CERTIFICATE OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA

This compilation containing the Finance Accounts of the Government of Bihar for the year 2001-2002 presents the accounts of the receipts and outgoings of the Government for the year, together with the financial results disclosed by the revenue and capital accounts, the accounts of the public debt and the liabilities and assets as worked out from the balances recorded in the accounts. The Appropriation Accounts of the Government for this year for Grants and Charged Appropriations, presented separately, supplement this compilation.

These accounts have been prepared and examined under my direction in accordance with the requirements of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 read with the provisions of the Bihar Re-organisation Act, 2000. According to the best of my information, as a result of audit of these accounts, the accounts now presented read with the observations in this compilation, are correct statements of receipts and outgoings of the Government of the Bihar for the year 2001-2002. Points of interest arising out of the study of these accounts as well as test audit conducted during the year or earlier years are contained in my Report(s) being presented separately for the year 2001-2002, Government of Bihar.

NEW DELHI,
The 16 SEP 2003

(Vijayendra N. Kaul)
Comptroller and Auditor General of India

INTRODUCTORY

1. The accounts of Government are kept in three parts
   Part I Consolidated Fund
   Part II-Contingency Fund
   Part III-Public Account.

   In Part I namely Consolidated Fund, there are two main divisions viz.-

   (1) Revenue consisting of sections 'Receipt Heads (Revenue Account)' and 'Expenditure Heads (Revenue Account)'.

   (2) Capital, Public Debt, Loans etc. consisting of sections for 'Receipt Heads (Capital Account)', 'Expenditure Heads (Capital Account)' and 'Public Debt, Loans and Advances, etc'.

The Revenue division deals with the accounts of taxation and other receipt classed as revenue and the expenditure met therefrom, the result of which represents the revenue surplus or deficit for the year.

In Capital division, the section 'Receipt Heads (Capital Account)' deals with receipts of capital nature which cannot be applied as a source of capital expenditure.

The section 'Expenditure Heads (Capital Account)' deals with expenditure met usually from borrowed funds with the object of increasing concrete assets of a material and permanent character. It also includes receipts of a capital nature intended to be applied as set off against expenditure.

The section 'Public Debt, Loans and Advances, etc.' comprises loans raised and their repayments by Government such as 'Internal Debt' and 'Loans and advances' made (and their repayments) by Government. This section also includes certain special types of heads for transactions relating to Appropriation to the 'Contingency Fund' and 'Inter-State Settlement'.

In Part II, namely Contingency Fund, all the transactions connected with the Contingency Fund established under Article 267 of the Constitution of India are recorded.

In Part III, namely Public Account, all the accounts for transactions relating to 'Debt (other than those included in Part I), 'Deposits', 'Advances', 'Remittances' and 'Suspense' are recorded. The transactions under 'Debt', 'Deposits' and 'Advances' in this part are those in respect of which Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid, together with the repayments of the former ('Debt' and 'Deposits') and the recoveries of the latter ('Advances'). The transactions relating to 'Remittances' and 'Suspense' i.e. those under which appear such transactions as remittances of cash between treasuries and currency chests, transfers between different accounting circles, etc. The bulk of debits or credits to these heads will be cleared eventually by corresponding receipts or payments within the same circle of account or in another account circle.

2. Sectors and Heads of Accounts

Within each of the sections in Part I mentioned above the transactions are grouped into sectors such as 'Tax Revenue', 'Non-Tax Revenue', and 'Grants in aid and contributions' for the receipts heads (revenue account) and 'General Services', 'Social Services', 'Economic Services', and 'Grant-in-aid and contribution' for expenditure heads. Specific function or services (such as Education, Sports, Art and Culture, Health and Family Welfare, Water Supply, Sanitation, Housing and Urban Development etc.) in respect of Social Services and grouped as sectors for expenditure heads. In Part II (Public Account) also the transactions are grouped into sectors, such as 'Small Savings, Provident Funds, Reserve Funds', etc. The sectors are sub-divided into major heads of account. In some cases, the sectors, are in addition, sub-headed at the sub sectors below their division into major heads of account.

The major heads are divided into sub-major heads in some cases and minor heads, with a number of subordinate heads, generally known as sub-heads. The sub-heads are further divided into detailed heads. Under each of these heads, the expenditure is shown distributed between charged and voted. Sometimes major heads are also divided into sub-major heads before their further division into minor heads. Apart from the Sectoral and sub-sectoral classification the Major Heads, Sub-Major Heads, Minor Heads, Sub-Heads, Detailed Heads and Object Heads together constitute a six-tier arrangement of the classification structure of the Government Accounts. The major, minor and sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, sub-heads and other units of allotment which are adopted by the Government for Demands for Grants presented to the Parliament or Legislature but in general a certain degree of correlation is maintained between the Demands for Grants and the Finance Accounts.

The major heads of accounts, falling within the sectors for expenditure heads, generally correspond to functions of Government, while the minor heads, subordinate to them, identify the programmes undertaken to achieve the objectives of the function represented by the major head. The sub-head represents the scheme, the detailed head the sub-scheme and object head the object level of classification.

3. Coding Pattern

Major Heads

From Ist April 1987 a four digit Code has been allotted to the major heads, the first digit indicating whether the major head is a Receipt head or Revenue Expenditure head or Capital Expenditure head or a Loan head.

The first digit of code for Revenue Receipt heads is either '0' or '1' Adding 2 to the first digit code of the Revenue Receipts head will give the number allotted to corresponding Revenue Expenditure head; adding another 2, the Capital Expenditure head; and another 2, the loan head of Account. For example, for Crop Husbandry code 0401 represents the Receipt head, 2401, the Revenue expenditure head 4401, Capital Outlay head and 6401, Loan head.

Such a pattern is, however, not relevant for those departments which are not operating Capital/Loan heads of accounts e.g. Department of Supply. In a few cases, where receipt and expenditure are not heavy, certain functions have been combined under a single major head, the functions themselves forming sub-major heads under that Major Head.

Sub-Major Heads

A two digit code has been allotted, the code starting from 01 under each major head. Where no sub-major head exists it is allottd a Code '00'. The nomenclature 'General'has been alloted Code '80' so that even after further sub-major heads are introduced; the Code for 'General' will continue to remain the last one.

Minor Heads

These have been allotted a three digit code, the codes starting from '001' under each sub-major/major head (where there is no sub-major head). Code from '001'to '100' and few codes '750' to '900' have been reserved for certain standard minor heads. The coding pattern for minor heads has been designed in such a way that in respect of certain minor heads having a common nomenclature under many major/sub-major heads, the same three digit code is adopted as far as possible.

Under this scheme of codification, the receipt major heads (revenue account) are assigned the block numbers from 0020 to 1606, expenditure major heads (revenue account) from 2011 to 3606, expenditure major heads (capital account) from 4046 to 5475, major heads under 'Public Debt' from 6001 to 6004 and those under 'Loans and Advances', 'Inter-State Settlement' and 'Transfer to Contingency Fund' from 6075 to 7999. The code number 4000 has been assigned for capital receipt major head. The only major head 'Contingency Fund' in 'Part II-Contingency Fund' has been assigned the code number 8000. The major heads in the Public Account are assigned the code number from 8001 to 8999.

4. In terms of the Bihar Reogranisation Act, 2000.(No. 30 of 2000), the State of Bihar has been reorganised and a new State known as State of Jharkhand has been formed with effect from 15th November 2000(i.e. appointed day). The apportionment of assets and liabilities of the composite State of Bihar immediately prior to the appointed day as also other financial adjustments are to be undertaken in each case with reference to the provisions of the Bihar Reorganisation Act, 2000 (No. 30 of 2000). Accordingly, the Finance Accounts of the composite State showing inter alia the progressive expenditures and the closing balances upto the date immediately preceding the appointed day have been prepared in a separate volume and supplement this compilation. Wherever such progressive expenditures and the closing balances have been allocated and transfers made, such amounts have been shown in these accounts. In other cases, the allocations and transfers and also readjustments will be made in the Finance Accounts of the subsequent years on receipt of further details/information from concerned institutions/Governments. Explanatory notes have been appropriately incorporated in these accounts to indicate the allocations and transfers of progressive expenditures and the closing balances to the extent possible. Care has been taken to reconcile the progressive expenditures and the closing balances with the authorities concerned.

5. The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the period from April 2001 to the 31st March 2002. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government commercial undertakings run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in proper commercial form and are subjected to test-check by the Indian Audit and Accounts Department.

6. The figures of actuals shown in these accounts are net, after taking into account the recoveries, although the Demands for Grants presented to the Legislature and the Appropriation Accounts are for gross expenditure and exclude credits and recoveries which are otherwise taken as reduction of expenditure.

IRRIGATION WORKS

STATEMENT NO. 3-concld.

EXPLANATORY NOTES

1. Productive and unproductive works: Works in the Irrigation Department are classified as productive or unproductive according as the net revenue (gross revenue less working expenses), derived from each on the expiry of ten years from the date of closure of the construction estimates covers or does not cover the prescribed annual interest charges on capital invested.

   The productivity test involves certain adjustments which do not appear in Government accounts. If a work classed as productive fails to yeild the prescribed return for three successive years it is transferred to unproductive class. Similarly, if a work classed as unproductive succeeds in yeilding for three successive years the prescribed return, it is transferred to the productive class.

   There was no productive work in the State at the end of 2001-02.

2. The revenue realised from the four schemes during 2001-02 (shown in this statement) was Rs. 1.41 crore (37.5 per cent of the capital outlay of Rs. 3.76 crore).

3. The revenue receipts of none of these schemes were sufficient to cover even the direct working expenses. After meeting the working expenses and interest charges the four schemes suffered a net loss of Rs. 1.51 crore (40.16 per cent of the capital outlay). The net loss during 1999-2000 and 2000-2001 was Rs. 2.36 crore and 3.95 crore respectively.

EXPLANATORY NOTES

1. The significance of the head "Government Account" is explained in Note 3 below. The other headings in the summary take into account the balances under all account heads in Government books where Government has a liability to repay the moneys received or has a claim to recover the amounts paid and also heads of account opened in the books for adjustment of remittance transactions. It must be understood that these balances cannot be regarded as a complete record of the financial position of Government as it does not take into account all the physical assets of the State, such as lands, buildings, communications, etc. nor any accrued dues or outstanding liabilities which are not brought to account under the cash basis of accounting followed by Government.

2. A summary of receipts, disbursements and balances under the heads of account relating to Debt, Contingency Fund and Public Account is given in Statement no. 16.

In a number of cases, there are unreconciled differences in the closing balances as reported in Statement no. 16 and those shown in the separate registers or other records maintained in the Accounts Office/Departmental Offices for the purpose. Steps are being taken to settle the discrepancies as soon as possible. In many cases, full details and documents required for the purpose are awaited from the Departmental/Treasury Officers. Some illustrative cases are given in Appendix II. The balances are communicated to the officers every year for verification and acceptance thereof. In a large number of cases such acceptances have not been received. Some instances where the verification and acceptances of large balance have been delayed are given in Appendix III.

3. Government Account-Under the system of book keeping followed in Government Accounts, the amounts booked under revenue and capital heads and other transactions of Government, the balances of which are not carried forward from year to year in the accounts are closed to a single head called "Government Account". The balance under this head represents the cumulative result of all such transactions so that after adding thereto the balances under Public Debt, Loans and Advances, Small Savings, Provident Funds, etc., Reserve Funds, Deposits and Advances, Suspense and Miscellaneous (Other than Miscellaneous Government Account), Remittances and Contingency Fund, the closing balance at the end of the year may be worked out and proved. The Government Account for 2001–2002 given below will show how the net amount at the end of the year has been arrived at :-
