: Indicator is conceptually clear, has an internationally established methodology and standards are available, and data are not regularly produced by the countries.
Tier-III: No internationally established methodology or standards are yet available for the indicator, but methodology/standards are being evolved.

4 The six indicators not adopted were (i) 3.3.4-Prevalence of Hepatitis 'B' per one lakh population, (ii) 3.4.1-Number of deaths due to cancer, (iii) 3.8.2-Proportion of population with large household expenditures on health as a share of total household expenditure or income, (iv) 3.a.1-Percentage of adults 15 years and above with use of any kind of tobacco, (v) 3.b.2-Budgetary allocation for Department of Health Research and (vi) 3.d.1-International Health Regulations (IHR) capacity and health emergency preparedness.

9.1.2 Sustainable Development Goal 3 and its adoption in J&K

SDG 3 envisions ensuring healthy lives and promotion of well-being for all at all ages. The Goal addresses all major health priorities, including reproductive, maternal and child health; communicable, non-communicable and environmental diseases; universal health coverage; and access to safe, effective, quality and affordable medicines and vaccines. In addition, the new National Health Policy (NHP) 2017 is set in the context of SDGs. GoJ&K set up (June 2018) a State/ UT Level Committee for achievement of SDGs under the chairmanship of the Chief Secretary.

9.1.2.1 Planning and mapping budget for SDG 3

The National Health Policy 2017 envisaged allocation of resources for healthcare in accordance with development and financial indicators in a State/ UT. Audit observed that expenditure on public health decreased from 2.95 in 2020-21 to 2.80 *per cent* in 2021-22 of the GSDP. However, no action plan for achieving SDGs was formulated by the Department.

Though NITI Aayog had mapped Centrally Sponsored Schemes with the SDG targets, as of March 2022, no information was provided by the Planning, Development and Monitoring Department[5] in respect of interlinkages between goals and targets and mapping of schemes to SDG 3 though called for by Audit. Due to non-availability of the requisite information, the extent of integration of SDG 3 into the accounting and budgeting framework could not be ascertained by Audit.

Department of Health and Medical Education, Government of Jammu and Kashmir constituted (August 2022) an Inter-Sectoral Committee[6] for setting up of "Institutional Framework for improvement of health services with special focus on Sustainable Development Goals (SDGs), District Good Governance Index (DGGI) and Vision JK@2047". The aim was to strategise the policies, programmes and standards for achievement of SDG 3 to improve important health indicators by aligning the policies/ action plans with mapping of various schemes. The Committee was to meet once in a month to review the progress made with quantifiable targets and achievements on SDG. Audit noticed that the first meeting of the Committee was held in December 2023 i.e. more than 15 months after its constitution.

9.2 Health Indicators

The SDG India Index and Dashboard of NITI Aayog tracks the progress of the country as well as the States and UTs compositely on all SDGs as well as on each individual SDG. Every year, the indicators are reviewed and updated in view of evolving availability of data, and the index is computed to capture the individual as well as collective momentum on implementation of SDGs at State/ UT and national levels.

---

5 Being the nodal department for recording the progress/designing targets on all indicators set under SDGs.

6 Comprising of Mission Director, National Health Mission, J&K-Chairman, Director General, Family Welfare, MCH and Immunisation-Co-chairman, Chief Executive Officer, State Health Agency-Member, Director Health Services, Jammu/ Kashmir-Members, Director Planning, NHM, J&K-Member, Programme Manager HMIS, NHM, J&K-Member Secretary and Representatives of the GMCs to be nominated by the respective Principals as Members.

9.2.1 Analysis of SDG 3 indicators

A comparison between a few SDG health indicators of Jammu and Kashmir with all India average health indicators is given in **Table 9.3**.

Table 9.3: Comparison of few SDG health indicators[7] of J&K with all India SDG health indicators

Target number	SDG indicator	Unit	Year	JK Value	All India value
3.1	3.1.1- Maternal Mortality Ratio	Per one lakh live births	2014-16	97	130
			2015-17	96	122
			2016-18	85	113
			2018-20	77	103
3.2	3.2.1-Under five mortality rate	Per 1,000 live births	2015	28	43
			2018	23	36
			2019	21	35
			2019-21 (NFHS-5)^	18.5	41.9
	3.2.2-Neonatal mortality rate	Per 1,000 live births	2015	20	25
			2018	17	23
			2019	15	22
			2019-21 (NFHS-5)^	9.8	24.9
3.3	3.3.2-Tuberculosis incidence	Per one lakh population	2016	72	217
			2018	90	199
			2019	81	193
			2020	61	188
3.4	3.4.2-Suicide mortality rate	Per one lakh population	2015	3.0	10.60
			2018	2.50	10.20
			2019	2.10	10.40
			2020	2.20	11.30
3.6	3.6.1-People killed in road accidents	Per one lakh population	2015	7.48	11.81
			2018	7.34	11.54
			2019	7.46	11.57
			2020	5.48	9.84
			2021	5.98	11.38
3.7	3.7.3-Institutional deliveries	Percentage	2015-16	85.60*	78.90
			2019-21	92.40	88.60
3.8	3.8.1-Married women (15-49 years) who use any modern Family planning methods	Percentage	2015-16	46.10	47.80
			2019-21	52.50	56.50
3.c	3.c.1-Health worker density	Per 10,000 population	2015	15.85	40.41
			2018	17.16	48.80
			2019	16.91	49.45

(Source: Sustainable Development Goals-J&K Progress Report-2022 and National Family Health Survey-5)
****given as 85.50 in NFHS-4***
^NFHS-5 for Jammu and Kashmir: 2019-20, NFHS-5 for all India: 2019-21

It can be observed from the table above that Jammu and Kashmir fared better than the national average in most of the parameters except 3.8.1 (married women using modern family planning methods) and 3.c.1 (health worker density). However, the information in the table includes data for Ladakh (except for NFHS-5 data for target number 3.2) as

[7] Data also comprises of the information of Ladakh except for NFHS-5 and for the years 2020 and 2021.

the information covers the period prior to implementation of the Jammu and Kashmir Reorganisation Act, 2019.

9.3 Conclusion

UT of J&K adopted 34 indicators out of 41 indicators at the national level covering 12 targets at UT level out of 13 targets at national level. As of December 2023, the Inter-Sectoral Committee only met once since its constitution.

9.4 *Recommendation*

In light of the audit findings, GoJ&K may consider:

- ***Ensuring Inter-Sectoral Committee meetings are held at regular intervals to monitor the progress and achievements of targets under SDG.***

Appendix 9.1

(Reference Paragraph 9.1)

Statement of Indicators for Sustainable Development Goals 3

(Ensure healthy lives and promote well-being for all at all ages)

Targets		Indicators				
Global Target No.	**Targets of SDG 3**	**Global Indicators Framework for SDG of the 2030 Agenda and their Tier-wise classifications**		**National Indicator Framework (Version-3.0) developed by MOSPI as of 31.03.2021**	**Indicators adopted in India SDG Index 20-21**	**Indicators adopted by Jammu & Kashmir**
		Tier	**Indicators**			
3.1	By 2030, reduce the global maternal mortality ratio to less than 70 per 1,00,000 live births	I	3.1.1 Maternal mortality ratio	1. Maternal Mortality Ratio	Adopted	1. Maternal Mortality Ratio (Per 1,00,000 live births)
		I	3.1.2 Proportion of births attended by skilled health personnel	2. Percentage of births attended by skilled health personnel. (Period 05 years)		2. Percentage of births attended by skilled health personnel. (Period 05 years)
				3. Percentage of births attended by skilled health personnel. (Period 01 year)		3. Percentage of births attended by skilled health personnel. (Period 01 year)
				4. Percentage of women aged 15−49 years with a live birth, for last birth, who received antenatal care, four times or more. (Period 05 years/ 01 year)		4. Percentage of women aged 15−49 years with a live birth, for last birth, who received antenatal care, four times or more. (Period 05 years/ 01 year)
3.2	By 2030, end preventable deaths of newborns and children under 05 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births	I	3.2.1 Under-5 mortality rate	1. Under-5 mortality rate.	Adopted	5. Under-5 mortality rate per 1,000 live births
		I	3.2.2 Neonatal mortality rate	2. Neonatal mortality rate.		6. Neonatal mortality rate per 1,000 live births.
3.3	By 2030, end the epidemics of AIDS, tuberculosis, malaria and	I	3.3.1 Number of new HIV infections per 1,000 uninfected population, by	1. Number of new HIV infections per 1,000 uninfected population	Adopted	7. Number of new HIV infections per 1000 uninfected population

Targets		Indicators				
Global Target No.	**Targets of SDG 3**	**Global Indicators Framework for SDG of the 2030 Agenda and their Tier-wise classifications**		**National Indicator Framework (Version-3.0) developed by MOSPI as of 31.03.2021**	**Indicators adopted in India SDG Index 20-21**	**Indicators adopted by Jammu & Kashmir**
		Tier	**Indicators**			
	neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases		sex, age and key populations.			
		I	3.3.2 Tuberculosis incidence per 1,00,000 population	2. Tuberculosis incidence per 1,00,000 population	Adopted	8. Tuberculosis incidence per one lakh population
		I	3.3.3 Malaria incidence per 1,000 population	3. Malaria incidence per 1,000 population		9. Malaria incidence per 1,000 population
		I	3.3.4 Hepatitis B incidence per 1,00,000 population	4. Prevalence of Hepatitis "B" per 1,00,000 population		
		I	3.3.5 Number of people requiring interventions against neglected tropical diseases			
						10. Percentage of HIV Prevalence rate. (*UT specific*)
				5. Dengue: Case Fatality Ratio (CFR)		11. Dengue: Case Fatality Ratio (CFR)
				6.The proportion of grade-2 cases amongst new cases of Leprosy		12. The proportion of grade-2 cases amongst new cases of Leprosy
				7. Percentage of blocks reporting < 01 Kala Azar case per 10,000 population out of the total endemic blocks		
				8. Percentage of districts reporting < 1 *per cent* Microfilaria rate (MF) out of Targeted Endemic districts		
3.4	By 2030, reduce by one third premature mortality from non-communicable diseases	I	3.4.1 Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease	1. Number of deaths due to cancer		

Targets		Indicators				
Global Target No.	**Targets of SDG 3**	**Global Indicators Framework for SDG of the 2030 Agenda and their Tier-wise classifications**		**National Indicator Framework (Version-3.0) developed by MOSPI as of 31.03.2021**	**Indicators adopted in India SDG Index 20-21**	**Indicators adopted by Jammu & Kashmir**
		Tier	**Indicators**			
	through prevention and treatment and promote mental health and well-being	I	3.4.2 Suicide mortality rate	2. Suicide mortality rate	Adopted	13. Suicide mortality Rate (per 1,00,000 population.
3.5	Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol	II	3.5.1 Coverage of treatment interventions (pharmacological, psychosocial and rehabilitation and aftercare services) for substance use disorders	1. Number of persons treated in de-addiction centres		14. Number of persons treated in de-addiction centres.
		I	3.5.2 Alcohol per capita consumption (aged 15 years and older) within a calendar year in litres of pure alcohol	2. Percentage of population (men15-49 years) & women (15-49 years) who drink alcohol about once a week out of total population (men15-49 years) & women (15-49 years) who drink alcohol.		
				3. Percentage of population (men (15-54 years) and women (15-49 years)) who consume alcohol		15. Percentage of population (men 15-54 years) and women (15-49 years)) who consume alcohol
3.6	By 2020, halve the number of global deaths and injuries from road traffic accidents	I	3.6.1 Death rate due to road traffic injuries	1. People killed / injured in road accidents.	Adopted	16. People killed/injured in road accidents per one lakh population
3.7	By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration	I	3.7.1 Proportion of women of reproductive age (aged 15–49 years) who have their need for family planning satisfied with modern methods	1. Percentage of currently married women (15-49 years) who have their need for family planning satisfied with modern methods.		17. Percentage of currently married women aged (15-49 years) who have their need for family planning satisfied with modern methods
						18. Total Fertility Rate (*UT specific*)
				2. Percentage of currently married women (15-49 years) who use any modern		19.Percentage of currently married women (15-49 years) who use any modern

Targets		Indicators				
Global Target No.	**Targets of SDG 3**	**Global Indicators Framework for SDG of the 2030 Agenda and their Tier-wise classifications**		**National Indicator Framework (Version-3.0) developed by MOSPI as of 31.03.2021**	**Indicators adopted in India SDG Index 20-21**	**Indicators adopted by Jammu & Kashmir**
		Tier	**Indicators**			
	of reproductive health into national strategies and programmes			family planning methods		family planning methods

PREFACE

This Report of Comptroller and Auditor General of India regarding Performance Audit on Working of Jammu University for the period ended 31 March 2022 has been prepared for submission to Lieutenant Governor of Jammu and Kashmir under Section 72 of the Jammu and Kashmir Reorganisation Act, 2019 for laying in the Legislative Assembly.

This Performance Audit Report on Working of Jammu University contains following five Chapters.

Chapter-I: Introduction

Chapter-II: Academic and Research Activities

Chapter-III: Human Resources Management

Chapter-IV: Infrastructure Management

Chapter-V: Financial Management

The instances mentioned in this Report are those which came to the notice in the course of test audit during 2021-22 covering period from 2017-18 to 2021-22 as well as those which came to notice in earlier years but could not be reported in the previous Audit Reports. Audit was also guided by developments with regard to Human Resource and Infrastructure Management prior to the period of audit wherever required. Instances relating to the period subsequent to 2021-22 have also been included, wherever necessary.

The audit has been conducted in conformity with the Auditing Standards issued by the Comptroller and Auditor General of India.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

This Report covers matters arising out of the Performance Audit on Working of Jammu University. The Performance Audit was conducted with the objective to ascertain whether:

- The University had achieved its organisational goals and objectives in the areas of academics and research with reference to applicable laws and Regulations;
- Development and Management of Infrastructure and other assets were as per prescribed norms;
- Human Resource Management of academic and non-academic staff was efficient; and
- Financial Management and Internal Controls in ensuring economy, efficiency and effectiveness in functioning of the University were adequate.

The primary purpose of this Report is to bring to the notice of the Legislature the important results of audit. The audit findings of the Performance Audit Report are grouped into the following five chapters:

- Chapter 1: Introduction
- Chapter 2: Academic and Research Activities
- Chapter 3: Human Resources Management
- Chapter 4: Infrastructure Management
- Chapter 5: Financial Management

The University did not make efforts to establish industry academia linkage to make the students job ready. Choice based Credit system was partially implemented restricting choices available to students. The evaluation system suffered from operational and monitoring inadequacies. Delays in evaluation of results and thesis of PhD students were indicative of serious systemic problems affecting career mobility and academic progression of students. Monitoring research projects was inadequate as there were instances of abandoned projects and delays in completion of projects. Facilitation for innovation and entrepreneurship development programmes was dismal as the University Business Incubation and Innovation Centre (UBIIC) and Special Purpose Vehicle (SPV) set up for providing incubation support to potential startups remained non-functional. In 51 physically verified colleges (Government: 17 and Non-Government: 34), out of 331 teachers appointed in 24 Non-Government colleges, 113 teachers did not possess the prescribed qualifications.

Human Resources Management in the University was not efficient as there were irregular appointments and premature/ undue promotions. Recruitment Rules had not been framed for 77 out of 142 categories of non-teaching posts. Regularisation of adhoc/ contractual teaching/ academic staff was adopted as a mode of appointment. Lateral entry to direct entry level posts of Deputy Librarians led to undue favour to in-service employees. Appointments of in-service Assistant Registrars against open

merit posts of Deputy Registrars were made in violation of UGC norms. Irregular appointments to the posts of Readers/ Associate professors without required teaching experience compromised the minimum standards prescribed by UGC for maintaining quality of teaching. In absence of RRs for all posts, there was no uniform policy for career advancement of non-teaching staff. While a three-tier scheme was in operation for some non-teaching positions, there was undue extension of academic grade pays and Career Advancement Scheme of teachers to a selective group of non-teaching posts treated as non-vocation academic posts. UGC Career Advancement Scheme was extended to non-teaching posts treating them as equivalent to Assistant Registrars and Deputy Registrars which are regulated by UGC. Irregular financial upgradations with retrospective effect were allowed to non-teaching employees putting a burden on the State exchequer.

Inability of the University to start infrastructure works of off-site campuses before expiry of the 11th Plan (2007-12) resulted in disallowance of central grants which further led to stoppage of 30 works of which 15 projects were lying abandoned since March 2015. Due to significant variations in structural design and construction of additional floors not contemplated earlier, work on Girls Hostel was held up for nearly nine years. Getting additional works executed out of savings of tendered and allotted cost, through the same contractors, was a norm rather than an exception, which not only compromised transparency in allotment of works, but also resulted in undue benefit to contractors. There were also instances when equipment procured by various departments were lying idle due to lack of technical manpower.

The University could not optimally utilise financial assistance received from UGC, Department of Science and Technology etc. for infrastructure strengthening resulting in non-release of further installments. Due to non-preparation of a Consolidated Local Fund, balances under local funds of various PG departments and constituent offices remained outside the main account of the University resulting in understatement of revenue in the budget estimates. The University had not prepared annual account and balance sheet since its inception indicating lack of commitment on the part of the University. By specifying particular makes and models, the University had carried out purchases from single source resulting in non-transparency in the procurement process and reduced opportunity to get better prices and products through competitive bidding.

Recommendations:

The University may:

- *Take strict measures to avoid delay in evaluation of answer scripts and PhD thesis;*
- *May put in place a well-defined fair and transparent recruitment policy;*
- *Recruitment Rules may be finalised for all posts with well-defined stages of promotion to ensure probity and transparency in recruitment;*
- *Take measures for completion of held up works; and*
- *Devise a robust mechanism to ensure optimum utilisation of equipment procured.*

CHAPTER-I
INTRODUCTION

CHAPTER-I

INTRODUCTION

The University of Jammu and Kashmir was bifurcated into University of Jammu and University of Kashmir by the Jammu and Kashmir Universities Act (J&KUA) 1969. The said Act and the University Statutes 2010 give the framework for the functioning of the University of Jammu.

The University has the powers and functions to provide instructions in such branches of learning as it deems fit and make provision for research and advancement in various fields of education. The University holds examinations, grants degrees and confers academic distinctions on students who pursue approved courses of study in the University or in its constituent colleges/ institutions. It also maintains, recognises and affiliates colleges and other institutes.

1.1 Organisational setup

The University of Jammu is headed by Chancellor, while Vice-Chancellor is a whole time or part time Honorary Officer of the University. The Vice-Chancellor is assisted by Deans, Directors, Registrar, Joint Registrar and other functionaries. The Secretary to the Government Finance Department acts as the ex-officio Financial Advisor to the University. The University Council (UC) is the apex governing authority of the University, which is headed by the Chancellor with Education Minister and Vice-Chancellor among others as Members. The University Syndicate (US) is the Chief Executive Authority vested with the responsibility of framing budget estimates, drafting Statutes, holding controlling and administering funds, property and other assets. The Academic Council (AC) controls and regulates the standards of teaching, research and examination in the University and also prescribes syllabi and other courses of study. The academic activities are governed by the Guidelines, Regulations and Circulars issued by University Grants Commission (UGC), All India Council for Technical Education (AICTE), National Council for Teacher Education (NCTE) and other regulatory bodies in the education sector. Other Statutory Committees, viz. Finance Committee (FC), Campus Development and Works Committee etc. are also in place in the University. The organisational setup of the University is detailed in ***Appendix 1.1.***

The University of Jammu has eight faculties[1] with 38 departments[2] of teaching and

[1] (i) Arts (ii) Business Studies (iii) Education (iv) Law (v) Mathematical Sciences (vi) Science (vii) Life Sciences, and (viii) Social Sciences

[2] Buddhist Studies, Dogri, English, Hindi, Punjabi, Sanskrit, Urdu, Journalism & Media Studies, Business School, Commerce, School of Hospitality & Tourism Management, Education, Physical Education, Law, Law School, Mathematics, Statistics, Computer Sciences, Chemistry, Geology, Geography, Physics, Electronics, Remote Sensing, Home Science, Bio-Technology, Botany, Zoology, Environment Science, Economics, History, Political Science, Library Science, Sociology, Psychology, Strategic & Regional Studies, Lifelong Learning and Philosophy

research and eight centers[3] in its main campus. Apart from its main campus, the University has one constituent college[4] and eleven off-site campuses[5] spread across different districts in Jammu province. As of March 2022, the University had an enrollment of 4,329 students in the main campus, off-site campuses and constituent college. The main campus also has a Directorate of Distance Education (DDE) which offers courses in open and distance learning mode (ODL) with approximate student strength of 11,962. The University has over 167 affiliated colleges with an enrolment of over 74,178 students. The University ranked 50th in the National Institutional Ranking Framework (NIRF)-2024 in University Category. It obtained (December 2024) National Assessment and Accreditation Council (NAAC) with A++ grade for a period of seven years (2024-2031).

1.2 Audit Scope, Sample and Methodology

The working of University of Jammu was last reviewed and commented upon in the Report of the Comptroller and Auditor General of India for the year ended March 2008. The current Performance Audit of the University covered the period 2017-18 to 2021-22. The Audit Report has been updated with the replies received in February 2025. Audit was also guided by developments with regard to Human Resource and Infrastructure Management prior to the period of audit wherever required. During the Performance Audit, 33 *per cent* of infrastructure projects/ works in the University Works Department (UWD), equipment purchased by 38 departments and service records of the employees were test checked. Detailed scrutiny of academic records was also carried out in all 38 departments and all eight Centres within the main campus, one constituent college and seven functional off-site campuses. Various institutions and departments covered during Performance Audit are detailed in ***Appendix 1.2.***

An Entry Conference was held through virtual mode with the Vice-Chancellor and other University officials on 25 July 2022 wherein the scope, objectives, criteria and methodology of audit including selection of samples for examination of records were discussed. An Exit Conference was held with the Vice-Chancellor on 13 February 2025, wherein all the audit observations were discussed. The responses during the Exit Conference have been suitably incorporated in the report.

1.3 Audit Objectives

The Performance Audit was conducted to ascertain whether:

[3] Computer Centre, Centre for History and Culture of Jammu and Ladakh Region and Rinchen Bzangpo Art Gallery, Centre for Study in Museology, Centre for Women Study, Centre for IT and Enabled Services, Centre for International Centre for Cross Cultural Research and Human Resources Management, Centre for Human Genetics and Centre for Study of Social Exclusion and Inclusive Policy

[4] University Institute of Engineering and Technology Kathua

[5] Bhaderwah, Kathua, Kishtwar, Reasi, Ramnagar, Udhampur, Poonch, Billawar, Patnitop, Surankote and Doda

- The University had achieved its organisational goals and objectives in the areas of academics and research with reference to applicable laws and Regulations;
- Development and Management of Infrastructure and other assets were as per prescribed norms;
- Human Resource Management of academic and non-academic staff was efficient; and
- Financial Management and Internal Controls in ensuring economy, efficiency and effectiveness in functioning of the University were adequate.

1.4 Audit Criteria

Audit criteria was derived from the following sources/ records:

- J&KUA 1969, and Statutes of the University;
- UGC Act/ Guidelines/ Regulations and Quality Mandate as well as norms prescribed by AICTE and Distance Education Council (DEC);
- Guidelines and Internal Quality Assurance Cell Manual issued by NAAC;
- National Institutional Ranking Framework (NIRF) Manual;
- State/ Central PWD Manuals;
- Guidelines issued by funding agencies for the implementation of various schemes in the University;
- General Financial Rules, 2017; and
- Inclusive and Qualitative Expansion of Higher Education under 12th plan issued by UGC.

1.5 Acknowledgement

Audit acknowledges the cooperation extended by the University of Jammu in the conduct of the Performance Audit.

1.6 Audit Findings

The audit findings of the Performance Audit Report are grouped in the following Chapters:

- Chapter-II: Academic and Research Activities
- Chapter-III: Human Resources Management
- Chapter-IV: Infrastructure Development and Management
- Chapter-V: Financial Management

CHAPTER-II
ACADEMIC AND RESEARCH ACTIVITIES

CHAPTER-II

Academic and Research Activities

2.1 Academic Activities

The University was offering (March 2022) Doctorate Degree in 38 programmes, Master of Philosophy (MPhil)[1] in 24 programmes, 50 Master's Degree Programmes (MDPs), 19 undergraduate programmes, 10 post graduate diplomas and six certificate courses through eight faculties. It also offers postgraduate and undergraduate programmes through its affiliated colleges.

2.1.1 Non-approval/ Non-accreditation of Courses

AICTE is a national-level council responsible for regulating and standardising technical education in India. Interested Central/ State Public and Private Universities are required to obtain AICTE approval for all Technical Programmes/ Courses/ Intake capacity.

While NAAC under UGC gives institutional accreditation, National Board of Accreditation (NBA) under AICTE gives accreditation to technical programmes approved by AICTE. UGC Regulations (2012) and AICTE Regulations (2014) envisage that every Higher Education Institution (HEI) which has completed six years of existence or whose two batches have passed out, whichever is earlier, should apply for accreditation.

Records however showed that the University had obtained AICTE approval for only two technical programmes (MBA and MCA), while four technical programmes[2] were running without AICTE approval. NBA accreditation had not been obtained for MCA course, though approved by AICTE. As such the enrolled students could not avail the benefits available to an accredited institution/ program in terms of improvement in quality education guaranteed by periodic assessments by an overarching regulator. To quote an instance, in respect of M. Tech. Computer Science programme started from the year 2014, AICTE model curricula was not adhered to and there was unavailability of requisite laboratories and infrastructure.

Registrar stated (November 2023 and February 2025) that AICTE approval is not mandatory for the State Public and Central Universities. It was further added that the Department of Management, University of Jammu has already initiated the process of building requisite infrastructure as per the AICTE norms and the process of seeking AICTE approval will be initiated, once adequate infrastructure is built.

---

1 M.Phil. stands discontinued with effect from 2021-22.

2 M. Tech (Computer Science), MBA (International Business), BBA (Hotel Management) and MBA (Hospitality and Tourism Management)

The fact however remains that AICTE approval is a benchmark of credibility that ensures educational programs meet national standards. Of the two programmes for which AICTE approval was obtained, the MCA course was not NBA accredited.

2.1.2 Nomenclature of Degrees and Programmes

Under Section 22 of the UGC Act, 1956, degrees which may be awarded by the Universities are specified by the UGC. Further, UGC notified in the Gazette of India (May 2009 and July 2014) the list of Academic Courses/ Degree(s) to be run by the Universities. As per the UGC Act, no University shall confer a Degree in violation of provisions of this notification and it shall be mandatory for the Universities to adhere to the approved nomenclature of degree(s).

Records however showed that the University had neither changed the nomenclature of Business Administration in Hotel Management (BBA-HM) to Bachelor of Hotel Management (BHM) nor modified the duration of the course from three years to four years. During 2016-22, University awarded 77 degrees in respect of BBA-HM courses.

While accepting the audit observation, Registrar stated (February 2025) that Board of Studies of School of Hospitality and Tourism Management had already endorsed the revision of nomenclature of BBA (HM) in accordance with the UGC specification of degrees. It was added that the decision in this regard shall be presented in the forthcoming Academic Council Meeting.

2.1.3 Running of Teachers Training Courses without Approval of NCTE

National Council for Teachers Education (NCTE) is a Statutory Body responsible for regulating Teacher Education Programmes. NCTE recognition ensures that these programmes meet national standards for quality, infrastructure, faculty and curriculum. UGC advised (June 2014) State Universities to align Teacher Education Programmes (TEPs) with the National Curriculum Framework for Teacher Education (NCFTE), 2009. NCTE came out (December 2014) with new Regulations in respect of 15 TEPs which included M.Ed., B.Ed., B.PED and M.PED, according to which in-service teachers in elementary education having completed an NCTE recognised TEP in face-to-face mode[3] were eligible for admission to B.Ed. programme in Open and Distance Learning (ODL) mode. Audit noticed the following:

- Although the University adopted (July 2015) NCTE Regulations, 2014 from 2015-16, NCTE recognition had not been obtained for the teachers training

[3] Diploma in Pre-School Education (DPSE), Diploma in Elementary Education (D.El.Ed.), Diploma in Physical Education (D.P.Ed.), Bachelor of Physical Education (B.P.Ed.), Master of Physical Education (M.P.Ed.) degree, Diploma in Arts Education etc. Apart from these, the programmes with older nomenclature like D.Ed., or any other but duly recognised by NCTE as face-to-face teacher education programmes may also be considered for admission in B.Ed.

courses offered and run by the University through the Department of Education (DoE) and affiliated colleges.

- The University did not adopt the revised norms of NCTE regarding admission to B.Ed. The eligibility criteria of having completed an NCTE recognised degree in TEP in face-to-face mode was omitted for admissions to the two year B.Ed. programme from the academic session 2021-22. Although the Directorate of Distance Education of the University did not make any fresh admissions to the B.Ed. programme during 2020-21, the University adopted revised (September 2021) Statutes and initiated admission process for the academic session 2021-23 without the approval of NCTE. This was in spite of the fact that AC had passed (February 2021) a resolution not to make any fresh admission to two year B.Ed. programme without approval of NCTE.

Registrar, stated (February 2025) that NCTE has given relaxation to the institutions located in UT of J&K until December 2024 to comply with their norms and standards.

The fact however remains that the university had neither applied for recognition under Section 14/15 of the NCTE Act 1993 (made applicable to J&K post abrogation of article 370) nor adhered to NCTE norms for faculty requirements and admissions to teachers training.

2.2 Academic Flexibility

As per NAAC Manual, academic flexibility denotes the curriculum choices and curriculum transactions available to the students. Academic flexibility can be ensured by introducing new courses, Choice Based Credit System (CBCS) and semester system, etc.

2.2.1 Partial Implementation of Choice Based Credit System (CBCS)

UGC, in its action plan for bringing about academic reforms in universities, advocated (March 2009) implementation of CBCS encompassing improvement in educational quality and excellence, inter-institution transferability of students and comparability of educational programmes across the country etc. The objective of implementation of the credit system was to allow students to pursue elective courses of their choice and enable their seamless mobility among the institutions across the states and country. The University adopted CBCS in September 2014.

Audit noted the following deficiencies in implementation of CBCS:

- As per UGC norms, CBCS provides choice to students to select from the prescribed UG/ PG programmes under three domains viz., Core and Elective and Foundation[4] with diverse choice of subjects based on learning needs, interests and aptitudes. Audit observed that while adopting the CBCS for PG programmes in its Statute, the University restricted the CBCS only to Core

[4] A foundation course prepares a student for a more advanced course

and Elective courses. As a result, the students could not avail themselves of the benefits of Foundation Courses meant for Knowledge Enhancement and Value Education.

- The CBCS framework notified by UGC prescribed allotting 60 *per cent* of credits to Core courses and 20 *per cent* each to Elective and Foundation courses. Audit observed that as per the course structure adopted (September 2014) by the University, Core courses were allotted 89 to 97 *per cent* of credits and Elective Courses were allotted 03 to 11 credits, thereby limiting the choice of Electives for students to opt for.
- As per UGC guidelines regarding implementation of CBCS, to ensure fairness in assessment, evaluation of the theoretical component of at least 50 *per cent* of Core Courses were required to be undertaken by external examiners who were also to set and assess question papers. For assessment of practical component of Core Courses and that of project reports/ thesis/ dissertation etc., the team of examiners were to comprise internal as well as external examiners.

  Audit noticed that no provision for external evaluation was kept in the Statutes at the time of adoption (September 2014) of CBCS, which was included in the Statute by a subsequent amendment (September 2017). The University had not engaged external examiners for evaluation of theoretical/ practical components and project reports/thesis/dissertation etc. External evaluation would ensure an independent perspective on the programmes performance. Not adopting of external evaluation was fraught with the risk of biases or limitations due to evaluators' involvement in the programme.

Registrar stated (November 2023) that external evaluation was undertaken in 2nd Semester of all PG programmes but with the outbreak of the pandemic, the proposal was put up before Academic Council for internal evaluation in place of external evaluation in 2nd semester for all PG programmes under CBCS and the proposal was approved. It was added (February 2025) that external evaluation shall be taken care of in the proposed draft Statutes of Postgraduate Programme under NEP 2020 with effect from session 2025-26. However, the reply was silent about restrictions in choices available *vis-a-vis* the framework of CBCS.

2.3 Industry/ Academia Partnerships and Collaboration with Academic Institutes

As per UGC Quality mandate, it is vital for an HEI to intensify University-Industry interaction to identify core knowledge and skills that graduates need to enhance their employability. Further as per paragraph 3.7 of the NAAC Manual, HEIs can seek collaboration with academic institutes, industry or other agencies of professional and social relevance. Range of activities could include training, student exchange, faculty exchange, research and resource sharing etc.

In order to integrate academic competence of the University and expertise of the industry for development and commercialisation of scientific research and imparting necessary skills to the students for enhancing their research and employability potential, the University established (July 2019) an Industry Academia Partnership Centre (IAPC). To run the centre under a mutually beneficial arrangement, the University entered into (December 2020) an MoU with a Pharmaceutical setup[5]. Notwithstanding this, audit noticed that the IAPC was not made functional as of July 2022.

Audit observed that 12 out of 38 academic departments/ centres of the University had not entered into any active collaboration with any industry or academic institute during 2017-22. As of March 2023, against 26 MoUs entered into by the University with other institutions at National and International level, only 02 were fully functional, 04 were partially functional and 20 MoUs were yet to be made functional. Due to non-functional MoUs, the University could not derive from these collaborations benefits such as student/ faculty exchange programmes, promotion of courses and pathways, funding for relevant research work and placement facilitation. Further, as a result, the students missed the opportunity of industry exposure and skill upgradation.

Convener IAPC stated (November 2022) that the process for setting up IAPC got delayed due to non-availability of required space for setting up of the laboratory.

Registrar added (November 2023) that allocation of ₹ five crore for IAPC came with the condition that more than 30 *per cent* of grant could not be spent on construction and absence of required space for setting up of the laboratory resulted in loss of time.

2.4 Facilitation for Innovation/ Start-up / Entrepreneurship

The University identified (February 2021) Research and Innovation as thrust areas under RUSA 2.0[6] in order to achieve heights in its journey of quality and excellence. As part of this initiative, the University established (April/ June 2019) University Business Incubation and Innovation Centre (UBIIC) and a Special Purpose Vehicle (SPV)[7] for pre-incubation and incubation of early-stage entrepreneurial technology based ventures and identification of potential entrepreneurs. As of March, an expenditure of ₹ 1.29 crore[8] was incurred by the two entities.

Audit scrutiny revealed that:

---

5 RaCemix Molecules Private Ltd.

6 RUSA 2.0 stands for Rashtriya Uchchtar Shiksha Abhiyan Phase 2, a Centrally Sponsored Scheme (CSS) for strategically funding the State HEIs based on well defined, transparent norms linked to key academic, administrative and governance reforms.

7 Under Section 8 of Companies Act-2013

8 Workshops (₹ 4.58 lakh), salary payment (₹ 31.17 lakh), routine office/ miscellaneous expenses (₹ six lakh), civil/ electric works (₹ 8.50 lakh), furniture, air conditioners, digital podiums (₹ 70.56 lakh) and international travel (₹ 7.49 lakh).

- The institutional framework such as a Managing Committee and a full-time Director/ CEO were not put in place for SPV to carry out its activities. Board of Governors (BoG) of the SPV constituted (March 2021) for a two-year term had met only once (March 2021) resulting in lack of follow-up on the decisions taken in that meeting on having collaborations with angel investor companies willing to invest in J&K and on putting requisite policies in place etc.
- SPV had not framed strategies and policies for selection of incubates and had not worked out details of incubation programs. Except for organising (between September 2019 and March 2022) webinars/ symposia on generic awareness programmes, none of the intended activities for identification and enrolment of potential startups/ innovators so as to provide handholding and financial support for incubation of identified start-ups had been carried out by the UBIIC/ SPV.
- In the absence of having identified any potential startups and enrolling any innovators to provide legal/ financial services, expenditure of ₹ 27.68 lakh incurred (February 2020 to February 2022) by the SPV on professional fee of two consultancy firms and young professionals was rendered unproductive. The firms were disengaged in March 2021 and April 2022.
- MoUs were signed (April 2019) with two foreign universities[9] for collaborative support in areas of entrepreneurship, development, implementation of cooperative research projects and others. However, the intended activities were not carried out as of March 2023.
- Further, despite initiative of the SPV for establishment of Atal Community Innovation Centre[10] (ACIC), the University could not get approval of NITI Aayog, as it had not carried out an assessment of prerequisites including availability of at least 4,000 square feet of ready-to-use net carpet area for exclusive use by the ACIC. As a result, the University could not avail the Grant-in-Aid to the tune of ₹ 2.50 crore from NITI Aayog for this project. Against ₹ 2.50 crore matching grant to be provided by the University from internal resources for establishment of ACIC, ₹ one crore was transferred (November 2020) to SPV. The amount was lying unutilised in the books of SPV since November 2020.

  Thus, non-prioritisation of pre-requisites like providing space and formulating policy and institutional frameworks for these entities, resulted in denial of intended benefits of promoting the start-up ecosystem in the State/ UT besides

[9] University of California, Berkeley and University of South Florida, Florida

[10] Atal Innovation Mission (AIM), is a flagship initiative of NITI Aayog to promote a culture of Innovation and entrepreneurship, under which financial support in the form of Grant-in-Aid is provided to selected academic and non-academic institutions for establishment of Atal Community Innovation Centres.

rendering expenditure of ₹ 1.05 crore[11] incurred on furniture/ desktops/ professional services/ international travel unfruitful.

Director UBIIC and CEO SPV stated (June 2023) that setting up of startups/ entrepreneurships, identification of potential start-ups, enrollment of innovators could not be done in absence of any Incubation policy. Director SPV further added (June 2023) that the purchases had been made to provide infrastructure and other facilities so that funding agencies could be approached for running various programmes.

Registrar admitted (March 2024) that the bulk of the SPV's activities have been restricted to holding webinars on innovation and incubation and very little has been done in respect of startup activity. It was further added (February 2025) that due to space constraints, the implementation of the project has been delayed. It was assured that the University will adopt a multi-pronged approach to ensure the optimum utilisation of the available infrastructure while successfully commissioning prestigious national-level projects, including the Atal Community Innovation Centre (ACIC)**.**

2.5 Student Placements

As per NAAC Manual, student placement is one of the yardsticks for ranking an HEI. According to 'Quality Mandate for Higher Education Institutions in India' issued by UGC, an HEI should fulfil expectations of industry and prepare employable and skilled graduates.

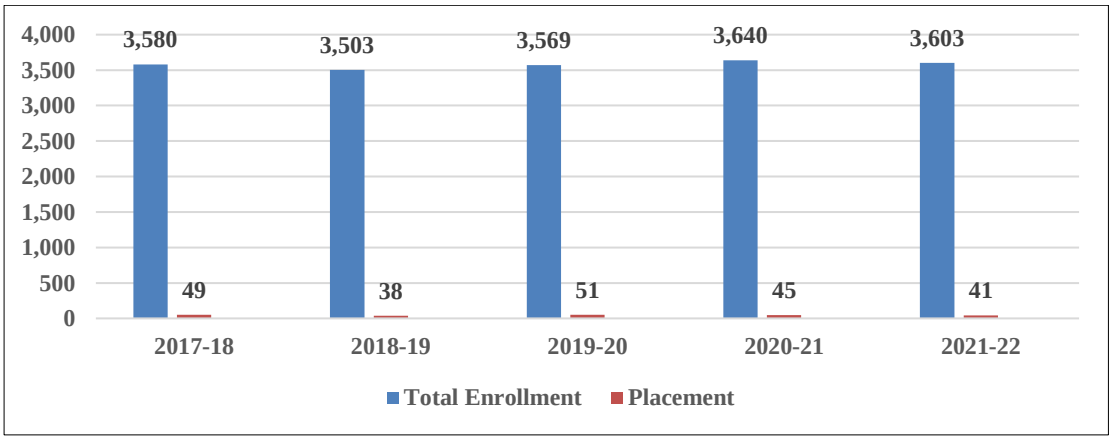
For facilitating placements and summer internship for the students, a Placement Cell (PC) headed by Dean Student Placements was in place in the University since 2009. Records showed that the PC had not followed any process/ calendar for placement activities.

Audit further observed that none of the students enrolled in general courses offered by the University had secured placements and the placement activity was restricted to a few select departments[12]. Out of over 1,000 students enrolled in professional departments such as MBA (International Business), MBA (Hospitality and Tourism) and MCA programme, only 224 had got placed during 2017-22 as depicted in **Chart 2.1:**

[11] Furniture: ₹ 30.93 lakh; Desktops: ₹ 39.62 lakh; Professional services: ₹ 27.69 lakh; and international travel: ₹ 7.49 lakh.

[12] The Business School, Department of Computer Science & Information Technology and International Centre for Cross Cultural Research & Human Resources (ICCCR & HRM)

Chart 2.1: Placement Data



(Source: Information provided by the University Placement Cell)

Dean Student's Placement stated (February 2023) that placement being an industry driven process, it was difficult to develop a structured calendar for placement activities and that majority of corporate placements was in respect of professional departments. Registrar, added (November 2023) that students enrolled in general courses usually opt for higher studies or prefer the Government sector as such placements in such courses is always less.

2.6 Preparedness for Implementation of NEP 2020

National Education Policy (NEP) 2020 rests on the principles of affordability, accessibility, quality, equity and accountability, at all levels of education from school education to higher education including professional and adult education.

The University created (December 2021) an NEP Cell to prepare the road map, work out modalities and modify Statutes for implementation of NEP 2020. However, no road map for comprehensive and holistic implementation of NEP in a phased manner was in place as of March 2022 resulting in lack of preparedness for implementation of NEP. NEP Cell remained restricted to preparation of curriculum framework/Statute for introduction of four year UG programme in the Government affiliated colleges of the University.

- As per implementation plan of NEP 2020, HEIs had to set up academic internal audit teams for mapping existing curricula, set up incubation centers to promote technological development, inter-disciplinary research, industry academia partnerships and hold workshops and training for faculty for developing output driven and value education based multi-disciplinary curriculum by the year 2021. Audit noticed that the University had not taken any of these initiatives as of March 2023.
- Against existing three year UG programmes, the University notified (November 2022) Statute for introduction of four year UG programmes under NEP 2020 in its affiliated colleges from academic session starting from

December 2022. However, instead of framing the entire course structure for four years, course curriculum was framed for only first two semesters in 35[13] out of 37 test-checked courses and that too without holding any consultative workshops with industry and subject experts from multidisciplinary universities across the country for inclusion of innovative practices in course curricula, flexibility in choice of subjects and employability of students. Against required 16 credits for vocational/ skill based courses, the University adopted a credit requirement of only six credits.

Registrar stated (February 2025) that NEP-2020 was implemented at the UG level with effect from 2022-23 on the directions of the Higher Education Department, UT Government of J&K. It was added that the Statutes/ Scheme of Master's Degree Programmes as per NEP-2020 are being prepared by the Committee constituted for the purpose and the same shall be implemented from the Academic Session 2025-26 onwards.

2.7 Conduct of Examinations and Evaluation of Answers Sheets

As per NAAC Manual, the effectiveness of examination system of HEI depends on regularity in conducting examination, quality of questions, extent of transparency in the system, time taken in declaration of results and mechanism for prompt action on possible errors etc.

2.7.1 Automation of examination wing

For reducing dependence on human intervention and putting in place an error free examination system, the UGC Report (2019) on 'Evaluation Reforms in HEIs in India' recommended automation of various examination functions right from registration of students to convocation through an integrated system.

Audit observed that the University had not initiated any action to ensure full automation of examination functions. Although the system of filling on-line forms for issue of marks cards, degrees and migration certificates had been introduced (July 2020), it was restricted to only submitting online applications and making payments. Students were required to deposit a hard copy of the online application in person after which applications were being processed manually.

Audit noticed instances of errors in the marks cards, which could have been avoided if the system was automated. Audit observed in 12 test-checked courses[14] that out of 21,712 marks cards issued to the students during 2017-22, incorrect registration numbers were entered and there were spelling errors in name/ parentage/ address etc.in 570 marks cards necessitating issue of duplicate marks cards. This had resulted in duplication of effort and inconvenience to students.

[13] Except Statistics and Environment Science

[14] B.Ed, MBBS, MBA, B.Tech/ BE, Bachelor's in Music & Fine Arts, B. Lib, M. Lib, LLB and ODL programmes in PG Hindi, PG Urdu, PG Dogri, PG Economics and PG English

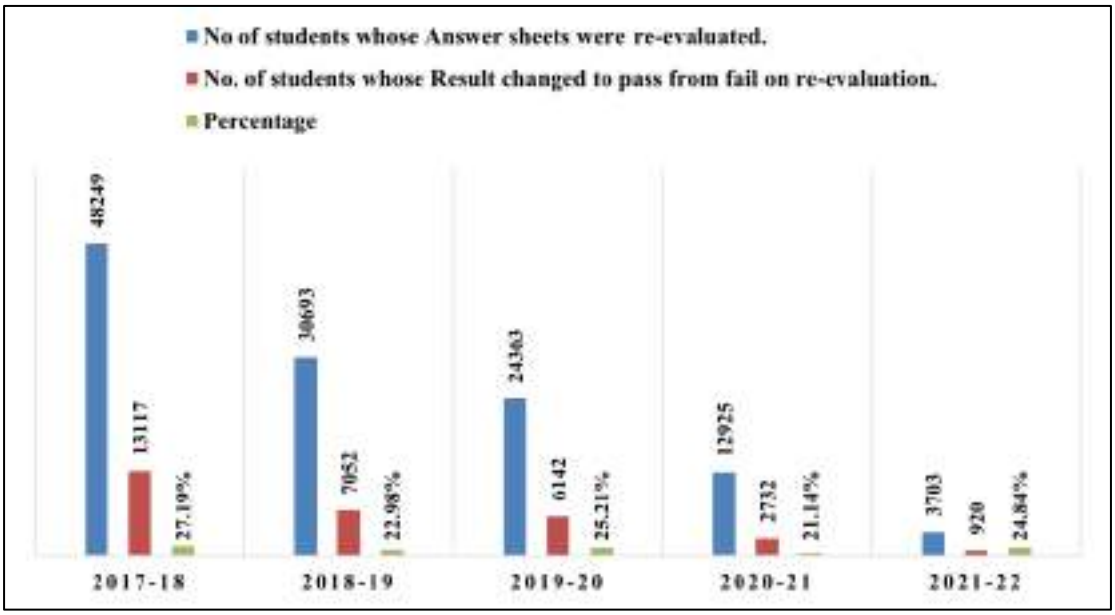
Further, out of 51 UG/ PG professional courses conducted by affiliated colleges and through Open & Distance Learning (ODL) mode, pre-printed marks cards were filled manually in respect of 24 UG/ PG professional courses. Computerised marks cards were generated in respect of 27 UG/ PG professional courses only.

While accepting the audit observation, Registrar stated (February 2025) that the University of Jammu is shifting to Samarth[15] for its range of examination related functions, after which it hopes to achieve full automation of its examination related functions.

2.7.2 Incorrect Evaluation of Answer Sheets

Audit assessed the accuracy of evaluation of answer sheets in the University on the basis of students whose marks had been increased after re-evaluation of their answer sheets during 2017-22. Details of students who applied for re-evaluation of their answer sheets and students whose result changed to pass from fail on re-evaluation during 2017-22 is given in **Chart 2.2:**

Chart 2.2 Students whose result got changed from fail to pass after re-evaluation



(***Source: Information provided by the Controller of Examinations***)

It can be seen from the **Chart 2.2** that the percentage of students whose result had got changed from fail to pass ranged between 21 and 27 *per cent* during 2017-22, indicating that there is a lot of scope for improvement in the examination system.

Registrar stated (February 2025) that to enhance accuracy, reduce errors and maintain uniform standards of evaluation, the University has devised instructions for evaluation for further circulation to the sub-examiners.

[15] Samarth platform is a comprehensive Enterprise Resource Planning (ERP) system launched by Ministry of Education in 2019, which provides Universities and HEIs a digital framework for planning management, delivery and monitoring of services.

2.7.3 Delay in Publishing Results of Re-evaluation

Records of the Examination Wing of the University showed that during 2017-22, in respect of 96 test-checked re-evaluation cases, results of only 29 cases (30 *per cent*) were declared within six weeks as stipulated in University Statutes. In respect of 22 cases (23 *per cent*), the delay in declaration of results ranged up to 10 days while in the remaining 45 cases (47 *per cent*), the delay ranged between 14 days and 135 days. Audit noticed that 8,498 final year undergraduate students had applied for re-evaluation of their answer scripts during 2017-18 to 2019-20, of which 2,919 students (34 *per cent*) were declared successful. Incorrect evaluation of answer scripts and delay in their re-evaluation carries the risk that the successful candidates are deprived of employment opportunities, further studies, enrolment in competitive exams etc., or forced to reappear for the same examination.

While accepting the audit observation, Registrar attributed (February 2025) the delays to high volume of applications, examiner unavailability, or the need for thorough quality checks to maintain fairness. It was assured that the University is implementing a tracking system for re-evaluation requests to streamline operations and improve efficiency. Additional evaluators are being engaged during peak periods to minimise delays, and a strict timeline for result declaration is being enforced.

2.7.4 Out of Syllabus Questions

UGC as part of its quality mandate recommended (2019) implementation of examination reforms, which included introduction of Question bank system as a measure for development of standards for setting quality question papers with the involvement of known experts from different institutions.

Further, Rule 79 and 80 of the University Statutes (Volume-II), stipulate setting up of a committee for appointment of paper setters for various examinations. Further, complaints, if any, against any question paper are dealt with by an Expert Committee (EC) nominated by the Vice-Chancellor of the University. If EC is of the opinion that the complaint deserves to be entertained, the relevant extracts from the complaint along with comments and suggestions of EC are forwarded to the paper setter.

Audit noticed that during 2017-22, the University had not constituted the committee for appointment of paper setters. In absence of the committee, a panel of paper setters in a particular subject is nominated by the convenors of respective Board of Studies and Controller of Examination further selects one among the panel for paper setting of that subject. Further, the University had not implemented examination reforms of UGC on adoption of Question bank system.

Audit noticed instances of ‘out of syllabus’ questions in 135 question papers of various UG/ PG programmes during 2017-22, which were examined by Expert Committee. Complaints regarding these question papers were examined by the EC which reported negligence and oversight during setting question papers such as

setting question paper from new syllabus instead of old syllabus and incomplete question papers etc. As per recommendations of the EC, re-examination was conducted in 13 cases and in 61 cases students were awarded grace marks. However, no action was taken against the defaulting paper setters. Audit noticed that 'out of syllabus' questions had caused avoidable hardship to students and loss to the University as it had to conduct re-examinations.

While accepting the audit observation, Registrar stated (February 2025) that issue of out of syllabus questions may have resulted from misinterpretation or oversight by paper setters. It was further stated that to prevent recurrence, the University is strengthening the moderation process by introducing additional layers of scrutiny and subject expert reviews.

2.7.5 Delay in Declaration of Results

Rule 57 of Chapter 38 of University Statutes (Volume II) stipulates that after the process of conducting the examination of a particular class is over, the Controller of Examinations shall ensure that the examination result is declared within 90 days.

Audit scrutiny of records of Examination Wing of the University revealed delay in publication of results after dates of examination. Out of 234 sampled cases of End Semester Examinations (ESE) for three-year UG programmes in affiliated colleges and for ODL students during 2017 to 2021, there was delay in publication of results in 110 (47 *per cent*) ESEs. Out of which, in 68 cases (62 *per cent*) there was delay ranging between 30 days and 376 days with a percentage delay ranging between 31 *per cent* and 59 *per cent* as detailed in **Table 2.1:**

Table 2.1: Delay in declaration of results of UG programmes during 2017-21

Year	No. of Exams conducted (sampled cases)	Results declared with delay	Percentage delay in declaration of results	No. of cases in which delay was above 30 days
2017	35	11	31	6 (ranging between 30 and 158 days)
2018	53	21	40	13 (ranging between 30 and 128 days)
2019	52	27	52	14 (ranging between 30 and 376 days)
2020	35	16	46	8 (ranging between 30 and 155 days)
2021	59	35	59	27 (ranging between 30 and 89)
Total	**234**	**110**	**47**	**68**

(*Source: Information provided by the Controller of Examinations*)

Information collected from 28 out of 38 test-checked PG departments in respect of declaration of results of ESEs revealed that there was delay in declaration of results in 16 departments, out of which delay in 12 departments ranged between 30 days and 1,014 days. Delays in declaration of results could also be attributed to non-automation of examination functions as discussed under **Paragraph 2.7.1**. Failure of the University to publish results in time leads to courses lagging and impacts academic mobility of the students.

While accepting the audit observation, Registrar stated (February 2025) that the University is in the process of implementing an Automated Result Processing System to minimise Manual intervention and reduce processing time.

2.8 Research Activities

As per NAAC Accreditation Manual, promotion of research is a significant responsibility of HEIs including Universities. The HEIs have to evolve appropriate policies and practices for undertaking research activities, make adequate resources available for research and encourage active involvement of teachers and scholars in research. The outcome of research includes inventions, number of patents obtained, number of research publications and providing of consultancy services by faculty.

2.8.1 Non-adherence to Minimum Standards for Appointing Research Supervisors

As per UGC Regulations on Minimum Standards and Procedure for award of PhD/ MPhil degree, 2016 a Research Supervisor should be a regular Professor of the University/ College concerned, with at least five research publications in referred journals or a regular Associate/ Assistant Professor of the University/ College concerned with a PhD degree and at least two research publications in referred journals.

Audit noted that the University had appointed (June 2019) two Academic Co-coordinators as Supervisors for guiding PhD scholars, thereby diluting the provisions of UGC Regulations on the issue.

Registrar stated (February 2025) that two Academic Coordinators were initially allowed to act as Co-Supervisor and subsequently one Academic Coordinator was appointed as Supervisor for guiding Ph.D. Scholars on the recommendations of the committee.

The fact remained that the recommendations were not in consonance with UGC Regulations on appointments of Research Supervisors.

2.8.2 Delay in Evaluation of PhD Thesis

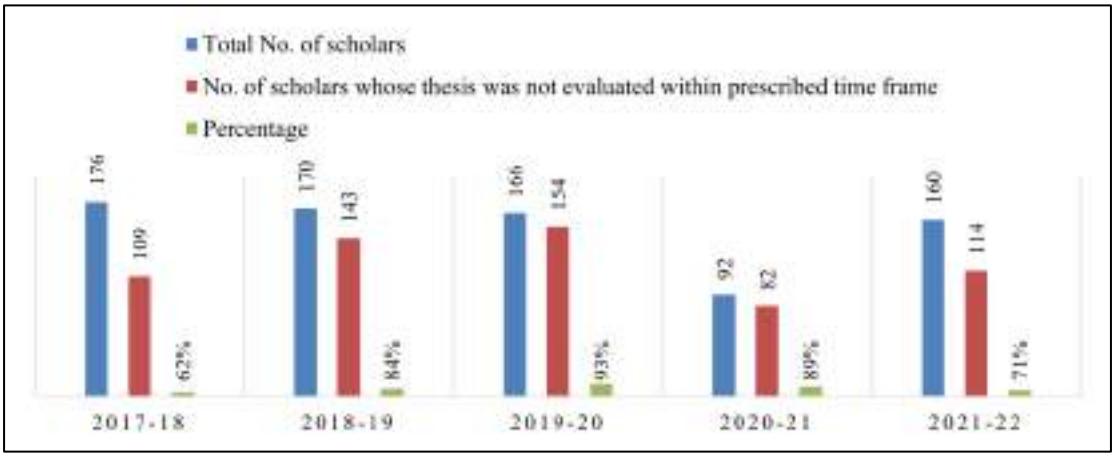
Rule 31 (e) of University Statutes stipulates that the Controller of Examination (CoE) shall complete evaluation of PhD thesis within six months from the date of submission of the thesis. Records of University showed that there were abnormal delays in evaluation of PhD thesis of Research scholars as detailed in **Table 2.2 and Chart 2.3:**

Table 2.2: Delay in evaluation of PhD thesis of Research scholars

Sl. No.	Year	Number of scholars	Number of scholars whose thesis was not evaluated as of March 2022	Number of scholars whose thesis was evaluated as of March 2022	Number of scholars whose thesis was evaluated within prescribed time	Number of scholars whose thesis was not evaluated within prescribed time (*percentage*)	Number of scholars whose thesis was evaluated with delay ranging between 30 days and 1,481 days
1	2017-18	176	0	176	67	109 (*62*)	81
2	2018-19	170	01	169	27	142 (*84*)	125
3	2019-20	166	03	163	12	151 (*93*)	149
4	2020-21	92	06	86	10	76 (*88*)	66
5	2021-22	160	15	145	46	99 (*68*)	73
	Total	**764**	**25**	**739**	**162**	**577 (*78*)**	**494**

(Source: Information provided by the Controller of Examinations)

2.3 Delay in evaluation of Ph.D Thesis



(*Source: Information provided by the Controller of Examinations*)

During 2017-22, out of 764 Research scholars who had submitted their thesis for evaluation, thesis of 739 were evaluated. Thesis of only 162 scholars (22 *per cent*) was evaluated within prescribed six months. Evaluation of thesis of 577 scholars (78 *per cent*) was not completed within the prescribed timeline. Delay in evaluation of thesis of 494 out of 577 scholars had ranged between 30 days and 1,481 days.

Registrar attributed (February 2025) the delay to COVID-19 pandemic, unavailability of subject-specific experts and procedural formalities. It was added that the University has streamlined the thesis evaluation process by introducing digital submission and electronic communication with examiners. It was further stated that efforts have been made to expand the panel of evaluators, ensuring faster assignment of theses to experts.

2.8.3 Externally Funded Research Projects

The University receives Grants-in-Aid from Ministry of Science and Technology (MoS&T), Indian Council of Medical Research (ICMR) and UGC etc., for carrying out basic/ applied research. The research proposals are forwarded to these external funding agencies through the office of Dean Research Studies (DRS). As of March 2022, the University had 86 ongoing externally funded projects (EFPs) which included 74 projects taken up during 2017-22 as detailed in **Table 2.3.**

Table 2.3: Details of externally funded projects as of March 2022

Sl. No.	Year	Running projects at the beginning of year	New projects taken up during the year	Projects concluded	Ongoing projects at the end of the year
1	2017-18	66	10	9	67
2	2018-19	67	19	12	74
3	2019-20	74	20	14	80
4	2020-21	80	5	13	72
5	2021-22	72	20	6	86
Total			**74**	**54**	

(***Source: Information provided by the Dean Research Studies***)

Audit noticed that after sanction of research projects by external funding agencies, there was no monitoring by DRS and the projects were handled by the respective Project Investigators (PIs). Interim yearly progress reports were not sought by DRS from PIs for mid-term review of projects for any course correction.

Non-monitoring of externally aided research projects by the University was noticed in five out of 72 test-checked research projects sanctioned between February 2012 and May 2019 at a cost of ₹ 2.11 crore by Ministry of Science & Technology (MoS&T) and Indian Council of Social Science Research (ICSSR). After these five projects were taken up during 2012-2019, they were abandoned after incurring an expenditure of ₹ 0.12 crore resulting in non-fulfilment of intended objectives due to reasons detailed in **Table 2.4**.

Table 2.4: Abandonment of five research projects

Sl. No.	Department/ Funding Agency	Projects	Date of Start	Cost (₹ in lakh)/ period of completion	Release/ expenditure (₹ in lakh)	Reasons for and comments on abandonment of works
1	Geology/ Science and Engineering Research Board (SERB)	Tectonic Geomorphology and Cenozoic Morphotectonic Evolution of Dharmshala-Palampur area in Himachal Pradesh	21.11.2013	23.96/ 36 months	12.96/ 6.27	PI left (December 2015) the job to serve another organisation. The University did not appoint co-PI to complete the research project. Unspent balance of

Sl. No.	Department/ Funding Agency	Projects	Date of Start	Cost (₹ in lakh)/ period of completion	Release/ expenditure (₹ in lakh)	Reasons for and comments on abandonment of works
						₹ 6.69 lakh was not refunded to the funding agency as of March 2023.
2	Law/ ICSSR	Efficacy of Building and Construction Workers Act 1996: A socio-legal study in Jammu Province	10.01.2018	2.50/ 12 months (Extended upto July 2019)	1.50/ 0.30	It was stated that 2nd instalment had remained untraced upto July 2019. Unspent balance was refunded (April 2022) to the funding agency.
3	Physics and Electronics/ Department of Science and Technology (DST)	Collaboration by Indian Physicist on Neutrino projects at Fermilab (USA)	28.03.2019	71.89/ 60 months	12.72/ Nil	The project was irregularly assigned to a PI who had to retire, after three months of allotment of Project, in June 2019. ₹ 15.19 lakh (including interest) refunded (August 2022) to the funding agency.
4	Biotechnology/ DST	Development and dissemination of appropriate technologies under Rural Action Technology Group (RUTAG)	13.03.2015	55.29/ 36 months	10/ 5.81	Though expenditure of ₹ 5.81 lakh was incurred on purchase of equipment, travel expenses etc., the University had not appointed required manpower to carry out intended activities. ₹ 4.19 lakh was refunded (February 2021) to the funding agency.
5	Biotechnology/ DST	Characterization of the germplasm and development of quality planting material in walnut	21.05.2019	57.85/ 36 months	36.48/ Nil	It was stated that the project could not be taken up as ₹ 25.42 lakh received as non-recurring grant for purchase of equipment could not be traced in time. Request made (November 2021) to

Sl. No.	Department/ Funding Agency	Projects	Date of Start	Cost (₹ in lakh)/ period of completion	Release/ expenditure (₹ in lakh)	Reasons for and comments on abandonment of works
						DST for purchase of equipment (Plant growth chamber) and utilisation of grant during financial year 2021-22 was not acceded to. Unspent amount of ₹ 36.48 lakh was not refunded to the funding agency as of March 2023.

(*Source: Based on information provided by the Dean Research Studies and Grants sections*)

Registrar stated (February 2025) that corrective measures have been taken by constituting a centralized committee for monitoring research projects.

2.8.4 Delay in Completion of Research Projects

Out of 86 ongoing research projects, eight projects taken up between 2012 and 2019 remained incomplete as of March 2023, despite lapse of timeline within which they were to be completed. Against the estimated cost of ₹ 250.12 lakh of these eight incomplete projects, an expenditure of ₹ 47.71 lakh was incurred as of March 2022 resulting in partial/ non-achievement of intended objectives. DRS wing had not called for interim progress reports of these incomplete projects.

Registrar stated (February 2025) that corrective measures have been taken by constituting a centralised committee for monitoring research projects. It was further added that the Research Advisory Council chaired by Vice-Chancellor also stands constituted to monitor progress of research projects.

2.8.5 Outcomes of Completed Research Projects

Out of 54 projects completed during 2017-22, completion reports in respect of nine projects pertaining to School of Biotechnology were not produced to audit. Out of the remaining 45 completed projects, audit analysed the outcome of 12 research projects with respect to their intended objectives and noticed as follows:

2.8.5.1 Results of Research/ Lack of Technology Transfer not disseminated

To ensure that research findings have an impact, the Chancellor emphasised (April 2018) that the University should share research reports with Government Departments/ Industry/ other social institutions to ensure that benefits of research reach the people at large. Moreover, as per guidance document on Good Academic Research Practices (GARP) released by UGC in the year 2020, researchers should

present all results of research including favourable, unfavourable and null findings in their reports to save time of future researchers who need not redo the work that has already been done.

Audit observed that though 54 projects were reported completed during 2017-22, their outcomes were not available with any centralised body in the University. Out of 12 completed projects analysed in audit, publications were made only in respect of eight projects.

Dean Research Studies (DRS) had no consolidated information regarding number of research papers published and their impact so that their quality could be assessed. Further, nothing was on record with DRS to suggest that research reports were submitted to and reviewed by funding agencies. Audit further observed that no mechanism was in place in the University for sharing research reports with Government Departments, industry or social organisations who could benefit from such research. Instances are detailed in ***Appendix 2.1*.**

While accepting the audit observation, Registrar stated (February 2025) that observation has been noted for necessary compliance. University shall be taking necessary steps in this regard and accordingly a Committee has been constituted for technology transfer possibilities.

2.8.5.2 Results of research not utilised

In respect of 06, out of 15 test-checked completed projects outcomes/ results of research in the shape of improved genotypes, molecular characterisations, seismological databases etc., having potential of long-term utilisation, had not been utilised for further studies for achieving long-term benefits ***(Appendix 2.2)***. There was no mechanism in the University for convergence/ pooling of research results so that output of one project would serve as input to other projects to maintain continuity in research for achieving long-term results.

While accepting the audit observation, Registrar stated (February 2025) that observation has been noted for necessary compliance. University shall be taking necessary steps in this regard and accordingly a Committee has been constituted for technology transfer possibilities.

2.8.5.3 Research and Innovation Cluster not institutionalised

With the objective of forging partnership with other Universities and research initiatives of the State/ UT departments, a Research and Innovation Cluster (RIC) was

approved (June 2020) by the UC with seven[16] centres of excellence. The RIC was to cater to needs of the faculty of the University and other HEIs of the region in a

[16] (i) Data Science and Artificial Intelligence Centre (ii) Discovery Genomics Centre (iii) Centre for Nanotechnology and Material Science (iv) Centre for Virology (v) Plant and Microbial Genetic Resource Centre (vi) Centre for Climate Change and Sustainable Development and (vii) Centre for Global Corporate Governance in Society.

diverse range of disciplines including Life Sciences, Physical Sciences, Earth Sciences, Material Sciences, Mathematical Sciences, Humanities and Business Studies. Each Centre was envisioned to develop patents/ products and undertake consultancy projects for further sustenance.

Audit noted that as of March 2022, the RIC and its constituent centres had not been set up. The University had neither prepared any road map for institutionalisation of RIC nor initiated any action for identifying subject matter experts, developing infrastructure and providing for recurring costs etc.

Registrar stated (February 2025) that Higher Education Department under CAPEX grant sanctioned ₹ 10.00 crore and ₹ 4.00 crore were allocated from internal resources for the construction of the Research Cluster.

2.9 Adherence to Affiliation Regulations

As per UGC Regulations 2009, a college either run by State Government or private body, seeking affiliation shall satisfy requirements prescribed by UGC or statutory/ regulatory body whichever is higher.

As per rule 12.6 of Chapter 4 of Statutes of the University of Jammu, before granting affiliation to a college, an Inspection Committee (IC) comprising University experts nominated by the Vice-Chancellor has to check whether there is demand for opening the college and whether infrastructural facilities, faculty, managing committee and other support systems have been put in place by the College authorities. Board of Inspection (BoI) of the University submits the report of the IC to the University Syndicate (US) which either refuses affiliation or grants permanent/ temporary affiliation to the newly established college.

As per rule 12.8 of chapter 4 of Statutes of the University of Jammu, temporary affiliation shall be granted initially for a period of one year which shall be extended/ renewed by the University on year-to-year basis through an inspection process. For grant of permanent affiliation, the college should have completed five years of satisfactory performance after getting temporary affiliation subject to fulfillment of other prescribed conditions.

Audit noticed that out of 132 temporary affiliated colleges, 84 colleges were functioning with temporary affiliation for periods ranging between 06 and 28 years. Despite ICs persistently pointing out deficiencies, the University failed to fix time frame for colleges/ institutes to set right those deficiencies. Instead, provisional affiliations continued to be granted to such colleges/ institutes year after year depriving the students of quality education.

Registrar stated (February 2025) that temporary affiliation of college is being extended on the basis of Inspection Reports submitted by the Committees constituted for the purpose. It was further stated that the University has not violated any Statute in

not allowing colleges to become permanent as many of the colleges do not fulfil the eligibility criteria.

The reply is to be seen in the light that the University Statutes permits to start programme in a college for the first year in a readily available building with the condition that the college shall complete the building by the end of the second year and move completely to the permanent building by the beginning of the third year, failing which the college shall not be granted extension/ renewal of temporary affiliation. Not initiating of action against the defaulting colleges resulted in not fulfilling of requirements for permanent affiliation and continuation of temporary affiliation.

2.10 Periodical Inspection of Affiliated Colleges

Rule 42 of Chapter IV of University Statutes provides for periodical inspection of each affiliate/ constituent college once every three years after grant of affiliation or after the inspection was last held. Further, as per Rule 35 of the University Statutes, the Board of Inspection (BoI) is responsible for receiving applications for affiliation and cause inspection to be made and lay its reports before the University Syndicate for decision.

Audit noticed that against the required 54 inspections in 32 colleges, which were granted permanent affiliation between 1955 and 2008, only 26 inspections had been conducted during 2017-22. Further, BoI had not met between August 2017 and June 2022, as such affiliations granted by the University to 50 colleges (Government: 37 and Non-Government: 13) between 2017-18 and 2021-22 were without oversight of BoI.

It was also noted that while framing inspection reports of colleges, the inspection teams did not capture details of key performance indicators such as availability of teaching/ non-teaching staff, infrastructure/ amenities and academic requirements in the proforma devised (January 2014) by the University for periodical inspection of colleges. This had resulted in not reporting of deficiencies in the availability of facilities in colleges as discussed under the succeeding Paragraph.

Registrar stated (February 2025) that as per the Statute, periodical inspection is not mandatory. The Registrar added that while carrying out inspection for grant of renewal/ extension of temporary affiliation of an institution, details of key performance indicators are reported as per updated proforma. It was further added that last meeting of the BoI was conducted on 30 July 2024 and next meeting is proposed to be conducted in the month of May 2025.

The reply is factually incorrect as Statute 42 of the University provides that BOI shall arrange periodical inspection of each affiliated/ constituent college and there is no mention of discretion in the Statutes. Besides, no meeting of BoI was held between

August 2017 to June 2022 and none of the inspection reports produced to audit was captured in prescribed proforma.

2.11 Availability of Infrastructure in Affiliated Colleges

As per provisions of Clause 2.4 of chapter 5 of University Statutes, the eligibility criteria for grant of affiliation for establishment of a new college includes possession of undisputed land, availability of academic and administrative building, laboratory, library, auditorium, sports facility and separate hostel for boys and girls etc. In exceptional cases, University Statutes permit to start programmes in a college for the first year in a readily available building with the condition that the college shall complete the building by the end of the second year and move completely to the permanent building by the beginning of the third year, failing which the college shall not be granted extension/ renewal of temporary affiliation.

Audit noted that as of March 2022:

- Seven out of 15 test-checked colleges and four out of 51 physically verified colleges, established between 2003 and 2019, were not having their own building and were operating from other buildings.
- In 29 out of 51 physically verified colleges, hostel facilities were not offered to students. Out of 22 colleges with hostel facility, mess facilities was available in only 17 colleges.
- Facility of Auditorium was available only in 13 out of 51 physically verified colleges.

Registrar stated (February 2025) that Construction work of the college buildings (except 2-3 colleges) is in progress and nearing completion. It was further added that the Government Colleges are available at the Tehsil level, so many of the students do not have the necessity to stay in the hostel. The reply is to be seen in the light that as per University Statutes the academic buildings and hostels are the basic infrastructure requirements for affiliation without which temporary affiliation cannot be extended beyond three years.

2.12 Appointment of Teaching Staff in violation of Norms

As per Clause 3.3.0 of the UGC Regulations on Minimum Qualification for Appointment of Teachers and other Academic Staff in Universities and Colleges minimum qualification for appointment as an Assistant Professor is Master's Degree with 55 *per cent* marks in the relevant/ allied subject. The candidate must have cleared the National Eligibility Test (NET) or State Level Eligibility Test (SLET) or State Eligibility Test (SET). However, the candidates who have been awarded a PhD shall be exempted from qualification NET/SLET/SET. The qualification and selection procedure for appointment of teachers on contract basis should be same as those applicable to a regularly appointed teacher. The appointments are to be made on the

recommendations of a duly constituted Selection Committee consisting of Chairperson of the Governing Body of the Institute, two subject experts, Principal of the College, Head of Department of the subject concerned and two nominees of the Vice-Chancellor of the affiliating University.

Pharmacy Council of India (PCI) and Nursing Council of India (NCI) stipulate a qualification of M. Pharma/ Pharma D and PhD/ M. Sc Nursing for being appointed as Pharmacy and Nursing teachers respectively. For appointment of teachers in colleges of education running B. Ed courses, NCTE prescribes a qualification of M.A (Social Science) and M. Ed or M.A (Education) and B.Ed.

Data collected from 51 physically verified colleges (Government: 17 and Non-Government: 34), showed that 113 teachers out of 331 teachers appointed in 24 Non-Government colleges did not possess the prescribed qualifications for appointment as such academic standards had been compromised by these colleges. Further, in 32 Non-Government colleges, 168 teachers were appointed on adhoc basis without the approval of the Selection Committee[17].

Further, as per provisions of 11.1 of Statutes of governing affiliation, each affiliated college requires to send a statement showing full particulars of the members of teaching staff available in various courses to the College Development Council (CDC) by 1st of August every year. However, none of the 51 physically verified colleges had submitted the said statement, indicating any change in the management and teaching staff and qualification of new staff. As of April 2023, the University had not taken any action against affiliated colleges for non-submission of the required report.

Registrar stated (February 2025) that University withheld the admission of two defaulting Non-Government colleges of education for session 2022-23 and has also initiated process to withhold admission of 2-3 more colleges which are deviating from the Statutes for the session 2023-24.

2.13 Irregular upgradation of UG colleges to PG Colleges

As per Rule 15 of Chapter-IV of the University Statutes, any proposal for raising the existing under-graduate college to post-graduate level shall be considered by the University if the college has permanent affiliation and a minimum B Grade NAAC Accreditation in addition to the required permanent faculty. The University Council (UC) also restricted (November 2010) introduction of PG programmes only to permanently affiliated degree colleges.

[17] Chairperson (Governing Body), Dean of Faculty Concerned, HoD or Senior Professor, two nominees of the VC, two subject experts and Principal (Concerned College)

Records showed that five[18] temporarily affiliated Non-Government UG colleges were upgraded (2017-22) to PG colleges. Besides, four out of these five UG colleges were not having NAAC accreditation.

Registrar stated (February 2025) that the University had upgraded three Non-Government nursing colleges and two colleges of education from UG to PG as per the norms of Indian Nursing Council and National Council of Teacher Education.

However, the fact remained that the upgradation of five UG Colleges to PG level was in contravention to the preliminary requirement prescribed in the University Statutes.

2.14 Accreditation of Affiliated Colleges

NAAC evaluates HEIs and awards ratings which remain valid for five years. As per Section 4.1 of UGC (Mandatory Assessment and Accreditation of HEI) Regulations, 2012, it shall be mandatory for each HEI to get accredited by NAAC after two batches of HEI have passed out or if the HEI has been in existence for six years, whichever is earlier. Further, the quality mandate of UGC requires that all colleges should be NAAC accredited by 2022.

Audit noticed that out of 114 colleges which were functioning for over six years, 93 colleges (82 *per cent*) were not NAAC accredited. Pursuant to a resolution (September 2011) of UC regarding upholding academic and quality standards in affiliated colleges, the University had prepared a set of guidelines to prepare colleges for NAAC accreditation. Compliance of these guidelines was to be checked during inspection of colleges for further action by CDC. However, the guidelines had not been implemented, and the University was yet to prepare colleges for NAAC accreditation.

While accepting the audit observation, Registrar stated (February 2025) that a circular has been issued by Director, CDC to the colleges to initiate the process for getting NAAC Accreditation.

2.15 Conclusion

The University did not make efforts to establish industry academia linkage to make the students job ready. University had obtained AICTE approval for only two technical programmes (MBA and MCA), while four technical programmes were running without AICTE approval. Choice based Credit system was partially implemented restricting choices available to students. The evaluation system suffered from operational and monitoring adequacies. Delays in evaluation of results and thesis of PhD students were indicative of serious systemic problems affecting career mobility and academic progression of students. The placement activity was restricted

[18] (i) Rajiv Gandhi College of Nursing, Chakbhalwal (ii) BEE ENN College of Nursing, Jammu (iii) Stephens College of Nursing, Jammu (iv) Rajiv Gandhi Memorial College of Education, Kathua; and (v) Bhartiya College of Education, Udhampur

to a few select departments. Out of 1000 students enrolled during 2017-22 only 224 students got placements through Placement Cell. Monitoring of research projects was inadequate as there were instances of abandoned projects and delays in completion of projects. University Business Incubation and Innovation Centre (UBIIC) and Special Purpose Vehicle (SPV) set up for providing incubation support to potential startups remained non-functional. University could not provide the facilitation for innovation, start-up and entrepreneurship Eighty-four colleges were functioning with temporary affiliation for periods ranging between six and 28 years. In 51 physically verified colleges (Government: 17 and Non-Government: 34), out of 331 teachers appointed in 24 Non-Government colleges, 113 teachers did not possess the prescribed qualifications.

2.16 *Recommendations*

- ***The Dean Research Studies should monitor research projects to avoid abandoning projects and delay in completion of projects.***
- ***A mechanism needs to be put in place for dissemination of results of research and convergence of research output.***
- ***Strict measures should be taken to avoid delay in evaluation of answer scripts and PhD thesis.***
- ***The University should strengthen the affiliation process to ensure only those colleges which comply with all regulatory requirements are granted affiliation. The University should also prepare inspection reports in prescribed formats covering areas of risk that may adversely affect the quality of education.***

CHAPTER-III

HUMAN RESOURCES MANAGEMENT

CHAPTER-III

Human Resources Management

3.1 Non-Framing of Recruitment Rules

Recruitment Rules (RRs) for teaching staff and select non-teaching posts of Registrar, Controller of Examinations (CoE), Deputy/ Assistant Registrars etc. are prescribed by UGC. For other non-teaching posts, the University was required to frame RRs in the light of Guidelines (December 2010) of Department of Personnel and Training (DoPT), Government of India (GoI) which were also endorsed (August 2015) by UGC.

Further, RRs are to be reviewed once in 05 years to effect such change as is necessary including need for additions to or reduction in the strength of employees. Instructions were issued by Administrative Reforms Inspections and Trainings Department[1] of the Government of Jammu and Kashmir (GoJ&K) to all Principal Secretaries, from time to time, the latest being in December 2020, to conduct a comprehensive review of RRs of all Gazetted/ Non-Gazetted services under their administrative control.

Audit observed that as of March 2022, RRs had not been framed for 77 categories out of 142 categories of non-teaching posts borne on the establishment of the University. In absence of Recruitment Rules, these posts were filled on the basis of eligibility criteria defined in the advertisement notice. In respect of the remaining 65 categories for which RRs were framed, the upper/ lower age limit was not prescribed for the recruitment of staff. Further, mode of recruitment and promotions were defined in respect of only eight posts, while regarding the remaining 57 categories, RRs prescribed only minimum qualification. Due to non-framing of RRs/ incompletions in RRs, there were arbitrary promotions and selective application of UGC and GoJ&K Rules as discussed in paragraphs **3.4.1.3** and **3.5.2.1**.

Audit further noticed that the University had also not carried out any restructuring of non-teaching cadre in harmony with the functional needs of the University. Instead, up-gradations were carried out in isolation, on a case-to-case basis, resulting in anomalies which paved way for litigations and extension of up-gradations to other cadres.

Audit also observed that fair and consistent application of rules for appointments, promotions and deployment of manpower were not ensured by the University. This had resulted in the University facing a substantial number of litigations on service matters. As of March 2022, out of the 436 cases filed against the University, 97 cases (22 *per cent*) pertaining to service matters were pending disposal/ final settlement.

[1] Administrative Reforms Inspections and Trainings Department is mandated to finalise/ update the recruitment rules of all Government Departments (Gazetted/ Non-Gazetted services)

Registrar stated (November 2023) that in cases where University has no rules of its own, J&K Civil Service Rules (CSR) are followed. It was further stated that rules of GoJ&K are being implemented in respect of age and while advertising the posts, age relaxation, if any, is given only after the approval of the statutory body. It was further added (February 2025) that Recruitment Rules are in the final stage of approval by the Higher Education Department.

3.2 Vacant Posts

3.2.1 Vacant Teaching Posts

As per UGC Regulations 2010 and 2018 on 'Minimum qualification for appointment of Teachers and other Academic staff in universities and colleges and measures for maintenance of standards in Higher Education' all the sanctioned/ approved posts in the University should be filled on an urgent basis. RUSA guidelines also envisage availability of teaching staff of at least 85 *per cent* of sanctioned strength and require filling up of vacancies in a phased manner.

The position of sanctioned strength of teaching posts and manpower in position as on 31st March 2022 is depicted in **Table 3.1:**

Table 3.1: Sanctioned strength of teaching posts and manpower in position as on 31st March 2022

Sanctioned position as on 31st March 2022			Effective position as on 31st March 2022 with shortfall in percentage		
Professor	**Associate professor**	**Assistant professor**	**Professor**	**Associate professor**	**Assistant professor**
59	86	242	13 (78 *per cent*)	27 (69 *per cent*)	200 (17 *per cent*)

(Source: Information provided by the University)

Against a sanctioned strength of 387 teachers in the University including two off-site campuses[2], only 240 regular teachers (62 *per cent)* were available as of March 2022. Out of 59 sanctioned posts of Professors, 46 posts were vacant and out of 86 sanctioned posts of Associate Professors, 59 posts were vacant. Similarly, out of 242 sanctioned posts of Assistant Professors, 42 were vacant.

Records further showed that in absence of sanctioned posts of Professors in seven academic departments[3] of the University, these departments were running without Professor. One post of Professor in each of the three departments[4] had been converted (between October 2013 and April 2015) into four Assistant Professor posts and one post of Professor in the department of Physics had been temporarily transferred (February 2008) to department of Economics. As of March 2022, the temporarily transferred post was yet to be reverted to the parent department. Five vacant posts of

2 Bhaderwah and Kathua

3 (i) Buddhist Studies (ii) Library Science (iii) Remote Sensing and GIS (iv) Electronics (v) School of Hospitality and Tourism Management (vi) Law School and (vii) Statistics

4 Statistics, Zoology and Law School

Associate Professors were converted to Assistant Professors between April 2012 and April 2014 in departments of Botany, Mathematics, Zoology and Library & Information Science. Two Academic Departments[5] were functioning since their establishment in 2008 and 2021 respectively without any sanctioned teaching posts. These departments were relying on the services of contractual lecturers having the potential to adversely affect the quality of teaching and the academic output.

Deputy Registrar (Creation and Recruitment) and Registrar stated (April 2023, November 2023) that for creation of 42 teaching positions, the matter was being pursued with the Administrative Department. The reply is not convincing as the University was time and again being advised by the GoJ&K to create new positions out of internal resources of the University.

Regarding absence of sanctioned post of professor in seven departments, Registrar stated (November 2023) that proposal for creation of 42 teaching positions has already been submitted to the higher authorities for consideration. Further, during the Exit Conference, Vice-Chancellor stated (February 2025) that conversion of post was necessitated due to non-availability of sufficient number of applications for higher teaching post and to adjust the teaching load.

3.2.2 Review of Vacant Non-Teaching Posts

As per guidelines issued (April 2017) by DoE, GoI and endorsed (July 2021) by Finance Department of GoJ&K, positions remaining vacant for more than two years were to be deemed abolished.

Audit observed that as of March 2022, 228 positions were vacant in non-teaching cadre out of which 173 posts were continuously lying vacant during 2017-22. Of these 173 posts, 18 posts created between April 1999 and April 2014 were vacant since their creation and RRs existed for only three posts. These 18 posts included three posts of Director/ Assistant Director sanctioned (February 2008) for two non-functional centres[6] and two posts of Senior Scientific Officer/ Scientific Officer under University Science Instrumentation Centre (USIC)[7] (vacant since 2003 and 2008) which were not to be continued as per recommendations of Joint Cadre Review Committee (JCRC) endorsed (October 2014) by UGC and adopted (June 2015) by the University.

Assistant Registrar (Creation and Recruitment) stated (May 2023) that 17 non-teaching vacant positions had been placed (April 2019) before the University Syndicate for review, keeping in view the changing needs of the University and that

5 Human Genetics and Journalism & Mass Communication

6 Media Studies Centre and Gandhian Centre for Peace and Conflict Studies

7 USIC was established (August 1987) in the University with UGC funding to provide service to the academic departments/ centres/ offices/ affiliated colleges in repairs and maintenance, of their instruments, assist analytical services on specialised instruments and to provide support facilities in designing and fabrication of teaching aids, kits and scientific equipment.

the matter which was pending with Financial Advisor Universities[8] (FAU) would be dealt with at the time of up-gradation of RRs.

Registrar stated (February 2025) that out of 170 vacant non-teaching positions available for direct recruitment, about 68 positions have been filled and the University is in process to fill the remaining vacant positions in the year 2025.

The replies were silent about not abolishing of vacant posts which were not to be continued as per recommendations of JCRC, which is also adopted by the University.

3.3 Creation/ Conversion/ Re-designation of Posts

Non-plan expenditure (establishment expenditure) of the University is mainly incurred out of grants provided by GoJ&K. Commissioner/ Secretary Finance Department who also acts as the Financial Advisor Universities (FAU) directed (March 2009) that salary of an incumbent appointed against a post of which the nomenclature is not in conformity with the one approved by the Planning and Finance Department is not drawn until proper approval of such re-designated nomenclature is obtained from the competent authority with prior concurrence of FAU. Further, as per University Statutes, creation of posts was to be sanctioned in consultation with FAU.

Audit observed that the University had created (between November 2006 and September 2008) 13 posts and converted/ re-designated (December 2002 to November 2021) 33 posts without obtaining the concurrence of FAU.

Registrar stated (February 2025) that the positions of Academic Coordinator and Coordinator Campuses were created with the qualifications prescribed by the UGC for the faculty positions in the pay scale of Lecturer and Reader respectively.

However, the reply was silent with regard to creation and selective conversion of posts without the approval of FAU.

3.4 Appointment of Staff in the University

UGC norms are applicable to the teaching faculty of Assistant Professors, Associate Professors, and Professors in addition to academic posts of Librarian, Deputy Librarian, Assistant Librarian and Deputy Director/ Director of Physical Education Department. The posts of Registrar, Deputy Registrar, Assistant Registrar and Controller of Examinations (CoE) are also regulated by UGC. Non-teaching staff in the University are governed by the University Statutes and GoJ&K rules.

3.4.1 Appointment of Teaching Staff

The revised UGC Regulations of 2010 prescribe three designations of Assistant Professors, Associate Professors and Professors in place of the then existing hierarchy

[8] Commissioner/ Secretary Finance Department who also acts as the Financial Advisor Universities

of Lecturers, Readers and Professors. Audit noticed the following deficiencies in the appointments of teaching staff.

3.4.1.1 Appointment of Teachers on Contract Basis in Excess of Norms

As per UGC Regulations 2010 on 'Minimum Qualification for appointment of teachers and other academic staff in Universities and colleges and measures for the maintenance of standards in Higher Education', teachers should be appointed on contract basis only when it is absolutely necessary and when the student-teacher ratio does not satisfy the laid down norms and in any case the number of appointments should not exceed 10 *per cent* of the total number of faculty positions of the University. Further, the University issued instructions (May 2015, February 2018, January 2019) to its departments that teachers to be engaged on contractual basis should not be more than the number of vacant positions in the respective Departments/ Centre/ Directorate.

Audit noticed that as of March 2022, the number of teachers working on contract basis in the main campus of the University including Directorate of Distance Education (DDE) was 121 (33 *per cent* of sanctioned 362). The excess 85 contractual teachers comprised 236 *per cent* of permissible limit of 36 contractual teachers[9]. This included four Departments[10] and one Centre[11]of the University, where, against sanctioned strength of 20 teachers, 18 were in position as of March 2022, and against two vacant positions, 17 contractual teachers stood engaged as of March 2022 resulting in excess appointment of 15 contractual teachers.

Further, although the salaries of contractual faculty engaged for self-financing courses were to be paid out of the Local Fund[12] of the respective department as per Government order of 2010, audit observed that salaries of contractual staff appointed under five self-financing courses[13] offered by three departments[14] were debited to Non-Plan funds received from GoJ&K.

While accepting the audit observation, Registrar stated (February 2025) that from the academic session 2024-25, the University has rectified the observation made by Audit and now the requirements of the concerned departments and off-site campuses are being rationalised by a duly constituted Rationalisation Committee. The reply was silent about payment of salaries of contractual staff of self-financing courses from Non-Plan funds.

9 10 *per cent* of 362 sanctioned posts

10 Physical Education, Environmental Sciences, Sociology, School of Hospitality & Tourism Management (SHTM)

11 International Centre for Cross Cultural Research & Human Resources (ICCCR & HRM)

12 Local Fund shall mean a fund which is maintained and administered by a department and to which such fees and charges realised from the students, as are not transferable to the University account, are credited.

13 M.SC Biochemistry, M.Sc. Microbiology, BBA(HM), MBA (H&T) and MSC (Remote Sensing)

14 School of Biotechnology, School of Hospitality and Tourism Management and Department of Remote Sensing & GIS

3.4.1.2 Irregular Appointments without Requisite Teaching Experience

UGC Regulations (1998 and 2010) stipulate mandatory requirements of teaching experience, research work and publications for the post of Associate Professor, Professor and other similar posts. These Regulations also stipulate requirement of five years' teaching experience (excluding the period spent for obtaining the research degrees) and/ or research work for appointment to the post of Reader. Further, UGC Regulations and University Statutes stipulate that previous regular service as Assistant Professor or in an equivalent post should be counted for direct recruitment to the post of Associate Professor. Time spent on acquiring PhD and as guest lecturer shall not qualify for being counted as teaching experience. Further, previous ad-hoc service of more than one-year duration can be counted provided the incumbent is selected for the permanent post in continuation of ad-hoc or temporary service without any break.

Audit noticed that in respect of three cases, time spent on acquiring PhD, service rendered as guest lecturer, adhoc/ consolidated service etc. was included in teaching experience required for appointment of Associate Professors as detailed in **Table 3.2**

Table: 3.2 Appointments without Requisite Teaching Experience

Sl. No.	Irregularity	Reply
1	The University appointed (October 2007) a Reader in the Department of Home Science taking into account her experience as a guest lecturer in the University from June 1998 to June 2003 during which she also pursued PhD. This had also resulted in litigations against the University, which was pending as of March 2025.	Registrar stated (February 2025) that the candidate was appointed as Reader on the recommendations of the Selection Committee held on 07 September 2007. The fact, however, remained that time spent by the teacher in acquiring PhD and as guest lecturer does not qualify for being counted as past service for appointments against a post.
2	The candidature of a Reader appointed (December 2005) in the Department of Economics was considered by counting the period rendered by the candidate for fellowship between January 1996 and January 2002 towards teaching experience.	Registrar stated (February 2025) that the candidate was appointed as Reader on the recommendations of the duly constituted Selection Committee. The reply is not acceptable as no Selection Committee/ Governing Body can override the Regulations, being superior legislation enacted by an Act of the Parliament.
3	An incumbent lecturer was appointed (February 2007) as Reader in the Department of Management after counting the period of seven months and 18 days rendered by the appointee as lecturer in a college on ad-hoc basis, which being of less than one-year duration, did not qualify for counting as teaching experience.	Registrar stated (February 2025) that the candidate was appointed as Reader on the recommendations of the duly constituted Selection Committee against the available post, and there was no violation in the appointment. The reply is not acceptable as Selection Committee/ Governing Body cannot override the Regulations, being a superior legislation enacted by an Act of the Parliament.

3.4.1.3 Arbitrary Appointments in Violation of UGC Norms

As per UGC Regulations, 75 *per cent* of the posts of Deputy Registrars are to be filled by direct recruitment through an All-India advertisement and 25 *per cent* are to be filled by promotion of Assistant Registrars on the basis of merit cum seniority. University Statutes stipulate that the Selection Committee for appointment of officers below the rank of Joint Registrar and Deputy Librarian should comprise Vice-Chancellor as Chairman, Pro Vice-Chancellor (if any), FAU, a member of University Syndicate (nominated by Chancellor) and the Registrar.

Records of the University showed that for appointment of five Deputy Registrars, the University issued (October 2013, September 2015 and July 2017) three advertisement notices for the same post with different sets of eligibility criteria. While the notification of October 2013 did not stipulate any condition for a candidate to be a permanent resident of J&K, in subsequent notifications of September 2015 and July 2017, the requirement of Permanent Resident Certificate (PRC) was prescribed. By stipulating the condition of having PRC, the University not only violated the UGC norms requiring appointment of Deputy Registrars on the basis of All India Merit but also denied the right to 33 non-state subject shortlisted candidates included in the selection list prepared by the University after issue of notification of October 2013.

Further, while GoJ&K norms regarding age limit for appointment were stipulated in the notification of October 2013 and September 2015, the University in its notification of July 2017 incorporated a clause exempting lateral entry posts from the age bar.

By prescribing different criteria in different notifications, the University had violated the court judgment (2008) in the case "*K Manjusree vs State of Andhra Pradesh"* which held that 'Rules of the game cannot be changed midstream' as change of RRs midstream would result in arbitrary elimination of some of the candidates who were otherwise eligible to compete for the post for which the recruitment process was undertaken or alternatively arbitrarily enable some of the candidates who were not otherwise eligible to compete in accordance with the law as existed on the date when the recruitment process was initiated.

Out of 199 applicants competing for the post of Deputy Registrar, 53 applicants were shortlisted for interview and five in service Assistant Registrars were appointed during 2019, which included one ineligible candidate who had already crossed the prescribed age limit of 40 years (including relaxation of three years for in service candidates) on the date of issue of first advertisement in October 2013.

The Selection Committee for appointment of officers of the University constitute Vice-Chancellor, FAU, a member of University Syndicate (US) and the Registrar. Audit noticed that FAU had not participated (26 October 2019) in the selection proceedings for appointment of Deputy Registrars. A US member nominated to the

selection committee by the Vice-Chancellor had ceased to be a member of University of Jammu Syndicate on the date of holding of interviews as he had become a member of University of Kashmir Syndicate when it was reconstituted. While advertising the posts, the University had not provided for reservation to SC/ ST candidates as per percentage prescribed by GoJ&K in accordance with UGC guidelines, 2006 requiring strict implementation of Reservation Policy in the Universities.

Registrar stated (February 2025) that applicability of Permanent Resident Certificate (PRC) and age relaxation for lateral entry posts was resolved in the University Council vide its resolution No. 82.49 dated 22 April 2017. The reply is to be seen in the light that University Council decision cannot override the UGC Regulations.

During exit conference (February 2025), however, while admitting the audit observation of non-applicability of PRC to these posts, it was stated that there will be open advertisement at national level in future.

3.4.2 Filling Direct Recruitment Posts of Assistant Librarians by Lateral Entry

UGC Regulations (1998, 2010 and 2018) stipulate that direct recruitment to the academic posts of Assistant Librarian, Deputy Librarian and Librarian in the Universities and Colleges shall be on the basis of an All-India advertisement and on the recommendations of a duly constituted Selection Committee. The Regulations do not provide for appointment to the post of Assistant librarian through promotion.

The University adopted (February 1983) the recruitment and promotion policy for non-teaching posts of Junior Library Assistants (Semi-Professional Assistants) and Library Assistants (Professional Assistants) and authorised (May 1997) creation of academic posts of Assistant Librarians for the Central Library to the extent of 33 *per cent* of posts of Professional Assistants in the pay scale of ₹ 2,000-4,000 by corresponding reduction of equal number of posts of Professional Assistants. As per policy, the posts of Assistant Librarians were to be filled from amongst eligible Professional Assistants possessing ten years' experience as Library/ Professional Assistant. Taking recourse to this order, the University authorised (March 2008 to November 2015) promotion of Professional Assistants as Assistant Librarians on regular basis in the pay band of ₹ 15,600-39,100 with Academic Grade Pay (AGP) of ₹ 6,000. By filling the entry level posts of Assistant Librarians from non-teaching posts, the University had not only denied opportunities to aspiring meritorious candidates from all over India to apply for these posts but also granted higher pay and allowances to the extent of ₹ 0.72 crore to 12 test-checked Professional Assistants promoted between September 2009 and November 2015.

In charge (Establishment) stated (September 2022) that promotion of Professional Assistants to the post of Assistant Librarian was done as per the recruitment and promotion policy adopted by the University. The fact remained that the promotion policy adopted by the University was in violation of UGC Regulations.

Registrar clarified (February 2025) during exit conference that the promotions were made based on a scheme formulated by the Joint Committee University of Jammu and University of Kashmir. It was assured that the scheme would be withdrawn and henceforth appointments should be made through direct recruitment in consonance with UGC Regulations.

3.4.3 Appointment of Non-Teaching Staff

In absence of RRs for non-teaching positions borne on the establishment of the University, Audit observed that appointments of non-teaching staff were made by regularisation of ad-hoc/ contractual employees as instanced in the following paragraphs.

3.4.3.1 Irregular Appointments through Regularisation without Availability of Posts

Restriction on engagement of daily rated workers (DRWs)/ work charged employees was imposed[15] (March 1994) by GoJ&K which also authorised regularisation of DRWs engaged prior to the cutoff date of 31 March 1994 on the regular pay scale of Class IV, subject to having completed seven years of service.

Records showed that in violation of Government orders, the University had irregularly engaged 607 DRWs/ casual workers/ contractual employees between 2002 and 2011. The irregular engagements made in the absence of vacant posts were probed by a committee constituted (2012) by the Hon'ble Chief Minister in his capacity as Pro-Chancellor, which established malafide intentions and procedural irregularities in these appointments. While directing (August 2013) a strict action against the Vice-Chancellor, Registrars, officers and other officials for all acts of omission and commission, the Financial Advisor Universities (FAU) approved a roadmap for regularisation of contractual employees having completed seven years of uninterrupted service and paid regularly by the University out of non-plan funds. As per road map, such employees who could not be regularised against available post could be designated as 'helpers' with pay scales applicable to Class IV or Class III employees, with creation of Supernumerary and Temporary posts outside the existing hierarchy of the University.

Audit noticed that the University had not taken any action against officers responsible for irregular engagement of DRWs/ casual workers/ contractual employees as directed by FAU. Records showed that the University while notifying (April 2014) the roadmap, remodeled the framework issued by FAU and extended the scheme of regularisation also to contractual appointees paid from University resources. Audit noticed that the cutoff date had not been specified in the notification for accommodating contractual employees who had not completed seven years on the date of issue of notification.

[15] Vide SRO-64 of March 1994

Out of 607 daily wagers/ contractual employees, the University regularised (with effect from December 2014 onwards) 599 of them against 203 available posts of Junior Assistants, Semi-Professional Assistants, Junior Engineers, Computer Operators, Helpers/ Safaiwalas/ Malis etc. as and when these posts became available and by creating 396 Supernumerary posts.
These included, 51 employees whose salary had been drawn from internal resources of the University and five employees who did not have continuous service of seven years.
As of May 2022, there were 251 Supernumerary posts existing on the establishment of the University.

Registrar stated (February 2025) that the University had not regularised any person in the University under the roadmap after Reorganisation of Jammu and Kashmir State into Union Territory in the year 2019.

Reply was silent about the irregularities in appointment through regularisation.

3.4.3.2 Irregular Appointments

Audit noted irregular appointments against non-teaching post as detailed in **Table 3.3.**

Table: 3.3 Irregular Appointment for Non-Teaching post

Sl. No.	Irregularity	Reply
1	Based on the requisition (December 2007) of University of Jammu, the services of a Section Officer from Shri Mata Vaishno Devi University (SMVDU) were placed (December 2007) at the disposal of the University against a non-existent post of 'Officer on Special Duty', who was subsequently absorbed (July 2008) against a post of Media Officer (created in July 2008), without concurrence of FAU/ US/ AC and without advertising the post.	Registrar stated (November 2023) that the absorption of the incumbent was approved (February 2008) by the University Council and after approval of Chancellor a post of Media Officer was created. The fact remained that the absorption was done in violation of Statutes, and the approval of University Council cannot override the Statutes.
2	A contractual employee was appointed (December 2009) to the post of External Relation Officer (ERO) created (September 2008) without concurrence of FAU/ US, by ignoring other higher qualified shortlisted candidates possessing PG degree or diploma in Journalism and Tourism.	Registrar stated (February 2025) that post of ERO was created by competent authority and selection was made as per the University norms. The fact, however, remained that the post was created by then Registrar and advertised by the then Rector without the approval of Governing bodies and FAU.
3	A contractual appointee above 40 years of age was appointed (August 2013) to the post of Landscape Development Officer advertised in January 2013. The age relaxation of two years and 28 days granted to the appointee had not been referred to HED i.e. Administrative Department as required in terms of Government	Registrar stated (February 2025) that age relaxation was granted as per the rule mentioned in J&K Government Gazette dated 29 April 2010. The reply is not valid as the act referred to dealing with age relaxation for regularisation of contractual employees.

Sl. No.	Irregularity	Reply
	order of December 2000. Due to complaints received from various quarters, the matter was belatedly referred (February 2016) to the FAU but no responsibility had been fixed for favouritism extended by the then officers.	Whereas in the instant case, the appointment was made after advertisement of the post.

3.5 Career Advancement of Staff

3.5.1 Career Advancement of Teaching Staff

UGC Regulations 2010 specified the stages for promotion of teachers under Career Advancement Scheme (CAS) and made Academic Performance Indicator (API) mandatory for placement in the next higher grade. The Regulations stipulated performance-based evaluation of teaching, learning, professional development, research and academic contributions under three broad categories[16] with a mandatory minimum year-wise score of 75 per year under Category I, 15 per year under Category II and 10 to 40 per year for different stages in Category III.

3.5.1.1 Irregular Promotions due to Non-Adoption of Capping Procedure

UGC Regulations 2010 amended for the 2nd time in June 2013 referred to as UGC Regulations 2013 prescribed a cap on score claimed by the candidates on the basis of APIs in each sub categories under Category III (Research and Academic contribution) with 30 *per cent* weightage to research papers, 25 *per cent* to research publications, 20 *per cent* to research projects, 10 *per cent* for research guidance and 15 *per cent* for training courses and conferences. Further, UGC's clarification (August 2015) regarding implementation of Regulations 2013 reiterated that CAS of teachers shall be governed by the UGC Regulations which are in operation on the date the teacher becomes eligible for CAS and not on the date of interview. It was also clarified that UGC Regulations were mandatory and cannot be overlooked in any circumstances. The Regulations were to be implemented from the date of their notification (13 June 2013) in the Gazette of India.

Audit observed that the University continued with the Regulations 2010 without adopting the capping procedure till it adopted amended UGC Regulation 2013 in December 2015. Application of old Regulations 2010 resulted in irregular grant of CAS to ten teachers (whose cases were test checked) promoted between September

[16] **CATEGORY- I** (a) teaching related activities (b) domain knowledge (c) participation in examination and evaluation (d) contribution to innovative teaching, new courses etc. with a total score of 125. A faculty member has to earn a score of minimum 75 per year under this category
CATEGORY II comprises co-curricular, extension and professional development related activities with a total score of 50 and a teacher has to earn a score of 15 points per year

CATEGORY-III comprises research and academic contributions and includes research papers, books and book chapters published, research projects and consultancy undertaken, M. Phil and PhD research guidance, training courses, refresher courses, conferences, workshops undertaken and lectures delivered.

2013 and June 2014 who were otherwise to be assessed in accordance with the 2nd Amendment Regulation 2013.

By overlooking the exhaustive procedure provided in the Regulations for CAS teaching staff, the University failed to ensure that the teacher's engagement is not limited to a particular domain and extended the benefit of CAS even to those teachers who had no research credentials.

Registrar stated (February 2025) that there were no alterations in the basic eligibility criteria, however, there is modification/ alteration in the methodology for calculating API scores for Category-III (Research and Publications and Academic Contributions) whereby capping in this category was introduced.

The fact remained that the capping on score prescribed for each sub-category under Category III had not been adhered to.

3.5.1.2 Irregular Promotions due to Inadmissible Counting of Past Service

Cases noted by audit regarding irregular promotions due to inadmissible counting of past service are detailed in **Table 3.4** below:

Table 3.4: Irregular promotion due to inadmissible counting of past service

Sl. No.	Irregularity	Reply
1	A Lecturer appointed (June 2004) against a lien bound vacancy and subsequently regularised (November 2005) was retrospectively allowed (November 2014) the benefit of two and a half years of past service, rendered as Research Associate (RA) from 30 June 2000 to 20 January 2004, for her promotion to next scale. By extending the benefit of past service after which there was a break of over five months (21 January 2004 to 26 June 2004) during which she had been assigned a Research Project, the University conferred the undue benefit of ₹ 16.25 lakh to the teacher.	Registrar stated (February 2025) that benefit of the period was granted by the Competent Authority on the recommendations of a committee. The reply is not acceptable, as the decision of the Committee was not in consonance with the UGC Regulations and University Statutes.
2	Service rendered by a lecturer with corporate entities while on extraordinary leave from 19 February 2001 to 15 May 2003 and 21 July 2008 to 28 January 2010 was counted (June 2005 and April 2012) for increments and CAS which resulted in excess payment of ₹ 19.63 lakh for the period between February 2001 and March 2022 due to fixation of higher pay.	In Charge Administrator, Teaching Wing stated (September 2022) that the first spell of EOL was counted for increments and pensionary benefits after taking leave salary and pension contribution from the teacher and the second spell was counted for these purposes on the recommendation of a committee constituted for the purpose. The reply is not acceptable, as the decision of the Committee was not in consonance with the UGC Regulations and University Statutes.

3.5.2 Career Progression of Non-Teaching Staff

The career advancement of non-teaching staff other than non-teaching posts regulated by UGC norms, is governed by the University Statutes.

Test check of records of 360 out of 1,192 non-teaching employees of the University showed that inadmissible financial up-gradations had been granted to these employees due to faulty implementation of three tier CAS, premature promotions, and non-adoption of a uniform policy for promotions resulting in excess payment of pay and allowances and pensionary benefits as detailed in the succeeding paragraphs.

3.5.2.1 Irregular Grant of UGC Pay Scales and CAS to Non-Teaching Officers

Ministry of Human Resources Development (MoHRD) notified (December 2008) the scheme for revision of pay of teachers and equivalent cadres after which UGC constituted a Joint Cadre Review Committee (JCRC) for evolving a uniform cadre structure and rationalisation of pay scales, duties, qualifications of the posts of non-teaching staff. The recommendations of JCRC approved by MoHRD were communicated (October 2014) to all Universities by the UGC for implementation. As per these recommendations, CAS was to be allowed to Assistant Registrars and Deputy Registrars after eight and five years of service respectively. In respect of technical and similarly situated posts, system of MACP was applicable according to which upgradations are granted after a service of 10 years. University of Jammu adopted these recommendations from June 2015.

Audit observed that the University had created (between June 2004 and April 2014) various isolated[17] posts in the scale of ₹ 8,000-13,500 including the posts of Assistant Director Technology Support System, Public Relation Officers, Assistant Director/ Deputy Director Directorate of Internal Quality Assurance (DIQA) and Assistant Administrative Officers without framing RRs for these posts. Consequent to implementation of recommendations of the 6th Pay Commission, the incumbents to these posts were placed in the pay band of ₹ 15,600-39,100 with grade pay of ₹ 5,400. Instead of applying MACP uniformly for financial upgradation of these non-teaching posts, the University decided their career advancements in an ad-hoc and arbitrary manner on a case-to-case basis, with selective application of rules. The posts of Deputy Director, DIQA and Assistant Director Technology Support were treated as equivalent to Deputy Registrar and Assistant Registrars respectively, and UGC norms irregularly applied for their career progression. Similarly, a Career Advancement Scheme notified by the University of Kashmir was selectively adopted for financial upgradation of two Public Relation Officers (PROs) which allowed financial upgradation after a period of five years only against ten years applicable as per MACP. However, financial upgradation sought by an Assistant Administrative Officer on the analogy of Deputy Director, (DIQA) and Assistant Director Technology Support was refused, which led her to approach Court for redressal of grievances. Non application of MACP for financial upgradation resulted in excess payment of pay and allowance of ₹ 0.19 crore to four non-teaching employees.

[17] Isolated posts refers to a position that does not have feeder grade or promotional avenues.

Registrar stated (February 2025) that the University of Jammu had extended the benefits of scheme applicable to Assistant Registrars and equivalents in favour of Deputy Director, DIQA and Assistant Director, Centre for ITES&M[18]. It was further added that University Council of University of Kashmir in its 77th meeting (22 April 2017) approved the CAS of PROs and resolved that the same shall be applicable to University of Jammu which accordingly notified (07 May 2018) the same CAS for its PROs.

The reply reaffirms the audit observation that the University had not formulated a uniform career advancement scheme for its isolated posts and had irregularly extended the benefits of CAS applicable to Assistant Registrar/ Deputy Registrars to few selected posts.

3.5.2.2 Extension of academic Grade Pays to Non-Teaching Positions

Although there was no category of posts as 'non-vacation academic positions' in the UGC Regulations, audit noticed that University of Jammu had irregularly designated (December 2002) nine non-teaching posts[19] belonging to ICT and Technical/ Professional services as 'non-vacation academic posts' on the recommendations of the Joint Committee (JC) of the two universities of the State/ UT. Two upward movements applicable to teachers were extended to these 'non-vacation academic posts'.
Consequent upon implementation of the 6th Pay Commission recommendations, UGC created Academic Grade Pay (AGP) for teaching posts. As per Notification issued (December 2008) by MoHRD and UGC Regulations 2010, only Assistant Professor/ Associate Professor/ Professor, Librarian, Deputy Librarian, Assistant Librarian and Physical Education Teachers were eligible to get the AGP.

Audit observed that the University had irregularly extended (October 2009 to December 2014) benefit of AGP to four 'non-vacation academic posts' with retrospective effect from 2006 resulting in their further placements in higher AGPs under CAS applicable to teachers from time to time entailing excess payment of pay and allowances of ₹ 0.69 crore[20] as of March 2022 to the incumbent of these non-vacation academic posts**.**

Registrar stated (November 2023) that three incumbents working as System Manager, Scientist B and Programmer were given upward movement on the recommendation of the Committee constituted for the purpose followed by approval of University Syndicate, FAU and the University Council.

The reply is to be seen in the light of fact that academic grade pay was not applicable to these post as per UGC Regulation 2010 and MHRD notification (December 2008).

---

18 IT Enabled Services and Management

19 System Manager, System Engineer, Project Engineer, Senior Scientific Officer, Programmer Computer, Electronic Engineer, Service and Development Engineer, Statistician and Computer Science

20 Calculated on the basis of MACP applicable to non-teaching posts

3.5.2.3 Excess Payment due to Grant of Premature Benefit of Three Tier Career Advance Scheme to Professional Assistants

The University notified (August 2013) a three-tier CAS in respect of Technical/ Isolated posts replacing the earlier two-tier CAS on the same terms and conditions as were prescribed for the ministerial and secretarial cadre. The scheme envisaged that employees holding Technical/ Isolated posts of consistent satisfactory service in one grade in substantive capacity as on 12 July 1996 or thereafter shall be eligible for placement in the Senior Scale in their respective cadre after completion of eight years of satisfactory service instead of ten years prescribed earlier. However, employees having benefitted under 1st upward movement under Reorganisation-cum Caderisation/ Scheme for Technical Staff after ten years of service were not eligible for first upward movement under the Scheme.

Records of the University showed that eight Professional/ Semi-professional Assistants who were not eligible for first upward movement under three tier CAS as they had been promoted/ upgraded under two-tier CAS after ten years of service were irregularly placed (September 2017) in the pay scale of ₹ 9,300-₹ 34,800 with AGP of ₹ 5,400 after a period of only eight years against a mandatory period of 10 years retrospectively between December 1999 and July 2012. The irregular premature placement of these eight employees earlier by two years resulted in an inadmissible payment of ₹ four lakh.

Registrar stated (February 2025) that three-tier CAS was adopted in favour of Library Staff in pursuance to resolution dated 15 April 2014 passed by University of Kashmir and concurrence of Financial Advisor Universities. It was further stated that as per the revised scheme, Semi-Professional Assistants and Professional Assistants are now given first step after eight years, second step after nine years and third step after ten years.

The reply is to be seen in the light of facts that the decision taken by University of Kashmir is not applicable/ binding upon the University of Jammu, both being separate entities with separate Governing bodies.

3.5.2.4 Extra Financial Burden of ₹ 1.07 crore due to Retrospective Upgradations

Based on representations received from 12 Computer Assistants (CAs) regarding disparity in their pay scales, the University forwarded (November 2009) cases for upgradation of their pay scale from ₹ 4,000-₹ 6,000 to ₹ 5,000-₹ 8,000 to FAU.

FAU accorded (April 2013) concurrence to the upgradation of pay scale on prospective basis with the assertion that it should not be made a precedent for upgradation in respect of other categories of posts. FAU clarified (May 2017) that such upgradation of 2013 shall not be construed as a promotion and, the period prior to upgradation of the post shall also be counted for the purpose of determination of eligibility for 1st/ 2nd/ 3rd step of Career Advancement Scheme (CAS).

However, instead of implementing the 2013 order of upgradation prospectively, the University authorities issued (June 2017) an order allowing upgradation of posts from the date of appointment resulting in excess fixation of pay in respect of 12 CAs and payment of arrears of ₹ 0.79 crore to them.

- Records further showed that the University converted (April 2014) 16 vacant posts of steno-typists carrying a pay scale of ₹ 5,200-₹ 20,200 (GP ₹ 2,400), into posts of CAs. Against these 16 posts, ten CAs were appointed in November/ December 2017 and 04 DRWs were regularised as CAs between March 2015 and October 2019.
  These 14 CAs were subsequently allowed (January 2020) the upgraded grade pay of ₹ 4,200 with effect from 15 January 2020. Irregular grant of higher pay scales to these 14 CAs resulted in excess payment of ₹ 0.44 crore to these employees, besides a monthly financial implication of ₹ 1.86 lakh as of March 2022.
- Placement of CAs in higher pay scale resulted in pay anomalies as CAs with a prescribed qualification of Graduate and one year diploma in Computer Sciences were brought at par with Assistant Programmers (APs) with a prescribed qualification of BE (IT)/ M.Sc Computer Sciences.
  The APs challenged (2017) the upgradation of CAs in the Court and while their case was pending in court, the University referred the case for their up-gradation to FAU who accorded (May 2021) concurrence to up-gradation of pay scale of APs from PB ₹ 9,300-₹ 34,800 (GP ₹ 4,200) to PB ₹ 9,300-₹ 34,800 plus GP ₹ 4,600 from the date of creation of the anomaly. However, instead of granting upgradation from April 2013, the University extended the benefit of revised pay scale to 12 APs from the date of appointment resulting in payment of arrears of ₹ 0.28 crore.

Registrar stated (February 2025) that pay scale of Computer Assistants was upgraded notionally from the date of appointment and prospectively with effect from 30 May 2013 to remove the anomaly between the counterparts.

The reply is to be seen in light of the fact that although FAU had directed (August 2010) to clearly indicate the hierarchical positions in a promotional scheme and the impact of any new dispensation on the cadre and scales at various levels, the University while considering the upgradation of CAs did not foresee its ramifications on other posts in the hierarchy.

3.5.2.5 Inadmissible Benefit of ₹ 0.11 crore in respect of Upgradation of Relinquished Post

A Computer Assistant (CA) appointed (May 2004) in the pay scale of ₹ 4,000-₹ 6,000 (revised to ₹ 5,200-₹ 20,200 with Grade Pay of ₹ 2,400) was selected (December 2009) for the post of Liaison Officer, in the pay scale of ₹5,500-₹9,000 (revised to ₹ 9,300-₹ 34,800 with Grade Pay of ₹ 4,200).

Consequent upon upgradation (May 2013) of the pay scale of 12 CAs from ₹ 5,200-₹ 20,200 with GP ₹ 2,400 to ₹ 9,300-₹ 34,800 with GP ₹ 4,200, the benefit

of the upgraded post was irregularly allowed (April 2018) to the officer from the date of his appointment as CA, despite the fact that his appointment as Liaison Officer was a fresh appointment in a different cadre. The period of service of five years rendered as CA was also counted for further up-gradation in his substantive post of Liaison officer, which resulted in further premature placements in ₹ 9,300-₹ 34,800 with Grade pay of ₹ 4,600 and ₹ 9,300-₹ 34,800 with G.P of ₹ 5,400 from May 2012 and May 2021 respectively. This had resulted in payment of excess pay and allowances of ₹ 0.11 crore besides recurring financial implication of ₹ 17,688 per month.

Registrar stated (February 2025) that counting of past service rendered as CA was granted (September 2017) for CAS of Liaison Officer as one-time dispensation in pursuance of communication received (June 2017) from FAU and action taken by Vice-Chancellor was confirmed by the 112th University Syndicate resolution of August 2017.

3.6 Pay and Entitlements

Audit examination of records of the University pertaining to pay and allowances, pensions, leave etc. revealed that inadmissible/ excess payments were made to various employees as brought out in the following paragraphs.

3.6.1 Irregular Release of Advance Increments for Acquiring Higher Qualification

Pursuant to implementation of the 7th Pay Commission, MoHRD withdrew (November 2017) incentive of advance increments that was granted to teachers before the year 2016 for acquiring higher qualification (MPhil/PhD). While approving (May 2018) implementation of the 7th Pay Commission, FAU also stipulated that advance incentives for acquiring degrees of PhD/ MPhil would no longer be granted.

Records showed that three/ five advance increments were allowed to 26 Assistant Professors who had acquired PhD degree between December 2016 and February 2022 on the basis of an order of December 2011 which was applicable after implementation of recommendations of the 7th Pay Commission. There was an additional financial burden of ₹ 1.20 crore on the finances of the University due to irregular grant of advance increments to these Assistant Professors.

During the Exit Conference, the Vice-Chancellor stated (February 2025) that the benefits of advance increments given after notification of UGC regulation 2018 had now been dispensed with.

The reply is to be seen in the light of facts that FAU disallowed (May 2018) these increments after implementation of recommendations of the 7th Pay Commission. Further, the Special Advisor to FAU had also called for (October 2021) reasons from Registrar of the University for restoring advance increments without the prior concurrence of the Finance Department with remarks as to why the amount spent on payment of advance increments may not be deducted from the grant of the University.

3.7 Conclusion

Human Resources Management in the University was not efficient as there were irregular appointments and premature/ undue promotions. Against a sanctioned strength of 387 teachers, only 240 regular teachers (62 *per cent)* were available as of March 2022. RRs had not been framed for 77 out of 142 categories of non-teaching posts. Regularisation of ad-hoc/ contractual teaching/ academic staff was adopted as a mode of appointment. Lateral entry to direct entry level posts of Deputy Librarians led to undue favour to in-service employees. Appointments of in-service Assistant Registrars against open merit posts of Deputy Registrars were made in violation of UGC norms. Irregular appointments to the posts of Readers/ Associate professors without required teaching experience compromised the minimum standards prescribed by UGC for maintaining quality of teaching. In absence of RRs for all posts, there was no uniform policy for career advancement of non-teaching staff. While a three-tier scheme was in operation for some non-teaching positions, there was undue extension of academic grade pays and Career Advancement Scheme of teachers to a selective group of non-teaching posts treated as non-vacation academic posts. UGC Career Advancement Scheme was extended to non-teaching posts treating them as equivalent to Assistant Registrars and Deputy Registrars which are regulated by UGC. Irregular financial upgradations with retrospective effect were allowed to non-teaching employees putting a burden on the State exchequer.

3.8 *Recommendations*

- ***The University may put in place a well-defined fair and transparent recruitment policy and Recruitment Rules may be finalised for all posts with well-defined stages of promotion to ensure probity and transparency in recruitment.***
- ***A uniform policy for career advancement of non-teaching staff needs to be adopted.***

CHAPTER-IV

INFRASTRUCTURE MANAGEMENT

CHAPTER-IV

Infrastructure Management

4.1 Infrastructure Development Plans

Infrastructure development works in the University are funded through a variety of sources which include grants from the Ministry of Education through various Centrally Sponsored Schemes, development grants from UGC, Plan funds of the GoI, Specific grants from various ministries like Ministry of Social Justice and Empowerment/ Ministry of Sports, Capital grants from State/ UT Government and earmarked infrastructure funds from internal resources. For projects outside the land bank in possession of the University, land is acquired through the Revenue Department of the State/ UT Government.

University Works Department (UWD) headed by an Executive Engineer (EE) is responsible for carrying out construction, repairs and maintenance works in the University. The EE is empowered to accord Technical Sanction to works up to ₹ 10 lakh and VC has full powers to accord Administrative Approval/ Technical Sanction subject to technical approval by Superintending Engineer. The Planning Board (PB) of the University are to assist the University Syndicate (US) in formulating perspective plans for executing development works in the University including screening development proposals of the departments and determining priorities in development programmes. Further, a post of Dean Planning and Development (DP&D) was created (October 2016) in the University to plan a road map for future development of the University, devise policy on expansion and diversification of University activities, prepare proposal for development of main and off-site campuses, prepare strategic plan of the University and fix priorities for various works.

Records of the University showed that as of March 2023, the last meeting held by the Planning Board was in February 2017 as such there was no follow-up on the development proposals of the Planning Board made before the year 2017. Further, DP&D had neither framed any policy/ strategic plan for expansion and diversification of infrastructure of the University nor prepared any road map/ Development Plan stipulating short/ mid/ long-term goals for infrastructure development.

In the absence of any perspective plan/ action plan outlining goals and targets for infrastructure development in off-site campuses, infrastructure projects were held up in five[1] off-site campuses since 2015. There was no definite timeline for land acquisition in respect of four campuses resulting in their non-establishment despite being approved during 2006-08 as discussed in the succeeding paragraphs.

Registrar stated (November 2023) that the latest meeting of the Planning Board was held in January 2023 wherein agenda regarding creation of teaching/ non-teaching

[1] Kishtwar, Reasi, Bhaderwah, Poonch and Udhampur

positions, requirement of funds for construction of new buildings, implementation of NEP 2020 etc., were discussed. It was further stated that the process of framing the updated institutional development plan in line with NEP-2020 was in progress.

The fact remained that in the absence of regular meetings of the Planning Board, the planning function remained impaired.

4.2 Infrastructure Development in off-site Campuses

With a view to providing higher education to the students of far-flung areas of Jammu province, UC approved (2006-08) opening of 11 off-site campuses at Bhaderwah, Kishtwar, Doda, Udhampur, Reasi, Ramnagar, Kathua, Billawar, Poonch, Patnitop and Surankote. Records showed that as of April 2023, four[2] out of 11 off-site campuses for which ₹ 2.70 crore was released between 2009 and 2014 had not been established due to non-acquisition of land, not taking of possession of land transferred by GoJ&K and absence of approach road to acquired land resulting in blockade of ₹ 2.70 crore for over nine years as detailed in **Table 4.1.**

Table 4.1: Details of non-establishment of off-site campuses

Sl. No	Name of campus	Year of sanction	Funds released	Status of Land acquisition	Remarks
1	Patnitop	April 2006	₹ one crore	431 kanal of land transferred by GoJ&K to the University (2013).	As of January 2023, execution of construction works could not be started due to absence of approach road to the campus site.
2	Surankote	February 2008	₹ 0.70 crore	1,255 kanal and 10 marla land transferred (April 2018) to Higher Education Department.	Possession of land not taken by the University despite requests by DC Poonch and HED in September 2018 and January 2019 respectively.
3	Doda	January 2008	Nil	No efforts made by the University to acquire land for establishing the campus.	The campus was initially made functional (December 2011, June 2012) in the premises of Boys' Higher Secondary School Doda with two-month certificate course. However, the University decided (April 2016) to shelve establishment of the campus.
4	Billawar	February 2008	₹ one crore	Land measuring 236 kanal and 13 marla though identified (August 2017) for establishment of the campus, not transferred to the University as of March 2023.	In absence of required infrastructure, the campus started functioning in the year 2015 temporarily from Government Degree College Billawar. As of March 2023, no academic activities were operational in the campus.

(***Source: Information provided by the Development section***)

[2] Patnitop, Doda, Billawar and Surankote

The Registrar stated (February 2023) that significant efforts were made to establish suitable accommodations for additional campuses, which however did not fructify as finding appropriate spaces for these campuses proved to be challenging. It was added that the University had made a recent decision to halt the introduction of new courses at these campuses until Government provides adequate land, infrastructure, faculty positions, and recurring grants to ensure their sustainability and proper functioning.

4.2.1 Idle Investment of ₹ 19.21 crore on Abandoned Works in off-site Campuses

UGC sanctioned (April 2011) one-time grant for infrastructure development of off-site campuses, in response to which the University sent (September 2011) DPRs. Based on DPRs, a grant of ₹ 113.60 crore, was sanctioned (November 2011) under the XIth Plan period (2007-2012) with campus-wise release for seven offsite campuses to be utilised upto March 2012. The first installment of ₹ 56.80 crore was released by UGC between November 2011 and January 2012.

Audit noticed that availability of encumbrance free sites for these seven off-site campuses was not ensured while preparing DPRs. There were delays in actual possession of land due to frequent change of sites, land disputes/ court cases and delays in tendering process. These projects were allotted to contractors between August 2012 and December 2014. This was in spite of the fact that UGC had allowed (August 2014) extension of time for completion of building projects up to March 2015 if works had been started before March 2012. UGC declined (February 2015) to further extend timeline for completion of works beyond March 2015 as the University had started construction works after the expiry of the 11th Plan period. The University was directed (April 2015) to refund the grants received by it along with 10 *per cent* interest thereon. The University stopped (March 2015) all ongoing 30 works after incurring an expenditure of ₹ 49 crore.

Of these 30 abandoned projects, 15 projects were approved (February 2019) under programme for Completion of Languishing Projects[3]. As of March 2022, nine works were completed at a cost of ₹ 20.39 crore and six projects estimated to cost ₹ 21.84 crore were under execution. The remaining 15 projects on which an expenditure of ₹ 19.21 crore had been incurred upto March 2015 were lying abandoned.

Thus, due to faulty planning of not ensuring encumbrance fee land for execution of infrastructure projects of off-site campuses, the University had lost the opportunity to avail central assistance for the purpose resulting in absence of required infrastructure in these campuses. Five[4] out of seven campuses were functioning from their own premises including one in pre-fabricated structure. Out of the balance two campuses, one[5] was functioning from a hired building and the other[6] from State/ UT Government building.

[3] A Jammu and Kashmir Government's scheme for funding incomplete or stalled projects
[4] Kathua, Ramnagar, Kishtwar, Bhaderwah and Udhampur
[5] Poonch
[6] Reasi

While attributing non-initiation of timely works in off-site campuses to remote locations with adverse climatic conditions, the Registrar (March 2024) stated that extension sought till March 2016 was not granted by UGC. It was added (February 2025) that the University was making every effort to secure funding for the remaining 15 incomplete projects.

4.3 Inadequacies in Infrastructure

4.3.1 Facilities for Differently Abled Students

The Persons with Disabilities Act, 1995/ 2016 envisages that differently abled persons should have access to education at all levels. The Report on 'Inclusive and Qualitative Expansion in Higher Education' issued by UGC under the 12th Five-year Plan envisages improvement in basic infrastructure facilities to enable differently abled students to access all institutions of higher education.

For providing facilities to disabled persons, the University projected (November 2014) a requirement of ₹ 1.06 crore for construction of nine ramps and connecting paths at its main campus under RUSA. Records, however, showed that against the projected requirement, the University had constructed only three ramps at a cost of ₹ 24.47 lakh for which no reasons were available on record. As of January 2023, out of 38 departments and eight centres in the main campus, ramps were available only in two departments and one Centre (Health Centre). Lifts were available only in the Administrative Block, Examination Block and Directorate of Distance Education functioning in multi-storied buildings.

Lack of facilities for differently abled students would be an impediment for such students to access higher education.

Registrar stated (November 2023) that due to space constraint in six out of nine buildings, work was taken up for only three ramps. It was further stated that the University is in the process of purchasing chairlifts in order to facilitate differently abled persons and senior citizens. The reply is a pointer to the fact that the requirement was projected without ascertaining space feasibility.

4.3.2 Inadequate Hostel Facilities

The University runs hostels for boys and girls in its main campus and off-site campuses. In the main campus there are four Boys Hostels[7] and three Girls Hostels[8] with capacity to accommodate 462 and 630 students respectively. The number of girl students in the waiting list had increased from 80 in 2017-18 to 200 in 2021-22. Construction of a Girls Hostel funded by MoSJ&E[9] (under Babu Jagjiwan Ram

[7] (i) Baba Jitto Boys Hostel (ii) Shree Vivekananda Boys hostel (iii) Nehru Hall Boys Hostel and (iv) Jambu Lochan Boys Hostel

[8] Sarojini Naidu Girls Hostel, Priyadarshani Girls Hostel and Chanderbagha Girls Hostel

[9] Ministry of Social Justice and Empowerment

Chatra Aawas Yojna) and RUSA started during July 2016 was held up since May 2017 after incurring an expenditure of ₹ 5.88 crore as the University could not complete the finishing works due to its failure to limit the scope of work within available funds. As an interim arrangement, the University accommodated waiting girl students in the Faculty Transit Guest House (FTGH) constructed for Human Resources Development Centre[10] (HRDC) from the academic session 2019-20. Against 200 girl students awaiting hostel facility, only 100 could be accommodated in the FTGH as of March 2022.

Out of seven off-site campuses, hostel buildings were complete and functional in two[11] campuses as of March 2022. In five off-site campuses, works of hostel buildings were held up after withdrawal of Prime Minister Reconstruction Programme (PMRP) funds by UGC in 2015 due to expiry of extension period of XIth Plan. As a result, hostels at three campuses[12] were being operated from rented accommodations and no hostel facilities existed in two[13] off-site campuses.

Provost Girls hostel stated (December 2022) that there was an acute shortage of hostel accommodation in the main campus due to not completing of the fourth girls' hostel.

Registrar stated (March 2024) that the halted work of hostel at Bhaderwah Campus was likely to resume after March 2024 under Capital Grants and the University was trying its best to arrange funds for completion of halted works of hostels in the campuses of Poonch and Kishtwar. During the Exit Conference, it was stated (February 2025) that the works which could not be completed under Languishing Scheme, had been projected for funding under Capital expenditure budget of the UT Government.

4.4 Execution of Works

4.4.1 Diversion of Funds and Faulty Preparation of DPRs

- For upgradation of infrastructure of the University of Jammu, ₹ 20.00 crore was sanctioned under Rashtriya Uchchatar Shiksha Abhiyan (RUSA 1.0) scheme by the Higher Education Department (nodal agency for implementation of the scheme) on the basis of DPRs prepared by the University. The projected works included construction of canteen, toilet blocks, Girls Hostel and renovation of Library, Auditorium etc., and Administrative Approval was accorded by Vice-Chancellor.

Against release (between June 2015 and August 2016) of ₹ 2.29 crore under RUSA 1.0 by Higher Education Department for construction of 13 toilet blocks at

[10] HRDC conducts training programmes like refresher, orientations, faculty development programmes for teachers
[11] Ramnagar and Kathua
[12] Bhaderwah, Poonch and Kishtwar
[13] Udhampur and Reasi

different locations in the University, construction of only four blocks[14] was completed (March 2017) at a cost of ₹ 52.64 lakh. While ₹ 1.68 crore was diverted towards other works[15], outcome of ₹ eight lakh was not ascertainable from records. Similarly, the University did not utilise ₹ 23.19 lakh provided by UGC for creation of 'basic facilities for women' such as toilets, common room, cyber cafe, gymnasium and medical room for the intended purpose up to 2015-16 and thereafter these funds were diverted towards construction of Girls Hostel.

EE, UWD attributed (August 2023) not constructing of the remaining toilets to paucity of space in the campus. Registrar stated (November 2023) that decision to construct only four toilet blocks was endorsed by the Site Selection Committee.

The fact remained that the approved DPRs were not based on actual surveys including assessment of availability of sites.

- On the basis of proposals submitted by the University, HED approved (February 2021) three building projects[16] to be executed out of State/ UT funds at an estimated cost of ₹ 7.00 crore. In case of two[17] works AA/ TS were not obtained prior to conceiving of the projects. As of March 2022, ₹ 3.50 crore released (October 2021) by HED for these works was parked in the bank account of the University as in two cases[18] the land was not suitable for construction and in respect of one work[19] involving construction of additional floors on the existing building, an internal committee of the University had opined against construction of additional floors on the plea that the building was already constructed up to the level of the original design.

Executive Engineer (UWD) stated (August 2023) that after putting the work involving construction of additional floors to tender in September 2022, the work has been allotted.

Thus, preparation of DPRs without feasibility study is indicative of poor planning resulting in not completing of works.

4.4.2 Execution of Works without Obtaining Technical Sanctions

As per University Statutes, Executive Engineer is empowered to accord Technical Sanction (TS) to works up to ₹ 10 lakh. Vice-Chancellor has full powers to accord TS subject to technical approval by the Superintending Engineer. In the absence of post of Superintending Engineer in the University till November 2019; there was no

[14] Rear gate, Academic staff quarters, Physical education near DRS and old campus
[15] Construction of Boys Hostel: ₹ 131 lakh, construction of Girls hostel: ₹ 16.81 lakh and extension works of cafeteria: ₹ 20 lakh
[16] (i) Construction of New Girls Hostel (ii) Construction of building for High Energy Physics Unit of Physics Department and (iii) Construction of building for Remote Sensing & GIS
[17] Department of Physics and Department of Remote Sensing & GIS
[18] Department of Physics and Department of Remote Sensing & GIS
[19] Girls Hostel

mechanism of obtaining technical approval for execution of works exceeding ₹ 10 lakh. Audit noticed that 11 test checked works each having an estimated cost over ₹ 10 lakh, with total estimated cost of ₹ 144.86 crore was taken up (between August 2012 and February 2020) under UGC 12th Plan, State plan, PMRP etc. without technical approval. Due to a non-existent mechanism for technical vetting of works till 2019, large scale deviations from DPRs resulting in holding up of works and execution of works outside Bills of Quantities (BOQ), were observed as discussed in the subsequent paragraphs.

Registrar stated (November 2023) that now no allotment is made without obtaining Technical Sanction from the Competent Authority.

4.4.3 Not Completing of Girls Hostel – Idle Investment of ₹ 5.31 crore

Administrative Approval for construction of Girls Hostel at a cost of ₹ 5.25 crore was accorded (March 2016) by the VC for funding from combined grants received under RUSA and Ministry of Social Justice and Empowerment (MoSJ&E).

Although the work was initially allotted[20] (July 2016) at a cost of ₹ 3.50 crore for construction of two storeys only, a revised AA was accorded[21] (November 2016) for ₹ 5.80 crore to cover the cost of basement necessitated due to low soil bearing capacity of soil noticed (July 2016) during execution. However, instead of completing the allotted work of basement and ground plus one floor, it was decided (December 2016) to construct structural part of the second and third floor, without finishing of ground and first floor for which an additional sanction of ₹ 71.80 lakh was accorded (December 2016), raising the total cost of project to ₹ 6.52 crore. Due to unavailability of further funds, the contractor stopped (May 2017) the work after completion of basement, ground floor, first floor without finishing and 2nd and 3rd floor (outer structure part only). A payment of ₹ 5.31 crore was made (up to October 2017) to the contractor for execution of civil and sanitary works. There was also a work done liability of ₹ 26.97 lakh payable to the contractor.

Thus, due to not framing of DPRs based on site conditions and imprudent decision to construct additional storeys without finishing the originally sanctioned/ allotted works, the Girls Hostel could not be completed within available funds resulting in idling of expenditure of ₹ 5.31 crore on partly completed works.

Registrar stated (February 2025) that the University Works Department was in the process of foreclosing the previous contract and putting the balance work to fresh tender after observing codal formalities.

[20] M/s Anil Kapahi vide allotment No:UWD/16-17/1016-21 dated 07 July 2016 (civil and sanitary)
[21] Vide order no: Fin/2016-17/6849-51 dated 07 November 2016

4.4.4 Award of Additional Works without Tendering

Rule-138 of the General Financial Rules (GFR-2017) stipulates that any anticipated or actual savings from a sanctioned estimate for a definite project, shall not, without special authority be applied to carry out additional work not contemplated in the original project. Rule-139 of GFR 2017 further stipulates limited tendering for work costing less than ₹ 10 lakh and open tendering for works costing more than ₹ 10 lakh.

Records of the University showed that savings of ₹ 2.65 crore in respect of nine test-checked works completed during 2017-18 to 2021-22 were diverted for execution of additional components of these works which were not originally allotted to the contractors. These works were allotted to the same contractors without following a tendering process at rates at which original works were allotted in violation of Rule 138 and Rule 139 of GFR 2017.

EE, UWD stated (July 2023, November 2023) that additional works were got executed by the same contractor out of savings in respect of original works on the basis of requirement received from the concerned departments. It was further stated that it was not feasible to call tenders being a time-consuming process. The reply is to be seen in the light of fact that by allotment of additional works to contractors on a nomination basis the University compromised on transparency and competition enshrined in GFR for public procurements.

4.4.5 Management of Assets

The Estate Wing headed by Estates Officer (EO) is responsible for the upkeep/ control of the University properties.

Audit noticed that EO of the University had not prepared a database of its properties in the old and new campuses, which included land, buildings, tools and plant, equipment, museum, auditoriums, canteens, kiosks and residential quarters. An asset register with details of cost and date of acquisition of each asset, depreciation charged during a year and net value at the close of a particular year was not maintained. Although Central Library procured 28,133 books and 668 journals during the period 2017-22 and had a total of 4.84 lakh books as of March 2022, physical verification of library books was not conducted in compliance of Rule 194 of General Financial Rules.

Deputy Registrar (DDE) stated (January 2023) that a committee has been constituted for conducting physical verification of library books.

Registrar stated (November 2023) that number of buildings under use/ functional in respect of new/ old University campus has already been prepared by Executive Engineer, UWD.

4.4.5.1 Non-Accountal of Equipment after Expiry of Project Life

Audit noticed that no system was in place in the University to account for equipment procured under various externally aided projects after expiry of project life.

Records revealed that although respective Project Investigators (PIs) had maintained registers to enter details of equipment procured under externally aided projects, they had not transferred equipment valuing ₹ 0.72 crore procured (between July 2012 and May 2019) for nine completed (between January 2013 and May 2022) projects to the concerned three departments after completion of project life. Non-accountal of equipment after expiry of project life was fraught with the risk of misappropriation as the equipment retained by PIs remain outside the ambit of periodic physical verification of stocks carried out by the University authorities.

Registrar stated (November 2023 and March 2024) that in the Business School, equipment like laptops, printers etc. remain in the possession of PIs who record the equipment in stock registers maintained by them. It was further stated that the equipment are returned to the department at the time of retirement of the PIs. The Registrar added that no equipment was purchased in the Department of Zoology. It was also stated all PIs were once again requested to make proper entry of equipment in the stock register in future too.

4.4.5.2 Idle Assets Valuing ₹ 3.82 crore

Physical inspection (January 2023) of School of Biotechnology (SoB) revealed that DNA Sequencing facility worth ₹ 1.63 crore[22] was lying unutilised since 2014-15 due to lack of technical manpower. Equipment worth ₹ 0.75 crore purchased between June 2019 and December 2021 was lying idle in the corridor of SOB. Equipment valuing ₹ 0.82 crore purchased (between June 2004 to January 2022) in two departments[23] and Health Centre in the main campus and one off-site campus of Kishtwar were either not installed or lying idle due to unavailability of technical manpower, unoperational allied equipment, unavailability of required space for their installation and discontinuation of one programme[24].

Records further showed that due to lack of trained manpower and provision of funds for operation and maintenance, a central heating system installed and commissioned (November 2010) in Bhaderwah Campus at a cost of ₹ 0.62 crore was lying non-functional since February 2011 after remaining functional between December 2010 and February 2011.

HoD, Physics stated (March 2023) that the equipment could not be made functional due to non-receipt of funds for its repair from the University. HoD Electronics stated

[22] Sequencer: ₹ 0.90 crore and Illumina MiSeq system.: ₹ 0.73 crore
[23] Physics and Electronics
[24] M.Sc Hydrology and Soil Dynamics

(January 2023) that construction of cabin for installation of machine has been completed, and the supplier has been requested to provide training about operational details of the machine.

Director, School of Biotechnology stated (Aug 2023) that the equipment were placed in the corridor as they generate a lot of heat. It was further stated that for effective use and maintenance, the University authorities had been requested for providing permanent technical manpower from time to time.

Registrar stated (November 2023 and March 2024) that audit observation regarding purchase of ultrasound machine and x-ray unit, are duly noted and acknowledged and further stated that the Health Centre is actively working to outsource radiologist and x-ray technician and efforts are underway to explore cost-effective strategies to make these facilities functional.

Thus, it can be inferred from the above that School of Biotechnology should have ensured proper space and adequate technical manpower before purchase of equipment.

4.5 Conclusion

Inability of the University to start infrastructure works of off-site campuses before expiry of the 11th Plan resulted in disallowance of central grants which further led to stoppage of 30 works of which 15 projects were lying abandoned since March 2015. Due to significant variations in structural design and construction of additional floors not contemplated earlier, work on Girls Hostel was held up for nearly 9 years. Getting additional works executed out of savings of tendered and allotted cost, through the same contractors, was a norm rather than an exception, which not only compromised transparency in allotment of works, but also resulted in undue benefit to contractors. There were also instances when equipment procured by various departments were lying idle due to lack of technical manpower.

4.6 *Recommendations*

- ***To provide basic infrastructure in off-site campuses, the University may take measures for completion of held up works.***
- ***Execution of works may be properly monitored to avoid large scale deviations.***
- ***Project works may be initiated only after proper assessment of site conditions so that the projects are executed timely.***
- ***Awarding of additional works out of savings needs to be discouraged.***
- ***The University may devise a robust mechanism to ensure optimum utilisation of equipment procured by various departments.***

CHAPTER-V

FINANCIAL MANAGEMENT

CHAPTER-V

Financial Management

5.1 Introduction

Government of Jammu and Kashmir (GoJ&K) provides grant-in-aid to the University mainly for salary of staff and development works. The University also receives assistance from Government of India (GoI), Ministry of Human Resources Development (MHRD) under Rashtriya Uchchatar Shiksha Abhiyan (RUSA) and University Grant Commission (UGC) for infrastructure, research, etc. Further, the University mobilises funds in the form of fee from students and by sponsoring research projects. Audit findings on fund management of the University are discussed in the succeeding paragraphs.

5.2 Financial Position

Financial position of the University during 2017-22 is given in **Table 5.1**.

Table 5.1: Details showing funds received and expenditure incurred

(₹ in crore)

Year	Opening Balance	Receipts during the year							Expenditure						Closing Balance
		State Govt.		Specific Grants (CSS etc)	Others (UGC, RUSA, DBT grants)	University Receipts	Total receipts	Total Availability	State Govt.		Specific Grants (CSS etc)	Others (UGC, RUSA, DBT grants)	University Receipts	Total Expenditure

(CSS: Centrally Sponsored Schemes; UGC: University Grants Commission; RUSA: Rashtriya Uchchtar Shiksha Abhiyan; DBT: Department of Biotechnology)
(Source: Information provided by Accounts Branch)

As can be seen from **Table 5.1**, there was an opening balance of ₹ 22.58 crore in 2017-18. Receipts of ₹ 1,192.21 crore of the University during 2017-22 included grants received from Government of J&K, University Grants Commission and under Centrally Sponsored Schemes in addition to internal resources of the University. Against available funds of ₹ 1,214.79 crore[1], the University spent ₹ 1,168.14 crore

[1] Total receipts during 2017-18 to 2021-22 plus Opening Balance of 2017-18.

during the period leaving an unspent balance of ₹ 46.64 crore. Percentage of unspent balances ranged between 13 *per cent* and 22 *per cent* during 2017-22.

5.3 Management of Funds

5.3.1 Loss of UGC/ DST Assistance due to non-completion of works

To improve infrastructure in universities and colleges, UGC provides financial assistance to universities under Special Assistance Programmes (SAP) and Plan schemes. Department of Science & Technology (DST) also provides support to universities by providing funds under heads 'For improvement of Science and Technology' (FIST) and 'Promotion of University Research and Scientific Excellence' (PURSE). Audit observed that the University had not utilised full potential of these schemes due to lack of planning and monitoring as detailed in the succeeding paragraphs.

- For infrastructure development of seven off-site campuses under the Prime Minister Reconstruction Programme (PMRP), UGC released (November 2011) ₹ 56.80 crore as 1st instalment (50 *per cent*) against the approved amount of ₹113.60 crore for utilisation during the 11th plan period (2007-2012). The projects allotted to contractors between August 2012 and December 2014 were stopped due to non-completion of works even after expiry of extension period of XIth Plan Period up to March 2015. An expenditure of ₹ 49 crore had been incurred on these works up to March 2015. UGC directed (April 2015) the University to refund the grants received by it along with 10 *per cent* interest citing inability of the University to start these works before expiry of the Plan Period. The University thus suffered a loss of balance funds of ₹ 56.80 crore. As of March 2022, the unspent balances amounting to ₹ 30.79 crore (including interest) was lying in the individual accounts of Rectors of six offsite campuses.

- With the objective of strengthening Research and Development (R&D) in the University, DST, GoI sanctioned (September 2017) ₹ 16.75 crore in favour of the University under 'Promotion of University Research and Scientific Excellence' (PURSE). Against 1st instalment of ₹ 6.19 crore released (September 2017) by DST, the University was able to spend only ₹ 5.36 crore on procurement of equipment and on conducting other activities under the scheme within the extended timeline of March 2022. As a result, further funds of ₹ 10.56 crore were not released by DST. The unspent balance of ₹ 1.31 crore including interest had not been refunded to the funding agency as of March 2022.

In reply, the Registrar, while attributing delay in purchase of equipment to import and other procedural delays in purchase through the GeM portal stated (November 2023) that the University has requested (December 2022) the DST for release of the next installment. The fact remained that the University could not utilise the full potential of the scheme due to lack of timely action.

- For providing Teaching Support/ Stabilised Power Supply to the University and augmenting infrastructure like computer laboratories, renovation of labs and procurement of books in 16 affiliated colleges, Ministry of Science & Technology (MoS&T) sanctioned (October 2009 to May 2012) ₹ 8.55 crore[2] under 'Special S&T support to universities and colleges in J&K State' for completion in five years. Against the release of the first installment of ₹ 4.45 crore to the University, ₹ 3.55 crore was to be further released to the affiliated colleges for augmentation of infrastructure and remaining ₹ 0.90 crore was to be spent by the University for Stabilisation of Power Supply and Teaching Support. Audit noticed that instead of releasing funds to affiliated colleges, the University made centralised purchases of ₹ 2.51 crore on behalf of colleges and spent ₹ 0.93 crore under 'Stabilisation of Power Supply and Teaching Support' for the University by diversion of balance fund from the grant meant for colleges. As the University was able to spend only ₹ 3.44 crore, it surrendered (March 2021) ₹ 1.01 crore to MoS&T after over eight years and lost the opportunity of availing further assistance of ₹ 5.11 crore. Further, the grant was kept in a non-interest bearing account of the University resulting in non-accrual of interest on the unutilised grant.

Scheme Coordinator stated (March 2023) that the documents were submitted to MoS&T (November 2016) for release of the 2nd installment of funds. The reply is not convincing as the University was not able to spend the 1st installment of funds, as such release of the 2nd installment by MoS&T was not possible.

5.4 Accounting Matters

5.4.1 Not Maintaining of Annual Accounts

As per Article 38 of the J&K Universities Act, the accounts of the University shall, once in every year and at the intervals of not more than fifteen months, be audited by auditors appointed by the Government. A copy of the accounts together with the auditor's report, shall be published in the Government Gazette. Article 16 of the Act requires Financial Advisor Universities (FAU) to submit the annual estimates and statement of accounts to the US and UC. Further as per University Statutes, the Deputy Registrar shall suggest ways and means for maintaining proper accounts of the University and regularly check-up cash balances in the accounts.

Audit noticed that the University had not prepared annual accounts such as Income Expenditure Account, Receipts and Expenditure Account and Balance Sheet since its inception. In absence thereof true and fair view of financial position of the University were not ascertainable. Although not preparing of Annual Accounts by the University was pointed out in the Reports of CAG of India for the years ended March 2002 and March 2008, no action to prepare annual accounts as per requirement of University Act and Statutes was taken by the University to ensure transparency in accounts.

[2] Stablised power supply to University: ₹ 0.45 crore; Teaching Support to University:₹ one crore and augmentation of infrastructure in affiliated colleges: ₹ 7.10 crore

Further, MoHRD recommended (2013) that all educational institutions should introduce a system of maintenance of accounts on accrual basis (double entry system) to ensure accountability and financial discipline so that end use of funds meet the needs of stakeholders. Audit noticed that as of March 2023, the University had not adopted double entry system as cash books were being maintained on the basis of actual receipts and payments (single entry system) in contravention of instructions of MoHRD.

Registrar stated (February 2025) that the University has appointed a Chartered Accountant for preparing Balance Sheets and auditing of accounts and the whole process will be completed shortly.

5.4.2 Surplus Funds not invested

As per Chapter XIV-A of University Statutes, local fund money which is not anticipated to be utilised immediately may be placed in fixed deposits for such periods as may be decided by the HoD concerned in consultation with the Local Fund Committee.

Audit noticed in two test-checked departments[3] that balances pertaining to local fund money ranging between ₹ 0.10 crore and ₹ 5.57 crore were not invested in fixed deposits but were lying in saving bank accounts for periods ranging between four months and 53 months during 2017-2022.

Registrar stated (November 2023) that audit suggestions had been noted for compliance and all departments have been instructed to place local fund money not anticipated to be utilised immediately in Fixed Deposits for such periods as may be decided by the HoD concerned in consultation with the Local Fund Committee.

5.4.3 Consolidated Local Fund not maintained

As per chapter XXIV of University Statutes, a part of fee realised from students and research scholars of the University at the time of admission[4] are to be credited to local funds maintained by the academic departments/ centres. The sums in local funds are to be utilised for the purpose for which they are collected. A separate annual statement of income and expenditure is required to be maintained for each local fund.

Further, savings at the end of each academic year (31 June) including interest earned on fixed deposits and saving bank accounts of local funds, lapsed library security deposits and any other collection which is not creditable to a Local Fund are to be transferred to the Consolidated Local Fund (CLF)[5].

Audit noticed that none of the departments of the University had prepared an annual statement of accounts in respect of local funds. Further, savings ranging between

---

3 Dhanvantri Library and Local fund of College Development Council

4 On account of games, social activities, students' assistance, reading room, stationery, excursion and miscellaneous funds

5 A Consolidated Local Fund is a combined local fund to which savings under different local funds are credited

₹ 0.59 lakh and ₹ 3.93 crore had continued to remain in the local funds of departments as CLF was not created as of March 2022.

Registrar stated (November 2023 and February 2025) that a Consolidated Local Fund has now been created (November 2023) and all the departments have been asked to maintain a separate annual statement of income and expenditure for their local funds. It was further stated that the departments have been asked to transfer the savings and lapsed security deposits at the end of each academic year to the Consolidated Local Fund.

5.5 Internal Control Mechanism

Internal control refers to safeguards put in place by the management of an organisation to ensure that its activities are proceeding as planned. Audit noticed that the internal control was inadequate in the University, which had resulted in deficiencies in financial management, maintenance of accounts and procurement process. The internal audit wing of the University had not been strengthened to ensure control over financial irregularities and to set right deficiencies in maintenance of accounts. Audit noticed the following:

5.5.1 Deficiencies in Maintaining Cash Book-Short Accountal of ₹ 0.25 crore

There was an un-reconciled balance of ₹ 24.57 lakh as of March 2022 in the General Cash Book of Directorate of Distance Education due to variation in cash balance of revenue receipt between cash book and bank statement. Non-reconciliation of revenue receipts was fraught with risk of misappropriation of public money.

Similarly, Cash Book for the year 2017-18 and 2018-19 (up to August 2018) in respect of General Zorawar Singh Auditorium had not been prepared and the opening balance of ₹ 1.12 crore as on 01 September 2018 was adopted on the basis of the Bank statement.

Registrar stated (February 2025) that Centre for Distance and Online Education is in the process of reconciliation of the said Account and also studying the variations from the year 2017-22. In respect of General Zorawar Singh Auditorium, it was stated, that an enquiry-cum-disciplinary Committee was constituted (January 2024) to take action against the defaulting employee, whose pension and dues have been withheld by the University.

5.5.2 Deficiencies in Procurement

General Financial Rules (GFR) 2017 stipulate that public procurement procedure should ensure efficiency, economy and accountability in the system. Audit observed inadequacies in tendering process, lack of fairness/ objectivity in the selection of suppliers/ contractors and inefficiencies in post contract management, as detailed in **Table 5.2.**

Table 5.2: Irregularities/ Deficiencies in Procurement

Sl. No.	Irregularity	Audit Observation	Reply and Remarks
1	Procurements from Single Source.	In violation of Rule 166 of GFR 2017, 11 academic departments and the Examination Wing of the University had chosen products of specific make and model for procurement of generic products[6] outside GeM during 2017-22. These departments had not ensured economy in incurring expenditure by making purchases worth ₹ 2.83 crore from a single source despite the availability of other manufacturers/ dealers of similar products.	Registrar attributed (February 2025) single source purchases to specific requirements of instruments. The reply is not based on facts as most of the procurements were for generic products like desktops, printers and laptops. The Proprietary Article Certificate in the form prescribed in GFR had also not been obtained.
2	Procurements of ₹ 3.28 crore by Single or Limited Tender	In violation of Rule 161 and 162 of GFR 2017, two departments[7] of the University purchased paper and Laboratory Equipment worth ₹ 0.65 crore during 2017-22 on the basis of single tender. Further, three departments[8] procured (between March 2019 and September 2021) equipment worth ₹ 2.63 crore on the basis of only two tenders.	On being pointed out, it was stated (January 2023) by the In-charge Services Department that the rates of white paper were finalised based on tenders invited in 2017-18. Further, Registrar stated (November 2023 and March 2024) that three bids were received in respect of procurements in the Physics Department, out of which one bid was technically rejected. Financial bids of the remaining two firms were opened, and prior approval of competent authority was obtained before placement of order. The reply is not acceptable as in view of the inadequate response to tenders, the department should have re-tendered as per Rule 162 (i) of GFR 2017.
3	Procurements valuing ₹ 3.21 crore on repeat order basis	Without following a tendering process, the Controller of Examinations (CoE) allotted (June 2019) the job of result processing to an agency[9] at the revised (October 2013 and September 2015) rates with an increase of 10 *per cent* over previous rates. An amount of ₹ 1.91 crore was paid to the agency for the assigned work during 2017-22. Besides, CoE had also purchased Dome cameras and water coolers valuing ₹ 5.61 lakh on repeat order basis without ensuring reasonability of rates during the period. Similarly, CoE, DIQA and Director DDE had placed orders for printing of Annual Reports/ study material/ answer books on different agencies at the rates approved in previous years. A payment of ₹ 1.23 crore was made to the agencies during 2017-22 for these allotted tasks.	While in charge Services Department attributed (January 2023) non invitation of tenders to the lengthy process involved in tendering. Deputy Registrar (DDE) stated (January 2023) that the printing was got executed at earlier approved rates after approval of the Vice-Chancellor as one-time exception. CoE attributed (March 2023) assigning the job to the same agency to sensitivity involved in compilation of results. Registrar intimated (November 2023 and March 2024) the decision of CoE to address the issue. It was added (February 2025) that as on date the University is following the GFR rules. The plea taken by various functionaries of the University, however, are not acceptable and cannot be used as a conduit to avoid tendering process.

6 Desktops, printers, softwares, lab kits, stereomicroscope, oscilloscope etc.
7 Directorate of Distance Education: ₹ 45.81 lakh; Biotech: ₹ 19.47 lakh
8 Zoology: ₹ 23.85 lakh, Biotechnology: ₹ 41.84 lakh, Physics: ₹ 197.44 lakh
9 SAI data soft services Pvt. Ltd.

Sl. No.	Irregularity	Audit Observation	Reply and Remarks
4	Irregular Expenditure on Annual Maintenance Contracts	Executive Engineer (EE), University Works Department (UWD), Administrator, General Zorawar Singh Auditorium and Director SoB had executed AMCs with different agencies without invitation of tenders (06 cases) or on single tender basis (06 cases) and made (between March 2017 and March 2022) advance payment of ₹ 69.38 lakh to the agencies. No agreement had been executed with the firms specifying the terms and conditions regarding execution of contracts. As such, no EMD/ performance security/ Bank Guarantee was taken from the firm to safeguard the interest of the University.	While the not inviting of tenders was attributed (March 2024) by the Registrar to emergent nature of works, in respect of General Zorawar Singh Auditorium, it was stated that the matter had been noted for future compliance. It was added (February 2025) that as on date the University is following the GFR Rules 2017.
5	Procurements of books	Records showed that without ascertaining reasonability of rates by comparing rates offered by different booksellers, the University had procured 28,613 books valuing ₹ 1.82 crore from random booksellers at a discount of 20 *per cent* during 2017-22 for Central Library and DDE out of non-plan funds provided by GoJ&K.	Registrar stated (November 2023 and March 2024) that books were purchased as per the provisions of GFR-2017 and strictly as per the discount fixed by the competent authority. The reply is to be seen in the light of the fact that the University could have obtained a more competitive discount, had it sought rates of different booksellers and publishers.
6	Defective Tendering Process	• The Department of Physics had not verified the credentials of three vendors who had responded to tenders floated (November 2019) for procurement of an experimental setup. As two firms were authorised dealers of the selected vendor[10] from whom purchase of equipment was made at a cost of ₹ 14.18 lakh. This had rendered the tendering process extraneous. • For procurement of Spectrophotometer, Department of Chemistry (DoC) issued (June 2019) e-NIT which was cancelled (October 2019) due to a complaint from one[11] of the five bidders alleging that technical specifications favoured the selected vendor[12]. After modification of technical specifications, tenders were re-issued (October 2019) and two[13] out of three participants, were found (November 2019) technically qualified. Based on another complaint filed by L2 regarding L1 (M/s S.R Technomed) not qualifying	Registrar stated (February 2025) that procurements under GFR 166 (i) and 166 (iii) are done after following all the codal formalities by different departments and in many cases pre-bid meetings are conducted to clarify the doubts of prospective bidders and transparent procedures are being followed. The reply is vague and does not address the specific audit observation.

[10] M/s OSAW Industrial Products Private Limited, Ambala Cantonment, Haryana.
[11] M/s Toshvin Analytical Private Limited
[12] M/s Perkin Elmer Singapore Private Limited
[13] M/s Perkin Elmer Singapore Private Limited and M/s S.R Technomed

Sl. No.	Irregularity	Audit Observation	Reply and Remarks
		technically, afresh tender was floated (November 2019) and an order placed (February 2020) on the single tenderer[14] on whose complaint the department had declared L1 not being technically qualified. Thus, the Department did not follow a transparent tendering process and made purchase on a single tender basis resulting in irregular expenditure of ₹ 44.69 lakh. • In respect of procurement of Glove Box, Department of Chemistry (DoC) had technically disqualified one of the three bidders, who was fulfilling all the required specifications included in the tender notice floated by the Department in November 2019. This had rendered the tendering process ineffective resulting in procurement of equipment from a single source at a cost of ₹ 19.40 lakh.	
7	Irregular Expenditure of ₹ 17.32 lakh in excess of Requirement	The Department of Remote Sensing and Geographic Information System procured (January 2020) software[15] for 50 users with subscription of ₹ 9.32 lakh for five years. However, subscription for software was paid in advance for a further period of five years up to November 2030 making a total payment of ₹ 18.64 lakh for 10 years. Audit noticed that although the Department of Remote Sensing had only 28 workstations on which the software could be installed, procurement of software was made for 50 workstations resulting in an excess expenditure of ₹ 8.21 lakh for which there was no justification on record.	HoD Geology stated (February 2023) that software was procured for 50 users to meet the requirement of 24 postgraduate students and 08 registered scholars. Registrar stated (February 2025) that keeping in mind the objective of research and training, the concerned Department felt it appropriate to make advance subscription of five years to make savings on the ever-increasing cost of the software. The replies are not convincing as the purchase was not based on accessed needs resulting in the non-utilisation of 22 licensees.

5.6 Conclusion

The University could not optimally utilise financial assistance received from UGC, DST etc. for infrastructure strengthening resulting in not releasing of further installments. Due to not maintaining of a Consolidated Local Fund, balances under local funds of various PG departments and constituent offices remained outside the main account of the University resulting in understatement of revenue in the budget estimates. The University had not prepared annual account and balance sheet since its inception increasing the risk in financial management and indicating lack of commitment towards it on the part of the University. By specifying particular makes and models, the University had carried out purchases from single source resulting in

[14] M/s Perkin Elmer Singapore Private Limited
[15] EIGAP Plus

lack of transparency in the procurement process and reduced opportunity to get better prices and products through competitive bidding.

5.7 *Recommendations*

- ***The University may ensure preparation of annual accounts and balance sheet to present a true and fair picture of its financial position.***
- ***The University may prepare a Consolidated Local Fund to credit savings available under each local fund so that they form part of the main account of the University and are taken into account during preparation of budget estimates.***
- ***The University may ensure transparency in the procurement process by following GFR for procurement of goods and services.***

Appendix-2.1

(Reference paragraph: 2.8.5.1)

Details of not disseminating of results of the Research Projects

(₹in lakh)

Sl. No.	Name of the project	Cost	Exp.	Tenure in months (Date of completion)	Objectives	Achievements	Publications
1	**Culture of Giant Freshwater Prawn Macrobrachiumrosenbergii in Jammu (J&K)** **Funding agency-** DST **Sanction Date: 0**4.12.2014 **PI-** Seema Langer	10.91	7.55	24 Months (03.12.2016)	1. To establish grow out Technology for Scampi and to transfer this technology to farmers already practicing fin fish culture 2. To ensure availability of this price and palatable seafood to the tourist and serve local market.	The project proposal was an extension of work conducted during 2008-10 and was supposed to supply the seeds to farmers and help them in carrying out its grow out technology. Though the grow out technology protocol for successful culture of freshwater prawns had been stated to be framed & the validity accessed, the grow out technology which was supposed to add to economy of the state had not been shared with the state line department/ other stakeholders, so that the culture could be replicated on a large scale to meet the high demand in the state. Also, the recommendation for establishment of hatcheries to supply prawn seed had not been shared with the state line department for achieving the long-term objective of uplifting socio-economic status of farmers.	01 publication
2	**Tourism entrepreneurship for peace and development in Jammu and Kashmir** **Funding agency- ICSSR** **Sanction Date:** 31.03.2017 **PI-** Vinay Chohan	7.00	4.84	24 Months (31.07.2019)	1. To investigate the regional specific issues and challenges with regard to tourism entrepreneurship for peace and development, develop capacity building and reconciliation through entrepreneurial initiative such as counseling and mentorship support to potential startups with innovative ideas in the select model villages in Jammu and Kashmir to bring the youth of Jammu and Kashmir from anti-national and anti-social	One of the objectives of the study was to bring out impact of tourism as a mechanism for sustainable peace building process and devise a policy framework to inculcate entrepreneur environment for peace building. The findings of the study were too generic and there was no data to substantiate the findings. No potential startups were identified for providing mentorship support. Also, the suggestion for framing policies related to tourism and entrepreneurship to the state had not been shared with the policy makers of the state (Tourism department etc.)	No publication

Sl. No.	Name of the project	Cost	Exp.	Tenure in months (Date of completion)	Objectives	Achievements	Publications
					activities towards mainstream activity. 2. To devise the policy framework to inculcate and enrich suitable entrepreneurial environment for building peace and sustainable socio-economic development.		
3	**Strategic model for Sustainable Tourism Development exploring contemporary Indian practices** **Funding Agency-** UGC **Sanction Date –** 01.07.2015 **PI-** Parikshat Singh Manhas	11.34	10.57	36 Months (30.06.2018)	1. To study existing policies and practices in reference to sustainable development and climate at different Indian destinations. 2. To study participation of communities in capacity building for preservation of local ecology 3. To identify the underlying factors on the basis of which destination branding is developed 4. To study the impact of existing tourism practices on destination image and destination branding.	The study was supposed to identify the factors for development of destination branding and impact of existing tourism practices on destination image and destination branding. There was no specific observation substantiated by data for a predictive model. Recommendations arising out of the study which could help the policy makers in the state for attaining sustainable tourism development and improving destination image was not disseminated to stakeholders.	01 publication and another was stated to be under process.
4.	**Molecular characterization and genetic diversity of wild pomegranate** **Funding Agency:** SERB **Sanction Date:** 05.08.2014 **PI-** Ritu Mahajan	22.00	20.62	36 Months (November 2017)	1. Collection & Characterisation of genetic diversity in the germplasm of wild pomegranates from J&K and Himachal Pradesh using molecular markers 2. Characterisation of variation in germplasm for various biochemical traits like total phenolics, flavonoids, anthocyanins and their antioxidant activity.	Though the immediate objectives of the project *vis-a-vis* collection, comparison & characterisation of genetic diversity in germplasm of wild pomegranate was completed, recommendations for in-situ conservation and utilisation of the genetic resource as a source of natural antioxidants were not disseminated to the stakeholders for further utilisation in pharma industry or as food additive. Future work for possible application of wild pomegranate samples from mandi region for use as health supplement/ preservatives, as envisaged as a sequel to the project was yet to be proposed.	01
5.	**Green Synthesis of different biodegradable**	26.56	24.82	48 Months (February 2021)	1. Collection, extraction and evaluation of Bergenia liggulata &	The immediate objectives of the project viz; collection, extraction and isolation of bioactive	No publication

Sl. No.	Name of the project	Cost	Exp.	Tenure in months (Date of completion)	Objectives	Achievements	Publications
	nanoparticles for enhanced drug delivery of some phytoconstituents **Funding agency-** SERB **Sanction Date:** February 2017 **PI-** Dr. Madhulika Bhagat				Boswellia serrata for their antioxidant, antimicrobial and anti-cancer properties 2. Isolation & characterizations of molecules of B-boswellic acid from the plants and exploring their efficacy against anticancer, antioxidant & antimicrobial properties. 3. Preparing the biodegradable nanoparticles of the molecules for enhanced drug delivery	molecules from green resin extracts of two medicinal plants for their further evaluation against anticancer/ antioxidant/ antimicrobial activity and their further encapsulations within biodegradable nano-particles to enhance efficiency for controlled and sustained release was achieved; the results of the research were neither disseminated to stakeholders for clinical translation of the nano-formulations towards cancer treatment approaches; nor any further project proposal formulated for further extensive studies on cellular interactions encapsulated systems as envisaged. Besides, no publication has emanated from the project.	
6	**Store atmospherics and patronage intentions in Indian organized retail** **Funding agency-** UGC **Sanction Date:** July 2015 **PI-** Alka Sharma	10.38	6.05	36 Months (30.06.2018)	1. To explore the underlying factors of store atmospherics influencing the behavior of consumers 2. To understand the relationship between store image and patronage intentions 3. To evaluate the meditating effect of Store atmospherics on relationship between store image and patronage intentions 4. To suggest strategic interventions for managing store atmospheric to enhance patronage intentions	The study was carried out to examine the impact of various elements of store atmospherics on store image & use of store atmospherics as strategic tool for creating competitive advantages. Based on the findings, interventions for managing store atmospherics to enhance patronage intentions were spelt out in the completion report. However, the findings were not disseminated to/ marketers who could benefit from such study. Also, the results of the study were not utilized for future research to handle store atmospherics in retail context as envisaged.	02 publications under process
7	**In Vitro Conservation and phytochemical analysis of Curcuma zedoria Roscoe (safedhaldi)** **Funding agency-** SERB **Sanction Date:** 28.08.2017	31.24	31.19	36 Months (July 2022)	1. Collection and mass multiplication of C.Zedoaria (safedhaldi) and assessment of genetic stability of micro propagated & plants regenerated from cryo preserved material using molecular markers. 2. Comparison of germ plasm from NE with that of NW India for	Though a Protocol for the in vitro mass multiplication using direct and indirect shoot multiplication was standardised for the conservation of this plant, the results of the research were not shared with the state line departments (Agriculture/ Horticulture) for onward dissemination to the farmers of the state to achieve the expected outcome of raising rural	02

	PI- Dr. Ritu Mahajan				different phytoconstituents and antimicrobial activity.	employment and enhancement of their income and societal upliftment.	
8	**Studies on sex expression, pollination mechanism and breeding system of some common cucurbits of Jammu district.** **Funding agency-** DBT **Sanction Date:** 21.07.2015 **PI-** Prof. Namrata Sharma	17.08	12.40	36 Months (June 2018)	1. To study, identify and enlist wild and cultivated cucurbits growing in and around Jammu and its neighboring districts and work out the details of sex expression, pollination mechanism and breeding system operative in some selected cucurbits	Out of 23 species of wild and cultivated cucurbits, growing in wild and under cultivation, four species of cucurbits were studied for their morphology, floral phenology, percentage of fruit and seed growing in wild and under cultivation. However, there was no application part emanating from the project nor any dissemination of the enlisted species for further application of the results of research.	02
9	**Molecular characterization of Gene Mutations in Leukemias with special reference to Acute Myeloid Leukemia: a study of Jammu region of J&K State.** **Funding agency-** SERB **Name of PI-** Dr. Rupali Fotra **Sanction Date:** 28.06.2018	19.20	18.56	24 Months (Extended upto September 2020) 01.04.2020	2. To study the prevalence and risk of Acute Myeloid Leukemia and generate a database of common and novel mutations prevalent in the population of J&K state. 3. To screen the known mutations of genes among the patients diagnosed with acute myeloid leukemia. 4. To study the potential risk factors associated with the progression of acute myeloid leukemia.	The study aimed at generating a database of common and novel genetic mutations associated with Leukemia prevalent in the state and share the data with the experts in the field of cancer genetics. The results of qualitative and quantitative analysis of isolated genomic DNA for molecular characterization of mutations carried out on 213 confirmed Leukemia cases out of a study population of 456 patients were not disseminated/ shared with the experts in the field of cancer genetics nor did any publications emanate from the study. Further, the results of research were not utilised for further advance research in acute myeloid leukemia as a long-term objective of the project.	No publication

1	**Biodiversity and paleo biogeography of the microbiota from the Deccan Infra and intertrappean Beds of the malwa plateau Centre India** **Funding agency-** SERB **Sanction Date:** 20.06.2018 **PI-** Varun Parmar	37.36	20.39	36 Months 16.01.2022	1. To delineate fossiliferous Deccan Infra and intertrappean sections in the Malwa plateau 2. To document the biodiversity of the delineate Infra and intertrappean beds and to understand the compositional differences between the biota of Malwa region and main Deccan volcanic province 3. To reconstruct the paleo ecology of the fossiliferous horizons and the paleobiogeography of Peninsular India based on Biotic affinities.	Some findings of the project concluded on January 2022 were to be revalidated/ definitively confirmed by further extensive studies on the infra and intertrappean section all along the Narmada Valley. However, future research proposals for convergence of results of the research had not been formulated as of March-2023.	4 publications
2	**Crustal deformation studies in Jammu and Kashmir region** **Funding agency-** MoES **Sanction Date:** 7.12.2014 **PI-**GM Bhat	159.95	135.72	60 Months 16.12.2019	1. To understand the Dynamics involved and measurement of the strain accumulated in the western part of the Indian Plate through GPS network established in Jammu and Kashmir 2. Integrate GPS regional geology interpretation to model the details of the strain field in the region and its accumulation and release cycle 3. Synthesis of the historical earthquakes record in conjunction with the current record from the region for quantitative modeling.	Under the projects, GPS network at 8 sites was installed at the existing sites where BBS observatories were situated. Future research proposals for long term application potential for quantitative earthquake hazard mapping and other hazard mapping methods by utilising GPS data retrieved from 8 stations as envisaged had not been formulated as of March 2022.	1 publication
3	**Seismotectonic analysis of the Jammu region and its adjoining areas** **Funding agency-** MoES **Sanction Date:** 24.09.2014	193.14	141.63	60 Months (Extended upto March 2022) 30.09.2019	1. Continuous monitoring of seismicity in Jammu and its adjoining areas 2. To know the precise location of earthquake epicenters and estimate their source parameters 3. To determine source process from seismographs of by waveform modeling	The immediate objective of the projects viz. generation of data base of local and regional earthquakes through a network of seismic stations at seven locations (Jammu, Poonch, Rajouri, Bani, Bhaderwah, Doru and Tangdhar) for their further analysis to understand the seismicity pattern of J&K region in two	3 publications

Sl. No.	Name of the project (Funding Agency)	Cost	Exp.	Tenure in months	Objectives	Achievements	Publications
	PI- GM Bhat				4. Detailed understanding of this in more tectonic of the region 5. Evaluation of seismic potential of the major structural units in the region	prominent seismic cluster on which a 3D model was stated to be developed. The results of the research had not been utilised for further assessment of seismic zones of J&K. Further maintenance of seismographs purchased and installed also remained jeopardised in absence of any further project proposals.	
4	**Isolation, characterization and exploring antioxidant properties of some economically important bioactive compounds from Arisaema Sp growing in J&K** **Funding agency**- UGC **Sanction Date:** 01.07.2012 **PI**- Madhulika Bhagat	14.50	10.00	36 Months (30.06.2015)	1. Collection of different plant species of Arisaema genus belonging to J&K state. 2. Preparation of the extracts from arial and tuber parts of the plant species. 3. Identification and isolation of most active antioxidant species for phytochemical investigation. 4. Evaluation of antioxidant and free radical scavenging activity of the extract/compounds from selected Arisaema species.	The project envisaged evaluating the antioxidant properties of the species of Arisaema growing in north-west Himalayan region. Though the immediate objectives of the project viz; antioxidant power analysis of species of Arisaema found in high altitude forests of Himalayas were accomplished; studies on recognising their biological potentials which could serve as a basis for their commercial exploration and for development of new lead chemical for pharmaceuticals, had not been undertaken as sequel of the project as of March -2023.	No publication
5	**Cost effective approaches for production of novel microbial fibrinolytic proteases with high thrombolytic potential** **Funding agency**- ICMR **Sanction Date:** 25.03.2015 **PI**- BK Bajaj	36.14	29.59	36 Months (24.03.2018)	1. Investigation of fibrinolytic potential of bacterial and fungal strains isolated form unusual environmental niches. 2. Purification and characterization and evaluation of earmarked fibrinolytic proteases 3. Cloning and heterologous expression of fibrinolytic protease-encoding genes 4. Process optimization for cost-effective production of selected fibrinolytic protease using agro-residues as substrates under submerged as well as solid state fermentation and comparison of its production costs with that of available fibrinolytic (thrombolytic) proteases.	The project entailed production of novel fibrinolytic proteases form bacterial and fungal isolates and process development for cost effective production of enzymes with high fibrinolytic proteases by employing agricultural residues. Though the immediate objectives viz; production of efficacious fibronolytic proteases from newly isolated bacterial isolates from agro-waste resides was accomplished; the production process was not standardised for production of fungal fibrinolytic proteases for treatment of thrombosis as of March-2023.	3 publications

6	**Characterization & Consolidation of Hippophae Genetic Resources & Propagation of Elite Genotypes for Varietal Evaluation** **Funding agency**- DBT **Sanction Date:** 21.08.2014 **PI**- Dr. Veenu Kaul	31.30	24.23	36 Months (20.02.2018)	1. Survey of Zanskar for raw material availability with respect to both H.rhamnoides & H. tibetana 2. Collection & Preparation of herbarium specimens of plants from Zanskar 3. Assess the nature & magnitude of variability at the morphological level for the development of descriptor for plants of Zanskar 4. Development of nurseries facilities at Leh & Kargil.	The project was undertaken in 2 phases with the expected outcome of assessment of variability in the most promising genotype of sea buckthorn & subsequent selection of superior plant types (Preferably thorn less) for further breeding program leading to production of elite genotypes. Though the immediate objectives of the project *vis-s-vis* collection, morphological characterisation & compilation of descriptors of germplasm of sea buckthorn was completed, the results were not utilised in further studies for achievement of long-term objectives. Further, in view of huge variations noticed in the features at Zanskar, further studies on characterization of germplasm had not been taken up. Also, Nursing facility at Kargil had not been developed though envisaged in the project.	7 papers published

Preface	--	vii
Executive Summary	--	ix-xiii
CHAPTER-I: Introduction		
Introduction	1.1	1
Performance Audit of Conservation and Management of Lakes in J&K	1.2	1-2
Organisational Setup	1.3	2-3
Audit Objectives	1.4	3
Audit Criteria	1.5	4
Audit Scope, Sample and Methodology	1.6	4-6
Acknowledgement	1.7	6
CHAPTER-II: Statutory And Regulatory Arrangements For Conservation and Management of Lakes, changes in areas of Lakes and land use changes in Lakes		
Introduction	2.1	7
Spatial temporal changes in the area of Lakes in Kashmir and Jammu Divisions of J&K	2.2	7-12
Land use changes	2.3	12-26
Absence of legal Statute/ Act and Centralised Development and Regulatory Authority for Conservation and Management of Lakes	2.4	26
Lack of institutional arrangements for discharge of environmental functions related to Lakes	2.5	26-31
Conclusion	2.6	31-32
Recommendations	2.7	32
CHAPTER-III: Overview of Conservation and Management Programmes/ activities for Lakes		
Conservation Programmes for Lakes	3.1	33-34
Generic activities for Lake Management	3.2	34-47
Lack of emphasis on Conservation and Management of Lakes by the GoJ&K	3.3	47
Conclusion	3.4	47-48
Recommendations	3.5	48

Particulars	Reference to	
	Paragraph	Page
CHAPTER-IV: Conservation And Management of Dal Lake		
Introduction	4.1	49
Organisational Setup	4.2	49-50
Land use changes within Dal Lake and its catchment	4.3	50-59
Planning	4.4	60-65
Financial Management	4.5	65
Programme implementation	4.6	65-95
Other programme activities	4.7	95-101
Public awareness	4.8	101-102
Manpower Management	4.9	102
Accounting Deficiencies	4.10	102-103
Monitoring Mechanism	4.11	103-104
Impact Assessment	4.12	104-105
Research carried out by scholars of various universities	4.13	105-106
Conclusion	4.14	106
Recommendations	4.15	106
CHAPTER-V: Conservation and Management of Wular Lake		
Introduction	5.1	107
Organisational Setup	5.2	107-108
Establishment of Wular Conservation and Management Authority	5.3	108-109
Land use changes within the Lake and its catchment	5.4	109-117
Planning	5.5	117-120
Programme implementation	5.6	120-134
Institutional Development, Capacity Building, Awareness Generation and Monitoring/Evaluation	5.7	134-136
Impact Assessment	5.8	137-138
Conclusion	5.9	138
Recommendations	5.10	138

CHAPTER-VI: Conservation and Management of Hokersar, Mansar, Surinsar and Manasbal Lakes		
Conservation and Management of Hokersar Lake	**6.1**	**139**
Introduction	6.1.1	139
Organisational Setup	6.1.2	139-140
Land use changes within Lake and its catchment	6.1.3	140-146
Planning	6.1.4	147-149
Underutilisation of funds for Management of Lake	6.1.5	149
Programme implementation	6.1.6	150-153
Public Awareness	6.1.7	153
Encroachment of Lake	6.1.8	153-154
Results of research carried out by scholars of universities and health of Lake	6.1.9	155-156
Conclusion	6.1.10	156
Recommendations	6.1.11	156
Conservation and Management of Surinsar and Mansar Lakes	**6.2**	**157**
Introduction	6.2.1	157
Organisational Setup	6.2.2	157
Land use changes in Surinsar and Mansar Lakes and their catchments	6.2.3	158-165
Planning	6.2.4	166-168
Underutilisation of funds for Management of Lake	6.2.5	168-169
Programme implementation	6.2.6	169-174
Measures for Conservation of turtles	6.2.7	174-175
Other issues	6.2.8	175-178
Research carried out by scholars of universities	6.2.9	178-180
Conclusion	6.2.10	180
Recommendations	6.2.11	181
Conservation and Management of Manasbal Lake	**6.3**	**182**
Introduction	6.3.1	182
Organisational Setup	6.3.2	182
Land use changes within the Lake and its catchment	6.3.3	183-186
Planning	6.3.4	187-188

Particulars	Reference to	
	Paragraph	**Page**
Lake Management	6.3.5	188-192
Encroachment of Lake	6.3.6	193
Research carried out by scholars of various universities	6.3.7	194
Joint Inspection of catchment area of Manasbal Lake	6.3.8	194-197
Springs	6.3.9	197-198
Constructions in the catchment area of Lake without building permission	6.3.10	198
Conclusion	6.3.11	198
Recommendations	6.3.12	199

	APPENDICES	
Appendix No.	**Description**	**Page No.**
Appendix-2.1	Division/ Department-wise changes/ no-changes in the area of Lakes in J&K	201-218
Appendix-2.2	Department/ Jurisdiction/ Lake-wise details of change in area of Lakes	219-234
Appendix-2.3	Department/ Authority-wise details of Spatio-temporal changes in sampled Lakes	235-236
Appendix-2.4	Lake-wise Land use/ Classification use changes in Lakes	237-239
Appendix-2.5	Lake-wise Land use/ Classification use changes due to anthropogenic pressures	240-241
Appendix-2.6	Lake-wise absence of open water, decrease/ increase in aquatic vegetation	242
Appendix-2.7	Lake-wise decrease in open water and change in other land use	243
Appendix-2.8	Lake-wise increase in open water and change in other land use	244
Appendix- 2.9	Year/ Location-wise clear images available on Google Earth Pro	245
Appendix-2.10	Statement showing functions of the Department/ Authorities/ Boards related to environmental issues which includes preparation of development plans for Lakes	246-248
Appendix-3.1	Division-wise Lakes in which sewage enters without any treatment	249-250
Appendix-3.2	Details of Lakes, along with the number of households, human population and animal population, where sewage was discharged either directly into these Lakes or at the fringes of these Lakes.	251
Appendix-3.3	Name of 23 Lakes where there was increase in aquatic vegetation, siltation, agriculture, built-up etc.	252-253
Appendix- 3.4	Name of 40 Lakes where non-dredging resulted in increase in aquatic vegetation and consequent increase in other land use changes	254-255
Appendix-3.5	Lake-wise details of fishing and extraction of vegetation species	256
Appendix-3.6	Ongoing transfer of Lake areas by the Government for construction purpose as on March 2022	257
Appendix-3.7	Transfer of Lake areas by the Government for construction uses	257
Appendix-3.8	Details of five Lakes in which encroachments were reported by the Tehsildars	258

APPENDICES		
Appendix No.	**Description**	**Page No.**
Appendix-3.9	Funds allocated by the Government of Jammu and Kashmir for Conservation and Management Plans/ activities for six detailed-checked Lakes	258
Appendix-4.1	Approved activities and sub-components with sanctioned cost to be covered under the National Lake Conservation Plan	259
Appendix-4.2	Underutilisation of overall funds received by Lakes Conservation and Management Authority	260
Appendix-4.3	Underutilisation of funds under National Lake Conservation Plan	260
Appendix-4.4	Statement showing unspent balances lying with implementing agencies	261
Appendix-4.5	Treatment of sewage inflow by Sewage Treatment Plants	261
Appendix-4.6	Themes of research papers and its authors, conclusions and suggestions relating to Dal Lake	262-263
Appendix-5.1	Details of funds released, expenditure incurred and unspent fund in respect of Wular Lake	264
Appendix-5.2	Activity-wise approved tentative cost, expenditure incurred under CAPEX vis-a-vis proposed revised activity-wise cost estimates to be implemented for Comprehensive Conservation and Management Plan	264
Appendix-5.3	Themes of research papers and its authors, conclusion and suggestions relating to Wular Lake	265-266
Appendix-6.1	Themes of research papers and its authors, conclusion and suggestions relating to Manasbal Lake	267

PREFACE

This Report of the Comptroller and Auditor General (CAG) of India on Conservation and Management of Lakes for the period ended March 2022 has been prepared for submission to the Lieutenant Governor of Jammu and Kashmir under Section 72 of Jammu and Kashmir Reorganisation Act 2019 for laying in the Legislative Assembly.

This Report contains six chapters.

Chapter I includes introduction, organisational setup, audit objectives, audit criteria and audit scope, sample and methodology.

Chapter II gives an overview of statutory and regulatory arrangements for Conservation and Management of Lakes, changes in areas of Lakes and land use changes in Lakes.

Chapter III gives an overview of National and State/ UT programmes and Lake generic management activities for Conservation and Management of Lakes.

Chapter IV, V and **VI** contain the details of the implementation of Conservation and Management programmes/ plans undertaken and highlight the inadequacies in Conservation and Management in respect of Dal Lake, Wular Lake, Hokersar Lake, Mansar Lake, Surinsar Lake and Manasbal Lake.

The cases mentioned in the Report are among those which came to notice in the course of test audit covering the period from 2017-18 to 2021-22. Observations highlighted in the Performance Audit of Dal Lake included in the CAG's Audit Report 2006 and 2011 were also reviewed. Instances relating to the period subsequent to March 2022 have also been included, wherever necessary.

The audit has been conducted in conformity with the Auditing Standards issued by the Comptroller and Auditor General of India.

Executive Summary

Executive Summary

Jammu and Kashmir is gifted with 697 natural Lakes[1] having great ecological and socio-economic significance. Keeping in view the significance of Lakes, threats faced by them and importance of Conservation and Management of Lakes for ecological sustainability, a Performance Audit (PA) of Conservation and Management of Lakes in J&K was taken up to assess whether the Government of Jammu and Kashmir (GoJ&K) had formulated policies and programmes for Conservation and Management of Lakes and whether these programmes and policies were effective in preserving/ conserving them. The PA covered the period from 2017-18 to 2021-22. The policy matters of Conservation and Management of Lakes prior to 2017 were also reviewed for holistic coverage of the issue. Instances relating to the period subsequent to March 2022 have also been included, wherever necessary. The audit sample included 63 Lakes (test-checked), of which six Lakes viz., Dal Lake, Wular Lake, Hokersar Lake, Manasbal Lake, Surinsar and Mansar Lakes were selected for detailed examination.

At the National Level, the Ministry of Environment, Forest and Climate Change (MoEF&CC) is the nodal agency committed to conservation and wise use of wetlands (including Lakes) within its territory. The administrative control of Lakes in J&K is vested with five Departments viz. Forest, Revenue, Agriculture, Housing and Urban Development and Tourism. The Forest Department in J&K was mandated (October 1989) to handle Conservation and Management of all 697 Lakes. Out of 697 Lakes, six Lakes viz. Wular, Dal, Anchar, Gilsar, Khushal Sar and Manasbal Lakes were transferred (1997-2012) to three Development Authorities. Audit observed that these Departments/ Authorities had fragmented mandate and responsibilities for fully complying with the entrusted mandate e.g. GoJ&K assigned (October 1989) EE&RSD to conduct a detailed survey of Lakes, study their physical, chemical and biological dynamics and on the basis of the data so collected, prepare detailed plans for development and monitoring of each Lake. However, the detailed survey was not carried out by the Department being deficient in technical manpower. There was no Centralised Development and Regulatory Authority and no specific legal statute/ Act for Conservation and Management of Lakes had been put in place. Due to the absence of a Lake specific Centralised Development and Regulatory Authority and specific legal statute/Act, there were diffused functions across various institutions, inadequacies in institutional arrangements for discharge of environmental functions related to Lakes, lack of cross-sectoral institutional convergence, monitoring and evaluation.

There were significant changes in land use and classification use of areas of Lakes. Analysis of remote sensing data for the period 2014-2020 related to 63 test-checked Lakes revealed that there was decrease of area of open water, and increase of area in other land uses like built-up, pasture, vacant land, fallow land, agriculture, horticulture, plantation etc. The Department stated that the data provided by Ecology Environment & Remote Sensing Department (EE&RSD) regarding land use/ classification use

[1] As per Atlas of J&K Department of Ecology, Environment and Remote Sensing (EE&RSD)

changes need to be validated by ground truthing. It was further stated that detailed remote sensing for all Lakes of J&K was not possible due to budget constraints, however it could be carried out for some major Lakes. The reply should be seen in the light of the fact that the Directory of Lakes and water bodies of J&K was prepared using high resolution data supported by limited field checks/ground truthing. The geo-coordinates of the 63 audit sampled Lakes provided by the EE&RSD were plotted by audit on Google Earth Pro on various timelines. It was found that seven Lakes[2] were not visible or had almost dried up. There were land use changes in Khushal Sar Lake and degradation/ shrinkage of Anchar Lake. Although Development Authorities were established for development of areas of five out of six detailed-checked Lakes, there were no clear directions and specific mandate with any of these authorities for Conservation and Management of Lakes.

GoJ&K had Conservation and Management programmes for only six Lakes viz. Dal, Wular, Hokersar, Manasbal, Surinsar and Mansar, which were examined in detail by audit. In respect of the remaining 691 Lakes, Forest Department neither identified the eligible Lakes nor formulated any plans to seek assistance under various programmes launched by the MoEF&CC. Approximately one *per cent* (₹ 560.65 crore) of CAPEX budget of Jammu and Kashmir during 2017-22 was allocated to six detailed-checked Lakes. In case of the 63 sampled Lakes, changes in the catchment area of Lakes had not been evaluated from time to time. Further, there was lack of assessment of water carrying capacity and water budget of Lakes. Flushing on scientific grounds, restoration of water quality of Lakes to their original trophic levels, evaluation and preservation of biodiversity, assessment of expected life of Lakes, identification and treatment of source points and non-source points of pollution, de-weeding and dredging as per laid down norms as well as public awareness among masses had either not been carried out or were inadequately implemented in respect of the 63 sampled Lakes.

Detailed audit examination of the six Lakes also disclosed several shortcomings regarding the implementation of their Conservation and Management programmes. There were land use changes in Dal Lake due to non-acquisition of land from Dal dwellers, malfunctioning of Sewage Treatment Plants (STPs), improper de-weeding mechanism and inadequate monitoring and surveillance mechanism. Consequently, the open water area in Dal Lake could not be restored. There were inadequacies in the implementation of Lake conservation programme under National Lake Conservation Programme (NLCP), Prime Minister's Reconstruction Plan (PMRP) and other programme activities. Audit also noticed deficiencies in installation and upgradation of STPs, treatment of solid waste, extracted weed and sludge as well as providing sewage disposal facilities to households and sewer networking of "*mohallas*". Inadequacies were also noticed in relocation and alignment of houseboats, shifting of hotels,

[2] (i) Rakh-i-Arth, (ii) Sether Gund Numbal, (iii) Marhama, (iv) Devpursar, (v) Mahtan, (vi) Chandargar Numbal and (vii) Galwal Talao.

augmentation of water budget of the Lake, restoration and development works, catchment management works and relocation/ rehabilitation of Dal Lake dwellers.

Due to non-constitution of monitoring bodies, the Conservation and Management programme of Wular Lake had suffered as policy matters of Wular Conservation and Management Authority (WUCMA) could not be decided. Non-formulation of detailed plan resulted in deprival of financial assistance from GoI for rejuvenation and restoration of Wular Lake. Insufficient afforestation in degraded forests resulted in increase of siltation in the Lake and consequent hastening ageing of the Lake.

The planned activities for survey and demarcation, catchment conservation, enhancement of water holding capacity and water quality improvement were inadequately carried out. Training programmes, awareness generation and research activities for ensuring capacity building, public awareness and monitoring of impact of Lake conservation activities were not carried out.

Similarly, in case of Hokersar Lake no comprehensive plan was formulated for Conservation and Management of the Lake. Wildlife Protection Department had formulated only annual plans which did not address the root causes of degradation of Lake such as change in hydrological regimes, pollution or loss of biodiversity in the Lake. Due to lack of survey and demarcation, Lake area measuring *2,528.10 kanals* of Hokersar Lake had been encroached upon.

Wildlife Warden-Kathua (WLW-Kathua) and Surinsar-Mansar Development Authority (SMDA) did not have a specific legal framework and clear demarcation of responsibility for Conservation and Management of the Surinsar and Mansar Lakes. In the absence of any comprehensive plan for Conservation and Management of Lakes, WLW-Kathua and SMDA were carrying out Lake-related activities in a ad-hoc manner. State level monitoring committee had not monitored Conservation and Management of the twin Lakes. WLW-Kathua and SMDA had not carried out demarcation of boundary of Surinsar and Mansar Lakes due to which the two Lakes had remained open to encroachments. No STPs were in place for treatment of sewage generated by inhabitants living in the vicinity of Lakes resulting in discharge of untreated waste and sewage into the Lakes. Introduction of exotic species into the Lake had resulted in dwindling of number of native fishes.

Similarly, no comprehensive plan was in place for Conservation and Management of Manasbal Lake. Wular Manasbal Development Authority (WMDA) did not have a specific legal framework and clear-cut responsibility for Conservation and Management of the Lake. Lake management plans were formulated, financed and implemented through annual plans, in which only marginal Lake related activities such as sanitation of the area, de-weeding and dredging of Lake were included. Non-demarcation of Manasbal Lake beyond seven kilometers of length exposed the Lake to encroachments. The sources of sewage entering the Lake, which were responsible for pollution in the Lake were not identified. Due to non-finalisation of Master Plan of the area, unrestricted development and construction work was going on around the Lake and there were cases of encroachment and unauthorised constructions.

Recommendations:

Lake Conservation and Management is a scientific process involving various activities, which require proper planning, adequate funding and technical expertise. As stated above, the Conservation and Management of Lakes suffered mainly due to anthropogenic activities which had remained unchecked, as no specific Centralised Development and Regulatory Authority was in place for specifically focusing on integrated and comprehensive management of Lakes.

The Government may explore the possibility of establishing a central and specialised Authority and equipped with the necessary resources to ensure focused, coordinated and accountable Conservation and Management of Lakes.

Manpower with technical and domain expertise including environmental and hydrological engineers, wetland ecologists, limnologists, remote sensing and Geographic Information System specialists, ornithologists and microbiologists should be provided.

Concerted efforts should to be made to formulate a comprehensive Conservation and Management plan for Lakes after taking into consideration all the relevant natural and anthropogenic factors affecting the health of Lakes.

The provisions of Wetlands (Conservation and Management) Rules should be enforced to delineate, demarcate and notify the boundaries of Lakes and to prohibit activities in the vicinity of Lakes. Generic Lake management activities viz. survey, categorisation, sewage treatment, flushing etc. need to be planned and carried out in a time-bound manner. Changes in the Lakes due to anthropogenic pressures need to be addressed by taking appropriate measures. Water sources of all Lakes need to be identified and protected from various sources of pollution. Appropriate measures should be taken for ensuring proper and scientific treatment of the sewage entering the Lakes.

The GoJ&K should place emphasis on Conservation and Management of Lakes by earmarking increased percentage of its budget for Conservation and Management of Lakes. Clearing of encroachment in Lake areas and launching of public awareness programmes should be prioritised.

Robust Lake management policy should be in place to ensure effective functioning and upgradation of Sewage Treatment Plants and proper treatment of sewage and solid waste.

LC&MA should prioritise and expedite various tasks such as providing sewage disposal facilities to households, establishing sewer networking of mohallas, relocating and aligning of houseboats, shifting of hotels, augmenting water budget of the Lake, implementing restoration and development works, catchment management works and relocating or rehabilitating Dal-dwellers.

Encroachments in the Lake and impact of inflow of nutrients into the Lake need to be monitored regularly and mitigation measures may be taken expeditiously.

Point sources/ non-point sources of pollution entering the lakes need to be identified and treated. Survey and demarcation of the Lake needs to be undertaken so that the Lake area is not susceptible to encroachment and concerted efforts should be made to clear encroachment of Lake area. Construction works going around the Lake need to be restricted.

Chapter-I
Introduction

Chapter-I

Introduction

1.1 Introduction

A Lake is a water body which generally holds certain volume of water in all seasons. Often described as 'Eye of the Earth', Lakes are the most beautiful and expressive features of the landscape and are an intrinsic part of our ecosystem. Jammu & Kashmir (J&K), having a diverse geographic and climatic composition, is replete with Lakes of considerably varying physicochemical and biological characteristics.

Being among the most productive ecosystems, Lakes directly or indirectly support millions of people by providing them goods and services including drinking water, fish, fodder, fuel, recreation, tourism etc. Lakes also support various life forms by providing habitat to aquatic flora and fauna. Lakes also contribute to purification of water by filtration of sediments and nutrients from surface water and help in ground water recharging, flood mitigation, stabilisation of local climate, recycling of nutrients etc. Lakes are a genetic reservoir for various species of plants and animals.

Lakes are one of the most rapidly degrading ecosystems. Dense human population, urbanisation, encroachments, anthropogenic pressures in the catchment area of Lakes and conversion of Lakes into other land uses[1] and discharge of untreated sewage into Lakes have resulted in their overexploitation. This further results in degradation of quality of Lake water and reduction in water quantity. Apart from these, deforestation, salinisation, and climate change also directly or indirectly affect the Lakes.

1.2 Performance Audit of Conservation and Management of Lakes in J&K

Jammu and Kashmir is gifted with 697 natural Lakes[2] having great ecological and socio-economic significance in the two divisions comprising 20 districts[3]. These Lakes include 185 Lakes which are more than five hectares in area such as the Wular Lake, the largest fresh water Lake in India and other famous Lakes[4].

Keeping in view, the significance of Lakes and threats faced by them and importance of Conservation and Management of Lakes for ecological sustainability, a Performance Audit (PA) of Conservation and Management of Lakes in Jammu and Kashmir was taken up to assess whether Government of J&K (GoJ&K) had policies and programmes

1 Agriculture, horticulture, built-up etc.
2 As per Atlas of J&K Department of Ecology, Environment and Remote Sensing

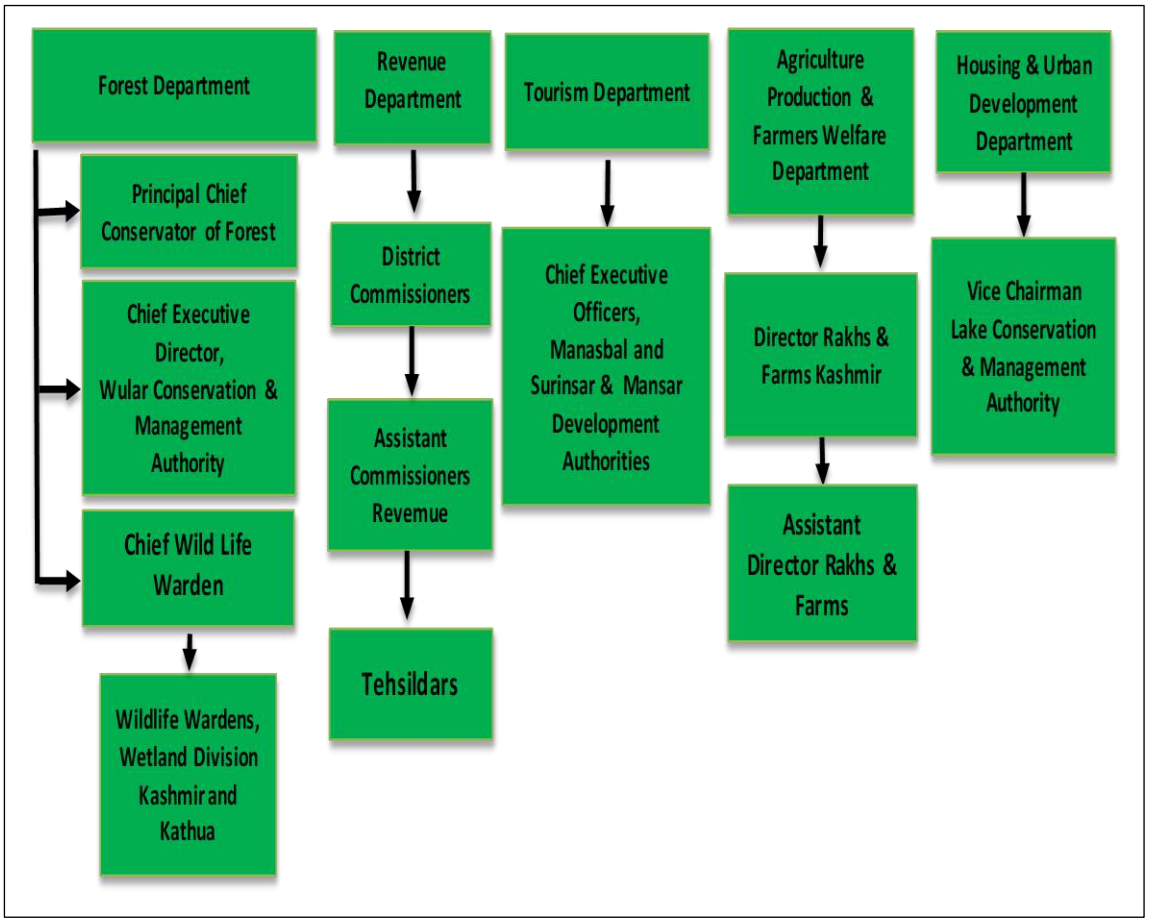
4 Dal, Hokersar, Manasbal, Surinsar and Mansar

for Conservation and Management of Lakes and whether these programmes and policies were effective in preserving/ conserving them.

1.3 Organisational Setup

The administrative control of Lakes in J&K is vested with five Departments viz. Forest, Revenue, Agriculture, Housing & Urban Development and Tourism as detailed in the flow **Chart 1.1**.

Chart 1.1: Organisational Setup of five Departments responsible for administrative control of Lakes



Out of the 697 Lakes in J&K, 410 Lakes are located outside forests and 287 Lakes are inside forests. The Forest Department was mandated (October 1989) to handle Conservation and Management of all 697 Lakes in J&K. However, the administrative control of 402 Lakes was vested with concerned District Commissioners. Six Lakes[5] were transferred (1997 to 2012) by the GoJ&K to three Development Authorities. Details of Departments/ Authorities wise jurisdiction of Lakes are given in **Table: 1.1.**

[5] (i) Wular, (ii) Dal, (iii) Anchar, (iv) Gilsar, (v) Khushar Sar and (vi) Manasbal Lakes.

Table 1.1: Department/ Authority-wise administrative control of Lakes

Sl. No.	Name of the Administrative Department	Controlling Authority	Jurisdiction	Number of Lakes
1.	Forest Department	Principal Chief Conservator of Forest (PCCF)	Lakes within territorial jurisdiction/ boundaries of forests	255
		Wular Conservation and Management Authority (WUCMA)	Wular Lake	1
		Chief Wildlife Warden, Wildlife Protection Department (WPD)	Lakes within territorial jurisdiction of protected areas/ wildlife area	39
2.	Revenue Department	District Administrations	Lakes within the jurisdiction of the District Administration	397
3.	Agriculture Production Department	*Rakhs* and Farms Department	Part of Lakes of District Administration falling within jurisdiction of *Rakhs* and Farms	
4.	Housing and Urban Development Department	J&K, Lakes Conservation and Management Authority (LC&MA)	Dal, Anchar, Gilsar and Khushal Sar	4
5.	Tourism Department	Wular Manasbal Development Authority (WMDA) and Surinsar & Mansar Development Authority (SMDA)	Manasbal and Surinsar and Mansar Lakes	1[6]
Total				**697**

(Source: data compiled by audit from the records of various Departments)

1.4 Audit Objectives

The Performance Audit of Conservation and Management of Lakes was conducted to assess whether:

- Legal frameworks and institutional arrangements for management of Lakes were in place;
- Programmes and plans, generics of Lake management activities and fund management for Lakes were in place; and
- Implementation of Conservation and Management programmes of Lakes was efficient and effective.

[6] Two Lakes (Surinsar & Mansar) are falling under jurisdiction of WPD and have been counted at serial number "1" in sub-row 3rd (under Number of Lakes). As such these two Lakes have not been counted at serial number "5" of column four (under Number of Lakes).

1.5 Audit Criteria

The Performance Audit was assessed against the following criteria:

- Policies of GoJ&K relating to Conservation and Management of Lakes;
- Forest (Conservation) Act 1980, Wild Life (Protection) Act 1972, Water (Prevention and Control of Pollution) Act 1974, Environment (Protection) Act 1986, Biological Diversity Act 2002, National Environment Policy, 2006, National Wetland Conservation Programme, Guidelines for Conservation and Management of Wetlands in India 2009, Wetlands (Conservation and Management) Rules, 2010 and 2017 and J&K Water Resources (Regulation and Management) Act 2010;
- Detailed Project Reports of Dal Lake, Comprehensive Management Action Plan (CMAP) of Wular Lake and Annual Plans of Hokersar, Manasbal, Surinsar and Mansar Lakes;
- J&K Financial Rules, General Financial Rules 2017 and instructions issued by GoJ&K.

1.6 Audit Scope, Sample and Methodology

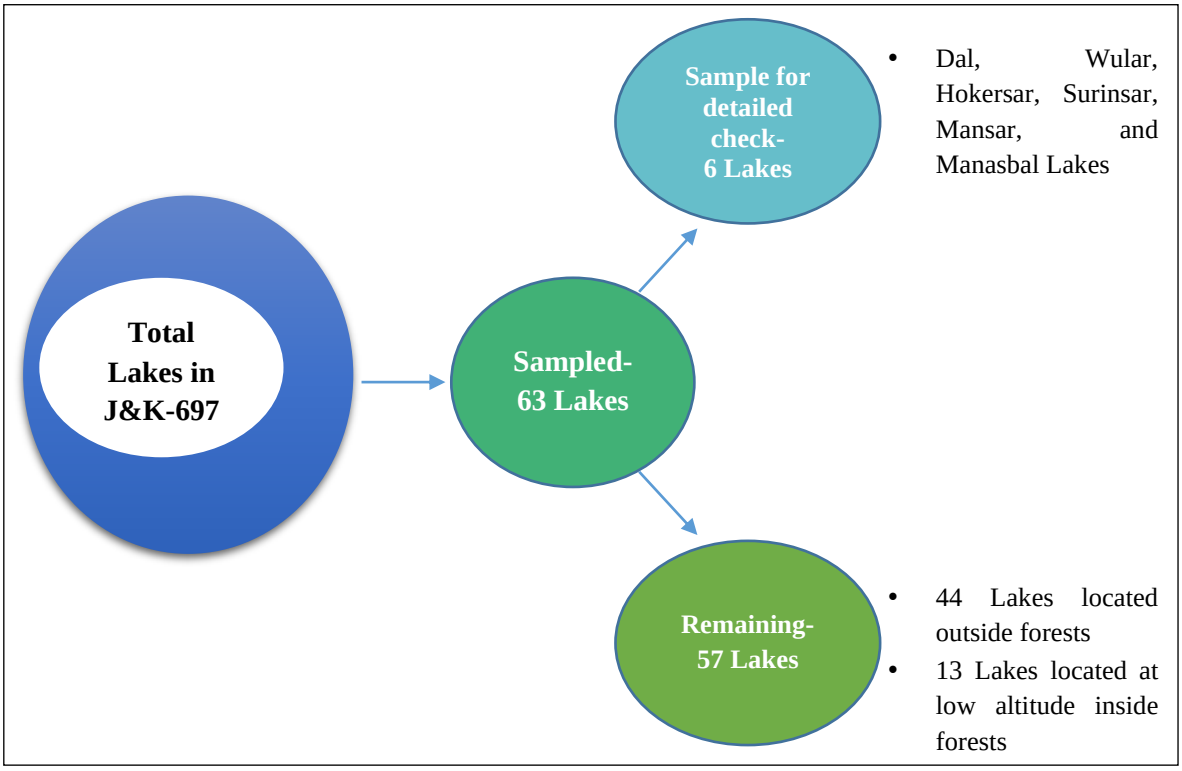
The Performance Audit (PA) covered the period from 2017-18 to 2021-22. However, policy matters of Conservation and Management of Lakes prior to 2017-22 and observations highlighted in the PA of Dal Lake included in the CAG's Audit Reports 2006 and 2011 were also reviewed. The spatio-temporal changes in Lakes and deterioration of their water quality are continuous processes that occur over a larger time span. To illustrate these changes, audit included images of the Lakes taken both from prior to and during the audit period. These images were obtained from GoJ&K and downloaded from Google Earth Pro software.

An entry conference was held on 23 May 2019 with the Commissioner/ Secretary, Housing and Urban Development Department and Secretary, Forest, Ecology and Environment Department wherein the audit objectives and scope of audit were discussed.

An exit conference was held on 19 September 2022 with the Commissioner/Secretary, Forest, Ecology and Environment Department, Principal Chief Conservator of Forest/ Member Secretary, Biodiversity Board, Chairman Pollution Control Board, Chief Wildlife Warden, Chief Executive Director, Wular Conservation and Management Authority, Regional Wildlife Warden, Kashmir and Special Secretary (Technical). During the exit conference, audit observations were largely accepted and it was stated that compliance of these observations was in progress.

The audit sample comprised 63 Lakes (test-checked Lakes) which constituted an area[7] of 25,303 hectares (87 *per cent*) of total area of 28,990 hectares of the 697 Lakes in Jammu and Kashmir. These 63 Lakes include six Lakes[8] which were selected for detailed examination.The remaining sample of 57 Lakes was based on 44 Lakes located outside forests and 13 Lakes located at low altitude inside forests. The Lakes outside forests being urban or semi-urban Lakes are more exposed to pollution and degradation due to urbanisation. Besides, low altitude Lakes inside forests were selected as these are also vulnerable to surrounding population as compared to the high attitude Lakes. The sample selected for audit examination is shown in **Chart 1.2**:

Chart 1.2: Sample selection of Lakes



The audit methodology comprised scrutiny of records in the offices of Director-Ecology, Environment and Remote Sensing Department, Principal Chief Conservator of Forests, Chief Wildlife Warden, J&K Pollution Control Board, J&K Biodiversity Board, Divisional Forest Officers, Water Resource Regulatory Authority, Director Rakhs & Farms, District Administrations (Tehsildars/ Naib Tehsildars), Wildlife Wardens and Development Authorities[9] of six Lakes viz. Dal, Manasbal, Wular, Hokersar, Surinsar and Mansar.

7 Area in 1967

8 Dal, Wular, Hokersar, Mansar, Surinsar and Manasbal.

9 Wildlife Wardens (Kathua and Wetland Division-Kashmir) Chief Executive Officer-WUCMA, Vice-Chairman-LC&MA, Chief Executive Officers (Manasbal, Surinsar & Mansar Development Authorities)

A questionnaire[10] based survey on 63 test-checked Lakes was also undertaken by audit. Further, audit utilised the satellite images of the Lakes provided by Ecology, Environment and Remote Sensing Department (EE&RSD) of GoJ&K to analyse the spatio-temporal changes in Lakes. For validating these changes, audit downloaded images of Lakes from Google Earth Pro Software to supplement the analysis and to illustrate the spatio-temporal changes in Lakes effectively. Further, joint physical verification of Lakes along with Departmental officials was also carried out to corroborate the audit findings.

The PA on the Conservation and Management of Lakes has been structured into six chapters.

Chapter I includes introduction, organisational setup, audit objectives, audit criteria, audit scope, sample and methodology.

Chapter II gives an overview of statutory and regulatory arrangements laid down for Conservation and Management of Lakes, changes in area of Lakes and land use changes in Lakes.

Chapter III gives an overview of National and State/ UT programmes and Lake generic management activities for Conservation and Management of Lakes.

Chapter IV, V and **VI** contain the details of the implementation of Conservation and Management programmes/ plans undertaken and highlight the inadequacies in Conservation and Management in respect of Dal Lake, Wular Lake, Hokersar Lake, Mansar Lake, Surinsar Lake and Manasbal Lake.

1.7 Acknowledgement

Indian Audit and Accounts Department acknowledges the cooperation and assistance provided by the concerned Departments/ Authorities / Bodies of GoJ&K in production of records and furnishing of information during the conduct of this audit. The replies received from various Departments/ Authorities/ Bodies from time-to-time as well as their responses during the Exit Conference have been suitably incorporated in the relevant paragraphs of this Report.

[10] It was designed by Audit on the basis of Lake management books viz. Lake Management Guidance January 2014, Practical Guide to Lake Management 2004, The Water (Prevention and Control of Pollution) Act 1974, Biological Diversity Act 2002, J&K Water Resources (Regulation and Management) Act 2010, Guidelines for National Lake Conservation Plan May 2008, Guidelines for National Wetland Conservation Programme June 2009, An Indian Perspective - Conservation and Management of Lakes July 2010, Wetland (Conservation & Management) Rules November 2010 & 2017, Guidelines for implementing Wetland (Conservation & Management) Rules 2017 and National Plan for conservation of aquatic ecosystems April 2019

Chapter-II
Statutory and regulatory arrangements for Conservation and Management of Lakes, changes in areas of Lakes and land use changes in Lakes

Chapter-II

Statutory and regulatory arrangements for Conservation and Management of Lakes, changes in areas of Lakes and land use changes in Lakes

2.1 Introduction

Article 48A of the Constitution of India envisages protection and improvement of the environment and safeguarding of forests and wildlife. As per the Article, the State shall endeavor to protect and improve the environment and to safeguard the forests and wildlife of the country. Article 21 also guarantees right to decent environment including pollution-free water and air.

At the national level, Ministry of Environment, Forest and Climate Change (MoEF&CC) is the nodal agency committed to conservation and wise use of wetlands (including Lakes) within its territory. At the GoJ&K level, Forest Department is entrusted with the responsibility for Conservation and Management of 697 Lakes.

Despite the mandate of Departments/ Authorities for conservation of Lakes, there were changes in the area of Lakes of J&K as detailed below:

2.2 Spatio-temporal changes in the area of Lakes in Kashmir and Jammu Divisions of J&K

Spatio-temporal changes in Lakes indicate changes in area of Lakes over a period of time. Audit analysis of the data (Atlas of Lakes & Wetlands of J&K[1]) obtained from J&K, Ecology, Environment and Remote Sensing Department (EE&RSD) revealed that the total area of Lakes in J&K decreased by 2,851.26 hectares compared to the base year 1967, with 2014 as reference year for Kashmir Division and 2020 for Jammu Division. The Division/ Department-wise details of Lakes are summarised in **Table 2.1** and detailed in ***Appendix-2.1.***

[1] Atlas is an inventory of Lakes that contains information on spatial extent, geo-coordinates, location and present status of each Lake/ wetland in J&K. The Atlases of Lakes & Wetlands were prepared by Ecology, Environment and Remote Sensing Department of GoJ&K in 2014 and 2020 for Kashmir and Jammu provinces respectively.

Table 2.1: **Changes in the area of Lakes in Jammu and Kashmir Divisions of J&K**

(Area in hectares)

Province	Number of Lakes in 1967	Disappeared Lakes		Decrease in area of Lakes				Increase in area of Lakes				No change in area of Lakes	
		No. of Lakes	Total Area[2]	No. of Lakes	Area in 1967	Area in 2014/ 2020	Total	No. of Lakes	Area in 1967	Area in 2014 / 2020	Total	No. of Lakes	Area in 2014/ 2020
Jammu	367	259	297.05	59	190.05	121.29	68.76	46	196.04	260.79	64.75	3	1.62
Kashmir	330	56	1,240.02	144	8,376.50	7,131.07	1,245.43	104	4,154.43	4,627.9	473.47	26	14,534.14
Total	**697**	**315**	**1,537.07**	**203**	**8,566.55**	**7,252.36**	**1,314.19**	**150**	**4,350.47**	**4,888.69**	**538.22**	**29**	**14,535.76**

(***Source: data of EE&RSD***)

There was disappearance of 315 Lakes having an area of 1,537.07 hectares and decrease in area of 1,314.19 hectares in respect of 203 Lakes. Thus, there was total decrease/ disappearance of area of 2,851.26 hectares[3] in 518 Lakes[4]. As a result, there was a loss in flora and fauna and other goods and services provided by these Lakes as referred in **Paragraph 1.1**. While the area of 150 Lakes increased by 538.22 hectares, there were no changes in areas of 29 Lakes. The reasons for increase in area of Lakes were not analysed/monitored by the concerned Departments.

2.2.1 Department/ Controlling Authority-wise change in area of Lakes

Department/ Controlling Authority-wise change in area of Lakes are summarised in **Table 2.2** and detailed in ***Appendix-2.2.***

Table 2.2: Department/ Controlling Authority-wise change in area of Lakes

(Area in hectares)

Department	Controlling Authority	Total Lakes	Decreased		Disappeared		Decrease in Lake area (equal to or more than 50 *per cent)*	Increase		Static		Decrease (-) / Increase (+) of Area { 10-(5+7) }
			Lake	Area	Lake	Area		Lake	Area	Lake	Area	
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*	*10*	*11*	*12*	*13*
Forest Department	PCCF	255[5]	98	223.20	80	217.85	32	69	143.92	9	49.88	-297.13
	WUCMA	1	-	-	-	-	-	-	-	1	13,325.35	
	WPD	39	20	156.78	-	-	-	18	51.80	1	754.21	-104.98
Revenue Department	District Administration	397	83	877.05	235	1,319.22	31	61	204.44	17	146.32	-1,991.83
Agriculture Department	*Rakhs* and Farms Department											

2 Water area of 1,537.07 hectares of 315 Lakes in 1967 had completely disappeared by 2014 in Kashmir Division and by 2020 in Jammu Division.

3 1,537.07 hectares plus 1,314.19 hectares.

4 315 disappeared Lakes plus 203 decreased Lakes.

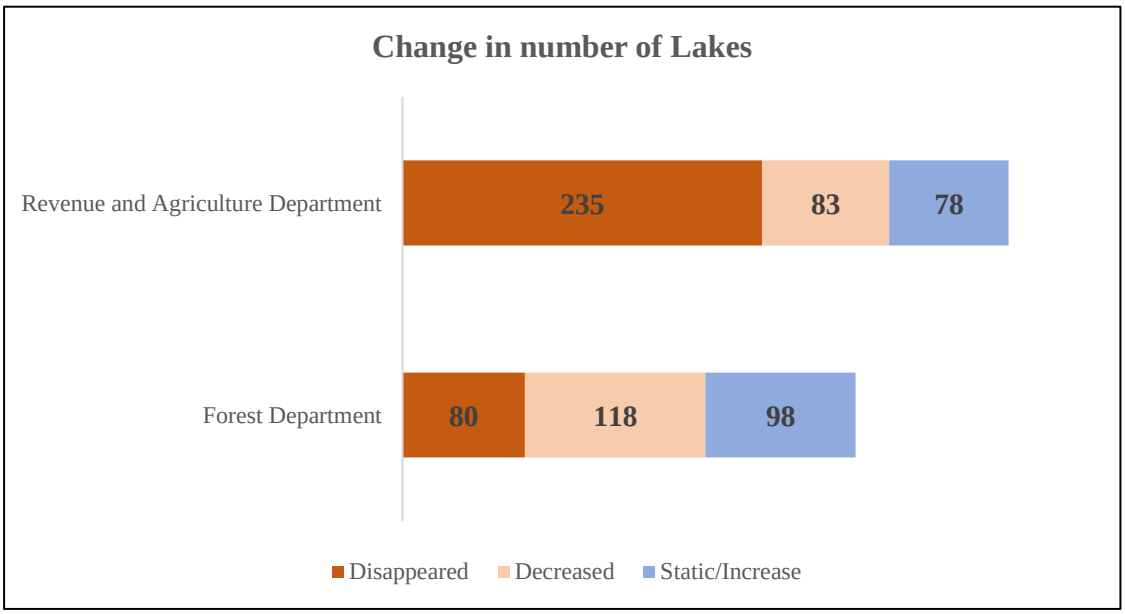
5 Excludes Wular Lake

Department	Controlling Authority	Total Lakes	Decreased		Disappeared		Decrease in Lake area (equal to or more than 50 *per cent)*	Increase		Static		Decrease (-) / Increase (+) of Area { 10-(5+7) }
			Lake	Area	Lake	Area		Lake	Area	Lake	Area	
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*	*10*	*11*	*12*	*13*
Housing and Urban Development Department	Lakes Conservation & Management Authority	4	2	57.16	-	-	-	2	138.06	-	-	80.90
Tourism Department	Manasbal Development Authority	1	-	-	-	-	-	-	-	1	260.00	-
Total		**697**	**203**	**1,314.19**	**315**	**1,537.07**	**63**	**150**	**538.22**	**29**	**14,535.76**	**-2,313.04**

(Source: data compiled by audit from records of Departments)

Out of the total 697 Lakes, 692 Lakes were under the control of Forest, Revenue and Agriculture Departments. The number of Lakes which disappeared, decreased, remained static or increased under these Departments is depicted in **Chart 2.1**:

Chart 2.1: Number of Lakes which disappeared, decreased, remained static or increased under Forest, Revenue and Agriculture Departments



Audit analysis of the data obtained from EE&RSD revealed the following:

- 315 Lakes (45 *per cent* of 697 Lakes) constituting a water area of 1,537.07 hectares had disappeared. These Lakes included 80 Lakes (25 *per cent*) falling under the jurisdiction of Forest Department and 235 Lakes (75 *per cent*) falling under the jurisdiction of Revenue Department and Agriculture Department.

- The water area of 203 Lakes[6] (29 *per cent* of 697 Lakes) had decreased by 1,314.19 hectares[7]. These Lakes included 63 Lakes wherein the decrease in water area was more than or equal to 50 *per cent*. Thus, there is a potential greater risk of extinction of these 63 Lakes. 203 Lakes included 98 Lakes (48 *per cent*), 83 Lakes (41 *per cent*), 20 Lakes (10 *per cent*) and two Lakes falling respectively under the jurisdiction of PCCF, District Administration, WPD and LC&MA.

- The water area of 150 Lakes (22 *per cent* of 697 Lakes) had increased by 538.22 hectares. These included 69 Lakes, 61 Lakes, 18 Lakes and two Lakes falling respectively under the jurisdiction of PCCF, District Administration, WPD and LC&MA.

- The water area of 14,535.76 hectares in 29 Lakes (four *per cent* of 697 Lakes) had remained static. These included 17 Lakes, nine Lakes, one each Lake respectively falling under the jurisdiction of District Administration, PCCF, WUCMA, WPD and WMDA.

Thus, disappearance/ decrease in the area of 518 Lakes (74 *per cent*) had resulted in degradation of ecosystem, loss of water, food and biodiversity, alteration in the interlinked carbon/ nutrient and water cycles as well as climate insecurity. Besides, shrinkage of Lake area was also one of the causes for massive floods in J&K in September 2014, as Lakes are natural flood balancing reservoirs/ defense for the flood regulating system. Research conducted by scholars from various institutions at State/ UT and National level had also attributed causes of floods to change in land use of Lakes.

Further, causes of increase in water area of 538.22 hectares in 150 Lakes were not monitored/analysed by the concerned Departments.

In absence of monitoring of reasons for increase in water area by the concerned Departments, Audit could also not ascertain whether increase in the surface area of 150 Lakes had actually led to increase in water volume of Lakes or not.

2.2.2 Spatio-temporal changes in area of audit sampled Lakes

Departments/ Authorities-wise analysis of the data of EE&RSD in respect of 63 test-checked Lakes revealed that there had been spatio-temporal changes between 1967 and 2020. The changes are summarised in **Table 2.3, Chart 2.2** and detailed in ***Appendix-2.3*.**

6 518 Lakes (Disappeared & decreased Lakes) minus 315 Lakes (Disappeared Lakes)

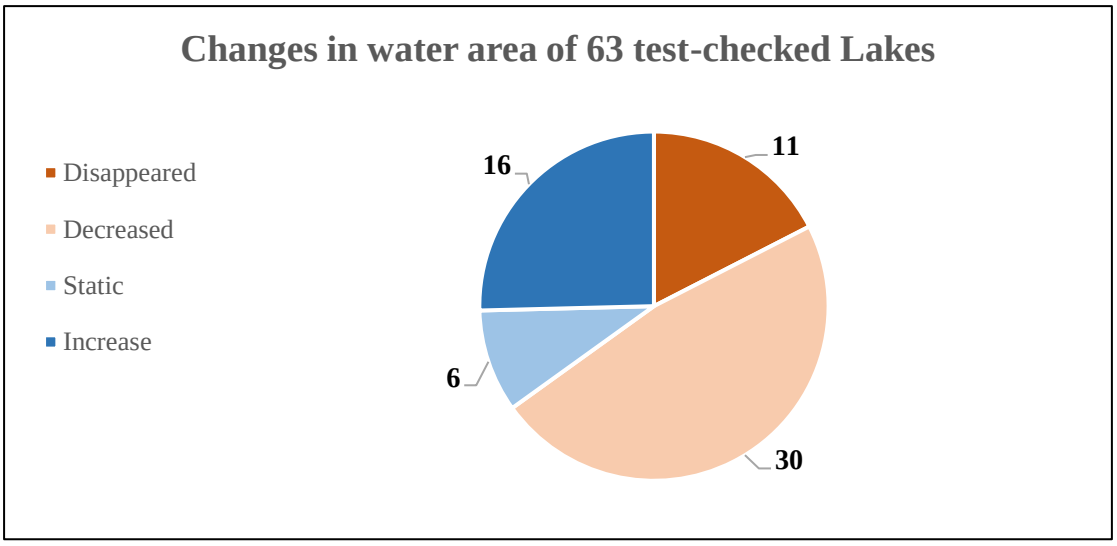
7 Total area = 2,851.27 hectares (area of 518 Lakes which have disappeared & decreased) minus 1,537.07 hectares (area of 315 Lakes which have disappeared)

Table 2.3: Spatial and Temporal changes in the 63 test-checked Lakes between 1967 and 2020

(Area in hectares)												
Department / Authority	Total Lakes	Disappeared Lake		Decrease in area of Lakes		Lake where decrease area ≥ 50%	Total area of decreased & disappeared Lakes	Increase in area		Static		Net Impact (10-8)
		No. of Lakes	Area	No. of Lakes	Area			No. of Lakes	Area	No. of Lakes	Area	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
PCCF	**9**	1	90.96	4	30.16	1	121.12	3	10.37	1	7.46	-110.75
WUCMA	**1**	-	-	-	-	-		-	-	1	13,325.35	-
WPD	**11**	-	-	4	132.76	-	132.76	6	23.88	1	754.21	-108.88
District Administration	**38**	10	933.22	20	689.52	3	1,622.74	6	141.52	2	52.72	-1,481.22
LC&MA	**3**	-	-	2	57.16	-	57.16	1	135.80	-	-	78.64
WMDA	**1**	-	-	-	-		-	-	-	1	260.00	-
Total	**63**	**11**	**1,024.18**	**30**	**909.60**	**4**	**1,933.78**	**16**	**311.57**	**6**	**14,399.74**	**-1,622.21**

(***Source: data of EE&RSD***)

Chart 2.2: Changes in water area of 63 test-checked Lakes



From the **Table 2.3**, it can be noticed that:

- The water area of 1,024.18 hectares in the case of 11 Lakes had disappeared.
- The water area of 909.60 hectares[8] in respect of 30 Lakes[9] had decreased which included four Lakes wherein the decrease in water areas was more than or

[8] 1,933.78 hectares (Decrease in area which includes area of disappeared Lakes) minus 1,024.18 hectares (area of disappeared Lakes).

[9] 41 Lakes (Decreased Lakes includes disappeared Lakes) minus 11 Lakes (Disappeared Lakes).

equal to 50 *per cent*. As a result, these Lakes were fraught with the risk of extinction.

- The water area of 16 Lakes had increased by 311.57 hectares.
- The water area of 14,399.74 hectares in six Lakes had remained static.

The disappearance of Lakes and decrease in the area of Lakes was primarily attributable to change in land use within the Lakes and their catchments as discussed in the subsequent paragraph. Apart from that, Audit noticed that deforestation, climate change and change in dynamics of catchment areas also contributed to disappearance of Lakes and decrease in water area of Lakes.

The change in the areas of Lakes was due to inadequacies in the Conservation and Management of Lakes in J&K as discussed in succeeding paragraphs of the Report.

2.3 Land use changes

There were changes in land use/ classification use in test-checked Lakes mainly due to continuous anthropogenic activities in and around Lakes, which had remained unchecked. No Lake-specific Centralised Development and Regulatory Authority was in place. Consequently, neither the evaluation nor the monitoring of land use changes could be conducted. Due to temporal change in land use, ecosystem of these Lakes had been critically affected.

Land use changes in Lakes indicate conversion of original land use to other uses through human interventions and other factors.

EE&RSD provided data and satellite images of 63 sampled Lakes for the period 2014-2020. However, images and data for the period prior to 2014 were not available[10] with the Department. Audit noticed that MoEF&CC had prepared (June 2011)[11]Atlases for each State and Union Territory of India, which contained only quantitative information depicting altitude and district-wise number of Lakes, but did not include names of Lakes.

Audit analysis of the data of EE&RSD indicated land use changes in the test-checked Lakes as discussed below: -

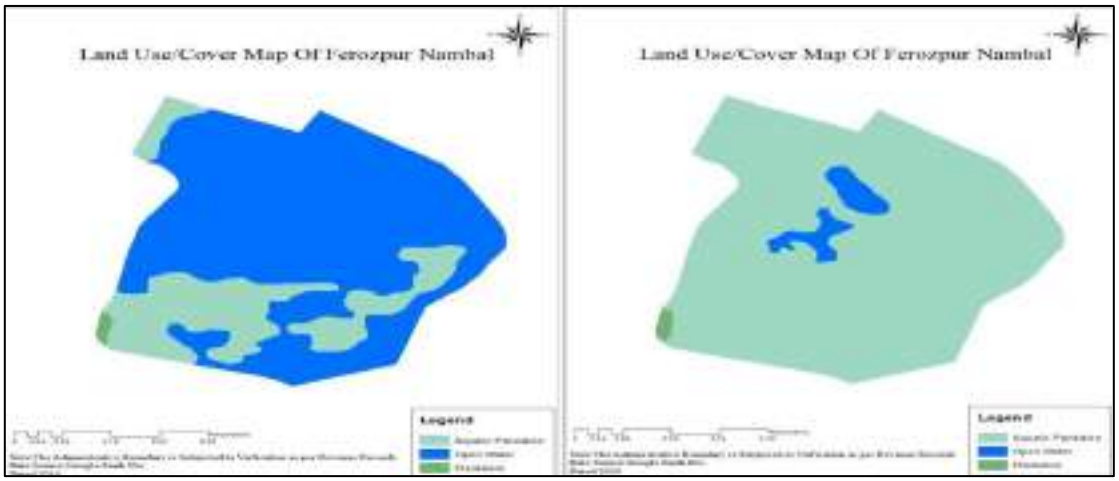
2.3.1 Analysis of remote sensing data to ascertain land use changes in Lakes

Audit analysis of remote sensing data of 63 test-checked Lakes provided by the EE&RSD, revealed land use changes between 2014 and 2020. For illustration**,** maps of four Lakes **(Maps 2.1, 2.2, 2.3, 2.4, 2.5, 2.6, 2.7 and 2.8)** depict land-use changes in these Lakes during the period.

[10] Except that of Dal and Wular Lakes

[11] Under a project "National Wetland Inventory & Assessment- NWIA"

Ferozpur Nambal (Maps 2.1 and 2.2)



Area Ha (2014) **Area Ha (2020)**

Class Name	Area Ha (2014)	Area Ha (2020)

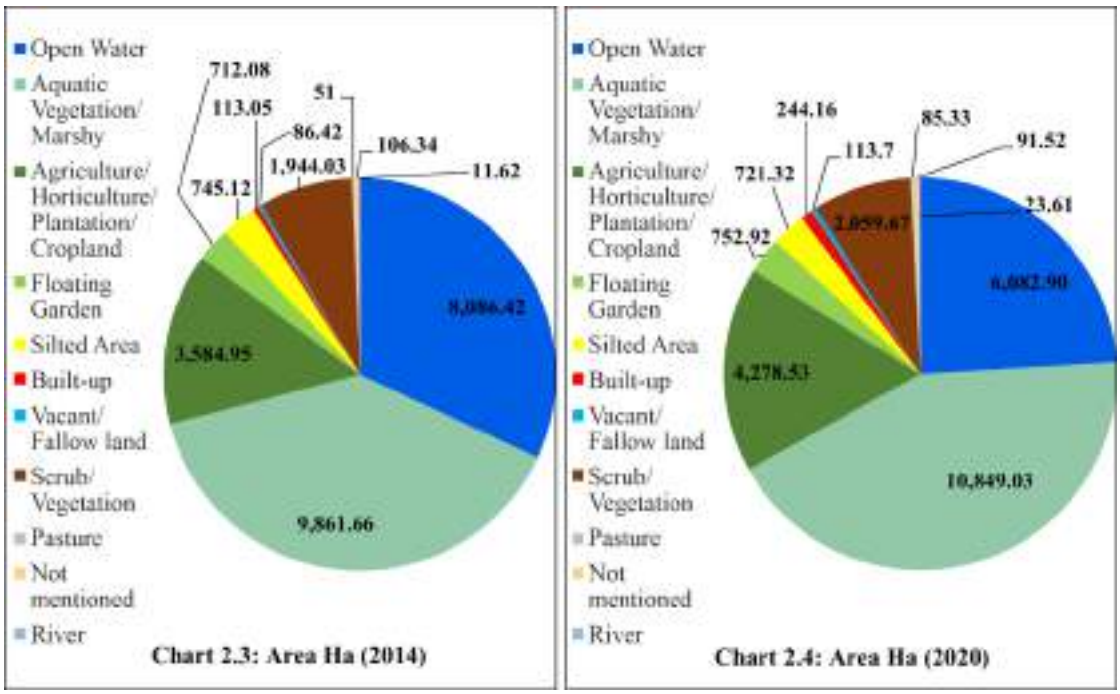
(*Source: audit analysis of data provided by EE&RSD*)

Charts 2.3 and 2.4: Land use/ Classification use changes in Lakes



It may be seen from the **Table 2.4** that there were overall land use/ classification use changes in 2,042.14 hectares within Lake areas. These changes included decrease of 2,003.52 hectares in open water, while there was increase in other land use changes viz. 131.11 hectares under built-up (116 *per cent*), 34.33 hectares under pasture (67 *per cent*), 27.28 hectares under vacant/ fallow land (32 *per cent*), 693.58 hectares under agriculture/ horticulture/plantation/ cropland (19 *per cent*), 115.64 hectares under scrub/vegetation (six *per cent*), etc. Lake-wise land use/ classification use changes are detailed in ***Appendix-2.4*.**

- **Anthropogenic pressures on 44 Lakes**

There were land use/ classification use changes (2014-20) in 44 Lakes against 63 audit sampled Lakes. The affected area was 2,086.67 hectares which included decrease of 2,062.87 hectares in open water (28 *per cent*) due to anthropogenic pressures, such as increase in other land use changes viz. 131.11 hectares under built up (116 *per cent*), 34.33 hectares under pasture (67 *per cent*), 726.39 hectares under agriculture/ horticulture/ plantation (21 *per cent*), 115.64 hectares under scrub/vegetation (six *per cent*) etc. within a short span of six years. Details of Lake-wise land use/ classification use changes due to anthropogenic pressures are summarised in **Table 2.5, Charts 2.5 and 2.6** and detailed in ***Appendix-2.5*.**

Table 2.5: Overall change in land use/ classification use in 44 Lakes due to anthropogenic pressures

(*Area in hectares*)

Decrease/ Increase and its percentage (2014–2020)						
Land Use/ Classification Use	**2014**	**2020**	**Decrease**	**Increase**	**Decrease Percentage**	**Increase Percentage**

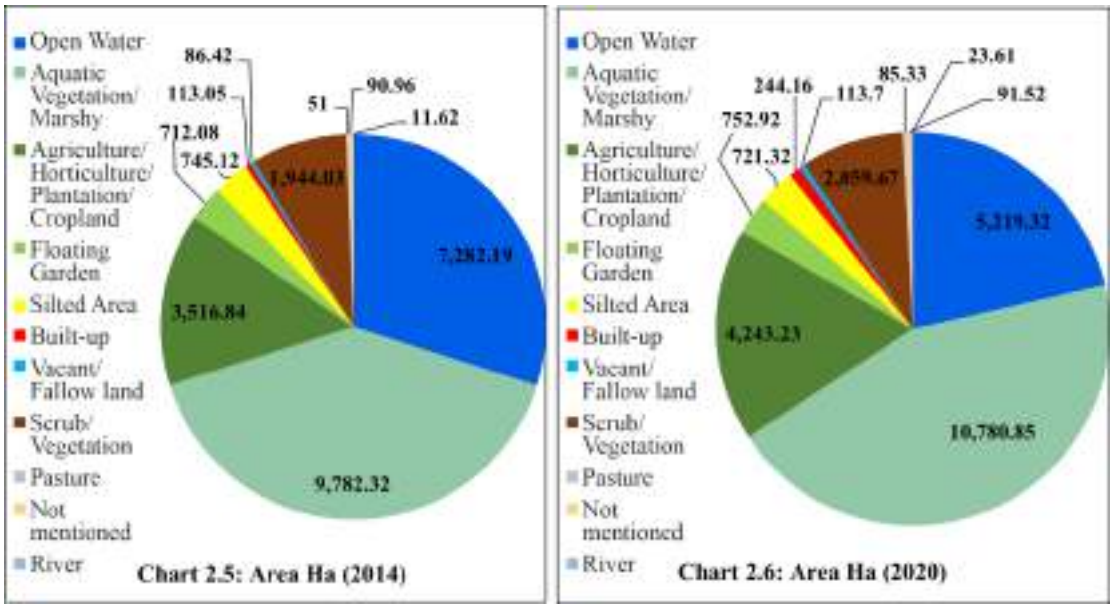
(*Source: audit analysis of data provided by EE&RSD*)

Charts 2.5 and 2.6: Overall change in land use/ classification use in 44 Lakes due to anthropogenic pressures



The concerned four Administrative Departments and Forest Department did not have Lake generic management programmes and as such they failed to check growing anthropogenic pressures around Lakes resulting in loss/ decrease in open water area and increase in aquatic vegetation. This adversely affected the ecosystem of the Lakes.

Thus, failure to formulate Conservation and Management programmes and to undertake Lake generic management activities by the District Administrations concerned and the Forest Department in respect of 44 Lakes resulted in anthropogenic pressures. These anthropogenic pressures led to land use changes in these Lakes. Neither the District Administrations concerned nor the Forest Department took any measures to check the land use changes.

The GoJ&K may analyse in detail the reasons for the change in land use of these Lakes, with expert assistance as required, for taking suitable rectificatory action.

- **Absence of open water area in 21 Lakes**

In 21 Lakes, there was no open water area and these Lakes had an overall change in land use of 338.02 hectares. There was decrease of 338.02 hectares (14 *per cent*) in aquatic vegetation due to increase in built-up (2,940 *per cent*), agriculture/ horticulture/ plantation/ cropland use (18 *per cent*) silted area (10 *per cent*), etc. Details of Lake-wise absence of open water, decrease/increase in aquatic vegetation are summarised in **Table 2.6, Charts 2.7 and 2.8** and detailed in ***Appendix-2.6.***

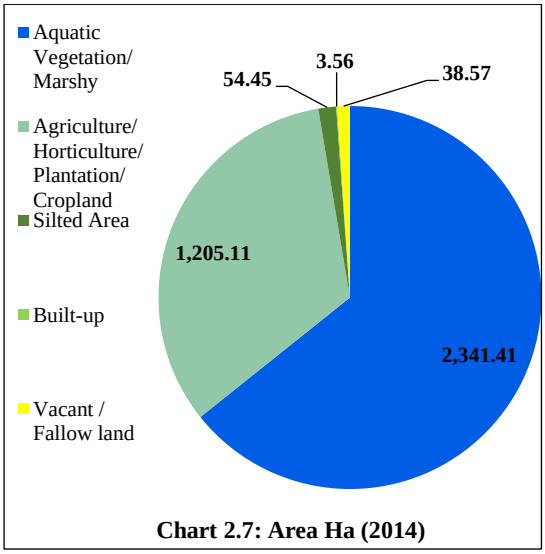

Chart 2.7: Area Ha (2014)

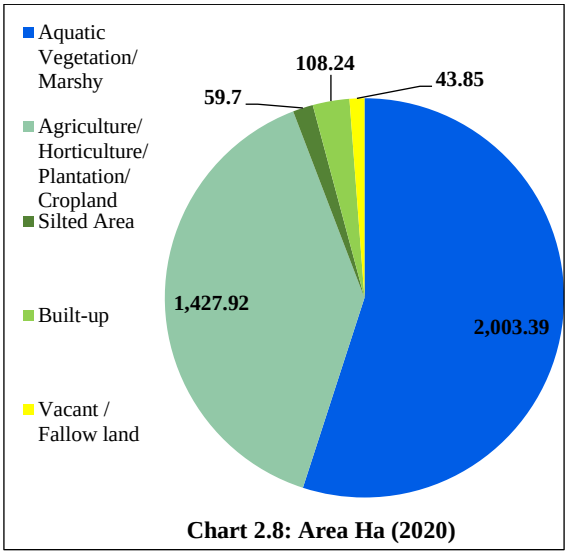

Chart 2.8: Area Ha (2020)

• Decrease in open water area of 20 Lakes

In respect of 20 Lakes, there was overall change in land use of 2,117.29 hectares with substantial decrease of 2,088.24 hectares (29 *per cent*) in open water area. This was due to increase in other land use such as aquatic vegetation by 1,335.51 hectares (18 *per cent*), agriculture/horticulture/plantation/cropland by 528.22 hectares (41 *per cent*), scrub/vegetation by 115.64 hectares (six *per cent*) etc. Details of Lake-wise decrease in open water are summarised in **Table 2.7, Charts 2.9 and 2.10** and detailed in ***Appendix-2.7*.**

Table 2.7: Decrease in open water and change in other land use in 20 Lakes

(***Area in hectares***)

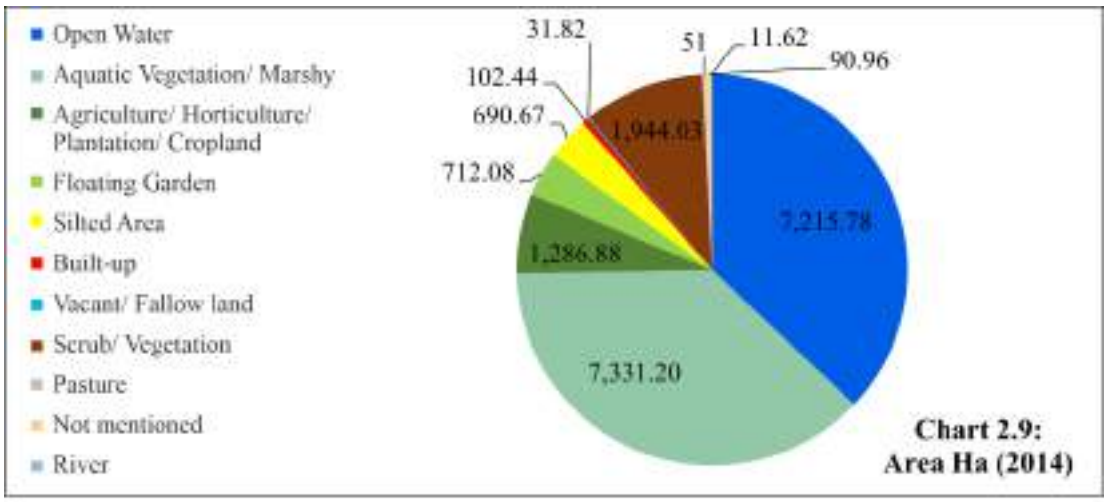
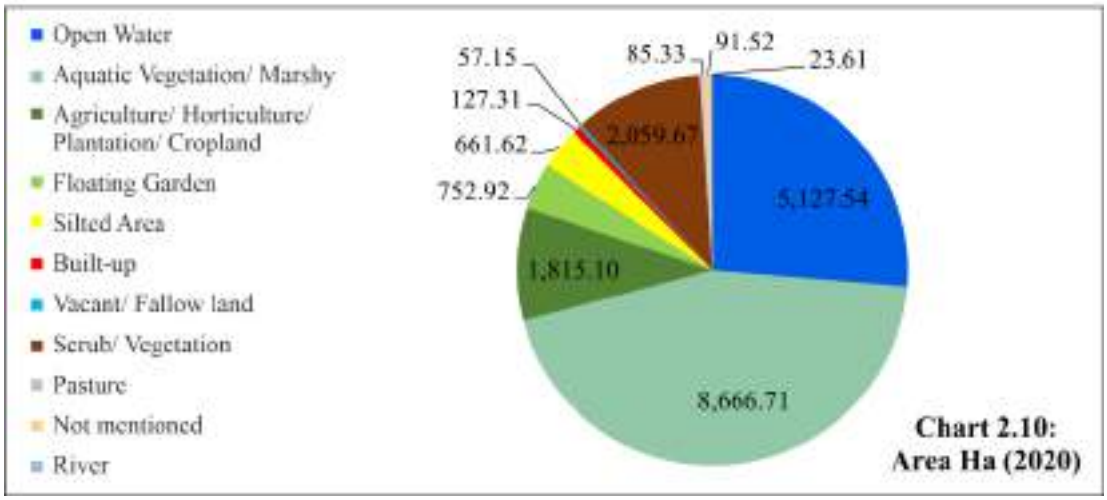
Charts 2.9 and 2.10: Decrease in open water and change in other land use in 20 Lakes





• Increase in open water area of 22 Lakes

In respect of 22 Lakes[12], there was overall change in land use of 86.28 hectares which included a meagre increase of 84.72 hectares (10 *per cent*) in open water which was due to decrease in aquatic vegetation, area being placed under agriculture/ horticulture/ plantation etc. As these Lakes were located inside forests, it was not known whether or not increase in open water was due to siltation, choking up of Lake outlets, melting of glaciers or heavy rainfall etc. in the areas of these Lakes. Details of Lake-wise increase in open water is summarised in **Table 2.8, Charts 2.11 and 2.12** and detailed in ***Appendix-2.8.***

Table 2.8: Increase in open water and change in other land use in 22 Lakes

(***Area in hectares***)

Land Use/ Classification Use	2014	2020	Decrease	Increase	Decrease Percentage	Increase Percentage
Open Water	870.64	955.36		84.72		10

(***Source: audit analysis of data provided by EE&RSD***)

Charts 2.11 and 2.12: Increase in open water and change in other land use in 22 Lakes

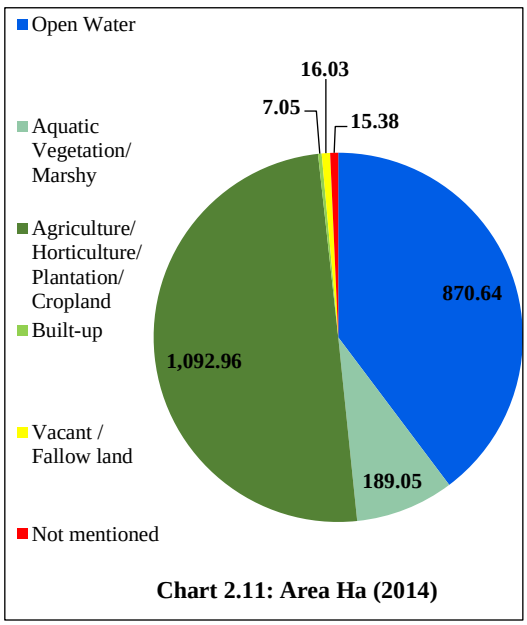

Chart 2.11: Area Ha (2014)

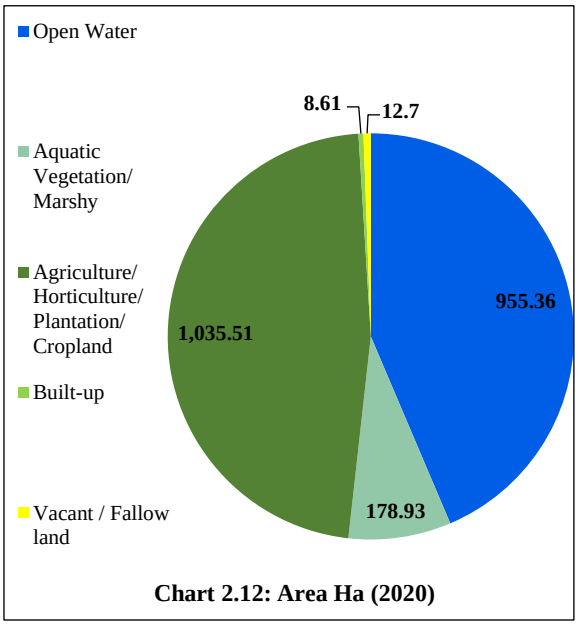

Chart 2.12: Area Ha (2020)

[12] Includes two Lakes (Kaplasar and Gagasar) where there was no change in the open water area.

The spatio-temporal changes in land use/ classification use in the test-checked Lakes was mainly due to anthropogenic activities, which had remained unchecked. As a result, ecosystem of these Lakes had been critically affected.

Director, EE&RSD stated (September 2022) that the data regarding water bodies was prepared by EE&RSD as a basic inventory for identifying water bodies so that the stakeholders may use it as reference data. It was further stated that the data of wetlands identified through remote sensing methodology require ground truth verification coupled with comparative date of satellite imagery, season, angle of pass, cloud cover etc. and reference to "disappearance" of Lakes should be taken as not being identifiable/ traceable on the satellite imagery used. It was also stated that data of land use/ land cover of water bodies may be treated as indicative and not conclusive.

During the exit conference (September 2022), it was stated that the data provided by EE&RSD regarding land use/ classification use changes need to be validated by ground truthing. It was further stated that detailed remote sensing for all Lakes of J&K was not possible due to budget constraints, however it could be carried out for some major Lakes.

The reply of EE&RSD is not convincing as the Department had acknowledged in the Directory of Lakes and water bodies of J&K (November 2018) that the final status of Lakes was prepared using latest high-resolution data supported by limited field checks/ ground truthing. This was also corroborated by paragraph 5 (b) "Inventorisation and collection of information on Water Bodies (Lakes and ponds)" in the revised action plan [submitted (March 2020) in compliance with the directions issued by the National Green Tribunal (NGT)] wherein it was mentioned that a Directory of Lakes and water bodies of J&K has been prepared by the EE&RSD using latest high resolution Linear Imaging and Self Scanning Sensor-III satellite data by Remote Sensing and GIS.

The reply of EE&RSD should also be seen in the light of 'Introduction of Atlas of wetlands of J&K of 2014' which stipulates that the Atlas outlines spatial extent of each Lake with geo-coordinates and location which will be an useful source of information for formulating an effective management action plan and regulatory mechanism for sustainable wise use and conservation of water resources of J&K. Further, the reply should be considered in light of the fact that while validation through ground truthing may provide the exact extent of land use/ classification use changes in Lakes, the data provided by EE&RSD offers a reasonably accurate representation of the changes in Lake areas.

2.3.2 Analysis of Google Earth Pro images to ascertain land use changes in Lakes and their catchments

The geo-coordinates of the 63 audit sampled Lakes provided by the EE&RSD were plotted (October 2022) by Audit on Google Earth Pro on various timelines. It was found

that seven Lakes[13] were not visible or had almost dried up. These seven were among the 11 Lakes that had disappeared as per the analysis of EE&RSD data, as detailed in **Paragraph 2.2.2.** There were land use changes in Khushal Sar Lake and degrading/ shrinking of Anchar Lake. Audit also conducted (November 2022) field verification, along with concerned Tehsildars, of Lakes and noticed that:

- **Lakes not visible or dried up**

Out of seven Lakes, Audit conducted joint physical verification of the four Lakes which were found to be dried up. The Lake areas were covered with weed, plantation and vegetation and roads had been constructed through Lake areas. The observation was also corroborated by the EE&RSD data which showed that these Lakes had disappeared during 2014-20. The photographs showing growth of weed, plantation, vegetation and constructed roads are given below:

Sethergund – Plantation	**Sethergund–Crop, weed and Plantation**
Marhama -Weed and Plantation	**Marhama Built-up at the fringe of Lake (marked in yellow)**

[13] (i) Rakh-a-Arth, (ii) Sethergund Numbal, (iii) Marhama, (iv) Devpursar, (v) Mahtan, (vi) Chandargar Numbal and (vii) Galwal Talao.

Rakh-i-Arth- Plantation and weed	**Rakh-i-Arth-Road**
Devpursar- Plantation	**Devpursar Vegetation and Weed and road**

- **Land use change in Khushal Sar Lake and degrading/ shrinking of Anchar Lake**

In respect of Khushal Sar and Anchar Lake, we noticed escalating anthropogenic pressure leading to abundance of weed, plantation, built-up and discharge of untreated sewage into the Lakes, as shown in satellite images **2.1, 2.2, 2.3 and 2.4** and following photographs. Restoration of open water of Khushal Sar Lake was being done by de-silting of the Lake through a Non-Governmental Organisation under Ahsaas scheme launched (2021) by the Government.

Vegetation, plantation and weed in the Lake	**Area marked in yellow shows car washing stations, automobile workshops and tin sheds in the vicinity of the Lake**

- **Land use changes in catchment areas of six Lakes checked in detail over a larger time span**

Audit analysed images of Google Earth Pro of six detailed-checked Lakes over a larger time span to detect periodic changes in these Lakes. Clear images for a uniform time period of all these Lakes were not available, and time period of clear images varied from Lake to Lake. The clear images available ranged from 2002 to 2022, with 2022 being the latest as detailed in ***Appendix-2.9*.**

Audit analysis of the images revealed that changes in land use as built-up in catchment areas including fringes of these Lakes had increased over a period of time. Encroachments within Lakes were also noticed.

The details and images of Lakes with changes in the catchments which included fringes and encroached areas of these Lakes are detailed in **Paragraphs 2.3.2, 4.3.2, 5.4.2 and sub-paragraphs of 6.1.3, 6.2.3 and 6.3.3.**

2.4 Absence of legal statute/ Act and Centralised Development and Regulatory Authority for Conservation and Management of Lakes

There was no Centralised Development and Regulatory Authority and no specific legal statute/ Act for Conservation and Management of Lakes had been put in place.

Although several legislations as discussed in the **Paragraph 1.5** were enacted for protection of environment which included provision for Conservation and Management of Lakes, no Authority with regulatory backing was established to restore, preserve and protect Lakes in Jammu and Kashmir.

A draft bill was prepared (April 2000) by J&K, Lakes Conservation and Management Authority to establish a Development and Regulatory Authority for Conservation and Management of Lakes. Due to the indifferent approach of GoJ&K, the proposed legislation could not be approved as of March 2022 despite lapse of over 22 years since preparation of bill.

Due to the absence of a Lake specific Centralised Development and Regulatory Authority and specific legal statute/ Act, there were diffused functions across various institutions, inadequacies in institutional arrangements for discharge of environmental functions related to Lakes, lack of cross-sectoral institutional convergence, monitoring/ evaluation and absence of Lake generic management activities related to conservation of Lakes as detailed in **Paragraphs 2.5 and 3.2**.

2.5 Lack of institutional arrangements for discharge of environmental functions related to Lakes

The Departments/ Authorities had fragmented mandate and responsibilities and had failed to fully comply with the entrusted mandate

Nine institutions[14] were assigned different functions related to environmental issues including those related to Lakes as detailed in ***Appendix-2.10*****.** Out of these nine institutions, six[15] were falling under the administrative control of the Forest Department which had a major role in discharging functions relating to Conservation and

[14] (i) Ecology, Environment and Remote Sensing Department (EE&RSD) (ii) Principal Chief Conservator of Forests (PCCF) (iii) Wildlife Protection Department (WPD) (iv) Union Territory Wetland Authority (UTWA) (v) Biodiversity Board (BDB) (vi) Pollution Control Board (PCB) (vii) Development Authorities, (viii) Rakhs and Farms Department and (ix) Water Resource Regulatory Authority (WRRA).

[15] EE&RSD, PCCF, WPD, PCB, BDB and UTWA.

Management of Lakes. Audit noticed inadequacies in discharge of specific functions by these institutions as discussed below:

1. J&K, Ecology, Environment and Remote Sensing Department (EE&RSD)

GoJ&K assigned (October 1989) EE&RSD to conduct a detailed survey of Lakes, study their physical, chemical and biological dynamics and on the basis of the data so collected, prepare detailed plans for development and monitoring of each Lake.

However, EE&RSD had not carried out detailed survey of Lakes due to which physical, chemical and biological dynamics of Lakes were not available for preparing development plans for these Lakes. Plans were prepared by the respective Departments/ Authorities (to which these Lakes were transferred) only in respect of six Lakes[16].

EE&RSD stated (February 2021) that it was deficient in technical manpower such as environmental and hydrological engineers, ecologist, limnologists, biologists, remote sensing and GIS specialist, although proposals for requirement of manpower resources were submitted to the Forest Department time and again (latest in August 2019). EE&RSD further stated that they did not have a laboratory and technical wing for devising strategy for planned development and maintenance of Lakes.

The fact remained that J&K Ecology, Environment & Remote Sensing Department had failed to carry out detailed survey of 697 Lakes and hence physical, chemical and biological dynamics of Lakes were not available for preparing development plans for these Lakes.

2. Principal Chief Conservator of Forest (PCCF), J&K

No comprehensive Conservation and Management programme/ plan was prepared for 255 Lakes falling under the jurisdiction of PCCF, although Annual Plan of Operations (APOs) for other forest management works[17] were prepared and executed.

Out of 255 Lakes under the jurisdiction of PCCF, 441.05 hectares of area of 178 Lakes had decreased/ disappeared (including five test-checked Lakes by Audit with an area of 121.12 hectares). The decreased area included an area of 80 disappeared Lakes which had area of 217.85 hectares (including one Lake test-checked by Audit with an area of 90.96 hectares) as detailed in **Table 2.2 and *Appendix-2.2* and Table 2.3 and *Appendix-2.3*.**

Divisional Forest Officers of Lidder, Kulgam, Mahore and Bhaderwah Divisions stated (February 2021) that the Forest Department did not have clear responsibility for Conservation and Management of Lakes and that due to lack of technical/ scientific manpower and laboratory the Conservation and Management of Lakes could not be carried out.

[16] Dal, Wular, Hokersar, Surinsar, Mansar and Manasbal

[17] Plantation of degraded forests, fencing/ demarcation of forest areas, establishment of nurseries etc.

The fact remains that the aforesaid 255 Lakes were under the jurisdiction of PCCF and no comprehensive Conservation and Management programme had been formulated for conservation of these Lakes.

3. Wildlife Protection Department (WPD)

There was no comprehensive cConservation and Management programme/ plans for 39 Lakes under the jurisdiction of WPD. Although APOs prepared and executed for management and habitat improvement of wildlife in protected areas included activity plans in respect of Lakes, the works executed as per APOs were not based on thorough survey and did not address the root causes of degradation of Lakes. As a result, there was decrease of 156.78 hectares in 20 Lakes (which included four Lakes test-checked by audit) having area of 132.76 hectares i.e. 85 *per cent*[18] of total area of these Lakes as detailed in **Table 2.2, *Appendix-2.2* and Table 2.3, *Appendix-2.3*.**

Audit, however, observed that WPD had carried out Lake Management activity plans such as survey, demarcation, de-silting, de-weeding and plugging of breaches in respect of three Lakes such as Hokersar, Surinsar and Mansar. These have been discussed in **Chapter-VI**.

WPD stated (October 2022) that as 53 high altitude Lakes were free from human pressures, they do not require any kind of intervention, management or restoration.

The reply does not address the fact that all the Lakes in J&K are high altitude Lakes as per the National Wetland Atlas. Also, the guidelines of MoEF&CC do not prescribe that Conservation and Management is not needed for high altitude Lakes. Further, although Lakes in protected areas are free from anthropogenic pressures, they may be facing problems of siltation and issues relating to water sources. As such, they also require Conservation and Management efforts.

4. Union Territory Wetland Authority (UTWA)

In J&K, Union Territory Wetland Authority (UTWA) was established (November 2020) after a lapse of over 11 years after issue (June 2009) of National Wetland Conservation Program Guidelines[19]. UTWA is responsible for identification, conservation and regulation of wetlands (including Lakes) in UTs as per Wetlands (Conservation and Management) Rules, 2017.

Although UTWA was to meet at least thrice a year, it had convened its first meeting in March 2021 after a lapse of more than one year since its establishment. UTWA fixed a timeline (between April 2021 and July 2021) for preparation of a Brief Document (BD) for 12 Lakes. Preparation of the brief document included geographic delineation of Lakes, demarcation of Lake boundary supported by accurate digital maps with coordinates and validation by ground-truthing and list of activities to be regulated and

[18] Decreased area of four sampled Lakes/ total decreased area (132.76/156.78)

[19] Superseded in 2017

permitted within the Lakes. However, no such brief document has been prepared as of 31 March 2022. Besides, no post/staff was sanctioned by GoJ&K for UTWA. Thus, J&K UTWA had remained non-operational.

UTWA stated (October 2022) that due to COVID-19 pandemic, the field work regarding preparation of BDs suffered and subsequently the BDs of Wular Lake and Dal-Nigeen Lakes were finalised. It was further stated that preparation of BDs of Ahansar, Waskusar, Khushal Sar-Gilsar, Narkara and Sanasar was in final stage. The reply of UTWA is not convincing as the Government business had continued during Covid-19 with Standard Operating Protocols. Further, the reply of UTWA is silent regarding not conducting statutory meetings.

5. Biodiversity Board, J&K (BDB)

J&K, Biodiversity Board (BDB) was established (February 2013) after a lapse of over 11 years since the Biological Diversity Act, 2002 was enacted.

Members of the Board were appointed (February 2013) for two years. Thereafter, no Board members were appointed for over three years up to August 2018. After the Board was reconstituted (September 2018) for two years, the Board met only twice till December 2020. During meetings, issues relating to staff creation and budget requirement were discussed but policy matters relating to plans and measures for conservation of biodiversity (including biodiversity of Lakes) in J&K were not addressed.

In contravention to the provisions of Biological Diversity Act, 2002, BDB had not carried out any survey to assess and evaluate details of biodiversity in respect of any of the 697 Lakes of J&K. It had not created the Biodiversity Fund and as such conservation and promotion of biological resources could not be carried out. Further, no post/ staff was sanctioned by GoJ&K for BDB. However, its affairs were being run by the staff in position in the Director, Research Institute of Forest.

UTWA and BDB stated that after enactment of J&K Reorganisation Act, 2019, BDB ceased to exist and GoJ&K constituted (September 2019) J&K Biodiversity Council (BDC) as per provisions of the Biological Diversity Act, 2002 and the Biological Diversity Rules, 2004. It was further stated that three meetings of BDC had been held to decide on matters pertaining to biodiversity conservation and its sustainable utilisation and that newly constituted BDC had taken several initiatives during the last two years including documentation of biodiversity by the Biodiversity Management Committee in the form of People's Biodiversity Registers (PBDRs) containing details of water bodies and flora and fauna. It was further stated that the BDC had initiated the process for creation of Biodiversity Fund Account.

The fact remains that no meetings of BDB were held between its establishment in February 2013 and reorganisation of J&K in August 2019. Further, the BDB had failed

to carry out survey to assess and evaluate details of biodiversity in respect of the 697 Lakes of J&K.

6. Jammu and Kashmir Pollution Control Board (JK-PCB)

JK-PCB had not taken measures for restoration and maintenance of natural water bodies and had not prepared plans/ programmes for prevention and control of water pollution as mandated under Water (Prevention and Control of Pollution) Act, 1974.

Although the PCB was to regularly monitor water quality of water bodies (including Lakes), the JK-PCB had conducted water quality testing of only five Lakes[20] as against 697 Lakes in J&K. Further, the testing was confined to only physico-chemical parameters and no testing for other parameters such as zooplankton and phytoplankton was done. J&K Pollution Control Board also failed to take measures for restoration and maintenance of natural water bodies and had not prepared plans/ programmes for prevention and control of water pollution of Lakes in J&K.

7. Development Authorities

Four Development Authorities[21] were established (between March 1997 and September 2012) under the Development Act 1970 for development of areas transferred to these Authorities. The areas transferred to these Authorities also included Lake areas. However, there was no specific mandate with any of the Development Authorities for Conservation and Management of Lakes.

8. Agriculture Production Department (*Rakhs* and Farms Department)

The *Rakhs* and Farms Department under Agriculture Production Department controls the land appurtenant to Lakes that are submerged in water during the rainy season and dry up during summers or autumn.

R&FD, in violation of Wetland Rules[22], transferred land appurtenant to three Lakes[23] measuring 712.30 hectares to other Departments for construction activities. Further, 210 hectares of land were under transfer as on March 2022 to other Departments. Transfer of land for construction purposes had caused shrinkage in these Lakes and disappearance of Gangbug Lake.

9. Water Resource Regulatory Authority (WRRA)

Water Resource Regulatory Authority (WRRA) was established (October 2012) after a lapse of two years since enactment (November 2010) of the Water Resources (Regulation and Management) Act, 2010. Functions of WRRA were to be discharged

[20] Dal, Surinsar, Mansar, Hokersar and Wular Lakes

[21] Lakes Conservation and Management Authority, Surinsar Mansar Development Authority, Wular Conservation and Management Authority and Wular Manasbal Development Authority.

[22] 2010 (modified in 2017)

[23] Rakh-i-Rabtar, Gungbug and Rakh-i-Arth

through a Committee which was constituted (October 2012) for a period of three years (up to October 2015). Thereafter, the second committee was appointed in October 2017 after a gap of over two years. The Committee discussed (July 2019) the progress of ongoing conservation works only for Wular Lake, instead of all 697 Lakes in J&K, as required under the provisions of the Water Resources (Regulation and Management) Act, 2010.

Water Policy and Plan (WP&P) was prepared (October 2017) by the WRRA after a lapse of about seven years since the WRRA Act was passed.

No plans were prepared for protection of water sources and prevention of encroachment on existing water bodies (includes Lakes) and improvement in water quality of water bodies (including Lakes) deteriorated due to pollution.

Thus, there was no Centralised Development and Regulatory Authority and no specific legal statute/ Act for Conservation and Management of Lakes. Even the Departments/ Authorities having fragmented mandate and responsibilities had failed to carry out Conservation and Management of Lakes in Jammu and Kashmir resulting in degradation of ecosystem of Lakes.

Commissioner Secretary, Forest, Ecology and Environment Department assured (September 2022) that the matters raised by Audit would be considered seriously and it was hoped that the working of the concerned Departments would show an assimilation of the issues raised which would lead to better performance in future.

The fact remained that the Forest Department and other Departments/ Authorities concerned had not only failed to prevent the land use change in Lake areas but had themselves carried out violation of Wetland Rules 2010 and 2017, by constructing roads through Lakes of Hokersar, Rakh-i-Arth and Devpursar. The Authorities may closely ascertain the causation for violation of the extant laws (under Section 15 of Environment (Protection) Act 1986, Section 3 of Forest (Conservation) Act 1980, Section 170 of J&K Water Resources (Regulation and Management) Act, etc. for Conservation and Management of Lakes.

2.6 Conclusion

There were significant changes in land use and classification use of areas in respect of Lakes. Audit analysis of the data obtained from EE&RSD revealed that out of total 697 Lakes, 315 Lakes (45 *per cent*) having water area of 1,537.07 hectares had disappeared, while water area of 203 Lakes[24] (29 *per cent*) had decreased. Further, Audit analysis of remote sensing data for the period 2014-2020 related to 63 test-checked Lakes revealed that there was decrease in area of open water expanse and increase of area under other land uses like built-up, pasture, vacant land, fallow land, agriculture, horticulture,

[24] 518 Lakes (disappeared & decreased Lakes) minus 315 Lakes (disappeared Lakes)

plantation and cropland. Although various existing laws, rules, and policies contained sporadic provisions for conservation and management of Lakes, there was no specific and comprehensive legal statute /Act dedicated to Conservation and Management of Lakes. Although Development Authorities were established for the development of areas including the areas of six detailed-checked Lakes, no clear and specific mandate had been put in place by these Authorities in their Acts for Conservation and Management of Lakes.

2.7 Recommendations

- ***Specific and comprehensive legal statute/Act for conservation and management of Lakes needs to be put in place by the GoJ&K.***
- ***Instead of the existing multiple agencies vested with the Administrative control over Lakes, GoJ&K may explore the possibility of establishing a Central and Specialised Authority through appropriate legislative enactment to ensure focused, coordinated and accountable Conservation and Management of Lakes and proper monitoring and evaluation of efforts in this regard.***
- ***Manpower with technical and domain expertise including environmental and hydrological engineers, wetland ecologists, limnologists, remote sensing and Geographic Information System specialists, ornithologists and microbiologists should be provided for Conservation and Management programmes of the Lakes.***
- ***Laboratories with sophisticated equipment should be established for carrying out research studies relating to Lakes. Besides, Scientific Advisory Committee needs to be constituted for scientific guidance regarding Conservation and Management of all Lakes in J&K.***

Chapter-III

Overview of Conservation and Management Programmes/ activities for Lakes

Chapter-III

Overview of Conservation and Management programmes/ activities for Lakes

3.1 Conservation Programmes for Lakes

Conservation and Management programmes of 691 Lakes in J&K could not be implemented by GoJ&K, as the Forest Department had neither identified the eligible Lakes nor formulated any plans to seek assistance under various programmes launched by MoEF&CC.

Ministry of Environment, Forest and Climate Change of India (MoEF&CC) in 1985, identified Conservation and sustainable Management of wetlands (including Lakes) as one of its important programmatic themes. The National Wetlands Conservation Programme (NWCP) was launched (1986) by MoEF&CC, GoI to provide financial assistance to the State Governments to prevent degradation of wetlands (including Lakes) and ensure wise use of wetlands for the benefit of local communities and overall conservation of biodiversity. Also, recognising the importance of urban and semi-urban Lakes degraded due to waste water discharge into Lakes, GoI launched (June 2001), the National Lake Conservation Plan (NLCP) to restore and conserve these Lakes by restoring their water quality and ecology.

In February 2013, to avoid overlap of activities and promote better synergies, NLCP and NWCP were merged into a National Plan for Conservation of Aquatic Ecosystems (NPCA). The objectives of NPCA were to stop and reverse the continued degradation and loss of Lakes and to achieve desired water quality and improvement in biodiversity by holistic conservation and restoration of Lakes. To seek financial assistance from GoI, the State Governments/ UT Administrations were to formulate integrated management plans for Lakes with minimum area equivalent to or greater than five hectares by identifying a comprehensive set of activities needed for conservation and sustainable Management of Lakes.

Audit observed that GoJ&K prepared Conservation and Management programmes/ plans for only six Lakes viz. Dal, Wular, Surinsar, Mansar, Manasbal and Hokersar. In respect of the remaining 691 Lakes, the GoJ&K neither identified the eligible Lakes nor were any plans formulated to seek assistance under various programmes launched by MoEF&CC.

Audit further observed that GoJ&K had also not formulated a comprehensive plan for scientific and effective conservation of Lakes. Comprehensive planning would have enabled formulation of action plans for restoration of health, serenity and sanctity of polluted Lakes. GoJ&K had neither conducted any survey for source water protection of Lakes nor was assessment of critical risk parameters carried out in respect of Lakes.

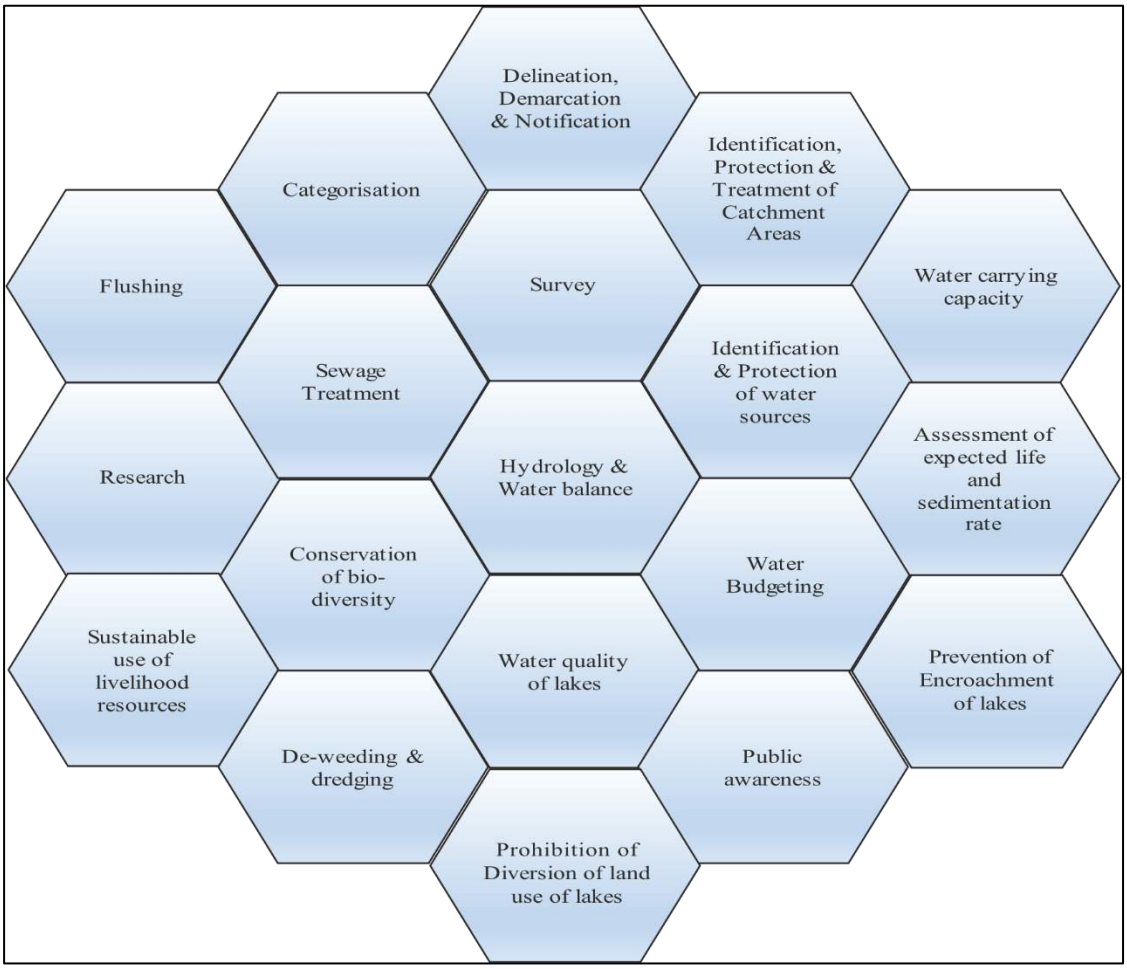
Due to lack of comprehensive programmes/ plans by GoJ&K, Conservation and Management could not be carried out for 691 Lakes in J&K as detailed in following paragraphs.

3.2 Generic activities for Lake management

No comprehensive survey, delineation, demarcation and notification of area of Lakes had been carried out for identification/ treatment of catchment areas, identification and protection of water sources, evaluation of water budget, improving water quality of Lakes by flushing, sewage treatment, biodiversity conservation, de-weeding and dredging, sustainable development of Lake resources, assessment of life of Lakes, research on Lakes and public awareness.

According to National Wetland Conservation Program (NWCP) and related Guidelines, Wetland Rules, books and publications on Lake management and Detailed Project Reports, the primary tasks for Conservation and Management of Lakes are survey, delineation, demarcation and notification of area of Lakes. These are to be followed by identification/ treatment of catchment areas, identification and protection of water sources, water budgeting, improving water quality of Lakes by flushing, sewage treatment of point and non-point sources, biodiversity conservation, de-weeding and dredging, sustainable development of Lake resources, assessment of life of Lakes, researches on Lakes and public awareness. Further, Wetland Rules (Conservation and Management), Rules 2010 and 2017 envisage prohibition of diversion of land use of Lakes. The pictorial representation of Lake generic management activities is given in **Chart 3.1:**

Chart 3.1: Pictorial representation of Lake generic management activities



Audit noticed the following deficiencies in the Lake generic management activities:

- **Survey of Lakes**

GoJ&K assigned (October 1989) EE&RSD to conduct a detailed survey of Lakes, study their physical, chemical and biological dynamics and on the basis of the data so collected, prepare detailed plans for development and monitoring of each Lake.

EE&RSD had conducted (May 2012) a survey in J&K and prepared a directory of Lakes and water bodies. An atlas of Lakes and wetlands of Kashmir/ Jammu Divisions was prepared (November 2018/ July 2020). These records indicated only the location and area of Lakes. The survey did not include assessment of physical and chemical dynamics such as topography, geology, soil quality and status of Private/ Government land in the vicinity of Lakes. This assessment was imperative for preparation of development plans for each Lake. In absence of this data, the impact of these factors on the Lake ecosystem could not be evaluated in respect of 697 Lakes.

EE&RSD had failed to conduct detailed survey of Lakes despite lapse of 31 years between its establishment in October 1989 and November 2020.

After establishment of J&K UTWA in November 2020, the responsibility for surveying of Lakes was transferred to UTWA. However, as of October 2022, UTWA had also not conducted any detailed survey of Lakes despite lapse of two years since its establishment. Non-conduct of detailed survey of Lakes exhibited a lackadaisical approach in Conservation and Management of Lakes.

- **Delineation, demarcation and notification of Lakes**

For Lakes outside forests, Wetland (Conservation and Management) Rules, 2010 and 2017 envisage that States/ UTs have to prepare a 'Brief Document' comprising broad geographic delineation of Lakes with demarcation of Lake boundary supported by accurate digital maps with coordinates and validation by ground truthing. The document should outline the list of activities to be regulated and permitted within the Lakes. After preparation of Brief Document, 402 Lakes (outside forest areas) were to be notified. The Brief Document had not been prepared by GoJ&K for these Lakes. Also, GoJ&K had not notified any Lake under Wetland Rules. Out of the remaining 295 Lakes falling in forest areas, the Forest Department notified (1945 and 1981) only 14 Lakes located in Wildlife areas.

Thus, geographic delineation of Lakes with demarcation of Lake boundary and notification of Lakes could not be done resulting in exposing Lakes to the threat of encroachments. Besides, non-notification of Lakes resulted in lack of focused effort for planning Conservation and Management of these Lakes.

District-wise details of Lakes outside forest areas which have disappeared and Lakes whose area had decreased by more than 50 *per cent* since 1967 are given in **Table 3.1.**

Table 3.1: District-wise details of disappeared Lakes and Lakes in which area had decreased by more than 50 per *cent*

Sl. No	District[1]	No. of Lakes outside forest areas	No of Lakes disappeared	Area of disappeared Lakes (in ha)	No. of Lakes of in which area decreased by 50 *per cent*	Area of these Lakes (in ha)
1.	Anantnag	2	2	306.29	0	0
2.	Bandipora	35	8	86.95	9	117.28
3.	Budgam	16	1	464.05	0	0
4.	Ganderbal	19	9	120.55	5	126.36
5.	Doda	7	2	1.06	0	0
6.	Jammu	79	57	44.84	3	1.6
7.	Kathua	33	31	13.62	2	1.29

[1] Out of 20 districts in J&K, in the two districts viz. Kulgam and Rajouri, no Lake falls outside forest area.

Sl. No	District	No. of Lakes outside forest areas	No of Lakes disappeared	Area of disappeared Lakes (in ha)	No. of Lakes of in which area decreased by 50 *per cent*	Area of these Lakes (in ha)
8.	Kishtwar	8	4	10.64	0	0
9.	Poonch	11	5	3	2	1.08
10.	Ramban	3	2	1.55	0	0
11.	Reasi	27	27	11.1	0	0
12.	Samba	73	62	38.48	2	1.64
13.	Udhampur	18	15	12.27	1	0.53
14.	Baramulla	10	0	0	4	37.77
15.	Kupwara	41	1	0.92	2	3.13
16.	Pulwama	9	4	56.60	1	3
17.	Srinagar	10	5	147.30	0	0
18.	Shopian	1	0	0	0	0
	Total	**402**	**235**	**1,319.22**	**31**	**293.68**

(Source: data obtained from EE&RSD)

As can be seen from the **Table 3.1**, 235 Lakes having an area of 1,319.22 hectares in 16 districts had disappeared. Besides, in 10 districts more than 50 *per cent* area (293.68 hectares) of 31 Lakes had decreased implying that these Lakes also face the risk of extinction.

- **Categorisation of Lakes**

Lakes are categorised as oligo trophic (having low nutrient content and usually having water of drinking quality), meso trophic (having medium-level nutrient content with usually clear water and submerged aquatic plants), eutrophic (having high nutrient content and abundance of plants due to high levels of oxygen) and hyper eutrophic (having high nutrients causing excessive plant/ algal growth).

No assessment was made in respect of 63 test-checked Lakes to determine their original category, changes in their category from time to time due to factors such as anthropogenic pressure, change in dynamics of catchment area and deforestation etc. As a result, changes in category of Lakes, if any, were not evaluated. For instance, in respect of Manasbal Lake, a research[2] conducted (March 2014) by the scholars indicated that the classification of the Lake had changed from mesotrophic to eutrophic.

[2] Ajaz Ahmad Magray and Tasleema Jan (Department of Education, University of Kashmir), India

- **Identification, protection and treatment of catchment areas**

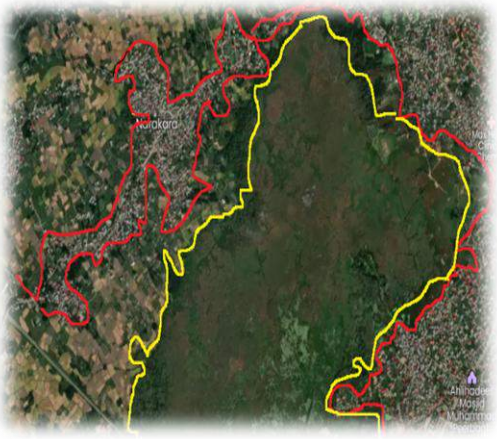
The interconnectivity between Lakes and their catchments is a central tenet in Lake Management. Lakes receive tonnes of sediment each year from the catchment areas due to *nallah* cuts, loose soils, denuded mountains and other natural geological processes. Water quality of a Lake depends largely on the conditions and dynamics of its catchment. Eutrophication related problems observed in Lakes are primarily linked to the nature of contributing catchment of the Lake. As the health of catchments is critical for existence of Lakes, it is vital to conduct survey of catchment area of Lakes and to identify, assess, understand, evaluate, protect and treat catchment areas[3] of Lakes. Instances of four test-checked Lakes where catchment area identification, evaluation, protection and treatment were absent are shown in **Satellite Images 3.1, 3.2, 3.3 and 3.4**.

Yellow line boundary indicates area of Lakes. The area marked in red (Ahansar Lake & Narkara) and green (Mansar & Surinsar Lake) is the built-up.

Satellite Image 3.1: Ahansar Lake

Satellite Image 3.2: Mansar Lake

Satellite Image 3.3: Narkara Numbal Lake



Satellite Image 3.4: Surinsar Lake

[3] In absence of a formally identified catchment area, a reasonable portion outside the open water boundary of the Lake has been considered as catchment area.

In respect of 61 out of 63 test-checked Lakes, the concerned Departments with whom Administrative control of these Lakes is vested had neither conducted any survey to assess, evaluate and understand catchment area of the Lakes nor were silt settling basins constructed to address siltation coming into these Lakes from catchment areas. In respect of remaining two test-checked Lakes[4], survey was conducted for assessment of catchment area and treatment was also carried out to redress the problem of siltation (discussed in **Chapters IV and V** of the report).

Due to non-identification, protection and treatment of catchment areas, there was change in land use within areas of Lakes. As a result, there was absence/ decrease of open water area in 41 Lakes critically affecting the ecosystem of these Lakes as discussed in the **sub-paragraphs "Absence of open water and decrease in open water" of Paragraph 2.3.1.**

- **Identification and protection of water sources of Lakes**

Snowfall and rainfall in the catchment areas of Lakes form the main source of water in the Lakes. The water from these sources reaches the Lakes through *nallahs*, springs and ground-water. For study of hydrology and water balancing of Lakes, it is very important to identify and protect water sources of Lakes. Under J&K Water Resources (Regulation and Management) Act 2010, J&K WRRA was mandated to identify and protect water sources of Lakes.

In respect of 63 test-checked Lakes, J&K WRRA had failed to fulfil its mandate, as no detailed survey was conducted to identify and quantify inflow from water sources of Lakes. As a result, water sources in catchment areas of Lakes could not be assessed, regulated and protected by Departments with whom jurisdiction of these Lakes was vested.

This was one of the causes for absence of open water area in 21 Lakes and decrease in open water of 20 Lakes as discussed in the **sub-paragraph "Absence of open water and Decrease in open water" of Paragraph 2.3.1.**

The concerned Departments attributed non-identification of water sources of Lakes to lack of Conservation and Management programme for Lakes.

- **Sewage treatment**

The sewage and untreated human waste entering the Lakes are the main causes responsible for pollution in Lakes. Out of 63 test-checked Lakes, 15 Lakes[5] are located inside forests. These 15 Lakes included 12 Lakes which were free from sewage and untreated human waste as there was no human population around these Lakes and the

[4] Catchment area of Dal Lake is 33.70 sq. kms and Wular is 333.74 sq. kms.

[5] Out of 15 Lakes inside forests, 12 Lakes (Munwar Sar, Sheshnag, Tson, Sarbal sar, Nilnag, Nundkul, Gangbal, Chirsar, Konsarnag, Mandik Sar, Gaga Sar and Simarsar) are free from sewage and untreated human waste.

remaining three[6] Lakes were surrounded by populated areas. Further, the remaining 48 test-checked Lakes (outside forests) were also surrounded by human population.

Audit noticed that sewage and other pollutants were treated only in respect of Dal Lake out of 63 test-checked Lakes, where Sewage Treatment Plants (STPs) were in place to treat sewage and untreated human waste entering the Lake. However, sewage was entering into the 50 Lakes[7] (includes six Lakes in Jammu Division and 44 Lakes in Kashmir Division) without any treatment. Division / District-wise details of Lakes into which sewage was entering without any treatment are given in ***Appendix-3.1*.** An instance of Haigam Lake where untreated sewage and animal waste were directly entering the Lake is shown in the following picture:

Cow dung at the fringe of the Lake is marked in yellow. Area marked in blue indicates the place where run-off from sewage and animal waste finds its way into the Lake resulting in deterioration in water quality of the Lake.

Haigam Lake

Out of 50 Lakes where sewage was entering the Lakes, it was noted from the responses of Tehsildars to the questionnaire based survey prepared by Audit that sewage from 0.91 lakh households (having 4.55 lakh human population and 2.75 lakh animal population) was entering into 34 Lakes. Out of these 34, in case of 29 Lakes there were 69 identified source point pollution locations wherefrom sewage was entering the Lakes and solid waste was dumped by the local population on the fringes of the Lakes (details are in ***Appendix-3.2*).** In the five Lakes, the sources of pollution were not identified. However, in respect of remaining 16 Lakes, information regarding number of households, human population, animal population and identified sources of pollution was not available with the concerned authorities.

Neither did the J&K Pollution Control Board take any action against the violators of environment laws/rules causing pollution in the Lakes nor did the local municipal authorities provide proper sites for dumping of waste and sewage treatment facilities.

[6] Surinsar, Mansar and Shalbugh.

[7] 63 test-checked Lakes minus 12 Lakes (within forests) free from sewage minus one Lake (Dal Lake) where STP is in place to treat sewage.

Hydrology and Water Balance

• Water carrying capacity of Lakes

For study of hydrology, water mass, depth and water balancing[8] of Lakes, it is important to assess water carrying capacity of Lakes.

Audit noticed that in respect of the 63 test-checked Lakes, water carrying capacity was not evaluated from time to time. As such, neither flood mitigation strategies could be evolved nor could water reserves be regulated.

• Water Budgeting

Water budget is accounting of water that flows into and out of a Lake. To maintain water carrying capacity of Lakes, it is essential to regularly monitor water budget of a Lake. In respect of 62[9] test-checked Lakes by Audit, water budget was neither evaluated nor monitored. In the questionnaire based survey conducted by Audit, it was reported that in 61 Lakes[10], entry and exit regulatory gates were not in place for regulating and maintaining of water budget of Lakes. Due to absence of gates, there was absence/ decrease of open water area in 41 test-checked Lakes as discussed in the **sub-paragraph "Absence of open water and Decrease in open water" of Paragraph 2.3.1.** Out of these 41 Lakes, water was lifted from nine Lakes for irrigation and drinking purposes. However, the quantity for lifting of water was not fixed to regulate water budget of these Lakes as shown in the following images:

Haigam Lake without regulatory gate but having wooden logs and cement bags at its exit point	**Water escaping from Haigam Lake on the other side of exit point due to non-availability of regulatory gate**

8 Water budgeting, flushing, flood mitigation etc.
9 In respect of Dal Lake, it was done up to 1998-99.
10 Dal Lake and Manasbal Lake have regulatory gates.

Hokersar Lake without regulatory gate but having iron needles and blocks at its exit point resulting in escaping/ loss of water in the Lake	**Water escaping from Hokersar Lake on exit point due to non-availability of regulatory gate resulting in escaping/ loss of water in the Lake**

- **Flushing of Lakes**

Flushing of a Lake has to be done to regulate re-circulation of Lake water and to improve the health of the Lake. Flushing rate of a Lake is worked out by dividing total outflow of Lake water by average water carrying capacity of the Lake.

Responses to the questionnaire based survey conducted by Audit revealed that in respect of 62[11] out of 63 test-checked Lakes there was no system in place for flushing of Lakes.

- **Assessment of expected life and acceleration/ deceleration of sediment accumulation rates in Lakes**

Sedimentation is a major problem in the Lakes. The rate of sedimentation through natural geological processes in the catchment of Lakes leads to their rapid shrinkage. Apart from these natural factors, the increasing population growth in and around the Lakes area leads to sedimentation of the Lakes and inflow of sewage and human wastes. All these factors accelerate degradation of the Lake environment.

The life of a Lake is estimated on the basis of bathymetric survey taking into account the sediment accumulation rate in the basin of the Lake and volume of the Lake.

Departmental replies to the questionnaire based audit survey revealed that except for Dal Lake, in respect of 62 test-checked Lakes, the volume of Lakes and sediment accumulation rates in their basins were not evaluated. As a result, the expected life of

[11] Flushing was done in Dal Lake but not in a scientific manner.

Lakes and pace of acceleration/ deceleration of sediment accumulation rates in their basins could not be estimated.

- **Water quality of Lakes**

Deterioration in water quality of a Lake severely affects its biodiversity, health, aesthetic view and recreational uses. For Conservation and Management of Lakes, their water quality has to be monitored and regulated.

JK-PCB is mandated with restoring and maintaining natural water bodies (including Lakes). It has to prepare plans and programmes for prevention and control of water pollution and regularly monitor water quality of water bodies (including Lakes). In 63 test-checked Lakes[12], neither plans and programmes for prevention and control of water pollution were in place nor was water quality of Lakes monitored by JK-PCB. As a result, changes in water quality of these Lakes from time to time could not be assessed.

Testing conducted by research scholars in respect of six detailed-checked Lakes[13] showed deterioration in water quality of these Lakes as discussed in **Chapters IV, V and VI** of this report.

- **De-Weeding and Dredging**

Unwanted plants or plant parts in a Lake are removed by harvesting of aquatic vegetation. Dredging of sediments is done for improving water flow in a Lake by removal of solid land masses accumulated due to siltation.

Out of 63 test-checked Lakes, de-weeding and dredging was not carried out in 57 Lakes, while in six Lakes[14] de-weeding and dredging was done without adhering to laid down mechanism as discussed in **Chapter IV, V and VI** of this Report. Due to absence/ improper de-weeding there was increase of 1,358.72 hectares[15] of aquatic vegetation in 23 Lakes. Further, due to absence/ inadequate dredging, there was net increase of 1,927.72[16] hectares in other land use[17] in 40 Lakes. Details of Lakes with land-use changes viz. increase/ decrease in aquatic vegetation, agriculture, built-up etc. are given in ***Appendix-3.3 and 3.4.***

[12] In case of Dal Lake, the water quality assessment was conducted by Research and Monitoring Wing of Lakes Conservation and Management Authority.
[13] Dal, Wular, Manasbal, Surinsar, Mansar and Hokersar
[14] Dal, Wular, Manasbal, Surinsar, Mansar and Hokersar.
[15] From 8,318.23 hectares (2014) to 9,676.95 hectares (2020).
[16] From 12,915.94 hectares (2014) to 14,843.66 hectares (2020).
[17] Cropland, floating garden, silted area, built-up, vacant/fallow land, agriculture, pasture, vegetation etc.

Weeds emerged in the Lake due to nutrient load, siltation, non-carrying out of de-weeding etc.	
Haigam Lake	**Anchar Lake**

- **Conservation of Biodiversity of Lakes**

Biodiversity of a Lake refers to a variety of life (plants, animals, fungi and micro-organisms) that have their habitat in and around a Lake. It is a key measure of the quality of the ecosystem of the Lake. The Biodiversity Board (BDB) is mandated with conservation and promotion of biological resources. As such, its role regarding conservation of biological diversity relating to Lakes for sustainable use of its components is vital.

In respect of 63 test-checked Lakes, BDB had not inventoried and monitored data of biodiversity existing in the ecosystem of these Lakes. Measures were not taken for conservation and promotion of biological resources of these Lakes. Information/ data of species already extinct, nearing extinction and exotic species with their impact on local flora and fauna of test-checked Lakes was not available with BDB. This information was not provided in response to the questionnaire based audit survey. Research conducted by various scholars of Universities indicated disappearance/ dwindling of indigenous fishes and native species of aquatic plants besides invasion of exotic species in three Lakes as discussed in **Paragraphs 5.8.1, 6.1.9 and 6.3.7.**

- **Sustainable use of Livelihood resources existing in the Lakes**

Lakes provide economic benefits to the local communities living in and around the Lake. They carry out fishing and extraction of aquatic vegetation for food and fodder. Economic resources generated from Lakes need sustainable development for sustaining the economy and livelihoods of those dependent on it. Some economic resources derived from Lakes are indicated in the following photographs:

Extraction of Nelumbo nucifera (Nudroo) from Anchar Lake	**Nudroo put on sale**
Extraction of water Chestnut, (Trapa bispinosa) from Wular Lake	**Collection of trapa for sale**
Fishing being carried out in Anchar Lake	**Fish being harvested from Wular Lake**
Sale of vegetables produced in the floating gardens of the Dal Lake	**Sale of vegetables produced in the floating gardens of the Dal Lake**

(Source: publications of EE&RSD)

Responses to the questionnaire based audit survey revealed that out of 48 test-checked Lakes located outside forests, 35 Lakes were used by the local community for fishing and extraction of aquatic vegetation. No information was provided in respect of the remaining 15 Lakes. No checks and balances were in place to ensure sustainable/

controlled fishing and extraction of aquatic vegetation in these Lakes. Lake-wise details of fishing and extraction of vegetation species are given in ***Appendix-3.5.***

- **Prevention of Diversion of Lake areas and encroachment of Lakes**

Lake areas had been encroached upon by conversion to built-up areas, plantation, agriculture fields, playgrounds etc., and the land of Lake area had been transferred by the Government for construction purposes in contravention of the Wetland Conservation and Management Rules, 2010 and 2017.

With the growth in population, the pressure on the Lakes and its surroundings as potential settlement areas has increased resulting in environmental degradation of Lakes. Wetland Conservation and Management Rules, 2010 and 2017 prohibit encroachment of Lake land and its conversion for non-Lake use. Audit noticed that in violation of the Rules, the Government had transferred Lake areas for non-Lake use and there was encroachment of Lake areas as detailed below:

- **Prevention of Diversion of Lake areas for construction purpose**

Out of 48 test-checked Lakes located outside forest areas, in 10 Lakes, 765.30 hectares of watery area had been transferred by the authorities of District Administration to various Government Departments for purposes including construction of residential quarters, office buildings, universities and schools. District Administration was in the process of further transferring 217.50 hectares of land in respect of two Lakes[18]. Details are given in ***Appendix-3.6 and 3.7.***

- **Prevention of Encroachment of Lakes**

Out of 48 test-checked Lakes located outside forest areas, in 39 Lakes, District Administration Authorities reported encroachment by way of illegal constructions, plantation, reclamation of land masses etc. However, extent of encroachment was not quantified by the Authorities of District Administration in respect of 34 Lakes. In respect of five Lakes[19], the concerned Tehsildars had quantified that 712.55 hectares of area of Lakes was under encroachment done by construction of roads, structures, plantation and paddy fields. No action was taken for clearing of encroachments by the Departments/ Authorities with whom jurisdiction of these Lakes was vested. Details are given in ***Appendix-3.8***.

- **Public awareness**

Successful Conservation and Management of Lakes depends upon involvement and cooperation of people who are associated directly with the Lakes. Public awareness programmes are required to highlight objectives of Conservation and Management of

[18] Hakimgund Numbal and Gungbugh-I.
[19] (i) Haigam Lake, (ii) Mirgund-II, (iii) Hokersar, (iv) Anchar and (v) Khushal Sar.

Lakes and how these would be helpful to the local population in bringing about better living conditions and improving the quality of life. Notice boards displaying instructions regarding "Dos and Don'ts" are to be put up in the surrounding areas of Lakes.

Departmental replies to the questionnaire based audit survey revealed that except for Dal Lake, in respect of 62 Lakes no public awareness programmes were held to apprise people about the importance of conservation of Lakes in bringing about better living conditions and improving the quality of life. Due to lack of public awareness, cow-dung and house-hold garbage was dumped in and around 34 Lakes as discussed in **sub paragraph "Sewage Treatment" of Paragraph 3.2**.

- **Research for management of Lakes**

Management of Lakes calls for continuous research to address drivers of change in the Lakes. However, Departmental replies to the questionnaire based audit survey revealed that except for Dal Lake, in respect of 62 Lakes, no research studies were carried out by the concerned Authorities to evaluate changes in water quality, assess condition of fishes, water birds, native species of flora and fauna and invasion of noxious species, if any, due to heavy inflow of silt, sewage into Lakes from catchment areas. As a result, changes in the ecosystem of the Lakes from time to time could not be evaluated.

3.3 Lack of emphasis on Conservation and Management of Lakes by the GoJ&K

For Conservation and Management activities of the Lakes, funds were allocated by GoJ&K to only six Lakes (selected for detailed-checked) as against 697 Lakes while there was no funding in 691 Lakes. However, the funds provided for the six Lakes were inadequate for their Conservation and Management. Funds of ₹ 560.65 crore were allocated (2017-22) for Conservation and Management of these six Lakes which was approximately one *per cent* of disbursement (2017-22) of ₹ 50,228.11 crore under CAPEX Budget of J&K. Apart from this, there was absence of Lake generic management activities and change in land use of Lakes noticed in the Audit test-checked Lakes as discussed in the preceding paragraph of this chapter. As a result, there were land use/ classification use changes in 518 Lakes[20] (74 *per cent*) in J&K due to lack of emphasis on Conservation and Management of Lakes. Details are in ***Appendix-3.9*.**

3.4 Conclusion

GoJ&K had Conservation and Management programmes for only six Lakes viz. Dal, Wular, Hokersar, Manasbal, Surinsar and Mansar. In respect of the remaining 691 Lakes, the concerned Departments neither identified the eligible Lakes nor were any

[20] Out of 697 Lakes.

plans formulated to seek assistance under various programmes launched by the MoEF&CC. Lake management was deficient, since there was no delineation, notification and demarcation of any of the 697 Lakes of Jammu and Kashmir. In case of the 63 test-checked Lakes, changes in trophic level in the catchment area of Lakes had not been evaluated from time to time. Further, there was lack of assessment of water carrying capacity and water budget of Lakes. Flushing on scientific grounds, restoration of water quality of Lakes to their origin levels, evaluation and preservation of biodiversity, assessment of expected life of Lakes had not been done. Identification and treatment of source point and non-source point pollutions, de-weeding/ dredging as per laid down norms and public awareness creation activities among masses had also not been carried out in respect of the test-checked Lakes. Lake areas had been encroached upon by conversion to built-up areas, plantation, agriculture fields, play grounds etc. The land of Lake area had been transferred by the Government for construction purposes in contravention of Wetland Conservation and Management Rules. GoJ&K had not laid emphasis on Conservation and Management of Lakes as approximately one *per cent* of its CAPEX Budget was allocated only to six Lakes.

3.5 Recommendations

- ***Generic Lake management activities such as survey, categorisation, sewage treatment, flushing etc. need to be planned and carried out in a time-bound manner.***
- ***The provisions of Wetlands (Conservation and Management) Rules should be enforced to delineate, demarcate and notify the boundaries of Lakes and to prohibit such activities that can harm the ecosystem of the Lakes.***
- ***Clearing of encroachment in Lake areas and launching of public awareness programmes should be prioritised.***
- ***The GoJ&K should place emphasis on Conservation and Management of Lakes by earmarking increased percentage of its budget for Conservation and Management of Lakes.***

Chapter-IV

Conservation and Management of Dal Lake

Chapter-IV

Conservation and Management of Dal Lake

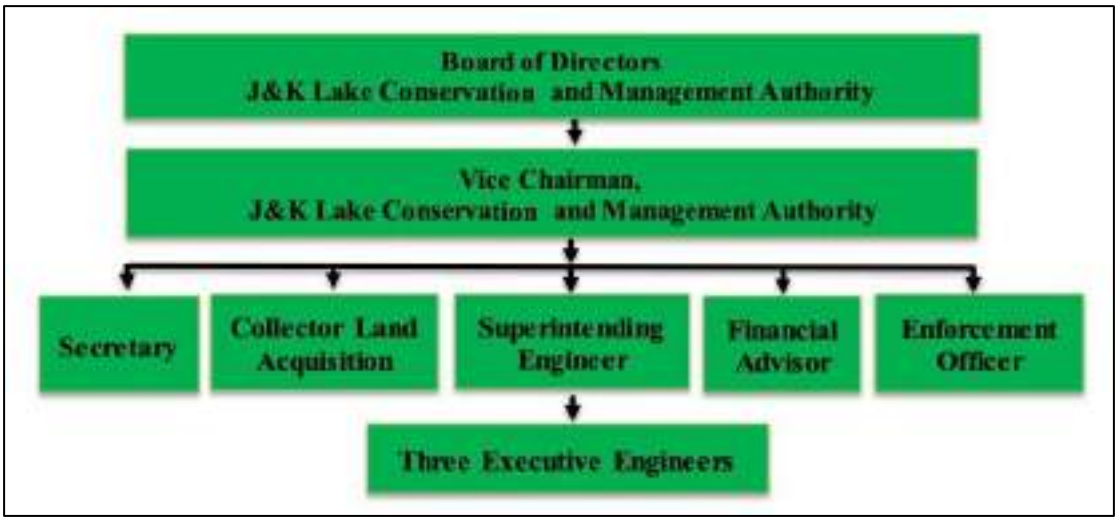
4.1 Introduction

The Dal Lake is located in Srinagar (34^{o} 5'N and 74^{o} 50'E) at an altitude of 1,583 meter above mean sea level. The Lake is regarded as the "liquid heart" of Srinagar. It is included among the most beautiful national heritage sites of the country.

4.2 Organisational Setup

The responsibility for Conservation and Management of Dal Lake lies with Lakes Conservation and Management Authority (LC&MA). Formerly known as the Lakes and Waterways Development Authority, LC&MA was constituted (1997) for development of Dal-Nigeen and Anchar Lakes. The administrative control of LC&MA, vests with Principal Secretary to Housing and Urban Development Department (H&UDD), GoJ&K. The executive decisions of LC&MA which includes programme implementation for Conservation and Management of Dal Lake are taken by the Board of Directors (BoD). BoD of LC&MA comprise nine members including a Chairman and a Vice-Chairman, appointed by the GoJ&K. The organisational setup of the LC&MA is illustrated in the **Chart 4.1**:

Chart 4.1: Organisational Setup of LC&MA



4.3 Land use changes within Dal Lake and its catchment

There were land use changes in the Dal Lake and its catchment due to non-acquisition of land from Dal Lake dwellers, malfunctioning of Sewage Treatment Plants, inadequate sewage treatment facilities, improper de-weeding mechanism and inadequate monitoring or surveillance mechanism. As a result, open water area in the Lake could not be restored or increased and inflow of nutrient load into the Lake caused prolific growth of weed in the Lake.

4.3.1 Analysis of remote sensing data of Ecology, Environment & Remote Sensing Department (EE&RSD) to ascertain Land use changes in Lake

There were Spatio-temporal changes in land use and water cover of Dal Lake during 2007-2020 as detailed in **Map 4.1, 4.2 and 4.3, Table 4.1 and Charts 4.2, 4.3 and 4.4**.

Map 4.1, 4.2 and 4.3: Spatio-temporal changes in land use and water cover of Dal Lake during 2007-2020

Map 4.1: 2007	Map 4.2: 2014	Map 4.3: 2020

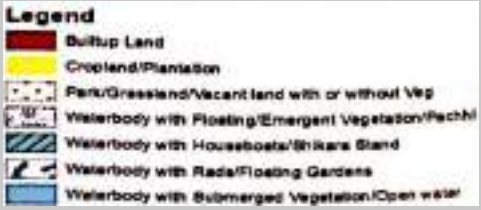


Table 4.1: Change in open water and other land use of Dal Lake

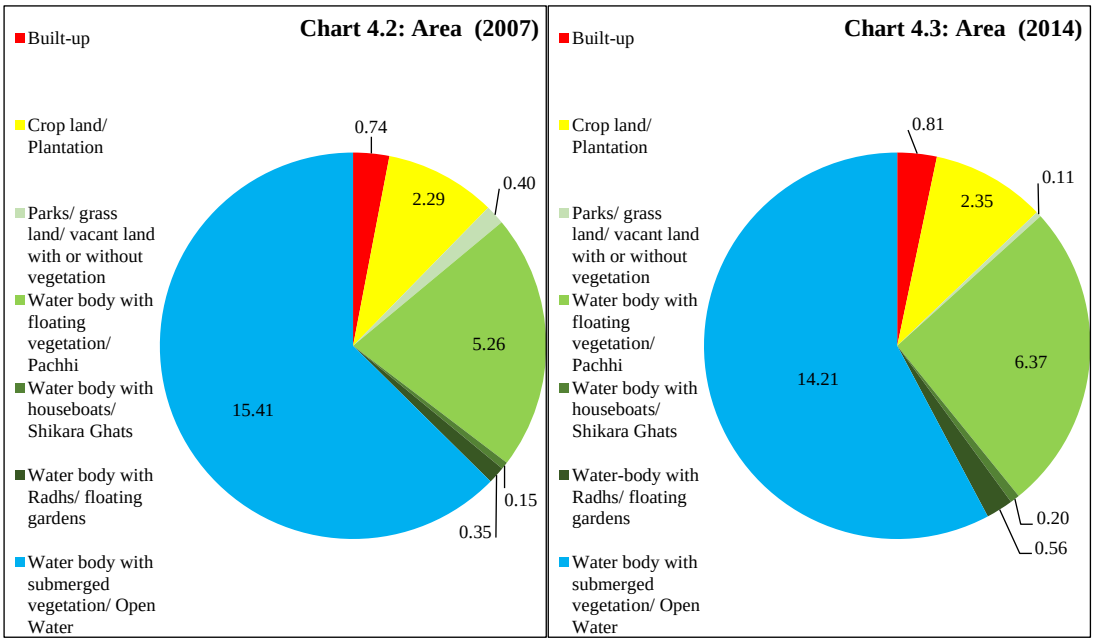
Area in sq. kms						
Sl. No	**Name**	**2007**	**2014**	**2020**	**Change in area during the period 2007 to 2020**	**Percentage change in area with respect to total area of Lake**
1	Built-up	0.743	0.812	1.025	0.282	1.15
2	Crop land / Plantation	2.29	2.351	2.849	0.559	2.27
3	Parks/ grass land/ vacant land with or without vegetation	0.403	0.11	0.36	-0.043	0.17 (Decrease)
4	Water body with floating vegetation/ *Pachhi*[1]	5.262	6.366	6.796	1.534	6.23
5	Water body with houseboats/ *shikara* Ghats	0.15	0.196	0.17	0.02	0.08
6	Water body with *radhs*[2]/ floating gardens	0.352	0.556	0.498	0.146	0.59
7	Water body with submerged vegetation/ Open water	15.405	14.214	12.907	-2.498	10.15 (Decrease)
Grand Total		**24.605**	**24.605**	**24.605**		

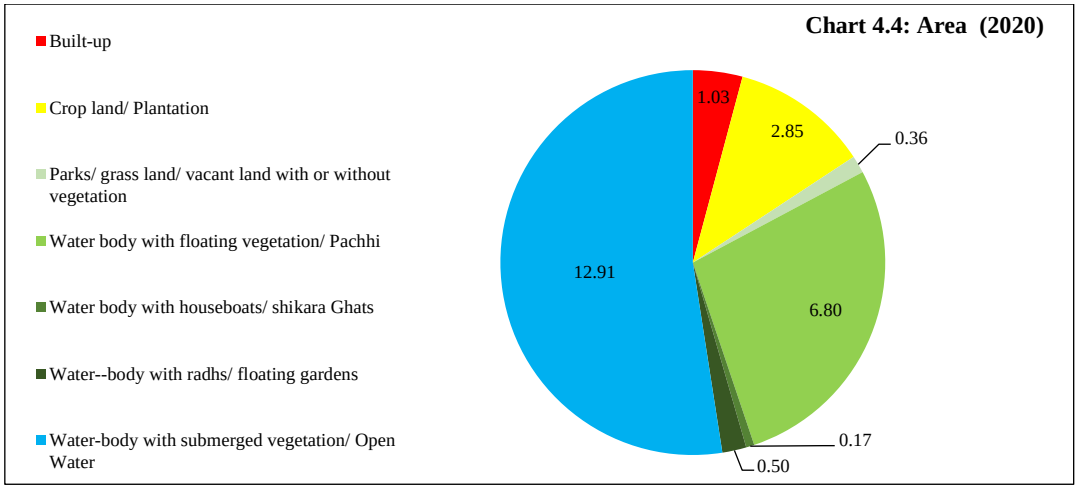
(Source: data of EE&RSD)

Charts 4.2, 4.3 and 4.4: Change in open water and other land use of Dal Lake



1 Floating vegetation in Kashmiri language.

2 Floating gardens in Kashmiri language.



It may be seen from **Table 4.1** that during 2007-2020, there was a decrease from 15.405 to 12.91 sq. km. (10.15 *per cent*) in the water body with submerged vegetation/ open water of the Lake, while there was increase in other land uses such as water body with floating vegetation/ *Pachhi* from 5.262 to 6.796 sq. km. (6.23 *per cent*), crop-land/ plantation from 2.29 to 2.85 sq. km. (2.27 *per cent*), built-up from 0.743 to 1.025 sq. km. (1.15 *per cent*) etc. There was decrease in parks/ grass land/ vacant land with or without vegetation from 0.40 to 0.36 sq. km. (0.17 *per cent*) due to dredging of some acquired land. The decrease in open water at the cost of other land use changes indicated anthropogenic pressures on the Lake. Neither were any concrete measures taken by LC&MA to regulate the land use of the Lake nor were reasons analysed for these land use changes.

Audit analysis revealed that land use changes were due to:

- non-acquisition of land from Dal Lake dwellers and non-dredging of land already acquired from them;
- malfunctioning of STPs and non-arresting of all point source/ non-point source of pollutions entering the Dal Lake from its catchments;
- improper de-weeding mechanism and;
- inadequate monitoring/ surveillance mechanism.

As a result, the open water area in the Lake decreased, could not be restored/ increased and inflow of nutrient load into the Lake resulted in prolific growth of weed. There were encroachments paving way for increase in floating vegetation and gardens, crop land, plantation, water area under houseboats and built-up as discussed in **Paragraphs 4.6.1, 4.6.2, 4.6.3, 4.6.4, 4.6.5, 4.6.6, sub-paragraph 3 of 4.6.8 "De-weeding of Lake" and Paragraphs 4.6.10, 4.6.11 and 4.11.**

H&UDD stated (December 2022) that yearly de-weeding Action Plan had been formulated in consultation with Research & Monitoring (R&M) wing of LC&MA and 4.8 sq.km. of lily pad was extracted during the previous two years. H&UDD further

added that CCTV cameras had been installed all along the periphery of the Lake and inspection motorboats had been procured for proper monitoring and surveillance.

The reply is not convincing as there was no progress in respect of six out of seven land uses and only part action had been taken in respect of 'Waterbody with submerged vegetation/ Open Water'.

4.3.2 Analysis of Google Earth Pro images to ascertain Spatio-temporal changes in the Lake and its catchments

Clear images of Dal Lake and its catchment areas available on Google Earth Pro for the period 2004 to 2022 indicated land use changes within the Lake and its catchment areas as detailed below:

- Gradual encroachments inside the Lake in areas of Mir Behri, Lati *Mohalla* and Nandapora.
- Increase in built-up in the catchment areas of Takiya Sangreshi, Danihama, Shalimar, Koshpora, Banigam etc. These areas are without sewer networking and sewage treatments and more than 80 *per cent* of water inflow in the Lake is received from tributaries passing through these catchment areas.
- Intensification in the habitation in catchment areas of Hazratbal, Habak and Nishat having non-upgraded/ inefficient Sewage Treatment Plants (STPs).
- Dense increase in the built-up in Rainawari area having partial sewer networking/ treatment system.

The Google Earth Pro images of catchment and encroached areas of Lake are shown in **Satellite Images 4.1 to 4.21.**

Satellite Image 4.1: Dal Lake and its catchment and encroached area within the Lake-2022

4.4 Planning

LC&MA did not prepare DPR for left out activities in the initially approved DPR. Project Management Consultant had not been appointed by LC&MA. Discrepancies had not been sorted out in the Vision Document in respect of land proposed to be acquired from Dal-dwellers and a detailed damage report regarding damage caused by floods of September 2014 had not been prepared.

To improve water quality of Dal Lake and also to save it from degradation, GoJ&K launched (1977) the project 'Conservation of Dal Lake'. Works of the project were executed through Urban Environmental Engineering Department (UEED) up to 1996-97. Thereafter the project was transferred (March 1997) to J&K, Lakes and Waterways Development Authority which was renamed (November 2021) as Lake Conservation & Management Authority (LC&MA). LC&MA was entrusted with (August 1997) execution of two main components viz. Lake Conservation and Rehabilitation.

From September 2005, Conservation of Dal Lake Programme was included by MoEF&CC under National Lake Conservation Programme (NLCP). Detailed Project Report (DPR) for Conservation and Management of Dal Lake prepared by Indian Institute of Technology (IIT), Roorkee was approved (September 2005) by MoEF&CC under NLCP at a cost of ₹ 298.77 crore. The target date for completion of the project was 2010, which was extended by MoEF&CC from time to time with the latest extended date being March 2018. The project could not be completed as of March 2022 as discussed in the succeeding paragraphs of this chapter.

NLCP had two components viz. Lake Conservation & Management Programme and Rehabilitation and Resettlement Programme. The funding of Conservation and Management Programme was to be borne by the MoEF&CC, GoI while Resettlement and Rehabilitation Programme of families living in the Lake was to be funded by the State/ UT Government. The approved activities with sub-components along with their costs are detailed in ***Appendix-4.1*.**

Rehabilitation and Resettlement Programme (RRP) for resettlement of hamlet population living within/ along the Lake in new colonies by developing residential plots, initiated by GoJ&K in August 1997, was approved (May 2001) by the State Government at a cost of ₹ 135 crore. The cost of the programme was revised from time to time with the latest revised (March 2013) cost being ₹ 416.72 crore.

Further, Special Plan Assistance (SPA) of ₹ 356 crore was also approved (February 2012) by GoI under Prime Minister's Reconstruction Programme (PMRP) for acquisition of land pertaining to Dal-dwellers, relocation of Dal-dwellers and dredging of acquired land for Eco-restoration of land. The current Performance Audit covers implementation of activities approved under the NLCP for Conservation and Management of Dal Lake from September 2005 till March 2022.

Audit observed that one of the reasons for delay in the implementation of programme activities was due to not holding the scheduled meetings by the Board of Directors of LC&MA. As such, policy matters related to Conservation and Management of Dal Lake could not be addressed timely, and there was delay in utilisation of funds and underutilisation of funds as discussed in succeeding paragraphs of this chapter.

4.4.1 Non-preparation of DPR for left out activities in the initially approved DPR

MoEF&CC in a meeting (April 2006) pointed out various discrepancies in the DPR approved for NLCP, such as non-inclusion of a pedestrian mall along the Western Foreshore of the Lake and removal of bund at Nishat basin. It further suggested a mechanism for disposal of extracted weed and sludge from STPs. BoD was advised (April 2006) by MoEF&CC to include the left-over items in the project.

Audit examination revealed the following deficiencies:

- No follow up action was taken by the BoD of LC&MA for over eight years up to December 2014. The Coordination-cum-Monitoring Committee (CMC)[3] viewed (January 2015) the inaction of the LC&MA in preparation of the DPR of left-over activities seriously.
- Taking into consideration the impact of floods of the year 2014 on Dal Lake and non-coverage of sewerage networking of adjacent areas of Shalimar, Harwan and Khona Khan, the CMC directed LC&MA to prepare an in-house Project Report for taking up the matter with NITI Aayog. However, no action was taken by LC&MA as of March 2022.

Due to inaction of LC&MA and non-monitoring by BoD, the DPR for the left-out components was not prepared despite lapse of over 16 years since project was sanctioned (September 2005) under NLCP. As a result, the envisaged purposes of increasing water circulation in the Lake, delineation of the Lake and proper disposal of extracted weed and sludge could not be carried out. Further, sewage of Shalimar, Harwan and Khona Khan areas continued to be discharged into the Lake.

The Executive Engineer, Lake Division-I stated (June 2022) that action could not be taken due to prevailing conditions in the valley after abrogation of Article 370 followed by Covid-19. It was further stated that the proposals for left over activities would be formulated and laid before the Board of Directors for appropriate decision.

The reply should be seen in light of the fact that the proposals for left-over activities could have been prepared and placed before the BoD at least seven years prior to the abrogation of Article 370 and outbreak of Covid-19.

[3] Headed by Chief Secretary of Jammu and Kashmir with 16 members (eight from State Government, six from GoI and one each from two renowned universities)

H&UDD stated (December 2022) that DPR of ₹ 1,383.25 crore for construction of Western Foreshore Road from Khona Khan to Saida Kadal had been approved. They further added that since Nishat Bund prevented waves caused by gusty windstorms, which were disastrous for *shikaras*, houseboats and other structures, from entering into other basins, it was decided not to remove it. It was also stated that Memorandum of Understanding (MoU) had been signed between National Agricultural Cooperative Marketing Federation of India Limited (NAFED) and LC&MA for scientific disposal of waste (extracted weed and sludge from STPs) and its conversion into manure/ biogas.

The reply in respect of removal of Nishat Bund is not convincing as it was included in the pre-feasibility report prepared by IIT, Roorkee but was not incorporated in the DPR approved under NLCP and the need for removal of Nishat Bund was repeatedly felt with the latest being in the 2nd Coordination cum Monitoring Committee of LC&MA held in January 2015. Further, the assertion that gusty winds would prove disastrous to *shikaras* and other structures inside the Lake is not based on any technical survey report.

4.4.2 Project Management Consultant

NLCP envisaged appointment of Project Management Consultant (PMC) for planning the project schedule with respect to available funds and making amendments in the project, besides monitoring progress of the project to ensure quality standards and timely completion of the project.

Audit observed that despite a lapse of over 17 years since the Dal Lake was included under NLCP in September 2005, no PMC had been appointed by LC&MA as of December 2022.

While accepting the audit observation, the Executive Engineer, Lake Division-1 stated (June 2022) that the process for seeking expression of interest for appointment of PMC would be initiated.

H&UDD stated (December 2022) that although the LC&MA had not appointed any PMC, it had utilised the services of various experts engaged with UEED, experts from IIT, Roorkee and Council of Scientific & Industrial Research-National Environmental Engineering Research Institute, Nagpur from time to time. It was further stated that the LC&MA is now hiring Project Management Consultants for its future projects as needed.

The fact remains that no PMC had been appointed by LC&MA for over 17 years to provide continuous monitoring and to ensure quality standards and timely completion of the project.

4.4.3 Vision Document

On the directions (August 2013) of the Hon'ble High Court, Jammu and Kashmir, LC&MA was to get a Vision Document (VD) prepared in respect of land that was proposed to be acquired in the Lake area from the Dal-dwellers. The VD was to specify whether to develop the land in the shape of small islands as tourist attraction parks or add the land to water expanse of the Lake.

LC&MA invited (January 2014) tenders for preparation of VD and allotted work to Rites Limited (GoI enterprise). However, the allotment was cancelled without any reasons on record. Subsequently, LC&MA allotted (January 2016) preparation of VD to IIT, Roorkee which prepared draft VD for which LC&MA paid (March 2016) ₹ 1.26 crore to the Institute. Scientific Advisory Committee (SAC) of LC&MA pointed out various discrepancies[4] in the draft VD. The discrepancies pointed out were forwarded (September 2017) to IIT, Roorkee which stated that observations were outside the Terms of Reference (ToR) of the work allotted to it. The matter was placed before the Hon'ble High Court. The Hon'ble High Court observed (2016-17) that the VD had to be finalised at the earliest, and directed that the scope of the work be expanded to incorporate the comments/ observations of the SAC. Accordingly, LC&MA expanded (September 2017) the scope of work.

Audit observed that LC&MA had not taken any further action in this regard as of December 2022 resulting in unproductive expenditure of ₹ 1.26 crore on preparation of Vision Document. Further, 2,299 *kanals* of land acquired[5] by the LC&MA could not be added to the Lake to increase its water area or small islands as tourist attraction parks could also not be developed.

H&UDD stated (December 2022) that the decision of the Hon'ble High Court was conveyed to IIT, Roorkee in October 2017. It was further stated that an official from IIT Roorkee conducted extensive tour of the Dal Lake on 12 September 2022 in connection with finalisation of VD and Vice Chairman LC&MA requested the official to share final report as per directions of Hon'ble High Court.

The fact remained that even after communication of the Hon'ble High Court's decision in October 2017, the Vision Document had not been finalised as of December 2022.

4.4.4 Assessment of damages due to floods

After heavy floods in September 2014, LC&MA prepared a tentative damage report by which funds of ₹ 3.40 crore was sought for restoration of damaged infrastructure including damaged embankments, parapet walls, STPs etc.

4 Lack of reference to data used, inaccuracy in vegetation map of the Lake, errors in bathymetric data, lack of suggestions on future interventions in catchment areas

5 Under PMRP

Audit observed that no detailed damage report indicating losses caused in the catchment areas of the Lake and quantum of silt/ sediment that would have entered the Lake due to flow of water from River Jhelum and other catchment areas had been prepared. Consequently, impact assessment of damages to the Lake due to floods had not been made. It was further observed that LC&MA had received only ₹ 0.50 crore[6] as against ₹ 3.40 crore projected in the tentative damage report. Silt water in Dal Lake due to floods of September 2014 was also verified on Google Earth Pro as shown in **Satellite Image 4.22**:

Satellite Image 4.22: Yellow marked area in haze is the silt water in the Lake due to floods of September 2014

H&UDD stated (December 2022) that LC&MA had conducted detailed assessment of damages caused by flood including damage due to siltation and sedimentation. Further, it had conducted bathymetric survey in 2018-19 to identify pockets where impact of siltation was more and no significant siltation had taken place from Jhelum river side. It was further stated that siltation coming from Tailbal *Nallah* and other channels was removed on regular basis.

The reply is not acceptable as damage survey report appended with the reply furnished by H&UDD indicated that a large amount of silt had entered the Dal Lake through one of the tributaries of the Jhelum River (Chunti Khul).

[6] ₹ 0.25 crore in October 2014 and ₹ 0.25 crore in January 2015

Thus, the fact remained that LC&MA had not assessed in detail the quantum of silt/ sediment that had entered the Lake from River Jhelum and other catchment areas during the floods of September 2014.

4.5 Financial Management

4.5.1 Fund receipts and its utilisation

Apart from funds received under NLCP, LC&MA also received funds from GoI under PMRP, Basic Services to Urban Poor (BSUP) and from GoJ&K under Revenue/ CAPEX budget. There was underutilisation of funds ranging between ₹ 48.63 crore (44 *per cent*) and ₹ 280.68 crore (81 *per cent*) during 2017-22 as detailed in ***Appendix-4.2***. Under NLCP, underutilisation of funds ranged between ₹ nine crore (96 *per cent*) and ₹ 23.26 crore (74 *per cent*) as detailed in the ***Appendix-4.3***.

Underutilisation of funds was attributed to non-upgradation of STPs, non-establishment of common STP, non-shifting of house boats, non-construction of Padshahi canal, non-procurement of CCTVs/ other equipment, tardy implementation of PMRP Programme, non-holding of awareness programmes and third-party evaluation. This led to delay in completion of the NLCP and PMRP programmes due to which further assistance under PMRP could not be availed.

Further, funds released by LC&MA to the executing agencies were booked as expenditure without ascertaining actual expenditure incurred by them. There were balance amounts ranging between ₹ 1.08 crore and ₹ 2.16 crore, lying unspent with executing agencies at the end of each financial year as detailed in ***Appendix-4.4***.

The Financial Advisor, LC&MA attributed (June 2022) underutilisation of funds to late release of funds and limited working season available for executions of works during winters. H&UDD stated (December 2022) that the unspent balance would be refunded to GoI.

The reply does not provide specific reasons for underutilisation of funds during the period.

4.6 Programme implementation

Inadequacies were noticed in implementation of Lake conservation programme under NLCP, PMRP and other programme activities such as installation and upgradation of Sewage Treatment Plants (STPs), treatment of solid waste, extracted weed and sludge, sewage disposal facilities of households, sewer networking of *mohallas*, relocation and alignment of houseboats, shifting of hotels, augmentation of water budget of the Lake, restoration and development works, catchment management works, installation of CCTV surveillance and relocation/ rehabilitation of Dal dwellers.

Audit noticed inadequacies in implementation of Lake conservation programme under NLCP, PMRP and other programme activities[7] such as installation and upgradation of Sewage Treatment Plants (STPs), treatment of solid waste, extracted weed and sludge, sewage disposal facilities of households, sewer networking of *mohallas*, relocation and alignment of houseboats, shifting of hotels, augmentation of water budget of the Lake, restoration and development works, catchment management works, installation of CCTV surveillance and relocation/ rehabilitation of Dal dwellers as discussed in the succeeding paragraphs:

4.6.1 Sewage Treatment Plants

Areas having STPs and areas without sewer networking in the vicinity of Dal Lake is shown in the **Satellite Image 4.23** downloaded from Google Earth Pro:

Satellite Image 4.23: Areas having STPs and areas without sewer networking

	Areas marked in red do not have sewer networking.
	Areas marked in green have sewer networking with Sewage Treatment Plants at locations marked in orange.

➢ To treat the water flowing into the Lake from nearby habitations with liquid and solid wastes, construction of six STPs having capacity of 36.70 Minimal Liquid Discharge (MLD) was sanctioned under NLCP at a cost of ₹ 21.46 crore. The details of sanctioned STPs and sewer networking to be covered for these STPs are detailed in ***Appendix-4.5.***

The STPs were installed (2006 to 2013) by M/s Thermax Limited (the firm) at a cost of ₹ 45.01 crore. Audit analysed test reports (January 2016 to December 2018) of these

[7] Activities undertaken by GoJ&K from time to time for conservation and management of Lake such as construction of Sewage System for peripheral area of Saida Kadal to Ashai Bagh Bridge, installation of CCTV Surveillance and other activities carried out in respect of water bodies connected with the Dal Lake together with works executed in accordance with the DPR approved under NLCP.

STPs and found that sewage inflows were not treated as per desired parameters specified in the DPR/ NIT/ allotment order as detailed in **Table-4.2**.

Table 4.2: Treatment of sewage inflow by STPs

Name of STPs	Required norm for removal of physico-chemical indicators	Range of removal		Nitrate Nitrogen (NO_3-N) (Average percentage increase)	Norm for Chemical Oxygen Demand (COD)	Actual COD
		Ammoniacal Nitrogen (NH_3-N)	Total Phosphorus (PO_4)			
Hazratbal	> 90 *per cent* removal	15-49	14-52	41-148	< 50	61-100
Habak		14-43	18-53	35-108		120-137
Laam		14-47	39-56	26-161		45-102
Brari Numbal[8]		57-65	59-66	13-36		57-72
Nallah Aamir Khan		31-41	39-53	14-19		47-78

(Source: records of LC&MA)

It may be seen from the **Table 4.2** that against requirement of removal of more than 90 *per cent* physico-chemical indicators:

- Ammoniacal nitrogen was removed in the range of 14 to 49 *per cent* in respect of three STPs[9] while in two STPs[10] it ranged from 31 to 65 *per cent.*
- Total phosphorus was removed in the range of 14 to 56 *per cent*[11] in respect of three STPs while in two STPs[12] it ranged from 39 *per cent* to 66 *per cent*.
- There was an average increase in Nitrate Nitrogen from 13 to 161 *per cent.*
- Chemical Oxygen Demand (COD) was also mostly higher than 50 *per cent*, ranging up to 137.

Despite incurring expenditure of ₹ 45.01 crore on STPs, the STPs were not treating sewage as per the required parameters resulting in deterioration of water quality of the Lake.

Further, a performance certificate from the technology provider was required to be furnished by the firm for allotment of work of installation of STPs.

Audit however noticed that despite the firm not furnishing the required performance certificate, the work of installation of five STPs was allotted to the firm. No action was taken against the firm for unsatisfactory performance of STPs despite non-fulfillment of conditions[13] of NITs and contract allotment order.

8 The sixth STP at Welcome Hotel was amalgamated with STP Brari Numbal

9 Installed in 2006 (which needed upgradation) and installed in 2013.

10 Installed in 2013.

11 Installed in 2006 (which needed upgradation) and installed in 2013.

12 Installed in 2013.

13 In violation of contract conditions, the firm had not made any specific assessment of its own of sewage characteristics. It had also not made necessary modifications in design parameters to ensure that the plant was able to function as per the desired outcome.

Audit further noticed that:

- LC&MA had not co-opted three experts, one each from Ministry of Environment and Forests, GoI, National Environmental Engineering Research Institute (NEERI) and J&K State Pollution Control Board (J&KSPCB), as required under the terms of allotment order, to monitor the functioning of STPs.
- A thick green belt, required to be developed around the STPs to match with surrounding landscape and to overcome the problem of odour in the area due to presence of STPs, was not developed.

H&UDD stated (December 2022) that the three existing STPs did not have the facility to remove anmoniacal nitrogen. As such, it has been decided to merge these old technologies-based STPs with upcoming 30 MLD capacity STP which was approved under Atal Mission for Rejuvenation and Urban Transformation (AMRUT) 2.0 and UT CAPEX Plan. It was further stated that as an interim measure, the existing STPs have been refurbished and are functioning in accordance with JKPCB norms. It was added that in the green belt, LC&MA had constructed artificial wetlands for STP Habak and STP Hazratbal whereas red belt could not be developed for STP Laam due to non-availability of land.

The reply is not acceptable as the STPs had not performed as per the parameters specified in the approved DPR under NLCP. Further, the assertion that the existing STPs had been refurbished in accordance with JKPCB norms was not supported with any documentary evidence. It is to be further noted that in one of the research reports[14] it had been pointed out that the STPs are not only malfunctioning but are exacerbating the problem of Lake pollution.

➢ With regard to the peripheral area (in the area from Saida Kadal Bridge to Ashai Bagh Bridge), there was no provision included under NLCP for treatment of sewage generated by the households and these were being discharged directly into the Lake. For this purpose, a DPR was prepared (2018) by Urban Environmental Engineering Department (UEED) with estimated cost of ₹ 8.48 crore under 'Atal Mission for Rejuvenation and Urban Transformation' (AMRUT). The project scheduled to be completed within eight months included construction of one STP, laying of 2.60 km of main trunk sewer line, five km of lateral sewer lines and requisite house connections.

Audit observed that 27 *per cent* physical progress was reported in respect of the main trunk sewer line and lateral sewer lines, however, there was no financial progress as of March 2022. Due to non-completion of sewage networking system from Saida Kadal to Ashai Bagh Bridge, untreated sewage from the area continued to be discharged into the Lake.

[14] Impact of sewage treatment plant effluent on water quality of Dal Lake, Kashmir, India of January 2020 by Hafsa Farooq Chashoo, Adnan Abu-Bakr, MH Balkhi and others.

While admitting that the sewage networking system from Saida Kadal to Ashai Bagh Bridge is incomplete, H&UDD stated (December 2022) that the work of Intermediate Pumping Station (IPS) and sewer network from Saida Kadal bridge to Ashai Bagh had been commissioned and out of 750 households, 400 were connected with sewer lines and the remaining households would be covered shortly.

4.6.2 Non-upgradation of STPs and lack of sewer networking/ treatment facilities

As STPs were not meeting the required standards of nutrient reduction and there were no sewage treatment facilities in the catchment areas of Shalimar, Tailbal, Batapora etc., a proposal was placed (December 2015) before the BoD of LC&MA for preparation of Detailed Project Reports (DPRs) for upgradation of three STPs[15] and for construction of STP for catchment areas. Accordingly, preparation of DPR for upgradation of STPs and construction of STP for catchment areas was entrusted (January 2016) without invitation of tender to IIT, Roorkee at a cost of ₹ 0.91 crore. The decision to award this work to IIT, Roorkee was made by the BoD of LC&MA on the rationale that IIT, Roorkee had already prepared the basic DPR of Dal Lake. The DPR for upgradation of STPs, at a cost of ₹ 45.73 crore, was prepared (August 2016) for which LC&MA paid ₹ 0.44 crore to IIT, Roorkee.

Subsequently, LC&MA asked (August 2016) IIT, Roorkee to suggest if establishment of a common STP having capacity of 22-35 MLD would be advantageous instead of four separate STPs[16]. IIT, Roorkee suggested that establishment of a common STP was advantageous due to being cost effective and it could accommodate future pollution load in a better way. However, Monitoring Committee of LC&MA decided (April 2017) in favour of upgradation of three STPs and establishment of one common STP. One of the three STPs was to be upgraded by the end of 2018-19. Two STPs were to be upgraded and one common STP was to be installed by September 2020.

GoJ&K released (between September 2016 and March 2019) ₹ 7.36 crore to LC&MA for upgradation of three STPs and for works of sewer networking.

Audit observed that out of the released amount of ₹ 7.36 crore, only ₹ 0.44 crore was spent on preparation of DPR and the remaining amount of ₹ 6.92 crore remained unutilised for a period ranging up to 54 months[17]. Due to non-upgradation of three STPs and non-establishment of a common STP, excess nutrient load from the STPs and untreated sewage from the catchment areas continued to enter the Lake. Non-availability of sewage facilities in the catchment area and effluents entering the Lake through various *nallahs* were also noticed during joint physical inspection conducted (March 2020) by the audit team with officials from LC&MA.

15 Habak, Laam and Hazratbal with cumulative capacity of 15.2 MLD.
16 Upgrading of three and installation of one more for other catchment areas.
17 September 2016 to March 2021.

The Executive Engineer, Lake Division-II stated (June 2022) that refurbishment of three STPs, instead of upgradation, had been carried out by UEED at a cost of ₹ 8.68 crore and the matter regarding establishment of one common STP at Gupt-Ganga was under process in UEED.

H&UDD stated (December 2022) that in a meeting held (2016) with the representative of IIT, Roorkee, it was concluded that up-gradation of existing STPs was not a feasible option as it would result in loss to the exchequer. Instead, the Committee of Experts suggested refurbishing these STPs which was done through UEED. It was further stated that a DPR of ₹ 291.48 crore had been approved for sewerage network of left out areas including merging of the three existing STPs along with construction of one common STP at Gupt Ganga.

Thus, in absence of sewerage network in left out areas and due to non-construction of common STP, the untreated sewage continued to enter the Lake affecting its water quality as can be seen from the photographs taken during joint physical inspection carried out by audit with the officials of LC&MA.

Blood and residue from slaughtered chicken (Shalimar area) entering the channels through which water enters the Lake	**Untreated sewage from households finding its way into the inlet channel of the Lake**
	Untreated sewage from households (Tailbal area) finding its way into the inlet channel of the Lake without treatment	**Garbage and untreated sewage from households (Tailbal area) finding its way into the inlet channel**

4.6.3 Sewage disposal facilities of households on either side of backwater channels

Intermediate Pumping Stations (IPSs) are to be set up in areas where sewer lines are so deep that no further related work can be executed. Accordingly, 11 IPSs were to be constructed at specific locations at a cost of ₹ 12.99 crore under NLCP. As of March 2014, seven IPSs were completed at a cost of ₹ 8.11 crore and in respect of the remaining four IPSs, ₹ 3.70 crore was spent with shortfall in execution of works ranging between 11 and 47 *per cent.* The shortfall was due to non-connectivity of sewer lines of the concerned households which were located at a very low level and could not be connected with four IPSs. Thus, sewage released from these households was discharged directly into the backwater channels of the Lake.

Audit examination further disclosed the following:

- Although the proposal for connecting these households by a common sewer line to the nearest IPSs was approved (June 2010) by the BoD, no further action was taken due to non-availability of funds under NLCP and delay in formulation of the project proposal.
- Eventually, sewer networking works[18] were approved (December 2016) under AMRUT at a cost of ₹ 26.50 crore. Besides providing sewer network to more locations by providing 13 low line pumping stations, main trunk sewer line, secondary and lateral sewers, house-to-house connectivity, mechanical and electric works and operation and maintenance for five years, the project works included pending works of connecting households to four IPSs. The works to be completed within 18 months were awarded (October 2017) by the UEED to a contractor at a cost of ₹ 18.85 crore. Out of ₹ 17 crore released to UEED for these works, ₹ 16.32 crore was spent as of December 2019. Expenditure of ₹ 12.94 crore was incurred on civil works with physical progress ranging between 36 and 85 *per cent* across various components.
- Despite payment of ₹ 1.79 crore made to a contractor for procurement of materials intended for executing mechanical and electric works, these works had not been executed by the contractor and materials were lying unutilised as of March 2022.

As a result, sewer networking works for connecting households on either side of the backwater channels could not be completed resulting in unproductive expenditure of ₹ 16.32 crore, while untreated sewage from these households continued to be released into the Lake.

H&UDD stated (December 2022) that low lying households could not be connected with the sewer line of STP Brari-Numbal and a DPR was being framed by UEED in collaboration with Srinagar Smart City to address the issue.

[18] Low Line Pumping stations, Secondary sewer lines, Lateral Sewer lines and house to house connectivity.

4.6.4 Sewer networking of Khona Khan area and its connectivity to the STP

There was no sewer network system in the catchment area between Dal Lake Gate and Khona Khan in the Western foreshore including house boats. Untreated waste water from this area was discharging into the Lake. Providing sewer network system and connecting it to one of the commissioned STPs was not included under NLCP.

After a lapse of 10 years from approval (September 2005) of conservation and management of Dal Lake under NLCP, a DPR was prepared (April 2015) for laying sewer network system at a cost of ₹ 8.28 crore in the area between Dal Lake Gate and Khona Khan in Western foreshore including houseboats. The sewer network to be connected to STP at Brari Numbal included works of trunk sewer, lateral sewers, house to house/ houseboat connectivity with laterals, intermediate pumping station etc. The works were to be completed within one year.

Audit noticed that as of March 2022, LC&MA had spent (2016-22) ₹ 6.16 crore[19] (74 *per cent* of DPR cost of ₹ 8.28 crore) on laying of sewer network system and 68 to 100 *per cent* of works were completed. Due to delay in tendering process and allotment of works as well as land dispute, works of connecting houses to main sewer lines, laying of pipes for 164 house boats, and laying of lateral sewer pipes were not executed despite a lapse of over seven years, after preparation of DPR.

Thus, expenditure of ₹ 6.16 crore could not yield the desired result as untreated sewage from households and houseboats of the area continued to be discharged into the Lake.

H&UDD stated (December 2022) that the main trunk sewer line, lateral and secondary sewers, IPS and rising main had been completed and the scheme was functional since 2018 but land dispute regarding a small patch of secondary sewers delayed house connection which would be completed by March 2023. With regard to houseboats, it was stated that the work for connecting the houseboats with the existing sewer line has been started.

The fact remained that untreated sewage from households continued to flow directly into the Lake as can be seen from the following pictures:

[19] ₹ 5.48 crore (2016-19) and ₹ 0.68 crore (2020-22).

Drains from households (marked in red) directly discharging into the Lake (Khona khan)	**Drains from households not connected to main drain**
Sewer (marked in red) from houseboats discharges untreated sewage into the Lake (Western foreshore area). Area marked in yellow depicts water quality at the place where water from sewer discharges directly into the Lake	

4.6.5 Disposal of solid waste, extracted weed and sludge

During the review meeting (April 2006) of MoEF&CC and LC&MA, it was decided that under 'Clean Development Mechanism Projects' (CDM) sponsored by MoEF&CC, bio-degradable component of solid waste, extracted weed and sludge from STPs would be combined for generating electrical power. LC&MA was to formulate a project report in accordance with CDM guidelines for submission to MoEF&CC.

Audit however noted that no such project report was prepared by LC&MA. After a lapse of over nine years, although LC&MA requested (December 2015) UEED to spare 1.5 *kanal* of land for creation of sludge beds for drying of generated sludge, no further action was taken by LC&MA as of December 2022. Thus, the problem of disposal of sludge generated from STPs, bio-degradable component of solid waste and extracted weeds remained unresolved.

The Executive Engineer-LD-I stated (June 2022) that DPR for treatment of bio-degradable component of solid waste and sludge at a cost of ₹ 13.54 core had been submitted to the Administrative Department. Further, it was stated that the project report regarding converting weed into compost, submitted by the Sher-i-Kashmir University of Agricultural Sciences & Technology, Kashmir (SKUAST-K) to LC&MA, was under consideration.

H&UDD stated (December 2022) that an MoU had been signed between National Agricultural Cooperative Marketing Federation of India (NAFED) and LC&MA for installation of weed processing compost plant, which would process more than 25,000 Metric Ton (MT) of weed per year. It was further stated that the disposal of sludge would be taken up under 30 MLD STPs to be built at Gupt Ganga Ishber for sludge disposal.

4.6.6 Relocation of House Boats and Hotels from Dal Lake

- **Houseboats**

Under NLCP, LC&MA spent (2005-11) ₹ 0.70 crore on pilot studies related to disposal of solid waste generated by people living in houseboats on the Lake. Pursuant to the directions (May 2013) of the Hon'ble High Court of J&K, LC&MA decided to relocate houseboats to Dole-Demb area. For this purpose, LC&MA was required to acquire land measuring 219 *kanal* and 11 *marla* out of PMRP funds. Information regarding land acquired and payments made for land acquisition was not provided by LC&MA to audit.

Audit further noticed that without floating tenders, LC&MA had hired (August 2013) the services of a private firm for preparation of project report for disposal of sewage and grey water generated by houseboats and decongestion of the area occupied by house boats. The firm was paid ₹ 0.11 crore for preparation of the project report. The estimated cost of the works in the project report was ₹ 29.81 crore[20]. After accord (November 2015) of Administrative Approval (AA) to the project, ₹ 11 crore was released (2016-19) to LC&MA under CAPEX.

As of March 2022, the main project component of sewerage networking system was not executed. Out of ₹ 11.69 crore projected for civil component, only civil works amounting to ₹ 4.85 crore[21] (41 *per cent*) were allotted to nine contractors for which ₹ 2.28 crore was paid (March 2022) against work done claims. LC&MA also paid (March 2016) ₹ 0.50 crore to Public Health Engineering (PHE) Department for water works, ₹ 0.50 crore (March 2016) to Electrical Maintenance & Rural Electrification Department for electric works and ₹ 2.70 crore to Smart City agency. Detailed account

[20] The project report included components of sewerage system (₹ 15.15 crore), civil works (₹ 11.69 crore), electrical System (₹ 1.99 crore) and water supply (₹ 0.98 crore)

[21] ₹ 4.85 crore (works of civil project component works allotted) to ₹ 11.69 crore (total civil project component works)

in respect of these payments amounting to ₹ 3.70 crore was not obtained from the concerned Departments/ agencies. This had resulted in unfruitful payment of ₹ 5.98 crore[22] incurred on the project and locking up of ₹ 5.02 crore[23] in LC&MA for over three years.

H&UDD stated (December 2022) that the plan for relocation and realignment of houseboats to Dole-Demb area was dropped keeping in view various environmental concerns raised by stakeholders. It was further stated that instead of relocating houseboats to Dole-Demb area, they were being connected with main existing sewer line of 16.1 MLD STP.

The fact, however, remains that untreated sewage from houseboats continues to be discharged into the Lake as of December 2022.

Thus, proper disposal of sewage generated by houseboats and decongestion of the area occupied by houseboats could not be carried out. As a result, untreated sewage from houseboats continued to be discharged into the Lake affecting its ecosystem.

Dense population of houseboats in Dal Lake was also verified from **Satellite Image 4.24** obtained from Google Earth Pro:

Satellite Image 4.24: Yellow marked areas of the Lake are densely populated with houseboats (February 2019)

[22] ₹ 2.28 crore plus ₹ 3.70 crore
[23] ₹ 11 crore minus ₹ 5.98 crore

Untreated sewage from houseboats entering the Lake	

- **Hotels**

Sewage from 13 hotels situated inside/ alongside the Lake was directly entering the Lake. For shifting of these hotels, LC&MA took up (February 2009) the matter regarding transfer of land measuring 18 *kanals* at Lasjan with H&UDD. As H&UDD did not take any action for transfer of land, the BoD of LC&MA decided (July 2010) to relocate these hotels to its own land at Chandpora. Thereafter, LC&MA did not take any action in this regard for about 11 years. As of December 2022, shifting of hotels situated in the vicinity of the Lake could not take place and untreated sewage from hotels continued to be discharged into the Lake.

The Executive Engineer-Lake Division-I stated (June 2022) that the matter would be placed before Board of Directors for appropriate action.

H&UDD stated (December 2022) that the proposal to relocate 13 hotels situated inside the Lake to Lasjan could not mature due to non-transfer of land to LC&MA at Lasjan. It was further stated that in a High-Level Committee meeting chaired by the Divisional Commissioner, it was decided not to carry forward the rehabilitation process and onus was on hotels to either use existing peripheral sewer lines or install portable STPs for sewage discharge.

The reply is not acceptable because shifting the responsibility of sewage treatment entirely to the hotels does not absolve LC&MA of its commitments under NLCP.

Restaurant running inside the Lake	**Washroom facilities (hoarding marked in yellow) at the cost of water quality of the Lake**

	Front view of a Hotel inside Dal Lake	**Untreated sewage (marked in yellow) behind the hotel entering into the Lake**

4.6.7 Augmentation of water budget of the Lake through Padshahi Canal

To improve water budget of the Lake during the lean/ dry period (June-July) and help flushing of the Lake by bringing additional two cubic meter (cum) of water per second from Sindh *Nallah* through Padshahi Canal, funds of ₹ 2.61 crore were earmarked under

NLCP as per approved DPR. The Padshahi canal was to be connected by a 580-meter-long link channel to Batapora *Nallah* of the Lake. The Batapora *Nallah* was to be improved by widening and raising embankments at spots.

The BoD decided (June 2010) to constitute a team of technical experts from LC&MA and Irrigation and Flood Control (I&FC) Department to work out modalities of the project. The recommendations of the team of experts were to be sent to the Administrative Department for approval. However, there was no further progress in this regard as of December 2022. Against earmarked funds of ₹ 2.61 crore, expenditure of only ₹ 0.35 crore was incurred on office and travel expenses. Besides capital funds of ₹ 2.26 crore[24] under the activity remained unutilised during the project implementation period.

Thus, the indifferent approach of LC&MA and lack of monitoring by the BoD resulted in non-augmentation of water budget of the Lake for over 16 years[25].

H&UDD stated (December 2022) that construction of link channel to Batapora *Nallah* was not possible. This was because a road had been constructed along its proposed alignment and removal of constructions which had come up on either side of Grata Kul up to Batapora *Nallah* was not possible, as it involved huge financial implications. It was further stated that funds under NLCP were being returned by LC&MA and the matter stood taken up with GoI.

The fact remained that alternative measures were not undertaken to augment water budget of the Lake.

4.6.8 Restoration and Development works

- **Dredging of the blocked channels**

Due to accumulation of sediment, channels inter-connecting different parts of the Lake were blocked to varying extents over a period of time. This was not only impeding circulation of water within the Lake but also hindering movement of boats and *shikaras.* One of the activities under NLCP was to widen and deepen channels which included dredging of 38 blocked channels. LC&MA was to prepare a bathymetric map of the Lake to have a clear picture about basin morphology to help in marking areas to be dredged.

Funds of ₹ 8.01 crore available under NLCP were utilised up to 2017-18 on dredging works and further expenditure of ₹ 3.01 crore[26] was incurred on dredging works under CAPEX. As of March 2022, a total expenditure of ₹ 11.02 crore was incurred on dredging of the Lake. Audit observed the following in this regard:

[24] ₹ 2.61crore minus ₹ 0.35 crore.
[25] Since September 2005 i.e. launch of NLCP.
[26] ₹ 0.67 crore during 2020-21 and ₹ 2.34 crore during 2021-22.

- Dredging of the Lake was carried out without conducting bathymetric survey of Lake morphology till 2018-19. Further, the bathymetric survey conducted in 2018-19 did not contain the details of location and quantum of silt deposited in Lake and its catchment area.
- Dredging works were not monitored properly, as no record indicating location/ channel-wise width and depth of the Lake where dredging was carried out was kept on record. Instead, mere year-wise physical and financial achievements were documented.
- No study was conducted to assess the impact of dredging carried out in the Lake.

H&UDD stated (December 2022) that bathymetric survey was conducted in 2018-19. They admitted that no bathymetric survey had been conducted prior to 2018-19.

The reply is not justified, as bathymetric survey conducted in 2018-19, annexed with the reply, is not comprehensive since it does not indicate locations and quantum of silt deposited in the Lake and its catchment area.

- **Dredging of settling basin**

Tailbal *Nallah* is the main source of water for the Lake and brings a lot of sediments from its catchment areas. The water of Tailbal *Nallah* along with water from other sources enters a natural auxiliary basin before entering the Lake. To prevent sediments from entering the Lake, a settling basin was constructed at the point where water of Tailbal *Nallah* enters the Lake. A study conducted (May 1998 to June 2000) by LC&MA revealed that the settling basin had an efficiency[27] of only 07 to 57 *per cent*.

Audit noticed that LC&MA had not conducted any bathymetric survey to ascertain the quantum of silt entrapped in the settling basin after its construction. No de-siltation of settling basin was carried out to improve its efficiency. A study conducted (March 2015) by J&K, EE&RSD indicated a decrease of 0.08 hectare in silt retention capacity of the basin in 2014 with respect to 2007. Decrease in silt retention capacity of the basin had the potential to hasten ageing process of the Lake.

The Executive Engineer (EE), Lake Division-I admitted (June 2022) that bathymetric survey of the settling basin had not been conducted and stated that de-siltation of the settling basin to improve its efficiency was in progress from 2020 onwards. The EE added that due to non-availability of dykes for dumping of dredged out material, the material was being thrown into the auxiliary basin being part of the settling basin. The EE further stated that the auxiliary basin would also be retrieved as auctioning of dredged out material was under process. The EE further added that bathymetric survey

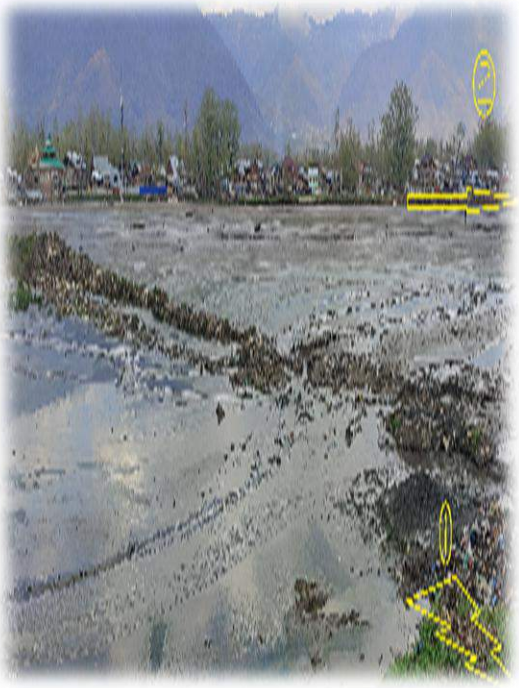
[27] Settling basin had an efficiency of 57 *per cent*. This means that if 100 metric tonnes of silt enters the settling basin through the *nallah*, only 54 metric tonnes of silt would be retained in the settling basin. Consequently, 46 metric tonnes of silt would still enter the Lake.

of the basin would be conducted and a schedule for the dredging process would be formulated.

H&UDD stated (December 2022) that based on the bathymetric survey report of 2018-19, 1.5 lakh cum of silt had been removed from the settling basin which resulted in improving its efficiency.

The reply should be seen in light of fact that the bathymetric report, annexed with the reply, does not indicate locations and quantum of silt deposited in the Lake and its catchments. Further, the report also does not indicate the dykes/ areas in which the removed silt was dumped. Moreover, the following photographs show silt dumped in the auxiliary basin of the Lake.

Material dredged out from the settling basin dumped into auxiliary basin (which acts as buffer zone against nutrients, silt and other materials) which is only about 15 feet from the settling basin	**Part of the auxiliary basin which had been converted into play field due to dumping of material dredged out from the Lake**
	



Increase of habitations in major inlet catchment areas of Dal Lake were also seen in the **Satellite Images 4.25 and 4.26** from Google Earth Pro.

Yellow marked area shows increase in built-up at the major water inlet of the Lake	
Satellite Image 4.25 (September 2003)	**Satellite Image 4.26 (September 2021)**

- **De-weeding of Lake**

NLCP, inter alia, envisaged de-weeding first in late spring and thereafter during late summer. The exercise was to be carried out before flowering/ fruiting and formation of propagules in plants. Weeds were to be removed at a controlled rate of 40 to 50 *per cent* (maximum up to 75 *per cent*) of submerged vegetation. Some selected areas were to be left undisturbed for fish spawning and waterfowl feeding.

Test check of records revealed that ₹ 28.01 crore[28] was spent on de-weeding carried out through contractors and Departmentally by harvesting machines. The expenditure included ₹ 16.18 crore spent[29] during the months other than the months specified for de-weeding. Untimely de-weeding leads to re-growth of vegetation in the Lake.

Records of the Lake Division-I wing of LC&MA did not clearly depict whether controlled de-weeding by removing only 40 to 50 *per cent* (maximum up to 75 *per cent*) of submerged vegetation had been carried out, to leave out areas undisturbed for fish spawning and waterfowl feeding.

The Executive Engineer, Lake Division-I stated (June 2022) that the needful would be done.

H&UDD stated (December 2022) that selective manual de-weeding operations were carried out annually in specified areas, during specified periods and to the extent of specified percentage as per recommendations of NLCP. It was further stated that as

[28] ₹ 18.28 crore (2016-20) spent under NLCP and ₹ 9.73 crore (2020-22) spent under CAPEX.

[29] ₹ 13.22 crore spent under NLCP and ₹ 2.96 crore (2020-22) spent under CAPEX.

envisaged in the DPR, impact of de-weeding for periods prior to, ongoing and afterwards were regularly studied by R&M wing. It was also added that skimming and removal of floating material were taken up regularly to maintain aesthetics of the Lake and for navigation of *shikaras*.

The reply is not acceptable as no documentary evidence was provided to audit regarding any survey conducted for identification of locations for de-weeding, quantification of weed growth or determination of optimal months for de-weeding. Further, details regarding the percentage of weed removal, excluding areas for fish spawning, were also not furnished during audit.

- **Development of Shalimar Channel**

For maintenance of 941 m Shalimar Channel from which water enters Dal Lake and to restore its navigational routes for tourists visiting the Shalimar garden and stop flow of garbage and silt into the Lake, the BoD decided (July 2012) to carry out dredging and shoreline treatment of channel together with construction of pedestrian mall.

For development of Shalimar Channel, 13 works to be completed in one to three months were allotted[30] (between 2014-15 and 2018-19) to 10 contractors at a cost of ₹ 3.59 crore. As of September 2019, the LC&MA had spent ₹ 2.73 crore on construction of channel. Audit noticed that only 366 m channel[31] had been completed. There was no progress in execution of works in respect of 87 m channel[32] and physical progress in respect of works of 488 m channel ranged between 10 and 88 *per cent*. However, these works taken up during 2014-15 were damaged and had not been restored as of December 2022.

Thus, restoration of Shalimar Channel by way of dredging, shoreline treatment and construction of pedestrian mall could not be completed despite lapse of over seven years from the timeline fixed for completion of works. As a result, expenditure of ₹ 2.73 crore could not yield expected results and sediments from banks of the Lake continued to be deposited into the Lake thereby contributing to ageing of the Lake.

The Executive Engineer, Lake Division-1 stated (June 2022) that the damaged works would be allotted to contractors afresh for restoration and trash chambers/ silt retention basins would be constructed to stop flow of garbage and silt into the Lake.

H&UDD stated (December 2022) that some slope stability works including works of ornamental parapet walls on either side of the channels and dredging had been completed. It was further stated that remaining development works such as those related

30 Seven were allotted during 2014-15, one during 2017-18 and five during 2018-19.
31 From RD-615 mtr to 981 mtr.
32 RD- 289 mtr to 376 mtr.

to pedestrian mall, ornamental foot bridges and jetties are now being executed under Srinagar Smart City Ltd project, which would be completed in April 2023.

The reply should be seen in light of the fact that high siltation was noticed (March 2022) during joint physical verification of the channel.

Area marked in red indicates channel without any toe-walling and area marked in yellow is damaged toe-wall. Cow-dung dumped (marked in white) at the fringe of the Shalimar Channel and run-off from it finds it way in the Lake through the channel.

4.6.9 Increase in area of floating gardens/ land masses

The floating gardens are made of heaps of weed and mud extracted from the Lake. These are used by cultivators for growing vegetables. Besides, fertile marshy land masses formed in shallow areas of the Lake are also used by cultivators for growing vegetables and willow/ poplar trees. Increase in area of floating gardens reduces water expanse, and use of fertilisers therein deteriorates water quality of the Lake. Decrease in silt retention basin increases siltation in the Lake as the basin retains silt before water enters in the Lake.

A comparison of data of the Lake furnished by J&K, Remote Sensing Department for the year 2007 and year 2014 indicated expansion of floating gardens/ houseboats and decrease in silt retention basin as detailed in **Table 4.3, Charts 4.5 and 4.6**.

Table 4.3: Changes in silt retention basin and coverage of water body

Category	Area in hectares (ha)		
	2007	2014	Change (2014-2007)
Silt retention basin	11.43	11.35	(-) 0.08
Water body with houseboats	0.47	0.56	0.09
Water body with floating/ emergent vegetation	14.53	14.61	0.08
Water body with submerged vegetation/ open	21.20	21.30	0.10

(Source: data of EE&RSD)

Charts 4.5 and 4.6: Changes in silt retention basin and coverage of water body

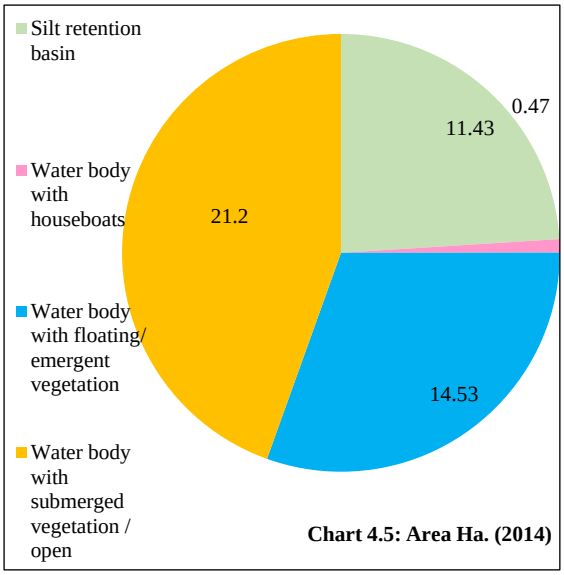


Chart 4.5: Area Ha. (2014)

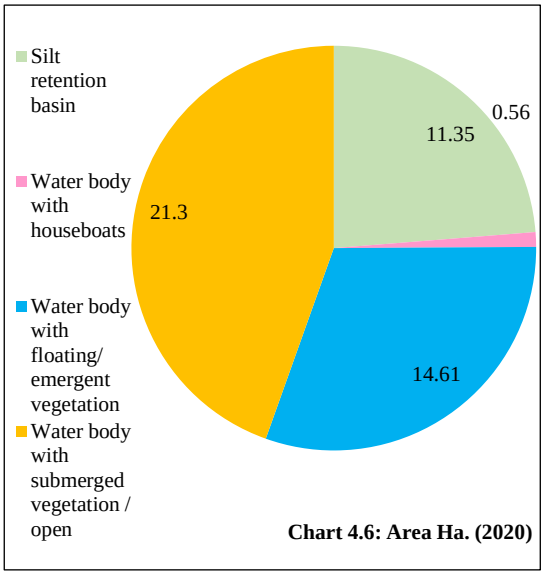

Chart 4.6: Area Ha. (2020)

H&UDD admitted (December 2022) that there was significant area under vegetation till 2020. They further added that the Department had launched a massive operation to check the proliferation of unwanted species and 4.8 sq.km. of area was cleared. It was further stated that dredging of detention ponds in the hinterland of Dal Lake to Northern Foreshore had been started to create more silt retention capacity and to increase its capacity to act as bio-filter for reducing influx of nutrients into the Lake.

4.6.10 Catchment Management Works

The lifeline of a Lake is its water sources. The catchment area of Dal Lake is spread over an area of 33,717 hectares. The Lake receives 80 *per cent* of its water budget from Tailbal *Nallah* and 18 *per cent* from small *nallahs* flowing from catchments on the other side of the Lake. To keep the Lake rejuvenated with substantial inflow of water from catchment areas, sediment/ sewage free inflow of water from catchment areas has to be ensured.

Audit observed that against 15 Micro Watershed Management Areas (MWMAs) identified in the DPR for Dal Lake, only four MWMAs[33] were sanctioned for Catchment Management Activities (CMAs) at a cost of ₹ 25.84 crore under NLCP.

Watershed Manager, LC&MA stated (June 2022) that the DPR of CMAs was unrealistic as no comprehensive survey was carried out by the firm which prepared DPR under NLCP. As a result, treatment of major 11 MWMAs (73 *per cent*) and major works of four catchment areas were missed under NLCP.

[33] Asthanpur, Saidpur, Hodura, and Bidan.

Further, against ₹ 25.84 crore earmarked for four MWMAs, ₹ 28.47 crore was spent[34] on structural, vegetative and livelihood improvement measures and on training/ evaluation and institutional strengthening.

Audit noticed the following shortcomings in catchment management works:

- **Structural Measures:** Structural measures included civil works for construction of retard gabion, stone walls and check dams in feeding *nallahs* of the Lake on which ₹ 13.31 crore was spent. Although physical achievement was 100 *per cent* in respect of four components, achievement ranged between 01 and 93 *per cent* in respect of five components[35].

- **Vegetative Measures:** Vegetative measures included afforestation, rejuvenation of degraded forests, pasture and horticulture development, trenching, fencing etc. ₹ 9.55 crore was spent for execution of these works. Physical achievement was 100 *per cent* in respect of four components, while it ranged between 20 and 86 *per cent* in respect of other four components. There was no progress in respect of three components despite allocation of ₹ 0.99 crore and in respect of two components no targets were set. ₹ 0.92 crore was spent on four works[36] which were not approved for catchment works. Although ₹ 5.24 crore was spent on plantation of 26.91 lakh saplings, no physical verification was carried out to ascertain survival/ mortality of plantations and maintenance of plantation was not ensured.

- **Improvement to Livelihood Strategies:** Under this component, ₹ 3.70 crore was approved for construction of water tanks and water trough for inhabitants of the catchment areas of the Lake. The component also included provision for carrying out entry point activity to provide thrift and credit facility to the local people. Against approved cost of ₹ 3.03 crore in respect of three components (water tanks, water trough and entry point activity), ₹ 4.02 crore was booked but ₹ 3.81 crore was actually spent (₹ 0.78 crore in excess of approved cost). ₹ 0.21 crore was diverted towards activities which were not part of livelihood strategies. Although ₹ 0.67 crore was allocated for thrift and credit facility meant for improvement of livelihood of inhabitants of the catchment areas, no expenditure was incurred on thrift and credit facility and ₹ 0.67 crore was diverted towards other activities.

- **Training and Evaluation:** ₹ 0.29 crore approved under the component included allocation of ₹ 0.13 crore in respect of training programmes for farmers to involve them in understanding their role in catchment farming. The component also included ₹ 0.16 crore for establishment of four gauge stations to monitor silt control in the catchment areas, and training programme for Watershed Development Teams

[34] ₹ 27.67 crore spent as on March 2015 plus ₹ 0.80 crore spent from April 2015 to March 2020.

[35] Contour stone wall, loose bold check dams, retard (lined), stabilisation of quarry and spur (gabion) hac.

[36] earthen contour bunding, earthen bag embankments, crib structures and brush wood check dam.

(WDTs) to look after watershed works and their maintenance. Against target of holding 200 training Programmes for farmers, only 13 training programmes (seven *per cent*) were held as of March 2022. Gauge stations were not established and WDTs were not constituted.

- **Institutional Strengthening:** ₹ 1.86 crore approved for Institutional Strengthening included provision for procurement of equipment, setting up GIS observatory/ silt monitoring system and establishment charges (including travelling expenses, purchase of vehicle and fuel). An expenditure of ₹ 1.56 crore was incurred on these purposes[37] except for GIS observatory and silt monitoring systems which had not been set up.

- Expenditure of ₹ 2.63 crore[38] was incurred in excess of allocation on catchment activities under NLCP.

Due to non-procurement/ establishment of gauge station and silt monitoring systems efficacy of catchment treatment works in arresting and bringing down the sediment load in the Lake could not be ascertained despite incurring expenditure of ₹ 28.47 crore on catchment activities. However, research reports detailed in ***Appendix-4.6***, indicated increase in nutrient and silt loads from catchment areas of the Lake which was one of the reasons for deterioration of water quality of the Lake. Audit analysed that shortfall in execution of activities was due to inadequate funding in the DPR under NLCP.

The Project Manager-Watershed stated (June 2022) that shortfall in achievement of targets was due to preparation of unrealistic DPR by the firm without conducting any survey to assess the problems in the catchment areas. The Project Manager added that for protection of water sources of the Lake, there was a need to get a comprehensive DPR for the entire catchment area prepared by a well-versed consultant/ firm.

H&UDD stated (December 2022) that cognisance had been taken regarding the audit observation in respect of non-procurement/ establishment of gauge station and silt monitoring systems. No specific reply was furnished by H&UDD in respect of the other observations.

- **Joint Inspection of catchment area**

During joint inspection of the catchment areas of Dal Lake conducted (03 March 2022) by the audit team with Watershed Management Team and officials of LC&MA, it was noticed that:

- There was shrinkage of *nallahs* due to encroachments.
- Plantation was being carried out by people on the fringes and inside *nallahs*.

[37] Procurement of equipment/ computer, expenditure on establishment charges, Travelling Allowance/ Daily Allowance, Petrol Oil and Lubricants and purchase of vehicle.

[38] ₹ 28.47 crore minus ₹ 25.84 crore.

- At four locations, *nallahs* were blocked by construction of roads by the Roads and Buildings (R&B) Department.
- A four-storey building was under construction on a wetland and the construction material was dumped into a *nallah*.
- There was siltation in *nallahs* and drains of households were flowing into *nallahs* and ultimately into the Lake.
- Heaps of garbage and cow dung were seen in the *nallahs* at various places.
- No dustbins and garbage lifting facility were seen around *nallahs*.

These factors led to deterioration in the water budget/ quality of the Lake. Photographic evidence is given below.

H&UDD stated (December 2022) that the reported illegal constructions which were influencing the topography of catchment area would be looked into through Enforcement Wing of LC&MA for appropriate action.

Toe walling of Tailbal *nallah* (a major source of water for Dal Lake) at Khawaja Colony done 25 feet inside the existing old toe wall resulting in shrinkage in the width of *nallah*

Extracted material dumped at the Lake fringe resulting in shrinkage of *nallah*

Huge private building under construction (without permission) in a *nallah* at Azad Colony, Batapora, from which water enters the Lake and construction material dumped into the *nallah*

Earth filling in Bata Khul and waste material dumped on fringe of *nallah*

Road constructed through *nallah* at Chatterhama, and cow dung dumped at the fringe of the nallah	**Road constructed through *nallah* at DFO Bagh**
Road constructed through *nallah* at DFO Bagh	**Check dams and road constructed through *nallah* at Chatterhama causing stoppage of water flow**
Road constructed through *nallah* without constructing culvert at Chatterhama	**Road constructed through *nallah* without constructing culvert at Chatterhama**
Width of Chatterhama *nallah* which was between 60 and 70 feet reduced to a width of 3-4 feet due to encroachment	**Sign board showing the road (constructed from Darbagh to Chatterhama) which passes through the *nallahs***

Illegal constructions at Saidpora (catchment area of the Dal Lake) 	**Illegal constructions at Saidpora (catchment area of the Dal Lake)**
Encroachment of Lake tributary at Mirza bagh colony 	**Illegal constructions at Saidpora (catchment area of the Dal Lake)**
Dumping of garbage at one of the *nallahs* at Chatterhama 	**Plantation being done in *nallah* at Saidnar**
Spot work done inside the Saidnar *nallah* thereby reducing the width of the *nallah* from 100-150 feet to 25 – 30 feet 	**Plantation done in the Maloori *nallah* near Saidpora bridge**

4.6.11 Installation of CCTV Surveillance

To stop illegal constructions along the periphery of the Dal Lake by responding faster to illegal transportation of construction material and to help in collection of evidence for such incidences, LC&MA proposed (December 2015) installation of 20 Closed Circuit Television (CCTV) cameras on poles along the Lake periphery and laying of 40 km of cable networking with a control room at a cost of ₹ 2.16 crore. For this purpose, ₹ 4.55 crore[39] was released (2017-22) by GoJ&K under CAPEX. The work for installation of CCTVs was allotted (April 2017) to a firm[40] at a cost of ₹ 1.62 crore. Terms and conditions of the contract stipulated that 90 *per cent* payment was to be made only after completion of installation work and the remaining 10 *per cent* of payment was to be made after commissioning of the project.

Against target of laying 40 km of cable, the firm laid only 19 km of cable and against requirement of installing 20 poles for cameras the firm installed only nine. However, payment of ₹ 0.46 crore was made (December 2017) to the firm in contravention of the contractual terms and conditions.

The work of providing power supply units to the CCTVs was allotted (January 2018) to a second firm at a cost of ₹ 0.10 crore. The second firm completed the work but only ₹ 0.06 crore was paid (June 2018) for the work. Thereafter, the second firm left the work and there was no further progress for about three years in laying of cable for remaining 21 km, establishment of control room and installation of the remaining cameras till May 2021. The work was re-allotted (June 2021) for which expenditure of ₹ 0.97 crore was incurred for completion of CCTV surveillance over already laid cable for 19 km in Phase-I and work stood completed. The control room had not been installed and capacity building by imparting training to officials of enforcement wing of LC&MA was not done.

Thus, surveillance against illegal construction and illegal transportation of construction material could not be ensured despite lapse of over seven years since CCTV surveillance project was proposed in December 2015.

H&UDD stated (December 2022) that the project under Phase-I including video wall and control room at dock yard has now been completed. It added that monitoring was being done through display units at Mechanical Division Dockyard and the process would be started during 2023 to cover the area from Dalgate to Habak under Phase-II.

The fact remains that despite lapse of seven years since the project was proposed in December 2015, Phase-II of the project under which vulnerable areas were to be covered, had not been completed.

[39] ₹ 70.00 lakh in 2017-18, ₹ 50.00 lakh in 2018-19, ₹ 60.00 lakh in 2019-20, ₹ 75.00 lakh in 2021-21 and ₹ 200.00 lakh in 2021-22

[40] M/s Ador Powertron limited

4.6.12 Relocation and Rehabilitation of Dal-dwellers

- **Under PMRP**

➢ GoI approved (February 2012) a Special Plan Assistance (SPA) of ₹ 356 crore under PMRP for payment of compensation in respect of acquisition of 14,992 *kanals* of land and 1,994 structures belonging to people living in and along the Dal Lake. These people were to be relocated to a place called Rakh-i-Arth in Bemina locality situated at a distance of six kilometers from the Lake.

The programme of SPA also envisaged purchase of dredging and allied machinery for dredging of acquired land masses to improve water quality, increase water expanse, aerate stagnant areas, prevent discharge of wastes and pollution of the Lake due to chemical and fertiliser usage for agricultural practices in the Lake. The project was to be completed within five years i.e. by (January 2017). ₹ 83.18 crore was released (February 2012) under SPA in the first phase. The programme could not be taken up till 2013 due to delay in release of funds at various levels[41].

As of December 2019, ₹ 63.73 crore was spent by LC&MA on acquisition of land and structures. Only 15 *per cent* land (2,299 *kanal* out of 14,992 *kanal*) and 16 *per cent*[42] structures had been acquired over a period of six years (2013-19). A total of 1,994 structures were targeted to be acquired in four phases. Out of 482 structures targeted to be acquired in phase-I, only 319 structures could be acquired.

Audit however noted that out of these 319 structures, 99 were acquired in first phase instead of the intended second (72), third (26) and fourth (1) phase. This indicated that acquisition of structures was done in an unplanned manner. In respect of 2,299 *kanal* of acquired land, no dredging was carried out for its reclamation to the Lake.

Failure of LC&MA in implementation of the project within the timeline of five years had resulted in non-release of funds of ₹ 272.82 crore from GoI under SPA, and degradation of the Lake continued due to discharge of wastes and chemical fertilisers by Lake dwellers into the Lake. Reasons for non-achievement of targets in the first phase as observed by audit were as follows:

- No meeting of the Board of Directors was convened by LC&MA during July 2012 to December 2015.
- The Collector wing of LC&MA lacked technical expertise due to which land compensation cases could not be settled during the period. There was delay ranging up to 42 months in execution of sale deed with the beneficiaries after their cases were decided by the High-Level Committee. There was also delay

[41] J&K Planning Department delayed release of funds to H&UDD by seven months which had further delayed releases in favour of LC&MA by three months. LC&MA also delayed release of funds to its implementing wing which ranged upto 24 months

[42] 319 out of 1,994 structures

ranging up to 82 months by LC&MA in taking possession of land for which compensation was paid and in making payments to the beneficiaries.

- Instead of holding full-fledged charge for a tenure of two years, the Vice Chairmen posted to LC&MA were holding additional charges[43] during April 2014 to July 2017.

H&UDD stated (December 2022) that structure owners whose cases were decided in HLC often resort to inordinate delays in execution of sale deed and completion of other formalities to seek additional plots or enhanced compensation. It added that since there was no provision of compulsory acquisition, no coercive measure could be taken by LC&MA to make Dal-dwellers comply with the decision/ instructions of the High-Level Committee.

The fact remains that the intended objective of relocating Dal Lake dwellers to Rakh-i-Arth could not be achieved despite lapse of over 10 years since launch of SPA in February 2012 as of March 2022.

➢ Audit also noted that out of 16 different dredging/ de-weeding machines costing ₹ 27.89 crore required to be purchased by LC&MA, only one machine was purchased (2018-19) for ₹ 0.50 crore.

The Executive Engineer, Lake Division-I stated (June 2022) that the slow pace of project work was due to demand for increase in land compensation by Dal dwellers who earn their livelihood from vegetables produced on the land proposed to be acquired. It was further stated that over time cost of compensation for land and structures to be acquired had escalated for which MoEF&CC expressed inability to provide for cost escalation.

H&UDD stated (December 2022) that considering the representation and demands of Dal dwellers who were reluctant to part with their properties as per existing rehabilitation scheme, LC&MA framed a revised DPR of ₹ 4,500 crore for acquisition of land, which was not approved. It was further stated that in a meeting of HLC and the Board, it was decided in principle to maintain status quo and a policy for the same was being framed.

The fact remains that the untreated sewage of Dal dwellers had continued to enter the Lake.

[43] 730 days {Mr. Shafat Noor Barlas (IAS) from 02.4.2014 to 22.7.2014 (112 days), Mr. Showkat Ahmad Zargar (KAS) from 15.10.2015 to 14.07.2016 (243 days) and Mr. Thaseen Mustafa 15.07.2016 to 24.07.2017 (375 days)}

- **Expenditure for Rehabilitation programme under CAPEX**

Rehabilitation programme under State plan envisaged resettlement of families residing inside the Lake on small islands and in the vicinity of Dal Lake by providing them with residential plots outside the Lake area.

The State Government initially approved (May 2001) the project for ₹ 135 crore which was revised from time to time. The project included land acquisition, development of plots, construction of roads, providing water and electricity, sewer networking and STPs and other basic amenities**.** Two sites were identified at Chandpora and Rakh-i-Arth for resettlement of concerned families.

Out of 1,132 *kanal* and 11 *marla* of land identified by LC&MA at Chandpora Srinagar, land measuring 581 *kanal* was acquired up to October 2003 at a cost of ₹ 8.32 crore. Since the land was falling in the green belt area of Srinagar Master Plan, it could not be developed into plots.

The State Government transferred (April 2006) land measuring 7,526 *kanal*[44] and seven *marla* at Rakh-i-Arth, Budgam to LC&MA for development of a colony. The colony was to be developed within five years at a cost of ₹ 402 crore. The land was falling within 10 km of a wildlife sanctuary for which environment clearance was to be obtained.

Audit observed that LC&MA had applied (September 2011) for environmental clearance after a lapse of over five years since transfer of land by the Government. Clearance was granted by the Government in July 2012. Thus, there was a delay of over six years in processing and obtaining of environmental clearance.

An amount of ₹ 62.07 crore was spent (March 2013) on acquisition of 3,390 *kanal* of land (₹ 16.37 crore) and on development of acquired land (₹ 45.70 crore). Due to delay in the rehabilitation process and inadequate funding, LC&MA submitted (June 2012) a revised DPR at a cost of ₹ 416.72 crore which was approved (March 2013) by GoJ&K with extended timeline for completion of rehabilitation process up to March 2018.

Against project cost of ₹ 416.72 crore, only ₹ 189.27 crore[45] was released and ₹ 181.90 crore was spent as of March 2022. The component wise physical and financial targets *vis-a-vis* achievements regarding rehabilitation of Dal-dwellers are detailed in **Table 4.4.**

[44] Including 50 *kanals* of proprietary land for which compensation at the rate of ₹ three lakh per *kanal* was to be paid and 7,050 *kanals* of land which was under occupation of *kamas* to whom compensation at the rate of ₹ 0.40 lakh per *kanal* was to be paid

[45] ₹ 164.27 crore ending March 2020 + ₹ 25 crore during 2020-21

Table: 4.4: Physical and financial targets *vis-à-vis* achievements regarding rehabilitation of Dal dwellers

Sl. No	Activity	Unit	Project Targets		Physical Achievement	Expenditure Incurred (₹ in crore)	Percentage of Physical Achievement
			Physical	Financial (₹ in crore)			
1.	Land acquisition	*Kanals*	7,050	29.50	5,632.00	23.03	80
2.	Earth filling	lakh cum	21.5	140.96	18.71	62.46	87
3.	Housing units	No.	10,600	111.30	485.00	3.07	5
4.	Development of Roads	Kms	82.5	82.41	23.10	29.63	28
5.	Laying of Sewerage Network	Kms	36.76	20.70	22.79	43.15	62
6.	Construction of Park	No.	26	2.44	4.00	0.67	15
7.	Electric & Water Supply	No.	84.5	40.01	Nil	11.63	Nil
8.	Solid Waste Management/ Environment Impact Assessment / Contingency	Job	3	17.29	Nil	8.24	Nil
	Total					**181.88**	

(Source: records of LC&MA)

It may be seen from the **Table 4.4** that although LC&MA acquired 80 *per cent* of land, only 485 housing units constituting five *per cent* of the target were developed. Further, the physical progress of electric and water supply as well as Solid Waste Management/ Environment Impact Assessment / Contingency was found to be nil.

Further, out of total earth works, earth filling of 21.5 lakh cum comprised 16 works for development of plots which were allotted (2012-14) to three contractors at a cost of ₹ 8.25 crore. After spending ₹ 5.27 crore, physical progress of works ranged between 20 and 80 *per cent*. As of March 2022, the works had remained abandoned for over six years resulting in unfruitful expenditure of ₹ 5.27 crore as sections 1-7 of bay 16 at Rakh-i-Arth could not be developed as plots for allotment to Dal dwellers. Neither reasons for abandoning of 16 works by the contractors nor documents regarding re-tendering/ re-construction of these works were provided to audit.

Against the target of acquiring 1,994 structures, only 319 (16 *per cent*) were acquired as of December 2022.

Inadequate funding, delay in obtaining environmental clearance and inadequate monitoring by the BoD resulted in delay in rehabilitation of 84 *per cent*[46] of Lake

[46] 319/1,994 structures

dwellers. As a result, Conservation and Management of Dal Lake got hampered as sewage generated by dwellers continued to be discharged into the Lake body.

H&UDD stated (December 2022) that LC&MA would prepare revised DPR of Phase-I of Rakh-i-Arth housing colony which would be complete in all respects. Regarding abandonment of 16 works, it was stated that these works were abandoned due to land dispute.

4.7 Other programme activities

LC&MA had not carried out studies to evaluate the impact of conditions in the catchment area of the Lake on Lake ecosystem. Impact of inflow of nutrients into the Lake was not monitored. Bathymetric survey was not carried out to evaluate impact of sediment inflow into the Lake. Water budget of the Lake had not been measured. Flushing of Lake was not done as per prescribed mechanism. Assessment of biodiversity of the Lake was not made for monitoring the ecosystem of the Lake. Study of seed bank to understand vegetative history of the Lake was not carried out. Rate of sedimentation in the Lake was not gauged to ascertain expected life of the Lake and interconnected Lakes of Anchar and Gilsar had remained without any conservation programme

4.7.1 Research studies in Catchment Area

NLCP envisaged study of various aspects of the Lake ecosystem including geological/ hydrological study of catchment area of the Lake and Lake bed, impact of snowfall/ rainfall on temporal discharge, behavior of ground water movement from catchment area and impact of drains flowing into the Lake.

Audit observed that no such study was carried out by LC&MA. In absence of study of catchment area, the impact of conditions in catchment area on the Lake ecosystem could not be evaluated.

Audit had highlighted presence of heavy metals like manganese, copper, lead, nickel, cadmium and arsenic which were far above permissible limits in the Lake in **Paragraph 3.2.10.5** of the CAG's Audit Report of Jammu and Kashmir for the year ended March 2006. Thereafter, LC&MA had not carried out any tests for detection of heavy metals in the Lake and its impact on aquatic life/ food chain as of March 2022.

Concentration of heavy metals in the Lake water results in high level of these elements in aquatic life such as fish which are being consumed by the humans at the top of the food chain. Pathological effects of these elements can cause damage to brain, liver and kidney.

H&UDD stated (December 2022) that it has decided to hire consultants from relevant fields to carry out studies in the catchment area and in this regard the matter had been taken up with Kashmir University and National Institute of Technology, Srinagar.

4.7.2 Nutrient load monitoring

Dal Lake receives large quantity of nitrogen and phosphorus from Dachigam *nallah*, Dara *nallah* and high altitude Marsar Lake. These snow-fed *nallahs* join to form Tailbal *nallah* which enters the Lake at the northern shore. Phosphorus and nitrogen promote prolific growth of weeds which results into retrogressive change in the ecosystem and reduction in open water area of the Lake.

As per data in the DPR approved (1998-99) under NLCP, total phosphorus inflow into the Lake was about 156.62 tons and outflow from the Lake was 80.62 tons. Inflow of organic nitrogen was 241.18 tons whereas outflow was 109.22 tons. Thus, 76 tons of phosphorus and 131.96 tons of inorganic nitrogen were entrapped within the Lake system.

Audit noticed that after 1998-99, inflow of phosphorous and nitrogen into the Lake and its impact on ecosystem of the Lake and on growth of weed and open water area of the Lake was not monitored.

H&UDD stated (December 2022) that nutrient load of nearly 50 sites was being monitored by scientists of Research and Monitoring wing of the LC&MA on a monthly basis and quarterly health report cards were issued.

The reply is not convincing as no monitoring reports with data of nutrients was provided in support of the reply.

4.7.3 Hydrology and water balance studies

Bathymetric study to measure underwater features[47] and rate of sedimentation of Dal Lake was carried out by IIT, Roorkee in October 2000. Although LC&MA had got Bathymetric survey conducted in 2018-19, the survey was not comprehensive as it did not indicate quantum of silt deposited and rate of sedimentation in the Lake. Thereafter, no such comprehensive survey was undertaken by LC&MA as of March 2022. Consequently, the impact of NLCP on sediment inflow into the Lake, water volume and depth of Lake could not be evaluated.

H&UDD stated (December 2022) that bathymetric survey of the Lake carried out by Indian Navy indicated the depth of the water body and identified the locations for dredging.

[47] Mean water level, minimum/ maximum/ average depth, minimum/ maximum/ average water of the Lake.

The reply should be seen in light of the fact that bathymetric report annexed with the reply does not indicate locations and quantum of silt deposited in the Lake and its catchment area.

4.7.3.1 Water budget of the Lake

For maintaining the water budget of the Lake, water inflow into and outflow from the Lake was needed to be measured for providing scientific basis for validation of other water balance studies.

Audit noticed that after measuring water budget up to 1998-99, LC&MA had not carried out any further measurement of water budget though it was provided for in the approved DPR of NLCP. As a result, decrease, increase, uniformity in the water budget of the Lake could not be determined by LC&MA.

H&UDD stated (December 2022) that water budget of the Lake was being regularly monitored by scientists of R&M wing of LC&MA.

The reply is not convincing as no monitoring reports with data regarding water budget was provided in support of the reply.

4.7.3.2 Flushing of the Lake

Flushing of a Lake means reducing the pollution by clean inflow of water with an equivalent outflow of polluted water. In the process, the clean water both displaces and mixes with the polluted water. Flushing of the Lake has to be done to ensure re-circulation of Lake water. Flushing rates of Dal Lake were to be worked out by dividing total outflow by average Lake capacity of 15 million cum as was laid in the approved DPR under NLCP.

Audit observed that this system had not been adopted for flushing of the Lake. The water outflow of the Lake was carried out without any laid down mechanism through three gates (two at Dal gate and one at Brari-Numbal) where crest level/ scale had been installed. No crest level/ scale was installed at the fourth outlet at Amir Khan *nallah*. Although the three outlets located at distant places from one another were required to be simultaneously controlled, audit noted that the outlets were manually and concurrently operated by only two persons casting doubt over the authenticity of the manual readings recorded in the log books of these outlets.

The Executive Engineer, Lake Division-I stated (June 2022) that the matter would be looked into and necessary action would be taken.

H&UDD stated (December 2022) that the water level of the Lake was being regulated by four outlet gates and flushing of discharge at outlet gates was being done strictly as per quantum of water inflow from sources of the Lake. It was further stated that water

level in Dal Lake was being maintained at 1,583.43 meters above sea level, and that any excess flow received from inflow channels was being flushed out from outlet gates.

The reply was silent regarding the audit concerns raised about the fact that the outlets were manually and concurrently operated by only two persons casting doubt over the authenticity of manual readings recorded in respect of these outlets.

4.7.4 Biodiversity in the Lake Ecosystem

DPR approved under NLCP envisaged the need for planned assessment of biodiversity of the Lake including preparation of species inventory and distribution pattern of species, identification of fugitive species, study of native and introduced populations, individual studies on invasive species and their impacts on native flora and fauna and identification of rare/ endangered species.

Audit observed that as of March 2022, no assessment of biodiversity of the Lake was made by LC&MA to monitor its ecosystem.

H&UDD stated (December 2022) that assessment of biodiversity was being done on a monthly basis and findings of these studies were included in the annual reports of LC&MA.

The reply is not acceptable as no monthly reports of assessment done in respect of biodiversity and annual reports were furnished to audit nor were these documents annexed with the reply.

4.7.4.1 Seed bank inventory

To understand vegetative history of the Lake and to explore possible restoration measures involving renewal of seed bank, a study of seed bank was to be carried out as per approved DPR under NLCP. Permissible limits of aquatic weeds were to be gauged and the Lake area was to be monitored and managed accordingly. Besides, the negative impact of excessive propagation of economically important plants was to be investigated for stability of the Lake's ecosystem.

Audit observed that as of March 2022, study of seed bank to understand vegetative history of the Lake was not carried out and permissible limits of aquatic weeds in the Lake were not gauged. Negative impact of excessive propagation of plants also was not investigated.

H&UDD admitted (December 2022) that no such study was conducted, since it was a research based study and infrastructure of LC&MA did not support such elaborate and extensive studies. It was further stated that LC&MA would consider and place the proposal before the Administrative Department for undertaking such a study.

4.7.5 Assessment of life expectancy of Lake

Expected life of a Lake is estimated by bathymetric study which measures underwater features of a water body and determines the rate of sedimentation therein. The Dal Lake has four basins of Hazratbal, Bod-dal, Gagribal and Nigeen.

Audit noticed that during implementation of NLCP, no survey was conducted in any of the four basins of the Dal Lake to gauge the rate of sedimentation to assess increase/ decrease in expected life of the Lake. As a result, impact of implementation of Conservation and Management Programme in overcoming ageing of the Lake by reducing sedimentation rate in the Lake was not ascertainable.

H&UDD stated (December 2022) that as per study conducted by Roorkee University, due to construction of settling basin in 1989, sedimentation rate in Hazratbal sub-basin had reduced considerably after 1986-87 as compared to the year 1963-64. It was further stated that LC&MA had carried out many works both in the catchment area as well as in the inflow channels to reduce further silt load from entering the Lake and dredging of settling basin to increase its efficiency was also in progress.

The reply does not address the specific audit observation regarding survey, which had not been conducted during implementation of NLCP to gauge the rate of sedimentation in the Lake and to determine the expected life of the Lake.

4.7.6 Conservation and Management Programme for interconnected water bodies

Interconnected Lakes of Anchar and Gilsar act as exit channels for outflow of water from Dal Lake. These two water bodies are essential for sustenance of the ecosystem of Dal Lake. The two water bodies were handed over by Revenue Department of GoJ&K to LC&MA between November 2002 and April 2003. Over time there has been reduction in the expanse of Anchar and Gilsar Lakes and water quality of these Lakes has also deteriorated due to encroachment and earth filling. Solid waste generated by inhabitants of shoreline areas of these water bodies also finds its way into these water bodies.

LC&MA prepared a Pre-Feasibility Report (PFR) for restoration and conservation of Anchar and Gilsar Lakes at a cost of ₹ five crore and submitted (June 2004) it to the H&UDD. Tenders invited (August 2005) for preparation of the project report could not be finalised by H&UDD. Centre and State coordination and monitoring committee[48] suggested (January 2007) a conservation programme for water bodies of Anchar, Gilsar and Khushal Sar through Department of Wetlands, MoEF&CC.

[48] Constituted by MoEF&CC for Conservation and Management of Dal Lake under NLCP.

Audit observed that no action had been taken by LC&MA up to May 2013 despite lapse of over seven years.

For restoration of these water bodies, LC&MA took up matter (June 2013) with MoEF&CC which conveyed (March 2014) that the proposal be submitted after finalisation of Guidelines in respect of National Plan for Conservation of Aquatic Ecosystem (NPCA). No action was taken by LC&MA up to August 2017.

LC&MA submitted (September 2017) a revised PFR with a cost of ₹ 100 crore to the Economic Reconstruction Agency (ERA) for funding by Asian Development Bank. As of March 2022, there was no further progress.

GoJ&K released (2016-18) ₹ 1.40 crore to LC&MA for preparation of project report for Conservation and Management of Anchar and Gilsar water bodies. LC&MA spent ₹ 0.34 crore on Electronic Total Station (ETS)[49]. No further action was taken for preparation of the project report resulting in blockage of ₹ 1.06 crore for over two years.

Thus, these two Lakes remained without any conservation programme for over 17 years since they were handed over to LC&MA.

Audit also observed that:

- Wet land and land under plantation/ paddy of Anchar and Gilsar Lakes measuring 6,261 *kanal* had neither been demarcated by boundary pillars nor included in asset records by LC&MA.
- Work for installation of ETS was allotted (January 2018) to M/s Sky Tech Engineers without inviting tenders.

The Executive Engineer (EE) admitted (June 2022) that there was no progress in the Conservation & Management of these two Lakes though these Lakes were directly or indirectly associated with Dal Lake. EE added that demarcation of the Lakes and maintaining of asset records would be done.

H&UDD stated (December 2022) that the Conservation and Management of Gilsar and Anchar water bodies had not been formally assigned to LC&MA. It added that conservation of these Lakes had been handed over to Srinagar Municipal Corporation (SMC)/ Irrigation & Flood Control Department (I&FCD) under AMRUT 2.0.

The reply is not satisfactory as Commissioner Secretary to Government, H&UDD had informed (2004) Vice Chairman, LC&MA that the latter was responsible for maintenance of these two Lakes. Moreover, the reply should be considered in light of the fact that H&UDD had released (2016-18) ₹ 1.40 crore to LC&MA for preparation of project report for Conservation and Management of Anchar and Gilsar water bodies,

[49] It is an electronic/optical instrument used for surveying and building construction.

which was not prepared. Further, the assertion of Department that these Lakes had been handed over to SMC and I&FCD under AMRUT 2.0 is not based on fact as only a few developmental measures concerning these Lakes are being carried out under AMRUT 2.0 and the Lakes remain in the custody of LC&MA.

4.8 Public Awareness

A field office had not been set up for creating public awareness to give boost to Tourism industry and a website for dissemination of information to tourists was not developed.

An amount of ₹ 5.41 crore was sanctioned under NLCP for creating public awareness about objectives of conservation of the Lake including steps taken by Government and other agencies for boosting the Tourism industry. A *Doonga* Boat[50] was to be used as field office for "Awareness Campaign Plan" and a website for dissemination of information to tourists was to be developed at an estimated cost of ₹ 0.75 crore.

Audit examination disclosed the following deficiencies:

- Although an amount of ₹ 1.39 crore was spent on activities relating to public awareness as of March 2022, no records detailing activity-wise targets/ achievements and monitoring reports were maintained.
- Out of expenditure of ₹ 0.41 crore incurred between April 2014 and March 2020, ₹ 0.26 crore was spent on activities not connected with public awareness such as advertisement of tenders, travelling expenses, hiring of taxis, refreshments etc.
- Only ₹ 0.11 crore was spent on public awareness and voucher details were not available in respect of expenditure of ₹ four lakh.
- No *Doonga* Boat and the requisite website for dissemination of information was created. Besides, ₹ 4.02 crore remained unutilised as of December 2022.

The Executive Engineer, Lake Division-I stated (June 2022) that due to time and cost overrun of components of public awareness, the NLCP funds got exhausted as such office could not be established in a *Doonga* Boat and website could not be created.

H&UDD stated (December 2022) that LC&MA had reached out to the general public through print, electronic and social media for creating mass awareness and had launched cleanliness drives in and around Lake through active participation of students, NGOs, public representatives etc. It was further stated that the website had been created and was being updated regularly. It added that *Doonga* boat was not required as two

[50] *Doonga* is a type of houseboat where many families live in Srinagar. The *Doonga* boat can also be used for various other purposes.

main offices entrusted with awareness programmes were located near the shoreline itself.

The reply was silent about diversion of ₹ 0.26 crore towards activities not connected with public awareness. Further, as per the DPR, the field office was to be established in a *Doonga* boat, which was not done.

4.9 Manpower Management

For effective implementation of Conservation and Management programme of Dal Lake, five Directors had not been appointed and Information Technology/ Management Information System/ Planning wings had not been created in LC&MA.

For effective implementation of Conservation and Management programme of Dal Lake, five Directors were projected for appointment under NLCP. Wings of Information Technology/ Management Information System and Planning were also to be created. Audit noted that Directors had not been appointed in LC&MA and Information Technology/ Management Information System/ Planning wings had not been created in LC&MA as of December 2022. The laboratory of LC&MA had remained without a Manager and Environment Engineer. Besides, three Assistant Directors were also not appointed in the wings of Rehabilitation, Regulation and Enforcement.

As per Government policy regarding posting of employees, a Government employee shall be posted on a post for a minimum tenure of two years and maximum of three years. In respect of important projects required to be completed in a time bound manner, maximum extension of five years can be granted.

Audit observed that the policy had not been followed in respect of LC&MA during April 2014 to March 2020, as out of seven regular Vice-Chairmen, five had tenures ranging between one and five months and two had tenure of about one year each. Besides, five Vice-Chairmen had additional charge of LC&MA for about three years.

H&UDD stated (December 2022) that it had already submitted a re-organisation plan approved by BoD to the Government and Finance Department had been requested by LC&MA to expedite the process of approval of the plan. The reply was silent about non-adherence to the Government policy regarding posting of Vice-Chairman in LC&MA.

4.10 Accounting Deficiencies

In terms of Section 21 of the Jammu and Kashmir Development Act, 1970, LC&MA is required to prepare annual accounts including balance sheet in consultation with the Government appointed auditor who should certify these accounts for forwarding to the Government which in turn has to lay them before both houses of the Legislature.

Audit noticed that LC&MA had not prepared annual accounts including balance sheet since its creation. Thus, the true picture of assets and liabilities of the authority was not known.

The Financial Advisor & Chief Accounts Officer stated (June 2022) that the process for appointment of CA to prepare the Annual Accounts is underway.

4.11 Monitoring Mechanism

Due to non-holding of required meetings by the statutory bodies such as Project Coordination-cum-Monitoring Committee, Board of Directors, Scientific Advisory Committee and High-Level Committee, there were inadequacies in monitoring mechanism for implementation of programmes for Conservation and Management of Lake.

For proper implementation of NLCP, PMRP and other programmes, the monitoring mechanism should have been efficient and effective so that objectives of Conservation and Management of the Lake were attained fully and within time. However, Audit noticed the following inadequacies in the monitoring mechanism for implementation of programmes for Conservation and Management of Dal Lake.

• Coordination-cum-Monitoring Committee (CMC)

To monitor and evaluate the work done under NLCP, Coordination-cum-Monitoring Committee (CMC) was constituted in June 2006. CMC, headed by Chief Secretary of Jammu and Kashmir with 16 members (eight from State Government, six from GoI and one each from two renowned universities), was required to meet quarterly. The first meeting scheduled to be held in September 2006, was held in January 2007 with only nine members. The second meeting held (January 2015) after a gap of eight years was attended by eight members from the State Government. No meeting was convened thereafter.

H&UDD stated (December 2022) that considering its size and status, the CMC had met as and when required.

The reply is not acceptable as according to the fund sanction order of NLCP, the CMC was required to meet quarterly.

• Board of Directors (BoD)

Against the requirement of meeting 56 times since launch of NLCP, the BoD had met only 23 times up to September 2019. Only four meetings were held between January 2015 and March 2022.

H&UDD stated (December 2022) that meetings of BoD were subject to requirement and as of August 2022, BoD had conducted 25 meetings.

The reply is not satisfactory as BoD itself had decided to meet more frequently and preferably every three months.

- **Monitoring Committee (MC)**

To monitor and oversee the mechanism for preserving and protecting the Lake, the State Government constituted (April 2016) the Monitoring Committee after a lapse of over 10 years from launch of NLCP.

Audit noted that frequency of meetings to be held by the MC during a year was not prescribed by the Government. As of March 2019, though the MC had met 17 times, no follow up action was taken in respect of issues discussed in the meetings.

H&UDD stated (December 2022) that Hon'ble High Court had disbanded (April 2021) all existing committees.

The reply is not satisfactory as the audit observation pertains to the period before April 2021.

- **Scientific Advisory Committee (SAC)**

To give scientific guidance for Conservation and Management of the Lake in various matters including aquatic ecology, hydrology and watershed management, Scientific Advisory Committee (SAC) was constituted (prior to 2012) by the Government.

Audit noticed that the SAC had not been reconstituted till November 2016 after expiry of its tenure in June 2012. The Committee had met only eight times falling short of requirement of quarterly meetings per year.

H&UDD stated (December 2022) that SAC had met on multiple occasions and its meetings were subject to availability of members.

The reply is not convincing as Government Order (November 2016) had envisaged that SAC will conduct quarterly meetings.

4.12 Impact Assessment

GoJ&K had not appointed Third Party Inspectors resulting in non-monitoring of performance of NLCP launched for Conservation and Management of Dal Lake.

Impact evaluation helps to demonstrate success or failure of a programme and provides accountability to all stakeholders. Besides, it provides evidence to make informed decisions for redesigning the current programme or for planning future interventions. However, Audit noticed as follows:

To monitor performance of NLCP, MoEF&CC accorded (December 2010) approval for conducting Third Party Inspection (TPI). TPI was to cover construction, commissioning, trial run and post-construction phases of the projects undertaken. The expenditure incurred on TPI was to be reimbursed by MoEF&CC against claims submitted by GoJ&K.

Audit noticed that as of March 2022, GoJ&K had not appointed TPI despite lapse of over nine years since approval for appointment of TPI was accorded by GoI. Thus, performance of NLCP launched for Conservation and Management of Dal Lake could

not be monitored by TPI and ₹ 1.50 crore released (March 2016) by GoJ&K to LC&MA for engagement of TPI also remained unutilised as of March 2022.

H&UDD stated (December 2022) that instead of TPI, LC&MA had utilised the services of experts from National Environmental Engineering Research Institute (NEERI), IIT Roorkee and Committee of Experts.

The reply is not satisfactory as approval for engagement of TPI was accorded by MoEF&CC and services of NEERI, IIT Roorkee and Committee of Experts did not form part of TPI.

4.13 Research carried out by scholars of various universities

Conclusions and suggestions of research reports were not taken into consideration by LC&MA for taking corrective measures in respect of Conservation and Management of Dal Lake.

Management of Lakes calls for continuous research to address the drivers of change in the Lake.

Audit noticed that LC&MA had not got research carried out to evaluate water quality of Dal Lake and to determine fishes and water bird population in the Lake. Dis-appearance of native species and invasion of noxious species, if any, due to heavy inflow of silt, sewage into Lake from its catchment area had also not been assessed. However, research carried out by scholars of various universities (Themes of research papers and conclusions/ suggestions of authors are detailed in ***Appendix-4.6*** indicated that the health of Lake had deteriorated due to factors detailed below:

- There was increase in nutrient and silt load in the catchment of the Lake.
- There was an increase in cases of encroachment in and around the Lake and increase in tourist influx.
- STPs were malfunctioning.
- Proposals of consultants were faulty.
- Sewerage system around the Lake including that of houseboats was incomplete.
- There was an increase in human settlements, within and around the Lake, discharging solid waste and sewage into the Lake.

Audit noted that LC&MA had not taken conclusions and suggestions of research outputs into consideration for taking corrective measures in respect of Conservation and Management of Dal Lake.

H&UDD stated (December 2022) that Research and Monitoring Division of LC&MA was conducting physico-chemical analysis of the Lake on a monthly basis and data so generated was being used for evaluation of anthropogenic pressures on the Lake. It added that STPs had been refurbished and were functioning as per Central Pollution Control Board norms and bird population was not monitored as LC&MA lacked technical manpower for doing the same. It was further stated that findings of studies referred by Audit were contrary to results observed by R&M wing.

The reply is not convincing as observations pointed out by Audit are based on independent researches carried out by scholars. Besides, no documentary evidence supporting the Department's assertion, that findings of studies referred by Audit were contrary to the results observed by R&M wing, was provided to Audit.

4.14 Conclusion

There were land use changes in Dal Lake due to non-acquisition of land from Dal dwellers, malfunctioning of STPs, improper de-weeding mechanism and inadequate monitoring and surveillance mechanism. Consequently, open water area in the Lake could not be restored. There were inadequacies in implementation of Lake conservation programmes under NLCP, PMRP and other programme activities such as installation and upgradation of Sewage Treatment Plants (STPs), treatment of solid waste, extracted weed and sludge as well as providing sewage disposal facilities of households and sewer networking of *mohallas*. Inadequacies were also noticed in relocation and alignment of houseboats, shifting of hotels, augmentation of water budget of the Lake, restoration and development works, catchment management works and relocation/ rehabilitation of Dal-dwellers.

4.15 Recommendations

- ***Changes in the area under water in respect of Dal Lake need to be attended to and monitored periodically.***
- ***Robust Lake management policy should be in place to ensure effective functioning and upgradation of Sewage Treatment Plants and proper treatment of sewage and solid waste.***
- ***LC&MA should prioritise and expedite various tasks such as providing sewage disposal facilities to households, establishing sewer networking of mohallas, relocating and aligning of houseboats, shifting of hotels, augmenting water budget of the Lake, implementing restoration and development works, catchment management works and relocating or rehabilitating Dal dwellers.***
- ***Public awareness programmes should be launched to prevent unauthorised constructions in Lake and change in Lake use area.***
- ***Impact of inflow of nutrients into the Lake need to be monitored by LC&MA.***

Chapter-V

Conservation and Management of Wular Lake

Chapter-V

Conservation and Management of Wular Lake

5.1 Introduction

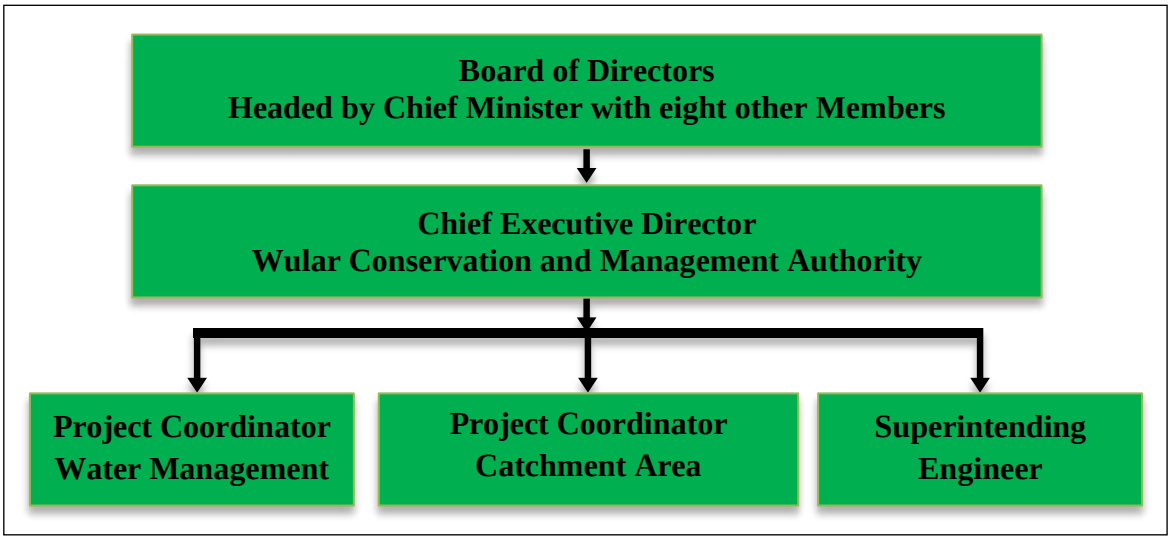
Wular Lake is located in the north-west of Kashmir at a distance of about 35 km from Srinagar. It is the largest freshwater Lake in India. Floating vegetation of the Lake provides fodder for domestic livestock and the Lake also contributes 60 *per cent* of fish production to the fishing industry of Jammu and Kashmir. Lake water is useful for irrigation and domestic needs. The Lake is largely shallow, with a maximum depth of 5.8 meters.

For implementation of Comprehensive Management Action Plan (CMAP) for Wular Lake, Wular Conservation and Management Authority (WUCMA) was established in September 2012 under Section 4 of the Jammu and Kashmir Development Act, 1970.

5.2 Organisational Setup

The Administrative control of the Wular Conservation and Management Authority (WUCMA) vests with Commissioner/ Secretary to the Government, Forest, Ecology and Environment Department, Jammu and Kashmir. The organisational setup of WUCMA is detailed in **Chart 5.1**:

Chart 5.1: Organisational setup of WUCMA



5.3 Establishment of Wular Conservation and Management Authority

There was a delay of over five years in implementation of Conservation and Management Programme of Wular Lake. Governing Body, Steering Committee and a Project Implementing Committee were not constituted. Statutory Body, constituted after a delay of five years, had not held any meeting. In the absence of the Governing Body, Steering Committee, Project Implementing Committee and non-holding of meetings by Statutory Body, Conservation and Management Programme of the Lake suffered as policy matters of Wular Conservation and Management Authority could not be decided.

- CMAP was prepared by M/s Wetlands International in June 2007 on behalf of J&K Wildlife Protection Department. For evaluation of CMAP, a technical committee was constituted (February 2010) by the Forest Department after about three years, which submitted the report in June 2010. For implementation of the Project, WUCMA was established in September 2012 under Section 4 of the Jammu and Kashmir Development Act, 1970 after a delay of over five years since preparation of CMAP. Thus, there was a delay of over five years between preparation of CMAP in June 2007 and establishment of WUCMA in September 2012. This in turn delayed the implementation of Conservation and Management Programme of Wular Lake.

- For running affairs of WUCMA and for providing overall guidance regarding Project implementation in respect of CMAP, Governing Body (GB), Steering Committee (SC), Project Implementing Committee (PIC) and Statutory Body (SB) were to be constituted. GB was to be constituted under the Chairmanship of Chief Minister/ Chief Secretary with 19 members, SC for overall guidance relating to implementation of projects and PIC having senior staff from WUCMA and other concerned Departments,

Audit noticed that no GB, SC and PIC were constituted as of December 2022. Although SB was constituted in September 2012, no meetings of SB were held as of December 2022.

- After the establishment of WUCMA, the Government did not create posts for the Authority. However, 41 officers/ officials were working in WUCMA on deputation from other Departments. Four out of five Chief Executive Directors (CED) held additional charge whereas one Chief Executive Director was deputed to the Authority for only 14 months. Two officers deputed to WUCMA held additional charge of Coordinator, Water Management and Assistant Engineer.

Although it was decided (October 2019) by the Chief Secretary in a review meeting that WUCMA would submit a proposal regarding requirement of staff, no action in this regard was taken as of March 2022. Thus, laxity in staff deployment continued in WUCMA despite lapse of over nine years since its establishment in September 2012.

In absence of key decision making bodies such as GB, SC and PIC and non-holding of meetings by the SB, Conservation and Management Programme of the Lake suffered as policy matters of WUCMA could not be decided and implemented promptly resulting in:

- Laxity in deployment of staff,
- Delay in the implementation of activities laid down under CMAP, and
- Delay in tendering and finalisation of contracts for consultancy services necessary for formulation of Comprehensive Conservation and Management Plan (CCMP) and preparation of DPR for the Lake as discussed in succeeding Paragraphs of this report.

5.4 Land use changes within the Lake and its catchment

5.4.1 Analysis of remote sensing data of EE&RSD to ascertain land use changes in the Lake
