The Commission is a body corporate and comprises one member who is appointed by the State Government. The audit of accounts of the Commission has been entrusted to CAG under Section 104 (2) of the Electricity Act, 2003. The Commission had not finalised its first accounts so far (30 September 2005).

* Since replaced by the Electricity Act, 2003.

Impact of Government policies in the State in regard to Power Sector

1.20 The State power sector is largely represented by the Assam State Electricity Board (ASEB), which is responsible for generation, transmission and distribution of power in the State. As on 1 April 1998, the ASEB had four thermal (533.50 MW) and two mobile gas turbine (18.90 MW) power stations in the State. One 20 MW unit was added to Lakwa Thermal Power Station (LTPS) in May 1999 increasing the total installed capacity of thermal power generation to 572.40 MW. Two gas turbine power stations (18.90 MW) and two Thermal Power Stations, *namely*, 60 MW Chandrapur Thermal Power Station (CTPS) and 240 MW Bongaigaon Thermal Power Station (BTPS) were shutdown in March 2000 and March 2002 respectively. Thus, as on March 2005, with de-rating (July 2002) of Namrup Thermal Power Station (NTPS) from 133.50 MW to 113 MW, the ASEB's available generating capacity was only 233 MW.

1.21 The Chief Ministers' conferences held in October and December 1996 recommended a Common Minimum National Action Plan for Power (CMNAP) for improving the operational and financial performance of the State Electricity Boards within a definite time frame. In February 1997, the State Cabinet accepted the CMNAP, in principle, and as a follow-up action, an Operational and Financial Action Plan (OFAP) was formulated and accepted by the State Cabinet in November 1997 and since then the OFAP was under implementation by the State Electricity Board.

The operational and financial performance in respect of ASEB, however, recorded a downward slide as would be seen from the following table:

Sl. No.	Particulars	1998-99	2003-04
(i)	Net power generated (MU)	855.02	677.20
(ii)	Plant load factor (percentage)	19.13	16.75
(iii)	Power purchased (MU)	1,977.75	2,616.60
(iv)	Percentage of power purchased to total units available	69.82	79.44
(v)	Power available for sale	2,832.77	3,293.80
(vi)	Power sold	1,752.89	2,098.59
(vii)	T&D loss	1,079.88	1,195.21
(viii)	Percentage of T&D losses	38.12	36.29
(ix)	Operational loss (Rupees in crore)		
	For the year	549.77	655.48
	Cumulative	2,428.85	4,693.41

While power generation decreased from 855.02 MU in 1998-99 to 677.20 MU in 2003-2004, the power purchased increased from 1,977.75 MU to 2,616.60 MU over the same period. Plant load factor decreased from 19.13 *per cent* in 1998-99 to 16.75 *per cent* in 2003-04 and percentage of T&D losses decreased

from 38.12 *per cent* in 1998-99 to 36.29 *per cent* in 2003-04. Operational loss increased from Rs.549.77 crore in 1998-99 to Rs.655.48 crore in 2003-04.

As per Industrial Policy of Assam (1997), the State Government was required to take effective steps for completion of (i) Amguri Gas-based Power Project (360 MW) and (ii) Karbi-Langpi Hydro-electric Power Project (100 MW) within five years. It was, however, seen in audit that the Amguri Gas based Power Project was stopped in 1994 after incurring an expenditure of Rs.9.01 crore for purchase of land and had not been revived thereafter. The Karbi-Langpi Hydro-electric Power Project started way back in 1980 was yet to be completed.

As a step towards restructuring, ASEB has been unbundled into five companies incorporated under Companies Act, 1956 on 23 October 2003, but the actual operation of these companies are yet (30 September 2005) to start due to non-transfer/non-bifurcation of assets and liabilities. ASEB has been authorised (August 2004) to continue to function as the State Transmission Utility and as a Licensee up to 9 December 2004.

As per clause 4 (i) of the Assam Electricity Reform First Transfer (AERFT) Scheme, 2004, the functions, properties and all interests, rights and liabilities of the Board shall stand transferred to and vest in the State Government on and from the date of publication (10 December 2004) of the scheme in the official gazette.

The functions and undertakings forming part of the newly incorporated five companies shall stand transferred to and vest in the companies on and from the date of the transfer to be notified by the State Government which shall be issued/notified on or before 31 May 2005.

State Government, however, has not issued any notification/order in this regard so far (September 2005) and the ASEB continued to function as State Transmission Utility and Licensee.

Budgetary support to non-working/sick PSUs--status of non-working/sick PSUs

1.28 As per the provision of Section 3 (1) (O) of the Sick Industrial Companies (Special Provision) Act, 1985 (SICA), a sick industrial company means an industrial company which has at the end of any financial year accumulated losses equal to or exceeding its entire net worth.

As on 31 March 2005, nine^{***} companies (**Annexure 7**) were sick under SICA yardstick as per latest finalised accounts. These included five^{****} companies declared (September 1993 – April 2001) by the State Government also as relief undertakings under Assam State Industrial Relief Undertakings (Special Provision) Act, 1989 (IRUA).

Two^{*****} more companies though not sick by SICA yardstick were declared as relief undertakings by the State Government under the aforesaid Act.

Present operational status of these companies is enumerated in **Annexure 7**.

* Net worth represents paid-up capital plus free reserves less accumulated losses.

** Cash loss calculated after adding depreciation to the net loss .

*** Sl. Nos. 1, 2, 4, 5, 7, 8, 9, 10 and 11 of Annexure-9.

**** Sl. Nos. 1,2,4,5,7 of Annexure-9.

***** Sl. Nos. 3 and 6 of Annexure-9.

It would be observed that in order to revive six* out of 11 sick/relief undertakings by way of private/joint sector participation, the Government of Assam had signed MoUs with different parties during the period from July 1993 to August 2000. In two cases, parties subsequently backed out, and in one case MoU had to be cancelled before it could be implemented. In this connection, it was observed that although the companies had been non-operational, efforts for revival through private/joint sector participation were taken only after a lapse of 2¹/₂ to 10 years from the date of their becoming non-operational.

Scrutiny further revealed that the Government of Assam under the scheme of modernisation/revitalisation disbursed interest (17.75 per cent including penal interest of 2.75 per cent) bearing loan of Rs.9.15 crore to Assam Industrial Development Corporation Limited (AIDC) during the period from 1991 to March 2005 with specific instruction for onward transmission of the same to relief undertakings for making payment of salaries, wages and implementation of Voluntary Retirement Scheme (VRS). Since the companies so assisted had been incurring losses over the years, action of the Government in providing unproductive wages, instead of taking any concrete measure for revival/revitalisation of those units, was not justified. Moreover, by routing the funds through AIDC, the latter was unduly burdened with interest liability of Rs.11.38 crore (March 2005).

1.29 The following table indicates the status of placement of various Separate Audit Reports (SARs) on the accounts of Statutory corporations issued by the CAG in the State Legislature by the Government:

The State Government has not placed the Separate Audit Reports in the State Legislature even after lapse of eight years (Assam State Transport Corporation). Though under respective statutes, State Government is required to place the Separate Audit Reports in the Legislature, same has not been complied with.

Accordingly, the Statutory Auditors observed deficiencies in respect of internal audit system in case of nine companies, during the year 2004-05. Comments in respect of these companies were of the following nature:

Recommendation for closure of PSUs

1.41 Even after completion of 15 to 51 years of their existence, the turnover of 19 Government companies (working: 14, non-working: 5) and one Statutory* corporations have been less than Rupees five crore in each of the preceding five years of latest finalised accounts (**Annexure-8**). Similarly, three working Government companies and two Statutory corporations with turnover more than Rupees five crore have been incurring losses for five consecutive years as per their latest finalised accounts, leading to negative net worth (**Annexure-9**). In view of poor turnover and continuous losses, the Government may either improve performance of above 22 Government companies and two Statutory corporations or consider their closure. The Government may also like to consider the merger of Assam Financial Corporation (AFC) with the Assam Industrial Development Corporation (AIDC) since their functions are identical in nature. Moreover, turnover of AFC is less than Rupees five crore with losses for consecutive five years leading to negative net worth (**Annexure-8**).
