5. Suspense Transaction

Total

(1) Suspense: Against the provision under the grant Rs. 4,23.52 lakhs were utilised towards expenditure booked under the head "Suspense" which is not a final head of account. Transactions booked under this head, not adjusted under final head of accounts, are carried forward from year to year. The transactions include both debits and credits. The minor head suspense has four divisions, of which both debits and credits. The minor head suspense has four divisions, of which three are being operated upon in the State viz., (i) Stock (ii) Purchase and (iii) Miscellaneous Work Advances.

The nature and the accounting of the transactions under the three subdivisions are explained below:-

- (i) **Stock**: This head is debited with the value of materials received for Stock purposes (and not for any particular work). Value of the materials issued for use on works or otherwise disposed of are taken as reduction. The balance represents the value of materials held in stock.
- (ii) **Purchase**: Upto March 1997 value of materials received for specific work or for general purpose, but not paid for within the month, was adjusted by debit to the accounts of the works or stock with corresponding credit to "purchase". The value of such materials when paid for or adjusted by transfer was debited to the Suspense head "Purchase" clearing the credit. With the introduction of revised procedure, separate sub-heads within the accounts of the work and stock, are now operated for recording the value of materials pending payment. The Suspense head "Purchase" thus shows old balance representing value of materials received but still not paid for or adjusted.
- (iii) Miscellaneous Works Advance: This Sub-division comprises debits for the value of stores sold on credit, expenditure incurred on deposit works in excess of deposits received, losses of cash or stores not written off and sums recoverable from Government servants, etc. The Debit balance thus represents recoverable amount.
