Accounts at a Glance 2013-14

GOVERNMENT OF MEGHALAYA

Preface

I am happy to present the fifteenth issue of our annual publication, the 'Accounts at a Glance' of the Government of Meghalaya. The purpose of this publication is to distil and make more accessible the voluminous information that is available in the annual Finance and Appropriation Accounts (totalling 868 pages) prepared by my office under the directions of the Comptroller and Auditor General of India and placed before the legislature in accordance with Article 149 of the Constitution of India.

The format of the Finance Accounts has undergone significant changes, with additional statements incorporated to bring out the financial position of the Government more clearly. In keeping with these changes, the Accounts at a Glance has been remodelled to make it more comprehensive. A combined reading of the Finance Accounts and Appropriation Accounts, the Report on State Finances and the Accounts at a Glance will help the stakeholders to comprehend the various facets of the finances of the Government of Meghalaya better.

We look forward to comments and suggestions for improving this publication.

CHAPTER I

OVERVIEW

1.1 Introduction

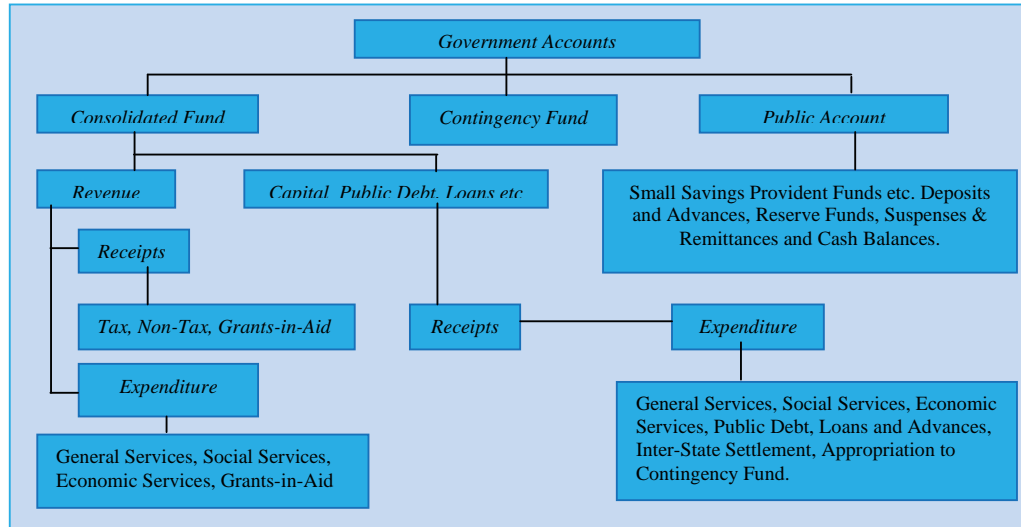

The Accountant General (Accounts and Entitlements), Meghalaya compiles the accounts of receipts and expenditure of the Government of Meghalaya . This compilation is based on the initial accounts rendered by the District Treasuries, Public Works and Forest Divisions and advices of the Reserve Bank of India. Following such compilation, the Accountant General (A&E) prepares annually, the Finance Accounts and the Appropriation Accounts, which are placed before the State Legislature after audit by the Accountant General (Audit) Meghalaya and certification by the Comptroller and Auditor General of India.

1.2 Structure of Accounts

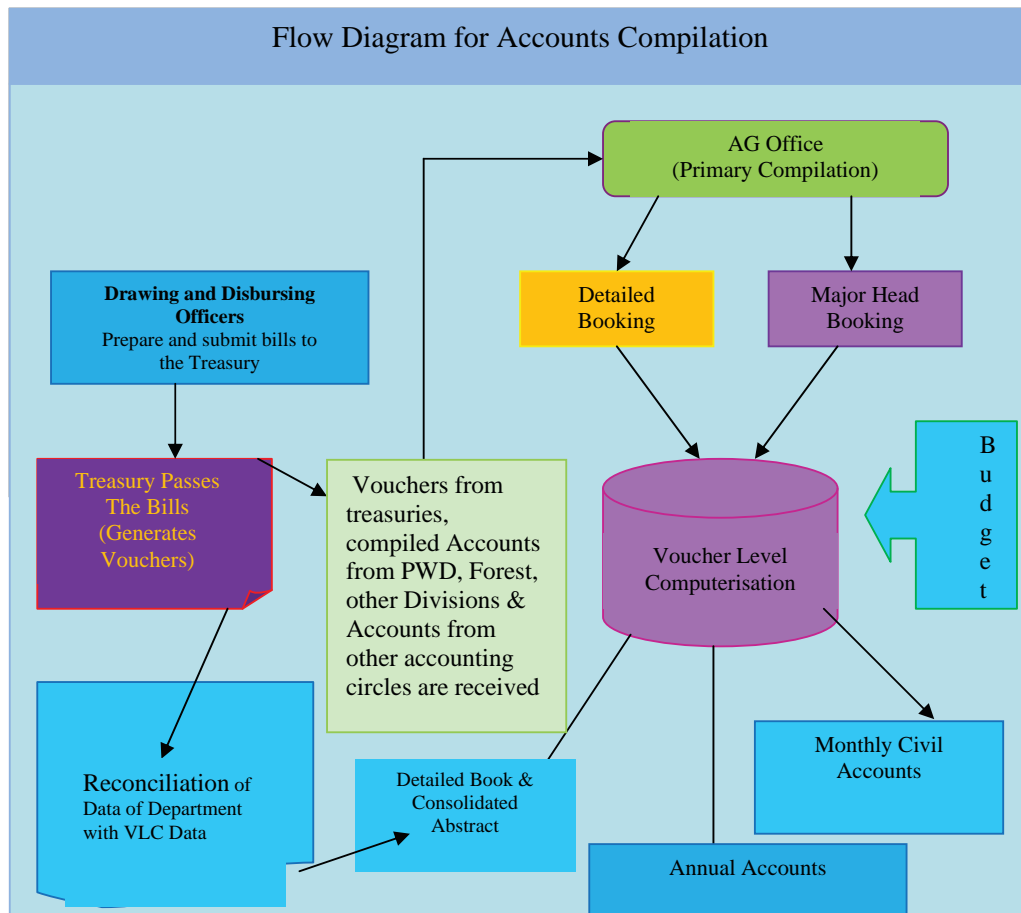

1.2.1 Government Accounts are kept in three parts:

Part 1 CONSOLIDATED FUND	<i>Receipts and Expenditure on Revenue and Capital Account, Public Debt and Loans and Advances.</i>
Part 2 CONTINGENCY FUND	<i>Intended to meet unforeseen expenditure not provided for in the budget. Expenditure from this Fund is recouped subsequently from the Consolidated Fund.</i>
Part 3 PUBLIC ACCOUNT	<i>Comprises of Debt, Deposits, Advances, Remittances and Suspense transactions. Debt and Deposits represent repayable liabilities of the Government. Advances are receivables of the Government. Remittances and Suspense transactions are adjusting entries that are to be cleared eventually by booking to the final heads of accounts.</i>

1.3 Finance Accounts and Appropriation Accounts

1.3.1 Finance Accounts

The Finance Accounts depicts the Receipts and Disbursements of the Government for the year, together with the financial results disclosed by the revenue and capital accounts, public debt and public account balances recorded in the accounts. The Finance Accounts have been issued in two volumes, in a new format since 2009-10, to make them more comprehensive and informative. Volume I of the Finance Accounts contains the certificate of the Comptroller and Auditor General of India, summarized statements of overall receipts and disbursements and 'Notes to accounts' containing summary of significant accounting policies, quality of accounts and other items. Volume II contains other summarized statements (Part -I), detailed statements (Part-II) and appendices (Part -III).

Receipts and disbursement of the Government of Meghalaya as depicted in the Finance Accounts 2013-14 are given below.

(In crore of rupees)			
Receipts (Total:66,69.39)	Revenue (Total: 62,66.73)	<i>Tax Revenue</i>	22,51.26
		<i>Non Tax Revenue</i>	5,98.15
		<i>Grants -in-Aid and Contribution</i>	34,17.32
	Capital (Total: 4,02.66)	<i>Recovery of Loans and Advances</i>	20.48
		<i>Borrowings and other Liabilities(*)</i>	3,82.18
Disbursements (Total: 66,69.39)	<i>Revenue</i>		55,51.59
	<i>Capital</i>		10,75.47
	<i>Loans and Advances</i>		42.33

(*)Borrowings and other liabilities: Net (Receipts-Disbursements) of Public Debt + net of Contingency Fund +Net (Receipts-Disbursements) of Public Account+ Net of Opening and Closing Cash Balance.

The Union Government transfers substantial funds directly to State Implementing Agencies/NGOs for implementation of various schemes and programmes. This year, the Government of India directly released ₹13,26.60 crore. Since these funds are not routed through the State Budget, they are not reflected in the accounts of the State Government. These transfers are now exhibited in Appendix VII of Volume-2 of the Finance Account.

1.3.2 Appropriation Accounts

The Appropriation Accounts supplement the Finance Accounts. They depict the expenditure of the State Government against amounts 'Charged' on the Consolidated Fund or 'Voted' by the State Legislature. There are 8 combined grants of both Charged and Voted, 3 Charged Appropriation and 47 Voted Grants.

The Appropriation Act 2013-14, had provided for gross expenditure of ₹1,00,51.73 crore and reduction of expenditure (recoveries) of ₹2.41 crore. Against this, the actual gross expenditure was ₹69,72.89 crore and reduction of expenditure was ₹4.79 crore, resulting in net savings of ₹30,78.84 crore (30.63 per cent) and an under-estimation of ₹ 2.38 crore (98.76 per cent) on reduction of expenditure. The gross expenditure includes ₹ 41.26 crore drawn on Abstract Contingent (AC) Bill, against which ₹31.54 crore is still outstanding at the end of the year for want of supporting Detailed Countersigned Contingent (DCC) bills.

During 2013-14, ₹2.35 crore was transferred to PD Account out of which ₹0.73 crore was disbursed leaving a balance of ₹4.84 crore at the end of the year. Normally, unspent balances under PD accounts are to be transferred back to the Government Accounts at the end of the financial year. However, details of such transfers, if any, and outstanding balances in individual PD accounts are available only with the treasuries, since they are responsible for maintaining such records.

1.4 Source and Application of Funds

1.4.1 Ways and Means Advances

The Reserve Bank of India (RBI) extends the facility of Ways and Means Advances (WMA) to enable State Government to maintain their liquidity. Overdraft (OD) facilities are provided when there is a shortfall in the agreed minimum cash balance (₹0.21 crore) maintained with the RBI. During 2013-14, the Government of Meghalaya resorted to WMA of ₹1,57.09 crore for two days.

1.4.2 Fund flow statement

The State had a Revenue Surplus of ₹7,15.14 crore and a Fiscal Deficit of ₹3,82.18 crore representing 3.40 per cent and 1.82 per cent of the Gross State Domestic Product (GSDP) (as per information received from *Central Statistical Organisation, New Delhi*). The Fiscal Deficit constituted 5.48 per cent of total expenditure (₹69,68.10) crore. This deficit was met from Public debt (₹3,33.80 crore), decrease in Public Account (-) ₹4,25.58 crore and net of opening and closing cash balance ₹4,73.97 crore. Around 41.62 per cent of the revenue receipts (₹62,66.73 crore) of the State Government was spent on committed expenditure like salaries (₹17,85.53 crore), interest payment (₹3,71.50 crore) and pension (₹4,50.87 crore).

1.6 What do the Deficits and Surpluses indicate?

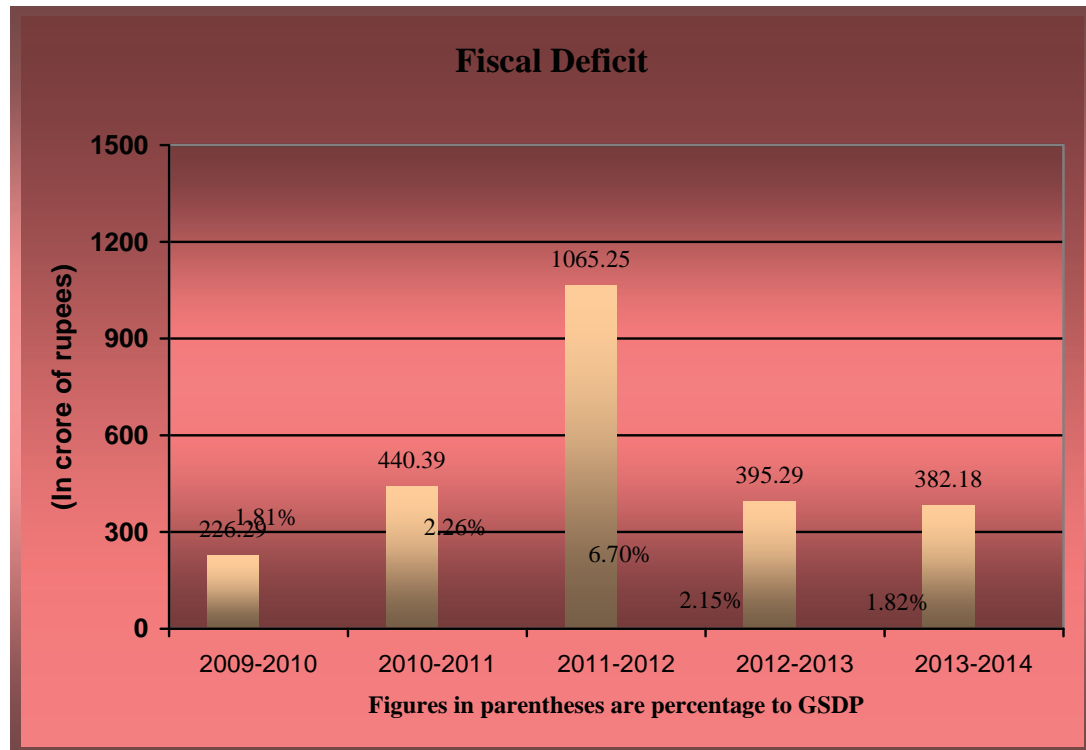

Deficit	<i>Refers to the gap between Revenue and Expenditure. The kind of deficit, how the deficit is financed, and application of funds are important indicators of prudence in Financial Management</i>
Revenue	<i>Refers to the gap between Revenue Receipts and Revenue Expenditure. Revenue Expenditure is required to maintain the existing establishment of Government and ideally, should be fully met from Revenue Receipts</i>
Fiscal Deficit/Surplus	<i>Refers to the gap between Total Receipts (excluding borrowings) and Total Expenditure. This gap, therefore, indicated the extent to which expenditure is financed by borrowings. Ideally, the Borrowings should be invested in capital projects.</i>

In accordance with the recommendation of XIII F.C, the MFRBM Act has been amended by the State Government in October 2011 which provides that the State has to maintain Revenue Surplus during the award period 2011-12 to 2014-15. During 2012-13, the State has returned to the status of Revenue Surplus as the Revenue Deficit which was ₹1,80.34 crore during 2011-12 turn to Revenue Surplus of a significant amount of ₹5,36.82 crore (2.15 percent of GSDP) during the year 2012-13 and ₹7,15.14 crore (3.40 percent of GSDP) during 2013-14.

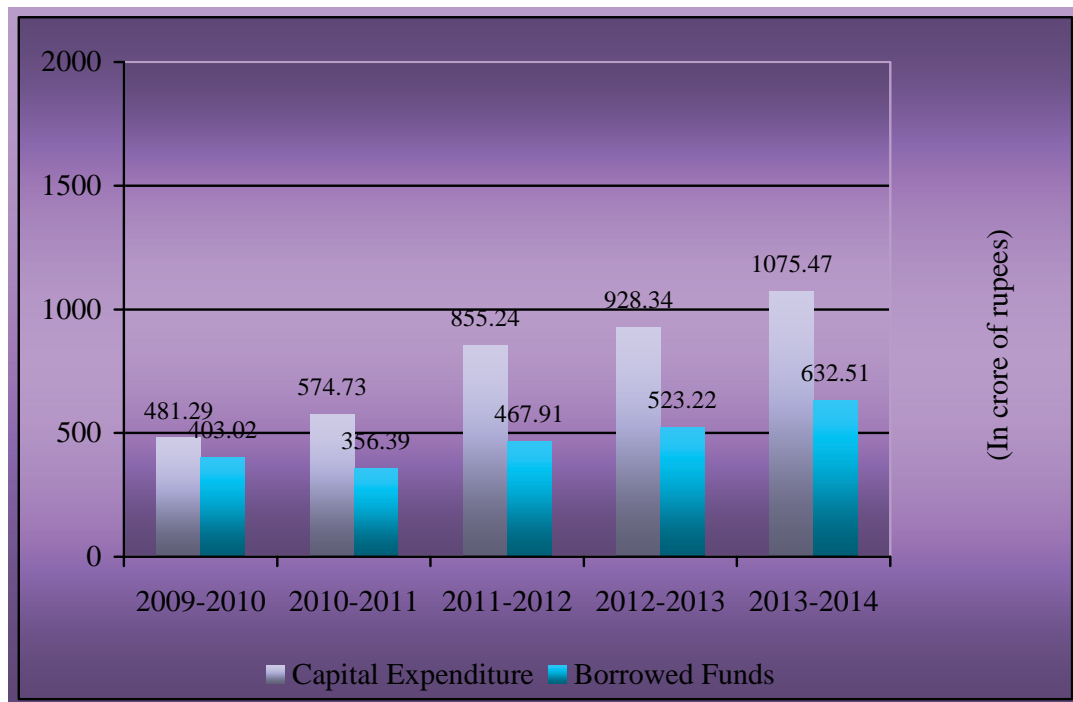

1.6.1 Trend of Revenue Deficit / Surplus

1.6.2 Trend of Fiscal Deficit

1.6.3 Proportion of borrowed funds spent on Capital Expenditure

It is desirable to fully utilize borrowed funds for the creation of capital assets, and to use revenue receipts for the repayment of principal and interest. The State Government, however, spent only 53 per cent (₹3,33.80 crore) of the borrowings of the current year (₹6,32.51 crore) on capital expenditure (₹10,75.47 crore). It would, therefore, appear that 47 per cent of the public debt (₹2,98.71 crore) was utilized to repay the principal and interest on public debt of previous years, to meet periodic shortfalls of revenues against expenditure in the current year, to maintain a positive cash balance at the end of the year and to invest in treasury bills.

CHAPTER III

EXPENDITURE

3.1 Introduction

Expenditure is classified as Revenue Expenditure and Capital Expenditure. Revenue expenditure is used to meet the day-to-day running of the organization. Capital expenditure is used to create permanent assets, or to enhance the utility of such assets, or to reduce permanent liabilities. Expenditure is further classified under Plan and Non-Plan.

General Services	<i>Includes Justice, Police, Jail, PWD, Pension etc.</i>
Social Services	<i>Includes Education, Health & Family Welfare, Water Supply, Welfare of SC-ST etc.</i>
Economic Services	<i>Includes Agriculture, Rural Development, Irrigation, Cooperation, Energy, Industries, Transport etc.</i>

3.2 Revenue Expenditure

Revenue Expenditure of ₹55,51.59 crore for 2013-14 fell short of budget estimates by ₹24,28.02 crore due to less disbursement of ₹23,45.43 crore under Plan Expenditure and ₹82.59 crore under Non-plan Expenditure.

The shortfall of expenditure against budget estimates under Revenue Section during the past five years given below:

(In crore of rupees)

	2009-10	2010-11	2011-12	2012-13	2013-14
Budget Estimates	35,77.30	47,02.60	55,25.24	67,56.16	79,79.61

Percentage of gap over B.E.	11	15	13	26	30

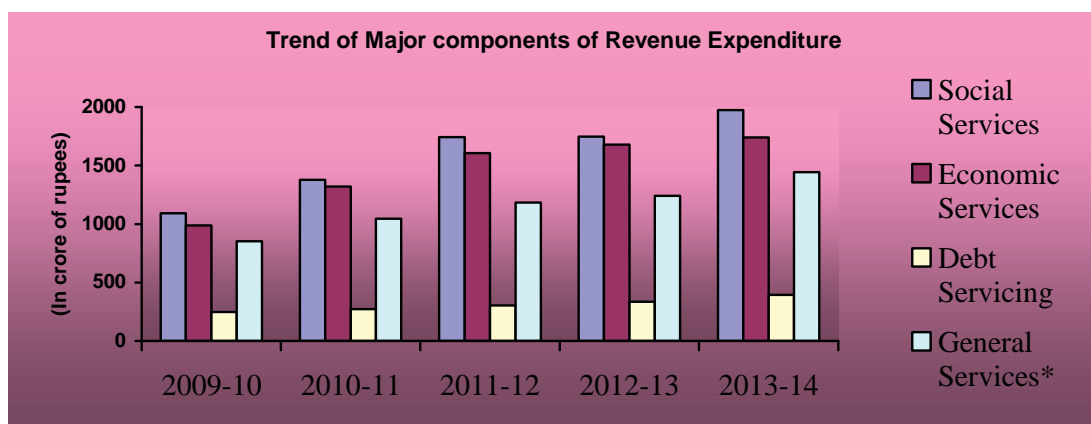

Compounding the shortfall (26.99 percent) of revenue receipts against budget estimates, the State Government was faced with the problem of generating revenue surplus in terms of the FRBM Act. Nearly 46.98 per cent of total revenue expenditure was committed to Non-Plan expenditure (salaries, pensions etc) inspite of Grants- in aid released by the Government of India. The plan expenditure has resultantly increased by 7.52 per cent from ₹17,19.41 crore in 2012-13 to ₹18,48.77 crore in 2013-14.

ASSETS AND LIABILITIES

6.1 Assets

The existing form of accounts do not easily depict valuation of Government assets like land, buildings etc, except in the year of acquisition / purchase. Similarly while the accounts present the impact of liabilities arising in the current year, they do not depict the overall impact of the liabilities to future generations except to the limited extent shown by the rate of interest and period of existing loans.

Total investment as share capital in non- financial public sector undertakings (PSUs) stood at ₹4,29.77 crore at the end of 2013-14. However, dividends received during the year were ₹ 13.21 crore on investment. During 2013-14, investments increased by ₹ 36.78 crore.

CHAPTER VII

OTHER ITEMS

7.1 Adverse Balance under Internal Debt

Borrowings of State Governments are governed by Article 293 of the Constitution of India. In addition to directly raising loans, State Governments also guarantee loans raised by Government Companies and Corporations from the market and financial institutions for implementation of various Plan schemes and programmes which are projected outside the State Budget. These loans are treated as receipts of the concerned Administrative Departments and do not appear in the books of the Government Accounts . However, the loan repayments appear in Government account, resulting in irreconcilable adverse balances and under statement of liabilities in Government accounts . Adverse balances appearing in the accounts of 2013-14 is due to misclassification and the State Government has been requested to furnish details of their loans to clear the minus balances.

7.2 Loans and Advances by the State Government

Total Loans and Advances made by the State Government at the end of 2013-14 was ₹5,90.57 crore. Of this, Loans and Advances to Government Corporation/ Companies, Non-Government Institutes and Local Bodies amounted to ₹5,68.93 crore. Recovery of Principal aggregating to ₹ 5,48.23 crore and interest amounting to ₹ 54.84 crore is in arrears at the end of 31 March 2014.

7.5 Reconciliation of accounts

Accuracy and reliability of accounts depend, among other things, on timely reconciliation of the figures available with the departments and the figures appearing in the accounts compiled by the Accountant General (Accounts and Entitlements). This exercise is to be conducted by respective Heads of Departments. The reconciliation of accounts of many departments is in arrears. In 2013-14 only 71.53 per cent (₹ 49,84.42 crore) of the total expenditure of ₹ 69,68.10 crore of the State Government was reconciled. Similarly, out of total receipts of ₹69,19.72 crore, 96.18 per cent (₹66,55.31 crore) was reconciled. The status of reconciliation of accounts in respect of the Chief Controlling Officer (CCO) of different department is given below:

Out of fifteen accounts rendering Treasuries/Sub treasuries in Meghalaya, there was minimum and maximum delays to the extent of 1 day to 26 days in submission of monthly accounts on the part of Williamnagar Treasury on nine occasion, and in case of Tura Treasury minimum & maximum delay was to the extent of 01 to 53 days on nine occasions.

7.7 Abstract contingent (AC) Bills and Detailed Contingent (DC) Bills

When money is required in advance or the Drawing and Disbursing officers (DDOs) are not able to calculate the exact amounts required, they are permitted to draw money without supporting documents through AC bills. Such AC bills are required to be settled within a maximum of 90 days through submission of DCC bills. The fact that to end of 31 March 2014, 49 DCC bills amounting to ₹ 37.36 crore was outstanding indicates that these instructions have not been followed. Details are given below:-
