This compilation containing the Finance Accounts of the Government of Mizoram for the year 2006-2007 presents the accounts of the receipts and outgoings of the Government for the year, together with the financial results disclosed by the revenue and capital accounts, the accounts of the public debt and the liabilities and assets as worked out from the balances recorded in the accounts. The Appropriation Accounts of the Government for the year for Grants and Charged Appropriations, presented separately, supplement this compilation.

These accounts have been prepared and examined under my direction in accordance with the requirements of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971. According to the best of my information, as a result of audit of these accounts, the accounts now presented read with the observations in this compilation, are correct statements of receipts and outgoings of the Government of Mizoram for the year 2006-2007. Points of interest arising out of the study of these accounts as well as test audit conducted during the year or earlier years are contained in my Report(s) being presented separately for the year 2006-2007, Government of Mizoram.

## INTRODUCTORY

1. The accounts of Government are kept in the following three parts:-

**Part I - Consolidated Fund**

**Part II - Contingency Fund**

**Part III - Public Account**

In Part I, mainly Consolidated Fund, there are two main divisions, viz.-

- (1) **Revenue** - consisting of sections for 'Receipt Heads (Revenue Account) and Expenditure Heads (Revenue Account);
- (2) **Capital, Public Debt, Loans, etc.** consisting of sections for 'Receipt Heads (Capital Account)' 'Expenditure Heads (Capital Account)' and 'Public Debt, Loans and Advances', etc.

The Revenue division deals with the proceeds of taxation and other receipts classed as Revenue and the expenditure met there from, the net result of which represents the revenue surplus or deficit for the year.

In Capital division, the section 'Receipt Head (Capital Account)' deals with receipts of capital nature which cannot be applied as a set off to capital expenditure.

The section 'Expenditure Heads (Capital Account)' deals with expenditure met usually from borrowed funds with the object of increasing concrete assets of a material and permanent character. It also includes receipts of a Capital nature intended to be applied as a set off against expenditure.

The section 'Public Debt, Loans and Advances, etc.', comprises loans raised and their repayments by Government such as 'Internal Debt' and 'Loans and Advances' made (and their recoveries) by Government. The section also includes certain special types of heads for transactions relating to 'Appropriation to the 'Contingency Fund' and 'Inter-State Settlement'.

In part II, namely Contingency Fund, of the accounts, the transactions connected with the Contingency Fund established under Article 267 of the Constitution of India-are recorded.

In part III, namely Public Account of the accounts, the transactions relating to 'Debt' (other than those included in Part I), 'Deposits', 'Advances', 'Remittances' and 'Suspense' are recorded. The transactions under 'Debt', 'Deposits', and 'Advances', in this part are those in respect of which Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid, together with the repayments of the former ('Debt' and 'Deposits') and the recoveries of the latter ('Advances'). The transactions relating to 'Remittances' and 'Suspense' in this part embrace all merely adjusting heads under which appear such transactions as remittances of cash between treasuries and currency chests, transfers between different accounting circles, etc. The initial debits or credits to these heads will be cleared eventually by corresponding receipts or payments either within the same circle of account or in another account circle.

## 2. Sections and Heads of Accounts

Within each of the sections in Part I mentioned above, the transactions are grouped into sectors such as 'Tax-Revenue', 'Non-Tax Revenue' and 'Grants-in-aid and contributions' for the receipt heads (revenue account), and 'General Services', 'Social Services', 'Economic Services' and 'Grants-in-aid and contributions' for expenditure heads. Specific functions or services (such as Education, Sports, Art and Culture, Health and Family Welfare, Water Supply, Sanitation, Housing and Urban Development, etc., in respect of Social Services) are grouped in Sectors for expenditure heads. In Part III (Public Account) also, the transactions are grouped into sectors, such as 'Small Savings', 'Provident Funds', 'Reserve Funds', etc. The sectors are sub-divided into major heads of account. In some cases, the Sectors are, in addition, sub-divided into sub-sectors before their division into major heads of account.

The major heads are divided into minor heads, with a number of subordinate heads, generally known as sub-heads. The sub-heads are further divided into detailed heads. Under each of these heads, the expenditure is shown distributed between charged and voted. Sometimes major heads are also divided into sub-major heads before their further division into minor heads. Apart from the Sectoral and sub-sectoral classification the Major Heads, Sub-Major Heads, Minor Heads, Sub-Heads, Detailed Heads and Object Heads together constitutes six-tier arrangement of the classification structure of the Government Accounts. The major, minor and sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, sub-heads and other units of allotments which are adopted by the Governments for Demands for Grants presented to the Parliament or Legislatures but in general a certain degree of correlation is maintained between the Demand for Grants and the Finance Accounts.

The major heads of accounts, falling within the sectors for expenditure heads, generally correspond to functions of Government, while the minor heads, subordinate to them, identify the programmes undertaken to achieve the objective of the function represented by the major head. The sub-head represents the scheme, the detailed head, the sub-scheme and object head of the object level of classification.

## 3 Coding Pattern

### Major Heads

From 1st April 1987 a four digit code has been allotted to the major heads, the first digit indicating whether the major head is a Receipt head or Revenue Expenditure head or Capital Expenditure head or a Loan head.

The first digit of Code for Revenue Receipt heads is either '0' or '1'. Adding 2 to the first digit of the code of the Revenue Receipt head will give the number allotted to corresponding Revenue Expenditure head; adding another 2, the Capital Expenditure head; and another 2, the Loan head of Account. For example, for Crop Husbandry code 0401 represents the Receipts head, 2401, the revenue expenditure head, 4401, Capital Outlay head and 6401, Loan head.

Such a pattern is, however, not relevant for those departments which are not operating Capital/Loan heads of accounts e.g. Department of Supply. In a few cases, where receipt and expenditure are not heavy, certain functions have been combined under a single major head, the functions themselves forming sub-major heads under that Major head.

### **Sub-Major Heads**

A two digit code has been allotted, the code starting from 01 under each major head. Where no sub-major head exists, it is allotted a Code `00'. The nomenclature `General' has been allotted Code `80' so that even after further sub-major heads are introduced the Code for `General' will continue to remain the last one.

### **Minor Heads**

These have been allotted a three digit codes, the codes starting from `001' under each sub-major/major head (where there is no sub-major head). Codes from `001' to `100' and few codes `750' to `900' have been reserved for certain standard minor heads. The coding pattern for minor heads has been designed in such a way that in respect of certain minor heads having a common nomenclature under many major/sub-major heads, the same three digit code is adopted as far as possible.

Under this scheme of codification, the receipt major heads (revenue account) are assigned the block numbers from 0020 to 1606, expenditure major heads (revenue account) from 2011 to 3606, expenditure major heads (capital account) from 4046 to 5475, major heads under `Public Debt' from 6001 to 6004 and those under `Loans and Advances', `Inter-State Settlement' and `Transfer to Contingency Fund' from 6075 to 7999. The code number 4000 has been assigned for Capital receipt major head. The only major head `Contingency Fund' in part II `Contingency Fund' has been assigned the code number 8000. The major heads in the Public Account are assigned the code numbers from 8001 to 8999.

4. The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year April to March as distinguished from the amounts due to or from Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government commercial undertakings run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in proper commercial form and are subject to test check by the Indian Audit and Accounts Department.

5. The figures of actuals shown in these accounts are net, after taking into account the recoveries, although the Demands for Grants presented to Legislature and the Appropriation Accounts are for gross expenditure and exclude credits and recoveries which are otherwise taken as reduction of expenditure.

## EXPLANATORY NOTES

(1) The significance of the head "Government Account" is explained in note 3 below. The other headings in the summary take into account the balances under all account heads in the Government books where Government has a liability to repay moneys received or has a claim to recover the amount paid and also heads of account opened in the books for adjustment of remittance transactions. It must be understood that these balances can not be regarded as a complete record of the financial position of the Government as these do not take into account all the physical assets of the State, such as lands, buildings, communications, etc., nor any accrued dues or outstanding liabilities which are not brought to account under the cash basis of accounting followed by Government.

(2) A summary of receipts, disbursements and balances under heads of account relating to Debt, Contingency Fund and Public Account is given in Statement No. 16.

(3) Government Account -Under the system of book keeping followed in Government accounts, the amount booked under revenue, capital and other transactions of Government, the balances which are not carried forward from the year to year in the accounts are closed to a single head called "Government Account". The balance under this head represents the cumulative result of all such transactions so that after adding thereto the balances under Public Debt, Loans and Advances, Small Savings, Provident Fund etc. Reserve Funds, Deposits and Advances, Suspense and Miscellaneous (other than Miscellaneous Government Account), Remittances and Contingency Fund, the closing cash balance at the end of the year may be worked out and proved.
