Certificate of the Comptroller and Auditor General of India

This compilation containing the Finance Accounts of the Government of Orissa, for the year 1964-65 presents the accounts of the receipts and outgoings of the Government for the year, together with the financial results disclosed by the revenue and capital accounts, the accounts of the public debt and the liabilities and assets as worked out from the balances recorded in the accounts. It supplements the accounts separately presented in the form of Appropriation Accounts for Grants and Charged Appropriations.

These Accounts which as Comptroller and Auditor General, I am required to prepare, have been prepared and examined under my direction in accordance with the requirements of Article 149 of the Constitution of India read with paragraph 11(4) of the Government of India (Audit and Accounts) Order, 1936, as adapted under the India (Provisional Constitution) Order, 1947. It is to be noted that the Comptroller and Auditor General's responsibility for the audit of the accounts of the Government does not at present extend in full to the audit of the accounts of revenue, but I am satisfied, on the best information available that the accounts of revenue included in the Finance Accounts herewith presented give a correct statement of the sums brought to account. Subject to these observations and also to those contained in this Compilation as well as in the Audit Report, 1966, the accounts now presented are correct statements of the receipts and outgoings of the Government of Orissa for the year 1964-65.

NEW DELHI,

The

Comptroller and Auditor General of India

INTRODUCTORY

The Accounts of the Government of Orissa are kept in three parts —

- Part I—Consolidated Fund
- Part II—Contingency Fund
- Part III—Public Account

In Part I, there are three main divisions, namely :—

- (1) Revenue;
- (2) Capital; and
- (3) Debt (comprising Public Debt, Loans and Advances and Inter-State Settlement).

The first division deals with the proceeds of taxation and other receipts classed as revenue and the expenditure therefrom, the net result of which represents the revenue surplus or deficit for the year.

The second division deals with expenditure met usually from borrowed funds with the object either of increasing concrete assets of a material character or of reducing recurring liabilities, such as those for future pensions, by payment of the capitalised value. It also includes receipts of a capital nature intended to be applied as set off against capital expenditure.

The third division comprises loans raised by Government—loans of a purely temporary nature classed as “Floating Debt” (such as, Treasury Bills and Ways and Means Advances), as well as other loans classed as “Permanent Debt”—and “Loans and Advances made by Government” together with repayments of the former and recoveries of the latter. It also includes Inter-State Settlements.

In Part II of the accounts are recorded the transactions connected with Contingency Fund set up by the Government of Orissa, under Article 267(2) of the Constitution of India.

In Part III of the accounts, there are two main divisions, namely :—

- (1) Debt (Other than those included in Part I) and Deposits; and
- (2) Remittances.

The first division comprises receipts and payments, other than those falling under Debt heads pertaining to Part I, in respect of which Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid together with repayments of the former and recoveries of the latter.

The second division embraces all merely adjusting heads under which appear remittances of cash between treasuries and transfers between different accounting circles. The initial debits or credits to the heads in this division are adjusted eventually by corresponding receipts or payments either within the same circle of account or in another account circle.

2. *Sections and Heads of Accounts*—Within each of the divisions mentioned above, the transactions are grouped into sections which are further sub-divided into Major Heads of Accounts. The sections are distinguished by letters of alphabet, a single letter denoting the revenue portion and a double letter denoting the capital portion of a particular category of transactions, e.g., Section A denotes the revenue (and expenditure) grouped as "Collection of Taxes, Duties and other Principal Heads of Revenue" and Section AA denotes the capital expenditure on works connected therewith.

The Major Heads in the Revenue and Capital divisions are numbered serially, Roman numerals being employed on the receipt side and Arabic on the disbursement side. No numbering is adopted for the Contingency Fund and for Debt, Deposit and Remittance heads, though these are also arranged in sections.

The Major Heads are sub-divided into Minor Heads and the Minor Heads into Sub-heads and Detailed heads. Under each of these heads, the expenditure is shown distributed between Charged and Voted. The Major, Minor and Sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, Sub-heads and other units of allotments which are adopted by the Finance Department for Demands for Grants but in general, a certain degree of correlation is maintained between the Demands for Grants and the Finance Accounts.

3. *System of Accounts*—The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year ending 31st March, 1965 as distinguished from the amounts due to or by Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and for presenting the true state of affairs of Government Commercial Undertakings run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in commercial form and are subject to a test-check by the Indian Audit and Accounts Department.

The figures of actuals shown in these accounts are net, after taking into account the recoveries, although the Demands presented to the State Legislature and the Appropriation Accounts are for gross expenditure and exclude all credits and recoveries which are otherwise taken as reduction of expenditure

(ii) FINANCIAL RESULTS OF ELECTRICITY SCHEMES

After the formation of the Orissa State Electricity Board with effect from 1st March, 1961, all the completed transmission and distribution systems have been transferred to the control of the Board. The Board has also been given the responsibility of new connections and construction of transmission lines throughout the State. The final allocation of assets and liabilities pertaining to the schemes concerned between the Board and the Government has not been made so far. Capital expenditure to the extent of Rs. 16.72 crores has, however, been transferred to the Orissa State Electricity Board provisionally during 1964-65 and has been treated as a loan to the Board.

Government undertook the execution of Talcher Thermal Scheme and Talcher Utilisation Scheme in 1960-61 and 1961-62 respectively. Talcher Thermal Scheme is still in the preliminary stage of construction and the interest charges on the scheme are being met from revenue.

Besides, Government had undertaken the Machkund Hydro-electric (Joint) Scheme in 1944 jointly with the Government of Andhra Pradesh with equal rights. Subsequently, it was decided that Government of Orissa should transfer 20 per cent of its rights to the Government of Andhra Pradesh for a period of 99 years in lieu of which the latter should pay compensation to the former according to the terms and conditions agreed upon. During the construction period, Orissa and Andhra Pradesh are to bear 30 per cent and 70 per cent respectively of the capital expenditure, each bearing interest charges on the capital provided by it during the year.

The capital invested by the Government of Orissa to the end of 1958-59 was Rs. 4,62.64 lakhs. Debits raised by the Government of Andhra Pradesh for Rs. 65.53 lakhs representing Orissa's share (30 per cent) of the capital expenditure during 1959-60 to 1964-65 have not yet been accepted by the Government of Orissa as it is held by the Government of Orissa that the expenditure on the project exceeded the estimated amount, the conditions whereof are not known to them, and that the decision of the Government of Andhra Pradesh to raise the height of Jalaput Dam was taken unilaterally, and therefore, the Government of Orissa could not assume responsibility for financing any additional expenditure thereof.

The gross receipts on account of sale of power and miscellaneous revenue were Rs. 50.73 lakhs during 1964-65 (exclusive of interest on capital relating to the assets transferred to the Orissa Electricity Board treated as loan to the Board and creditable to Government) as against working expenses of Rs. 3.84 lakhs (exclusive of interest charges on capital provided by Government). The gross receipts from the schemes retained by Government and its working expenses exclusive of interest on capital creditable to Government to end of 1964-65 amounted to Rs. 2,79.63 lakhs and Rs. 44.68 lakhs respectively; the progressive direct capital outlay on these schemes up to the end of 1964-65 amounted to Rs. 15.97 crores.

Explanatory Notes

The significance of the head "Government Account" is explained in Note 5 below. The other headings in this summary take into account the balances under all account heads in Government books in regard to which Government has a liability to repay the moneys received or has a claim to recover the amount paid and also heads of account opened in the books for adjustment of remittance transactions. It must be understood that these balances cannot be regarded as a complete record of the financial position of the Government of Orissa as these do not take into account all the physical assets of the State, such as Lands, Buildings, Communications, etc., nor any accrued dues or outstanding liabilities which are not brought to account under the cash basis of accounting followed by Government.

(2) Subject to the remarks in Note 3 below, the balances, whether in cash or investments, under each head have been duly verified and found to agree with those shown in the separate registers or other records maintained in the Accounts Office for the purpose in accordance with the prescribed rules. They have been accepted as correct by the responsible officers concerned where necessary.

(3) A summary of receipts, disbursements and balances under Debt, Deposit, Remittance and Contingency Fund is given in Statement No. 16 at pages 164 to 183

In a number of cases (indicated in Statement No. 16) there are unreconciled differences in the closing balance as reported in Statement No. 16 and that shown in the separate registers or other records maintained in the Accounts Office/Departmental Offices for the purpose. Steps are being taken to settle the discrepancies as soon as possible. In many cases, the full details and documents required for the purpose, are awaited from the Departmental/Treasury Officers; some cases are detailed in Appendix, Pages 218 to 222 of this compilation.

The balances are communicated to the departmental officers concerned every year for acceptance thereof. In a large number of cases such acceptances have not been received.

The following are instances where the verification and acceptances of balances involving large amounts have been delayed. In many cases the delay extends over several years:—

4. *Adjustments consequent on the Integration of State from the 1st August, 1949.*—Consequent on the integration of 24 Indian States in the State of Orissa under the State Merger (Governor's Provinces) Order, 1949, from the 1st August, 1949, the assets and liabilities relating to the integrated States on the date of their integration were taken over by Government of Orissa. On determination of the value of these assets and liabilities, the balances under Debt, Deposit, etc., heads are to be corrected. The process of determination of the liabilities has been completed. In regard to assets, the position at the end of 1964-65 was that the exact value of the assets shown for Rs. 7,706 was to be determined. The matter is under consideration of Government.

5. *Government Account*—Under the system of book-keeping followed in the Indian Government Accounts, the amounts booked under revenue, capital and other transactions of Government, in respect of which the balances are not carried forward from year to year, are closed to a single head called, "Government Account". The balance under this head represents the cumulative result of all such transactions so that after adding thereto the balances under Debt, Deposit, Remittance heads and Contingency Fund, the closing cash balance at the end of the year may be worked out and proved. The Government Account for 1964-65 given below will show how the net amount at the end of the year has been arrived at—

(A) Differs from the closing balance as shown in the Finance Accounts for 1963-64, by Rs. 16, 67, 88, 788 on account of *pro forma* corrections as indicated below :—

(a) Added *pro forma* by Rs. 4,47,500. It represents the loans advanced by Government of India to Engineering Schools which were subsequently taken over by the Government of Orissa; the loans are treated as loans advanced to the State Government by Government of India. The opening balance under "0—Public Debt—Loans from Central Government" is also increased to this extent.

(b) Rs. 16,72,36,288 deducted *pro forma* consequent on the transfer of capital expenditure incurred by Government on the Electricity Schemes upto 1961-62 to the Orissa State Electricity Board and treated as loan.
